this Senate action". _____ ASUW President

Senate Bill #1246 Justification

Discontinuation of the Parks and Recreation program as a separate department in the A & S College will harm the job prospects of all past and future graduates of the program. A Geography Degree does not stand up as well as a parks and Recreation Degree when competing for a job in the Parks and Recreation field. A Geography Degree is what all future Parks and Recreation majors would graduate with.

A discontinued program always looks bad for a person who graduated from that program, this is what all present and past UW graduates face from this reorganization.
