

SENATE RESOLUTION #1301

Title: Education of Advisors

Codification Number:

Introduced: March 22, 1979

Thesis: Training of advisors

Sponsors: Marty Qualls, Dave Fieber

1. Be it resolved by the Student Senate of the Associated Students of the
2. University of Wyoming that a recommendation be made to the faculty senate
3. that an annual seminar be conducted for attendance of the University of
4. Wyoming faculty who have been assigned as advisors for the year.
5. The purpose of the seminar would be to instruct new advisors of the basic
6. concepts and/or specialized topics on the correct methods and purposes
7. of student advisement. This seminar would also stress the necessity
8. of helpful and correct ways of advising to faculty who have been advisors
9. in the past. Advisors should be made aware of various information
10. pertaining to academics, such as requirements of the University and more
11. specifically, individual college course requirements and any substitutes
12. that may be taken in their place, so that the advisor may be in a capacity
13. to give knowlegsble advisement on academic matters. Advisors should
14. also be able to interpret ACT scores so that students asking for
15. information contained in them can be assured that their advisor can
16. help them in choosing a major which is appropriate to their interests
17. and capabilities. Advisors should also be made aware of the non-academic

- 18. aspect of the University so that they can inform students of their
- 19. existence (i.e.) student services, health services, counseling and
- 20. testing, etc.
