The Statute of Liberty of our Land proclaims with renewed vigor, "Give me your tired, your poor, your huddled masses yearning to breathe free, the
tempest-tost to me, I lift my lamp beside the golden door." The
United States Refugee Act of 1980 (8 USC 1101 (a)(42)) provides refugee
status for any refugee "who is unable to return to his or her home to which he or she
was lawfully admitted to the United States under section 254S of the
United States Constitution protects all such treaties to be "the
supreme law of the Land (Article VI, section 2)." The
United States has proclaimed refugees from the atrocious
nations to be political refugees in danger of persecution and death.
Virtually every nation on Earth has recognized this proclamation, the
United States being the only notable exception. The
United States of Central American refugees in the U.S. face the
immediate threat of illegal deportation by the U.S. to their unsafe
homelands.

Thousands of non-combattant civilians, including peasants, Indians,
trades-unionsists, teachers, religious and political leaders, journalists and
members of the legal community have been systematically sized and
frequently tortured and murdered by both unformed and plain-clad
members of the security forces under government control....".

During the last 30 years, 100,000 Guatemalans have been killed and over
30,000 have disappeared.

Thousands of non-combattant civilians, including peasants, Indians,
trades-unionsists, teachers, religious and political leaders, journalists and
members of the legal community have been systematically sized and
frequently tortured and murdered by both unformed and plain-clad
members of the security forces under government control....".

Indiscriminate series bombings and napalm being used on civilian
populations.

Progressively since then, with tracer bullets, napalm phosphorous,
indiscriminate aerial bombardments and napalm based on civilian
populations.

30,000 people were killed in one year (1979) in El Salvador, 80% of whom
were victims of government terror. Violence has increased
thousands of non-combattant civilians, including peasants, Indians,
trades-unionsists, teachers, religious and political leaders, journalists and
members of the legal community have been systematically sized and
frequently tortured and murdered by both unformed and plain-clad
members of the security forces under government control....".

In response to this situation, over 300 churches and synagogues across the United States, 19 cities, 20 universities, and one state have elected to provide sanctuary to refugees.

The United States has traditionally served as a haven for all refugees of religious, political, or other persecution, and much of our historical and moral tradition both as a community and as a nation is rooted in the provision of sanctuary to persecuted peoples.

The ASUW wishes to clarify its desire not to expand University or student resources, beyond the requirements of Federal law, by voluntarily assisting or cooperating with investigations of alleged violations of immigration law by Salvadoran, Guatemalan, Nicaraguan or other refugees, or in gathering or disseminating information on the citizenship status of those residing within the bounds of the university.

Virtually all residents of the U.S. are immigrants or refugees, or descendants of immigrants or refugees.
