Brett Kahler
President
Associated Students of the University of Wyoming

Dear Mr. Kahler,

I am writing in support of the funding proposal for collaborative work stations within the W.R. Coe Library. The Libraries' Development Board and former President Buchanan provided funding for four collaborative workstations complete with large monitors. Students have positively responded to the stations especially since Coe Library only has 20 group study rooms. Based upon this success, we would like to increase informal spaces that support group study and informal teaching. The new collaborative stations facilitate group work by providing space and equipment that facilitates cooperative work.

We would like to increase spaces that are conducive to the ways students learn. The funding proposal to purchase additional furniture that will support student work is very much appreciated. As you are aware, there are limited funds for furniture and equipment. This proposal will enable us to upgrade our current furnishings meeting a growing expectation for students.

Since Coe Library serves all UW students from all disciplines, this investment will benefit many students. The proposal will be a joint project between the Libraries and ASUW as students will be included in the development and assessment of the new collaborative spaces.

Thank you for considering the proposal and for your continued support to the Libraries that assists us in providing quality services and spaces for students.

Sincerely,
Maggie Farrell
Maggie Farrell
Dean of Libraries
