Select open comments to “Do you have any other comments to ASUW at this time” (More comments available upon request):

- “Keep helping out the students”
- “Talk to nontraditional students more”
- “Having a good relationship with the FSL community is not a bad thing, all chapters are ready and willing to work with you guys. We are one of the biggest orgs on campus, and we consistently have the highest community service house/charitable donations as well as some of the widest stretching networks of people”
- “Chick-Fil-A please”
- “The senate seems to be a huge roadblock to many of the great projects and initiatives put on by executives. I recommend defunding or even disbanding the senate”
- “I think there should be more communication from ASUW and other than that, ASUW is doing a wonderful job making UW an amazing place to go to school or opportunities for students to be involved”
- “Frankly, the Senate is only an obstacle to all of the work that executives, partners/programs, and RSOs do on campus. While I recognize the importance of democracy, it seems like a waste of student fee dollars for Senators to be voting to pay themselves while taking away money from other projects that actually benefit students”
- “No more saddle up. It felt like a camp meant to deprive you of sleep”
- “Get an American Flag in your office. I mean it sincerely”
