ONLINE MAJOR IN ACCOUNTING**

The online Accounting (ACCT) degree is a completion-program designed to provide students with the educational background needed for a career in the accounting profession. Once you have successfully completed general education and prerequisite business course work through a community college or other institution, the program allows you to complete the remainder of the program online through the University of Wyoming (UW). Therefore, the online ACCT degree requires students to have completed Advanced Business Standing (ABS), before completing upper division course work from UW.
