STEP 5 EXAMPLE SHEET (HEAVY/HIGHWAY)

(This is an example sheet only. Report data on backside of survey sheet)

Instructions for Step 5:

- Report all hours from September 2023 August 2024 for *non-residential* heavy/highway projects only.
- When reporting wages by occupation, only report the most current wage for that occupation (do not report
 previous wages for hours worked unless it was the most current wage).
- More than one employee may be reported for each line as long as the employees:
 - o share the same occupation and
 - o have the same pay rate and
 - o have the same fringe benefits and
 - o have worked in the same region.
- Occupations to be listed are for journeyman classification only.
 - "Journeyman" is defined as any worker no longer considered in training who is fully qualified for the trade being considered.
- Use included supplemental sheets for "occupational codes" and "region codes".
- Return your completed survey in the enclosed postage paid envelope. Use additional pages if necessary. Excel spreadsheets are acceptable instead of the survey sheet if all the information requested is provided. Please email your completed spreadsheet to cbea@uwyo.edu.

Examples

- A. A firm has 2 Carpenters (Occupation Code 401) with: different current wages of \$21/hr. and \$25/hr., the same hours (1500 hours each over the period September 2023–August 2024), and the same fringe benefits (\$14/hr. total, a sum of \$2/hr. for Health Insurance, \$3/hr. for 401K, \$4/hr. for Vacation, and \$5/hr. Apprentice Training), and both worked in the same region (Region 2). [The Carpenters are entered on two separate lines due to their different wage–rates as shown in first two lines of table below. Note that all fringe benefits are combined as one hourly wage.]
- B. The same firm also employs a General Laborer (Occupation Code 101) who was paid a wage of \$12/hr. from September 2023 to March 2024. In April his new wage became \$13/hr. He worked 1800 hours over the period September 2023–August 2024, worked in Region 2, and had no fringe benefits. [The General Laborer will be entered on a separate line from the Carpenters, his wage will be entered as the current \$13/hr., and he will have \$0 entered under fringe benefit as shown in the third line of the table below.]
- C. The same firm employs 3 Crusher Operators (Occupation Code 302) all with: the same wages (\$16/hr.), the same fringe benefits (\$9/hr. total, a sum of \$2/hr. for Health Insurance, \$3/hr. for 401K, \$4/hr. for Vacation, and \$0/hr. for Apprentice Training), but 1 of the operators worked in a different Region (two worked in Region 2 and one worked in Region 3). The operators that worked in Region 2 worked 1400 and 1500 hours over the period from September 2023-August 2024, and the operator in Region 3 worked 1300 hours. [The two Crusher Operators who worked in the same Region are combined and entered on the same line. The other Crusher Operator is entered on a separate line due to the different Region he worked in. This is shown in the fourth and fifth lines of the table.]
