### STEP 5 EXAMPLE SHEET (BUILDING CONSTRUCTION)

### (This is an example sheet only. Report data on backside of survey sheet)

### **Instructions for Step 5:**

- Report all hours from September 2024 August 2025 for *non-residential* building construction projects only.
- When reporting wages by occupation, only report the most current wage for that occupation (do not report previous wages for hours worked unless it was the most current wage).
- More than one employee may be reported for each line as long as the employees:
  - o share the same occupation and
  - o have the same pay rate and
  - o have the same fringe benefits
- Occupations to be listed are for journeyman classification only.
  - "Journeyman" is defined as any worker no longer considered in training who is fully qualified for the trade being considered.
- Use included supplemental sheets for "occupational codes".
- Return your completed survey in the enclosed postage paid envelope. Use additional pages if necessary. Excel spreadsheets are acceptable instead of the survey sheet if all the information requested is provided. Please email your completed spreadsheet to cbea@uwyo.edu.

#### Examples

- A. A firm has 2 Electricians (Occupation Code 2400) with: different current wages of \$21/hr. and \$25/hr., the same hours (1500 hours each over the period September 2024–August 2025), and the same fringe benefits (\$14/hr. total, a sum of \$2/hr. for Health Insurance, \$3/hr. for 401K, \$4/hr. for Vacation, and \$5/hr. Apprentice Training). [The Electricians are entered on two separate lines due to their different wage–rates as shown in first two lines of table below. Note that all fringe benefits are combined as one hourlywage.]
- B. The same firm also employs a General Laborer (Occupation Code 2700) who was paid a wage of \$12/hr. from September 2024 to March 2025. In April his new wage became \$13/hr. He worked 1800 hours over the period September 2024–August 2025, and had no fringe benefits. [The General Laborer will be entered on a separate line from the Electricians, his wage will be entered as the current \$13/hr., and he will have \$0 entered under each fringe benefit as shown in the third line of the table below.]
- C. The same firm employs 3 Forklift Operators (Teamsters: (Group I) (Occupation Code 6000) all with: the same wages of \$16/hr., the same fringe benefits (\$9/hr. total, a sum of \$2/hr. for Health Insurance, \$3/hr. for 401K, \$4/hr. for Vacation, and \$0/hr. for Apprentice Training). They worked 1300 hours, 1400 hours, and 1500 hours over the period September 2024-August 2025. [All three Forklift Operators are combined and entered on the same line as shown in the fourth line of the table below.]
- D. The same firm employs 2 Dump Truck Drivers (over 13 CY.) (Occupation Code 6100) with: the same wages of \$17/hr., the same number of hours at 1600, but different fringe benefits. The first driver had fringe benefits of \$6/hr. (a sum of \$1/hr. for Health Insurance, \$2/hr. for 401K, \$3/hr. for Vacation, and \$0/hr. for Apprentice Training). The second driver had fringe benefits of \$7/hr. (a sum of \$4/hr. for Health Insurance, \$1/hr. for 401K, \$2/hr. for Vacation, and \$0/hr. for Apprentice Training). [The two Dump Truck Drivers will be entered on separate lines due to the difference in their fringe benefits as shown in the fifth and sixth lines of the table below.]
