Fall only or spring only course

Total Program Credits: 121

- A minimum of 120 hours is required. A minimum of 42 hours must be upper division. A minimum of 30 hours must be math/science.
- All COSC, MATH and STAT courses require a minimum grade of C.
- Students must simultaneously complete a Minor in Statistics
- General Electives cannot meet any other requirement for the major, and should be select to satisfy the 42-credit upper division requirement.
- Math/Science Electives must be selected with advisor's approval from Department list. Science courses must have a lab. Math courses must be at or above MATH 2205 or STAT 3000. Cannot count MATH 2350, MATH 2355, MTH 4000, STAT 4220 or any variable credit course. Four hours of Math/Science Electives are required. Two 3-credit STAT courses can also be used.
- Courses for requirements with options (Programming Language, Theory, O/S) are offered in alternating semesters. See your advisor for clarification.
- Degree candidates must meet the academic requirements of the university.
- Students may not take a course for S/U credit to satisfy any requirement for a degree from the College of Engineering and Applied Science, unless the course is offered for S/U credit only.
- O/S, Theory, and Prog. Lang Course options are offered in alternating semesters. See advisor for information.
