Prerequisite:	C in CM 3210			
Total Program Credits		15		

- This certificate requires a minimum of 15 credit hours as listed above. CM 2000 is a required prerequisite for the minor.
- A grade of C or better must be earned in each course.
- Students must complete the designated CM courses in the prescribed sequence.
- Enrollment in these CM courses is restricted to students who have officially declared a CM Minor.
- The course sequence is designed to be completed over two academic years.
- A completion plan for the CM Minor should be discussed with the student's assigned CM Minor advisor in the College of Engineering and Physical Sciences.
- The UW Construction Management Minor is not ACCE Accredited.
