As a guide, the short essay could include information on the following topics:

1. Any research or campus activities in which you are involved, any academic and/or career goals, and any interests in living/working in Wyoming.
2. Any past participation in a study abroad program, attendance at conferences, or any other travel experiences outside of your home state/country.
3. Send the essay via email to jnein@uwyo.edu or jcc@uwyo.edu.
4. More complete information can be found on **Handshake**, at the "Events" area

Internships/Jobs received via email this week

(apply as directed in each notice)

State of Wyoming, Water Development Office: Engineer Project Manager – Cheyenne, WY

BS degree, typically in the Sciences: preference will be given to applicants with civil engineering or agricultural engineering degree, who are currently licensed or are eligible for licensure as a Professional Engineer in the State of Wyoming. The Wyoming Water Development Office (WWDO) provides financial assistance to public entities for irrigation system and municipal water supply projects within Wyoming. The office is currently seeking a full-time employee. This position is responsible for administering water construction projects for the WWDO. General responsibilities include reviewing and providing comments on engineering planning studies, engineer prepared construction bidding documents, engineer construction cost estimates and owner-engineer agreements. This position oversees the State's

interests in municipal water supply, dams and agricultural irrigation system construction projects. Go to this State of Wyoming jobs site for more information and how to apply:

<https://www.governmentjobs.com/careers/wyoming/jobs/2195874/ennr10-08973-engineering-project-manager-cheyenne> (added 10/5/18)

New York State Department of Transportation, New York State has some of the most extensive, heavily used transportation infrastructure in the world. There are three engineering levels to launch your career in New York State. Each level requires an engineering degree, specific engineering experience, passage of the National Council of Examiners. As an Engineer Trainee, you would serve a 24-month traineeship that leads to the job title Assistant Engineer. To apply, complete a online questionnaire regarding education, certifications, licensure and experience. Find the examinations one of the following ways:

- Go to: <https://www.cs.ny.gov/engineering/oc/>
- Go to: <https://www.cs.ny.gov> and search Opportunities in Engineering

(added 10/5/18)

WYDOT Laramie Design Squad, Cooperative Education Position Openings for Engineering Students (Mechanical and Civil Engineering students) Design Assistant-Laramie WY: \$11.41 to \$14.27 per hour. No prior training or experience required. Preference may be given to those students with a minimum of

30 semester hours in the field of engineering. **Benefits Include:** Practical design training & experience, Year-round job, Insurance, Paid Holidays, and On-campus office. **Candidates must submit State of Wyoming application via state website,**

<https://www.governmentjobs.com/careers/wyoming/jobs/2191577/tnde03-08945-design-assistant-laramie> **by Nov 16.** As well, candidates must submit hard copies of transcripts of relevant course work, letter(s) of recommendation and a personal statement statement (at least ½ page long, stating why the candidate is interested in this position and giving anticipated graduation date) to Jim Kladianos, WYDOT Design Squad, University of Wyoming Civil & Architectural Engineering Dept. 3295, Laramie, WY 82071, by **Nov. 16, 2018.** (added 10/5/18)

Arup, San Francisco, CA: email from a UW alum (Nathan Stroud) - his company is hiring and wants to broaden their search to include a more diverse range of student backgrounds. Specifically architectural engineering students who may have interest in music, theater, acoustics, and audiovisual design. Nathan wrote that his ArchE degree from UW is a perfect fit for the work he is now doing. The company is holding several online info sessions where you can speak with Campus Recruiters and Consultants to learn more about the company's innovative projects and culture; and, to hear about their graduate and internship opportunities.

Register to attend any of the below on-line sessions (notice the time zone, so adjust)
