Special Events

SNAP Information Session

What is S.N.A.P.?

The *Sandcastle NextGen Apprenticeship Platform (SNAP)*

is a multi-semester experiential learning opportunity that

exposes student participants to a real-world blockchain,

startup, venture capital, and global competition open to undergraduate and graduate

students from the *College of Engineering and Applied Sciences, College of Business,*

and *College of Agriculture*. The University of Wyoming and Sandcastle Foundation have aligned to deliver this groundbreaking real-life career-building, networking, and extra-curricular apprenticeship and applications are open to all full-time qualified students.

Where?

The informational meeting will be held in the College of Agriculture Auditorium on Friday, September 20th from 12pm to 1pm; pizza provided.

Check out the flyer by clicking [here](#)

Volunteers Needed!!

The WyoHackathon 2019 is a three-day event that will bring developers, business leaders, and entrepreneurs from the global blockchain community to collaborate, innovate and keep Breakin' Through. This is your chance to be a part of a movement that has the potential to diversify Wyoming's economy, and put UW on the map as a hub for blockchain technology. Register now as a volunteer for the WyoHackathon Sept. 20 - 22 at the University of Wyoming's Engineering Education and Research Building.

[SIGN UP HERE](#)

IT Fellowship Information Session

We at The Department of State have a specific Fellowship opportunity available [for people studying IT](#). This is an amazing program, the Foreign Affairs IT Fellowship will pay for two years of school (either the last two years of undergrad or a two-year masters degree), provides two paid internships, and then allows the Fellows to come on board as full-time IT professionals with State.

To learn more, join the information session with Scott Wednesday, September 25th in the Engineering Building room 1060 from 1 pm to 2 pm

INTERNSHIPS/JOB RECEIVED VIA EMAIL

(apply as directed in each notice)

ICON Engineering INC. ENTRY LEVEL WATER RESOURCE ENGINEER

ICON is looking for a **new civil engineer** to assist in the planning, design, and production of engineering documents for a variety of projects to include storm water management, stream restoration, flood mitigation, drainage, parks and trails, contribute to studies, master plans, permitting, and computer modeling, prepare engineering drawings and specifications to clearly convey construction requirements, perform engineering calculations, data analysis, and field observations, develop an understanding of construction methods to translate engineering plans and specs to the final construction of a project, be actively involved in client meetings with fellow engineers, and to work toward your PE license with peer support and guidance from a senior PE.

Qualifications

- BS degree in **Civil Engineering**
- Basic understanding and willingness to become proficient in CAD Civil 3D, GIS, HEC-RAS, CUHP, FLO-2D, SWMM, and Microsoft Office products
