# CONSTRUCTION MANAGEMENT

## ONE OF UW'S FASTEST GROWING PROGRAMS

Construction Management at the University of Wyoming is an exciting, new degree program offered through the Department of Civil and Architectural Engineering. Experience a state-of-the-art program that is tightly connected with industry experts. The Construction Management occupation is one of the fastest growing in the United States. We prepare future leaders capable of competing in and driving technological advancements in construction industries.

## WHAT DO CONSTRUCTION MANAGERS DO?

- Manage construction projects from inception to completion across public, residential, commercial and industrial domains.
- Create project schedules and manage construction budgets.
- Create and manage construction cost estimates.
- Direct multi-disciplinary teams.
- Oversee construction safety on job sites.

## EARN INDUSTRY RECOGNIZED CERTIFICATIONS

Several courses allow students to obtain various industry recognized certificates as part of their degree experience, including but not limited to: **OSHA, LEED, DBIA and the Associate Constructor certificate.**

## DID YOU KNOW?

**\$105,000**

AVERAGE ANNUAL SALARY  
FOR CONSTRUCTION  
MANAGERS IN 2019.

**↑ \$1.4 TRILLION**

UNITED STATES CONSTRUCTION SPENDING  
TOTALLED \$1.4 TRILLION IN 2020.

**8% PROJECTED  
GROWTH**

PROJECTED JOB GROWTH RATE  
BETWEEN 2019-2029 – FASTER THAN  
AVERAGE FOR ALL OCCUPATIONS.

## GRADUATES FROM OUR PROGRAM FIND EMPLOYMENT IN:

- Residential construction – houses, apartments, townhouses and other low-rise housing
- Commercial construction – “big box” stores, shopping centers, malls, warehouses, theatres, resorts, golf courses, and larger residential structures.
- Institutional construction – schools, fire and police stations, libraries, museums, hospitals, transportation terminals and government buildings.
- Industrial construction – production and manufacturing facilities, power plants, steel mills, oil refineries, pipelines and seaports.
- Environmental construction – water and wastewater treatment plants, storm sewers, solid waste management facilities and air pollution control.
- Agricultural construction – barns, equipment and animal sheds, specialized fencing, storage silos and elevators, and water supply projects.

THE WORLD NEEDS MORE  
INSPIRED CREATIVITY.

## DEGREE PROGRAMS

**Bachelor of Science**  
in Construction Management

**Minor**  
in Construction Management

**Certificate**  
in Construction Management
