

AGC | GRADUATION HARDHAT CEREMONY

The Associated General Contractors of Wyoming (AGC) sponsored the Inaugural Graduation Hardhat Ceremony this year, where each CM graduate pledged to uphold the “Wyoming Code of Ethics”. AGC Directors, Mr. Dan Benford, Ian Alvstad, Greg Johnson and Jason Tystad were in attendance.

CONSTRUCTION MANAGEMENT

INDUSTRY PARTNERS PROGRAM

We deeply value our Industry Partners. Your support is integral to advancing our Construction Management (CM) students' education. As an Industry Partner, you play a pivotal role in shaping the next generation of construction professionals. A gift to the Construction Management Industry Partners Program creates a powerful connection between your organization and our exceptional students.

INDUSTRY PARTNER PROGRAM

The listed companies below supported the CM “*Industry Partner Program*”, an integral support platform to advance the CM experience at UW through the creation of powerful connection between students and industry. This program contributed to the following engaged program activities and events:

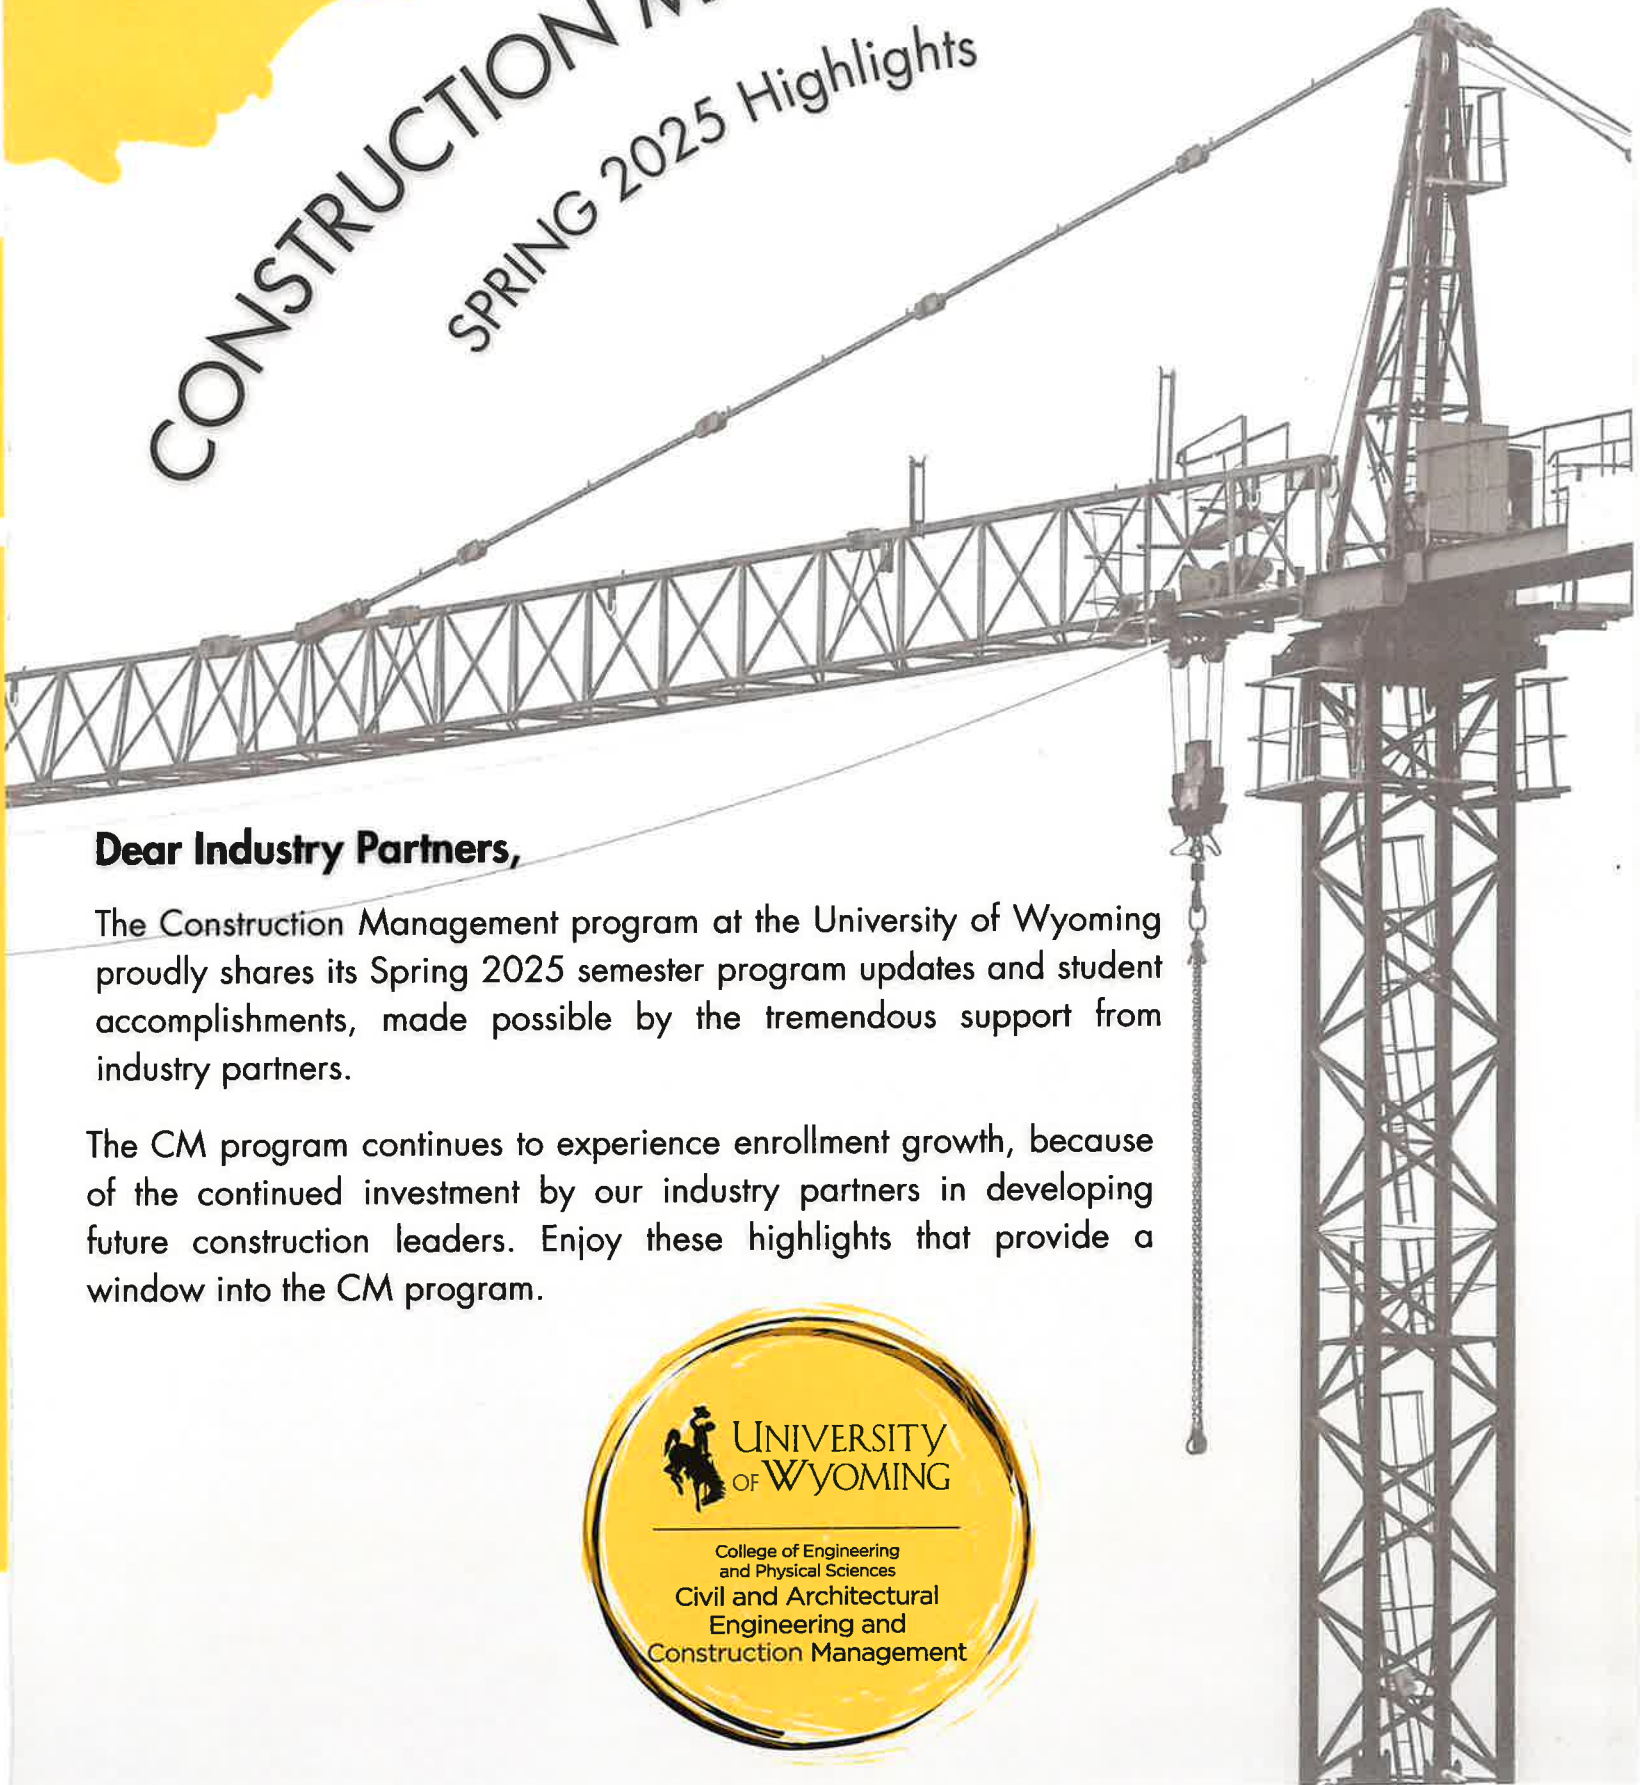

- Companies invited to campus as “Industry Insight” and class speakers.
- Three student competition teams supported to compete at the national level.
- Numerous student events and field trips supported.

CONSTRUCTION MANAGEMENT

SPRING 2025 Highlights

Dear Industry Partners,

The Construction Management program at the University of Wyoming proudly shares its Spring 2025 semester program updates and student accomplishments, made possible by the tremendous support from industry partners.

The CM program continues to experience enrollment growth, because of the continued investment by our industry partners in developing future construction leaders. Enjoy these highlights that provide a window into the CM program.

SPRING 2025 PROGRAM UPDATE

The Construction Management (CM) program continues to grow and flourish with the generous support of industry partners. The program currently has a total of 199 enrolled students. This semester, we graduated 40 seniors, all of whom secured full-time employment. The inaugural Industry Advisory Board was launched, consisting of 12 board members.

AGC - \$50,000

Kiewit Infrastructure's Michael Svoboda won the inaugural Bowen Prize for Great Builders from the Associated General Contractors of America in recognition of his field leadership during the construction of Nashville's new Broadway Bridge. The AGC Education & Research Foundation presented a \$50,000 check to Svoboda's alma mater, which he donated to the Construction Management program at UW.

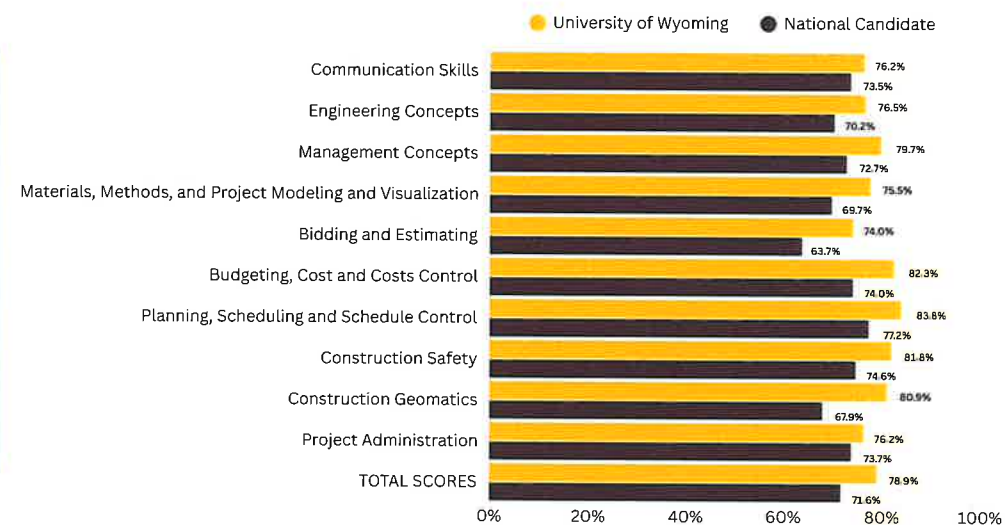

CONSTRUCTION BROTHER TROUBLE

The CM program is proud to introduce the Schlichting brothers, Austin (left), Brekken (middle), and Liam (right), who are all pursuing their CM degrees at UW. The brothers are from Minnesota and chose to attend UW because their father, Mr. Schlichting, played football at the university. Through the support of the Alumni Scholarship program, they decided to become CM students at UW. They are all currently working as interns with Groathouse Construction in Laramie, Wyoming.

ABOVE AVERAGE NATIONALLY

Senior students are required to sit for the AIC certificate exam, an 8-hour test that assesses their construction knowledge across eight sector categories. The 2025 CM capstone class scored 7.3% above the AIC national average and also exceeded the average in each of the nine tested topical content categories.

NAHB STUDENT COMPETITION

The Project Management class provided an opportunity for five students to compete in the National Association of Home Builders (NAHB) student competition in Las Vegas in February. The South East Wyoming Builders Association (SEWBBA) Chapter in Cheyenne greatly helped in preparing the team. The team members: Dillon Cole (left), Tanner Meeks, Dane Storer, Mason Ding and Thomas Harvey were great CM & UW ambassadors at the NAHB competition in Vegas.

STUDENT ACTIVITIES

The program and CM Club hosted and participated in several CM events this semester, including the "Job Fair", "Evening with Industry" (featured above) and a "CM BBQ".

A CM BLESSING

Meet Madison, Everly (newborn), and Dylan Yoksh. Dylan, a CM senior from Cheyenne, who took on his most important role yet - fatherhood - on March 8th. Congratulations to both of you!

ASC STUDENT COMPETITION

Eight CM students enrolled in the Heavy Materials and Methods class competed in the ASC Student Competition in Reno Nevada in February, with team members being: Thomas Harvey (left) Colton Vail, Dillon Cole, Andrew Goodrich, Rease Cunningham, Brett Hagen, Tristy Thomas, Alison Hannum.
