

Central Student Technology Committee (CSTC)

Meeting: Wednesday February 15, 2006

Location: Union 202

Attendees: Maggie Deming, Jesse Ballard, Christy Boggs, Phyllis Brecher, Tami Browning, Charles Christensen, Cheryl Hilman, Warrie Means, Graham Mitchell, John Nutter, Dee Pridgen, Ken Smith, Mark Sunderman, Renee Tihen and Mackenzie Williams

## **1. Wireless Printer Solution**

Maggie presented the committee with the wireless printing solution. Purchase of the software would provide unlimited printer licenses, enabling the ability to print to any lab printer on campus from any wireless connection on campus. The cost for the software is \$25,000 with \$5,000 annual recurring maintenance. A general estimate for the server is \$12,000.

The committee asked that the Lab Administrators evaluate whether the software could be placed on an existing server. The committee asked for a list of all CSTC purchased servers and applications. Maggie said that she would ask the Lab Administrators for a list.

Charles Christensen made a motion to approve \$25,000 for the purchase of the software, and conditionally allocate \$12,000 for a server if it is determined that one is needed to run the wireless printing software.

John Nutter second

Approved – all attending members except Cheryl Hilman

Abstain – Cheryl Hilman

Opposed – none

## **2. Web Cameras for security purposes**

Jesse explained the two options for providing the network camera infrastructure to campus. The first option is to use the Axis Web camera software, but it is limited to supporting only 25 cameras on a server.

The second option is to use On-Net NetPVR surveillance system. This has the ability to support more cameras. The number of cameras supported is based on server capacity and recording settings. There are numerous variables in determining how many cameras can be supported. Some of the variables are: Image size, compression, frames per second, constant recording vs. motion detection, etc.

Discussion took place on the pros and cons of implementing a system. The agenda item was tabled.

Maggie adjourned the meeting at 3:00 pm
