## Student Well-being & Success Resources

On Campus

### Dean of Students Office

The Dean of Students Office support students navigating transformative events by fostering student development, maintaining a safe campus environment, and promoting opportunities for engagement and support. Our team provides a number of resources to help students with non-academic and academic concerns that may impact success in college.

Our services may be supportive in times of personal distress, facilitative in times of conflict, educational in times of development, or remedial in times of difficulty.

### Care Coordinators

Care Coordinators support students experiencing:

- academic concerns
- personal distress
- challenges with social connection and sense of belonging
- mental health struggles
- medical difficulties

They work with students to identify and then remove barriers to their success and increase a student's holistic wellbeing while pursuing their academic goals.

Care Coordinators focus on the unique strengths of a student and collaborate with them to find solutions that help each student meet their goals.

Care Coordinators can assist you in connecting to on or off campus resources for ongoing care. Students who have been released from behavioral health services are encouraged to connect with our office.

### UW CARES

Any individual can refer a student who may be experiencing academic, personal, social, or emotional challenges or who may be demonstrating concerning, distressed, or disruptive behavior to the UW CARES Team. The UW CARES team uses a multi-disciplinary approach to maintain a safe campus environment and facilitates student success.

Submitting a referral simply means you have a concern about a student's well-being. A referral can be submitted at [uwyo.edu/uwyocares](http://uwyo.edu/uwyocares)
