

UW ECEC Wait List Information

Due to the length of our current wait list, we require that families notify the UW ECEC on an annual basis as to whether or not they wish to remain on the wait list until an opening occurs. If no contact has been made within a year of the application date, the child will be removed from the current wait list.

When an opening occurs at the Center, priority will be given as follows:

- Families with other children currently enrolled at UW ECEC
- Families who have had children that previously attended UW ECEC
- Families connected with the University of Wyoming (students, faculty, and staff)
 - It is the responsibility of the employee, student or faculty member to notify the center of any changes in status
- Laramie community families not connected with UW

For additional questions regarding the wait list, please feel free to contact us at 307-766-4816 or at early-care@uwyo.edu.
