AY 2023-2024 Challenges

The Committee continued to experience challenges in identifying members to fill committee vacancies and in addition to its annual call for committee members that went out to UW faculty in Spring 2024, the Committee worked through Summer 2023 and Fall 2023 as well to find members for open positions. This work did help and the number of unfilled positions at this time for AY 2024-2025 is less than it was in Spring 2023. The Committee greatly appreciates the efforts of the Chairs of all Faculty Senate committees for their help in identifying and filling vacancies throughout the year.
