

## Daniel Wozney

Major:	Communication
Hometown:	Upton, Wyoming
Goal after College	to create my own stories in the film industry and have an impact on the people around me

### Excerpt from Essay

My mindset and future goals have definitely strengthened over the course of my freshman year. This past semester, I joined the National Society of Leadership and Success, and during my first few meetings with them, I have shaped what I want my future to be. Coming to college, I had dreams and ideas for my future, but nothing was set in stone. However, thanks to joining the NSLS, I have a clear vision of what I want my future to be. I want to graduate with a communications degree and write stories, direct projects, and act in movies. This was always a dream of mine, but now I have turned it into a goal. I do not know if that would have happened if I had never joined the NSLS.

Additionally, I have joined some groups and made a ton of friends over my freshman year. I told myself during my senior year of high school that I wanted to be more social in college. I wanted to have a ton of friends and be considered a friend to others. Well, over this past year, I have made so many friends and met so many peers. I made most of my friends at the Navigators, a campus ministry. This ministry has definitely made me feel more comfortable and involved in the University of Wyoming community.

As for my future, I think that college has already had an incredible impact on it. As said before, I was not super sure what

my future looked like before coming here, and now, I have a clear goal of what I want to do. I want to create my own stories in the film industry and have an impact on the people around me. I would not have seen my future like this if I had not come to the University of Wyoming. This is my future goal, and I am even starting to pursue it right here on campus. I am beginning to write down projects that I have had in mind. Additionally, I am trying to be a positive influence in all of my friends' lives every day. I do not want to wait any more on pursuing my dreams and goals, and the University of Wyoming has helped me figure that out.
