

Family & Consumer Sciences
Undergraduate Advising Check Sheet
2014-2015

Design, Merchandising, and Textiles

Student Name: _____ W#: _____ Advisor: _____

All students pursuing a bachelor's of science degree in Family and Consumer Sciences are required to complete: a) University Studies Program (USP) requirements; b) departmental core curriculum; and c) courses within the selected option.

The **University Studies Program** (USP) ensures that each student's program includes the elements essential to a lifetime of personal and professional growth: habits of mind, practices of active citizenship, and development of intellectual skills. The USP requires development of skills that include the ability to express oneself in speech and writing; to locate, evaluate and effectively use information; and to examine problems from quantitative, qualitative, and scientific perspectives. The USP requirements will be approximately 36 credit hours of your overall degree program (see page 4).

All courses within Family and Consumer Sciences must be completed with a grade of C or better.

The **department core curriculum** is required of all majors (see page 2). This requirement is based on a common body of knowledge in family and consumer sciences which contains concepts relevant to all program options. The department core will be 9-11 credit hours of your overall degree program. FCSC 1010 must be taken in your first year. If you withdraw or do not pass the course with a grade of C or better, you will be prevented from re-enrolling for one semester of the course offering. The university allows students only three enrollment attempts per course. Withdrawals and failed attempts count. If you do not pass the course with a grade of C or better after three attempts you will be dismissed from your family and consumer sciences major.

The **requirements for your selected option** are listed on pages 2 and 3 of this check sheet. It is important to understand course sequencing (when courses are offered) and prerequisites (other courses that must be taken first). Each student has a faculty advisor. You will be advised each semester. It is important that you work closely with your advisor to plan your course schedule.

University Requirement – All degrees at the University of Wyoming require 48 upper-division credit hours (3000+).

Residency Requirement – All degrees must include a minimum of 30 credit hours from UW.
