

# : A CRASH COURSE

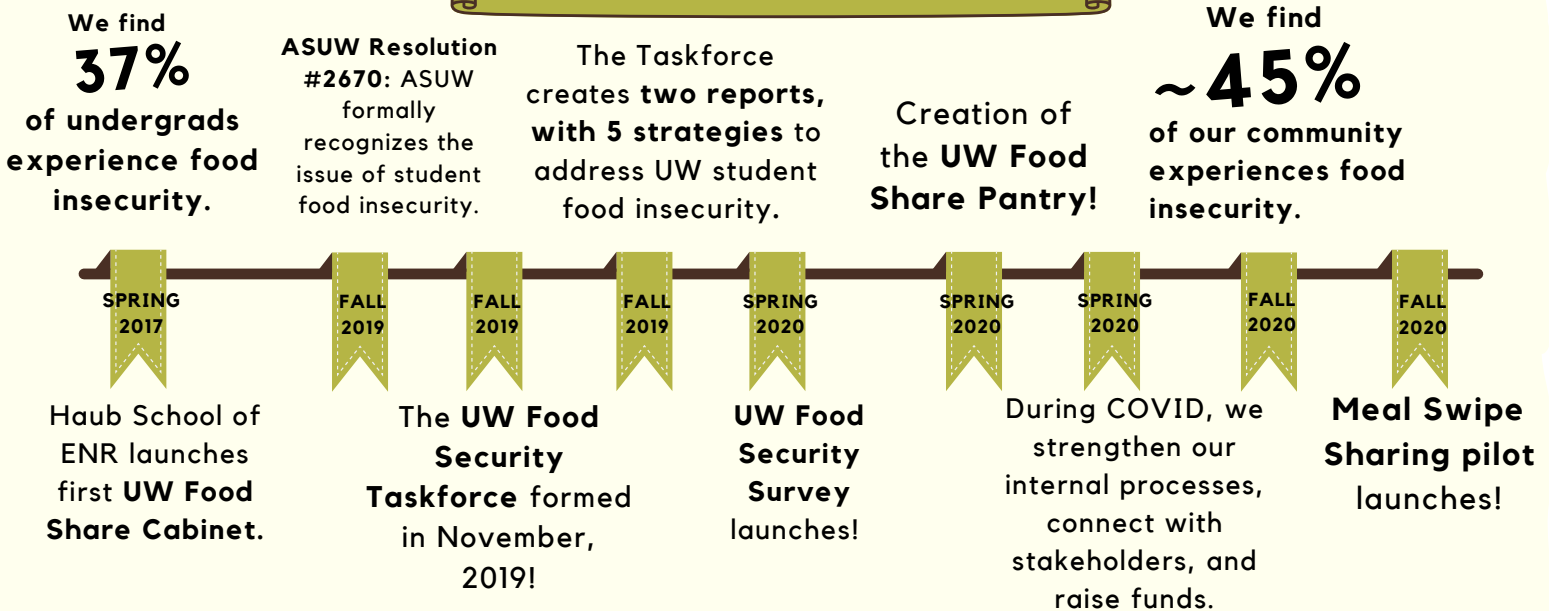

some backstory...

*In fall of 2019, the Associated Students of the University of Wyoming (ASUW) & the Sustainability Coalition (SC) assembled a coalition of students, faculty, staff, and administrators to plan and guide UW's work to reduce student food insecurity.*

## timeline of events

## 5 interrelated strategies

### 1. Growing and Sharing Food with ACRES Student Farm

Purchasing Community Supported Agriculture Shares (CSAs) from ACRES or growing food for the UW Food Share Pantry and Cabinets.

### 2. Meal Swipe Sharing through UW Dining Services

Beginning with the 2021 pilot at Washakie Dining Center, students can share swipes with students who are food insecure! The SC received ASUW funding for an initial "bank" of swipes!

### 3. Planning for a Campus Store/Central Pantry

Building from the success of the UW Food Share Pantry, students have voiced support for subsidized campus grocery options or a blend grocery/pantry "hub".

### 4. Supporting Food Share Cabinets

Established in 2017 in the Haub School, food share cabinets are now in 8 different locations at UW. Learn more by checking out ASUW's demo cabinet in the Union!

### 5. Expanding Good Food Recovery and Sharing

Through mobile and email alert systems, we plan to implement good food recovery, minimizing food waste from events and on-campus dining while sharing resources.
