## THE IMPACT OF MATCHING PROGRAMS AT THE UNIVERSITY OF WYOMING

The transformation of UW as a result of the partnership between state support and private giving is beyond the vision of anyone just a decade ago. This is due to the University of Wyoming Endowment Challenge Program, also known as the state matching gift program.

This remarkably successful program was established in 2001 by the State of Wyoming and was additionally funded by the Wyoming Legislature until the 2010 session. During this nine-year period, state funds were used—with UW Board of Trustees approval—to match privately funded endowment gifts (of \$50,000 or more) to UW and facility gifts (of \$25,000 or more) for special university building projects.

The impact of the University of Wyoming Endowment Challenge Program is immeasurable. Since 2001, its mission has been to provide additional support to the University of Wyoming by encouraging private donations, and this mission has been a resounding success.

It has touched every aspect of the University of Wyoming—from campus infrastructure to state-of-the-art technology, from student scholarship support to faculty excellence funds, from annex remodels to the construction of new facilities, from the funding of club sports to the creation of whole academic programs.

The program has supported or will support UW's students, faculty, programs, and facilities with \$140.2 million in endowment and facilities matches.
