<b>Call Title:</b>	<b>Applications open for Catalytic Climate Finance Facility (CC Facility) Initiative</b>
<b>Programme: Convergence</b>	
<b>Objective:</b>	<p>Applications are now open for the Catalytic Climate Finance Facility (CC Facility) Initiative to support blended finance structures targeting climate action in developing economies.</p> <p>The program provides bespoke technical assistance and working capital to accelerate the scaling and deployment of market-ready vehicles that have already executed pilots and/or have proven their investment model.</p>
<b>Eligible Activities:</b>	<p>The program's support proactively addresses key barriers to raising private capital by building the capabilities of proponents to generate business traction, secure funding, and accelerate market rollout.</p> <p>Which sectors and/or themes will be prioritized?</p> <p>Eligible structures are blended finance vehicles that target climate change mitigation and/or adaptation in a wide range of sectors. The focus will be on sectors that are severely under-financed globally relative to the impact they can deliver. Examples include, but are not limited to, sustainable energy, encompassing just transition, universal access, and energy efficiency; sustainable cities and resilient infrastructure;</p>

	<p>sustainable agriculture and land use; and thematic areas such as nature-based solutions and gender equality.</p> <p>The program will have a global focus, but will also have a dedicated thematic stream focused on sustainable agriculture and climate adaptation in Sub-Saharan Africa and South Asia.</p>
<b>Eligible Applicants:</b>	<p>Eligibility Criteria</p> <p>Applicants must meet the following criteria to be eligible for consideration:</p> <p>Geography: Developing countries.</p> <p>Applicants do not need to be domiciled in a developing country but end beneficiaries and target activities must. Preference will be given to local applicants who demonstrate a nuanced understanding of local contexts and engagement with local stakeholders where relevant.</p> <p>Stage: Market-ready structures moving through an initial adoption stage in their development process</p> <p>This includes blended finance structures that have already been tested for feasibility, completed proof of concept, pilot(s), or a minimum viable product, and are ready to soon launch and scale.</p> <p>Entity type: Organizations or a consortium of organizations, including advisory firms, foundations, not-for-profits, fund managers, and private enterprises.</p> <p>Public institutions such as development finance institutions, multilateral development banks, UN and government agencies cannot be the lead applicant or grant recipient. The lead organization must be able to provide proof of incorporation and financial statements for the previous fiscal year.</p>
<b>Total Budget:</b>	<b>\$500,000</b>
<b>Deadline:</b>	<b>25/10/2024</b>

<b>Call Title:</b>	<b>CALL FOR PROPOSALS TO SUPPORT THE ESTABLISHMENT OF NEW NETWORKS OF EXPERTISE ON CANCER AND CANCER CONDITIONS – (CR-G-24-96)</b>
<b>Programme:</b>	<b>European Commission (EC) - EU4Health Programme (EU4H)</b>
<b>Objective:</b>	The expected result is to enable stakeholders to contribute to the delivery of the joint action on new networks of expertise launched under the EU4Health work programme 2023. This will include of establishing within the networks of expertise supporting actions for patients, families, caregivers and other participants in the fight against cancer.
<b>Eligible Activities:</b>	<p>This action will help Member States to improve cooperation among their cancer services and with health professionals and patient advocates (by for instance addressing skill gaps and better equipping the health workforce in cancer care); and to improve and deepen the cooperation with the non-governmental sector.</p> <p>Actions must take place in EU member states plus Ukraine, Moldova and Montenegro.</p>

<b>Eligible Applicants:</b>	Eligibility is limited to legal entities (public or private bodies) established in one of the eligible countries.
<b>Total Budget:</b>	<b>€1,000,000</b>
<b>Deadline:</b>	<b>22/01/2025</b>
<b>More information and official documents:</b>	<a href="https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/EU4H-2024-PJ-03-5">https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/opportunities/topic-details/EU4H-2024-PJ-03-5</a>

<b>Call Title:</b>	<b>CALL FOR PROPOSAL: ACTION GRANTS TO CONTRIBUTE TO THE ORGANISATIONS OF CONFERENCE AND EVENTS - (OA-G-24-79)</b>
<b>Programme:</b>	<b>European Commission (EC) - EU4Health Programme (EU4H)</b>
<b>Objective:</b>	This action will involve public or private entities with expertise on organising events in public health domain topics. Applicants must clearly describe the expected number and profile/function of target participants in the event, including their distribution by Member States or third countries associated to the EU4Health Programme, organisation and type of expertise. The Commission considers that proposals requesting a contribution of EUR 150 000 would allow this specific challenge to be addressed appropriately. This does not prevent applicants to submit proposals requesting a different contribution.
<b>Eligible Activities:</b>	The events should include high level speakers, and a representative number of participants from all relevant fields of the challenges to be discussed. The action will support communication activities addressed to the general public and/or to specific groups of people or professionals, in order to promote the European Health Union and its different initiatives. Conferences and/or events must have a Union-wide dimension. The events will not focus on a specific condition or disease however, they will focus on current cross-cutting Union policy issues.  Actions must take place in EU member states plus Ukraine, Moldova and Montenegro.
<b>Eligible Applicants:</b>	Eligibility is limited to legal entities (public or private bodies) established in one of the eligible countries.
<b>Total Budget:</b>	<b>€450,000</b>

<b>Call Title:</b>	<b>CALL FOR PROPOSALS ON PERSONALISED CANCER MEDICINE - (CR-G-24-99)</b>
<b>Programme:</b>	<b>European Commission (EC) - EU4Health Programme (EU4H)</b>
<b>Objective:</b>	The action will benefit cancer patients accessing personalised cancer medicine services, which is expected to reduce the burden of cancer in the Member States. The expected results will include initiatives to complement the Member States' efforts in the design, planning and implementation of best practices, such as support for the development of public health guidelines (e.g., personalised cancer medicine,

	genomic testing/screening and metastatic cancer management) guidelines and, support for the preparation and roll out of new policy approaches; participation in the pilot testing of innovative practices; development of capacity building actions such as training and twinning, health communication or health literacy.
<b>Eligible Activities:</b>	The actions that will complement the Joint Action on Personalized Cancer Medicine are expected to bring short-term improvements in implementing personalised cancer medicine and sharing best practice among Member States and countries associated to the EU4Health Programme. In the mid- to long- term, this is expected to improve innovation and patient management in the cancer pathway, including metastatic cancer, by improving knowledge and skills in implementing personalised medicine in oncology.  Actions must take place in EU member states plus Ukraine, Moldova and Montenegro.
<b>Eligible Applicants:</b>	Eligibility is limited to legal entities (public or private bodies) established in one of the eligible countries.
<b>Total Budget: €3,000,000</b>

<b>Call Title:</b>	<b>CALL FOR PROPOSALS ON RADIATION SAFETY AND QUALITY OF COMPUTED TOMOGRAPHY IMAGING OF CHILDREN AND YOUNG ADULTS – (CR-G-24-42)</b>
<b>Programme: European Commission (EC) - EU4Health Programme (EU4H)</b>	
<b>Objective:</b>	As an expected outcome of the activities and in line with the SAMIRA objective to ensure that applications of ionising radiation in Member States operate in line with high standards for quality and safety, medical staff should have improved tools to ensure justification and optimisation of medical procedures involving ionising radiation in children and young adults.
<b>Eligible Activities:</b>	<p>This should take various forms of technical/practical tools, like improved imaging referral and clinical guidelines, guidance, protocols and tools for specific exams and equipment, education and training curricula and material. Trainings for the hospital staff and information campaigns should also be organised.</p> <p>This will benefit paediatric, adolescents, and young adult patients, and parents and young adults accessing imaging services in Member States. The actions are expected to bring short-term improvements in radiation safety and quality of CT and other radiological imaging in children and young patients and reduction of avoidable exposure to ionising radiation. In the mid- to long- term, this is expected to translate into reduced avoidable secondary effects, such as brain cancer linked to head CT exams. The outcomes of these activities should also reduce discrepancies in Europe to current radiation technology in medical applications through a coordinated approach.</p> <p>Actions must take place in EU member states plus Ukraine, Moldova and Montenegro.</p>

<b>Eligible Applicants:</b>	Eligibility is limited to legal entities (public or private bodies) established in one of the eligible countries.

<b>Call Title:</b>	<b>Submissions open for The Liveability Challenge</b>
<b>Programme: Eco-Business</b>	
<b>Objective:</b>	<p>The Liveability Challenge (TLC) returns for the eighth edition, seeking submissions for the groundbreaking climate solutions from across the world that push the boundaries of innovation.</p> <p>Winners are to conduct their proof-of-value pilot in Singapore (tech-based) or within Southeast Asia (nature-based).</p>
<b>Eligible Activities:</b>	<p>Themes</p> <p>The eighth edition of The Liveability Challenge features two main themes: Decarbonisation</p> <p>They are looking for disruptive deep-tech solutions that provide scalable and impactful solutions to reduce carbon emissions across diverse industries.</p>

	<p>Examples of such solutions include, but not limited to:</p> <p><b>Waste-to-resource</b> Effective capture and conversion of key waste streams (e.g., point-source carbon, biomass-based or other waste carbon) into value-added products (e.g., point-source or direct CCUS into consumables such as sustainable aviation fuels, marine fuels, chemicals, higher carbon products, fertilisers, proteins) or permanent carbon removal and storage (e.g., point-source or direct CCUS into stable building materials)</p> <p><b>Renewable energy</b> To generate cost-effective energy from renewable sources (e.g., wind, solar, hydropower), technologies that accelerate the clean energy transition (e.g., green hydrogen, ammonia), as well as solutions that facilitate the long-term storage of energy and address energy intermittency (e.g., batteries and battery energy storage systems).</p> <p><b>Energy efficiency</b> Significantly reduce energy consumption and carbon emissions produced by built environment systems (e.g., building cooling systems) as well as hard-to-abate industries (e.g., manufacturing - food &amp; agriculture, cement, steel, aviation, marine, logistics, healthcare).</p> <p>Additionally, solutions should be:</p> <p>Carbon negative in the overall lifecycle and have zero/minimal externalities Technology-based (e.g., physical, chemical); or nature-based solutions (e.g., community models)</p> <p>Commercially viable and scalable Able to conduct the pilot in Singapore (for technology-based solutions) or within Southeast Asia (for nature-based solutions)</p> <p><b>Cool Earth</b> They are seeking groundbreaking innovations that specifically address the challenges posed by climate-induced extreme weather conditions. They are on the hunt for innovative solutions that enhance mitigation, resilience and adaptation to extreme weather events (especially heat) for a more liveable planet. They are also open to proposals that provide large-scale cooling benefits and adaptive solutions that strengthen resilience across diverse industries.</p> <p>Examples of such solutions include, but not limited to:</p> <p><b>Heat mitigation</b> To mitigate the growing challenge of excessive heat by focusing on reducing temperatures and/or adaptation solutions to help societies, especially vulnerable populations, withstand and adapt to the adverse effects of rising temperatures and more frequent heatwaves (e.g., climate-smart and climate-resilient food &amp; agriculture, advanced materials for cooling – nano-coatings and film).</p> <p><b>Nature-based solutions</b> For building climate resilient societies for at-risk groups through replicable and viable models that deliver impact for planet, people, and profit in the space of blue carbon (e.g., seaweed cultivation, mangrove restoration for coastal communities) and green carbon (e.g., bamboo cultivation, low-methane agriculture).</p>
<b>Eligible Applicants:</b>	<p><b>Eligibility Criteria</b> You are eligible if you are: 18 years or older. Not an employee of Temasek Foundation or Eco-Business.</p>

	Not a close relative or connected otherwise with the organisation or the judging of the competition.

<b>Call Title:</b>	<b>UNSOLICITED SUBMISSIONS TO USAID</b>
<b>Programme:</b>	<b>United States Agency for International Development (USAID)</b>
<b>Objective:</b>	The Agency for International Development (USAID) encourages the submission of new and innovative ideas consistent with and contributing to the accomplishment of USAID's objectives. Such opportunities are routinely announced through broad Agency announcements or specific Requests for Proposals (RFPs). When new or innovative ideas do not fall under topic areas publicized through those techniques, offerors may consider submitting them as unsolicited proposals. Note that the criteria for unsolicited proposals are quite stringent.
<b>Eligible Activities:</b>	An unsolicited proposal is a written proposal for a new or innovative idea that is submitted on the initiative of the offeror for the purpose of obtaining a contract with the Government, and that is not in response to a request for proposals or any other Government-initiated solicitation or program. A valid unsolicited proposal must (1) be innovative and unique; (2) be independently originated and developed by the offeror; (3) be prepared without Government supervision, endorsement, direction, or direct Government involvement; (4) include sufficient detail to permit a determination that USAID support could be worthwhile and the proposed work could benefit USAID's research and development or other responsibilities; (5) not be an advance proposal for a known USAID requirement that can be acquired by competitive methods; and (6) unsolicited proposals in response to a publicized general statement of Agency needs are considered to be independently originated.  Actions can take place worldwide where USAID operates.
<b>Eligible Applicants:</b>	Non-profit organisations and businesses are eligible.

<b>Call Title:</b>	<b>SMALL-SCALE PROJECTS FROM GERMAN EMBASSY MOLDOVA</b>
<b>Programme:</b>	<b>GERMAN EMBASSY MOLDOVA</b>
<b>Objective:</b>	The embassy has been supporting micro-measures since 2004. They complement German development cooperation with the Republic of Moldova as part of major bilaterally agreed projects, which are usually handled by GIZ and KfW. The micro-projects, on the other hand, can be applied for and implemented much faster and with comparatively less effort. The following requirements must be met:
<b>Eligible Activities:</b>	Your project brings about a long-term improvement in the living conditions of the local population. You cannot fully finance the project yourself. However, your own financial contribution increases your chances of receiving funding. This can also be a non-financial contribution such as work performance. The project will remain in place for the long term, is not a pure training measure, but is associated with equipment assistance. The financial support is one-time and does not result in any recurring obligations from the embassy. The institution that is the project sponsor fulfils a general-benefit function (e.g. an NGO, a school). The project must improve the common good. The overall financing of the project is secured. Any follow-up costs can be borne by the project sponsor.  Actions must take place in Moldova.
<b>Eligible Applicants:</b>	Eligible are local non-profit organisations (NGOs, self help groups, kindergartens, etc.).
<b>Total Budget:</b>	€100,000
