Call Title:	Information Measures for the EU Cohesion Policy 2025
Programme:	European Commission (EC)
Objective:	The European Commission has opened the 2025 call for proposals under the Information Measures for the EU Cohesion Policy (IMREG-2025-INFOME), inviting applications to support projects that communicate the results and impact of EU Cohesion policy across Member States through information and outreach activities.
Eligible Activities:	The main aim of the call is to provide support for the production and dissemination of information and content linked to EU Cohesion policy, including inter alia the Just Transition Fund, or relevant support from the Technical Support Instrument. The proposals should provide coherent, objective and comprehensive information, in order to give an accurate overall picture of the EU Cohesion policy. The proposals should illustrate and assess the role of Cohesion policy in delivering the EU's political priorities, such as the transition to a greener, more digital economy, development of strategic technologies, housing or the demographic transition and the right to stay, and in addressing current and future challenges for the EU, its Member States, its regions and the local level. The 2025 call for proposals under the Information Measures for the EU Cohesion Policy (IMREG-2025-INFOME) aims to strengthen awareness and understanding of how the EU's Cohesion policy supports growth, job creation, and regional

	development across Europe. It focuses on showcasing how EU funds contribute to reducing disparities among Member States and regions, while also helping citizens connect EU actions to tangible improvements in their lives. The expected impact for the general public is to raise awareness of the results of Cohesion policy and its effects on citizens' lives, particularly among Europeans who may be unaware of EU actions in their region. The expected outcomes include increasing media coverage on Cohesion policy, particularly at regional and local levels, enhancing people's awareness of its results and impact, and achieving concrete outputs such as television or radio broadcasts, online or print coverage, or other dissemination measures that ensure wide outreach and multilingual inclusion. The scope of eligible activities includes production and distribution of print, multimedia, or audiovisual material, web and social media outreach activities, media events, and organization of conferences, seminars, or workshops. The total indicative budget available for this call is EUR 3.5 million, with grants awarded under the IMREG Project Grants (IMREG-PJG) action type.
Eligible Applicants:	For stakeholders such as national, regional, and local authorities, businesses, academia, and beneficiaries, the initiative seeks to encourage engagement and communication about the impact of Cohesion policy on their regions, while contributing to discussions on the policy's future direction and the broader future of Europe.
Total Budget: €3,500,000	
Deadline: 15/01/2026

Call Title:	Globalstars
Programme: EUREKA	
Objective:	Eureka is the world's biggest public network for international cooperation in research and development (R&D) and innovation, present in over 45 countries. It is a decentralised intergovernmental organisation aiming to boost the productivity and competitiveness of industries by funding and supporting international collaborative market-driven R&D projects. This call for projects has been launched by Japan and the United Kingdom national funding bodies following Eureka's Globalstars framework.
Eligible Activities:	Globalstars is a programme for organisations to connect with partners outside the Eureka network. The programme supports projects between companies in Eureka countries or regions and in leading and emerging markets around the world. How Globalstars supports you Globalstars provides access to funding for research and development projects in a range of areas. As well as funding, Globalstars gives you a unique opportunity to work with organisations in countries and regions like Japan, Uruguay, India, and Taiwan. How Globalstars works

	Globalstars provides funding to international research and development (R&D) projects. Projects must include at least one organisation from a Eureka country or region participating in the call, and the project consortium must also include at least one other independent organisation from the Globalstars country. Partners in the consortium can include other SMEs, large companies, universities, research institutions, and non-profits. Funding for Globalstars comes from National Funding Bodies in each country or region that is participating in a call. National Funding Bodies decide which organisations can receive funding, which activities can be funded, and how much funding is available.
Eligible Applicants:	Countries Austria, Belgium (Flanders), Canada, Denmark, France, Israel, Japan, Lithuania, Luxembourg, Norway, Singapore, South Africa, South Korea, Spain, Sweden, United Kingdom Funding information This call is open for all R&D projects, excluding technologies associated with nuclear power and drug discovery. Examples of scope include, but are not limited to: quantum technology, artificial intelligence, robotics, semiconductors, electronics, energy and environment, biotechnology, new materials, medical devices, aerospace, mining, and other industrial technologies. Eligibility criteria Eureka has eligibility criteria for organisations participating in a Globalstars consortium: • Your project idea must represent international cooperation in the form of a specific project. • You must direct your project towards researching or developing an innovative product, process or service with the goal of commercialising your project results. • Your project must have a civilian purpose. • Your consortium must include at least two independent legal entities, from Japan and a minimum of one other Eureka country listed in this call. • No single organisation or country can be responsible for more than 70% of the project budget. • The duration of a project must be between 12 to 36 months. • Prior to the start of the project, participants are required to have signed a project consortium agreement on the execution of the project and commercialisation of the project's results. This must be sent to the relevant national funding agencies after the results of the evaluation have been communicated and before project activities are conducted.

Call Title:	NEWS – JOURNALISM PARTNERSHIPS – COLLABORATIONS
Programme: European Commission - CREA	
Objective:	Expected results of this call are: • Increased innovation and creativity in business models, journalistic production processes and distribution processes; • Increased viability of professionally produced journalistic content. • Increased interest in professionally produced journalistic content, among various social groups, language groups and age groups; • Increased media collaboration. • Sector-wide networks for the exchange of best practices among news media organisations and professionals; • Knowledge-hubs for sub-sectors around technical formats (written/online press, radio/podcasts, TV, etc.) and/or journalistic genres (data journalism, general topics, specialised journalism, etc.); • Acquisition and improvement of professional skills by journalists as well as media business professionals.
Eligible Activities:	Activities that can be funded This topic seeks to help the wider European news media sector become more sustainable and resilient, including small media. Support is foreseen for collaborative projects in and between any news media (sub)sector and/or genre that aim to enhance cooperation, help media adapt to new economic and consumption realities and instil systemic change across that (sub)sector. Actions must take place in EU member states plus Albania, Armenia, Bosnia and Herzegovina, Georgia, Kosovo, Montenegro, North Macedonia, Serbia, Tunisia and Ukraine.
Eligible Applicants:	Eligibility is limited to legal entities (public or private bodies).

Total Budget:	€6,900,000
Deadline:	04/02/2026

Call Title:	NEWS – JOURNALISM PARTNERSHIPS – PLURALISM
Programme:	European Commission - CREA
Objective:	Expected results are: • Increased innovation and creativity in business models, journalistic production processes and distribution processes; • Increased viability of professionally produced journalistic content. • Increased interest in professionally produced journalistic content, among various social groups, language groups and age groups; • Increased resilience, pluralism and editorial independence at EU level of sectors such as local, regional and community media, investigative media or media specialised in public interest topics. • Increased resilience of organisations active in the targeted news media sectors and protection of the news media landscape. • Improved uptake of new technologies across the targeted media sectors in as much this contributes to media pluralism and a diverse media landscape. • Fostering repositories of knowledge about media sectors delivering public interest news (e.g. by detecting areas with low provision of high-quality content and/or in which media pluralism is strained).
Eligible Activities:	This topic covers media sectors that are particularly relevant for democracy. Certain sectors having an important role for democratic debate lack the means to adapt to the digital environment, and phenomena such as shrinking newsrooms or media deserts can lead to a deterioration of pluralism. Support is thus needed for them to improve their position, adapt their methods, continue providing a first-hand source of original reporting to citizens, help keep decision-makers accountable and ultimately contribute to a more diverse and independent sector. Actions must take place in EU member states plus Albania, Armenia, Bosnia and Herzegovina, Georgia, Kosovo, Montenegro, North Macedonia, Serbia, Tunisia and Ukraine.
Eligible Applicants:	Eligibility is limited to legal entities (public or private bodies).
Total Budget:	€6,900,000
