

UNIVERSITY OF WYOMING
Salary Adjustments Report
1 OCTOBER 2019

[Pursuant to 2019 Wyoming Session Laws, Chapter 80, Section 067. University of Wyoming,
Footnote #12]

To the Joint Appropriations Committee

Report Requirement:

[EMPLOYEE COMPENSATION]

Section 336.

(a) (ii) Two million seven hundred seventy thousand dollars (\$2,770,000.00) to the University of Wyoming pursuant to subsection (b) of this section for employees of the University of Wyoming, the University of Wyoming medical education program and the enhanced oil recovery commission;

(b) Funds appropriated under subsection (a) of this section shall be uniformly distributed to employees within each paragraph under subsection (a) of this section to provide for salary and employer paid benefit increases in a uniform percentage for the portion of an employee's or position's generally funded salary that is less than or equal to eighty thousand dollars (\$80,000.00) per year. No funds appropriated in this section shall be expended to provide for a percentage increase for the portion of an employee's or position's salary that exceeds eighty thousand dollars (\$80,000.00) per year.

(c) For state executive and judicial branch employees whose compensation is paid from nongeneral fund sources, to the extent funds are available, there is appropriated from those accounts and funds amounts necessary to provide payment of comparable percentage salary increases and employer paid benefits as that which is distributed to employees within each paragraph under subsection (a) of this section and subject to the limitations in subsection (b) of this section. For state executive and judicial branch employees, general funds shall only be expended for compensation increases in the same proportion as the employee's budgeted salary is paid by state general funds.

Given the available appropriation of \$2.77 million, the requirement that funds be uniformly distributed to employees, and that the increase only be applied to the portion of the employee's salary that is less than or equal to \$80,000, the University calculated 2.1 percent or \$1,680.00 as the maximum salary adjustment available to employees. As a result, all Fiscal Year Employees who had a hire date with the University or University affiliated agency on or before July 1, 2018 and had been continuously employed since their hire date as of July 1, 2019, were eligible for the salary increase capped at 2.1% or \$1,680 for employees making over \$80,000 and all Academic Year Employees who had a hire date with the University or University affiliated agency on or before September 1, 2018 and had been continuously employed since their hire date as of September 1, 2019, were eligible for the salary increase capped at 2.1% or \$1,680 for employees making over \$80,000.

Column A provides the Fund Class (high-level classification of the source of funds for a transaction), Entity (a subset of the University that is either a separate legal entity, a separately funded state agency or is required to issue its own financial statements), job title and position number. Column B provides the total annual salary by position number after the Section 336 salary increase and also provides the subtotal of total annual salary by all employees within a Fund Class and Entity. Column C provides the average salary increase within Fund Class, Entity and actual salary increase by position number. Column D provides the breakdown of the total salary amount distributed as a result of Section 336. Column E provides the associated fringe benefit amount associated with the additional salary. See Table 1. below for a breakdown of standard fringe benefit rates by position type. Column F provides the total salary and fringe benefit amount by position number with subtotals by Fund Class and Entity. Column G provides a calculation of the amount of column F was funded with the State General Fund appropriation from Section 336. The values in column G are a calculation based on revenue splits within the University’s unrestricted operating fund class and do not represent the actual funding split of General Fund/Other funds by position number. State General Fund appropriations account for 68.8% of unrestricted operating revenue through the close of FY2018.

Table 1. Standard Fringe Benefit Rates

Non-Sponsored Program Rates	FY2020
Faculty/Academic Professional	39.1%
Staff	49.3%
Student/Non-Benefited	1.8%
Sponsored Program Rates	FY2020
Faculty/Academic Professional	34.8%
Staff	42.5%
Student/Non-Benefited	1.8%
