Honors Program Internship – Wyoming State Science Fair

The University of Wyoming Honors College is offering a part-time internship for an honors student in November through March 2022-2023 (excluding official UW holidays). This internship will provide candidates opportunities to assist with the Wyoming State Science Fair, a formative a science, engineering and mathematics research competition for middle and high school students! This internship can be a very rewarding networking opportunity for honors students as they will be expected to work with many with current students, UW science graduate students, faculty, and educators/scientists from around the Rocky Mountain region.

Responsibilities:
- Help develop science fair curriculum to mentor middle school & high school student science research and/or mentoring student researchers as needed.
- Help coordinate and possibly attend field trips to energy sites designed to spark student science fair ideas.
- Publicize/promote the science fair program and generate student interest in participating.
- Help manage online registration for the Wyoming State Science Fair.
- Aid in making logistical arrangements for ~300+ students and associated parents/teachers to attend the Wyoming State Science Fair at UW in Early March 2023.
- Coordinating volunteer help (~50 people) just prior to and during the Wyoming State Science Fair event.
- Commit to 133 hours of work with the Wyoming State Science Fair. Heaviest workload will be from Late January through Early March.

Ideal candidates will have:
- A science, engineering or math background and an interest in STEM research.
- STEM research experience (prior or concurrent) is preferred.
- Excellent organizational and interpersonal skills are a must!

Description of award:
- A stipend of $2500 for the internship duration at a rate of $15/hr.

Contact Erin Stoesz at estoesz@uwyo.edu for more information.

Application:
To apply, please complete the online application by September 12, 2022. Please note that you will need to login using your UW credentials.
