

## NOTICE TO ALL BENEFITED EMPLOYEES

Benefited employees will notice a slight change in their retirement contributions that will begin to appear on the July 31<sup>st</sup> paychecks.

The employee contribution will increase from 2.305% to 2.68% in accordance with changes approved by the Wyoming state legislature in House Enrolled Act 11 (House Bill 46) that continues the strategy to gradually adjust the necessary contribution rates toward the Wyoming Retirement System Public Employee Pension Plan. This is the last increase in the seven-year plan. To ensure equal treatment of all employees, the contribution increase will also apply to employees who chose TIAA for their retirement plan.
