

# May 5/16, 5:30 pm

## InnoVRtors

### VR MAKER NIGHT

#### Fun with Virtual Reality applications

You're invited to a tutorial session where you will learn how to:

- Create a virtual environment using Unity and Oculus.
- Create an Android application for the Google Cardboard.

For this session you should bring:

- Laptop: Available to install, or already with, Unity 5, Android Studio and Java SDK.
- Android mobile device:
  - o Android 4.1 or above required.
  - o Gyro sensor required.

Please **reserve** your spot at [innovrtors@gmail.com](mailto:innovrtors@gmail.com).
