Increasing Support for Public Health Projects

3 credits, open to undergraduates

Spring 2021: online, asynchronous

UW Community & Public Health

Learn how to effectively build support for improving the health of your community. Support includes funding, coalition and partnership building, effective communications with the public and policy makers, and participatory project planning with community stakeholders. In addition, this course will cover how to establish project evaluation frameworks.

Instructor: Lacey Gaechter lgaechte@uwyo.edu

*MS in Kinesiology & Health, Community & Public Health Program at the University of Wyoming
Doctor of Public Health Student at the Johns Hopkins Bloomberg School of Public Health. Professional background in fundraising, marketing, and public health program administration in government and community-based organizations.*
