

**KIN/HLED - 4015 INTERNSHIP
KIN/HLED 4016 - RESEARCH EXPERIENCE**

FINAL REPORT

(at least three typed pages, single spaced)

Part I

Please provide a detailed summary of the projects and activities you have participated in over the last two weeks of the internship/research experience. In addition, be sure to include a descriptive summary of your overall experience.

Part II

Discuss how your experience has measured up to meeting your short-term and long-term goals and expectations (refer to Report 1). Be as specific as possible, including exactly what you expected to learn and how you reached that goal. Please discuss particular modifications if necessary.

Part III

Discuss particular aspects and activities that you enjoyed/disliked during your internship/research experience. What successes/challenges were you faced with? How did you handle any adversity? How effective was your supervisor(s) in fostering learning?

Part IV

In relationship to the skills and knowledge you have learned from your classes, how did you utilize them to become an asset to your internship's site? What role did this experience play in helping you with future career decisions?
