The Center for International Human Rights Law & Advocacy is pleased to announce law student summer internship funding for select opportunities. The Center will consider funding as many as four internships during the summer of 2026 at \$5,000 per student. The funding amount is not negotiable and must be applied to an internship. This is funding for a summer employment opportunity, not an externship for credit or an extension of International Human Rights Clinic activity. The funding is available to rising 2L and 3L law students and will be applied to the student's account. The funding will likely be divided in two \$2,500 tranches.

Please attach to this application a one- or two-page document containing the following:
