

Dear Colleagues – The purpose of this Info Blast is to inform you about the types of information our office puts together and to provide a brief summary of different projects we work on along with the findings. This time we want to highlight an analysis from the Brown & Gold and our enrollment summaries.

Brown & Gold Graduation Rate Analysis

Four-Year, Five-Year, and Six-Year Graduation Rate

This analysis shows UW graduation rates for all students entering in the fall term who enter UW as full-time, first-time degree-seeking undergraduate students. The analysis is a stacked bar/line graph to represent the four-year, five-year, and six-year graduation rates, as well as the number of entering students. In the example, for the cohort entering fall 2012, 27.1% graduate within four years (the gold section of the bar), 23.1% graduate within five years (the brown section), and 6.5% graduate within six years (the bronze section of the bar), for a total

six-year graduation rate of 56.7%. UW’s strategic planning goal is to meet a four-year graduation rate of 33% and a six-year graduation rate of 60% by the year 2022.

A few other notes about this analysis, when you choose a college, the graduation rate represents the college at the time of the student’s first enrollment into UW, however, the graduation rate is based on graduation from any UW college. A question we often get is why the data is so old. If a student enters in 2012, six years from entry means we must wait until summer 2018 to measure the rate. New data will be available in October after summer degrees are posted.

Enrollment Summaries

Every semester OIA puts together enrollment summaries that show basic stats about UW. Here is some of the information available at <http://www.uwyo.edu/oia/student-data/enrollment-summaries/index.html>:

- Student level
- Residency
- First-time students
- Transfer students
- Degree-seeking students
- Gender
- Ethnicity by gender & level
- Laramie Campus, UW-Casper, & Distance headcounts
- Full/Part-time
- Full/Part-time by residency
- Average age
- Age Distribution
- Class by gender & full/part-time
- College by level & gender

We have the reports posted from Fall 1997 forward. Beyond having information available to the public, our office uses the summaries to check that we report consistent, verifiable information for every new report we produce. Hope you find them as useful as we do.
