ANDREW J. EIS

A Five-Step Guide to Prepare for a Successful Oil and Gas Career

Abstract

It all started with a rejection letter, then an adventure west to Rock Springs, WY as a field engineer for Halliburton in the early days of the US Shale Revolution. Andrew will share his experiences and advice that formed the first half of his career, and his reflections looking towards the second half underway.

Biography

Andy is an oil and gas industry leader with nearly 20 years of operations and new technology development experience at Equinor, Halliburton, and start-ups most recently. He has lived and worked in multiple US basins and supported projects globally. Now living in Austin, TX, he serves as the VP of Product and Sales at Petrospects, consults, and is a full time Dad and youth baseball coach. He holds a BS in Mechanical Engineering from Iowa State University and an MBA from Oklahoma State University.
