Drew McMillan
Class of 2018
Cody, WY

Student Bio

Drew grew up in Cody, Wyoming. After high school he came to the University of Wyoming and completed his first two years of undergraduate prerequisites for the pharmacy program.

Drew has been active in a variety of organizations and he values the experiences he gained from the involvement. He says "the student activities helped me learn more about working as a group to put on a successful project and much more about major issues in pharmacy today." He also notes that having a cohort of classmates who are progressing through the same challenging schedule has been a valuable experience.

Drew is looking forward to gaining experience in different areas of pharmacy. He is especially interested in elective rotations in Emergency Medicine, Pediatrics, Cardiology, Critical Care, and Oncology.

When asked about his plans after pharmacy school, Drew says "I would like to work in a hospital pharmacy in a more rural setting to help manage patient care in medically underserved areas."
