

School of Pharmacy

Scholarship Profile

Mackenzie Meier
Class of 2019
Peetz, CO

Student Bio

Mackenzie is from Peetz, Colorado, a small town in the northeastern corner. After high school, she chose to attend the University of Wyoming to complete the pre-pharmacy coursework.

Mackenzie chose to stay at UW for her pharmacy education due to the small class sizes, attentive faculty, and amazing things she had heard about the school from past graduates.

So far, her favorite thing about the UW School of Pharmacy is the opportunity to be involved in many different organizations. She says "Because UW is a small school of pharmacy, this allows for one to really get active and involved within many different events."

After pharmacy school, Mackenzie plans to pursue a residency and specialize in ambulatory care pharmacy. She shares "This scholarship will help me overcome financial obstacles while attaining my career goals."

Mary Kay Cheney French Scholarship

This scholarship was established in honor of Mary Kay Cheney French (1962) for her contributions to the field of pharmacy.

It is intended to provide recognition and financial assistance to students of outstanding capability who are in need of financial assistance to complete their education.
