

Happy Spring! Hopefully wherever you are located the weather is turning more and more spring like and warm weather is on the horizon. Just like the changing season, our P4 students are eager to wrap up rotations and start a new season in their lives, as well. Thanks to all of your efforts they will soon be highly educated and mentored and ready for life as pharmacists.

As we think about our graduating students, it's a good time to reflect on the year and our roles as educators and how we can enhance the learning process for our students now and in the future. This quarter's PRN is focused on resources for preceptors to develop, expand upon or refresh their preceptor and clinical skills.

We hope you find this quarter's PRN useful. Please feel free to share your comments or provide suggestions for future topics in the PRN with the UWSOP Experiential Education program. You can contact us by phone at: 307-766-3090 or by email at: abrown13@uwyo.edu.

APhA Advanced Preceptor Training

For those of you who are seasoned preceptors, this program will give you access to peer-developed content that will provide additional knowledge and tools to enhance your teaching, communication, clinical and interprofessional skills. For new preceptors, the training program will provide you with a strong foundation to get started in your new role as a preceptor.

The Advanced Preceptor Training program is available through the American Pharmacists Association (APhA). It is an online program that provides 13 hours of ACPE approved continuing pharmacy education (CPE) focused on enhancing preceptor skills. The program requires all preceptors to experience the same baseline education and then allows for self-assessment to identify your educational needs within the three remaining content tracks. The certificate of completion requires the prerequisite activities, plus any 10 activities. In addition to the 13 hours of CPE credit, you will have access to the entire preceptor content for 365 days from the day you started the material.

The cost for APhA members is \$129.99. For non-members the cost is \$349.99. For more information, please visit the APhA Advanced Preceptor Training website at: <https://www.pharmacist.com/apha-advanced-preceptor-training>

Take Two Pills and Listen to This Podcast

These podcasts are independently created and hosted by Clinical Associate Professor for the UWSOP, Dr. Lauren Biehle Gory. Episodes provide quick tips for busy preceptors and focuses on topics such as planning and patient care, helping students be more prepared for educational opportunities, using games for learning, and much more. The podcasts are free and available on iTunes, Google Play, and Stitcher. Read more about them at: <https://www.twopillspodcast.com/>

Collaborative Education Institute CE

Preceptors for the UWSOP have access to free CE through the Collaborative Education Institute (CEI). Access to the CE programs is through E*Value. Topics range from having crucial conversations

with students, fostering interprofessional educational opportunities, giving good feedback and much more. Activities range from 30 to 90 minutes.

CEI can be accessed directly by current preceptors through E*Value, the rotation management system used by UWSOP.

1. Access the E*Value login page via the following link: <https://www.e-value.net>
2. Log in to your E*Value account and click on the **“Learning Modules”** tab
3. Choose **“CEI”** within the submenu Taskbar
4. Click on **“Connect to CEI Account”** which takes you to the CEI Preceptor Education page
5. To access modules specific to preceptors, click on the round **“Preceptor”** icon. You can register for free and complete the CE by following the on-screen prompts.

Acknowledgements & Achievements

Students from Howard University joined UWSOP students January 7-11, 2019 to tour Wyoming and learn about healthcare access issues in a rural environment as a part of the Health Equity Leadership Program (HELP). UWSOP students traveled to Washington, D.C. the week of April 8th to study healthcare access issues in an urban environment. HELP is funded by a grant from the NACDS Foundation.

Enjoy the sunshine!
