

PHIL 3000: Special Topics in Philosophy

PHILOSOPHY OF MENTAL HEALTH

FALL 2022

TR 9:35-10:50am

Engineering Bldg Rm 3102

Anxiety disorders, depression, eating disorders, addiction and dementia -- all of which are on the rise -- threaten our flourishing as human beings.

In this class we'll explore...

- models of mental health & mental disorders
- the relationship between mind and body
- autonomy & responsibility
- mental health stigmas
- epistemic injustice
- the role of emotions

Come learn
how to better
talk about
mental health
and its challenges.
