

What are the fundamental questions that have been driving science, math, philosophy, law, politics, and ethics since their origins in the Western World?

What is a friend, and what kind of friend are you?

What is the fundamental nature of reality and existence?

Who was Socrates, and why did he go with Bill and Ted?

Who are those guys in the marble busts?

**Why did they have such killer beards?**

Investigate all these questions and more in:

**PHIL 3120:**

**Ancient Greek Philosophy!**

**Dr. Robert Colter**

**MWF 9:00-9:50 am**
