

# Star of the Magi

*Albrecht Dürer: The Adoration of the Magi (engraving)*

**A seasonal planetarium show  
for the whole family**

**Narrated and presented by  
Physics & Astronomy Professor Chip Kobulnicky**

The book of Matthew describes a "star that rose in the East" as leading "magi" to the birthplace of Jesus. Could this star, depicted in artwork for nearly two thousand years, have been an astronomical event? A supernova? A comet? A planetary conjunction with great significance? Come speculate and learn about the heavens and wonder as astronomer Chip Kobulnicky presents some celestial possibilities that may underlie this storied event.

**at  
The University of Wyoming Harry C. Vaughn  
Planetarium**

**Friday, December 11 at 7:00 PM  
Friday, December 18 at 7:00 PM**

**Seating is limited!**

**Tickets by Reservation Only:**
