

# Curriculog Final Report November 2022

Committee University Review Course Committee

## Notes

Meeting Agenda 11/17/2022 3-5pm

Meeting #322

University Course Review Committee UCRC Members: Warrie Means, David Mukai, Karen Bartsch Estes, Kami Danaei, Steve Smutko, Nicole Choi, Janelle Krueger, Jenna Shim (Proxy Christi Thompson).

\*Kami Danaei was there for SER classes and then gave proxy to Karen Bartsch Estes.

Visiting Faculty: Brent Picket, Adam Tutt

Administrative Support: Jennifer Waluta, Molly DeLau

Total Proposals 84

## ACCT - 3070 - Tax I

2023-2024 Course Modify

### General Catalog Information

## \*\* READ BEFORE YOU BEGIN \*\*

The "**Acalog Hierarchy Owner**" identifies the area that should be displayed as the owner of this course in the catalog.

The "**Curriculog Approving Department/College**" identifies the area that should be included as the lowest level of approver and initiates the workflow.

The Acalog Hierarchy Owner should import from Acalog, to enter the Curriculog Approving Department, select the School/College or Department, from the dropdown menu. Click "Save All Changes" at the bottom of the form to populate the workflow and confirm the correct approver.

**\*Note:** These two areas may be the same, but both fields are required.

Old Course  
Description

New Course  
Description\*

Tax and Business Strategy develops a student's ability to identify, understand, and evaluate tax-planning opportunities. The focus is on algebraic tax planning concepts and the effects of taxes on business decisions rather than on detailed tax rules, compliance, or legal research. The objectives are to develop and apply a theoretical tax planning framework that can then be applied to business decisions. \*Math 2200 and 2205 are encouraged

Course Title\* Equine Industry Career Preparation

Course Title (Short)\* Equine Industry Career Prepara

Course Description\*

Explores opportunities for employment in the equine industry, identifying the right job for you, and developing a plan for securing that job. Focuses on self-evaluation, developing a career strategy, preparing a resume and cover letter, and interview skills. Includes guest speakers, field trip experiences, and networking with equine industry professionals.

Activity Type\*

Lecture

Rationale for New Course:\*

This was offered as a problems course for our equine concentration students after hearing students express their interest in both learning more about jobs in the equine industry and students wanting more experience with resumes, cover letters, & interview skills. After 2 successful semesters of undergraduate enrollment of over 10 students each semester and positive student feedback, the department supports this as a required course for our equine concentration students in ANSC. This course helps guides equine students towards a career in the horse industry and aids in their professional development.

What extra material resources will be required?

Extra material resources would be rental vehicles/travel fees that would be covered with student fees and/or teaching fees

**What personnel resources will be required?**

There would not be an increase in the personnel resources for this course

**What is the impact on other courses?**

This class could increase the enrollment in other equine courses and the overall department enrollment as they are able to grow their professional development for their career in horses

**What courses does this course resemble or overlap in content or title? How does it differ?**

There is not a current similar course to this ANSC 2000 course to my current knowledge. It is innovative in helping equine student identify and pursue a career in the horse industry while improving their professional development skills.

Activity Type\*

Lecture

Former Course  
Number

FCSC 1150

Rationale for Course  
Change:

The departments of Animal Science and Family and Consumer Sciences have joined efforts to teach Scientific Study of Food. We began the process in September 2021 with the modification of FDSC 1410 Food and Well-Being which was re-titled Scientific Study of Food. The intent was to cross-list that course with a modification of the FCSC 1150 course of the same title but the entire CARF process to make that happen was not ready for submission at that time. This modification is to change the course description, course number and USP status of FCSC 1150 to FCSC 1410 to match FDSC 1410 so the two courses can be cross-listed.

Additional Notes not  
Covered on this  
Form:

The departments of Animal Science and Family and Consumer Sciences have worked jointly on this course modification.

Course Description\*

This course builds on the introductory course in Blockchain and explores the role of Blockchain in payment systems, banking, central banking, and the whole spectrum financial services. The course starts with an overview history of money. The course then examines theories of money and explores the role of digital money (and by extension Blockchain) within these frameworks. The typical discussions revolves around: CBDC, Stablecoins, DeFi, DAOs, Blockchain Governance, and Smart Contracts.

**Rationale for New Course:\***

We have offered this course using a general elective designation as part of already established blockchain minor. This deprives students from flexibility with respect elective designation. Since this course is an integral part of the blockchain minor and also works as approved elective under banking minor, we need to establish this course as a finance course with permanent designation. To avoid excessive burden, as of now, the elective course FIN 4910 accept Junior Standing as a prerequisite. To make a continuity with other required courses in blockchain, we propose to have BKCH 3021 (Blockchain Fundamentals) as a prerequisite. This course does not discontinue any existing course. Rather, this new course frees up FIN 4910 to be used for another elective topic by students.

Furthermore, we propose this course to be cross-listed as FIN 5221 to accommodate our Master of Finance curriculum with badly needed elective courses. This will also help to introduce finance graduate students to UW's blockchain activities, thus fostering true cross-disciplinary collaborations.

## General Catalog Information

### \*\* READ BEFORE YOU BEGIN \*\*

The "**Acalog Hierarchy Owner**" identifies the area that should be displayed as the owner of this course in the catalog.

The "**Curriculog Approving Department/College**" identifies the area that should be included as the lowest level of approver and initiates the workflow.

To enter the Acalog Hierarchy Owner and Curriculog Approving Department, select the School/College or Department, from the dropdown menu. Click "Save All Changes" at the bottom of the form to populate the workflow and confirm the correct approver.

**\*Note:** These two areas may be the same, but both fields are required.

Catalog Owner \*

Online Master of Business Administration

Approving  
Department/College\*

Online Master of Business Administration

## Form Instructions

**FILL IN** all fields required marked with an \* after importing data.

**ATTACH** supporting documentation.

Complete the **Acknowledgement** section.

**LAUNCH** proposal by clicking Validate and Launch at the top.

Once the proposal has been launched, approve the proposal to move the proposal forward in the workflow.

### NOTES:

To add a course, all sections of the CARF must be completed and a proposed syllabus meeting UW regulation 6-809 must be attached.

Governed by UW Regulations 2-116 & 2-112.

Changes cannot take effect for a given semester once registration opens for that semester.

**Rationale for Course Change:**

Faculty realized that learning psychiatric diagnostic criteria was missing from this course. Learning psychiatric diagnostic criteria is critical, as all psychiatric assessment and specialty techniques are focused on ruling in or ruling out these diagnostic criteria.

Lecture

**Rationale for New  
Course:\***

In UWC 3100, Leading Organization Innovation, Creativity, and Planning, students will acquire knowledge through a survey of leading theories of organizational change. Students will learn the core principles of each theory, which involves inspiring positive changes in those led. The leader is vested in the success of every single member involved in the process. Students will begin to understand how to empower an organization to create, plan, and innovate to achieve success and produce positive results within its structure.

**What extra material  
resources will be  
required?**

**What personnel resources will be required?**

**What is the impact on other courses?**

**What courses does this course resemble or overlap in content or title? How does it differ?**

**Additional Notes not Covered on this Form:** FYS 1101 - This is a similar business problem solving seminar, but very introductory content, and lacks depth for a 3000 course

**Rationale for New  
Course:\***

This proposed course represents a new course for the BAS Organizational Leadership online program. This course will serve as an option necessary to fulfill the the requirements of the BAS program. In order to foster critical reflection and more self-aware leadership, the course begins with a survey of three of most influential moral theories: utilitarianism, deontology (Kantian ethics), and virtue ethics. We will then read and reflect about how context matters, that reasoning about the best course of action may be different in an institutional setting than in one's private life or a typical interpersonal setting. In addition, what kind of context also matters, such as in a public agency versus a not-for-profit versus a private corporation. In the final weeks of the semester we will critically examine case studies of moral issues in a range of institutional settings.

Course Title (short)\* First-Year Seminar

Course Type\*

Psychology

Course Description\*

Political ecology is a multidisciplinary field of study that emphasizes the role of politics, power relations, and inequality in the study of human-environment relations. In this course we will consider how political ecology can help us rethink environmental knowledge and problem solving in a variety of contexts locally and globally.

Level Code\*

UG: 4999 Lower

What personnel resources will be required? \*

None

Rationale for Inactivation Course:\*

was not reapproved by USP committee, FYS is paused anyway, course description is incorrect and for some reason has a prereq of 9 credits of poli sci)

Is a USP is part of the discontinuation? \*

Yes

No

If yes above, which USP attributes are

FYS

being removed?

Is an A&S College Curriculum attribute being removed? \*  Yes  No

A&S College Curriculum attribute to be removed\*  D  G  None

**Rationale for Course Change:** The DOSW, with approval from Office of Graduate Education, has moved from an academic program to a professional degree program. As a result, the division is no longer required to continue with the Plan B academic requirement. As a professional degree program, DOSW faculty decided that a portfolio would be more pertinent and of more importance to our students in demonstrating required mastery of core competencies as defined by Council on Social Work Education, the social work accrediting body.

**Old Course Title** Dialects for the Actor

**New Course Title\*** Advanced Speech and Dialects

**New Course Title (Short)\*** Advanced Speech and Dialects

**Old Course Description** Introduces the actor to five major dialects for the stage. Examines sensibility, vowel and consonant changes, pitch placement and charting.

**New Course Description\***

Advanced Speech and Dialects will build upon the skills from 2170 to amplify a speaking voice for the stage without tension. Students will use IPA to score text and apply signature sound changes into various dialects, vocally support breath and text for screen acting and stage acting, authentically and intelligibly.

Activity Type\*

Lecture

Former Course Number 3950

Rationale for Course Change:

With the addition of a new faculty member in voice, speech and dialects, and a desire to condense 3 courses to two, this course will focus on advanced speech techniques and dialects for a better student experience.

Additional Notes not Covered on this Form:

No syllabus for previous iteration of the course is available.

## Impact, Attachments and Acknowledgments

### IMPACT REPORT STATEMENT

At the top of the page, click on Run Impact Report. Copy the results of the Impact Report and paste them into the space below.

## General Catalog Information

### \*\* READ BEFORE YOU BEGIN \*\*

The "**Acalog Hierarchy Owner**" identifies the area that should be displayed as the owner of this course in the catalog.

The "**Curriculog Approving Department/College**" identifies the area that should be included as the lowest level of approver and initiates the workflow.

To enter the Acalog Hierarchy Owner and Curriculog Approving Department, select the School/College or Department, from the dropdown menu. Click "Save All Changes" at the bottom of the form to populate the workflow and confirm the correct approver.

**\*Note:** These two areas may be the same, but both fields are required.

Catalog Owner \*

Zoology

Approving  
Department/College\*

Zoology

## Form Instructions

**FILL IN** all fields required marked with an \* after importing data.

**ATTACH** supporting documentation.

Complete the **Acknowledgement** section.

**LAUNCH** proposal by clicking Validate and Launch at the top.

Once the proposal has been launched, approve the proposal to move the proposal forward in the workflow.

### NOTES:

To add a course, all sections of the CARF must be completed and a proposed syllabus meeting UW regulation 6-809 must be attached.

Governed by UW Regulations 2-116 & 2-112.

Changes cannot take effect for a given semester once registration opens for that semester.

Cross Listed

Prerequisites (LIFE 1010) and (STAT 2050 or STAT 2070 or LIFE 2100) and (ZOO 2450 or ENR 2450)

Enforce in Banner\*  Yes  No

Grade Mode A/F

Activity Type\*

**Rationale for New Course:\*** Request to dual list this (new proposed) undergraduate elective course to be dual listed with ZOO 5530 (R Intro for Wildlife Ecology). Educating our students in data science is an important component of UW's vision. The coding language R is the main data management, analysis, and visualization software for most ecology and biology fields. The proposed course would be a valuable elective for many majors, particularly in Zoology and Wildlife/Fisheries Biology and Management, Environment and Natural Resources, Ecosystem Science and Management, and other biology-related majors.

What extra material resources will be required? none

**What personnel resources will be required?**

The instructor is currently teaching ZOO 5530, and thinks there is ample room to include more students (including undergraduates) in the course.

**What is the impact on other courses?**

No impacts on existing courses would be expected; this is a newer course focused on an introduction to R. This proposal was reviewed by department level curriculum committees and faculty.

**What courses does this course resemble or overlap in content or title? How does it differ?**

This course does not overlap with any other courses.

**Additional Notes not Covered on this Form:**
