## **Secondary Earth Science Education, BA** with Concurrent<sup>†</sup> Major in Geology

### **University of Wyoming, 2017-18**

The College of Education maintains rigorous admission standards to ensure the quality of preparation for future educators. **New, first time students** who meet the University of Wyoming's standards for admission may declare a major in elementary education, secondary education in a specific content area, or education undecided provided they have a minimum ACT composite score of 21 and ACT math score of 21; a lower ACT math score can be replaced by a UW Math Placement Exam (MPE) score of 2 or higher. If electing to pursue education undecided, it is recommended that students decide on their teaching content area no later than the first semester of their sophomore year.

Current UW students wishing to change their major, students seeking re-admission to UW, or those transferring to UW from another institution can learn more about the specific admission requirements for these groups at www.uwyo.edu/ted/admission requirements.html.

All students must undergo and pass an initial criminal background check prior to full admission to the College of Education. Any costs associated with the background check are the responsibility of the student. A second background check is included as part of the state application process for the Wyoming Substitute Teaching Permit, which is required for admission to Phase II of UW's teacher education program. Criminal background checks are a standard for the profession.

This is a guide for course work in the major; actual course sequence may vary by student. Please refer to the online student degree evaluation, and consult with an academic advisor. • Not all courses are offered every semester and some electives may have prerequisites. Students should review the course descriptions in the *University Catalog* and consult with their academic advisor to plan accordingly.

#### University of Wyoming requirements:

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U. • University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

#### College of Education requirements:

This plan assumes student college readiness. Students should be able to start taking 1000-level courses the first semester of college. • All professional education courses must be completed with a grade of C or higher. Grades of C- or lower will not satisfy this requirement.

# Secondary Earth Science Education, BA with Concurrent Major in Geology

### **University of Wyoming, 2017-18**

† Concurrent Majors. Students may pursue a concurrent major in one or more colleges. Only one degree (BA, BS, etc.) will be awarded from the college of the primary major. All university curricular requirements, including the University Studies Program requirements, must be met only once. Requirements for secondary major/s will be established by the academic departments and may include college requirements, in addition to all major requirements. An academic advisor in each major is required and each adviser must review requirements. The degree will be granted on one date only and only one diploma will be awarded. Both majors will be indicated on the academic transcript and diploma.

# The Wyoming Teacher Education Program operates in a series of phases: Phase II, Phase III, Phase IIIa, and Phase IIIb. Continuation in the program in any content area is dependent upon the successful completion of prerequisites for each phase. Specific information about these requirements can be found on the program sheets for each content area that are located at <a href="https://www.uwyo.edu/ted/majors-and-program-sheets">www.uwyo.edu/ted/majors-and-program-sheets</a>.

#### Secondary Earth Science Education-Concurrent Major in Environmental Systems Science Program Notes:

- A minimum 2.5 gpa is required in major content. All major content courses must be completed with a grade of C or higher. Grades of C- or lower will not satisfy this requirement.
- \* Requires MATH ACT  $\geq$  23, MATH SAT  $\geq$  600, Math Placement Exam  $\geq$  3, or concurrent enrollment in MATH 1400, 1405, or 1450. (University standard)
- \*\* Requires MATH ACT  $\geq$  25, MATH SAT  $\geq$  600, Math Placement Exam  $\geq$  4, or  $\geq$  C in MATH 1400
- \*\*\*Geology Elective--take 6 of the following courses; 9 hours must be upper division (3000 or above)
  - ATSC 2000 Introduction to Meteorology OR GEOG 3450 Weather & Climate
  - GEOL 2050 Principles of Paleontlogy
  - GEOL 2070 Introduction to Oceangraphy
  - GEOL 3005 Principles of Geophysics
  - GEOL 3400 Geologic Hazards: A Historical & Scientific Review
  - GEOL 3500 Global Change: A Geological Perpsective
  - GEOL 3600 Earth & Mineral Resources
  - GEOL 4444 Geohydrology
  - GEOL 4490 Geochemistry
  - GEOL 4610 Structural Geology & Tectonics
  - GEOL 4835 Applied/Exploration Geophysics
  - ECON 2400 Economics of the Environment
  - GEOG 3010 Geomorphology of Eath's Dynamic Landscapes
  - POLS 4051 Environmental Politics
  - SOIL 4120 Genesis, Morphology, & Classification of Soils
  - ECON 4400 Environmental Economics
  - ECON 4410 Natural Resources Economics
