Students will master advanced research strategies with interdisciplinary applications. Focuses on primary research and the development of advanced skills in information literacy, critical analysis of sources, verification of evidence, techniques for researching underdocumented populations, and interpretation of historical evidence. Advanced writing and oral presentation skills are emphasized.

**Dual Listed** HIST 5055.

**Prerequisite:** 9 hours of HIST, including HIST 2050 or HIST 2700.

**HIST4060 - Independent Study**

Credits: 1-3
Max Credit 6

Credit not to exceed 6 hours maximum, to be arranged in either European or American history. Primarily for juniors and seniors who can profit from independent work with minimal supervision.

**Prerequisite:** 12 semester hours in history; written permission of instructor required.

**HIST4077 - Book History: Topics**

Credits: 3
Max Credit (Max. 6)

An in-depth, hands-on study of books within their historical contexts. The topic will vary each time and focus on a particular theme, time period, place, or culture. Taught at the Rare Books Library, American Heritage Center, using...
original books or facsimiles. May be repeated once for credit.

**Dual Listed** HIST 5077.  
**Prerequisite:** 9 hours of HIST.

**HIST4100 - Early Medieval Europe**

Credits: 3  
Studies development of European civilization from decline of Rome to 12th century.

**Dual Listed** HIST 5100.  
**Prerequisite:** 9 hours of HIST.

**HIST4110 - The High Middle Ages**

Credits: 3  
Studies history of European civilization between the 12th and 15th centuries.

**Dual Listed** HIST 5110.  
**Prerequisite:** 9 hours of HIST.

**HIST4112 - History of the Medieval City**

Credits: 3  
After the fall of the Western Roman Empire, cities virtually disappeared from Western Europe. Around 1000 Europe began its rise to world prominence and cities contributed to that rise. Examines development of cities in medieval Europe and explores life within those cities.

**Dual Listed** HIST 5112.  
**Prerequisite:** 9 hours of HIST.

**HIST4113 - Medieval Religious Dissent**

Credits: 3  
Religious dissent in the Middle Ages included what some would call heresy, but also encompasses such marginal groups as Jews and witches. Examines development of orthodoxy and persecution of religious diversity between eleventh and 16th centuries within the historical context of the times.

**Cross Listed** RELI 4113.  
**Dual Listed** HIST 5113.  
**Prerequisite:** 9 hours of HIST or RELI.

**HIST4120 - Europe During the Renaissance**

Credits: 3  
Intensely studies European history in 14th and 15th centuries.
**Prerequisite:** 9 hours of HIST.

**HIST4130 - Europe During the Reformation**

Credits: 3
Intensely studies European history in the 16th century.

**Prerequisite:** 9 hours of HIST.

**HIST4140 - Europe During the Age of the Baroque**

Credits: 3
Intensely studies European history in 17th century.

**Prerequisite:** 9 hours of HIST.

**HIST4150 - Europe During the Age of the Enlightenment**

Credits: 3
Intensely studies European history in 18th century.

**Prerequisite:** 9 hours of HIST.

**HIST4170 - Europe in the Nineteenth Century**

Credits: 3
An intensive study of European history from the beginning of the nineteenth century through to the origins of the First World War in 1914.

**Dual Listed** HIST 5170.
**Prerequisite:** HIST 1120.

**HIST4174 - Judaism from Ezra to Jesus**

Credits: 3
This course focuses on the religious and historical development of Judaism during the centuries between the end of the Old Testament and the New Testament, studying the arrival of Greek and then Roman culture and the changes Judaism underwent during that time that endure today.

**Cross Listed** RELI 4174.
**Prerequisite:** WB or COM2, and RELI 1000 or RELI 2110.

**HIST4175 - Judaism at the Dawn of Christianity**
Credits: 3
Judaism is the only Mediterranean religion that was practiced in the ancient world as well as in Late Antiquity and beyond. This course helps students analyze how Judaism was able to change and adapt at key moments to provide its adherents with an active, living religion that addressed their needs.

**Cross Listed** RELI 4175.  
**Prerequisite:** RELI 1000 or RELI 2110, and junior standing.

**HIST4180 - Europe in the 20th Century**

Credits: 3  
An intensive study of European history from 1914 through 2000.

**Dual Listed** HIST 5180.  
**Prerequisite:** 9 hours of HIST.

**HIST4270 - France: Old Regime and Revolution**

Credits: 3  
The social, political and cultural history of early modern France (1598-1789), from the rise of the Absolutist state under Louis XIV to the outbreak of the Revolution. Explores the cultural and intellectual shifts from court culture at Versailles, to the Enlightenment, to the rise of revolutionary ideologies.

**Dual Listed** HIST 5270.  
**Prerequisite:** 9 hours of HIST.

**HIST4290 - History of the Soviet Union**

Credits: 3  
Depicts Russia under Communism, including particularly the development of totalitarian dictatorship in its political, economic, social and cultural manifestations.

**Dual Listed** HIST 5290.  
**Prerequisite:** 9 hours of HIST.

**HIST4305 - Global History**

Credits: 3  
Thematically focused examinations of interactions or parallel phenomena in multiple world regions. Courses may be comparative (comparing two empires, or multiple revolutions), or may examine the growth of a particular trend globally (e.g. abolition of slavery), or the interaction of many states (e.g. the Cold War).

**Dual Listed** HIST 5305.  
USP 2003-2014 Code U3G  
**Prerequisite:** 9 hours of HIST, INST, or POLS.
HIST4310 - World War II in Europe

Credits: 3
Covers the origins, course and consequences of one of this century's defining global developments. World War II in Europe was a transnational development which shaped the world as it is known today.

Dual Listed HIST 5310.
Prerequisite: 9 hours of HIST.

HIST4315 - History, Politics and Memory of the Holocaust in Europe

Credits: 3
Offers students the opportunity to learn about the history of the Holocaust through travel to various sites in Central Europe where the events themselves occurred, such as Berlin, Warsaw, Krakow and Auschwitz-Birkenau.

Cross Listed INST 4315.
Dual Listed HIST 5315.
Prerequisite: 9 hours of HIST or INST.

HIST4320 - Memory and National Identity in Twentieth Century Europe

Credits: 3
Europe in the twentieth century saw a century of unprecedented violence. Examines the public representation of such historical trauma through the concept of "collective memory" and focuses in particular on how memory has become a contested part of defining identity in modern-day Europe.

Dual Listed HIST 5320.
Prerequisite: 9 hours of HIST.

HIST4340 - The Social History of American Women

Credits: 3
Explores everyday life experiences of American women from the 17th century to the present. Focuses on the complex influence of gender, race and class in shaping those experiences; also, analyzes the ways in which women's dissatisfaction with their position in society formed the basis for the development of American feminism and led to the formation of an organized women's movement.

Dual Listed HIST 5340.
USP 2015 Code U5H
Former Course Number [4840]

Prerequisite: 9 hours of HIST or GWST.

HIST4380 - International History of Human Rights
Examine the modern history of human rights in the global system, with particular emphasis on developments since the Second World War. Topics include the philosophy of human rights ideas; the histories of rights and rights violations in various regions; and the resulting international responses.

**Cross Listed** INST 4380.
**Dual Listed** HIST 5380.
**Prerequisite:** 9 hours of HIST or INST.

**HIST4400 - Internship**

Credits: 1-12
Max Credit (Max. 12)

The internship allows students to gain hands-on experience that will help to bridge the gap between history as an academic discipline and history as practiced in museums, public history agencies and historic sites. Specific arrangements must be made in advance to identify the academic component of the internship and the grading criteria. Such planning will be done in consultation with the department's internship director.

**Prerequisite:** 9 hours of HIST.

**HIST4405 - American Encounters to 1850**

Credits: 3

The history of America as a history of continuous encounters. Examines the history of the American people by focusing on a series of critical encounters between Native American, European, African and Asian people from pre-contact through the mid-19th century.

**Dual Listed** HIST 5405.
USP 2003-2014 Code U3D
USP 2015 Code U5H
**Prerequisite:** 9 hours of HIST.

**HIST4406 - American Encounters from 1850**

Credits: 3

The history of America as a history of continuous encounters. Examines the history of the American people by focusing on a series of critical encounters between Native American, European, African, and Asian people from the mid-19th century to the present.

**Dual Listed** HIST 5406
USP 2003-2014 Code U3D
USP 2015 Code U5H
A&S College Core 2015 ASD
**Prerequisite:** 9 hours of HIST.

**HIST4410 - America in an Early Modern World**
Credits: 3
Explores the American colonial experience as part of a worldwide process of colonial encounters with indigenous peoples between 1400 and 1800. Compares the experiences of early modern colonization in North and South America, Asia, and the Pacific and examines the nature of the colonial societies created by these cross-cultural relationships.

**Dual Listed** HIST 5410.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG
**Prerequisite:** 9 hours of HIST.

**HIST4412 - Global Environment History**

Credits: 3
This course is designed to introduce undergraduate and graduate students to the new field of global environmental history. The Global Environmental History course will provide a new way of looking at humans, animals, and the lives they've built in the environment and the costs of their decisions to the environment.

**Cross Listed** ENR 4412.
**Dual Listed** HIST 5412.
USP 2015 Code U5H
**Prerequisite:** 9 hours of HIST or ENR.

**HIST4415 - Entangled Worlds, Entangled Lives: Indigenous People and Colonizers Before 1850**

Credits: 3
The experiences of indigenous people and colonizers in Africa, Eurasia, the Americas, and the Pacific as they forged new colonial societies in the first global age (1400-1850). Emphasis throughout the course will be on the often-overlooked role of indigenous people in creating colonial societies.

**Dual Listed** HIST 5415.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
**Prerequisite:** 9 hours of HIST.

**HIST4425 - Britain's Global Empires: 1558 to the Present**

Credits: 3
Britain's four distinctive empires from Elizabeth I through the present. Emphasis throughout the course will be on the creation and operation of these distinctive but related empires with a special focus on the impact empires had on both colonized people and the people of Britain.

**Dual Listed** HIST 5425.
A&S College Core 2015 ASG
**Prerequisite:** 9 hours of HIST.

**HIST4450 - The Civil War and Reconstruction**
Credits: 3
Studies crisis of the Union, 1861-1877. Examines experiences of both the North and South during the Civil War and restoration of the Union after the war.

**Dual Listed** HIST 5450.
**Prerequisite:** 9 hours of HIST.

**HIST4460 - Post-Civil War America: The Gilded Age**

Credits: 3
Intensively covers economic, cultural and political developments which marked the U.S. in post-Civil War era, such as rise of industry, emergence of distinctive national culture and party struggles shaping America's Gilded Age.

**Dual Listed** HIST 5460.
**Prerequisite:** 9 hours of HIST.

**HIST4462 - American Indian History to 1783**

Credits: 3
Surveys the history of American Indians from the period before contact to the end of the American Revolution. Examines the various contacts between American Indians and Europeans and considers what the American Revolution meant to the continent's Native peoples.

**Cross Listed** NAIS 4462.
**Dual Listed** HIST 5462.
USP 2015 Code USH
**Prerequisite:** 9 hours of HIST or NAIS.

**HIST4463 - American Indian History 1783 to 1890**

Credits: 3
Surveys the history of American Indians during the era of westward expansion. Examines the impact of American westward movement and also the manifold changes that accompanied moving west.

**Cross Listed** NAIS 4463.
**Dual Listed** HIST 5463.
USP 2003-2014 Code U3D
USP 2015 Code USH
A&S College Core 2015 ASD
**Prerequisite:** 9 hours of HIST or NAIS.

**HIST4464 - American Indians in the Twentieth Century**

Credits: 3
Surveys the history of American Indians during the twentieth century. Examines the development of new cultural, social and political forms that help create an American Indian identity.
Cross Listed NAIS 4464.
Dual Listed HIST 5464.
USP 2003-2014 Code U3D
Prerequisite: 9 hours of HIST or NAIS.

HIST4466 - American Indian Ethnohistory

Credits: 3
Surveys ethnohistorical methods and concepts and provides students concrete opportunities to use these methodologies in writing exercises. American Indian ethnohistory explores Native American experiences within their own cultural contexts.

Cross Listed NAIS 4466.
USP 2003-2014 Code U3D
Prerequisite: 9 hours of HIST, NAIS, or ANTH.

HIST4468 - American Indians in the North American West

Credits: 3
One of the defining features of the North American West is the presence of American Indians. Through the discussion of varied readings and primary document research, the history of American Indians in the West is examined, with particular emphasis on the Great Plains and California.

Cross Listed NAIS 4468.
USP 2003-2014 Code U3D
Prerequisite: 9 hours of HIST or NAIS.

HIST4470 - The Birth of Modern America, 1890 to 1929

Credits: 3
Studies political and diplomatic developments in the U. S. in the wake of industrialization and massive immigration. Some attention to cultural and social themes. Emphasizes shifting nature of reform between depression of the 1890s and that of the 1930s.

Dual Listed HIST 5470.
Prerequisite: 9 hours of HIST.

HIST4475 - American Environmental History

Credits: 3
Explores history of American attitudes and actions toward the land and natural resources.

Dual Listed HIST 5475.
Former Course Number [4670]

Prerequisite: 9 hours of HIST.
HIST4480 - Growth of Modern America, 1929 to 1960

Credits: 3
Studies political and diplomatic developments in the U.S. in Depression, World War II and early Cold War periods. Some attention to cultural and social themes. Emphasizes economic crisis, growth of government, reform traditions, anti-communism and civil rights.

Dual Listed HIST 5480.
Prerequisite: 9 hours of HIST.

HIST4485 - U.S. Latino Diaspora

Credits: 3
Combines classroom activities and a week-long stay abroad in examining the historical creation and contemporary spread of the Latino Diaspora from the Caribbean to the Yucatan and beyond. U.S. Latina/o history, multiculturalism, pan-Latino identity, assimilation, migration trends and natives' responses are stressed.

Cross Listed LTST 4485/INST 4485.
Prerequisite: 9 hours of LTST, HIST, and/or INST related coursework.

HIST4490 - Modern America, 1960 to Present

Credits: 3
Studies political and diplomatic aspects of the U.S. since 1960. Emphasizes impact of Cold War, social and political tensions at home, civil rights and government policies.

Dual Listed HIST 5490.
Prerequisite: 9 hours of HIST.

HIST4492 - Revolutions in Latin America

Credits: 3
Explores the meaning and impact of revolution in Latin America's modern history, focusing on political ideology, cultural expression, foreign relations, human rights, and globalization. Offers in-depth analysis of revolutions from the early nineteenth century to the present.

Cross Listed LTST 4492.
Dual Listed HIST 5492.
USP 2003-2014 Code U3CS, U3G
A&S College Core 2015 ASG
Prerequisite: 9 hours of HIST or INST.

HIST4494 - The U.S. in Latin America

Credits: 3
This course explores Latin America's experiences with the United States during the twentieth century. The class addresses U.S.-Latin American relations from a variety of angles, covering topics from military intervention and
government policies, to informal imperialism and cultural exchanges through film and literature.

**Dual Listed** HIST 5494.
USP 2015 Code U5H
**Prerequisite:** 9 hours of HIST or INST.

**HIST4495 - Borderlands in Latin America**

Credits: 3
Examines borderlands and frontiers in Latin American history, focusing on the U.S.-Mexico border region, the Southern Cone, and the Caribbean. Key issues include cultural contact zones, colonialism, military expansion and conflict, and nation-building.

**Dual Listed** HIST 5495.
**Former Course Number** [4720]

**Prerequisite:** 9 hours of HIST or INST.

**HIST4496 - History of Mexico**

Credits: 3
Intensive course in Mexican development. Emphasizes the 20th century especially the Mexican Revolution of 1910, showing how this nation transformed itself into a modern nation-state. Includes diplomatic relations with the U.S., incorporation of Indians, church-state relations, uses of land and other natural resources, role of the military and growth of Mexican nationalism.

**Cross Listed** LTST 4496.
**Dual Listed** HIST 5496.
**Former Course Number** [4800]

**Prerequisite:** 9 hours of HIST or INST.

**HIST4505 - The Old South, 1820 to 1861**

Credits: 3
Studies history of the South from emergence of southern identity to the Civil War. Emphasizes southern society and culture.

**Dual Listed** HIST 5505.
**Former Course Number** [4500]

**Prerequisite:** 9 hours of HIST.

**HIST4510 - Modern East Asia**
Credits: 3
Focuses on the emergence of the modern East Asian states China, Japan, Korea, and Vietnam as individual states and members of this important region historically and in contemporary era, understanding the emergence of those states as responses to internal forces and external pressures such as imperialism, nationalism, Communism and Capitalism.

Dual Listed HIST 5510.
Former Course Number [4950]

Prerequisite: 9 hours of HIST.

HIST4515 - American Legal History

Credits: 3
An intensive course in the history of American law, the judicial system, the legal profession and legal administration from colonial times to the present.

Dual Listed HIST 5515.
Former Course Number [4710]

Prerequisite: 9 hours of HIST.

HIST4530 - 19th Century American West

Credits: 3
A study of the westward movement with emphasis on the trans-Mississippi West.

Dual Listed HIST 5530.
Former Course Number [4630]

Prerequisite: 9 hours of HIST.

HIST4535 - History of Oil

Credits: 3
Intensive study of the history of oil development throughout the world. Emphasizes comparative studies of the industry as it developed in various parts of the world and during various time periods, from pre-historic times to the present. The Wyoming oil/energy mineral history is an important component.

Dual Listed HIST 5535.
Prerequisite: 9 hours in history.

HIST4540 - 20th Century American West

Credits: 3
A study of the modern American West, with consideration of social, economic and political continuity and change.
**Dual Listed** HIST 5540.

**Former Course Number** [4640]

**Prerequisite:** 9 hours of HIST.

**HIST4545 - The Multicultural West**

Credits: 3
Explores the American West as a meeting ground of diverse peoples and their diverse cultures. Focuses on the sustained cross-cultural interchange between Native Americans, Euro-Americans, African Americans, Latin Americans, and Asian Americans from trans-Appalachia to the Pacific Coast from the eighteenth century to the present.

**Prerequisite:** 9 hours of HIST.

**HIST4560 - American Social History in the 20th Century**

Credits: 3
Explores history of social mobility and conflict in 20th century. Emphasizes impact of industrialization, rapid urbanization, massive immigration, ethnic minorities, race, religion, women and the family, painting and architecture.

**Dual Listed** HIST 5560.

**Prerequisite:** 9 hours of HIST.

**HIST4582 - 20th Century U.S. Foreign Relations**

Credits: 3
Studies Twentieth Century United States foreign relations with a focus on the Cold War period. Examines economic sources of policy decisions, elites and mass public opinion, as well as cultural, religious, ethnic, racial, and gender issues.

**Cross Listed** INST 4582.

**Dual Listed** HIST 5582.

**Prerequisite:** 9 hours of HIST or INST.

**HIST4610 - Seminar Topics in the History of Wyoming I**

Credits: 3
An intensive research and writing course dealing with topics in the period before statehood in 1890.

**Prerequisite:** 9 hours of HIST, including HIST 1251.

**HIST4620 - Seminar Topics in the History of Wyoming II**
Credits: 3
Allows students to do intensive research and writing dealing with topics in Wyoming history from 1890 to present.

**Prerequisite:** 9 hours of HIST, including HIST 1251.

**HIST4965 - Senior Thesis**

Credits: 3
Working closely with a faculty advisor, a history major will develop a research proposal that, after approval by the History department faculty, will lead to in-depth research and writing, producing a minimum 50-page thesis that demonstrates an excellent grasp of historical methods and a high degree of writing skill.

**Prerequisite:** 12 hours of HIST; senior class standing; HIST major.

**HIST4990 - Topics in _____**

Credits: 1-6
Max Credit (Max. 12)

Affords students opportunity to study in-depth various topics in history not offered in regular courses or independent study.

**Former Course Number** [4080]

**Prerequisite:** 9 hours of HIST.

**Graduate**

**History, M.A.**

Wyoming's M.A. in history will open both professional and academic pathways. A student may pursue this degree as the final step in their educational journey or go on to pursue a doctoral degree and, eventually, a teaching or research position.

**Program Specific Admission Requirements**

**General Regulations**

The M.A. in History requires 18 hours of undergraduate history courses as minimum preparation for admission. The rules under which the student enters remain those governing the program for the duration of the student's continued enrollment. In accordance with university graduate regulations, students are responsible for meeting all deadlines and for fulfilling all requirements for the degree.

**Application and Admissions**

To be eligible for financial support in the form of a Graduate Assistantship, the Department of History must receive all materials by March 1. All other application materials must be received by the Department of History no later than May
1. The application process is now completely online. In addition to the application, applicants must upload the following documents via the UW Admissions website (www.uwyo.edu/admissions):

1. Three letters of recommendation that assess the student's academic and research abilities.
2. Transcripts from all undergraduate institutions and graduate programs.
3. A writing sample of 10-20 pages, typically either a portion of a senior thesis or an upper-level seminar paper.
4. A statement of purpose of 250-500 words, explaining the applicant's preparation, interests, and plans. Please indicate if you would like to be considered for a graduate assistantship.

Program Specific Graduate Assistantships

When applicants submit their materials to the program in History, they should indicate their wish to be considered for a Graduate Assistantship. Anyone receiving financial support must be registered as a full-time (9 hours per semester) student and must be making acceptable progress towards degree completion. Renewal of Graduate Assistantships is contingent on such progress. Support is not given for more than two academic years.

Requirements

Program Specific Degree Requirements for the History Master's Program are as follows:

Required Courses

Candidates for the Master of Arts degree are expected to complete the program in 2 years. Graduate Students are required to complete a minimum of 31 credit hours of graduate (5000) level courses. Students must complete 27 hours of coursework, of which at least 24 hours must be in History. Students will work with their advisor to plan the course of study that will include:

- (3 credit hours) HIST5880 - History Theory
- (12 credit hours) 5000-level, non-dual-listed courses in HIST (excluding HIST 5880)
- (12 credit hours) Additional graduate-level course work, of which at least 9 credit hours must be in HIST courses.
- (4 credit hours) HIST5960 - Thesis Research

Foreign Language

Students must demonstrate a reading knowledge of a foreign language appropriate to their research. In special cases, other relevant historical tools may substitute for the language requirement upon approval of the thesis adviser and the Graduate Coordinator. Generally, either of the following options may meet the language requirement:

- Passing a language exam administered by the Department of History. This must be completed by the end of the first year with the appropriate faculty.
- Completing the equivalent of the fourth semester of a language as offered at the University of Wyoming. All courses must be passed with a grade of C or better (may be taken pass/fail).

Thesis

- Graduate students will identify two "fields" of study, in consultation with their main advisor: one time/place field (such as Modern U.S. History), and one thematic field (such as Environmental History), both of which correspond to the student's thesis research.
• In the spring semester of the first year the student will publicly defend his/her thesis proposal, which must include a written research prospectus and bibliography.
• At the end of the second year the student will successfully defend the thesis before an approved Graduate Committee.

Department of Languages - Modern and Classical

116 Hoyt Hall, (307) 766-4177
FAX: (307) 766-2727
Website: www.uwyo.edu/modlang
Department Chair: Joy Landeira

Professor:

CONXITA DOMÈNECH, B.A. Universitat Autònoma de Barcelona 1990; Licenciatura 1992; M.A. University of Colorado Boulder 2006; Ph.D. 2010; Professor of Spanish 2020.

Associate Professors:

IRENE CHECA-GARCÍA, B.A. University of Granada 1997; M.A. Linguistics University of Granada 2000; Ph.D. Universidad de Alemería 2004; Associate Professor of Spanish 2018, 2012.

REBECCA E. STEELE, B.A. LeibnitzAcademie 2001; M.A. Rutgers, The State University of New Jersey 2008; Ph.D. 2009; Associate Professor of German 2015, 2009.

Assistant Professors:

CHELSEA ESCALANTE, B.A. Stanford University 2005; M.A. University of Arizona 2009; Ph.D. University of California, Davis 2018; Assistant Professor of Spanish 2018.

SONIA RODRIGUEZ HICKS, Ph.D. University of New Mexico 2017. Assistant Professor of Spanish 2020.

Senior Academic Professional Lecturers:

The Modern and Classical Languages department offers work leading to the B.A. degree with majors and minors in French, German, and Spanish. A minor is offered in Classical Civilizations, Chinese, Latin and Japanese. The M.A. is available in Spanish. Courses are also offered in literature, linguistics and translation.

Foreign Language Requirements

All candidates for the B.A. and B.S. degree in the College of Arts and Sciences who matriculated before Fall 2015 are required to complete the equivalent of 8 semester hours of work in a single modern or classical language. Students with prior exposure to the language may be granted college credit after taking an online examination administered by the department; students must take this examination before completing registration for a language course (for regulations governing credit by examination, refer to Credit Available to Undergraduate Students in this Catalog). An advanced placement, AP, examination in the language with a score of 4 or higher satisfies the language requirement in most languages, as do CLEP and IB scores (see section on Credit by Examination on the department website).

Students who have had a foreign language in high school should take the online examination to determine the course in which they should enroll and to avail themselves of the opportunity to receive credit by examination. Students who have completed their language requirement can enroll for additional language courses of their choice, something strongly advised for those who wish to reach adequate levels of proficiency in the language or wish to study abroad. Check the Catalog or website for special sections targeted for students with varied experiences in the language.

Undergraduate Major

A language major usually requires 30-31 semester hours of work in a single language beyond 2030. To include a language option in the humanities/fine arts interdisciplinary program, students must complete at least 12 hours above the 2030 level.

Students completing an undergraduate major in our department will meet the following learning goals:

1. attain proficiency in another language in all four of the basic skills (speaking, listening, reading, and writing);
2. gain understanding of other cultures; and
3. develop skills in research critical thinking, analysis, and writing on subjects appropriate to the field of study. Students will meet the following learning outcomes to:

1. demonstrate proficiency in conversation;
2. demonstrate reading comprehension of texts written in the language;
3. produce grammatical, idiomatic compositions in the target language;
4. gain essential knowledge about the history, traditions, customs, and ways of thinking of at least one other culture;
5. demonstrate understanding of works of literature read in the original language; and
6. produce well-reasoned and clearly articulate research papers on subjects appropriate to their field.

**Minor**

In general, students desiring to complete a minor in a foreign language will be required to complete a program of 18 semester hours above 2030.

**Teaching Certification**

For those wishing to pursue teaching certification, contact the Department of Secondary Education.

**Native Language Credit**

Students are not allowed university credit for language courses in their native language below the 4000 level, but may receive credit for literature courses below that level.

**Study Abroad**

There are many opportunities for students to study abroad and students are encouraged to do so.

**Graduate Study**

The Department of Modern and Classical Languages offers programs leading to the master of arts degree in Spanish. Contact the department for further details or check the department website.

**Program Specific Admission Requirements**

Admission to the graduate program in a specific language is open to students who have completed an undergraduate major, or the equivalent, in the same subject and who meet the minimum requirements set forth in this Catalog.

Students entering the graduate program from other institutions may be required to make up deficiencies in areas covered by required courses in this department's undergraduate programs.

**Major**

**French, B.A.**
The main goal of French courses will be to emphasize "the development of communication skills in French through the four language skills: listening, speaking, reading, and writing". Each course introduces students to French and Francophone cultures.

University Studies Program Requirements

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Prerequisites - 12 Credits**

**FREN1010 - First Year French I**

Credits: 4
Fundamentals of grammar, composition, conversation and reading.

USP 2015 Code U5H

**FREN1020 - First Year French II**

Credits: 4
Fundamentals of grammar, composition, conversation and reading.

USP 2015 Code U5H

**Prerequisite:** FREN 1010 or two years of high school French.
FREN2030 - Second Year French I

Credits: 4
Emphasizes the development of communication skills (listening, speaking, reading and writing) so as to help students function effectively in real-life contexts. Provides a systematic review of grammatical structures necessary for successfully communicating in French.

USP 2015 Code U5H
Prerequisite: FREN 1020 or three years of high school French.
A language major requires 30 hours of credit in a single language above 2030

Required Courses

FREN2040 - Second Year French II

Credits: 3
A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2015 Code U5H
Prerequisite: FREN 2030, three years of high school French or FREN 1010, FREN 1020 with grade of B or better.

FREN2130 - Contemporary French Culture

Credits: 3
Designed as an introduction to contemporary French culture. It gives students an in-depth insight into contemporary French life. It also deals with issues affecting the French-speaking world in general: Quebec, Africa, New Caledonia, Switzerland, Monaco, etc.

USP 2015 Code U5H
Prerequisite: FREN 1020 or equivalent.
OR

FREN3110 - Contemporary French Civilization

Credits: 3
Emphasizes the institution and values of contemporary France. Deals with the major political, social, cultural and economic aspects of today’s France. Will be taught in French.

Prerequisite: FREN 3050.

FREN2140 - Introduction to Reading

Credits: 3
Introduction to the literature of France; analysis of major literary types and elements of criticism.
FREN3005 - French Phonetics and Pronunciation

Credits: 3
Focus on the phonetic structures of French through systematic pronunciation drills and phonetic transcriptions. Varied oral activities and exercises will help develop an awareness of spoken French and improve students' pronunciation.

Prerequisite: FREN 2040 or equivalent.

FREN3050 - Third Year French I

Credits: 3
A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

FREN3060 - Third Year French II

Credits: 3
A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

Prerequisite: FREN 3050.

FREN4100 - A Survey of French Literature I

Credits: 3
A study of French Literature and civilization from the Middle Ages through the 18th century.

Prerequisite: FREN 2140 or equivalent.

FREN4110 - A Survey of French Literature II

Credits: 3
A study of French Literature and civilization from the 19th century to the present.

Prerequisite: FREN 2140 or equivalent.

• Plus 6 hours of electives in French at the 4000-level (See Electives list in Minor Requirements)

Minor Program Requirements - 18 Credit Hours
Required Minor Classes

**FREN2040 - Second Year French II**

Credits: 3
A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2015 Code U5H
Prerequisite: FREN 2030, three years of high school French or FREN 1010, FREN 1020 with grade of B or better.

**FREN2140 - Introduction to Reading**

Credits: 3
Introduction to the literature of France; analysis of major literary types and elements of criticism.

USP 2003-2014 Code U3CH, U3G
Prerequisite: FREN 2030.

**FREN3050 - Third Year French I**

Credits: 3
A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2
Prerequisite: FREN 2040.
- Electives - 9 hours of French Courses at the 3000 course level or 4000 course level (Choose from Elective list below)

**FREN3005 - French Phonetics and Pronunciation**

Credits: 3
Focus on the phonetic structures of French through systematic pronunciation drills and phonetic transcriptions. Varied oral activities and exercises will help develop an awareness of spoken French and improve students’ pronunciation.

Prerequisite: FREN 2040 or equivalent.

**FREN3060 - Third Year French II**

Credits: 3
A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

Prerequisite: FREN 3050.
FREN3110 - Contemporary French Civilization

Credits: 3
Emphasizes the institution and values of contemporary France. Deals with the major political, social, cultural and economic aspects of today's France. Will be taught in French.

Prerequisite: FREN 3050.

FREN3990 - Independent Study

Credits: 1-4
Books or periodicals of special interest to the student, selected in consultation with a member of the staff; independent reading and reports.

Prerequisite: FREN 2030.

FREN4080 - Studies in the French Language

Credits: 3
Max Credit (Max. 9)
The topics explored under this general heading include: translation, history of the French language, French of the media and conversation.

Dual Listed FREN 5080.
Prerequisite: FREN 3060.

FREN4100 - A Survey of French Literature I

Credits: 3
A study of French Literature and civilization from the Middle Ages through the 18th century.

Prerequisite: FREN 2140 or equivalent.

FREN4110 - A Survey of French Literature II

Credits: 3
A study of French Literature and civilization from the 19th century to the present.

Prerequisite: FREN 2140 or equivalent.

FREN4120 - Medieval French Literature

Credits: 3
A survey of medieval French literature: epic, courtly poetry, Arthurian romance, theatre and the poetry of Villon.
**Dual Listed** FREN 5120.
**Prerequisite:** FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

**FREN4140 - 17th Century French Literature**

Credits: 3
A survey of representative works from the major literary genres from the formative period to classicism and its aftermath.

**Dual Listed** FREN 5140.
USP 2003-2014 Code U3WC
**Prerequisite:** FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

**FREN4200 - Introduction to Research**

Credits: 3
Senior seminar on a topic varying from year to year.

USP 2015 Code U5C3
**Prerequisite:** COM2 (FREN 3050), Survey I and II courses (FREN 4100 and FREN 4110).

**FREN4250 - 19th Century French Literature**

Credits: 3
Development of romanticism from Rousseau on with excerpts from Chateaubriand and romantic poets like Hugo and Vigny. The period of realism-naturalism focuses on novels of Flaubert and Zola, while the symbolist school of poetry is represented by Baudelaire, Verlaine and Rimbaud.

**Dual Listed** FREN 5250.
**Former Course Number** [4150]

**Prerequisite:** FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

**FREN4260 - 20th Century French Literature**

Credits: 3
The era since 1900 is divided into four parts: pre-World War I, between the wars, post-World War II and the New Wave. These periods are represented by authors including Valéry, Proust, Malraux, Saint-Exupéry, Camus, Sartre and others.

**Dual Listed** FREN 5260.
**Former Course Number** [4160]

**Prerequisite:** FREN 3050; FREN 4100 and FREN 4110 strongly recommended.
FREN4350 - Studies in French and Francophone Literatures

Credits: 3
An intensive study of a topic, period or author (pertaining to French or Francophone literature), to be selected according to interest and currency.

Dual Listed: FREN 5350.
Prerequisite: FREN 3060; FREN 4100 and FREN 4110 strongly recommended.

FREN4990 - Advanced Independent Study

Credits: 1-3
Special projects designed to meet the needs of individual students, designed in consultation with instructor.

Prerequisite: FREN 3050 and consent of instructor.

German, B.A.

As a German Major, you will develop your speaking, listening, and communication skills as a German speaker. You will gain a better understanding of perspectives and experiences of German speaking cultures.

University Studies Program Requirements

The University Studies Program 2015

FYS - First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Required Courses - 9 credits**
A language major requires 30 hours of credit in a single language above 2030.

**GERM2040 - Second Year German II**

Credits: 3  
Encompasses formal grammar review; weekly composition; as well as drill of oral skill including pronunciation, oral reports and free conversation.

USP 2015 Code U5H  
**Prerequisite:** GERM 2030 or three years of high school German.

**GERM3050 - Third Year German I**

Credits: 3  
Encompasses formal grammar review; weekly composition; as well as drill of oral skill including pronunciation, oral reports and free conversation.

USP 2003-2014 Code U3WB  
USP 2015 Code U5C2  
A&S College Core 2015 ASG  
**Prerequisite:** GERM 2040.

**GERM3060 - Introduction to German Literature**

Credits: 3  
Introduces literature of Germany. Analyzes major literary types and elements of criticism. Emphasizes compositions and corrective practice, stylistic analysis of representative texts and group discussion on prepared topics.

**Prerequisite:** GERM 3050.

**Electives - 21 credits**

All electives must be above GERM 2030. At least three courses should be at the 4000-level.

**GERM3006 - 20th Century German Culture and Civilization**

Credits: 3  
Major political, ideological and cultural developments in Germany between 1871 and the present. An interdisciplinary approach (history, art history, film and literature) allows students to explore and assess a nation's culture and civilization as well as far-reaching events (WWI, WWII and the Holocaust) from various perspectives.

USP 2003-2014 Code U3CH, U3WC  
**Prerequisite:** junior standing.

**GERM3150 - German History and Culture**
Taught in English, this class engages students both theoretically and practically with German history and culture throughout the ages from the Middle Ages to today. Reading content is complemented with outings to culturally and historically significant sites in Germany as part of a summer study abroad program.

USP 2003-2014 Code U3CH, U3G
A&S College Core 2015 ASG
Prerequisite: WA or equivalent.

GERM3990 - Independent Study

Credits: 1-4
Focuses on books or periodicals of special interest to the student selected in consultation with a staff member; independent reading and reports.

Prerequisite: GERM 2030.

GERM4070 - Fourth Year German

Credits: 3
Emphasizes weekly compositions and corrective practice, stylistic analysis of representative texts and group discussion on prepared topics.

Dual Listed GERM 5070.
When Offered (Offered every other year)
Prerequisite: GERM 3060.

GERM4080 - German-English and English- German Translation

Credits: 3
Encompasses written translation exercises based on contemporary and relevant texts in both English and German. Addresses specific translation problems arising in both English and German, when translating into the other language.

When Offered (Offered fall semester)
USP 2003-2014 Code U3WB
Prerequisite: GERM 3050 and/or GERM 3060.

GERM4100 - A Survey of German Literature I

Credits: 3
Studies German literature and civilization from the Middle Ages to the 17th century.

Dual Listed GERM 5100.
Prerequisite: GERM 2140 or equivalent.

GERM4110 - A Survey of German Literature II
Credits: 3
Studies German literature and civilization from the 18th century to the end of the 20th century.

**Dual Listed** GERM 5110.
**Prerequisite:** GERM 2140 or equivalent.

**GERM4145 - Weimar Classicism**

Credits: 3
Introduces student to Weimar Classicism, one of the crucial periods in German literature and culture. Explores the foundation of the movement, its cultural and historical contexts, aesthetic and philosophical principles, and significant works during this period. Primary language for instruction for this course is German.

**Dual Listed** GERM 5145.
**Prerequisite:** GERM 2140 or equivalent.

**GERM4180 - German Poetry**

Credits: 3
Surveys poetry from the Middle Ages to the present. Emphasizes poetry after 1600. Treats formal elements and genre categories.

**Dual Listed** GERM 5180.
**Prerequisite:** GERM 2140.

**GERM4200 - Introduction to Research**

Credits: 3
**Max Credit 9**

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2015 Code U5C3
**Prerequisite:** 12 hours of 4000-5000-level courses.

**GERM4240 - German Literature of the Romantic Period**

Credits: 3
Introduces the philosophical bases of German Romanticism and analyzes representative works of prose and poetry.

**Dual Listed** GERM 5240.
**Prerequisite:** GERM 2140 or equivalent.

**GERM4255 - 19th Century German Novellas**
Credits: 3
Studies a wide selection of significant German novellas from the period when this genre flourished in the German-speaking world, with a popularity unparalleled in the rest of Europe. Examines the form's origins, evolution, reception, and theory.

**Dual Listed GERM 5255.**
**Prerequisite:** GERM 2140 or equivalent.

**GERM4275 - Contemporary Migration Literature**

Credits: 3
Introduces students to a range of recent cultural production by artists identified with immigrant communities or communities of color. Topics examined include intersections of gender, race, nation, culture, and class; experiences of different minorities; question of national and transnational identity, self-representation, immigration, multiculturalism and integration debates. Course is taught in German.

**Dual Listed GERM 5275.**
**Prerequisite:** GERM 2140 or equivalent.

**GERM4285 - 20th/21st Century German Film**

Credits: 3
Introduces students to classical German films, and thereby enhances their skills to conduct research in the Humanities. Themes to be discussed: representation of authority, issues of race and gender, German culture and history, the Americanization of German culture, minorities in contemporary Germany.

**Dual Listed GERM 5285.**
**Prerequisite:** WB.

**GERM4990 - Advanced Independent Study**

Credits: 1-3
Encompasses special projects designed to meet needs of individual students, designed in consultation with instructor.

**Prerequisite:** GERM 2140 and consent of instructor.

**Spanish B.A.: Language-Linguistics Track**

**Requirements**

**SPAN2040 - Second Year Spanish II**

Credits: 4
Stresses usage of the language through composition, conversation, oral presentation and grammar review.
USP 2015 Code U5H

Prerequisite: SPAN 2030 or three years of high school Spanish.

SPAN3030 - Spanish for Heritage Speakers

Credits: 3
Stresses academic use of the Spanish language by native or near-native speakers, through composition, cultural readings, oral presentations, and digital interactions. This class will prepare native and near-native speakers for Spanish upper division classes. It will review spelling rules, grammatical terminology, dialectal and register differences, and academic vocabulary.

USP 2015 Code U5C2

Prerequisite: SPAN 2040 and consent of instructor.

OR

SPAN3050 - Third Year Spanish I

Credits: 3
Stresses usage of the language through composition, conversation, oral presentation and grammar review.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2
Prerequisite: SPAN 2040.

SPAN3060 - Third Year Spanish II

Credits: 3
Intensively reviews grammar and composition-skill development. Also emphasizes specialized lexicons, written and oral translation, as well as conversational fluency.

A&S College Core 2015 ASD
Prerequisite: SPAN 3050.

SPAN3140 - Introduction to Literature

Credits: 3
This course introduces literary analysis by focusing on different genres from the Hispanic tradition. The course if focused on developing interpretation strategies and it introduces key elements of literary criticism. Students are required to produce complex ideas about the texts, give oral presentations, and write essays on the texts read.

USP 2003-2014 Code U3CH,U3G
A&S College Core 2015 ASG
Prerequisite: SPAN 2140 or SPAN 3030 or SPAN 3050.

SPAN3300 - Introduction to Hispanic Linguistics
Credits: 3
Max Credit (Max. 9)

Overview of basic concepts and approaches to linguistics with examples from and emphasis on Spanish description. Basic concepts in semiotics, formal and non-formal linguistics, core areas in linguistics (phonetics & phonology, morposyntax, semantics & pragmatics), as well as an overview of subfields of linguistics (psycholinguistics, sociolinguistics, computational linguistics, etc.).

Former Course Number [4310]

Prerequisite: SPAN 3030 or SPAN 3050 or equivalent proficiency

SPAN4080 - Spanish Advanced Grammar

Credits: 3
Max Credit (Max. 9)

Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

Dual Listed SPAN 5080.
Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

OR

SPAN4090 - Spanish Phonetics and Phonology

Credits: 3

Provides a description of Spanish sound system and general survey of the language's major dialectical variations. Will touch upon acoustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.

Dual Listed SPAN 5090.
Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

• additional 12 hours of electives above SPAN 2030.

Highly Recommended Electives

SPAN3040 - Spanish Conversation

Credits: 3

Emphasizes speaking and listening comprehension through structured and monitored individual, pair, small group and class work, while providing socio-cultural competence, vocabulary acquisition and grammar review. Provides enhanced language skills in a manner that otherwise could only be attained through an extended stay in a Hispanic country.
Prerequisite: SPAN 2040; limited to Spanish majors/minors with no previous experience abroad.

SPAN3070 - Intensive Spanish Abroad

Credits: 3
Max Credit (Max. 9)

Spanish language and cultural study in Spanish-speaking countries led by UW faculty.

Prerequisite: SPAN 2030 or consent of instructor.

SPAN3080 - Spanish Language in the USA

Credits: 3

This course studies the Spanish language in its social context as a language of the United States, through concepts such as: social and individual bilingualism, Spanglish, dialects, language contact, borrowings, code switching, language policy, or language ideology.

Cross Listed LTST 3080.
USP 2015 Code U5H
Prerequisite: SPAN 3050 or SPAN 3060 or instructor's consent.

SPAN4070 - Spanish Variation and Change

Credits: 3

Provides a general overview of issues in language change in the contemporary Spanish-speaking world. General topics include language vs. dialect, social factors affecting language variation/acquisition/maintenance, mechanisms of change, language contact effects, language attitudes, policy and planning, style and register and mixing of languages and bilingualism, among other, as they are seen in the Spanish language.

Dual Listed SPAN 5070.
Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4080 - Spanish Advanced Grammar

Credits: 3
Max Credit (Max. 9)

Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

Dual Listed SPAN 5080.
Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4090 - Spanish Phonetics and Phonology
Credits: 3
Provides a description of Spanish sound system and general survey of the language's major dialectical variations. Will touch upon acustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.

**Dual Listed** SPAN 5090.
**Prerequisite:** SPAN 3300 or LANG 4750 or consent of instructor.

**SPAN4200 - Introduction to Research**

Credits: 3
Max Credit (Max. 9)

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
**Prerequisite:** SPAN 3030 or SPAN 3050 and 3 hours of 4000 or 5000-level courses.

**It is Possible to Take**

It is possible to take one class from the following:

**SPPA3160 - Speech and Language Development**

Credits: 4
Deals with the development of speech sound production, phonology, semantics, syntax, morphology, discourse, and pragmatics for typically-developing children from infancy to adolescence. Includes prelinguistic and paralinguistic communication, the cognitive correlates of communication, and written language. Considers the effects of sociocultural context and multiple language acquisition. Application component provides weekly experience in language sample analysis.

**Former Course Number** [4160]

**Prerequisite:** SPPA 2210 or instructor permission.
- ANTH 4775 - Language and Gender

**ANTH4785 - Language and Racism**

Credits: 3
Explores the ways in which racist ideology and socially-based racial categories are reinforced and changed through language and linguistic usage. The forms of language used in the construction of covertly and overtly racist communication, and the media through which racism is communicated also will be investigated.
Dual Listed ANTH 5785.
Prerequisite: ANTH 1200 or ANTH 2000.

**ANTH4795 - Language Change**

Credits: 3
Considers how languages change over time, due to both internal and external forces. The effects of language contact, borrowing, and structural change are discussed. The use of linguistic data for questions of migration and cultural contact are also explored.

Dual Listed ANTH 5795.
Prerequisite: ANTH 2000.

Total: 31 Hours

**Spanish, B.A.**

As a Spanish Major, you will develop your speaking, listening, and communication skills as a Spanish speaker. You will gain a better understanding of perspectives and experiences of Spanish speaking cultures.

**University Studies Program Requirements**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Tracks**

The undergraduate degree in Spanish has two tracks for students to select: Culture, Literature, and Cinema Track or Language-Linguistics Track.

There are multiple entry points into the major depending on previous Spanish language experience. Students should consult a Modern and Classical Languages advisor about the appropriate placement and credit-by-exam options.
A language major usually requires 30-31 semester hours of work in a single language beyond 2030. To include a language option in the humanities/fine arts interdisciplinary program, students must complete at least 12 hours above the 2030 level.

Spanish offers two major tracks:

Spanish B.A. : Culture, Literature, and Cinema Track
Spanish B.A. : Language-Linguistics Track

Prerequisites for both Spanish Tracks

SPAN1010 - First Year Spanish I

Credits: 4
Studies fundamentals of grammar, composition, conversation and reading.

USP 2015 Code U5H

SPAN1020 - First Year Spanish II

Credits: 4
Studies fundamentals of grammar, composition, conversation and reading.

USP 2015 Code U5H
Prerequisite: SPAN 1010 or two years of high school Spanish.

SPAN2030 - Second Year Spanish I

Credits: 4
Encompasses reading, grammar review, compositions and conversation.

USP 2015 Code U5H
Prerequisite: SPAN 1020 or three years of high school Spanish.

Language and Linguistics Track

Requirements

SPAN2040 - Second Year Spanish II

Credits: 4
Stresses usage of the language through composition, conversation, oral presentation and grammar review.
USP 2015 Code U5H
**Prerequisite:** SPAN 2030 or three years of high school Spanish.

**SPAN3030 - Spanish for Heritage Speakers**

Credits: 3
Stresses academic use of the Spanish language by native or near-native speakers, through composition, cultural readings, oral presentations, and digital interactions. This class will prepare native and near-native speakers for Spanish upper division classes. It will review spelling rules, grammatical terminology, dialectal and register differences, and academic vocabulary.

USP 2015 Code U5C2
**Prerequisite:** SPAN 2040 and consent of instructor.  
OR

**SPAN3050 - Third Year Spanish I**

Credits: 3
Stresses usage of the language through composition, conversation, oral presentation and grammar review.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2
**Prerequisite:** SPAN 2040.

**SPAN3060 - Third Year Spanish II**

Credits: 3
Intensively reviews grammar and composition-skill development. Also emphasizes specialized lexicons, written and oral translation, as well as conversational fluency.

A&S College Core 2015 ASD  
**Prerequisite:** SPAN 3050.

**SPAN3140 - Introduction to Literature**

Credits: 3
This course introduces literary analysis by focusing on different genres from the Hispanic tradition. The course if focused on developing interpretation strategies and it introduces key elements of literary criticism. Students are required to produce complex ideas about the texts, give oral presentations, and write essays on the texts read.

USP 2003-2014 Code U3CH,U3G  
A&S College Core 2015 ASG  
**Prerequisite:** SPAN 2140 or SPAN 3030 or SPAN 3050.

**SPAN3300 - Introduction to Hispanic Linguistics**
Credits: 3
Max Credit (Max. 9)

Overview of basic concepts and approaches to linguistics with examples from and emphasis on Spanish description. Basic concepts in semiotics, formal and non-formal linguistics, core areas in linguistics (phonetics & phonology, morphosyntax, semantics & pragmatics), as well as an overview of subfields of linguistics (psycholinguistics, sociolinguistics, computational linguistics, etc.).

Former Course Number [4310]

Prerequisite: SPAN 3030 or SPAN 3050 or equivalent proficiency

SPAN4080 - Spanish Advanced Grammar

Credits: 3
Max Credit (Max. 9)

Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

Dual Listed SPAN 5080.
Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

OR

SPAN4090 - Spanish Phonetics and Phonology

Credits: 3
Provides a description of Spanish sound system and general survey of the language's major dialectical variations. Will touch upon acoustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.

Dual Listed SPAN 5090.
Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

• PLUS 12 hours of electives from the following:

SPAN3040 - Spanish Conversation

Credits: 3
Emphasizes speaking and listening comprehension through structured and monitored individual, pair, small group and class work, while providing socio-cultural competence, vocabulary acquisition and grammar review. Provides enhanced language skills in a manner that otherwise could only be attained through an extended stay in a Hispanic country.

Prerequisite: SPAN 2040; limited to Spanish majors/minors with no previous experience abroad.

SPAN3070 - Intensive Spanish Abroad
Spanish language and cultural study in Spanish-speaking countries led by UW faculty.

**Prerequisite:** SPAN 2030 or consent of instructor.

**SPAN3080 - Spanish Language in the USA**

Credits: 3
This course studies the Spanish language in its social context as a language of the United States, through concepts such as: social and individual bilingualism, Spanglish, dialects, language contact, borrowings, code switching, language policy, or language ideology.

**Cross Listed** LTST 3080.
USP 2015 Code U5H
**Prerequisite:** SPAN 3050 or SPAN 3060 or instructor's consent.

**SPAN4070 - Spanish Variation and Change**

Credits: 3
Provides a general overview of issues in language change in the contemporary Spanish-speaking world. General topics include language vs. dialect, social factors affecting language variation/acquisition/maintenance, mechanisms of change, language contact effects, language attitudes, policy and planning, style and register and mixing of languages and bilingualism, among others, as they are seen in the Spanish language.

**Dual Listed** SPAN 5070.
**Prerequisite:** SPAN 3300 or LANG 4750 or consent of instructor.

**SPAN4200 - Introduction to Research**

Credits: 3
Max Credit (Max. 9)
Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
**Prerequisite:** SPAN 3030 or SPAN 3050 and 3 hours of 4000 or 5000-level courses.

It is possible to take one class from the following:

**SPPA3160 - Speech and Language Development**

Credits: 4
Deals with the development of speech sound production, phonology, semantics, syntax, morphology, discourse, and pragmatics for typically-developing children from infancy to adolescence. Includes prelinguistic and paralinguistic
communication, the cognitive correlates of communication, and written language. Considers the effects of sociocultural context and multiple language acquisition. Application component provides weekly experience in language sample analysis.

**Former Course Number** [4160]

**Prerequisite:** SPPA 2210 or instructor permission.

**ANTH4785 - Language and Racism**

Credits: 3
Explores the ways in which racist ideology and socially-based racial categories are reinforced and changed through language and linguistic usage. The forms of language used in the construction of covertly and overtly racist communication, and the media through which racism is communicated also will be investigated.

**Dual Listed** ANTH 5785.
**Prerequisite:** ANTH 1200 or ANTH 2000.

**ANTH4795 - Language Change**

Credits: 3
Considers how languages change over time, due to both internal and external forces. The effects of language contact, borrowing, and structural change are discussed. The use of linguistic data for questions of migration and cultural contact are also explored.

**Dual Listed** ANTH 5795.
**Prerequisite:** ANTH 2000.

**Culture, Literature, and Cinema Track**

**Requirements**

**SPAN2040 - Second Year Spanish II**

Credits: 4
Stresses usage of the language through composition, conversation, oral presentation and grammar review.

**USP 2015 Code U5H**
**Prerequisite:** SPAN 2030 or three years of high school Spanish.

**SPAN2140 - Introduction to Reading**

Credits: 3
This course introduces a varied selection of readings and other cultural media in an immersive, intensive language class. Through the study of short stories, media articles, films, etc., students learn cultural aspects of the Spanish-speaking world and are able to practice and improve their communicative abilities.
**SPAN3030 - Spanish for Heritage Speakers**

Credits: 3
Stresses academic use of the Spanish language by native or near-native speakers, through composition, cultural readings, oral presentations, and digital interactions. This class will prepare native and near-native speakers for Spanish upper division classes. It will review spelling rules, grammatical terminology, dialectal and register differences, and academic vocabulary.

**SPAN3050 - Third Year Spanish I**

Credits: 3
Stresses usage of the language through composition, conversation, oral presentation and grammar review.

**SPAN3100 - Survey of Spanish Literature**

Credits: 3
Studies Spanish literature from the Middle Ages to the end of the 17th century.

**SPAN3110 - Survey of Contemporary Spanish Literature**

Credits: 3
Studies Spanish literature from the 18th to the 21st century. SPAN 3110 is a continuation of SPAN 3100, which studies Spanish literature from the Middle Ages to the end of the 17th century. In order to take 3110, students do not need to take SPAN 3100. SPAN 3140 strongly recommended.

**SPAN3120 - Survey of Spanish American Literature**
Credits: 3
Surveys Spanish American literature from colonial period to the present.

USP 2003-2014 Code U3G
A&S College Core 2015 ASG
Prerequisite: SPAN 2140 or equivalent.

SPAN3140 - Introduction to Literature

Credits: 3
This course introduces literary analysis by focusing on different genres from the Hispanic tradition. The course if focused on developing interpretation strategies and it introduces key elements of literary criticism. Students are required to produce complex ideas about the texts, give oral presentations, and write essays on the texts read.

USP 2003-2014 Code U3CH,U3G
A&S College Core 2015 ASG
Prerequisite: SPAN 2140 or SPAN 3030 or SPAN 3050.

SPAN3300 - Introduction to Hispanic Linguistics

Credits: 3
Max Credit (Max. 9)

Overview of basic concepts and approaches to linguistics with examples from and emphasis on Spanish description. Basic concepts in semiotics, formal and non-formal linguistics, core areas in linguistics (phonetics & phonology, morphosyntax, semantics & pragmatics), as well as an overview of subfields of linguistics (psycholinguistics, sociolinguistics, computational linguistics, etc.).

Former Course Number [4310]

Prerequisite: SPAN 3030 or SPAN 3050 or equivalent proficiency

• PLUS 12 hours of electives from the following:

SPAN3040 - Spanish Conversation

Credits: 3
Emphasizes speaking and listening comprehension through structured and monitored individual, pair, small group and class work, while providing socio-cultural competence, vocabulary acquisition and grammar review. Provides enhanced language skills in a manner that otherwise could only be attained through an extended stay in a Hispanic country.

Prerequisite: SPAN 2040; limited to Spanish majors/minors with no previous experience abroad.

SPAN3200 - Spanish Culture and Civilization
Credits: 3
Studies the evolution of Spanish culture through its main artistic, sociological and intellectual expressions.

**Prerequisite:** SPAN 2040, SPAN 2140.

**SPAN3220 - Spanish-American Cultures in Context**

Credits: 3
Introduction to the Spanish-speaking cultures of Latin America and the United States through a historical overview and a focus on contemporary politics and culture.

**Prerequisite:** SPAN 2040 or SPAN 2140 or consent of instructor.

**SPAN3070 - Intensive Spanish Abroad**

Credits: 3
Max Credit (Max. 9)

Spanish language and cultural study in Spanish-speaking countries led by UW faculty.

**Prerequisite:** SPAN 2030 or consent of instructor.

**SPAN4200 - Introduction to Research**

Credits: 3
Max Credit (Max. 9)

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3

**Prerequisite:** SPAN 3030 or SPAN 3050 and 3 hours of 4000 or 5000-level courses.

**Minor**

**Chinese Minor**

A Minor in Chinese consists of a minimum of 18 credit hours, including successful completion of 10 credit hours of Chinese language and culture courses at and above CHIN2040 on campus and 9 credit hours of an intensive summer study in China.

**Prerequisites**

Completion of:
CHIN1010 - First Year Chinese I

Credits: 4
Fundamentals of grammar, conversation, and reading. Introduction to Chinese culture through the language.

USP 2015 Code U5H

CHIN1020 - First Year Chinese II

Credits: 4
Fundamentals of grammar, conversation, and reading. Introduction to Chinese culture through the language.

USP 2015 Code U5H
Prerequisite: CHIN 1010 or equivalent.

CHIN2030 - Second Year Chinese I

Credits: 4
Grammar, composition, conversation and more vocabulary in Chinese.

Prerequisite: CHIN 1020 or equivalent.

Requirements

CHIN2040 - Second Year Chinese II

Credits: 4
Further studies in grammar composition, conversation and more vocabulary in Chinese.

Prerequisite: CHIN 2030 or CHIN equivalent.

CHIN3055 - Business Chinese

Credits: 3
Comprehensive course on business language skills. For students with proficiency in Mandarin at the Intermediate Mid level or higher. Focus is on language functions for the workplace. Productive skills, both spoken and written, will include the composition of extended frequently-used business documents

USP 2003-2014 Code U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG
Prerequisite: CHIN 3050 or equivalent.

CHIN3160 - See Movies, Touch China
Credits: 3
This course combines exploration of classical and contemporary Chinese cultures through prominent Chinese films. The audio-video materials selected will be discussed in their historical context. Students will explore the transformations China has undergone, and will seek to understand the Chinese mindset.

USP 2003-2014 Code [(none)< >H]
Prerequisite: COM1.
   Or

CHIN4070 - Business Chinese II

Credits: 3
Apply previously acquired skills in complex Chinese language and business topics to the thorough analysis of case studies in Chinese business scenarios. Students will be able to read, discuss, and reach conclusions based on case studies of international companies in China and Chinese companies in international markets.

Prerequisite: CHIN 3055.

Study Abroad

Summer Study in China is required for completion of 9 credit hours of coursework:

CHIN2041 - Contemporary and Traditional Chinese Culture

Credits: 3
Designed to provide those with a serious interest in China and Chinese language with a cultural context for learning Chinese language. Incorporates economic and social material to give students a clear view of Chinese culture with an emphasis on Chinese language instruction.

Prerequisite: CHIN 2030.

CHIN3050 - Intermediate Composition and Conversation

Credits: 3
Develop abilities to read and write complex Chinese texts with an intermediate level of understanding, including texts in both conversational and narrative styles. Reading and writing skills will build considerably on the skills learned in two years of university study in Chinese language.

Prerequisite: CHIN 2040 or equivalent.

CHIN3065 - Intermediate Composition and Conversation II

Credits: 3
Students will not only understand and construct complex speech and writing but will gain the ability to do so effectively to persuade, discuss and communicate accurately with native Chinese speakers. Students will be able to relate topics such as personal experience, daily routine, reports, opinions and judgment in well-written Chinese paragraphs.
Prerequisite: CHIN 3050 or equivalent.

Total: 19 Hours

Note: Study abroad is required for completion of 12 credit hours of coursework for this minor.

Classical Civilizations Minor

As a Classical Civilizations Minor, you will develop an interdisciplinary understanding of Classical Greek and Roman material, intellectual, and cultural traditions that have helped shape western systems and values.

Requirements

**CLAS2020 - Classical Greek Civilization**

Credits: 3  
Examines some of the most important developments of ancient Greek culture. Includes development of government in the city-states, with particular attention to Athenian democracy; tragedies of Aeschylus, Sophocles and Euripides; comedies of Aristophanes; crisis of values of the Peloponnesian War; and philosophy of Plato.

USP 2003-2014 Code U3C, U3WB  
USP 2015 Code U5H  
**Prerequisite:** WA or COM1.  
OR

**HIST2120 - Ancient Greece and the Near East**

Credits: 3  
Examines development of civilization in Eastern Mediterranean from prehistory to Alexander the Great.

**CLAS2040 - Classical Roman Civilization**

Credits: 3  
Examines some of the most interesting political, legal, artistic, literary, and engineering developments of the Republic and Principate (510 BC-AD 212) These include representational government, citizens' rights, sanctioned violence, Rome's infrastructure, and major literary works of oratory, comedy, history, epic, and philosophy.

USP 2003-2014 Code U3CH, U3WB  
**Prerequisite:** WA or COM1.  
OR

**HIST2130 - Ancient Rome**

Credits: 3  
Studies history of the growth of Roman power from city-state to world power.
Electives

12 hours chosen from Classics 3000-level or above; PHIL 3120, PHIL 4020, or PHIL 4030:

**CLAS3050 - Athenian Democracy**

Credits: 3  
Examines democratic government in ancient Athens: its origins and development, its practical workings, how politics were conducted and power was gained and exercised, citizen participation, law courts, and evaluations of democracy in the ancient world and since.

**Cross Listed** HIST 3050/POLS 3050.  
**Prerequisite:** WB or COM2.

**CLAS3160 - "What Killed Socrates?"**

Credits: 3  
This course will reexamine Socrates' trial in 399 BCE, widely regarded as a miscarriage of justice, in its total historic context, seeking to understand the reasons for Socrates' conviction. In the process, it will impart a broad understanding of the cultural, philosophical, political, and legal life of classical Athens.

**Cross Listed** HIST 3160/PHIL 3160.  
**Prerequisite:** WB or COM2.

**CLAS4230 - Greek Tragedy**

Credits: 3  
Reading and discussion of major plays by Aeschylus, Sophocles, and Euripides, together with examination of the performance and social context of Greek drama, its use of traditional myths, and selected issues in contemporary scholarship on the tragedies.

**Cross Listed** ENGL 4230/THEA 4230.  
**Prerequisite:** WB or COM2.

**CLAS4270 - Classical Epic Poetry**

Credits: 3  
Reading and discussion of major works of Greek and Latin epic poetry, centered on Homer and Vergil. Also includes consideration of the background of these works (both mythological and historical) and the development of the epic tradition in the ancient world.

**Cross Listed** ENGL 4270.  
**Prerequisite:** WB or COM2.

**CLAS4975 - Independent Study**
Specialized study in aspects of Greek or Roman civilization of interest to the student, with topic and plan of work to be worked out by the student and the instructor together.

**When Offered** (Offered based on sufficient demand and resources)
**Prerequisite:** 6 hours of Classics courses or consent of instructor.

**CLAS4990 - Topics in Classical Civilization**

Credits: 1-4  
Max Credit (max. 12)

Study in depth of special areas in ancient civilization that are not covered in regularly offered courses.

**When Offered** (Offered based on sufficient demand and resources)
**Prerequisite:** 6 hours of Classics courses or consent of the instructor.

**PHIL3120 - Ancient Greek Philosophy**

Credits: 3  
Surveying some of ancient Greek philosophy. Begins with the works of the earliest extant philosophical thinkers, the pre-Socratics. Remainder of focus on Plato and Aristotle.

**Prerequisite:** 3 hours of philosophy, or consent of instructor.

**PHIL4020 - Plato**

Credits: 3  
Detailed examination of selected dialogues of Plato.

**Dual Listed** PHIL 5020.  
**Prerequisite:** PHIL 3120.

**PHIL4030 - Aristotle**

Credits: 3  
Detailed examination of selected works of Aristotle.

**Dual Listed** PHIL 5030.  
**Prerequisite:** PHIL 3120.

Other courses about ancient Mediterranean cultures that are not taught under Classics may be submitted for approval to the Classics section head.

Up to 6 hours of Latin at the 3000-level or above may be counted as electives:
LATN3110 - Vergil, The Aeneid I

Credits: 3
Reading portions of the Aeneid and consideration of its literary interpretation.

Former Course Number [2110]

Prerequisite: LATN 2030 or equivalent.

LATN3120 - Vergil, The Aeneid II

Credits: 3
Reading further portions of the Aeneid and consideration of its literary interpretation.

When Offered (Offered based on sufficient demand and resources)
Former Course Number [2120]

Prerequisite: LATN 3110.

LATN3140 - Caesar

Credits: 2
Acquaints students with war-memoir genre of Latin literature.

When Offered (Offered based on sufficient demand and resources)
Prerequisite: LATN 2030 or equivalent.

LATN3150 - Livy

Credits: 3
Reading portions of Livy's historical works, and consideration of the history he covers and how the Romans viewed their past.

When Offered (Offered based on sufficient demand and resources)
Prerequisite: LATN 2030 or equivalent.

LATN3160 - Ovid

Credits: 2
When Offered (Offered based on sufficient demand and resources)
Prerequisite: LATN 2030 or equivalent.

LATN3990 - Independent Study
Books or texts of special interest to the student, selected in conjunction with the instructor; independent reading and reports.

**When Offered** (Offered based on sufficient demand and resources)
**Prerequisite:** LATN 2030 or equivalent.

**LATN4110 - Horace**

Credits: 3
**When Offered** (Offered based on sufficient demand and resources)
**Prerequisite:** LATN 2030 or equivalent.

**LATN4115 - Latin Philosophers**

Credits: 3
An introduction to Latin philosophical traditions. Readings will be selected either from one author, such as Lucretius (ca. 99-55 BCE) or Seneca the Younger (ca. 4 BCE-65 CE), or from different authors about a given theme.

**When Offered** (Offered based on sufficient demand and resources)
**Prerequisite:** LATN 2030 or equivalent.

Total: 18 Hours

**French Minor**

As a French Minor, you will develop your speaking, listening, and communication skills as a French speaker. You will gain a better understanding of perspectives and experiences of French speaking cultures.

**Requirements**

**FREN2040 - Second Year French II**

Credits: 3
A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2015 Code U5H
**Prerequisite:** FREN 2030, three years of high school French or FREN 1010, FREN 1020 with grade of B or better.

**FREN2140 - Introduction to Reading**

Credits: 3
Introduction to the literature of France; analysis of major literary types and elements of criticism.
USP 2003-2014 Code U3CH, U3G
Prerequisite: FREN 2030.

FREN3050 - Third Year French I

Credits: 3
A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2
Prerequisite: FREN 2040.

Electives

- 9 hours chosen from French at the 3000 or 4000 level.
- Minors are encouraged to take one to two 4000 level courses with a traditional course load consisting of one 3000 level course and two 4000 level courses
- Elective courses include:

FREN3005 - French Phonetics and Pronunciation

Credits: 3
Focus on the phonetic structures of French through systematic pronunciation drills and phonetic transcriptions. Varied oral activities and exercises will help develop an awareness of spoken French and improve students' pronunciation.

Prerequisite: FREN 2040 or equivalent.

FREN3050 - Third Year French I

Credits: 3
A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

FREN3060 - Third Year French II

Credits: 3
A course stressing the usage of the language through composition, conversation, oral presentations and grammar review.

Prerequisite: FREN 3050.
FREN3110 - Contemporary French Civilization

Credits: 3
Emphasizes the institution and values of contemporary France. Deals with the major political, social, cultural and economic aspects of today's France. Will be taught in French.

Prerequisite: FREN 3050.

FREN3990 - Independent Study

Credits: 1-4
Books or periodicals of special interest to the student, selected in consultation with a member of the staff; independent reading and reports.

Prerequisite: FREN 2030.

FREN4080 - Studies in the French Language

Credits: 3
Max Credit (Max. 9)

The topics explored under this general heading include: translation, history of the French language, French of the media and conversation.

Dual Listed FREN 5080.
Prerequisite: FREN 3060.

FREN4100 - A Survey of French Literature I

Credits: 3
A study of French Literature and civilization from the Middle Ages through the 18th century.

Prerequisite: FREN 2140 or equivalent.

FREN4110 - A Survey of French Literature II

Credits: 3
A study of French Literature and civilization from the 19th century to the present.

Prerequisite: FREN 2140 or equivalent.

FREN4120 - Medieval French Literature

Credits: 3
A survey of medieval French literature: epic, courtly poetry, Arthurian romance, theatre and the poetry of Villon.
Dual Listed FREN 5120.
Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

FREN4140 - 17th Century French Literature

Credits: 3
A survey of representative works from the major literary genres from the formative period to classicism and its aftermath.

Dual Listed FREN 5140.
USP 2003-2014 Code U3WC
Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

FREN4200 - Introduction to Research

Credits: 3
Senior seminar on a topic varying from year to year.

USP 2015 Code U5C3
Prerequisite: COM2 (FREN 3050), Survey I and II courses (FREN 4100 and FREN 4110).

FREN4250 - 19th Century French Literature

Credits: 3
Development of romanticism from Rousseau on with excerpts from Chateaubriand and romantic poets like Hugo and Vigny. The period of realism-naturalism focuses on novels of Flaubert and Zola, while the symbolist school of poetry is represented by Baudelaire, Verlaine and Rimbaud.

Dual Listed FREN 5250.
Former Course Number [4150]

Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.

FREN4260 - 20th Century French Literature

Credits: 3
The era since 1900 is divided into four parts: pre-World War I, between the wars, post-World War II and the New Wave. These periods are represented by authors including Valery, Proust, Malraux, Saint-Exupery, Camus, Sartre and others.

Dual Listed FREN 5260.
Former Course Number [4160]

Prerequisite: FREN 3050; FREN 4100 and FREN 4110 strongly recommended.
FREN4350 - Studies in French and Francophone Literatures

Credits: 3
An intensive study of a topic, period or author (pertaining to French or Francophone literature), to be selected according to interest and currency.

Dual Listed FREN 5350.
Prerequisite: FREN 3060; FREN 4100 and FREN 4110 strongly recommended.

FREN4990 - Advanced Independent Study

Credits: 1-3
Special projects designed to meet the needs of individual students, designed in consultation with instructor.

Prerequisite: FREN 3050 and consent of instructor.

Total: 18 Hours

German Minor

As a German Minor, you will develop your speaking, listening, and communication skills as a German speaker. You will gain a better understanding of perspectives and experiences of German speaking cultures.

Requirements

GERM2040 - Second Year German II

Credits: 3
Encompasses formal grammar review; weekly composition; as well as drill of oral skill including pronunciation, oral reports and free conversation.

USP 2015 Code U5H
Prerequisite: GERM 2030 or three years of high school German.

GERM3050 - Third Year German I

Credits: 3
Encompasses formal grammar review; weekly composition; as well as drill of oral skill including pronunciation, oral reports and free conversation.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2
A&S College Core 2015 ASG
Prerequisite: GERM 2040.
GERM3060 - Introduction to German Literature

Credits: 3
Introduces literature of Germany. Analyzes major literary types and elements of criticism. Emphasizes compositions and corrective practice, stylistic analysis of representative texts and group discussion on prepared topics.

Prerequisite: GERM 3050.

Electives

- 9 hours chosen from German at the 3000 or 4000 level.

GERM3006 - 20th Century German Culture and Civilization

Credits: 3
Major political, ideological and cultural developments in Germany between 1871 and the present. An interdisciplinary approach (history, art history, film and literature) allows students to explore and assess a nation's culture and civilization as well as far-reaching events (WWI, WWII and the Holocaust) from various perspectives.

USP 2003-2014 Code U3CH, U3WC
Prerequisite: junior standing.

GERM3050 - Third Year German I

Credits: 3
Encompasses formal grammar review; weekly composition; as well as drill of oral skill including pronunciation, oral reports and free conversation.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2
A&S College Core 2015 ASG
Prerequisite: GERM 2040.

GERM3150 - German History and Culture

Credits: 3
Taught in English, this class engages students both theoretically and practically with German history and culture throughout the ages from the Middle Ages to today. Reading content is complemented with outings to culturally and historically significant sites in Germany as part of a summer study abroad program.

USP 2003-2014 Code U3CH, U3G
A&S College Core 2015 ASG
Prerequisite: WA or equivalent.

GERM3990 - Independent Study
Credits: 1-4
Focuses on books or periodicals of special interest to the student selected in consultation with a staff member; independent reading and reports.

**Prerequisite:** GERM 2030.

**GERM4070 - Fourth Year German**
Credits: 3
Emphasizes weekly compositions and corrective practice, stylistic analysis of representative texts and group discussion on prepared topics.

**Dual Listed** GERM 5070.
**When Offered** (Offered every other year)
**Prerequisite:** GERM 3060.

**GERM4080 - German-English and English- German Translation**
Credits: 3
Encompasses written translation exercises based on contemporary and relevant texts in both English and German. Addresses specific translation problems arising in both English and German, when translating into the other language.

**When Offered** (Offered fall semester)
USP 2003-2014 Code U3WB
**Prerequisite:** GERM 3050 and/or GERM 3060.

**GERM4100 - A Survey of German Literature I**
Credits: 3
Studies German literature and civilization from the Middle Ages to the 17th century.

**Dual Listed** GERM 5100.
**Prerequisite:** GERM 2140 or equivalent.

**GERM4145 - Weimar Classicism**
Credits: 3
Introduces student to Weimar Classicism, one of the crucial periods in German literature and culture. Explores the foundation of the movement, its cultural and historical contexts, aesthetic and philosophical principles, and significant works during this period. Primary language for instruction for this course is German.

**Dual Listed** GERM 5145.
**Prerequisite:** GERM 2140 or equivalent.

**GERM4180 - German Poetry**
Credits: 3
Surveys poetry from the Middle Ages to the present. Emphasizes poetry after 1600. Treats formal elements and genre categories.

**Dual Listed** GERM 5180.
**Prerequisite:** GERM 2140.

**GERM4200 - Introduction to Research**

Credits: 3
Max Credit 9

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2015 Code U5C3
**Prerequisite:** 12 hours of 4000-5000-level courses.

**GERM4240 - German Literature of the Romantic Period**

Credits: 3
Introduces the philosophical bases of German Romanticism and analyzes representative works of prose and poetry.

**Dual Listed** GERM 5240.
**Prerequisite:** GERM 2140 or equivalent.

**GERM4255 - 19th Century German Novellas**

Credits: 3
Studies a wide selection of significant German novellas from the period when this genre flourished in the German-speaking world, with a popularity unparalleled in the rest of Europe. Examines the form's origins, evolution, reception, and theory.

**Dual Listed** GERM 5255.
**Prerequisite:** GERM 2140 or equivalent.

**GERM4275 - Contemporary Migration Literature**

Credits: 3
Introduces students to a range of recent cultural production by artists identified with immigrant communities or communities of color. Topics examined include intersections of gender, race, nation, culture, and class; experiences of different minorities; question of national and transnational identity, self-representation, immigration, multiculturalism and integration debates. Course is taught in German.

**Dual Listed** GERM 5275.
**Prerequisite:** GERM 2140 or equivalent.
GERM4285 - 20th/21st Century German Film

Credits: 3
Introduces students to classical German films, and thereby enhances their skills to conduct research in the Humanities. Themes to be discussed: representation of authority, issues of race and gender, German culture and history, the Americanization of German culture, minorities in contemporary Germany.

Dual Listed GERM 5285.
Prerequisite: WB.

GERM4990 - Advanced Independent Study

Credits: 1-3
Encompasses special projects designed to meet needs of individual students, designed in consultation with instructor.

Prerequisite: GERM 2140 and consent of instructor.

Total: 18 Hours

Japanese Minor

As a Japanese Minor, you will develop your speaking, listening, and communication skills as a Japanese speaker. You will gain a better understanding of perspectives and experiences of Japanese speaking cultures.

Prerequisites

JAPN1010 - First Year Japanese I

Credits: 4
Studies fundamentals of grammar, composition, conversation and reading. Introduces Japanese culture through the language.

When Offered (Offered fall semester)
USP 2015 Code U5H

JAPN1020 - First Year Japanese II

Credits: 4
Studies fundamentals of grammar, composition, conversation and reading. Introduces Japanese culture through the language.

When Offered (Offered spring semester)
USP 2015 Code U5H
Prerequisite: JAPN 1010 or equivalent.
JAPN2030 - Second Year Japanese I

Credits: 4
Encompasses reading, speaking and writing in original Japanese syllabaries, including elementary kanji characters for daily practical application.

When Offered (Offered fall semester)
Prerequisite: JAPN 1020 or equivalent.

Minor Program Requirements

A Japanese minor requires 18 credit hours of coursework which include JPN 2040 and above, and all courses required for a minor in Japanese are offered as online courses. These courses include:

JAPN3050 - Third Year Japanese I

Credits: 3
Stresses usage of the language through composition, conversation, oral presentation and grammar review.

When Offered (Offered based on sufficient demand and resources)
Prerequisite: JAPN 2040 or equivalent.

JAPN3060 - Third Year Japanese II

Credits: 3
Stresses usage of the language through composition, conversation, oral presentation and grammar review.

When Offered (Offered based on sufficient demand and resources)
Prerequisite: JAPN 2040 and JAPN 3050 or equivalent.

JAPN2070 - Conversational Japanese Abroad

Credits: 4
Japanese language and cultural study in Japan led by UW faculty.

Prerequisite: JAPN 1020.

LANG2150 - Manga: History and Culture

Credits: 3
Manga is one of the most important art forms to emerge from Japan. Its importance as a medium of visual culture and storytelling cannot be denied. Through reading and examination of texts, students will understand the relevance of comics in Japanese society.

USP 2003-2014 Code U3O, U3WB
USP 2015 Code U5C2

**Prerequisite:** COM1.

**LANG3140 - Anime: History and Culture**

Credits: 3
An introduction to the history, development, and cultural significance of Japanese animation. Through the examination of a variety of anime genres, students will gain insight into contemporary Japan as well as important historical periods. We will read analyses of particular anime, emphasizing the unique characteristics of the art and the mystery of its popularity in the US.

USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
**Prerequisite:** completion of WA.

**LANG4800 - Advanced Instruction In: (TOPIC)**

Credits: 1-3
Max Credit (Max. 12)
Advanced study and projects designed to meet special needs and interests of students, to be selected in consultation with a suitable member of the faculty.

**Prerequisite:** consent of instructor.

**LANG3105 - Major Themes in Chinese and Japanese Literature**

Credits: 3
Explores mindsets of two rich and ancient civilizations, China and Japan. Considers distinctive characters of each civilization, while illuminating basic elements that we share with these peoples.

**Prerequisite:** ENGL 1010.

**HP3151 - Modes of Understanding**

Credits: 3
Max Credit (Max. 6)
Introduces study of nature and grounds of knowledge, its limits and validity. Examines epistemological basis of selected areas of academic thought. Topics vary from year to year. Required of UW Honors Program students.

**Former Course Number** [3150]

**Prerequisite:** COM1, COM2

History and Culture classes (LANG 2150, 3140, 3105, and 4800) rotate every two years, as one History and Culture class is offered a semester. Modern Japanese Society (HP/LANG 3151) is offered twice a year, with one of these classes being a study abroad opportunity.
Latin Minor

As a Latin Minor, you will develop the communication skills necessary to read an original text of Classical Latin in prose or verse as well as the cultural knowledge essential to understand and analyze it.

Requirements

LATN3110 - Vergil, The Aeneid I

Credits: 3
Reading portions of the Aeneid and consideration of its literary interpretation.

Former Course Number [2110]

Prerequisite: LATN 2030 or equivalent.

LATN3140 - Caesar

Credits: 2
Acquaints students with war-memoir genre of Latin literature.

When Offered (Offered based on sufficient demand and resources)
Prerequisite: LATN 2030 or equivalent.

LATN4120 - Catullus and the Elegiac Poets

Credits: 3
Discusses Latin lyric poetry of late Republic and early Empire, excluding works of Horace and Ovid, and elegiac tradition in Latin.

When Offered (Offered based on sufficient demand and resources)
Prerequisite: LATN 2030 or equivalent.

LATN4130 - Cicero

Credits: 3
Introduction to the prose of the statesman Marcus Tullius Cicero (106-43 BCE). Readings will be selected from his political speeches, correspondences, or treatises on philosophical, rhetorical, and religious topics.

When Offered (Offered based on sufficient demand and resources)
Prerequisite: LATN 2030 or equivalent.

Electives
7 hours chosen from Latin at the 3000-level or above.

**LATN3120 - Vergil, The Aeneid II**

Credits: 3  
Reading further portions of the Aeneid and consideration of its literary interpretation.

*When Offered* (Offered based on sufficient demand and resources)  
*Former Course Number* [2120]

**Prerequisite:** LATN 3110.

**LATN3150 - Livy**

Credits: 3  
Reading portions of Livy's historical works, and consideration of the history he covers and how the Romans viewed their past.

*When Offered* (Offered based on sufficient demand and resources)  
*Prerequisite:* LATN 2030 or equivalent.

**LATN3160 - Ovid**

Credits: 2  
*When Offered* (Offered based on sufficient demand and resources)  
*Prerequisite:* LATN 2030 or equivalent.

**LATN3990 - Independent Study**

Credits: 1-4  
Books or texts of special interest to the student, selected in conjunction with the instructor; independent reading and reports.

*When Offered* (Offered based on sufficient demand and resources)  
*Prerequisite:* LATN 2030 or equivalent.

**LATN4110 - Horace**

Credits: 3  
*When Offered* (Offered based on sufficient demand and resources)  
*Prerequisite:* LATN 2030 or equivalent.

**LATN4115 - Latin Philosophers**

Credits: 3  
An introduction to Latin philosophical traditions. Readings will be selected either from one author, such as Lucretius (ca. 99-55 BCE) or Seneca the Younger (ca. 4 BCE-65 CE), or from different authors about a given theme.
When Offered (Offered based on sufficient demand and resources)

Prerequisite: LATN 2030 or equivalent.

Total: 18 Hours

Spanish Minor

As a Spanish Minor, you will develop your speaking, listening, reading, writing, and presentational skills in Spanish. You will gain a better understanding of perspectives and experiences of Spanish speaking cultures.

Electives

- 18 hours of electives in Spanish at the 2000-level or above (excluding SPAN 2030).
- Elective courses include:

  **SPAN3040 - Spanish Conversation**

  Credits: 3
  Emphasizes speaking and listening comprehension through structured and monitored individual, pair, small group and class work, while providing socio-cultural competence, vocabulary acquisition and grammar review. Provides enhanced language skills in a manner that otherwise could only be attained through an extended stay in a Hispanic country.

  **Prerequisite:** SPAN 2040; limited to Spanish majors/minors with no previous experience abroad.

  **SPAN3070 - Intensive Spanish Abroad**

  Credits: 3
  Max Credit (Max. 9)
  Spanish language and cultural study in Spanish-speaking countries led by UW faculty.

  **Prerequisite:** SPAN 2030 or consent of instructor.

  **SPAN3080 - Spanish Language in the USA**

  Credits: 3
  This course studies the Spanish language in its social context as a language of the United States, through concepts such as: social and individual bilingualism, Spanglish, dialects, language contact, borrowings, code switching, language policy, or language ideology.

  **Cross Listed** LTST 3080.
  USP 2015 Code U5H
  **Prerequisite:** SPAN 3050 or SPAN 3060 or instructor's consent.
SPAN3200 - Spanish Culture and Civilization

Credits: 3
Studies the evolution of Spanish culture through its main artistic, sociological and intellectual expressions.

Prerequisite: SPAN 2040, SPAN 2140.

SPAN3220 - Spanish-American Cultures in Context

Credits: 3
Introduction to the Spanish-speaking cultures of Latin America and the United States through a historical overview and a focus on contemporary politics and culture.

Prerequisite: SPAN 2040 or SPAN 2140 or consent of instructor.

SPAN4070 - Spanish Variation and Change

Credits: 3
Provides a general overview of issues in language change in the contemporary Spanish-speaking world. General topics include language vs. dialect, social factors affecting language variation/acquisition/maintenance, mechanisms of change, language contact effects, language attitudes, policy and planning, style and register and mixing of languages and bilingualism, among other, as they are seen in the Spanish language.

Dual Listed SPAN 5070.
Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4080 - Spanish Advanced Grammar

Credits: 3
Max Credit (Max. 9)
Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

Dual Listed SPAN 5080.
Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

SPAN4090 - Spanish Phonetics and Phonology

Credits: 3
Provides a description of Spanish sound system and general survey of the language's major dialectical variations. Will touch upon acoustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.
Dual Listed SPAN 5090.

Prerequisite: SPAN 3300 or LANG 4750 or consent of instructor.

**SPAN4200 - Introduction to Research**

Credits: 3
Max Credit (Max. 9)

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3

Prerequisite: SPAN 3030 or SPAN 3050 and 3 hours of 4000 or 5000-level courses.

Total: 18 Hours

**Graduate**

**Spanish, M.A.**

As a Spanish Masters Student, you will develop your speaking, listening, reading, writing, and presentational skills in Spanish. You will gain a better understanding of perspectives and experiences of Spanish speaking cultures.

**Required Courses**

**Program Specific Degree Requirements**

A total of 27 graduate-level course hours are required.

Plus 4 thesis hours.

**SPAN4200 - Introduction to Research**

Credits: 3
Max Credit (Max. 9)

Senior seminar on a topic varying from year to year. Includes study of standard bibliographical guides. Minimum of 3 hours recommended for majors.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3

Prerequisite: SPAN 3030 or SPAN 3050 and 3 hours of 4000 or 5000-level courses.

**SPAN5900 - Practicum in College Teaching**
Credits: 3
Max Credit 3

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

**Prerequisite:** graduate status.
- One 5000 level course in SPAN Linguistics Credits: 3
- One 5000 level course in SPAN Literature Credits: 3
- Spanish elective credits at the graduate level Credits: 15
  One 5000 level course (3 credits) can be taken outside the department with the approval of the thesis advisor or the graduate advisor
  **Graduate-level courses include:**

**SPAN5070 - Spanish Variation and Change**

Credits: 3
Provides a general overview of issues in language change in the contemporary Spanish-speaking world. General topics include language vs. dialect, social factors affecting language variation/acquisition/maintenance, mechanisms of change, language contact effects, language attitudes, policy and planning, style and register and mixing of languages and bilingualism, among other, as they are seen in the Spanish language.

**Dual Listed** SPAN 4070.
**Prerequisite:** graduate standing.

**SPAN5080 - Spanish Advanced Grammar**

Credits: 3
Intensive practice of Spanish grammar through syntactic analysis to raise language awareness. Study of Spanish grammar in connection with information theory and semantic roles, with a focus on complex sentences and different phenomena such as preposition requirements, word order, emphatic structures, etc.

**Dual Listed** SPAN 4080.
**Prerequisite:** graduate standing.

**SPAN5090 - Spanish Phonetics and Phonology**

Credits: 3
Provides a description of Spanish sound system and general survey of the language's major dialectical variations. Will touch upon acoustic phonetics and focus on articulatory phonetics. Practice of phonological processes that affect the pronunciation of the language. It includes an explanation of main sources for a foreign accent in Spanish.

**Dual Listed** SPAN 4090.
**Prerequisite:** graduate standing.

**SPAN5100 - Hispanic Thought**
intensive study of a topic, author, or philosophical movement. Designed for upper level and graduate students.

**Prerequisite:** 12 hours of Spanish literature at 4000-5000 level.

**SPAN5110 - Peninsular Spanish Literature**

Credits: 1-3  
Max Credit (Max. 9)

An intensive study of a topic or an author. Designed for upper level and graduate students.

**Prerequisite:** 12 hours of Spanish literature at 4000-5000 level.

**SPAN5120 - Spanish American Literature**

Credits: 1-3  
Max Credit (Max. 9)

An intensive study of a topic or an author. Designed for upper level and graduate students.

**Prerequisite:** 12 hours of Spanish literature.

**SPAN5130 - Masterpieces of Spanish Renaissance Literature**

Credits: 3  
A study of the Spanish Renaissance, taking into consideration social, political, economic, religious philosophical, and aesthetic aspects of the culture as a context for and as reflected in the literature.

**Dual Listed** SPAN 4130.  
**Prerequisite:** SPAN 3030 or SPAN 3050, and SPAN 3140.

**SPAN5140 - Masterpieces of Spanish Baroque Literature**

Credits: 3  
Studies of the Spanish Baroque, taking into consideration social, political, economic, religious, philosophical, and aesthetic aspects of the culture as a context for and as reflected in the literature. Also covers the relationship between the Spanish Renaissance and the Baroque.

**Dual Listed** SPAN 4140.  
**Prerequisite:** SPAN 3030 or SPAN 3050, and SPAN 3140.

**SPAN5150 - Spanish Romanticism**

Credits: 3  
A comprehensive study of the romantic movement in Spain. Close reading and commentary of texts by representative
authors including Espronceda, Rivas, Zorilla, Becquer and de Castro.

**Dual Listed** SPAN 4150.
**Prerequisite:** SPAN 3030 or SPAN 3050, and SPAN 3140.

**SPAN5160 - Graduate Readings**

Credits: 1-5
Max Credit (Max. 6)

**Prerequisite:** graduate standing.

**SPAN5170 - Special Problems**

Credits: 1-2
Max Credit (Max. 6)

**Prerequisite:** graduate standing.

**SPAN5180 - Advanced Cultural Studies in Hispanic Lit/Media**

Credits: 3
Advanced analysis of Hispanic cultural phenomena. Focus on the Spanish-speaking cultures of Spain or the Spanish-speaking Americas or both. The Texts consulted vary according to instructor and may include the visual arts, such as film, paintings, and performance, academic theory, websites, and other fiction and non-fiction readings.

**Dual Listed** SPAN 4180.
**Prerequisite:** SPAN 2140 or equivalent and one 4000-level course.

**SPAN5190 - 20th and 21st Century Spanish-American Texts**

Credits: 3
Provides students the opportunity to study representative literary texts that reflect the tendencies and trends in 20th and 21st Century Spanish-language works of the Americas.

**Dual Listed** SPAN 4190.
**Prerequisite:** 6 hours of SPAN at the 4000-level.

**SPAN5260 - The Realist Novel in Spain**

Credits: 3
Studies of the major novelists of nineteenth century Spain from 1850 until the Generation of '98.

**Dual Listed** SPAN 4260.
**Prerequisite:** SPAN 3030 or SPAN 3050, and SPAN 3140.

**SPAN5990 - Internship**
Credits: 1-12
Max Credit (Max. 24)

**Prerequisite:** graduate standing.

Total: 31 Hours

**Life Sciences Program**

The Life Sciences Program consists of all LIFE prefix courses. These courses support a wide range of life science majors and several non-life science majors across campus. The number of LIFE courses taken by students in each major is determined by the departments that offer the majors. The curriculum intends to provide science majors with both breadth and depth in the basic life sciences, and nonscience majors with exposure to key concepts in biology and an understanding of the connections between science and society. The program courses also expose students to the fields of cell and molecular biology, genetics, ecology, and evolution, and they familiarize students with the diversity of life on the planet. Courses within the curriculum address four fundamental goals at a level appropriate for each course: 1. Acquisition, Application and Synthesis of Knowledge 2. Communication Skills 3. Critical Thinking and Problem Solving 4. Research Skills The Life Sciences courses listed below were previously offered under the BIOL prefix. All courses listed below are now offered through the LIFE prefix.

**Professor:**

JONATHAN F. PRATHER, B.S. University of Virginia 1995; Ph.D. Emory University 2001; Professor of Zoology and Physiology 2021, 2009.

**Other Programs**

**Life Sciences**

Music 2049 Buchanan Center for the Performing Arts, (307) 766-5242
FAX: (307) 766-5326
Web site: www.uwyo.edu/music
Department Head: J. Scott Turpen

Professors:

ROBERT BELSER, B.M.E. Central Missouri State University 1977; M.S. M.E University of Illinois 1982; D.M.A. University of Iowa 1994; Professor of Music 2008, 1995. Director of Bands, Conducting, Music Education.

ANNE GUZZO, B.M. University of New Mexico 1992; M.A. University of California, Santa Cruz 1996; Ph.D. University of California, Davis 2002; Associate Professor of Music 2011, 2006. Composition, Theory.

JAMES PRZYGOCKI, B.M. Western Michigan University 1979; M.M. Indiana University 1984; Professor of Music 2005, 1993. Viola, String Methods, Music Education.

Associate Professors:
HOLLY DALRYMPLE, BM, Texas State University; MM, University of Texas-Austin; DMA, University of North Texas; Associate Professor of Music 2019, 2013. Director of Choral Activities.

CRYSTAL SIEGER, B.M. Ohio State University 1992; M.M. University of Arizona 1994; Ph.D. 2012; Assistant Professor of Music 2014. Music Education.

BETH VANDERBORGH, B.M. Manhattan School of Music 1988; M.M. Eastman School of Music 1990; D.M.A. University of Maryland 1995; Associate Professor of Music 2014, 2008. Cello, Graduate Coordinator.

CHI-CHEN WU, B.F.A. National Taiwan Normal University 1998; M.M. 2202; D.M.A. New England Conservatory 2006; Assistant Professor of Music 2012. Piano and Collaborative Piano.

Assistant Professors:

JOSEPH CARVER, B.M.E. 2007 Ohio University; M.M. 2014 Ohio University; Ph.D. 2019 The Ohio State University. Associate Director of Bands.

BEN MARKLEY, B.M. Fort Hays State University 2005; M.A. New York University 2007; D.M.A. University of Colorado-Boulder 2010; Assistant Professor of Music 2016. Jazz Studies.

BRIAN MURRAY, B.M. University of North Texas 2010; MME, Florida State University 2015; DMA, University of North Texas 2020. Assistant Professor of Music 2020. Choral Music Education.

TIGER ROBISON, B.M.E. University of Hartford 2005; M.S. Central Connecticut State University 2012; Ph.D. University of Hartford 2016; Assistant Professor of Music 2017. Music Education.

ANDREW WHEELOCK, B.M.E. Central Michigan University 2013; M.M. University of Illinois 2015; D.M.A. 2018; Assistant Professor of Music 2018. Percussion.

Academic Professional Lecturers:

Lecturers:

Kato, Riner

Part-time Lecturers:

Erlandson, Flagg, Fourt, Harvey, Hoffman, Latchininsky, Smith, Strampe, Stucki, Teppa, Uno-Jack, Watt
Professors Emeriti:

Steve Barnhart, David Brinkman, Gordon Childs, Julia Combs, Rodney Garnett, Frederick Gersten, Brian Hanly, Larry Hensel, Edgar Lewis, Kathleen McKeage, William Stacy, Carlyle Weiss

The Department of Music offers undergraduate and graduate degree programs which combine scholarship with performance, theory with practice and the academic with the creative. It also provides an opportunity for the study and performance of music by university students who are not majors in music. By giving concerts, workshops and lectures throughout the state of Wyoming through the Fine Arts Outreach Program, the music department serves as a musical resource for the entire state. The music department is fully accredited by the National Association of Schools of Music.

Procedures and requirements are listed in the music department Student Handbook which is available online at www.uwyo.edu/music/forms/index.html. The music department Student Handbook and the University Catalog are binding documents for the degree programs listed below. Students must receive a "C" or better in all courses designated MUSC to satisfy department requirements. The foreign language requirement for the Bachelor of Music in Performance Vocal Emphasis degree may be satisfied with a "C" or better in all courses. A student's transfer courses must meet all of these requirements to be accepted for credit.

An audition is required to become a Music major or minor. The 3 Steps to Becoming a Music Major are:

1. Apply for admission to the University of Wyoming (www.uwyo.edu/admissions/).
2. Audition for admittance as a Music major and for Music scholarships. Audition and scholarship information may be found at www.uwyo.edu/music. All Music majors and minors MUST audition to be admitted to the Music program.
3. Perform at an acceptable level, and you are in!

Degrees

Bachelor of Arts (with major in music): A program designed for the student who desires a broadly-based liberal arts program.

Bachelor of Music Performance: A fouryear course of study designed for students who wish to prepare for a professional career as performer and applied teacher.

Bachelor of Music Education: A fouryear course of study for the student who wishes to prepare for a career as a teacher of music in elementary or secondary schools in the instrumental, vocal, and general music fields.

Certificates

Music Entrepreneurship Certificate: The certificate provides a basic understanding of music marketing principles and practical hands-on experience that allows one to enter the workforce with a marketable skill set in the areas of arts promotion and management. A certificate may be pursued on its own or in conjunction with any university degree program. https://www.uwyo.edu/music/certificates/music_entrep_index.html

Audio Technology Certificate: The certificate provides a basic understanding of audio principles and practical hands-on experience that allows one to enter the commercial music workforce with a marketable skill set. Students will learn how to record and manipulate recorded sounds as well as provide live sound reinforcement for live concerts or events. Certificate may be pursued on its own or in conjunction with any university degree program.

Performer's (post-baccalaureate) Certificate
A non-degree course of study for the student seeking to improve professional performance skills. The program consists of a total of 30 credit hours from applied lessons, ensembles and electives to be selected in consultation with the major adviser. Prerequisites are demonstrated evidence of advanced performance proficiency through a live or recorded audition, undergraduate degree in music, and admission to the university.

Music for Other Students

Music as an elective subject. Students from other departments of the university may, with consent of their adviser and applied instructor, elect private or class lessons in applied music (with or without previous training) and may enroll in any theory, music literature or activity course for which they are qualified. See the music department Student Handbook for requirements for a minor in music.

Organizations. Performance organizations include the Happy Jacks, Marching Band, Symphonic Band, Wind Ensemble, Collegiate Chorale, Symphony Orchestra, Chamber Orchestra, Singing Statesmen, Bel Canto, Women's Choir, and Opera Theatre. Other groups are brass, woodwind, string, percussion and piano ensembles, Vocal Jazz, Civic Chorus and Jazz Ensemble. Membership is open to qualified students in all colleges and departments of the university. Each year, in addition to frequent appearances on the campus, several of these organizations and groups tour the region.

Music Fees

For Individual Instruction:

One 1/2-hour lesson weekly, per semester $150.00
One 1-hour lesson weekly, per semester $300.00

For Music 4510, 4520, 4530, 4540, 4550 and 4560 (courses taken in the form of private lessons) a fee of $85.00 is assessed each semester.

Practice Rooms:

per semester $35.00
Music instrumental fee, per semester $25.00
Music locker fee, per student per semester $15.00
Public School Methods fee, per class $5.00

Undergraduate Study

Learning Outcomes

Bachelor of Arts in Music

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course
even though the course number is not unique. To fulfill this degree requirement students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. Consult your advisor and the Music Handbook for specific information.

**Learning Outcomes**

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Arts degree in Music, students will be able to: (1) demonstrate a level of competence as solo and ensemble performers appropriate for a musician educated in the liberal arts, (2) demonstrate specific knowledge in music theory, music history, and general studies appropriate for their professional goals, and (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music.

Degree Total 120

*Upper Division MUSC Electives: See complete list in Undergraduate Music Handbook.

University and College Requirements

In addition to the major requirements listed above, students must complete all university and College of Arts and Sciences requirements listed elsewhere in this Catalog. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

Bachelor of Music in Performance

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course even though the course number is not unique. To fulfill this degree requirements students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. All string and vocal emphases must pass the piano proficiency test during their sophomore year. Class Piano 1-4 is highly recommended for those with little piano background. All wind and percussion emphases must pass Class Piano 1-2 with a B or better or may substitute the Piano Literacy exam in their place. Consult your advisor and the Music Handbook for specific information.
**Learning Outcomes**

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Music degree in Performance, students will be able to: (1) demonstrate excellence as solo and ensemble performers to provide a basis for a professional career as a musician, (2) demonstrate specific knowledge in music theory, music history, and instrumental pedagogy to provide a basis for a professional career as a performing musician, and (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music.

**University and College Requirements**

In addition to the major requirements listed above, students must complete all university and College of Arts and Sciences requirements listed elsewhere in this Catalog. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

**Upper Division Music Electives**

Upper division music electives vary per emphasis. Please see the Undergraduate Music Handbook for a full listing.

Degree Total 120

Bachelor of Music Education

All music majors must successfully complete MUSC 0200 Convocation (0 credit, S/U) each semester in residence and must enroll in lessons and one major ensemble per semester. Each ensemble course is deemed to be a unique course even though the course number is not unique. To fulfill this degree requirement students will be expected to enroll in ensembles at the lower and upper divisions a minimum of four times with a career maximum of 8. All music majors must pass the piano proficiency test during their sophomore year. Class Piano 1–4 is highly recommended for majors with little piano background. Consult your advisor and the Music Handbook for specific information.

Learning Outcomes

Graduates of the UW Department of Music will develop the skills, concepts, and sensitivities essential to the professional life of a musician (NASM Handbook, p. 85).

At the completion of the Bachelor of Music Education degree, students will be able to: (1) demonstrate skill as solo and ensemble performers who can work as professional educators, (2) demonstrate specific knowledge in music theory, music history, and instrumental and vocal pedagogy to provide a basis for a professional career as a music educator, (3) demonstrate the ability to think, speak, and write clearly and effectively about the art of music, and (4) demonstrate the pedagogical background and teaching experience to function as effective K-12 music educators.

University and College Requirements

In addition to the major requirements listed below, students must complete all university requirements listed elsewhere in this Catalog. A minimum of 42 hours of the total degree must be at the junior/senior level. Check with your adviser about music courses which fulfill University Studies Program requirements.

Graduate Study

The Department of Music offers programs leading to the Master of Music in Performance and to the Master of Music Education.

The following prerequisites and credit hours will pertain to individual lessons for all the instruments and voice listed below. All students enrolled in MUSC 5080 through MUSC 5670 levels will be required to take a jury examination at the end of the semester to determine, in part, the final grade. (See current fee schedule for listing of fees in Individual Lessons.)

Program Specific Admission Requirements

In addition to the minimum requirements set forth in this Catalog, the Department of Music requires that applicants for graduate programs submit supplementary documentation of their preparation for advanced study in music.
Those interested in graduate study in music are encouraged to contact the Graduate Studies Coordinator for the Department of Music, Dr. Beth Vanderborgh (bvander@uwyo.edu), or the Area Coordinator for each instrument or voice cited on the Department of Music website (www.uwyo.edu/music/).

In order to apply, please submit the following via the University of Wyoming’s online application system (www.uwyo.edu/admissions/apply.html):

• three letters of recommendation
• the Graduate Teaching Assistantship application
• academic transcripts

A minimum undergraduate cumulative GPA of 3.000 is required. The GRE is not required for admission consideration.

All accepted graduate students in the Master of Music (MM) or Master of Music Education (MME) programs will take the Graduate Entrance Examinations in music history and music theory prior to matriculation. If a student does not pass one or more sections, they must take an online refresher course prior to undertaking advanced coursework.

International applicants who are not native English speakers must submit TOEFL or IELTS scores (TOEFL minimum = 76, IELTS minimum = 6.5). If an international applicant wishes to be considered for a Graduate Teaching Assistantship, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center if you have questions regarding the OPI (www.uwyo.edu/elc/international-teaching-assistants/graduate_admissions/index.html).

Applicants for the MM program should also request an audition and apply for music scholarship consideration via the Audition and Scholarships link found on the Graduate page of the Department of Music website (www.uwyo.edu/music/graduate_students/index.html). Applicants for the MME program should send their supporting documents (video of teaching/rehearsing, statement of music education philosophy, writing sample) directly to Dr. Crystal Sieger, Music Education Coordinator (csieger@uwyo.edu).

Master of Music Education

An earned, documented Bachelor of Music Education degree from an accredited institution of higher learning.

One year of teaching experience plus: An active background in music education, A DVD of classroom teaching and/or rehearsing,

A one- to three-page statement of music education philosophy,

Three letters of recommendation, one from an immediate supervisor, of teaching effectiveness.

A writing sample from an extensive undergraduate research paper.

Learning Outcomes

1. Students will demonstrate the advanced musical and pedagogical knowledge and research/writing skills necessary to enhance their teaching abilities in a P-16 vocal and/or instrumental teaching position.

2. Students will demonstrate the advanced musical and pedagogical knowledge and research/writing/and communication skills necessary to solve contemporary music problems.

Master of Music in Performance
An earned, documented bachelor of music performance or bachelor of arts from an accredited institution of higher learning.

Live audition (preferred), live remote video audition, or links to an online video demonstrating:

- A strong sense of musicality, Technical proficiency, Stylistically correct performance practices in at least three historical periods, where applicable,
- A working knowledge of the standard repertoire,
- Also, a portfolio of work showing concentrated activity on the major instrument or voice area.

**Learning Outcomes**

1. Graduate students will be excellent performers on voice or instrument.

2. Graduate students will demonstrate the advanced musical and pedagogical knowledge and research writing skills necessary to begin their professional performing career and/or demonstrate their readiness to teach at the college and/or university level and/or pursue doctoral degrees.

**Program Specific Graduate Assistantships**

Graduate assistantships are awarded on a competitive basis to defray some of the costs of graduate study and to provide practical experience working under the guidance of faculty members.

Criteria that are taken into account in awarding assistantships include: academic preparation, performing ability, and special skills that would prove valuable in carrying out the duties of the assistantship, as well as, needs of the department.

To be considered for a graduate assistantship, the candidate must be fully admitted through the university. The application for an assistantship is accessed via the UW Graduate Admissions application. After considering the merits of the application, the department then nominates candidates to the university. Applications for assistantships are due by February 15.

**Program Specific Degree Requirements**

**Master's Programs**

Each of the degree programs consists of 30 semester hours of work composed of the following elements:

- Basic music core (11 hours)
- MUSC 5310. Bibliographical Research, 2 hours
- Upper-division music history, 3 to 6 hours
- Upper-division music theory, 3 to 6 hours
- Major area courses (12-16 hours)
- Thesis requirement (Plan A, four hours); (Plan B, zero hours)
The thesis requirement may be fulfilled under the Plan B paper/lecture-recital as appropriate to the specific degree program. A proposal for a thesis or Plan B paper must be submitted to and approved by the student's graduate committee chair.

Electives (0 to 7 hours)

**Master of Music Education Plan A or Plan B**

To earn a Master of Music Education, students must complete the following requirements:

Basic music core, (11 hours)

Major area courses (12 - 15 hours)

EDRE 5530. Introduction to Research, 3 hours

MUSC 5760. Music Education Seminar, 2 hours

MUSC 5720. Music Supervision, 2 hours

Music education electives, 5-8 hours

Thesis requirement (0 to 4 hours) Plan A:

MUSC 5960. Thesis Research, four hours (the thesis must be on a music education topic), or

Plan B: Plan B paper, plus extra courses, 0 hours Electives (4 to 7 hours)

**Master of Music in Performance Plan B**

To earn a Master of Music in Performance, students must complete the following requirements:

Basic music core (11 hours minimum)

Major area courses (16 hours minimum)

MUSC 5480-5670. Private Lessons in major instrument or voice. A minimum of 8 hours.

MUSC 5770-5890. Ensembles, 2 hours

MUSC 5680. Graduate Recital, 2 hours.

A faculty jury must approve a recital given for credit one month prior to the performance. The faculty jury will determine the grade after the performance.

MUSC 5390. Performance Practice and Interpretation, 2 hours

MUSC 5320. Advanced Seminar, 3 hours MUSC 4***. Pedagogy (instrument specific), 2 hours

Requirement in lieu of thesis:

Plan B paper, or 1-hour lecture-recital

Foreign language requirement (voice majors only). Singers must demonstrate acceptable proficiency in singing in Italian, German, French, and English.
Both degrees require successful completion of the written comprehensive exams, which cover theory, history, and the major area.

**Music (MUSC)**

**Individual Lessons:** All students enrolled in MUSC 2080 through MUSC 5670 levels will be required to take a jury examination at the end of the semester to determine, in part, the final grade. (See current fee schedule for listing of fees in individual lessons.)

Students must receive a "C" or better in all courses designated MUSC to satisfy department degree requirements. A student's transfer courses in music must also reflect a "C" or better to be accepted for credit.

USP Codes are listed in brackets by the 2003 USP code followed by the 2015 USP code (e.g. [QB•Q]).

**Major**

**Jazz Performance, B.M.**

The BM in Jazz Performance is a jazz intense professional degree intended to prepare students for graduate school as well as a career in performing music. Acceptance to the program is by audition only.

**University Studies Program Requirements**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**
Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Jazz Performance, B.M.: 120 Credits**

**Music Core: 56 Credits**

- Students must complete at least one ensemble per semester enrolled, total 8.

**MUSC0200 - Music Convocation**

Credits: 0
Weekly recital hour for student, faculty and guest performances.

**Prerequisite:** intended for, and required of music majors.
Students must complete 8 semesters of Convocation, 1 each semester they are in residence.

**MUSC1290 - Class Piano I**

Credits: 1
Encompasses group instruction for the beginner at the keyboard. First semester of four-semester sequence. Enrollment limited to music or music education majors whose principal performance area is not piano.

**When Offered** (Offered fall semester)

**MUSC1295 - Class Piano II**

Credits: 1
Continues skills begun in MUSC 1290 including all major scales, beginning minor scales, prescribed chord progressions, harmonization, transposition, sight reading and repertoire.

**When Offered** (Offered spring semester)
**Prerequisite:** MUSC 1290 or successful completion of final exam requirements for MUSC 1290.

**MUSC1030 - Written Theory I**

Credits: 3
First semester of a one-year series. Studies fundamentals of music and written harmony.

**Prerequisite:** music majors/minors only.

**MUSC1035 - Aural Theory I**
Credits: 1
First semester of a one-year series. Studies ear training and sight singing.

MUSC1040 - Written Theory II

Credits: 3
Second semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: MUSC 1030 and music majors/minors only.

MUSC1045 - Aural Theory II

Credits: 1
Second semester of a one-year series. Studies ear training and sight singing.

Prerequisite: MUSC 1035.

MUSC2030 - Written Theory III

Credits: 3
First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

Prerequisite: MUSC 1030 and MUSC 1040.

MUSC2035 - Aural Theory III

Credits: 1
First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 1035 and MUSC 1045.

MUSC2040 - Written Theory IV

Credits: 3
Fourth semester of a two-year series. Explores the instruments of the band and orchestra, and the capabilities of writing for voices and piano. Arranging for various instrumental combinations and vocal ensembles.

Prerequisite: MUSC 2030.

MUSC1003 - Historical Perspectives in Music I

Credits: 3
The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.
USP 2003-2014 Code U3L, U3L

**Prerequisite:** Music majors and minors, or by permission of the instructor.

**MUSC2050 - Historical Perspectives in Music II**

Credits: 3
Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA

**Prerequisite:** MUSC 1003, or by permission of instructor.

**MUSC2055 - Historical Perspectives III**

Credits: 3
Max Credit (Max. 6)
Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

**Prerequisite:** ability to read music.

**MUSC4070 - Conducting**

Credits: 3
Examines basic techniques of baton, score reading, familiarization with standard works, practical experience in directing choral and instrumental groups. For graduate credit, students must present extra paper or project determined by instructor.

**Prerequisite:** MUSC 2030, MUSC 2035, MUSC 2040, and MUSC 2045.

**MUSC3255 - Sophomore Qualifying Performance Jury**

Credits: 0
An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. Transfer students with junior standing must take the jury at the end of their first semester in residence. Contact your studio teacher for the individual Sophomore Jury requirements. Students may register for this course up to 2 times.

**Prerequisite:** 4 semesters of private instruction, consent of instructor.
- One hour of Applied Lessons on the students major instrument must be taken every semester starting at the 2000 level.
  - MUSC 2*** Applied Lessons II: 4 Credits
  - MUSC 3*** Applied Lessons III: 4 Credits
  - MUSC 4*** Applied Lessons IV: 4 Credits
  - MUSC 5*** Applied Lessons V: 4 Credits
Instrumental Emphasis: 2 Credits

**MUSC4615 - Instrumental Pedagogy**

Credits: 2
Surveys teaching materials in solo and chamber literature, techniques, practices, and methods for applicable instrument.

**Prerequisite:** 8 credit hours of individual study in a specific instrument.

Jazz Core Requirements: 11 Credits

**MUSC3025 - Fundamentals of Jazz Improvisation**

Credits: 2
Continuation of Jazz Aural Theory IV, MUSC 1045. More advanced topics will be covered and more challenging repertoire will be explored. A strong emphasis will be placed on common practice techniques in mainstream jazz.

**Prerequisite:** MUSC 2045.

**MUSC4020 - Advanced Jazz Improvisation**

Credits: 2
Continuation of Fundamentals of Jazz and Improvisation, MUSC 3025. Students will learn the harmonic and melodic language of bebop and hard bop through performance and composition of tunes in these idioms.

**Prerequisite:** MUSC 3025.

**MUSC4025 - Jazz Composition and Arranging**

Credits: 2
Continuation of Advanced Jazz Improvisation, MUSC 4020. Students explore developments in jazz improvisation and composition since 1960. Advanced theoretical concepts are covered in lectures and workshop sessions.

**Prerequisite:** MUSC 4020.

**MUSC4350 - History and Literature of Jazz**

Credits: 3
Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H

**Prerequisite:** consent of instructor.
MUSC4380 - Jazz Techniques

Credits: 2
Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)
Prerequisite: MUSC 2035.

Upper Division Music Electives: 9 Credits

MUSC3015 - Introduction to the Music of the World's Peoples

Credits: 3
Students develop three primary interconnected literacies for the study and understanding of musics of other cultures: analytical music listening, understanding the concept of music culture, and interpretation of musical events. Student writing is a primary tool for developing these literacies. Texts from the Oxford University Press Global Music Series to study musics of Africa, Indonesia, India, and Eastern Europe are used.

Cross Listed ANTH 3015.
USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
Former Course Number [2015]

Prerequisite: MUSC 1000 or permission of instructor and WA.

MUSC4000 - Careers in Music

Credits: 2
Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

MUSC4315 - America's Ethnic Music

Credits: 3
Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D
A&S College Core 2015 ASD
Former Course Number [3000]
**Prerequisite:** MUSC 1000.

**MUSC4330 - Undergraduate Seminar**

Credits: 3
An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3
**Prerequisite:** MUSC 2050 and MUSC 2055.

**MUSC4490 - History of Rock and Roll**

Credits: 3
This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H

**MUSC4650 - Keyboard Literature**

Credits: 3
An overview of solo ensemble keyboard literature from the 1600s to the present, focusing on major composers and common compositional forms. Includes listening assignments and examinations as well as individual research papers and class presentations.

**Restricted** BM MMM MME PC; MUSC 5655 Graduate Standing

**Prerequisite:** MUSC 4655, MUSC 2050, MUSC 2055

**MUSC4651 - String Solo Literature**

Credits: 3
Provide a survey of the masterpieces of string solo literature (violin, viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

**Prerequisite:** 8 hours of lessons in string instruments.

**MUSC4750 - Marching Band Techniques**

Credits: 1
Applies specific various drill design techniques including corps style, military, show band and computer applications.

**MUSC4780 - Instrumental Conducting and Repertory**
Credits: 2
Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

MUSC4790 - Choral Conducting and Repertory

Credits: 2
Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

Prerequisite: MUSC 4070 and passed piano proficiency requirement.

MUSC4990 - Topics in:

Credits: 1-12
Max Credit (Max. 12)

Encompasses various topics in music. Specific subjects vary from year to year as course is often taught by distinguished visiting artists and lecturers or music faculty. Presents topics of special interest to music majors, graduate students and music educators. Please check class schedule for course titles each semester.

Prerequisite: consent of instructor.

MUSC5035 - Advanced Theory

Credits: 3
To further understanding of chromatic harmonies, analysis of advanced formal aspects, Pitch-class set Analysis, and 12-tone Analysis. To ultimately have a synergistic view of each work, combing historical and theoretical elements in viewing the work as a whole.

Dual Listed MUSC 4035
Prerequisite: MUSC 2030 and MUSC 2035, music majors only; (MUSC 5035): graduate standing.

A&S Core

A&S Diversity - 3 Credits
A&S Global - 3 Credits

General Electives: 6 Credits

Music Education, B.M.
The BM in Music Education is a professional degree intended to prepare students for careers as K-12 music educators. Acceptance to the program is by audition only.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

H- - Human Culture (1)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken within the student's major department.
H- - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Music Education: B.M.

Music Core: 43 Credits

- Students must complete at least one ensemble per semester enrolled, total 7.

MUSC0200 - Music Convocation

Credits: 0
Weekly recital hour for student, faculty and guest performances.

Prerequisite: intended for, and required of music majors.

MUSC1030 - Written Theory I

Credits: 3
First semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: music majors/minors only.
MUSC1035 - Aural Theory I

Credits: 1
First semester of a one-year series. Studies ear training and sight singing.

MUSC1040 - Written Theory II

Credits: 3
Second semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: MUSC 1030 and music majors/minors only.

MUSC1045 - Aural Theory II

Credits: 1
Second semester of a one-year series. Studies ear training and sight singing.

Prerequisite: MUSC 1035.

MUSC2030 - Written Theory III

Credits: 3
First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

Prerequisite: MUSC 1030 and MUSC 1040.

MUSC2035 - Aural Theory III

Credits: 1
First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 1035 and MUSC 1045.

MUSC2040 - Written Theory IV

Credits: 3
Fourth semester of a two-year series. Explores the instruments of the band and orchestra, and the capabilities of writing for voices and piano. Arranging for various instrumental combinations and vocal ensembles.

Prerequisite: MUSC 2030.

MUSC2045 - Aural Theory IV
Credits: 1
Second semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 2035.

MUSC1003 - Historical Perspectives in Music I

Credits: 3
The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3I, U3L
Prerequisite: Music majors and minors, or by permission of the instructor.

MUSC2050 - Historical Perspectives in Music II

Credits: 3
Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA
Prerequisite: MUSC 1003, or by permission of instructor.

MUSC2055 - Historical Perspectives III

Credits: 3
Max Credit (Max. 6)
Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

Prerequisite: ability to read music.

MUSC2390 - Piano Literacy Exam

Credits: 0
The Piano Literacy test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2390 a maximum of two times. Consult the Music Department Handbook for specific requirements.

Restricted MUSIC, BA and BM Instrumental Performance only
- Students who are Brass, Woodwind, and Percussion Emphasis may fulfill this requirement by passing Class Piano 1 and 2 with a B or higher.
  OR

MUSC2395 - Piano Proficiency
Piano proficiency test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2395 a maximum of 2 times. Consult the Music Department Handbook for specific requirements.

- Required for all Vocal and String emphasis students. Class Piano 1-4 is recommended to prepare for this exam.

**MUSC4070 - Conducting**

Credits: 3  
Examines basic techniques of baton, score reading, familiarization with standard works, practical experience in directing choral and instrumental groups. For graduate credit, students must present extra paper or project determined by instructor.

**Prerequisite:** MUSC 2030, MUSC 2035, MUSC 2040, and MUSC 2045.

**MUSC3255 - Sophomore Qualifying Performance Jury**

Credits: 0  
An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. Transfer students with junior standing must take the jury at the end of their first semester in residence. Contact your studio teacher for the individual Sophomore Jury requirements. Students may register for this course up to 2 times.

**Prerequisite:** 4 semesters of private instruction, consent of instructor.

**MUSC4155 - Senior Music Education Recital**

Credits: 0  
Music Education students perform a recital which may be a part of a Convocation or a separate performance. Consult your studio teacher for individual studio requirements.

**Prerequisite:** senior standing and studio teacher consent.

- Applied lessons are required each semester of residency:
  - MUSC 2## Applied Lessons II: 2 Credits
  - MUSC 3## Applied Lessons III: 2 Credits
  - MUSC 4## Applied Lessons IV: 2 Credits
  - MUSC 5## Applied Lessons V: 2 Credits

**Music Education Core: 13 Credits**

**Prerequisite:** MUSC 1040 & 1045

**MUSC1025 - Introduction to Music Education**

Credits: 2  
Introduces music teacher education. Includes overview of vocal and instrumental music education and teaching processes in grade levels K-12. Requires on-site visits and observations of music programs.
**When Offered**: Offered spring semester

**Former Course Number**: [1020]

**Prerequisite**: music majors only.

**MUSC1312 - Public School Tech: Brass**

Credits: 2  
This course is designed to teach the fundamentals of brass pedagogy and performance for music education majors. The course consists of two components applied study on brass instruments and study/discussion of current pedagogy and methods.

Restricted Restricted to Music Education majors.

**Prerequisite**: MUSC 1040, MUSC 1045.

**MUSC1322 - Public School Tech: Percussion**

Credits: 2  
This course is designed to teach the fundamentals of percussion pedagogy and performance for music education majors. The course consists of two components applied study on percussion instruments and study/discussion of current pedagogy and methods.

Restricted Restricted to Music Education majors.

**Prerequisite**: MUSC 1040, MUSC 1045.

**MUSC1332 - Public School Tech: Strings**

Credits: 2  
This course is designed to teach the fundamentals of string pedagogy and performance for music education majors. The course consists of two components applied study on string instruments and study/discussion of current pedagogy and methods.

Restricted Restricted to Music Education majors.

**Prerequisite**: MUSC 1040, MUSC 1045.

**MUSC1340 - Public School Methods: Voice I**

Credits: 1  
Max Credit (Max. 2)

Encompasses group instruction in vocal methods for music education majors.
Prerequisite: MUSC 1040, MUSC 1045.

**MUSC1352 - Public School Tech: Woodwinds**

Credits: 2  
This course is designed to teach the fundamentals of woodwind pedagogy and performance for music education majors. The course consists of two components: applied study on woodwind instruments and study/discussion of current pedagogy and methods.  

Restricted Restricted to Music Education majors.  

Prerequisite: MUSC 1040, MUSC 1045.

**MUSC1360 - Public School Methods: Guitar**

Credits: 1  
Max Credit (Max. 2)  

Prerequisite: MUSC 1040, MUSC 1045.

**MUSC3265 - Music Education Proficiency Review**

Credits: 0  
This course is required for entrance into upper-division Music Education coursework. The review will assess competency in oral and written communication skills, preliminary teacher performance, sight singing, and error detection. Completion is in the sophomore year or in the first semester for transfer students.  

Prerequisite: sophomore standing.

**MUSC4620 - Practicum in Music Education**

Credits: 1  
Provides opportunity to gain experience in music classroom in area public schools. Includes work on meeting educational standards of Wyoming necessary to begin student teaching and continued work on developing a teaching portfolio.  

Prerequisite: MUSC 1050 and junior status.

Emphasis: Choose One, 4-5 credits

String Emphasis: 4 credits

- String majors must take lessons on a secondary string instrument. 2 credits
MUSC4780 - Instrumental Conducting and Repertory

Credits: 2
Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

Vocal Emphasis: 4 credits

MUSC2320 - Diction for Singers I

Credits: 2
Studies phonetic sounds of English and Italian.

When Offered (Offered fall semester)

MUSC4620 - Practicum in Music Education

Credits: 1
Provides opportunity to gain experience in music classroom in area public schools. Includes work on meeting educational standards of Wyoming necessary to begin student teaching and continued work on developing a teaching portfolio.

Prerequisite: MUSC 1050 and junior status.

Brass, Woodwind, and Percussion Emphasis: 5 credits

MUSC4380 - Jazz Techniques

Credits: 2
Max Credit (Max. 2)
Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)
Prerequisite: MUSC 2035.

MUSC4750 - Marching Band Techniques

Credits: 1
Applies specific various drill design techniques including corps style, military, show band and computer applications.

MUSC4780 - Instrumental Conducting and Repertory
Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

**Prerequisite:** MUSC 4070 and MUSC 2395.

**Professional Education Requirements: 33 Credits**

**EDST2450 - Foundations of Development and Learning**

Credits: 3
Introduces students to the essential understandings of child/adolescent development and learning. The course emphasizes various theories and concepts related to student development with attention to cognitive, social, and physical perspectives.

**When Offered** (Offered each semester)
USP 2003-2014 Code U3CS
USP 2015 Code U5H
**Former Course Number** [EDFD 2450]

**Prerequisite:** 2.500 UW institutional GPA.

**EDEX2484 - Introduction to Special Education**

Credits: 3
Designed to meet the needs of education majors for a required course in special education. Students will explore the history of, understanding of and services for individuals with low/high incidence disabilities.

**Prerequisite:** EDST 2450 completed with a C or better and an institutional GPA of 2.50.

**MUSC4455 - Elem General Music Methods**

Credits: 3
This course is designed to prepare students for a career in K-6 music teaching while emphasizing the need for music teachers to recognize diverse student needs, including those unique qualities brought into the classroom by marginalized populations.

A&S College Core 2015 ASD
**Restricted** Restricted to Music Education majors.

**Prerequisite:** Completion of MUSC 2040, MUSC 2045 and MUSC 2055. Concurrent enrollment in MUSC 4705.

**MUSC4460 - Choral Music Methods**
This course is designed to help pre-professional music educators gain tools for teaching secondary choral music. Topics to be explored include choral literature, methodology involving strengthening musicianship, rehearsal techniques, and issues pertaining to the development of a choral ensemble program.

**Restricted** Restricted to Music Education majors.

**Prerequisite:** Completion of MUSC 2040, MUSC 2045 and MUSC 2055. Concurrent Enrollment in MUSC 4715 for choral emphasis students.

**MUSC4465 - Instrumental Music Methods**

Credits: 3
Based on a comprehensive instrumental music education model, this course acquaints students with curriculum development, instructional planning, and materials and techniques designed for teaching musical concepts and skills in instrumental ensemble and class lesson settings.

USP 2015 Code U5C3
**Restricted** Restricted to Music Education majors.

**Prerequisite:** Completion of MUSC 2040, MUSC 2045 and MUSC 2055. Concurrent enrollment in MUSC 4715 for instrumental emphasis students.

**MUSC4705 - Elementary Music Ed Practicum**

Credits: 1
Practicum experience is integral to development as a music teacher. As part of the Music Teaching Methods Sequence, pre-service music teachers will be immersed into authentic elementary and secondary music settings.

**Restricted** Restricted to Music Education majors.

**Prerequisite:** Concurrent enrollment with MUSC 4455 for instrumental emphasis students.

**MUSC4715 - Secondary Music Ed Practicum**

Credits: 1
Practicum experience is integral to development as a music teacher. As part of the Music Teaching Methods Sequence, pre-service music teachers will be immersed into authentic elementary and secondary music settings.

**Restricted** Restricted to Music Education majors.

**Prerequisite:** Concurrent enrollment with MUSC 4460 or MUSC 4465.

**MUSC4700 - Elementary Student Teaching in Music**
Credits: 8
The final professional academic semester of the teacher education program. A full-time residency with an elementary mentor teacher.

**Prerequisite:** 2.750 cumulative GPA, 3.000 GPA in major content courses, completion of all content courses, successful completion of Phase IIIa specific pedagogy and practicum, complete review of the prospective teacher's record.

**MUSC4710 - Secondary Student Teaching in Music**

Credits: 8
The final professional academic semester of the teacher education program. A full-time residency with a secondary mentor teacher.

**Prerequisite:** 2.750 cumulative GPA, 3.000 GPA in major content courses, completion of all content courses, successful completion of Phase IIIa specific pedagogy and practicum, complete review of the prospective teacher's record.

**A&S Core**

A&S Diversity - 3 Credits
A&S Global - 3 Credits

**Music Performance, B.M.**

The B.M in Performance is a professional degree intended to prepare students for graduate school as well as a career in performing music. Acceptance to the program is by audition only.

**University Studies Program Requirements**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**H - Human Culture (1)**

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (1)**

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Approved coursework does not include courses taken from the students' major department.
V - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

A&S Core

A&S Diversity - 3 Credits
A&S Global - 3 Credits

B.M. Performance, Vocal Emphasis: 120 Total Hours

Music Core: 54 Credits

- Ensembles: 1 per semester, minimum 8

MUSC0200 - Music Convocation

Credits: 0
Weekly recital hour for student, faculty and guest performances.

Prerequisite: intended for, and required of music majors.

MUSC1030 - Written Theory I

Credits: 3
First semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: music majors/minors only.

MUSC1035 - Aural Theory I

Credits: 1
First semester of a one-year series. Studies ear training and sight singing.

MUSC1040 - Written Theory II

Credits: 3
Second semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: MUSC 1030 and music majors/minors only.

MUSC1045 - Aural Theory II
Credits: 1  Second semester of a one-year series. Studies ear training and sight singing.

Prerequisite: MUSC 1035.

MUSC2030 - Written Theory III

Credits: 3  First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

Prerequisite: MUSC 1030 and MUSC 1040.

MUSC2035 - Aural Theory III

Credits: 1  First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 1035 and MUSC 1045.

MUSC2040 - Written Theory IV

Credits: 3  Fourth semester of a two-year series. Explores the instruments of the band and orchestra, and the capabilities of writing for voices and piano. Arranging for various instrumental combinations and vocal ensembles.

Prerequisite: MUSC 2030.

MUSC2045 - Aural Theory IV

Credits: 1  Second semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 2035.

MUSC1003 - Historical Perspectives in Music I

Credits: 3  The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3L U3L  
Prerequisite: Music majors and minors, or by permission of the instructor.

MUSC2050 - Historical Perspectives in Music II
Credits: 3
Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA
Prerequisite: MUSC 1003, or by permission of instructor.

MUSC2055 - Historical Perspectives III

Credits: 3
Max Credit (Max. 6)

Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

Prerequisite: ability to read music.

MUSC2395 - Piano Proficiency

Credits: 0
Piano proficiency test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2395 a maximum of 2 times. Consult the Music Department Handbook for specific requirements.

MUSC3255 - Sophomore Qualifying Performance Jury

Credits: 0
An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. Transfer students with junior standing must take the jury at the end of their first semester in residence. Contact your studio teacher for the individual Sophomore Jury requirements. Students may register for this course up to 2 times.

Prerequisite: 4 semesters of private instruction, consent of instructor.

- Applied lessons are required each semester of residency:
  - MUSC 2*** Applied Lessons II: 4 Credits
  - MUSC 3*** Applied Lessons III: 4 Credits
  - MUSC 4*** Applied Lessons IV: 4 Credits
  - MUSC 5*** Applied Lessons V: 4 Credits

MUSC4070 - Conducting

Credits: 3
Examines basic techniques of baton, score reading, familiarization with standard works, practical experience in directing choral and instrumental groups. For graduate credit, students must present extra paper or project determined by instructor.

Prerequisite: MUSC 2030, MUSC 2035, MUSC 2040, and MUSC 2045.

MUSC3500 - Junior Recital
Credits: 0
Students will perform a 30 minute (minimum) recital of appropriate repertoire. Consult your studio teacher for individual studio requirements.

Prerequisite: 4 semesters of private instruction, consent of instructor.

MUSC4590 - Senior Recital

Credits: 2
Max Credit (Max. 4)

Prerequisite: at least 14 semester hours in one performance field and senior standing.

Vocal Emphasis: 6 Credits

MUSC2320 - Diction for Singers I

Credits: 2
Studies phonetic sounds of English and Italian.

When Offered (Offered fall semester)

MUSC2325 - Diction for Singers II

Credits: 2
Studies phonetic sounds of French and German. (Usually offered spring semester)

MUSC4635 - Vocal Pedagogy

Credits: 2
This specialized course addresses anatomy and physiology of the vocal instrument and the scientific principles surrounding it, studio teaching techniques, student learning styles, repertoire assignment, and all aspects of establishing a private voice studio. The last quarter of the class includes an in-class, supervised teaching unit. Students enrolled in the graduate level (5635) will undertake an extensive research paper/project and additional teaching.

Dual Listed MUSC 5635.
When Offered (Offered alternate spring semesters)
Former Course Number [4610]

Prerequisite: 8 credits of voice or permission of instructor.

Upper Division Music Electives: 16 Credits

MUSC3015 - Introduction to the Music of the World's Peoples
Credits: 3
Students develop three primary interconnected literacies for the study and understanding of musics of other cultures: analytical music listening, understanding the concept of music culture, and interpretation of musical events. Student writing is a primary tool for developing these literacies. Texts from the Oxford University Press Global Music Series to study musics of Africa, Indonesia, India, and Eastern Europe are used.

Cross Listed: ANTH 3015.
USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
Former Course Number [2015]

Prerequisite: MUSC 1000 or permission of instructor and WA.

MUSC3025 - Fundamentals of Jazz Improvisation

Credits: 2
Continuation of Jazz Aural Theory IV, MUSC 1045. More advanced topics will be covered and more challenging repertoire will be explored. A strong emphasis will be placed on common practice techniques in mainstream jazz.

Prerequisite: MUSC 2045.

MUSC4000 - Careers in Music

Credits: 2
Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

MUSC4020 - Advanced Jazz Improvisation

Credits: 2
Continuation of Fundamentals of Jazz and Improvisation, MUSC 3025. Students will learn the harmonic and melodic language of bebop and hard bop through performance and composition of tunes in these idioms.

Prerequisite: MUSC 3025.

MUSC4025 - Jazz Composition and Arranging

Credits: 2
Continuation of Advanced Jazz Improvisation, MUSC 4020. Students explore developments in jazz improvisation and composition since 1960. Advanced theoretical concepts are covered in lectures and workshop sessions.

Prerequisite: MUSC 4020.
MUSC4040 - Composition

Credits: 2
Max Credit (Max. 12)

Prerequisite: MUSC 4010.

MUSC4315 - America's Ethnic Music

Credits: 3
Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D
A&S College Core 2015 ASD
Former Course Number [3000]

Prerequisite: MUSC 1000.

MUSC4330 - Undergraduate Seminar

Credits: 3
An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3
Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4380 - Jazz Techniques

Credits: 2
Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)
Prerequisite: MUSC 2035.

MUSC4490 - History of Rock and Roll

Credits: 3
This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H
MUSC4650 - Keyboard Literature

Credits: 3
An overview of solo ensemble keyboard literature from the 1600s to the present, focusing on major composers and common compositional forms. Includes listening assignments and examinations as well as individual research papers and class presentations.

Restricted BM MMM MME PC; MUSC 5655 Graduate Standing

Prerequisite: MUSC 4655, MUSC 2050, MUSC 2055

MUSC4651 - String Solo Literature

Credits: 3
Provide a survey of the masterpieces of string solo literature (violin, viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.

MUSC4750 - Marching Band Techniques

Credits: 1
Applies specific various drill design techniques including corps style, military, show band and computer applications.

MUSC4780 - Instrumental Conducting and Repertory

Credits: 2
Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

MUSC4790 - Choral Conducting and Repertory

Credits: 2
Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

Prerequisite: MUSC 4070 and passed piano proficiency requirement.

MUSC4360 - Fundamentals of Audio for Music Production

Credits: 3
Topics include fundamentals of digital audio, live sound reinforcement, and audio recording. Students will acquire a foundation and learn how to successfully communicate with technicians.
B.M. Performance, Keyboard Emphasis: 120 Hours Total

Music Core: 56 Hours

**MUSC0200 - Music Convocation**

Credits: 0
Weekly recital hour for student, faculty and guest performances.

**Prerequisite:** intended for, and required of music majors.
- Students must be enrolled in Convocation every semester they are enrolled, maximum of 8.

**MUSC1030 - Written Theory I**

Credits: 3
First semester of a one-year series. Studies fundamentals of music and written harmony.

**Prerequisite:** music majors/minors only.

**MUSC1035 - Aural Theory I**

Credits: 1
First semester of a one-year series. Studies ear training and sight singing.

**MUSC1040 - Written Theory II**

Credits: 3
Second semester of a one-year series. Studies fundamentals of music and written harmony.

**Prerequisite:** MUSC 1030 and music majors/minors only.

**MUSC1045 - Aural Theory II**

Credits: 1
Second semester of a one-year series. Studies ear training and sight singing.

**Prerequisite:** MUSC 1035.

**MUSC2030 - Written Theory III**

Credits: 3
First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.
Prerequisite: MUSC 1030 and MUSC 1040.

MUSC2035 - Aural Theory III

Credits: 1
First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 1035 and MUSC 1045.

MUSC2040 - Written Theory IV

Credits: 3
Fourth semester of a two-year series. Explores the instruments of the band and orchestra, and the capabilities of writing for voices and piano. Arranging for various instrumental combinations and vocal ensembles.

Prerequisite: MUSC 2030.

MUSC2045 - Aural Theory IV

Credits: 1
Second semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 2035.

MUSC1003 - Historical Perspectives in Music I

Credits: 3
The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3L U3L
Prerequisite: Music majors and minors, or by permission of the instructor.

MUSC2050 - Historical Perspectives in Music II

Credits: 3
Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA
Prerequisite: MUSC 1003, or by permission of instructor.

MUSC2055 - Historical Perspectives III
Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

**Prerequisite:** ability to read music.

**MUSC2395 - Piano Proficiency**

Credits: 0
Piano proficiency test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2395 a maximum of 2 times. Consult the Music Department Handbook for specific requirements.

**MUSC3255 - Sophomore Qualifying Performance Jury**

Credits: 0
An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. **MUSC4070 - Conducting**

Credits: 3
Examines basic techniques of baton, score reading, familiarization with standard works, practical experience in directing choral and instrumental groups. For graduate credit, students must present extra paper or project determined by instructor.

**Prerequisite:** MUSC 2030, MUSC 2035, MUSC 2040, and MUSC 2045.

**MUSC4040 - Composition**

Credits: 2
Max Credit (Max. 12)

**Prerequisite:** MUSC 4010.

**MUSC1280 - Collaborative Piano I**

Credits: 1-2
Max Credit (Max. 8)
Encompasses supervised practice in the art of collaborative piano playing. Discusses traditional usages as applicable to various schools and periods of vocal and instrumental duo literature.

**Prerequisite:** audition required.
- Ensembles: MUSC 1280 is intended for freshman and sophomores; MUSC 3280 is intended for juniors and seniors. You must be registered for a minimum of one ensemble per semester.

**MUSC3280 - Collaborative Piano II**

Credits: 1-2  
Max Credit (Max. 8)

Encompasses supervised practice in the art of collaborative piano playing. Discusses traditional usages as applicable to various schools and periods of vocal and instrumental duo literature.

**Prerequisite:** audition required.

**MUSC3500 - Junior Recital**

Credits: 0  
Students will perform a 30 minute (minimum) recital of appropriate repertoire. Consult your studio teacher for individual studio requirements.

**Prerequisite:** 4 semesters of private instruction, consent of instructor.

**MUSC4590 - Senior Recital**

Credits: 2  
Max Credit (Max. 4)

**Prerequisite:** at least 14 semester hours in one performance field and senior standing.

**Keyboard Emphasis: 5 Credits**

**MUSC4625 - Piano Pedagogy**

Credits: 2  
Max Credit (Max. 2)

This specialized course addresses the teaching of piano to children with special emphasis on the development of correct technique, studio teaching techniques, student learning styles, repertoire assignment, and all aspects of establishing a private studio. The last quarter of the class includes an in-class, supervised teaching unit.

**Dual Listed** MUSC 5625.  
**Former Course Number** [4600]
Prerequisite: 8 credit hours of piano study.

**MUSC4650 - Keyboard Literature**

Credits: 3  
An overview of solo ensemble keyboard literature from the 1600s to the present, focusing on major composers and common compositional forms. Includes listening assignments and examinations as well as individual research papers and class presentations.

MUSC4330 - Undergraduate Seminar

Credits: 3
An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3
Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4350 - History and Literature of Jazz

Credits: 3
Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.
**USP 2015 Code U5H**

**Prerequisite:** consent of instructor.

**MUSC4380 - Jazz Techniques**

Credits: 2  
Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

**When Offered** (Offered spring semester)  
**Prerequisite:** MUSC 2035.

**MUSC4490 - History of Rock and Roll**

Credits: 3  
This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

**USP 2015 Code U5H**

**MUSC4651 - String Solo Literature**

Credits: 3  
Provide a survey of the masterpieces of string solo literature (violin, viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

**Prerequisite:** 8 hours of lessons in string instruments.

**MUSC4750 - Marching Band Techniques**

Credits: 1  
Applies specific various drill design techniques including corps style, military, show band and computer applications.

**MUSC4780 - Instrumental Conducting and Repertory**

Credits: 2  
Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

**Prerequisite:** MUSC 4070 and MUSC 2395.

**MUSC4790 - Choral Conducting and Repertory**
Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

**Prerequisite:** MUSC 4070 and passed piano proficiency requirement.

**MUSC4360 - Fundamentals of Audio for Music Production**

Credits: 3
Topics include fundamentals of digital audio, live sound reinforcement, and audio recording. Students will acquire a foundation and learn how to successfully communicate with technicians.

**B.M. Performance, String Emphasis: 120 Total Hours**

**Music Core: 56 Credits**

- Ensembles: 1 per semester, minimum 8

**MUSC0200 - Music Convocation**

Credits: 0
Weekly recital hour for student, faculty and guest performances.

**Prerequisite:** intended for, and required of music majors.
- Students must be enrolled in Convocation every semester they are enrolled, maximum of 8.

**MUSC1030 - Written Theory I**

Credits: 3
First semester of a one-year series. Studies fundamentals of music and written harmony.

**Prerequisite:** music majors/minors only.

**MUSC1035 - Aural Theory I**

Credits: 1
First semester of a one-year series. Studies ear training and sight singing.

**MUSC1040 - Written Theory II**

Credits: 3
Second semester of a one-year series. Studies fundamentals of music and written harmony.

**Prerequisite:** MUSC 1030 and music majors/minors only.
MUSC1045 - Aural Theory II

Credits: 1
Second semester of a one-year series. Studies ear training and sight singing.

Prerequisite: MUSC 1035.

MUSC2030 - Written Theory III

Credits: 3
First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

Prerequisite: MUSC 1030 and MUSC 1040.

MUSC2035 - Aural Theory III

Credits: 1
First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 1035 and MUSC 1045.

MUSC2040 - Written Theory IV

Credits: 3
Fourth semester of a two-year series. Explores the instruments of the band and orchestra, and the capabilities of writing for voices and piano. Arranging for various instrumental combinations and vocal ensembles.

Prerequisite: MUSC 2030.

MUSC2045 - Aural Theory IV

Credits: 1
Second semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

Prerequisite: MUSC 2035.

MUSC1003 - Historical Perspectives in Music I

Credits: 3
The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3I, U3L
Prerequisite: Music majors and minors, or by permission of the instructor.
MUSC2050 - Historical Perspectives in Music II

Credits: 3
Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA
Prerequisite: MUSC 1003, or by permission of instructor.

MUSC2055 - Historical Perspectives III

Credits: 3
Max Credit (Max. 6)
Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

Prerequisite: ability to read music.

MUSC2395 - Piano Proficiency

Credits: 0
Piano proficiency test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2395 a maximum of 2 times. Consult the Music Department Handbook for specific requirements.
- Class Piano 1-4 is highly recommended for students with little or no piano experience. All music majors must pass a piano proficiency test during their sophomore year (MUSC 2395). If a student opts not to take Class Piano, then four (4) hours of elective credits must be taken to ensure 120 hours for graduation.

MUSC3255 - Sophomore Qualifying Performance Jury

Credits: 0
An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. Transfer students with junior standing must take the jury at the end of their first semester in residence. Contact your studio teacher for the individual Sophomore Jury requirements. Students may register for this course up to 2 times.

Prerequisite: 4 semesters of private instruction, consent of instructor.
    Applied lessons are required each semester of residency:
    MUSC 2*** Applied Lessons II: 4 Credits
    MUSC 3*** Applied Lessons III: 4 Credits
    MUSC 4*** Applied Lessons IV: 4 Credits
    MUSC 5*** Applied Lessons V: 4 Credits

MUSC4040 - Composition

Credits: 2
Max Credit (Max. 12)
Prerequisite: MUSC 4010.
MUSC4070 - Conducting

Credits: 3
Examines basic techniques of baton, score reading, familiarization with standard works, practical experience in directing choral and instrumental groups. For graduate credit, students must present extra paper or project determined by instructor.

Prerequisite: MUSC 2030, MUSC 2035, MUSC 2040, and MUSC 2045.

MUSC3500 - Junior Recital

Credits: 0
Students will perform a 30 minute (minimum) recital of appropriate repertoire. Consult your studio teacher for individual studio requirements.

Prerequisite: 4 semesters of private instruction, consent of instructor.

MUSC4590 - Senior Recital

Credits: 2
Max Credit (Max. 4)

Prerequisite: at least 14 semester hours in one performance field and senior standing.

String Emphasis: 4 Credits

MUSC4615 - Instrumental Pedagogy

Credits: 2
Surveys teaching materials in solo and chamber literature, techniques, practices, and methods for applicable instrument.

Prerequisite: 8 credit hours of individual study in a specific instrument.

MUSC4651 - String Solo Literature

Credits: 3
Provide a survey of the masterpieces of string solo literature (violin, viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.

Upper Division Music Electives: 18 Credits

MUSC3015 - Introduction to the Music of the World's Peoples
Students develop three primary interconnected literacies for the study and understanding of musics of other cultures: analytical music listening, understanding the concept of music culture, and interpretation of musical events. Student writing is a primary tool for developing these literacies. Texts from the Oxford University Press Global Music Series to study musics of Africa, Indonesia, India, and Eastern Europe are used.

Cross Listed ANTH 3015.
USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
Former Course Number [2015]

Prerequisite: MUSC 1000 or permission of instructor and WA.

MUSC3025 - Fundamentals of Jazz Improvisation

Credits: 2
Continuation of Jazz Aural Theory IV, MUSC 1045. More advanced topics will be covered and more challenging repertoire will be explored. A strong emphasis will be placed on common practice techniques in mainstream jazz.

Prerequisite: MUSC 2045.

MUSC4000 - Careers in Music

Credits: 2
Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

MUSC4020 - Advanced Jazz Improvisation

Credits: 2
Continuation of Fundamentals of Jazz and Improvisation, MUSC 3025. Students will learn the harmonic and melodic language of bebop and hard bop through performance and composition of tunes in these idioms.

Prerequisite: MUSC 3025.

MUSC4025 - Jazz Composition and Arranging

Credits: 2
Continuation of Advanced Jazz Improvisation, MUSC 4020. Students explore developments in jazz improvisation and composition since 1960. Advanced theoretical concepts are covered in lectures and workshop sessions.

Prerequisite: MUSC 4020.
MUSC4315 - America’s Ethnic Music

Credits: 3
Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D
A&S College Core 2015 ASD
Former Course Number [3000]

Prerequisite: MUSC 1000.

MUSC4330 - Undergraduate Seminar

Credits: 3
An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3
Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4350 - History and Literature of Jazz

Credits: 3
Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H
Prerequisite: consent of instructor.

MUSC4380 - Jazz Techniques

Credits: 2
Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)
Prerequisite: MUSC 2035.

MUSC4490 - History of Rock and Roll

Credits: 3
This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular
music in the United States.

USP 2015 Code U5H

**MUSC4650 - Keyboard Literature**

Credits: 3  
An overview of solo ensemble keyboard literature from the 1600s to the present, focusing on major composers and common compositional forms. Includes listening assignments and examinations as well as individual research papers and class presentations.

**Restricted** BM MMM MME PC; MUSC 5655 Graduate Standing

**Prerequisite:** MUSC 4655, MUSC 2050, MUSC 2055

**MUSC4750 - Marching Band Techniques**

Credits: 1  
Applies specific various drill design techniques including corps style, military, show band and computer applications.

**MUSC4780 - Instrumental Conducting and Repertory**

Credits: 2  
Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

**Prerequisite:** MUSC 4070 and MUSC 2395.

**MUSC4790 - Choral Conducting and Repertory**

Credits: 2  
Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

**Prerequisite:** MUSC 4070 and passed piano proficiency requirement.

**MUSC4360 - Fundamentals of Audio for Music Production**

Credits: 3  
Topics include fundamentals of digital audio, live sound reinforcement, and audio recording. Students will acquire a foundation and learn how to successfully communicate with technicians.

**B.M. Performance, Winds & Percussion Emphasis: 120 Total Hours**

Music Core: 58 Credits
• Ensembles: 1 per semester, minimum 8

**MUSC0200 - Music Convocation**

Credits: 0
Weekly recital hour for student, faculty and guest performances.

**Prerequisite:** intended for, and required of music majors.
Students must be enrolled in Convocation every semester they are enrolled, maximum of 8.

**MUSC1030 - Written Theory I**

Credits: 3
First semester of a one-year series. Studies fundamentals of music and written harmony.

**Prerequisite:** music majors/minors only.

**MUSC1035 - Aural Theory I**

Credits: 1
First semester of a one-year series. Studies ear training and sight singing.

**MUSC1040 - Written Theory II**

Credits: 3
Second semester of a one-year series. Studies fundamentals of music and written harmony.

**Prerequisite:** MUSC 1030 and music majors/minors only.

**MUSC1045 - Aural Theory II**

Credits: 1
Second semester of a one-year series. Studies ear training and sight singing.

**Prerequisite:** MUSC 1035.

**MUSC2030 - Written Theory III**

Credits: 3
First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

**Prerequisite:** MUSC 1030 and MUSC 1040.

**MUSC2035 - Aural Theory III**
Credits: 1
First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

**Prerequisite:** MUSC 1035 and MUSC 1045.

**MUSC2040 - Written Theory IV**

Credits: 3
Fourth semester of a two-year series. Explores the instruments of the band and orchestra, and the capabilities of writing for voices and piano. Arranging for various instrumental combinations and vocal ensembles.

**Prerequisite:** MUSC 2030.

**MUSC2045 - Aural Theory IV**

Credits: 1
Second semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

**Prerequisite:** MUSC 2035.

**MUSC1003 - Historical Perspectives in Music I**

Credits: 3
The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3I, U3L

**Prerequisite:** Music majors and minors, or by permission of the instructor.

**MUSC2050 - Historical Perspectives in Music II**

Credits: 3
Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA

**Prerequisite:** MUSC 1003, or by permission of instructor.

**MUSC2055 - Historical Perspectives III**

Credits: 3
Max Credit (Max. 6)

Second semester of one-year series. Studies history and literature of music from the Classical Era to present.
Prerequisite: ability to read music.

MUSC3255 - Sophomore Qualifying Performance Jury

Credits: 0
An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury.   - MUSC 2*** Applied Lessons II: 4 Credits
  - MUSC 3*** Applied Lessons III: 4 Credits
  - MUSC 4*** Applied Lessons IV: 4 Credits
  - MUSC 5*** Applied Lessons V: 4 Credits

MUSC1290 - Class Piano I

Credits: 1
Encompasses group instruction for the beginner at the keyboard. First semester of four-semester sequence. Enrollment limited to music or music education majors whose principal performance area is not piano.

When Offered (Offered fall semester)
AND

MUSC1295 - Class Piano II

Credits: 1
Continues skills begun in MUSC 1290 including all major scales, beginning minor scales, prescribed chord progressions, harmonization, transposition, sight reading and repertoire.

When Offered (Offered spring semester)
Prerequisite: MUSC 1290 or successful completion of final exam requirements for MUSC 1290.
OR

MUSC2390 - Piano Literacy Exam

Credits: 0
The Piano Literacy test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2390 a maximum of two times. Consult the Music Department Handbook for specific requirements.

Restricted MUSIC, BA and BM Instrumental Performance only

MUSC4040 - Composition
Credits: 2
Max Credit (Max. 12)

**Prerequisite:** MUSC 4010.

**MUSC4070 - Conducting**

Credits: 3
Examines basic techniques of baton, score reading, familiarization with standard works, practical experience in directing choral and instrumental groups. For graduate credit, students must present extra paper or project determined by instructor.

**Prerequisite:** MUSC 2030, MUSC 2035, MUSC 2040, and MUSC 2045.

Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

Prerequisite: MUSC 4070 and passed piano proficiency requirement.

MUSC4360 - Fundamentals of Audio for Music Production

Credits: 3
Topics include fundamentals of digital audio, live sound reinforcement, and audio recording. Students will acquire a foundation and learn how to successfully communicate with technicians.
Music, B.A.

The BA in Music is a broad liberal arts degree with a 58-credit core music curriculum. Majors have the freedom to explore the potential for future careers in the music and arts industry such as arts management, entrepreneurship, and audio technology.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q - Quantitative Reasoning

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

H - Human Culture (1)
Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Music Core: 40 Credits**

- Students must complete at least one ensemble per semester enrolled, total 8.

**MUSC0200 - Music Convocation**

Credits: 0
Weekly recital hour for student, faculty and guest performances.

**Prerequisite:** intended for, and required of music majors.
- All music majors must enroll in and successfully complete Convocation each semester they are enrolled, maximum of 8.

**MUSC1030 - Written Theory I**
Credits: 3
First semester of a one-year series. Studies fundamentals of music and written harmony.

**Prerequisite:** music majors/minors only.

**MUSC1035 - Aural Theory I**

Credits: 1
First semester of a one-year series. Studies ear training and sight singing.

**MUSC2030 - Written Theory III**

Credits: 3
First semester of a one-year series. Studies chromatic harmony, contrapuntal techniques and twentieth-century practices.

**Prerequisite:** MUSC 1030 and MUSC 1040.

**MUSC2035 - Aural Theory III**

Credits: 1
First semester of a one-year series. Continues MUSC 1035 and MUSC 1045.

**Prerequisite:** MUSC 1035 and MUSC 1045.

**MUSC1003 - Historical Perspectives in Music I**

Credits: 3
The first semester of a three semester sequence covering the study of composers and music repertoire from antiquity to 1600.

USP 2003-2014 Code U3L U3L
**Prerequisite:** Music majors and minors, or by permission of the instructor.

**MUSC2050 - Historical Perspectives in Music II**

Credits: 3
Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA
**Prerequisite:** MUSC 1003, or by permission of instructor.

**MUSC2055 - Historical Perspectives III**
Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

**Prerequisite:** ability to read music.

**MUSC2390 - Piano Literacy Exam**

Credits: 0

The Piano Literacy test is offered at the end of each fall and spring semester. Students may enroll in MUSC 2390 a maximum of two times. Consult the Music Department Handbook for specific requirements.

**Restricted** MUSC, BA and BM Instrumental Performance only

- The Piano Literacy Exam must be completed by the end of Sophomore year. It may be substituted by passing Class Piano 1 and 2 with a B or higher.

**MUSC3255 - Sophomore Qualifying Performance Jury**

Credits: 0

An extended performance jury at the end of the sophomore year. Music majors may not continue to 4000-level lessons without successful completion of the sophomore jury. Transfer students with junior standing must take the jury at the end of their first semester in residence. Contact your studio teacher for the individual Sophomore Jury requirements. Students may register for this course up to 2 times.

**Prerequisite:** 4 semesters of private instruction, consent of instructor.

- Students must be enrolled in instrument specific lessons every semester they are enrolled. They must complete the following:
  - MUSC 2*** Applied Lessons II, 2 credits
  - MUSC 3*** Applied Lessons III, 2 Credits
  - MUSC 4*** Applied Lessons IV, 2 Credits
  - MUSC 5*** Applied Lessons V, 2 Credits

**Upper Division Electives: 18 Credits**

**MUSC3015 - Introduction to the Music of the World’s Peoples**

Credits: 3

Students develop three primary interconnected literacies for the study and understanding of musics of other cultures: analytical music listening, understanding the concept of music culture, and interpretation of musical events. **Prerequisite:** MUSC 1000 or MUSC 1003.

**MUSC4020 - Advanced Jazz Improvisation**

Credits: 2  
Continuation of Fundamentals of Jazz and Improvisation, MUSC 3025. Students will learn the harmonic and melodic language of bebop and hard bop through performance and composition of tunes in these idioms.

**Prerequisite:** MUSC 3025.

**MUSC4025 - Jazz Composition and Arranging**

Credits: 2  
Continuation of Advanced Jazz Improvisation, MUSC 4020. Students explore developments in jazz improvisation and composition since 1960. Advanced theoretical concepts are covered in lectures and workshop sessions.

**Prerequisite:** MUSC 4020.

**MUSC4040 - Composition**

Credits: 2  
Max Credit (Max. 12)

**Prerequisite:** MUSC 4010.

**MUSC4315 - America's Ethnic Music**

Credits: 3  
Surveys music of ethnic groups in America.
Prerequisite: MUSC 1000.

**MUSC4330 - Undergraduate Seminar**

Credits: 3
An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

Prerequisite: MUSC 2050 and MUSC 2055.

**MUSC4350 - History and Literature of Jazz**

Credits: 3
Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

Prerequisite: consent of instructor.

**MUSC4380 - Jazz Techniques**

Credits: 2
Max Credit (Max. 2)

Surveys jazz structure, styles, techniques and materials with respect to public school music programs. Intended for music education major.

When Offered (Offered spring semester)
Prerequisite: MUSC 2035.

**MUSC4490 - History of Rock and Roll**

Credits: 3
This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

Prerequisite: MUSC 2050.
MUSC4590 - Senior Recital

Credits: 2
Max Credit (Max. 4)

Prerequisite: at least 14 semester hours in one performance field and senior standing.

MUSC4650 - Keyboard Literature

Credits: 3
An overview of solo ensemble keyboard literature from the 1600 s to the present, focusing on major composers and common compositional forms. Includes listerning assignments and examinations as well as individual research papers and class presentations.

Restricted BM MMM MME PC; MUSC 5655 Graduate Standing

Prerequisite: MUSC 4655, MUSC 2050, MUSC 2055

MUSC4651 - String Solo Literature

Credits: 3
Provide a survey of the masterpieces of string solo literature (violin, viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.

MUSC4750 - Marching Band Techniques

Credits: 1
Applies specific various drill design techniques including corps style, military, show band and computer applications.

MUSC4780 - Instrumental Conducting and Repertory

Credits: 2
Applies specific basic conducting techniques to instrumental group rehearsals concerning such problems as intonation, phrasing, dynamics, balance, etc. Overviews appropriate selection procedures for band and orchestral literature.

Prerequisite: MUSC 4070 and MUSC 2395.

MUSC4790 - Choral Conducting and Repertory

Credits: 2
Applies specific basic conducting techniques to choral group rehearsals concerning such problems as intonation, good vocal production, phrasing, diction, dynamics, balance, etc. Overviews appropriate choral literature.

Prerequisite: MUSC 4070 and passed piano proficiency requirement.
MUSC4990 - Topics in:

Credits: 1-12
Max Credit (Max. 12)

Encompasses various topics in music. Specific subjects vary from year to year as course is often taught by distinguished visiting artists and lecturers or music faculty. Presents topics of special interest to music majors, graduate students and music educators. Please check class schedule for course titles each semester.

Prerequisite: consent of instructor.

MUSC5035 - Advanced Theory

Credits: 3
To further understanding of chromatic harmonies, analysis of advanced formal aspects, Pitch-class set Analysis, and 12-tone Analysis. To ultimately have a synergistic view of each work, combing historical and theoretical elements in viewing the work as a whole.

Dual Listed MUSC 4035
Prerequisite: MUSC 2030 and MUSC 2035, music majors only; (MUSC 5035): graduate standing.

A&S Core

A&S Diversity - 3 Credits
A&S Global - 3 Credits

Minor

Music Minor: 18 Credits

A Minor in Music consists of 18 credit hours intended to broaden a student's musical skills as well as foster musical talents while they are pursuing a separate major. Acceptance to the minor is by audition only.

Required Courses

- Ensembles: Minimum 2 semesters required
- Applied Lessons: Complete at least 2 hours of Applied Lessons (2 semesters, minimum 30 minutes each)

MUSC0200 - Music Convocation

Credits: 0
Weekly recital hour for student, faculty and guest performances.

Prerequisite: intended for, and required of music majors.
2 Semesters Required
MUSC1030 - Written Theory I

Credits: 3
First semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: music majors/minors only.

MUSC1035 - Aural Theory I

Credits: 1
First semester of a one-year series. Studies ear training and sight singing.

MUSC1040 - Written Theory II

Credits: 3
Second semester of a one-year series. Studies fundamentals of music and written harmony.

Prerequisite: MUSC 1030 and music majors/minors only.

MUSC1045 - Aural Theory II

Credits: 1
Second semester of a one-year series. Studies ear training and sight singing.

Prerequisite: MUSC 1035.

Choose one of the following:

MUSC2050 - Historical Perspectives in Music II

Credits: 3
Continuation of materials and topics covered in Historical Perspectives in Music I. Study of composers and repertoire from 1600-ca. to 1800.

USP 2003-2014 Code U3CA
Prerequisite: MUSC 1003, or by permission of instructor.
OR

MUSC2055 - Historical Perspectives III

Credits: 3
Max Credit (Max. 6)

Second semester of one-year series. Studies history and literature of music from the Classical Era to present.

Prerequisite: ability to read music.
Choose at least 3 credits from the following. Final credit hours for the minor must equal 18.

**MUSC3015 - Introduction to the Music of the World's Peoples**

Credits: 3  
Students develop three primary interconnected literacies for the study and understanding of musics of other cultures: analytical music listening, understanding the concept of music culture, and interpretation of musical events. Student writing is a primary tool for developing these literacies. Texts from the Oxford University Press Global Music Series to study musics of Africa, Indonesia, India, and Eastern Europe are used.

Cross Listed ANTH 3015.  
USP 2003-2014 Code U3G, U3WB  
A&S College Core 2015 ASG  
**Former Course Number** [2015]

Prerequisite: MUSC 1000 or permission of instructor and WA.

**MUSC4000 - Careers in Music**

Credits: 2  
Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

**MUSC4315 - America's Ethnic Music**

Credits: 3  
Surveys music of ethnic groups in America.

Prerequisite: MUSC 1000.

**MUSC4330 - Undergraduate Seminar**

Credits: 3  
An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

Prerequisite: MUSC 2050 and MUSC 2055.
MUSC4350 - History and Literature of Jazz

Credits: 3
Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H
Prerequisite: consent of instructor.

MUSC4360 - Fundamentals of Audio for Music Production

Credits: 3
Topics include fundamentals of digital audio, live sound reinforcement, and audio recording. Students will acquire a foundation and learn how to successfully communicate with technicians.

MUSC4490 - History of Rock and Roll

Credits: 3
This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H

Graduate

Music Education, M.M.

Each of the degree programs consists of 30 semester hours of work composed of the following elements:

Plan A or Plan B

To earn a Master of Music Education, students must complete the following requirements:

Basic Music Core (11 Hours)

No more than 12 credits can be counted from 4000-level courses toward any graduate program of study.

MUSC5310 - Music Research Methods

Credits: 2
Prepares students to be knowledgeable consumers of music and interdisciplinary information. Topics include the musicology research process, information ethics, and critical analyses and integration of information sources into writing. Information literacy principles and research techniques equip students for both graduate-level music research and the post-graduate, professional world.
Prerequisite: graduate standing in music.

- Choose a total of at least THREE courses from the following (minimum 9 credits from the following two categories):

  - Upper-Division Music History (3-6 Credits):

MUSC4315 - America's Ethnic Music

Credits: 3
Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D
A&S College Core 2015 ASD
Former Course Number [3000]

Prerequisite: MUSC 1000.

MUSC4330 - Undergraduate Seminar

Credits: 3
An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3
Prerequisite: MUSC 2050 and MUSC 2055.

MUSC4350 - History and Literature of Jazz

Credits: 3
Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H
Prerequisite: consent of instructor.

MUSC4651 - String Solo Literature

Credits: 3
Provide a survey of the masterpieces of string solo literature (violin, viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

Prerequisite: 8 hours of lessons in string instruments.
MUSC4490 - History of Rock and Roll

Credits: 3
This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H

MUSC5320 - Advanced Seminar

Credits: 2-6
Max Credit (Max. 6)

Such topics as The Music of J. S. Bach, The Chamber Music of Mozart, and Contemporary Music will be pursued and will terminate in oral reports and a research paper.

Prerequisite: MUSC 5310.

- Upper-Division Theory (3-6 hours):

MUSC5035 - Advanced Theory

Credits: 3
To further understanding of chromatic harmonies, analysis of advanced formal aspects, Pitch-class set Analysis, and 12-tone Analysis. To ultimately have a synergistic view of each work, combing historical and theoretical elements in viewing the work as a whole.

Dual Listed MUSC 4035
Prerequisite: MUSC 2030 and MUSC 2035, music majors only; (MUSC 5035): graduate standing.

MUSC5340 - Advanced Composition

Credits: 1-4
Max Credit (Max. 6)

A project course to be conducted by individual appointment with the instructor. The result should be the production of a major work suitable for performance by one of the campus organizations. Evaluation is made by a faculty committee on completion and performance of the composition.

Prerequisite: 4 hours of MUSC 4040.

MUSC5350 - Advanced Analysis

Credits: 3
Consideration of the analytical techniques of Harder, Piston, and Schillinger for traditional music, of Hanson and Hindemith for modern tonal music, and of Schoenberg and Reti for serial music.
Prerequisite: graduate standing in music.

Major Area Courses (12-15 Hours)

**EDRE5530 - Introduction To Research**

Credits: 3
Basic concepts of educational research design, statistics, and measurement. The focus of the course is on reading and critiquing research articles, both quantitative and qualitative, and includes an introduction to statistics. Students learn to conduct a review of the literature relevant to a specific research problem.

Prerequisite: graduate standing.

**MUSC5760 - Music Education Seminar**

Credits: 2
A study and discussion of trends, objectives, and curricula of the various phases of music education.

**MUSC5720 - Musical Supervision: Choral**

Credits: 2
Examination of the administrative responsibilities of the music teacher, the music department chairman, and the district music supervisor in the public schools, as well as the responsibilities of a music festival chairman and officers of the state music educators association.

Prerequisite: graduate standing in music.

• Music education electives Credits: 5-8

Thesis Requirement (0-4 Hours)

Plan A

Four hours (the thesis must be on a music education topic)

**MUSC5960 - Thesis Research**

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.
Plan B

The thesis requirement may be fulfilled under the Plan B paper/lecture-recital as appropriate to the specific degree program. A proposal for a thesis or Plan B paper must be submitted to and approved by the student’s graduate committee chair.

- Plan B paper, plus extra courses Credits: 0

Electives (4 to 7 Hours)

Require successful completion of the written comprehensive exams, which cover theory, history, and the major area.

Music Performance, M.M.

Each of the degree programs consists of 30 semester hours of work composed of the following elements

Plan B

To earn a Master of Music in Performance, students must complete the following requirements:

Basic Music Core (11 Hours Minimum)

No more than 12 credits can be counted from 4000-level courses toward any graduate program of study.

MUSC5310 - Music Research Methods

Credits: 2
Prepares students to be knowledgeable consumers of music and interdisciplinary information. Topics include the musicology research process, information ethics, and critical analyses and integration of information sources into writing. Information literacy principles and research techniques equip students for both graduate-level music research and the post-graduate, professional world.

Prerequisite: graduate standing in music.

- Choose a total of at least THREE courses from the following (minimum 9 credits from the following two categories):
  - Upper-Division Music History (3-6 Credits):

MUSC4315 - America’s Ethnic Music

Credits: 3
Surveys music of ethnic groups in America.

USP 2003-2014 Code U3CA, U3D
A&S College Core 2015 ASD
Former Course Number [3000]
**Prerequisite**: MUSC 1000.

**MUSC4330 - Undergraduate Seminar**

Credits: 3
An in-depth study in Musicology or Music History topic. Class time will be centered on exploring unique topics in music repertoire through lectures, guided listening, and discussion.

USP 2015 Code U5C3
**Prerequisite**: MUSC 2050 and MUSC 2055.

**MUSC4350 - History and Literature of Jazz**

Credits: 3
Surveys details of American jazz music from the turn of the 20th century to present. Acquaints students with basic jazz materials, techniques and styles, as well as work of selected jazz masters. For graduate credit, students must present extra paper or project determined by instructor.

USP 2015 Code U5H
**Prerequisite**: consent of instructor.

**MUSC4651 - String Solo Literature**

Credits: 3
Provide a survey of the masterpieces of string solo literature (violin, viola, cello and bass literature) in a historical and musical context. Includes listening assignments and examinations as well as class presentations.

**Prerequisite**: 8 hours of lessons in string instruments.

**MUSC4490 - History of Rock and Roll**

Credits: 3
This course will examine music styles prior to rock and roll and then delve into the various styles of the music from the 1950s to the late 20th century. In order to understand rock and roll music the course will analyze other styles of popular music in the United States.

USP 2015 Code U5H

**MUSC5320 - Advanced Seminar**

Credits: 2-6
Max Credit (Max. 6)
Such topics as The Music of J. S. Bach, The Chamber Music of Mozart, and Contemporary Music will be pursued and will terminate in oral reports and a research paper.
Prerequisite: MUSC 5310.

- Upper-Division Theory (3-6 hours):

**MUSC5035 - Advanced Theory**

Credits: 3
To further understanding of chromatic harmonies, analysis of advanced formal aspects, Pitch-class set Analysis, and 12-tone Analysis. To ultimately have a synergistic view of each work, combing historical and theoretical elements in viewing the work as a whole.

**Dual Listed** MUSC 4035
**Prerequisite:** MUSC 2030 and MUSC 2035, music majors only; (MUSC 5035): graduate standing.

**MUSC5340 - Advanced Composition**

Credits: 1-4
Max Credit (Max. 6)
A project course to be conducted by individual appointment with the instructor. The result should be the production of a major work suitable for performance by one of the campus organizations. Evaluation is made by a faculty committee on completion and performance of the composition.

**Prerequisite:** 4 hours of MUSC 4040.

**MUSC5350 - Advanced Analysis**

Credits: 3
Consideration of the analytical techniques of Harder, Piston, and Schillinger for traditional music, of Hanson and Hindemith for modern tonal music, and of Schoenberg and Reti for serial music.

**Prerequisite:** graduate standing in music.

**Major Area Courses (16 Hours Minimum)**

- MUSC 5480 - MUSC 5670 Private Lessons in major instrument or voice Credits: 8 minimum
- MUSC 5700 - MUSC 5890 Ensembles Credits: 2

**MUSC5680 - Graduate Recital**

Credits: 2
A recital, vocal or instrumental and consisting of selections of advanced difficulty in matters of technique and interpretation, is presented under the direction of a staff member. Quality and content of recital must be approved by a faculty committee one month before the recital date, and the faculty committee will determine the final grade.

**Prerequisite:** graduate standing in music and consent of instructor.
**MUSC5390 - Performance Practice and Interpretation**

Credits: 2  
A study of the inherited traditions of correct interpretation and performance as related to the various style periods in music.

**Prerequisite:** graduate standing in music.

**MUSC5320 - Advanced Seminar**

Credits: 2-6  
Max Credit (Max. 6)

Such topics as The Music of J. S. Bach, The Chamber Music of Mozart, and Contemporary Music will be pursued and will terminate in oral reports and a research paper.

**Prerequisite:** MUSC 5310.

- MUSC 4*** - Pedagogy (instrument specific) Credits: 2

**Requirement In Lieu of Thesis**

Plan B paper, or 1-hour lecture-recital

**Foreign Language Requirement**

(voice majors only). Singers must demonstrate acceptable proficiency in singing in Italian, German, French, and English.

**Electives (0 to 3 hours)**

Require successful completion of the written comprehensive exams, which cover theory, history, and the major area.

**Certificate**

**Audio Technology Certificate: 12 Credits**

The Audio Technology Certificate provides a basic understanding of audio principles and practical hands-on experience that allows one to enter the commercial music work force with a marketable skill set. Students will learn how to record and manipulate recorded sounds as well as provide live sound reinforcement for live concerts or events. A certificate may be pursued on its own or in conjunction with any university degree program.

**Required Courses**

**MUSC4360 - Fundamentals of Audio for Music Production**
Credits: 3
Topics include fundamentals of digital audio, live sound reinforcement, and audio recording. Students will acquire a foundation and learn how to successfully communicate with technicians.

**MUSC4365 - Recording Art and Technology**

Credits: 3
Topics include history of music production, mult-track recording, digital audio workstations, digital editing, session management and production, mixing, mastering, and distribution.

**MUSC4370 - Live Sound Reinforcement**

Credits: 1
Max Credit 3

Topics include history of live sound reinforcement, analog audio, digital consoles, system checks, troubleshooting, and client relations. Students will build upon MUSC 4360 with focus on live sound reinforcement.

**MUSC4990 - Topics in:**

Credits: 1-12
Max Credit (Max. 12)

Encompasses various topics in music. Specific subjects vary from year to year as course is often taught by distinguished visiting artists and lecturers or music faculty. Presents topics of special interest to music majors, graduate students and music educators. Please check class schedule for course titles each semester.

**Prerequisite:** consent of instructor.
Audio Technology Practicum/Internship

**Endorsement/Certificate**

**Art Entrepreneurship Certificate: 12 Credits**

This certificate provides a basic understanding of marketing principles specific to the arts with practical hands-on experience that allows one to enter the workforce with a marketable skill set in the areas of art promotion and management.

**Required Core Courses (All Emphases)**

**MUSC4001 - Music Entrepreneurship Seminar**

Credits: 2
Further crystalizes successful business enterprise development introduced in ENTR 2700. Student will hone entrepreneurial skills in idea creation, business incubation, development, research, and commercialization.

**ENTR2700 - Entrepreneurial Mindset**
This course introduces students to entrepreneurial mindsets and concepts essential to success in startups or within established firms. Provides a basic overview of creativity and innovation, and students experience the process of identifying and evaluating ideas and developing them into business opportunities.

**Prerequisite:** COM1, sophomore class standing.

- Choose one of the following:

**MGT2100 - Management and Organization**

Credits: 3
An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

**Prerequisite:** COM1, sophomore class standing.

OR

**MKT2100 - Introduction to Marketing**

Credits: 3
An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

**Prerequisite:** sophomore class standing and completion of COM1.

- The internships below are variable, 1-2 credits, depending on department. Please see individual advisors for exact hours.

**Music Emphasis**

**MUSC4000 - Careers in Music**

Credits: 2
Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

**Prerequisite:** MUSC 1000 or MUSC 1003.

**MUSC4005 - Internship in Music Business**

Credits: 1
Offers an evaluated and professional work experience in public or private organizations on assignments relating to student's career goals, allowing students to explore the relationship between theory and practice in their major.
Visual Arts Emphasis

**ART4600 - Professional Practices and Strategies**

Credits: 3  
This course offers information to junior/senior level art majors in regards to: finding jobs in art, finding/applying for exhibition opportunities, applying/finding grant opportunities, furthering education including finding/applying for a Masters in art, and overall life possibilities after the completion of an undergraduate art degree. Writing is expected in the form of cover letters, resumes, artist statements, and project proposals.

USP 2015 Code U5C3  
**Prerequisite:** ART 2000, junior or senior standing.

**ART4400 - Internship**

Credits: 1-3  
Max Credit (Max. 9)

Allows students to bridge the gap between theoretical problems solved in the classroom and the real work world. Students are placed in a setting where they perform duties similar to a working environment. Specific arrangements are made through the major area adviser. Students are evaluated at mid-term and finals. Minimum of three contact hours of internship per week for a semester equals an hour course credit.

**Prerequisite:** ART 2000 and 12 hours in the major area.

Theater and Dance: Dance Emphasis

**THEA4700 - Auditioning and Careers in Dance**

Credits: 1  
Designed for dance majors as a culminating course in preparation for final semester auditions and applications for companies and graduate schools. Through this course, students will set career goals, create an audition portfolio, and gain exposure to the many challenges and opportunities in dance.

**Prerequisite:** senior standing, THEA 1021, and one semester of THEA 4010 or THEA 4030.

**THEA4975 - Theatre/Dance Internship**

Credits: 1-12  
Max Credit (Max. 12)

The intent of this course is designed to provide professional experiences to students outside of the academic curriculum of Theatre and Dance Department. It is designed to advance the students potential career opportunities and help advance their knowledge in the field.

**Restricted** Restricted to sophomores, juniors, and seniors.
Prerequisite: Must have completed 6 hours in the department of Theatre and Dance.

Theater and Dance: Design/Tech Management Emphasis

THEA3850 - Design and Technology Seminar

Credits: 2
Introduces designer/technician to process of preparing successful interview material, including a professionally developed portfolio. Exposes designer/technician to business aspects of the theatre world, including resumes, letters of inquiry and application, contracts, unions and professional organizations, internships, apprenticeships, URTAs and professional design/technical training programs. Culminates in junior End-of-the-Year Evaluations.

Prerequisite: junior standing in the BFA Program with Design/Technical emphasis.

THEA4975 - Theatre/Dance Internship

Credits: 1-12
Max Credit (Max. 12)

The intent of this course is designed to provide professional experiences to students outside of the academic curriculum of Theatre and Dance Department. It is designed to advance the students potential career opportunities and help advance their knowledge in the field.

Restricted Restricted to sophomores, juniors, and seniors.

Prerequisite: Must have completed 6 hours in the department of Theatre and Dance.

Theater and Dance: Performance Emphasis

THEA4720 - Auditioning and Professional Issues

Credits: 3
Introduces actors to process of finding, preparing and executing successful audition material, including monologues, songs and dance combinations. Exposes actors to business aspects of the theatre world, including resumes, photos, contracts, unions, internships, apprenticeships, Equity Membership Candidacy programs, URTA's and professional actor training graduate programs. Culminates preparation for final semester auditions for the company/school of choice.

Prerequisite: THEA 1100, THEA 3710 and THEA 3740.

THEA4975 - Theatre/Dance Internship

Credits: 1-12
Max Credit (Max. 12)
The intent of this course is designed to provide professional experiences to students outside of the academic curriculum of Theatre and Dance Department. It is designed to advance the students potential career opportunities and help advance their knowledge in the field.

**Restricted** Restricted to sophomores, juniors, and seniors.

**Prerequisite:** Must have completed 6 hours in the department of Theatre and Dance.

## Department of Philosophy and Religious Studies

### Philosophy

122 Ross Hall, (307) 766-3204  
E-mail: philosophy@uwyo.edu  
**Department Head:** Susanna L. Goodin

### Professors:

**HARVEY HIX,** B.A. Belmont College 1982; M.A. University of Texas, Austin 1985; Ph.D. 1987; Professor of Philosophy and Creative Writing 2013.

**JEFFREY A. LOCKWOOD,** B.S. New Mexico Institute of Mining and Technology 1982; Ph.D. Louisiana State University 1985; Professor of Philosophy and Creative Writing 2006.

### Associate Professors:

**FRANZ-PETER GRIESMAIER,** University of Vienna 1986; M.A. University of Colorado 1988; Ph.D. University of Arizona 1997; Associate Professor of Philosophy 2006, 2000.

### Assistant Professor:

**BRADLEY RETTLER,** B.S. Crown College 2004; M.A. Biola University 2008; Ph.D. University of Notre Dame 2014; Assistant Professor of Philosophy 2018.

### Senior Academic Professional Lecturer:

Professors Emeriti:

James Forrester, Richard L. Howey, James A. Martin

About the Program

Philosophy starts with those hard questions we all ask at some time or another. Some important questions of meaning and justification can't be answered by making observations or doing experiments. Philosophy is the effort to deal with these problems through sustained, hard, and critical thinking. Philosophy is good preparation for careers that call for you to use your mind, without prejudice but with rigor.

The Philosophy Department offers an undergraduate major, three undergraduate minors, and a graduate MA.

For details on each of these programs, see the department's web site.

Graduate Study

The Department of Philosophy offers the master of arts degree under the Plan A or Plan B.

Program Specific Admission Requirements

A writing sample of no more than 3,000 words on any subject in philosophy.

A statement describing specific philosophical interests.

Program Specific Graduate Assistantships

The department offers two to three graduate assistantships yearly on a competitive basis. These assistantships carry a tuition and fee waiver, plus a stipend. For more information, please contact the department.

TAMMY HEISE, B.A. Hendrix College 1998; M.A. Vanderbilt University 2006; Ph.D. Florida State University 2016; Visiting Assistant Professor of Religious Studies 2015, Assistant Professor of Religious Studies 2020.

Senior Academic Professional Lecturer

About the Program

Throughout history, religion has played an important role in shaping cultures and societies. Religious beliefs have inspired armies in their wars and leaders in their decisions. Religions have provided the foundation for ethical behavior and in many societies have been the primary source of education. In today’s world, religions remain important, influencing our responses to 9/11, the Arab Spring, the Philosophy and Religious Studies, Middle East crisis, and other events in regions around the world. Even in our own secular United States, religions and their beliefs play a major role in our debates over public policy.

The Religious Studies department offers a range of courses in the academic study of religions. These courses seek to acquaint students with religious beliefs and behavior, helping them to understand the ability of religions to define the world in which their adherents live and the power religions have to influence the behavior of their followers. Religious Studies courses cover a broad range of religions, both modern and historical. Some courses focus on understanding a single religion in a limited time period, while others compare aspects of different religions. Yet further courses focus on religious expression, studying how religious beliefs are depicted in literature, film, art and music. Many of these courses are offered by the Religious Studies department, while others can be found in various departments, including anthropology, art, English, history and sociology.

Graduate Study

At present, no program for a graduate degree in religious studies is offered; however, some courses may be counted at the graduate level.

Major

Philosophy, B.A.

Philosophy provides the critical thinking, logical reasoning, and innovative problem-solving skills necessary to be competitive in law, business, academia, tech, arts, and government. It also explores what it is to live a meaningful life outside a career.

University Studies Program

The University Studies Program 2015
**FYS-First Year - Seminar**

Credits: 3  
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3  
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3  
Max Credit 3  
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3  
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q- - Quantitative Reasoning**

Credits: 3  
Max Credit 3  
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3  
Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3  
Approved coursework does not include courses taken from the students' major department.
**H- - Human Culture (1)**

Credits: 3  
Max Credit 3  

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3  

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3  

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Additional Requirements**

- A major in Philosophy requires a minimum of 33 hours (11 courses) of philosophy.  
- At least 6 hours (2 courses) must be at the 4000-level.  
- At least an additional 18 hours (6 courses) must be at or above the 3000-level.  
- The remaining 9 hours (3 courses) may be at any level.  
- The department recommends that students begin with a 1000-level Intro course or a FYS followed by one or two other courses at the 1000 or 2000-level but it is not required that a student follow this recommendation.  
- Only those courses in which a grad of C or better has been earned may count toward the 33-hour requirement.  

**1000 -2000-level courses**

Nine hours (3 courses) may be at any level.

**PHIL1000 - Introduction to Philosophy**

Credits: 3  
Introduces critical thinking through a study of elementary logic, scientific method and philosophical problems of ethics, religion, epistemology and metaphysics.

USP 2003-2014 Code U3CH  
USP 2015 Code U5H

**PHIL1101 - First-Year Seminar**

Credits: 3  
USP 2015 Code U5FY
PHIL2100 - The Greek Mind

Credits: 3
Part one of the history of philosophy sequence. The first great age of philosophy was in ancient Greece. Students read from ancient Greek poets, historians and medical writers, as well as philosophers. The course attempts to understand the Greek mind: what Greeks thought of persons, society and the universe.

USP 2003-2014 Code U3CH

PHIL2300 - Ethics in Practice

Credits: 1-3
Alerts preprofessional students and other interested individuals to various ethical issues they will encounter and relevant professional work on those issues. Emphasis of the course concentrates one time on biomedical ethics, another on technology and engineering ethics, another on ethics in the professions.

USP 2003-2014 Code U3CH
USP 2015 Code U5H

PHIL2310 - Philosophy of Religion

Credits: 3
Systematically examines philosophical questions, arguments and theories arising from study of religion. Topics may include: reason and religion; the existence and nature of God.

USP 2003-2014 Code U3CH

PHIL2330 - Environmental Ethics

Credits: 3
Introduction to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed ENR 2330.
USP 2003-2014 Code U3CH

PHIL2345 - Natural Resource Ethics

Credits: 3
Introduction to ethics in context of natural resource extraction, use, conservation, preservation, and distribution. Ethical frameworks include teleological and deontological theories primarily applied to human needs and wants. Concepts and applications of environmental justice are addressed, including private property, sustainability, and obligations to future generations.
PHIL2420 - Critical Thinking

Credits: 3
Shows that argument is a skill of fundamental importance to any field of endeavor. Explains methods used in evaluating an argument. Introduces such topics as: patterns of reasoning, counterexamples, fallacies; inductive and deductive logic.

USP 2003-2014 Code U3CH
Former Course Number [1100]

3000-level courses

At least 18 hours (6 courses) must be at or above the 3000-level.

PHIL3000 - Special Topics

Credits: 3
Max Credit (Max. 9)

Provides undergraduates with the opportunity for in-depth discussion of seminal works in the history of philosophy or a problem in contemporary philosophy not offered in regular courses or independent study. Open to interested undergraduates from all majors.

Prerequisite: 3 hours of philosophy.

PHIL3100 - History of Modern Philosophy: The Rationalists

Credits: 3
The second great age of philosophy absorbed the influence of the new science during the 17th and 18th centuries. People to be studied include: Descartes, Spinoza and Leibniz.

Prerequisite: 3 hours of philosophy.

PHIL3110 - History of Modern Philosophy: The Empiricists

Credits: 3
People to be studied include: Locke, Berkeley, Hume and Kant. These philosophers are included in the second great age of philosophy.

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3120 - Ancient Greek Philosophy
Credits: 3
Surveying some of ancient Greek philosophy. Begins with the works of the earliest extant philosophical thinkers, the pre-Socratics. remainder of focus on Plato and Aristotle.

**Prerequisite:** 3 hours of philosophy, or consent of instructor.

**PHIL3140 - Philosophy of Science**

Credits: 3
Systematically examines philosophical problems about the nature of science, its methods of explanation, and the status of its laws.

**Prerequisite:** 3 hours of philosophy or 3 hours of science or consent of instructor.

**PHIL3160 - "What Killed Socrates?"**

Credits: 3
This course will reexamine Socrates' trial in 399 BCE, widely regarded as a miscarriage of justice, in its total historic context, seeking to understand the reasons for Socrates' conviction. In the process, it will impart a broad understanding of the cultural, philosophical, political, and legal life of classical Athens.

**Cross Listed** CLAS 3160/HIST 3160.
**Prerequisite:** WB or COM2.

**PHIL3220 - Existentialism and Phenomenology**

Credits: 3
Examines fundamental perspectives of existentialist thought, beginning with its roots in Kierkegaard and Nietzsche. Looks at a large variety of existentialist perspectives presented by Sartre, Heidegger, Buber, Jaspers and Camus. Considers the relation of Husserl's phenomenological method to existentialism.

**USP 2015 Code U5H**
**Prerequisite:** 3 hours of philosophy.

**PHIL3250 - Global Justice**

Credits: 3
An examination of global justice, normative international relations, and international ethics, using the methodology and theories of analytical political philosophy. Possible topics include global economic justice and world poverty, human rights, humanitarian duties, intervention and sovereignty, cosmopolitanism, nationalism, patriotism, world hunger, and immigration.

**USP 2003-2014 Code U3G**
**USP 2015 Code U5H**
**A&S College Core 2015 ASG**
**Prerequisite:** 3 hours of philosophy or international studies.
**PHIL3300 - Ethical Theory**

Credits: 3  
A philosophical investigation of such concepts as morality, obligation, goodness, freedom and responsibility, and of recurring types of ethical theory.

**Prerequisite:** 3 hours of philosophy.

**PHIL3320 - Eastern Thought**

Credits: 3  
Surveys some of the major concepts in Zen, Hinduism, Buddhism, Taoism and Confucianism.

**Cross Listed** RELI 3320.  
USP 2015 Code U5H  
**Prerequisite:** 3 hours of philosophy, or consent of instructor.

**PHIL3340 - Philosophy in Literature**

Credits: 3  
Max Credit (Max. 6)  
Examines central themes in literary works with philosophical significance; studies related general issues. Issues include questions of interpretation, criticism, and translation, as well as the possibility of direct philosophical influence on authors.

**Cross Listed** ENGL  
USP 2015 Code U5H  
**Former Course Number** [2340]  

**Prerequisite:** one course in philosophy or one course in literature or consent of instructor.

**PHIL3350 - History of Moral Philosophy**

Credits: 3  
A historical and philosophical overview of ethical theory ranging from ancient Greek ethics to the present.

USP 2015 Code U5H  
**Prerequisite:** 3 hours of philosophy.

**PHIL3420 - Symbolic Logic**

Credits: 3  
Studies both propositional and quantificational logic, concentrating on methods of proof. Takes up such topics as identity, singular terms, intuitive set theory, and translating English sentences into symbolic notation.
Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3440 - Philosophy of Mind

Credits: 3
Considers topics in philosophy of mind, including the mind-body problem, emotions, attitudes, perception and psychological explanation.

USP 2015 Code U5H
Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3500 - History of Science

Credits: 3
Historic and philosophic survey of the development of science from the ancient Greeks to the 20th century.

Prerequisite: 3 hours of philosophy or 3 hours of science or consent of instructor.

PHIL3510 - Introduction to Epistemology

Credits: 3
Systematic introduction to epistemology, the philosophical study of knowledge and justified belief. Aims to answer questions such as: What are the necessary and sufficient conditions of knowledge? What are its sources? What is its structure, and what are its limits? How we are to understand the concept of justification?

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3560 - Introduction to Metaphysics

Credits: 3
A systematic introduction to metaphysics, the branch of philosophy concerned with providing a comprehensive account of the most general features of reality as a whole. Of central importance is the study of ontology, which seeks to address the question of what general sorts of things exist: particulars, universals, propositions, numbers, minds.

Prerequisite: 3 hours of philosophy, or consent of instructor.

PHIL3933 - African Philosophy

Credits: 3
Examines the work of philosophers of Africa, of African descent and others who deal with African diaspora.

Cross Listed AAST 3933/INST 3933.
USP 2015 Code U5H
A&S College Core 2015 ASG
Prerequisite: 6 hours of philosophy.
4000-level-courses

At least 6 hours (2 courses) must be at the 4000-level.

**PHIL4000 - Philosophical Issues**

Credits: 1-3  
**Dual Listed** PHIL 5000.  
**Prerequisite:** consent of instructor.

**PHIL4020 - Plato**

Credits: 3  
Detailed examination of selected dialogues of Plato.

**Dual Listed** PHIL 5020.  
**Prerequisite:** PHIL 3120.

**PHIL4030 - Aristotle**

Credits: 3  
Detailed examination of selected works of Aristotle.

**Dual Listed** PHIL 5030.  
**Prerequisite:** PHIL 3120.

**PHIL4040 - Kant**

Credits: 3  
An examination of one or more aspects of the work of Immanuel Kant, conducted either from the perspective of the history of philosophy.

**Prerequisite:** 6 hours of philosophy.

**PHIL4110 - Figures in Contemporary Philosophy**

Credits: 3-6  
Max Credit (Max. 6)  
An advanced study of the work of one, or several related, contemporary philosophers.

**Prerequisite:** 12 hours of philosophy including PHIL 3100 or PHIL 3110.

**PHIL4120 - Philosophy and the 20th Century**
Credits: 3
Part three of the history of philosophy sequence. Covers the third great age of philosophy. Studies the main ways in which philosophy has been done since 1900. Topics normally include logic and philosophy, Wittgenstein, logical positivism and current trends.

**Dual Listed PHIL 5120.**
**Former Course Number [4100]**

**Prerequisite:** 6 hours of philosophy.

**PHIL4130 - Figures in Modern and 19th Century Philosophy**

Credits: 3
A detailed examination of one or more of the figures in modern or 19th century philosophy.

**Dual Listed PHIL 5130.**
**Prerequisite:** 6 hours of philosophy.

**PHIL4140 - Topics in Philosophy of Science**

Credits: 3
Max Credit (Max. 6)

Encompasses selected topics in philosophy of science.

**Dual Listed PHIL 5140.**
**Prerequisite:** 6 hours of philosophy.

**PHIL4190 - Philosophy of Language**

Credits: 3-6
Max Credit (Max. 6)

An advanced study of the work of one, or several related, contemporary philosophers.

**Dual Listed PHIL 5190.**
**Prerequisite:** 6 hours of philosophy.

**PHIL4300 - Topics in Ethics**

Credits: 3-6
Max Credit (Max. 6)

An advanced investigation of selected topics in ethics. Examples include derivative and basic principles of obligation; justice; morality and utility; generalization of norms; and the relation of morality and law.
Dual Listed PHIL 5300.
Prerequisite: 6 hours of philosophy.

PHIL4340 - Issues in Environmental Ethics

Credits: 3
Encompasses selected topics in environmental and natural resource ethics.

Dual Listed PHIL 5340.
Prerequisite: PHIL 2330, PHIL 2345, PHIL 3250, PHIL 3300 or PHIL 3350.

PHIL4420 - Advanced Logic

Credits: 3
Studies advanced topics in mathematical logic. Takes up such topics as: uninterpreted calculi and the distinctive contributions of syntax and semantics; metatheory, including completeness and consistency proofs; modal logic and semantics; logic as a philosophical tool.

Cross Listed COSC 4420/MATH 4420.
Dual Listed PHIL 5420.
Prerequisite: PHIL 3420 or equivalent.

PHIL4440 - Topics in Philosophy of the Mind

Credits: 3-6
Max Credit (Max. 6)
An advanced study of problems in the philosophy of mind such as the concept of human action; intention, choice, reasons and causes in the explanation of human action, mental states and brain states, and artificial intelligence.

Dual Listed PHIL 5440.
Prerequisite: 6 hours of philosophy.

PHIL4510 - Theory of Knowledge

Credits: 3
Studies such problems as knowledge and belief, skepticism, perception and knowledge, memory, truth.

Dual Listed PHIL 5510.
Prerequisite: 6 hours of philosophy.

PHIL4560 - Metaphysics

Credits: 3
Examines approaches to metaphysics. Discusses problems such as causality, individuation.
**Dual Listed** PHIL 5560.

**Prerequisite:** 6 hours of philosophy.

**PHIL4975 - Independent Study**

Credits: 1  
Max Credit 6

Primarily for juniors and seniors who can benefit from independent study of topics in philosophy not covered in course offerings. Guidance provided by faculty member in the appropriate field.

**Restricted** undergraduate standing

**Prerequisite:** 9 hours of philosophy and consent of instructor

**Religious Studies, B.A.**

Religious Studies builds skills for your future in a globalized world. You will learn to ask life's big questions, analyze how communities across time and place have addressed these questions, and communicate persuasively in your own speech and writing.

**General Requirements**

A major in Religious Studies requires 33 hours (11 courses) plus a second major or minor in another discipline.

For students completing their degree under the 2015 University Studies Program:

**Two Required Courses: 6 Hours**

**RELI1000 - Introduction to Religion**

Credits: 3  
Introduces world religions and shared characteristics. Draws on various academic approaches to religion study, emphasizing similarities and differences among wide variety of religions.

USP 2003-2014 Code U3CH, U3G  
USP 2015 Code U5H  
A&S College Core 2015 ASG

**RELI4000 - Theories of Religion**

Credits: 3  
Investigates different theories proposed to explain religion and methods used to investigate them. Pays primary attention to influential thinkers and theorists of the past century.
Prerequisite: RELI 1000, and 12 additional hours in Religious Studies, at least 6 of which must be at the 3000-level or above, junior standing.

Concurrent Concentration I: 9 Hours

Students should acquire a focused concentration by taking three courses (1) on a single religion, or (2) on the religions of a particular region or culture. Courses may be from a limited time period or spread across history. Students may choose from established concentrations or create their own concentration in consultation with their adviser. [Six hours must be above 3000-level.]

Concurrent Concentration II: 9 Hours

Students should take three courses in a religion, region, or culture differing significantly from that of the first concentration. [Six hours must be above 3000-level.]

Electives

Three courses in Religious Studies (see note 2 below) chosen in accordance with the student's interests. [Six hours must be above 3000-level.]

Language

Students should take three semesters of a single foreign language or demonstrate equivalent proficiency. See note 3 below.

Honors

If a student wishes to pursue an Honors designation in Religious Studies, two additional requirements must be fulfilled.

A. A three-hour Thesis Seminar or Internship, during which a research paper is written, or other suitable research project is carried out.
B. Demonstration of competency in a foreign language equivalent to a fourth-semester college-level course.

Notes:

1. If students majoring in Religious Studies can use its courses to satisfy requirements in a second major or minor, this is permitted.
2. Courses for the major should be drawn from those with a RELI prefix, or from a list of approved courses taught by other departments or programs. See the list of approved courses on the Religious Studies website. In each of the concentrations, only one course may be from outside RELI offerings. Two such courses may be used as electives. Occasionally, courses on religion are taught by outside departments as one-time opportunities. Students may propose these for inclusion in the major to the Religious Studies Program Director.
3. The language requirement may be satisfied with American Sign Language (ASL) or, with the approval of the department, coursework in another form of non-English communication (e.g., computer science, statistics, music composition).
All courses must be passed with a grade of C or better.

Minor

Environmental Values Minor

The minor in Environmental Values explores the vital link among the natural sciences, humanities, and the social sciences in grappling with environmental challenges.

Course Requirements

The minor in Environmental Values may be added to any bachelor's program at UW.

The minor requires a total of 18 credit hours, including at least one course within each of four areas of concentration. At least 12 of these credits must be outside the primary major, and nine of these credits must be at or above the 3000-level. A three-hour, core course (either Phil 2330 Environmental Ethics or Phil 2345 Natural Resource Ethics) is required of all students.

Core Course

A three-hour, core course is required of all students.

PHIL2330 - Environmental Ethics

Credits: 3
Introduction to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed ENR 2330.
USP 2003-2014 Code U3CH

PHIL2345 - Natural Resource Ethics

Credits: 3
Introduction to ethics in context of natural resource extraction, use, conservation, preservation, and distribution. Ethical frameworks include teleological and deontological theories primarily applied to human needs and wants. Concepts and applications of environmental justice are addressed, including private property, sustainability, and obligations to future generations.

Cross Listed ENR 2345/RNEW 2345.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5H
Areas of Concentration:

(note: the courses listed below are provided as examples of the type of courses that meet the various areas of concentration. Other courses may be approved on a course by course basis in consultation with the Philosophy Department Undergraduate Advisor.)

Aesthetics

Expressing ourselves through the performing, visual and literary arts:

**GEOG4500 - The American Landscape**

Credits: 3
This course trains students to interpret patterns and processes of contemporary landscapes of the Americas (North, Central, and South America) by viewing those landscapes historically. We investigate the relationship between landscape, politics, and economy, or, more generally, the relationship between landscape as a geographical form and cultural politics in the hemisphere. Students are introduced to research techniques and methodologies in historical geography.

*Cross Listed* Cross listed with GEOG 5500, INST 4500, INST 5500  
*Former Course Number* [G&R 4500]

*Prerequisite:* 6 credits of international studies or social science coursework

**THEA2400 - Vertical Dance I**

Credits: 1  
An introduction to vertical dance including safety issues, beginning rigging and performance.

*Prerequisite:* consent of instructors.

**THEA3400 - Vertical Dance II**

Credits: 1  
A continuing course in vertical dance emphasizing the math and physics of the rigging; safety and design, choreography and research in the field.

*Prerequisite:* completion of THEA 2400 and consent of instructors.

Culture

Viewing human meaning and purpose in historical and contemporary terms:

**NAIS3000 - Plains Culture and History**
An ethnohistorical study of those Native peoples inhabiting the Plains region of the U. S. from prehistory to the present.

**Cross Listed** HIST 3000.
**USP 2003-2014 Code U3D**
**A&S College Core 2015 ASD**
**Prerequisite:** 6 hours of HIST or NAIS.

**ANTH4310 - Environmental Anthropology**

Credits: 3
Addresses how human societies interact with their surroundings, emphasizing cultural understandings of the environment. Introduces variety of theoretical and methodological approaches to topics ranging from problems of the American West to global environmental change.

**Cross Listed** ENR 4310.
**Dual Listed** ANTH 5310.
**When Offered** (Normally offered every third semester)
**Prerequisite:** ANTH 1200.

**ENGL3400 - Topics in: Eighteenth-Century Literature**

Credits: 3
Max Credit (Max. 12)

Topics in eighteenth-century American and/or British literatures. Readings situated amid the historical and social developments of the era, including the expansion of mercantilism and slavery, the spread of secularism, the rise of print capitalism, and the emergence of new ideas of self and authorship. Subject matter varies by section.

**Prerequisite:** COM1, ENGL 2025, and any one of the following: ENGL 2425, ENGL 2430, ENGL 2435, ENGL 2340, ENGL 2350, or ENGL 2360.

**ENGL4480 - Regional Literature of the US: The West**

Credits: 3
Encompasses major themes and writers in western American literature.

**Prerequisite:** 6 hours of 2000-level literature courses.

**ENR2000 - Environment and Society**

Credits: 3
Develops understanding of the nature and dimensions of environmental and natural resource issues. Explores ways in which elements of society approach, evaluate, and develop positions relative to environmental issues. Uses case studies to illustrate the contemporary and historical role of individuals and societies in identifying and addressing environmental issues at scales ranging from local to global.
ENR3050 - Cultures of Nature in the United States

Credits: 3
Uses artistic, philosophical, historical and literary material to investigate how ideas about and representations of nature have changed over time in the U. S. Culminates in an examination of a wide range of contemporary environmental ideas within this broad historical and cultural context.

Cross Listed AMST 3050/GWST 3050.
Prerequisite: 2000-level course in one of the following departments: AMST, American history, American literature, or a 2000-level course approved for the ENR program.

HIST4475 - American Environmental History

Credits: 3
Explores history of American attitudes and actions toward the land and natural resources.

Dual Listed HIST 5475.
Former Course Number [4670]

Prerequisite: 9 hours of HIST.

Ethics

Considering right and wrong via critical and systematic thinking and doing:

PHIL2330 - Environmental Ethics

Credits: 3
Introduction to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed ENR 2330.
USP 2003-2014 Code U3CH

PHIL2345 - Natural Resource Ethics

Credits: 3
Introduction to ethics in context of natural resource extraction, use, conservation, preservation, and distribution. Ethical frameworks include teleological and deontological theories primarily applied to human needs and wants. Concepts and applications of environmental justice are addressed, including private property, sustainability, and obligations to future generations.
Cross Listed ENR 2345/RNEW 2345.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5H

PHIL3250 - Global Justice

Credits: 3
An examination of global justice, normative international relations, and international ethics, using the methodology and theories of analytical political philosophy. Possible topics include global economic justice and world poverty, human rights, humanitarian duties, intervention and sovereignty, cosmopolitanism, nationalism, patriotism, world hunger, and immigration.

USP 2003-2014 Code U3G
USP 2015 Code U5H
A&S College Core 2015 ASG
Prerequisite: 3 hours of philosophy or international studies.

PHIL3300 - Ethical Theory

Credits: 3
A philosophical investigation of such concepts as morality, obligation, goodness, freedom and responsibility, and of recurring types of ethical theory.

Prerequisite: 3 hours of philosophy.

PHIL3350 - History of Moral Philosophy

Credits: 3
A historical and philosophical overview of ethical theory ranging from ancient Greek ethics to the present.

USP 2015 Code U5H
Prerequisite: 3 hours of philosophy.

PHIL4340 - Issues in Environmental Ethics

Credits: 3
Encompasses selected topics in environmental and natural resource ethics.

Dual Listed PHIL 5340.
Prerequisite: PHIL 2330, PHIL 2345, PHIL 3250, PHIL 3300 or PHIL 3350.

Policy

Exploring laws, regulations, and public discourse in American society:
AGEC4710 - Natural Resource Law and Policy

Credits: 3
Legal and economic examination of laws intended to resolve environmental conflicts. Surveys economic rationales both for private property and government intervention in environmental disputes; content of selected environmental laws in the U. S.; and basic principles of environmental mediation.

When Offered (Normally offered fall semester of even-numbered years)
Prerequisite: AGEC 1020, ECON 1020 or equivalent and 3 hours of business law or agricultural law.

NAIS4340 - Natural Resource Management on Western Reservations

Credits: 3
Examines natural resource management techniques on western reservations. Focus is on the management and planning of water, grazing, extractive industries, and forestry. Fieldwork on the Wind River Indian Reservation is included.

Cross Listed GEOG 4340.
Prerequisite: 6 hours of 2000-level NAIS courses.

ECON2400 - Economics of the Environment

Credits: 3
This introductory course examines the links between economics and the natural environment. We consider the efficient use of natural resources like minerals, forests, and fisheries. We also explore how to use economics to sharpen environmental policy for challenges like water and air pollution, climate change, and biodiversity protection.

When Offered (Offered based on sufficient demand and resources)
USP 2003-2014 Code U3G, U3WB
USP 2015 Code U5C2
A&S College Core 2015 ASG
Prerequisite: ECON 1010 recommended, ECON 1020 required.

ENR4900 - Capstone in ENR

Credits: 3
An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.

Dual Listed ENR 5900.
USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: ENR 3000.

GEOG4040 - Conservation of Natural Resources
Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

**Cross Listed** ENR 4040, GEOL 4040, USP 2003-2014 Code U3CS

**Former Course Number** [G&R 4040]

**Prerequisite:** 6 hours of geography or ENR.

**POLS4051 - Environmental Politics**

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

**Cross Listed** AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.
**Dual Listed** POLS 5051.

**Former Course Number** [4050]

**Prerequisite:** POLS 1000.

**POLS4052 - Federal Land Politics**

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

**Cross Listed** AMST 4052/ ENR 4052/GEOG 4052/REWM 4052.

**Prerequisite:** POLS 1000.

**Ethics Minor**

A minor in Ethics enhances and compliments any major, such as education, health sciences, law, business, engineering, computer science, political science, or communication.

**Course Requirements**

A minor in Ethics requires a minimum of 18 hours. One course from each of the three areas plus a capstone course.
A Student Takes One Course in Each of These Areas:

1. Ethical Theory

**PHIL3300 - Ethical Theory**

Credits: 3  
A philosophical investigation of such concepts as morality, obligation, goodness, freedom and responsibility, and of recurring types of ethical theory.

**Prerequisite:** 3 hours of philosophy.

**PHIL3350 - History of Moral Philosophy**

Credits: 3  
A historical and philosophical overview of ethical theory ranging from ancient Greek ethics to the present.

USP 2015 Code U5H  
**Prerequisite:** 3 hours of philosophy.

**PHIL3250 - Global Justice**

Credits: 3  
An examination of global justice, normative international relations, and international ethics, using the methodology and theories of analytical political philosophy. Possible topics include global economic justice and world poverty, human rights, humanitarian duties, intervention and sovereignty, cosmopolitanism, nationalism, patriotism, world hunger, and immigration.

USP 2003-2014 Code U3G  
USP 2015 Code U5H  
A&S College Core 2015 ASG  
**Prerequisite:** 3 hours of philosophy or international studies.

2. Applications

(determined on a course by course basis in consultation with the Philosophy Department Undergraduate Advisor)

3. Scientific, Historical and Social Analysis

(determined on a course by course basis in consultation with the Philosophy Department Undergraduate Advisor)

**Capstone Course**

The capstone course is an independent study normally taken during a student's senior year. The course integrates the student's different areas of study in the ethics minor into a project or thesis. Any professor in any college can sponsor
this independent study. Capstone topics must be approved by the ethics minor advisor. (determined in consultation with the Philosophy Department Undergraduate Advisor)

Electives

The other two courses are approved electives, (2 courses from Areas 1, 2 or 3 -- each from a different area).

Philosophy Minor

Philosophy provides the critical thinking, logical reasoning, and innovative problem-solving skills necessary to be competitive in law, business, academia, tech, arts, and government. It also explores what it is to live a meaningful life outside a career.

Course Requirements

A minor in Philosophy requires a minimum of 18 hours (6 courses) of philosophy.

- Of the 18 hours, 12 hours must be at 3000-level or above.
- Of the 18 hours, the remaining 6 hours (2 courses) may be at any level.

Only courses in which a grade of C or better has been earned count toward the 18-hour requirement.

Religious Studies Minor

The Minor in Religious Studies requires eighteen hours of relevant courses, all with a grade of "C" or higher. These should consist of courses as set out below:

Relevant Courses: 18 Hours

REL1000 - Introduction to Religion

Credits: 3
Introduces world religions and shared characteristics. Draws on various academic approaches to religion study, emphasizing similarities and differences among wide variety of religions.

USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

REL14000 - Theories of Religion

Credits: 3
Investigates different theories proposed to explain religion and methods used to investigate them. Pays primary attention to influential thinkers and theorists of the past century.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
**Prerequisite:** RELI 1000, and 12 additional hours in Religious Studies, at least 6 of which must be at the 3000-level or above, junior standing.

- Twelve hours of courses focusing on issues in the study of religions, nine of which should be at the 3000 level or higher. Occasionally, courses on religion are taught by outside departments as one-time opportunities. Students may propose these for inclusion in the major to the Religious Studies Program Director

**Graduate**

**Philosophy, M.A.**

**Program Specific Degree Requirements**

**Plan A (Thesis)**

31 hours of graduate credit

27 hours of graduate coursework

4 hours of thesis research

Proof of proficiency in formal logic (through first-order predicate logic with identity) by either passing the department's course (3420) or some other course judged to be its equivalent with a grade B or better or by completing a test with a grade B or better at the end of the second semester.

First year paper at the beginning of the third semester.

Defense of a thesis prospectus by the end of the third semester.

In any cases of deficiency, the department may require remedial work before admission to M.A. candidacy.

**Department of Physics and Astronomy**

204 Physical Sciences Building,  
(307) 766-6150  
FAX: (307) 766-2652  
Web site: www.uwyo.edu/physics  
Department Head: Jinke Tang

**Professors:**

**YURI DAHNOVSKY**, Ph.D. Institute of Chemical Physics, Moscow 1983; Professor of Physics 2007, 2000.

HENRY A. KOBULNICKY, B.S. University of Iowa 1991; M.S. University of Minnesota 1993; Ph.D. 1997; Professor of Physics and Astronomy 2014, 2002.

ADAM D. MYERS, M.S. Durham University, United Kingdom 2000; Ph.D. 2004; Associate Professor of Physics and Astronomy 2017, 2011; Professor of Physics and Astronomy Fall 2022

H. EDWARD SEIDEL, B.S. College of William and Mary 1981; M.S. University of Pennsylvania 1983; Ph.D. Yale University 1988; Professor of Physics and Astronomy 2020.

JINKE TANG, B.S. Jilin University 1982; M.S. Iowa State University 1990; Ph.D. 1989; Professor of Physics 2007.

Associate Professors:

TEYU CHIEN, B.S. National Taiwan Normal University 2001; Ph.D. University of Tennessee-Knoxville 2009; Associate Professor of Physics 2019, 2013.

WENYONG WANG, B.S. Nankai University 1993; M.S. Yale University 1999; Ph.D. 2004; Associate Professor of Physics 2014, 2008.

Assistant Professors:

JIFA TIAN, B.S. Beijing Normal University 2003; Ph.D. University of Chinese Academy of Sciences/Institute of Physics, CAS 2009; Assistant Professor of Physics 2018.

Assistant Lecturer:

ARYSENEUR BICER, B.S. Ege University 2006; M.S. 2009; Ph.D. Texas A&M University 2018; Assistant Lecturer in Physics 2019.

JESSE FEDDERSEN, B.S. Indiana University 2013; M.S. Yale University 2015; Ph.D. Yale University 2019; Assistant Lecturer in Physics and Astronomy 2020.

Adjunct Professors:

Professors Emeriti:
Physics originated in antiquity as the study of natural philosophy. As such, it attempts to describe the universe within the context of both physical laws and the fundamental particles of nature. The broad scope of physics runs from the microscopic nuclear structure and that of the elementary particles themselves to the macroscopic, the galaxy and evolution of the universe as a whole. Today the subject is generally divided into broad areas such as condensed matter, nuclear, elementary particles, astrophysics, etc. The department maintains competence in most major branches of physics and offers instruction in these areas at both the undergraduate and graduate levels. In addition, it has a strong interest and involvement in science education.

**Learning Outcomes**

The B.S. and B.A. in Physics, the B.S. in Astronomy, and the B.A. in Physics and Physics Education all have the broad objectives enumerated below. These objectives are designed to promote the success of our majors in their chosen career path, whether that takes them into academia, secondary teaching, industry or further education:

1. Provide students with problem-solving and data-manipulation skills appropriate to the growing range of scientific and technological careers in academia or industry.
2. Develop students' oral, written, interpersonal and communication skills.
3. Provide students with skills in experimental design, data collection, and data analysis through research experiences in a laboratory/computational/telescope setting.
4. Educate students in the application of mathematical tools that will be useful for them to achieve success in a postcollege career.
5. Provide a conceptual and analytical understanding of the core areas of physics and their specialty area.
6. Provide students with an understanding of scientific reasoning, i.e., the roles of theory, hypothesis, and experiment in the scientific method.

The B.S. in Physics and the B.S. in Astronomy are primarily designed for students who wish to pursue post-graduate education or to have a more in-depth physics background. The Physics B.A. is primarily designed for students interested in pursuing a double major, or a professional career. The B.A. in Physics and Physics Education is structured for those interested in pursuing a secondary science teaching career.

**Undergraduate Curriculum**

The four-year physics programs are the Bachelor of Arts in physics and the Bachelor of Science in physics. The Bachelor of Science programs are intended for students who will pursue a career or a graduate degree in the field, whereas the Bachelor of Arts program is primarily geared toward those who are interested in pursuing physics as a second major. The department also offers a Bachelor of Science degree in Astronomy and Astrophysics.

**Graduate Study**

The Department of Physics and Astronomy offers the degrees of master of science in physics, master of science in teaching, and doctor of philosophy. Advanced degrees in physics may be based on experimental or theoretical research in physics or astrophysics.

Please refer to the departmental homepage at [http://www.uwyo.edu/physics/](http://www.uwyo.edu/physics/) for the programmatic updates, or contact the department directly.
Program Specific Admission Requirements

We will begin to review applications in late January. Both the GRE general and physics subject exams are optional, and we will review all applications on their total merits. Students of all backgrounds, ethnicities, genders and countries of origin are encouraged to apply at http://www.uwyo.edu/admissions/apply-online.html

Applications should include:

- Resume or CV
- Undergraduate transcript
- A Personal Statement that says why you want to pursue a PhD, why Wyoming is a good fit for you, and what experiences you've previously had completing long-term projects
- Three letters of recommendation (this will be done through the application website)
- GRE scores Both the GRE general and physics subject exams are optional.
- TOEFL for non-native English speakers
- Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Program Specific Graduate Assistantships

The Physics and Astronomy Department commits to providing first- and second-year students with teaching assistantships for the nine-month academic year. More advanced students are generally supported on federal grants or fellowships. Both teaching and research assistantships carry a full tuition waiver and insurance. Summer assistantships are often available to students making satisfactory progress. Refer to http://www.uwyo.edu/physics/ for current amounts.

Major

Astronomy and Astrophysics, B.S.

The Bachelor of Science in Astronomy & Astrophysics program prepares students for graduate school, or a career in astronomy/astrophysics or a related field.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar
Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**
Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**A&S College Core**

The BS in Astronomy and Astrophysics requires the A&S Core:

- **D** - Diversity (3 credits)
- **G** - Global (3 credits)
- At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).
- No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation.

See below for more information:

- [http://www.uwyo.edu/as/current-students/index.html](http://www.uwyo.edu/as/current-students/index.html)

**Requirements**

Students in the Bachelor of Science in Astronomy major program are required to complete the following courses:

**ASTR1050 - Survey of Astronomy**

Credits: 4
Consists of 3 lecture periods and a two-hour laboratory in observational and laboratory astronomy. Observing sessions are scheduled after dark and held when weather permits. Designed primarily for non-science majors.

USP 2003-2014 Code [SE<>PN]

**Prerequisite:** MATH 1000 or equivalent, or passing the Mathematics Placement examination at Level 2.

**ASTR2310 - General Astronomy I**
Covers the history of astronomy, orbital mechanics, solar system (the Sun, planetary interiors, atmospheres, moons, comets, meteors); interaction of radiation and matter (physical processes in gas, black body radiation) astronomical instrumentation and detectors. Laboratory includes exercises in observational astronomy. Observing sessions are scheduled after dark and held when weather permits.

When Offered (Normally offered spring semester)
USP 2003-2014 Code PN
Prerequisite: PHYS 1210 or PHYS 1310, MATH 2200.

ASTR2320 - General Astronomy II

Credits: 4
Covers the properties of stars, stellar atmospheres and stellar evolution, interstellar matter, galaxies and cosmology including models of the universe, the Big Bang, and dark energy. Laboratory includes exercises in observational astronomy. Observing sessions are scheduled after dark and held when weather permits.

USP 2003-2014 Code PN
Prerequisite: PHYS 1210 or PHYS 1310, MATH 2200.

ASTR4610 - Introduction to Astrophysics

Credits: 3
Includes astrophysical sources of radiation, radiation transport, nonequilibrium processes, stellar atmospheres, stellar interiors and the interstellar medium.

Prerequisite: ASTR 2310, PHYS 2310 and concurrent registration in PHYS 4210 and PHYS 4410.

PHYS1210 - Engineering Physics I

Credits: 4
First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

OR

PHYS1310 - College Physics I

Credits: 4
First course of two semester sequence. Provides thorough introduction to physics with calculus. Primarily for majors in physics, astronomy, and other areas in science, mathematics and technology requiring the highest levels of sophistication. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1310 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1210.
Prerequisite: MATH 2200 and concurrent enrollment in MATH 2205.

**PHYS1220 - Engineering Physics II**

Credits: 4
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism, and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

**OR**

**PHYS1320 - College Physics II**

Credits: 4
Follows PHYS 1310 and continues introduction to physics with calculus. Includes electricity, magnetism, and thermodynamics. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1320 cannot receive credit for PHYS 1050, PHYS 1120 or PHYS 1220.

Prerequisite: MATH 2200, 2205 and concurrent enrollment in MATH 2210.

**PHYS2310 - Physics III: Waves and Optics**

Credits: 4
Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

**PHYS2320 - Physics IV: Modern Physics**

Credits: 3
Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck’s Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

**PHYS3000 - Methods of Physics**
Credits: 4
Provides introduction to mathematical methods and modern scientific computational tools used in physics/astronomy. Topics include introduction to Python or Linux operating system and use LabView software to run laboratory apparatus. Course examples will draw upon material in PHYS 1210/PHYS 1220 to help build fluency in the first year physics material.

**Prerequisite:** PHYS 1220.

**PHYS3640 - Modern Electronics and Experimental Techniques**

Credits: 4
Introduced to analog and digital circuits/devices and computer interfacing with laboratory equipment and experiments. Includes computer programming, the analysis of experimental data, and report writing. Apply the skills developed in this class to interface with and control representative instrumentation used in experimental physics laboratories.

**Prerequisite:** PHYS 2320.

**PHYS3650 - Advanced Lab in Modern Physics and Electronics**

Credits: 4
Presents fundamentals of modern optics, modern and quantum physics, E&M/electronics, and thermodynamics in a project oriented interactive undergraduate laboratory with a focus on professional grade lab report writing that qualifies as WB USP. Students learn professional data handling, error theory, and data analysis.

USP 2015 Code U5C3
**Prerequisite:** WA and PHYS 2310 or PHYS 2320.

**PHYS4210 - Classical Mechanics I**

Credits: 3
First semester of a two-course sequence. Presents classical mechanics at intermediate level. Begins with elementary Newtonian mechanics and builds step by step into analytic mechanics. Includes simple harmonic motion of particles in one, two or three dimensions, gravitation; introduction to rigid-body motion; and introduction to Lagrangian and Hamiltonian Mechanics.

**When Offered** (Normally offered spring semester)
**Prerequisite:** PHYS 2310 or equivalent, MATH 2210 or equivalent.

**PHYS4310 - Quantum Mechanics**

Credits: 3
Studies fundamental concepts of quantum theory.

**When Offered** (Normally offered fall semester)
**Prerequisite:** PHYS 4210.
PHYS4410 - Electricity and Magnetism I

Credits: 3
First semester of a two-course sequence. Presents electricity and magnetism on intermediate level, emphasizing fields. Begins with review of vector algebra and calculus and proceeds to discussion of electrostatics, potential theory and steady currents.

When Offered (Normally offered fall semester)
Prerequisite: PHYS 2310 or equivalent and MATH 2210.

PHYS4420 - Electricity and Magnetism II

Credits: 3
Follows PHYS 4410 and continues intermediate discussion of electricity and magnetism. Covers magnetostatics, magnetoquasistatics, alternating currents, electromagnetic waves, transmission lines and antennae.

When Offered (Normally offered spring semester)
Prerequisite: PHYS 4410.

PHYS4510 - Thermodynamics and Statistical Mechanics

Credits: 3
Presents fundamental principles of thermodynamics, emphasizing mathematical development.

Prerequisite: PHYS 4310 or equivalent and MATH 2210.

PHYS4840 - Mathematical and Computational Physics II

Credits: 4
Second semester of a two-semester course. Provides a comprehensive overview of computational physics and provides numerous numerical techniques applied to physics problems. Topics include: numerical computations and visualizations, numerical solutions of ordinary differential equations, linear systems, curve fitting, discrete Fourier transforms, partial differential equations, integration, and Monte Carlo simulations of general stochastic systems. A weekly lab session will be held.

Prerequisite: MATH 2210, PHYS 2320 and PHYS 3000.

MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

MATH2310 - Applied Differential Equations I

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

Additional Description

- See the "Prerequisite and MPE Cut Score Reference Chart" on the Math Placement website for the most up-to-date math placement equivalencies: http://www.uwyo.edu/mathstats/math-placement/.
- For declared physics/astronomy majors, the prerequisite of Math 2200 is waived and concurrent enrollment is approved.
- For declared physics/astronomy majors, the prerequisite of Math 2205 is waived and concurrent enrollment is approved.
• Students are strongly encouraged to enroll in Human Culture requirement courses that correspond to the College of Arts & Sciences Core required US Diversity (ASD) and Global Awareness (G) electives or else they will have to take separate ASD and ASG courses. A list of ASD & ASG courses that transfer is available.

If intending to apply to graduate school, plan to take the physics GRE by fall semester of the senior year

**Additional Requirements**

Course sequencing may need to be altered if ACT, SAT or Math Placement scores require a student to take pre-college courses before taking required math or English courses. • Not all courses are offered every semester and some electives may have prerequisites. Students should review course descriptions in the University Catalog and consult with their academic advisor to plan accordingly.

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U. • University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

The Bachelor of Science degree in astronomy and astrophysics is administered by the Department of Physics and Astronomy faculty. Please see the Physics and Astronomy listing in this *Catalog* for more information.

**Physics, B.A.**

The Bachelor of Arts (BA) in Physics degree program provides a pathway for more students to major in physics, as a second major to physical chemistry, mathematics, and engineering, for example.

**University Studies Program Requirements**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students’ major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**
Approved V courses fulfill both US and Wyoming Constitutions requirements.

A&S College Core

The BA in Physics requires the A&S Core:

- **D** - Diversity (3 credits)
- **G** - Global (3 credits)
- At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).
- No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation.

See below for more information:

- [http://www.uwyo.edu/as/current-students/index.html](http://www.uwyo.edu/as/current-students/index.html)

Require Courses

Students in the Bachelor of Arts in physics major program are required to complete the following courses:

**PHYS1210 - Engineering Physics I**

Credits: 4
First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

**Prerequisite:** a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

**OR**

**PHYS1310 - College Physics I**

Credits: 4
First course of two semester sequence. Provides thorough introduction to physics with calculus. Primarily for majors in physics, astronomy, and other areas in science, mathematics and technology requiring the highest levels of sophistication. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1310 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1210.

**Prerequisite:** MATH 2200 and concurrent enrollment in MATH 2205.
Credits: 4
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP
USP 2015 Code USPN
Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

OR

PHYS1320 - College Physics II

Credits: 4
Follows PHYS 1310 and continues introduction to physics with calculus. Includes electricity, magnetism and thermodynamics. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1320 cannot receive credit for PHYS 1050, PHYS 1120 or PHYS 1220.

USP 2003-2014 Code U3SP
Prerequisite: MATH 2200, 2205 and concurrent enrollment in MATH 2210.

PHYS2310 - Physics III: Waves and Optics

Credits: 4
Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS2320 - Physics IV: Modern Physics

Credits: 3
Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck’s Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

PHYS3000 - Methods of Physics

Credits: 4
Provides introduction to mathematical methods and modern scientific computational tools used in physics/ astronomy. Topics include introduction to Python or linux operating system and use LabView software to run laboratory apparatus. Course examples will draw upon material in PHYS 1210/PYS 1220 to help build fluency in the first year physics material.
Prerequisite: PHYS 1220.

**PHYS3650 - Advanced Lab in Modern Physics and Electronics**

Credits: 4
Presents fundamentals of modern optics, modern and quantum physics, E&M/electronics, and thermodynamics in a project oriented interactive undergraduate laboratory with a focus on professional grade lab report writing that qualifies as WB USP. Students learn professional data handling, error theory, and data analysis.

USP 2015 Code U5C3
Prerequisite: WA and PHYS 2310 or PHYS 2320.

**PHYS4210 - Classical Mechanics I**

Credits: 3
First semester of a two-course sequence. Presents classical mechanics at intermediate level. Begins with elementary Newtonian mechanics and builds step by step into analytic mechanics. Includes simple harmonic motion of particles in one, two or three dimensions, gravitation; introduction to rigid-body motion; and introduction to Lagrangian and Hamiltonian Mechanics.

When Offered (Normally offered spring semester)
Prerequisite: PHYS 2310 or equivalent, MATH 2210 or equivalent.

**PHYS4310 - Quantum Mechanics**

Credits: 3
Studies fundamental concepts of quantum theory.

When Offered (Normally offered fall semester)
Prerequisite: PHYS 4210.

**PHYS4410 - Electricity and Magnetism I**

Credits: 3
First semester of a two-course sequence. Presents electricity and magnetism on intermediate level, emphasizing fields. Begins with review of vector algebra and calculus and proceeds to discussion of electrostatics, potential theory and steady currents.

When Offered (Normally offered fall semester)
Prerequisite: PHYS 2310 or equivalent and MATH 2210.

**PHYS4510 - Thermodynamics and Statistical Mechanics**

Credits: 3
Presents fundamental principles of thermodynamics, emphasizing mathematical development.
Prerequisite: PHYS 4310 or equivalent and MATH 2210.

**MATH2200 - Calculus I**

Credits: 4  
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**

Credits: 4  
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2210 - Calculus III**

Credits: 4  
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

**Prerequisite:** grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

**MATH2310 - Applied Differential Equations I**

Credits: 3  
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

**Prerequisite:** grade of C or better in MATH 2205.

**Electives**

- Students are required to take at least 3 hours of electives from any PHYS 4000 or 5000 level course.

**Additional Requirements**
Course sequencing may need to be altered if ACT, SAT or Math Placement scores require a student to take pre-college courses before taking required math or English courses. Not all courses are offered every semester and some electives may have prerequisites. Students should review course descriptions and consult with their academic advisor to plan accordingly.

A major requires 42 hours of upper division (3000 level or above) coursework, 30 of which must be from the University of Wyoming.

Students must have a minimum cumulative GPA of 2.0 to graduate. Courses must be taken for a letter grade unless offered only for S/U.

University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

For declared physics majors, the prerequisite of MATH 2200 is waived and concurrent enrollment is approved.

For declared physics majors, the prerequisite of MATH 2205 is waived and concurrent enrollment is approved.

If intending to apply to graduate school, students should take the physics GRE by fall semester of the senior year.

Students with specific additional interests (e.g. pre-med or another pre-professional program) may wish to move their V/H/C2 courses to alternate semesters so as to take the necessary required courses (e.g. LIFE 1010, MOLB 3000 etc.)

### Physics, B.S.

The Bachelor of Science in Physics program is intended for students who will pursue a career or a graduate degree in physics or related fields.

### University Studies Program Requirements

The University Studies Program 2015

#### FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

#### COM1 - Communication 1
Credits: 3  
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3  
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q- - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**
Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**A&S College Core**

The **BS in Physics** requires the **A&S Core**:

- **D** - Diversity (3 credits)
- **G** - Global (3 credits)
- At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).
- No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation.

See below for more information:

- [http://www.uwyo.edu/as/current-students/index.html](http://www.uwyo.edu/as/current-students/index.html)

**Requirement for Major in Physics**

**PHYS1210 - Engineering Physics I**

Credits: 4
First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN
**Prerequisite:** a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.
OR
PHYS1310 - College Physics I Credits 4

**PHYS1220 - Engineering Physics II**

Credits: 4
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive
credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN
**Prerequisite:** grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.
OR
PHYS1320 - College Physics II Credits: 4

**PHYS2310 - Physics III: Waves and Optics**

Credits: 4
Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

**Prerequisite:** PHYS 1220 or PHYS 1320 or equivalent.

**PHYS2320 - Physics IV: Modern Physics**

Credits: 3
Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck's Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

**Prerequisite:** PHYS 1220 or PHYS 1320 or equivalent.

**PHYS3000 - Methods of Physics**

Credits: 4
Provides introduction to mathematical methods and modern scientific computational tools used in physics/ astronomy. Topics include introduction to Python or linux operating system and use LabView software to run laboratory apparatus. Course examples will draw upon material in PHYS 1210/PHYS 1220 to help build fluency in the first year physics material.

**Prerequisite:** PHYS 1220.

**PHYS3640 - Modern Electronics and Experimental Techniques**

Credits: 4
Introduce to analog and digital circuits/devices and computer interfacing with laboratory equipment and experiments. Includes computer programming, the analysis of experimental data, and report writing. Apply the skills developed in this class to interface with and control representative instrumentation used in experimental physics laboratories.

**Prerequisite:** PHYS 2320.
**PHYS3650 - Advanced Lab in Modern Physics and Electronics**

Credits: 4  
Presents fundamentals of modern optics, modern and quantum physics, E&M/electronics, and thermodynamics in a project oriented interactive undergraduate laboratory with a focus on professional grade lab report writing that qualifies as WB USP. Students learn professional data handling, error theory, and data analysis.

USP 2015 Code U5C3  
Prerequisite: WA and PHYS 2310 or PHYS 2320.

**PHYS4210 - Classical Mechanics I**

Credits: 3  
First semester of a two-course sequence. Presents classical mechanics at intermediate level. Begins with elementary Newtonian mechanics and builds step by step into analytic mechanics. Includes simple harmonic motion of particles in one, two or three dimensions, gravitation; introduction to rigid-body motion; and introduction to Lagrangian and Hamiltonian Mechanics.

When Offered (Normally offered spring semester)  
Prerequisite: PHYS 2310 or equivalent, MATH 2210 or equivalent.

**PHYS4310 - Quantum Mechanics**

Credits: 3  
Studies fundamental concepts of quantum theory.

When Offered (Normally offered fall semester)  
Prerequisite: PHYS 4 210.

**PHYS4410 - Electricity and Magnetism I**

Credits: 3  
First semester of a two-course sequence. Presents electricity and magnetism on intermediate level, emphasizing fields. Begins with review of vector algebra and calculus and proceeds to discussion of electrostatics, potential theory and steady currents.

When Offered (Normally offered fall semester)  
Prerequisite: PHYS 2310 or equivalent and MATH 2210.

**PHYS4510 - Thermodynamics and Statistical Mechanics**

Credits: 3  
Presents fundamental principles of thermodynamics, emphasizing mathematical development.

Prerequisite: PHYS 4310 or equivalent and MATH 2210.
PHYS4420 - Electricity and Magnetism II

Credits: 3
Follows PHYS 4410 and continues intermediate discussion of electricity and magnetism. Covers magnetostatics, magnetoquasistatics, alternating currents, electromagnetic waves, transmission lines and antennae.

When Offered (Normally offered spring semester)
Prerequisite: PHYS 4410.

PHYS4830 - Mathematical and Computational Physics I

Credits: 3
First semester of a two-semester sequence. Provides a comprehensive overview of mathematical physics and numerous analytical mathematical techniques applied to physics problems. Topics include: numerical computations and visualizations, differential and integral vector analysis, linear algebra, infinite series, complex variables, partial differential equations, ordinary differential equations, integral transforms and equations, and calculus of variations.

Prerequisite: PHYS 2310 or PHYS 2320 and MATH 2210, MATH 2250, MATH 2310.

PHYS4840 - Mathematical and Computational Physics II

Credits: 4
Second semester of a two-semester course. Provides a comprehensive overview of computational physics and provides numerous numerical techniques applied to physics problems. Topics include: numerical computations and visualizations, numerical solutions of ordinary differential equations, linear systems, curve fitting, discrete Fourier transforms, partial differential equations, integration, and Monte Carlo simulations of general stochastic systems. A weekly lab session will be held.

Prerequisite: MATH 2210, PHYS 2320 and PHYS 3000.

MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.
USP 2015 Code U5Q

**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2210 - Calculus III**

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

**Prerequisite:** grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

**MATH2250 - Elementary Linear Algebra**

Credits: 3
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

**Prerequisite:** grade of C or better in MATH 2200 or MATH 2350.

**MATH2310 - Applied Differential Equations I**

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

**Prerequisite:** grade of C or better in MATH 2205.

**Electives**

Students are required to take at least 3 hours of electives from any PHYS 4000 or 5000 level course.

**Additional Requirements**

Course sequencing may need to be altered if ACT, SAT or Math Placement scores require a student to take pre-college courses before taking required math or English courses. Not all courses are offered every semester and some electives may have prerequisites. Students should review course descriptions and consult with their academic advisor to plan accordingly.

A major requires 42 hours of upper division (3000 level or above) coursework, 30 of which must be from the University of Wyoming.

Students must have a minimum cumulative GPA of 2.0 to graduate. Courses must be taken for a letter grade unless offered only for S/U.
University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

For declared physics majors, the prerequisite of MATH 2200 is waived and concurrent enrollment is approved.

For declared physics majors, the prerequisite of MATH 2205 is waived and concurrent enrollment is approved.

If intending to apply to graduate school, students should take the physics GRE by fall semester of the senior year.

Students with specific additional interests (e.g. pre-med or another pre-professional program) may wish to move their V/H/C2 courses to alternate semesters so as to take the necessary required courses (e.g. LIFE 1010, MOLB 3000 etc.)

Minor

Astronomy Minor

Complete

**PHYS1210 - Engineering Physics I**

Credits: 4
First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied.

Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN

**Prerequisite:** a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

**OR**

**PHYS1310 - College Physics I**

Credits: 4
First course of two semester sequence. Provides thorough introduction to physics with calculus. Primarily for majors in physics, astronomy, and other areas in science, mathematics and technology requiring the highest levels of sophistication. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1310 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1210.

USP 2003-2014 Code U3SP

**Prerequisite:** MATH 2200 and concurrent enrollment in MATH 2205.

**PHYS1220 - Engineering Physics II**
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

**Prerequisite:** grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

**OR**

**PHYS1320 - College Physics II**

Follows PHYS 1310 and continues introduction to physics with calculus. Includes electricity, magnetism and thermodynamics. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1320 cannot receive credit for PHYS 1050, PHYS 1120 or PHYS 1220.

**Prerequisite:** MATH 2200, 2205 and concurrent enrollment in MATH 2210.

**PHYS2310 - Physics III: Waves and Optics**

Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

**Prerequisite:** PHYS 1220 or PHYS 1320 or equivalent.

**PHYS2320 - Physics IV: Modern Physics**

Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck's Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

**Prerequisite:** PHYS 1220 or PHYS 1320 or equivalent.

**ASTR2310 - General Astronomy I**

Covers the history of astronomy, orbital mechanics, solar system (the Sun, planetary interiors, atmospheres, moons, comets, meteors); interaction of radiation and matter (physical processes in gas, black body radiation) astronomical instrumentation and detectors. Laboratory includes exercises in observational astronomy. Observing sessions are scheduled after dark and held when weather permits.
When Offered  (Normally offered spring semester)
USP 2003-2014 Code PN
**Prerequisite:** PHYS 1210 or PHYS 1310, MATH 2200.

**ASTR2320 - General Astronomy II**

Credits: 4
Covers the properties of stars, stellar atmospheres and stellar evolution, interstellar matter, galaxies and cosmology including models of the universe, the Big Bang, and dark energy. Laboratory includes exercises in observational astronomy. Observing sessions are scheduled after dark and held when weather permits.

USP 2003-2014 Code PN
**Prerequisite:** PHYS 1210 or PHYS 1310, MATH 2200.

**Additional Requirements**

Students minoring in Astronomy gain exposure to the principles of astronomy, physics, and mathematics. They learn to think critically and evaluate, interpret, and solve problems related to astronomical, as well as other technical and general scientific topics

**Physics Minor**

A minor in physics appeals to students who have an interest in physics but intend to pursue a degree in some other field.

**Complete**

**PHYS1210 - Engineering Physics I**

Credits: 4
First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN
**Prerequisite:** a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

**OR**

**PHYS1310 - College Physics I**

Credits: 4
First course of two semester sequence. Provides thorough introduction to physics with calculus. Primarily for majors in physics, astronomy, and other areas in science, mathematics and technology requiring the highest levels of sophistication. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1310 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1210.
**PHYS1220 - Engineering Physics II**

Credits: 4  
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

**PHYS1320 - College Physics II**

Credits: 4  
Follows PHYS 1310 and continues introduction to physics with calculus. Includes electricity, magnetism and thermodynamics. Laboratory sessions illustrate principles studied and meaning of physical measurement. Students receiving credit for PHYS 1320 cannot receive credit for PHYS 1050, PHYS 1120 or PHYS 1220.

**PHYS2310 - Physics III: Waves and Optics**

Credits: 4  
Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

**PHYS2320 - Physics IV: Modern Physics**

Credits: 3  
Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck's Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

At Least Two of the Following:
**PHYS4210 - Classical Mechanics I**

Credits: 3  
First semester of a two-course sequence. Presents classical mechanics at intermediate level. Begins with elementary Newtonian mechanics and builds step by step into analytic mechanics. Includes simple harmonic motion of particles in one, two or three dimensions, gravitation; introduction to rigid-body motion; and introduction to Lagrangian and Hamiltonian Mechanics.

**When Offered** (Normally offered spring semester)  
**Prerequisite:** PHYS 2310 or equivalent, MATH 2210 or equivalent.

**PHYS4310 - Quantum Mechanics**

Credits: 3  
Studies fundamental concepts of quantum theory.

**When Offered** (Normally offered fall semester)  
**Prerequisite:** PHYS 4210.

**PHYS4410 - Electricity and Magnetism I**

Credits: 3  
First semester of a two-course sequence. Presents electricity and magnetism on intermediate level, emphasizing fields. Begins with review of vector algebra and calculus and proceeds to discussion of electrostatics, potential theory and steady currents.

**When Offered** (Normally offered fall semester)  
**Prerequisite:** PHYS 2310 or equivalent and MATH 2210.

**PHYS4510 - Thermodynamics and Statistical Mechanics**

Credits: 3  
Presents fundamental principles of thermodynamics, emphasizing mathematical development.

**Prerequisite:** PHYS 4310 or equivalent and MATH 2210.

**Additional Requirements**

The physics minor provides students with the fundamental concepts of physics beyond the introductory level. Through rigorous hands-on experience, students deepen their understanding of foundational concepts and develop their quantitative skills.

**Graduate**

**Physics, M.S.**
Thesis planning, development, and production guided by the committee chair and graduate committee.

The University of Wyoming Master of Science in Physics program prepares students for a wide range of exciting physics-related careers

Requirements

Plan A (Thesis)

- 26 hours of graduate coursework, 20 of which must be in PHYS/ASTR at the 5000-level
- 4 hours of PHYS 5960

Plan B (Non-Thesis)

- 30 hours of graduate coursework, 24 of which must be in PHYS/ASTR at the 5000-level

Physics, M.S.T.

The Master of Science in Teaching is designed for graduate students preparing to teach in secondary schools or in community colleges. It includes a small, carefully designed component in psychology and education as well as a supervised teaching experience. This program will require a thesis project based on experience in the classroom.

Thesis planning, development, and production guided by the committee chair and graduate committee.

Requirements

Plan A (Thesis)

- 18 hours from PHYS/ASTR at the 5000-level
- 12 hours from PSYC or the College of Education at the 4000- or 5000-level

Additional Requirements

The Master of Science in Physics with emphasis in Teaching is designed for graduate students preparing to teach in private secondary schools or in community colleges. It includes a small, carefully designed component in psychology and education, and includes experience as a teaching assistant. Students interested in this program should contact the current advisor, Prof. Tim Slater.

Physics, Ph.D.

During the first two years, students normally take physics and astronomy courses while working with faculty members on one or more research projects. Course work consists of several required courses plus a number of elective courses. Students participate in weekly research seminars and journal clubs to learn about a broad range of current research. By the third year, Ph.D. students begin research work in the area of their dissertation.

Ph.D. candidates demonstrate their competency in basic undergraduate physics and in required graduate courses through a written examination. After passing the written exam, students will take an oral preliminary exam based on a
research project they have completed during the first two years. At the completion of the Ph.D. dissertation, a candidate makes a public presentation of his or her work and the committee conducts a final examination to award the degree.

Requirements

- 42 hours of graduate coursework
- 30 hours of PHYS 5980 or PHYS 5860. Dissertation planning, development, and production guided by the committee chair and graduate committee.

Tracks:

- Physics, Physics Track, Ph.D.
- Physics, Astronomy Track, Ph.D.

Additional Requirements

The Physics PhD program educates students to become scholars and researchers in physics. Our graduates are trained to teach and to carry out original research that is theoretical, experimental, computational, or a blend of these approaches.

School of Politics, Public Affairs, and International Studies

207-208 Arts and Sciences Building,  
(307) 766-6484

Lilia Soto, American studies and latina/o studies
Jim Thurman, international studies, political science - Central Wyoming College

International Studies

Undergraduate Learning Outcomes

**Goal 1.** Students graduating with a BA in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective.

**Goal 2.** Students graduating with a BA in international studies will have the capability to critically read, write about, discuss, and engage in scholarly inquiry related to international processes and issues.

**Goal 3.** Students graduating with a BA in international studies will have a minimal level of fluency in a second language and are expected to experience a foreign locale in which to use the second language skills.

**Goal 4.** Students will be made aware of career and post-graduate opportunities suitable for an international studies major.

Graduate Learning Outcomes

All students who graduate with a Master's degree in international studies will be able to:

- Engage in independent empirical inquiry that makes an original contribution to the field of study;
- Think critically and reason logically about a problem and the ways it can be answered;
- Employ the best recognized methods appropriate to their research;
• Effectively develop alternative explanations, use theories and concepts to guide the research project, and conduct the work in such a way that disproof is possible; and
• Present their work intelligently, with both written and oral capability at a level of professional expectations. They will have a broad understanding of:
  • International affairs;
  • The diversity of national cultures and social structures;
  • Political and economic systems;
  • Major global trends and problems

**International Studies Major**

Students graduating with a degree in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective. uwyo.edu/sppais.

**Core Courses**

Students take 9 hours of core coursework. INST 2350 (Introduction to Global Studies) and INST 2310 (Introduction to International Relations) provide the theoretical framework for the global and regional tracks. INST 4950 (Capstone) provides the culminating experience for students completing the B.A. degree in international studies and fulfills the COM3 writing requirement for the University Studies Program.

**Area of Focus**

Students will complete a minimum of 18 hours of coursework in two specific areas of focus, choosing a global and regional track. Students must complete a minimum of 9 hours in each track.

*Global Tracks* - Governance and Conflict Resolution; Economic Systems; Culture and Social Issues; Sustainable Development and the Environment

*Regional Tracks* - Africa and the Middle East; Asia, Europe and the Former Soviet Union; Latin America

Global and regional tracks have suggested Gateway courses. Most Gateway courses fulfill University Studies requirements. All INST students are required to take the Regional Gateway course in their chosen region, either: INST 2230 (Introduction to Asian Studies), INST 2240 (Introduction to African Studies), INST 2250 (Introduction to Latin American Studies), or INST 2280 (Introduction to European Studies)/POLS 2200 (Politics of Europe and the EU). These courses fulfill the COM2 requirement for University Studies Program and counts towards the 9 hours required for the Regional Track.

**Foreign Language**

Students must complete a four semester sequence in a single foreign language or show an equivalent level of proficiency. Language courses must be conversational language courses. American Sign Language is not considered a foreign language.
Electives

Students must take 9 hours of elective courses from the international studies curriculum, 6 of which must be upper division. The following Gateway courses can count for the elective requirement: ANTH 1200, ECON 1000, INST 1060 or GEOG 1000, INST/ POLS 1200, INST 1330.

All required courses for the major must be passed with a grade of C or better. There are numerous special topics courses offered during the academic year and these courses can fulfill the international studies requirements with approval from your adviser. Students are encouraged to satisfy the USP Q (quantitative reasoning) requirement by taking STAT 2070, Introductory Statistics for Social Sciences.

International Study Abroad and Internship Opportunities

All International Studies majors are strongly encouraged to consider taking part in a semester long study abroad program or a shorter-term faculty-led international fieldwork or study abroad courses taught by UW faculty (typically offered during the Summer and Winter breaks) as a way to earn course credit towards their International Studies degree. In addition, International Studies majors are also encouraged to consider participating in paid or unpaid international internship opportunities as a way of earning additional academic credit towards their International Studies degree. For more information on international study abroad exchanges, faculty-led fieldwork courses and internship opportunities, please visit the UW Abroad Office at: uwyo.edu/geo/eda/index.

Global Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

Sustainable Development and the Environment

Suggested Gateway Courses: ENR 1100, ECON 1010, ECON 1020, GEOG 1000, GEOL 1600, SOC 1000

AGEC 4460 - Agriculture and Economic Development

AGEC 4660 - Community Economic Development

ANTH 4310 - Environmental Anthropology

ECON 4700 - Economic Development

ENR 2000 - Environment and Society

GEOG 3030 - Geography and Development

GEOG 3550 - Natural Hazards and Society

GEOG 4420 - Tourism and Recreation

GEOL 3500 - Global Change: A Geological Perspective
GEOL 3600 - Earth and Mineral Resources
GEOL 3650 - Energy: A Geological Perspective
INST/AGEC 3860 - Econ of World Food/Ag
INST 4060 - NGOs, Development, and Culture
INST/SOC 4110 - Sociology of Development
INST/POLS 4255 - Politics of Developing Nations
INST 4475 - Sustainable Development & Environment
INST 4580 - Gender, Global Change and Development
MKT 4590 - Sustainable Business Practices
POLS 4350 - Sustainable Development and Global Policy

**Economic Systems**

Suggested Gateway Courses: ECON 1000, ECON 1010, ECON 1020. NOTE: Some courses from this curriculum require ECON 3020.

AGEC 4460 - Agriculture and Economic Development
AGEC 4660 - Community Economic Development
AGEC 4880 - International Agricultural Trade, Markets and Policy
BUSN 4540 - Global Business Issues
ECON 4700 - Economic Development
ECON 4720 - International Trade
ECON 4740 - International Finance
FIN 4460 - Multinational Finance
INST/BUSN 2000 - Intro to International Business
INST/GEOG 3050 - Economic Geography
INST/AGEC 3860 - Economics of World Food and Development
INST/SOC 4370 - Global Political Economy
INST/MKT 4540 - International Marketing
INST/ECON 4710 - Comparative Systems
MKT 4590 - Sustainable Business Practices
**Culture and Social Issues**

Suggested Gateway Courses: ANTH 1200, SOC 1000

ANTH 4300 - Anthropology of Religion

ANTH 4350 - Medical Anthropology

ANTH 4380 - Visual Anthropology

ART 4650 - International Study in Art

COJO 3190 - Cross-Cultural Communication

GEOG 4570 - Cultural Geography

HIST 4405 - American Encounters to 1850

HIST 4406 - American Encounters from 1850

INST/SOC 3000 - Social Change

INST/ANTH 3420 - Anthropology of Global Issues

INST/HLSC 4100 - Global Public Health

INST/WMST 4155 - Women, War and Health

INST/WMST 4175 - Gender, Women and Health

INST/WMST 4240 - Global Sex Work and Trafficking

INST/ANTH 4350 - Culture Change

INST 4590 - Women of India

INST 4650 - Women, Gender and Migration

INST/SOWK 4881 - Intl Social Welfare/Social Dev.

ANTH/MUSC 3015 - Introduction to Music of the World's People

MUSC 4050 - Advanced Studies in World Music

RELI 2225 - History of Christianity

RELI 2255 - Introduction to Judaism

WMST 3500 - Gender and Society

ZOO 4110 - HIV/AIDS

**Governance and Conflict Resolution**

Suggested Gateway Courses: GEOG 1000, POLS 1200, SOC 1000

ANTH 4320 - Political Anthropology
CRMJ 4280 - Comparative Criminal Justice
GEOG 4590 - Geography of Conflicts
INST 3200 - Comparative Political Cultures
INST/WMST 4155 - Women, War, and Health
INST/SOC 4300 - The World System
INST/POLS 4330 - American Foreign Relations
INST/POLS 4340 - International Organizations
INST 4360 - International Peace & Conflict
INST 4375 - Transitional Justice
INST/HIST 4380 - History of Human Rights
INST 4455 - Drug War Geopolitics in the Americas
INST/GEOG 4560 - Global Cities
INST/HIST 4582 - 20th Century Foreign Relations
PHIL 3250 - Global Justice
POLS 3300 - Model United Nations
POLS/GEOG 4013 - Political Geography
POLS 4710 - Emerging Democracies
POLS 4870 - Seminar: International Relations
POLS 4875 - Seminar: Comparative Foreign Policy Analysis
POLS 4890 - Seminar: Comparative Government and Politics

Regional Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

Africa and the Middle East

Gateway Course for this Concentration: INST 2240, Introduction to African Studies
AAST/INST 2240 - Introduction to African Studies
AAST/ANTH/ART 2730 - African Creativity and Ritual
AAST/HIST 3120 - Africa Since 1800
AAST 3130 - Global Impact of African Cultures
AAST 3670 - African Diaspora
ENGL 2190 - African Literature
HIST/RELI 2320 - History of Islam
HIST 3220 - History of the Modern Middle East
HIST/WMST 4335 - Women and Islam
INST 3400 - Politics and Society of Turkey
INST/AAST 4050 - Dev., Africa, and Culture
POLS 3270 - Government and Politics of the Middle East
RELI 2040 - Religions of the Middle East
RELI 2450 - Traditional African Religion

Asia

Note: The Asian Studies minor is different from this concentration.

Gateway Course for this Concentration: INST 2230, Introduction to Asian Studies

HIST 2040 - Imperial China
HIST 2041 - Modern China
HIST 2460 - Traditional Japan
HIST 2461 - Modern Japan
HIST 3400 - Mongol Empire
HIST 4510 - Modern Far East: China, Japan and India
INST 2230 - Introduction to Asian Studies
INST/SOC 3100 - Chinese Society
INST 4200 - China and Globalization
INST 4250 - Economic Development in Asia
INST/SOC 4680 - Shanghai: Past and Present
POLS 4230 - Governments and Politics of Asia
POLS 4240 - Culture, Society, Political Economy in East Asia
RELI 2050 - Religious Landscapes of Asia
RELI 2315 - History of Hinduism
RELI 3340 - Mysticism, Yoga, and Enlightenment in the East
RELI 3344 - Gods, Avatars, Heroes, and Mystics
WMST 4590 - Women of India

Europe and the Former Soviet Union

Note: The European Studies minor is different from this concentration.

Gateway Course for this Concentration: INST 2280, Introduction to European Studies, or INST 2200, Politics of Europe and the European Union
FREN 3110 - Contemporary French Civilization
GERM 3006 - 20th Century German Culture
HIST/RELI 2080 - Holocaust
HIST 2240 - History of Russia from 1855
HIST 3110 - Modern Germany
HIST 4170 - Europe in the 19th Century
HIST 4180 - Europe in the 20th Century
HIST 4270 - France: Old Regime and Revolution
HIST 4280 - France Since 1814
HIST 4290 - History of the Soviet Union
HIST 4310 - World War II in Europe
HIST 4315 - Central Europe and the Holocaust
HIST 4320 - Memory and National Identity
HIST 4330 - European Gender and Women's History
POLS 2200 - Politics of Europe and the European Union
POLS 3220 - Government and Politics of Russia and the FSU
POLS 4220 - European Union
RELI 4150 - Christianity, Jews, and Muslims in Iberia
WMST 4330 - European Gender and Women's History

Latin America

Gateway Course for this Concentration: INST 2250, Introduction to Latin American Studies
A student must complete 36 hours of course work and 16 hours of foreign language.

**Concurrent Major**

A concurrent major is a second major pursued alongside the primary major. The majors can be in one or more colleges. One degree is awarded from the college of the primary major. University Studies requirements need only be satisfied once.

**Dual Degree**

A dual degree is a second degree pursued either in the same college as the first degree or in another college. University Studies requirements need only be satisfied once. Students must meet all the college and major requirements for both majors. Students must complete at least 30 credit hours (minimum 12 upper-division hours) beyond the credit hours required for the degree.
with the smallest number of credit hours required. An academic advisor for each degree is required.

Second Bachelor's Degree

Students pursuing a second bachelor's degree must earn a minimum of 30 additional credit hours from UW, 12 of which must be upper-division. A student must also fulfill all of the college and major requirements, however, University Studies requirements only need to be met once if the first degree is from UW.

Undergraduate Minors

Students can minor in 3 areas by fulfilling one of the following sets of requirements:

International Studies Minor

A minor in international studies requires 12 hours of a single foreign language and 15 hours of international studies curriculum, with a minimum of 9 hours at the 3000-level or above.

Asian Studies Minor

The Asian Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of an Asian region or a single country. The program emphasizes a social science approach to the study of Asian history, politics, society, and culture with options to include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Asia is defined first and foremost as a geographic entity to include Western, Northern, Central, South and East Asian areas. Thus, for example, countries such as modern Turkey and areas such as the 'Middle East' can rightly be included in 'Asia' alongside areas more traditionally understood as part of Asia such as China and India.

Asian Studies Minor Course Requirements (18 credits)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 Credit Hours)

All Asian Studies Minor students must complete one of two required Gateway courses, either INST 2230 - Introduction to Asian Studies (G/COM2) or POLS 3270 - Government and Politics of the Middle East, depending on their primary area of interest within Asia.

Asian Studies Area Courses (15 Credit Hours)

Asian Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved Asian Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition to the
approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Asian Studies Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to review the International Studies Newsletter each semester to see what Asian Studies Area courses are currently being offered.

**Approved Asian Studies Area Courses**

- ART 2720 - Introduction to the Art and Culture of Islam
- ART 4650 - International Study in Art (Turkey/India)
- CHIN 1101 - Taste of China
- CHIN 2041 - Contemporary and Traditional Chinese Culture
- CHIN 3160 - See Movies, Touch China
- ENR 3300 - Environmental Policy, Conservation and Development in India
- HIST 2040 - Imperial China
- HIST 2041 - Modern China
- HIST/RELI 2320 - History of Islam
- HIST 2460 - Traditional Japan
- HIST 2461 - Modern Japan
- HIST 2470 - Civilization of India
- HIST 3210 - The Islamic World in the Premodern Era
- HIST 3220 - History of the Modern Middle East
- HIST 3400 - Mongol Empire
- HIST/WMST 4335 - Women and Islam
- HIST 4520 - Modern Far East: China, Japan and India
- INST 2230 - Introduction to Asian Studies
- INST/SOC 3100 - Chinese Society
- INST 3400 - Politics and Society of Turkey
- INST 4200 - China and Globalization
- INST 4250 - East Asia Society and Economy
- INST 4560 - Global Cities
- INST/WMST 4590 - Women of India
- INST 4680 - Shanghai: Past and Present
LANG 2150 - History and Culture of Manga
LANG 3105 - Survey of Japanese Literature
LANG 3140 - History and Culture of Anime
LANG 4800 - Japanese Film
POLS 3270 - Government and Politics of the Middle East
POLS 4230 - Governments and Politics of Asia
RELI 2040 - Religions of the Middle East
RELI 2050 - Religious Landscapes of Asia
RELI 2315 - History of NonWestern Religions
RELI/PHIL 3320 - Eastern Thought
RELI 3340 - Mysticism, Yoga, and Enlightenment
RELI 3344 - Gods, Avatars, Heroes, and Mystics
SOC 3050 - Japanese Society

**Optional Asian Study Abroad Component**

Asian Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Asia to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards fulfillment of the Asian Studies Area Course requirement on the approval of the student's designated minor advisor. Optional Asian Foreign Language Component Asian Studies Minor students are also strongly encouraged to learn an Asian foreign language as part of their progression towards completion of the Minor. Accordingly, up to eight (8) lower-division (1000-2000) credit hours of an Asian foreign language may be counted towards fulfillment of the Asian Studies Area Course requirement. 'Asian' languages at UW include Japanese, Chinese and Arabic. However, Asian Studies Minor, students need not necessarily be limited to the three languages currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be fulfilled by other Asian language instruction at UW, other relevant in-country summer intensive programs, or language-focused study abroad programs.

**European Studies Minor**

The European Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of a European region or a single country. The program emphasizes a social science approach to the study of modern European history, politics, society, and
culture with options to include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Europe is defined first and foremost as a geographic entity running from the Atlantic to the Urals and from Scandinavia to the Mediterranean and the Caucasus Mountains. Courses that transcend these boundaries should include the study of Europe in a prominent way to count toward the minor.

European Studies Minor Course Requirements (18 credits)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 credit hours)

All European Studies Minor students must complete one of two required Gateway courses, either INST 2280 - Introduction to European Studies (COM2) or POLS 2200 - Politics of Europe and the European Union (COM2).

European Studies Area Courses (15 credit hours)

European Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved European Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition to the approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to review the International Studies Newsletter each semester to see what European Studies Area courses are currently being offered.

**Optional European Study Abroad Component**

European Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Europe to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards fulfillment of the European Studies Area Course requirement on the approval of the student's designated minor advisor.

**Optional European Foreign Language Component**

European Studies Minor students are also strongly encouraged to learn an European foreign language (other than English) as part of their progression towards completion of the Minor. Accordingly, up to eight (8) lower division (1000-2000) credit hours of an European
foreign language may be counted towards fulfillment of the European Studies Area Course requirement. ‘European’
languages at UW include French, German, and Spanish. However, European Studies Minor students need not
necessarily be limited to the three languages
currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours
may be fulfilled by other European language instruction at UW, other relevant in-country summer intensive programs,
or language-focused study abroad

programs. All required courses for the major must be passed with a grade of C or better. A course cannot
simultaneously fulfill more than one major requirement.

**Graduate Study**

Students take the Plan A (thesis). Students must have a minimum of 26 hours of graded non-thesis coursework and 4
hours of thesis.

**Program Specific Admission Requirements**

Admission is open to all students holding a bachelor's degree in any major. Foreign students, who are non-native
English speakers, must pass the Oral Proficiency Interview (OPI).

**Program Specific Degree Requirements**

Students must meet three requirements: 1) Each student must take INST 5400. 2) Each student must take INST 5200. 3) Each student must demonstrate proficiency in a foreign language, accomplished in the course of the program or from
previous experience or
coursework. Foreign language hours do not count toward the M.A. degree. The program also offers a joint International
Studies/Environment and Natural Resources degree. See [www.uwyo.edu/sppais](http://www.uwyo.edu/sppais) for specific degree requirements.

**Plan A (thesis)**

Students are encouraged to construct, with the adviser's approval, a program that focuses their own intellectual interests
and career plans. To promote that end, students should be prepared to file a plan of study with the graduate adviser
during the second semester of
coursework. No later than the second semester in residence, each student shall select a graduate committee to oversee
his or her academic work. The committee will be chaired by the student's major professor and must have at least one
member from outside of The

School of Politics, Public Affairs, and International Studies. Students also will prepare a thesis proposal and give a
presentation of their preliminary project before the International Studies faculty and complete a thesis prospectus
defense with their graduate committee by

the end of their second semester. Students must pass an oral examination at the completion of their program. Normally,
examination will center on the thesis, but may also encompass coursework of the candidate.

**Required Coursework**

**Advanced Theory Course**
Graduate Minor in International Studies

A graduate minor in international studies provides students in graduate programs other than international studies with the opportunity to acquire a basic graduate-level familiarity with international relations, global processes and cultural diversity around the world. Students acquire a foundation in intergovernmental relations and research methodology. Beyond this, students work closely with a graduate director to fashion a program of study appropriate for their interests and post-graduate plans. The minor complements several other graduate degree programs.

Prerequisites for Admission

Declaration of an international studies minor is contingent on admission to a master's or doctoral degree program. Application is in the form of a letter of interest to the director of the program, including the background, anticipated course of study, and reason for seeking the minor. An interview with the director is also required. All prerequisites for entering the graduate program in international studies as a major apply to the minor with the exception of proficiency in a second language. Students must be prepared for coursework in international studies at the graduate level and be willing to take prerequisite courses if necessary.

Course and Committee Requirements

Graduate students minoring in international studies must satisfy the requirements of their graduate major and take twelve credits of guided graduate coursework in international studies. With the approval of the department of the graduate major, these twelve hours may also count toward the major. Students are required to take at least one advanced theory course (INST 5200) and one advanced research methods course. All courses will be determined in consultation with the program director.

Political Science

Political Science is the study of how societies govern themselves and interact with one another. Courses of instruction in the Political Science major are offered in the following subfields: American politics, comparative government, international relations, political philosophy, public law, and public administration. Areas of focus include analysis of government structures and processes, citizens' influence on government, policy content, philosophical concepts and traditions, political systems of other states, and resolution of conflicts between nations. By developing critical thinking
and analytical skills, the major prepares students for effective participation in the political process, successful careers in the public and private sectors, and further study in law, political science, and public administration.

In 1925, the state legislature passed a law requiring the study of the U.S. and Wyoming constitutions by all University of Wyoming students. Political Science 1000 satisfies this requirement, but the requirement can also be satisfied by special examination given periodically by the School of Politics, Public Affairs, and International Studies.

**Learning Outcomes**

We continuously and actively assess the Political Science undergraduate curriculum to ensure that the following learning outcomes are being met for each of our graduates:

1. Acquisition of a knowledge and understanding of the values, beliefs, and institutions that constitute governing processes;
2. Acquisition of an understanding of the distinctions among the major subfields of the discipline including: American politics and law; international relations; comparative politics; and political theory;
3. Development of a knowledge and understanding of citizens' roles within governing processes;
4. Acquisition of a knowledge of the theories and analytic skills necessary to evaluate conflicting arguments, assemble and present appropriate evidence, and make reasoned conclusions from the evidence available;
5. The ability to communicate effectively, both orally and in written form.

**Undergraduate Major**

In addition to the university and college requirements listed elsewhere in this bulletin, a major in political science requires 33 department hours. Students are required to complete the following four introductory courses: POLS 1000; POLS 1200 or POLS 1250; POLS 2310; and POLS 2460 or POLS 3600. Students are also required to take at least one seminar in political science (and its prerequisites); 8 hours of a single foreign language or equivalent credit by examination as determined by the Department of Modern and Classical Languages; STAT 2050 or STAT 2070; and a minimum of 9 hours of upper division credit in political science. A maximum of 6 hours of internship credit may be applied toward the 33 hours required for the political science major. Only those political science courses in which a grade of C or better has been earned may be used to satisfy departmental requirements.

Most university studies courses and lower division political science courses should be completed prior to the junior year. Additional information about the political science major may be obtained from the School of Politics, Public Affairs, and International Studies: www.uwyo.edu/sppais.

**5 Year B.A./M.A. Program in Political Science**

The Political Science 5 Year B.A./M.A. Program offers highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor's degree (whether B.A. or B.S.) and thereby earn a graduate degree more efficiently. Political science majors with a cumulative major GPA of 3.5 or higher may be invited to apply at the outset of the second semester of the junior year. Interested students will submit an application and 2 letters of recommendation, at least one from a political science faculty to be reviewed, along with unofficial, current UW transcripts, by the M.A. Director and Committee. Upon provisional acceptance into the program in the junior year, students will be required to take the GRE. GRE scores will be considered for full and final acceptance to the M.A. program, which will be made once the student has completed the bachelor's degree.
Provisional acceptance to the 5 Year B.A./M.A. program in Political Science will allow students to apply up to six credit hours of 5000-level courses toward both the B.A./B.S. and M.A. degree programs. To earn graduate level credit, students must achieve at least a 3.000 in the course. By successfully completing up to six credit hours of graduate coursework during their senior year, these students will have demonstrated their ability to do graduate level coursework as undergraduates, easing their transition into the Master's Program in Political Science. Interested students may reserve up to six additional credits for graduate study that do not apply to the undergraduate degree by securing appropriate approvals as explained in the Registrar's "Request to Reserve Coursework for Graduate Credit" prior to taking the coursework. Students will be granted the BA/BS upon completion of the credit hours required for the undergraduate degree in political science. Students must complete the BA/BS before formally entering the MA program. To remain in good standing in the program, students must maintain a cumulative and departmental GPA of 3.200 and earn at least a 3.000 in all 5000-level courses. Failure to meet the GPA requirements places a student on probation for one semester. If the GPA requirement is not met after that semester, the student will be suspended from the program. Students in the program are encouraged to take the Plan B option. Please see the Graduate Study section to find the degree requirements of the M.A. in Political Science.

**Undergraduate Minors**

The school offers optional undergraduate minors in American politics, international relations and comparative government, public law, and political theory. Eighteen hours are required in each minor, including 9 hours of upper-division courses and one seminar. A maximum of 3 hours of internship credit may be applied towards the 18 hours required for the political science minor. At least 12 credit hours in a minor must be from courses not counted toward the student's major. Information relating to specific courses fulfilling minor requirements may be obtained from the School of Politics, Public Affairs, and International Studies: www.uwyo.edu/sppais.

**American Politics Minor**

A minor in American Politics requires POLS 1000 - American and Wyoming Government, either POLS 4850 - Seminar in American Political Institutions or POLS 4840 - Seminar in Public Law, and 12 hours from an approved list of courses, with a minimum of 9 hours at the 3000-level or above.

**Approved American Politics Minor courses:**

POLS 2000 - Current Issues in American Government  
POLS 2070 - Politics of State & Local Government  
POLS 2410 - Introduction to Public Administration  
POLS 2430 - Parties, Interest Groups, & Elections  
POLS 2450 - Politics & Media  
POLS 2490 - Topics in ______ (dept. approval required) (Max. 6)  
POLS 3100 - Politics and the Judicial Process  
POLS 3520 - Voting & Participation in America  
POLS 3550 - Political Communication  
POLS 3600 - American Political Thought  
POLS 4051 - Environmental Politics  
POLS 4052 - Federal Land Politics  
POLS 4100 - Constitutional Law: Institutional Powers  
POLS 4110 - Constitutional Law: Civil Liberties & Civil Rights  
POLS 4330 - American Foreign Relations  
POLS 4420 - Seminar in Public Administration (Max. 6)  
POLS 4430 - U.S. Presidency
POLS 4435 - Presidential Elections
POLS 4520 - Public Opinion
POLS 4530 - U.S. Congress
POLS 4550 - Internship in Government (dept. approval required)(1-6)
POLS 4560 - Washington Semester Program (Max. 6)
POLS 4710 - Topics in ______ (dept. approval required)(Max. 9)
POLS 4720 - Workshop in Practical Politics (Max. 6)
POLS 4840 - Seminar in Public Law (Max. 6)
POLS 4850 - Seminar in American Politics and Institutions (Max. 6)

International Relations and Comparative Politics Minor

A minor in International Relations and Comparative Politics requires POLS 2310 - Introduction to International Relations, either POLS 1200 - Non-Western Political Cultures or POLS 1250 - Introduction to Comparative Politics, either POLS 4870 - Seminar in International Relations or POLS 4890 - Introduction to Comparative Government and Politics, and 9 hours from an approved list of courses, with a minimum of 6 hours at the 3000-level or above.

Approved International Relations and Comparative Politics Minor courses

POLS 2200 - Politics of Europe and the European Union
POLS 2290 - Government & Politics of Latin America
POLS 2490 - Topics in ______ (dept. approval required) (Max. 6)
POLS 3200 - Comparative Political Cultures
POLS 3220 - Government & Politics of Russia and FSU
POLS 3270 - Government & Politics of the Middle East
POLS 3300 - Model United Nations (Max. 6)
POLS 4013 - Political Geography
POLS 4215 - European Union
POLS 4230 - Government & Politics of Asia
POLS 4255 - Politics of Developing Nations
POLS 4260 - Democratization & Regime Change
POLS 4290 - Inter-American Relations
POLS 4330 - American Foreign Relations
POLS 4340 - International Organizations
POLS 4350 - Sustainable Development & Global Policy
POLS 4360 - International Peace & Conflict
POLS 4375 - Transitional Justice
POLS 4445 - Drug War Geopolitics in the Americas
POLS 4475 - Politics of Natural Resources in Latin America
POLS 4600 - Political Violence
POLS 4710 - Topics in ______ (dept. approval required)(Max. 6)
POLS 4870 - Seminar in International Relations (Max. 6)
POLS 4890 - Seminar in Comparative Government and Politics (Max. 6)

Political Theory Minor

A minor in Political Theory offers an opportunity for interdisciplinary study. Required are POLS 2460 - Introduction to Political Theory, POLS 3600 - American Political Thought, POLS 4810 - Seminar in Political Theory, and 9 hours
from an approved list of courses in political science and other disciplines, with a minimum of 6 hours at the 3000-level or above.

### Approved Political Theory Minor courses

POLS 2330 - Environmental Ethics  
POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)  
POLS 3050 - Athenian Democracy  
POLS 3610 - Classics in Environmental Thought  
POLS 3620 - Environmental Justice  
POLS 4090 - Anglo-American Jurisprudence  
POLS 4160 - Legal Philosophy  
POLS 4640 - Political Philosophy: Ancient & Medieval  
POLS 4650 - Political Philosophy: Modern  
POLS 4660 - Political Philosophy: Contemporary  
POLS 4710 - Topics in _____ (dept. approval required) (Max. 6)  
PHIL 2200 - Social & Political Philosophy (Max. 6)  
SOC 3900 - Social Theory

### Public Law Minor

A minor in Public Law offers an opportunity for interdisciplinary study. Required are POLS 4100 - Constitutional Law: Institutional Powers, POLS 4110 - Constitutional Law: Civil Liberties & Rights, POLS 4840 - Seminar in Public Law, and 9 hours from an approved list of courses in political science and other disciplines, with a minimum of 3 hours at the 3000-level or above.

### Approved Public Law Minor courses

POLS 2490 - Topics in _____ (dept. approval required) (Max. 6)  
POLS 3100 - Politics and the Judicial Process  
POLS 4090 - Anglo-American Jurisprudence  
POLS 4160 - Legal Philosophy  
POLS 4710 - Topics in _____ (dept. approval required) (Max. 6)  
AGEC 3400 - Agricultural Law  
COJO 4500 - Mass Communication Law  
CRMJ 2210 - Criminal Law  
CRMJ 3110 - Criminal Courts & Processes  
CRMJ 4140 - Criminal Legal Procedure  
CRMJ 4350 / SOC 4350 - Sociology of Law  
CRMJ 4540 / WMST 4540 - Women, Crime, and Law  
CRMJ 4730 / PSYC 4730 - Psychology and Law  
HIST 4515 - American Legal History  
MGT 1040 - Legal Environment of Business

### Teacher Education

The teacher certification program in Secondary Social Studies Education, with a concurrent major in Political Science is available through the College of Education. A minimum 2.500 UW grade point average and a 2.500 grade point
average in Political Science and Social Studies content are required to change majors. Further information may be found under the College of Education section in this Catalog.

**Major or Minor in Environment and Natural Resources**

The Haub School of Environment and Natural Resources (ENR) offers a second major or minor for students interested in interdisciplinary training in the policy, legal, economic, scientific, ethical, and other perspectives associated with ENR challenges. The Haub School uses problem-based learning and interdisciplinary team teaching. Students of all disciplines are welcome to take classes in ENR or add ENR to their degree program. Contact the Haub School at (307) 766-5080, haub.school@uwyo.edu, or www.uwyo.edu/haub.

**Graduate Study**

The master of arts and the master of public administration are offered by the School of Politics, Public Affairs, and International Studies. The school's mission is to give graduate students an understanding of the theories and methods necessary for success in (1) research or in post-baccalaureate study in any of the subfields in political science, (2) high school teaching in social science, or (3) careers in policy analysis or public administration in local, state, or federal government, or international governmental, non-profit, or non-governmental organizations. Our graduate students have progressed to senior positions in government, the U.S. Foreign Service, and international organizations; they have pursued rewarding careers in education and the private sector; and they have advanced to Ph.D. programs in political science and related fields.

**Program Specific Admission Requirements**

**Master of Arts in Political Science**

Admission is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.0 GPA. Foreign students, who are non-native English speakers, must pass the Oral Proficiency Interview (OPI).

**Master of Public Administration (M.P.A.)**

Admission is competitive and is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.00 GPA, 2 letters of recommendation, a letter of intent, and a short analytic writing sample. Foreign students, who are non-native English speakers, must also pass the Oral Proficiency Interview (OPI). Only one class, POLS 5000, may be taken prior to full admission into the program with permission of the MPA director.

**Program Specific Degree Requirements**

**Master's Programs**

**Master of Arts in Political Science, Plan A (thesis)**

At least 30 hours of graduate credit, to include:
POLS 5510. Public Policy and Program Management.
POLS 5680. Research Methods for Political Science.
POLS 5684. Empirical Analysis for Public Administration.
POLS 5810. Seminar in Political Philosophy.
At least 6 additional hours of coursework in political science.
A maximum of 9 hours of coursework in disciplines other than political science.
A minimum of 4 hours thesis research.
A master's thesis demonstrating independent research, written under the supervision of the major professor.
An oral examination conducted by the graduate committee covering all coursework and the thesis.
No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.
Students must maintain a graduate GPA of 3.000.

Master of Arts in Political Science, Plan B (non-thesis)

At least 30 hours of graduate credit, to include:

POLS 5510. Public Policy and Program Management.
POLS 5680. Research Methods for Political Science.
POLS 5684. Empirical Analysis for Public Administration.
POLS 5810. Seminar in Political Philosophy.
At least 6 additional hours of coursework in political science.
A maximum of 12 hours of coursework in disciplines other than political science.
Plan B paper that reflects the quality but not scope of a master's thesis, written under the supervision of the major professor.
An oral examination conducted by the graduate committee covering all coursework and the Plan B paper.
No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.
Students must maintain a graduate GPA of 3.000.

Master of Public Administration Plan B (non-thesis)

Thirty-nine hours of graduate credit, to include:

21 hours of core credit,
6 hours of option-core credit,
12 hours of approved elective credit.

Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits. Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/electronic class discussion. Students must maintain a graduate GPA of 3.000.

Master of Public Administration/Juris Doctor

See the M.P.A. Director and/or the College of Law for information. Students must be accepted to both programs.

Major
International Studies, B.A.

Students graduating with a degree in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective. uwyo.edu/sppais.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)
Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Requirements**

All required courses for the major must be passed with a grade of C or better. There are numerous special topics courses offered during the academic year and these courses can fulfill the international studies requirements with approval from your adviser. Students are encouraged to satisfy the USP Q (quantitative reasoning) requirement by taking STAT2070 - Introductory Statistics for the Social Sciences or STAT2050 - Introduction to Statistics.

**Core Courses**

Students take 9 hours of core coursework. INST2350 - Introduction to Global Studies and INST2310 - Introduction to International Relations provide the theoretical framework for the global and regional tracks. INST4950 - Capstone in International Studies (Capstone) provides the culminating experience for students completing the B.A. degree in international studies and fulfills the COM3 writing requirement for the University Studies Program.

**Area of Focus**
Students will complete a minimum of 18 hours of coursework in two specific areas of focus, choosing a global and regional track. Students must complete a minimum of 9 hours in each track.

Global and regional tracks have suggested Gateway courses. Most Gateway courses fulfill University Studies requirements. All INST students are required to take the Regional Gateway course in their chosen region. All INST students are required to take the Regional Gateway course in their chosen region. These courses fulfill the COM2 requirement for the University Studies Program and count towards the 9 hours required for the Regional Track.

**INST2230 - Introduction to Asian Studies**

Credits: 3  
Asia, the world's largest continent, is home to virtually half of humanity and a broad spectrum of peoples, languages, religions, and cultures. This course introduces the cultural, political, economic, and environmental landscapes of this diverse region.

USP 2003-2014 Code U3G  
USP 2015 Code U5C2  
A&S College Core 2015 ASG

**INST2240 - Introduction to African Studies**

Credits: 3  
Confronts African stereotypes by exploring the continent's complex history and current affairs, with the help of different disciplinary perspectives, such as economics, political science, and anthropology. Equipped with the basics, students will be primed to tackle more advanced courses on Africa.

Cross Listed AAST 2240.  
USP 2003-2014 Code U3WB  
USP 2015 Code U5C2

**INST2250 - Introduction to Latin American Studies**

Credits: 3  
An introduction to the culture, history and politics of Latin America, from the US/Mexico border to the Antarctic ice fields of Patagonia. We will consider historical events and encounters from pre-Conquest times to contemporary crises. Our toolkit includes geography, anthropology, history, political economy, literature and cultural studies.

USP 2015 Code U5C2  
OR

**INST2280 - Introduction to European Studies**

Credits: 3  
This class explores the historical development of notions of community and difference, territories and borders, race and identity, and nationalism and post-national integration in Europe between 1789 and the present. It draws upon history, politics, geography, cultural studies, and anthropology.
Cross Listed HIST 2280.  
USP 2015 Code U5C2

OR

POLS2200 - Politics of Europe and the European Union

Credits: 3
Examines formal and informal aspects of politics in European countries and the European Union.

USP 2015 Code U5C2
Prerequisite: POLS 1200 or POLS 1250 or permission of the instructor.

Global Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

- Global Track, Sustainable Development and the Environment
- Global Track, Economic Systems
- Global Track, Culture and Social Issues
- Global Track, Governance and Conflict Resolution

Regional Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

- Regional Tracks, Africa and the Middle East
- Regional Tracks, Asia
- Regional Tracks, Europe and the Former Soviet Union
- Regional Tracks, Latin America

Foreign Language

Students must complete a four semester sequence in a single foreign language or show an equivalent level of proficiency. Language courses must be conversational language courses. American Sign Language is not considered a foreign language.

Electives

Students must take 9 hours of elective courses from the international studies curriculum, 6 of which must be upper division. The following Gateway courses can count for the elective requirement:

ANTH1200 - Introduction to Cultural Anthropology

Credits: 3
Introduction to foreign, especially non-western, cultures through anthropological concepts, films and ethnographies.
ECON1000 - Global Economic Issues

Credits: 3
Economics: creating value through trade, enhancing society through ideas, and protecting the environment by design. This introductory course will help you understand better on how people use both free markets and government regulations to create value, enhance society, and protect nature. You will explore how economic ideas and tools address big global issues like poverty and prosperity, inequality of wealth, capital and labor, sustainable development, free trade vs fair trade, climate change, war and peace, migration, brain drains, and science and nature.

INST1060 - World Regional Geography

Credits: 3
Covers the distributions, traits, and processes of the Earth's peoples and landscapes through the perspective of regional geography, which is the study of the spatial relationships of natural environments and human societies.

Cross Listed Cross listed with: GEOG 1000.

GEOG1000 - World Regional Geography

Credits: 3
Covers the distributions, traits, and processes of the Earth's peoples and landscapes through the perspective of regional geography, which is the study of the spatial relationships of natural environments and human societies.

Cross Listed INST 1060.

INST1200 - Non-Western Political Cultures

Credits: 3
Gives students appreciation of non-western political cultures and how these cultures have created different political institutions and practices. Non-Western nations of Asia, Africa, and the Middle East are used as case studies.
Cross Listed POLS 1200.
USP 2003-2014 Code U3CS, U3G
OR

POLS1200 - Non-Western Political Cultures

Credits: 3
Gives students appreciation of non-western political cultures and how these cultures have created different political institutions and practices. Non-Western nations of Asia, Africa, and the Middle East are used as case studies.

Cross Listed INST 1200.
USP 2003-2014 Code U3CS, U3G
A&S College Core 2015 ASG

INST1330 - World History since 1750

Credits: 3
A history of the world's peoples and societies from 1750 to the present, with an emphasis on the diversity and interconnectedness of human life in the past.

USP 2003-2014 Code U3CS, U3G
A&S College Core 2015 ASG

Political Science B.A.

Political Science is the study of how societies govern themselves and interact with one another. The Political Science major offers the subfields: American politics, comparative government, international relations, political philosophy, public law, and public administration.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q- - Quantitative Reasoning**

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Approved coursework does not include courses taken from the students' major department.
V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Political Science B.A.

POLS1000 - American and Wyoming Government

Credits: 3
Introduction to the Constitutions and governmental processes of the U. S. and Wyoming.

When Offered (Offered each semester)
USP 2003-2014 Code U3V
USP 2015 Code U5V

POLS1200 - Non-Western Political Cultures

Credits: 3
Gives students appreciation of non-western political cultures and how these cultures have created different political institutions and practices. Non-Western nations of Asia, Africa, and the Middle East are used as case studies.

Cross Listed INST 1200.
USP 2003-2014 Code U3CS, U3G
A&S College Core 2015 ASG

Or

POLS1250 - Introduction to Comparative Government

Credits: 3
How do foreign states deal with the numerous challenges to their stability? Do institutions affect a state's approach to solving different problems? How do these different approaches affect policy? This course introduces students to different styles of governance and compare countries from around the world with reference to their political ideology.

Cross Listed INST 1250.
A&S College Core 2015 ASG

POLS2310 - Introduction to International Relations

Credits: 3
Analyzes the nature of international relations, emphasizing various methods of explaining and interpreting the behavior of nation-states. In doing so, the course illustrates the contemporary problems of world politics.

Cross Listed INST 2310.
USP 2003-2014 Code U3G
A&S College Core 2015 ASG

POLS2460 - Introduction to Political Philosophy

Credits: 3
Surveys history of Western political thought including study of concepts and approaches to political philosophy.

When Offered (Offered once a year)

Or

POLS3600 - American Political Thought

Credits: 3
Examines key primary sources and traditions from the founding to present.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2
Prerequisite: POLS 1000 or permission of instructor.

Additional Requirements:

A major in political science requires 33 department hours.

A maximum of 6 hours of internship credit may be applied toward the 33 hours required for the political science major. Only those political science courses in which a grade of C or better has been earned may be used to satisfy departmental requirements.

Most university studies courses and lower division political science courses should be completed prior to the junior year. Additional information about the political science major may be obtained from the School of Politics, Public Affairs, and International Studies: www.uwyo.edu/sppais.

Students are also required to take

- at least one seminar in political science (and its prerequisites)
- 8 hours of a single foreign language or equivalent credit by examination as determined by the Department of Modern and Classical Languages
- STAT2070 - Introductory Statistics for the Social Sciences Credits: 4
- OR

- STAT2050 - Fundamentals of Statistics Credits: 4
- minimum of 9 hours of upper division credit in political science.

Political Science, B.A./M.A.

The Political Science 5 Year B.A./M.A. Program offers highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor's degree (whether B.A. or B.S.) and thereby earn a graduate degree more efficiently. Political science majors with a cumulative major GPA of 3.5 or higher may be invited to apply at the outset of the second semester of the junior year.
Interested students will submit an application and 2 letters of recommendation, at least one from a political science faculty to be reviewed, along with unofficial, current UW transcripts, by the M.A. Director and Committee. Upon provisional acceptance into the program in the junior year, students will be required to take the GRE. GRE scores will be considered for full and final acceptance to the M.A. program, which will be made once the student has completed the bachelor's degree.

Provisional acceptance to the 5 Year B.A./M.A. program in Political Science will allow students to apply up to six credit hours of 5000-level courses toward both the B.A./B.S. and M.A. degree programs. To earn graduate-level credit, students must achieve at least a 3.000 in the course. By successfully completing up to six credit hours of graduate coursework during their senior year, these students will have demonstrated their ability to do graduate-level coursework as undergraduates, easing their transition into the Master's Program in Political Science. Interested students may reserve up to six additional credits for graduate study that do not apply to the undergraduate degree by securing appropriate approvals as explained in the Registrar's "Request to Reserve Coursework for Graduate Credit" prior to taking the coursework.

Students will be granted the BA/BS upon completion of the credit hours required for the undergraduate degree in political science. Students must complete the BA/BS before formally entering the MA program. To remain in good standing in the program, students must maintain a cumulative and departmental GPA of 3.200 and earn at least a 3.000 in all 5000-level courses. Failure to meet the GPA requirements places a student on probation for one semester. If the GPA requirement is not met after that semester, the student will be suspended from the program. Students in the program are encouraged to take the Plan B option. Please see the Graduate Study section to find the degree requirements of the M.A. in Political Science.

**Political Science, B.S.**

Political Science studies how states govern themselves and interact. Subfields include: American politics, comparative government, international relations, political philosophy, public law, and public administration with an emphasis on statistical analysis and quantitative methods.

**Introductory Courses**

Students are required to complete the following four introductory courses:

**POLS1000 - American and Wyoming Government**

Credits: 3
Introduction to the Constitutions and governmental processes of the U.S. and Wyoming.

*When Offered* (Offered each semester)
USP 2003-2014 Code U3V
USP 2015 Code U5V

**POLS1200 - Non-Western Political Cultures**

Credits: 3
Gives students appreciation of non-western political cultures and how these cultures have created different political institutions and practices. Non-Western nations of Asia, Africa, and the Middle East are used as case studies.

*Cross Listed* INST 1200.

Other Requirements

In addition to the university and college requirements listed elsewhere in this bulletin, a major in political science requires 33 department hours.
A maximum of 6 hours of internship credit may be applied toward the 33 hours required for the political science major. Only those political science courses in which a grade of C or better has been earned may be used to satisfy departmental requirements.

Most university studies courses and lower division political science courses should be completed prior to the junior year. Additional information about the political science major may be obtained from the School of Politics, Public Affairs, and International Studies: www.uwyo.edu/sppais.

Students are also required to take

- at least one seminar in political science (and its prerequisites)
- 8 hours of a single foreign language or equivalent credit by examination as determined by the Department of Modern and Classical Languages

**STAT2070 - Introductory Statistics for the Social Sciences**

Credits: 4

Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

**Cross Listed** SOC 2070.

**USP 2003-2014 Code U3Q,U3QB**

**Prerequisite:** grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

**STAT2050 - Fundamentals of Statistics**

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

**USP 2003-2014 Code U3Q,U3QB**

**USP 2015 Code U5Q**

**Prerequisite:** grade of C or better in MATH 1000, MATH 1400, or equivalent.

- minimum of 9 hours of upper division credit in political science.

**Minor**

**American Politics Minor**

The American Politics minor delves into the mechanics of politics in the United States by studying historical and current implications.

**Requirements**
A minor in American Politics requires

**POLS1000 - American and Wyoming Government**

Credits: 3
Introduction to the Constitutions and governmental processes of the U. S. and Wyoming.

*When Offered* (Offered each semester)
USP 2003-2014 Code U3V
USP 2015 Code U5V

**POLS4850 - Seminar in American Politics and Institutions**

Credits: 3
Max Credit (Max. 6)
Includes reading and research on selected U. S. government and politics problems.

*Dual Listed* POLS 5850.
USP 2003-2014 Code U3WC
USP 2015 Code U5C3
**Prerequisite:** 9 hours of political science including POLS 1000 and consent of instructor.

**OR**

**POLS4840 - Seminar in Public Law**

Credits: 3
Max Credit (Max. 6)
Includes reading and research on selected problems in public law.

*Dual Listed* POLS 5840.
USP 2015 Code U5C3
**Prerequisite:** 9 hours of political science or related fields including POLS 1000 and consent of instructor.
- 12 hours from an approved list of courses, with a minimum of 9 hours at the 3000-level or above.

**Approved American Politics Minor Courses**

**POLS2000 - Current Issues in American Government**

Credits: 3
Examines current political topics in the U. S. Focuses on key public policy problems, policy-making process and the final policy choice. Students must keep abreast of political events on daily basis and apply basic concepts in American government to current affairs.

USP 2003-2014 Code U3CS
**Prerequisite:** POLS 1000.
POLS2070 - Politics of State and Local Government

Credits: 3
Studies politics, organizations, structures and processes of American state and local governments.

Prerequisite: POLS 1000.

POLS2410 - Introduction to Public Administration

Credits: 3
Deals with executive branches of governments in the U. S.: national, state and local. Considers organizational, political and policy-making aspects of each. Discusses administration in other forms of government, such as interstate compacts and regional agreements.

Prerequisite: POLS 1000.

POLS2430 - Parties, Interest Groups and Elections

Credits: 3
Studies nature and functions of political organizations in American democracy. Discusses origins and evolution of American parties, causes of interest group development, political socialization, political participation and voting behavior, as well as activities of interest groups within American society and political system. Emphasizes current trends regarding role of parties versus interest groups.

USP 2003-2014 Code U3CS
Prerequisite: POLS 1000.

POLS2450 - Politics and Media

Credits: 3
Examines the media's coverage of current events, governmental institutions and electoral campaigns. Discusses effect of media on individuals' opinions and behavior.

Prerequisite: POLS 1000.

POLS2490 - Topics In:

Credits: 1-3
Max Credit (Max. 6)

Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000.

POLS3100 - Politics and the Judicial Process
Credits: 3
Analyzes courts and their personnel in the American political system, including examination of functions of courts, characteristics of judicial process, approaches to the study of judicial behavior, and role of courts as policy makers.

**Former Course Number** [2100]

**Prerequisite:** POLS 1000.

**POLS3520 - Voting and Participation in America**

Credits: 3
Examines the ways citizens participate in government, including campaigning, donating money, and voting. Topics include mobilization by parties and campaigns, social and demographic differences in participation, explanations of voting behavior, civic responsibility, and the role of participation in a democracy.

**Prerequisite:** POLS 1000.

**POLS3550 - Political Communication**

Credits: 3
Examines the intersection of politics and communication. For example, may cover politics and media, interpersonal political discussion, organizational and governmental political communication, political campaigns, politics and technology, etc. Moreover, it may cover the effects of political communication on individuals' opinions and behavior.

**Cross Listed** COJO 3550.

**Prerequisite:** COMM 1000, COMM 1040, or POLS 1000.

**POLS3600 - American Political Thought**

Credits: 3
Examines key primary sources and traditions from the founding to present.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2

**Prerequisite:** POLS 1000 or permission of instructor.

**POLS4051 - Environmental Politics**

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

**Cross Listed** AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.

**Dual Listed** POLS 5051.
**POLS4052 - Federal Land Politics**

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

**Cross Listed** AMST 4052/ENR 4052/GEOG 4052/REWM 4052.

**Prerequisite:** POLS 1000.

**POLS4100 - Constitutional Law: Institutional Powers**

Credits: 3
Encompasses case-study analysis of judicial decisions and policies affecting constitutional interrelationships among the three branches of federal government, federal-state relations, as well as powers of the states and federal government in the area of social and economic regulatory laws.

**Dual Listed** POLS 5100.

**Prerequisite:** POLS 1000.

**POLS4110 - Constitutional Law: Civil Liberties and Rights**

Credits: 3
Encompasses case-study analysis of judicial decisions and policies of the constitutional interpretation of the 1st Amendment (freedom of speech, press, association and religion), privacy rights, the rights of the criminally accused, and civil rights (racial and gender equality).

**Cross Listed** CRMJ 4110.

**Dual Listed** POLS 5110.

**Prerequisite:** POLS 1000, POLS 3100 recommended.

**POLS4330 - American Foreign Relations**

Credits: 3
Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors, along with analysis of policy options.

**Cross Listed** INST 4330.

**Dual Listed** POLS 5330.

**Prerequisite:** 9 hours of political science or international studies including POLS 2310.
POLS4420 - Seminar in Public Administration

Credits: 3  
Max Credit (Max. 6)

Includes reading and research in selected public administration topics.

**Dual Listed** POLS 5420.  
**Prerequisite:** POLS 1000 and consent of instructor.

POLS4430 - United States Presidency

Credits: 3  
Analyzes office of president, its roles, development, relationships with other governmental agencies and problems in the contemporary world.

**Dual Listed** POLS 5430.  
**Prerequisite:** POLS 1000.

POLS4435 - Presidential Elections

Credits: 3  
Examines the process of electing the U. S. president. Topics include the roles of presidential primaries, caucuses, and conventions; campaign strategies; media coverage; citizen participation; the electoral college; and reforms.

**Dual Listed** POLS 5435.  
**Prerequisite:** POLS 1000.

POLS4520 - Public Opinion

Credits: 3  
Deals with natures of a public in democracy and means of forming and manipulating public opinion. Emphasizes role of public opinion as essential ingredient of the policy-making process in popular government.

**Dual Listed** POLS 5520.  
**Prerequisite:** POLS 1000.

POLS4530 - U.S. Congress

Credits: 3  
Analyzes aspects of the U. S. Congress, including election of congressmen, legislative process, congressional-presidential relations, and the influence of political parties, interest groups, and constituents on the legislative process.

**Dual Listed** POLS 5530.  
**Prerequisite:** POLS 1000.
POLS4550 - Internship in Government

Credits: 1-6
Integrates practical political experience with academic knowledge. Students are expected to participate in specifically assigned duties and observe broader activities of the sponsoring organization; then, reflect upon this participation and observation in the form of written assignments. Internship credit can be earned for work in political campaigns, Wyoming Legislature or government services.

Prerequisite: 9 hours of political science.

POLS4560 - Washington Semester Program

Credits: 15
Provides students with paid internships in Washington, D. C., in either congressional offices or federal agencies. Selection into the program is very competitive and is made the semester prior to service.

Prerequisite: POLS 1000 and 6 additional hours of political science courses.

POLS4710 - Topics in

Credits: 1-3
Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000 and 3 additional hours of political science.

POLS4720 - Workshop in Practical Politics

Credits: 1-3
Familiarizes or strengthens participants in techniques of political effectiveness. Includes political organization, campaigning and persuasion. Guest speakers include public officials and experts in the field of practical politics.

Prerequisite: 9 hours of political science.

POLS4840 - Seminar in Public Law

Credits: 3
Max Credit (Max. 6)
Includes reading and research on selected problems in public law.

Dual Listed: POLS 5840.
USP 2015 Code U5C3
Prerequisite: 9 hours of political science or related fields including POLS 1000 and consent of instructor.

POLS4850 - Seminar in American Politics and Institutions
Asian Studies Minor

The Asian Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of an Asian region or a single country. The program emphasizes a social science approach to the study of Asian history, politics, society, and culture with options to include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Asia is defined first and foremost as a geographic entity to include Western, Northern, Central, South and East Asian areas. Thus, for example, countries such as modern Turkey and areas such as the 'Middle East' can rightly be included in 'Asia' alongside areas more traditionally understood as part of Asia such as China and India.

Course Requirements (18 Credits)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 Credit Hours)

All Asian Studies Minor students must complete one of two required Gateway courses depending on their primary area of interest within Asia.

**INST2230 - Introduction to Asian Studies**

Credits: 3

Asia, the world's largest continent, is home to virtually half of humanity and a broad spectrum of peoples, languages, religions, and cultures. This course introduces the cultural, political, economic, and environmental landscapes of this diverse region.

USP 2003-2014 Code U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG
OR

**POLS3270 - Governments and Politics of the Middle East**

Credits: 3

Acquaints students with basic political, social and economic institutions of Middle Eastern countries. Emphasizes post-World War I developments, contemporary issues and problems. Special attention is given to politics of major nations in
the Middle East such as Turkey, Iran, Israel, Egypt, Saudi Arabia, Iraq and Syria.

**Prerequisite:** POLS 1200 or POLS 1250 or permission of instructor.

**Asian Studies Area Courses (15 Credit Hours)**

Asian Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved Asian Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition to the approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Asian Studies Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to review the International Studies Newsletter each semester to see what Asian Studies Area courses are currently being offered.

**Approved Asian Studies Area Courses**

- ART 2720 - Introduction to the Art and Culture of Islam

**ART4650 - International Study of Art**

Credits: 3
Students will respond creatively to the historical, cultural and aesthetic experience in the country of travel and will use journaling, drawing, and collection of visual material to continue a more in-depth response upon return. Course sections will vary regarding structure/context. All sections will include studio and/or art historical curriculum.

USP 2003-2014 Code U3G
A&S College Core 2015 ASG
**Prerequisite:** ART 4635.

**CHIN1101 - First-Year Seminar**

Credits: 3
USP 2003-2014 Code U5FY

**CHIN2041 - Contemporary and Traditional Chinese Culture**

Credits: 3
Designed to provide those with a serious interest in China and Chinese language with a cultural context for learning Chinese language. Incorporates economic and social material to give students a clear view of Chinese culture with an emphasis on Chinese language instruction.

**Prerequisite:** CHIN 2030.

**CHIN3160 - See Movies, Touch China**

Credits: 3
This course combines exploration of classical and contemporary Chinese cultures through prominent Chinese films. The audio-video materials selected will be discussed in their historical context. Students will explore the
transformations China has undergone, and will seek to understand the Chinese mindset.

USP 2003-2014 Code [(none) < > H]
**Prerequisite:** COM1.

**ENR3300 - Environmental Policy, Conservation and Development in India**

Credits: 3
This course will focus on India's environmental policies pertaining to conservation and development. Case studies will be used to understand how these policies were developed, put in place, and their intended and actual outcomes. Students are required to select a suitable topic and conduct research and submit a research report.

USP 2015 Code U5C2
**Prerequisite:** WA/ COM1 course.

**HIST2040 - Imperial China**

Credits: 3
Surveys China's social, intellectual, political, cultural, technological and ethnohistory from earliest historical period through the last imperial dynasty, and China's role in greater E. Asian and world history. Provides background for other Asia-related courses and is part of year-long series; see HIST 2041.

USP 2003-2014 Code U3CS, U3G

**HIST2041 - Modern China**

Credits: 3
Surveys China's social, intellectual, political, cultural, and ethnohistory from mid-1800s to the present. Themes include colonialism, emergence of nation-state, Communist party, Mao's socio-political agenda, post-Mao reforms, and China's role in Asia. Background for other Asia-related courses and part of year-long series; see HIST 2040.

**HIST2320 - History of Islam**

Credits: 3
Focuses on the origins of Islam and its early formation, its growth and spread across the world, and its intellectual, spiritual and historical character. Time will also be spent on the formation of Islam in the modern world and how that impacts the views and actions of its members.

USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG
OR

**RELI2320 - History of Islam**

Credits: 3
Focuses on the origins of Islam and its early formation, its growth and spread across the world, and its intellectual,
spiritual and historical character. Time will also be spent on the formation of Islam in the modern world and how that impacts the views and actions of its members.

**Cross Listed** HIST 2320.
USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG

**HIST2460 - Traditional Japan**

Credits: 3
Surveys Japan's social, intellectual, political, cultural, technological and ethnohistory from earliest historical period to the 1800s. Topics include roles of China and Korea, the samurai warrior tradition, family structure, Buddhism and Shinto. Provides background for other Asia-related courses and is part of a year-long series; see HIST 2461.

**HIST2461 - Modern Japan**

Credits: 3
Surveys Japan's social, intellectual, political, cultural, economic, technological and ethnohistory from the 1800s through the present. Topics include Japan's industrialization, Asian colonialism, post-WWII, and Japan as economic superpower. Provides background for other Asia-related courses and is part of a year-long series; see HIST 2460.

**A&S College Core 2015 ASG**

**HIST2470 - Civilization of India**

Credits: 3-4
Max Credit 4
Surveys Indian civilization from earliest times, including cultural aspects.

- HIST 3210 - The Islamic World in the Premodern Era

**HIST3220 - History of the Modern Middle East**

Credits: 3
Surveys the Middle East from 1700 to the present. Emphasizes the demise of the Ottoman Empire, the rise of domination by European colonial powers, transformations in political, social, religious and cultural life, the rise of nationalist movements, the influence of oil, the growth of Islamist political groups and the Israeli-Palestinian conflict.

**Cross Listed** RELI 3220.
USP 2003-2014 Code U3G
A&S College Core 2015 ASG
**Prerequisite:** 6 hours of HIST, RELI, or INST.

**HIST3400 - Mongol Empire**

Credits: 3
Examines the history of the Mongol Empire from a world history perspective. Major themes: structure of a nomadic
empire, how that empire interacted with the various settled states it conquered and ramifications of the Mongol conquest on trade, technology, and social and intellectual developments across Eurasia, between the years 1200 to 1450 CE.

**Prerequisite:** 6 hours of HIST.

**GWST4335 - Women and Islam**

Credits: 3
Examines women's lives in Islamic societies from the seventh century to the present in the Middle East and throughout the world. Themes include women's position in Islamic law, society and culture, Western images of Muslim women, veiling and Islamist movements, theoretical readings on power, gender and agency.

**Cross Listed** HIST 4335 and RELI 4335.
**Dual Listed** GWST 5335.
**Prerequisite:** 9 hours of HIST, WMST, INST, or RELI.
  - HIST 4520 - Modern Far East: China, Japan and India

**INST2230 - Introduction to Asian Studies**

Credits: 3
Asia, the world's largest continent, is home to virtually half of humanity and a broad spectrum of peoples, languages, religions, and cultures. This course introduces the cultural, political, economic, and environmental landscapes of this diverse region.

USP 2003-2014 Code U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG

**INST3100 - Chinese Society**

Credits: 3

**Cross Listed** SOC 3100.
USP 2003-2014 Code U3G
**Prerequisite:** SOC 1000.
  - OR

**SOC3100 - Chinese Society**

Credits: 3

**Cross Listed** INST 3100.
INST3400 - Politics and Society of Turkey

Credits: 3
Examines the history of Turkey with an emphasis on its relationship with the Western world. Major topics include the Ottoman Empire; Ataturk and the founding of the Republic of Turkey; Turkey's role in the Cold War, Kurdish and other minority populations; the changing Turkish political landscape, the evolution of Islamist politics; and recent relations with the United States and European Union.

INST4200 - China and Globalization

Credits: 3
The economic reforms in China have been political, cultural, and above all, global processes. Understanding these processes of economic reform tells us much about the role of government, culture, and globalization in the transition from socialism to capitalism, as well as about China's future role in the world.

Prerequisite: POLS 1200/INST 1200 or POLS 1250/INST 1250 or HIST 2041 or SOC 3100.

INST4250 - East Asia Society and Economy

Credits: 3
Designed to explore key issues to the historical development of Asian countries from both comparative and international political economy perspectives. Distinctive political, social, and economic characteristics of these nations will be analyzed.

Dual Listed INST 5250.

INST4560 - Global Cities

Credits: 3
Globalization accelerates urbanization processes and creates a new type of city: the global city. This course investigates the debates over global cities, urban culture, new urban landscapes, urban planning practices, and social disparity. Using case studies from around the world, this class explores the diversity of global city formation processes.

Cross Listed GEOG 4560.

Dual Listed Dual listed with INST 5560.

Prerequisite: 9 hours of international studies or geography.

INST4590 - Sustainable Business Practices
A close look at what is happening in business practice today through the 'lens' of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

Cross Listed MKT 4590.
Dual Listed INST 5590.
Prerequisite: advanced business standing.

OR

LANG2150 - Manga: History and Culture

Credits: 3
Manga is one of the most important art forms to emerge from Japan. Its importance as a medium of visual culture and storytelling cannot be denied. Through reading and examination of texts, students will understand the relevance of comics in Japanese society.

USP 2003-2014 Code U3O, U3WB
USP 2015 Code U5C2
Prerequisite: COM1.

LANG3105 - Major Themes in Chinese and Japanese Literature

Credits: 3
Explores mindsets of two rich and ancient civilizations, China and Japan. Considers distinctive characters of each civilization, while illuminating basic elements that we share with these peoples.

Prerequisite: ENGL 1010.

LANG3140 - Anime: History and Culture

Credits: 3
An introduction to the history, development, and cultural significance of Japanese animation. Through the examination of a variety of anime genres, students will gain insight into contemporary Japan as well as important historical periods. We will read analyses of particular anime, emphasizing the unique characteristics of the art and the mystery of its popularity in the US.

USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
Prerequisite: completion of WA.

LANG4800 - Advanced Instruction In: (TOPIC)

Credits: 1-3
Max Credit (Max. 12)

Advanced study and projects designed to meet special needs and interests of students, to be selected in consultation with a suitable member of the faculty.
Prerequisite: consent of instructor.

POLS3270 - Governments and Politics of the Middle East

Credits: 3
Acquaints students with basic political, social and economic institutions of Middle Eastern countries. Emphasizes post-World War I developments, contemporary issues and problems. Special attention is given to politics of major nations in the Middle East such as Turkey, Iran, Israel, Egypt, Saudi Arabia, Iraq and Syria.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS4230 - Governments and Politics of Asia

Credits: 3
Studies political systems of East Asia. Analyzes impact of social and economic factors upon political institutions.

Dual Listed POLS 5230.
Prerequisite: POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

RELI2040 - Religions of the Middle East: Judaism, Christianity and Islam

Credits: 3
Analyzes origins and early years of three major religions that arose in the Middle East: Judaism, Christianity and Islam. Looks at historical development, political and cultural context, and structure of each religion.

USP 2003-2014 Code U3CH, U3G
A&S College Core 2015 ASG

RELI2050 - Religions of Asia

Credits: 3
Introduces students to the religions of Asia. Primary focus on Hinduism and Buddhism, but also addresses several smaller religions. Emphasis on beliefs, sacred texts and tales, practices, ethics and worship, as well as historical development and contemporary issues.

USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

RELI2315 - History of Non-Western Religions

Credits: 3
Max Credit 9

Introduces students to religions outside the Judeo-Christian realm familiar in the west. Each religion analyzed in its
world views, its ways of life, and in its social organization. History of each religion and its changes.

**Cross Listed** HIST 2315.
USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

**RELI3320 - Eastern Thought**

Credits: 3
Surveys some of the major concepts in Zen, Hinduism, Buddhism, Taoism and Confucianism.

**Cross Listed** PHIL 3320.
USP 2015 Code U5H
**Prerequisite:** 3 hours of philosophy.

**OR**

**PHIL3320 - Eastern Thought**

Credits: 3
Surveys some of the major concepts in Zen, Hinduism, Buddhism, Taoism and Confucianism.

**Cross Listed** RELI 3320.
USP 2015 Code U5H
**Prerequisite:** 3 hours of philosophy, or consent of instructor.

**RELI3340 - Mysticism, Yoga, and Enlightenment in the East**

Credits: 3
Explores Hindu and Buddhist concepts of enlightenment and the means for reaching them through mysticism and yoga. Study the texts and beliefs and their translation into practice.

**Prerequisite:** WB and CH.
- RELI 3344 - Gods, Avatars, Heroes, and Mystics
- SOC 3050 - Japanese Society

**Optional Asian Study Abroad Component**

Asian Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Asia to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards fulfillment of the Asian Studies Area Course requirement on the approval of the student's designated minor advisor. Optional Asian Foreign Language Component Asian Studies Minor students are also strongly encouraged to learn an Asian foreign language as part of their progression towards completion of the Minor. Accordingly, up to eight (8) lower-division (1000-2000) credit hours of an Asian foreign language may be counted towards fulfillment of the Asian Studies Area Course requirement. 'Asian' languages at UW include Japanese, Chinese and Arabic. However, Asian Studies Minor, students need not necessarily be limited to the three languages currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be
fulfilled by other Asian language instruction at UW, other relevant in-country summer intensive programs, or language-focused study abroad programs.

**European Studies Minor**

The European Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of a European region or a single country. The program emphasizes a social science approach to the study of modern European history, politics, society, and culture with options to include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Europe is defined first and foremost as a geographic entity running from the Atlantic to the Urals and from Scandinavia to the Mediterranean and the Caucasus Mountains. Courses that transcend these boundaries should include the study of Europe in a prominent way to count toward the minor.

All required courses for the major must be passed with a grade of C or better. A course cannot simultaneously fulfill more than one major requirement.

**Course Requirements (18 Hours)**

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of ‘C’ or better.

**Gateway Course (3 Credit Hours)**

All European Studies Minor students must complete one of two required Gateway courses, either:

**INST2280 - Introduction to European Studies**

Credits: 3
This class explores the historical development of notions of community and difference, territories and borders, race and identity, and nationalism and post-national integration in Europe between 1789 and the present. It draws upon history, politics, geography, cultural studies, and anthropology.

*Cross Listed* HIST 2280.
USP 2015 Code U5C2

OR

**POLS2200 - Politics of Europe and the European Union**

Credits: 3
Examines formal and informal aspects of politics in European countries and the European Union.

USP 2015 Code U5C2

*CPrerequisite:* POLS 1200 or POLS 1250 or permission of the instructor.

**European Studies Area Courses (15 Credit Hours)**
European Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved European Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition to the approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to review the International Studies Newsletter each semester to see what European Studies Area courses are currently being offered.

Approved European Studies Area Courses

- A&S 2200 - British Life and Culture

**FREN2130 - Contemporary French Culture**

Credits: 3
Designed as an introduction to contemporary French culture. It gives students an in-depth insight into contemporary French life. It also deals with issues affecting the French-speaking world in general: Quebec, Africa, New Caledonia, Switzerland, Monaco, etc.

USP 2015 Code U5H
**Prerequisite:** FREN 1020 or equivalent.

**FREN3110 - Contemporary French Civilization**

Credits: 3
Emphasizes the institution and values of contemporary France. Deals with the major political, social, cultural and economic aspects of today's France. Will be taught in French.

**Prerequisite:** FREN 3050.
- FREN 4085 - Studies in French Culture

**GERM3006 - 20th Century German Culture and Civilization**

Credits: 3
Major political, ideological and cultural developments in Germany between 1871 and the present. An interdisciplinary approach (history, art history, film and literature) allows students to explore and assess a nation's culture and civilization as well as far-reaching events (WWI, WWII and the Holocaust) from various perspectives.

USP 2003-2014 Code U3CH, U3WC
**Prerequisite:** junior standing.

**GERM3150 - German History and Culture**

Credits: 3
Taught in English, this class engages students both theoretically and practically with German history and culture throughout the ages from the Middle Ages to today. Reading content is complemented with outings to culturally and historically significant sites in Germany as part of a summer study abroad program.
Prerequisite: WA or equivalent.
- GERM 4265 - Divided Nation: Politics and Culture in Germany 1945 - 1990

GERM4285 - 20th/21st Century German Film

Credits: 3
Introduces students to classical German films, and thereby enhances their skills to conduct research in the Humanities. Themes to be discussed: representation of authority, issues of race and gender, German culture and history, the Americanization of German culture, minorities in contemporary Germany.

Dual Listed GERM 5285.
Prerequisite: WB.

HIST2080 - Holocaust

Credits: 3
Surveys the destruction of European Jewry, 1933-1945.

Cross Listed RELI 2080.
USP 2003-2014 Code U3CH
Former Course Number [4315]

HIST2240 - The History of Russia Since 1855

Credits: 3
General survey of modern Russian history from 1855 to the present.

HIST3110 - Modern Germany

Credits: 3
A cultural, social, and political history of German-Speaking Europe from 1789 to the present.

Prerequisite: 6 hours of HIST or INST.

HIST4170 - Europe in the Nineteenth Century

Credits: 3
An intensive study of European history from the beginning of the nineteenth century through to the origins of the First World War in 1914.

Dual Listed HIST 5170.
Prerequisite: HIST 1120.

HIST4180 - Europe in the 20th Century
An intensive study of European history from 1914 through 2000.

**Dual Listed** HIST 5180.  
**Prerequisite:** 9 hours of HIST.  
- HIST 4190 - Europe: 1930 - Present  
- HIST 4195 - European Economic History

**HIST4270 - France: Old Regime and Revolution**

Credits: 3  
The social, political and cultural history of early modern France (1598-1789), from the rise of the Absolutist state under Louis XIV to the outbreak of the Revolution. Explores the cultural and intellectual shifts from court culture at Versailles, to the Enlightenment, to the rise of revolutionary ideologies.

**Dual Listed** HIST 5270.  
**Prerequisite:** 9 hours of HIST.  
- HIST 4280 - France Since 1814

**HIST4290 - History of the Soviet Union**

Credits: 3  
Depicts Russia under Communism, including particularly the development of totalitarian dictatorship in its political, economic, social and cultural manifestations.

**Dual Listed** HIST 5290.  
**Prerequisite:** 9 hours of HIST.

**HIST4310 - World War II in Europe**

Credits: 3  
Covers the origins, course and consequences of one of this century's defining global developments. World War II in Europe was a transnational development which shaped the world as it is known today.

**Dual Listed** HIST 5310.  
**Prerequisite:** 9 hours of HIST.

**HIST4315 - History, Politics and Memory of the Holocaust in Europe**

Credits: 3  
Offers students the opportunity to learn about the history of the Holocaust through travel to various sites in Central Europe where the events themselves occurred, such as Berlin, Warsaw, Krakow and Auschwitz-Birkenau.

**Cross Listed** INST 4315.  
**Dual Listed** HIST 5315.  
**Prerequisite:** 9 hours of HIST or INST.
HIST4320 - Memory and National Identity in Twentieth Century Europe

Credits: 3
Europe in the twentieth century saw a century of unprecedented violence. Examines the public representation of such historical trauma through the concept of "collective memory" and focuses in particular on how memory has become a contested part of defining identity in modern-day Europe.

Dual Listed HIST 5320.
Prerequisite: 9 hours of HIST.

INST2280 - Introduction to European Studies

Credits: 3
This class explores the historical development of notions of community and difference, territories and borders, race and identity, and nationalism and post-national integration in Europe between 1789 and the present. It draws upon history, politics, geography, cultural studies, and anthropology.

Cross Listed HIST 2280.
USP 2015 Code U5C2

INST4330 - American Foreign Relations

Credits: 3
Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors, along with analysis of policy options.

Cross Listed POLS 4330.
When Offered (Normally offered once a year)
Prerequisite: 9 hours of political science or international studies including POLS 2310.

OR

POLS4330 - American Foreign Relations

Credits: 3
Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors, along with analysis of policy options.

Cross Listed INST 4330.
Dual Listed POLS 5330.
Prerequisite: 9 hours of political science or international studies including POLS 2310.

OR

• SOC 4330 - The World System

INST4380 - International History of Human Rights

Credits: 3
Examine the modern history of human rights in the global system, with particular emphasis on developments since the
Second World War. Topics include the philosophy of human rights ideas; the histories of rights and rights violations in various regions; and the resulting international responses.

Cross Listed HIST 4380.
Dual Listed INST 5380.
Prerequisite: 9 hours of HIST or INST.

INST4881 - International Social Welfare and Social Development

Credits: 3
Examines the basic framework of social welfare analysis and social development programming in the international arena, employing a multinational comparative analysis approach to explore the wide array of responses to social need across the globe. Students employ multinational comparative analyses to an area of social concern.

Cross Listed SOWK 4881.
Dual Listed INST 5881.
Prerequisite: POLS 1000; ECON 1010 recommended.

POLS2200 - Politics of Europe and the European Union

Credits: 3
Examines formal and informal aspects of politics in European countries and the European Union.

USP 2015 Code U5C2
Prerequisite: POLS 1200 or POLS 1250 or permission of the instructor.

POLS3220 - Government and Politics of Russia and FSU

Credits: 3
Examines the political, economic and identity transitions of Russia and other states of the former Soviet Union during the post-communist era. Explores how current challenges relate to past Soviet practices.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS4215 - European Union

Credits: 3
Examines the European Union's history, institutional structures, and policy areas and explores the positive and negative effects of European integration.

Cross Listed INST 4215.
Dual Listed POLS 5215.
Former Course Number [4220]

Prerequisite: POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

- RELI 4150 - Christianity, Jews and Muslims in Iberia
**SPAN3220 - Spanish-American Cultures in Context**

Credits: 3  
Introduction to the Spanish-speaking cultures of Latin America and the United States through a historical overview and a focus on contemporary politics and culture.

**Prerequisite:** SPAN 2040 or SPAN 2140 or consent of instructor.

**Optional European Study Abroad Component**

European Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Europe to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards fulfillment of the European Studies Area Course requirement on the approval of the student's designated minor advisor.

**Optional European Foreign Language Component**

European Studies Minor students are also strongly encouraged to learn an European foreign language (other than English) as part of their progression towards completion of the Minor. Accordingly, up to eight (8) lower division (1000-2000) credit hours of an European foreign language may be counted towards fulfillment of the European Studies Area Course requirement. European languages at UW include French, German, and Spanish. However, European Studies Minor students need not necessarily be limited to the three languages currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be fulfilled by other European language instruction at UW, other relevant in-country summer intensive programs, or language-focused study abroad programs.

**International Relations and Comparative Politics Minor**

**Requirements**

A minor in International Relations and Comparative Politics requires

**POLS2310 - Introduction to International Relations**

Credits: 3  
Analyzes the nature of international relations, emphasizing various methods of explaining and interpreting the behavior of nation-states. In doing so, the course illustrates the contemporary problems of world politics.

**Cross Listed** INST 2310.  
USP 2003-2014 Code U3G  
A&S College Core 2015 ASG

**POLS1200 - Non-Western Political Cultures**

Credits: 3  
Gives students appreciation of non-western political cultures and how these cultures have created different political institutions and practices. Non-Western nations of Asia, Africa, and the Middle East are used as case studies.
POLS1250 - Introduction to Comparative Government

Credits: 3
How do foreign states deal with the numerous challenges to their stability? Do institutions affect a state's approach to solving different problems? How do these different approaches affect policy? This course introduces students to different styles of governance and compare countries from around the world with reference to their political ideology.

POLS4870 - Seminar in International Relations

Credits: 3
Max Credit (Max. 6)
Encompasses reading and research in international law and politics.

Dual Listed POLS 5870.
USP 2015 Code U5C3
Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

OR

POLS4890 - Seminar in Comparative Government and Politics

Credits: 3
Max Credit (Max. 6)
Researches selected topics in comparative government and politics.

Dual Listed POLS 5890.
USP 2003-2014 Code U3G, U3WC
USP 2015 Code U5C3
Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

• 9 hours from an approved list of courses, with a minimum of 6 hours at the 3000-level or above.

Approved International Relations and Comparative Politics Minor Courses

POLS2200 - Politics of Europe and the European Union

Credits: 3
Examines formal and informal aspects of politics in European countries and the European Union.
POLS2290 - Governments and Politics of Latin America

Credits: 3
Studies chief cultural and historical factors influencing Latin American political process. Surveys major institutions and political patterns of the region.

Prerequisite: POLS 1200 or POLS 1250 or permission of the instructor.

POLS2490 - Topics In:

Credits: 1-3
Max Credit (Max. 6)

Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000.

POLS3200 - Comparative Political Cultures

Credits: 3
Histories and experiences of various societies have shaped their values, norms, beliefs, expectations, and attitudes. This class explores how the beliefs, values, and lifestyles of various societies shape peoples' views of their place in the politics of the state and of the state's place in their daily lives.

Cross Listed POLS 3200.
Prerequisite: POLS 1200/INST 1200 or POLS 1250/ INST 1250 or permission of instructor.

POLS3220 - Government and Politics of Russia and FSU

Credits: 3
Examines the political, economic and identity transitions of Russia and other states of the former Soviet Union during the post-communist era. Explores how current challenges relate to past Soviet practices.

Prerequisite: POLS 1200 or POLS 1250 or permission of instructor.

POLS3270 - Governments and Politics of the Middle East

Credits: 3
Acquaints students with basic political, social and economic institutions of Middle Eastern countries. Emphasizes post-World War I developments, contemporary issues and problems. Special attention is given to politics of major nations in the Middle East such as Turkey, Iran, Israel, Egypt, Saudi Arabia, Iraq and Syria.
**Prerequisite:** POLS 1200 or POLS 1250 or permission of instructor.

**POLS3300 - Model United Nations**

Credits: 1-3  
Max Credit (Max. 6)

Focuses on the United Nations (UN) system and multilateral diplomacy to prepare students to participate in a Model UN simulation. Students learn to evaluate the UN system, learn strategies to address international problems, and develop skills to effectively represent a country in a role-playing exercise.

**Prerequisite:** POLS 1200 or POLS 1250 or permission of instructor.

**POLS4013 - Political Geography**

Credits: 3  
Geographic space is subdivided into political units to aid human interaction and to facilitate political processes. Examines the spatial organization of political space and its effects upon political processes at varying geographic scales ranging from the local to international.

**Cross Listed** GEOG 4013.  
**Dual Listed** POLS 5013.  
**Prerequisite:** Completion of USP H requirement.

**POLS4215 - European Union**

Credits: 3  
Examines the European Union's history, institutional structures, and policy areas and explores the positive and negative effects of European integration.

**Cross Listed** INST 4215.  
**Dual Listed** POLS 5215.  
**Former Course Number** [4220]

**Prerequisite:** POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

**POLS4230 - Governments and Politics of Asia**

Credits: 3  
Studies political systems of East Asia. Analyzes impact of social and economic factors upon political institutions.

**Dual Listed** POLS 5230.  
**Prerequisite:** POLS 1200 or POLS 1250 or POLS 2310 or permission of instructor.

**POLS4255 - Politics of Developing Nations**
An analysis of the processes of political, economic and social change in the non-Western world.

**POLS4255 - Political Processes of Change in the Non-Western World**

*Cross Listed* INST 4255.
*Dual Listed* POLS 5255.

**Prerequisite:** 9 hours of political science or international studies, including POLS 1200/INST 1200 or POLS 1250/INST 1250 or POLS 2310/INST 2310, or permission of instructor.

**POLS4260 - Democratization and Regime Change**

Credits: 3
Examines the theoretical/empirical research on causes of democratic transition and consolidation, including new waves of democratization and prospects for democratization in other contexts. Focus is given to a variety of theoretical/methodological perspectives such as the structural, strategic, social/cultural, institutional, and economic approaches.

*Cross Listed* INST 4260.
*Dual Listed* POLS 5260.

**Prerequisite:** 9 hours of political science or international studies, including POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

**POLS4290 - Inter-American Relations**

Credits: 3
Surveys inter-American system and idea of hemispheric unity. Analyzes major issues confronting inter-American community.

*Cross Listed* INST 4290.
*Dual Listed* POLS 5290.

**Prerequisite:** 9 hours of political science, including POLS 1200/ INST 1200, or POLS 1250/INST 1250, or POLS 2310/ INST 2310, or permission of instructor.

**POLS4330 - American Foreign Relations**

Credits: 3
Analyzes American foreign policy decision-making process and selected contemporary foreign policy problems. Stresses political and institutional factors, along with analysis of policy options.

*Cross Listed* INST 4330.
*Dual Listed* POLS 5330.

**Prerequisite:** 9 hours of political science or international studies including POLS 2310.

**POLS4340 - International Organizations**

Credits: 3
Encompasses development of world organizations, such as League of Nations, United Nations and its affiliate bodies. Also studies regional organizations and private international bodies.
Cross Listed INST 4340.  
Dual Listed POLS 5340.  
**Prerequisite:** Consent of instructor. POLS 2310 strongly recommended.  

**POLS4350 - Sustainable Development and Global Policy**

Credits: 3  
Considers in-depth meaning of "sustainable development" and trade-offs necessary to achieve it. Considers this issue from global perspective through application of theories in economics, political science, international relations, technology studies and ethics.

Dual Listed POLS 5350.  
**Prerequisite:** Consent of instructor. POLS 2310 strongly recommended.  

**POLS4360 - International Peace and Conflict**

Credits: 3  
Why do nations go to war, engage in atrocities such as genocide, or move toward peace following conflict? Examines underlying processes behind both conflict and peace in the international system, including sources of conflict and ways conflicts might be moved toward sustainable peace.

Cross Listed INST 4360.  
Dual Listed POLS 5360.  
**Prerequisite:** 9 hours of political science or international studies including POLS 2310.

**POLS4375 - Transitional Justice**

Credits: 3  
Mechanisms provide accountability for gross human rights violations and acts of mass atrocity within nations. Case studies are used to examine types of transitional justice interventions; tensions between demands of justice at local, national, and international levels; and transitional justice's role in post-conflict peace-building and reconciliation.

Cross Listed INST 4375.  
Dual Listed POLS 5375.  
**Prerequisite:** Consent of instructor. POLS 2310 strongly recommended.

**POLS4445 - Drug War Geopolitics in the Americas**

Credits: 3  
This course examines illegal drug commodity chains and international efforts to police the drug trade in the Americas. It approaches the drug war through a "critical geopolitics" framework, also covering broader themes such as international politics, livelihoods, development, environmental justice, the global economy, race-based discrimination, public health, and resistance movements.

Cross Listed INST 4445.  
Dual Listed POLS 5445.  
**Prerequisite:** 9 hours of international studies or social science coursework and junior standing.
POLS4475 - Politics of Natural Resources in Latin America

Credits: 3
This course examines major trends in resource extraction, management, and conservation in Latin America, and the politics surrounding those trends, from theoretical, social, political, economic, and ecological perspectives and through a variety of grounded case studies. The theories and concepts we study are applicable to resource politics beyond Latin America.

Cross Listed INST 4475.
Dual Listed POLS 5475.
Prerequisite: 9 hours of international studies or social science coursework and junior standing.

POLS4600 - Political Violence

Credits: 3
Examines causes and consequences of violence both among individuals and among nations.

Cross Listed CRMJ 4600.
Dual Listed POLS 5600.
When Offered (Normally offered every other year)
Prerequisite: POLS 1000, or SOC 1000, or POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

POLS4710 - Topics in

Credits: 1-3
Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000 and 3 additional hours of political science.

POLS4870 - Seminar in International Relations

Credits: 3
Max Credit (Max. 6)
Encompasses reading and research in international law and politics.

Dual Listed POLS 5870.
USP 2015 Code U5C3
Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

POLS4890 - Seminar in Comparative Government and Politics

Credits: 3
Max Credit (Max. 6)
Researches selected topics in comparative government and politics.
International Studies Graduate Minor

Students graduating with a minor in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective.

Additional Requirements

A graduate minor in international studies provides students in graduate programs other than international studies with the opportunity to acquire a basic graduate-level familiarity with international relations, global processes and cultural diversity around the world. Students acquire a foundation in intergovernmental relations and research methodology. Beyond this, students work closely with a graduate director to fashion a program of study appropriate for their interests and post-graduate plans. The minor complements several other graduate degree programs.

Prerequisites for Admission

Declaration of an international studies minor is contingent on admission to a master's or doctoral degree program. Application is in the form of a letter of interest to the director of the program, including the background, anticipated course of study, and reason for seeking the minor. An interview with the director is also required. All prerequisites for entering the graduate program in international studies as a major apply to the minor with the exception of proficiency in a second language. Students must be prepared for coursework in international studies at the graduate level and be willing to take prerequisite courses if necessary.

Course and Committee Requirements

Graduate students minoring in international studies must satisfy the requirements of their graduate major and take twelve credits of guided graduate coursework in international studies. With the approval of the department of the graduate major, these twelve hours may also count toward the major. Students are required to take at least one advanced theory course (INST 5200) and one advanced research methods course. All courses will be determined in consultation with the program director.

International Studies Minor

Students graduating with a minor in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective.

Additional Information

A minor in international studies requires 12 hours of a single foreign language and 15 hours of international studies curriculum, with a minimum of 9 hours at the 3000-level or above.
Political Theory Minor

A minor in Political Theory offers an opportunity for interdisciplinary study.

Requirements

**POLS2460 - Introduction to Political Philosophy**

Credits: 3
Surveys history of Western political thought including study of concepts and approaches to political philosophy.

When Offered (Offered once a year)

**POLS3600 - American Political Thought**

Credits: 3
Examines key primary sources and traditions from the founding to present.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2
**Prerequisite:** POLS 1000 or permission of instructor.

**POLS4810 - Seminar in Political Philosophy**

Credits: 3
Max Credit (Max. 6)

Seminar in Political Philosophy; Encompasses reading and research on selected problems in political philosophy.

**Dual Listed** POLS 5810.
USP 2015 Code U5C3
**Prerequisite:** POLS 2460, or POLS 3600, or consent of instructor.
- 9 hours from an approved list of courses in political science and other disciplines, with a minimum of 6 hours at the 3000-level or above.

Approved Political Theory Minor Courses

**POLS2330 - Environmental Ethics**

Credits: 3
Introduces students to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.
Cross Listed PHIL 2330.

**POLS2490 - Topics In:**

Credits: 1-3  
Max Credit (Max. 6)

Accommodates various specialized subjects not offered as regular courses.

**Prerequisite:** POLS 1000.

**POLS3050 - Athenian Democracy**

Credits: 3  
Examines democratic government in ancient Athens: its origins and development, its practical workings, how politics were conducted and power was gained and exercised, citizen participation, law courts, and evaluations of democracy in the ancient world and since.

Cross Listed CLAS 3050/HIST 3050.  
**Prerequisite:** WB or COM2.

**POLS3610 - Classics in Environmental Thought**

Credits: 3  
Surveys classic texts in environmental thought from the nineteenth century through the present.

**Prerequisite:** POLS 1000.

**POLS3620 - Environmental Justice**

Credits: 3  
Examines core philosophical understandings of justice and applies them to the environment through a variety of case studies, analytical essays and monographs.

Cross Listed ENR 3620.  
**Prerequisite:** POLS 1000, POLS 2460, or POLS 3600, or permission of instructor.

**POLS4090 - Anglo-American Jurisprudence**

Credits: 3  
Considers topics, such as functions of law in a democratic society; historical origins and growth of the common law as contrasted to the civil (code) law systems; and principal theories of nature and functions of law which have influenced development of English and American legal institutions.
Dual Listed POLS 5090.
Prerequisite: 9 hours of political science or philosophy, including POLS 1000.

**POL4160 - Legal Philosophy**

Credits: 3
This course examines the philosophies that undergird the law, considering both ancient and modern legal thought. Throughout the course, both historical and contemporary examples will be used to illustrate the salient differences between philosophical approaches, to better articulate our understanding of the law.

Dual Listed POLS 5160.
Prerequisite: POLS 1000.

**POL4640 - Political Philosophy: Ancient and Medieval**

Credits: 3
Surveys political philosophy from Classical Greek period to Machiavelli.

Dual Listed POLS 5640.
Prerequisite: POLS 2460, or POLS 3600, or consent of the instructor.

**POL4650 - Political Philosophy: Modern**

Credits: 3
Surveys political philosophy from Machiavelli through the 19th century.

Dual Listed POLS 5650.
Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

**POL4660 - Political Philosophy: Contemporary**

Credits: 3
Examines central developments in political philosophy that guide action in today's world.

Dual Listed POLS 5660.
Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

**POL4710 - Topics in**

Credits: 1-3
Accommodates various specialized subjects not offered as regular courses.

Prerequisite: POLS 1000 and 3 additional hours of political science.

**POL2200 - Politics of Europe and the European Union**
Credits: 3  
Examines formal and informal aspects of politics in European countries and the European Union.

USP 2015 Code U5C2  
**Prerequisite:** POLS 1200 or POLS 1250 or permission of the instructor.  
• SOC 3900 - Social Theory

**Public Law Minor**

A minor in Public Law offers an opportunity for interdisciplinary study.

**Requirements**

**POLS4100 - Constitutional Law: Institutional Powers**

Credits: 3  
Encompasses case-study analysis of judicial decisions and policies affecting constitutional interrelationships among the three branches of federal government, federal-state relations, as well as powers of the states and federal government in the area of social and economic regulatory laws.

**Dual Listed** POLS 5100.  
**Prerequisite:** POLS 1000.

**POLS4110 - Constitutional Law: Civil Liberties and Rights**

Credits: 3  
Encompasses case-study analysis of judicial decisions and policies of the constitutional interpretation of the 1st Amendment (freedom of speech, press, association and religion), privacy rights, the rights of the criminally accused, and civil rights (racial and gender equality).

**Cross Listed** CRMJ 4110.  
**Dual Listed** POLS 5110.  
**Prerequisite:** POLS 1000, POLS 3100 recommended.

**POLS4840 - Seminar in Public Law**

Credits: 3  
Max Credit (Max. 6)

Includes reading and research on selected problems in public law.

**Dual Listed** POLS 5840.  
USP 2015 Code U5C3  
**Prerequisite:** 9 hours of political science or related fields including POLS 1000 and consent of instructor.  
• 9 hours from an approved list of courses in political science and other disciplines, with a minimum of 3 hours at the 3000-level or above.
Approved Public Law Minor Courses

**POLS2490 - Topics In:**

Credits: 1-3  
Max Credit (Max. 6)

Accommodates various specialized subjects not offered as regular courses.

**Prerequisite:** POLS 1000.

**POLS3100 - Politics and the Judicial Process**

Credits: 3  
Analyzes courts and their personnel in the American political system, including examination of functions of courts, characteristics of judicial process, approaches to the study of judicial behavior, and role of courts as policy makers.

**Former Course Number** [2100]

**Prerequisite:** POLS 1000.

**POLS4090 - Anglo-American Jurisprudence**

Credits: 3  
Considers topics, such as functions of law in a democratic society; historical origins and growth of the common law as contrasted to the civil (code) law systems; and principal theories of nature and functions of law which have influenced development of English and American legal institutions.

**Dual Listed** POLS 5090.  
**Prerequisite:** 9 hours of political science or philosophy, including POLS 1000.

**POLS4160 - Legal Philosophy**

Credits: 3  
This course examines the philosophies that undergird the law, considering both ancient and modern legal thought. Throughout the course, both historical and contemporary examples will be used to illustrate the salient differences between philosophical approaches, to better articulate our understanding of the law.

**Dual Listed** POLS 5160.  
**Prerequisite:** POLS 1000.

**POLS4710 - Topics in**

Credits: 1-3  
Accommodates various specialized subjects not offered as regular courses.
Prerequisite: POLS 1000 and 3 additional hours of political science.

AGEC3400 - Agricultural Law

Credits: 3
Surveys legal issues and principles of practical concern to agriculture and examines legal institutions authorized to carry out laws affecting agriculture.

When Offered (Normally offered fall semester)
USP 2003-2014 Code U3WB
Former Course Number [4400]

Prerequisite: WA/ COM1 and junior standing.

COJO4500 - Mass Communication Law

Credits: 3
Studies development of First Amendment law. Includes practical application of law to mass media practice; relationship of legal and social responsibilities of the mass media; and problems of law and regulation, such as constitutional, statutory and administrative.

Prerequisite: COM2 with a grade of C or better.

CRMJ2210 - Criminal Law

Credits: 3
Introduces the fundamental principles of substantive criminal law: the history and philosophy of modern criminal law, the basic dimension of criminality, the elements of major crimes, criminal defenses and the nature of criminal sanctions.

Prerequisite: CRMJ 1001 and POLS 1000.

CRMJ3110 - Criminal Courts and Processes

Credits: 3
Examines the structure, organization and operation of criminal courts and their role in the larger criminal justice system; the process of adjudication of criminal cases from initial charging through post-conviction review; the constitutional rights of the accused; and the roles of the major courtroom participants.

Prerequisite: CRMJ 1001, CRMJ 2210, and CRMJ 2400/SOC 2400, or declared Public Law minor.

CRMJ4140 - Criminal Legal Procedure

Credits: 3
Examines the constitutional principles that safeguard the rights and liberties of criminal suspects and constrain police
during the investigatory stages of the criminal justice process: arrest; search and seizure; interrogation; undercover operations; pretrial identification; and the exclusionary rule.

**Prerequisite:** CRMJ 1001, CRMJ 2210, and CRMJ 2400/SOC 2400, or declared Public Law minor.

**CRMJ4350 - Sociology of Law**

Credits: 3
A consideration of sociological concepts such as inequality, stratification, social control and social change in an analysis of the law and legal institutions. Topics include: the role of the police, lawyers, judges, and juries; race, sex, age, and sexuality discrimination and civil rights; free speech, and toxic torts.

**Cross Listed** SOC 4350.
**Prerequisite:** 6 hours of sociology/criminal justice, including SOC 1000, and at least junior standing.

OR

**SOC4350 - Sociology of Law**

Credits: 3
A consideration of sociological concepts such as inequality, stratification, social control and social change in an analysis of the law and legal institutions. Topics include: the role of the police, lawyers, judges, and juries; race, sex, age, and sexuality discrimination and civil rights; free speech, and toxic torts.

**Cross Listed** CRMJ 4350.
**Dual Listed** SOC 5350.
**Prerequisite:** 6 hours of sociology/criminal justice, including SOC 1000, and at least junior standing.

**CRMJ4540 - Gender and Crime**

Credits: 3
Addresses issues pertaining to gender and the criminal justice system to include women's roles as offenders and victims and their unique experiences in the criminal justice system. Feminist perspectives, LGBTQ+ and special populations are also explored.

**Cross Listed** GWST 4540 / GWST 5540.
**Dual Listed** CRMJ 5540.
**Prerequisite:** ENGL 1080/WMST/GWST 1080, WMST/GWST 2500, WMST/SOC 3500, or CRMJ 2400/SOC 2400.

OR

**GWST4540 - Gender and Crime**

Credits: 3
Addresses issues pertaining to gender and the criminal justice system to include women's roles as offenders and victims and their unique experiences in the criminal justice system. Feminist perspectives, LGBTQ+ and special populations are also explored.

**Cross Listed** CRMJ 4540.
When Offered (Offered every other year)
Prerequisite: ENGL 1080/GWST 1080, WMST/SOC 3500, or CRMJ 2400/SOC 2400, WMST/GWST 2500

CRMJ4730 - Psychology and Law

Credits: 3
Exposes students to the application of psychological principles to problems in law. Emphasizes the American trial system, correction systems and civil commitment.

Cross Listed PSYC 4730.
Prerequisite: A grade of C or better in 6 hours in psychology.
OR

PSYC4730 - Psychology and Law

Credits: 3
Exposes students to the application of psychological principles to problems in law. Emphasizes the American trial system, correction systems and civil commitment.

Cross Listed CRMJ 4730.
Prerequisite: A grade of C or better in 6 hours in psychology.

HIST4515 - American Legal History

Credits: 3
An intensive course in the history of American law, the judicial system, the legal profession and legal administration from colonial times to the present.

Dual Listed HIST 5515.
Former Course Number [4710]

Prerequisite: 9 hours of HIST.

MGT2010 - Legal Environment of Business

Credits: 3
Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

Graduate

International Studies, M.A.

MA students will be able to pursue international, interdisciplinary research in order learn about global problems from a variety of historical, political, social, cultural, and economic perspectives.
Plan A (Thesis)

Students are encouraged to construct, with the adviser's approval, a program that focuses their own intellectual interests and career plans. To promote that end, students should be prepared to file a plan of study with the graduate adviser during the second semester of coursework.

No later than the second semester in residence, each student shall select a graduate committee to oversee his or her academic work. The committee will be chaired by the student's major professor and must have at least one member from outside of The School of Politics, Public Affairs, and International Studies. Students also will prepare a thesis proposal and give a presentation of their preliminary project before the International Studies faculty and complete a thesis prospectus defense with their graduate committee by the end of their second semester.

Students must pass an oral examination at the completion of their program. Normally, examination will center on the thesis, but may also encompass coursework of the candidate.

Required Coursework

Advanced Theory Course

**INST5200 - Graduate Proseminar in International Studies**

Credits: 3-6
Max Credit (Max. 6)

Introduces students to different interdisciplinary approaches - perspectives, theories, and paradigms - within International Studies in order to explain the economic, historical, social, cultural, and political dimensions of international processes and issues. Students explore emerging trends in the global system and the most pressing challenges facing states, societies, and peoples.

**Prerequisite:** graduate student status.

Research Methods Course

**INST5400 - International Social Science Research Methods**

Credits: 3

Introduces students to a wide variety of interdisciplinary social science methodologies that have proven especially conducive to international research.

**Prerequisite:** graduate standing.

Additional Information

Students take the Plan A (thesis). Students must have a minimum of 26 hours of graded non-thesis coursework and 4 hours of thesis.

**Program Specific Admission Requirements**
Admission is open to all students holding a bachelor's degree in any major. Foreign students, who are non-native English speakers, must pass the Oral Proficiency Interview (OPI).

Program Specific Degree Requirements

Master's Program

Students must meet three requirements:

1. Each student must take INST 5400.
2. Each student must take INST 5200.
3. Each student must demonstrate proficiency in a foreign language, accomplished in the course of the program or from previous experience or coursework. Foreign language hours do not count toward the M.A. degree.

The program also offers a joint International Studies/Environment and Natural Resources degree. See www.uwyo.edu/sppais for specific degree requirements.

Political Science, M.A.

Political Science studies how states govern themselves and interact. Subfields include: American politics, comparative government, international relations, political philosophy, public law, and public administration.

Plan A (Thesis)

Graduate Credit

At least 30 hours of graduate credit, to include:

- At least 6 additional hours of coursework in political science.
- A maximum of 9 hours of coursework in disciplines other than political science.
- A minimum of 4 hours thesis research.
- A master's thesis demonstrating independent research, written under the supervision of the major professor.
- An oral examination conducted by the graduate committee covering all coursework and the thesis.
- No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.
- Students must maintain a graduate GPA of 3.000.

INST5200 - Graduate Proseminar in International Studies

Credits: 3-6
Max Credit (Max. 6)

Introduces students to different interdisciplinary approaches - perspectives, theories, and paradigms - within International Studies in order to explain the economic, historical, social, cultural, and political dimensions of international processes and issues. Students explore emerging trends in the global system and the most pressing challenges facing states, societies, and peoples.

Prerequisite: graduate student status.
And

**INST5400 - International Social Science Research Methods**

Credits: 3  
Introduces students to a wide variety of interdisciplinary social science methodologies that have proven especially conducive to international research.

**Prerequisite:** graduate standing.

**Plan B (Non-Thesis)**

**Graduate Credit**

At least 30 hours of graduate credit, to include:

- At least 6 additional hours of coursework in political science.
- A maximum of 12 hours of coursework in disciplines other than political science.
- Plan B paper that reflects the quality but not scope of a master's thesis, written under the supervision of the major professor.
- An oral examination conducted by the graduate committee covering all coursework and the Plan B paper.
- No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.
- Students must maintain a graduate GPA of 3.000.

**INST5200 - Graduate Proseminar in International Studies**

Introduces students to a wide variety of interdisciplinary social science methodologies that have proven especially conducive to international research.

**Prerequisite:** graduate standing.
Public Administration (MPA)

The Master's in Public Administration degree offered at the University of Wyoming is considered an ethics based program where complicated issues of administrative decision making are the hallmarks of professional life.

Admissions

Admission is competitive and is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.00 GPA, 2 letters of recommendation, a letter of intent, and a short analytic writing sample. Foreign students, who are non-native English speakers, must also pass the Oral Proficiency Interview (OPI).

Only one class, POLS 5000, may be taken prior to full admission into the program with permission of the MPA director.

Plan B (non-thesis)

Thirty-nine hours of graduate credit, to include:

- 24 hours of core credit,
- 15 hours of approved elective credit.

Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits.

Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/electronic class discussion.

Students must maintain a graduate GPA of 3.00.

Current Core Courses

Thirty-nine hours of graduate credit, to include:

POLS5000 - Survey of Public Administration

Credits: 3
Designed to introduce the beginning graduate student to the study and practice of public administration at all levels of government. Attention is also directed to specific functions and processes such as intergovernmental relations, budgeting, personnel, and regulation.

Prerequisite: graduate status and consent of instructor.

POLS5400 - Public Personnel Management

Credits: 3
Designed to integrate information about the political environment of personnel administration with problem solving exercises in such specific areas as job analysis, affirmative action, and flextime. A number of topics including the
evolution of the civil service, the rights and responsibilities of governmental employees, the functions of public personnel management, and collective bargaining processes are also covered.

**Prerequisite:** POLS 5000.

**POLS5410 - Administrative Behavior and Theory of Organization**

Credits: 3
An advanced course in the theory of organization and the workings of public agencies.

**Prerequisite:** POLS 5000.

**POLS5440 - Principles and Processes of Government Budgeting**

Credits: 3
Analyzes the principles, processes and politics of the budgetary process in the U. S. It examines the various theories of budgetary decision-making, the politics of budgeting and budgetary reforms.

**Prerequisite:** POLS 5000 and graduate standing.

**POLS5480 - Ethics In Government**

Credits: 3
The student is introduced to the ethical nature and dilemmas of public administration in American constitutional government. Such topics are addressed as source of ethical obligation, role of loyalty, application of moral philosophy, constitutional theory and ethical obligation, relation of theory and practice, and methods of ethical reflection.

**Prerequisite:** POLS 5000.

**POLS5510 - Public Policy and Program Management**

Credits: 3
An overview of governmental policy making processes in the U. S and the uses of applied policy analysis.

**Prerequisite:** POLS 5000.

**POLS5684 - Empirical Analysis for Public Administration**

Credits: 3
Designed for students in public administration to train them to make decisions based on empirical evidence in policy and management. Course draws concepts from system analysis, management science, operations research, and social science methodology to provide an understanding of various policy analysis and program management techniques across many applications.

**Prerequisite:** POLS 5000.
POLS5690 - Capstone in Public Management

Credits: 3
Integrates theories and concepts introduced in core and option-core courses, and emphasizes students' application of them to various administrative settings.

Prerequisite: completion of all other core and option core requirements in the MPA Program.

Approved Elective Credit

POLS4052 - Federal Land Politics

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed AMST 4052/ENR 4052/GEOG 4052/REWM 4052.
Prerequisite: POLS 1000.

POLS5051 - Environmental Politics

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051/ENR 4051/GEOG 4051/REWM 4051.
Dual Listed POLS 4051.
Prerequisite: POLS 1000.

POLS5420 - Seminar In Public Administration

Credits: 3
Max Credit (Max. 6)
A reading and research course in selected topics in public administration.

Dual Listed POLS 4420.
Prerequisite: POLS 1000 and consent of instructor.

POLS5445 - Drug War Geopolitics in the Americas

Credits: 3
This course examines illegal drug commodity chains and international efforts to police the drug trade in the Americas. It approaches the drug war through a "critical geopolitics" framework, also covering broader themes such as
international politics, livelihoods, development, environmental justice, the global economy, race-based discrimination, public health, and resistance movements.

Cross Listed INST 5445.
Dual Listed POLS 4445.
Prerequisite: 9 hours of international studies or social science coursework

POLS5450 - Administrative Regulation

Credits: 3
Significant points of contact between government and business are stressed. Government activities designed to regulate and aid such economic interests as business, labor, agriculture, and consumers are dealt with at length.

Prerequisite: POLS 5000.

POLS5460 - Public Administration and Law

Credits: 3
Focuses on various facets of the relationship between American public administration and law. Emphasis is placed on the emerging body of administrative law as a context for jurisprudential reasoning in administrative decision making.

Prerequisite: POLS 5000.

POLS5465 - Survey of the Nonprofit Sector

Credits: 3
This foundational course is designed to give students of diverse backgrounds a common framework for understanding the nonprofit sector in the United States and globally. Students in this course will identify and interpret key theories, issues, and challenges in the nonprofit world and will consider the implications for practice.

Dual Listed POLS 4465.
Prerequisite: graduate standing.

POLS5500 - Internship in Public Administration

Credits: 1-6
Max Credit (Max. 6)

Educationally-oriented assignments for work in selected public agencies, with tutorial types of supervision.

Prerequisite: consent of instructor.

POLS5530 - USCongress

Credits: 3
Analyze aspects of the U. S. Congress, including election of congressmen, legislative process, congressional-
presidential relations, and the influence of political parties, interest groups, and constituents on the legislative process.

**Dual Listed** POLS 4430

Prerequisite: POLS 1000.

**POLS5540 - Public Policy Perspectives**

Credits: 3
Acquaints students with the underlying structure and dynamics of public policy formulation, implementation, and evaluation at the state, local, and federal levels. Drawing on a number of analytic approaches, the course seeks to understand this complex political phenomenon in the context of the institutions that drive it.

Prerequisite: graduate standing.

**POLS5600 - Political Violence**

Credits: 3
Examines causes and consequences of violence both among individuals and among nations.

**Dual Listed** POLS 4600.
Prerequisite: POLS 1000, or SOC 1000, or POLS 1200, or POLS 1250, or POLS 2310, or permission of instructor.

**POLS5685 - Program Evaluation and Policy Analysis**

Credits: 3
Explores techniques for analyzing and evaluating public policy choices and impacts.

**Dual Listed** POLS 4685.
Prerequisite: STAT 5070 or equivalent and an introductory research methods course in social science or related discipline.

**POLS5710 - Topics In Political Science**

Credits: 1-3
Max Credit (Max. 9)
Intended to accommodate various specialized subjects not offered as regular courses.

Prerequisite: graduate standing.

**POLS5810 - Seminar in Political Philosophy**

Credits: 3
Encompasses reading and research on selected problems in political philosophy.
Dual Listed POLS 4810.
USP 2015 Code U5C3
Prerequisite: POLS 2460, or POLS 3600, or consent of instructor.

CRMJ4130 - Leadership and Management in the Criminal Justice System

Credits: 3
There is a clear need for managers and administrators to understand leadership and ethics. This course is designed to provide students with a foundation in the management and leadership discourse surrounding criminal justice agencies.

Prerequisite: CRMJ 1001, CRMJ 2210, CRMJ 2400/SOC 2400, and CRMJ 3490.

CRMJ5000 - Survey of Criminal Justice

Credits: 3
Provides an overview of criminal justice theory by providing critical evaluation and discussion of research in the criminal justice field. It will emphasize seminal works and review current research concerning the structure, function, operation, interaction of the criminal justice system's primary components, and future trends.

Prerequisite: Admission to the MPA Program or consent of instructor.

CRMJ5100 - Public Policy and Crime

Credits: 3
This course is designed to take a multidimensional look at public policy issues related to the prevention and control of crime in the United States. Issues covered include the development, implementation, and evaluation of crime control policy.

Prerequisite: Admission to the MPA Program or consent of instructor.

CRMJ5280 - Comparative Criminal Justice

Credits: 3
Compares the incidence, trends, control, treatment and prevention of crime across nations using mainstream criminological theories. Examines criminal justice systems from an international perspective and draws lessons for the American society. Explores forms of international cooperation and difficulties in the control of transnational crimes.

Dual Listed CRMJ 4280.
USP 2003-2014 Code U3G, U3WC
A&S College Core 2015 ASG
Prerequisite: graduate standing.

CRMJ5500 - Internship in Criminal Justice

Credits: 3
Educationally-oriented assignments for work in selected criminal justice agencies, with tutorial types of supervision.
Prerequisite: Admission to the MPA Program or consent of instructor.

**CRMJ5860 - Social Inequality, Crime, Criminal Justice and the Law**

Credits: 3
Provides an in-depth look at social inequality and its impact on crime, criminal justice, and the law. Particular emphasis will be given to the individual and interactive effects of race, class, and gender inequality. Critical theoretical perspectives that promote social justice will be the primary analytical focus.

**Dual Listed** CRMJ 4860.
**Prerequisite:** graduate standing or consent of the instructor.

**CNSL5060 - Counseling Ethics and Professional Issues**

Credits: 3
Designed to provide students with a philosophical base for making ethical decisions in the professional situations they encounter. In addition, it involves a chance to discuss many specific ethical and professional issues that are commonly encountered in the profession.

**Prerequisite:** program admission or consent of instructor.

**EDRE5530 - Introduction To Research**

Credits: 3
Basic concepts of educational research design, statistics, and measurement. The focus of the course is on reading and critiquing research articles, both quantitative and qualitative, and includes an introduction to statistics. Students learn to conduct a review of the literature relevant to a specific research problem.

**Prerequisite:** graduate standing.

**ENGL4075 - Writing for Non-Profits**

Credits: 3
Designed for students interested in working in the non-profit sector. Explores rhetorical, political, and social dimensions of writing and communicating in the non-profit world and features intensive study of special topics and problems related to non-profit communication, including activism, grant writing, organizational rhetoric, and non-profit genres. Content varies.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
**Prerequisite:** WB/COM2.

**STAT5220 - Advanced Design**

Credits: 3
Advanced study of experimental designs, observational designs, and mixed models. Topics include fixed and random
effects, factorial, split-plot and repeated measures designs, and hierarchical models. Linear model methodology and Data Science concepts will also be emphasized.

**Prerequisite:** MATH 5265/STAT 4265/STAT 5265, and at least one of STAT 4015/STAT 5015, STAT 4025/STAT 5025, or STAT 5210.

**Public Administration (MPA/JD)**

The Master's in Public Administration degree offered at the University of Wyoming is considered an ethics based program where complicated issues of administrative decision making are the hallmarks of professional life.

**Admissions**

Admission is competitive and is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.00 GPA, 2 letters of recommendation, a letter of intent, and a short analytic writing sample. Foreign students, who are non-native English speakers, must also pass the Oral Proficiency Interview (OPI).

Only one class, POLS 5000, may be taken prior to full admission into the program with permission of the MPA director.

**Plan B (non-thesis)**

Thirty-nine hours of graduate credit, to include:

- 24 hours of core credit,
- 15 hours of approved elective credit.

Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits.

Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/electronic class discussion.

Students must maintain a graduate GPA of 3.000.

**Current Core Courses**

**POLS5000 - Survey of Public Administration**

Credits: 3

Designed to introduce the beginning graduate student to the study and practice of public administration at all levels of government. Attention is also directed to specific functions and processes such as intergovernmental relations, budgeting, personnel, and regulation.

**Prerequisite:** graduate status and consent of instructor.
POLS5400 - Public Personnel Management

Credits: 3
Designed to integrate information about the political environment of personnel administration with problem solving exercises in such specific areas as job analysis, affirmative action, and flextime. A number of topics including the evolution of the civil service, the rights and responsibilities of governmental employees, the functions of public personnel management, and collective bargaining processes are also covered.

Prerequisite: POLS 5000.

POLS5410 - Administrative Behavior and Theory of Organization

Credits: 3
An advanced course in the theory of organization and the workings of public agencies.

Prerequisite: POLS 5000.

POLS5440 - Principles and Processes of Government Budgeting

Credits: 3
Analyzes the principles, processes and politics of the budgetary process in the U. S. It examines the various theories of budgetary decision-making, the politics of budgeting and budgetary reforms.

Prerequisite: POLS 5000 and graduate standing.

POLS5480 - Ethics In Government

Credits: 3
The student is introduced to the ethical nature and dilemmas of public administration in American constitutional government. Such topics are addressed as source of ethical obligation, role of loyalty, application of moral philosophy, constitutional theory and ethical obligation, relation of theory and practice, and methods of ethical reflection.

Prerequisite: POLS 5000.

POLS5510 - Public Policy and Program Management

Credits: 3
An overview of governmental policy making processes in the U. S and the uses of applied policy analysis.

Prerequisite: POLS 5000.

POLS5684 - Empirical Analysis for Public Administration

Credits: 3
Designed for students in public administration to train them to make decisions based on empirical evidence in policy and management. Course draws concepts from system analysis, management science, operations research, and social
science methodology to provide an understanding of various policy analysis and program management techniques across many applications.

**Prerequisite:** POLS 5000.

**POLS5690 - Capstone in Public Management**

Credits: 3
Integrates theories and concepts introduced in core and option-core courses, and emphasizes students' application of them to various administrative settings.

**Prerequisite:** completion of all other core and option core requirements in the MPA Program.

**Academic Regulations**

- A student in the joint Juris Doctor/Master of Public Administration program must be admitted to both the College of Law and College of Arts and Sciences. The degrees are awarded concurrently by each college upon successful completion of the combined degree program requirements. In fulfillment of the J.D. degree, the College of Law will accept up to nine hours of MPA credits in courses approved by the law faculty (see Academic Regulations). In fulfillment of the MPA degree, the College of Arts and Sciences will accept up to 12 hours of credits earned in the J.D. program. For additional information regarding these joint degree programs, contact the College of Law or the joint program of interest.
- Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits.
- Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course.
- Students must maintain a graduate GPA of 3.000.

Academic Professional Lecturer:

CATHARINE P. CARRICO, B.A. Austin College; Ph.D. University of Northern Colorado; Clinical Associate Professor 2020.

SCOTT FRENG, B.S. Black Hills State University 1995; M.A. University of South Dakota 1998; Ph.D. University of Nebraska - Lincoln 2001; Senior Lecturer in Psychology 2013, 2003.

MARIA I. KUZNETSOVA, B.A. Syktyvkar State University - Russia 2000; M.S. University of South Carolina - Aiken 2005; Ph.D. Virginia Commonwealth University 2011; Associate Academic Professional Lecturer in Psychology 2017, 2011.

Professor Emeritus

George Blau, David Estes, Charles J. Ksir, Karen B. Nicholas

The Department of Psychology offers coursework at several levels:

1. Introductory courses for students in other programs who wish an elementary knowledge of psychology.
2. Courses supportive of work in other majors.
3. An undergraduate major that is sufficiently flexible to allow students to prepare for graduate programs in psychology, professional schools (e.g. law, medicine) or for employment after graduation.
4. Graduate course work leading to the Ph.D. in clinical psychology, social psychology, cognition/cognitive development, or psychology and law.

Facilities are available for course work and laboratory experiences in areas of psychology such as cognition, personality, social, biological psychology, cognitive development, and psychology and law.

Students who wish to increase chances of employment related to their undergraduate majors should consult an adviser concerning areas of specialization within psychology.

Students planning graduate work in psychology should consult with their faculty adviser concerning career choices and development.

Learning Outcomes

We expect that our Psychology graduating students will have:

1. a basic knowledge of psychology and related fields.
2. the ability to evaluate the assumptions, purposes, methods, and results of psychological research and scholarship.
3. skills in teamwork, leadership, writing, speaking and listening, especially concerning psychology-related topics.

Credit by Examination

Credit by examination will be allowed only for PSYC 1000. The examination accepted is the College Level Examination Program (CLEP); the passing score is 50.
Advanced Placement

The psychology department will accept a score of 4 on the AP exam for credit in PSYC 1000, effective Fall 2015.

Undergraduate Major

A major requires a minimum of 33 semester hours and may not exceed 60 hours in psychology. Of these, 18 hours must be at the 3000 level or above. These upper-division courses must also be taken from at least two different members of the psychology department faculty listed in this Catalog.

*Students must complete the following courses:*

PSYC 1000 General Psychology

PSYC 2000 Research Psychological Methods

*Four of five cores:*

Biological,

PSYC 2210 Drugs and Behavior or PSYC 2080 Biological Psychology

Developmental,

PSYC 2300 Developmental Psychology

Clinical,

PSYC 2340 Abnormal Psychology

Social,

PSYC 2380 Social Psychology

Cognitive,

PSYC 3120 Cognitive Psychology

Additionally one of the following restricted enrollment (seminar or writing intensive) courses is required: PSYC 4040, 4150, 4250, 4320, 4350, 4380, 4400, 4740, 4860.

Also required are 6 hours of anthropology, communication/journalism, criminal justice, economics, political science, or sociology; LIFE 1003 or 1010; and STAT 2050 or 2070.

One approved 3-4 credit hour STEM course: CHEM 1000, CHEM 1020, COSC 1010, COSC 1100, KIN/ZOO 2040, KIN/ ZOO 2041, LIFE 2002, LIFE 2022, LIFE 2023, LIFE 2050, MATH 1050, MATH 1405, MATH 2200, MICR/MOLB 2021, PHYS 1050, PHYS 1110, STAT 2000, STAT 3050, or ZOO 3600.

Students who have an established UW GPA and who wish to change their major to Psychology, or to add Psychology as a major, will be required to have a UW GPA of at least 2.500.

For graduation, students must receive a C or better grade in all courses taken to satisfy department requirements.

Psychology courses taken 15 or more years ago will not be used to satisfy degree requirements.
Undergraduate Minors

The Department of Psychology offer two undergraduate minors: psychology and aging studies.

Psychology

A minor in psychology requires 18 semester hours in psychology. These must include PSYC 1000 or equivalent and 9 hours at the 3000-level or above. A grade of C or better is required in all minor courses.

Students seeking a minor must have 12 hours exclusive to the minor and not used in the major.

Aging Studies

A minor in aging studies requires 18 credit hours. These must include the following:

Core Courses

NURS 2240, FCSC 2110, HLSC 4985

Elective Courses - 9 credits

6 credits must be outside student major

Academic Standards

At least 12 credit hours in a minor must be from courses that are not being counted toward the student's major. No grade below a C is acceptable for courses applied to the minor.

Background Check

Students seeking the minor in Aging Studies will be required to obtain a background check as specified by College of Health Sciences policy. Please contact us for specific information.

Program Plan

Complete the Program Plan of Study with both your major academic advisor and your minor advisor.

Graduate Study

The Department of Psychology offers the doctor of philosophy in psychology with programs in clinical (APA accredited) psychology, social psychology, cognition/cognitive development, and psychology and law.

Program Specific Admission Requirements

The deadline for receipt of all application materials is December 1. We only admit students one time per year. Our graduate students begin their programs of study in the fall semester. Although our graduate programs technically consist of separate master's and doctoral degree components, only students who are applying for, and who expect to complete, the doctoral program are considered for admission. That is, we do not offer a terminal master's degree.
Application materials include the application, one to two page statement of purpose, undergraduate and graduate (if applicable) transcripts, curriculum vitae, and three letters of recommendation. An application fee of $50 is required.

Applications are evaluated based on the applicants' academic qualifications (e.g., undergraduate GPA, graduate GPA if applicable, course specific grades) and stated research and (if applicable) clinical interests. Particular attention is paid to the goodness of fit between the applicant's expressed research/clinical interests and the particular strengths and offerings of our program.

Our program does not employ a set of formal "cut-offs" with regard to any of the quantitative application elements (e.g., undergraduate/graduate GPA). Often a strong record in one area may make up for a weakness in another area. Applicants interested in information on the qualifications of admitted students should consult the student summary data (www.uwyo.edu/psychology).

Program Specific Graduate Assistantships

Applicants are considered for graduate assistantships at the time of admission. Graduate students typically receive some departmental financial support for the first four years.

Program Specific Degree Requirements

Master's Programs Plan A (thesis)

In addition to the general requirements specified in this Catalog, the following are required: (1) successful completion and oral defense of a thesis; (2) PSYC 5060. Statistical Methods in Psychology - 3 hours or STAT 5050. Statistical Methods in Biological Science - 3 hours; PSYC 5300. Applied Multivariate Analysis - 3 hours or STAT 5055. Statistical Methods for Biologists II - 3 hours; PSYC 5520. Research Design in Psychology - 3 hours; (3) at least 9 hours in 5000-level courses exclusive of those listed above and exclusive of research and thesis research credit.

A minimum of 30 semester hours is required (26 coursework hours and 4 thesis hours).

Doctoral Programs

Clinical Psychology

Students complete a four-year, on-campus sequence of required courses covering core areas of psychology and clinical competency. In addition, the following are required: successful completion of a thesis, a preliminary comprehensive examination, a dissertation, two summer clerkships, and a full year APA accredited internship.

Social Psychology, Cognition/Cognitive Development, or Psychology and Law

Students complete course requirements in topics designated as core areas of psychology, a preliminary comprehensive examination, and a research-based dissertation.

Major

Psychology, B.S.

Learn empirical approaches to understanding human behavior from biological, clinical, cognitive, developmental, neuroscientific, and social psychological perspectives. Develop skills in critical thinking, communication, and scientific research.
University Studies Program Requirements

The University Studies Program 2015

**FYS - First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**
Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**A&S College Core**

D - Diversity 3 credits
G - Global 3 Credits

**Students Must Complete the Following Courses:**

**PSYC1000 - General Psychology**

Credits: 3
Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

**PSYC2000 - Research Psychological Methods**

Credits: 4
Introduces some of the methods of investigating psychological questions. Exposure to various research strategies ranging from observational to experimental, using representative laboratory exercises, lectures, readings, films and demonstrations. Requires written and oral reports. May be used to satisfy department's written and oral communication
requirement for majors. Laboratory two hours per week.

USP 2003-2014 Code U3WB
**Prerequisite:** A grade of C or better in PSYC 1000, WA or COM1, STAT 2050 or STAT 2070.

**Four of Five Cores:**

**Biological Core**

**PSYC2210 - Drugs and Behavior**

Credits: 3
Surveys drugs which affect behavior, emphasizing both psychotherapeutic agents and drugs with abuse potential. Includes brief introduction to the chemistry of the brain and how drugs may have their effects. Behavioral, social, historical and medical aspects of each major class of psychoactive drugs are discussed.

**Prerequisite:** A grade of C or better in PSYC 1000.

**OR**

**PSYC2080 - Biological Psychology**

Credits: 3
Introduces biological bases of behavior. Includes ethology and comparative behavior, psychobiological development, physiological and sensory mechanisms of behavior, and evolution and behavioral genetics. Presents basic structural and functional properties of the nervous system.

**When Offered** (Normally offered fall semester)

**Prerequisite:** A grade of C or better in PSYC 1000 and general biology.

**Social Psychology Core**

**PSYC2380 - Social Psychology**

Credits: 3
Examines how peoples' thoughts, feelings, and behaviors are influenced by the presence of others. Course will cover a broad range of theories and research in social psychology.

**When Offered** (Normally offered fall semester)

**Former Course Number** [4755]

**Prerequisite:** A grade of C or better in PSYC 1000.

**Clinical Core**
PSYC2340 - Abnormal Psychology

Credits: 3
Provides a general overview of abnormal behavior, emphasizing types, etiology and treatment methods.

When Offered (Normally offered spring semester)
Former Course Number [4340]

Prerequisite: A grade of C or better in PSYC 1000.

Cognitive Core

PSYC3120 - Cognitive Psychology

Credits: 3
Deals with higher mental processes that are primarily unique to human beings from theoretical and research orientations. Emphasizes interrelationships between various cognitive processes and continuity of those processes with perceptual and non-cognitive activities. Discusses how information is processed and remembered.

When Offered (Normally offered spring semester)
Former Course Number [4120]

Prerequisite: A grade of C or better in 6 hours of psychology including PSYC 1000.

Developmental Core

PSYC2300 - Developmental Psychology

Credits: 3
Introduces psychological development, including age-related changes in thinking, emotion, and behavior. Major theories, methodologies, and empirical discoveries are surveyed in an exploration of developments beginning with conception, with emphasis on social, affective, and cognitive developments in childhood and infancy and their implications for policy and practice.

When Offered (Normally offered spring semester)
Prerequisite: A grade of C or better in PSYC 1000.

One of the Following

Additionally one of the following restricted enrollment (seminar or writing intensive) courses is required:

PSYC4150 - Cognitive Development

Credits: 3
Examines cognitive development from infancy through adolescence. Explores, through lecture, discussion and projects,
major theories and current empirical research on cognitive development, as well as implications for social and educational policies concerning children.

**Prerequisite:** A grade of C or better in 9 hours of psychology, including child psychology course.

**PSYC4250 - Psychological Aspects of Chronic Illness**

Credits: 3  
Investigates the impact of chronic physical illnesses on diagnosed children and adults, their families, and society. Emphasizes effects of illnesses on psychological adaptation and quality of life. Should be of particular interest to helping professionals and health care workers.

**Prerequisite:** A grade of C or better in PSYC 1000 and PSYC 3250.

**PSYC4320 - Intellectual Disability**

Credits: 3  
Acquaints students will all aspects of intellectual disability including assessment, diagnosis and classification, etiology, and associated health and mental health difficulties. Prevention, educational and psychological intervention, family adaptation, and community involvement are also addressed.

**Prerequisite:** A grade of C or better in PSYC 1000 and PSYC 2300 or PSYC 4300 or FCSC 2121 or EDST 2450.

**PSYC4350 - Psychology of Adulthood**

Credits: 3  
Examines theories and research on psychological development from early adulthood to the end of life, with special emphasis on positive development, successful aging, and methodological issues in the study of adult development.

**Prerequisite:** A grade of C or better in PSYC 1000.

**PSYC4380 - Death and Dying**

Credits: 3  
Designed to provide a comprehensive overview of the field of thanatology. Death is considered from both an individual and sociocultural perspective. Aims to provide solid ground in research, methods, and theory of end-of-life issues and to encourage contemplation of personal and professional applications of death studies.

**Prerequisite:** A grade of C or better in PSYC 1000 and junior/ senior standing.

**PSYC4390 - Personality Science**

Credits: 3  
Examines the contemporary science in personality psychology, with a focus on the genetic, biological, social, cognitive, and affective variables which interact to influence individual differences and personality coherence.
**PSYC4400 - Principles of Psychological Testing**

Credits: 3  
Encompasses basic concepts, principles and procedures of psychological testing, with a lecture, discussion, laboratory project approach. Emphasizes nature and uses of test reliability, validity, norms and transformations, selecting and evaluating tests, test interpretation models and professional ethics in test use. Lecture three hours per week.

**Prerequisite:** A grade of C or better in PSYC 1000 and PSYC 2300 or PSYC 2340 or PSYC 2380.

**PSYC4740 - Advanced Social Psychology**

Credits: 3  
Concentrates on critical assessment of interpersonal behavior. Students are expected to become familiar with data gathering, analysis and reporting procedures commonly used in contemporary social psychology.

**USP 2003-2014 Code U3WC**  
**Prerequisite:** A grade of C or better in PSYC 2000 and PSYC 2380.

**PSYC4860 - Seminar**

Credits: 1-6  
Course consists of extended and in-depth discussions of particular topics in psychology. Topics vary semester to semester. Class format may include lecture, group discussion, and group activities. Reading assignments will draw heavily from scientific literature and may include journal articles, textbooks, or book chapter.

**Prerequisite:** 9 hours in psychology.

**PSYC4040 - Cognitive Neuroscience**

Credits: 4  
Examines the underlying neural bases of higher cognitive functions in humans, including attentions, language, motor control, navigation, emotions, and memory, as well as neuroanatomy fundamentals and neuroscience methods such as fMRI and ERP. Lecture and lab components.

**Prerequisite:** A grade of C or better in PSYC 2080 or PSYC 3120 or ZOO 4280.

A total of 18 hours at the 3000 level or higher are required

Also Required
Also required are

- 6 hours of anthropology, communication/journalism, criminal justice, economics, political science, or sociology;

**LIFE1003 - Current Issues in Biology**

Credits: 4
Emphasizes central themes of biology - cell biology, genetics, evolution, ecology - and scientific methodology by focusing on current issues in biology. Fundamental concepts are addressed through classroom and laboratory activities and discussions. This course is intended for non-science majors. Students cannot receive duplicate credit for LIFE 1010 or LIFE 1020.

**When Offered** (Normally offered spring semester)
USP 2003-2014 Code U3SB
USP 2015 Code U5PN
**Former Course Number** [BIOL 1003]

**LIFE1010 - General Biology**

Credits: 4
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN
**Former Course Number** [BIOL 1010]

**Prerequisite:** Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

**STAT2050 - Fundamentals of Statistics**

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1000, MATH 1400, or equivalent.

**STAT2070 - Introductory Statistics for the Social Sciences**
Credits: 4
Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.
USP 2003-2014 Code U3Q,U3QB
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

STEM Course

One approved 3-4 credit hour STEM course:

**CHEM1000 - Introductory Chemistry**

Credits: 4
Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.
**When Offered** (Normally offered fall semester)
USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.

**CHEM1020 - General Chemistry I**

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.
**When Offered** (Normally offered fall semester)
USP 2003-2014 Code U3S
USP 2015 Code U5PN
Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

**COSC1010 - Introduction to Computer Science I**

Credits: 3
Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

**COSC1100 - Computer Science Principles and Practice**
Introduces use of computers for algorithmic problem solving. Studies scope, major contributions, tools and current status of computer science. Presentation of computer science principles; use of software packages and evaluation of their effectiveness; and elementary programming.

**When Offered** (Offered based on sufficient demand and resources)

**Prerequisite:** C or better in MATH 1400 or in any University Studies QB or Level 4 or higher on Mathematics Placement Exam.

**ESS4001 - Analysis of Nature's Data**

Credits: 3

"Statistical thinking will one day be as necessary for efficient citizenship as the ability to read and write." In this course, we lead with environmental questions to examine elements of statistics, statistical thinking, data analysis, and data visualization in the environmental sciences. We use program R for all applications.

**Prerequisite:** STAT 2050, or STAT 2070, or consent of the instructor.

**GEOL3500 - Global Change: A Geological Perspective**

Credits: 4

Considers the geochemical and geophysical systems that control the Earth's climate, the geological and historical record of climate change, and then discusses the possible effect that human activities will have upon these chemical and geophysical systems.

**Prerequisite:** junior standing and an introductory class in the physical sciences.

**KIN2040 - Human Anatomy**

Credits: 3

Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

**KIN2041 - Human Anatomy Laboratory**

Credits: 1

A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.
**Former Course Number [PEPR 2041]**

**Prerequisite:** KIN 2040 or concurrent enrollment in KIN 2040.
- ZOO 2041

**LIFE2022 - Animal Biology**

Credits: 4
An integrative course addressing the evolution, anatomy, physiology, and ecology of animals. Continues building upon the four themes in LIFE 1010, cell and molecular biology, genetics, evolution, and ecology. Preserved animal specimens are dissected during some labs. Intended for students majoring in the life sciences. Laboratory is required.

**When Offered** (Normally offered spring semester)

**Former Course Number [BIOL 2022]**

**Prerequisite:** LIFE 1010 with a grade of C or better.

**LIFE2023 - Biology of Plants and Fungi**

Credits: 4
An integrated course dealing with the central themes of biology including cell and molecular biology, genetics, evolution and ecology of plants and fungi. Intended for students majoring in the life sciences. Laboratory is required.

**When Offered** (Normally offered fall semester).

**Former Course Number [BIOL 2023]**

**Prerequisite:** LIFE 1010 with a grade of C or better.

**MATH1405 - Trigonometry**

Credits: 3
Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA
USP 2015 Code U5Q

**Prerequisite:** grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

**MATH2200 - Calculus I**

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the
derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MICR2021 - General Microbiology

Credits: 4
Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.
Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.

MICR4001 - Epidemiology (Diseases in Population)

Credits: 3
Basic epidemiologic concepts and approaches to population problems in medicine, with examples from veterinary and human health. Covers a wide spectrum of topics and introduces practical applications of epidemiology.

Cross Listed PATB 4001.
Dual Listed MICR 5001.
Prerequisite: STAT 2050.

MOLB2021 - General Microbiology

Credits: 4
Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021
When Offered Fall and Spring
Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

PHYS1050 - Concepts of Physics

Credits: 4
Introduces the physical world. For students whose background in math and science is minimal; recommended for
students in paramedical sciences and medical technology. Three lecture hours per week are supplemented by two hours per week of laboratory work.

USP 2003-2014 Code U3SP
USP 2015 Code USPN
Prerequisite: MATH 1000 or equivalent, or passing the Mathematics Placement examination at Level 2.

**PHYS1110 - General Physics I**

Credits: 4  
First course of two-semester sequence. Introduces elementary college physics without calculus. Primarily for premedical, predental, preoptometry, prephysical therapy and other students requiring insight into workings of the physical world. Includes classical mechanics, gravitation and heat. Laboratory sessions will illustrate principles studied. Students receiving credit for PHYS 1110 cannot receive credit for PHYS 1050, PHYS 1210 or PHYS 1310.

When Offered (Normally offered fall and summer semester)
USP 2003-2014 Code U3SP
USP 2015 Code USPN
Prerequisite: MATH 1450, 1405 or equivalent.

**STAT2000 - Statistics and the World**

Credits: 3  
Discusses statistical reasoning and methods as related to today's society. Emphasizes ideas rather than specific techniques. Focuses on real examples of the use (and misuse) of statistics. Includes sampling, experimentation, descriptive statistics, elementary probability and statistical inference.

USP 2003-2014 Code U3QB,U3Q
Prerequisite: grade of C or better in MATH 0921 or level 2 on the Math Placement Exam or Math ACT of 21 or Math SAT of 600 or concurrent enrollment in MATH 1080.

**STAT4015 - Regression Analysis**

Credits: 3  
Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

Dual Listed STAT 5015.  
Former Course Number [4010, 4410]

Prerequisite: STAT 2050 or equivalent

**STAT4025 - Design and Analysis of Experiments I**

Credits: 3  
Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and
incomplete blocks as time permits.

**Dual Listed** STAT 5025.  
**Former Course Number** [4020, 4310]

**Prerequisite:** STAT 2050 or equivalent

**STAT4155 - Fundamentals of Sampling**

Credits: 3  
Develops methodology of simple random sampling, stratified sampling, and multistage sampling. Provides applications related to physical, social, and biological sciences. Discusses single and two-variable estimation techniques. Presents estimation based on subsamples from subpopulations.

**Dual Listed** STAT 5155.  
**Former Course Number** [4150]

**Prerequisite:** choice of STAT 2010, STAT 2050, STAT 2070 or equivalent.

**ZOO3600 - Principles of Animal Behavior**

Credits: 3  
Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

**When Offered** (Normally offered spring semester)  
**Prerequisite:** introductory course in zoology, biology or psychology.

**ZOO4110 - HIV/AIDS: The Disease and the Dilemma**

Credits: 3  
Explores the basic biology of the HIV virus, and its effects upon the human body, the magnitude of the global HIV/AIDS pandemic, treatment and prevention of AIDS, and the social, political, economic, and legal issues of HIV/AIDS.

**Prerequisite:** LIFE 1003 or LIFE 1010.

**Additional Requirements**

A major requires a minimum of 33 semester hours and may not exceed 60 hours in psychology. Of these, 18 hours must be at the 3000 level or above. These upper-division courses must also be taken from at least two different members of the psychology department faculty listed in this *Catalog*.

Students who have an established UW GPA and who wish to change their major to Psychology, or to add Psychology as a major, will be required to have a UW GPA of at least 2.500.
For graduation, students must receive a C or better grade in all courses taken to satisfy department requirements.

Psychology courses taken 15 or more years ago will not be used to satisfy degree requirements.

**Minor**

**Aging Studies Minor**

**Background Check**

Students seeking the minor in Aging Studies will be required to obtain a background check. Please contact us for specific information.

**Program Plan**

Complete the Program Plan of Study with both your major academic advisor and your minor advisor.

A minor in aging studies requires 18 credit hours. These must include the following:

**Core Courses**

**FCSC2110 - Fundamentals of Aging and Human Development**

Credits: 3
Discusses aging as a lifelong process, involving interrelationships of the individual and his or her environment. Includes future demographic trends, family health care, social policy and mass media.

**Prerequisite:** PSYC 1000 or SOC 1000.

**HLSC4985 - Health Sciences Internship**

Credits: 1-6
Max Credit (Max. 6)

Gives students an opportunity to gain practical experience in a health care field of their choice. The intense relationship with a mentor allows the student to become socialized into a health care field, gain practice skills, and relate to other health care professionals in an interdisciplinary way.

**When Offered** (Offered fall, spring and summer)
**Prerequisite:** completion of all other degree requirements.

**Elective Courses - 9 Credits**

- 6 credits must be outside student major
Academic Standards

At least 12 credit hours in a minor must be from courses that are not being counted toward the student's major. No grade below a C is acceptable for courses applied to the minor.

Psychology Minor

Learn empirical approaches to understanding human behavior from biological, clinical, cognitive, developmental, neuroscientific, and social psychological perspectives. Develop skills in critical thinking, communication, and scientific research.

A minor in psychology requires 18 semester hours in psychology. These must include PSYC 1000 or equivalent and 9 hours at the 3000- level or above. A grade of C or better is required in all minor courses.

Students seeking a minor must have 12 hours exclusive to the minor and not used in the major.

Psychology, Minor in Aging Studies

Academic Standards:

At least 12 credit hours in a minor must be from courses that are not being counted toward the student's major. No grade below a C is acceptable for courses applied to the minor.

Background Check:

Students seeking the minor in Aging Studies will be required to obtain a background check. Please contact us for specific information.

Core Courses

**FCSC2110 - Fundamentals of Aging and Human Development**

Credits: 3
Discusses aging as a lifelong process, involving interrelationships of the individual and his or her environment. Includes future demographic trends, family health care, social policy and mass media.

**Prerequisite:** PSYC 1000 or SOC 1000.

**PSYC3400 - Community Resources for Older Adults**

Credits: 3
The purpose of this course is to raise student awareness of the needs of older adults in the community and to evaluate the continuum of long-term care resources available, service gaps, program models, and funding mechanisms. Community-based learning is required.

**Prerequisite:** FCSC 2110  or PSYC 1000
PSYC4970 - Aging Minor Internship

Credits: 1-6
This course provides students in the Aging Studies Minor the opportunity to experience applied aspects of aging studies in a community setting. Prior to registration the student must work with the minor advisor and instructor to identify the internship setting and complete all required paperwork.

Prerequisite: Completion of all other degree requirements

Electives

(9 credits hours - 6 credits must be outside student major)
An interdisciplinary program, current approved courses are offered through the College of Agriculture, College of Arts and Sciences, and College of Health Sciences.

- Social Psychology, Cognition/Cognitive Development, or Psychology and Law

Department of Theatre and Dance

2099 Buchanan Center for the Performing Arts, (307) 766-2199
Web site: uwyo.edu/thd/
Department Head: Margaret Wilson

Professors:

CECILIA ARAGÓN, B.S. McMurry University 1991; M.A. University of New Mexico 1996; Ph.D. Arizona State University 2003; Professor of Theatre and Dance 2017, 2005.

MARGARET WILSON, B.A. University of Wyoming 1981; M.S. 1987; Ph.D. Texas Woman's University 2007; Professor of Theatre and Dance 2016, 2005.

Associate Professor:
PATRICK KONESKO, B.A. Saginaw Valley University 2008; M.A. Bowling Green State University 2009; Ph.D. 2013; Assistant Professor of Theatre and Dance 2015, 2021.

Assistant Professors:

CATHERINE FOLDENAUER, B.S. University of California, Davis 2006; M.F.A. California Institute of the Arts 2021; Assistant Professor of Theatre and Dance 2020.

SCOTT TEDMON-JONES, B.F.A. University of Wyoming 2001; M.F.A. Carnegie Mellon University 2010; Assistant Professor of Theatre and Dance 2018.

Assistant Lecturers:

JASON BANKS, B.F.A. University of Florida 2004; M.F.A. The Ohio State University 2007; Assistant Lecturer FTRC 2020.

Adjunct Professor:

Neil F. Humphrey

Emeritus Professors:

Rebecca Hilliker, Patricia Tate, Ron Steger, Larry Hazlett, Leroy Hodgson

Degrees Offered

The Department of Theatre and Dance offers curricula leading to the B.A. degree and the Bachelor of Fine Arts and courses which fulfill a part of University Studies and various colleges' requirements, including the College of Arts and Sciences.

Curricula

Students may not take a course for S/U credit to satisfy course requirements in the major. This does not apply to courses offered for S/U only. Requirements for students majoring in the areas of the department are indicated below.

Theatre
The study of theatre provides students with a broad understanding of the art of theatre in a liberal arts college. The study of theatre is considered to provide a basis for more specialized theatre study in a graduate or professional school. The liberal arts education in theatre together with extensive experience in the production program also provides the foundation for a professional career in theatre, motion pictures, or television drama for those individuals with special desires and abilities. Secondary teaching certification in theatre can be obtained through this program of study.

Dance

The dance concentration within the Department of Theatre and Dance is designed to provide students with a broad foundation in the humanities and specific emphasis in performance and production aspects of dance. Students pursuing this course of study will have opportunities to attain technical competency in ballet and/or modern dance, to perform in yearly dance productions, to obtain practical experience in the fundamentals of teaching dance and to gain experience in technical theatre as an aid to dance production. The program seeks to provide a comprehensive view of dance as an artistically expressive medium, as well as a creative and recreational tool to human expression.

Students completing this program will qualify for more advanced private instruction as well as advanced academic instruction.

All dance students are matriculated into the BA degree. Students wishing to apply for the BFA in Dance Performance or BFA in Dance Science do so the second semester of their freshman year.

Students must receive a C or better in all courses designated THEA to satisfy department degree requirements. A student's transfer courses in Theatre and Dance must also reflect a C or better to be accepted for credit. A grade of C- does not meet the requirement.

Outcomes:

Our goal is to nurture artists and scholars within aesthetic, social, critical, historical and contemporary performance and dance idioms, who appreciate cultural literacy and respect diversity, who think critically, who master discipline-specific performance and production skills, and who foster knowledge and make compelling artistic choice on stage.

The Theatre and Dance Department expects that upon graduation all students will be able to:

- Demonstrate or detail the basic production process and make an informed assessment of quality in all areas of theatre and dance,
- Honor and represent historical, contemporary, and cultural diversity in academic and performance settings,
- Articulate the intersection of their personal, aesthetic, and social/political ideas in relation to a particular play, performance work or production,
- Develop collaborative skills, communicate effectively and function in a variety of contexts with self-knowledge, resilience, and resourcefulness, both in performance and in creation,
- Understand the demands and expectations of the profession,
- Synthesize and utilize knowledge from courses in the breadth of the discipline,
- Recognize and be familiar with postgraduate training opportunities in professional theatre, dance and academia.

Scholarships
A number of scholarships are available to interested majors in theatre or within the dance option. The University Theatre also maintains a summer company. Applications should be sent to the Department of Theatre and Dance, Dept. 3951, 1000 E. University Ave., Laramie, WY 82071.

**Departmental Activities/ Organizations**

The department sponsors one of the largest all-student activities on campus. Nearly 150 students take part in its productions each season. All students are eligible to participate in its productions through auditions.

Productions are mounted in the Buchanan Center for the Performing Arts which includes a flexible proscenium theatre, thrust theatre and experimental-studio theatre complete with scenic and costume support facilities.

Auditions, open to all university students, are publicly announced for each production. Qualified students may receive credit in performance and production areas (THEA 2050).

The Wyoming Summer Theatre presents a season of plays of varying types during the summer session. Theatre majors and minors are urged to spend at least one summer working with this group.

**Graduate Study**

At present, no program for graduate degrees in theatre and dance is offered.

**Major**

**Theatre and Dance, Acting Performance Concentration, B.F.A.**

The BFA in Acting Performance permits a total of 70-71 credits in the major. It is designed primarily for those desiring to pursue additional pre-professional training in musical theatre and or for those preparing to enter MFA graduate programs.

**University Studies Program Requirements**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.
COM2 - Communication 2

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Required Courses**

*These are the required courses for a B.F.A. with Acting Concentration: Certain substitutions may have to be made and all scheduling of classes should be discussed with an adviser.*

**THEA1040 - Production Crew I**

Credits: 0.5  
Participation in one Departmental production during semester enrolled. Contribute to the preparation and/or actual production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

**Prerequisite:** consent of instructor.

**THEA1200 - Introduction to Design**

Credits: 3  
Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

**THEA1300 - Musical Theatre Workshop: Voice and Acting**

Credits: 2  
Max Credit (Max. 8)

Musical Theatre Workshop: Voice & Acting will focus on developing and strengthening the speaking and singing voice for stage, wherein students will construct performances through integration of breath and voice work.

**THEA2010 - Theatrical Backgrounds Drama I**

Credits: 3  
First semester of a two-course series. Introduces dramatic literature through the ages.

**THEA2020 - Theatrical Backgrounds Drama II**

Credits: 3  
Prerequisite: THEA 2010.

**THEA2040 - Production Crew II**

Credits: 0.5
Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

Prerequisite: THEA 1040.

**THEA2100 - Acting II**

Credits: 3
Max Credit 3

Acting II builds on previous experience in acting with continued emphasis on analyzing, rehearsing and performing scenes, creating a believable stage image. Scene work, including scoring, will be examined with focus on contemporary realism. In addition, the course will focus on professional development and career readiness.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1100 OR equivalent

**THEA2160 - Stage Makeup**

Credits: 2
Introduction to theatrical makeup with the stage performer in mind. Focus on principles, materials, and techniques; concentrating on problems of designing and executing specific makeup designs and applications for a wide range of ages, types, and styles.

**THEA2170 - Speech for the Actor**

Credits: 3
Studies speech techniques, including the International Phonetic Alphabet and Standard American Speech for the Stage. Builds upon the FitzmauriceVoiceWork technique as well as other voice methodologies.

Prerequisite: THEA 1100 and THEA 1700.

**THEA2220 - Stagecraft**

Credits: 3
Introduces students to basic stage production practices and techniques, including safe rigging practices, set construction, scenic painting, stage properties, and stage lighting. Students are encouraged to participate in "hands-on" demonstrations during classes.
THEA2720 - Movement for Actors I

Credits: 2
This course explores physical awareness, movement integration and non-verbal story telling as essential skills for the actor in all performance efforts.

Prerequisite: THEA 1100.

THEA2790 - Stage Management

Credits: 3
Study of the essential elements of supervising theatrical productions. Stresses the art of organizing auditions, casts, crews, rehearsals, and performances while developing a unique professional relationship with directors, designers and actors. Students will work on a live production.

Prerequisite: THEA 1100, THEA 1200, THEA 2220.

THEA3710 - Acting III

Credits: 3
Building on concepts explored in Acting II, this course seeks to further develop the student's ability to interpret, create and sustain a well-developed, believable character. Acting III develops the actor's voice and body for characterization and character interaction through performances of scenes as well as the study of character and scene.

Restricted Theatre majors or permission of instructor

Prerequisite: THEA 2100

THEA3740 - Acting Styles

Credits: 3
Focuses on textual analysis of plays from different periods and styles of dramatic literature. Emphasizes vocal and physical interpretation of character as represented in non-realistic styles of drama.

Prerequisite: THEA 1100 and THEA 3710.

THEA3750 - Acting for the Camera

Credits: 3
Addresses performance skills required in acting for the camera. Covers various techniques, styles, and skills necessary to be successful in the professional world of film and television as an actor. Students perform scenes for 3-camera and single camera set-ups, and become familiar with rudimentary technical skills as crewmembers for shoots. Lecture and test material cover career opportunities, union affiliations, and current trends in the film and television industry.

Prerequisite: THEA 1100 and THEA 3710. THEA 3805. Stage Lighting II.
THEA3910 - 20th Century Theatre Diversity

Credits: 3
Studies plays and production techniques, within the context of historical and sociological events, as developed in the 20th Century that has led to the cultural diversity seen in modern theatre.

A&S College Core 2015 ASD
Former Course Number [591]

Prerequisite: junior standing.

THEA3950 - Dialects for the Actor

Credits: 3
Introduces the actor to five major dialects for the stage. Examines sensibility, vowel and consonant changes, pitch placement and charting.

Prerequisite: THEA 1100, THEA 1700, and THEA 2170.

THEA4710 - Acting IV

Credits: 3
Max Credit 3

Involves intensive work at an advanced level dealing with individual actor's problems through the medium of scene study.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 3710

THEA4720 - Auditioning and Professional Issues

Credits: 3
Introduces actors to process of finding, preparing and executing successful audition material, including monologues, songs and dance combinations. Examines actors to business aspects of the theatre world, including resumes, photos, contracts, unions, internships, apprenticeships, Equity Membership Candidacy programs, URTA's and professional actor training graduate programs. Culminates preparation for final semester auditions for the company/school of choice.

Prerequisite: THEA 1100, THEA 3710 and THEA 3740.

THEA4730 - Movement for Actors II

Credits: 2
This course explores physical awareness, movement integration and non-verbal story telling as essential skills for the
actor in all performance efforts.

**Prerequisite:** THEA 1100 and THEA 2720.

**THEA4820 - Directing I**

Credits: 3
Tools course. Focuses on basic pictorial and blocking skills of the director. Includes in-class exercises that cover structural and character analysis of play scripts, blocking annotation and prompt scripts, developing ground plans, creating compositions with emphasis, focus and balance, and employing movement as a dynamic tool. Requires two outside directing projects with verbal evaluations of all project work.

**Prerequisite:** THEA 2010, THEA 2020, THEA 3710, and THEA 3810 or instructor permission.

**THEA4930 - Theatre History I**

Credits: 3
First semester of a one-year series. Surveys theatrical and dramatic practices from origins of Western European theatre to the theatre of the avant-garde. Specifically focuses on the climate of ideas and theoreticians, theatrical practitioners and audiences. Offered fall semester.

**Prerequisite:** THEA 2010, THEA 2020, 6 hours in theatre at 3000-level.

**THEA4940 - Theatre History II**

Credits: 3
Second semester of a one-year series. Continues THEA 4930.

**Prerequisite:** THEA 4930.

- Foreign Language Credits: 8
  - A&S Global Credits: 3
  - A&S Diversity Credits: 3

Three Hours From the Following:

**THEA1410 - Beginning Ballet I**

Credits: 1
Introduces principles and practices of classical ballet technique.

**Prerequisite:** THEA 1410 or instructor permission.

**THEA1430 - Beginning Modern I**
Credits: 1
Introduces principles and techniques of modern dance.

USP 2015 Code U5H

THEA1450 - Beginning Tap Dance I
Credits: 1
Explores basic tap techniques and related principles of tap dance composition.

THEA1480 - Beginning Jazz Dance I
Credits: 1
Explores basic jazz dance techniques and related principles of jazz dance composition.

USP 2003-2014 Code H

*These are the required courses for a B.F.A. with Dance Performance Concentration. Certain substitutions may have to be made and all scheduling of classes should be discussed with an adviser.*

**THEA1021 - Academic and Professional Issues in Dance**

Credits: 1  
Introduces freshman to the discipline of dance and academic study at the University of Wyoming. Key intellectual and literacy concepts will be introduced, including, but not limited to: critical thinking and analysis, knowledge of the discipline, career options, diversity of the discipline, university and region.*
THEA1040 - Production Crew I

Credits: 0.5
Participation in one Departmental production during semester enrolled. Contribute to the preparation and/or actual production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

Prerequisite: consent of instructor.

THEA1200 - Introduction to Design

Credits: 3
Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

THEA1405 - Introduction to Pilates Training

Credits: 1
Max Credit (Max. 2)
An introduction to Pilates based training, including mat work and exercises on the Reformer.

Prerequisite: consent of instructor.

THEA1450 - Beginning Tap Dance I

Credits: 1
Explores basic tap techniques and related principles of tap dance composition.

THEA2040 - Production Crew II

Credits: 0.5
Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

Prerequisite: THEA 1040.

THEA2050 - Theatre Practice

Credits: 1-2
Encompasses individually supervised practical training in performance and production.

Prerequisite: consent of instructor.
THEA2160 - Stage Makeup

Credits: 2
Introduction to theatrical makeup with the stage performer in mind. Focus on principles, materials, and techniques; concentrating on problems of designing and executing specific makeup designs and applications for a wide range of ages, types, and styles.

OR

THEA2800 - Stage Lighting I

Credits: 3
Examines the elemental aspects of stage lighting including equipment, facilities, color, and fundamental electricity. Requires studio work on departmental productions. Intended for majors in the program.

Former Course Number [3800]

Prerequisite: THEA 2150 and THEA 2220.

OR

THEA3820 - Stage Costuming I

Credits: 3
A study of basic drawing and rendering skills, and a selective study of historical silhouettes. Objectives include the ability to trust instinct, application of the basic elements of design, applying historical reference and research to a specific character, developing a concept and finally the application of these principles to a final project.

Former Course Number [4840]

Prerequisite: THEA 1100.

THEA2100 - Acting II

Credits: 3
Max Credit 3

Acting II builds on previous experience in acting with continued emphasis on analyzing, rehearsing and performing scenes, creating a believable stage image. Scene work, including scoring, will be examined with focus on contemporary realism. In addition, the course will focus on professional development and career readiness.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1100 OR equivalent

THEA2200 - Backgrounds of Dance
Credits: 3
Surveys ethnic and theatrical dance forms from primal society to 20th century. Examines the place of the arts as a reflection of the culture.

USP 2003-2014 Code U3CA,U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

THEA2410 - Intermediate Ballet I

Credits: 1.5
Max Credit (Max. 3)

A first year, first semester ballet technique class for dance majors and minors. This course focuses on expanding the dancer's understanding and knowledge of technique, vocabulary, and principles of classical ballet.

USP 2015 Code U5H
Prerequisite: Admission by permission only.

THEA2420 - Intermediate Ballet II

Credits: 1.5
Max Credit (Max. 3)

A first year, second semester ballet technique class for dance majors and minors. This course focuses on expanding the dancer's understanding and knowledge of technique, vocabulary and principles of classical ballet.

USP 2015 Code U5H
Prerequisite: Admission by permission only.

THEA2430 - Intermediate Modern I

Credits: 1.5
Max Credit (Max. 3)

A first year, first semester, modern dance technique class for dance majors and minors. Knowledge of basic vocabulary and principles will be augmented with an understanding of historical techniques and their application to contemporary dance. Class meets three times per week.

USP 2015 Code U5H
Prerequisite: Limited to dance majors and minors; admission by permission only.

THEA2440 - Intermediate Modern II

Credits: 1.5
Max Credit (Max. 3)

A first year, second semester modern dance technique class for dance majors and minors. Mastering vocabulary and
principles will be augmented with a deeper understanding of historical techniques and their application to contemporary dance.

USP 2015 Code U5H
**Prerequisite:** THEA 2430. Limited to dance majors and minors; admission by permission only.

**THEA2450 - Intermediate Tap I**

Credits: 1
Continued studies in techniques and principles of tap dance and tap dance composition.

**Prerequisite:** THEA 1450.

**THEA2480 - Intermediate Jazz I**

Credits: 1
Continued studies in techniques and principles of jazz dance and jazz dance composition.

USP 2015 Code U5H
**Prerequisite:** THEA 1480. Instructor permission required.

**THEA3021 - Foundations of Dance Pedagogy**

Credits: 1
Introduces students to basic theories and practices of dance pedagogy. Lecture and discussion will be balanced with peer teaching and coaching, observation of lessons and integration within a dance classroom situation with some teaching responsibilities and development of a portfolio with lessons and resources for teaching.

**Prerequisite:** sophomore standing in the department of Theatre and Dance; successful completion of THEA 3420 or THEA 3440.

**THEA3100 - Kinesiology for Dance**

Credits: 3
Encompasses seminar in current kinesiology research for dancers. Includes practicum based projects, lectures and supplementary materials.

**Prerequisite:** ZOO 2040.

**THEA3410 - Adv/Intermediate Ballet I**

Credits: 1.5
Max Credit (Max. 3)

A second year, first semester ballet technique class for dance majors and minors. Emphasis is placed on improving technical skills and learning more advanced steps. Includes research into one discipline of ballet.
**Prerequisite:** successful completion of THEA 2440 and admission by permission only. Limited to dance majors and minors.

**THEA3420 - Adv/Intermediate Ballet II**

Credits: 1.5  
Max Credit (Max. 3).

Second semester, second year ballet technique class for dance majors and minors. Emphasizes broadening the dancer's movement vocabulary while refining acquired technical skills. Dancers begin work in study of Baroque dance terms.

**Prerequisite:** successful completion of THEA 3410 or equivalent required. Limited to dance majors and minors; admission by permission only.

**THEA3430 - Adv/Intermediate Modern I**

Credits: 1.5  
Max Credit (Max. 3)

A second year, first semester, intermediate level modern dance technique class for dance majors and minors. Continued training in classical modern dance and continued historical survey of modern dance will be augmented by rhythmic analysis and compositional forms.

**Prerequisite:** successful completion of THEA 2440 or its equivalent. Limited to dance majors and minors; admission by permission only.

**THEA3440 - Adv/Intermediate Modern II**

Credits: 1  
A second year, second semester, modern dance technique class with continuing studies of sequential modern dance technique at the intermediate level, introduction of Laban effort/shape theory, compositional forms, improvisation and additional rhythmic analysis.

**Prerequisite:** THEA 3430 or its equivalent. Limited to dance majors and minors; admission by permission only.

**THEA3480 - Adv/Intermediate Jazz I**

Credits: 1  
Max Credit (Max. 2)

An intermediate jazz technique class. Students will learn varying styles of jazz dance, ranging from historical to contemporary, and will perform these for evaluation and incorporate them into class compositions.

**Prerequisite:** THEA 2480.
THEA4010 - Advanced Ballet

Credits: 1-3
Max Credit (Max. 8)
A continuing course in the principles and techniques of classical ballet. Emphasis is placed on continuing to broaden the dancer's movement vocabulary while refining acquired technical skills.

Prerequisite: THEA 3420. Limited to dance majors and minors; admission by permission only.

THEA4030 - Advanced Modern Dance

Credits: 1-3
Max Credit (Max. 8)
This class will develop a professional dancer capable of working within diverse modern dance styles and techniques through the interweaving of classical and contemporary movement modalities along with an experiential anatomy approach.

Prerequisite: THEA 3440. Limited to dance majors and minors; admission by permission only.

THEA4200 - 20th Century Dance
Credits: 3
Intensely studies dance in 20th Century, emphasizing contemporary movement in modern, ballet, jazz and musical theatre dance. Examines social, political and aesthetic trends influencing dance theory and performance.

USP 2003-2014 Code U3CA,U3WC
USP 2015 Code U5C3
Prerequisite: THEA 2200.

**THEA4250 - Beginning Dance Composition**

Credits: 2
Presents and criticizes movement studies based on various approaches to composition. Explores experimentation in choreography.

Prerequisite: THEA 2420, THEA 2440.

**THEA4260 - Intermediate Dance Composition**

Credits: 2-3
Prerequisite: THEA 4250 and consent of instructor.

**THEA4700 - Auditioning and Careers in Dance**

Credits: 1
Designed for dance majors as a culminating course in preparation for final semester auditions and applications for companies and graduate schools. Through this course, students will set career goals, create an audition portfolio, and gain exposure to the many challenges and opportunities in dance.

Prerequisite: senior standing, THEA 1021, and one semester of THEA 4010 or THEA 4030.
- THEA4880 - Advanced Theatre Practice Credits: 1

**THEA4880 - Advanced Theatre Practice**

Credits: 1-2
Prerequisite: 12 hours in theatre and consent of instructor.

**THEA4950 - Senior Thesis**

Credits: 3
Encompasses senior research project under faculty member guidance and supervision.

Prerequisite: senior standing.
OR

**THEA4960 - Senior Project**
Exercise in the practical application of production, centered on a UW production, either main stage or studio. It may deal with design in scenery, costumes, properties, sound, makeup, playwriting, technical direction, directing, dance pedagogy, or choreography. The project is intended to be a “real” exercise in theatrical production.

**THEA4975 - Theatre/Dance Internship**

Credits: 1-12  
Max Credit (Max. 12)

The intent of this course is designed to provide professional experiences to students outside of the academic curriculum of Theatre and Dance Department. It is designed to advance the students potential career opportunities and help advance their knowledge in the field.

**Restricted** Restricted to sophomores, juniors, and seniors.

**Prerequisite:** Must have completed 6 hours in the department of Theatre and Dance.  
- LIFE 1000 Credits: 4  
  **OR**

**LIFE1010 - General Biology**

Credits: 4  
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

**USP 2003-2014 Code U3SB**  
**USP 2015 Code U5PN**  
**Former Course Number** [BIOL 1010]

**Prerequisite:** Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.  
**OR**

**ANTH1100 - Introduction to Biological Anthropology**

Credits: 4  
Basic concepts relating to the origin, evolution and biological nature of the human species.

**USP 2003-2014 Code U3SB**  
**USP 2015 Code U5PN**

**KIN2040 - Human Anatomy**
Credits: 3
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB
Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1
A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB
Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.
- Foreign Language Credits: 8
- First Aid/CPR Credits: 0
  - A&S Global Credits: 3
  - A&S Diversity Credits: 3

Theatre and Dance, Dance Science Concentration, B.F.A.

The BFA in Dance Science permits 78 credits in the major and is a professionally oriented degree for students interested in a career in research or science. The degree provides summation and synthesis of dance training. Admission by application only.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.
COM2 - Communication 2

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Required Courses

These are the required courses for a B.F.A. with Dance Science Concentration. Certain substitutions may have to be made and all scheduling of classes should be discussed with an adviser.

THEA1021 - Academic and Professional Issues in Dance

Credits: 1
Introduces freshman to the discipline of dance and academic study at the University of Wyoming. Key intellectual and literacy concepts will be introduced, including, but not limited to: critical thinking and analysis, knowledge of the discipline, career options, diversity of the discipline, university and region.

USP 2003-2014 Code U3I,U3L

THEA1040 - Production Crew I

Credits: 0.5
Participation in one Departmental production during semester enrolled. Contribute to the preparation and/or actual production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

Prerequisite: consent of instructor.

THEA1200 - Introduction to Design

Credits: 3
Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

THEA1405 - Introduction to Pilates Training

Credits: 1
Max Credit (Max. 2)

An introduction to Pilates based training, including mat work and exercises on the Reformer.

Prerequisite: consent of instructor.
THEA1450 - Beginning Tap Dance I

Credits: 1
Explores basic tap techniques and related principles of tap dance composition.

THEA2040 - Production Crew II

Credits: 0.5
Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

Prerequisite: THEA 1040.

THEA2050 - Theatre Practice

Credits: 1-2
Encompasses individually supervised practical training in performance and production.

Prerequisite: consent of instructor.

THEA2200 - Backgrounds of Dance

Credits: 3
Surveys ethnic and theatrical dance forms from primal society to 20th century. Examines the place of the arts as a reflection of the culture.

USP 2003-2014 Code U3CA,U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

THEA2410 - Intermediate Ballet I

Credits: 1.5
Max Credit (Max. 3)
A first year, first semester ballet technique class for dance majors and minors. This course focuses on expanding the dancer's understanding and knowledge of technique, vocabulary, and principles of classical ballet.

USP 2015 Code U5H
Prerequisite: Admission by permission only.

THEA2420 - Intermediate Ballet II

Credits: 1.5
Max Credit (Max. 3)
A first year, second semester ballet technique class for dance majors and minors. This course focuses on expanding the dancer's understanding and knowledge of technique, vocabulary and principles of classical ballet.

**USP 2015 Code U5H**

**Prerequisite:** Admission by permission only.

**THEA2430 - Intermediate Modern I**

Credits: 1.5  
Max Credit (Max. 3)

A first year, first semester, modern dance technique class for dance majors and minors. Knowledge of basic vocabulary and principles will be augmented with an understanding of historical techniques and their application to contemporary dance. Class meets three times per week.

**USP 2015 Code U5H**

**Prerequisite:** Limited to dance majors and minors; admission by permission only.

**THEA2440 - Intermediate Modern II**

Credits: 1.5  
Max Credit (Max. 3)

A first year, second semester modern dance technique class for dance majors and minors. Mastering vocabulary and principles will be augmented with a deeper understanding of historical techniques and their application to contemporary dance.

**USP 2015 Code U5H**

**Prerequisite:** THEA 2430. Limited to dance majors and minors; admission by permission only.

**THEA2480 - Intermediate Jazz I**

Credits: 1  
Continued studies in techniques and principles of jazz dance and jazz dance composition.

**USP 2015 Code U5H**

**Prerequisite:** THEA 1480. Instructor permission required.

**THEA3021 - Foundations of Dance Pedagogy**

Credits: 1  
Introduces students to basic theories and practices of dance pedagogy. Lecture and discussion will be balanced with peer teaching and coaching, observation of lessons and integration within a dance classroom situation with some teaching responsibilities and development of a portfolio with lessons and resources for teaching.

**Prerequisite:** sophomore standing in the department of Theatre and Dance; successful completion of THEA 3420 or THEA 3440.
THEA3100 - Kinesiology for Dance

Credits: 3
Encompasses seminar in current kinesiology research for dancers. Includes practicum based projects, lectures and supplementary materials.

Prerequisite: ZOO 2040.

THEA3410 - Adv/Intermediate Ballet I

Credits: 1.5
Max Credit (Max. 3)

A second year, first semester ballet technique class for dance majors and minors. Emphasis is placed on improving technical skills and learning more advanced steps. Includes research into one discipline of ballet.

Prerequisite: successful completion of THEA 2440 and admission by permission only. Limited to dance majors and minors.

THEA3420 - Adv/Intermediate Ballet II

Credits: 1.5
Max Credit (Max. 3).

Second semester, second year ballet technique class for dance majors and minors. Emphasizes broadening the dancer's movement vocabulary while refining acquired technical skills. Dancers begin work in study of Baroque dance terms.

Prerequisite: successful completion of THEA 3410 or equivalent required. Limited to dance majors and minors; admission by permission only.

THEA3430 - Adv/Intermediate Modern I

Credits: 1.5
Max Credit (Max. 3)

A second year, first semester, intermediate level modern dance technique class for dance majors and minors. Continued training in classical modern dance and continued historical survey of modern dance will be augmented by rhythmic analysis and compositional forms.

Prerequisite: successful completion of THEA 2440 or its equivalent. Limited to dance majors and minors; admission by permission only.

THEA3440 - Adv/Intermediate Modern II

Credits: 1
A second year, second semester, modern dance technique class with continuing studies of sequential modern dance technique at the intermediate level, introduction of Laban effort/shape theory, compositional forms, improvisation and
additional rhythmic analysis.

Prerequisite: THEA 3430 or its equivalent. Limited to dance majors and minors; admission by permission only.

THEA3480 - Adv/Intermediate Jazz I

Credits: 1
Max Credit (Max. 2)

An intermediate jazz technique class. Students will learn varying styles of jazz dance, ranging from historical to contemporary, and will perform these for evaluation and incorporate them into class compositions.

Prerequisite: THEA 2480.
  • Plus 2 credits total in any combination of THEA 4010 and THEA 4030

THEA4010 - Advanced Ballet

Credits: 1-3
Max Credit (Max. 8)

A continuing course in the principles and techniques of classical ballet. Emphasis is placed on continuing to broaden the dancer's movement vocabulary while refining acquired technical skills.

Prerequisite: THEA 3420. Limited to dance majors and minors; admission by permission only.

THEA4030 - Advanced Modern Dance

Credits: 1-3
Max Credit (Max. 8)

This class will develop a professional dancer capable of working within diverse modern dance styles and techniques through the interweaving of classical and contemporary movement modalities along with an experiential anatomy approach.

Prerequisite: THEA 3440. Limited to dance majors and minors; admission by permission only.

THEA4200 - 20th Century Dance

Credits: 3
Intensely studies dance in 20th Century, emphasizing contemporary movement in modern, ballet, jazz and musical theatre dance. Examines social, political and aesthetic trends influencing dance theory and performance.

USP 2003-2014 Code U3CA,U3WC
USP 2015 Code U5C3
Prerequisite: THEA 2200.
THEA4250 - Beginning Dance Composition

Credits: 2
Presents and criticizes movement studies based on various approaches to composition. Explores experimentation in choreography.

Prerequisite: THEA 2420, THEA 2440.

THEA4260 - Intermediate Dance Composition

Credits: 2-3
Prerequisite: THEA 4250 and consent of instructor.

THEA4880 - Advanced Theatre Practice

Credits: 1-2
Prerequisite: 12 hours in theatre and consent of instructor.

THEA4990 - Research in Theatre

Credits: 1-3
Prerequisite: 6 hours in area of research and consent of instructor.

LIFE1010 - General Biology

Credits: 4
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

KIN2040 - Human Anatomy

Credits: 3
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN
Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

**Prerequisite:** LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

**KIN2041 - Human Anatomy Laboratory**

Credits: 1
A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB
Former Course Number [PEPR 2041]

**Prerequisite:** KIN 2040 or concurrent enrollment in KIN 2040.

**KIN3050 - Prevention and Care of Athletic Injuries**

Credits: 2
Encompasses theory and practical work in the field of athletic training. Strongly emphasizes prevention and care of athletic injuries, including wrapping and taping techniques.

Former Course Number [PEPR 3050]

**Prerequisite:** junior standing; C or better in KIN 2040; minimum 2.750 GPA.

**PSYC1000 - General Psychology**

Credits: 3
Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

**FCSC1141 - Principles of Nutrition**

Credits: 3
This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

**KIN4020 - Motor Behavior**

Credits: 3
Provides undergraduate majors in kinesiology and health the foundation of motor learning and control theories to be applied to decisions related to the enhancement of human performance.
Prerequisite: C or better in PSYC 1000; concurrent enrollment in or completion of KIN 3021; and 2.750 GPA. OR

KIN3034 - Lifespan Motor Development

Credits: 3

Former Course Number [PEPR 3034]

Prerequisite: grade of C or better in PSYC 1000; junior standing; 2.750 GPA.

KIN3037 - Sport Psychology

Credits: 3
Studies psychological theories and techniques applied to sport to enhance the performance and personal growth of athletes and coaches. Emphasizes the influence of personality, anxiety, motivation, social factors, and psychological skills training.

Former Course Number [PEPR 3037]

Prerequisite: Admitted to the last two years of one of the programs in DK&H. OR

KIN3038 - Exercise Psychology

Credits: 3
Studies psychological theories for understanding and predicting health-oriented exercise behavior, including psychological intentions for increasing exercise participation and adherence. Emphasizes psychological and psychobiological responses to exercise.

Prerequisite: grade of C or better in PSYC 1000; concurrent enrollment in or completion of KIN 3021; 2.750 GPA.

- Foreign Language Credits: 8
- A&S Global Credits: 3
- A&S Diversity Credits: 3

Additional Upper-division Required Course Work

(minimum 6 hours from the following courses):

KIN3021 - Physiology of Exercise
Applies physiological principles to human physical activities. Emphasizes interaction of neuromuscular circulatory, and respiratory mechanisms as affecting, and affected by, immediate exercise situations and physical training. Students who are not K&H or PHET majors may be allowed to register with permission of the instructor.

Former Course Number [PEPR 3021]

Prerequisite: 2.750 GPA. For Kinesiology & Health majors: grade of C or better in MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115. Or declared PHET major with the following courses completed: MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115.

KIN3040 - Teaching Human Anatomy

Credits: 3
Students develop communication and teaching skills while expanding their knowledge in anatomy. Under faculty instruction, each student develops lecture and laboratory lessons for all human anatomy systems. Under direct faculty supervision, each student demonstrates their teaching skills through preparation of videotape segments and actual laboratory teaching experience in the lower-division human anatomy course.

Former Course Number [PEPR 3040]

Prerequisite: 2.750 GPA and grade of B or better in KIN 2040 and consent of instructor.

KIN3042 - Biomechanics of Human Movement

Credits: 3
Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

FCSC3145 - Sports Nutrition and Metabolism

Credits: 3
Discusses roles played by carbohydrate, fat, protein, water, and key vitamins and minerals as they relate to physical exercise. Applies principles of nutrition.

Prerequisite: FCSC 1141; ZOO 3115.

FCSC4147 - Nutrition and Weight Control
Credits: 3
Advanced course in physiological and metabolic determinants of weight control emphasizing pathology, psychodynamics, assessment and treatment of obesity.

**Dual Listed FCSC 5147.**
**Prerequisite:** FCSC 1141; ZOO 3115.

### PSYC3120 - Cognitive Psychology

Credits: 3
Deals with higher mental processes that are primarily unique to human beings from theoretical and research orientations. Emphasizes interrelationships between various cognitive processes and continuity of those processes with perceptual and non-cognitive activities. Discusses how information is processed and remembered.

**When Offered** (Normally offered spring semester)
**Former Course Number** [4120]

**Prerequisite:** A grade of C or better in 6 hours of psychology including PSYC 1000.

### PSYC3250 - Health Psychology

Credits: 3
Provides overview of growing partnership between psychology and health care, including history of psychology in health care; theoretical foundations of health and illness; intervention and research techniques; stress and high risk behaviors (e.g., substance abuse, eating behaviors, AIDS); psychology's contribution to improving outcomes and quality of life in chronic and life-threatening behaviors.

**Cross Listed** NURS 3250.
**Prerequisite:** A grade of C or better in PSYC 1000.

### PSYC4070 - Motivation

Credits: 3
Covers classic and contemporary theories and research concerning motivation and the pursuit of goals. Discusses the study of motivation from a variety of perspectives, including biological, environmental, and psychological. Considers the role of emotion in motivational processes.

**Prerequisite:** C or better in 6 hours in psychology.

### Theatre and Dance, Design Tech Management Concentration, B.F.A.

The BFA Design Tech Management permits 69-70 credits in the major and is a professionally oriented degree for students interested in pre-professional theatre design, technology and management or graduate study.
University Studies Program Requirements

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**
Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Required Courses**

*These are the required courses for a B.F.A. with Design Tech Management Concentration. Certain substitutions may have to be made and all scheduling of classes should be discussed with an adviser.*

**THEA1040 - Production Crew I**

Credits: 0.5
Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

**Prerequisite:** consent of instructor.

**THEA1050 - Beginning Drawing and Painting**

Credits: 3
An introductory drawing and painting technique course for students to achieve a working knowledge of a variety of mediums that cross the disciplines of scenic, costume, and lighting design. Form, perspective, texture and basic color theories will be explored.

**THEA1200 - Introduction to Design**
Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

**THEA2010 - Theatrical Backgrounds Drama I**

Credits: 3  
First semester of a two-course series. Introduces dramatic literature through the ages.

**THEA2020 - Theatrical Backgrounds Drama II**

Credits: 3  

**Prerequisite:** THEA 2010.

**THEA2040 - Production Crew II**

Credits: 0.5  
Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

**Prerequisite:** THEA 1040.

**THEA2100 - Acting II**

Credits: 3  
Max Credit 3

Acting II builds on previous experience in acting with continued emphasis on analyzing, rehearsing and performing scenes, creating a believable stage image. Scene work, including scoring, will be examined with focus on contemporary realism. In addition, the course will focus on professional development and career readiness.

**Restricted** Theatre & Dance majors, instructor permission

**Prerequisite:** THEA 1100 OR equivalent

**THEA2150 - Drafting for Design**

Credits: 3  
Introduces Design and Technical students to the basics of hand drafting and numerous drafting techniques and conventions. After completing this course, students will be well prepared for scenic and lighting design courses.

**THEA2220 - Stagecraft**
Credits: 3
Introduces students to basic stage production practices and techniques, including safe rigging practices, set construction, scenic painting, stage properties, and stage lighting. Students are encouraged to participate in "hands-on" demonstrations during classes.

THEA2250 - Computer Aided Design I

Credits: 3
Building on skills and techniques learned in THEA 2150Drafting for Design, the course introduces and provides students with training on commonly used software, that may include CAD, 3D-modeling, and photo editing software. Skills acquired will be built upon in later courses.

Prerequisite: THEA 2150 or by permission of instructor.

THEA2790 - Stage Management

Credits: 3
Study of the essential elements of supervising theatrical productions. Stresses the art of organizing auditions, casts, crews, rehearsals, and performances while developing a unique professional relationship with directors, designers and actors. Students will work on a live production.

Prerequisite: THEA 1100, THEA 1200, THEA 2220.

THEA2800 - Stage Lighting I

Credits: 3
Examines the elemental aspects of stage lighting including equipment, facilities, color, and fundamental electricity. Requires studio work on departmental productions. Intended for majors in the program.

Former Course Number [3800]

Prerequisite: THEA 2150 and THEA 2220.

THEA2990 - Period Style for Theatre I

Credits: 3
First semester of a one-year survey. Studies antiquity to the Renaissance with an overview of the architecture, décor, clothing, arts and culture as related in their use and understanding of Western drama. The social, economic, and political histories of each period will be discussed as well. THEA 2990 and THEA 2995 should be taken in sequence.

THEA2995 - Period Style for Theatre II

Credits: 3
Second semester of a one-year survey. Studies Renaissance to Contemporary with an overview of the architecture, decor, clothing, arts and culture as related in their use and understanding of Western drama. The social, economic, and political histories of each period will be discussed as well. THEA 2990 and 2995 should be taken in sequence.
Prerequisite: THEA 2990 or permission of instructor.

THEA3710 - Acting III

Credits: 3
Building on concepts explored in Acting II, this course seeks to further develop the student's ability to interpret, create and sustain a well-developed, believable character. Acting III develops the actor's voice and body for characterization and character interaction through performances of scenes as well as the study of character and scene.

Restricted Theatre majors or permission of instructor

Prerequisite: THEA 2100

THEA3805 - Stage Lighting 2

Credits: 3
Max Credit 3
Analyze proposed productions in terms of period, style, theatre limitations and instrument inventories. Determine appropriate design solutions in written descriptive analyses that result in 2-D drawings of the design. Produce all supporting paperwork including drafting a plan view, section view, instrument schedules, magic sheets and proposed cue lists. Instructor permission required.

Prerequisite: THEA 2800

THEA3810 - Scene Design I

Credits: 3
An in-depth study of idea development from script analysis through design conception using different types of theaters and source material. The design process will cover research, drawing, drafting, model making, and rendering.

Prerequisite: THEA 2150 and THEA 2220 or by permission of instructor.

THEA3820 - Stage Costuming I

Credits: 3
A study of basic drawing and rendering skills, and a selective study of historical silhouettes. Objectives include the ability to trust instinct, application of the basic elements of design, applying historical reference and research to a specific character, developing a concept and finally the application of these principles to a final project.

Former Course Number [4840]

Prerequisite: THEA 1100.
THEA3850 - Design and Technology Seminar

Credits: 2
Introduces designer/technician to process of preparing successful interview material, including a professionally developed portfolio. Exposes designer/technician to business aspects of the theatre world, including resumes, letters of inquiry and application, contracts, unions and professional organizations, internships, apprenticeships, URTAs and professional design/technical training programs. Culminates in junior End-of-the-Year Evaluations.

Prerequisite: junior standing in the BFA Program with Design/Technical emphasis.

THEA3910 - 20th Century Theatre Diversity

Credits: 3
Studies plays and production techniques, within the context of historical and sociological events, as developed in the 20th Century that has led to the cultural diversity seen in modern theatre.

A&S College Core 2015 ASD
Former Course Number [591]

Prerequisite: junior standing.

THEA4810 - Scene Design II

Credits: 3
Building on previous coursework, this course will focus on further development of the individual creative and design processes, honing research and presentation skills, and refinement of artistry and craftsmanship. Strong emphasis will be on the presentation of ideas and the advancement of the portfolio.

Prerequisite: THEA 2250 and THEA 3810.

THEA4820 - Directing I

Credits: 3
Tools course. Focuses on basic pictorial and blocking skills of the director. Includes in-class exercises that cover structural and character analysis of play scripts, blocking annotation and prompt scripts, developing ground plans, creating compositions with emphasis, focus and balance, and employing movement as a dynamic tool. Requires two outside directing projects with verbal evaluations of all project work.

Prerequisite: THEA 2010, THEA 2020, THEA 3710, and THEA 3810 or instructor permission.

THEA4850 - Stage Costuming II

Credits: 3
Explores costume design, emphasizing various rendering techniques. Emphasis is placed on the portfolio.
Prerequisite: THEA 3820.

THEA4930 - Theatre History I

Credits: 3
First semester of a one-year series. Surveys theatrical and dramatic practices from origins of Western European theatre to the theatre of the avant-garde. Specifically focuses on the climate of ideas and theoreticians, theatrical practitioners and audiences. Offered fall semester.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: THEA 2010, THEA 2020, 6 hours in theatre at 3000-level.

THEA4940 - Theatre History II

Credits: 3
Second semester of a one-year series. Continues THEA 4930.

Prerequisite: THEA 4930.
Foreign Language Credits: 8
A&S Global Credits: 3
A&S Diversity Credits: 3

Recommended Electives:

THEA2145 - Costume Construction

Credits: 3
Teaches the basic skills and terminology that are used in costume construction. Teaches hand and machine sewing focusing on techniques used to stitch historical and modern costumes as well as basic knowledge of fabric.

THEA2160 - Stage Makeup

Credits: 2
Introduction to theatrical makeup with the stage performer in mind. Focus on principles, materials, and techniques; concentrating on problems of designing and executing specific makeup designs and applications for a wide range of ages, types, and styles.

THEA2810 - Scenic Painting for the Theatre

Credits: 3
Introduces the art of scenic painting by the hands-on use and instruction of a variety of scenic paints, application on select construction materials, the use of unique tools and techniques commonly used to paint scenery for the stage. Safe use and proper handling of such material are addressed.

Prerequisite: THEA 2220.
THEA2900 - Sound Design for Theatre and Dance

Credits: 3
Examines the basic aspects of sound design for the theatre, dance, entertainment and film worlds. Topics covered include recording, sampling, live mixing, playback, and non-linear editing through several software packages.

Prerequisite: THEA 2220.

ART2010 - Art History I

Credits: 3
First semester of a one-year survey. Studies ancient, medieval, renaissance and modern art with special reference to various social, economic and historic factors which motivated and conditioned the aesthetic forms. Includes ancient, medieval and early renaissance periods. ART 2010 and ART 2020 are required of all art majors and should be taken in sequence.

USP 2003-2014 Code U3CA
USP 2015 Code U5H

ART2020 - Art History II

Credits: 3
Second semester of a one-year survey. Studies European/American Art from the Renaissance through Contemporary with special emphasis and historical factors which motivated and conditioned the aesthetic forms. Covers Renaissance, Baroque, Rococo, 18th Century, 19th Century, Early Modernism and Contemporary Art. ART 2010 and 2020 are required of art majors and should be taken in sequence.

USP 2003-2014 Code U3CA
USP 2015 Code U5H

Theatre and Dance, Musical Theatre Performance Concentration, B.F.A.

The BFA in Musical Theatre Performance permits a total of 60-70 credits in the major. It is designed primarily for those desiring to pursue additional pre-professional training in theatre and or for those preparing to enter MFA graduate programs.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on
developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3  
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3  
Max Credit 3  
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3  
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3  
Max Credit 3  
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3  
Max Credit 3  
Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3  
Max Credit 3  
Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3
Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**(Required Courses)**

*The following are the required courses for a Bachelor of Fine Arts in Performance (Musical Theatre):*

**THEA1040 - Production Crew I**

Credits: 0.5  
Participation in one Departmental production during semester enrolled. Contribute to the preparation and/or actual production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

**Prerequisite:** consent of instructor.

**THEA1200 - Introduction to Design**

Credits: 3  
Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

**THEA1300 - Musical Theatre Workshop: Voice and Acting**

Credits: 2  
Max Credit (Max. 8)

Musical Theatre Workshop: Voice & Acting will focus on developing and strengthening the speaking and singing voice for stage, wherein students will construct performances through integration of breath and voice work.

**THEA1360 - Fundamentals of Music for Theatre Majors**

Credits: 3  
Basics of music theory to include music notation, rhythm, pitch, scales, key signatures, triads, and basic ear training and keyboard skills, specific to the needs of Musical Theatre. Assumes little or no music theory background.
THEA2010 - Theatrical Backgrounds Drama I

Credits: 3
First semester of a two-course series. Introduces dramatic literature through the ages.

THEA2020 - Theatrical Backgrounds Drama II

Credits: 3

Prerequisite: THEA 2010.

THEA2040 - Production Crew II

Credits: 0.5
Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

Prerequisite: THEA 1040.

THEA2100 - Acting II

Credits: 3
Max Credit 3

Acting II builds on previous experience in acting with continued emphasis on analyzing, rehearsing and performing scenes, creating a believable stage image. Scene work, including scoring, will be examined with focus on contemporary realism. In addition, the course will focus on professional development and career readiness.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1100 OR equivalent

THEA2160 - Stage Makeup

Credits: 2
Introduction to theatrical makeup with the stage performer in mind. Focus on principles, materials, and techniques; concentrating on problems of designing and executing specific makeup designs and applications for a wide range of ages, types, and styles.

THEA2170 - Speech for the Actor

Credits: 3
Studies speech techniques, including the International Phonetic Alphabet and Standard American Speech for the Stage. Builds upon the FitzmauriceVoicework technique as well as other voice methodologies.
**Prerequisite:** THEA 1100 and THEA 1700.

**THEA2220 - Stagecraft**

Credits: 3  
Introduces students to basic stage production practices and techniques, including safe rigging practices, set construction, scenic painting, stage properties, and stage lighting. Students are encouraged to participate in "hands-on" demonstrations during classes.

**THEA2300 - MT Workshop: Scene Study**

Credits: 1  
Max Credit: 1  
Study and analysis of written aspects of Musical Theatre (Book, Lyrics, Music) with an emphasis on translating analysis into tangible aspects of musical theatre performance. Study and practice outside of class, as well as rehearsals with assigned scene partner(s) is required.

Restricted Theatre & Dance majors, instructor permission

**Prerequisite:** THEA 1300

**THEA2340 - Musical Theatre Voice Lesson**

Credits: 1  
Max Credit (Max. 8)  
Solo instruction in singing techniques and performance styles associated with Musical Theatre. Includes demonstration, brief lecture, discussion, and active participation through singing, analyzing, movement, and performance.

**THEA2720 - Movement for Actors I**

Credits: 2  
This course explores physical awareness, movement integration and non-verbal story telling as essential skills for the actor in all performance efforts.

**Prerequisite:** THEA 1100.

**THEA2790 - Stage Management**

Credits: 3  
Study of the essential elements of supervising theatrical productions. Stresses the art of organizing auditions, casts, crews, rehearsals, and performances while developing a unique professional relationship with directors, designers and actors. Students will work on a live production.

**Prerequisite:** THEA 1100, THEA 1200, THEA 2200.
THEA3300 - MT Workshop: Production

Credits: 1-2  
Max Credit 2

Focusing on solos, duets and/or large and small ensemble pieces, instruction will include music preparation, choreography, blocking, acting, character study and performance. Additional scene study, rehearsals outside of class times, mock auditions, and study of materials will be required. The course will be repeated twice for credit.

Restricted Theatre & Dance majors, instructor permission

Prerequisite: THEA 1300

THEA3710 - Acting III

Credits: 3  
Building on concepts explored in Acting II, this course seeks to further develop the student's ability to interpret, create and sustain a well-developed, believable character. Acting III develops the actor's voice and body for characterization and character interaction through performances of scenes as well as the study of character and scene.

Restricted Theatre majors or permission of instructor

Prerequisite: THEA 2100

THEA3740 - Acting Styles

Credits: 3  
Focuses on textual analysis of plays from different periods and styles of dramatic literature. Emphasizes vocal and physical interpretation of character as represented in non-realistic styles of drama.

Prerequisite: THEA 1100 and THEA 3710.

THEA3910 - 20th Century Theatre Diversity

Credits: 3  
Studies plays and production techniques, within the context of historical and sociological events, as developed in the 20th Century that has led to the cultural diversity seen in modern theatre.

A&S College Core 2015 ASD  
Former Course Number [591]

Prerequisite: junior standing.

THEA3950 - Dialects for the Actor
Credits: 3
Introduces the actor to five major dialects for the stage. Examines sensibility, vowel and consonant changes, pitch placement and charting.

**Prerequisite:** THEA 1100, THEA 1700, and THEA 2170.

**THEA4330 - History of American Musical Theatre**

Credits: 3
History of the American Musical from its inception to today. Emphasis on developments and literature.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
**Prerequisite:** THEA 2010, THEA 2020, 6 hours in theatre at the 3000-level.

**THEA4710 - Acting IV**

Credits: 3
Max Credit 3

Involves intensive work at an advanced level dealing with individual actor's problems through the medium of scene study.

**Restricted** Theatre & Dance majors, instructor permission

**Prerequisite:** THEA 3710

**THEA4720 - Auditioning and Professional Issues**

Credits: 3
Introduces actors to process of finding, preparing and executing successful audition material, including monologues, songs and dance combinations. Exposes actors to business aspects of the theatre world, including resumes, photos, contracts, unions, internships, apprenticeships, Equity Membership Candidacy programs, URTA's and professional actor training graduate programs. Culminates preparation for final semester auditions for the company/school of choice.

**Prerequisite:** THEA 1100, THEA 3710 and THEA 3740.

**THEA4730 - Movement for Actors II**

Credits: 2
This course explores physical awareness, movement integration and non-verbal story telling as essential skills for the actor in all performance efforts.

**Prerequisite:** THEA 1100 and THEA 2720.
THEA4820 - Directing I

Credits: 3
Tools course. Focuses on basic pictorial and blocking skills of the director. Includes in-class exercises that cover structural and character analysis of play scripts, blocking annotation and prompt scripts, developing ground plans, creating compositions with emphasis, focus and balance, and employing movement as a dynamic tool. Requires two outside directing projects with verbal evaluations of all project work.

**Prerequisite:** THEA 2010, THEA 2020, THEA 3710, and THEA 3810 or instructor permission.

THEA4930 - Theatre History I

Credits: 3
First semester of a one-year series. Surveys theatrical and dramatic practices from origins of Western European theatre to the theatre of the avant-garde. Specifically focuses on the climate of ideas and theoreticians, theatrical practitioners and audiences. Offered fall semester.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
**Prerequisite:** THEA 2010, THEA 2020, 6 hours in theatre at 3000-level.
- Foreign Language Credits: 8
- Plus two additional dance courses in an area of choice.
  A&S Global Credits: 3
  A&S Diversity Credits: 3

**Plus 3 Hours From the Following:**

THEA1410 - Beginning Ballet I

Credits: 1
Introduces principles and practices of classical ballet technique.

USP 2015 Code U5H
**Prerequisite:** THEA 1410 or instructor permission.

THEA1430 - Beginning Modern I

Credits: 1
Introduces principles and techniques of modern dance.

USP 2015 Code U5H

THEA1450 - Beginning Tap Dance I

Credits: 1
Explores basic tap techniques and related principles of tap dance composition.
THEA1480 - Beginning Jazz Dance I

Credits: 1
Explores basic jazz dance techniques and related principles of jazz dance composition.

USP 2003-2014 Code H

Theatre and Dance, Theatre/English Concentration, B.F.A.

The BFA in English Theatre permits 60-70 credits in the major field. It is designed primarily for students who seek additional professional education and certification, or for those who wish to enter MFA graduate programs.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning
Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Required Courses**

*These are the required courses for a B.F.A. with Theatre/English Concentration. Certain substitutions may have to be made and all scheduling of classes should be discussed with an adviser.*

**THEA1040 - Production Crew I**

Credits: 0.5
Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual
production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

**Prerequisite:** consent of instructor.

**THEA2020 - Theatrical Backgrounds Drama II**

Credits: 3  

**Prerequisite:** THEA 2010.

**THEA2040 - Production Crew II**

Credits: 0.5  
Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

**Prerequisite:** THEA 1040.

**THEA2100 - Acting II**

Credits: 3  
Max Credit 3  
Acting II builds on previous experience in acting with continued emphasis on analyzing, rehearsing and performing scenes, creating a believable stage image. Scene work, including scoring, will be examined with focus on contemporary realism. In addition, the course will focus on professional development and career readiness.

**Restricted** Theatre & Dance majors, instructor permission

**Prerequisite:** THEA 1100 OR equivalent

**THEA2150 - Drafting for Design**
Introduces Design and Technical students to the basics of hand drafting and numerous drafting techniques and conventions. After completing this course, students will be well prepared for scenic and lighting design courses.

**THEA2220 - Stagecraft**

Credits: 3
Introduces students to basic stage production practices and techniques, including safe rigging practices, set construction, scenic painting, stage properties, and stage lighting. Students are encouraged to participate in "hands-on" demonstrations during classes.

**THEA2800 - Stage Lighting I**

Credits: 3
Examines the elemental aspects of stage lighting including equipment, facilities, color, and fundamental electricity. Requires studio work on departmental productions. Intended for majors in the program.

**Former Course Number** [3800]

**Prerequisite:** THEA 2150 and THEA 2220.

**THEA3710 - Acting III**

Credits: 3
Building on concepts explored in Acting II, this course seeks to further develop the student's ability to interpret, create and sustain a well-developed, believable character. Acting III develops the actor's voice and body for characterization and character interaction through performances of scenes as well as the study of character and scene.

**Restricted** Theatre majors or permission of instructor

**Prerequisite:** THEA 2100

**THEA3740 - Acting Styles**

Credits: 3
Focuses on textual analysis of plays from different periods and styles of dramatic literature. Emphasizes vocal and physical interpretation of character as represented in non-realistic styles of drama.

**Prerequisite:** THEA 1100 and THEA 3710.

**THEA3810 - Scene Design I**

Credits: 3
An in-depth study of idea development from script analysis through design conception using different types of theaters and source material. The design process will cover research, drawing, drafting, model making, and rendering.
Prerequisite: THEA 2150 and THEA 2220 or by permission of instructor.

THEA3820 - Stage Costuming I

Credits: 3
A study of basic drawing and rendering skills, and a selective study of historical silhouettes. Objectives include the ability to trust instinct, application of the basic elements of design, applying historical reference and research to a specific character, developing a concept and finally the application of these principles to a final project.

Former Course Number [4840]

Prerequisite: THEA 1100.

THEA3910 - 20th Century Theatre Diversity

Credits: 3
Studies plays and production techniques, within the context of historical and sociological events, as developed in the 20th Century that has led to the cultural diversity seen in modern theatre.

A&S College Core 2015 ASD
Former Course Number [591]

Prerequisite: junior standing.

THEA4820 - Directing I

Credits: 3
Tools course. Focuses on basic pictorial and blocking skills of the director. Includes in-class exercises that cover structural and character analysis of play scripts, blocking annotation and prompt scripts, developing ground plans, creating compositions with emphasis, focus and balance, and employing movement as a dynamic tool. Requires two outside directing projects with verbal evaluations of all project work.

Prerequisite: THEA 2010, THEA 2020, THEA 3710, and THEA 3810 or instructor permission.

THEA4830 - Directing II

Credits: 3
Focuses on creative process of developing directorial concepts, establishing the world and style of the play, working with the actor, and functioning as a designer. Includes exercises that analyze different directorial approaches, as well as the audition and casting process. Culminates one-act mounted production performed before invited audience.

Prerequisite: THEA 4820 and written permission of instructor.

THEA4930 - Theatre History I
Credits: 3
First semester of a one-year series. Surveys theatrical and dramatic practices from origins of Western European theatre to the theatre of the avant-garde. Specifically focuses on the climate of ideas and theoreticians, theatrical practitioners and audiences. Offered fall semester.

USP 2003-2014 Code U3WC

  A&S Global Credits: 3
  A&S Diversity Credits: 3

**Minor**

**Dance Minor**

**Required Courses**

**THEA1021 - Academic and Professional Issues in Dance**

Credits: 1
Introduces freshman to the discipline of dance and academic study at the University of Wyoming. Key intellectual and literacy concepts will be introduced, including, but not limited to: critical thinking and analysis, knowledge of the discipline, career options, diversity of the discipline, university and region.

USP 2003-2014 Code U3LU3L

**THEA1040 - Production Crew I**

Credits: 0.5
Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.
**Prerequisite:** consent of instructor.

**THEA2200 - Backgrounds of Dance**

Credits: 3
Surveys ethnic and theatrical dance forms from primal society to 20th century. Examines the place of the arts as a reflection of the culture.

USP 2003-2014 Code U3CA,U3G  
USP 2015 Code U5H  
A&S College Core 2015 ASG

**THEA4250 - Beginning Dance Composition**

Credits: 2
Presents and criticizes movement studies based on various approaches to composition. Explores experimentation in choreography.

**Prerequisite:** THEA 2420, THEA 2440.

**Ballet Technique: 5-6 Credit Hours**

Four (4) Consecutive Classes in Ballet Technique.* Choose From:

**THEA1410 - Beginning Ballet I**

Credits: 1
Introduces principles and practices of classical ballet technique.

USP 2015 Code U5H  
**Prerequisite:** THEA 1410 or instructor permission.

**THEA1420 - Beginning Ballet II**

Credits: 1
Continues studies in classical ballet technique. Instructor permission required.

USP 2015 Code U5H  
**Prerequisite:** THEA 1410.

**THEA2410 - Intermediate Ballet I**

Credits: 1.5
Max Credit (Max. 3)
A first year, first semester ballet technique class for dance majors and minors. This course focuses on expanding the dancer's understanding and knowledge of technique, vocabulary, and principles of classical ballet.

USP 2015 Code U5H
Prerequisite: Admission by permission only.

**THEA2430 - Intermediate Modern I**

Credits: 1.5  
Max Credit (Max. 3)

A first year, first semester, modern dance technique class for dance majors and minors. Knowledge of basic vocabulary and principles will be augmented with an understanding of historical techniques and their application to contemporary dance. Class meets three times per week.

USP 2015 Code U5H
Prerequisite: Limited to dance majors and minors; admission by permission only.

**THEA3410 - Adv/Intermediate Ballet I**

Credits: 1.5  
Max Credit (Max. 3)

A second year, first semester ballet technique class for dance majors and minors. Emphasis is placed on improving technical skills and learning more advanced steps. Includes research into one discipline of ballet.

Prerequisite: successful completion of THEA 2440 and admission by permission only. Limited to dance majors and minors.

**THEA3420 - Adv/Intermediate Ballet II**

Credits: 1.5  
Max Credit (Max. 3).

Second semester, second year ballet technique class for dance majors and minors. Emphasizes broadening the dancer's movement vocabulary while refining acquired technical skills. Dancers begin work in study of Baroque dance terms.

Prerequisite: successful completion of THEA 3410 or equivalent required. Limited to dance majors and minors; admission by permission only.

**THEA4010 - Advanced Ballet**

Credits: 1-3  
Max Credit (Max. 8)

A continuing course in the principles and techniques of classical ballet. Emphasis is placed on continuing to broaden the dancer's movement vocabulary while refining acquired technical skills.
Prerequisite: THEA 3420. Limited to dance majors and minors; admission by permission only.

Modern Technique: 5-6 Credit Hours

Four (4) Consecutive Classes in Modern Technique.* Choose from:

THEA1430 - Beginning Modern I

Credits: 1
Introduces principles and techniques of modern dance.

USP 2015 Code U5H

THEA1440 - Beginning Modern II

Credits: 1
Continues studies in modern dance techniques.

USP 2015 Code U5H

Prerequisite: Prerequisite THEA 1430 or instructor permission.

THEA2430 - Intermediate Modern I

Credits: 1.5
Max Credit (Max. 3)
A first year, first semester, modern dance technique class for dance majors and minors. Knowledge of basic vocabulary and principles will be augmented with an understanding of historical techniques and their application to contemporary dance. Class meets three times per week.

USP 2015 Code U5H

Prerequisite: Limited to dance majors and minors; admission by permission only.

THEA2440 - Intermediate Modern II

Credits: 1.5
Max Credit (Max. 3)
A first year, second semester modern dance technique class for dance majors and minors. Mastering vocabulary and principles will be augmented with a deeper understanding of historical techniques and their application to contemporary dance.

USP 2015 Code U5H

Prerequisite: THEA 2430. Limited to dance majors and minors; admission by permission only.

THEA3430 - Adv/Intermediate Modern I
A second year, first semester, intermediate level modern dance technique class for dance majors and minors. Continued training in classical modern dance and continued historical survey of modern dance will be augmented by rhythmic analysis and compositional forms.

**Prerequisite:** successful completion of THEA 2440 or its equivalent. Limited to dance majors and minors; admission by permission only.

**THEA3440 - Adv/Intermediate Modern II**

Credits: 1
A second year, second semester, modern dance technique class with continuing studies of sequential modern dance technique at the intermediate level, introduction of Laban effort/shape theory, compositional forms, improvisation and additional rhythmic analysis.

**Prerequisite:** THEA 3430 or its equivalent. Limited to dance majors and minors; admission by permission only.

**THEA4030 - Advanced Modern Dance**

Credits: 1-3
Max Credit (Max. 8)
This class will develop a professional dancer capable of working within diverse modern dance styles and techniques through the interweaving of classical and contemporary movement modalities along with an experiential anatomy approach.

**Prerequisite:** THEA 3440. Limited to dance majors and minors; admission by permission only.

**Jazz or a Mix of Jazz and Tap Class: 2 Credit Hours**

Two (2) Consecutive Classes in Jazz or a Mix of Jazz and Tap Classes.* Choose from: 2

**THEA1450 - Beginning Tap Dance I**

Credits: 1
Explores basic tap techniques and related principles of tap dance composition.

**THEA1480 - Beginning Jazz Dance I**

Credits: 1
Explores basic jazz dance techniques and related principles of jazz dance composition.

USP 2003-2014 Code H

**THEA2450 - Intermediate Tap I**
Credits: 1
Continued studies in techniques and principles of tap dance and tap dance composition.

**Prerequisite:** THEA 1450.

**THEA2480 - Intermediate Jazz I**

Credits: 1
Continued studies in techniques and principles of jazz dance and jazz dance composition.

USP 2015 Code U5H
**Prerequisite:** THEA 1480. Instructor permission required.

**THEA3480 - Adv/Intermediate Jazz I**

Credits: 1  
Max Credit (Max. 2)

An intermediate jazz technique class. Students will learn varying styles of jazz dance, ranging from historical to contemporary, and will perform these for evaluation and incorporate them into class compositions.

**Prerequisite:** THEA 2480.

**THEA3490 - Advanced Jazz I**

Credits: 1  
Max Credit (Max. 2)

An advanced class in jazz technique and performance. Students will learn varying styles of jazz dance, ranging from historical to contemporary, and will perform these for evaluation as well as incorporate them into class compositions.

**Prerequisite:** THEA 3480.

**Elective at 3000-4000 level: 2-3 Credit Hours**

Suggested:

**THEA4010 - Advanced Ballet**

Credits: 1-3  
Max Credit (Max. 8)

A continuing course in the principles and techniques of classical ballet. Emphasis is placed on continuing to broaden the dancer's movement vocabulary while refining acquired technical skills.

**Prerequisite:** THEA 3420. Limited to dance majors and minors; admission by permission only.
THEA4030 - Advanced Modern Dance

Credits: 1-3
Max Credit (Max. 8)

This class will develop a professional dancer capable of working within diverse modern dance styles and techniques through the interweaving of classical and contemporary movement modalities along with an experiential anatomy approach.

Prerequisite: THEA 3440. Limited to dance majors and minors; admission by permission only.

THEA4001 - Historical Dance

Credits: 2
Max Credit (Max. 2)

Historical dance forms in the "Noble Style" dating from the 15th through 18th Centuries. Class work covers the relationship of musical forms to the specific step vocabulary and dances of each period, deportment, period costume as it relates to movement, social environment, period style with an emphasis on reconstruction of 17th and 18th Century dances from Feuillet notation.

Prerequisite: THEA 3440.

OR

THEA4200 - 20th Century Dance

Credits: 3

Intensely studies dance in 20th Century, emphasizing contemporary movement in modern, ballet, jazz and musical theatre dance. Examines social, political and aesthetic trends influencing dance theory and performance.

USP 2003-2014 Code U3CA,U3WC
USP 2015 Code U5C3
Prerequisite: THEA 2200.

Minor Total 17.5-22.5

Theatre Minor

Required Courses

*THEA 2150 is a prerequisite for THEA 3810

THEA1040 - Production Crew I

Credits: 0.5
Participation in one Departmental production during semester enrolled. Contribute to the preparation and/ or actual
production of one stage play in the areas(s) of lighting, costume construction, set construction, scenic painting, stage properties, or arts management. Required for all Theatre & Dance freshmen.

**Prerequisite:** consent of instructor.

**THEA1100 - Acting I**

Credits: 3
Acting I introduces students to the study of the actor’s process with an emphasis on analyzing, rehearsing and performing scenes in front of an audience. The student will be introduced to exercises which promote creative expression. Scene work and scoring will focus on contemporary realism.

USP 2003-2014 Code U3CA
USP 2015 Code U5H
**Restricted** Theater majors or permission of instructor

**THEA1200 - Introduction to Design**

Credits: 3
Introduces and explores visual aesthetic principles as they relate to various aspects of stage design. Studio projects in scene, lighting, and costume design supplement lectures. Prerequisite for other design courses.

**THEA2010 - Theatrical Backgrounds Drama I**

Credits: 3
First semester of a two-course series. Introduces dramatic literature through the ages.

**THEA2020 - Theatrical Backgrounds Drama II**

Credits: 3

**Prerequisite:** THEA 2010.

**THEA2040 - Production Crew II**

Credits: 0.5
Continues the "hands-on" production crew experience provided by Production Crew I. Contribute to a Theatre Department production in the area(s) of lighting, costume construction, set construction, scenic painting, stage properties, stage management, or arts management. Required for all Theatre & Dance majors.

**Prerequisite:** THEA 1040.

**THEA2220 - Stagecraft**

Credits: 3
Introduces students to basic stage production practices and techniques, including safe rigging practices, set
construction, scenic painting, stage properties, and stage lighting. Students are encouraged to participate in "hands-on" demonstrations during classes.

**THEA2800 - Stage Lighting I**

Credits: 3  
Examines the elemental aspects of stage lighting including equipment, facilities, color, and fundamental electricity. Requires studio work on departmental productions. Intended for majors in the program.

**Former Course Number** [3800]

**Prerequisite:** THEA 2150 and THEA 2220.  
OR

**THEA3810 - Scene Design I**

Credits: 3  
An in-depth study of idea development from script analysis through design conception using different types of theaters and source material. The design process will cover research, drawing, drafting, model making, and rendering.

**Prerequisite:** THEA 2150 and THEA 2220 or by permission of instructor.  
OR

**THEA3820 - Stage Costuming I**

Credits: 3  
A study of basic drawing and rendering skills, and a selective study of historical silhouettes. Objectives include the ability to trust instinct, application of the basic elements of design, applying historical reference and research to a specific character, developing a concept and finally the application of these principles to a final project.

**Former Course Number** [4840]

**Prerequisite:** THEA 1100.  
- Plus 3 hours of electives in Theatre and Dance (must be 4000 level or above)

**Department of Zoology and Physiology**

114 Aven Nelson  
(307) 766-4207  
Web site: www.uwyo.edu/Zoology  
Department Head: Robert S. Seville

**Professors:**
MERAV BEN-DAVID, B.S. Tel Aviv University 1984; M.S. 1988; Ph.D. University of Alaska 1996; Professor of Zoology and Physiology 2010, 2000.

MICHAEL E. DILLON, B.S. University of Texas, Austin 1998; Ph.D. University of Washington 2005; Professor of Zoology and Physiology 2010, 2009.

JACOB R. GOHEEN, B.S. Kansas State University 1998; M.S. Purdue University 2002; Ph.D. University of New Mexico 2006; Professor of Zoology and Physiology 2020, 2010.

MATTHEW J. KAUFFMAN, B.A. University of Oregon 1992; Ph.D. University of California, Santa Cruz 2003; Professor of Zoology and Physiology 2021, 2006.

JONATHAN F. PRATHER, B.S. University of Virginia 1995; Ph.D. Emory University 2001; Associate Professor of Zoology and Physiology 2021, 2009.

Associate Professors:

MATTHEW D. CARLING, B.S. University of Michigan 1997; M.S. University of Idaho 2002; Ph.D. Louisiana State University 2008; Associate Professor of Zoology and Physiology 2017, 2011.

ANNA D. CHALFOUN, B.A. Smith College 1995; M.S. University of Missouri-Columbia 2000; Ph.D. University of Montana-Missoula 2006; Associate Professor of Zoology and Physiology 2016, 2011.

BRIAN D. CHERINGTON, B.A. Washington University 1996; M.S. Colorado State University 2001; Ph.D. 2005; Associate Professor of Zoology and Physiology 2017, 2011.

AMY M. NAVRATIL, B.S. Colorado State University 1999; Ph.D. 2005; Associate Professor of Zoology and Physiology 2019, 2011.

KARA PRATT, B.A.S. University of Delaware 1989; Ph.D. Brandeis University 2004; Associate Professor of Zoology and Physiology 2017, 2011.

ANNIKA W. WALTERS, B.A. Princeton University 2002; M.S. Yale University 2006; Ph.D. 2009; Associate Professor of Zoology and Physiology 2019, 2011.

Assistant Professors:
NICOLE L. BEDFORD, B.S. University of British Columbia 2010; Ph.D Harvard University 2019; Assistant Professor of Zoology and Physiology 2021.

RILEY FEHR BERNARD, B.Sc. Linfield College 2007; M.Sc. University of Hawaii Hilo 2011; Ph.D. University of Tennessee 2015; Assistant Professor of Zoology and Physiology, 2020.

SARAH M. COLLINS, B.A. Lewis & Clark College 2007; Ph.D. Cornell University 2015; Assistant Professor of Zoology and Physiology 2018.

YUN LI, B.S. University of Science and Technology of China 1996; M.S. 1998; Ph.D. University of Texas Health Center at San Antonio 2003; Assistant Professor of Zoology and Physiology 2018.

JEROD A. MERKLE, B.S. University of Arizona 2006; M.S. University of Montana 2011; Ph.D. Université Laval 2014; Assistant Professor of Zoology and Physiology 2018.

ADAM C. NELSON, B.S. University of Montana 2001; Ph.D. University of Utah 2011; Assistant Professor of Zoology and Physiology 2021.

COREY E. TARWATER, B.S. University of California, Davis 1999; M.S. University of Illinois, Urbana-Champaign 2006; Ph.D. 2010; Assistant Professor of Zoology and Physiology 2015.

W.D. (TREY) TODD, B.S. Baylor University 2005; M.A. University of Iowa 2009; Ph.D. 2012; Assistant Professor of Zoology and Physiology 2019.

Assistant Professor of Practice:

BETHANN G. MERKLE, B.A. University of Montana 2007; M.F.A. University of Wyoming 2017; Assistant Professor of Practice 2021.

Senior Academic Professional Research Scientist:

ZHAOJIE ZHANG, B.S. Shandong University 1985; M.S. 1988; Ph.D. University of Oklahoma 1999; Director, Microscopy Core Facility, University of Wyoming 2001; Senior Research Scientist in Zoology and Physiology 2012.

Assistant Academic Professional Research Scientist:

JONATHAN PATRICK KELLEY, A.B. Harvard 2001; Ph.D. University of California, Davis 2012; Assistant Research Scientist in Zoology and Physiology 2018.

Professors Emeritus:

Academic Professional Lecturer Emeritus:
Department of Zoology and Physiology

The Department of Zoology and Physiology offers a variety of courses in the biological sciences that encompass many aspects of animal form, function, and biology. Whether you are interested in the intricacies of cell biology or the complexities of ecosystem functioning and whether you want to become a wildlife biologist or a physician, we offer a major that will suit your needs.

Undergraduate Degrees:

Students can choose from three undergraduate degrees: physiology, wildlife and fisheries biology and management, or zoology.

Learning Outcomes for Undergraduates

The learning outcomes that direct the teaching of the department's degrees and which we expect our graduates to have acquired are:

- Competence in basic sciences;
- Competence in the content of the specific courses that constitute the principal knowledge of the degree;
- Ability to comprehend, analyze, and interpret biological data where appropriate; and
- Ability to synthesize information from the biological literature, and communicate it effectively in writing or orally.

Undergraduate Minors:

Minors in human and animal physiology, wildlife fisheries biology management, neuroscience, and zoology are offered.

Graduate Study

The Department of Zoology and Physiology offers programs leading to the master of science and the doctor of philosophy in zoology and physiology. We also participate in graduate programs through the Neuroscience Program and the Program in Ecology.
Program Specific Admission Requirements

Admission is open to all students who meet the minimum requirements set forth in the admissions section of this Catalog.

Research and teaching assistantships are available for graduate students working toward the M.S. or Ph.D. degrees. Applicants can apply for this financial assistance at the time they apply for admission to graduate standing. Applications must be completed by February 15 in order to be considered for the following academic year.

Information on how to apply to the graduate program in the Department of Zoology and Physiology is detailed on our web site. Begin by identifying a faculty member in our department whose research interests are similar to yours. We will only consider an application if a faculty member has indicated a willingness to serve as the student's adviser. After finding a potential adviser, e-mail a completed departmental application form, a copy of your curriculum vitae, copies of college transcripts, and recommendation letters to him or her. Our graduate admissions committee will review all applications and make decisions on admission based on the availability of funding and a commitment from a faculty member to serve as the adviser. Students recommended for admission will then be asked to fill out an application to the University of Wyoming and pay a non-refundable application fee.

Consult the website, www.uwyo.edu/zoology, to find out about faculty research.

Learning Outcomes for M.S. Students

1. Comprehend and synthesize advanced knowledge in a specific area of biology.
2. Collect and analyze data to address a research question.
3. Summarize research findings and communicate them effectively in writing and orally.

Learning Outcomes for Doctoral Students

1. Comprehend and synthesize advanced knowledge in a specific area of biology.
2. Develop a research project which constitutes a substantial and original contribution to the field of study.
3. Summarize research findings and communicate them effectively in writing and orally.

Major

Physiology, B.S.

Physiology is the science of how the body functions in health and disease. A degree in physiology provides excellent preparation for careers or graduate study in the health professions and biomedical research or related disciplines.

Additional Information

Physiology is the study of how animals work: how they breathe, feed, interact with their environment, and carry out many other activities and functions. Physiology is the knowledge that the health sciences are built on and so is especially important for students who may be thinking of becoming medical practitioners, veterinarians or health care professionals.

All courses in the major must be completed with a grade of "C" or better.
University Studies Program Requirements

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3  
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3  
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3  
Max Credit 3  
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3  
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q- - Quantitative Reasoning**

Credits: 3  
Max Credit 3  
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3  
Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**
Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**H - Human Culture (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**A&S College Core**

**D - Diversity**

Credits: 3
A&S Course: Diversity in the United States

**G - Global Awareness**

Credits: 3
A&S Core: Global Awareness Course

**Foundation Courses:**

(MATH 1450 may substituted for MATH 1400 and MATH 1405)

**MATH1400 - College Algebra**

Credits: 3
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).
Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

**MATH1405 - Trigonometry**

Credits: 3
Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

**MATH2200 - Calculus I**

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**STAT2050 - Fundamentals of Statistics**

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.
OR

**STAT2070 - Introductory Statistics for the Social Sciences**

Credits: 4
Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces
associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.
USP 2003-2014 Code U3Q,U3QB
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

CHEM1020 - General Chemistry I

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3S
USP 2015 Code U5PN
Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

CHEM1030 - General Chemistry II

Credits: 4
Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: CHEM 1020.

PHYS1110 - General Physics I

Credits: 4
First course of two-semester sequence. Introduces elementary college physics without calculus. Primarily for premedical, predental, preoptometry, prephysical therapy and other students requiring insight into workings of the physical world. Includes classical mechanics, gravitation and heat. Laboratory sessions will illustrate principles studied. Students receiving credit for PHYS 1110 cannot receive credit for PHYS 1050, PHYS 1210 or PHYS 1310.

When Offered (Normally offered fall and summer semester)
USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: MATH 1450, 1405 or equivalent.

PHYS1120 - General Physics II

Credits: 4
Follows PHYS 1110 and completes introduction to physics without calculus. Includes electricity, magnetism, optics
and modern physics. Laboratory sessions illustrate principles studied. Students receiving credit in PHYS 1120 cannot receive credit in PHYS 1050, PHYS 1220 or PHYS 1320.

**LIFE1010 - General Biology**

Credits: 4  
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

**LIFE2022 - Animal Biology**

Credits: 4  
An integrative course addressing the evolution, anatomy, physiology, and ecology of animals. Continues building upon the four themes in LIFE 1010, cell and molecular biology, genetics, evolution, and ecology. Preserved animal specimens are dissected during some labs. Intended for students majoring in the life sciences. Laboratory is required.

**MICR2021 - General Microbiology**

Credits: 4  
Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.
**Prerequisite:** LIFE 1010, CHEM 1000 or equivalent.

OR

**MOLB2021 - General Microbiology**

Credits: 4
Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021
When Offered Fall and Spring
Former Course Number [2210]

**Prerequisite:** Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

**LIFE3050 - Genetics**

Credits: 4
Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

**Prerequisite:** completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

**Two Additional CHEM Courses:**

*MOLB 3610 may be used as a CHEM elective, but cannot also count as a PHSO Core Elective.

*CHEM 3550 may be used as a CHEM elective, but cannot also count as a PHSO Core Elective

**CHEM2230 - Quantitative Analysis**

Credits: 5
Broad, general coverage of analytical techniques, principles and calculations.

Lab/Lecture Hours Laboratory: 6 hours per week.
When Offered (Normally offered spring semester)
Prerequisite: CHEM 1030, CHEM 1060 or equivalent.

**CHEM2300 - Introductory Organic Chemistry**
CHEM2420 - Organic Chemistry I

Credits: 4
Terminal course in organic and beginning biological chemistry. No credit will be allowed in CHEM 2300 if credit earned in CHEM 2420. This course is not an acceptable prerequisite for CHEM 2440.

When Offered (Normally offered spring semester)
Prerequisite: CHEM 1020, CHEM 1050, CHEM 1000 or equivalent.

CHEM2440 - Organic Chemistry II

Credits: 4
First semester of a one-year sequence in organic chemistry. Approached from the viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week. No credit allowed in CHEM 2420 if credit earned in CHEM 2300.
When Offered (Normally offered fall)
Prerequisite: CHEM 1030 or CHEM 1060.

CHEM3020 - Environmental Chemistry

Credits: 3
Environment and modern environmental problems in terms of chemical structures and reactions. Chemical principles of equilibrium, kinetics, and thermodynamics are used to help understand our changing environment. Topics include toxicological chemistry, aquatic chemistry, atmospheric chemistry, and green chemistry.

Prerequisite: CHEM 2300 or CHEM 2420; CHEM 2230; and QA course.

CHEM3550 - Physical Chemistry for the Life Sciences

Credits: 3
Deals with areas of physical chemistry of interest to students majoring in the life sciences. Covers thermodynamics, kinetics, equilibrium and spectroscopy, using biological systems for development and illustration. Credit is allowed for only one of the courses: CHEM 3550 or CHEM 4507.
When Offered (Normally offered every other year)
Prerequisite: CHEM 1030, MATH 2200.

CHEM4050 - Solar Energy Conversion

Credits: 3
Provides an overview of the science behind current and future solar thermal and photovoltaic technologies. Environmental aspects, legal issues and cost associated with solar energy will also be included.

Cross Listed ERS 4050.
When Offered (Offered spring semester)
Prerequisite: CHEM 1030 or CHEM 1060 and PHYS 1210 or PHYS 1310 and MATH 2200.

CHEM4230 - Instrumental Methods of Chemical Analysis

Credits: 5
Introduces optical, electroanalytical and separation methods of analysis, emphasizing practical industrial applications.

When Offered (Normally offered fall semester)
Prerequisite: CHEM 2230.

CHEM4400 - Biological Chemistry

Credits: 3
Covers the main principles of biological chemistry from a chemical standpoint. Highlights the chemical structure of biological molecules and examines biological processes with emphasis on the underlying organic chemistry. Introduces biological NMR spectroscopy and other biophysical methods. Discusses main metabolic pathways.

Dual Listed CHEM 5400.
Prerequisite: CHEM 2440 or consent of instructor

MOLB3610 - Principles of Biochemistry

Credits: 4
One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

Physiology Core Required Courses

ZOO3115 - Human Systems Physiology

Credits: 4
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data.
Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

**Prerequisite:** At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

**ZOO4125 - Integrative Physiology**

Credits: 5
Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

**Former Course Number** [3120]

**Prerequisite:** grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

**ZOO4100 - Scientific Communication**

Credits: 2
This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

**Cross Listed** BOT 4100.
USP 2003-2014 Code U3L, U3WC
USP 2015 Code U5C3
**Prerequisite:** COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

**ZOO4101 - Scientific Communication Lab**

Credits: 1
This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

**Cross Listed** BOT 4101.
USP 2015 Code U5C3
**Prerequisite:** COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

**Physiology Core Electives**

A minimum of 10 of the 18 Physiology Core Elective credits must be exclusive to the PHSO major.

At the end of this program students will have a thorough knowledge of physiology, will be well prepared to enter health sciences or graduate education, and will have a range of skills attractive to employers.
Choose a Total of 18 Credits From:

**cannot count towards PHSO electives if used as a CHEM requirement in the Foundational Courses**

**ANSC4120 - Principles of Mammalian Reproduction**

Credits: 4
Overview of the anatomy, physiology, endocrinology and biochemistry of reproductive processes in male and female mammals. Includes lecture and laboratory components.

Dual Listed ANSC 5120.
When Offered (Normally offered fall semester)
Prerequisite: ANSC 3010 OR ZOO 3115

**ANSC4260 - Mammalian Endocrinology**

Credits: 3
Introduces principles of endocrinology, role of endocrine systems in regulating metabolism, growth, reproduction and lactation in mammals.

Dual Listed ANSC 5260.
When Offered (Normally offered fall semester)
Prerequisite: ANSC 3010, ZOO 3115, or equivalent.

**ANTH4210 - Human Osteology**

Credits: 3
Provides a detailed study of the human skeleton.

Dual Listed ANTH 5210.
When Offered (Normally offered spring semester)
Prerequisite: ANTH 1100, LIFE 2022.

**ANTH4230 - Forensic Anthropology**

Credits: 3
Introduces methods and purposes of physical anthropology as applied in human identification for law enforcement agencies.

Cross Listed CRMJ 4230.
When Offered (Normally offered fall semester of odd-numbered years)
Prerequisite: ANTH 1100.

**KIN3021 - Physiology of Exercise**

Credits: 3
Applies physiological principles to human physical activities. Emphasizes interaction of neuromuscular circulatory, and
respiratory mechanisms as affecting, and affected by, immediate exercise situations and physical training. Students who are not K&H or PHET majors may be allowed to register with permission of the instructor.

**Former Course Number** [PEPR 3021]

**Prerequisite**: 2.750 GPA. For Kinesiology & Health majors: grade of C or better in MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115. Or declared PHET major with the following courses completed: MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115.

**KIN3038 - Exercise Psychology**

Credits: 3
Studies psychological theories for understanding and predicting health-oriented exercise behavior, including psychological intentions for increasing exercise participation and adherence. Emphasizes psychological and psychobiological responses to exercise.

**Prerequisite**: grade of C or better in PSYC 1000; concurrent enrollment in or completion of KIN 3021; 2.750 GPA.

**KIN3042 - Biomechanics of Human Movement**

Credits: 3
Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

**Former Course Number** [PEPR 3042]

**Prerequisite**: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

**KIN4042 - Advanced Biomechanics**

Credits: 3
Provides understanding of biomechanical theories and the application of biomechanical measurements to human movement in sports, training, and rehabilitation. Emphasis on using equipment to collect biomechanical data to answer research and clinical questions. Lecture and data collection topics include electromyography, force, balance, kinematics, and kinetics.

**Prerequisite**: C or better in KIN 3042, minimum 2.750 GPA.

**LIFE3600 - Cell Biology**

Credits: 4
Focuses on cell structure, cell function and the regulation of cell processes. Examines many levels of organization, ranging from single molecules and individual cells to multi-cellular systems and the whole organism. Discussion section is required.
Former Course Number [BIOL 3600/BIOL 4600]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

MICR4001 - Epidemiology (Diseases in Population)

Credits: 3
Basic epidemiologic concepts and approaches to population problems in medicine, with examples from veterinary and human health. Covers a wide spectrum of topics and introduces practical applications of epidemiology.

Cross Listed PATB 4001.
Dual Listed MICR 5001.
Prerequisite: STAT 2050.

MOLB3610 - Principles of Biochemistry

Credits: 4
One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

MOLB4670 - Advanced Molecular Cell Biology

Credits: 3
Key concepts in eukaryotic cell biology will be presented with a focus on cellular processes that form the basis for human diseases. Cellular organization, dynamics, and signaling will be emphasized. Students will also explore principles of research design by critical reading and discussion of scientific literature.

Dual Listed MOLB 5670
When Offered Fall
Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600

MOLB4100 - Clinical Biochemistry

Credits: 4
Integrated discussion of biochemical, molecular, and physiological principles underlying human medical disorders and biochemical and molecular genetics tests used in prevention, diagnosis and treatment. Weekly discussion sessions review basic concepts studied by students independently and class sessions include problem solving in an active learning format, lectures and other applied activities.

When Offered Spring
Former Course Number [3980]
Prerequisite: Minimum grade of C in MOLB 3610 or MOLB 4600; course in physiology recommended (e.g. ZOO 3115).

MOLB4400 - Immunology

Credits: 4
Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

Cross Listed PATB 4400.
Dual Listed MOLB 5400.
When Offered Fall
Prerequisite: MOLB 2021 or MICR 2021 or MOLB 2240 or PATB 2220, and a minimum grade of C in MOLB 3000 or MOLB 3610.

NEUR4295 - Neurodevelopment

Credits: 3
Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).

Cross Listed ZOO 4295.
Dual Listed NEUR 5295.
Prerequisite: ZOO 4280.

NEUR5100 - Structure and Function of the Nervous System

Credits: 4
Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed ZOO 5100.
Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

NEUR5295 - Neurodevelopment

Credits: 3
Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).

Cross Listed ZOO 5295.
Dual Listed NEUR 4295.
NEUR5685 - Neurophysiology

Credits: 3
Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms will be covered in addition to the basic neurophysiology of nerve cells.

Cross Listed ZOO 5685.
Prerequisite: one course in physiology, chemistry, physics.

NEUR5887 - Molecular Neuropharmacology

Credits: 3
Focus on the molecularly-induced functional changes within the nervous system in normal and disease states. In addition, will provide a thorough explanation of the cellular and molecular actions of drugs on synaptic transmission and discuss the neurochemical basis of behavior.

Prerequisite: PharmD current standing and instructor's permission or NEUR 5280.

PATB4001 - Epidemiology (Diseases in Population)

Credits: 3
Basic epidemiologic concepts and approaches to population problems in medicine, with examples from veterinary and human health. Covers a wide spectrum of topics and introduces practical applications of epidemiology.

Cross Listed MICR 4001
Dual Listed PATB 5001
Prerequisite: STAT 2050 or STAT 2070

PATB4130 - Mammalian Pathobiology

Credits: 3
Anatomical basis of disease in mammals. Emphasis on concepts of pathogenesis of disease, and the gross, microscopic and clinicopathological changes associated with lesions: cell injury and death; cellular degeneration; disturbances of growth and circulation; neoplasia; inflammation; and recognition of gross and microscopic tissue changes. Background in immunology will be beneficial.

Cross Listed MICR 4130
Dual Listed PATB 5130
When Offered (Normally offered spring semester)
USP 2015 Code U5C3
Prerequisite: C or better in LIFE 2022.

PATB4140 - Principles of Toxicology

Credits: 3
Toxicology is the study of poisons, their mechanisms of action and their effects on various organisms including man
and domestic animals. Designed to provide students in the life and environmental sciences with an understanding of the principles of toxicology as they apply to animal and human health, food safety and environmental studies.

**Dual Listed** PATB 5140  
**When Offered** (Normally offered full semester of even-numbered years)  
**Prerequisite:** 9 hours of biological science (e.g., physiology), 4 hours chemistry, 3 hours biochemistry.

**PATB4400 - Immunology**

Credits: 4  
Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

**Cross Listed** MOLB 4400  
**Dual Listed** PATB 5400  
**When Offered** (Normally offered spring semester)  
**Prerequisite:** MOLB 2021/MICR 2021 or MOLB 2240/MICR 2240 or PATB 2220, and a minimum grade of C- in MOLB 3000 or MOLB 3610.

**PATB4710 - Medical Virology**

Credits: 3  
Human and animal viruses as biological entities. Methods of study, classification, replication strategies, diagnostic approaches, epidemiology and significance as disease agents.

**Cross Listed** MICR 4710  
**Dual Listed** PATB 5710  
**When Offered** (Normally offered fall semester)  
**Prerequisite:** MOLB 2240

**PHCY3450 - Foundational Pathophysiology**

Credits: 4  
Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

**When Offered** (Normally offered spring semester)  
**Former Course Number** [4450]

**Prerequisite:** LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

**PSYC3250 - Health Psychology**

Credits: 3  
Provides overview of growing partnership between psychology and health care, including history of psychology in
health care; theoretical foundations of health and illness; intervention and research techniques; stress and high risk behaviors (e. g., substance abuse, eating behaviors, AIDS); psychology's contribution to improving outcomes and quality of life in chronic and life-threatening behaviors.

**Cross Listed** NURS 3250.

**Prerequisite:** A grade of C or better in PSYC 1000.

**PSYC4040 - Cognitive Neuroscience**

Credits: 4
Examines the underlying neural bases of higher cognitive functions in humans, including attentions, language, motor control, navigation, emotions, and memory, as well as neuroanatomy fundamentals and neuroscience methods such as fMRI and ERP. Lecture and lab components.

**Prerequisite:** A grade of C or better in PSYC 2080 or PSYC 3120 or ZOO 4280.

**PSYC4080 - Physiological Psychology**

Credits: 4
Examines physiological mechanisms of behavior, strongly emphasizing neural and hormonal processes. Includes fundamentals of neuroanatomy and evolution of the nervous system, basic neurophysiology, sensory and motor processes, as well as the physiology of emotion, motivation, learning and memory. Lecture three hours per week. Laboratory two hours per week.

**USP 2003-2014 Code U3SB**

**Prerequisite:** A grade of C or better in 6 hours of psychology and LIFE 1000, LIFE 1003, or LIFE 1010 or an introductory zoology course.

**PSYC4250 - Psychological Aspects of Chronic Illness**

Credits: 3
Investigates the impact of chronic physical illnesses on diagnosed children and adults, their families, and society. Emphasizes effects of illnesses on psychological adaptation and quality of life. Should be of particular interest to helping professionals and health care workers.

**Prerequisite:** A grade of C or better in PSYC 1000 and PSYC 3250.

**SOC3550 - Medical Sociology**

Credits: 3
Considers sociological contributions to diagnosis and treatment of illness. Studies social organization of health professions and agencies.

**Prerequisite:** SOC 1000.

**SOC4160 - Sociology of Aging**
The process of aging from the individual to the societal level is the focus of the course. Consequences of this process such as the increase in the number of elderly, retirement and health are examined from the major social institutions, the relationships between these institutions and American society as a whole.

**Dual Listed SOC 5160.**
**Former Course Number [4150]**

**Prerequisite:** 6 hours of sociology (including SOC 1000) and at least junior standing.

**ZOO3010 - Vertebrate Anatomy, Embryology, and Histology**

Credits: 4
Provides a comprehensive overview of vertebrate anatomy. The structural organization, embryological derivation, and histological organization of the major organ systems will be emphasized. The evolution and functional organization of anatomical structure will also be emphasized. Includes laboratory sessions. Fulfills degree requirement in physiology subsection for zoology major.

**Prerequisite:** LIFE 2022 or equivalent, and a semester of chemistry.

**ZOO4110 - HIV/AIDS: The Disease and the Dilemma**

Credits: 3
Explores the basic biology of the HIV virus, and its effects upon the human body, the magnitude of the global HIV/AIDS pandemic, treatment and prevention of AIDS, and the social, political, economic, and legal issues of HIV/AIDS.

**Prerequisite:** LIFE 1003 or LIFE 1010.

**ZOO4280 - Introduction to Neuroscience**

Credits: 3
Examines the basic electrical properties of neurons and from there identifies determinants of brain development, how neuronal "circuits" are formed and how these neuronal systems enable the processing of sensory information, coordinated movement, adaptation to the environment, and other complex functions (e. g., sleep, sex).

**Dual Listed ZOO 5280.**
**Prerequisite:** ZOO 3115 or equivalent.

**ZOO4340 - Developmental Biology and Embryology**

Credits: 4
Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration and asexual reproduction. Emphasizes mechanisms that create form and regulate cellular differentiation.
Dual Listed ZOO 5340.

When Offered: Normally offered spring semester

Prerequisite: one year of life sciences, one year of chemistry.
- ZOO 4670

ZOO4735 - Advanced Topics in Physiology

Credits: 1-4
Max Credit (Max. 12)

Designed to cover advanced topics in Physiology for students specializing in Physiology or related fields. Examples of topics include endocrinology, cardiovascular, renal, neurological, respiratory, and metabolic physiology. Integrative topics (e.g., circadian rhythms, thermal stress) may also be included.

Dual Listed ZOO 5735.

Former Course Number [5730]

Prerequisite: ZOO 3115 or equivalent as approved by the instructor.

ZOO5100 - Structure and Function of the Nervous System

Credits: 4

Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed NEUR 5100.

Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

ZOO5685 - Neurophysiology

Credits: 3

Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms are covered in addition to the basic neurophysiology of nerve cells. The laboratory complements the lecture sequence.

Cross Listed NEUR 5685.

Prerequisite: one course in physiology, chemistry, physics.

SPPA3265 - Anatomy and Physiology of Speech, Swallowing and Hearing

Credits: 4

Introduces the student to the anatomy of the normal speech and hearing systems as well as the physiologic underpinnings of the speech (respiration, phonation, articulation), swallowing, and hearing (external, middle, and inner ear) systems. Theories of speech production and speech perception are presented.
Former Course Number [3400]

Prerequisite: KIN 2040 or consent of instructor.

**CHEM3550 - Physical Chemistry for the Life Sciences**

Credits: 3
Deals with areas of physical chemistry of interest to students majoring in the life sciences. Covers thermodynamics, kinetics, equilibrium and spectroscopy, using biological systems for development and illustration. Credit is allowed for only one of the courses: CHEM 3550 or CHEM 4507.

When Offered (Normally offered every other year)
Prerequisite: CHEM 1030, MATH 2200.

**Wildlife and Fisheries Biology and Management, B.S.**

Provides a solid foundation in the theory and techniques involved in the management, conservation, and captive propagation of wildlife and fish populations. Includes both classroom and field experiences in a Rocky Mountain setting.

Additional Information

Wildlife and Fisheries Biology and Management is a professional degree designed to prepare students for state, federal, and other positions in resource management and conservation biology. The degree provides students with knowledge of the natural world, understanding of processes governing dynamics of wildlife and fish populations, as well as an appreciation of human-mediated effects on wildlife and fish populations. A student graduating with this degree will be familiar with the theory of resource management as well as with methods used to determine population status, habitat quality, and conservation. In Wyoming the abundance of wild animals and pristine habitats provide a unique natural laboratory for studying the responses of wildlife and fish populations to changing climates and habitats.

A student graduating with a degree in WFBM will have comprehensive knowledge of wildlife and fisheries biology and management, will have earned a degree that is compatible with the requirements for professional certification with the American Fisheries Society or the Wildlife Society, and will have a range of knowledge and skills that are valuable to potential employers.

**University Studies Program**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on
developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q- - Quantitative Reasoning**

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3
Max Credit 3
Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**A&S College Core**

**D - Diversity**

Credits: 3  
A&S Course: Diversity in the United States

**G - Global Awareness**

Credits: 3  
A&S Core: Global Awareness Course

**Foundation Courses**

(MATH 1450 may substitute for MATH 1400 and MATH 1405)

**MATH1400 - College Algebra**

Credits: 3  
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

**MATH1405 - Trigonometry**
Credits: 3
Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4
Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.
USP 2003-2014 Code U3Q,U3QB
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR
LIFE2100 - Intro Research and Analysis

Credits: 4
Students gather and analyze data in the context of life science research projects. Provides a foundation in research design, probability and inference, and basic computational skills to support graphical and formal analyses of research data.

USP 2015 Code U5Q
Prerequisite: LIFE 1010 with a grade of C or better.

CHEM1020 - General Chemistry I

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3S
USP 2015 Code U5PN
Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

CHEM1030 - General Chemistry II

Credits: 4
Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: CHEM 1020.

GEOL1100 - Physical Geology

Credits: 4
Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

USP 2003-2014 Code U3SE
USP 2015 Code U5PN
OR

PHYS1110 - General Physics I
Credits: 4
First course of two-semester sequence. Introduces elementary college physics without calculus. Primarily for premedical, predental, preoptometry, prephysical therapy and other students requiring insight into workings of the physical world. Includes classical mechanics, gravitation and heat. Laboratory sessions will illustrate principles studied. Students receiving credit for PHYS 1110 cannot receive credit for PHYS 1050, PHYS 1210 or PHYS 1310.

When Offered (Normally offered fall and summer semester)
USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: MATH 1450, 1405 or equivalent.
OR

SOIL2010 - Introduction to Soil Science

Credits: 4
Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE
Prerequisite: CHEM 1000 or CHEM 1020.

LIFE1010 - General Biology

Credits: 4
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN
Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

LIFE2022 - Animal Biology

Credits: 4
An integrative course addressing the evolution, anatomy, physiology, and ecology of animals. Continues building upon the four themes in LIFE 1010, cell and molecular biology, genetics, evolution, and ecology. Preserved animal specimens are dissected during some labs. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered spring semester)
Former Course Number [BIOL 2022]
**Prerequisite:** LIFE 1010 with a grade of C or better.

Data Science course

Choose ONE course from the following:

**COSC1010 - Introduction to Computer Science I**

Credits: 3
Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

**COSC1015 - Introduction to Programming for Data Science**

Credits: 3
Provides an accelerated introduction to computing in the setting of Data Science. Topics include basic programming techniques; data transformation; computing with vectors, matrices, and data frames; data visualization; and text processing.

USP 2015 Code U5Q
A&S College Core 2015 Credit may not be earned for both COSC 1010 and COSC 1015. Priority given to Engineering Honors students.

**Prerequisite:** grade of C or better in MATH 1400 or Level 4 or higher on the Math Placement Exam within one year prior to the start of the course.

**COSC1100 - Computer Science Principles and Practice**

Credits: 3
Introduces use of computers for algorithmic problem solving. Studies scope, major contributions, tools and current status of computer science. Presentation of computer science principles; use of software packages and evaluation of their effectiveness; and elementary programming.

**When Offered** (Offered based on sufficient demand and resources)

**Prerequisite:** C or better in MATH 1400 or in any University Studies QB or Level 4 or higher on Mathematics Placement Exam.

**COSC1200 - Computer Information Systems**

Credits: 3
Introduces computers and information processing, computer systems and hardware, computer software, information processing systems, information systems and information resource management. Uses word processing, data base language and electronic spreadsheet program in hands-on exercises.

**Prerequisite:** passing of Mathematics Placement Examination at Level 2 or equivalent.

**GIST1200 - Geospatial Foundations**
Credits: 3
Provides fundamental knowledge of geospatial information and place-based science across disciplines, including spatial representation, scale, resolution, map projections, and coordinate systems. Students learn how to discover and access spatial data and read and analyze maps. Supports understanding of geospatial reasoning and cognition.

Former Course Number GIST 1100

**GIST2140 - Survey of Remote Sensing Applications**

Credits: 3
This course introduces remote sensing by surveying applications across disciplines. It includes a brief overview of fundamentals followed by exploration of types of remote sensing including aerial photography, multispectral and hyperspectral satellite remote sensing, active remote sensing, and thermal remote sensing. The course also introduces remote sensing applications for global change.

USP 2015 Code U5PN
Former Course Number GIST 2160

**Prerequisite:** USP Q; sophomore or junior class standing.

**GIST2190 - Intro to Programming**

Credits: 3
Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

Former Course Number GIST 2150

**GIST2200 - Spatial Data Visualization**

Credits: 3
Covers fundamental principles, concepts, and applications of spatial data visualization. Students will learn to find, understand, and act on spatial patterns, associations and trends, and to use and critique powerful graphical representations of spatial data including 3D maps, web maps, interactive graphics, and animations.

**GIST2310 - Intro to Geographic Information Systems**

Credits: 4
Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.

Former Course Number GIST 2100
GIST3140 - Introduction to Remote Sensing

Credits: 3
This is a combined lecture and computer lab course designed to present the physical principles of remote sensing, the application of airborne and satellite imagery to the study of the earth's surface with an emphasis on vegetation, and the hands-on application or remote sensing principles using digital image processing.

USP 2003-2014 Code Q
Former Course Number GIST 3111

GIST4211 - Advanced Remote Sensing

Credits: 3
On-campus and online course including lecture and digital image processing lab. Explores advanced remote sensing techniques including high spatial and spectral resolution data analysis, active remote sensing (radar and lidar), and advanced image classification. Other advanced topics may be discussed as needed.

Dual Listed GIST 5211.
Former Course Number [BOT 4211; GEOG 4211]

Prerequisite: GIST 3111 or GIST 4130.

Core Required Courses

LIFE3050 - Genetics

Credits: 4
Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3400 - General Ecology

Credits: 3
Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

Former Course Number [BIOL 3400/ BIOL 2400]
Prerequisite: completion of LIFE 101 and one of LIFE 202, LIFE 203, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

**LIFE3410 - Introduction to Field Ecology**

Credits: 2
Field and laboratory course. Introduces methods used in plant and animal ecology.

**When Offered** (Normally offered fall semester)

**Former Course Number** [BIOL 3410/BIO 2410]

Prerequisite: LIFE 3400 (may be concurrently enrolled).

**ZOO2450 - Fish and Wildlife Management in the Anthropocene**

Credits: 4
Course examines fundamental principles in management of natural resources, especially fish and wildlife populations. Students explore historical to contemporary context of management, population biology, management tools and their application, career opportunities, with specific emphasis on human dimensions, law, and policy. Students will develop oral and written communication skills.

Cross Listed Crosslisted with ENR 2450.
USP 2015 Code U5C2
Prerequisite: LIFE 1010, LIFE 202, and COM1.

**ZOO4190 - Comparative Environmental Physiology**

Credits: 4
Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces discipline which has risen between traditional fields of physiology and ecology and provides understanding of animal distribution and survival. Fulfills degree requirements in physiology subsection for the zoology major.

Dual Listed ZOO 5190.
When Offered (Offered spring semester)
Former Course Number [4230]

Prerequisite: LIFE 202 or LIFE 203 and CHEM 1030 or CHEM 1060.

**ZOO4400 - Population Ecology**

Credits: 3
Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological problems in their careers.
Dual Listed ZOO 5400.

When Offered (Offered spring semester)

Prerequisite: LIFE 1010, LIFE 3400 and STAT 2050 or consent of instructor.

ZOO4970 - Internship in Wildlife Management

Credits: 1
Max Credit (Max. 1)

Provides practical field experience in resource management for undergraduate credit.

Prerequisite: consent of instructor.

ZOO4100 - Scientific Communication

Credits: 2

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4100.
USP 2003-2014 Code U3L,U3WC
USP 2015 Code U5C3

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

ZOO4101 - Scientific Communication Lab

Credits: 1

This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4101.
USP 2015 Code U5C3

Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

Options

Complete Terrestrial OR Aquatic Option

Aquatic Option

A minimum of 10 of the AQUATIC OPTION requirements listed below (ZOO 4330 and ZOO 4440 and ZOO 4430 and Restricted Electives) must be exclusive to the WFBM major.

REQUIRED COURSES
ZOO4330 - Ichthyology

Credits: 3
Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

Dual Listed ZOO 5330.
When Offered (Normally offered spring semester)
Former Course Number [4750]

Prerequisite: LIFE 2022.

ZOO4440 - Limnology

Credits: 3
Studies ecology of inland waters; biological, chemical and physical features of lakes and streams.

When Offered (Offered fall semester)
Prerequisite: LIFE 1010, LIFE 3400 and CHEM 1030 or consent of instructor.

ZOO4430 - Limnology Laboratory

Credits: 2
Utilizes basic field techniques in limnology. Emphasizes analysis and interpretation of data obtained from field and laboratory exercises.

When Offered (Offered fall semester)
Prerequisite: concurrent enrollment in ZOO 4440.
Restricted Electives

15 Credits of Electives from the following list:

ZOO3600 - Principles of Animal Behavior

Credits: 3
Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

When Offered (Normally offered spring semester)
Prerequisite: introductory course in zoology, biology or psychology.

ZOO4235 - Marine Biology

Credits: 3
This course explores major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.
Cross Listed BOT 4235.
Dual Listed ZOO 5235.
Prerequisite: LIFE 3400 with a grade of C or better.

**ZOO4300 - Wildlife Ecology and Management**

Credits: 5
Integrates concepts of vertebrate ecology with the art of wildlife management, stressing approaches to deal with the inherent uncertainty of managing populations. Strategies to increase or decrease populations of target species, tools used to determine population status (e.g., viability analysis, monitoring, habitat assessment), and ecosystem management approaches. Laboratory included.

Dual Listed ZOO 5300.
When Offered (Offered fall semester)
Former Course Number [4720]

Prerequisite: LIFE 3400, STAT 2050 or STAT 2070, and ZOO 2450.

**ZOO4310 - Fisheries Management**

Credits: 3
Acquaints students with theory and techniques of inland fisheries management. Includes methods of evaluating growth and production, rates of mortality and recruitment and use of yield models in fisheries biology. Includes laboratory and field exercises.

Dual Listed ZOO 5310.
When Offered (Normally offered fall semester)
Former Course Number [4730]

Prerequisite: ZOO 4330.

**ZOO4350 - Ornithology**

Credits: 3
Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed ZOO 5350.
When Offered (Offered spring semester)
Former Course Number [4780]

Prerequisite: LIFE 2022.

**ZOO4370 - Mammalogy**
Credits: 3
Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

**Dual Listed** ZOO 5370.
**When Offered** (Offered fall semester)
**Former Course Number** [4790]

**Prerequisite:** LIFE 2022.

**ZOO4380 - Herpetology**

Credits: 3
Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

**Dual Listed** ZOO 5380.
**Prerequisite:** LIFE 2022.

**ZOO4415 - Behavioral Ecology**

Credits: 3
Applies empirical and theoretical approaches to ecological and evolutionary underpinnings for behaviors ranging from foraging and predation to social grouping and mating systems. Emphasizes comparative analyses (what phylogenetic patterns exist across diverse species?) as well as genetic/fitness benefits (how do individuals benefit from apparently puzzling behaviors?).

**Dual Listed** ZOO 5415.
**When Offered** (Offered fall semester)
**Prerequisite:** ZOO 3600 or LIFE 3400 or permission of the instructor.

**ZOO4420 - Conservation Biology**

Credits: 3
Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

**Cross Listed** BOT 4420/ENR 4420.
**Prerequisite:** LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

**ZOO4540 - Invertebrate Zoology**

Credits: 4
Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.
Dual Listed ZOO 5540.

When Offered (Offered fall semester)

Prerequisite: LIFE 2022.

CHEM2230 - Quantitative Analysis

Credits: 5
Broad, general coverage of analytical techniques, principles and calculations.

Lab/Lecture Hours Laboratory: 6 hours per week.

When Offered (Normally offered spring semester)

Prerequisite: CHEM 1030, CHEM 1060 or equivalent.

SOC3950 - Environmental Sociology

Credits: 3
Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed ENR 3950.

Prerequisite: SOC 1000.

AGEC3750 - Natural Resource Planning and Economics

Credits: 3
Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed ENR 3750.

Former Course Number [4750]

Prerequisite: QA/Q, WA/COM1 and junior standing.

LIFE2023 - Biology of Plants and Fungi

Credits: 4
An integrated course dealing with the central themes of biology including cell and molecular biology, genetics, evolution and ecology of plants and fungi. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered fall semester).

Former Course Number [BIOL 2023]
Prerequisite: LIFE 1010 with a grade of C or better.

- BOT 0000:5999
- ENR 0000:5999
- REWM 0000:5999

Terrestrial Option

A minimum of 10 of the TERRESTRIAL OPTION requirements listed below (BOT 4700 and ZOO 4300 and Restricted Electives) must be exclusive to the WFBM major.

REQUIRED COURSES

BOT4700 - Vegetation Ecology

Credits: 4
Reviews the ecology of major vegetation types, emphasizing patterns of vegetation distribution, vegetation-environment relationships, succession, the effect of fire and management decisions, and methods of vegetation analysis.

Dual Listed BOT 5700.
When Offered (Normally offered fall semester)
Prerequisite: LIFE 3400.

ZOO4300 - Wildlife Ecology and Management

Credits: 5
Integrates concepts of vertebrate ecology with the art of wildlife management, stressing approaches to deal with the inherent uncertainty of managing populations. Strategies to increase or decrease populations of target species, tools used to determine population status (e.g., viability analysis, monitoring, habitat assessment), and ecosystem management approaches. Laboratory included.

Dual Listed ZOO 5300.
When Offered (Offered fall semester)
Former Course Number [4720]

Prerequisite: LIFE 3400, STAT 2050 or STAT 2070, and ZOO 2450.

Restricted Electives

14 Credits of Electives from the following list:

ZOO3600 - Principles of Animal Behavior

Credits: 3
Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.
When Offered  (Normally offered spring semester)

Prerequisite: introductory course in zoology, biology or psychology.

ZOO4235 - Marine Biology

Credits: 3
This course explore major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.

Cross Listed  BOT 4235.
Dual Listed  ZOO 5235.
Prerequisite: LIFE 3400 with a grade of C or better.

ZOO4310 - Fisheries Management

Credits: 3
Acquaints students with theory and techniques of inland fisheries management. Includes methods of evaluating growth and production, rates of mortality and recruitment and use of yield models in fisheries biology. Includes laboratory and field exercises.

Dual Listed  ZOO 5310.
When Offered  (Normally offered fall semester)
Former Course Number  [4730]

Prerequisite: ZOO 4330.

ZOO4330 - Ichthyology

Credits: 3
Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

Dual Listed  ZOO 5330.
When Offered  (Normally offered spring semester)
Former Course Number  [4730]

Prerequisite: LIFE 2022.

ZOO4350 - Ornithology

Credits: 3
Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed  ZOO 5350.
When Offered  (Offered spring semester)
**Former Course Number** [4780]

**Prerequisite:** LIFE 2022.

**ZOO4370 - Mammalogy**

Credits: 3
Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

**Dual Listed** ZOO 5370.
**When Offered** (Offered fall semester)
**Former Course Number** [4790]

**Prerequisite:** LIFE 2022.

**ZOO4380 - Herpetology**

Credits: 3
Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

**Dual Listed** ZOO 5380.
**Prerequisite:** LIFE 2022.

**ZOO4415 - Behavioral Ecology**

Credits: 3
Applies empirical and theoretical approaches to ecological and evolutionary underpinnings for behaviors ranging from foraging and predation to social grouping and mating systems. Emphasizes comparative analyses (what phylogenetic patterns exist across diverse species?) as well as genetic/fitness benefits (how do individuals benefit from apparently puzzling behaviors?).

**Dual Listed** ZOO 5415.
**When Offered** (Offered fall semester)
**Prerequisite:** ZOO 3600 or LIFE 3400 or permission of the instructor.

**ZOO4420 - Conservation Biology**

Credits: 3
Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

**Cross Listed** BOT 4420/ENR 4420.
**Prerequisite:** LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.
ZOO4430 - Limnology Laboratory

Credits: 2
Utilizes basic field techniques in limnology. Emphasizes analysis and interpretation of data obtained from field and laboratory exercises.

When Offered (Offered fall semester)
Prerequisite: concurrent enrollment in ZOO 4440.

ZOO4440 - Limnology

Credits: 3
Studies ecology of inland waters; biological, chemical and physical features of lakes and streams.

When Offered (Offered fall semester)
Prerequisite: LIFE 1010, LIFE 3400 and CHEM 1030 or consent of instructor.

ZOO4540 - Invertebrate Zoology

Credits: 4
Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 5540.
When Offered (Offered fall semester)
Prerequisite: LIFE 2022.

SOC3950 - Environmental Sociology

Credits: 3
Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed ENR 3950.
Prerequisite: SOC 1000.

CHEM2230 - Quantitative Analysis

Credits: 5
Broad, general coverage of analytical techniques, principles and calculations.

Lab/Lecture Hours Laboratory: 6 hours per week.
When Offered (Normally offered spring semester)
Prerequisite: CHEM 1030, CHEM 1060 or equivalent.

AGEC3750 - Natural Resource Planning and Economics

Credits: 3
Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed ENR 3750.
Former Course Number [4750]

Prerequisite: QA/Q, WA/COM1 and junior standing.

LIFE2023 - Biology of Plants and Fungi

Credits: 4
An integrated course dealing with the central themes of biology including cell and molecular biology, genetics, evolution and ecology of plants and fungi. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered fall semester).
Former Course Number [BIOL 2023]

Prerequisite: LIFE 1010 with a grade of C or better.
  • BOT 0000:5999
  • ENR 0000:5999
  • REWM 0000:5999

Zoology, B.S.

Zoology majors explore form, function, behavior, ecology, evolution and conservation of animals and hone analytical, writing, and research skills for diverse careers from graduate school to state and federal agencies, consulting, and nonprofits.

Additional Information

Zoology is the study of animals: their structure, physiology, development and evolution. One of the enduring fascinations of zoology is that we can learn so much about ourselves and our environment by studying what our fellow creatures do.

At the end of this program students will have a comprehensive knowledge of zoology, will be well prepared for graduate education, and will be equipped to enter any of the many employment opportunities that are available.

University Studies Program
FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q - Quantitative Reasoning

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN-Physical and Natural World (1)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

PN-Physical and Natural World (2)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**A&S College Core**

**D - Diversity**

Credits: 3  
A&S Course: Diversity in the United States

**G - Global Awareness**

Credits: 3  
A&S Core: Global Awareness Course

**Foundation Courses**

(MATH 1450 may substitute for MATH 1400 and MATH 1405)

**MATH1400 - College Algebra**

Credits: 3  
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA
Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

**MATH1405 - Trigonometry**

Credits: 3
Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

**MATH2200 - Calculus I**

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**STAT2050 - Fundamentals of Statistics**

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

**STAT2070 - Introductory Statistics for the Social Sciences**

Credits: 4
Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.
**Cross Listed** SOC 2070.
USP 2003-2014 Code U3Q, U3QB

**Prerequisite:** grade of C or better in MATH 1000, MATH 1400, or equivalent.

**OR**

**LIFE2100 - Intro Research and Analysis**

Credits: 4
Students gather and analyze data in the context of life science research projects. Provides a foundation in research design, probability and inference, and basic computational skills to support graphical and formal analyses of research data.

USP 2015 Code U5Q

**Prerequisite:** LIFE 1010 with a grade of C or better.

**CHEM1020 - General Chemistry I**

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3S
USP 2015 Code U5PN

**Prerequisite:** ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

**CHEM1030 - General Chemistry II**

Credits: 4
Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3SP
USP 2015 Code U5PN

**Prerequisite:** CHEM 1020.

**CHEM2230 - Quantitative Analysis**

Credits: 5
Broad, general coverage of analytical techniques, principles and calculations.

**Lab/Lecture Hours** Laboratory: 6 hours per week.
**CHEM 2300 - Introductory Organic Chemistry**

Credits: 4  
Terminal course in organic and beginning biological chemistry. No credit will be allowed in CHEM 2300 if credit earned in CHEM 2420. This course is not an acceptable prerequisite for CHEM 2440.

**CHEM 2420 - Organic Chemistry I**

Credits: 4  
First semester of a one-year sequence in organic chemistry. Approached from the viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

**CHEM 2440 - Organic Chemistry II**

Credits: 4  
Second semester of a one-year sequence in organic chemistry. Approached from viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

**CHEM 3020 - Environmental Chemistry**

Credits: 3  
Environment and modern environmental problems in terms of chemical structures and reactions. Chemical principles of equilibrium, kinetics, and thermodynamics are used to help understand our changing environment. Topics include toxicological chemistry, aquatic chemistry, atmospheric chemistry, and green chemistry.

**Prerequisites:**
- CHEM 2300 or CHEM 2420; CHEM 2230; and QA course.
- OR
CHEM3550 - Physical Chemistry for the Life Sciences

Credits: 3
Deals with areas of physical chemistry of interest to students majoring in the life sciences. Covers thermodynamics, kinetics, equilibrium and spectroscopy, using biological systems for development and illustration. Credit is allowed for only one of the courses: CHEM 3550 or CHEM 4507.

When Offered (Normally offered every other year)
Prerequisite: CHEM 1030, MATH 2200.
OR

CHEM4050 - Solar Energy Conversion

Credits: 3
Provides an overview of the science behind current and future solar thermal and photovoltaic technologies. Environmental aspects, legal issues and cost associated with solar energy will also be included.

Cross Listed ERS 4050.
When Offered (Offered spring semester)
Prerequisite: CHEM 1030 or CHEM 1060 and PHYS 1210 or PHYS 1310 and MATH 2200.
OR

CHEM4230 - Instrumental Methods of Chemical Analysis

Credits: 5
Introduces optical, electroanalytical and separation methods of analysis, emphasizing practical industrial applications.

When Offered (Normally offered fall semester)
Prerequisite: CHEM 2230.
OR

CHEM4400 - Biological Chemistry

Credits: 3
Covers the main principles of biological chemistry from a chemical standpoint. Highlights the chemical structure of biological molecules and examines biological processes with emphasis on the underlying organic chemistry. Introduces biological NMR spectroscopy and other biophysical methods. Discusses main metabolic pathways.

Dual Listed CHEM 5400.
Prerequisite: CHEM 2440 or consent of instructor

PHYS1110 - General Physics I

Credits: 4
First course of two-semester sequence. Introduces elementary college physics without calculus. Primarily for premedical, predental, preoptometry, prephysical therapy and other students requiring insight into workings of the physical world. Includes classical mechanics, gravitation and heat. Laboratory sessions will illustrate principles studied.
Students receiving credit for PHYS 1110 cannot receive credit for PHYS 1050, PHYS 1210 or PHYS 1310.

**PHYS1120 - General Physics II**

Credits: 4  
Follows PHYS 1110 and completes introduction to physics without calculus. Includes electricity, magnetism, optics and modern physics. Laboratory sessions illustrate principles studied. Students receiving credit in PHYS 1120 cannot receive credit in PHYS 1050, PHYS 1220 or PHYS 1320.

**Prerequisite:** MATH 1450, 1405 or equivalent.

**LIFE1010 - General Biology**

Credits: 4  
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

**Prerequisite:** Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

**LIFE2022 - Animal Biology**

Credits: 4  
An integrative course addressing the evolution, anatomy, physiology, and ecology of animals. Continues building upon the four themes in LIFE 1010, cell and molecular biology, genetics, evolution, and ecology. Preserved animal specimens are dissected during some labs. Intended for students majoring in the life sciences. Laboratory is required.

**Prerequisite:** LIFE 1010 with a grade of C or better.
LIFE3050 - Genetics

Credits: 4
Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3400 - General Ecology

Credits: 3
Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

Former Course Number [BIOL 3400/ BIOL 2400]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3500 - Evolutionary Biology

Credits: 3
Presents modern evolutionary theory. Examines evolution and evolutionary mechanisms from several viewpoints, with particular attention given to genetic mechanisms underlying processes of evolution and speciation.

When Offered (Normally offered fall semester)
Former Course Number [BIOL 3500]

Prerequisite: completion of LIFE 1010 and LIFE 3050 with a grade of C or higher in each.

ZOO4100 - Scientific Communication

Credits: 2
This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4100.
USP 2003-2014 Code U3L,U3WC
USP 2015 Code U5C3
**Prerequisite:** COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

**ZOO4101 - Scientific Communication Lab**

Credits: 1  
This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed BOT 4101.  
USP 2015 Code U5C3  
**Prerequisite:** COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

**Advanced Zoology Course**

* if more than one of the required courses is completed, additional courses can count towards the Zoology Approved Core Electives below.

One of:

**ZOO4330 - Ichthyology**

Credits: 3  
Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

Dual Listed ZOO 5330.  
When Offered (Normally offered spring semester)  
Former Course Number [4750]

**Prerequisite:** LIFE 2022.

**ZOO4350 - Ornithology**

Credits: 3  
Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed ZOO 5350.  
When Offered (Offered spring semester)  
Former Course Number [4780]

**Prerequisite:** LIFE 2022.
ZOO4370 - Mammalogy

Credits: 3
Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

Dual Listed ZOO 5370.
When Offered (Offered fall semester)
Former Course Number [4790]

Prerequisite: LIFE 2022.

ZOO4380 - Herpetology

Credits: 3
Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

Dual Listed ZOO 5380.
Prerequisite: LIFE 2022.

ZOO4540 - Invertebrate Zoology

Credits: 4
Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 5540.
When Offered (Offered fall semester)
Prerequisite: LIFE 2022.

Zoology Approved Core Electives

A minimum of 10 of 18 Zoology Approved Core Electives must be exclusive to the ZOOL major.

Choose a total of 18 credits from:

ZOO3115 - Human Systems Physiology

Credits: 4
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.
ZOO3600 - Principles of Animal Behavior

Credits: 3
Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

When Offered (Normally offered spring semester)
Prerequisite: introductory course in zoology, biology or psychology.

ZOO4190 - Comparative Environmental Physiology

Credits: 4
Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces discipline which has risen between traditional fields of physiology and ecology and provides understanding of animal distribution and survival. Fulfills degree requirements in physiology subsection for the zoology major.

Dual Listed ZOO 5190.
When Offered (Offered spring semester)
Former Course Number [4230]

Prerequisite: LIFE 2022 or LIFE 2023 and CHEM 1030 or CHEM 1060.

ZOO4235 - Marine Biology

Credits: 3
This course explore major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.

Cross Listed BOT 4235.
Dual Listed ZOO 5235.
Prerequisite: LIFE 3400 with a grade of C or better.

ZOO4300 - Wildlife Ecology and Management

Credits: 5
Integrates concepts of vertebrate ecology with the art of wildlife management, stressing approaches to deal with the inherent uncertainty of managing populations. Strategies to increase or decrease populations of target species, tools used to determine population status (e.g., viability analysis, monitoring, habitat assessment), and ecosystem management approaches. Laboratory included.

Dual Listed ZOO 5300.
When Offered (Offered fall semester)
Former Course Number [4720]

Prerequisite: LIFE 3400, STAT 2050 or STAT 2070, and ZOO 2450.
ZOO4310 - Fisheries Management

Credits: 3
Acquaints students with theory and techniques of inland fisheries management. Includes methods of evaluating growth and production, rates of mortality and recruitment and use of yield models in fisheries biology. Includes laboratory and field exercises.

Dual Listed ZOO 5310.
When Offered (Normally offered fall semester)
Former Course Number [4730]

Prerequisite: ZOO 4330.

ZOO4330 - Ichthyology

Credits: 3
Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

Dual Listed ZOO 5330.
When Offered (Normally offered spring semester)
Former Course Number [4750]

Prerequisite: LIFE 2022.

ZOO4340 - Developmental Biology and Embryology

Credits: 4
Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration and asexual reproduction. Emphasizes mechanisms that create form and regulate cellular differentiation.

Dual Listed ZOO 5340.
When Offered (Normally offered spring semester)
Prerequisite: one year of life sciences, one year of chemistry.

ZOO4350 - Ornithology

Credits: 3
Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed ZOO 5350.
When Offered (Offered spring semester)
Former Course Number [4780]
Prerequisite: LIFE 2022.

**ZOO4370 - Mammalogy**

Credits: 3
Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

Dual Listed ZOO 5370.
When Offered (Offered fall semester)
Former Course Number [4790]

Prerequisite: LIFE 2022.

**ZOO4380 - Herpetology**

Credits: 3
Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

Dual Listed ZOO 5380.
Prerequisite: LIFE 2022.

**ZOO4540 - Invertebrate Zoology**

Credits: 4
Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 5540.
When Offered (Offered fall semester)
Prerequisite: LIFE 2022.

**ZOO4400 - Population Ecology**

Credits: 3
Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological problems in their careers.

Dual Listed ZOO 5400.
When Offered (Offered spring semester)
Prerequisite: LIFE 1010, LIFE 3400 and STAT 2050 or consent of instructor.

**ZOO4415 - Behavioral Ecology**
Applies empirical and theoretical approaches to ecological and evolutionary underpinnings for behaviors ranging from foraging and predation to social grouping and mating systems. Emphasizes comparative analyses (what phylogenetic patterns exist across diverse species?) as well as genetic/fitness benefits (how do individuals benefit from apparently puzzling behaviors?).

**Dual Listed** ZOO 5415.

**When Offered** (Offered fall semester)

**Prerequisite:** ZOO 3600 or LIFE 3400 or permission of the instructor.

**ZOO4420 - Conservation Biology**

Credits: 3

Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

**Cross Listed** BOT 4420/ENR 4420.

**Prerequisite:** LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

**ZOO4430 - Limnology Laboratory**

Credits: 2

Utilizes basic field techniques in limnology. Emphasizes analysis and interpretation of data obtained from field and laboratory exercises.

**When Offered** (Offered fall semester)

**Prerequisite:** concurrent enrollment in ZOO 4440.

**ZOO4440 - Limnology**

Credits: 3

Studies ecology of inland waters; biological, chemical and physical features of lakes and streams.

**When Offered** (Offered fall semester)

**Prerequisite:** LIFE 1010, LIFE 3400 and CHEM 1030 or consent of instructor.

**ZOO4735 - Advanced Topics in Physiology**

Credits: 1-4

Max Credit (Max. 12)

Designed to cover advanced topics in Physiology for students specializing in Physiology or related fields. Examples of topics include endocrinology, cardiovascular, renal, neurological, respiratory, and metabolic physiology. Integrative topics (e.g. circadian rhythms, thermal stress) may also be included.

**Dual Listed** ZOO 5735.
Former Course Number [5730]

Prerequisite: ZOO 3115 or equivalent as approved by the instructor.

ANSC3010 - Comparative Anatomy and Physiology of Domestic Animals

Credits: 4
Teaches comparative anatomy and physiology of digestion, circulation, production, reproduction and environment of farm animals.

When Offered (Normally offered spring semester)
Prerequisite: LIFE 1010 and LIFE 2022, or concurrent registration with LIFE 2022.

ANSC3100 - Principles of Animal Nutrition

Credits: 3
Description of the nutrients, nutrient digestion and absorption, and nutrient function within the body of various domesticated animals.

When Offered (Normally offered spring semester)
Prerequisite: CHEM 2300 or ANSC 2010.

ANSC3150 - Equine Nutrition and Physiology

Credits: 3
Provides general knowledge of nutrition, physiology and biochemistry of exercise and reproductive processes of equine.

When Offered (Normally offered fall semester)
Prerequisite: 4 hours of biology.

MOLB3000 - Introduction to Molecular Biology

Credits: 3
An introduction to molecular biological processes governing cellular events is presented in the context of the structure of genomes, genes and chromosomes, DNA replication, gene expression, signal transduction pathways and the regulation of cellular processes in disease and development. Experimental methods and technologies will also be discussed.

Prerequisite: LIFE 1010 and CHEM 1030; MOLB 2021 or MICR 2021 recommended.

BOT4235 - Marine Biology

Credits: 3
This course explores major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.
Cross Listed ZOO 4235.
Dual Listed BOT 5235.
Prerequisite: LIFE 3400 with a grade of C or better.

**BOT4550 - Computational Biology**

Credits: 4
Introduces concepts and skills that are generally applicable to computational analysis of biological questions. Content is motivated by applied projects that require basic computer programming for analysis. Two computer languages are introduced and utilized.

Dual Listed BOT 5550.
Prerequisite: MATH 2200 or STAT 2050 or equivalent; LIFE 1010 or equivalent.

**BOT4664 - Special Topics in Evolution**

Credits: 1-4
Max Credit (Max. 6)

Advanced topics in evolutionary biology are engaged by studying primary research and topical synthesis in the current literature.

Dual Listed BOT 5664.
Prerequisite: LIFE 3500 or equivalent.

**BOT4790 - Special Topics in Ecology**

Credits: 1-3
Acquaints students with various topics not covered in regular courses. Emphasizes recent developments appearing in journal literature.

Dual Listed BOT 5790.
Former Course Number [4710]

Prerequisite: two courses in ecology.
  • GEOG 3150

**GEOG3480 - Environmental Change**

Credits: 3
Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how societies have responded to natural and anthropogenic environmental change.
Cross Listed ESS 3480
USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
Former Course Number [G&R 3480]

Prerequisite: GEOG 1010 or any USP PN course; and USP COM1.

GIST3140 - Introduction to Remote Sensing

Credits: 3
This is a combined lecture and computer lab course designed to present the physical principles of remote sensing, the application of airborne and satellite imagery to the study of the earth’s surface with an emphasis on vegetation, and the hands-on application or remote sensing principles using digital image processing.

USP 2003-2014 Code Q
Former Course Number GIST 3111

ENTO4300 - Insect Ecology

Credits: 3
Examines concepts of insect ecology and their application to the management of agricultural and rangeland insect pests. Control of rangeland weeds using insects in also examined. Covers population dynamics, predator-prey and insect-plant interactions, biological control and integrated pest management.

Prerequisite: ENTO 1000 or LIFE 1003 or LIFE 1020 or consent of instructor.

ENTO4682 - Insect Anatomy and Physiology

Credits: 5
Studies structure and function of the insect body, particularly emphasizing the relationship between anatomical features and their cellular/biochemical functions.

Dual Listed ENTO 5682.
When Offered (Normally offered spring semester of even-numbered years)
Prerequisite: ENTO 1000.

ENTO4678 - Aquatic Entomology

Credits: 3
Emphasizes biology, ecology, distribution, and taxonomy of aquatic insects. Includes aquatic insects as indicators of pollution. Students must make and identify a collection of immature aquatic insects.

Dual Listed ENTO 5678.
When Offered (Normally offered fall semester of even-numbered years)
Prerequisite: ENTO 1000, ENTO 1001.
**ENTO4684 - Classification of Insects**

Credits: 4
Studies insect orders, families and taxonomic treatises. Requires collection of adult insects representing 100 families, or equivalent museum project, for completion of course requirements.

**Dual Listed** ENTO 5684.
**When Offered** (Normally offered fall semester of odd-numbered years)
**Prerequisite:** ENTO 1000.

**PATB4170 - Diseases of Wildlife**

Credits: 3

**Dual Listed** PATB 5170
**When Offered** (Offered spring semester of even numbered years)
**A&S College Core 2015** 12 hours of biological or zoological sciences.
**Former Course Number** [4120]
- PATB 4310
- PATB 4360

**PATB4710 - Medical Virology**

Credits: 3
Human and animal viruses as biological entities. Methods of study, classification, replication strategies, diagnostic approaches, epidemiology and significance as disease agents.

**Cross Listed** MICR 4710
**Dual Listed** PATB 5710
**When Offered** (Normally offered fall semester)
**Prerequisite:** MOLB 2240

**Minor**

**Human and Animal Physiology Minor**

Physiology is the science of how the body functions in health and disease. A minor in physiology provides additional background for students in a variety of majors.

**Human and Animal Physiology minor - requirements**
Requirements for the minor in human and animal physiology (AHPY) include a minimum of 18 credit hours. Courses counted towards one minor may not be counted towards another. A grade of C or better is required in all courses.

**Required Courses**

**ZOO3115 - Human Systems Physiology**

Credits: 4  
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

**Prerequisite:** At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

**At Least One of These Three:**

* if more than one of the three required courses is completed, additional courses can count towards Physiology Core elective courses requirement below.

**ZOO4125 - Integrative Physiology**

Credits: 5  
Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

**Former Course Number** [3120]

**Prerequisite:** grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

**ZOO4190 - Comparative Environmental Physiology**

Credits: 4  
Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces discipline which has risen between traditional fields of physiology and ecology and provides understanding of animal distribution and survival. Fulfills degree requirements in physiology subsection for the zoology major.

**Dual Listed** ZOO 5190.  
**When Offered** (Offered spring semester)  
**Former Course Number** [4230]

**Prerequisite:** LIFE 2022 or LIFE 2023 and CHEM 1030 or CHEM 1060.

**PHCY3450 - Foundational Pathophysiology**
Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)
Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

Elective Courses

Physiology Core Electives. At least three courses from:

**ANSC4120 - Principles of Mammalian Reproduction**

Credits: 4
Overview of the anatomy, physiology, endocrinology and biochemistry of reproductive processes in male and female mammals. Includes lecture and laboratory components.

Dual Listed ANSC 5120.
When Offered (Normally offered fall semester)
Prerequisite: ANSC 3010 OR ZOO 3115

**ANSC4260 - Mammalian Endocrinology**

Credits: 3
Introduces principles of endocrinology, role of endocrine systems in regulating metabolism, growth, reproduction and lactation in mammals.

Dual Listed ANSC 5260.
When Offered (Normally offered fall semester)
Prerequisite: ANSC 3010, ZOO 3115, or equivalent.

**ANTH4210 - Human Osteology**

Credits: 3
Provides a detailed study of the human skeleton.

Dual Listed ANTH 5210.
When Offered (Normally offered spring semester)
Prerequisite: ANTH 1100, LIFE 2022.

**ANTH4230 - Forensic Anthropology**
Credits: 3  
Introduces methods and purposes of physical anthropology as applied in human identification for law enforcement agencies.

**Cross Listed** CRMJ 4230.  
**When Offered** (Normally offered fall semester of odd-numbered years)  
**Prerequisite:** ANTH 1100.

**KIN3021 - Physiology of Exercise**

Credits: 3  
Applies physiological principles to human physical activities. Emphasizes interaction of neuromuscular circulatory, and respiratory mechanisms as affecting, and affected by, immediate exercise situations and physical training. Students who are not K&H or PHET majors may be allowed to register with permission of the instructor.

**Former Course Number** [PEPR 3021]

**Prerequisite:** 2.750 GPA. For Kinesiology & Health majors: grade of C or better in MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115. Or declared PHET major with the following courses completed: MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115.

**KIN3038 - Exercise Psychology**

Credits: 3  
Studies psychological theories for understanding and predicting health-oriented exercise behavior, including psychological intentions for increasing exercise participation and adherence. Emphasizes psychological and psychobiological responses to exercise.

**Prerequisite:** grade of C or better in PSYC 1000; concurrent enrollment in or completion of KIN 3021; 2.750 GPA.

**KIN3042 - Biomechanics of Human Movement**

Credits: 3  
Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

**Former Course Number** [PEPR 3042]

**Prerequisite:** grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

**KIN4042 - Advanced Biomechanics**

Credits: 3  
Provides understanding of biomechanical theories and the application of biomechanical measurements to human movement in sports, training, and rehabilitation. Emphasis on using equipment to collect biomechanical data to answer
research and clinical questions. Lecture and data collection topics include electromyography, force, balance, kinematics, and kinetics.

**Prerequisite:** C or better in KIN 3042, minimum 2.750 GPA.

**LIFE3600 - Cell Biology**

Credits: 4
Focuses on cell structure, cell function and the regulation of cell processes. Examines many levels of organization, ranging from single molecules and individual cells to multi-cellular systems and the whole organism. Discussion section is required.

**Former Course Number** [BIOL 3600/ BIOL 4600]

**Prerequisite:** completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

**MOLB3610 - Principles of Biochemistry**

Credits: 4
One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

**Prerequisite:** LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

**MOLB4100 - Clinical Biochemistry**

Credits: 4
Integrated discussion of biochemical, molecular, and physiological principles underlying human medical disorders and biochemical and molecular genetics tests used in prevention, diagnosis and treatment. Weekly discussion sessions review basic concepts studied by students independently and class sessions include problem solving in an active learning format, lectures and other applied activities.

**When Offered** Spring

**Former Course Number** [3980]

**Prerequisite:** Minimum grade of C in MOLB 3610 or MOLB 4600; course in physiology recommended (e.g. ZOO 3115).

**MOLB4400 - Immunology**

Credits: 4
Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.
Cross Listed PATB 4400.
Dual Listed MOLB 5400.
When Offered Fall
Prerequisite: MOLB 2021 or MICR 2021 or MOLB 2240 or PATB 2220, and a minimum grade of C in MOLB 3000 or MOLB 3610.

MOLB4670 - Advanced Molecular Cell Biology

Credits: 3
Key concepts in eukaryotic cell biology will be presented with a focus on cellular processes that form the basis for human diseases. Cellular organization, dynamics, and signaling will be emphasized. Students will also explore principles of research design by critical reading and discussion of scientific literature.

Dual Listed MOLB 5670
When Offered Fall
Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600

NEUR4295 - Neurodevelopment

Credits: 3
Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).

Cross Listed ZOO 4295.
Dual Listed NEUR 5295.
Prerequisite: ZOO 4280.

NEUR5100 - Structure and Function of the Nervous System

Credits: 4
Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed ZOO 5100.
Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

NEUR5295 - Neurodevelopment

Credits: 3
Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).
**NEUR5685 - Neurophysiology**

Credits: 3  
Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms will be covered in addition to the basic neurophysiology of nerve cells.

**Prerequisite:** one course in physiology, chemistry, physics.

**NEUR5887 - Molecular Neuropharmacology**

Credits: 3  
Focus on the molecularly-induced functional changes within the nervous system in normal and disease states. In addition, will provide a thorough explanation of the cellular and molecular actions of drugs on synaptic transmission and discuss the neurochemical basis of behavior.

**Prerequisite:** PharmD current standing and instructor's permission or NEUR 5280.

**PATB4130 - Mammalian Pathobiology**

Credits: 3  
Anatomical basis of disease in mammals. Emphasis on concepts of pathogenesis of disease, and the gross, microscopic and clinicopathological changes associated with lesions: cell injury and death; cellular degeneration; disturbances of growth and circulation; neoplasia; inflammation; and recognition of gross and microscopic tissue changes. Background in immunology will be beneficial.

**Cross Listed** MICR 4130  
**Dual Listed** PATB 5130  
**When Offered** (Normally offered spring semester)  
USP 2015 Code U5C3  
**Prerequisite:** C or better in LIFE 2022.

**PATB4140 - Principles of Toxicology**

Credits: 3  
Toxicology is the study of poisons, their mechanisms of action and their effects on various organisms including man and domestic animals. Designed to provide students in the life and environmental sciences with an understanding of the principles of toxicology as they apply to animal and human health, food safety and environmental studies.

**Dual Listed** PATB 5140  
**When Offered** (Normally offered fall semester of even-numbered years)  
**Prerequisite:** 9 hours of biological science (e.g., physiology), 4 hours chemistry, 3 hours biochemistry.
**PATB4400 - Immunology**

Credits: 4  
Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

**Cross Listed** MOLB 4400  
**Dual Listed** PATB 5400  
**When Offered** (Normally offered spring semester)  
**Prerequisite:** MOLB 2021/MICR 2021 or MOLB 2240/MICR 2240 or PATB 2220, and a minimum grade of C- in MOLB 3000 or MOLB 3610.

**PATB4710 - Medical Virology**

Credits: 3  
Human and animal viruses as biological entities. Methods of study, classification, replication strategies, diagnostic approaches, epidemiology and significance as disease agents.

**Cross Listed** MICR 4710  
**Dual Listed** PATB 5710  
**When Offered** (Normally offered fall semester)  
**Prerequisite:** MOLB 2240

**PSYC3250 - Health Psychology**

Credits: 3  
Provides overview of growing partnership between psychology and health care, including history of psychology in health care; theoretical foundations of health and illness; intervention and research techniques; stress and high risk behaviors (e.g., substance abuse, eating behaviors, AIDS); psychology's contribution to improving outcomes and quality of life in chronic and life-threatening behaviors.

**Cross Listed** NURS 3250.  
**Prerequisite:** A grade of C or better in PSYC 1000.

**PSYC4040 - Cognitive Neuroscience**

Credits: 4  
Examines the underlying neural bases of higher cognitive functions in humans, including attentions, language, motor control, navigation, emotions, and memory, as well as neuroanatomy fundamentals and neuroscience methods such as fMRI and ERP. Lecture and lab components.

**Prerequisite:** A grade of C or better in PSYC 2080 or PSYC 3120 or ZOO 4280.

**PSYC4080 - Physiological Psychology**

Credits: 4  
Examines physiological mechanisms of behavior, strongly emphasizing neural and hormonal processes. Includes
fundamentals of neuroanatomy and evolution of the nervous system, basic neurophysiology, sensory and motor processes, as well as the physiology of emotion, motivation, learning and memory. Lecture three hours per week. Laboratory two hours per week.

USP 2003-2014 Code U3SB
**Prerequisite:** A grade of C or better in 6 hours of psychology and LIFE 1000, LIFE 1003, or LIFE 1010 or an introductory zoology course.

**PSYC4250 - Psychological Aspects of Chronic Illness**

Credits: 3
Investigates the impact of chronic physical illnesses on diagnosed children and adults, their families, and society. Emphasizes effects of illnesses on psychological adaptation and quality of life. Should be of particular interest to helping professionals and health care workers.

**Prerequisite:** A grade of C or better in PSYC 1000 and PSYC 3250.

**SOC3550 - Medical Sociology**

Credits: 3
Considers sociological contributions to diagnosis and treatment of illness. Studies social organization of health professions and agencies.

**Prerequisite:** SOC 1000.

**SOC4160 - Sociology of Aging**

Credits: 3
The process of aging from the individual to the societal level is the focus of the course. Consequences of this process such as the increase in the number of elderly, retirement and health are examined from the major social institutions, the relationships between these institutions and American society as a whole.

**Dual Listed** SOC 5160.
**Former Course Number** [4150]

**Prerequisite:** 6 hours of sociology (including SOC 1000) and at least junior standing.

**ZOO3010 - Vertebrate Anatomy, Embryology, and Histology**

Credits: 4
Provides a comprehensive overview of vertebrate anatomy. The structural organization, embryological derivation, and histological organization of the major organ systems will be emphasized. The evolution and functional organization of anatomical structure will also be emphasized. Includes laboratory sessions. Fulfills degree requirement in physiology subsection for zoology major.

**Prerequisite:** LIFE 2022 or equivalent, and a semester of chemistry.
OR

ZOO4110 - HIV/AIDS: The Disease and the Dilemma

Credits: 3
Explores the basic biology of the HIV virus, and its effects upon the human body, the magnitude of the global HIV/AIDS pandemic, treatment and prevention of AIDS, and the social, political, economic, and legal issues of HIV/AIDS.

Prerequisite: LIFE 1003 or LIFE 1010.

ZOO4280 - Introduction to Neuroscience

Credits: 3
Examines the basic electrical properties of neurons and from there identifies determinants of brain development, how neuronal "circuits" are formed and how these neuronal systems enable the processing of sensory information, coordinated movement, adaptation to the environment, and other complex functions (e.g., sleep, sex).

Dual Listed ZOO 5280.
Prerequisite: ZOO 3115 or equivalent.

ZOO4340 - Developmental Biology and Embryology

Credits: 4
Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration and asexual reproduction. Emphasizes mechanisms that create form and regulate cellular differentiation.

Dual Listed ZOO 5340.
When Offered (Normally offered spring semester)
Prerequisite: one year of life sciences, one year of chemistry.
• ZOO 4670

ZOO4735 - Advanced Topics in Physiology

Credits: 1-4
Max Credit (Max. 12)

Designed to cover advanced topics in Physiology for students specializing in Physiology or related fields. Examples of topics include endocrinology, cardiovascular, renal, neurological, respiratory, and metabolic physiology. Integrative topics (e.g., circadian rhythms, thermal stress) may also be included.

Dual Listed ZOO 5735.
Former Course Number [5730]

Prerequisite: ZOO 3115 or equivalent as approved by the instructor.
ZOO5100 - Structure and Function of the Nervous System

Credits: 4
Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed NEUR 5100.
Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

ZOO5685 - Neurophysiology

Credits: 3
Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms are covered in addition to the basic neurophysiology of nerve cells. The laboratory complements the lecture sequence.

Cross Listed NEUR 5685.
Prerequisite: one course in physiology, chemistry, physics.

SPPA3265 - Anatomy and Physiology of Speech, Swallowing and Hearing

Credits: 4
Introduces the student to the anatomy of the normal speech and hearing systems as well as the physiologic underpinnings of the speech (respiration, phonation, articulation), swallowing, and hearing (external, middle, and inner ear) systems. Theories of speech production and speech perception are presented.

Former Course Number [3400]

Prerequisite: KIN 2040 or consent of instructor.

CHEM3550 - Physical Chemistry for the Life Sciences

Credits: 3
Deals with areas of physical chemistry of interest to students majoring in the life sciences. Covers thermodynamics, kinetics, equilibrium and spectroscopy, using biological systems for development and illustration. Credit is allowed for only one of the courses: CHEM 3550 or CHEM 4507.

When Offered (Normally offered every other year)
Prerequisite: CHEM 1030, MATH 2200.

Neuroscience Minor
Neuroscience explores the nervous system structure and function. Electrical signaling of neurons provides the basis of our thoughts, perceptions, learning, movement, emotion, sleep-wakefulness, and behavior.

Additional Information

Minimum credit hours: 17. Courses counted towards one minor my NOT count towards a different minor. A grade of "C" or better is required in all coursework in the Neurosciences minor.

Required Courses

**ZOO3115 - Human Systems Physiology**

Credits: 4
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

**ZOO4280 - Introduction to Neuroscience**

Credits: 3
Examines the basic electrical properties of neurons and from there identifies determinants of brain development, how neuronal "circuits" are formed and how these neuronal systems enable the processing of sensory information, coordinated movement, adaptation to the environment, and other complex functions (e.g., sleep, sex).

Dual Listed ZOO 5280.  
Prerequisite: ZOO 3115 or equivalent.

Elective Courses:

**ZOO4125 - Integrative Physiology**

Credits: 5
Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

Former Course Number [3120]

Prerequisite: grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

**ZOO4735 - Advanced Topics in Physiology**
Credits: 1-4
Max Credit (Max. 12)

Designed to cover advanced topics in Physiology for students specializing in Physiology or related fields. Examples of topics include endocrinology, cardiovascular, renal, neurological, respiratory, and metabolic physiology. Integrative topics (e.g. circadian rhythms, thermal stress) may also be included.

**Dual Listed** ZOO 5735.
**Former Course Number** [5730]

**Prerequisite:** ZOO 3115 or equivalent as approved by the instructor.

*(ZOO 4735 sections must have a neurosciences aspect, consult your advisor for help selecting appropriate sections).*

**ZOO4340 - Developmental Biology and Embryology**

Credits: 4
Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration and asexual reproduction. Emphasizes mechanisms that create form and regulate cellular differentiation.

**Dual Listed** ZOO 5340.
**When Offered** (Normally offered spring semester)
**Prerequisite:** one year of life sciences, one year of chemistry.

**ZOO4295 - Neurodevelopment**

Credits: 3
Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).

**Cross Listed** NEUR 4295.
**Dual Listed** ZOO 5295.
**Prerequisite:** ZOO 4280.

**ZOO5685 - Neurophysiology**

Credits: 3
Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms are covered in addition to the basic neurophysiology of nerve cells. The laboratory complements the lecture sequence.

**Cross Listed** NEUR 5685.
**Prerequisite:** one course in physiology, chemistry, physics.

**ZOO5100 - Structure and Function of the Nervous System**
Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

Cross Listed: NEUR 5100.
Prerequisite: admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

NEUR5887 - Molecular Neuropharmacology

Credits: 3
Focus on the molecularly-induced functional changes within the nervous system in normal and disease states. In addition, will provide a thorough explanation of the cellular and molecular actions of drugs on synaptic transmission and discuss the neurochemical basis of behavior.

Prerequisite: PharmD current standing and instructor's permission or NEUR 5280.

PSYC4040 - Cognitive Neuroscience

Credits: 4
Examines the underlying neural bases of higher cognitive functions in humans, including attentions, language, motor control, navigation, emotions, and memory, as well as neuroanatomy fundamentals and neuroscience methods such as fMRI and ERP. Lecture and lab components.

Prerequisite: A grade of C or better in PSYC 2080 or PSYC 3120 or ZOO 4280.

Wildlife Fisheries Biology Management Minor

Course include theory and techniques involved in the management, conservation, and captive propagation of wildlife and fish populations. Includes both classroom and field experiences in a Rocky Mountain setting.

Wildlife Fisheries Biology Management minor - requirements

Requirements for the minor in wildlife fisheries biology management (WFBM) include a minimum of 18 credit hours. Courses counted towards one minor may not be counted towards another. A grade of C or better is required in all courses.

Required Courses

9 or 11 credit hours required from the following:

LIFE3400 - General Ecology
Credits: 3
Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

**Former Course Number** [BIOL 3400/ BIOL 2400]

**Prerequisite:** completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

**ZOO2450 - Fish and Wildlife Management in the Anthropocene**

Credits: 4
Course examines fundamental principles in management of natural resources, especially fish and wildlife populations. Students explore historical to contemporary context of management, population biology, management tools and their application, career opportunities, with specific emphasis on human dimensions, law, and policy. Students will develop oral and written communication skills.

**Cross Listed** Crosslisted with ENR 2450.
USP 2015 Code U5C2
**Prerequisite:** LIFE 1010, LIFE 2022, and COM1.

One (1) Course From:

**ZOO4300 - Wildlife Ecology and Management**

Credits: 5
Integrates concepts of vertebrate ecology with the art of wildlife management, stressing approaches to deal with the inherent uncertainty of managing populations. Strategies to increase or decrease populations of target species, tools used to determine population status (e.g., viability analysis, monitoring, habitat assessment), and ecosystem management approaches. Laboratory included.

**Dual Listed** ZOO 5300.
**When Offered** (Offered fall semester)
**Former Course Number** [4720]

**Prerequisite:** LIFE 3400, STAT 2050 or STAT 2070, and ZOO 2450.

OR

**ZOO4310 - Fisheries Management**

Credits: 3
Acquaints students with theory and techniques of inland fisheries management. Includes methods of evaluating growth and production, rates of mortality and recruitment and use of yield models in fisheries biology. Includes laboratory and field exercises.

**Dual Listed** ZOO 5310.
When Offered (Normally offered fall semester)  
Former Course Number [4730]

Prerequisite: ZOO 4330.

Elective Courses

Select three (3) of the following courses, one of which must have a laboratory component:

**LIFE3050 - Genetics**

Credits: 4  
Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

**ZOO3600 - Principles of Animal Behavior**

Credits: 3  
Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

When Offered (Normally offered spring semester)  
Prerequisite: introductory course in zoology, biology or psychology.

**ZOO4190 - Comparative Environmental Physiology**

Credits: 4
Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces discipline which has risen between traditional fields of physiology and ecology and provides understanding of animal distribution and survival. Fulfills degree requirements in physiology subsection for the zoology major.

Dual Listed ZOO 5190.  
When Offered (Offered spring semester)  
Former Course Number [4230]

Prerequisite: LIFE 2022 or LIFE 2023 and CHEM 1030 or CHEM 1060.

**ZOO4330 - Ichthyology**
Credits: 3
Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

**Dual Listed** ZOO 5330.
**When Offered** (Normally offered spring semester)
**Former Course Number** [4750]

**Prerequisite:** LIFE 2022.

**ZOO4350 - Ornithology**

Credits: 3
Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

**Dual Listed** ZOO 5350.
**When Offered** (Offered spring semester)
**Former Course Number** [4780]

**Prerequisite:** LIFE 2022.

**ZOO4370 - Mammalogy**

Credits: 3
Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.

**Dual Listed** ZOO 5370.
**When Offered** (Offered fall semester)
**Former Course Number** [4790]

**Prerequisite:** LIFE 2022.

**ZOO4380 - Herpetology**

Credits: 3
Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

**Dual Listed** ZOO 5380.
**Prerequisite:** LIFE 2022.

**ZOO4400 - Population Ecology**
Credits: 3
Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern
coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological
problems in their careers.

Dual Listed ZOO 5400.
When Offered (Offered spring semester)
Prerequisite: LIFE 1010, LIFE 3400 and STAT 2050 or consent of instructor.

ZOO4415 - Behavioral Ecology

Credits: 3
Applies empirical and theoretical approaches to ecological and evolutionary underpinnings for behaviors ranging from
foraging and predation to social grouping and mating systems. Emphasizes comparative analyses (what phylogenetic
patterns exist across diverse species?) as well as genetic/fitness benefits (how do individuals benefit from apparently
puzzling behaviors?).

Dual Listed ZOO 5415.
When Offered (Offered fall semester)
Prerequisite: ZOO 3600 or LIFE 3400 or permission of the instructor.

ZOO4420 - Conservation Biology

Credits: 3
Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the
mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students
also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ENR 4420.
Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

ZOO4440 - Limnology

Credits: 3
Studies ecology of inland waters; biological, chemical and physical features of lakes and streams.

When Offered (Offered fall semester)
Prerequisite: LIFE 1010, LIFE 3400 and CHEM 1030 or consent of instructor.

ZOO4540 - Invertebrate Zoology

Credits: 4
Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and
taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of
representative types. Includes laboratory.

Dual Listed ZOO 5540.
When Offered (Offered fall semester)

Prerequisite: LIFE 2022.

Zoology Minor

Explore form, function, behavior, ecology, evolution and conservation of animals and hone analytical, writing, and research skills.

Zoology Minor - requirements

Requirements for the minor in zoology (ZOOL) include a minimum of 17 credit hours. Courses counted towards one minor may not be counted towards another. A grade of C or better is required in all courses.

Required Course

LIFE3050 - Genetics

Credits: 4
Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

Elective Courses

Select four (4) of the following courses, one of which must have a laboratory component:

LIFE3400 - General Ecology

Credits: 3
Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

Former Course Number [BIOL 3400/ BIOL 2400]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3500 - Evolutionary Biology
Credits: 3
Presents modern evolutionary theory. Examines evolution and evolutionary mechanisms from several viewpoints, with particular attention given to genetic mechanisms underlying processes of evolution and speciation.

When Offered (Normally offered fall semester)
Former Course Number [BIOL 3500]

Prerequisite: completion of LIFE 1010 and LIFE 3050 with a grade of C or higher in each.

ZOO3115 - Human Systems Physiology

Credits: 4
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

ZOO3600 - Principles of Animal Behavior

Credits: 3
Intensively introduces scientific study of animal behavior. Utilizes evolutionary, ecological and physiological approach.

When Offered (Normally offered spring semester)
Prerequisite: introductory course in zoology, biology or psychology.

ZOO4190 - Comparative Environmental Physiology

Credits: 4
Studies and interprets principles of physiology which adapt animals to various environmental constraints. Introduces discipline which has risen between traditional fields of physiology and ecology and provides understanding of animal distribution and survival. Fulfills degree requirements in physiology subsection for the zoology major.

Dual Listed ZOO 5190.

When Offered (Offered spring semester)
Former Course Number [4230]

Prerequisite: LIFE 2022 or LIFE 2023 and CHEM 1030 or CHEM 1060.

ZOO4235 - Marine Biology

Credits: 3
This course explore major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.
Cross Listed BOT 4235.
Dual Listed ZOO 5235.
Prerequisite: LIFE 3400 with a grade of C or better.

**ZOO4330 - Ichthyology**

Credits: 3
Anatomy, physiology and classification of fishes, emphasizing classification and identification of Wyoming fishes. Includes laboratory.

Dual Listed ZOO 5330.
When Offered (Normally offered spring semester)
Former Course Number [4750]

Prerequisite: LIFE 2022.

**ZOO4340 - Developmental Biology and Embryology**

Credits: 4
Introduces study of vertebrate embryology and cellular differentiation. Includes gametogenesis, fertilization, blastulation and organogenesis, growth and differentiation, teratology, metamorphosis, regeneration and asexual reproduction. Emphasizes mechanisms that create form and regulate cellular differentiation.

Dual Listed ZOO 5340.
When Offered (Normally offered spring semester)
Prerequisite: one year of life sciences, one year of chemistry.

**ZOO4350 - Ornithology**

Credits: 3
Acquaints students with classification, identification, morphology, distribution, natural history and ecology of the birds of North America. Includes laboratory.

Dual Listed ZOO 5350.
When Offered (Offered spring semester)
Former Course Number [4780]

Prerequisite: LIFE 2022.

**ZOO4370 - Mammalogy**

Credits: 3
Studies mammals of the world, emphasizing natural history, distribution, taxonomy, ecology and morphology of mammalian species. Includes laboratory.
Dual Listed ZOO 5370.
When Offered (Offered fall semester)
Former Course Number [4790]

Prerequisite: LIFE 2022.

ZOO4380 - Herpetology

Credits: 3
Introduces the ecology, behavior, morphology, evolution, systematics and conservation of reptiles and amphibians.

Dual Listed ZOO 5380.
Prerequisite: LIFE 2022.

ZOO4540 - Invertebrate Zoology

Credits: 4
Studies major invertebrate phyla of the animal kingdom. Studies each phylum with respect to morphological and taxonomic characteristics; functional and evolutionary relationships; environmental adaptations; life cycles of representative types. Includes laboratory.

Dual Listed ZOO 5540.
When Offered (Offered fall semester)
Prerequisite: LIFE 2022.

BOT4235 - Marine Biology

Credits: 3
This course explores major topics of physical oceanography, marine biodiversity and ecology, and human impacts on the ocean. Emphasis is placed on reading, evaluating, and synthesizing primary literature.

Cross Listed ZOO 4235.
Dual Listed BOT 5235.
Prerequisite: LIFE 3400 with a grade of C or better.

Graduate

Zoology and Physiology, M.S.

Advanced-degree students in Zoo/Phys experience collaborative, interdisciplinary approaches to basic and applied questions. Work spans molecules to ecosystems, with training in fields including physiology, ecology, evolution, fisheries, and wildlife.

Plan A (Thesis)

Includes 26 hours of coursework and 4 hours of thesis research.
Applicants should have at least 20 semester hours of undergraduate work in zoology, physiology, or other areas of the biosciences and have completed introductory courses in mathematics, chemistry, and in at least one other natural or physical science. Early in the second semester the student must file a program of study with the university and have a graduate committee appointed. Plan A candidates shall orally defend the thesis before the graduate committee.

All M.S. candidates will be required to complete credit in two graduate seminars. A student may enroll in more than one of these required seminars during one semester or academic year.

After two semesters in the department, a Plan A master's candidate may request permission from the department's graduate advisory board to proceed directly to the Ph.D. degree; however, such a bypass is granted only by the department head after considering recommendations from the graduate advisory board.

Zoology and physiology may be used as a field by a candidate working for the interdisciplinary master of science in natural science in the College of Arts and Sciences and the College of Education.

Plan B (Non-Thesis)

Includes 30 hours of coursework.

The program for the Plan B is established by the student and a faculty adviser and must be approved by the department head during the student's second semester or summer session.

The graduate committee will require the candidate to take a written examination. An oral examination may also be required. The final examination is comprehensive, covering all areas of zoology, but emphasizing one major area.

Zoology and Physiology, Ph.D.

Advanced-degree students in Zoo/Phys experience collaborative, interdisciplinary approaches to basic and applied questions. Work spans molecules to ecosystems, with training in fields including physiology, ecology, evolution, fisheries, and wildlife.

Additional Information

This is a 72 hour program.

A Ph.D. applicant must have 20 hours of undergraduate work in zoology, physiology, or other areas of biology and also have completed substantial undergraduate work in other sciences. Under exceptional circumstances, a student with an undergraduate major in a scientific discipline other than biology may be admitted. After the Ph.D. student has completed two semesters of graduate work, s/he must be approved for continued work toward the doctorate by the graduate advisory board. This board can reconsider a candidate thereafter if it so desires.

A graduate committee shall be appointed for the individual student no later than the third semester. After consultation with the student, this committee will prescribe special requirements (courses, minors, research tools, etc.) that must be fulfilled. At this time, the graduate committee shall consult with the candidate on the proposed research and shall identify the subject matter areas to be included in the preliminary examination. The preliminary examination will consist of a written research proposal, its oral defense, and a written and oral preliminary examination. When training outside zoology and physiology is specified by the committee, certification of satisfactory completion of the requirement will be made by the appropriate department.

In addition to the general university requirements for the Ph.D. degree, the department requires the following:

The coursework program should include work in a discipline outside the department, generally in the sense of a minor, to be identified in consultation with the graduate committee.
The preliminary examination consisting of written and oral portions should be taken no later than midterm of the fourth semester in residence. The graduate committee will certify satisfactory performance for the preliminary examination.

The dissertation must be received by each member of the graduate committee three weeks before the final dissertation seminar. As oral defense of the dissertation, the candidate will deliver a formal 50 minute seminar on original research from the dissertation. The seminar will be followed by an examination by the graduate committee.

Some time during their degree program, all Ph.D. candidates will be required to complete credit in three graduate seminars. A student may enroll in more than one of these required seminars during one semester or academic year.

All candidates for the Ph.D. degree shall be required to teach for one semester during their program.

The dissertation may be written in a format suitable for publication in a journal and the usual extensive literature review, description of study sites, technical details, raw data, supporting figures, charts, and photographs should be included in a well-organized appendix. (See also format requirements by the university.)

## College of Business

### College of Business

310 Business Building  
Website: [http://business.uwyo.edu](http://business.uwyo.edu)

*Rob Godby, Interim Dean*  
*Phone: (307)766-4194 FAX: (307)766-4028*  
*Peter M. and Paula Green Johnson Student Success Center (307) 766-8249*

The College of Business prepares students for careers by providing quality education in business disciplines, creating and disseminating knowledge, and assisting in Wyoming's economic development. The College of Business expects the highest level of integrity from our administration, faculty, staff, students, and alumni.

The College of Business grew from roots established in 1899 when the UW School of Commerce was founded. While the programs offered have changed over the years, the college remains firmly committed to academic excellence and positive student experiences.

The college has three academic departments: accounting and finance; economics; and management and marketing. The college also houses the College of Business Peter M. and Paula Green Johnson Student Success Center which is instrumental in maintaining the college's link with the business world.

These units are committed to preparing all College of Business students to enter our rapidly-changing world. Successful graduates are fully prepared to compete in their chosen professions or in graduate school. More importantly, they are well-educated individuals prepared to live fulfilling lives, and to meet the challenges presented by the complex ethical, moral and cultural contexts of our times.

### College of Business Learning Outcomes

The College of Business expects that its graduates:

1. Will be competent in their field of study
2. Will be effective problem solvers
3. Will be ethical
4. Will be professional
5. Will be effective communicators

AACSB Accreditation

The business degree programs offered by the College of Business are accredited by AACSB-International. AACSB standards ensure that College of Business students are provided comprehensive, high-quality, well-rounded degree programs. The "Common Body of Knowledge" and the "Advanced Business Standing" (ABS) as described on the following pages have been developed to meet the AACSB accreditation standards.

A minimum of 50% of COB courses required for the major must be taken from the degree-awarding institution.

Programs of Study

Undergraduate Degrees

BSB - Bachelors of Science in Business
BSE - Bachelors of Science in Economics

The Majors are as follows:

- Accounting, B.S. (BSB-ACCT)
- Business Economics, B.S. (BSB-CBEC)
- Entrepreneurship, B.S. (BSB-ENTR)
- Finance, B.S. (BSB-FIN)
- Management, B.S. (BSB-MGT)
- Marketing, B.S. (BSB-MKT)
- Professional Sales, B.S. (BSB-SELL)
- Economics, B.S. (BSE-ECON)

The Minors are as follows:

- Banking and Financial Services Minor
- Blockchain Minor
- Data Analytics Minor
- Economics Minor
- Entrepreneurship Minor (for nonbusiness students only)
- Hospitality Business Management Minor
- Leadership Minor
- Professional and Technical Selling Minor
- Real Estate Minor

Graduate Degrees

Master of Science
Accounting, M.S.
Economics, M.S.
Finance, M.S.

Business Administration, M.B.A.
Business Administration, Online, M.B.A.

Doctor of Philosophy
Economics, Ph.D.
Marketing, Ph.D.

Certificate Programs
Certified Financial Planning Certificate (Graduate)
Energy Business Certificate (Graduate)

Student Services

Academic Advising

All College of Business undergraduate students are advised by professional academic advisers in the College of Business Peter M. and Paula Green Johnson Student Success Center. Advising can be reached by e-mail (success@uwyo.edu) or by phone (307-766-8249).

Career Services

The Career Services unit connects students and employers in ways that lead to meaningful experiences and job opportunities. Business students are encouraged to explore career options and grow their career readiness by completing the Pokes Professionalism Badge and engaging in multiple internships. Students also have the option to apply for local, national, and international internships starting their first year and may be able to receive credit for their work. Networking with employers is highly encouraged and offered through a series of fairs, events, and in-class projects. One-on-one assistance and workshops are also available to students for things such as: internship or job searching; resume creation, review, or targeting; and career coaching or counseling. Individual appointments may be scheduled by email (success@uwyo.edu) or by phone, (307) 766-8249.

Student Responsibilities

College of Business students are responsible for knowing and meeting requirements for graduation. In addition to degree requirements, all College of Business students must complete the advanced business standing requirements prior to enrollment in most upper-division (3000/4000-level) College of Business courses (see Advanced Business Standing (ABS) Prerequisites section).

All students must have already completed any prerequisites listed (in addition to ABS for COB students), including having the appropriate class standing. Students not meeting the prerequisites are identified and administratively dropped from those courses each semester.

Requirements for the Bachelor of Science Degree

Candidates for the Bachelor of Science degree in the College of Business must meet university, college, and departmental requirements. Degree candidates for the B.S. degree in the College of Business also must have a minimum 2.500 cumulative University of Wyoming (UW) grade point average and a 2.500 grade point average in College of Business courses at the time of graduation. In addition, economics majors also must hold a minimum 2.500 grade point average for all economics courses. College of Business degree candidates must earn a minimum of 120 semester hours depending on major including:

1. University Studies Requirements:
All first year students who enter the University of Wyoming (UW) and students who enter a Wyoming Community
College (CC) are required to meet the USP 2015 requirements for graduation. Wyoming CC students transferring to
UW with an Associate of Arts or Associate of Science degree will have course work evaluated per the General
Education Articulation Agreement between the University of Wyoming and Wyoming Community Colleges. Non-
resident transfer students and Wyoming CC transfer students without an associate’s degree will have course work
evaluated on a course-by-course basis, based on all approved USP courses. Academic advisers will help students select
the appropriate courses to satisfy university studies requirements. Some College of Business requirements also meet
university studies requirements.

A. Basic skills (USP 2015) Hrs.

1. First-year seminar (FYS) Choose from list of approved courses, Credits: 3

2. Writing
   a. USP Communication 1 course, Credits: 3

   b. USP Communication 2 course- Mid-level communication or 2000-4000-level communication intensive course-
      Choose from list of approved courses, Credits: 3

   c. USP Communication 3 course- Upper-level communication or 3000-4000-level communication intensive course,
      Credits: 3

3. Physical and Natural World (PN) (Two courses required-choose from list of approved courses), Credits: 6

4. Human Culture (H) (Two courses required-choose from list of approved courses), Credits: 6

5. U.S. and Wyoming Constitutions (V), Credits: 3

6. Quantitative Reasoning (Q), Credits: 3

II. Electives

The number of hours of elective credit and upper-division (3000/4000-level) credit varies by department. Economics
majors will take 48-51 hours of free electives. A maximum of 6 credit hours each at the freshman/sophomore and
junior/senior-level military science courses may be applied to degrees in the College of Business.

A. Non-Business electives Hrs

1. Non-Business electives. May include MATH 1400, Credits: 3-9

B. Free electives Hrs.

1. Free electives from any college. May require upper-division (3000/4000-level) courses, with the total number of
   credits needed dependent on major.

   Students may not take courses for S/U (satisfactory/unsatisfactory) credit to satisfy university studies or college
   requirements, course requirements in the major, or courses outside the college required by the major department
   curriculum.

III. Advanced Business Standing: (excludes Economics majors)
College of Business majors must satisfy the following advanced business prerequisites prior to enrolling in most upper-division (3000-4000 level) College of Business courses:

1. Achieve junior standing by completing a minimum of 60 earned semester hours;

2. Complete 10 specific courses with a grade of C (not C-) or better in each. These ten courses are: ECON 1010 and 1020, USP Communication 1 and 2 courses, ACCT 2010 and 2020, IMGT 2400, MATH 2200 and 2205 or MATH 2350 and 2355 and STAT 2050 or 2070.

3. Achieve a cumulative UW institution grade point average or transfer grade point average of at least 2.500. Note: Transfer grades are not counted in the UW GPA (see UW Catalog http://www.uwyo.edu/registrar/university_catalog/grade.html for additional information). Transfer students who have not attended the University of Wyoming, and therefore do not have an established UW institutional/cumulative GPA, and who have completed the required ten (10) courses with a C or better, have 60 earned credit hours, and have a 2.500 cumulative TRANSFER GPA will be awarded ABS.

IV. Common Body of Knowledge: (excludes Economics majors)

College of Business majors take a common set of courses that expose them to the basic concepts, processes and technical skills necessary to complete a well-rounded high quality business education. The common body of knowledge includes ACCT 2010, ACCT 2020, DSCI 2100, ECON 1010, ECON 1020, FIN 2100, IMGT 2400, MGT 2010, MGT 2100, MKT 2100, and MGT 4800. Grades of C (not C-) or above required.

V. Minimum requirements:

Achieve a cumulative College of Business and UW institution grade point average of at least 2.500. Complete 50% of the business credit hours from UW. Earn grades of C or above in common body of knowledge and major specific core courses. Earn a passing score on the Senior Exit Exam required for all College of Business majors.

Requirements for Non-College of Business Majors

Students in non-College of Business majors who wish to enroll in College of Business upper-division courses need not meet the advanced business standing prerequisites. However, they are required to meet individual course prerequisites listed in the University Catalog, including class standing.

Acceptance of Transfer Credit

The College of Business complies with UW policies regarding transfer credit discussed in the front section of this bulletin. The college has special course transfer arrangements with Wyoming community colleges that allow some courses taken at community colleges at the lower-division (freshman-sophomore) level to transfer for upper-division (junior) credit. Wyoming community college transfer students should contact the GJSSC for details.

Students transferring from other AACSB accredited colleges and universities will have their courses reviewed for transfer on a course-by-course basis.

The College of Business does not accept transfer credits for COB courses with equivalents at UW when the grade earned was less than a C.

Where appropriate, College of Business course equivalency will be granted for transfer courses at the 3000 and 4000 level if such coursework was completed at an AACSB or EQUIS institution only. Any coursework completed at an institution that does not meet that qualification will not be considered for upper division equivalency.
The UW College of Business is AACSB accredited and therefore follows AACSB’s current guidelines* to maintain accreditation.

The primary goal of this transfer policy is to ensure coursework accepted from other institutions is comparable to coursework required by our college’s degree programs and ensure that the majority of learning is completed at the institution awarding the degree while simultaneously allowing measured flexibility in acceptance of transfer credits as allowed by AACSB accreditation in support of student progress and degree completion.** For example, at the time of this policy's creation, the number of business credit hours for the College of Business's undergraduate majors is fifty-four (54) credit hours (this includes the business common body of knowledge courses). Therefore, to align with AACSB standards, a minimum of twenty-seven (27) credit hours of business coursework in the major must be earned in residence at the University of Wyoming.

In addition to the transfer policies defined in the University of Wyoming catalog, the College of Business has established the following policies in support of AACSB Standards governing the transfer of credit for equivalent business courses. Courses will be considered for transfer according to the additional criteria below. Students may transfer up to a total of twenty-seven (27) hours of business credits, either solely lower division courses or a mix of lower division and upper division courses, as follows:

- Students may transfer up to twenty-seven (27) lower division (1000/2000 level) business credits to the Common Body of Knowledge.
  - Lower division courses from regionally accredited institutions will be evaluated for equivalency and approved by the UW Office of the Registrar on an annual basis.
- Students may transfer up to nine (9) upper division (3000/4000 level) business credits according to the following guidelines:
  - Transferring upper division business credits to be included in the twenty-seven (27) credits reduces the number of lower division credits a student is able to transfer.
  - Courses from AACSB/EQUIS accredited institutions will be evaluated for equivalency and approved by the College of Business.
  - Courses from regionally accredited, non-AACSB/EQUIS institutions will be accepted as upper division elective credit in accordance with the transfer policies defined in the University of Wyoming catalog.
  - The College of Business has collaborative provisions (detailed in separate articulation agreements) that allow students from Wyoming's community colleges to transfer up to nine (9) credit hours of 2000 level coursework to satisfy up to nine (9) credit hours of 3000 level coursework that has been evaluated by the College of Business. These courses will be evaluated annually for equivalency***.

* A requirement of the accreditation process (as reflected in Standard 6 of the 2020 Business Standards) is for accredited colleges to have clear policies regarding transfer coursework.

** As noted by AACSB: "transfer credit related to business disciplines is normally limited to no more than half of the program requirements” (2020 AACSB Standards, p. 13).

*** Per college-specific articulation agreements, students may be able to transfer coursework satisfying completion of the following courses: ACCT 3070, ACCT 3230, ACCT 3240 or ACCT 3430.

**Accounting, Management, and Marketing Online Programs**

The College of Business offers the opportunity to pursue online degree programs in the areas of accounting, management, and/or marketing accredited by AACSB and delivered through distance education. These online delivery programs are designed to help students maximize their flexibility in the business world.
The online accounting, management, and marketing degrees are offered almost in their entirety through the University of Wyoming, with the exception that students must have taken MATH 2350/2200 and MATH 2355/2205 through another institution as they are not offered online consistently through UW. The University of Wyoming College of Business works closely with our Wyoming community college partners to assist students in taking and transferring these math courses and other courses that align with our curriculum. Students are able to take a variety of transferable 1000 and 2000 level courses from Wyoming Community Colleges, in consultation with academic advisors, and then complete their upper division coursework from the University of Wyoming.

Students will be required to apply to UW and meet UW admissions criteria prior to enrolling in any College of Business program. Students must also attain a 2.500 GPA for graduation for both College of Business and UW courses, complete and submit an anticipated graduation date form, and must pass the Senior Exit Exam (BUSN 4990) to graduate.

To ensure you the availability of required courses in this program, enrollment into courses is managed and approved by the College of Business Peter M. and Paula Green Johnson Student Success Center.

**College of Business Minors**

Minors are available to on-campus students through the College of Business in the areas of banking and financial services, blockchain, data analytics, economics, entrepreneurship (not available to College of Business majors), hospitality business management, leadership, professional and technical selling, and real estate. Minors requirements may often be met by simply focusing the elective credits available in a student's major.

The minors program consists of course requirements of 15 hours of study. A minimum grade of C must be earned in each course. Certification of a successful minor program completion occurs as part of the DegreeWorks progress report, and the Office of the Registrar notes the completion of the minor on student transcripts. Minors must be approved by the Peter M. and Paula Green Johnson Student Success Center.

Students must have a minimum 2.500 cumulative UW GPA. Students must maintain a cumulative 2.500 GPA in the required College of Business courses for the minor to be awarded. Non-College of Business students must meet the individual course prerequisites listed in the catalog, although they need not meet the advanced business standing requirements. A minimum of 50% of COB courses must be taken from the degree-awarding institution.

**Cooperative Undergraduate Programs**

**The Concentration in Environment and Natural Resources**

College of Business majors may earn a cross major in Environment and Natural Resources (ENR) in cooperation with the UW School of Environment and Natural Resources. The appropriate use of natural resources and awareness of environmental consequences of decisions have become major issues for business. Exposure to ideas, skills and sensibilities in these areas is critical to future business people. Students majoring in economics may elect an environment and natural resources concentration in which an economics approach to problem solving is stressed. For more information call the ENR office at (307) 766-5089.

**Graduate Study**

The College of Business is comprised of three academic departments: accounting and finance, economics, and management and marketing. The faculty of these departments cooperate in the presentation of graduate work leading to the following degrees:

Master of Business Administration
Master of Science in Accounting
Master of Science in Economics
Master of Science in Finance
Doctor of Philosophy in Economics
Doctor of Philosophy in Marketing

The College of Business faculty is firmly committed to the excellence of its graduate programs. The graduate programs in the College of Business are accredited by AACSB International. The three academic departments coordinate course offerings to support all of the graduate degree programs; the M.B.A. program in particular is a college-wide effort.

Cooperative Graduate Programs

The Concentration in Environment and Natural Resources

College of Business graduate students may earn an interdisciplinary minor in environment and natural resources (ENR) in cooperation with the UW School of Environment and Natural Resources. The appropriate use of natural resources and awareness of environmental consequences of decisions have become major issues for all areas of business and economics. The School of Environment and Natural Resources is designed to move beyond the strictly disciplinary design and management of their long-term solutions. The school seeks to attract outstanding graduate students from a variety of disciplines, who are eager to pursue careers that engage other professionals, policymakers, and the public in finding innovative ways to resolve complex environmental and natural resource issues. To pursue a minor in ENR, students must first be admitted to another master's or doctoral degree program offered at the University of Wyoming. For more information call the ENR office at (307) 766-5080.

Department of Accounting and Finance

Accounting Major

The basic objectives of the accounting program are twofold: to provide students who do not intend to major in accounting with the basis for understanding the role accounting plays in business today and to provide those students who desire to major in accounting with the educational background necessary for lifelong learning and a rewarding career in the accounting profession. The curriculum offered by the department attempts to blend the conceptual with the practical. Exposure to the underlying conceptual framework of accounting provides a basis for dealing with emerging accounting issues, while examination of technical pronouncements enables students to gain insight into practical issues encountered in an accounting environment.

Accounting majors may enter the professional world of accounting from a variety of directions. Choices available in the form of elective courses enable students to chart a course that leads them toward public accounting, private accounting, governmental or not-for-profit accounting, as well as other specialties that rely on a strong accounting background. Those students seeking professional certification, such as the CPA, CMA or CIA, are able to satisfy requirements to sit for these professional examinations by completing the undergraduate accounting degree.

All accounting majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All accounting courses for the major require a minimum grade of C.

A complete curriculum sheet is available from the College of Business Peter M. and Paula Green Johnson Student Success Center in the College of Business Building.

Please Note:

Students who anticipate taking the CPA examination should be aware of the Wyoming statute governing eligibility to sit for the exam. Please see the state board's web site for information: cpaboard.state.wy.us. The current combined curricula (B.S. and M.S.) enable students to satisfy the educational requirements to sit for the CPA exam in Wyoming and other jurisdictions.

Graduate Study

Accounting is an integral part of the College of Business degree programs. The department offers courses in support of college graduate degree programs, as well as a master of science in accounting (MS in Accounting) degree. The MS in Accounting degree was developed in response to emerging needs of the accounting profession. Those students who wish to become professional accountants, whether that be in a corporate setting, a not-for-profit setting, or public accounting, will find the MS in Accounting degree to be one that enables them to develop both the personal and professional skills needed to enjoy a productive career.

The MS in Accounting program satisfies the Wyoming requirements for individuals to take the Certified Public Accountant (CPA) exam and it further develops students' professional skills. The MS in Accounting program focuses on the two main areas of development: 1) advanced accounting and business education, and 2) professional skills development—including written, oral, interpersonal communication, computer applications, critical thinking, and adaptability.

The MS in Accounting degree is designed for students who have completed an undergraduate degree in accounting in the United States. However, it is possible to be admitted to the program once deficiency courses are successfully completed. Those holding a bachelor's degree from within the U.S., but not in accounting, and international applicants
can still apply for admission once the deficiency courses are successfully completed. We do not provisionally or conditionally admit students to our program.

Program Specific Admission Requirements

Admission to the Master of Science in Accounting program generally requires:

• Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.

• Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U. S. Department of Education site.

• A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.

• GRE or GMAT optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).

• Official transcripts of all undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Office of Admissions at 1000 E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the department Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.

• Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.

Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.

• Interview.

You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor,
mentor, faculty member, program director, etc.)

letter(s) of recommendation provided directly by the
reference via the UW Graduate Admissions
Application.

• Interview.

You will be contacted by our program
office to participate in a virtual interview that can be
completed at your convenience. • Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

NOTE: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming MS in Accounting program does not personally or conditionally admit students.

*Please refer to the AICPA Site (www.aicpa.org) to check on the requirements you will need to fulfill in your state if you plan to sit for the CPA Exam.

Additional requirements for International Applicants:

• Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS examm, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 540 on the paper-based test (TOEFL PBT) or a score of 76 on the internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 6.5. An applicant whose native language is English and is a citizen of one of the following countries or who has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency. Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.

• On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions). (not applicable for distance education students).

• Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university may be exempt from providing proof of English proficiency.

Additionally, to be admitted to the Master of Science in Accounting program, a student demonstrate competency in the following subject matters/courses:

• ACCT 3230 Intermediate I & ACCT 3430 Intermediate II (External Financial Reporting)

• ACCT 3240 Cost I (Advanced Managerial Accounting)

• ACCT 3070 Tax I (Tax Accounting, must cover US income taxation for individuals)

• ACCT 4060 Audit I (must cover US Generally Accepted Auditing Standards and/or International Standards on Auditing)

*These courses may be completed through any regionally accredited university or college. A minimum grade of B (a 3.0 on a 4.0 scale) is considered evidence of proficiency.

*Evidence of proficiency in these areas can also be demonstrated by relevant professional experience on a case-by-case basis. Please contact the program office for additional information.
Each candidate who applies to the University of Wyoming Master of Science in Accounting or Finance program is evaluated individually by our faculty and program directors. We consider each part of the application in a holistic assessment, including the candidate's reasons for pursuing the degree, interview responses, prior academic performance, work experience, and letters of recommendation.

Students are admitted on a rolling basis with applications evaluated as soon as they are completed. It typically takes no more than two weeks to receive an admission decision.

Application Deadlines

Fall Admission
- Block 1 Final Deadline: June 30
- Block 2 Final Deadline: October 1
- Priority Deadline: May 1

Spring Admission
- Block 1 Final Deadline: December 1
- Block 2 Final Deadline: February 1
- Priority Deadline: October 1

Summer Admission
- Final Deadline: April 1
- Priority Deadline: February 1

International applicants: Please be advised that there are additional university requirements that may take additional processing time - you are encouraged to apply prior to the application deadline if possible to ensure that if admitted, all required documentation can be provided prior to the term of entry.

Program Specific Degree Requirements

Master of Science in Accounting

The objectives of the master of science in accounting degree program are:

- To provide students with an advanced understanding of the field of accounting,
- To provide students with specific advanced knowledge of the sub-topics within accounting,
- To provide students with professional skills that will enable them to enjoy productive and rewarding careers in accounting and other accounting-related areas.

The program consists of a minimum of 30 semester hours of graduate coursework. Students must complete coursework in accounting and elective business and/or non-business areas. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level non-accounting courses (approximately six hours). Non-accounting courses should be selected in consultation with the student's graduate adviser. Non-accounting courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director, prior to the first day of such classes.

Students must take these 5 core accounting courses (minimum 15 credit hours):

ACCT 5030. Advanced Financial Accounting
ACCT 5040. Seminar in Managerial Accounting
ACCT 5060. Auditing II
ACCT 5070 Tax II Accounting Elective
ACCT 5065 Fraud Examination or ACCT 5066 Seminar on Management Fraud

A maximum of six hours may come from 4000-level courses offered in the College of Business or in other colleges at the University of Wyoming.

NOTE: ACCT 4010, 4020, 4050, 4060, 4100, 4600, 4900, and 5000 are not applicable for M.S. accounting students’ programs of study.

The student must complete the required coursework (both graduate and prerequisite) with a minimum GPA of 3.000 (on a 4.000 scale).

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid dismissal.

Students must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

**Finance Major**

Modern business is characterized by its emphasis upon finance. The application of sound financial management principles often will be the difference between success and failure in business.

Courses prescribed for those who wish to major in finance are designed to provide a background for financial management of business concerns and, if students desire, to specialize in bank management, corporation finances and investment management. Since financial policies of business enterprises are subject to economic principles which make all businesses financially interdependent and sensitive to disturbances in the economic structure, students in this field should study the economic, as well as the technical, administrative aspects of finance and accounting. Prescribed work in this area attempts to emphasize all three phases of the subject.

All finance majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All finance courses for the major require a minimum grade of C.

A complete curriculum sheet is available from the Academic Advising unit of the GJSSC of the College of Business Building.

**Graduate Study**

The Master of Finance program will allow students to obtain advanced training built on the foundations of principles and practices of modern finance. The MS in Finance is a rigorous, yet practical program that encompasses the fundamentals as well as cutting-edge topics in investment analysis, portfolio management, financial modeling, risk management, and fixed income securities. The MS in Finance program aims to make you well prepared to evaluate and react to change with confidence and to develop effective solutions to meet the needs of markets and industries.

The objectives of the master of science in finance are:

To provide students with an advanced understanding of the field of finance.

To provide students with specific advanced knowledge of the subtopics within finance.
To provide students with professional skills that will enable them to enjoy productive and rewarding careers in finance and other finance-related areas.

**Program Specific Admission Requirements**

Admission to the Master of Science in Finance program generally requires:

- Completed University of Wyoming Graduate Admissions Application and nonrefundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.000 scale.
- GRE/GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).
- Official transcripts of all undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Office of Admissions at 1000 E.University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming MS in Finance program does not provisionally or conditionally admit students.

**Additional Requirements for International Applicants:**

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 540 on the paper-based test (TOEFL PBT) or a score of 76 on the internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 6.5. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions). (not applicable for distance education students)
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university may be exempt from providing proof of English proficiency.

**Prerequisites**

No prerequisite courses will be required if you have completed a business or STEM bachelors or masters degree from a regionally accredited college or university with the minimum preferred 3.0 GPA (based on a 4.0 scale).

Applicants without a business or STEM related undergraduate or graduate degree with a minimum 3.0 GPA must provide evidence of proficiency in the following areas:

- Business Math and Statistics
Financial Management

Application Deadlines

Each candidate who applies to the University of Wyoming Master of Science in Accounting or Finance program is evaluated individually by our faculty and program directors. We consider each part of the application in a holistic assessment, including the candidate's reasons for pursuing the degree, interview responses, prior academic performance, work experience, and letters of recommendation.

Students are admitted on a rolling basis with applications evaluated as soon as they are completed. It typically takes no more than two weeks to receive an admission decision.

Fall Admission
• Block 1 Final Deadline: June 30
• Block 2 Final Deadline: October 1
• Priority Deadline: May 1

Spring Admission
• Block 1 Final Deadline: December 1
• Block 2 Final Deadline: February 1
• Priority Deadline: October 1

Summer Admission
• Final Deadline: April 1
• Priority Deadline: February 1

International Applicants: Please be advised that there are additional university requirements that may take additional processing time - you are encouraged to apply prior to the application deadline if possible to ensure that if admitted, all required documentation can be provided prior to the term of entry.

Program Specific Degree Requirements

Master of Science in Finance

The program consists of a minimum of 30 semester hours of graduate coursework. Students must complete coursework in finance and elective business and/or non-business areas. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level non-finance courses (approximately six hours). Non-finance courses should be selected in consultation with the student's graduate advisor. Non-finance courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director, prior to the first day of such class.

General Finance Track

• FIN 5310: Investment Management (3)

• FIN 5400: Financial Modeling (3)

• 15 credit hours Finance electives + 9 credit hours other business electives (maximum 6 credit hours can be 4000 level).

MS in Finance (CFP Track) Core - Required Courses

• FIN 5310: Investment Management (3)
• FIN 5070: Tax Planning for Financial Planners (3)
• FIN 5720: Retirement/Insurance Planning (3)
• FIN 5750: Fundamentals of Financial Planning (3)
• FIN 5780: Estate Planning (3)
• FIN 5800: CFP Capstone (3)
• FIN 5400: Financial Modeling (3)
• Finance Electives (9ch) (maximum 6 credit hours can be 4000 level).

The student must complete the required coursework with a minimum GPA of 3.000 (on a 4.000 scale).

Student must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, student will be immediately dismissed from the program.

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid dismissal.

Major

Accounting, B.S.

The Accounting major prepares students for a career within the profession by providing them with the skills to create, interpret and analyze economic and financial information while focusing on assurance, financial and tax services.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on
developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3  
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3  
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3
Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3  
Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3  
Approved V courses fulfill both US and Wyoming Constitutions requirements.

Requirements - Total Credits: 120

Common Body of Knowledge - Credits: 33

**ACCT2010 - Principles of Accounting I**

Credits: 3  
Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

**Prerequisite:** Sophomore class standing and MATH 1400

**ACCT2020 - Principles of Accounting II**

Credits: 3  
Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

Former Course Number [1020]

**Prerequisite:** ACCT 2010, Sophomore class standing.

**ECON1010 - Principles of Macroeconomics**
An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

**Cross Listed** AGEC 1010.  
USP 2003-2014 Code U3CS  
USP 2015 Code U5H

**ECON1020 - Principles of Microeconomics**

Credits: 3  
You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

**Cross Listed** AGEC 1020.  
USP 2003-2014 Code U3CS  
USP 2015 Code U5H

**MGT2010 - Legal Environment of Business**

Credits: 3  
Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

**IMGT2400 - Introduction to Information Management**

Credits: 3  
Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

**Former Course Number** [2400]

**Prerequisite:** MATH 1400.

**FIN2100 - Principles of Finance**

Credits: 3  
Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

**Prerequisite:** ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200, and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.
MGT2100 - Management and Organization

Credits: 3
An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

MKT2100 - Introduction to Marketing

Credits: 3
An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

DSCI2100 - Introduction to Operations and Supply Chain Management

Credits: 3
An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

MGT4800 - Business Strategy and Policy

Credits: 3
A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3
Prerequisite: ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

BUSN4990 - Senior Exit Exam

Credits: 0
The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).
Major Specific Courses - Credits: 30

Accounting Core: 21 Credits

**ACCT3070 - Tax I**

Credits: 3
This class covers a broad range of the tax concepts applicable to the taxation of individual taxpayers. Special emphasis will be placed on the role of taxation of the individual and the related decision-making process.

**Prerequisite:** ACCT 2010 and ACCT 2020, Advance Business Standing.

**ACCT3230 - Intermediate Accounting I**

Credits: 3
First of two courses studying financial reporting. Topics include recording and reporting events in the expenditure and revenue cycles.

**Former Course Number** [2230]

**Prerequisite:** ACCT 2010, ACCT 2020 and MATH 1400 with grades of C or better in each; sophomore class standing.

**ACCT3240 - Cost Accounting I**

Credits: 3
Organizational uses of information to plan, make decisions, and evaluate performance. Specific topics include job order and process costing, cost estimation and CVP analysis, budgeting and variance analysis.

**Former Course Number** [2240]

**Prerequisite:** ACCT 2010, ACCT 2020 and MATH 1400 with grades of C or better in each; sophomore class standing.

**ACCT3430 - Intermediate Accounting II**

Credits: 4
Second of two courses studying financial reporting. Topics include debt, equity, revenue recognition, and special issues in expense and liability recognition.

**Prerequisite:** ACCT 3230 with grade of C or better; advanced business standing, or special permission of Department Head.

**ACCT3610 - Accounting Information Systems**
Credits: 3
Provides an understanding of accounting information systems and internal controls. Emphasis on the use of current accounting technology, accounting software and internal control systems.

**Former Course Number** [2040, 3010]

**Prerequisite:** ACCT 3230 with a grade of C or better; advanced business standing.
- ACCT 3900 - Accounting Professional Skills

**ACCT4060 - Auditing I**

Credits: 3
A study of the scope, activities, and responsibilities of professional auditors. Topics include assurance services by public accountants and the methods and techniques used to provide these services, with a focus on the audits of financial statements and internal controls performed by external auditors.

**Prerequisite:** ACCT 3230 with a grade of C or better; ACCT 3610 with a grade of C or better (or concurrent enrollment)

**Accounting Elective: 3 Credits**

Choose 1 of the Following:

**ACCT3100 - Financial Statement Analysis**

Credits: 3
Advanced study of financial statements and how to analyze those statements from both an internal and external perspective.

**Former Course Number** [4100, 2000, 3000]

**Prerequisite:** ACCT 2010, ACCT 2020, FIN 2100 (or equivalent), sophomore class standing.

**ACCT4960 - Volunteer Income Tax Assistance**

Credits: 1-3
Max Credit 3

The Volunteer Income Tax Assistance (VITA) program is an IRS-sanctioned program designed to help low-income individuals and families file their federal and state taxes through trained volunteers. This course trains students to assist taxpayers in filing tax returns through the VITA program.

**Prerequisite:** ACCT 3070 (or concurrent).

**Advanced Business Electives: 6 Credits**
Any business courses at a 3000+ level that have not been used to meet any other primary major requirements.

Free Electives from Any College: 18 Credits

Courses from any college at any level that have not been used to meet any other primary major requirements.

A complete curriculum sheet is available from the College of Business Peter M. and Paula Green Johnson Student Success Center in the College of Business Building.

Please Note:

All accounting courses for the major require a minimum grade of C. In addition to university and college requirements cited previously, requirements for accounting majors are listed above.

Students who anticipate preparing themselves for the CPA examination following completion of their degree should be aware of the Wyoming statute governing eligibility to sit for the exam. Please see the state board's web site for information: cpaboard.state.wy.us. The current combined curricula (B.S. and M.S.) enable students to satisfy the educational requirements to sit for the CPA exam in Wyoming and other jurisdictions.

Finance, B.S.

The Finance major provides the principal concepts for students to understand financial management of business concerns and, if students desire, to specialize in bank management, corporation finances and investment management.

Major Specific Courses - Credits: 21

Finance Core: 12 Credits

ACCT3100 - Financial Statement Analysis

Credits: 3
Advanced study of financial statements and how to analyze those statements from both an internal and external perspective.
Former Course Number [4100, 2000, 3000]

**Prerequisite:** ACCT 2010, ACCT 2020, FIN 2100 (or equivalent), sophomore class standing.

**FIN 4400 - Financial Modeling**

Credits: 3
Involves the application of basic econometric methods to the analysis of financial data. Focus is on utilizing spreadsheets and other softwares to facilitate financial decision making.

**Dual Listed FIN 5400.**
**Prerequisite:** FIN 2100, FIN 3310, IMGT 2400, advanced business standing.

**FIN 3310 - Investment Management**

Credits: 3
Fundamental principles of investments and practical implications of financial theory. Students acquire a framework for understanding returns on financial assets, risk and return, fundamentals of portfolio theory, efficient market hypothesis, and asset pricing models. Other topics include financial statement analysis, behavioral finance, and introduction to options and futures.

Former Course Number [4310]

**Prerequisite:** FIN 2100 and advanced business standing.

**FIN 4250 - Advanced Corporate Finance**

Credits: 3
Give students a better appreciation of the techniques and theories of corporate finance and investments that may have been introduced in introductory finance courses.

USP 2015 Code U5C3
**Prerequisite:** FIN 2100.

Finance Electives: 3 Credits

Choose 1 of the Following:

**FIN 3520 - Financial Markets**

Credits: 3
Portfolio and capital market theory and the analysis of risk are introduced. Integrates theory into practical aspects of financial markets.
**FIN4340 - Portfolio Management**

Credits: 3
Manage, monitor and invest real money provided by the State of Wyoming and the University of Wyoming Foundation. Students should obtain from the course the ability to construct investment portfolios from scratch, to learn the signals from which to obtain sell and buy data and the ability to act on this information.

**Prerequisite:** FIN 3310 and advanced business standing.

**FIN4350 - Portfolio Management II**

Credits: 3
Manage, monitor and invest real money provided by the State of Wyoming and the University of Wyoming Foundation. Students should obtain from the course the ability to construct investment portfolios from scratch, to learn the signals from which to obtain sell and buy data and the ability to act on this information.

**Prerequisite:** FIN 3310 and advanced business standing.

**FIN4360 - Options and Futures**

Credits: 3
Provides an introduction to financial futures such as currency futures and interest rate futures. Explores the markets on which they are traded. Also analyzes pricing of options and other derivative securities. Includes the leverage and risk aspects of options.

**Prerequisite:** FIN 2100, FIN 3310.

**FIN4510 - Bank Management**

Credits: 3
Deals with financial decision-making in financial institutions, particularly emphasizing commercial banks. Topics covered include managing financial assets, deposit acquisition and capital management.

**Prerequisite:** FIN 2100 and advanced business standing.

**FIN4530 - Fixed Income Securities**

Credits: 3
Provides an overview of the fixed income securities markets, pricing and risk management. In so doing, the course follows the CFA institute learning objectives of the CFA exam. We first introduce the major forms of fixed income securities. We then delve into valuation of these securities using a myriad of pricing techniques. We then embark on credit risk analysis, followed by fixed income portfolio management. Ultimately, the course aims at preparing students
for most challenging and yet active fixed income markets: corporate bonds and mortgage securities.

**Dual Listed** FIN 5530.
**Prerequisite:** FIN 2100, advanced business standing.

**FIN4540 - Banking Policy**

Credits: 3
Intended to be taken either with or after FIN 4510, Bank Management, and will cover similar topics but in greater depth and breadth. Integrated application of these topics will take place in a selection of case studies, some of which will be analyzed in teams.

**Prerequisite:** FIN 4510 or concurrent enrollment in FIN 4510.

**FIN4710 - Risk Management**

Credits: 3
Analyzes the risk management and insurance problem in the business enterprise with emphasis on methodology for risk analysis; techniques for risk and loss control; and models for risk management decision-making.

**Dual Listed** FIN 5710.
**Prerequisite:** FIN 2100

**Advanced Business Electives: 6 Credits**

Any business courses at a 3000+ level that have not been used to meet any other primary major requirements.

**Free Electives from Any College: 27 Credits**

- Courses from any college at any level - Credits: 21
- Courses from any college at a 3000+ level - Credits: 6

**Minor**

**Banking and Financial Services Minor**

The Banking and Financial Services minor introduces the student to the field and provides them with a greater understanding of how the banking system functions to provide service and value to the economy.

**Finance Requirement**

**FIN4510 - Bank Management**

Credits: 3
Deals with financial decision-making in financial institutions, particularly emphasizing commercial banks. Topics
covered include managing financial assets, deposit acquisition and capital management.

**Prerequisite:** FIN 2100 and advanced business standing.

**FIN4540 - Banking Policy**

Credits: 3
Intended to be taken either with or after FIN 4510, Bank Management, and will cover similar topics but in greater depth and breadth. Integrated application of these topics will take place in a selection of case studies, some of which will be analyzed in teams.

**Prerequisite:** FIN 4510 or concurrent enrollment in FIN 4510.

**FIN4530 - Fixed Income Securities**

Credits: 3
Provides an overview of the fixed income securities markets, pricing and risk management. In so doing, the course follows the CFA institute learning objectives of the CFA exam. We first introduce the major forms of fixed income securities. We then delve into valuation of these securities using a myriad of pricing techniques. We then embark on credit risk analysis, followed by fixed income portfolio management. Ultimately, the course aims at preparing students for most challenging and yet active fixed income markets: corporate bonds and mortgage securities.

**Dual Listed** FIN 5530.

**Prerequisite:** FIN 2100, advanced business standing.

**Advanced Business Electives**

- Any Business Course (3000-level or higher) Credits: 3
- Any Business Course (3000-level or higher) Credits: 3

**Minor Total Credits: 15**

**Blockchain Minor**

This minor lays the foundation for gaining a competitive advantage in the blockchain ecosystem by providing an understanding of the implications and business opportunities associated with blockchain and digital assets and how they affect global industries.

**Blockchain Core - Credits: 9**

**BKCH3021 - Fundamentals of Blockchain**

Credits: 3
The purpose of this course is to provide a fundamental understanding of blockchain technologies and their implications. Topics will focus on understanding how blockchain may change the way we think about money, disrupt traditional financial institutions and eliminate costly intermediaries.
Prerequisite: Requires Junior Class Standing.

**BKCH4021 - Business Applications of Blockchain**

Credits: 3
This course provides advanced concepts underpinning the applications of global blockchain technologies for business and their use cases. Students will learn about the underlying technologies to be well-prepared to develop blockchain applications in the business world.

Prerequisite: BKCH 3021.

**BKCH4121 - Case Studies in Block Chain**

Credits: 3
This experiential learning focused course is targeted toward understanding the creation and development of blockchain ventures. Besides course lecture materials, students will study and support new blockchain ventures in a real-world setting.

Prerequisite: BKCH 3021.

**Blockchain Electives - Credits: 6**

Choose two from the following:

**FIN4910 - Topics in Finance**

Credits: 1-6
Max Credit 6
This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

**MGT2030 - Principle-Based Ethics**

Credits: 3
Max Credit 3
Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.
Prerequisite: sophomore class standing.

**DSCI4260 - Project Management**

Credits: 3  
Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

Prerequisite: ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

**ES4920 - Entrepreneurship for Engineers**

Credits: 3  
Traditional engineering education does not prepare graduates for work in entrepreneurial ventures. The goal of this course is to have students demonstrate skills in developing business ideas, performing preliminary market research, estimating cash flow, and launching a business.

Prerequisite: 9 hours within an engineering discipline and junior standing.

**COSC4010 - Special Topics in Computer Science**

Credits: 1-3  
Individual or small group pursuit of interdisciplinary problems in the use of computers or study of advanced topics.

When Offered (Offered based on sufficient demand and resources)  
Prerequisite: COSC 3020 concurrently and consent of instructor.

**COSC1015 - Introduction to Programming for Data Science**

Credits: 3  
Provides an accelerated introduction to computing in the setting of Data Science. Topics include basic programming techniques; data transformation; computing with vectors, matrices, and data frames; data visualization; and text processing.

USP 2015 Code U5Q  
A&S College Core 2015 Credit may not be earned for both COSC 1010 and COSC 1015. Priority given to Engineering Honors students.

Prerequisite: grade of C or better in MATH 1400 or Level 4 or higher on the Math Placement Exam within one year prior to the start of the course.

Total for Minor: 15 Credits

**Data Analytics Minor**
The Data Analytics minor is designed to provide the student with the skills necessary to gather, process and interpret the large amounts of data available in today's fast paced business environment.

**Required Core**

**DSCI4240 - Computer Applications in Decision Sciences**

Credits: 3  
A study of decision science topics such as mathematical programming, Monte Carlo simulation, forecasting, project management and decision theory. The applications of computer techniques is emphasized.

**Prerequisite:** IMGT 2400 or equivalent, STAT 2050 or equivalent, and junior class standing.

**IMG4500 - Business Analytics**

Credits: 3  
This class prepares students to understand, manage, and visualize data. Students will learn how to apply the appropriate analytic tools, and communicate the findings and their relevance. Topics covered include data wrangling, descriptive analytics, predictive analytics, and prescriptive analytics.

**Prerequisite:** IMGT 1400, STAT 2050 or equivalent

**ECON4230 - Intermediate Econometric Theory**

Credits: 3  
Covers simple and multiple regression models, problems of estimation, hypothesis and diagnostic testing, dummy variable, autoregressive and distributed lag models, and time-series analysis. The objective is to understand the underlying theory of econometric modeling and obtain operational ability to construct, estimate, and test econometric models.

**Cross Listed** AGEC 4230.  
**Dual Listed** ECON 5230.  
**When Offered** (Normally offered spring semester)  
**Former Course Number** [4340]

**Prerequisite:** ECON 3020, STAT 2050 or STAT 2070, and MATH 2350.  
**OR**

**ECON4530 - Computational Economics**

Credits: 3  
An introduction to computational tools used to analyze economic data and policies. Provides operational knowledge of how to formulate numerical economic models to conduct analyses of consumer behavior, markets, trade, and state and local fiscal administration. Special emphasis on applications to Wyoming problems.
Dual Listed ECON 5530.
Prerequisite: ECON 3020, and one of STAT 2010, STAT 2050, STAT 2070, or STAT 2110.

Advanced Business Electives

- Any Business Course (3000-level or higher) Credits: 3
- Any Business Course (3000-level or higher) Credits: 3

Minor Total Credits: 15

Real Estate Minor

The Real Estate minor enables students to gain broad understanding of this important market and as a result compete for jobs in many real estate related careers such as real estate management, investment, development, brokerage, appraisal and more.

Real Estate Requirement

FIN3100 - Real Estate Development

Credits: 3
This course presents the basic principles involved in real estate development. Topics include: land acquisition and appraisal, site improvements, market feasibility analysis, development financing, real estate government approval and regulations, real estate engineering and construction issues, real estate marketing and property operations and performances.

When Offered (Offered based on sufficient demand and resources)
Prerequisite: ACCT 2010.

FIN4800 - Real Estate Finance

Credits: 3
Exposes students to the fundamentals of real estate finance such as mortgage financing, commercial leases, pro-forma analysis, financial modeling, tax implications, leveraged real estate and valuation of income producing properties. While the theory of each topic will be presented, the focus is on the applications of the material.

Prerequisite: FIN 2100 and advanced business standing.

FIN4810 - Real Estate Investment

Credits: 3
Covers advance real estate investment topics such as investments risk and valuation sensitivity analysis, futures and real options, liquid real estate investments, analysis of development projects, and commercial mortgage backed securities. While the theory the topics will be presented, the course focus is on the application of the material.

Prerequisite: FIN 2100 and advanced business standing
Real Estate Electives

Complete a minimum of 6 credits with courses from the below list:

**ACCT3100 - Financial Statement Analysis**

Credits: 3
Advanced study of financial statements and how to analyze those statements from both an internal and external perspective.

*Former Course Number [4100, 2000, 3000]*

*Prerequisite:* ACCT 2010, ACCT 2020, FIN 2100 (or equivalent), sophomore class standing.

**FIN3310 - Investment Management**

Credits: 3
Fundamental principles of investments and practical implications of financial theory. Students acquire a framework for understanding returns on financial assets, risk and return, fundamentals of portfolio theory, efficient market hypothesis, and asset pricing models. Other topics include financial statement analysis, behavioral finance, and introduction to options and futures.

*Former Course Number [4310]*

*Prerequisite:* FIN 2100 and advanced business standing.

**FIN3520 - Financial Markets**

Credits: 3
Portfolio and capital market theory and the analysis of risk are introduced. Integrates theory into practical aspects of financial markets.

*Former Course Number [4520]*

*Prerequisite:* FIN 2100, STAT 2010 or STAT 2050/STAT 2070, and advanced business standing.

**FIN4510 - Bank Management**

Credits: 3
Deals with financial decision-making in financial institutions, particularly emphasizing commercial banks. Topics covered include managing financial assets, deposit acquisition and capital management.

*Prerequisite:* FIN 2100 and advanced business standing.
FIN4540 - Banking Policy

Credits: 3
Intended to be taken either with or after FIN 4510, Bank Management, and will cover similar topics but in greater depth and breadth. Integrated application of these topics will take place in a selection of case studies, some of which will be analyzed in teams.

Prerequisite: FIN 4510 or concurrent enrollment in FIN 4510.

FIN4710 - Risk Management

Credits: 3
Analyzes the risk management and insurance problem in the business enterprise with emphasis on methodology for risk analysis; techniques for risk and loss control; and models for risk management decision-making.

Dual Listed FIN 5710.
Prerequisite: FIN 2100

MGT4350 - Commercial Law

Credits: 3
A study of the basic principles of commercial law, including property, sales, negotiable instruments, secured transactions, creditors' rights and bankruptcy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

BUSN4600 - Advanced Internship in Business

Credits: 3
Max Credit 6

Provides students with practical business knowledge, policy, procedure, and decision making. Students work as interns in operating organizations.

Prerequisite: MKT 2100, MGT 2100, FIN 2100, advanced business standing, approved internship application through the Peter M. & Paula Green Johnson Student Success Center.

Additional options for electives may be available. Consult your advisor for more options.

ERS4100 - Property I

Credits: 3
Property I addresses the nature of property ownership and the rights associated with property as well as the acquisition and transfer of ownership rights in property and the sharing of ownership rights over time, including estates, future interest, and concurrent estates.

ERS4105 - Property II
Credits: 3
Property II covers rights inherent to the ownership of property and public limitations on those rights.

**Prerequisite:** ERS 4100.

**ERS4110 - Law of Contracts**

Credits: 3
The Law of Contracts addresses the formation of a contract and the meaning of agreements and the justification of non-performance and breach.

**Prerequisite:** MGT 1040 and WB/C

**ERS4120 - Federal Public Land Law**

Credits: 3
Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

**ERS4130 - Oil and Gas Law**

Credits: 3
Focuses on the basis legal rules and principles governing the ownership and development of oil and gas, derived from a combination of property, contract, administrative, tort, and constitutional law.

**ERS4135 - Advanced Energy Law**

Credits: 3
Covers oil, gas and other energy development and financing arrangements including assignments, leases, farmouts, joint operating agreements, purchase and sale agreements, service agreements and marketing agreements. Covers oil, gas and other energy development regulation, including, oil and gas conservation commission and state and federal environmental regulation. Introduces other forms of energy development, including, but not limited to, renewables, nuclear, CCUS, hydrogen, and the various agreement and regulatory nuances of such energy development. Covers ethical issues that may arise in energy development.

USP 2015 Code U5C3
**Prerequisite:** ERS 4130.

**ERS2010 - Introduction to Land Management**

Credits: 3
Max Credit 3

Provides an introduction to land management in the various energy industries. Covers the knowledge and skills needed by land professionals including survey systems, land descriptions, mineral ownership, title examination, leases, surface use agreements, and contracts frequently used in the industry. In addition, provides an overview of ethical issues that arise and professional conduct expected in the industry.
Minor Total Credits: 15

Graduate

Accounting, M.S.

Students who wish to become professional accountants will find the online MS in Accounting degree to be one that enables them to develop both the personal and professional skills needed to enjoy a productive career.

Additional Requirements

The objectives of the master of science in accounting are:

- To provide students with an advanced understanding of the field of accounting,
- To provide students with specific advanced knowledge in selected sub-topics within accounting,
- To provide students with professional skills that will enable them to enjoy productive and rewarding careers in accounting and accounting-related areas.

The program consists of a minimum of 30 semester credit hours of graduate coursework. Students must complete coursework in accounting and elective business and/or non-business courses as approved by program leadership. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level accounting or non-accounting courses (approximately six total credit hours). Non-accounting courses should be selected in consultation with the student's graduate adviser. Non-accounting courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director prior to the first day of such classes. Courses reserved for graduate credit may also not be counted towards the undergraduate degree requirements. Approved reservation of courses for graduate credit does not guarantee admission to the graduate program.

Core Accounting Courses

Students must take these 4 core accounting courses (minimum 12 credit hours):

**ACCT5030 - Advanced Financial Accounting**

Credits: 3

Advanced topics in financial reporting for students planning careers as professional accountants. Topics may include: business combinations, consolidated financial reporting, segment and interim reporting, SEC reporting, multinational accounting and reporting, and other emerging topics.

**Restricted** MS-ACCT

**Prerequisite:** Admission to the MS in Accounting Program or department approval.

**ACCT5040 - Seminar in Managerial Accounting**
Organizational development of financial and nonfinancial budgets, interaction between performance measurement systems and human behavior, and advanced topics in uses of information for decision making.

**Restricted MS-ACCT**

**Prerequisite:** Admission to the MS in Accounting Program or department approval.

**ACCT5060 - Auditing II**

Credits: 3
An in-depth study of the financial statement audit and the professional responsibilities of public accountants. The role of professional judgment and skepticism is emphasized in case studies and research involving current auditing issues, including financial statement fraud.

**Restricted MS-ACCT**

**Prerequisite:** Admission to the MS in Accounting Program or department approval.

**ACCT5070 - Tax II**

Credits: 3
Choice of entity and special tax subjects. Emphasis will be placed on the importance of ethical considerations, competent tax research, and thoughtful tax planning.

**Required Accounting Elective**

Students must take one of the following courses:

**ACCT5065 - Fraud Examination**

Credits: 3
The study of fraud against organizations and individuals. Includes consideration of how and why fraud is committed, the basics of fraud investigation, and fraud prevention. Coverage may also include an in-depth study of specific fraud cases based on the above elements.

**Restricted MS-ACCT**

**Prerequisite:** Admission to the MS in Accounting Program or department approval.
ACCT5066 - Seminar on Management Fraud

Credits: 3
An in-depth study and analysis of the causes, methods, and consequences of financial statements fraud committed by top management in the organization. The course covers psychological and criminological theories of management fraud, as well as detailed analysis of high-profile managements frauds. Seminar format.

Restricted MS-ACCT

Prerequisite: Admission to the MS in Accounting Program or department approval.

Note(s):

NOTE: ACCT 4060, ACCT 4900, ACCT 5000, and ACCT 5940 are not applicable to M.S. accounting students’ programs of study.

The student must complete the required coursework with a minimum GPA of 3.000 on a 4.000 scale.

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid suspension. If a 3.000 GPA is not attained in the subsequent semester, the student will be suspended from the MS Accounting program and the University of Wyoming.

Students must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Finance, M.S.

The MS in Finance program is a rigorous, yet practical program built on the foundations of principles and practices in modern finance, with an optional CFP (Certified Financial Planner) track.

Additional Requirements

The program consists of a minimum of 30 semester hours of graduate coursework. Students must complete coursework in finance and elective business and/or non-business areas as approved by program leadership. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level finance or non-finance courses (approximately six hours). Non-finance courses should be selected in consultation with the student's graduate advisor. Non-finance courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director prior to the first day of such classes. Courses reserved for graduate credit may also not be counted towards the undergraduate degree requirements. Approved reservation of courses for graduate credit does not guarantee admission to the graduate program.

The student must complete the required coursework with a minimum GPA of 3.000 on a 4.000 scale.

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid suspension. If a 3.000 GPA is not attained in the subsequent semester, the student will be suspended from the MS in Finance program and the University of Wyoming.

Student must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, student may be immediately dismissed from the program.
General Finance Track

**FIN5310 - Advanced Investment Analysis**

Credits: 3  
The theory of investment management and security values, portfolio management including the analysis of investment policies and objectives, the analysis and use of investment information, and the development and application of the tools for determining values.

**Restricted** MS-FIN and/or CERT-CFP

**Prerequisite:** Admission to MS in Finance and/or CFP Certificate Program or department approval.

**FIN5250 - Cases in Corporate Finance**

Credits: 3  
Max Credit 3  
The goal of this course is to enhance students’ understanding of major corporate decisions, and to explore the role such decisions play in value creation within a corporation. Some issues covered in the course will include analyzing companies' historical performance, forecasting future performance, estimating hurdle rates, and analyzing resource allocation choices.

**Restricted** MS Finance and/or CFP Certificate

**Prerequisite:** Admission to MS Finance and/or CFP Certificate Program, or department approval

**FIN5400 - Advanced Financial Modeling**

Credits: 3  
Involves the application of basic econometric methods to the analysis of financial data. Focus is on utilizing spreadsheets and other softwares to facilitate financial decision making.

**Dual Listed** FIN 4400.  
**Restricted** MS-FIN and/or CERT-CFP

**Prerequisite:** Admission to MS in Finance and/or CFP Certificate Program or department approval.  
- 21 credit hours of 4000 or 5000 level College of Business electives.  
- Maximum of 6 credit hours can be taken at the 4000 level.

CFP Track

**FIN5070 - Tax Planning for Financial Planners**
Focuses on principles, current law, and practice of income taxation and its impact on financial planning for individuals, couples, and families in their role as investors, employees, and business owners.

**Dual Listed** FIN 4070.
**Restricted** MS-FIN and/or CERT-CFP

**Prerequisite:** Admission to MS in Finance and/or CFP Certificate Program or department approval.

**FIN5250 - Cases in Corporate Finance**

Credits: 3  
Max Credit 3  

The goal of this course is to enhance students’ understanding of major corporate decisions, and to explore the role such decisions play in value creation within a corporation. Some issues covered in the course will include analyzing companies' historical performance, forecasting future performance, estimating hurdle rates, and analyzing resource allocation choices.

**Restricted** MS Finance and/or CFP Certificate

**Prerequisite:** Admission to MS Finance and/or CFP Certificate Program, or department approval

**FIN5310 - Advanced Investment Analysis**

Credits: 3  

The theory of investment management and security values, portfolio management including the analysis of investment policies and objectives, the analysis and use of investment information, and the development and application of the tools for determining values.

**Restricted** MS-FIN and/or CERT-CFP

**Prerequisite:** Admission to MS in Finance and/or CFP Certificate Program or department approval.

**FIN5400 - Advanced Financial Modeling**

Credits: 3  

Involves the application of basic econometric methods to the analysis of financial data. Focus is on utilizing spreadsheets and other softwares to facilitate financial decision making.

**Dual Listed** FIN 4400.  
**Restricted** MS-FIN and/or CERT-CFP

**Prerequisite:** Admission to MS in Finance and/or CFP Certificate Program or department approval.
**FIN5720 - Insurance and Retirement Planning**

Credits: 3  
This class is designed to help graduate students understand various topics in retirement and insurance planning for individuals and families.

Restricted MS-FIN and/or CERT-CFP

**Prerequisite:** Admission to MS in Finance and/or CFP Certificate Program or department approval.

**FIN5750 - Fundamentals of Financial Planning**

Credits: 3  
This is a survey course for financial planning and wealth management. The topics include insurance planning, tax planning, investment planning, retirement planning, estate planning, and professional conduct. The course will focus on acquiring a framework for understanding the major components of financial planning and developing a coordinated financial plan.

Restricted MS-FIN and/or CERT-CFP

**Prerequisite:** Admission to MS in Finance and/or CFP Certificate Program or department approval.

**FIN5780 - Estate Planning**

Credits: 3  
This course will cover general reliability modeling and evaluation; probability and stochastic processes; system modeling; methods of reliability assessment (state space, frequency balancing, cut-set and tie-set analysis, decomposition, Monte Carlo simulation); and reliability modeling and analysis of electric power systems: bulk power systems, distribution systems, and industrial systems.

Restricted MS-FIN and/or CERT-CFP

**Prerequisite:** Admission to MS in Finance and/or CFP Certificate Program or department approval.

**FIN5800 - CFP Capstone**

Credits: 3  
This course will be organized around the four major areas of financial planning, as outlined by the College of Financial Planning curriculum. These four key areas are as follow: retirement planning; income tax planning; investment planning; and estate tax planning.

Restricted MS-FIN and/or CERT-CFP

**Prerequisite:** Admission to the MS program or permission of the Department Head.
• 6 credit hours of 4000 or 5000 level College of Business electives.
• Maximum of 6 credit hours can be taken at the 4000 level.

Certificate

Certified Financial Planning Certificate (Graduate)

The certificate is composed of 18 credits of masters-level graduate coursework with the primary goal of providing students with the education, training, and skills necessary to be able to sit for the Certified Financial Planner (CFP) examination.

Additional Requirements

The curriculum is aligned with the CFP® Board's Principal Knowledge Topics and covers principles and practices of essential areas of financial planning, including:

• Wealth Management
• Investment Management
• Tax Planning
• Estate Planning
• Insurance and Retirement Planning

CFP Certificate Requirements

FIN5070 - Tax Planning for Financial Planners

Credits: 3
Focuses on principles, current law, and practice of income taxation and its impact on financial planning for individuals, couples, and families in their role as investors, employees, and business owners.

Dual Listed FIN 4070.
Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5310 - Advanced Investment Analysis

Credits: 3
The theory of investment management and security values, portfolio management including the analysis of investment policies and objectives, the analysis and use of investment information, and the development and application of the tools for determining values.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.
FIN5720 - Insurance and Retirement Planning

Credits: 3
This class is designed to help graduate students understand various topics in retirement and insurance planning for individuals and families.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5750 - Fundamentals of Financial Planning

Credits: 3
This is a survey course for financial planning and wealth management. The topics include insurance planning, tax planning, investment planning, retirement planning, estate planning, and professional conduct. The course will focus on acquiring a framework for understanding the major components of financial planning and developing a coordinated financial plan.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5780 - Estate Planning

Credits: 3
This course will cover general reliability modeling and evaluation; probability and stochastic processes; system modeling; methods of reliability assessment (state space, frequency balancing, cut-set and tie-set analysis, decomposition, Monte Carlo simulation); and reliability modeling and analysis of electric power systems: bulk power systems, distribution systems, and industrial systems.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to MS in Finance and/or CFP Certificate Program or department approval.

FIN5800 - CFP Capstone

Credits: 3
This course will be organized around the four major areas of financial planning, as outlined by the College of Financial Planning curriculum. These four key areas are as follow: retirement planning; income tax planning; investment planning; and estate tax planning.

Restricted MS-FIN and/or CERT-CFP

Prerequisite: Admission to the MS program or permission of the Department Head.
• Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Department of Economics

260W Business Building, (307) 766-2175
Web site: www.uwyo.edu/economics
Department Chairman: David Aadland

Wyoming Excellence Chair in Conservation Economics:

H. JO ALBERS, B.S. Duke University 1985; M.E.S. Yale University 1987; Ph.D. University of California at Berkeley 1993; Professor of Economics 2014.

Wyoming Excellence Chair in Economics and McMurry Fellow:

H.A. (Dave) True, Jr. Chair in Petroleum and Natural Gas Economics:

Stroock Chair of Natural Resource and Environmental Economics:

JASON F. SHOGREN, B.A. University of Minnesota-Duluth 1980; Ph.D. University of Wyoming 1986; Professor of Economics 1995.

John S. Bugas Chair in Economics:

TODD CHERRY, B.S.B.A. Appalachian State University 1992; M.A. University of North Carolina Greensboro 1995; Ph.D. University of Wyoming, 1999. Professor of Economics, Graduate Director.

Professors:

TIMOTHY J. CONSIDINE, B.A. Loyola University 1975; M.S. Purdue University 1977; Ph.D. Cornell University 1981; Professor of Economics 2008.
Associate Professors:

DAVID M. AADLAND, B.A. Augustana College 1991; M.S. University of Oregon 1996; Ph.D. 1997; Department Chairman, 2018; Associate Professor of Economics 2005, 2003.

ROBERT GODBY, B.S. Trent University 1990; M.A. University of Guelph 1992; Ph.D. McMaster University 1997; Center for Energy Economics and Public Policy Director, and Associate Professor of Economics 2003, 1997.

THORSTEN M. JANUS, B.A. University of Copenhagen 2000; M.A. University of California at Santa Cruz 2003; Ph.D. 2006; Associate Professor of Economics 2012.

STEPHEN NEWBOLD, B.S. University of California, Davis 1995; M.S. 2002; Ph.D. 2002; Associate Professor of Economics 2018.

ALEXANDRE SKIBA, Specialist Diploma Rivne State Technical University 1999; M.S. Purdue University 2001; Ph.D. 2003; Associate Professor of Economics 2019, 2012.

LINDA THUNSTROM, M.S. Umea University, Sweden 1999; Ph.D. Umea University Sweden 2008; Associate Professor of Economics 2013.

Assistant Professors:

BENJAMIN COOK, B.S. University of Wyoming 2003; Ph.D. 2011; Visiting Assistant Professor/Enhanced Oil Recovery Institute 2012.

FELIX NASCHOLD, B.S. University of London 1994; M.S. 1995; Ph.D. Cornell University 2008; Assistant Professor of Economics 2014.

Academic Professionals:

TYLER KJORSTAD, B.A. College of St. Scholastica 2009; M.S. University of Minnesota Duluth 2012; M.S. University of Wyoming 2014; Director of Undergraduate Studies in Economics.

Professors Emeriti:

Thomas D. Crocker, Owen R. Phillips, Sherrill Shaffer

Business Economics Major

The science of efficient allocation, economics has much to offer students in the way of general and specialized preparation for positions in business, as well as government and the academic profession.

All Business Economics majors must comply with requirements of the advanced business standing prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.
A complete curriculum guide is available from the Peter M. & Paula Green Johnson Student Success Center in the College of Business.

Economics and Business Economics majors must hold a 2.500 cumulative grade point average in all economics courses at graduation, as well as a minimum 2.500 cumulative UW grade point average and a minimum 2.500 grade point average in all College of Business courses.

With approval of the department chair, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of 4000-level economics courses.

Students who intend to continue on to graduate work are urged to give special attention to courses in economics theory, statistics and mathematics. Those planning a career in econometrics or mathematical economics should consult the department head as to mathematics and statistics requirements in these fields of study.

**Economics Undergraduate Major**

This program is designed to meet the requirements of AACSB International (the Association to Advance Collegiate Schools of Business), the University of Wyoming, and the College of Business.

**Minimum requirements include:**

- Minimum of 42 semester hours of 3000+ level courses. 30 of the 42 hours must be earned from UW.
- 2.50 grade point average in all College of Business courses, Economics courses, and all institution (UW) courses.
- 50% of the business credit hours must be from the University of Wyoming.
- Grade of C or above required for University Studies Program: FY, C1, C2, and C3.
- Grade of C or above required for common body of knowledge and major specific core courses.
- A maximum of 6 hours at the 1/2000 level and 3/4000 level military science may be applied to degrees in the College of Business.

A complete curriculum guide is available from the Peter M. & Paula Green Johnson Student Success Center in the College of Business.

With approval of the department chair, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of the 4000-level economics electives.

This program allows considerable flexibility for the student to specialize in interdisciplinary study. For example, the student can be advised on selecting upper level division courses for pre-law study, political economy, environmental and natural resources, women's studies, and international studies.

Students who intend to continue in graduate work should give special attention to courses in economic theory, statistics and mathematics. Those planning a career in mathematical economics or econometrics should consult the department head regarding the mathematics and statistics requirements in these fields of study.

**Graduate Study**
The Department of Economics offers programs leading to a master of science degree in economics and the doctor of philosophy degree in economics.

**Program Specific Admission Requirements**

**Economics Program**

Admission to the economics graduate programs is granted to students who show high promise of success. Candidates of high promise generally have a cumulative grade point average of 3.000 or better (A=4.000) and score above 300 (for MS) and 310 (for PhD) combined on the verbal and quantitative sections of the GRE, with particular emphasis on strong quantitative and analytical scores. Such scores and grades do not guarantee admission.

The TOEFL is required for international students in accordance with University rules.

The Department of Economics requires that students have completed courses in intermediate micro and macro theory (ECON 3010, ECON 3020 or equivalent), statistics, and 6 hours of introductory calculus (MATH 2200, MATH 2205 or equivalent) for the MS program. A course in linear algebra (MATH 2050) is required for the PhD program.

**Program Specific Degree Requirements**

**Master of Science in Economics**

A minimum of 18 hours in economics is required; at least 15 of these must be at the 5000 level. A basic core sequence of ECON 5010 (macro), 5390 (math micro), 5530 (computational), 5230 (econometrics), and 5300 (game theory) is required, which completes 15 hours of 5000-level courses, which is required.

The student must complete 26 hours of coursework and 4 hours of ECON 5960 Thesis Research for the Plan A option.
The student must complete 30 hours of coursework and a project for the Plan B option.

Students may take 4000-level courses for graduate credit up to 6 hours.

A maximum of 6 semester hours of graduate coursework not used toward any other degree from another institution may be applied to the M.S. economics program subject to regulations regarding transfer of credit listed in this bulletin and with the approval of the director of graduate studies.

At the beginning of the third semester, the student selects a major professor who directs the Plan A thesis or Plan B project. A graduate committee, nominated by the major professor, the student, and the department chair, conducts an oral examination of the student on the project or thesis and area he/she has studied in the program. A favorable report by the committee and approval by the Office of the Registrar complete the degree requirements.

The majority of students complete the M.S. degree within two years.

**QuickStart Master of Science in Economics**

UW undergraduates can complete the M.S. degree in just one year after completing their B.S. degree if they apply to the QuickStart M.S. program in their junior year. To be eligible, students must have (and maintain) a cumulative GPA of 3.200 or better as well as an Economics GPA of 3.200 or better. They are also required to take the GRE by the fall of their senior year and score above 300 combined on the verbal and quantitative sections combined. The GRE requirement can be waived by the Graduate Director or Director of Undergraduate Studies. Two letters of recommendation from UW economics faculty members are also required. Admission to the QuickStart program allows students to double-count 6 credits of courses taken as an undergraduate towards both the B.S. and M.S. degrees, and reserve an additional 6 credits of courses taken as an undergraduate towards the M.S. degree alone. This then leaves only 18 credits to be taken after completion of the B.S. degree, which is feasible in just one year.
Doctoral Program

Doctor of Philosophy in Economics

The doctor of philosophy degree in the field of economics at the University of Wyoming requires a minimum of 42 hours of coursework. All coursework must be at the graduate (5000) level.

The program is designed to give the student a strong foundation in economic theory and the basic quantitative tools necessary for professional research. If students receive a grade lower than an A during their first year, they must take a comprehensive exam in that field (microeconomics and/or econometrics) during the summer to continue to the second year of the PhD program. The program's qualifying exam takes the form of a research paper written during the second summer and defended to, and approved by, a faculty committee by early in the third year, with revisions and resubmission required by December. Students who pass the qualifying paper requirement receive an MS degree and move on in the PhD program, while students who fail this requirement receive the MS degree and fail out of the PhD program.

During the third year, or no later than the first few weeks of the fourth year, a graduate committee nominated by the student's major professor and the director of graduate studies conducts an oral examination of the student. The purpose of the oral examination is to determine whether the student has formulated a workable dissertation project and has the necessary skills to complete it.

Following successful completion of the dissertation, and completion of a departmental requirement of 30 hours of dissertation research, the student presents an oral defense to the graduate committee. The doctor of philosophy degree is granted on recommendation of the committee and approval by the Office of the Registrar, providing all other requirements have been satisfactorily fulfilled.

Major

Business Economics, B.S.

Economics is the science of decision making and how to create value through trade. An business economics degree will provide you the tools to work on challenging policy issues and employ data analytics to address those issues.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on
developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3  
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3  
Max Credit 3  
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3  
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3  
Max Credit 3  
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3  
Max Credit 3  
Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3  
Max Credit 3  
Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3
Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Requirements - Total Credits: 120**

**Common Body of Knowledge - Credits: 33**

**College of Business Common Body of Knowledge Courses**

**ACCT2010 - Principles of Accounting I**

Credits: 3  
Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

**Former Course Number [1010]**

**Prerequisite:** Sophomore class standing and MATH 1400

**ACCT2020 - Principles of Accounting II**

Credits: 3  
Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

**Former Course Number [1020]**

**Prerequisite:** ACCT 2010, Sophomore class standing.

**ECON1010 - Principles of Macroeconomics**
An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGEC 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

ECON1020 - Principles of Microeconomics

Credits: 3
You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed AGEC 1020.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

MGT2010 - Legal Environment of Business

Credits: 3
Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

IMGT2400 - Introduction to Information Management

Credits: 3
Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

FIN2100 - Principles of Finance

Credits: 3
Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

Prerequisite: ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200, and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.
**MGT2100 - Management and Organization**

Credits: 3  
An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

**Prerequisite:** COM1, sophomore class standing.

**MKT2100 - Introduction to Marketing**

Credits: 3  
An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

**Prerequisite:** sophomore class standing and completion of COM1.

**DSCI2100 - Introduction to Operations and Supply Chain Management**

Credits: 3  
An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

**Prerequisite:** IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

**MGT4800 - Business Strategy and Policy**

Credits: 3  
A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3  
**Prerequisite:** ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

**BUSN4990 - Senior Exit Exam**

Credits: 0  
The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).
Major Specific Courses - Credits: 21

Economics Core: 9 Credits

**ECON3010 - Intermediate Macroeconomics**

Credits: 3
A presentation and study of national income aggregates and accounting; equilibrium analysis of output, employment and the price level; general equilibrium analysis; and an introduction to economic dynamics.

**Former Course Number** [2010, 4010]

**Prerequisite:** ECON 1010, ECON 1020, MATH 2200 (or MATH 2350), STAT 2050 or STAT 2070 strongly recommended, and sophomore class standing.

**ECON3020 - Intermediate Microeconomics**

Credits: 3
Key problems of environmental degradation and natural resource scarcity are identified. Main underlying causes of misuse and overuse are explained from an economics perspective. Policy options for improved management are presented. These economic concepts and tools are then applied to current real world environment and natural resource issues.

**Former Course Number** [2020, 4020]

**Prerequisite:** ECON 1010, ECON 1020, MATH 2200 (or MATH 2350), STAT 2050 or STAT 2070 strongly recommended, and sophomore class standing.

**ECON4240 - Evolution of Economic Ideas**

Credits: 3
Focuses on the most influential economists who have shaped the evolution of economic thinking throughout history. Emphasis is on tracing the evolution of economic thought into the modern intellectual foundation of economics. Traces changing economic thought from mercantilism through modern paradigms.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
**Restricted** Restricted to Seniors in Economics, Business Economics, or a concurrent major with Economics.

**Prerequisite:** Senior standing and ECON 3010 and ECON 3020, or permission of instructor.

**Economics Electives: 6 Credits**

Any Economics Courses at a 4000+ level that have not been used to meet any other primary major requirements.
Advanced Business Electives: 6 Credits

Any business courses at a 3000+ level that have not been used to meet any other primary major requirements.

Free Electives from Any College: 27 Credits

- Courses from any college at any level - Credits: 21
- Courses from any college at a 3000+ level - Credits: 6

Additional Requirements

All Business Economics majors must comply with requirements of the advanced business standing prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

A complete curriculum sheet is available from the Academic Advising unit of the GJSSC in the College of Business Building.

Business Economics majors must hold a 2.500 cumulative grade point average in all economics courses at graduation, as well as a minimum 2.500 cumulative UW grade point average and a minimum 2.500 grade point average in all College of Business courses.

With approval of the department chair or director of undergraduate studies, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of 4000-level economics courses.

Students who intend to continue on to graduate work are urged to give special attention to courses in economics theory, statistics and mathematics. Those planning a career in econometrics or mathematical economics should consult the department head as to mathematics and statistics requirements in these fields of study.

**Prerequisite:** Senior standing and ECON 3010 and ECON 3020, or permission of instructor.

**BUSN4990 - Senior Exit Exam**

Credits: 0
The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

**Economics Electives: 12 Credits**

Any Economics courses at a 4000+ level that have not been used to meet any other primary major requirements.

**Optional Quantitative Concentration: 21 Credits**

**ECON4230 - Intermediate Econometric Theory**
Credits: 3
Covers simple and multiple regression models, problems of estimation, hypothesis and diagnostic testing, dummy variable, autoregressive and distributed lag models, and time-series analysis. The objective is to understand the underlying theory of econometric modeling and obtain operational ability to construct, estimate, and test econometric models.

Cross Listed AGEC 4230.
Dual Listed ECON 5230.
When Offered (Normally offered spring semester)
Former Course Number [4340]

Prerequisite: ECON 3020, STAT 2050 or STAT 2070, and MATH 2350.

ECON4530 - Computational Economics

Credits: 3
An introduction to computational tools used to analyze economic data and policies. Provides operational knowledge of how to formulate numerical economic models to conduct analyses of consumer behavior, markets, trade, and state and local fiscal administration. Special emphasis on applications to Wyoming problems.

Dual Listed ECON 5530.
Prerequisite: ECON 3020, and one of STAT 2010, STAT 2050, STAT 2070, or STAT 2110.

Students must take one of the following courses:

STAT4015 - Regression Analysis

Credits: 3
Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

Dual Listed STAT 5015.
Former Course Number [4010, 4410]

Prerequisite: STAT 2050 or equivalent

STAT4025 - Design and Analysis of Experiments I

Credits: 3
Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and incomplete blocks as time permits.

Dual Listed STAT 5025.
Former Course Number [4020, 4310]
Prerequisite: STAT 2050 or equivalent
Students will need Free Electives from any college at a 3000 + level - Credits: 15

Free Electives from Any College: 33 Credits
Courses from any college at any level - Credits: 33

Additional Requirements

The Economics major in the College of Business must complete 30 semester hours in economics courses.

All Economics majors must comply with course specific prerequisites for enrollment in upper-division courses and must complete all university studies courses as listed above previously. Students must earn a minimum grade of C (not C-) in all Economics courses.

This program is designed to meet the requirements of AACSB International (the Association to Advance Collegiate Schools of Business), the University of Wyoming, and the College of Business.

Minimum requirements include:

Minimum of 42 semester hours of 3000+ level courses. 30 of the 42 hours must be earned from UW.

2.50 grade point average in all College of Business courses, Economics courses, and all institution (UW) courses.

50% of the business credit hours must be from the University of Wyoming.

Grade of C (C- not acceptable) or above required for University Studies Program: FY, Cl, C2, and C3.

Grade of C (C- not acceptable) or above required for common body of knowledge and major specific core courses.

A maximum of 6 hours at the 1/2000 level and 3/4000 level military science may be applied to degrees in the College of Business.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

With approval of the department chair, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of the 4000-level economics electives.

This program allows considerable flexibility for the student to specialize in interdisciplinary study. For example, the student can be advised on selecting upper level division courses for pre-law study, political economy, environmental and natural resources, women's studies, and international studies.

Students who intend to continue in graduate work should give special attention to courses in economic theory, statistics and mathematics. Those planning a career in mathematical economics or econometrics should consult the department head regarding the mathematics and statistics requirements in these fields of study.

Minor
Economics Minor

Economics is the science of decision making and how to create value through trade. An economics degree will provide you the tools to work on challenging policy issues and employ data analytics to address those issues.

Economics Requirement

**ECON3010 - Intermediate Macroeconomics**

Credits: 3  
A presentation and study of national income aggregates and accounting; equilibrium analysis of output, employment and the price level; general equilibrium analysis; and an introduction to economic dynamics.

Former Course Number [2010, 4010]

Prerequisite: ECON 1010, ECON 1020, MATH 2200 (or MATH 2350), STAT 2050 or STAT 2070 strongly recommended, and sophomore class standing.

**ECON3020 - Intermediate Microeconomics**

Credits: 3  
Key problems of environmental degradation and natural resource scarcity are identified. Main underlying causes of misuse and overuse are explained from an economics perspective. Policy options for improved management are presented. These economic concepts and tools are then applied to current real world environment and natural resource issues.

Former Course Number [2020, 4020]

Prerequisite: ECON 1010, ECON 1020, MATH 2200 (or MATH 2350), STAT 2050 or STAT 2070 strongly recommended, and sophomore class standing.

Advanced Economics Electives

- Any ECON Course Credits: 3 (excl. ECON 3010, ECON 3020)
- Any ECON Course (4000-level) Credits: 6

Minor Total Credits: 15

Graduate

Economics, M.S.
Economics is the science of decision making and how to create value through trade. An economics degree will provide you with the tools to work on challenging policy issues and employ data analytics to address those issues.

Requirements - Total Credits: 30

Required Economics Courses - Credits: 15

**ECON5010 - Advanced Macroeconomic Analysis**

Credits: 3
An advanced application of economic theory to complex macroeconomics problems facing the economy of the state and nation, such as inflation, unemployment, and fiscal and monetary policies.

**Prerequisite:** ECON 3010, ECON 3020, or equivalent.

**ECON5230 - Intermediate Econometric Theory**

Credits: 3
Covers simple and multiple regression models, problems of estimation, hypothesis and diagnostic testing, dummy variable, autoregressive and distributed lag models, and time-series analysis. The objective is to understand the underlying theory of econometric modeling and obtain operational ability to construct, estimate, and test econometric models.

**Cross Listed** AGEC 5230.
**Dual Listed** ECON 4230.
**Prerequisite:** admission to the Master's Program in Economics.

**ECON5300 - Game Theory**

Credits: 3
Discusses a variety of important concepts from game theory - the study of how individuals interact strategically. The course focuses on the development of students' ability to think strategically. To that end the course covers basic concepts in game theory.

**Restricted** Course is restricted to MS ECON

**Prerequisite:** admission to the graduate program in Economics and Finance.

**ECON5390 - Math Microeconomics**

Credits: 3
This course provides a broad set of practical tools that allow an analysis of important economic problems. The mathematical tools analyze human behavior and predict the response of economic systems to changes in circumstances and alternative policies, for applications such as investment project evaluation, capacity expansion, production decisions, or demand for various goods.
Dual Listed ECON 4390.

Prerequisite: ECON 3010, ECON 3020, MATH 2205 or MATH 2355.

ECON5530 - Computational Economics

Credits: 3
An introduction to computational tools used to analyze economic data and policies. Provides operational knowledge of how to formulate numerical economic models to conduct analyses of consumer behavior, markets, trade, and state and local fiscal administration. Special emphasis on applications to Wyoming problems.

Dual Listed ECON 4530.
Prerequisite: admission to the Master's program in Economics.

Graduate Elective Courses

Plan A - 12 hours of Graduate electives required plus 4 credits of Thesis Research credit

Plan B - 15 hours of Graduate electives.

A maximum of 6 hours can be taken at the 4000 level.

Additional Requirements

Program Specific Degree Requirements

A minimum of 18 hours in economics is required; at least 15 of these must be at the 5000 level. A basic core sequence of ECON 5010 (macro), ECON 5390 (math micro), ECON 5530 (computational), ECON 5230 (econometrics), and ECON 5300 (game theory) is required, which completes 15 hours of 5000-level courses, which is required.

The student must complete 26 hours of coursework and 4 hours of ECON 5960 - Thesis Research for the Plan A option. The student must complete 30 hours of coursework and a project for the Plan B option.

Students may take 4000-level courses for graduate credit up to 6 hours.

A maximum of 6 semester hours of graduate coursework not used toward any other degree from another institution may be applied to the M.S. economics program subject to regulations regarding transfer of credit listed in this bulletin and with the approval of the director of graduate studies.

At the beginning of the third semester, the student selects a major professor who directs the Plan A thesis or Plan B project. A graduate committee, nominated by the major professor, the student, and the department chair, conducts an oral examination of the student on the project or thesis and area he/she has studied in the program. A favorable report by the committee and approval by the Office of the Registrar complete the degree requirements.

The majority of students complete the M.S. degree within two years.

QuickStart Master of Science in Economics

UW undergraduates can complete the M.S. degree in just one year after completing their B.S. degree if they apply to the QuickStart M.S. program in their junior year. To be eligible, students must have (and maintain) a cumulative GPA of 3.200 or better as well as an Economics GPA of 3.200 or better. They are also required to take the GRE by the fall of their senior year and score above 300 combined on the verbal and quantitative sections combined. The GRE
requirement can be waived with letters of recommendation from two UW faculty members. Admission to the QuickStart program allows students to double-count 6 credits of courses taken as an undergraduate towards both the B.S. and M.S. degrees, and reserve an additional 6 credits of courses taken as an undergraduate towards the M.S. degree alone. This then leaves only 18 credits to be taken after completion of the B.S. degree, which is feasible in just one year.

**Economics, Ph.D.**

Economics is the science of decision making and how to create value through trade. An economics degree will provide you with the tools to work on challenging policy issues and employ data analytics to address those issues.

**Requirements - Total Credit Hours: 72**

**Required Economics Courses - Credits: 30**

**ECON5010 - Advanced Macroeconomic Analysis**

Credits: 3  
An advanced application of economic theory to complex macroeconomics problems facing the economy of the state and nation, such as inflation, unemployment, and fiscal and monetary policies.

**Prerequisite:** ECON 3010, ECON 3020, or equivalent.

**ECON5020 - Advanced Microeconomic Analysis**

Credits: 3  
A rigorous course in the analysis of demand and the theory of consumer behavior, supply and the theory of the firm, market equilibrium and stability, and income distribution.

**Prerequisite:** ECON 3010, ECON 3020, or equivalent.

**ECON5120 - Advanced Analysis II-Microeconomics**

Credits: 3  
Part of a sequence with ECON 5020. It is advanced microeconomic analysis covering general equilibrium and welfare economics, and advanced topics in consumption and production theory.

**Prerequisite:** ECON 5010, ECON 5020.

**ECON5130 - Dynamic Optimization**

Credits: 3  
Covers methods for obtaining the optimal choice for economic variables that change over time, including calculus of variations and optimal control. These methods are applied to various dynamic economic problems, including optimal resource extraction, optimal capital allocation, and optimal growth.
**Prerequisite:** ECON 5020, ECON 5370.

**ECON5310 - Research Methods**

Credits: 3  
A variety of topics of importance to the advanced student who is preparing to write his or her dissertation are discussed.

**Restricted** Economics Graduate Students

**Prerequisite:** Admission to the graduate program in Economics

**ECON5330 - Advanced Mathematical Economics**

Credits: 3  
Study of the principal mathematic techniques used in economic theory and modeling. Taught jointly with ECON 5020.

**Prerequisite:** graduate standing.

**ECON5350 - Advanced Econometrics Theory I**

Credits: 3  
Review topics in probability theory and mathematical statistics. Also provides an introduction to the classical linear regression model, estimation, hypothesis testing, and prediction.

**Prerequisite:** Calculus and Basic Statistics.

**ECON5360 - Advanced Econometrics Theory II**

Credits: 3  
Continue the analysis in ECON 5350 and cover topics such as panel data, limited-dependent variables, simultaneous systems, nonlinear models, Bayesian analysis, and time series methods.

**Prerequisite:** ECON 5350.

**ECON5400 - Advanced Resource and Environmental Economics**

Credits: 3  
This course examines how we use economics to sharpen natural resource use and environmental policy. We focus on the behavioral and institutional underpinnings of market success and failures, choice under risk, time, space, conflict, cooperation, incentive design, non-market valuation, and prosperity.

**Prerequisite:** ECON 3020, ECON 4400 or consent of instructor.

**ECON5410 - Seminar in Advanced Resource and Environmental Economics**
This course explores the modern theory and empirics in environmental and natural resource economics. We focus on cost-benefit analysis, land use, energy, biodiversity protection, climate change, forestry, ecosystem services, fisheries, water, and sustainable development.

**Prerequisite:** ECON 4400 and ECON 5020.

**Graduate Elective Courses - Credits: 12**

**Dissertation Research - Credits: 30**

**Additional Requirements**

The doctor of philosophy degree in the field of economics at the University of Wyoming requires a minimum of 42 hours of coursework. All coursework must be at the graduate (5000) level.

The program is designed to give the student a strong foundation in economic theory and the basic quantitative tools necessary for professional research. If students receive a grade lower than a A during their first year, they must take a comprehensive exam in that field (microeconomics and/or econometrics) during the summer to continue to the second year of the PhD program. The program's qualifying exam takes the form of a research paper written during the second summer and defended to, and approved by, a faculty committee by early in the third year, with revisions and resubmission required by December. Students who pass the qualifying paper requirement receive an MS degree and move on in the PhD program, while students who fail this requirement receive the MS degree and fail out of the PhD program.

During the third year, or no later than the first few weeks of the fourth year, a graduate committee nominated by the student's major professor and the director of graduate studies conducts an oral examination of the student. The purpose of the oral examination is to determine whether the student has formulated a workable dissertation project and has the necessary skills to complete it.

Following successful completion of the dissertation, and completion of a departmental requirement of 30 hours of dissertation research, the student presents an oral defense to the graduate committee. The doctor of philosophy degree is granted on recommendation of the committee and approval by the Office of the Registrar, providing all other requirements have been satisfactorily fulfilled.

**Department of Management and Marketing**

**College of Business 354, (307) 766-3124**
**FAX:** (307) 766-3488

**Professors:**

MARK LEACH, B.S. University of Arizona 1991; Ph.D. Georgia State University 1998; Professor of Marketing 2016.

LINDA PRICE, B.A. University of Wyoming; M.B.A. University of Wyoming; Ph.D. University of Texas Austin; Professor of Marketing 2020.

Associate Professors:

ANDREW ARNETTE, B.S. Virginia Polytechnic Institute & State University 2000; M.B.A. Virginia Polytechnic Institute & State University 2002; Ph.D. Virginia Polytechnic Institute & State University 2010; Associate Professor of Decision Science 2018, 2012.

ELIZABETH A. MINTON, B.S. University of Alaska Southeast 2008; M.B.A. Idaho State University 2010; Ph.D. University of Oregon 2014; Associate Professor of Marketing 2018, 2014.

STEPHANIE A. ONETO, B.S. University of Nebraska-Lincoln 1999; M.A. University of Houston 2001; Ph.D. 2007; Associate Professor of Marketing 2014, 2007.

RONN J. SMITH, B.S. Montana State University 1999; M.A. Montana State University 2000; Ph.D. Washington State University 2004; Associate Professor of Marketing 2020.

CHASE THIEL, B.S. Idaho State University 2009; M.S. University of Oklahoma 2009; Ph.D. 2012; Associate Professor of Management 2019, 2016.

Assistant Professors:

MOLLY R. BURCHETT, B.A. Transylvania University 2009; M.A. University of Kentucky 2014; Ph.D. University of Kentucky 2020.

MATTHEW FOX, B.A. Colorado College 2000; M.B.A. University of Nevada 2007; Ph.D. Duke University 2015; Assistant Professor of Entrepreneurship 2018.

JACOB HOLWERDA, B.A. Cornell University 2006; M.S. Cornell University 2009; Ph.D. Cornell University 2014; Assistant Professor of Management 2020.

NICHOLAS PRINCE, B.S. Kansas State University 2004; M.B.A. Brigham Young University 2009; Ph.D. University of Illinois Urbana-Champaign 2015; Assistant Professor of Management 2016.

Academic Professionals:

Corey A. Billington, B.S. Stanford University 1981; M.S. 1981; Ph.D. 1987; Professor of Practice 2015.

Eric J. Krszjianek, B.A. University of Wisconsin-Stevens Point 2005; M.A. University of Wyoming 2014; Ph.D. 2018; Assistant Lecturer 2018.

Professors Emeriti:

The Department of Management and Marketing offers programs of study leading to the Bachelor of Science in Business degrees in (1) Management, (2) Marketing, (3) Entrepreneurship, and (4) Professional Sales. The departmental requirements for each of these degree programs are listed below.

All majors in the Department of Management and Marketing must meet requirements of the advanced business standing, complete the common body of knowledge, major courses, and MGT 4800 with a minimum grade of C (not C-).

Non-business majors may take business courses, and are not held to advanced business standing.

College of Business 3000- and 4000-level courses are reserved for those with junior or senior level standing whether majors or non-majors unless otherwise noted.

Decision Sciences

The decision sciences courses are a supplement for students with a variety of majors. The curriculum provides analytic skills based in both numerical data and behavioral evidence to facilitate problem solving, planning/project management, and decision making within organizations and across supply chains.

Entrepreneurship

The Entrepreneurship major is designed to assist students who wish to start their own businesses by providing them with exposure to the development and testing of business concepts. Analyzing the potential success of their concepts using a variety of tools and techniques, being flexible in developing new businesses and innovative ideas, and formulating and implementing business plans that will assist in the establishment and growth of these new ventures. The major provides students with exposure to issues involving family firms such as governance, succession and interpersonal relationships as well as innovation and change in existing organizations. Thus, the major focuses on entrepreneurship in both new ventures and established firms and prepares students to 1) start new businesses, 2) innovate in their own family firms, and/or 3) be entrepreneurial in an existing business.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.
Management

The Management major focuses on using resources to achieve goals in organizations. It studies the activities and operations that bring together human, financial, material, and information resources. Management majors should graduate with an understanding of the business world and a set of tools to manage successfully parts or all of an organization's operations. The Management degree allows students the ability to customize their degree within one of two tracks:

1) Human Resources Track - An experiential-learning focused program designed to prepare students to develop and manage the human capital of an organization. Students will be prepared to develop and implement policies and practices for recruitment, socialization, training, development, compensation, performance management, career planning, and employee relations. As more organizations move away from viewing employees as a commodity, toward an understanding that employees are a resource that can be developed into a distinct competitive advantage to ensure organizational success, sustainability, and reputation in the human resource function in the workplace will become increasingly important. This track will help employees understand the core functions of the area of human resource management are to a) recognize the potential of individuals for and within an organization and b) structure a positive, supportive, constructive work environment that will enable employees to work at their optimal capacity and achieve organizational goals.

2) General Management Track - A multi-faceted program designed to prepare students to manage multiple business functions across a variety of organizational types. A particular emphasis is to help develop interpersonal and problem-solving skills so they are capable of resolving a broad spectrum of problems for large or small organizations, or consult with organizations about these issues. This track is designed to provide students with a large degree of flexibility when considering different career paths, because students will be prepared to systematically think through the processes that organizations use to create and maintain sustainable competitive advantage. The track prepares students to work in for-profit businesses, non-profit organizations, entrepreneurial ventures, or in government organizations.

The Management major, including both tracks, is available to students as an online degree completion program.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Marketing

Marketing is a societal process and a set of organizational functions for creating, communicating, and delivering value to customers and for managing relationships in ways to benefit local and global stakeholders. Marketing majors are employed in a wide variety of industries and governmental agencies where understanding and managing customer relationships are critical. Students find jobs in market research, advertising, public relations, professional selling, non-profit marketing, product management, retailing, digital marketing and brand management.

The Marketing Major is available to students as an online degree completion program.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Professional Sales

The Professional Sales major prepares students to manage business clients of for-profit and nonprofit organizations. Specifically, this major provides business students with coursework and opportunities to equip themselves with essential knowledge and skills required to begin professional careers in sales. Careers in sales offer independence,
ample financial reward, personal growth and opportunities for rapid advancement within organizations. Students that pursue a degree in professional sales will be challenged with industry engagement opportunities such as internships, and sales competitions. Students experience rigorous classroom experiences designed to develop the knowledge and practical skills needed to succeed during the first years of their sales careers including: oral and written communication skills, selling techniques and networking, the use of sales technology and customer information, and sales pipeline management.

All professional sales majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All professional selling courses for the major require a minimum grade of C.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

Graduate Study

The Department of Management and Marketing offers a Ph.D. in Marketing. Some 4000- and 5000-level classes may be counted as graduate classes in other programs.

Doctoral Program

Doctor of Philosophy in Marketing

The Department of Management and Marketing offers a program leading to a Doctor of Philosophy in Marketing. The program of study draws from extant marketing theory, primarily in consumer behavior, combined with studies in the basic sciences (e.g., anthropology, psychology, sociology) and other applied sciences (e.g., environmental sciences) to create a base of knowledge acceptable for marketing scholarship in higher education, and a depth of knowledge conducive to a stream of publishable research in a specific topic area. Theoretical development is supplemented with course work in the gathering and analysis of qualitative and quantitative data, which prepares the student for rigorous exploration of marketing phenomena. Students are required to complete 72 semester hours and a scholarly dissertation that contributes to the knowledge foundations in marketing and contributes to the basic sciences that informed the inquiry. Semester hours will include core marketing classes, outside elective courses in statistics, basic social sciences, and/or interdisciplinary studies in environmental and natural resources, and dissertation work. First and second year research projects are also required, aimed at the student having published articles in respected marketing and social science journals before program completion. Comprehensive exam is completed at the end of the second semester.

All doctoral students are expected to teach while enrolled in the program. The program is designed to give students a strong research background and intensive teaching experience.

Application Deadlines

We begin accepting applications in October for the following fall semester. All completed applications must be submitted by February 1st.

Admission Requirements

• A bachelor's degree and working toward or completion of a master's degree from an accredited institution, preferably in business or a core social science discipline

• Completed application (i.e., all required materials submitted) on the UW Graduate Programs Applications system
• $50 application fee paid to University Admissions

• Copies of all undergraduate and graduate program transcripts scanned and uploaded to the UW system, and official transcripts from each post-secondary institution attended submitted to the UW admissions office

• A valid GRE or GMAT score. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be requested from the testing organization and sent to UW

• Three strong letters of recommendation, including one or more from an academic. The letters must be uploaded by the recommenders to the UW system in MS Word or .pdf format

• A personal statement summarizing your interest in pursuing doctoral studies and speaking to questions or issues you wish to research. This document must be uploaded to the UW system as an MS Word or .pdf document

• For international students, Test of Foreign Language (TOEFL) scores are required. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be submitted to UW from the testing organization. A minimum TOEFL score of 76 (online) or 540 (paper) is required for admission.

Major

Entrepreneurship, B.S.

For students who wish to start their own businesses, provides exposure to the development and testing of business concepts, and formulating and implementing business plans that will assist in the establishment and growth of these new ventures.

Requirements - Total Credits: 120

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q- - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**
Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Common Body of Knowledge - Credits: 33

**ACCT2010 - Principles of Accounting I**

Credits: 3
Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

**Former Course Number** [1010]

**Prerequisite:** Sophomore class standing and MATH 1400

**ACCT2020 - Principles of Accounting II**

Credits: 3
Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

**Former Course Number** [1020]

**Prerequisite:** ACCT 2010, Sophomore class standing.

**DSCI2100 - Introduction to Operations and Supply Chain Management**

Credits: 3
An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

**Prerequisite:** IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

**ECON1010 - Principles of Macroeconomics**

Credits: 3
An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.
ECON1020 - Principles of Microeconomics

Credits: 3
You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

FIN2100 - Principles of Finance

Credits: 3
Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

Prerequisite: ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200, and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

IMGT2400 - Introduction to Information Management

Credits: 3
Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

MGT2010 - Legal Environment of Business

Credits: 3
Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

MGT2100 - Management and Organization

Credits: 3
An introduction to the theory and practice of management with emphasis on individual and small group behavior,
design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

**Prerequisite:** COM1, sophomore class standing.

**MKT2100 - Introduction to Marketing**

Credits: 3  
An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

**Prerequisite:** sophomore class standing and completion of COM1.

**MGT4800 - Business Strategy and Policy**

Credits: 3  
A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3  
**Prerequisite:** ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

**BUSN4990 - Senior Exit Exam**

Credits: 0  
The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

**Major Specific Courses - Credits: 21**

**Entrepreneurship Core: 12 Credits**

**ENTR2700 - Entrepreneurial Mindset**

Credits: 3  
This course introduces students to entrepreneurial mindsets and concepts essential to success in startups or within established firms. Provides a basic overview of creativity and innovation, and students experience the process of identifying and evaluating ideas and developing them into business opportunities.

**Prerequisite:** COM1, sophomore class standing.
**ENTR3700 - Innovation, Ideation, and Value Proposition**

Credits: 3
This course explores opportunity recognition, innovation, and building value propositions based on customer discovery through interviews, surveys, and other methods. Students learn to develop a lean start-up and build customer focused value propositions. The focus is on rapid hypothesis testing and developing minimum viable products.

**Prerequisite:** ENTR 2700.

**ENTR4700 - Business Model Creation and Launch**

Credits: 3
Students build on previous learning to develop a complete business model including sales and marketing strategies, operations, financial forecasts, and partners. Deliverables include a pitch to start-up investors as part of a real-world entrepreneurship experience (for example, an entrepreneurship competition). Students learn primarily through hands-on application of concepts.

**Prerequisite:** ENTR 3700.

**ENTR4750 - Theories of Entrepreneurship**

Credits: 3
A broad examination of historical, literary, and business perspectives on entrepreneurship. Students explore the role of individuals, new ventures, and established organizations in the discovery, evaluation, and exploitation of opportunities. Emphasis is on the evolution of entrepreneurship theories over time, and current trends related to the application of these theories.

**Prerequisite:** ENTR 3700.

**Entrepreneurship Elective: 3 Credits**

Choose 1 from the following:

**ENTR4910 - Topics in Entrepreneurship**

Credits: 3
Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

**Prerequisite:** Junior class standing, consent of instructor

**ENTR4900 - Independent Study in Entrepreneurship**

Credits: 1-4
Max Credit 6
This course provides students the opportunity to study on an individual basis, any aspect of Entrepreneurship not included in other structure Entrepreneurship courses

**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores

**Prerequisite:** Junior class standing, consent of instructor

**MGT2030 - Principle-Based Ethics**

Credits: 3  
Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

**Prerequisite:** sophomore class standing.

**MKT4590 - Sustainable Business Practices**

Credits: 3  
A close look at what is happening in business practice today through the lens of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

**Cross Listed** INST 4590.  
**Dual Listed** MKT 5590.  
**Prerequisite:** advanced business standing.

**Advanced Business Electives: 6 Credits**

Any business course at a 3000 - 4000 level that has not been used to meet any other primary major requirements.

**Free Electives from Any College - Credits: 27**

21 (or 24*) of the 27 required hours must be 3000 - 4000 level which have not been used to meet any other requirement.

- Courses from any college at any level - Credits: 6 (or 3*)
- Courses from any college at 3000 - 4000 level - Credits: 21 (or 24*)

*If MGT 2030 is selected as the Entrepreneurship Elective*

**Additional Requirements**
The Entrepreneurship major is designed to assist students who wish to start their own businesses by providing them with exposure to the development and testing of business concepts. Analyzing the potential success of their concepts using a variety of tools and techniques, being flexible in developing new businesses and innovative ideas, and formulating and implementing business plans that will assist in the establishment and growth of these new ventures. The major provides students with exposure to issues involving family firms such as governance, succession and interpersonal relationships in both new ventures and established firms and prepares students to 1) start new businesses, 2) innovate in their own family firms and/or 3) be entrepreneurial in an existing business.

Management, B.S.

Studies the activities and operations that bring together human, financial, material, and information resources to achieve goals in organizations. Students can customize their degree within one of two tracks: Human Resources or General Management.

Requirements - Total Credits: 120

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.
Q - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

V - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Common Body of Knowledge - Credits: 33

ACCT2010 - Principles of Accounting I

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the
recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

**Former Course Number** [1010]

**Prerequisite:** Sophomore class standing and MATH 1400

**Former Course Number** [1020]

**Prerequisite:** ACCT 2010, Sophomore class standing.

**DSCI2100 - Introduction to Operations and Supply Chain Management**

Credits: 3
An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

**Prerequisite:** IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

**ECON1010 - Principles of Macroeconomics**

Credits: 3
An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

**Cross Listed** AGEC 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

**ECON1020 - Principles of Microeconomics**

Credits: 3
You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.
**FIN2100 - Principles of Finance**

Credits: 3  
Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

*Prerequisite:* ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200, and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

**IMGT2400 - Introduction to Information Management**

Credits: 3  
Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

**Former Course Number [2400]**

*Prerequisite:* MATH 1400.

**MGT2010 - Legal Environment of Business**

Credits: 3  
Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

**MGT2100 - Management and Organization**

Credits: 3  
An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

*Prerequisite:* COM1, sophomore class standing.

**MKT2100 - Introduction to Marketing**

Credits: 3  
An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.
Prerequisite: sophomore class standing and completion of COM1.

**MGT4800 - Business Strategy and Policy**

Credits: 3
A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3
Prerequisite: ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

**BUSN4990 - Senior Exit Exam**

Credits: 0
The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students’ mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

**Major Specific Courses - Credits: 21**

Management Core - Credits: 15

**MGT3410 - Human Resources Management**

Credits: 3
A study of the formal systems used to manage people at work. Emphasis is on concepts and procedures of EEO, diversity, job analysis, job evaluation, wage and salary administration, performance evaluation, safety, employee services and fringe benefits.

Prerequisite: MGT 2100 and advanced business standing.

**MGT3420 - Organizational Behavior and Leadership**

Credits: 3
An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

Former Course Number [4420]

Prerequisite: MGT 2100, junior class standing and advanced business standing.
Choose any 3 Approved Elective Courses within the same track area Credits: 9

Human Resources Track

**MGT2030 - Principle-Based Ethics**

Credits: 3  
Max Credit: 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

**Prerequisite:** sophomore class standing.

**MGT4220 - Talent Acquisition**

Credits: 3

In Human Resource Management one core function is recruiting and selecting the best talent to drive organizational success. Students will learn how to analyze jobs and develop recruitment plans to find qualified individuals, how to conduct professional and valid interviews, and how to successfully onboard employees into the organization.

**Prerequisite:** MGT 3410

**MGT4240 - Performance and Compensation**

Credits: 3

In Human Resource Management the management of employee performance and compensation are key functions that drive organizational success. This course helps students become familiar with total compensation systems, including intrinsic and extrinsic rewards, base and variable pay, and benefits, and their relationship with employee performance and satisfaction.

**Prerequisite:** MGT 3410

**MGT4260 - Training and Development**

Credits: 3

In Human Resource Management training employees in the latest technical and managerial skills and helping them gain developmental experiences helps drive organizational success. Students will learn how to recognize training and developmental needs, how to develop employee training systems, and how to implement these training systems. Additionally, students will learn about career and leader development.

**Prerequisite:** MGT 3410

**MGT4470 - Negotiations and Conflict Resolution**
Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3  
**Prerequisite:** MGT 2100, advanced business standing.

**MGT4900 - Independent Study in Management**

Credits: 1-4  
Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Management not included in other structured management courses.

**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores

**Prerequisite:** Junior class standing, consent of instructor

**MGT4910 - Topics in Management**

Credits: 3  
Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores

**Prerequisite:** Junior class standing, consent of instructor

**General Management Track**

**MGT2030 - Principle-Based Ethics**

Credits: 3  
Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

**Prerequisite:** sophomore class standing.
MGT4340 - Law for Managers

Credits: 3
Provides an overview of laws and legal issues associated with managing a business, incorporating aspects of sustainable business practices. Topics include agency and employment, business organizations, including securities laws and corporate governance standards, government regulation of businesses, including environmental/sustainability regulations, and an introduction to international law and global economy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

MGT4350 - Commercial Law

Credits: 3
A study of the basic principles of commercial law, including property, sales, negotiable instruments, secured transactions, creditors' rights and bankruptcy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

MGT4470 - Negotiations and Conflict Resolution

Credits: 3
Max Credit 3
Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3
Prerequisite: MGT 2100, advanced business standing.

MGT4900 - Independent Study in Management

Credits: 1-4
Max Credit 6
This course provides students the opportunity to study, on an individual basis, any aspect of Management not included in other structured management courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MGT4910 - Topics in Management

Credits: 3
Max Credit 6
This course is an in-depth investigation into a specialty area of the instructor.

**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores

**Prerequisite:** Junior class standing, consent of instructor

**DSCI4240 - Computer Applications in Decision Sciences**

Credits: 3  
A study of decision science topics such as mathematical programming, Monte Carlo simulation, forecasting, project management and decision theory. The applications of computer techniques is emphasized.

**Prerequisite:** IMGT 2400 or equivalent, STAT 2050 or equivalent, and junior class standing.

**DSCI4260 - Project Management**

Credits: 3  
Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

**Prerequisite:** ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

**ENTR2700 - Entrepreneurial Mindset**

Credits: 3  
This course introduces students to entrepreneurial mindsets and concepts essential to success in startups or within established firms. Provides a basic overview of creativity and innovation, and students experience the process of identifying and evaluating ideas and developing them into business opportunities.

**Prerequisite:** COM1, sophomore class standing.

**ENTR3700 - Innovation, Ideation, and Value Proposition**

Credits: 3  
This course explores opportunity recognition, innovation, and building value propositions based on customer discovery through interviews, surveys, and other methods. Students learn to develop a lean start-up and build customer focused value propositions. The focus is on rapid hypothesis testing and developing minimum viable products.

**Prerequisite:** ENTR 2700.

**MKT4240 - Consumer Behavior**
Credits: 3
A study of the dimensions of the consumer market and decision-making processes of consumers through analyzing economic, personal, social and situational influences on the consumer market and on buying behavior.

**Prerequisite:** MKT 2100, junior class standing.

**SELL3310 - Professional and Technical Selling**

Credits: 3
This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused opportunities within their field.

USP 2015 Code U5C2
**Prerequisite:** COM1 and sophomore class standing.

**Advanced Business Electives: 6 Credits**

Any business courses at a 3000 - 4000 level that have not been used to meet any other primary major requirements.

**Free Electives from Any College: 27 Credits**

18 (or 21 or 24*) of the 27 required hours must be 3000 - 4000 level which have not been used to meet any other requirement.

- Courses from any college at any level - Credits: 9 (or 6 or 3*)
- Courses from any college at 3000 - 4000 level - Credits: 18 (or 21 or 24*)

*21 hours if MGT 2030 or ENTR 2700 are selected as one of the courses within either track; 24 hours if both courses are selected.

**Additional Requirements**

The Management major focuses on using resources to achieve goals in organizations. It studies the activities and operations that bring together human, financial, material, and information resources. Management majors should graduate with an understanding of the business world and a set of tools to manage successfully parts or all of an organization's operations. The Management degree allows students the ability to customize their degree within one of two tracks:

1) Human Resources Track - An experiential-learning focused program designed to prepare students to develop and manage the human capital of an organization. Students will be prepared to develop and implement policies and practices for recruitment, socialization, training, development, compensation, performance management, career planning, and employee relations. As more organizations move away from viewing employees as a commodity, toward an understanding that employees are a resource that can be developed into a distinct competitive advantage to ensure organizational success, sustainability, and reputation in the human resource function in the workplace will become increasingly important. This track will help employees understand the core functions of the area of human resource management are to a) recognize the potential of individuals for and within an organization and b) structure a positive, supportive, constructive work environment that will enable employees to work at their optimal capacity and achieve organizational goals.
2) General Management Track - A multi-faceted program designed to prepare students to manage multiple business functions across a variety of organizational types. A particular emphasis is to help develop interpersonal and problem-solving skills so they are capable of resolving a broad spectrum of problems for large or small organizations, or consult with organizations about these issues. This track is designed to provide students with a large degree of flexibility when considering different career paths, because students will be prepared to systematically think through the processes that organizations use to create and maintain sustainable competitive advantage. The track prepares students to work in for-profit businesses, non-profit organizations, entrepreneurial ventures, or in government organizations.

The Management major, including both tracks, is available to students as an online degree completion program.

All management majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

All management courses for the major require a minimum grade of C (not C-).

Marketing, B.S.

Marketing is a societal process and a set of organizational functions for creating, communicating, and delivering value to customers, and for managing relationships in ways to benefit local and global stakeholders.

Requirements - Total Credits: 120

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Common Body of Knowledge - Credits: 33**
ACCT2010 - Principles of Accounting I

Credits: 3
Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

ACCT2020 - Principles of Accounting II

Credits: 3
Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

Former Course Number [1020]

Prerequisite: ACCT 2010, Sophomore class standing.

DSCI2100 - Introduction to Operations and Supply Chain Management

Credits: 3
An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

ECON1010 - Principles of Macroeconomics

Credits: 3
An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGEC 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

ECON1020 - Principles of Microeconomics
You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

**Cross Listed** AGEC 1020.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

**FIN2100 - Principles of Finance**

Credits: 3
Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

**Prerequisite:** ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200, and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

**IMGT2400 - Introduction to Information Management**

Credits: 3
Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

**Former Course Number** [2400]

**Prerequisite:** MATH 1400.

**MGT2010 - Legal Environment of Business**

Credits: 3
Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

**MGT2100 - Management and Organization**

Credits: 3
An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

**Prerequisite:** COM1, sophomore class standing.
MKT2100 - Introduction to Marketing

Credits: 3
An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

MGT4800 - Business Strategy and Policy

Credits: 3
A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3
Prerequisite: ACCT 2010, ACCT 2020, MGT 2100, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

BUSN4990 - Senior Exit Exam

Credits: 0
The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

Major Specific Courses - Credits: 21

Marketing Core - Credits: 9

MKT4240 - Consumer Behavior

Credits: 3
A study of the dimensions of the consumer market and decision-making processes of consumers through analyzing economic, personal, social and situational influences on the consumer market and on buying behavior.

Prerequisite: MKT 2100, junior class standing.

MKT4450 - Advanced Marketing Management

Credits: 3
This course is designed to integrate prior marketing classes. Primary focus is on utilizing marketing concepts and tools in a strategic marketing decision-making context.
MKT4520 - Marketing Research and Analysis

Credits: 3
Investigation of the systematic procedures and tools of research available to the marketing researcher, including a survey of contemporary practices.

Prerequisite: MKT 2100, junior class standing.

Marketing Electives - Credits: 6

Choose 2 of the following:

MKT4230 - Integrated Marketing Communication

Credits: 3
Introduction to integrated marketing communication, the coordination of an organization's advertising and promotional efforts. Emphasis on how marketing communication is used by organizations to further their marketing objectives. Among the tools available to the integration process are advertising, sales promotion, personal selling, sponsorship marketing, and public relations.

Prerequisite: MKT 2100, advanced business standing.

MKT4250 - Digital Marketing

Credits: 3
This is an investigation of the digital marketing discipline with an emphasis on e-commerce models, online advertising, digital consumer behavior, privacy considerations, website structure, search engine optimization and social media marketing.

Prerequisite: MKT 2100

MKT4440 - Services Marketing

Credits: 3
This course is designed for students who may be interested in working in service industries and will address the distinct needs and problems of service firms in the area of marketing.

Prerequisite: HOSP 2000 or MKT 2100.

MKT4540 - International Marketing

Credits: 3
Approaches the topic of international marketing from a managerial perspective. Exposure to world environmental
characteristics and interdependencies, as well as objectives, strategies and tactics of marketing goods and services to various countries and cultures.

**Cross Listed** INST 4540.  
**Prerequisite:** MKT 2100 and junior class standing.

**MKT4590 - Sustainable Business Practices**

Credits: 3  
A close look at what is happening in business practice today through the lens of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

**Cross Listed** INST 4590.  
**Dual Listed** MKT 5590.  
**Prerequisite:** advanced business standing.

**MKT4900 - Independent Study in Marketing**

Credits: 1-4  
Max Credit 6  
This course provides students the opportunity to study, on an individual basis, any aspect of Marketing not included in other structured marketing courses.

**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores  
**Prerequisite:** Junior class standing, consent of instructor

**MKT4910 - Topics in Marketing**

Credits: 3  
Max Credit 6  
This course is an in-depth investigation into a specialty area of the instructor.

**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores  
**Prerequisite:** Junior class standing, consent of instructor

**SELL3310 - Professional and Technical Selling**

Credits: 3  
This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused
opportunities within their field.

USP 2015 Code U5C2

**Prerequisite:** COM1 and sophomore class standing.

**Prerequisite:** sophomore class standing and completion of COM1.

**DSCI2100 - Introduction to Operations and Supply Chain Management**

Credits: 3  
An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

**Prerequisite:** IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

**MGT4800 - Business Strategy and Policy**

Credits: 3  
A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3  
**Prerequisite:** ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

**BUSN4990 - Senior Exit Exam**

Credits: 0  
The Senior Exit Exam test content encompasses the core COB curriculum: accounting, economics, finance, ethics, legal and social environment, management, marketing, and quantitative business analysis (decision science). The purpose of this test is to assess students' mastery of core business/economic concepts. This course is taken during the same semester as the students capstone course (MGT 4800/ECON 4240).

**Major Specific Courses - Credits: 21**

**Professional Sales Core - Credits: 12**

**SELL3310 - Professional and Technical Selling**
This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused opportunities within their field.

USP 2015 Code U5C2
**Prerequisite:** COM1 and sophomore class standing.

**SELL4310 - Advanced Selling**

Credits: 3
This course provides students in-depth study of advanced sales concepts including relationship management, problem solving, negotiation, and proposal writing. It also explores the use of data-based decision making and the use of selling technologies. Students will learn how to use data to sell to both resellers and manufacturers.

**Prerequisite:** SELL 3310 and junior class standing.

**SELL4320 - Sales Force Strategies**

Credits: 3
This class will examine the linkages among management of the sales function, personal selling activities, and the marketing area. Students will gain an understanding of the role of the sales force in achieving the firm's marketing, customer relationship, and revenue objectives.

**Prerequisite:** SELL 3310 and junior class standing.

**SELL4330 - Sales Seminar**

Credits: 3
This course provides students in-depth study of advanced, and cutting edge sales and sales management concepts presenting by top talent in industry. While topic can vary, this seminar teams students with industry experts to explore state-of-the-art thinking in technical sales, sales management, sales training, compensation, and team selling.

**Prerequisite:** SELL 3310 and junior class standing.

**Professional Sales Electives - Credits: 3**

Choose 1 from the following list:

**DSCI4260 - Project Management**

Credits: 3
Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.
Prerequisite: ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

**DSCI4280 - Supply Chain Management**

Credits: 3
Explores the links between overall business strategy and supply chain strategy, with a focus on strategic design and effective operation of supply chains to improve the organizations' productivity and competitiveness. Examines impact of technologies transforming global supply chains such as blockchain, machine learning, analytics, robotics, and other advancements.

Prerequisite: DSCI 2100, junior class standing, advanced business standing.

**FIN4250 - Advanced Corporate Finance**

Credits: 3
Give students a better appreciation of the techniques and theories of corporate finance and investments that may have been introduced in introductory finance courses.

USP 2015 Code U5C3
Prerequisite: FIN 2100.

**MGT2030 - Principle-Based Ethics**

Credits: 3
Max Credit 3
Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

**MGT3420 - Organizational Behavior and Leadership**

Credits: 3
An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

Former Course Number [4420]

Prerequisite: MGT 2100, junior class standing and advanced business standing.

**BUSN4600 - Advanced Internship in Business**
Provides students with practical business knowledge, policy, procedure, and decision making. Students work as interns in operating organizations.

**Prerequisite:** MKT 2100, MGT 2100, FIN 2100, advanced business standing, approved internship application through the Peter M. & Paula Green Johnson Student Success Center.

**MGT4470 - Negotiations and Conflict Resolution**

Credits: 3  
Max Credit 3

Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3  
**Prerequisite:** MGT 2100, advanced business standing.

**SELL4900 - Independent Study in Professional Selling**

Credits: 1-4  
Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Professional Selling not included in other structured Professional Selling courses.

**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores

**SELL4910 - Topics in Professional Selling**

Credits: 3  
Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores

**Prerequisite:** Junior class standing, consent of instructor

**Advanced Business Electives - Credits: 6**

Any business courses at a 3000 - 4000 level that have not been used to meet any other primary major requirements.
Free Electives from Any College - Credits: 27

- Courses from any college at any level - Credits: 9
- Courses from any college at a 3000 - 4000 level - Credits: 18

Additional Requirements

The Professional Sales major prepares students to manage business clients of for-profit and nonprofit organizations. Specifically, this major provides business students with coursework and opportunities to equip themselves with essential knowledge and skills required to begin professional careers in sales. Careers in sales offer independence, ample financial reward, personal growth and opportunities for rapid advancement within organizations. Students that pursue a degree in professional sales will be challenged with industry engagement opportunities such as internships, and sales competitions. Students experience rigorous classroom experiences designed to develop the knowledge and practical skills needed to succeed during the first years of their sales careers including: oral and written communication skills, selling techniques and networking, the use of sales technology and customer information, and sales pipeline management.

All professional sales majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

All professional selling courses for the major require a minimum grade of C.

Minor

Entrepreneurship Minor

A minor in entrepreneurship features business courses likely to be important to the creator of a new venture and/or someone seeking to bring innovation and creativity to an existing enterprise. For non-College of Business majors only.

Entrepreneurship Minor Requirements - Credits: 9

ENTR2700 - Entrepreneurial Mindset

Credits: 3
This course introduces students to entrepreneurial mindsets and concepts essential to success in startups or within established firms. Provides a basic overview of creativity and innovation, and students experience the process of identifying and evaluating ideas and developing them into business opportunities.

Prerequisite: COM1, sophomore class standing.

ENTR3700 - Innovation, Ideation, and Value Proposition

Credits: 3
This course explores opportunity recognition, innovation, and building value propositions based on customer discovery
through interviews, surveys, and other methods. Students learn to develop a lean start-up and build customer focused value propositions. The focus is on rapid hypothesis testing and developing minimum viable products.

**Prerequisite:** ENTR 2700.

**ENTR4700 - Business Model Creation and Launch**

Credits: 3

Students build on previous learning to develop a complete business model including sales and marketing strategies, operations, financial forecasts, and partners. Deliverables include a pitch to start-up investors as part of a real-world entrepreneurship experience (for example, an entrepreneurship competition). Students learn primarily through hands-on application of concepts.

**Prerequisite:** ENTR 3700.

- Combination of courses from the Approved Electives for the Entrepreneurship Minor list totaling 6 credit hours.

**Approved Electives for the Entrepreneurship Minor - Credits: 6**

**ACCT3100 - Financial Statement Analysis**

Credits: 3

Advanced study of financial statements and how to analyze those statements from both an internal and external perspective.

**Former Course Number** [4100, 2000, 3000]

**Prerequisite:** ACCT 2010, ACCT 2020, FIN 2100 (or equivalent), sophomore class standing.

**AGEC4450 - Negotiation**

Credits: 3

Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

**Cross Listed** ENR 4450.

**Dual Listed** AGEC 5450.

**Prerequisite:** completion of USP O/COM2 requirement; junior standing.

**OR**

**ENR4450 - Negotiation**

Credits: 3

Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and
cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

**Cross Listed** AGEC 4450.

**Dual Listed** ENR 5450.

**Prerequisite:** completion of USP O requirement; junior standing.

**AGEC4965 - Agribusiness Entrepreneurship**

Credits: 3
Designed for students preparing to launch or work with an entrepreneurial venture. Students develop a business plan, synthesizing knowledge of agricultural economics, agribusiness management and finance, human resources and accounting. Emphasis is placed on advancing student professional communication abilities for agribusiness management careers.

USP 2003-2014 Code U3WC

**Prerequisite:** senior standing, WB/COM2 writing course and AGEC 2020, or AGEC 4500, or AGEC 4060, or FIN 2100.

**COJO3010 - Business and Professional Communication**

Credits: 3
Studies theories and techniques of professional communication activities including interviewing skills, group processes, and professional presentations; for students who are beyond elementary oral communication level. Students develop oral communication skills through projects and presentations.

USP 2015 Code U5C3

**Prerequisite:** COJO 1010 or COMM 2010 and junior standing.

**DSCI4230 - Purchasing and Supply Management**

Credits: 3
Examines how to manage supply function. Topics include organization, planning procedures, category management, supplier selection, quality, inventory decisions, ethical and profession standards, costing, and price determination.

**Prerequisite:** DSCI 2100, junior class standing, advanced business standing.

**ENTR3020 - Comparison of Entrepreneurial Ecosystems**

Credits: 3
The goal of this course is to expose students to different entrepreneurial ecosystems and let them think about how the environment, legal, technical, cultural, and economic, could impact their entrepreneurial endeavors. The class will accomplish this by visiting a developed country and a developing country to learn about the ecosystems and talk with entrepreneurs to see how the forces impacted their startups.

**Cross Listed** ES 3020.
ENTR4750 - Theories of Entrepreneurship

Credits: 3
A broad examination of historical, literary, and business perspectives on entrepreneurship. Students explore the role of individuals, new ventures, and established organizations in the discovery, evaluation, and exploitation of opportunities. Emphasis is on the evolution of entrepreneurship theories over time, and current trends related to the application of these theories.

Prerequisite: ENTR 3700.

ES4920 - Entrepreneurship for Engineers

Credits: 3
Traditional engineering education does not prepare graduates for work in entrepreneurial ventures. The goal of this course is to have students demonstrate skills in developing business ideas, performing preliminary market research, estimating cash flow, and launching a business.

Prerequisite: 9 hours within an engineering discipline and junior standing.

FCSC3160 - Merchandise Retailing and Buying

Credits: 3
Provides students with the knowledge involved in the buying function of the merchandising and retailing process, including merchandise planning and retail math. Gives students the necessary skills to pursue a career in retail buying.

Prerequisite: FCSC 2185 and MATH 1000 or MATH 1400.

FCSC4181 - Global Trade and Sourcing for Textile Products

Credits: 3
Discusses global textile industry, how the U. S. fits into the global industry, textiles and apparel trade policy, as well as balancing conflicting interests in the world marketplace.

Dual Listed FCSC 5181.
When Offered (Offered spring semester odd years)
USP 2003-2014 Code U3G
Prerequisite: FCSC 1185.

MGT2030 - Principle-Based Ethics

Credits: 3
Max Credit 3
Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.
**Prerequisite:** sophomore class standing.

**MGT3410 - Human Resources Management**

Credits: 3  
A study of the formal systems used to manage people at work. Emphasis is on concepts and procedures of EEO, diversity, job analysis, job evaluation, wage and salary administration, performance evaluation, safety, employee services and fringe benefits.

**Prerequisite:** MGT 2100 and advanced business standing.

**MGT3420 - Organizational Behavior and Leadership**

Credits: 3  
An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

**Former Course Number** [4420]

**Prerequisite:** MGT 2100, junior class standing and advanced business standing.

**MGT4360 - Business Law for Entrepreneurs**

Credits: 3  
A survey of the various legal issues confronted by entrepreneurs, particularly related to new ventures.

**Prerequisite:** MGT 2100 and junior class standing.

**MGT4470 - Negotiations and Conflict Resolution**

Credits: 3  
Max Credit 3  
Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3  
**Prerequisite:** MGT 2100, advanced business standing.

**MKT4590 - Sustainable Business Practices**
A close look at what is happening in business practice today through the lens of sustainability. Business models and systems will be discussed and a framework proposed for assessing the ways in which principles of sustainability may be embedded within corporate strategy.

Cross Listed INST 4590.
Dual Listed MKT 5590.
Prerequisite: advanced business standing.

**MUSC4000 - Careers in Music**

Credits: 2
Expands the student's understanding of the range of careers in the professional music world. Covers the concepts of marketing, performance, teaching, recording, technology, venue management, and fundraising.

Prerequisite: MUSC 1000 or MUSC 1003.

**MUSC4001 - Music Entrepreneurship Seminar**

Credits: 2
Further crystalizes successful business enterprise development introduced in ENTR 2700. Student will hone entrepreneurial skills in idea creation, business incubation, development, research, and commercialization.

**MUSC4005 - Internship in Music Business**

Credits: 1
Offers an evaluated and professional work experience in public or private organizations on assignments relating to student's career goals, allowing students to explore the relationship between theory and practice in their major.

**ORTM4900 - Outdoor Recreation and Tourism Management Business Strategies**

Credits: 3
Application of the successful delivery of hospitality, tourism, and outdoor recreation enterprises. Business activities covered include tourism-specific marketing, market-based research and analytics, regional challenges and opportunities, business plan components, financial risk analysis, and law and policy.

Restricted Restricted to ORTM majors only.

Prerequisite: Senior standing, ORTM 3050.

**SELL3310 - Professional and Technical Selling**

Credits: 3
This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused opportunities within their field.
Prerequisite: COM1 and sophomore class standing.

SELL4310 - Advanced Selling

Credits: 3
This course provides students in-depth study of advanced sales concepts including relationship management, problem solving, negotiation, and proposal writing. It also explores the use of data-based decision making and the use of selling technologies. Students will learn how to use data to sell to both resellers and manufacturers.

Prerequisite: SELL 3310 and junior class standing.

Additional Requirements

A minor in entrepreneurship features business courses likely to be important to the creator of a new venture and/or someone seeking to bring innovation and creativity to an existing enterprise. The minor includes exposure to various elements of the entrepreneurial process, including creativity, ideation, innovation, value proposition, and business model creation.

15 credit hours (9 credits of required courses, 6 credits from the Approved Elective for the Entrepreneurship Minor courses list)

(For non-College of Business majors only)

Hospitality Business Management Minor

The Hospitality Business Minor provides students an understanding of the operations of multiple domains of the hospitality industry including food and beverage, tourism and lodging, and entrepreneurship and consumer relations.

Minor Total Credits: 15

Required Courses - Credits: 9

HOSP2000 - Foundations of Customer Service & Hospitality

Credits: 3
This course examines critical elements of excellent customer service in the hospitality industry.

HOSP3000 - Managing Profitability in Hospitality

Credits: 3
This course examines the complexities of profitability in the hospitality industry, driven by issues of pricing and cost management. Areas explored can include restaurants, hotels, and other hospitality ventures.

Prerequisite: ACCT 2010
HOSP4800 - Hospitality Operations Management

Credits: 3
This course provides a broad-reaching, applications-based understanding of hospitality operations and management. It provides a managerial perspective on the operations of each component of hospitality management and operations, including the financial aspect.

Prerequisite: HOSP 2000
- Any Approved Elective Courses within one core area (see approved elective courses cores) Credits: 6

Approved Elective Courses - Credits 6

(choose any courses totaling 6 credits from one of three focal cores: Food & Beverage, Tourism & Lodging, or Management & Marketing)

Food & Beverage Core

FCSC1141 - Principles of Nutrition

Credits: 3
This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

FCSC1150 - Scientific Study of Food

Credits: 3
Comprehensive introduction to the study of food. Food science theories relative to composition are applied through the laboratory experiences.
- FCSC 4900 - Food Safety Credits: 3
- HOSP 2320 - Food & Beverage Management Credits: 3
- HOSP 2330 - Food & Beverage Services Credits: 3
- HOSP 2535 - Planning and Control for Food & Beverage Operations Credits: 3
- HOSP 2540 - Bar & Beverage Management Credits: 3

The following HOSP courses are offered through Casper College via distance education
- FSHM 2540 - Bar & Beverage Management Credits: 2
- FSHM 2600 - Dining Room Management Credits: 2
- FSHM 2700 - Food & Beverage Services Credits: 3

The following FSHM courses are acceptable transferrable electives only offered in-person at Sheridan College in Sheridan, WY.
- HRM 1505 - Sanitation, Health, & Safety in the Hospitality Industry Credits: 3
- HRM 1510 - Dining Room Management & Food Delivery Systems Credits: 3
- HRM 1515 - Planning and Control for Food & Beverage Operations Credits: 3
- HRM 2500 - Quality Food Purchasing Credits: 3
- HRM 2525 - Wine Production, Service, & Appreciation Credits: 3
- HRM 2530 - Beverage Management Credits: 3
Tourism & Lodging Core

ORTM1000 - Foundations of Recreation and Tourism

Credits: 3
Introduces the conceptual foundations, array of services, and management with recreation and tourism. Primary focal points for this course include historical and psychological underpinnings, market trends, types of resources and services, cultural, economic, political, and legal considerations, and career opportunities. Emphasizes the relationship to resource stewardship.

ORTM3000 - Tourism Theory and Practice

Credits: 3
Tourism is a dynamic system of global interconnection that impacts human and natural environments in myriad ways. This course examines the behavioral, social, economic, political, and environmental issues implicated in and affected by tourism and its industries. Students will develop a critical understanding of the implications on the practice of tourism today.

Prerequisite: junior standing.

HOSP4910 - Topics in Hospitality

Credits: 3
Max Credit 6
This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor
The following HOSP courses are offered through Casper College via distance education
- HOSP 1540 - Hotel Operations Management Credits: 3
- HOSP 2525 - Recreation & Tourism Planning & Development Credits: 3
- HOSP 2530 - Tourism Management Credits: 3
  The following FSHM course is an acceptable transferrable elective only offered in-person at Sheridan College in Sheridan, WY.
- FSHM 2610 - Banquet Management Credits: 2
  The following HRM course is an acceptable transferrable elective only offered in-person at Central Wyoming College in Jackson, WY.
- HRM 1501 - Lodging Management/Front Office Procedures Credits: 3

Management & Marketing Core

ENTR2700 - Entrepreneurial Mindset

Credits: 3
This course introduces students to entrepreneurial mindsets and concepts essential to success in startups or within
established firms. Provides a basic overview of creativity and innovation, and students experience the process of identifying and evaluating ideas and developing them into business opportunities.

**Prerequisite:** COM1, sophomore class standing.

**MGT3410 - Human Resources Management**

Credits: 3
A study of the formal systems used to manage people at work. Emphasis is on concepts and procedures of EEO, diversity, job analysis, job evaluation, wage and salary administration, performance evaluation, safety, employee services and fringe benefits.

**Prerequisite:** MGT 2100 and advanced business standing.

**MKT4230 - Integrated Marketing Communication**

Credits: 3
Introduction to integrated marketing communication, the coordination of an organization's advertising and promotional efforts. Emphasis on how marketing communication is used by organizations to further their marketing objectives. Among the tools available to the integration process are advertising, sales promotion, personal selling, sponsorship marketing, and public relations.

**Prerequisite:** MKT 2100, advanced business standing.

**MKT4240 - Consumer Behavior**

Credits: 3
A study of the dimensions of the consumer market and decision-making processes of consumers through analyzing economic, personal, social and situational influences on the consumer market and on buying behavior.

**Prerequisite:** MKT 2100, junior class standing.

**MKT4440 - Services Marketing**

Credits: 3
This course is designed for students who may be interested in working in service industries and will address the distinct needs and problems of service firms in the area of marketing.

**Prerequisite:** HOSP 2000 or MKT 2100.

**SELL3310 - Professional and Technical Selling**

Credits: 3
This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused
opportunities within their field.

USP 2015 Code U5C2
Prerequisite: COM1 and sophomore class standing.

The following HOSP course is offered through Casper College via distance education

- HOSP 1560 - Convention Sales & Management Credits: 3

The following FSHM course is an acceptable transferrable elective only offered in-person at Sheridan College in Sheridan, WY.

- FSHM 2520 - Security & Loss Prevention Management Credits: 3

Additional Requirements

The Hospitality Business Minor provides students an understanding of the operations of multiple domains of the hospitality industry including food and beverage, tourism and lodging, and entrepreneurship and consumer relations. Knowledge in these areas is critical for anyone desiring to work in the hospitality industry or for a business that services the hospitality industry.

Leadership Minor

A unique experience that prepares students to be principle-based leaders in every facet of their lives. Students develop leadership competencies and their own personal leadership style, and are prepared to make decisions in principle-based ways.

Minor Total Credits: 15

Required Courses - Credits: 9

MGT2030 - Principle-Based Ethics

Credits: 3
Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

LEAD4110 - Leadership in Practice

Credits: 3

The culminating leadership experience of the university's leadership program. Students draw upon their prior learning to lead an experiential project, benefiting a UW stakeholder. Students continue to learn about effective leadership through the lens of practitioner-oriented literature and apply their learning in advanced casework. The instructor acts as a leadership coach who helps students refine their leadership competencies and enhance leadership potential.
Prerequisite: LEAD 3610, MGT 2030

Leadership Electives - Credits: 6

*Complete a minimum of 6 credits with courses from the below list*

**ACES3000 - Peer Advising**

Credits: 3  
This course is designed to help you develop the skills, understanding, competencies, and dispositions needed to be an effective peer advisor at UW. Course content will cover student development theory, interpersonal skills, Ethics of working with college students, UW policies/procedures, UW academic requirements, and advising approaches.

*When Offered* (Offered Spring Semester Only)  
**Prerequisite:** Sophomore standing and completion of USP15-C2

**AGRI4600 - Developing Organizational Leadership**

Credits: 3  
A senior capstone experience for Bachelor of Applied Science students, bringing together reading, research, writing, and communication skills to focus on a major project. Leadership skills and approaches to organizational problem-solving are deepened using the structural, human resource, political, and symbolic frames to change and improve leadership and organizational culture.

USP 2015 Code U5C3  
**Prerequisite:** COM1, COM2, AGRI 3000, and senior status.

**AGRI4700 - Elements of Leadership**

Credits: 3  
Focuses on a basic understanding of theory and practice. Will develop self-awareness and provide a foundation for continued development of leadership skill in the workplace, the community and the home.

**Dual Listed** AGRI 5700.  
**Prerequisite:** Restricted enrollment. Prior approval required.

**AIR2010 - Team and Leadership Fundamentals I**

Credits: 1-0.5  
Focuses on laying the foundation for teams and leadership. The topics include skills that will allow cadets to improve their leadership on a personal level and within a team. The courses will prepare cadets for their field training experience where they will be able to put the concepts learned into practice. The purpose is to instill a leadership mindset and to motivate sophomore students to transition from AFROTC cadet to AFROTC officer candidate.
**Prerequisite:** AIR 1010 and AIR 1020 or consent of instructor.

**AIR2020 - Team and Leadership Fundamentals II**

Credits: 1-0.5  
Continues AIR 2010.

**Prerequisite:** AIR 1010, AIR 1020, and AIR 2010 or consent of instructor.

**AIR3010 - Leading People/Effective Communication I**

Credits: 3  
Teaches cadets advanced skills and knowledge in management and leadership. Special emphasis is placed on enhancing leadership skills and communication. Cadets have an opportunity to try out these leadership and management techniques in a supervised environment as juniors and seniors.

USP 2015 Code U5C2  
**Former Course Number** [4010]

**Prerequisite:** AIR 1010, AIR 1020, AIR 2010, and AIR 2020 or consent of instructor.

**AIR3020 - Leading People/Effective Communication II**

Credits: 3  
Continues AIR 3010.

USP 2003-2014 Code U3CS  
**Former Course Number** [4020]

**Prerequisite:** AIR 1010, AIR 1020, AIR 2010, AIR 2020, AIR 3010 or consent of instructor.

**ARMY2010 - Leadership Skills and Management**

Credits: 2  
Studies principles and theories of leadership and team dynamics. Develops student leadership potential through the study of the values and attributes of effective leaders. Students gain self-confidence through the application of principles and techniques of leadership in a military environment.

**Former Course Number** [2030]

**Prerequisite:** ARMY 1010, ARMY 1020 or consent of instructor.

**ARMY2020 - Leadership Skills and Small Unit Management**
Credits: 2
Studies principles in small-unit management, tactics, operations and leadership. Develops students' self-confidence in their leadership ability through progressive application of knowledge, decision making, communication and control.

Former Course Number [2040]

Prerequisite: ARMY 2010 or consent of instructor.

ARMY2060 - Competent and Confident Leadership

Credits: 2
Interdisciplinary course whose aim is to encourage assessment of our obligations, commitments, and roles in society by inquiring into the nature of leadership and the responsibilities of both leaders and followers. Examines leadership traits that transcend the military aspect of leadership.

ARMY3010 - Leadership and Tactics I

Credits: 3
Studies leadership techniques and tactical operations at the small-unit level. Instruction covers the decision-making process, troop leading procedures, land navigation and operation orders. In-depth analysis of team/squad tactical procedures and techniques. Numerous student oral presentations and practical exercises.

USP 2003-2014 Code U3O

Prerequisite: ARMY 2010, ARMY 2020, basic camp or consent of department head.

ARMY3020 - Leadership and Tactics II

Credits: 3
Studies platoon-level tactics and leadership techniques. Instruction covers the solving of complex tactical problems. Illustrates techniques for properly managing personnel, resources and time to accomplish organizational goals. Introduces Army staff functions and prepares students for successful completion of ARMY 3030.

Prerequisite: ARMY 3010.

ARMY4010 - Dynamics of the Military Organization I

Credits: 2
Studies and analyzes organization, resources and functions of military staff. Reviews formal staff problem-solving procedures, including student effective writing and briefing presentations. Introduces ethics and the military profession.

Former Course Number [4030]

Prerequisite: ARMY 3010, ARMY 3020 or consent of department head.

ARMY4020 - Dynamics of the Military Organization II
Credits: 2
Introduces military law; planning and management of personal affairs; Army transportation, logistics and personnel management systems. Studies officer/NCO relations. Includes student writing and briefing presentations on assigned topics.

Former Course Number [4040]

Prerequisite: ARMY 4010 or consent of department head.

CNSL2200 - Introduction to Student Leadership

Credits: 2
Acquaints student leaders with skills and competencies necessary for successful service in the university community.

When Offered (Normally offered each fall semester)
USP 2003-2014 Code U3CS, U3L

CNSL3010 - Student Leadership Strategies

Credits: 2
Develops skills and competencies requisite to effective leadership. Provides student leaders with skills they will profit from, both while enrolled at the university and later in their chosen careers.

When Offered (Normally offered each spring semester)

CRMJ4130 - Leadership and Management in the Criminal Justice System

Credits: 3
There is a clear need for managers and administrators to understand leadership and ethics. This course is designed to provide students with a foundation in the management and leadership discourse surrounding criminal justice agencies.

Prerequisite: CRMJ 1001, CRMJ 2210, CRMJ 2400/SOC 2400, and CRMJ 3490.

ENR2800 - Introduction to Outdoor Leadership

Credits: 3
Designed to increase knowledge and competencies related to leading others in the outdoors. Significant focus is on self-awareness, judgment, and decision-making. The specific skills and theories students learn throughout provide a foundation for other leadership endeavors.

Cross Listed ORTM 2800
Prerequisite: consent of instructor.

OR

ORTM2800 - Outdoor Leadership
Credits: 3
Designed to increase knowledge and competencies related to leading others in the outdoors. There is a significant focus on self-awareness, judgment, and decision-making. The specific skills and theories students learn in the class provide a foundation for other leadership endeavors.

Cross Listed ENR 2800
Prerequisite: COM 1

FCSC4117 - Understanding Community Leadership

Credits: 3
Understanding Community Leadership. Introduces students to the scope and functions of professionals working in rural communities as leaders. Students will explore community dynamics, leadership skills and managing change, and understand the complexities of leadership within communities. Understanding communities and leadership increases the likelihood of success for community based professionals.

Dual Listed FCSC 5117.
USP 2003-2014 Code U3CS
Prerequisite: senior standing and satisfactory completion of a WB/COM2 course.

HP4152 - Honors Seminar

Credits: 3
Max Credit (Max. 6)

Asks students to confront a complex social issue, examine it from several perspectives and take a stance on some aspect of the issue. Topics vary from year to year. Required of UW Honors students.

Former Course Number [4150]

Prerequisite: COM1, COM2

MGT3420 - Organizational Behavior and Leadership

Credits: 3
An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

Former Course Number [4420]

Prerequisite: MGT 2100, junior class standing and advanced business standing.

NURS4830 - Leadership in Healthcare Today
Credits: 2
Focuses on the role of nurse leader and manager through integration of leadership, management, and organizational concepts, models, and theories. Emphasis in on leadership, followership, management, advocacy, professional development and activism, and managing resources.

**Prerequisite:** ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

**NURS4835 - Leading Nursing Practice**

Credits: 2
Focuses on nurse leaders making a difference using evidence-based nursing practice. Learners utilize and synthesize basic concepts of professional nursing practice. This course creates the opportunity for learners to lead nursing practice in a variety of settings.

**Prerequisite:** ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

**GWST1900 - Women and Leadership**

Credits: 3
Students examine theoretical, historical and cultural aspects of leadership, values in leadership, gender differences in leadership styles, and practical applications of leadership skills through oral communication and information literacy. Individual and collaborative work is expected.

**Cross Listed** SOWK 1900.

USP 2003-2014 Code U3L, U3O

**Former Course Number** [4510]

**UWYO3000 - Student Leadership in Supplemental Instruction**

Credits: 2
Focuses on theoretical perspectives of group tutoring and peer leadership, best practices in supplemental instruction, and student reflection. Will strengthen leadership knowledge and skills and introduce effective methods for group facilitation and SI curriculum.

**Prerequisite:** closed to general enrollment.

(UWYO 3000 is a closed enrollment course. Students may only enroll if invited by LeaRN Program Director)

**UWYO3010 - Student-Athlete Leadership Skills**

Credits: 1
Designed for students to gain and apply leadership skills among other topics such as healthy relationships, nutrition, budgeting, and preparing for internships. This course builds on UWYO 1050 Student-Athlete Academic Success, and prepares the student for UWYO 3050 Student-Athlete Career Preparation.

**Prerequisite:** COM1.
Additional Requirements

The Leadership Minor is a unique interdisciplinary curricular, co-curricular, and extra-curricular experience that prepares students to be principle-based leaders in every facet of their lives. Through the Leadership Minor, students develop leadership competencies and their own personal leadership style, and are prepared to make decisions in principle-based ways.

All courses for the minor require a minimum grade of C (not C-).

Professional and Technical Selling Minor

Provides students with technical and/or liberal arts backgrounds with opportunities to pair these backgrounds with essential knowledge and skills required for careers in sales. Combines rigorous classroom experiences with industry opportunities.

Minor Total Credits: 15

Professional and Technical Selling Requirement - Credits: 3

SELL3310 - Professional and Technical Selling

Credits: 3
This Professional Selling class focuses on business-to-business selling. It examines Organizational Buying Behavior to develop students' understanding of customers. It also investigates the process salespeople go through when presenting solutions to customers. This course is for students from various disciplines wanting to explore sales-focused opportunities within their field.

USP 2015 Code U5C2
Prerequisite: COM1 and sophomore class standing.

Professional and Technical Selling Approved Elective Courses - Credits: 6

Choose 2 courses from the list below

SELL4310 - Advanced Selling

Credits: 3
This course provides students in-depth study of advanced sales concepts including relationship management, problem solving, negotiation, and proposal writing. It also explores the use of data-based decision making and the use of selling technologies. Students will learn how to use data to sell to both resellers and manufacturers.

Prerequisite: SELL 3310 and junior class standing.

SELL4320 - Sales Force Strategies
This class will examine the linkages among management of the sales function, personal selling activities, and the marketing area. Students will gain an understanding of the role of the sales force in achieving the firm's marketing, customer relationship, and revenue objectives.

Prerequisite: SELL 3310 and junior class standing.

SELL4330 - Sales Seminar

Credits: 3
This course provides students in-depth study of advanced, and cutting edge sales and sales management concepts presenting by top talent in industry. While topic can vary, this seminar teams students with industry experts to explore state-of-the-art thinking in technical sales, sales management, sales training, compensation, and team selling.

Prerequisite: SELL 3310 and junior class standing.

Advanced Business Electives - Credits: 6

- Any business courses at the 3000 - 4000 level - Credits: 6

Additional Requirements

The professional and technical selling minor prepares students to manage business clients. This minor provides students with technical and/or liberal arts backgrounds with opportunities to pair these backgrounds with essential knowledge and skills required for careers in sales. Careers in sales offer independence, ample financial reward, personal growth, and opportunities for rapid advancement within organizations. Students experience rigorous classroom experiences designed to develop important knowledge and practical selling skills including: oral and written communication skills, selling techniques and networking, and the use of sales technology and customer information.

All professional and technical selling minors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously. All professional selling courses for the minor require a minimum grade of C.

15 credit hours (3 credits required course, 6 credits from the Approved Elective Courses for the Professional and Technical Selling Minor course list, 6 credits of Advanced Business Electives)

Graduate

Business Administration, M.B.A.

The UW MBA program offers a 1-Year Early Career MBA tailored to those looking to gain the needed experience and business insights required in today's competitive marketplace.

Additional Requirements

- Thirty-six (36) credit hours of graduate coursework, including participation in all MBA Program activities (orientation, Jackson Leadership Summit, MBA Executive Speaker Series, Professional Development,
Experiential Leadership Program, etc.). Please note that students enrolled in any dual degree MBA program are required to complete all MBA participation activities and the core coursework.

- This is a cohort based program and while the course sequence is highly structured, there may be the opportunity to extend the duration of the one-year program. Course sequence is subject to change at the discretion of the MBA Director.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Course of Study

MBA Core Requirements (27 Credit Hours)

Required of all MBA students including all dual degree students.

**MBAM5101 - MBA Foundations**

Credits: 1
The purpose of this course is to prepare students for the academic rigors of the MBA program.

**Restricted** Enrollment in MBAM or MBAF degree program.

**Prerequisite:** Admission to full-time MBA program.

**MBAM5104 - Organization Behavior and Human Resource Management**

Credits: 3
Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

**Restricted** Admitted to MBA, MBAE or MBAF program.

**Prerequisite:** Admission to the MBAM program.

**MBAM5202 - Data and Decision Modeling**

Credits: 3
This course will prepare students to use computer-based models for solving problems in the areas of operations, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analytics including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

**Prerequisite:** Admission to the MBAM program.

**MBAM5204 - Financial Management**
Credits: 3
Students taking this course should expect to learn the fundamentals principles of environmental influences on corporate financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

**Prerequisite:** Admission to the MBAM program.

**MBAM5208 - Managerial Accounting**

Credits: 3
This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of business decisions.

**Prerequisite:** Admission to the MBAM program.

**MBAM5207 - Marketing Management**

Credits: 3
Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage.

**Restricted** Admitted to MBA, MBAE or MBAF program.

**Prerequisite:** Admission to the MBAM program.

**MBAM5102 - Operations Management**

Credits: 3
Production and operations management. Topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, and scheduling.

**Prerequisite:** Admission to the MBAM program.

**MBAM5330 - Global Business Environment**

Credits: 3
Max Credit 3

Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.
Restricted Admission to the MBA, MBAE, or MBAF program.

Prerequisite: Admission to the MBA program, or permission from the MBA Program Director.

MBAM5107 - Decision Making I

Credits: 1
This course develops a systematic process for making decisions in complex business situations, by integrating six dimensions of business risk: competitive, financial, organizational, legal, social, and ethical. The process combines analytical and ethical reasoning methods that compensate for the flawed decision making common in business organizations.

Prerequisite: Admission to the MBAM program.

MBAM5209 - Decision Making II

Credits: 1
An experiential learning course that builds on MBAM 5107. Students apply systematic business decision making process to real-world business situations. Student teams work directly with owners and managers of Wyoming companies to address their strategic, competitive, operational, financial, and/or administrative challenges in real time.

Prerequisite: MBAM 5107.

MBAM5305 - Strategic Management

Credits: 3
Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations.

Prerequisite: Admission to the MBAM program. #304.

MBA Elective Requirements

- MBA-MBA students, including dual degree students, must take an additional 9 credit hours of 4000 or 5000 level College of Business courses. Dual degree students (JD/PharmD/MS) may take 3 credit hours outside the College of Business following dual degree agreement guidelines. Please contact your advisor for additional information.
*Note: A maximum of 12 credit hours may be taken at the 4000 level for graduate credit.

Business Administration, Online, M.B.A.

The Online MBA Program is specifically designed for business professionals interested in a fully AACSB accredited, 100% online program that fits their busy schedules and enhances their understanding of decision-making in the workplace.
Additional Requirements

- 30 credit hours of graduate credit as outlined in the Course of Study.
- Concentration Available: Energy (EMN)
- Optional Certificate Add-Ons: CFP (certified financial planning) or Energy Business. Adding on a certificate may increase required number of credit hours. Please contact us for additional information.
- This is a cohort based program that can be flexible in sequence depending on student needs. Course sequence is subject to change at the discretion of the MBA Director.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, student will be immediately dismissed from the program.

Prerequisite Courses

Prerequisite coursework may be requested based on experience and undergraduate coursework at the discretion of the MBA Program Director as part of the application process. Please contact the MBA & Professional Graduate Program Office for additional information.

Academic Requirements

Students must maintain a cumulative GPA of 3.000 in the MBA Program to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program. Other requirements involving program dismissal include:

- A student who earns a grade lower than a "C" in any course may be immediately dismissed from the program.

Course of Study

MBA Core Requirements (21 Credit Hours)

Required of all MBAX students.

MBAX5104 - Organizational Behavior and Human Resource Management

Credits: 3
Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

MBAX5202 - Data and Decision Modeling

Credits: 3
This course will prepare students to use computer-based models for solving problems in the areas of operation, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analysis including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.
Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

**MBAX5204 - Financial Management**

Credits: 3
Students taking this course should expect to learn the fundamental principles of environmental influences on corporate financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval

**MBAX5208 - Managerial Accounting**

Credits: 3
This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of business decisions. #304.

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval

**MBAX5207 - Marketing Management**

Credits: 3
Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage

Restricted MBA-MBAX

Prerequisite: Admission to the MBAX program or department approval.

**MBAX5330 - The Global Business Environment**

Credits: 3
Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational
environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.

**Restricted MBA-MBAX**

**Prerequisite:** Admission to the MBAX program or department approval.

**MBAX5305 - Strategic Management**

Credits: 3

Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations. #304.

**Restricted MBA-MBAX**

**Prerequisite:** Admission to the MBAX program or department approval.

**MBA Elective/Concentration Requirements**

- MBA-MBAX students must take an additional 9 credit hours of 5000 level College of Business courses.
- Energy Concentration students will complete the additional 9 credit hours of coursework as follows:
  - MGT 5504 Energy Industry Value Chain. 3.
  - FIN 5502 Energy Finance: Project Evaluation. 3.

**Marketing, Ph.D.**

The program of study draws from extant marketing theory, combined with studies in basic and other applied sciences to create a base of knowledge, which is supplemented with courses in the gathering and analysis of qualitative and quantitative data.

**Additional Requirements**

The Department of Management and Marketing offers a program leading to a Doctor of Philosophy in Marketing. The program of study draws from extant marketing theory, primarily in consumer behavior, combined with studies in the basic sciences (e.g., anthropology, psychology, sociology) and other applied sciences (e.g., environmental sciences) to create a base of knowledge acceptable for marketing scholarship in higher education, and a depth of knowledge conducive to a stream of publishable research in a specific topic area. Theoretical development is supplemented with course work in the gathering and analysis of qualitative and quantitative data, which prepares the student for rigorous exploration of marketing phenomena. Students are required to complete 72 semester hours and a scholarly dissertation that contributes to the knowledge foundations in marketing and contributes to the basic sciences that informed the inquiry. Semester hours will include core marketing classes, outside elective courses in statistics, basic social sciences, and/or interdisciplinary studies in environmental and natural resources, and dissertation work. First and second year
research projects are also required, aimed at the student having published articles in respected marketing and social science journals before program completion. Comprehensive exam is completed at the end of the second semester. All doctoral students are expected to teach while enrolled in the program. The program is designed to give students a strong research background and intensive teaching experience.

We begin accepting applications in October for the following fall semester. All completed applications must be submitted by February 1st. Admission requirements include:

- A Bachelor's Degree and work toward or completion of a master's degree from an accredited institution, preferably in business or a core social science discipline
- Completed application (i.e., all required materials submitted) on the UW Graduate Programs Applications system
- $50 application fee paid to University Admissions
- Copies of all undergraduate and graduate program transcripts scanned and uploaded to the UW system, and official transcripts from each post-secondary institution attended submitted to the UW admissions office
- A valid GRE or GMAT score. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be requested from the testing organization and sent to UW
- Three strong letters of recommendation, with one or more being from an academic. The letters must be uploaded by the recommenders to the UW system in MS Word or .pdf format.
- A personal statement summarizing your interest in pursuing doctoral studies and speaking to questions or issues you wish to research. This document must be uploaded to the UW system as an MS Word or .pdf document
- For international students, Test of Foreign Language (TOEFL) scores are required. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be submitted to UW from the testing organization. A minimum TOEFL score of 76 (online) or 540 (paper) is required for admission

Certificate

Energy Business Certificate (Graduate)

The online Energy Business Certificate is designed for professionals working in the energy industry who are interested in gaining knowledge related to real-world application within the highly competitive industry.

Additional Requirements

The Certificate in Energy Business is composed of 9-credit's of masters-level graduate coursework in the College of Business, with the primary goal of achieving mastery and professional skills common to functional business roles within the energy industry. Specifically:

- Develop a working understanding of the concepts and practices of Supply Chain Management to make strategic support decisions within the energy industry.
- Acquire the foundation necessary to work in the energy industry as a financial statement analyst, manager, auditor, or accountant.
- Utilize core capital budgeting, techno-economic cashflow modeling and other finance concepts to evaluate energy industry project investments.
- Demonstrate effective problem solving, written, and oral communication skills in the context of the energy industry.

Certificate Requirements
FIN5502 - Energy Finance: Project Evaluation

Credits: 3
This course introduces students to the key methods used to evaluate investments in energy industry projects from the perspective of the developer as well as the lender and other stakeholders. Topics include project finance modeling, techno-economic considerations, business structures, regulatory and legal issues, risk analysis, and deal terms.

Restricted Admitted to CERT-MBAE or MBA-MBA.

Prerequisite: Admission to the MBA or Energy Business certificate program, or permission of the MBA Program Director.

ACCT5503 - Fundamentals of Accounting in the Energy Industry

Credits: 3
Introduces students to basic financial accounting and reporting issues related to energy producing activities. Specifically, the course will investigate current accounting practices of energy producing companies related to exploration, acquisition, development, and delivery of energy products. The course will also cover financial requirements of the Financial Accounting Standards Board (FASB), the International Accounting Standards Board (IASB), and the Securities and Exchange Commission (SEC).

Prerequisite: Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

MGT5504 - Energy Industry Value Chain

Credits: 3
Examines the overall energy industry with detailed exploration of the major energy subsectors and supply chains. Students will develop knowledge of the energy industry value chain including coverage of market dynamics, prevalent strategies, finance, operations, externalities and network effects, environmental and ethical considerations, and associated policy issues.

Restricted Admitted to CERT-MBAE or MBA-MBA.

Prerequisite: Admission to the MBA or Energy Business certificate program, or permission of the MBA Program Director

- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Master of Business Administration (MBA)

Master of Business Administration (MBAM)

MBA & Professional Graduate Programs Office
1000 E. University Ave., Dept. 3275
MBA - General

Program Overview

The UW MBA Program delivers professional management education that connects principles, concepts, and intense case analysis with real world experience as tools for making business decisions. Students will develop leadership and managerial skills. UW MBAs will possess the education and training to compete in today's rapidly changing global business world.

Class sizes are small and diverse. Courses are taught by a select group of business faculty members. The total program experience (both inside and outside the classroom) is designed to provide experiential learning along with access to powerful networks.

Admission Requirements

A Faculty Admissions Committee, chaired by the Director of the MBA Program, will review all applicants. Application to the program is open to students who have a baccalaureate degree from an accredited university or college. Students with a baccalaureate degree in a business discipline or business administration are eligible for the program, but will not be allowed to waive any of the core course requirements. Please view the full list of admission requirements below.

Students whose native language is not English must submit TOEFL results (or another approved English proficiency exam). There are no exceptions for students from other UW colleges and schools seeking dual degrees. If an international applicant wishes to be considered for GA funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI) or an approved alternative to the OPI. Please contact the UW English Language Center (http://www.uwyo.edu/elc/) if you have questions regarding the English proficiency requirements.

Please be advised that our program includes significant class discussion, substantial daily reading, many written assignments, and presentations.

Dual Degree Programs

The following dual degree programs are available:

- MS in Engineering / MBA
- Pharm. D. / MBA
- J.D. / MBA

Students will need to meet all MBA admission requirements and respective dual college/department requirements and be admitted to both degree programs in order to be considered for the dual degree program. The MBA core requirements are required of all students. After successful completion of all requirements, students in the dual degree program will graduate with two graduate level degrees.

Admission to the Master of Business Administration program generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
• A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
• A GMAT or GRE score may be required as part of the application process as determined by the program director after reviewing the required application materials. Please reach out for additional information to cobgradprograms@uwyo.edu or 307-766-2482.
• Professional resume.
• Official transcripts of all undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000. E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
• Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
• Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding.

Prerequisites: No specific prerequisite courses are required. However, evidence of technical proficiency and/or prior business experience from your work history and transcripts are considered in the admissions process. If admitted to the program, all MBA students are required to take our MBA Foundations course, which establishes a baseline level of knowledge in Accounting, Finance, Economics, and Statistics.

Additional International Student Admission Requirements:

• Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
• On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
• Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university may be exempt from providing proof of English proficiency.

Degree Requirements

• Thirty-six (MBA-MBA) credit hours of graduate coursework, including participation in all MBA Program activities (orientation, Jackson Leadership Summit, MBA Executive Speaker Series, Professional Development, Experiential Leadership Program, etc.). Please note that students enrolled in any dual degree MBA program are required to complete all MBA participation activities and the core coursework.
• This is a cohort based program and while the course sequence is highly structured, there may be the opportunity to extend the duration of the one-year program. Course sequence is subject to change at the discretion of the MBA Director.
• Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Course of Study

Pre-Term: All admitted MBA students will complete a Foundations course prior to orientation, the experiential leadership program, and the Jackson Leadership Summit. Students may also receive pre-term assignments and/or pre-term prep course material.

MBA Core Requirements (27 credit hours) - Required of all MBA students as well as all Dual Degree MBA students.

- MBAM 5101 MBA Foundations. 1.
- MBAM 5202 Data and Decision Modeling. 3.
- MBAM 5104 Organizational Behavior and HRM. 3.
- MBAM 5208 Accounting for Managers. 3. OR MBAM 5208 Managerial Accounting. 3.
- MBAM 5204 Financial Management. 3.
- MBAM 5207 Marketing Management. 3.
- MBAM 5102 Operations Management. 3.
- MBAM 5330 Global Business Environment. 3.
- MBAM 5107 Decision Making I. 1.
- MBAM 5209 Decision Making II. 1.
- MBAM 5305 Strategic Management. 3. (includes international or domestic travel)

MBA Elective Requirements

- MBA-MBA students, including dual degree students, must take an additional 9 credit hours of 4000 or 5000 level College of Business courses. Dual degree students (JD/PharmD/MS) may take three (3) credit hours outside the College of Business following dual degree agreement guidelines. Please contact your advisor for additional information.

*Note: A maximum of 12 credit hours may be taken at the 4000 level for graduate credit.

Application Deadlines

- Fall Admission Only
  - Final Deadline: June 1
  - Priority Deadline: November 1
  - Scholarship Deadline: March 1

*International Applicants: Please be advised that there are additional university requirements that may take additional processing time - you are highly encouraged to apply prior to the application deadline to ensure that if admitted, all required documentation can be provided prior to the beginning of the term of entry.

Additional Information

Tuition & Fees

Tuition and fee charges will not include the cost of textbooks. Please refer to University of Wyoming cost of attendance for additional information.

MBA Executive Speaker Series
Students participate in weekly meetings (primarily on Fridays) with business leaders from a wide variety of industries (business, government, and non-profit entities). The program takes place mostly on campus, but does include some travel. This program supplements the class work, provides discussion and learnings of business challenges, opens the students' horizons on career opportunities, and provides long-term networking opportunities.

**Experiential Leadership Program**

Students focus on improving leadership competence and focus on teamwork outside of the typical business element. This experience has been tailored to represent an experiential case study on effective leaders and effective teams. Substitute experiences can be discussed on a case-by-case basis.

**Jackson Leadership Summit**

Exclusive leadership development event for MBA students to network with an astute panel of individuals with proven business success. Topics usually focus on the global economy and strategic planning.

**Campus to Online MBA Program**

Students enrolled in the campus MBA program may, on a case-by-case basis apply credits from the Online MBA program (courses with an MBAX prefix) to their degree, and vice versa. Must be approved by the Program Director.

**Academic Requirements**

Students must maintain a cumulative GPA of 3.000 in the MBA Program to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program and suspension from the University of Wyoming. Other requirements involving program dismissal include:

- A student who earns a grade of "D" or lower in any one course may have the opportunity to retake the course (MBAX or MBAM).

MBA-MBAX - General

**Program Overview**

The University of Wyoming offers a flexible Online MBA (EMBA). The Online MBA Program is specifically designed for experienced business professionals interested in an AACSB accredited, 100% online program that fits their busy schedules. This program is typically completed in two years and is tailored for professionals interested in enhancing their understanding of business disciplines and applying them to decision-making. With starts each Fall, Spring, and Summer, the cohort-based program consists of a minimum 30 credit hours of required coursework.
Program Admission Requirements

A Faculty Admissions Committee, chaired by the Director of the MBA Program, will review all applicants. Application to the program is open to students who have a baccalaureate degree from an accredited university or college. Students with a baccalaureate degree in a business discipline or business administration are eligible for the program, but will not be allowed to waive any of the core course requirements. Please see full list of admission requirements below.

Students whose native language is not English must submit TOEFL results, or results of another approved English proficiency exam. There are no exceptions for students from other UW colleges and schools seeking dual degrees. If an international applicant wishes to be considered for GA funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI) or an approved alternative. Please contact the UW English Language Center (http://www.uwyo.edu/elc/) if you have questions regarding the English proficiency requirements.

Please be advised that our program includes significant class discussion, substantial daily reading, many written assignments, and presentations.

Admission to the Online Master of Business Administration program generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred. Based on a 4.0 scale. If you do not meet this minimum preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- GRE or GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.).
- Professional resume. A minimum 2 years' professional work experience is preferred.
- Official transcripts of all undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000. E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience.

Note: These are the minimum requirements and do not guarantee admission or funding.

Prerequisites: Prerequisite courses may be required as determined by the MBA Director. Please reach out to our office at cobgradprograms@uwyo.edu or 307-766-2482 for additional information.

Additional International Student Admissions Requirements

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam, or another approved English proficiency exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia
Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.

- **On-Campus Education Only**: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
- **Distance Education Only**: An applicant whose native language is English or who has earned a university level degree from an English speaking university may be exempt from providing proof of English proficiency.

### Degree Requirements

- Thirty (30) credit hours of graduate credit as outlined in the Course of Study section.
- This is a cohort based program and while the course sequence is structured, there is a lot of opportunity for flexibility. This program can be completed in one or two years most commonly, but longer completion timelines can be discussed. Course sequence is subject to change at the discretion of the MBA Director.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F.

### Course of Study

**MBA Core Requirements (21 credit hours)** - Required of all MBAX students.

- MBAX 5204 Financial Management. 3.
- MBAX 5207 Marketing Management. 3. or MBAX 5235 Marketing Analysis & Strategy. 3.
- MBAX 5202 Data and Decision Modeling. 3.
- MBAX 5104 Organizational Behavior & HRM. 3.
- MBAX 5330 The Global Business Environment. 3.
- MBAX 5208 Accounting for Managers. 3. or MBAX 5208 Managerial Accounting. 3.
- MBAX 5305 Strategic Management. 3.

**MBA Elective/Concentration Requirements**

- MBA-MBAX students must take an additional 9 credit hours of 5000 level College of Business courses.
- Energy Concentration students will complete the additional 9 credit hours of coursework as follows:
  - MGT 5504 Energy Industry Value Chain. 3.
  - FIN 5502 Energy Finance: Project Evaluation. 3.

### Application Deadlines

- **Fall Admission**
  - Block 1 Final Deadline: June 30
  - Block 2 Final Deadline: October 1
  - Priority Deadline: May 1
- **Spring Admission**
  - Block 1 Final Deadline: December 1
  - Block 2 Final Deadline: February 1
  - Priority Deadline: October 1
- **Summer Admission**
  - Final Deadline: April 1
  - Priority Deadline: February 1
*International Applicants: Please be advised that there are additional university requirements that may take additional processing time - you are highly encouraged to apply prior to the application deadline to ensure that if admitted, all required documentation can be provided prior to the beginning of the term of entry.

Additional Information

Tuition and Fees

Tuition and fee charges will not include the cost of textbooks. Please refer to University of Wyoming cost of attendance for additional information.

Online to Campus MBA Program

Students enrolled in the online MBA program may, on a case-by-case basis apply credits from the campus MBA program (courses with an MBAM prefix) to their degree, and vice versa. Must be approved by the Program Director.

Academic Requirements

Students must maintain a cumulative GPA of 3.000 in the MBA Program to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program and suspension from the University of Wyoming.

• Maintain good academic standing at the program and university level and receive no letter grade of D or F.

CERT-MBAE - Energy Business
CERT-CFP - Certified Financial Planning

Program Overview, Energy Business Certificate

The Certificate in Energy Business is composed of 9-credits of masters-level graduate coursework in the College of Business, with the primary goal of achieving mastery and professional skills common to functional business roles within the energy industry. Specifically:

• Develop a working understanding of the concepts and practices of Supply Chain Management to make strategic support decisions within the energy industry.
• Acquire the foundation necessary to work in the energy industry as a financial statement analyst, manager, auditor, or accountant.
• Utilize core capital budgeting, techno-economic cashflow modeling and other finance concepts to evaluate energy industry project investments.
• Demonstrate effective problem solving, written, and oral communication skills in the context of the energy industry.

**Program Overview, CFP Certificate**

The Certificate in Certified Financial Planning is composed of 18-credits of masters-level graduate coursework in the College of Business, with the primary goal of providing students with the education, training, and skills necessary to be able to sit for the Certified Financial Planner (CFP) examination. The curriculum is aligned with the CFP® Board's Principal Knowledge Topics and covers principles and practices of essential areas of financial planning, including:

- Wealth Management
- Investment Management
- Tax Planning
- Estate Planning
- Insurance and Retirement Planning

**Program Admission Requirements**

Admission to the graduate certificate programs generally requires:

- Completed University of Wyoming Graduate Admissions Application and non-refundable application fee.
- Bachelor's degree from a regionally accredited university or college. For more information on accredited institutions, please visit the U.S. Department of Education site.
- A cumulative undergraduate GPA of 3.0 or a 3.0 GPA in the last 60 credit hours of college or university coursework, preferred (based on a 4.0 scale). If you do not meet the preferred GPA, professional work experience in a related field may be considered on a case-by-case basis.
- GRE or GMAT Optional. A strong GRE or GMAT score may be considered to offset deficiencies in other areas of your application (such as a GPA below 3.0, limited work experience, etc.), but is not required.
- Professional resume. A minimum 2 years of professional work experience is preferred.
- Official transcripts of all undergraduate and graduate coursework (post-secondary) must be sent directly from the issuing institution to the University of Wyoming Admissions Office at 1000 E. University Ave., Laramie, WY 82071-2000. Official University of Wyoming transcripts do not need to be sent to the Office of Admissions, but copies of all transcripts must also be uploaded into the UW Graduate Admissions Application.
- Letters of recommendation (min. of 1, max. of 3). Professional (i.e. supervisor, employer, team lead, etc.) or education-related (i.e. advisor, mentor, faculty member, program director, etc.) letter(s) of recommendation provided directly by the reference via the UW Graduate Admissions Application.
- Interview. You will be contacted by our program office to participate in a virtual interview that can be completed at your convenience (no need to schedule a meeting).

Note: These are the minimum requirements and do not guarantee admission or funding. The University of Wyoming College of Business Graduate Certificate programs do not admit students provisionally or conditionally.

**CERT-MBAE Prerequisites:** Applicants must provide evidence of proficiency in the following areas:

Managerial Accounting
CERT-CPF Prerequisites: Applicants must provide evidence of proficiency in the following areas:

Business Math and Statistics

Financial Management

*Evidence of proficiency in these areas is considered on a case-by-case basis but is commonly pursued through supplemental courses and/or relevant professional experience. Please contact the program office for additional information.

Additional International Student Admissions Requirements

- Provide proof of satisfactory English ability if native language is not English by completing the TOEFL or IELTS exam. The minimum acceptable TOEFL (Test of English as a Foreign Language) score is 600 on the Paper-based test (TOEFL PBT) or a score of 100 on the Internet-based test (TOEFL iBT). The minimum acceptable IELTS score is 7. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, and the United Kingdom.
- On-Campus Education Only: International students must also prove sufficient financial resources as established by the University of Wyoming (Graduate International Student Admissions).
- Distance Education Only: An applicant whose native language is English or who has earned a university level degree from an English speaking university may be exempt from providing proof of English proficiency.

Degree Requirements, Energy Business Certificate

- 9 total credit hours of coursework to include:
  - FIN 5502 - Energy Finance: Project Evaluation. 3.
  - MGT 5504 - Energy Industry Value Chain. 3.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

Degree Requirements, CFP Certificate

- 18 total credit hours of coursework to include:
  - FIN 5070 Tax Planning for Financial Planners. 3.
  - FIN 5310 Investment Management. 3.
  - FIN 5720 Insurance and Retirement Planning. 3.
  - FIN 5750 Fundamentals of Financial Planning. 3.
  - FIN 5780 Estate Planning. 3.
  - FIN 5800 CFP Capstone. 3.
- Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student will be immediately dismissed from the program.

Academic Requirements
Students must maintain a cumulative GPA of 3.000 to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program and suspension from the University of Wyoming. Other requirements involving program dismissal include:

- A student who earns a grade lower than a "C" in any course must retake the course, or withdraw from the program.

The College of Education prepares teachers, counselors, administrators and other service personnel for positions in public education in Wyoming, throughout the nation, and the world. The teacher education program incorporates content area courses from the various colleges on campus with experiences in educational methodology. Programs are designed to provide students with a maximum amount of experience in the classroom.

Graduates of the College of Education are prepared to deal with youth growing up in a rapidly changing world. Programs are experiential, collaborative, outcomes based, and technologically supported. Emphasis is placed on professional ethics, a commitment to lifelong learning, and respect for all individuals in our culturally diverse society.

Organization of the College

The College of Education includes undergraduate teacher education and graduate studies in education. Schools offering undergraduate and graduate programs in the college include:

- School of Teacher Education

- School of Counseling, Leadership, Advocacy, and Design
Undergraduate and graduate education are supported by several units. The Teacher Preparation and Advising Office, McWhinnie Hall room 100, coordinates activities dealing with academic advising, field experiences, and teacher licensure.

The Wellspring Counseling Clinic provides counseling services to students, staff, faculty of the university, as well as the community at-large.

The College of Education, College of Arts and Sciences, Wyoming community colleges, many Wyoming districts, the Wyoming Professional Teaching Standards Board, and the Wyoming Department of Education are part of the Wyoming School-University Partnership, which grounds collaborative efforts across the state related to K-12 preservice and inservice education.

The Laboratory School, an Albany County School District entity, serves the college, the university, the school district, and the state as an educational center for research, development, instructional advancement, and inservice education. The school enrolls students in pre-school through eighth grade.

Computer laboratories in the college feature a wide range of capabilities including Internet access. The laboratory equipment is frequently updated to serve the needs of students, faculty and staff.

The Learning Resource Center is a branch of the university library system. Educational materials are available to serve the needs of K-12 students, university students, university faculty and public school faculty in Wyoming.

Faculty in the College of Education

School of Counseling, Leadership, Advocacy, and Design

School Director: Peter Moran

Associate Professors:

**COURTNEY McKIM**, B.S. Boise State University 2006; Ph.D. University of Nebraska 2011; Associate Professor of Educational Research 2020, 2011.

**MICHAEL M. MORGAN**, B.S. Brigham Young University 1993; M.S. Auburn University 1995; Ph.D. Purdue University 2003; Associate Professor of Counselor Education 2011, 2003.

**W. REED SCULL**, B.S. St. Louis University 1983; M.A. University of Nevada-Reno 1989; Ed.D. University of Arizona 1994; Associate Professor 2019.

Assistant Professors:

**WILLIAM CAIN**, B.A. University of Texas 1994; Ph.D. Michigan State University 2018; Assistant Professor 2018.

**JONTHAN CARRIER**, B.S. East Tennessee State University 1999; M.S.E. Portland State University 2002; Ph.D. University of the Cumberlands 2017; Assistant Professor of Higher Education Administration, 2020.
RICHARD CARTER, B.S. Western Carolina University 2010; M.S.E. 2012; Ph.D. University of Kansas 2016; Assistant Professor of Special Education 2017.

AMANDA DeDIEGO, B.S. University of North Georgia 2009; M.S. 2012; Ph.D. University of Tennessee 2016; Assistant Professor of Counselor Education 2016.

BARBARA HICKMAN, B.A. University of Minnesota 1985; B.S. University of Minnesota 1986; M.A. Saint Mary’s College 1997; Ed.D. Northern Arizona University 2017; Assistant Professor 2019.

JIHYUN LEE, B.A. Daegu University 2006; M.Ed. Korea National University 2012; M.S. University of Wisconsin-Madison 2014; Ph.D. University of Texas-Austin 2018; Assistant Professor 2019.

ROBERT MADDOX, B.S Missouri State University 2005; M.A. Southeast Missouri State University 2009; Ed.S. Southeast Missouri State University 2011; Ph.D. University of Wyoming 2015; Assistant Professor 2019.

LAY-NAH BLUE MORRIS-HOWE, B.S. University of Wyoming 2004; M.S. 2007; Ph.D. 2011; Assistant Professor of Counselor Education 2015.

MARK PERKINS, B.A. Ft. Lewis College 2001; M.A. University of Colorado-Denver 2009; Ph.D. Colorado State University 2014; Assistant Professor of Educational Research, 2020.

Associate Professional Lecturer:

TIFFANY HUNT, B.S. University of Wyoming 2001; M.S. University of Northern Colorado 2006, Ph.D. 2017; Assistant Professional Lecturer of Special Education 2014.

Professors Emeritus

Martin Agran, Mary Alice Bruce, John Cochenour, Ace Cossairt, Kay Cowie, Michael Day, Deborah McGriff, Alan Moore, Kay Persichitte, Suzanne Young.

School of Teacher Education

School Director: Alan Buss

Professors:

STEVEN M. BIALOSTOK, B.A. University of the Pacific 1975; M.S.W. California State University - Sacramento 1986; Ph.D. University of Arizona 1999; Professor of Elementary and Early Childhood Education 2015, 2000.

ANDREA C. BURROWS, B.S. University of Central Florida 1992; M.S. Florida State University 1994; Ed.D. University of Cincinnati 2011; Professor of Secondary Education 2017, 2011. Associate Dean of Undergraduate Programs 2020.

PETER WILLIAM MORAN, B.A. University of Wyoming 1987; M.A. Kansas State University 1993; Ph.D. 2000; Professor of Elementary and Early Childhood Education 2020, 2005.

ALLEN TRENT, B.A. Eastern Kentucky University 1986; M.S. University of Dayton 1992; Ph.D. The Ohio State University 2000; Professor of Elementary and Early Childhood Education 2012.

Associate Professors:

TAO HAN, B.A. Sungshin Women's University, Korea 1984; M.A. University of Arizona 1993; M.A. University of Nevada-Reno 2002; Ph.D. 2006; Associate Professor of Elementary and Early Childhood Education 2016, 2010.

ANA HOUSEAL, B.A. University of Iowa 1985; M.A. University of Northern Iowa 1998; Ph.D. University of Illinois 2010; Associate Professor of Elementary and Early Childhood Education 2017, 2011.

TRICIA JOHNSON, B.S. Lehigh University 1991; M.Ed. 1993; Ed.S. George Washington University 1997; Ed.D. Columbia University 2004; Associate Professor of Elementary and Early Childhood Education 2012.

KATHERINE MUIR WELSH, B.A. University of California-Berkeley 1986; Single Subject Teaching Credential (Life Sciences) University of California-Santa Barbara 1990; Ph.D. University of California-Los Angeles 2002; Associate Professor of Elementary and Early Childhood Education 2008, 2002.

Assistant Professors:

ALI BICER, B.S. Celal Bayar University 2006; M.S. Texas A&M University 2012; Ph.D. 2016; Assistant Professor of Elementary and Early Childhood Education 2019.

TODD REYNOLDS, B.A. University of Northern Colorado 1998; M.A. 2004; Ed.S. 2008; Ph.D. University of Wyoming 2015; Assistant Professor of Secondary Education 2019.

ALISON MERCIER, B.S. North Carolina State University 2000; M.S. University of North Carolina 2020; Assistant Professor of Secondary Education 2020.

Senior Lecturers:

Associate Lecturers:

JASON KATZMANN, B.S. Texas Women's University 1994; M.A. Colorado College 2000; Ph.D. University of Northern Colorado 2007; Assistant Professor of Educational Studies 2016, 2007.

ROD THOMPSON, B.A. University of Nebraska at Kearney 1991; M.A. University of Northern Iowa 1998; Associate Lecturer of Educational Studies 2019.

Assistant Lecturers:

LINDSEY FREEMAN, B.S. University of Wyoming 2011; M.A. 2018; Assistant Lecturer of Educational Studies 2019.

JENNIFER GERINGER, B.A. University of Texas - San Antonio 1991; M.S. University of Wyoming 1997; Ph.D. 2001; Assistant Lecturer of Elementary and Early Childhood Education 2015.

JANET LEAR, B.S. University of Wisconsin-Madison 1990; M.A. University of California, Berkeley 1998; Ph.D. University of Denver 2017; Assistant Lecturer of Educational Studies 2019.

ROCHELLE MCCOY, B.A. Western Governors University 2006; M.A. 2012; Assistant Lecturer of Elementary and Early Childhood Education 2019.

Professors Emeritus:
Accreditation

The College of Education, a member of the American Association of Colleges of Teacher Education, is currently accredited by the National Council for the Accreditation of Educator Preparation (CAEP) and is moving toward the Association for Advancing Quality in Educator Preparation (AAQEP) in 2023-2024. The Wyoming Professional Teaching Standards Board (PTSB) and the North Central Association of Colleges and Schools approve the college as an accredited teacher-preparing institution. The Counseling programs are fully accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP).

Academic Advising

Students are assigned an academic adviser who will assist in planning a program combining University Studies requirements, core content requirements, and professional education courses. Students are expected to consult with their adviser regularly. The Teacher Preparation and Advising Office coordinates advising and provides students and faculty with assistance in areas related to academic advising.

Further information on each program is available in:

Teacher Preparation and Advising Office
McWhinnie Hall room 100

Engineering is a profession that truly makes a difference. Engineers constantly discover how to improve lives by creating new solutions to real world problems and needs. From small villages to large cities, engineers are involved in innovative improvements to all aspects of life from health care, to energy production, to protecting and rehabilitating the environment, to developing the newest technological device. The broad background of communication, mathematical, scientific, and problem solving skills provided at the University of Wyoming will prepare engineering graduates to pursue careers in engineering, construction, environmental policy, even medicine or law. The possibilities are endless! The creativity and innovative thinking developed in engineering enables students to lead rewarding lives, work with inspiring people, and give back to their communities. Computer science is a profession that is closely affiliated with engineering. At the University of Wyoming, degrees in computer science are awarded through the College of Engineering and Applied Science. The technology trends in this industry are also advancing at a tremendous
rate. This requires that computer science education be at the forefront of new computing technologies, software languages, and networking.

Mission

The University of Wyoming's College of Engineering and Applied Science will provide excellent education, research, and service in chosen fields of engineering and applied science. The College emphasizes connectivity with society, lifelong learning, and the essential problem-solving and collaborative skills needed to address the frontier challenges facing Wyoming, the nation and the world.

Design Experiences

In direct support of the goals of the individual departments within the College of Engineering and Applied Science, the design process is consistently developed and integrated throughout the curriculum from the freshman year through the senior year. Within the engineering science program, design elements such as basic analysis skills, communication skills, experimental skills, computational skills, problem solving skills, and design methodology are taught. At the departmental level, these skills are developed further and the concepts of design methodology are reinforced. The design process culminates in a comprehensive design experience within the student's major.

Accreditation

The following undergraduate programs are accredited by the Engineering Accreditation Commission of ABET: architectural engineering, chemical engineering, civil engineering, computer engineering, electrical engineering, energy systems engineering, mechanical engineering, and petroleum engineering.

Various options within different engineering programs are accredited as part of the primary major. That is, the electrical engineering/bioengineering option is accredited as an electrical engineering degree, and the chemical engineering/petroleum option is accredited as a chemical engineering degree.

The Bachelor of Science in Computer Science is accredited by the Computer Accreditation Commission of ABET.

Programs of Study

Undergraduate Degrees

- Bachelor of Science in Architectural Engineering
- Bachelor of Science in Chemical Engineering
- Bachelor of Science in Civil Engineering
- Bachelor of Science in Computer Engineering
- Bachelor of Science in Computer Science
- Bachelor of Science in Computer Science (Computers and Business Option)
- Bachelor of Science in Computer Science (Big Data Option)
- Bachelor of Science in Construction Management
- Bachelor of Science in Electrical Engineering
- Bachelor of Science in Electrical Engineering (Francis M. Long bioengineering option)
- Bachelor of Science in Energy Systems Engineering
Bachelor of Science in Mechanical Engineering
Bachelor of Science in Petroleum Engineering

Graduate Degrees

Master of Science

Architectural engineering
Atmospheric science
Chemical engineering
Civil engineering
Civil engineering/water resources
Computer science
Computer science professional
Electrical engineering
Environmental engineering
Mechanical engineering
Petroleum engineering

Doctor of Philosophy

Atmospheric science
Chemical engineering
Civil engineering
Computer science
Electrical engineering
Mechanical engineering
Petroleum engineering

Candidates for the various master's degrees in engineering are required to do a full year's work in residence either under Plan A or Plan B.

Students should understand that a strong background in mathematics is necessary to actively pursue an engineering curriculum. Credit toward an engineering degree is not allowed for algebra and trigonometry.

Coursework in all four-year curricula stresses the mastery of subjects fundamental to all fields of engineering. The balance of the program is divided between cultural context and courses applying to the particular field selected. The aim is to provide the student with such groundwork that the general principles acquired may be used successfully in any one of the several specialized fields he or she may follow after graduation.

Depending on the major, a minimum of 120 to 132 semester hours of credit is required for the bachelor's degree from the College of Engineering and Applied Science. All course work must be selected with prior approval. Detailed outlines of curricula are presented later under headings of the various departments of the college. Since most engineering programs are similar during the first year, students may change an engineering major during this time with little or no loss in credit.

Degree candidates must meet the academic requirements of the university and must have a grade point average of 2.000 (C) or above in all engineering courses attempted at this university.

Students may not take a course for S/U credit to satisfy any requirement for a degree from the College of Engineering and Applied Science, unless the course is offered for S/U credit only.
The College of Engineering and Applied Science adheres to prerequisite coursework being completed before moving forward to advanced coursework. If a student is found to be enrolled in a course without meeting the prerequisites, the student will be administratively dropped from the course.

All undergraduate engineering programs within the College of Engineering and Applied Science use the Fundamentals of Engineering Exam as one of their methods of outcomes assessment. As a graduation requirement, students must complete the exam, with a good faith effort, within one year prior to their expected graduation.

Preparation for the profession of engineering requires diligent work in the various curricula. The required credit hours can be completed in a four-year program, but because of the rigorous nature of some of the courses involved, some students may require additional time to complete degree requirements.

All engineering curricula are subject to minor program changes. The published curricula are general guides. Prospective students should consult the individual departments for current information.

International Engineering Minor

Students in the College of Engineering and Applied Science may earn a Minor in International Engineering. The Minor requires:
- a) a study abroad experience;
- b) 9 credits of lower-division coursework; and
- c) 9 credits of upper-division coursework.

More detailed requirements are available at: http://www.uwyo.edu/ceas/academics/intleng.html

Graduate Study

The College of Engineering and Applied Science offers coursework and research opportunities leading to the following master's degrees: master of science in atmospheric science, chemical engineering, civil engineering, computer science, electrical engineering, environmental engineering, mechanical engineering, and petroleum engineering. Candidates for the various master's degrees in engineering are required to do a full year's study in residence either under Plan A or Plan B.

Only graduates with satisfactory GPAs in programs accredited by ABET are granted full admission to graduate study. In addition, graduates with satisfactory GPAs in undergraduate disciplines of meteorology, physics, mathematics, or related fields can be granted full admission to graduate studies in atmospheric science. Other engineering graduates can be admitted on a provisional basis.

The College of Engineering and Applied Science offers coursework and research opportunities leading to the following doctoral degrees: doctorate in atmospheric science, chemical engineering, civil engineering, computer science, electrical engineering, mechanical engineering, and petroleum engineering. Interdisciplinary programs of study and research leading to one of the above disciplinary degrees can be developed.

Engineering Science

Program Director: David Mukai, Ph.D.
2076 Engineering Building,
(307) 766-6181
FAX: (307) 766-4444
Engineering Science offerings present the fundamental engineering concepts upon which most engineering analysis and design work is based. Faculty are drawn from all of the academic departments in the college. These core courses represent the majority of engineering offerings at the freshman and sophomore level.

Courses in engineering science have their roots in mathematics and physical science, extending knowledge toward creative application. Thus, students must take their courses in calculus, chemistry, physics, and engineering science in a timely manner. Details are given in the published curriculum for each program. A grade of C or better must be earned in all courses that are prerequisite to any required engineering science course.

**Minor**

**International Engineering Minor**

The International Engineering minor is an 18 credit hour program open to all engineering students. Cornerstones are a study abroad experience and coursework to help students gain understanding of perspectives and viewpoints from around the world.

**Study Abroad Requirement**

All students earning the International Engineering Minor must complete an educational experience outside of the United States. Examples are:

- Semester or year abroad at a college or university
- UW faculty-led study abroad program
- International service-learning experience (such as Engineers Without Borders, or Alternative Spring Break)
- Internship with a company outside the United States
- Research experience outside the United States

**Coursework**

The coursework is 18 total credits - these credits may also count toward major degree program. The coursework is intended to help students gain understanding of perspectives and viewpoints from around the world.

**Lower Division Coursework**

Select 9 credits from the following courses:

- Foreign language courses (except American Sign Language)
- 1000 or 2000 level Engineering courses completed during a Study Abroad program
- 1000 or 2000 level courses in International Studies (INST)
- Any of the courses listed below

**ANTH2200 - World Culture**
Credits: 3
Provides an understanding of cultural behavior of people in various geographical areas of the world. Students read ethnographies, cultural descriptions of societies, written by cultural anthropologists.

**When Offered** (Normally offered at least once a year)
USP 2003-2014 Code U3G, U3CS
A&S College Core 2015 ASG

**ANTH1200 - Introduction to Cultural Anthropology**

Credits: 3
Introduction to foreign, especially non-western, cultures through anthropological concepts, films and ethnographies.

USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

**ECON1000 - Global Economic Issues**

Credits: 3
Economics: creating value through trade, enhancing society through ideas, and protecting the environment by design. This introductory course will help you understand better on how people use both free markets and government regulations to create value, enhance society, and protect nature. You will explore how economic ideas and tools address big global issues like poverty and prosperity, inequality of wealth, capital and labor, sustainable development, free trade vs fair trade, climate change, war and peace, migration, brain drains, and science and nature.

USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H

**ERS1300 - Oil: Business, Culture, and Power**

Credits: 3
A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

**Cross Listed** ECON 1300.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

**GEOG1000 - World Regional Geography**

Credits: 3
Covers the distributions, traits, and processes of the Earth's peoples and landscapes through the perspective of regional geography, which is the study of the spatial relationships of natural environments and human societies.
REL1000 - Introduction to Religion

Credits: 3
Introduces world religions and shared characteristics. Draws on various academic approaches to religion study, emphasizing similarities and differences among wide variety of religions.

INBU1040 - Introduction to International Business

Credits: 3
A broad survey of the field of international business which introduces basic concepts of international business activity and theory and reviews major foreign environmental forces—financial, economic and socioeconomic, physical, sociocultural, political, legal, labor, competitive and distributive.

Upper Division Coursework

Select 9 credits from the following courses:

- 3000 or 4000 level Engineering courses completed during a Study Abroad program
- 3000 or 4000 level courses in International Studies (INST)
- Engineering design courses with an International focus
• Internship credits earned from an International internship
  (Must be approved by International Engineering Minor Coordinator, in advance, with course syllabus or
  internship plan with detailed International content.)
• Undergraduate Research (for-credit) experience with an International focus
  (Must be approved by International Engineering Minor Coordinator, in advance, with course syllabus or
  internship plan with detailed International content.)
• Any of the courses listed below

**ARE3030 - History of Architecture**

Credits: 3
A survey of the history of architecture and its allied fields, focusing on the formal, aesthetic, cultural and socio-political
dimensions, from prehistory to the present.

Cross Listed ART 3030.
USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
Prerequisite: WA or COM1.

**ART3030 - History of Architecture**

Credits: 3
A survey of the history of architecture and its allied fields, focusing on the formal, aesthetic, cultural and socio-political
dimensions, from prehistory to the present.

Cross Listed ARE 3030.
USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
Prerequisite: WA or COM1.

**CHE4000 - Environment, Technology and Society**

Credits: 3
Explores relationships among technology, the environment and society. Examines social and humanistic aspects of
using current and future technology to understand and solve environmental problems.

Cross Listed PETE 4000.
Prerequisite: junior standing and completion of two lab sciences.

**PETE4000 - Environment, Technology and Society**

Credits: 3
Explores relationships among technology, the environment and society. Studies social and humanistic aspects of using
current and future technology to understand and solve environmental problems.

Cross Listed CHE 4000.
Prerequisite: junior standing and completion of two lab sciences.
Graduate

Engineering and Applied Science, MBA/MS Dual Degree

Students who hold both an MBA and an MS in Engineering set themselves apart when entering the competitive marketplace. As leaders, not only do they speak the technical lingo, they also understand the overall strategy and operational goals.

MS/MBA Dual Degree Requirements

The MS/MBA is typically a non-thesis option. An additional 21 credits in engineering, science or mathematics must be earned beyond the BS degree. At least 15 credits of graduate course work must be at the 5000-level from the respective EAS graduate program.

MBA Courses

All students pursuing a dual degree program with the College of Engineering and Applied Science and the College of Business must meet the admission requirements for both programs in order to be considered for the dual degree program. If admitted to both programs, students will complete the following requirements:

Any 9 credit hours of the following required MBA core courses can be counted towards the MS/MBA degree.

**MBAM5202 - Data and Decision Modeling**

Credits: 3
This course will prepare students to use computer-based models for solving problems in the areas of operations, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analytics including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

**Prerequisite:** Admission to the MBAM program.

**MBAM5102 - Operations Management**

Credits: 3
Production and operations management. Topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, and scheduling.

**Prerequisite:** Admission to the MBAM program.

**MBAM5104 - Organization Behavior and Human Resource Management**

Credits: 3
Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

**Restricted** Admitted to MBA, MBAE or MBAF program.
**Prerequisite:** Admission to the MBAM program.

**MBAM5204 - Financial Management**

Credits: 3
Students taking this course should expect to learn the fundamentals principles of environmental influences on corporate financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

**Prerequisite:** Admission to the MBAM program.

**MBAM5207 - Marketing Management**

Credits: 3
Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage.

**Restricted** Admitted to MBA, MBAE or MBAF program.

**Prerequisite:** Admission to the MBAM program.

**MBAM5208 - Managerial Accounting**

Credits: 3
This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of business decisions.

**Prerequisite:** Admission to the MBAM program.

**MBAM5330 - Global Business Environment**

Credits: 3
Max Credit 3

Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.

**Restricted** Admission to the MBA, MBAE, or MBAF program.
**Prerequisite:** Admission to the MBA program, or permission from the MBA Program Director.

**MBAM5305 - Strategic Management**

Credits: 3

Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations.

**Prerequisite:** Admission to the MBAM program. #304.

**Program Specific Requirements**

Please review the specific program requirements for each program within the dual degree agreement.

- Business Administration, M.B.A.
- Mechanical Engineering, M.S.
- Petroleum Engineering, M.S.

**Thesis Option**

For a thesis option, students will only count one MBAM course from the above list and are required to complete 4 credits of ME 5960 and 2 credits for ME 5478 similar to the Plan A option.

**Department of Atmospheric Science**

6034 Engineering Building, (307) 766-3245
FAX: (307) 766-2635
Web site: www.atmos.uwyo.edu
Department Head: Jeffrey French

**Professors:**

BART GEERTS, Licenciat Physical Geography Katholieke University, Belgium 1984; Engineer in Irrigation Sciences 1986; Ph.D. University of Washington 1992; Professor of Atmospheric Science 2011, 1999.

JEFFREY R. FRENCH, B.S. South Dakota School of Mines 1992; M.S. 1994; Ph.D. University of Wyoming 1998; Associate Professor of Atmospheric Science 2021, 2015.

ZACHARY J. LEBO, B.S. Pennsylvania State University 2007; M.S. 2009; Ph.D. California Institute of Technology 2012; Associate Professor of Atmospheric Science 2021, 2015.
**SHANE MURPHY**, B.S. University of Colorado 2000; Ph.D. California Institute of Technology 2009; Associate Professor of Atmospheric Science 2019, 2011.

**Assistant Professors:**

**DANA CAULTON**, B.S. Indiana University 2010; Ph.D. Purdue University 2014; Assistant Professor of Atmospheric Science 2018.

**DANIEL T. MCCOY**, B.S., New Mexico Institute of Mining and Technology, 2010; PhD., Atmospheric Science, University of Washington, 2016. Assistant Professor of Atmospheric Science 2020.

**Adjunct Professors:**

Xiaohong Liu
Zhien Wang

**Professors Emeritus:**

Atmospheric Science is a rapidly evolving discipline aimed at better understanding the earth's atmosphere and sits at the nexus between meteorology, physics, chemistry, biology, engineering, mathematics and computer science. The entire development of atmospheric science demonstrates how progress can result from the application of knowledge developed in the basic sciences to a complex environmental system. Concurrently, atmospheric scientists develop many observational and analytical techniques unique to the study of the atmosphere. Over the past decades, atmospheric science developed vigorously, stimulated by the availability of the latest satellite, ground-based and aircraft observations, as well as the availability of large computers for numerical simulations of atmospheric processes. At the same time, the importance of the atmosphere as a crucial resource in the welfare and survival of humankind is being recognized, as knowledge about how the atmosphere behaves is obtained.

The Department of Atmospheric Science offers graduate programs leading to the M.S. and Ph.D. degrees. In these graduate programs, great emphasis is placed on the active research involvement of students both during the academic year and during the summer months. The low student to faculty ratio in the department ensures an atmosphere of cooperation among students, faculty and staff. Student theses and dissertations form integral parts of the department's research productivity and usually lead to articles published in the refereed literature.

Research interests in the department center around cloud and precipitation physics, cloud and mesoscale atmospheric dynamics, boundary layer processes, tropospheric aerosols and atmospheric chemistry, climate change, instrumentation and air quality. These interests are reflected in the department's academic program, which has the breadth and depth necessary to give students a background for entering into many different types of employment upon graduation.

A number of unique research tools are available in the department. Prominent among these is the King Air research aircraft which carries extensive instrumentation and computer-directed data acquisition systems. A mobile lab for sampling near surface atmospheric gases and aerosols can be deployed across the United States. Excellent laboratory facilities are available in the department's spacious quarters. These laboratories focus on cloud physics, remote sensing,
aerosol, and atmospheric chemistry. Well-equipped electronic and mechanical construction and design facilities are conducive for work in instrument development. A wide range of computer facilities are available, including access to the NCAR/Wyoming Supercomputer Center(NWSC). The Department of Atmospheric Science is the lead user of the Wyoming allocation of the NWSC.

A prerequisite for admission to the graduate program is a bachelor's degree in meteorology, engineering, physics, chemistry, mathematics or a similar relevant discipline. Graduate assistantships are available by application to the department and are awarded on the basis of past record and promise for achievement.

For material containing further details on curriculum and research programs, write to the graduate admissions coordinator or visit the web site at www.uwyo.edu/atsc/.

### Graduate Study

The Department of Atmospheric Science offers degree programs leading to the master of science and doctor of philosophy degrees. The department has strong research programs in the following areas: cloud physics and dynamics; tropospheric aerosols and clouds; greenhouse gases; air pollution and wildfires; boundary layer processes; remote sensing; and airborne instrumentation. The department's observational facilities are: 1) the King Air research aircraft (UWKA); 2) the Air Quality Mobile Lab and the Wyoming Air Quality Monitoring Lab; 3) the Wyoming Cloud Radar (WCR) and Wyoming Cloud Lidar (WCL) for the study of cloud structure and composition; and 4) the Keck Aerosol Laboratory. The UWKA, WCR, and WCL are designated Lower Atmospheric Observing Facilities by the National Science Foundation (NSF). Please refer to the departmental homepage at www.atmos.uwyo.edu for programmatic updates, or contact the department directly.

### Program Specific Admission Requirements

Admission based on the university minimum requirements. Admissions are competitive.

### Program Specific Graduate Assistantships

Assistantships are offered for both the M.S. and Ph.D. tracks.

### Program Specific Degree Requirements

#### Master's Program

Approval of research plan by the graduate committee Colloquium and oral defense of M.S. thesis Approval of M.S. thesis by the graduate committee Requires a minimum of 26 hours of acceptable graduate coursework and four hours of thesis research and a thesis (final written project). 21 in-residence coursework hours

#### Doctoral Program

Approval of research plan by the graduate committee At least one colloquium presentation per year Preliminary exam Oral defense of Ph.D. dissertation Approval of Ph.D. dissertation by the graduate committee Ph.D. requires a minimum of 72 graduate hours, with at least 42 hours in formal coursework. This includes appropriate coursework from a master's degree. Additional credits toward the 72 credit hour requirement may include dissertation research hours, internship hours, or additional coursework. 24 in-residence coursework hours
Required Courses

These courses are required for the master's program.

ATSC 5010: Physical Meteorology. 4.
ATSC 5014: Dynamic Meteorology. 4.
ATSC 5016: Synoptic Meteorology. 4.
ATSC 5018: Ethics & Research Methods. 1.

UW Elective(s) to be determined by committee. 9 minimum

Graduate

Atmospheric Science, M.S.

The Master of Science degree in Atmospheric Science prepares the recipient to work in fields related to meteorology, weather and forecasting, air quality, climate change and environmental regulation.

Program Specific Degree Requirements

Approval of research plan by the graduate committee
Colloquium and oral defense of M.S. thesis
Approval of M.S. thesis by the graduate committee

A minimum of 30 hours of acceptable graduate credit hours that includes at least:

- 26 hours of acceptable graduate coursework and
- 4 hours of thesis research

21 graduate credits must be earned in the Department of Atmospheric Science

Required Courses

These courses are required for the master's program.

**ATSC5010 - Physical Meteorology I**

Credits: 4
First and second law of thermodynamics applied to energy transformations in the atmosphere, including dry, moist, and saturated processes and atmospheric stability. Fundamentals of radiation including blackbody, planetary budget, and propagation and how these drive the thermodynamics of the earth's atmosphere.

**Prerequisite:** MATH 2210, PHYS 1310 and PHYS 1320 or equivalent.
ATSC5011 - Physical Meteorology II

Credits: 4
Quantitative description of cloud particle nucleation, growth by condensation, and growth by deposition and collection. Ties to other atmospheric processes, e.g., radiation budgets and cloud dynamics, are also emphasized. Course material is presented in lecture and computer-based laboratory settings. A numerical cloud model is developed and analyzed in the laboratory.

Prerequisite: ATSC 5010.

ATSC5014 - Dynamic Meteorology

Credits: 4
Development and interpretation of the atmospheric equations of motion, scales of motion, horizontal atmospheric winds, thermal wind equation, circulation and vorticity, mesoscale motions. Introduction to planetary boundary layer flows. Data visualization software is also introduced and used to develop understanding of dynamical processes.

Prerequisite: MATH 2210, PHYS 1310 and PHYS 1320 or equivalent.

ATSC5016 - Synoptic Meteorology

Credits: 4
Large-scale vertical motion as viewed from quasigeostrophic and isentropic potential vorticity perspectives. Baroclinic instability, and the structure and evolution of extratropical cyclones. Identification and development of fronts, jet streams and associated weather features. Role of topography on large-scale circulations.

Prerequisite: MATH 2210, PHYS 1310 and PHYS 1320 or equivalent.

ATSC5018 - Ethics and Research Methods

Credits: 1
Ethics and ethical dilemmas in research and academia and how to address them are discussed. This course also covers general research methodology and describes processes for research funding and disseminating research findings and the peer-review process.

Prerequisite: graduate standing.

Atmospheric Science, Ph.D.

The Doctorate of Philosophy degree in Atmospheric Science prepares the recipient for a career in research studying the atmosphere. Graduates may work in academia, governmental laboratories and agencies, and private industry.

Program Specific Degree Requirements

Approval of research plan by the graduate committee
Successful completion of the Preliminary Examination

Approval of Ph.D. dissertation by the graduate committee

A minimum of 72 hours of acceptable graduate credit hours that includes at least:

- 42 hours of acceptable graduate coursework, and
- 10 hours of thesis or dissertation research

24 graduate coursework hours must be earned in the Department of Atmospheric Science

Department of Chemical Engineering

4055 Engineering Building, (307) 766-2500
Web site: www.uwyo.edu/chemical
Department Head: Patrick Johnson

Professors:

VLADIMIR ALVARADO, B.Sc. Universidad Central de Venezuela 1987; M.S. Institut Francais du Pétrole 2002; Ph.D. University of Minnesota 1996; Professor of Chemical Engineering 2017, 2006.

DAVID M. BAGLEY, B.S. Colorado School of Mines 1984; M.S. Cornell University 1989; Ph.D. 1993; Professor of Chemical Engineering 2011, 2005.

JOSEPH HOLLES, B.S. Iowa State University 1990; M.E. University of Virginia 1998; Ph.D. 2000; Associate Professor of Chemical Engineering 2010.

JOHN OAKEY, B.S. The Pennsylvania State University 1997; M.S. Colorado School of Mines 1999; Ph.D. 2003; Professor of Chemical Engineering 2019, 2010.

MICHAEL V. PISHKO, B.S. University of Missouri-Columbia 1986; M.S. 1987; Ph.D. University of Texas at Austin 1992; Professor of Chemical Engineering 2015.

PATRICK JOHNSON, B.S. Lehigh University 1992; M.S. University of Virginia 1994; Ph.D. Columbia University 2004; Associate Professor of Chemical Engineering 2012, 2006.

Associate Professors:

SAMAN ARYANA, B.S. University of Texas at Arlington 2003; M.S. 2006; Ph.D. Stanford University 2012; Assistant Professor of Chemical Engineering 2013.

KATIE DONGMEI LI-OAKEY, B.S. Shandong University of Technology 1994; M.S. Tianjin University 1997; M.S. University of Colorado at Boulder 1999; Ph.D. 2003; Associate Professor of Chemical Engineering 2018, 2011.

Associate Professor of Practice:
JOHN TATARKO JR., B. ChE, cum laude: 2008 Cleveland State University. MS ChE: 2010 Cleveland State University. MS EE: 2013 University of Louisville. PhD ChE: 2015 University of Louisville.

Assistant Professors:

KAREN WAWROUSEK, B.S. The College of St. Rose 2001; Ph.D. California Institute of Technology 2009; Assistant Professor of Chemical Engineering 2014.

Adjunct Professors:

John Ackerman
Morris Argyle
Youqing Shen
John Schabron

Professors Emeriti:

Chang Yul Cha
H. Gordon Harris
Henry W. Haynes

Chemical Engineering is one of the most versatile of the engineering programs. It prepares students for employment in many diverse fields, such as production of pharmaceuticals, polymers and plastics, semiconductors, heavy industrial chemicals, synthetic fuels, petrochemicals and petroleum refining. Chemical engineers also work in biological engineering, environmental engineering, enhanced oil recovery, corrosion control, metallurgy and microelectronics. Undergraduate chemical engineering training has been found to be an excellent background for graduate work not only in engineering, but also in a number of other fields, including medicine, law, business, and the natural sciences.

The chemical engineering curriculum is based on a sound background in chemistry, mathematics, physics, and biology. The essentials of engineering are added to this foundation, including fluid dynamics and thermodynamics. In order to develop the individual's social consciousness and to broaden the student's educational background, an integrated program of study in the humanities and social sciences is included in the curriculum. Chemical engineering courses in multicomponent thermodynamics, transport phenomena, kinetics, process control and process design are concentrated in the junior and senior years. This program provides training for engineers to enter production, research, product and process development, process design, technical sales and engineering management positions. Training in chemical engineering equips the graduate to solve many of the problems facing society today: human health, energy shortages, synthetic fuels production, water and air pollution, toxic chemical control, and food production. Furthermore, our program prepares students interested in a career in medicine or the life sciences and is suitable for pre-medical and pre-dental students.

The department offers an 18-credit-hour block of approved technical electives. Students select an emphasis in Biological Engineering, Environmental Engineering, Materials Science and Engineering, Chemical Process Industry, Petroleum Engineering, Graduate School Preparation, and Pre-Medicine. Students can also pursue a concurrent major in Chemistry, minors in Physics, Chemistry, Math, Computer Science, Molecular Biology and Business. See department for details. Students are required to take a minimum of 3 credits of Chemical Engineering Technical electives. The Chemical Engineering Program requires that the number of credits of upper division courses be satisfied (ie., 10 credits of Technical electives must be 3000+). The Chemical Engineering program requires 48 hours of 3000 and 4000-level coursework. This is fulfilled by required courses and approved technical electives.
Chemical Engineering degree candidates must meet the academic requirements of the college and, in addition, must have a GPA of 2.000 in Chemical Engineering courses attempted at UW that are applied toward graduation for the B.S. degree from the department.

Students must achieve a C- or better in all chemical engineering courses serving as a prerequisite for another chemical engineering course.

**Chemical Engineering Program Educational Objectives**

Three to six years after graduation, graduates who choose to practice in Chemical Engineering should:

- Successfully practice the profession of Chemical Engineering;
- Demonstrate successful career growth

**Chemical Engineering Program Outcomes**

During the course of study in Chemical Engineering, the student should demonstrate:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
- an ability to communicate effectively with a range of audiences;
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions;
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

**Graduate Study**

The Department of Chemical Engineering offers graduate programs leading to the M.S. and Ph.D. degrees in chemical engineering. The M.S. degree is offered under Plan A and Plan B. In addition, an environmental engineering program, run jointly by the Department of Chemical Engineering, the Department of Petroleum Engineering, and the Department of Civil and Architectural Engineering, offers graduate programs leading to an M.S. in environmental engineering under either Plan A or Plan B.

**Program Specific Admission Requirements**

**Admission Process and Requirements**

**Standard Admission**

Admission is open to students with at least a bachelor's degree who meet the minimum requirements:
1. A GPA of 3.000 (A = 4.000), or equivalent;
2. A GRE score (there is no minimum GRE score requirement)
3. For international applicants who did not attend an English-speaking program in an English-speaking country for all years of their highest degree:
   A TOEFL score of 600 (paper-based), 250 (computer-based), or 80 (Internet based) or an IELTS score of 6.5.

Unofficial transcripts of all prior college-level coursework, test scores and recommendations from three references must be uploaded as parts of the application.

If admission is granted, then official transcripts, GRE and TOEFL scores are required.

Applications submitted by February 1 will be given priority consideration for the fall semester.

The application will not be processed until all the necessary documents have been uploaded.

**Major**

**Chemical Engineering, B.S.**

Chemical Engineering draws upon fundamentals of chemistry, physics, biology, and math to analyze and design processes. Chemical Engineers work in a variety of fields including the energy, medicine, food, microelectronics, biotechnology, environmental, and manufacturing industries. The B.S. in Chemical Engineering is accredited by ABET and provides a path to P.E. licensure.

**Curriculum**

For students entering UW Fall 2022 or later.

**CHE1005 - Introduction to Chemical Engineering**

Credits: 1
Provides an overview of chemical engineering and its role in the current technological importance: energy, biotechnology, production of chemicals, and materials processing. Introduces strategies for solving engineering problems, including ethical considerations and teamwork, discusses process variables, units, mass balance, and data analysis, and incorporates active learning exercises using spreadsheet to solve chemical engineering problems.

**Prerequisite:** concurrent enrollment in MATH 2200.

**CHE2005 - Chemical Process Analysis**

Credits: 3
Introduces analysis of chemical processes using stoichiometry, material and energy balances, thermodynamics and economics.

**When Offered** (Normally offered fall semester)
**Former Course Number** [3000]

**Prerequisite:** C- or better in either CHEM 1050 or CHEM 1020 and concurrent enrollment in MATH 2205.
CHE2060 - Chemical Engineering Computing

Credits: 3
Introduces fundamental concepts in linear algebra, numerical methods and applied statistics needed to solve engineering problems. In this context, this course also introduces and reinforces computational tools that will be useful for other CHE classes.

Prerequisite: C or better in CHE 1005 or ES 1060; C or better in CHE 2005; concurrent enrollment in MATH 2310.

CHE2070 - Chemical Thermodynamics

Credits: 3
Discusses first and second laws of thermodynamics applied to chemical processes, production of power from heat, refrigeration, and liquefaction processes, develops thermodynamic relations for calculating thermodynamic properties of fluids, including the use of equations of state, and introduces heat effects, Gibbs-energy change of reaction, and chemical-reaction equilibria.

Prerequisite: C- or better in CHE 2005, PHYS 1210; C or better in MATH 2210.

CHE2080 - Chemical Engineering Fluid Mechanics

Credits: 3
Introduces the fundamental aspects of macroscopic fluid mechanics, including physical properties, fluid statics, mass, energy, and momentum balances, momentum transport, and flow through pumps, pipes, and other chemical engineering equipment for both incompressible and compressible fluids, and of microscopic fluid mechanics, including differential mass and momentum balances.

Prerequisite: C- or better in CHE 2005, PHYS 1210, and C or better in MATH 2210.

CHE3015 - Chemical Thermodynamics II

Credits: 3
Introduces mixture properties, such as chemical potentials, excess properties, partial molar properties, heats of mixing, fugacities, and practical tools for estimating them from solution theories and equations of state. These tools and concepts are applied to phase and chemical equilibria.

When Offered (Normally offered fall semester)
Former Course Number [3010]

Prerequisite: C or better in CHE 2060, and CHE 2070 or ES 2310.

CHE3026 - Heat Transfer
Credits: 3
Introduces the theory and application of energy transport (e.g. conduction, convection, radiation), discusses in depth fundamentals of microscopic energy transport, and applies the knowledge to macroscopic chemical engineering processes and systems.

**Prerequisite:** C- or better in CHE 2060, and CHE 2080 or ES 2330.

**CHE3028 - Mass Transfer**

Credits: 3
Introduces mass transfer concepts, including molecular diffusion, convective mass transfer, and mass transfer between phases, and the development of mathematical models of these physical phenomena, applicable to the analysis and design of chemical processes.

**Prerequisite:** C- or better in CHE 2005, CHE 2060, and CHE 2080 or ES 2330.

**CHE3040 - Unit Operations Laboratory I**

Credits: 3
Laboratory experiments examining settling, pump performance, heat transfer, adsorption, gas transfer, and distillation. Introduces topics in statistics including: probability distributions, mean, median, mode, variance and standard deviation, systematic and random error, confidence intervals, and t-tests, F-tests and ANOVA. Emphasizes the preparation of formal laboratory reports including experimental error analysis.

**When Offered** (Normally offered fall semester)
USP 2003-2014 Code U3WB
**Prerequisite:** C- or better in CHE 3026 and CHE 3028 and CHE 4060. (Normally offered fall semester)

**CHE4050 - Unit Operations Laboratory II**

Credits: 3
Laboratory experiments examining heat transfer and process control. Also requires students to design, conduct and analyze 'open-ended' experiments. Introduces LabView and covers factorial experimental design and linear and non-linear data regression approaches. Emphasizes the preparation of a formal report describing all aspects of the experiments.

**When Offered** (Normally offered spring semester)
USP 2003-2014 Code U3WC
**Prerequisite:** C- or better in CHE 3040. (Normally offered spring semester)

**CHE4060 - Reaction Engineering**

Credits: 3
Introduces chemical process kinetics, catalysis and reactor design. Includes homogeneous and heterogeneous reaction kinetics; design of batch, stirred-tank and tubular reactors; and nonisothermal operation.
When Offered: Normally offered spring semester
Prerequisite: C- or better in CHE 3015 and CHE 3026 and concurrent enrollment in CHE 3028.

CHE4070 - Process Simulation & Economics

Credits: 4
Max Credit: 4

Introduces simulation software used to model chemical processing. Techniques used to determine economic feasibility of chemical plants are described.

When Offered: Normally offered fall semester
Prerequisite: C or better in CHE 3028 and CHE 4060

CHE4080 - Senior Design

Credits: 4
Max Credit: 4

Intended for the senior year. Applies all previous courses to the design of safe, economical and environmentally benign processes.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: COM-2, concurrent enrollment in CHE 4070

CHE4090 - Process Dynamics and Control

Credits: 3

Encompasses analysis and design control systems for the chemical process industry including steady-state approximation, types of controllers, simple unsteady-state analysis, use of mathematical models and process dynamics under control.

Prerequisite: C- or better in CHE 3028 and CHE 4060.

CHEM1050 - Advanced General Chemistry I

Credits: 4

First semester of a one-year series covering chemical principles. Emphasizes inorganic chemistry and briefly discusses qualitative analysis. Credit not given for more than one of CHEM 1020, 1050 and CHEM 1000.

Lab/Lecture Hours: Laboratory: 3 hours per week.
When Offered: Normally offered fall semester
USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: one year high school chemistry, and an ACT Math score of 27 or higher or concurrent enrollment in MATH 2200.
CHEM1060 - Advanced General Chemistry II

Credits: 4
Second semester of a one-year series covering chemical principles. Emphasizes inorganic chemistry and briefly discusses qualitative analysis. Credit not given for more than one of CHEM 1030 and 1060.

Lab/Lecture Hours Laboratory: 3 hours per week.
When Offered (Normally offered spring semester)
USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: CHEM 1050 or CHEM 1020, with permission of the instructor.

CHEM2420 - Organic Chemistry I

Credits: 4
First semester of a one-year sequence in organic chemistry. Approached from the viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week. No credit allowed in CHEM 2420 if credit earned in CHEM 2300.
When Offered (Normally offered fall)
Prerequisite: CHEM 1030 or CHEM 1060.

CHEM2440 - Organic Chemistry II

Credits: 4
Second semester of a one-year sequence in organic chemistry. Approached from viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week.
When Offered (Normally offered spring semester)

A&S College Core 2015 Note: CHEM 2300 is not an acceptable prerequisite for CHEM 2440.
Prerequisite: CHEM 1030 or CHEM 1060 and CHEM 2420.

CHEM4507 - Physical Chemistry I

Credits: 3
First semester of a one-year sequence. Emphasis on introductory quantum mechanics, atomic structure, molecular bonding and structure and spectroscopy. Kinetic molecular theory of gasses may be introduced. Uses multivariable calculus, differential equations and some linear algebra.

When Offered (Normally offered full semester)
Prerequisite: one year of general chemistry, multivariable calculus, one year of general college physics.

COSC1010 - Introduction to Computer Science I
Credits: 3
Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

**LIFE1010 - General Biology**

Credits: 4
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN
**Former Course Number** [BIOL 1010]

**Prerequisite:** Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

**MATH2200 - Calculus I**

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2210 - Calculus III**

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.
Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

PHYS1210 - Engineering Physics I

Credits: 4
First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

University Studies Program Requirements

The University Studies Program 2015

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3  

Approved coursework does not include courses taken within the student's major department.

**H- Human Culture (2)**

Credits: 3  
Max Credit 3  

Approved coursework does not include courses taken from the students' major department.

**V- U.S. & WY Constitution**

Credits: 3  
Max Credit 3  

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Approved Electives**

See CEAS Advising Center for a current list of approved technical electives. There are a total of 18 credits required for technical electives.

**Transfer Coursework:** All Wyoming Community College equivalent courses will be evaluated for acceptance into the CHE program. For upper-division coursework, **no more than two CHE 3000+ courses can be transferred and applied to the CHE degree**, however, CHE4070 - Process Simulation & Economics and CHE4080 - Senior Design **cannot** be transferred to UW.

In addition, all CHE transfer courses must be completed with a grade of C- or better.

**Program Educational Objectives**

Three to six years after graduation, graduates who choose to practice in Chemical Engineering should:

- Successfully practice the profession of Chemical Engineering;
- Demonstrate successful career growth

**Chemical Engineering Program Outcomes**

During the course of study in Chemical Engineering, the student should demonstrate:
• an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
• an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
• an ability to communicate effectively with a range of audiences;
• an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;
• an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;
• an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions;
• an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Minor

Biomedical Engineering Minor

Biomedical Engineering is an interdisciplinary field that combines principles of biology and medicine with engineering design to produce healthcare innovations. Biomedical engineers contribute to medical technologies in a variety of areas including diagnostics, therapeutics, imaging, bioinformatics, and rehabilitation.

Learning Outcomes:

A student who has completed the Biomedical Engineering Minor will have:

1. Experience and proficiency in applying principles of engineering, biology, human physiology, chemistry, calculus-based physics, differential equations, and statistics;
2. Experience and proficiency in solving biomedical engineering problems, including those associated with the interaction between living and nonliving systems;
3. Experience and proficiency in analyzing, modeling, designing, and realizing medical (biomedical engineering) devices, systems, components, or processes;
4. Experience and proficiency in making measurements on and interpreting data from living systems;
5. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
6. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
7. An ability to communicate effectively with a range of audiences.
8. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
9. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
10. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
11. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Biomedical Engineering is an interdisciplinary field that combines principles of biology and medicine with engineering design to produce healthcare innovations. Biomedical engineers contribute to medical technologies in a variety of areas including diagnostics, therapeutics, imagins, bioinformatics, and rehabilitation. Accordingly, biomedical engineers typically possess a broad biology background and strong engineering design and problem-solving principles. The
The purpose of this minor in Biomedical Engineering is to prepare students studying engineering or the life sciences for careers in industries that develop technologies to advance medicine.

The following curriculum is accessible to students from any major degree program in the College of Engineering and Applied Science (CEAS). Major-specific tracks anticipating the most appropriate groupings of electives are provided to the CEAS advising center. Specialized, more comprehensive programs of study are proposed for students with a particular interest in medical school preparation.

**Coursework:**

The minimum required coursework consists of 18 credits of electives. The course of study can be self-directed or tailored to a student's major degree program. Example coursework tracks are provided below for students pursuing specific engineering majors.

**Chemical Engineering**

Chemical Engineering draws upon the fundamentals of chemistry, physics, and biology to analyze and design processes. Chemical Engineers work in a variety of biomedical disciplines including pharmaceutical production, biomedical devices, tissue engineering, and medical sensing. The following coursework covers biological fundamentals and materials with a focus on process and device design.

**CHE3100 - Fundamentals of Bioengineering**

Credits: 3
An introduction to select biological concepts with emphasis on their relevancy to bioengineering. Topics include model organisms, cells and organelles, bioenergetics and metabolism, macromolecules, DNA replication and modern molecular biology methods, and control mechanisms.

**Prerequisite:** C- or better in LIFE 1010.

**CHE4100 - Biochemical Engineering**

Credits: 3
Applies chemical engineering principles to the analysis and design of biological processes widely used in the pharmaceutical, food and environmental remediation industries. Topics include kinetics of enzyme-catalyzed reactions, cellular growth and metabolism, bioreactor design and mass transfer considerations.

**Dual Listed** CHE 5100.
**Prerequisite:** Completion with a C- or better or concurrent enrollment in CHE 3100 or MOLB 2021.

**CHE4160 - Biomedical Engineering-Transport Processes**

Credits: 3
Focuses on chemical and physical transport processes with applications toward the development of drug delivery systems, artificial organs, bioartificial organs and tissue engineering. Involves topics covering body fluids, capillary solute transport, physical and flow properties of blood, tissue oxygen transport, pharmacokinetic models and cell physiology.
Prerequisite: consent of instructor and grade of C or better in at least three courses counting no more than two from CHEM 1020, CHEM 1030, CHEM 1050, LIFE 1010, LIFE 1020 and at least one from LIFE 2022, MATH 2200, KIN 2040, MOLB 2021, MOLB 2240, CHE 3000, ES 2310.

**CHE4165 - Biomaterials**

Credits: 3
Material science and engineering of the various materials used for biomedical applications, in-depth discussion of the molecular and cellular interactions to implanted materials, as well as a survey of practical applications. Materials covered will include polymers, ceramics, metals, composites, silicones, and natural materials, such as collagen, elastic, and silk.

**Dual Listed** CHE 5165.

**Prerequisite:** LIFE 1010 and CHEM 1020 or CHEM 1050, or permission of instructor.

+ 6 Credits for approved coursework

**Electrical Engineering**

**BE4810 - Bioinstrumentation**

Credits: 3
Electronic systems used to monitor physiological systems and function (cardiovascular, pulmonary, nervous); transducer systems, amplifiers and recording systems used in research and clinical applications. Laboratory.

**Dual Listed** BE 5810.

**Prerequisite:** EE 2210 or similar electric circuit course.

**BE4820 - Biomedical Signal Processing**

Credits: 3
Extraction of signals from noise and data analysis. Emphasis on system modeling of physiological functions from experimental data.

**Dual Listed** BE 5810.

**Prerequisite:** EE 3220, basic course, or equivalent.

**EE5410 - Neural and Fuzzy Systems**

Credits: 3

**Prerequisite:** EE 3220.

**CHE3100 - Fundamentals of Bioengineering**
Credits: 3
An introduction to select biological concepts with emphasis on their relevancy to bioengineering. Topics include model organisms, cells and organelles, bioenergetics and metabolism, macromolecules, DNA replication and modern molecular biology methods, and control mechanisms.

**Prerequisite:** C- or better in LIFE 1010.

**CHE4165 - Biomaterials**

Credits: 3
Material science and engineering of the various materials used for biomedical applications, in-depth discussion of the molecular and cellular interactions to implanted materials, as well as a survey of practical applications. Materials covered will include polymers, ceramics, metals, composites, silicones, and natural materials, such as collagen, elastic, and silk.

**Dual Listed** CHE 5165.
**Prerequisite:** LIFE 1010 and CHEM 1020 or CHEM 1050, or permission of instructor.

**KIN2040 - Human Anatomy**

Credits: 3
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB
**Former Course Number** [PEPR 2040]

**Prerequisite:** LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

**KIN3042 - Biomechanics of Human Movement**

Credits: 3
Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

**Former Course Number** [PEPR 3042]

**Prerequisite:** grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

**Mechanical Engineering**

With a focus upon biomaterials and biomechanics, this minor combines biology and physiology with mechanical engineering. This coursework helps students apply mechanical engineering principles to biological challenges including prosthetics, robotic surgery instruments, and medical device design.
CHE3100 - Fundamentals of Bioengineering

Credits: 3
An introduction to select biological concepts with emphasis on their relevancy to bioengineering. Topics include model organisms, cells and organelles, bioenergetics and metabolism, macromolecules, DNA replication and modern molecular biology methods, and control mechanisms.

Prerequisite: C- or better in LIFE 1010.

CHE4100 - Biochemical Engineering

Credits: 3
Applies chemical engineering principles to the analysis and design of biological processes widely used in the pharmaceutical, food and environmental remediation industries. Topics include kinetics of enzyme-catalyzed reactions, cellular growth and metabolism, bioreactor design and mass transfer considerations.

Dual Listed CHE 5100.
Prerequisite: Completion with a C- or better or concurrent enrollment in CHE 3100 or MOLB 2021.

CHE4160 - Biomedical Engineering-Transport Processes

Credits: 3
Focuses on chemical and physical transport processes with applications toward the development of drug delivery systems, artificial organs, bioartificial organs and tissue engineering. Involves topics covering body fluids, capillary solute transport, physical and flow properties of blood, tissue oxygen transport, pharmacokinetic models and cell physiology.

Prerequisite: consent of instructor and grade of C or better in at least three courses counting no more than two from CHEM 1020, CHEM 1030, CHEM 1050, LIFE 1010, LIFE 1020 and at least one from LIFE 2022, MATH 2200, KIN 2040, MOLB 2021, MOLB 2240, CHE 3000, ES 2310.

CHE4165 - Biomaterials

Credits: 3
Material science and engineering of the various materials used for biomedical applications, in-depth discussion of the molecular and cellular interactions to implanted materials, as well as a survey of practical applications. Materials covered will include polymers, ceramics, metals, composites, silicones, and natural materials, such as collagen, elastic, and silk.

Dual Listed CHE 5165.
Prerequisite: LIFE 1010 and CHEM 1020 or CHEM 1050, or permission of instructor.

KIN2040 - Human Anatomy

Credits: 3
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.
USP 2003-2014 Code U3SB

Former Course Number [PEPR 2040]

**Prerequisite:** LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

**KIN3042 - Biomechanics of Human Movement**

Credits: 3
Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

**Prerequisite:** grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

**Medical School Preparation**

With a focus upon biomaterials and biomechanics, this minor combines biology and physiology with mechanical engineering. This coursework helps students apply mechanical engineering principles to biological challenges including prosthetics, robotic surgery instruments, and medical device design.

**MOLB2240 - Medical Microbiology**

Credits: 4
Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.
When Offered Spring
Prerequisite: LIFE 1010.

**MOLB3610 - Principles of Biochemistry**

Credits: 4
One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

**CHE4160 - Biomedical Engineering-Transport Processes**
Focuses on chemical and physical transport processes with applications toward the development of drug delivery systems, artificial organs, bioartificial organs and tissue engineering. Involves topics covering body fluids, capillary solute transport, physical and flow properties of blood, tissue oxygen transport, pharmacokinetic models and cell physiology.

**Prerequisite:** consent of instructor and grade of C or better in at least three courses counting no more than two from CHEM 1020, CHEM 1030, CHEM 1050, LIFE 1010, LIFE 1020 and at least one from LIFE 2022, MATH 2200, KIN 2040, MOLB 2021, MOLB 2240, CHE 3000, ES 2310.

**CHE4165 - Biomaterials**

Credits: 3  
Material science and engineering of the various materials used for biomedical applications, in-depth discussion of the molecular and cellular interactions to implanted materials, as well as a survey of practical applications. Materials covered will include polymers, ceramics, metals, composites, silicones, and natural materials, such as collagen, elastic, and silk.

**Dual Listed** CHE 5165.  
**Prerequisite:** LIFE 1010 and CHEM 1020 or CHEM 1050, or permission of instructor.

**PHCY3450 - Foundational Pathophysiology**

Credits: 4  
Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

**When Offered** (Normally offered spring semester)  
**Former Course Number** [4450]

**Prerequisite:** LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.  
*Plus the following suggested coursework:*

**ZOO3115 - Human Systems Physiology**

Credits: 4  
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

**Prerequisite:** At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

**ZOO4125 - Integrative Physiology**
Credits: 5
Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

**Former Course Number [3120]**

**Prerequisite:** grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

**MOLB3000 - Introduction to Molecular Biology**

Credits: 3
An introduction to molecular biological processes governing cellular events is presented in the context of the structure of genomes, genes and chromosomes, DNA replication, gene expression, signal transduction pathways and the regulation of cellular processes in disease and development. Experimental methods and technologies will also be discussed.

**Prerequisite:** LIFE 1010 and CHEM 1030; MOLB 2021 or MICR 2021 recommended.

**PSYC1000 - General Psychology**

Credits: 3
Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

**SOC1000 - Sociological Principles**

Credits: 3
Provides a survey of the discipline and foundation for other sociology courses. Explores major areas of interest - ranging from small groups and families to bureaucracies and social movements. Introduces significant concepts and theories, along with tools of social research. Gives attention to contemporary American society, as well as comparative and historical material.

**PHCY6120 - Advanced Pathophysiology**

Credits: 3
Advanced course covering the molecular, cellular, genetic and clinical principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for Doctor of Pharmacy students who will transition into their clinical rotations. Students will jointly meet once per week with students within
PHCY 3450 for interprofessional education revolving around student-led case study presentations.

**Former Course Number** [6220]

**Prerequisite:** LIFE 1010, LIFE 1020, CHEM 1020, CHEM 1030, CHEM 2420, CHEM 2440, MOLB 2240, MOLB 3610, ZOO 3115, ZOO 4125.

**Additional Approved Courses:**

In addition to the suggested tracks above, individual programs may be customized or augmented by selecting from any of the following approved credits, which may be counted in fulfillment of technical elective requirements within the major degree program.

*Select 18 credit hours from the following:*

**CHE3100 - Fundamentals of Bioengineering**

Credits: 3
An introduction to select biological concepts with emphasis on their relevancy to bioengineering. Topics include model organisms, cells and organelles, bioenergetics and metabolism, macromolecules, DNA replication and modern molecular biology methods, and control mechanisms.

**Prerequisite:** C- or better in LIFE 1010.

**CHE4100 - Biochemical Engineering**

Credits: 3
Applies chemical engineering principles to the analysis and design of biological processes widely used in the pharmaceutical, food and environmental remediation industries. Topics include kinetics of enzyme-catalyzed reactions, cellular growth and metabolism, bioreactor design and mass transfer considerations.

**Dual Listed** CHE 5100.

**Prerequisite:** Completion with a C- or better or concurrent enrollment in CHE 3100 or MOLB 2021.

**CHE4160 - Biomedical Engineering-Transport Processes**

Credits: 3
Focuses on chemical and physical transport processes with applications toward the development of drug delivery systems, artificial organs, bioartificial organs and tissue engineering. Involves topics covering body fluids, capillary solute transport, physical and flow properties of blood, tissue oxygen transport, pharmacokinetic models and cell physiology.

**Prerequisite:** consent of instructor and grade of C or better in at least three courses counting no more than two from CHEM 1020, CHEM 1030, CHEM 1050, LIFE 1010, LIFE 1020 and at least one from LIFE 2022, MATH 2200, KIN 2040, MOLB 2021, MOLB 2240, CHE 3000, ES 2310.
CHE4165 - Biomaterials

Credits: 3
Material science and engineering of the various materials used for biomedical applications, in-depth discussion of the molecular and cellular interactions to implanted materials, as well as a survey of practical applications. Materials covered will include polymers, ceramics, metals, composites, silicones, and natural materials, such as collagen, elastic, and silk.

Dual Listed CHE 5165.
Prerequisite: LIFE 1010 and CHEM 1020 or CHEM 1050, or permission of instructor.

CHE3900 - Undergraduate Research

Credits: 1-6
Students carry out research appropriate to undergraduates, under faculty supervision. May be taken more than once.

When Offered (Normally offered each semester)
Prerequisite: junior standing in chemical engineering.

CHE4220 - Metabolic and Protein Engineering

Credits: 3
An introduction to the design of biological systems for conversion of a feedstock to product, with emphasis on synthetic biology and directed evolution design principles, evolutionary mechanisms and tradeoffs. Metabolic pathways and molecules of industrial importance will be discussed, as well as ethics as applied to synthetic biology and bioengineering.

Dual Listed CHE 5220.
Prerequisite: MOLB 2021 or concurrent enrollment in CHE 3100.

BE4810 - Bioinstrumentation

Credits: 3
Electronic systems used to monitor physiological systems and function (cardiovascular, pulmonary, nervous); transducer systems, amplifiers and recording systems used in research and clinical applications. Laboratory.

Dual Listed BE 5810.
Prerequisite: EE 2210 or similar electric circuit course.

BE4820 - Biomedical Signal Processing

Credits: 3
Extraction of signals from noise and data analysis. Emphasis on system modeling of physiological functions from experimental data.
**Dual Listed** BE 5810.
**Prerequisite:** EE 3220, basic course, or equivalent.

**EE4800 - Problems in _____**

Credits: 1-6  
Max Credit (Max. 6)

Section 1 is individual study. Other sections are group study by seminar or class format. Features topics not included in regularly offered courses.

**Prerequisite:** consent of instructor.

**EE5410 - Neural and Fuzzy Systems**

Credits: 3  

**Prerequisite:** EE 3220.

**KIN2040 - Human Anatomy**

Credits: 3  
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB  
**Former Course Number** [PEPR 2040]

**Prerequisite:** LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

**KIN2041 - Human Anatomy Laboratory**

Credits: 1  
A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB  
**Former Course Number** [PEPR 2041]

**Prerequisite:** KIN 2040 or concurrent enrollment in KIN 2040.

**KIN3042 - Biomechanics of Human Movement**
Credits: 3
Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

LIFE3050 - Genetics

Credits: 4
Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

Former Course Number [BIOL 3050/BIOL 4000]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

LIFE3600 - Cell Biology

Credits: 4
Focuses on cell structure, cell function and the regulation of cell processes. Examines many levels of organization, ranging from single molecules and individual cells to multi-cellular systems and the whole organism. Discussion section is required.

Former Course Number [BIOL 3600/BIOL 4600]

Prerequisite: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

MOLB2240 - Medical Microbiology

Credits: 4
Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.
When Offered Spring
Prerequisite: LIFE 1010.
MOLB3000 - Introduction to Molecular Biology

Credits: 3
An introduction to molecular biological processes governing cellular events is presented in the context of the structure of genomes, genes and chromosomes, DNA replication, gene expression, signal transduction pathways and the regulation of cellular processes in disease and development. Experimental methods and technologies will also be discussed.

Prerequisite: LIFE 1010 and CHEM 1030; MOLB 2021 or MICR 2021 recommended.

MOLB4100 - Clinical Biochemistry

Credits: 4
Integrated discussion of biochemical, molecular, and physiological principles underlying human medical disorders and biochemical and molecular genetics tests used in prevention, diagnosis and treatment. Weekly discussion sessions review basic concepts studied by students independently and class sessions include problem solving in an active learning format, lectures and other applied activities.

When Offered Spring
Former Course Number [3980]

Prerequisite: Minimum grade of C in MOLB 3610 or MOLB 4600; course in physiology recommended (e.g. ZOO 3115).

MOLB4260 - Quantitative Microscopy

Credits: 1
Acquaints students with principles of light microscopy, use of fluorescent probes and image processing software. Students use phase contrast, fluorescent, and confocal microscopes learning to measure and compare size and intensity of images.

Dual Listed MOLB 5260.
When Offered Fall
Prerequisite: MOLB 3610 or CHEM 4400 or MOLB 4600, and PHYS 1120.

MOLB4400 - Immunology

Credits: 4
Biology of immune system; cellular and molecular mechanisms; host resistance to infectious agents; as well as hypersensitivities, autoimmunity, tumor and tissue rejection. Includes laboratory for immunological techniques.

Cross Listed PATB 4400.
Dual Listed MOLB 5400.
When Offered Fall
Prerequisite: MOLB 2021 or MICR 2021 or MOLB 2240 or PATB 2220, and a minimum grade of C in MOLB 3000 or MOLB 3610.
MOLB4600 - Advanced Biochemistry

Credits: 3
Emphasis will be placed on identifying essential chemical features of select biomolecules, understanding molecular mechanisms of representative biochemical and bioenergetic processes, and detailing experimental approaches for addressing important research questions in biochemistry.

**Dual Listed** MOLB 5600

**When Offered:** Fall

**Prerequisite:** Minimum grade of C in MOLB 3610 or CHEM 4400

MOLB4610 - Biochemistry 2: Molecular Mechanisms

Credits: 3
Biochemical and molecular mechanisms underlying cell function, including gene expression and epigenetic regulation, RNA and protein modification and function, assembly of macromolecular complexes, signaling and regulation of the cell cycle, are discussed.

**Dual Listed** MOLB 5610

**Prerequisite:** Minimum grade of C in MOLB 3610 or MOLB 4600

PHCY3450 - Foundational Pathophysiology

Credits: 4
Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

**When Offered** (Normally offered spring semester)

**Former Course Number** [4450]

**Prerequisite:** LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

PHCY6120 - Advanced Pathophysiology

Credits: 3
Advanced course covering the molecular, cellular, genetic and clinical principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for Doctor of Pharmacy students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 3450 for interprofessional education revolving around student-led case study presentations.

**Former Course Number** [6220]

**Prerequisite:** LIFE 1010, LIFE 1020, CHEM 1020, CHEM 1030, CHEM 2420, CHEM 2440, MOLB 2240, MOLB 3610, ZOO 3115, ZOO 4125.
ZOO3115 - Human Systems Physiology

Credits: 4
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

ZOO4125 - Integrative Physiology

Credits: 5
Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

Former Course Number [3120]

Prerequisite: grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

*NOTE*
CHE 3100 fulfills the LIFE 2021 & 3050 pre-requisite requirements for CHE 4100, 4160, and 4165. Alternatively, students may take the following in lieu of CHE 3100: MICR 2021 Microbiology (4) or MOLB 3610 Principles of Biochemistry (4)

Process Control Minor

Process control engineers optimize processes and implement quality control systems in the manufacturing industry. They design, test, and oversee the implementation of new processes. Process control engineers are often employed at manufacturing plants that process chemicals, metals, and other materials.

Required Courses

CHE2005 - Chemical Process Analysis

Credits: 3
Introduces analysis of chemical processes using stoichiometry, material and energy balances, thermodynamics and economics.

When Offered (Normally offered fall semester)
Former Course Number [3000]

Prerequisite: C- or better in either CHEM 1050 or CHEM 1020 and concurrent enrollment in MATH 2205.

CHE2090 - Practical Fundamentals of Process Control
Credits: 2
Introduces students to sensors, valves, actuators and the assembly of process control components. Provide hands-on practical experience with level control, flow control, temperature control and pressure control processes. This course consists of one (1) hour of lecture and two (2) hours of laboratory per week.

**Prerequisite:** C or better in MATH 2205.

**CHE3090 - Applying Simulation to Dynamic Processes**

Credits: 1
Introduces students to dynamic simulation software for controlling individual chemical engineering processes. This course consists of two (2) hours of laboratory per week.

**Prerequisite:** C or better in CHE 2005.

**CHE4092 - Controlling Process Systems**

Credits: 3
Capstone process control course. Students will design process control for systems of linked processes including sensing and transmission, final control elements, and controller. This course consists of two (2) hours of lecture and three (3) hours of laboratory per week.

**Prerequisite:** C or better in CHE 3090 and concurrent enrollment in either CHE 4090, EE 4620, or EE 4621.

**CHE4090 - Process Dynamics and Control**

Credits: 3
Encompasses analysis and design control systems for the chemical process industry including steady-state approximation, types of controllers, simple unsteady-state analysis, use of mathematical models and process dynamics under control.

**Prerequisite:** C- or better in CHE 3028 and CHE 4060.

or

**EE4620 - Automatic Control Systems**

Credits: 3

**Prerequisite:** EE 2220 or ME 3020.

or

**EE4621 - Honors Automatic Control Systems**
Credits: 3

**Prerequisite:** EE 2220 or ME 3020.

**Approved Elective Courses**

At least 6 hours of approved elective courses are required for this minor.

**ES2210 - Electric Circuit Analysis**

Credits: 3
Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**EE2220 - Circuits and Signals**

Credits: 4

**When Offered** (Offered spring semester only)

**Former Course Number** [3320]

**Prerequisite:** ES 2210, or ES 2215 and ES 2216.

**EE3220 - Signals And Systems**

Credits: 3
Discrete and continuous-time signals and systems. Topics include linear time-invariant systems; convolution; difference equations; FIR and IIR systems; sampling, aliasing, reconstruction, and quantization. Frequency domain concepts include discrete and continuous Fourier transforms, Z-transforms, system frequency response, Laplace transform properties, and applications of digital filters and DFT analysis.

**When Offered** (Offered spring semester only)

**Prerequisite:** EE 2220.

**ME4020 - Design of Mechanical/Electronic Systems**
Credits: 3
Theoretical and experimental study of sensors and actuators, interfacing sensors and actuators to a microcomputer, discrete and continuous controller design, analog and digital electronics, and real-time programming for control.

**Prerequisite:** Completion of the ME Success Curriculum, ME 3020.

**COSC4450 - Computer Graphics**

Credits: 3
Introduction to computer graphics, an increasingly important area of computer science. Computer graphics, together with multimedia and the World Wide Web, offers exciting new possibilities for the design of human-computer interfaces. Presents the principles, techniques, and tools that enable these advances.

**Dual Listed** COSC 5450.

**Prerequisite:** COSC 3020 and MATH 2250.

**COSC4765 - Computer Security**

Credits: 3
Security is paramount to creating software and systems. This course introduces the fundamentals of computer security and applied cryptography. Topics include vulnerability analysis, common exploits and defense, network/wireless security, reverse engineering, and applied cryptography.

**Prerequisite:** COSC 2030

**CHE4972 - Internship in Process Control Engineering**

Credits: 1-6
Max Credit (Max. 6)

Enables credit for students serving as interns with an approved organization that provides process control and instrumentation experience.

**Prerequisite:** Be enrolled in the Process Control and Instrumentation minor.

**Learning Outcomes**

An engineer who has completed the Process Control and Instrumentation Minor will be able to examine an engineering process that requires automated control and provide a practical control design by:

- Identifying key performance and technical features of the process
- Specifying process variables to control to achieve desired process outcomes
- Identifying the appropriate manipulated variables to achieve control
- Selecting appropriate measurement instrumentation for process variables
- Specifying needed final control elements to effect change of manipulated variables
- Selecting an appropriate controller and control algorithm that achieves stable control
- Testing and tuning the control design in simulation
• Evaluating the control design against performance and economic objectives
• Understand key nomenclature and terms in process control
• Understand the difference between analog and digital components

Graduate

Chemical Engineering, M.S.

Graduate Study Guidelines

All incoming M.S. Plan A and M.S. Plan B students must have an adviser. The student is responsible for contacting faculty members in order to find an adviser.

All Chemical Engineering graduate students must take the following Chemical Engineering Core courses:

**CHE5020 - Thermodynamics**

Credits: 3
Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

**Cross Listed** PETE 5020.  
**Prerequisite:** graduate standing.

**CHE5010 - Transport Phenomena**

Credits: 3
Examines the modeling of momentum, heat and mass transport.

**Cross Listed** PETE 5010.  
**Prerequisite:** ES 2330, MATH 2310, and graduate standing in Chemical or Petroleum Engineering.

**CHE5030 - Reaction Kinetics**

Credits: 3
An analysis of reactions involving phase boundaries, heterogeneous catalysis, gas-solid systems, and gas-liquid systems.

**Prerequisite:** CHE 4060.

**CHE5355 - Mathematical Methods in Chemical Engineering**

Credits: 3
Covers mathematical modeling: conservation laws and constitution relationships; partial differential equations (PDEs): the types and analytical solution techniques; applied linear algebra; matrices and Eigen-analysis; numerical solution techniques: finite difference and finite element methods, Newton-Raphson method, and temporal discretization.
techniques, and linear solution techniques: direct and iterative methods.

**Dual Listed** PETE 5355

**Prerequisite:** MATH 2210, CHE/PETE 3025 or equivalent.

**Credit Hours**

- Total (from above) Credits: 12
- CHE 5960 - Thesis Research Credits: 4
- Electives Credits: 14
- Total Credits: 30

**Plan B (Non-Thesis)**

The coursework requirements are the same as the M.S. Plan A requirements except that Thesis Research (CHE 5960) is not required. Plan B students take an additional 4 hours of elective course credits (a total of 30 hours required).

M.S. Plan B students must write a paper on a topic assigned by the adviser and present their work to the graduate committee. This paper must be submitted to the student's graduate committee for approval at least one week prior to the oral presentation.

**M.S. Seminar Requirements**

All chemical engineering graduate students must enroll in CHE 5890, Chemical Engineering Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Registered off-campus graduate students can be exempt from having to enroll in CHE 5890.

**M.S. Thesis**

All M.S. Plan A students must orally defend their thesis at a public final examination. At least two weeks before the examination, the student must provide each member of the graduate committee with a copy of the written M.S. thesis and provide the department an announcement of their defense for advertisement by bulletin board, e-mail, or other means. The results of the examination are reported on the Report of Final Examination form. Graduate committee members may request changes in the thesis, and they may postpone signing the form until they are satisfied that those changes have been made.

**Publication of Thesis or Dissertation**

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Graduate Student Resources web site. This copy will be rejected if the format standards specified by the Thesis and Dissertation Format Guide are not met. This guide allows for a publication-ready format. If required by the department and/or committee, additional printed copies should be delivered to the University Store for binding. Students should consult with the adviser to determine if the adviser wants a copy of the thesis, dissertation, or other research documentation.

**Chemical Engineering, Ph.D.**
The Department of Chemical Engineering offers graduate programs leading to the M.S. and Ph.D. degrees in chemical engineering. The M.S. degree is offered under Plan A and Plan B. In addition, an environmental engineering program, run jointly by the Department of Chemical Engineering and the Department of Civil and Architectural Engineering, offers graduate programs leading to an M.S. in environmental engineering under either Plan A or Plan B.

The mission of the graduate program in Chemical Engineering is to prepare students to be leaders in industry, government, or academia.

A master's degree is not required to enter a Ph.D. program.

Graduate Core Classes

All incoming Ph.D. students must have an adviser. The student is responsible for contacting faculty members in order to find an adviser.

All Chemical Engineering graduate students must take the following Chemical Engineering Core courses:

**CHE5020 - Thermodynamics**

Credits: 3
Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

*Cross Listed* PETE 5020.
*Prerequisite:* graduate standing.

**CHE5010 - Transport Phenomena**

Credits: 3
Examines the modeling of momentum, heat and mass transport.

*Cross Listed* PETE 5010.
*Prerequisite:* ES 2330, MATH 2310, and graduate standing in Chemical or Petroleum Engineering.

**CHE5030 - Reaction Kinetics**

Credits: 3
An analysis of reactions involving phase boundaries, heterogeneous catalysis, gas-solid systems, and gas-liquid systems.

*Prerequisite:* CHE 4060.
  - CHE 5355 - Mathematical Methods in Chemical Engineering Credits: 3

Doctoral Program

Credit Hours
Ph.D. Seminar Requirements

All chemical engineering graduate students must enroll in CHE 5890, Chemical Engineering Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Registered off-campus graduate students can be exempt from having to enroll in CHE 5890.

Ph.D. Preliminary Examination

All Ph.D. students must pass a preliminary examination no later than the end of the student's fifth full semester in the graduate program and a least 15 weeks prior to the dissertation defense. Prior to attempting the Ph.D. preliminary examination, students must have completed all required core classes no later than the end of their fourth semester in the graduate program. Students must file a program of study prior to attempting the preliminary examination.

The goal of the preliminary exam is for the student to demonstrate his or her research progress to-date and present the research proposition that will be investigated and lead to his or her final dissertation. The preliminary exam consists of three components: a written document provided to each member of the student's graduate committee at least one week prior to the oral presentation; a public oral presentation; and a private examination by the student's graduate committee immediately following the oral presentation.

The written document may be in any format but must concisely provide a survey of the relevant literature, a summary of the student's progress to-date, and a clear, detailed plan for the successful completion of the proposed work. The preliminary exam oral presentation should be consistent with the written document. It should provide an appropriate literature background, demonstrate proficiency with proposed experimental/computational techniques, identify details of the experiments to be performed, and provide a timeline to final defense.

The student's committee will pass or fail the student on the strength of the preliminary examination, with an option to conditionally pass the student while requiring an interim committee meeting prior to the final Ph.D. examination. A form sent by the student's adviser to the Office of the Registrar reports the results of the examination.

Ph.D. Final Examination (Dissertation Defense)

All Ph.D. students must orally defend their thesis or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public thesis defense in oral presentation format. At least two weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis of Ph.D. dissertation and provide the department an announcement of their defense for advertisement by bulletin board, e-mail, or other means. The results of the examination are reported on the Report of Final Examination form. Graduate committee members may request changes in the thesis or dissertation, and they may postpone signing the form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Graduate Student Resources web site. This copy will be rejected if the format standards specified by the Thesis and Dissertation Format Guide are not met. This guide allows for a publication-ready format. If required by the department and/or committee, additional printed copies should be delivered to the University Store for
binding. Students should consult with the adviser to determine if the adviser wants a copy of the thesis, dissertation, or other research documentation.

**QuickStart Program**

**Chemical Engineering Quick Start, B.S./M.S.**

The BS/MS Quick Start program in Chemical Engineering (CHE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their Bachelor of Science (B.S.) degree in Chemical Engineering. These students may apply for admission to the Quick Start program during the second semester of their junior year or during their senior year.

This program allows for early planning of the graduate portion of a student's education and provides more flexibility in the number of required courses and the order in which they are taken. The more efficient and better-planned use of time should result in reduction of the time required for obtaining the Master of Science in Chemical Engineering (M.S. CHE) degree. Students who enter the Quick Start program must accept the primary responsibility for actively planning their programs of study to assure timely completion of their coursework and research programs.

The Quick Start program contains two essential elements:

Qualified students may receive provisional admission to the Chemical Engineering graduate program prior to completing the normal application process. This provisional admission will permit students to make their long-term educational plans earlier in their studies, thus providing enhanced opportunities for course selection and involvement in research.

Students in the program may apply up to 6 credit hours of 5000-level courses toward both the B.S. and M.S. degree programs. By completing successfully up to 6 credit hours of graduate classes during their senior year, these students will have demonstrated their ability to do graduate-level coursework as undergraduates, easing their transition to the Chemical Engineering graduate program.

For additional information and an application form, please contact the CHE graduate program coordinator at che-info@uwyo.edu or stop by 4055 Engineering Building.

**Professors:**

**MICHAEL G. BARKER,** B.S. Purdue University 1983; M.S. 1987; Ph.D. University of Minnesota 1990; Professor of Civil Engineering 2003.

**JONATHAN A. BRANT,** B.S. Virginia Military Institute 1998; M.S. University of Nevada 2000; Ph.D. 2003; Professor of Civil Engineering 2020, 2008.

KHALED KSAIBATI, B.S. Wayne State University 1984; M.S. Purdue University 1986; Ph.D. Purdue University 1990; Professor of Civil Engineering 2001; Director of the Wyoming Technology Transfer Center 2003, 1990.

JIANTING "JULIAN" ZHU, B.S. Zhejiang University 1983; M.S. Peking University 1985; Ph.D. Dalhousie University 1996; Professor of Civil Engineering 2019, 2013.

Associate Professors:

MOHAMED AHMED, B.S. Al-Azhar University 2001; M.S University of Central Florida 2009; Ph.D. 2012; Associate Professor of Civil Engineering, 2019, 2013.

FRANCOIS JACOBS, B.S. California Baptist University 1995; M.B.A. University of Denver 2005; Ph.D. Colorado State University 2010; Associate Professor of Construction Management, 2019.

KAM NG, B.S. Iowa State University 1996; M.S. 1997; Ph.D. 2011; Associate Professor of Civil Engineering 2019, 2012.

NORIAKI OHARA, B.A. Chuo University 1997; M.A. 1999; Ph.D. University of California, Davis 2003; Associate Professor of Civil Engineering 2019, 2012.

LI-PING WANG, B.S. Xi'an University of Architecture and Technology 2010; M.S. 2003; Ph.D. National University of Singapore 2007; Associate Professor of Architectural Engineering, 2020, 2013.

HAIBO ZHAI, B.S. Xi'an University of Technology 1999; M.S. Tongji University 2002; Ph.D. North Carolina State University, 2008; Associate Professor of Civil Engineering, 2020.

Assistant Professors:

AHMED ABDELATY AHMED, B.S. Cairo University 2001; M.S. 2014; Ph.D. Iowa State University, 2017; Assistant Professor of Construction Management, 2020.

WEBB, RYAN W., B.S. University of New Mexico, Albuquerque, NM 2010; M.S. University of New Mexico, Albuquerque, NM 2012; Ph.D. Colorado State University, Fort Collins, CO 2016; Assistant Professor of Construction Management, 2021.

CHENG-YI "CHARLIE" ZHANG, B.S. Harbin University of Commerce 2007; M.S. China University of Mining and Technology, Beijing 2009; Ph.D. Illinois Institute of Technology 2013; Assistant Professor of Construction Management, 2020.

MILAN ZLATKOVIC, B.S. University of Belgrade 2005; M.S. University of Utah 2009; Ph.D. 2015; Assistant Professor of Civil Engineering, 2016.
Assistant Instructional Professors:

AYSEGUL DEMIR, B.S. Dokuz Eylul University 2013; M.S. Istanbul Technical University 2016; Ph.D The University of Texas at Austin 2022.

SHAWN C. GRIFFITHS, B.S. Utah State University 2009; M.S. University of Arkansas 2011; Ph.D. University of Texas, Austin 2015; Assistant Professor of Civil Engineering 2015.

Academic Professionals:

KIMBERLY FRITH, B.S. Clemson University, 2007; M.S. Stanford University 2009; Assistant Lecturer, 2020.

SHELLEY MACY, B.S. University of Wyoming 2002; M.S. University of Wyoming, 2013; Assistant Lecturer, 2021.

Adjunct Faculty:

Aaron Cvar, Song Jin, Mark Kilgore, Robert Loane, Marci Miller, Alan Moore, Evan O'Toole, Chris Schabron, Dennis Mouland, Nathan Bergh.

Professors Emeriti:

Civil Engineering

The mission of the department of Civil and Architectural Engineering and Construction Management at the University of Wyoming is:

- To educate and prepare Civil & Architectural Engineering and Construction Management students to lead as designers, builders, project managers and entrepreneurs as it relates to the sustainable built and natural environments.
- To develop technical solutions through research, innovation, and improved infrastructure to diversify and grow the economies that serve Wyoming and the world.

The Civil Engineering curriculum begins with a basic education in the physical, engineering, mathematical and computer sciences. This foundation supports further development of engineering topics that prepare the engineer to address critical societal needs. To meet these needs, the Civil Engineer designs and builds bridges, buildings, dams and hydraulic structures, pipelines and canals, power plants, transportation facilities, sanitary and environmental engineering facilities, surveying and mapping systems, space and ocean platforms, as well as numerous other engineering systems. The civil engineer must also be aware of the social, humanistic, and political aspects of their projects. Therefore, course work in the humanities and social sciences is required to better understand the social aspects
of public works. During the last two years of their program, students may pursue several areas of Civil Engineering or, depending upon their interests, more specialized courses in one or more of the specific technical areas listed below. All students must have a comprehensive design experience.

**Structural engineering:** Analysis and design of structural systems including buildings, bridges, towers and other structures. Structural engineering also includes the study of solid mechanics and advanced structural materials.

**Environmental engineering:** Analysis, design and development of engineering systems to provide potable water supplies, treat municipal, industrial and hazardous wastes and protect human health and the environment.

**Water resource engineering:** Planning, analysis and design of hydraulic and hydrologic systems with respect to watersheds, municipalities, irrigation and drainage, and flood control. Conservation and management of groundwater and surface water are emphasized.

**Transportation engineering:** Planning, analysis and design of highways, traffic engineering and control, traffic safety, and pavement maintenance, design and rehabilitation.

**Geotechnical engineering:** Design and analysis of foundations, dams, embankments, slope stability and construction practices in soil and rock.

The Civil Engineering curriculum prepares the graduate to engage in professional practice, and upon completion of post-graduate requirements, to obtain registration as a Professional Engineer. It also provides the graduate with an excellent preparation for graduate studies in engineering, business or law.

Civil Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in courses required for the major. Students must complete a minimum of 42 upper division (junior/senior) or graduate-level semester credit hours. Students may have a maximum of 6 credits in courses with a grade of D in upper division CE courses that apply towards their degree program.

**Computer Requirement**

Many courses in Civil Engineering require students to have a laptop or tablet computer to bring to class, and to be able to download various software program (normally free). See www.uwyo.edu/civil/undergrad/laptop.html for more information.

**CE Objectives**

Three to six years after graduation, graduates of the University of Wyoming Civil Engineering Program will:

CE-OB1. Be able to successfully practice the profession of Civil Engineering.
CE-OB2. Be prepared and motivated to accept challenging assignments and responsibilities.
CE-OB3. Demonstrate successful professional growth through leadership development and career progression.

**CE Outcomes**

The Civil Engineering department regularly evaluates the following student skills.

Specifically, every University of Wyoming Civil Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Transfer Coursework: The Civil Engineering program accepts transfer course equivalents listed in the Wyoming Transfer Catalog. Other transfer courses will be considered by petition to the Department. The Department has a Policy on Transfer Courses for Continuing Students, which says continuing students should not plan to substitute "core" courses with transfer credits from other institutions, and that transfer credits for continuing students are evaluated on a case-by-case basis. For upper-division coursework, no more than two upper division courses may be transferred and applied to the CE degree. CE 4010 and CE 4900 cannot be transferred to UW.

Advanced Civil and Architectural Engineering Standing

All undergraduate students in Civil and Architectural Engineering must fulfill the Gateway Requirement prior to enrolling in any upper-division (3000-5000 level) courses taught in the College of Engineering and Applied Science.

To meet the Civil and Architectural Engineering Gateway Requirement, the student must earn a minimum of 57 Quality Points from any combination of the following seven classes or their equivalent. It is not necessary to complete all seven courses to fulfill the Gateway Requirement.

Gateway Courses

- CHEM1020 - General Chemistry I
- PHYS1210 - Engineering Physics I
- OR
- PHYS1220 - Engineering Physics II
- MATH2200 - Calculus I
- MATH2205 - Calculus II
- ES2110 - Statics
- ES2120 - Dynamics
- ES 2410 Mechanics of Material I

See the advising pages on the Civil and Architectural Engineering website for more information.

Graduate Study

Graduate Programs

An advanced degree in civil and architectural engineering is professionally and economically attractive. Advanced degrees are important for professional civil engineers in many specialized areas of civil engineering. Many consulting firms and industrial design groups require advanced knowledge gained from graduate studies. Engineers in such firms often work at the forefront of their profession. UW alumni are involved in design and construction of major projects worldwide.
An advanced degree is also required for careers in university teaching and research. A university career is highly recommended for those motivated students who are interested in becoming leaders in education and in the development of new concepts, processes and inventions.

The Department of Civil and Architectural Engineering offers programs leading to the degrees of master of science and doctor of philosophy. Areas of study in the M.S. and Ph.D. programs include: environmental engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering. The department also offers a master of science in architectural engineering and a master of science in environmental engineering in cooperation with the Department of Chemical and Petroleum Engineering. Additional information is available from the department or from the Web page.

Program Specific Admission Requirements

Admission is open to all students holding a bachelor's degree with at least a 3.000 GPA from an accredited engineering curriculum and a GRE combined minimum score of 298.

Ph.D. applicants are reviewed with regard to stated interests, objectives and the ability of the department to provide a quality experience for the applicant.

International students must achieve a TOEFL score of 550 on the paper-based, a minimum of 76 on the internet-based or a minimum of 6.0 on the IELTS.

Architectural Engineering

Architectural Engineering is a rapidly expanding profession that deals with the myriad aspects of buildings and their design, construction and operation. Architectural Engineers are typically specialists, responsible for the design and integration of such building elements as the structural, plumbing, fire protection, heating and air conditioning, or lighting and electrical systems. The curriculum in architectural engineering is designed to acquaint students with the various aspects of building design and construction and exposes them to a variety of courses dealing with different building materials and systems. The curriculum also includes course work in the humanities and social sciences, both to enrich the student's academic experience and assist in dealing with and contributing to society. The program leads to a Bachelor of Science in Architectural Engineering, preparing graduates to engage in practice as Professional Engineers upon completion of post-graduate registration requirements. Graduate work with emphasis in Architectural Engineering leading to a Master of Science and Doctor of Philosophy degree is offered through the Civil and Mechanical Engineering Programs. Additionally, advanced study can also be pursued in allied areas such as architecture, business or other engineering fields.

Students choose an area of emphasis in either structural or mechanical systems and select courses from approved electives, usually beginning their elective sequence in the second semester of their junior year. Consult with the Civil and Architectural Engineering Department for current elective lists.

Architectural Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in courses required for the major. Students must complete a minimum of 42 upper division (junior/senior) or graduate-level semester credit hours.

Students may have a maximum of 6 credits in courses with a grade of D in upper division ARE courses that apply towards their degree program.

Computer Requirement

Many courses in Architectural Engineering require students to have a laptop or tablet computer to bring to class, and to be able to download various software programs (normally free). See www.uwyo.edu/civil/undergrad/laptop.html for more information.
Architectural Engineering Objectives

Three to six years after graduation, graduates of the University of Wyoming Civil Engineering Program will:

ARE-OB1 Be able to successfully practice the profession of Architectural Engineering.
ARE-OB2 Be prepared and motivated to accept challenging assignments and responsibilities.
ARE-OB3 Demonstrate successful professional growth through leadership development and career progression.

ARE Outcomes

The Architectural Engineering department regularly evaluates the following student skills. Specifically, every University of Wyoming Architectural Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies

Transfer Coursework: The Architectural Engineering program accepts transfer course equivalents listed in the Wyoming Transfer Catalog. Other transfer courses will be considered by petition to the Department. The Department has a Policy on Transfer Courses for Continuing Students, which says continuing students should not plan to substitute "core" courses with transfer credits from other institutions, and that transfer credits for continuing students are evaluated on a case-by-case basis. For upper-division coursework, no more than two upper division courses may be transferred and applied to the ARE degree. ARE 4720 and ARE 4740 cannot be transferred to UW.

Advanced Civil and Architectural Engineering Standing

All undergraduate students in Civil and Architectural Engineering must fulfill the Gateway Requirement prior to enrolling in any upper-division (3000-5000 level) courses taught in the College of Engineering and Applied Science.

To meet the Civil and Architectural Engineering Gateway Requirement, the student must earn a minimum of 57 Quality Points from any combination of the following seven classes or their equivalent. It is not necessary to complete all seven courses to fulfill the Gateway Requirement.

Gateway Courses

- CHEM1020 - General Chemistry I
- PHYS1210 - Engineering Physics I
  OR
- PHYS1220 - Engineering Physics II
Graduate Study

Graduate Programs

An advanced degree in architectural engineering is professionally and economically attractive. Advanced degrees are important for professional civil engineers in many specialized areas of civil engineering. Many consulting firms and industrial design groups require advanced knowledge gained from graduate studies. Engineers in such firms often work at the forefront of their profession. UW alumni are involved in design and construction of major projects worldwide.

An advanced degree is also required for careers in university teaching and research. A university career is highly recommended for those motivated students who are interested in becoming leaders in education and in the development of new concepts, processes and inventions.

The Department of Civil and Architectural Engineering offers programs leading to the degrees of master of science and Areas of study in the M.S. programs include: building mechanical systems engineering, environmental engineering, geotechnical engineering, structural engineering, and building energy modeling. Additional information is available from the department or from the Web page.

Students choose an area of emphasis in either, building, structural or mechanical systems and select courses from approved electives, usually beginning their elective sequence in the second semester of their junior year. Consult with the Civil and Architectural Engineering Department for current elective lists. Students are required to have a lap top computer.

Architectural engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.00 (C) in civil and architectural engineering courses attempted at this university.

Construction Management

Construction Management is a rapidly-growing discipline, that is focused on the planning and oversight required to deliver construction projects on-time and on-budget. Students learn skills such as project management, decision making, budgeting, scheduling, and site logistics including safety planning, surveying, and building information modeling.

The Construction Management curriculum is designed to prepare students for success in a wide variety of career paths available in the construction sector. The curriculum includes course work in construction, business, humanities and social sciences to enrich the student's academic experience and to assist them in making a positive contribution to society. The program leads to a four-year Bachelor of Science in Construction Management degree.

Construction Management degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.00 in courses required for the major.

A grade of C or better is required in all required courses with a CM prefix.
Construction Management Learning Objectives

Upon graduation students shall be able to:

1. Create written communications appropriate to the construction discipline.
2. Create oral presentations appropriate to the construction discipline.
3. Create a construction project safety plan.
4. Create construction project cost estimates.
5. Create construction project schedules.
6. Analyze professional decisions based on ethical principles.
7. Analyze construction documents for planning and management of construction processes.
8. Analyze methods, materials, and equipment used to construct projects.
9. Apply electronic-based technology to manage the construction process.
10. Apply basic surveying techniques for construction layout and control.
11. Understand construction management skills as a member of a multi-disciplinary team.
12. Understand different methods for project delivery and the roles and responsibilities of all constituencies involved in the design and construction process.
13. Understand construction risk management.
15. Understand construction quality assurance and control.
16. Understand construction project control processes.
17. Understand the legal implications of contract, common, and regulatory law to manage a construction project.
18. Understand the basic principles of sustainable construction.
19. Understand the basic principles of structural behavior.
20. Understand the basic principles of mechanical, electrical and piping system.

Environmental Engineering

3074/4055 Engineering Building,
766-5255/766-2500
E-mail: cae.info@uwyo.edu
Web site: www.uwyo.edu/chemical/graduate/prospective/environmental/index.html

A master of science in environmental engineering is available in the College of Engineering through a joint effort of the Department of Civil and Architectural Engineering and the Department of Chemical Engineering. This interdisciplinary degree offers students an engineering perspective for solutions to environmental problems. Emphasis is on minimization, monitoring, control, and processing of waste products as well as treatment and disposal associated with point and non-point pollution sources. Integration of engineering with science, regulatory, and policy aspects of environmental engineering is an important component of this unique program. Further information is available from the environmental engineering graduate studies program office and/or departments involved.

Program Specific Admission Requirements

Admission is open to students with at least a bachelor's degree who meet the minimum requirements:

1. A GPA of 3.000 (A=4.000), or equivalent;
2. A GRE score of 291 (combined verbal and quantitative sections);
3. For international applicants who did not attend an English-speaking program in an English-speaking country for all years of their highest degree: A TOEFL score of 76 (Internet based) or an IELTS score of 6.0.

Complete official transcripts of all prior college-level coursework and recommendations from three references must be submitted as parts of the application.
The deadline to submit application credentials is February 1 (to be considered for fall semester), and October 1 (to be considered for spring semester).

The application will not be processed until all the necessary documents have been submitted.

**Major**

**Architectural Engineering, B.S.**

Architectural Engineers create structural and mechanical-electrical-plumbing systems for buildings. The B.S. in Architectural Engineering is accredited by ABET and provides a path to P.E. licensure. Note: This is not an Architecture degree.

**University Studies Program Requirements**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3  
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3  
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3  
Max Credit 3  
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3  
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**H- - Human Culture (1)**
Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**Q- - Quantitative Reasoning**

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Core Courses: 73 Credit Hours**

**ARE1000 - Exploring CAECM**

Credits: 1

Introduction to civil and architectural engineering professions through exploration of modern engineering challenges. Students work on a design project, starting with problem definition and working towards concept designs using spreadsheet and communication tools. Professional topics introduced include globalization, diversity, professional ethics, design limitations and constraints, sustainability, environmental stewardship, and engineering economics.
Cross Listed CE 1000.

Prerequisite/Corequisite: of MATH 1450 or MATH 1405.

ARE1600 - Architectural Design Studio I

Credits: 3
Freshman-level architectural design in a project-based learning environment. Introduction to Building Information Modeling (BIM); architectural presentation drawings; freehand sketching; essentials of architectural design and building code compliance.

Former Course Number [ARE 2100]

ARE2410 - Fundamentals of Building Performance

Credits: 3
Introduction to building performance measures that embrace a global notion of environmental stewardship. Emphasis on passive heating and cooling systems and daylighting strategies to manage the thermal and luminous environments over the facility life cycle.

Prerequisite: PHYS 1210.

ARE2600 - Architectural Design Studio II

Credits: 3
Sophomore-level architectural design in a project-based learning environment using Building Information Modeling (BIM). The course builds upon skills learned in ARE 1600, with a new emphasis on building materials and constructions methods.

Former Course Number [ARE 2200]

Prerequisite: ARE 1600.

ARE3200 - Structural Analysis I

Credits: 3
Introductory design and analysis topics in stress and displacement analysis of structures, including beams, trusses and frames, classical flexibility and stiffness methods.

Cross Listed CE 3200.
Prerequisite: ES 2410.

ARE3210 - Civil Engineering Materials
Credits: 4
Laboratory investigation and design of materials used in civil engineering: metals, masonry, concrete and timber. Non-destructive evaluation of materials. Analysis and presentation of data, including various types of written reports and oral presentations.

Cross Listed CE 3210.
USP 2003-2014 Code U3WB
USP 2015 Code U5C3
Prerequisite: COM2 and ES 2410.

ARE3300 - Building Electrical and Plumbing Systems

Credits: 3
Introduction to National Electrical Code. The topics include basic circuits, AC and DC single phase, three phase power, transients, capacitance and inductance, branch circuits. Study of plumbing systems and fixtures including wastewater, water supply, storm water, and venting systems. Study of International Plumbing Code.

Prerequisite: ARE 1600 or CE 1010, and ES 2330 or concurrent enrollment.

ARE3400 - Heating, Ventilating and Air Conditioning of Buildings

Credits: 3
Qualitative and quantitative study in concepts of basic air-conditioning with focus on buildings including building envelope, moist air thermodynamics, human comfort, thermal load calculations, thermal behavior of buildings, HVAC systems/equipment, and design of space air-conditioning and its relationship to architectural design.

Cross Listed ME 3400.
Former Course Number [ARE 3800]

Prerequisite: ES 2310, ARE 2410 or ME 3360, ES 2330 or concurrent enrollment.

ARE3600 - Architectural Design Studio III

Credits: 3
Junior-level architectural design in a project-based learning environment using Building Information Modeling (BIM). This course builds upon skills learned in ARE 2600, with a new emphasis on the complexities that accompany mid-rise construction, and the integration of structural and mechanical systems.

Prerequisite: ARE 2410 and ARE 2600.

ARE4600 - Architectural Design Studio IV

Credits: 3
Senior-level architectural design in a project-based learning environment using Building Information Modeling (BIM). The course builds upon skills learned in ARE 3600, with a new emphasis on the complexities that accompany high-rise construction, and the integration of structural and mechanical systems.
**Prerequisite:** ARE 3600.

**ART3030 - History of Architecture**

Credits: 3
A survey of the history of architecture and its allied fields, focusing on the formal, aesthetic, cultural and socio-political dimensions, from prehistory to the present.

**Cross Listed** ARE 3030.
USP 2003-2014 Code U3CH, U3G
USP 2015 Code U5H
**Prerequisite:** WA or COM1.

**CHEM1020 - General Chemistry I**

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3S
USP 2015 Code U5PN
**Prerequisite:** ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

**ES2110 - Statics**

Credits: 3
Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**ES2120 - Dynamics**

Credits: 3
Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

**Prerequisite:** ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

**ES2310 - Thermodynamics I**

Credits: 3
Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.
**Prerequisite:** MATH 2210 and either ES 2120 or PHYS 1210.

**ES2330 - Fluid Dynamics**

Credits: 3  
Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

**Prerequisite:** MATH 2210 and either ES 2120 or PHYS 1210.

**ES2410 - Mechanics of Material I**

Credits: 3  
Mechanics of deformable bodies, including energy methods.

**Prerequisite:** ES 2110 and MATH 2205.

**MATH2200 - Calculus I**

Credits: 4  
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**

Credits: 4  
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2210 - Calculus III**

Credits: 4  
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes' and the Divergence Theorems.
Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

Geology Course: 4 Credit Hours

Must take one of the following.

GEOL1100 - Physical Geology

Credits: 4
Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

USP 2003-2014 Code U3SE
USP 2015 Code U5PN

GEOL1500 - Water, Dirt, and Earth's Environment

Credits: 4
Introductory environmental geology course focusing on water and soil both as hazards and as life-sustaining resources. Explores surface processes and climate change over geological and human timescales. Case studies illustrate the environmental tradeoffs of resource use.

Cross Listed ENR 1500.
USP 2003-2014 Code U3SE
USP 2015 Code U5PN
GEOL1600 - Global Sustainability: Managing Earth’s Resources

Credits: 4
Uses biology, chemistry, physics and Earth science to examine Global Sustainability and how this worldview might guide our future management of Earth resources. Case studies in different international settings place questions of resource exploitation (discovery, extraction, processing, use and disposal) and sustainability in a larger global context.

Physics Course: 4 Credit Hours

Must take one of the following courses:

**PHYS1210 - Engineering Physics I**

Credits: 4
First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

**Prerequisite:** a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

**PHYS1220 - Engineering Physics II**

Credits: 4
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

**Prerequisite:** grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

ARE Professional Development Courses: 18 Credit Hours Required

Must take six of the following:

**ARE3360 - Fundamentals of Transport Phenomena**

Credits: 3
Basic concepts of heat and mass transfer and their applications to problems involving engineering analysis and design. Topics include steady-state and transient conduction, free and forced convection (heat and mass), radiation and heat exchangers.
Cross Listed ESE 3360/ME 3360.
Former Course Number [ARE 3430, ARE 4420]

Prerequisite: MATH 2310, ES 2310 and ES 2330.

ARE4200 - Structural Analysis II

Credits: 3

Cross Listed CE 4200
Prerequisite: ARE 3200/CE 3200.

ARE4250 - Structural Steel Design

Credits: 3
Design of structural components and applications utilizing steel.

Cross Listed CE 4250.
Prerequisite: ARE 3200/CE 3200.

ARE4260 - Structural Concrete Design

Credits: 3
Design of structural components and systems using reinforced concrete.

Cross Listed CE 4260.
Prerequisite: ARE 3200/CE 3200.

ARE4285 - Masonry Design

Credits: 3
Design of structural components in reinforced masonry buildings, including walls, columns, beams and connections. Particular attention is paid to current codes, specifications and analysis.

Cross Listed CE 4285.
Dual Listed ARE 5285 and CE 5285.
When Offered Offered on a three semester rotation.
Former Course Number [ARE 4280]

Prerequisite: ARE 4260/CE 4260 and ARE 3200/CE 3200.

ARE4295 - Structural Timber Design
Credits: 3
Design of structural components and systems utilizing timber.

Cross Listed CE 4295.
Dual Listed ARE 5295.
Former Course Number [ARE 4290]

Prerequisite: CE 3200 or equivalent.

ARE4330 - Building Electrical Systems

Credits: 3
Analysis and design of electrical systems in buildings using the National Electrical Code. The topics include panel boards, motors, system sizing, electrical distribution in buildings, methodology of reducing the available short circuit current, transformers, capacitors in buildings, and power systems harmonics. Students will perform an electrical building design project.

Prerequisite: ARE 3300.

ARE4390 - Building Safety and Fire Protection

Credits: 3
Fundamentals of building design for fire and life safety. Emphasis is on a systematic design approach. Basic considerations of building codes, fire loading, fire resistance, means of egress design, introduction to protective systems including fire protection systems, and fundamentals of fire and smoke control.

Prerequisite: ARE 3300.

ARE4430 - HVAC Systems Analysis and Design

Credits: 3
Engineering design and performance analysis procedures for commercial building mechanical systems including energy conservation techniques. Relationship to aesthetic, architectural and structural elements are considered.

Cross Listed ME 4430.
When Offered (Normally offered alternate spring semesters)
Former Course Number [ARE 3420, ARE 4810]

Prerequisite: Completion of the ME Success Curriculum, ARE 3400 and ARE 3360/ME 3360 or concurrent.

ARE4490 - Modeling and Optimization of Energy Systems

Credits: 3
Application of principles of thermodynamics, fluids, and heat and mass transfer in the component and system-level design of energy/thermal systems, including modeling, simulation and optimization techniques. Examples are drawn from building environmental control, energy conversion and thermal industrial processes. Students work on projects for
integration of these components in the design of energy/thermal systems. Requires enrollment in associated laboratory session.

**Cross Listed** ME 4490.  
**Prerequisite:** ARE 3400.

### CE3600 - Soil Mechanics I

Credits: 4  
A study of soil and the properties which influence its usefulness as an engineering material. Principles governing movement of soil, water and propagation of stresses through soil masses are studied.

**Former Course Number** [4600]

**Prerequisite:** ES 2410.

### CE4610 - Foundation Engineering

Credits: 3  
Site characterization, laboratory shear tests and determination of soil properties. Analyses include bearing capacity, stress distribution and settlement. Design of shallow and control of deep foundations using static and dynamic methods.

**Dual Listed** CE 5610. 
**Prerequisite:** CE 3600.

### CE4620 - Soil and Rock Slope Engineering

Credits: 3  
Advanced engineering and geologic classification of landslides; detailed field investigations; solid and rock strength properties for stability analysis; advanced analytical and numerical methods for analysis of slope stability; design of engineered stabilization systems.

**Dual Listed** CE 5660. 
**Prerequisite:** CE 3600.

### CE4630 - Ground Improvement, Reinforcement and Treatment

Credits: 3  
This course is designed to help students understand a number of available geotechnical ground improvement, reinforcement and treatment techniques currently in use.

**Dual Listed** CE 5630. 
**Prerequisite:** CE 3600.

### CE5010 - Advanced Mechanics of Materials
Credits: 3
Elements of elasticity, unified approach to strength of structural members design and failure criteria; basic concepts of fracture mechanics; stress concentration factors; treatment of torsion, bending, axial and shear in structural members including plastic effects; bending of flat plates.

**Prerequisite:** ME 3010 or CE 3200, MATH 2310.

**CE5200 - Advanced Structural Analysis**

Credits: 3
Analysis of framed structures with stiffness-based matrix methods including plane trusses, frames, and grid systems and space trusses and frames. Column, beam, beam-column and frame stability. Geometric and material nonlinearities of framed structures. Plastic analysis and moment-curvature relationships. Computer applications are emphasized.

**Prerequisite:** CE 4200 or equivalent.

**CE5220 - Structural Dynamics**

Credits: 3
Introduction to general structural dynamics, general dynamic loading, generalized coordinated and nonlinear structural response, linear and nonlinear response spectra, multiple degree of freedom systems, continuous systems, and discretization of continuous systems. Introduction to seismic load specifications.

**Prerequisite:** CE 4200 or equivalent and MATH 2310.

**CE5255 - Advanced Steel Design**

Credits: 3
A comprehensive design course for steel building structures. Topics include preliminary design, selection of framing systems, braced and unbraced frames, stability effects and nonlinear behavior. Includes building design project for seismic regions.

**Prerequisite:** grade of C or better in CE 4250 or ARE 4250.

**CE5270 - Highway Bridge Engineering**

Credits: 3
A study of the analysis, design and rating of highway bridges, including consideration of dead and vehicular loads, analysis of typical systems, service, fatigue and ultimate strength behavior, rating of existing bridge design, and bridge operations. Composite and non-composite steel and concrete bridges are considered. Includes investigations that require field trips outside the schedule class times. Contemporary issues are routinely discussed.

**Prerequisite:** CE 4250 and CE 4260.

**ME3040 - Thermodynamics II**
Credits: 3
Consideration of advanced thermodynamic topics including Maxwell's relations, compressible flow, and combustion. Applications to design of refrigeration cycles, humidification systems, and Rankine cycles.

**Cross Listed** ESE 3040
**Prerequisite:** Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

**ME3170 - Machine Design**

Credits: 3
Application of engineering mechanics and materials science to the analysis and design of mechanical components such as bolted connections, springs, gears, bearings and shafts. Design for dynamic loading conditions. Principles of hydrodynamic lubrication. Introduction to computer-aided design. Case studies with appropriate topics.

**Prerequisite:** Completion of the ME Success Curriculum, ES 2410.

**ME4460 - Solar and Geothermal Engineering**

Credits: 3
An introduction to the engineering of solarpowered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

**Cross Listed** ESE 4460
**Prerequisite:** Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

**ME4470 - Wind and Ocean Energy Engineering**

Credits: 3
Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

**Cross Listed** ESE 4470
**Prerequisite:** Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

**ARE Capstone: 3 Credit Hours**

Must take 1 of the following courses

**ARE4720 - Structural Systems Design Project**

Credits: 3
Final course in the building structural systems sequence incorporating elements of previous design courses by executing design of a hypothetical building with a concentration on a detailed design of the project's structural systems.
**Prerequisite:** ARE/CE 3110, ARE 4200, ARE 4250, and ARE 4260 or concurrent enrollment.

**ARE4740 - Mechanical Systems Design Project**

Credits: 3  
Final course in the building mechanical systems sequence incorporating elements of previous design courses by executing design of a hypothetical building with a concentration on a detailed design of the project's mechanical systems.

**Cross Listed** ARE/ME 4740  
**Prerequisite:** ARE/CE 3110 and ARE 3400

**ARE Math/Sci/Tech/Prof Courses: 6 credit hours**

Must take 6 additional credit hours in Math/Science/Technical/Professional courses.

**Total Required Credit Hours: 123 Hours (Minimum)**

A Minimum of 42 Credit Hours Must Be Upper Division (3000+) Level.

- Advanced Standing/Gateway: Prior to enrolling in upper division ARE/CE courses, students must earn 57 quality points in the following courses: CHEM 1020, PHYS 1210 or PHYS 1220, MATH 2200, MATH 2205, ES 2110, ES 2120, and ES 2410.
- Degree candidates must meet the academic requirements of the university, and must have a minimum GPA of 2.0 in all engineering courses, and all courses required for the major. *Grades of C or better are required for all prerequisite courses.
- Students choose an area of emphasis in either structural or mechanical systems, and select Optional Electives and the Capstone Design for their emphasis area. Care should be taken to ensure prerequisites are completed.
- Students may have a maximum of 6 credits in courses with a grade of D in upper division ARE courses that apply towards their degree.
- Students may not take a course for S/U credit to satisfy any requirement, unless the course is offered for S/U credit only.
- No more than two upper division courses may be transferred and applied to the ARE degree. ARE 4720 and ARE 4740 cannot be transferred to UW.

**ARE Outcomes**

The Architectural Engineering department regularly evaluates the following student skills. Specifically, every University of Wyoming Architectural Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics

2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors

3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts

5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions

7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

**Civil Engineering, B.S.**

Civil Engineers create infrastructure and development projects, including structures, transportation, water & wastewater, earthworks, and urban site plans. The B.S. in Civil Engineering is accredited by ABET and provides a path to P.E. licensure.

**University Studies Program Requirements**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.
H - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

Q - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

V - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Core Courses: 75 Credits

CE1000 - Exploring CAECM

Credits: 1
Introduction to civil and architectural engineering professions through exploration of modern engineering challenges.
Students work on a design project, starting with problem definition and working towards concept designs using spreadsheet and communication tools. Professional topics introduced include globabilization, diversity, professional ethics, design limitations and constraints, sustainability, environmental stewardship, and engineering economics.

**Cross Listed** ARE 1000.
**Prerequisite/Corequisite:** of MATH 1450 or MATH 1405.

**CE1010 - Civil Engineering Tools**

Credits: 3
This course is an introduction to computing tools commonly used in civil engineering practice including 3-D Computer Aided Drafting, Spreadsheets and Presentation Software. Tools will be introduced through design work on typical civil engineering design projects.

**Prerequisite/Corequisite:** of MATH 2200.

**CE2070 - Engineering Surveying**

Credits: 3
Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Traverse field techniques and office calculations. Basic principles of surveying and map making.

**Prerequisite/Corequisite:** of MATH 1450 or MATH 1405.

**CE3200 - Structural Analysis I**

Credits: 3
Introductory design and analysis topics in loads on building, stress and displacement analysis of structures, including beams, trusses and frames, classical flexibility and stiffness methods.

**Cross Listed** ARE 3200.
USP 2003-2014 Code [WB< >(none)]
**Prerequisite:** ES 2410.

**CE3210 - Civil Engineering Materials**

Credits: 4
Laboratory investigation and design of materials used in civil engineering: metals, masonry, concrete and timber. Nondestructive evaluation of materials. Analysis and presentation of data, including various types of written reports and oral presentations.

**Cross Listed** ARE 3210.
USP 2003-2014 Code U3WB
USP 2015 Code U5C3
**Former Course Number** [2210]
Prerequisite: COM2 and ES 2410.

CE3300 - Hydraulic Engineering

Credits: 3
Develops analysis, design and modeling techniques for incompressible pipe flow, steady uniform and gradually varied open channel flow, and hydraulic structures.

Former Course Number [4320]

Prerequisite: ES 2330.

CE3400 - Introduction to Environmental Engineering

Credits: 3
An introduction to the major topics in environmental engineering. Focus areas include water supply, wastewater treatment, air pollution control and solid and hazardous waste management. Quantitative aspects and engineering solutions to problems are emphasized.

Prerequisite: MATH 2205 and CHEM 1020 or equivalent.

CE3500 - Transportation Engineering

Credits: 4
Introduction to the major topics in Transportation Engineering. The topics covered include human, vehicle and roadway characteristics and performance, traffic characteristics and flow theory, roadway capacity and Level of Service (LOS) concepts, intersection and traffic signal design, public transportation, transportation planning, geometric design of highways, traffic safety, highway materials, and pavement design

Former Course Number [4500]

Prerequisite: CE 1010.

CE3600 - Soil Mechanics I

Credits: 4
A study of soil and the properties which influence its usefulness as an engineering material. Principles governing movement of soil, water and propagation of stresses through soil masses are studied.

Former Course Number [4600]

Prerequisite: ES 2410.
CE4010 - Civil Engineering Design

Credits: 3
Students will prepare final civil engineering documents including construction plans, specifications, and engineering estimates for a civil engineering project. Concepts of standard specifications and sustainability measures will also be applied to the design.

Former Course Number [3010]

Prerequisite: STAT 2050.

CE4900 - Comprehensive Design Experience

Credits: 3
Team comprehensive project design experience considering the sub-disciplines of civil engineering.

Prerequisite: ARE/CE 3110 and 3 of CE 3200, CE 3300, CE 3400, CE 3500, CE 3600, and two of CE 4250, CE 4260, CE 4610, CE 4555, CE 4510, CE 4400, CE 4410, or CE 4800, or instructor consent.

CHEM1020 - General Chemistry I

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3S
USP 2015 Code U5PN
Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

ES2110 - Statics

Credits: 3
Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3
Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.
**Prerequisite:** ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

**ES2310 - Thermodynamics I**

Credits: 3  
Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.

**Prerequisite:** MATH 2120 and either ES 2120 or PHYS 1210.

**ES2330 - Fluid Dynamics**

Credits: 3  
Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

**Prerequisite:** MATH 2210 and either ES 2120 or PHYS 1210.

**ES2410 - Mechanics of Material I**

Credits: 3  
Mechanics of deformable bodies, including energy methods.

**Prerequisite:** ES 2110 and MATH 2205.

**MATH2200 - Calculus I**

Credits: 4  
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**

Credits: 4  
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2210 - Calculus III**
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

**Prerequisite:** grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

**MATH2310 - Applied Differential Equations I**

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

**Prerequisite:** grade of C or better in MATH 2205.

**STAT2050 - Fundamentals of Statistics**

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

**Physics Course**

Must take one of the following:

**PHYS1210 - Engineering Physics I**

Credits: 4
First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

**PHYS1220 - Engineering Physics II**

Credits: 4
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity,
magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

Science Elective: 4 credit hours

Must take one of the following.

**ASTR2310 - General Astronomy I**

Credits: 4
Covers the history of astronomy, orbital mechanics, solar system (the Sun, planetary interiors, atmospheres, moons, comets, meteors); interaction of radiation and matter (physical processes in gas, black body radiation) astronomical instrumentation and detectors. Laboratory includes exercises in observational astronomy. Observing sessions are scheduled after dark and held when weather permits.

*When Offered* (Normally offered spring semester)

**ATSC2000 - Introduction to Meteorology**

Credits: 4
First course in meteorology for students with minimal background in math and science. Provides general and practical understanding of weather phenomena. Emphasizes observational aspects of the science, meteorological view of the physical world and the impact the science has on life and society. Includes three hours of lecture and one laboratory per week. Includes atmospheric composition and structure, radiation, winds and horizontal forces, stability and vertical motions, general circulation, synoptic meteorology, clouds and precipitation, severe storms and atmospheric optics.

**ATSC2100 - Global Warming: The Science of Humankinds' Energy Consumption Impacting Climate**

Credits: 3
Introduces non-specialists to the fundamental scientific principles governing climate change. The underlying physics of both human and natural contributions to global warming is presented along with uncertainties in predicting climate. Potential strategies to mitigate global warming (alternative energy, carbon capture, and geoengineering) are also discussed.

**LIFE1010 - General Biology**
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

ENR1200 - Environment

Credits: 4
Introductory environmental science course appropriate for science and non-science majors. Uses case studies and applied laboratories to explore core biological principles such as nutrient flow and cycling, population and community ecology, and ecosystem structure and function, as well as the non-science dimensions of ENR issues. Early-semester, weekend field trips/labs required.

GEOL1100 - Physical Geology

Credits: 4
Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

GEOL1110 - Physical Geology for Engineers

Credits: 4
Introduction to geologic principles for engineers with emphasis on near surface processes and material properties. The first half will teach planetary basics, mineral/rock and geologic structure, surface processes, geologic material strength and deformation, and geohazards. The final half covers methods and analysis with the collection of geophysical data on-campus to assess near-surface properties with a full lab report.

Prerequisite: MATH 1400 and MATH 1405 or MPE score of 5 or higher or SAT Math score of 600 or higher or ACT Math score of 27 or higher.

GEOL1500 - Water, Dirt, and Earth's Environment
Introductory environmental geology course focusing on water and soil both as hazards and as life-sustaining resources. Explores surface processes and climate change over geological and human timescales. Case studies illustrate the environmental tradeoffs of resource use.

Cross Listed ENR 1500.
USP 2003-2014 Code U3SE
USP 2015 Code U5PN

**GEOL1600 - Global Sustainability: Managing Earth’s Resources**

Credits: 4
Uses biology, chemistry, physics and Earth science to examine Global Sustainability and how this worldview might guide our future management of Earth resources. Case studies in different international settings place questions of resource exploitation (discovery, extraction, processing, use and disposal) and sustainability in a larger global context.

USP 2003-2014 Code U3G, U3S

**MOLB2021 - General Microbiology**

Credits: 4
Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021
When Offered Fall and Spring
Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

**SOIL2010 - Introduction to Soil Science**

Credits: 4
Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE
Prerequisite: CHEM 1000 or CHEM 1020.

Structural Design Course: 3 credit hours
Must take one of the following.

**CE4250 - Structural Steel Design**
Credits: 3
Design of structural components and applications utilizing steel.

Cross Listed ARE 4250.
Prerequisite: ARE 3200/CE 3200.

CE4260 - Structural Concrete Design

Credits: 3
Design of structural components and applications utilizing reinforced concrete.

Cross Listed ARE 4260.
Prerequisite: ARE 3200/CE 3200.

CE Professional Development Courses: 12 credit hours

Must take four of the following.

Selection of Professional Development Courses must demonstrate breadth by covering more than one area among Environmental, Geotechnical, Transportation and Water Resources.

CE4200 - Structural Analysis II

Credits: 3

Cross Listed ARE 4200
Prerequisite: ARE 3200/CE 3200.

CE4265 - Prestressed Concrete Design

Credits: 3
This is a classical course on designing prestressed and precast concrete systems. Principles and behavior of prestressed concrete build the foundation for topics that included flexure, shear, and axial load, construction and fabrication, and application. The course continues with fundamental concepts taught in RE/CE 4260.

Cross Listed ARE 4265.
Dual Listed CE 5265.
Prerequisite: ARE 4260/CE 4260.

CE4285 - Masonry Design

Credits: 3
Design of structural components in reinforced masonry buildings, including walls, columns, beams and connections. Particular attention is paid to current codes, specifications and analysis.
Cross Listed ARE 4285.
Dual Listed ARE 5285 and CE 5285.
When Offered Offered on a three semester rotation.
Former Course Number [4280]

Prerequisite: ARE 4260/CE 4260 and ARE 3200/CE 3200.

CE4295 - Structural Timber Design

Credits: 3
Design of structural components and applications utilizing timber.

Cross Listed ARE 4295.
Dual Listed CE 5295.
Former Course Number [4290]

Prerequisite: CE 3200 or equivalent.

CE4400 - Design of Water Treatment Facilities

Credits: 3
A theoretical and practical design course for municipal potable water treatment systems. Major emphasis includes health criteria, operational control procedures, primary and secondary drinking water regulations, as well as the latest treatment design standards for production of drinking water.

Prerequisite: CE 3400.

CE4410 - Design of Wastewater Treatment Facilities

Credits: 3
A theoretical and practical design course for treatment of municipal wastewaters. Major areas of emphasis include waste characterization and physical, chemical and biological unit processes.

Prerequisite: CE 3400.

CE4430 - Green Chemistry and Global Environmental Problems

Credits: 3
Focus includes study of the chemistry of air, water, and soil as well as the effects of anthropogenic activities on natural processes. Emphasis is also placed on sustainability and green chemistry practices and technologies.

Cross Listed CHE 4430 /ENR 4430.
Former Course Number [3420, 2420]

Prerequisite: CHEM 1020.
CE4441 - Solid Waste Engineering

Credits: 3
Municipal solid waste characteristics and quantities, collection, landfills, processing of municipal solid waste, materials separation, combustion and energy recovery, and biochemical processes with an emphasis on materials flow. Integrated solid waste management principles are also discussed.

Former Course Number [4440]

Prerequisite: CE 3400.

CE4510 - Pavement Design for Airports and Highways

Credits: 3
Designing flexible and rigid pavements for highways and airports. Topics include pavement materials and common uses, soil stabilization, quality control of materials, pavement design procedures.

Dual Listed CE 5510.
Former Course Number [5510]

Prerequisite: CE 3500 or CE 3600.

CE4530 - Traffic Engineering: Operations

Credits: 3
Basic characteristics of traffic, such as drivers, vehicles, volumes, speeds, delay, origins and destinations, intersection performance, capacity, termination and accidents; techniques for making traffic engineering investigations; traffic laws and ordinances, regulations, design and application of signal systems; curb parking control; enforcement and traffic administration; and public relations.

Dual Listed CE 5530.
Prerequisite: CE 3500.

CE4555 - Geometric Design of Highways

Credits: 3
Criteria controlling geometric design of highways including design speed, design volume, vehicle requirements and capacity design standards for different highway types; design of sight distance, alignment, grade; cross-section design; access control, frontage roads; intersection design elements, and design of intersections and interchanges.

Dual Listed CE 5555.
A&S College Core 2015 Students may not receive credit for both CE 4555 and CE 5555.
Former Course Number [4520]

Prerequisite: CE 3500.
CE4610 - Foundation Engineering

Credits: 3
Site characterization, laboratory shear tests and determination of soil properties. Analyses include bearing capacity, stress distribution and settlement. Design of shallow and control of deep foundations using static and dynamic methods.

Dual Listed CE 5610.
Prerequisite: CE 3600.

CE4620 - Soil and Rock Slope Engineering

Credits: 3
Advanced engineering and geologic classification of landslides; detailed field investigations; solid and rock strength properties for stability analysis; advanced analytical and numerical methods for analysis of slope stability; design of engineered stabilization systems.

Dual Listed CE 5660.
Prerequisite: CE 3600.

CE4630 - Ground Improvement, Reinforcement and Treatment

Credits: 3
This course is designed to help students understand a number of available geotechnical ground improvement, reinforcement and treatment techniques currently in use.

Dual Listed CE 5630.
Prerequisite: CE 3600.

CE4800 - Hydrology

Credits: 3
Analysis of elements of the hydrologic cycle and design with emphasis on precipitation, evapotranspiration, infiltration, runoff and groundwater. Precipitation/Runoff relationships, routing methods, flood prediction, groundwater yield and drawdown in unconfined and confined aquifers, unsteady well behavior, and method of images are also introduced.

Prerequisite: CE 3300.

CE4810 - Groundwater Hydrology

Credits: 3
Principles and basic equations associated with saturated and unsaturated flow in soils describing groundwater and drainage flow. Laws governing the movement, recharge, and production of underground water with special emphasis on techniques and modeling methods for development of groundwater resources.

Dual Listed CE 5810.
Prerequisite: ES 2330.
CE4870 - Water Resource Engineering

Credits: 3
Study in water resource planning and design and problem solving applying engineering principles and procedures. Western United States water problems are emphasized, including user completion, reallocation, consumptive use, water development, conservation, conveyance losses, and return flows.

Dual Listed CE 5870.
Prerequisite: CE 3300.

CE Math/Sci/Tech/Prof Courses: 9 credit hours

Must take 9 additional credit hours in Math/Science/Technical/Professional courses.

Required Credits: 125 Hours (Minimum)

A Minimum of 42 Credit Hours Must Be Upper Division (3000+) Level.

- Advanced Standing/Gateway: Prior to enrolling in upper division ARE/CE courses, students must earn 57 quality points in the following courses: CHEM 1020, PHYS 1210 or PHYS 1220, MATH 2200, MATH 2205, ES 2110, ES 2120, and ES 2410.
- Degree candidates must meet the academic requirements of the university, and must have a minimum GPA of 2.0 in all engineering courses, and all courses required for the major. *Grades of C or better are required for all prerequisite courses.
- Students choose an area of emphasis in either structural or mechanical systems, and select Optional Electives and the Capstone Design for their emphasis area. Care should be taken to ensure prerequisites are completed.
- Students must take either CE 4250 or CE 4260 for the Structural Design requirement. Remaining Professional Development Electives must cover at least two of the following areas: Environmental, Geotechnical, Transportation, Water Resources.
- Students may have a maximum of 6 credits in courses with a grade of D in upper division ARE courses that apply towards their degree.
- Students may not take a course for S/U credit to satisfy any requirement, unless the course is offered for S/U credit only.
- No more than two upper division courses may be transferred and applied to the CE degree. CE 4010 and CE 4900 cannot be transferred to UW.

CE Outcomes

The Civil Engineering department regularly evaluates the following student skills. Specifically, every University of Wyoming Civil Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts

5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions

7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

**Civil Engineering/Water Resources**

The purpose of this program is to broaden the students' master of science program in the water resource area in civil engineering.

**Plan A Thesis Requirement**

Only students with a M.S. Plan A thesis option are eligible. The student's graduate committee will include at least one member of the Water Resources Curriculum Committee.

**Coursework and Thesis**

Each student must complete a minimum of 28 hours of graduate level coursework and a thesis under Plan A (4 credit hours) to qualify for the master of science in civil engineering/water resources.

The student must obtain at least 18 credit hours of graduate level coursework in engineering, emphasizing a concentration of core courses in a particular area of emphasis in civil engineering. The core course areas of emphasis for this program are hydrologic and hydraulic engineering. The particular set of courses for a given area of emphasis will be designated by the faculty in the water resources area for these areas of emphasis with the approval of the Civil Engineering Graduate Committee.

**Interdisciplinary Component**

9 hours

**Technical Hydrology (3 Hours)**

**GEOL5444 - Geohydrology**

Credits: 3  
Examines the physical principles governing the occurrence, movement, and extraction of water in aquifers.

**Dual Listed** GEOL 4444.  
**When Offered** (Normally offered fall semester)  
**Prerequisite:** MATH 2205.
GEOL5550 - Numerical Methods in Ground Water Geology I

Credits: 3
Numerical solution of ground water flow equations with emphasis on steady state and elementary time dependent finite difference techniques.

Prerequisite: GEOL 4444 or GEOL 5444, competence in FORTRAN programming.

GEOL5570 - Advanced Geohydrology

Credits: 3
Aquifer performance and testing, ground water basin development and management, conjunctive use of ground and surface water, and regional water resource investigations.

Prerequisite: GEOL 4444 or GEOL 5444.

REWM5285 - Wildland Hydrology

Credits: 3
Teaches essential and unique characteristics of hydrologic cycle as occurs on range and forest lands, concentrating on quantification of these processes and storages.

Cross Listed: ENR 5285.
Dual Listed: REWM 4285.
Prerequisite: graduate standing and University Studies QA.
   • REWM 5280 - Stream Habitat Management Credits: 3

Law/Natural Resource Economics (3 Hours)

(please refer to the general degree requirements for a list of courses)

Water Quality (3 Hours)

GEOL5450 - Geochemical Modeling

Credits: 3
Modeling of geochemical processes in fluid-rock systems of the Earth's crust. Emphasizes development and application of conceptual models as well as quantitative numerical models. Reinforces and expands fundamental skills in aqueous and fluid-rock geochemistry to better understand geochemical processes and solve problems in fluid-rock systems.

Prerequisite: GEOL 4777/GEOL 5777 or GEOL 5610 or GEOL 4490.

GEOL5777 - Geochemistry of Natural Waters

Credits: 3
Physical chemistry of solutions applied to natural waters. Chemistry of rock weathering, controls on major, minor, and
trace element contents of natural waters. Problems of introduced pollutants.

Cross Listed GEOL 4777.
Prerequisite: CHEM 1030 OR consent of instructor.
- MOLB 4410 Water Microbiology Credits: 3
- MOLB 4500 Microbial Ecology Credits: 3

ZOO4440 - Limnology

Credits: 3
Studies ecology of inland waters; biological, chemical and physical features of lakes and streams.

When Offered (Offered fall semester)
Prerequisite: LIFE 1010, LIFE 3400 and CHEM 1030 or consent of instructor.

Construction Management, B.S.

Construction Managers are responsible for overseeing construction projects, including schedules, budgets, and quality control. The B.S. in Construction Management is a candidate for accreditation by ACCE and provides numerous career paths.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**Q- - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Core Courses: 50 credit hours**
CE1000 - Exploring CAECM

Credits: 1
Introduction to civil and architectural engineering professions through exploration of modern engineering challenges. Students work on a design project, starting with problem definition and working towards concept designs using spreadsheet and communication tools. Professional topics introduced include globalization, diversity, professional ethics, design limitations and constraints, sustainability, environmental stewardship, and engineering economics.

Cross Listed ARE 1000.
Prerequisite/Corequisite: of MATH 1450 or MATH 1405.

CE2070 - Engineering Surveying

Credits: 3
Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Traverse field techniques and office calculations. Basic principles of surveying and map making.

Prerequisite/Corequisite: of MATH 1450 or MATH 1405.

CM2000 - Introduction to Construction Management

Credits: 3
Introduction to the practice and principles of construction management as it relates to both vertical and horizontal construction projects.

CM2120 - Construction Materials and Methods

Credits: 3
Introduction to building materials and construction practices used in the construction industry to construct both vertical and horizontal construction projects.

Prerequisite: COM1.

CM2300 - Construction Safety

Credits: 3
Introduce students to the various causes of construction accidents and adopted strategies to prevent worksite injuries and illnesses with an emphasis on OSHA standards.

Prerequisite: CM 2000.

CM2400 - MEP Systems

Credits: 3
Introduction to mechanical, electrical and plumbing systems in site infrastructure and vertical construction projects.
**Prerequisite:** C in PHYS 1110.

**CM2600 - Construction Documents**

Credits: 3  
Introduction to the creation and interpretation of construction documents used in the construction industry to build today's vertical and horizontal construction projects.

**Prerequisite:** CM 2000.

**CM3100 - Construction Scheduling**

Credits: 3  
Principles of construction scheduling including analytical and quantitative scheduling and management techniques as they apply to both vertical and horizontal construction projects.

**Prerequisite:** CM 3210

**CM3160 - Construction Law & Contracts**

Credits: 3  
The course covers different contract methods, or arrangements, used by the Construction industry to contract and procure construction work. The course also introduces students to construction law in support of planning and the execution of construction work.

**Prerequisite:** CM 2600.

**CM3180 - Evolving Technologies in CM**

Credits: 3  
The course introduces students to Leadership in Energy and Environmental Design (LEED), Building Information Modeling (BIM) and evolving technologies in construction.

**Prerequisite/Corequisite:** Grade of C in CM 2000

**CM3200 - Statics & Structural Systems**

Credits: 4  
The course introduces students to the basic principles of statics and structural analysis and design. It provides students with a concise presentation of structural technology, from the determination of structural loads, sizing and design as it relates to timber, steel and concrete structures.

**Prerequisite:** PHYS 1110 and MATH 2200 with grades of C or better.

**CM3210 - Construction Estimating**
The course introduces students to concepts in estimating including but not limited to labor and equipment calculations, the use of price databases, direct and indirect cost, bid preparation and computer applications.

**Prerequisite:** C in CM 2600.

**CM3220 - Soils and Concrete**

Credits: 3  
This course will introduce students with the construction process that includes, site clearing, soil mechanics, testing, concrete foundations, concrete mix design, concrete construction practice, and concrete testing.

**Prerequisite:** GEOL 1110 with a grade of C or better and concurrent enrollment in CM 3200.

**CM4100 - Project Management**

Credits: 3  
This course guides students through fundamental Project Management concepts and behavioral skills needed to successfully launch and lead construction projects in the construction sector.

**Prerequisite:** CM 3100.

**CM4140 - Heavy CM Methods**

Credits: 3  
The course provides student an overall understanding of construction equipment and selected construction methods used on large scale construction projects. With specific reference to selection, economy, and productivity of common construction equipment and construction procedures for site development and industrial, heavy and civil construction.

**Prerequisite:** CM 2120 and CM 3200.

**CM4600 - Building Info. Modeling**

Credits: 3  
This course focuses on the skills and information needed to effectively use an existing Building Information Model (BIM) in plan execution for a building construction project. This is a projectbased course where students develop skills on the implementation of BIM concepts throughout the lifecycle of a building, from planning and design, to construction operations.

**Prerequisite:** CM 2600.

**CM4900 - Capstone Project**

Credits: 3  
This course requires students to participate in a "real" construction situation involving all aspects of managing a project; from initial planning to completion, including budgets, estimating, scheduling, financing and creating contracts
and other construction forms as necessary. Case studies will be utilized to develop critical thinking skills.

**Prerequisite:** CM 4100.

**Business & Professional Courses: 18 credit hours**

**ACCT2010 - Principles of Accounting I**

Credits: 3
Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

**Former Course Number** [1010]

**Prerequisite:** Sophomore class standing and MATH 1400

**COMM2010 - Public Speaking**

Credits: 3
Beginning public speaking course. Students will develop foundational oral, digital and written communication skills. Emphasizes message construction, performance and critique in public communication settings. Includes speech preparation, listening, audience analysis, writing strategies, digital communication, critical thinking, language/nonverbal behavior and various speaking formats. (Offered fall, spring and summer).

USP 2003-2014 Code U3O
USP 2015 Code U5C2
**Former Course Number** COJO 2010

**Corequisite:** Prerequisite: Successful completion of a COM1 course.

**COJO3010 - Business and Professional Communication**

Credits: 3
Studies theories and techniques of professional communication activities including interviewing skills, group processes, and professional presentations; for students who are beyond elementary oral communication level. Students develop oral communication skills through projects and presentations.

USP 2015 Code U5C3
**Prerequisite:** COJO 1010 or COMM 2010 and junior standing.

**ECON1010 - Principles of Macroeconomics**

Credits: 3
An introductory course on why economics matters. We examine why countries like the US are rich, while others are
poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGEC 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

**MGT2010 - Legal Environment of Business**

Credits: 3
Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

**MGT2100 - Management and Organization**

Credits: 3
An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

Math/Science Courses: 18 credit hours

**GEOL1100 - Physical Geology**

Credits: 4
Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

USP 2003-2014 Code U3SE
USP 2015 Code U5PN

**MATH1405 - Trigonometry**

Credits: 3
Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.
MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

PHYS1110 - General Physics I

Credits: 4
First course of two-semester sequence. Introduces elementary college physics without calculus. Primarily for premedical, predental, preoptometry, prephysical therapy and other students requiring insight into workings of the physical world. Includes classical mechanics, gravitation and heat. Laboratory sessions will illustrate principles studied. Students receiving credit for PHYS 1110 cannot receive credit for PHYS 1050, PHYS 1210 or PHYS 1310.

When Offered (Normally offered fall and summer semester)
Prerequisite: MATH 1450, 1405 or equivalent.

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

CM Electives: 6 credit hours
Must take 6 additional credit hours in Construction Management elective courses.

General Electives: 12 credit hours
Must take 12 additional credit hours in general elective courses.

Required Credits: 120 Hours (Minimum)
A Minimum of 42 Credit Hours Must Be Upper Division (3000+) Level.

- Degree candidates must meet the academic requirements of the university, and must have a minimum GPA of 2.0 in all courses, and all courses required for the major. *Grades of C or better are required for all prerequisite courses.
- Math 2350 may replace Math 2200 but student must also have Math 1405.
- Math 1405 may be satisfied with Level 5 of the Math placement exam or Math ACT of 27 or SAT Math of 640. Students placing out of Math 1405 will need an additional general elective.
- Students may not take a course for S/U credit to satisfy any requirement, unless the course is offered for S/U credit only.

**Minor**

**Construction Management Minor**

For UW undergraduate students in other majors, a Minor in Construction Management may be earned by:

Completing any 15 credits with a CM prefix, with the exceptions listed below.

Architectural Engineering majors will not be permitted to use the following courses to satisfy the Minor requirement (or as ARE Major Electives), because they duplicate content in required courses in their major:

- CM 2120: Construction Materials and Methods
- CM 2200: Structures
- CM 2400: MEP Systems
- CM 2600: Construction Documents
- CM 3220: Soils and Concrete
- CM 4600: Building Info. Modeling

Civil Engineering majors will not be permitted to use the following courses to satisfy the Minor requirements (or as CE MSTP Electives), because they duplicate content in required courses in their major:

- CM 2200: Structures
- CM 3220: Soils and Concrete

Minors in Construction Management are not accredited

**Land Surveying Minor**

A minor in Land Surveying requires 31 hours of specific course work. This minor includes the Wyoming Board of Professional Engineers and Professional Land Surveyor's education requirements for a Land Surveyor in Training license. The Land Surveying minor may be paired with any major. All Land Surveying classes are offered as distance learning through Distance Education Programs.
Curriculum Requirements:

**LS2010 - Engineering Surveying Lecture**

Credits: 2
Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Basic principles of surveying and map making.

**Former Course Number** [CE 2072]

**Prerequisite:** a working knowledge of algebra and trigonometry.

**LS2015 - Engineering Surveying Laboratory**

Credits: 1
Field surveying activities consisting of traversing, differential leveling, construction staking and gathering topographic data.

**Former Course Number** [CE 2073]

**Prerequisite:** LS 2010 or concurrent.

**LS2020 - GPS for Land Surveyors**

Credits: 4
From fundamental theory to practical application and advanced technologies, this class covers all aspects of GPS needed to understand and use GPS as a land surveyor including the basics of GPS technology, common hardware, surveying methods, survey design, planning and observing, real-time kinematics and DGPS.

**Former Course Number** [CE 2090]

**Prerequisite:** LS 2400.

**LS2100 - Records Research for Surveyors**

Credits: 3
Introduced to the public, quasi-public, and private depositories of recorded and non-recorded documents that establish land ownership boundaries, easement boundaries, and land use rights and restrictions in both the Public Land Survey System and the Colonial States. Assignments will require work to be conducted during depositories' normal business hours.

**Former Course Number** [CE 2076]

**LS2110 - Real Property Law**
Credits: 3
Covers all major areas of real property law, including the nature of real property, types of ownership, real estate contracts, title and insurance, financing, landlord and tenant, land use, environmental law and regulation. An understanding of real property law is fundamental to understanding boundary law.

**Former Course Number** [CE 2050]

**LS2400 - Basic Geodesy for Today's Land Surveyor**

Credits: 2
The history of geodesy including measurement techniques, coordinate systems, ellipsoids, and datums is reviewed. The modern geodetic and Cartesian coordinates systems, as well as the differences between grid and ground coordinates systems, and the current geodetic and Cartesian coordinate systems available today are discussed.

**Former Course Number** [CE 2089]

**Prerequisite:** CE 2070 or LS 2010.

**LS3100 - Real Property Descriptions**

Credits: 2
Historical and current issues for land description writing and usage for the practicing surveyor. Relationship between written descriptions and field survey data, interpreting old descriptions and the structure principles of description.

**Former Course Number** [CE 2088]

**Prerequisite:** CE 2070 or LS 2010, and LS 2100 and LS 2110.

**LS3110 - Boundary Evidence**

Credits: 2
A practical and working guide to understanding survey evidence and the laws of boundary location for efficient, accurate boundary determination. This material aids in the elimination of errors in location of land boundaries. The surveyor's liability and statutes of limitations are explored in depth. Also included are discussions of the surveyor's role in court. Normally offered only through the Outreach School.

**Former Course Number** [CE 3750]

**Prerequisite:** CE 2070 or LS 2010, and LS 2110.

**LS3120 - Boundary Principles**

Credits: 2
This course in boundary law addresses the fundamental principles of real property as applied to land surveying and related professions. Discussion and applications center on practical situations and concepts commonly encountered
while conducting boundary surveys and the determination of the extent of ownership rights. Students explore the scope of the surveyors' judiciary role in real property ownership. Primarily offered through the Outreach School.

**Former Course Number** [CE 3740]

**Prerequisite:** CE 2070 or LS 2010, and LS 3100 and LS 2110.

**LS3130 - Public Land Surveys**

Credits: 3

Basic fundamentals of the Public Land Survey System (PLSS), dependent and independent resurveys, survey plats, "bona fide rights", riparian boundaries, non-rectangular entities, corner evidence and the role of the modern day surveyor.

**Former Course Number** [CE 2085]

**Prerequisite:** CE 2070 or LS 2010, and LS 2110.

**LS3200 - Route Surveying**

Credits: 3

Laying out of super elevation and circular, parabolic, and spiral curves; the difference between highway and railway horizontal curve geometry; offsets to spiral curves as boundaries; area and volumes of earthwork.

**Former Course Number** [CE 3710, CE 4710]

**Prerequisite:** CE 2070 or LS 2010, and ES 1060 or ES 1061.

**LS3210 - Advanced Surveying**

Credits: 4

Advanced topics in surveying computations and procedures, including traverse error analysis, topographic surveying, mapping, astronomical observations, coordinate geometry applications, and state plane coordinates.

**Former Course Number** [CE 3720, CE 4720]

**Prerequisite:** CE 2070 or LS 2010.

**Total Credits: 31 Hours**

¹ Computer Aided Drafting 1 offered through Sheridan College Outreach Programs.
The intent of this application based minor is to prepare the student for the pursuit of Professional Licensure. Those only seeking the remote learning Land Surveying courses should see the Cadastral Land Surveying Certificate found at http://www.uwyo.edu/civil/landsurvey/.

**Graduate**

**Architectural Engineering, M.S.**

The MSCE Quick Start (Plan A) program in Civil and Architectural Engineering (CAE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor of science (BS) degree in Civil Engineering or Architectural Engineering. These students must apply for admission to the Quick Start (Plan A) program no later than the second semester of their junior year. Areas of study in the master of science program include: building mechanical systems, building energy modeling, structural engineering. The master of science degree in each of these areas requires completion of 12 to 18 hours of engineering courses related to the particular program area.

**Plan A (Thesis)**

The degree of master of science, Plan A, requires a minimum of 26 hours of coursework and a minimum of 4 hours thesis research in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework for approval by the departmental graduate studies committee (AREGS), and the department head.

Plan A is required of all state or contract supported graduate assistants.

**Plan B (Non-thesis)**

Requires a minimum of 30 hours of coursework and a Plan B paper, in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework and the course number that the Plan B paper covers for approval by the AREGS and the department head.

**Civil Engineering, M.S.**

**Program Specific Degree Requirements**

**Master's Program**

Areas of study in the master of science program include: building mechanical systems engineering, environmental engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering. The master of science degree in each of these areas requires completion of 12 to 18 hours of engineering courses related to the particular program area.

**Plan A (Thesis)**
The degree of master of science, Plan A, requires a minimum of 26 hours of coursework and a minimum of 4 hours thesis research in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework for approval by the departmental graduate studies committee (CEGS), and the department head.

Plan A is required of all state or contract supported graduate assistants.

**Plan B (Non-Thesis)**

Requires a minimum of 30 hours of coursework and a Plan B paper, in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework and the course number that the Plan B paper covers for approval by the CEGS and the department head.

**Civil Engineering, Ph.D.**

Areas of study in the doctor of philosophy program include: building mechanical systems engineering, environmental engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering.

Minimum of 42 hours of coursework beyond the baccalaureate, 36 hours of which must be 5000-level (graduate-level) courses or the equivalent, and concentrated independent research leading to an acceptable dissertation.

In addition to expertise in the specific dissertation topic, the candidate must demonstrate competence in two or more research areas that will help to insure a high-quality dissertation acceptable to the student's graduate committee.

Subject to department and university requirements, the student's coursework is arranged by consultation between the student, his or her adviser, and his or her committee, and must also be approved by the CEGS and by the department head.

Coursework is defined in a program of study that should be filed by the end of the second semester of the Ph.D. program.

At a time near the completion of formal coursework, the student is required to take and pass a preliminary examination on the Ph.D. coursework and, as a part of the examination, is required to present a written and oral dissertation proposal to his or her committee for approval.

Finally, the student must demonstrate research competence in an oral defense of the dissertation and must submit an acceptable written version of the dissertation to his or her graduate committee in a timely manner to meet deadlines. In addition, the student is to meet the minimum requirements set forth in this bulletin.

**Certificate**

**Cadastral Surveying Certificate**

**Program Information**

- Students must be properly admitted as Cadastral Surveying Certificate students through the University of Wyoming Admissions Office to be eligible for this Certificate.
• This certificate requires a minimum of 30 semester hours as listed below. 21 credit hours must be successfully completed at the University of Wyoming.
• All transfer credit is subject to review by the UW Land Surveying Director.
• A grade of C or better must be earned in each course.
• The Certificate meets the Wyoming Board of Professional Engineers and Land Surveying licensing requirements for the surveying specific course work required to apply to be a Land Surveyor in Training (LSIT).
• Students earning the Cadastral Surveying Certificate are NOT eligible for Federal Financial Aid. Students may utilize private student loan programs available through the Student Financial Aid Office.
• The UW Cadastral Surveying program is not ABET Accredited.
• Students should have a working knowledge of algebra and trigonometry, and some experience with spreadsheets prior to beginning in this program.
• AutoCAD Civil 3D is recommended.

Course Requirements

LS2010 - Engineering Surveying Lecture

Credits: 2
Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Basic principles of surveying and map making.

Former Course Number [CE 2072]

Prerequisite: a working knowledge of algebra and trigonometry.

LS2020 - GPS for Land Surveyors

Credits: 4
From fundamental theory to practical application and advanced technologies, this class covers all aspects of GPS needed to understand and use GPS as a land surveyor including the basics of GPS technology, common hardware, surveying methods, survey design, planning and observing, real-time kinematics and DGPS.

Former Course Number [CE 2090]

Prerequisite: LS 2400.

LS2100 - Records Research for Surveyors

Credits: 3
Introduced to the public, quasi-public, and private depositories of recorded and non-recorded documents that establish land ownership boundaries, easement boundaries, and land use rights and restrictions in both the Public Land Survey System and the Colonial States. Assignments will require work to be conducted during depositories' normal business hours.

Former Course Number [CE 2076]
**LS2110 - Real Property Law**

Credits: 3
Covers all major areas of real property law, including the nature of real property, types of ownership, real estate contracts, title and insurance, financing, landlord and tenant, land use, environmental law and regulation. An understanding of real property law is fundamental to understanding boundary law.

**Former Course Number** [CE 2050]

**LS2400 - Basic Geodesy for Today's Land Surveyor**

Credits: 2
The history of geodesy including measurement techniques, coordinate systems, ellipsoids, and datums is reviewed. The modern geodetic and Cartesian coordinates systems, as well as the differences between grid and ground coordinates systems, and the current geodetic and Cartesian coordinate systems available today are discussed.

**Former Course Number** [CE 2089]

**Prerequisite:** CE 2070 or LS 2010.

**LS3100 - Real Property Descriptions**

Credits: 2
Historical and current issues for land description writing and usage for the practicing surveyor. Relationship between written descriptions and field survey data, interpreting old descriptions and the structure principles of description.

**Former Course Number** [CE 2088]

**Prerequisite:** CE 2070 or LS 2010, and LS 2100 and LS 2110.

**LS3110 - Boundary Evidence**

Credits: 2
A practical and working guide to understanding survey evidence and the laws of boundary location for efficient, accurate boundary determination. This material aids in the elimination of errors in location of land boundaries. The surveyor's liability and statutes of limitations are explored in depth. Also included are discussions of the surveyor's role in court. Normally offered only through the Outreach School.

**Former Course Number** [CE 3750]

**Prerequisite:** CE 2070 or LS 2010, and LS 2110.

**LS3120 - Boundary Principles**
This course in boundary law addresses the fundamental principles of real property as applied to land surveying and related professions. Discussion and applications center on practical situations and concepts commonly encountered while conducting boundary surveys and the determination of the extent of ownership rights. Students explore the scope of the surveyors' judiciary role in real property ownership. Primarily offered through the Outreach School.

**Former Course Number** [CE 3740]

**Prerequisite:** CE 2070 or LS 2010, and LS 3100 and LS 2110.

### LS3130 - Public Land Surveys

Credits: 3

Basic fundamentals of the Public Land Survey System (PLSS), dependent and independent resurveys, survey plats, "bona fide rights", riparian boundaries, non-rectangular entities, corner evidence and the role of the modern day surveyor.

**Former Course Number** [CE 2085]

**Prerequisite:** CE 2070 or LS 2010, and LS 2110.

### LS3200 - Route Surveying

Credits: 3

Laying out of super elevation and circular, parabolic, and spiral curves; the difference between highway and railway horizontal curve geometry; offsets to spiral curves as boundaries; area and volumes of earthwork.

**Former Course Number** [CE 3710, CE 4710]

**Prerequisite:** CE 2070 or LS 2010, and ES 1060 or ES 1061.

### LS3210 - Advanced Surveying

Credits: 4

Advanced topics in surveying computations and procedures, including traverse error analysis, topographic surveying, mapping, astronomical observations, coordinate geometry applications, and state plane coordinates.

**Former Course Number** [CE 3720, CE 4720]

**Prerequisite:** CE 2070 or LS 2010.

**Required Credits:** 30 Hours Minimum
QuickStart Program

Civil and Architectural Engineering Quick Start, B.S./M.S.

The MSCE Quick Start (Plan A) program in Civil and Architectural Engineering (CAE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor of science (BS) degree in Civil Engineering or Architectural Engineering.

Department of Electrical Engineering and Computer Science

5068 Engineering Building, (307) 766-2279

Professors:

STEVEN F. BARRETT, B.S. University of Nebraska 1979; M.E. University of Idaho 1986; Ph.D. University of Texas 1993; Professor of Electrical Engineering 2011, 1999.

RUBEN GAMBOA, B.S. Angelo State University 1984; M.C.S. Texas A&M University 1986; Ph.D. The University of Texas 1999; Professor of Computer Science 2015, 2002.

CAMERON H.G. WRIGHT, B.S. Louisiana Tech University 1983; M.S. Purdue University 1988; Ph.D. University of Texas 1996; Professor of Electrical Engineering 2016, 2003.

Associate Professors:

AMY BANIC, B.S. Duquesne University 2003; M.S. University of North Carolina 2005; Ph.D. 2008; Associate Professor of Computer Science 2012, 2010.

MIKE BOROWCZAK, B.S. University of Cincinnati 2007; Ph.D. 2013; Associate Professor of Computer Science 2022.

DONGLIANG DUAN, B.E. Huazhong University of Science and Technology 2006; M.S. University of Florida 2009; Ph.D. Colorado State University 2012; Associate Professor of Electrical Engineering 2019, 2012.

JON M. PIKAL, B.S. Purdue University 1988; M.S. University of Colorado 1993; Ph.D. Colorado State University 1999; Associate Professor of Electrical Engineering 2005, 1999.

Assistant Professors:

CHAO JIANG, B.E. Chongqing University 2009; Ph.D. Stevens Institute of Technology 2019; Assistant Professor of Electrical and Computer Engineering 2019.

LARS KOTTHOFF, Diplom (M.Sc.) University of Leipzig 2007; Ph.D. University of St. Andrews 2012; Assistant Professor of Computer Science 2017.

NGA NGUYEN, B.S. Hanoi University of Science and Technology 2005; M.S. 2007; Ph.D. Michigan State University 2017; Assistant Professor of Electrical and Computer Engineering 2018.

DIKSHA SHUKLA, B.S. Kanpur University 2008; M.C.A. Jawaharlal Nehru University 2011; M.S. Louisiana Tech University 2014; Ph.D. Syracuse University 2019; Assistant Professor of Computer Science 2019.

Senior Lecturer:

JAMES S. WARD, B.S. University of Wyoming 1993; M.S. 1997; Senior Lecturer of Computer Science 2011, 2000.

Associate Lecturer:

KIM BUCKNER, B.S. Chapman University 1993; M.S. University of Tennessee, Knoxville 1998; Ph.D. 2003; Associate Lecturer of Computer Science 2014, 2008.

Adjunct Faculty:

Robin Hill, Elena Oggero, Guido Pagnacco

Professors Emeriti:

Lecturer Emeritus:

Jeri R. Hanly
Computer Science

A Bachelor of Science degree (B.S.) in Computer Science prepares students for careers in virtually any industry or to continue on with graduate study in Computer Science and many other fields. Computer science students learn to approach problems from a computational (algorithmic) point of view, and this approach to problem solving often leads to better and more general solutions. Software systems, information technology, and large scale data applications are core technologies in every area and the applications continue to grow with software and information systems becoming more and more embedded in the fabric of everyday life. These systems are essential tools in science and engineering, for business and finance, government, communications, medicine, and entertainment. Software systems make the world go round and smart devices, such as phones, tablets, glasses, wearable devices, medical implants are ubiquitous. As a result, computer science has grown from a specialized field to an independent, broadly based area that studies all aspects of the use and understanding of software systems, information, and computational processes. Students studying B.S. in Computer Science at the University of Wyoming have the option to focus their studies by taking a concentration in Business, Big Data, or the Cybersecurity certificate. The Cybersecurity certificate captures core technical cyber security foundations and principles, from databases and networks to advanced threat detection and mitigation. All of the Computer Science concentrations lead to a Bachelor of Science in Computer Science and all programs are ABET accredited.

Program Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.
Growing: Graduates show continued learning and leading in computing-related professions.
Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Program Learning Outcomes

The program of study in Computer Science enables students to achieve, by the time of graduation:

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

Graduate Study - Computer Science

The Department offers graduate work leading to the Master of Science degree in computer science and the Doctor of Philosophy in computer science. The Department also offers a graduate minor in computer science.
Program Specific Admission Requirement

Applicants for a graduate degree in computer science are expected to have completed undergraduate courses in Algorithms and Data Structures (COSC 3020 equivalent), Theory of Computing (COSC 4100 or COSC 4200 equivalent), Operating Systems (COSC 4740 equivalent), and Programming languages or Compilers (COSC 4780 or COSC 4785 equivalent). Applicants to the doctoral program must have completed a bachelor's or master's degree in computer science or a closely related discipline at an accredited university or college.

The Graduate Record Examination (GRE) is required of all applicants. GRE scores are required with minimums of 40th percentile for the verbal score and 65th percentile for the quantitative score. Our strongest students tend to have scores substantially above these minimums, with quantitative scores often around the 90th percentile or higher.

Students whose native language is not English must also complete the Test of English as a Foreign Language (TOEFL) with a score of at least 550 on the paper based TOEFL; 213 on the computerized test including a 58 or better in section 1-Reading; 80 for the Internet based TOEFL (iBT) including a score of 23 or better in section 1-Reading or the International English Language Testing System (IELTS) test with a 6.5 score or better. Students may also use the Duolingo exam, with a minimum of 105 overall and 125 in the Literacy section.

You must submit to the online application system contact information for three references that can evaluate your potential for graduate study in computer science. If you wish to pursue a Ph.D., the letters should address your ability to pursue quality original research. Letters should also evaluate your oral and written communication skills.

If you meet the minimum criteria and would like to formally apply for admission you will also need to submit the following information during the completion of your application via the application portal:

Copies of transcripts from all colleges and universities (minimum GPA or equivalent 3.000 on a scale of 4.000) for all degrees attained. International applicants must submit copies of individual semester transcripts, consolidated transcripts will not be accepted.

Copy of GRE scores a minimum percentile of 40% on verbal and 65% on quantitative portions of the exam. The majority of admitted students tend to have scores substantially above these minimums.

Contact information for three recommendation letters (applicants should follow-up with recommenders to ensure this requirement is fulfilled; applications will not be processed further until all recommendations have been received).

International students will also need to submit a copy of TOEFL scores, IELTS scores, or Duolingo scores.

High performing undergraduates in computer science can elect for Quick Start admission to the graduate program, allowing the sharing of up to six credit hours of 5000-level coursework toward the completion of both the B.S. and the graduate degree programs.

Electrical Engineering

The program of study outlined in the curriculum has been planned to provide the depth of understanding necessary to meet challenges of changing technology while being flexible enough to allow students to pursue in-depth study in at least one area of electrical engineering. In order to attain this, students are required to gain an understanding of mathematics and the basic engineering sciences. The fundamental electrical engineering education consists of courses in circuits, networks, electromagnetics, electronics, digital systems, communications, controls and energy conversion. Selection of elective courses, in consultation with the academic adviser, enables students to specialize in the above mentioned areas, as well as in robotics, microcircuits, microprocessors and high frequency electronics.

Laboratory work associated with electrical engineering courses is an important part of the curricula. This work helps students gain experience in applying the theoretical knowledge they acquire to practical engineering problems.
Engineering design is an important component of the curriculum that concludes with a significant design experience in the senior year. Additional programs are described below.

F.M. Long Bioengineering Option. Named in honor of UW Professor Francis M. Long, this area offers excellent opportunities for those interested in applying the techniques of the electronic engineer to problems of environmental science, biology and medicine. Employment opportunities exist in state and federal agencies, industry and medical institutions. Career placement includes such areas as environmental monitoring, design and development of biological and medical instrumentation and clinical engineering. With minor modifications, the curriculum shown may be used as preparation for entrance to medical or dental school.

Computer Engineering

Computer Engineering is a blend of Computer Science and Electrical Engineering. In fact, a Computer Engineering student can change majors to Computer Science within the first three semesters without losing any credits. More careful planning is required to switch from Computer Science to Computer Engineering. Computer Engineering students receive training that allows them to design complex computer systems and embed them in custom applications such as robots, spacecraft, automobiles, etc. A typical system may interface with a sensor to measure the world, then decide how to best use the information to achieve goals and eventually turn on actuators which perform the needed task. They also develop computer vision systems, high performance computers and software, and the internet of things. They take many of the same required courses as Electrical Engineers, but fill in their electives with computer specific courses. Graduates have the ability to design electric circuits, understand network hardware, design computer systems, and write the software inside those systems. Compared to Electrical Engineers, Computer Engineers have less breadth of knowledge in Electrical Engineering but more depth in software and computer hardware. Compared to Computer Scientists, Computer Engineers know much more about hardware and signal/system theory. Computer Engineers sometimes also major in either Electrical Engineering or Computer Science to get two degrees.

Grade Policy

Electrical and computer engineering majors must achieve a grade of C (2.000) or better on courses that are prerequisites for courses within the student's course of study. Students must also achieve a grade of C (2.000) or better in all required mathematics courses.

Concurrent Major and Minor

The department offers a concurrent major and minor in both the electrical engineering and computer engineering programs. Consult the department office for a current detailed list of requirements.

Program Educational Objectives for Electrical and Computer Engineering

Graduates of the University of Wyoming Electrical and Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).
University of Wyoming, Electrical and Computer Engineering Program, Student Outcomes

All Electrical (Computer) Engineering graduates shall demonstrate:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Graduate Program - Electrical Engineering

The department offers programs of study leading to the Master of Science and Doctor of Philosophy degrees in electrical engineering. Study programs are individually planned to students' interests in both course work and research. The areas of major concentration at the graduate level are:

- Bio-Engineering
- Controls
- Electrical Energy Systems
- Electronic Systems and Devices
- Robotics
- Signal Processing and Computer Networks

The department also offers a combined B.S./M.S. program for exceptional students wishing to obtain both degrees in a shorter period of time.

Program Specific Admission Requirements

Statement of purpose
Official transcripts from all post-secondary institutions attended
GRE verbal percentile minimum of 45 percent. GRE quantitative percentile minimum of 65 percent.
TOEFL total of 79 iBT or IELTS total 6.5.

Program Specific Graduate Assistantships

Additionally, all international students who are state-funded teaching assistantships or any international student with teaching responsibilities are required to complete an Oral Proficiency Interview (OPI). Students will need to follow the recommendations to improve their English skills. Students on state-funding who fail to follow the recommendations or
do not meet the minimum proficiency by the end of their first semester will not be able to receive any state-funding until they have demonstrated proficiency.

**Major**

**Computer Engineering, B.S.**

A B.S. in Computer Engineering provides the knowledge needed for careers in computer programming & design. It is a blend of Computer Science and Electrical Engineering and is often used to develop special purpose computers like those in your car.

**University Studies Program**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Math & Science**

**MATH2200 - Calculus I**

Credits: 4  
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.
MATH2205 - Calculus II

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

MATH2210 - Calculus III

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

MATH2300 - Discrete Structures

Credits: 3
Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

Cross Listed COSC 2300.

MATH2310 - Applied Differential Equations I

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

CHEM1020 - General Chemistry I

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and
organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.

**Prerequisite:** ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

**PHYS1210 - Engineering Physics I**

Credits: 4
First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

**Prerequisite:** a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

**PHYS1220 - Engineering Physics II**

Credits: 4
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

**Prerequisite:** grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.
- 3 credits of an approved Math/Science Elective

**Engineering Science**

**ES2110 - Statics**

Credits: 3
Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**ES2120 - Dynamics**

Credits: 3
Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.
Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

**ES2210 - Electric Circuit Analysis**

Credits: 3
Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

Prerequisite: MATH 2205 or concurrent enrollment.

**Electrical Engineering**

**EE2220 - Circuits and Signals**

Credits: 4

When Offered (Offered spring semester only)
Former Course Number [3320]

Prerequisite: ES 2210, or ES 2215 and ES 2216.

**EE2390 - Digital Systems Design**

Credits: 4
Binary logic, digital logic gates, reduction of Boolean expressions, combinational logic design. MSI and LSI combinational logic ICs, flip-flops, synchronous and asynchronous sequential systems design, MSI and LSI sequential system ICs, and algorithmic state machines.

Prerequisite: COSC 1010 or COSC 1015 or COSC 1030 or ES 1060, and MATH 2205.

**EE3150 - Electromagnetics**

Credits: 3
A thorough study of static electric and magnetic fields using vector methods with an introduction to dynamic fields.

Prerequisite: ES 2210, or ES 2215 and ES 2216, MATH 2210, and PHYS 1220 or concurrent enrollment.

**EE3220 - Signals And Systems**

Credits: 3
Discrete and continuous-time signals and systems. Topics include linear time-invariant systems; convolution;
difference equations; FIR and IIR systems; sampling, aliasing, reconstruction, and quantization. Frequency domain concepts include discrete and continuous Fourier transforms, Z-transforms, system frequency response, Laplace transform properties, and applications of digital filters and DFT analysis.

**When Offered** (Offered spring semester only)
**Prerequisite:** EE 2220.

**EE3311 - Electronics I**

Credits: 3
Physical characteristics and models of semiconductor devices with application to electronic circuit design. Diode circuits, single transistor amplifiers, biasing, and load lines. Prerequisites: (PHYS 1220 or PHYS 1320 or EE 3150), and EE 2220 or concurrent enrollment. (Offered fall semester only)

**Prerequisite:** PHYS 1220 or PHYS 1320 or EE 3150, and EE 2220 or concurrent enrollment

**EE3312 - Electronics I Laboratory**

Credits: 1
Hands on interactive laboratory investigation of the physical characteristics of semiconductor devices and applications in electronic circuit design. Study of diode and transistor characteristics as well as diode circuits and single transistor amplifier circuit design, construction and testing. Prerequisites: EE3311 must be taken either concurrently or as a prerequisite. (Offered fall semester only)

**When Offered** (Offered fall semester only)
**Prerequisite:** EE3311 must be taken either concurrently or as a prerequisite.

**EE3331 - Electronics II**

Credits: 3
Current sources, differential and multistage amplifiers; circuits with ideal and non-ideal operational amplifiers; low and high band frequency response, feedback, stability, gain and phase margin of amplifiers; output stages, class A and push-pull; monolithic operational amplifier; oscillators; transistors as switches and introduction to digital electronic circuits. Laboratory. Prerequisites: (EE 3310 or EE 3311) and EE 2220. (Offered spring semester only)

**When Offered** (Offered spring semester only)
**Prerequisite:** (EE 3312 or EE 3311) and EE 2220

**EE3332 - Electronics II Laboratory**

Credits: 1
Hands on interactive laboratory investigation of transistor switching circuits, differential amplifiers, current sources, amplifier frequency response, feedback, output stages, and oscillators. Prerequisites: EE 3312 and EE 3331 concurrently (offered spring semester only).

**Prerequisite:** EE 3312 and EE 3331 concurrently
**EE4220 - Probabilistic Signals and Systems**

Credits: 3
Fundamentals of probability and statistics for engineers; reliability in engineering systems; random processes, statistical estimation, auto/cross correlation and power spectral density functions and linear filtering of random signals.

**Prerequisite:** MATH 2210 and EE 3220. EE 3220 may be taken concurrently.

**EE4390 - Microprocessors**

Credits: 3
Design of microcomputers, controllers and instruments which use microprocessors. Semiconductor memory design, CPU architecture, bus structure and timing, input-output interfaces and devices, assembly language programming, assemblers, compilers, editors and simulators. Emphasizes design techniques. Laboratory.

**When Offered** (Normally offered once a year)
**Prerequisite:** EE 2390.

**EE4490 - Hardware Descriptive Language (HDL) Digital Design**

Credits: 3
Hardware Description Language design of digital systems. Industrial CAD tools are used to produce a functional description of hardware that is both simulated and then synthesized into hardware. Methods to describe both combinational logic and synchronous devices are given. Devices such as CPLDs and FPGAs are targeted in this design process. Emphasizes design techniques.

**Prerequisite:** EE 2390.

**EE4820 - Senior Design I**

Credits: 2
Students choose a senior design project and complete the preliminary design. This stage of senior design includes investigation of alternative solutions that meet the project's requirements, cost analysis, and building the prototype circuit. Periodic oral and written project progress reports are required.

**When Offered** (Offered fall semester only)
**Prerequisite:** EE 2220, EE 2390, and EE 3312 or concurrent enrollment, plus 6 hours of 4000 level EE/BE classes, or concurrent enrollment. COM2 must be passed with a C or better grade.

**EE4830 - Senior Design II**

Credits: 2
Students complete the senior design project partially designed in EE 4820. The final result of the senior design project includes assembly of a PC board hardware that meets the project's requirements and final report describing the design procedure, designed hardware and software, and results of final testing. Periodic oral and written project progress reports are required.
When Offered (Offered spring semester only)
Prerequisite: EE 4820 and selected courses in the area of the design project.

EE4870 - Computer Network Hardware

Credits: 4

Prerequisite: EE 2390.
OR

COSC4760 - Computer Networks

Credits: 3
Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

Prerequisite: COSC 2150 and COSC 2030.

Computer Science

COSC1010 - Introduction to Computer Science I

Credits: 3
Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

COSC1030 - Computer Science I

Credits: 4
Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

Prerequisite: COSC 1010.

COSC2030 - Computer Science II

Credits: 4
Builds on the introduction to object-oriented programming begun in COSC 1010 and COSC 1030 with an emphasis on algorithms, data structures, and software engineering.
Prerequisite: COSC 1030.

COSC2150 - Computer Organization

Credits: 3
Introduces students to the organization and architecture of computer systems, beginning with the standard von Neumann model and then moving forward to more recent architectural concepts.

Cross Listed EE 2150
Prerequisite: COSC 1030.

CPEN Electives

12 credits from the following list.

A maximum of two CPEN elective courses can be from the computer science department.

EE 4075 is not allowed as a CPEN Elective.

EE4245 - Digital Signal Processing

Credits: 3
Sampling and oversampling A/D's; FIR and IIR digital filter design, effects of quantization, practical realizations; applications of the discrete and fast Fourier Transform (DFT and FFT); correlation, periodograms, window effects, multi-rate techniques, multi-dimensional signal processing, and other topics in digital signal processing.

Prerequisite: EE 3220.

EE4340 - Semiconductor Materials and Devices

Credits: 3
Physical properties of semiconductor materials and devices, including crystal lattices and energy bands, carrier generation, transport, and recombination. PN, metal-semiconductor, and heterojunction operation. Field Effect Transistors, including Metal Oxide Semiconductor (MOSFET), Junction (JFET), MEtal Semiconductor (MESFET), and High Electron Mobility (HEMT) transistors. Bipolar Junction (BJT) and Heterojunction (HBT) Transistor operation.

Cross Listed PHYS 4340.
Prerequisite: PHYS 1220 or PHYS 1320.

EE4345 - Hardware Digital Signal Processing

Credits: 3
Hands-on introduction to real-time digital signal processing. Programming DSP algorithms using C on modern DSP hardware. Students gain deep understanding of fundamental DSP concepts by implementing selected applications including sampling, reconstruction, FIR and IIR filters, signal generation, and FFT. Hardware concepts include EDMA,
memory maps, interrupts, buffered serial ports.

**Prerequisite:** EE 3220.

**EE4360 - VLSI Design**

Credits: 3  
Introduction to CMOS processing, MOS fundamentals including devices models; switching and timing; analog subcircuits and amplifiers; inverters and CMOS gates; concept of standard cells and fully custom design; use of SPICE, digital simulation, and chip layout and verification software.

**Prerequisite:** EE 2390, and EE 3331 or concurrent enrollment.

**EE4440 - Communication Theory**

Credits: 3  
Amplitude and angle modulation and demodulation; digital baseband and carrier communication systems; performance of communication systems; and current topics in communication systems.

**When Offered** (Normally offered once a year)  
**Prerequisite:** EE 3220 and EE 4220.

**EE4590 - Real Time Embedded Systems**

Credits: 3  
Emphasizes a systems approach to real time embedded systems. Students are expected to apply methodical system design practices to designing and implementing a microprocessor-based real time embedded system. Students employ a robot-based educational platform to learn the intricacies of real time embedded systems, distributed processing, and fuzzy logic. Students learn processor input/output interfacing techniques. Students use state-of-the-art design and troubleshooting tools.

**Dual Listed** EE 5590.  
**Prerequisite:** EE 4390.

**EE4870 - Computer Network Hardware**

Credits: 4  

**Prerequisite:** EE 2390.

**EE4990 - Advanced Microprocessors**
Credits: 3
Architecture and instruction set of Intel family of microprocessors; Intel System Development Kit and its monitor program; Microsoft Macro Assembler (MASM) and Visual C/C++ Express; modular programming; High level language compilers of object code; Interface design issues of peripheral devices to Personal Computer.

Prerequisite: EE 4390.

EE5390 - Computer Architecture

Credits: 3
Examines the various methodologies used in the design of high-performance computer systems. Topics include CISC and RISC architecture and instruction sets, pipelining, instruction-level parallelism, memory hierarchy (including cache) design and computer networks.

Prerequisite: EE 4390.

EE5410 - Neural and Fuzzy Systems

Credits: 3

Prerequisite: EE 3220.

EE5430 - 3-D Computer Vision

Credits: 3
This course is intended to provide a mathematical framework for describing three dimensional imaging and computer vision. Topics include 3-D coordinate transforms, image formation, camera calibration, reconstruction from two views, SIFT detection, hidden Markov models, Markov random fields, and "bag-of-words" visual description.

Prerequisite: EE 4220, MATH 2250.

EE5460 - Probabilistic Robotics

Credits: 3
Fundamental theory underlying the robust sensing and planning used in self-driving machines is developed. Topics covered are: Bayesian, Kalman, and Particle Filters; simple ground robot motion models; mobile robot localization; simultaneous localization and mapping; partially observable Markov decision processes.

Prerequisite: EE 4220.

EE5620 - Digital Image Processing

Credits: 3
Methodologies and algorithms for processing digital images by computer. Includes gray level transformations,
histogram analysis, spatial domain filtering, 2D Fourier transforms, frequency domain filtering, image restoration, and reconstruction of computer tomography (CT) medical images.

**When Offered** (Offered fall of even-numbered years)

**Former Course Number** [4530]

**Prerequisite:** EE 3220 or equivalent background.

**EE5630 - Advanced Image Processing**

Credits: 3
Introduces students to advanced aspects of image processing (IP), using specific applications to demonstrate these principles. Concepts such as medical imaging; color IP; wavelets and multiresolution IP; image compression; morphological IP; image segmentation, representation, description and understanding are covered.

**Prerequisite:** EE 5620.

**EE5650 - Object and Pattern Recognition**

Credits: 3
Introduces students to both fundamental and advanced aspects of object and pattern recognition, using specific applications to demonstrate these principles. Concepts such as Bayesian, maximum-likelihood, principal components, nonparametric, linear discriminant, multi-layer neural networks, etc., and the trade-offs and appropriateness of classification techniques are covered.

**Prerequisite:** EE 4220.

**EE5670 - Digital Image Formation**

Credits: 3
This course introduces fundamental aspects of practical digital image formation, using specific applications to demonstrate these principles. Standard CCD and CMOS cameras (both still and video) and standard camera lens systems are assumed.

**Prerequisite:** EE 3220 or equivalent background.

**COSC3020 - Algorithms and Data Structures**

Credits: 4
Introduces formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analysis, algorithmic strategies, and an introduction to parallelism and the analysis of parallel programs.

**Prerequisite:** COSC 2300, COSC 2030
COSC3765 - Computer Security

Credits: 3
Security is paramount to creating software and systems. This course introduces the fundamentals of computer security and applied cryptography. Topics include vulnerability analysis, common exploits and defense, network/wireless security, reverse engineering, and applied cryptography.

Prerequisite: COSC 2030

COSC4210 - Web Application Development

Credits: 3
The course covers the basics of developing data driven web applications. Topics include using responsive design for user interfaces, architectural patterns and frameworks, object-relational mapping, language-integrated queries, authentication, authorization, unit testing, using source control for code management, publishing web applications and cloud computing.

Prerequisite: COSC 3011.

COSC4220 - Design and Implementation in Emerging Environments

Credits: 3
Students who have completed the analysis and design course extend their knowledge by implementing an information system in an emerging systems environment. Teams use project management principles to implement the system.

Prerequisite: COSC 4210.

COSC4450 - Computer Graphics

Credits: 3
Introduction to computer graphics, an increasingly important area of computer science. Computer graphics, together with multimedia and the World Wide Web, offers exciting new possibilities for the design of human-computer interfaces. Presents the principles, techniques, and tools that enable these advances.

Dual Listed COSC 5450.
Prerequisite: COSC 3020 and MATH 2250.

COSC4550 - Introduction to Artificial Intelligence

Credits: 3
A computational study of intelligent behavior. Focus is on intelligent agents, which could be software agents or robots. Covers how agents sense, reason, and act within their environment. Includes problem-solving, search, knowledge representation, planning, game playing, learning, and neural and belief networks.

Dual Listed COSC 5550.
Prerequisite: COSC 3020.
COSC4555 - Machine Learning

Credits: 3
Goal is to program machines to learn and improve their performance on their own, based on experience and/or data. First half covers machine learning techniques; second half covers applications.

**Dual Listed** COSC 5555.
**Prerequisite:** COSC 3020.

COSC4560 - Modern Robots and Softbots

Credits: 3
Popular agent designs: logic-based, biomimetic, and physicomimetic. Foundational issues on internal robot and softbot knowledge representations. Planning and control, followed by issues of how agents can reason and plan under real-world conditions of environmental uncertainty. Concludes with discussions about papers on modern robot and softbot applications, as well as invited lectures by graduate students and faculty.

**Dual Listed** COSC 5560.

COSC4730 - Mobile Application Programming

Credits: 3
Introduces development of applications on mobile devices. Presents the principles, techniques, and tools for developing mobile applications. Differences between desktop applications and mobile applications are discussed.

**Dual Listed** COSC 5730.
**Prerequisite:** six hours of upper division COSC coursework.

COSC4735 - Advanced Mobile Programming

Credits: 3
Continues the development of applications on mobile devices. The focus is device sensors, such as camera, AR, VR, Bluetooth, embedded and connected devices.

**Dual Listed** COSC 5735.
**Prerequisite:** COSC 4730.

COSC4740 - Operating Systems Design

Credits: 4
Studies systems programming languages and computer systems design. Includes interacting processes, main storage management, procedure and data sharing, scheduling, deadlock problems and file management in batch processing and multi-programming systems. Operating system implementation.

**Prerequisite:** COSC 2150 and COSC 3020.
COSC4760 - Computer Networks

Credits: 3
Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

Prerequisite: COSC 2150 and COSC 2030.

BE5410 - Rehabilitation Engineering

Credits: 3
This course covers the engineering principles of multiple rehabilitation technologies, including rehabilitation robots, exoskeletons, wearable sensors, electrical stimulators, implants, and virtual reality. Students will learn the technical and biological principles of all of these technologies via lectures, projects, and literature reviews.

Prerequisite: graduate standing.

MATH4500 - Matrix Theory

Credits: 3
Continuation from MATH 2250 of the study of matrices, an important tool in statistics, physics, engineering and applied mathematics in general. Concentrates on the structure of matrices, including diagonalizability: symmetric, hermitian and unitary matrices; and canonical forms such as Jordan form.

When Offered (Offered fall semester)
Prerequisite: grade of C or better in MATH 2250.

EE/BE Elective

3 credits of an approved EE/BE Elective.

General Elective

1 credit of a general elective (1000 level or higher)

Total Credits: 128 Hours

1 PHYS 1210: no credit can be earned in PHYS 1210 if taken after ES 2120. PHYS 1220 should be taken before or concurrently with ES 2210.

2 One course from the ECE Math/Science Elective List. ABET requires a minimum of 30 hours of Math/Science courses.

3 Or any ES, EE, BE course (>2000 level), or COSC 3011 or COSC 3750
4 To meet the COM3 requirement with EE 4820 and EE 4830 the COM2 course must be taken before EE 4820. Also, EE 4820 and EE 4830 must be taken in sequence. COM 2 grade of C or better is required.

5 Network Congestion Control can also be taken to fulfill the CPEN network course requirement.

Online courses taken outside of the Wyoming system will not be considered for preapproved transfer.

Students must have a minimum cumulative GPA 2.000 in all Engineering courses for graduation.

A grade of C or better is required for all prerequisite courses.

Students must also achieve a grade of C or better in all required mathematics courses.

Students must complete a minimum of 42 hours of upper division coursework, 30 of which must from the University of Wyoming.

EE 1101 is the recommended FYS course for EE and CPEN majors

Computer Engineering Program Educational Objectives

Graduates of the University of Wyoming Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).

Computer Engineering - Student Learning Outcomes

All Computer Engineering graduates shall demonstrate:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Computer Science, B.S.

Computer scientists learn the theory and practice of computing, which is essential in the modern world. A B.S. in Computer Science prepares you for a career designing, implementing, and securing software-intensive systems.
Computer Science General Information

Computer Science majors must satisfactorily meet the requirements of the University Studies Program (USP), and they must complete a minimum of 120 credit hours, at least 42 of which must be upper division hours.

Note that some of the courses required for the Computer Science core or the concentrations will meet some of the USP requirements. Students do not have to take additional courses to meet those requirements.

All courses in Computer Science, Mathematics, and Statistics must be completed with a grade of C or better.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.
**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Mathematics and Science Courses**

**MATH2200 - Calculus I**

Credits: 4  
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB  
USP 2015 Code U5Q  
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**
Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2250 - Elementary Linear Algebra

Credits: 3
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

COSC2300 - Discrete Structures

Credits: 3
Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

Cross Listed MATH 2300.
Prerequisite: COSC 1030, MATH 2200 or MATH 2350.
OR

MATH2300 - Discrete Structures

Credits: 3
Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.
Cross Listed COSC 2300.

**Prerequisite:** grade of C or better in COSC 1030 and in either MATH 2200 or MATH 2350.

- Approved Science course - 4 credits
- Approved Science course - 4 credits
- Approved Math/Science Elective - 4 credits

ABET requires a minimum of 30 Math/Science credit hours.

Math elective means any MATH course above Calculus II or STAT courses 3000 and up.

Exceptions: cannot count MATH 2350, MATH 2355, MATH 4000, STAT 4220 [Inactive] or any variable credit courses toward this requirement.

Courses meeting the Science requirement must have a lab component and be for science or engineering majors. See Department web pages for a current list of approved courses.

**Computer Science Courses**

**Introductory Programming Course - Choose one of:**

**COSC1010 - Introduction to Computer Science I**

Credits: 3

Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

**OR**

**COSC1015 - Introduction to Programming for Data Science**

Credits: 3

Provides an accelerated introduction to computing in the setting of Data Science. Topics include basic programming techniques; data transformation; computing with vectors, matrices, and data frames; data visualization; and text processing.

USP 2015 Code USQ
A&S College Core 2015 Credit may not be earned for both COSC 1010 and COSC 1015. Priority given to Engineering Honors students.

**Prerequisite:** grade of C or better in MATH 1400 or Level 4 or higher on the Math Placement Exam within one year prior to the start of the course.

**COSC1030 - Computer Science I**

Credits: 4

Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.
Prerequisite: COSC 1010.

COSC2030 - Computer Science II

Credits: 4
Builds on the introduction to object-oriented programming begun in COSC 1010 and COSC 1030 with an emphasis on algorithms, data structures, and software engineering.

Prerequisite: COSC 1030.

COSC2150 - Computer Organization

Credits: 3
Introduces students to the organization and architecture of computer systems, beginning with the standard von Neumann model and then moving forward to more recent architectural concepts.

Cross Listed EE 2150
Prerequisite: COSC 1030.

COSC3011 - Introduction to Software Design

Credits: 3
Introduces the principles and practice of software design, including UML and design patterns. Uses case studies to illustrate design in action.

Prerequisite: COSC 2030.

COSC3015 - Functional Programming

Credits: 3
Studies programming in the context of a functional language that emphasizes algorithmic strategies over syntactic detail.

Prerequisite: COSC 2030 and COSC 2300.

COSC3020 - Algorithms and Data Structures

Credits: 4
Introduces formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analysis, algorithmic strategies, and an introduction to parallelism and the analysis of parallel programs.

Prerequisite: COSC 2300, COSC 2030

COSC3050 - Ethics for the Computer Professional
The proliferation of computers has had a profound effect on our society. Computing professionals must be aware of the social and ethical implications of our activities. Examines the codes of behavior related to computer science through readings, discussions and case studies.

**Prerequisite:** junior standing and COSC major.

**COSC3765 - Computer Security**

Credits: 3
Security is paramount to creating software and systems. This course introduces the fundamentals of computer security and applied cryptography. Topics include vulnerability analysis, common exploits and defense, network/wireless security, reverse engineering, and applied cryptography.

**Prerequisite:** COSC 2030

**Theory Course - Choose one of:**

**COSC4100 - Foundations of Computing**

Credits: 3
Introduces several theoretical areas which are the basis of computer science. Languages and automata, computability, complexity, analysis of algorithms, logic, and the specification and correctness of programs.

**Prerequisite:** COSC 3020.

OR

**COSC4200 - Computability and Complexity**

Credits: 3
Introduction to theoretical study of computability and efficient computation. Finite-state and pushdown automata; turing machines and the Church-Turing thesis; undecidability, computational complexity; NP-completeness.

**Prerequisite:** COSC 3020.

**Operating Systems Course - Choose one of:**

**COSC4740 - Operating Systems Design**

Credits: 4
Studies systems programming languages and computer systems design. Includes interacting processes, main storage management, procedure and data sharing, scheduling, deadlock problems and file management in batch processing and multi-programming systems. Operating system implementation.

**Prerequisite:** COSC 2150 and COSC 3020.

OR
COSC3750 - Linux Programming for System Applications

Credits: 3
Provide the necessary tools and skills to begin programming effectively on UNIX and Linux operating systems. Topics will include, shells and basic shell scripting, Linux utilities, editors, compilation, I/O and the file system, sockets and interprocess communication, and time permitting, threads.

Prerequisite: COSC 2150 and COSC 2030.

Programming Language Course - Choose one of:

COSC4780 - Principles of Programming Languages

Credits: 3
Introduces the methods of analysis and design of programming languages. Covers syntax, typing schemes and the semantics (denotational and operational) in the context of functional and imperative programming languages. Students build interpreters to explore the implications of the different constructs on computational behavior.

Prerequisite: COSC 3015.

OR

COSC4785 - Compiler Construction

Credits: 3
Theory and implementation of interpreters and compilers. Compiler topics include lexical analysis, top-down and bottom-up parsing methods, symbol tables, and code generation from a block-structured language with recursion and parameters. Project uses compiler writing tools.

Dual Listed COSC 5785.
Prerequisite: COSC 2150 and COSC 3020.

Systems Course - Choose one of:

COSC4760 - Computer Networks

Credits: 3
Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

Prerequisite: COSC 2150 and COSC 2030.

OR

COSC4820 - Database Systems

Credits: 3
Provides comprehensive coverage of the problems involved in database design, in-depth coverage of data models and database languages. Students acquire practical skills of conceptual/logical database design and general familiarity with
the problems and issues of database management.

Prerequisite: COSC 2030.

COSC4950 - Senior Design I

Credits: 1
Students choose a senior design project, investigate alternate solutions and submit a preliminary project design. Periodic oral and written project progress reports are required.

Prerequisite: COSC 3011 and COSC 3020.

COSC4955 - Senior Design II

Credits: 2
Students complete the senior design project partially designed in COSC 4950. Successful communication of the details of the solution through written documents and oral presentations will be required.

Prerequisite: COSC 4950.

Electives

- 9 credits of COSC Electives (3000-level or above, not used to complete any other requirement)
- General Electives to reach 120 credits.
A total of 3 credits of COSC 3970 can be used.

Approved EE courses may also be taken as COSC electives. See Department web pages for a current list of approved courses.

General electives include any course at or above the 1000 level, not used to complete any other requirement.

Electives should be selected to meet the 42 hour requirement for Upper Division credits.

Computer Science Program Educational Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.
Growing: Graduates show continued learning and leading in computing-related professions.
Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Computer Science - Student Learning Outcomes
The program of study in Computer Science enables students to achieve, by the time of graduation:

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

**Computer Science, Big Data Concentration, B.S.**

The B.S. in Computer Science with a Concentration on Big Data combines a rigorous education in Computer Science with statistics, preparing you for a career in computer science, data analysis, or machine learning.

**Computer Science General Information**

Computer Science majors must satisfactorily meet the requirements of the University Studies Program (USP), and they must complete a minimum of 120 credit hours, at least 42 of which must be upper division hours.

Note that some of the courses required for the Computer Science core or the concentrations will meet some of the USP requirements. Students do not have to take additional courses to meet those requirements.

All courses in Computer Science, Mathematics, and Statistics must be completed with a grade of C or better.

**University Studies Program**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the student's major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**
Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Mathematics and Science Courses:**

**MATH2200 - Calculus I**

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2250 - Elementary Linear Algebra**

Credits: 3
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

**Prerequisite:** grade of C or better in MATH 2200 or MATH 2350.

**STAT2050 - Fundamentals of Statistics**

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1000, MATH 1400, or equivalent.
COSC2300 - Discrete Structures

Credits: 3
Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

Cross Listed MATH 2300.
Prerequisite: COSC 1030, MATH 2200 or MATH 2350.
OR

MATH2300 - Discrete Structures

- Approved Science Course - 4 credits
- Approved Science Course - 4 credits
- Approved Math/Science Elective - 4 credits
ABET requires a minimum of 30 Math/Science credits hours.

Math electives means any MATH course above Calculus II or STAT courses 3000 and up.

Exceptions: cannot count MATH 2350, MATH 2355, MATH 4000, STAT 4220 or any variable credit courses toward this requirement.

Courses meeting the Science requirement must have a lab component and be for science or engineering majors. See Department web pages for a current list of approved courses.

Computer Science Courses

Introductory Programming Course - Choose one of:

COSC1010 - Introduction to Computer Science I

Credits: 3
Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

OR

COSC1015 - Introduction to Programming for Data Science
Provides an accelerated introduction to computing in the setting of Data Science. Topics include basic programming techniques; data transformation; computing with vectors, matrices, and data frames; data visualization; and text processing.

USP 2015 Code U5Q
A&S College Core 2015 Credit may not be earned for both COSC 1010 and COSC 1015. Priority given to Engineering Honors students.

**Prerequisite:** grade of C or better in MATH 1400 or Level 4 or higher on the Math Placement Exam within one year prior to the start of the course.

**COSC1030 - Computer Science I**

Credits: 4
Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

**Prerequisite:** COSC 1010.

**COSC2030 - Computer Science II**

Credits: 4
Builds on the introduction to object-oriented programming begun in COSC 1010 and COSC 1030 with an emphasis on algorithms, data structures, and software engineering.

**Prerequisite:** COSC 1030.

**COSC2150 - Computer Organization**

Credits: 3
Introduces students to the organization and architecture of computer systems, beginning with the standard von Neumann model and then moving forward to more recent architectural concepts.

**Cross Listed** EE 2150
**Prerequisite:** COSC 1030.

**COSC3011 - Introduction to Software Design**

Credits: 3
Introduces the principles and practice of software design, including UML and design patterns. Uses case studies to illustrate design in action.

**Prerequisite:** COSC 2030.
COSC3015 - Functional Programming

Credits: 3
Studies programming in the context of a functional language that emphasizes algorithmic strategies over syntactic detail.

Prerequisite: COSC 2030 and COSC 2300.

COSC3020 - Algorithms and Data Structures

Credits: 4
Introduces formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analysis, algorithmic strategies, and an introduction to parallelism and the analysis of parallel programs.

Prerequisite: COSC 2300, COSC 2030

COSC3050 - Ethics for the Computer Professional

Credits: 1
The proliferation of computers has had a profound effect on our society. Computing professionals must be aware of the social and ethical implications of our activities. Examines the codes of behavior related to computer science through readings, discussions and case studies.

Prerequisite: junior standing and COSC major.

COSC3765 - Computer Security

Credits: 3
Security is paramount to creating software and systems. This course introduces the fundamentals of computer security and applied cryptography. Topics include vulnerability analysis, common exploits and defense, network/wireless security, reverse engineering, and applied cryptography.

Prerequisite: COSC 2030

Theory Course - Choose one of:

COSC4100 - Foundations of Computing

Credits: 3
Introduces several theoretical areas which are the basis of computer science. Languages and automata, computability, complexity, analysis of algorithms, logic, and the specification and correctness of programs.

Prerequisite: COSC 3020.

OR
COSC4200 - Computability and Complexity

Credits: 3
Introduction to theoretical study of computability and efficient computation. Finite-state and pushdown automata; turing machines and the Church-Turing thesis; undecidability, computational complexity; NP-completeness.

Prerequisite: COSC 3020.

Operating Systems - Choose one of:

COSC4740 - Operating Systems Design

Credits: 4
Studies systems programming languages and computer systems design. Includes interacting processes, main storage management, procedure and data sharing, scheduling, deadlock problems and file management in batch processing and multi-programming systems. Operating system implementation.

Prerequisite: COSC 2150 and COSC 3020.

OR

COSC3750 - Linux Programming for System Applications

Credits: 3
Provide the necessary tools and skills to begin programming effectively on UNIX and Linux operating systems. Topics will include, shells and basic shell scripting, Linux utilities, editors, compilation, I/O and the file system, sockets and interprocess communication, and time permitting, threads.

Prerequisite: COSC 2150 and COSC 2030.

Programming Language Course - Choose one of:

COSC4780 - Principles of Programming Languages

Credits: 3
Introduces the methods of analysis and design of programming languages. Covers syntax, typing schemes and the semantics (denotational and operational) in the context of functional and imperative programming languages. Students build interpreters to explore the implications of the different constructs on computational behavior.

Prerequisite: COSC 3015.

OR

COSC4785 - Compiler Construction

Credits: 3
Theory and implementation of interpreters and compilers. Compiler topics include lexical analysis, top-down and bottom-up parsing methods, symbol tables, and code generation from a block-structured language with recursion and parameters. Project uses compiler writing tools.
**Dual Listed** COSC 5785.
**Prerequisite:** COSC 2150 and COSC 3020.

**Systems Course - Choose one of:**

**COSC4760 - Computer Networks**

Credits: 3
Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

**Prerequisite:** COSC 2150 and COSC 2030.

OR

**COSC4820 - Database Systems**

Credits: 3
Provides comprehensive coverage of the problems involved in database design, in-depth coverage of data models and database languages. Students acquire practical skills of conceptual/logical database design and general familiarity with the problems and issues of database management.

**Prerequisite:** COSC 2030.

**COSC4950 - Senior Design I**

Credits: 1
Students choose a senior design project, investigate alternate solutions and submit a preliminary project design. Periodic oral and written project progress reports are required.

**Prerequisite:** COSC 3011 and COSC 3020.

**COSC4955 - Senior Design II**

Credits: 2
Students complete the senior design project partially designed in COSC 4950. Successful communication of the details of the solution through written documents and oral presentations will be required.

**Prerequisite:** COSC 4950.

**Concentration Requirements**

Big data is high volume, high velocity, and/or high variety assets that require new forms of processing to enable enhanced decision making, insight discovery and process optimization. The Big Data Concentration directs the students
toward data handling (AI, visualization, data mining, and machine learning) courses and data analysis (statistics) courses.

**Students should take the following courses to fulfill the Big Data Concentration.**

In addition, students who wish to pursue a Big Data concentration are required to complete a minor in Statistics.

**COSC4450 - Computer Graphics**

Credits: 3  
Introduction to computer graphics, an increasingly important area of computer science. Computer graphics, together with multimedia and the World Wide Web, offers exciting new possibilities for the design of human-computer interfaces. Presents the principles, techniques, and tools that enable these advances.

**Dual Listed** COSC 5450.  
**Prerequisite:** COSC 3020 and MATH 2250.

**COSC4550 - Introduction to Artificial Intelligence**

Credits: 3  
A computational study of intelligent behavior. Focus is on intelligent agents, which could be software agents or robots. Covers how agents sense, reason, and act within their environment. Includes problem-solving, search, knowledge representation, planning, game playing, learning, and neural and belief networks.

**Dual Listed** COSC 5550.  
**Prerequisite:** COSC 3020.

**COSC4555 - Machine Learning**

Credits: 3  
Goal is to program machines to learn and improve their performance on their own, based on experience and/or data. First half covers machine learning techniques; second half covers applications.

**Dual Listed** COSC 5555.  
**Prerequisite:** COSC 3020.

**COSC4570 - Data Mining**

Credits: 3  
Examine methods that have emerged from artificial intelligence and statistics and proven to be of value in recognizing patterns and making predictions with large data sets. Will include both theory and practice while developing several projects.

**Prerequisite:** COSC 4550.  
- Courses for Statistics Minor  
- General Electives to reach 120 credits.  
  A total of 3 credits of COSC 3970 can be used.
Computer Science Program Educational Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.
Growing: Graduates show continued learning and leading in computing-related professions.
Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Computer Science - Student Learning Outcomes

The program of study in Computer Science enables students to achieve, by the time of graduation:

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program’s discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program’s discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

Computer Science, Computers and Business Concentration, B.S.

The B.S. in Computer Science with a Concentration on Computers and Business combines a rigorous education in Computer Science with an understanding of business processes, preparing you for a career applying computer science in the business world.

Computer Science General Information

Computer Science majors must satisfactorily meet the requirements of the University Studies Program (USP), and they must complete a minimum of 120 credit hours, at least 42 of which must be upper division hours.

Note that some of the courses required for the Computer Science core or the concentrations will meet some of the USP requirements. Students do not have to take additional courses to meet those requirements.

All courses in Computer Science, Mathematics, and Statistics must be completed with a grade of C or better.

University Studies Program

The University Studies Program 2015
FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.
**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Mathematics and Science Courses:**

**MATH2200 - Calculus I**

Credits: 4  
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**

Credits: 4  
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2250 - Elementary Linear Algebra**

Credits: 3  
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.
**Prerequisite:** grade of C or better in MATH 2200 or MATH 2350.

**STAT2050 - Fundamentals of Statistics**

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1000, MATH 1400, or equivalent.

**COSC2300 - Discrete Structures**

Credits: 3
Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

**Cross Listed** MATH 2300.
**Prerequisite:** COSC 1030, MATH 2200 or MATH 2350.

OR

**MATH2300 - Discrete Structures**

Credits: 3
Introduces the mathematical concepts that serve as foundations of computer science: logic, set theory, relations and functions, graphs (directed and undirected), inductively defined structures (lists and trees), and applications of mathematical induction. Provides an introduction to abstract and rigorous thinking in advanced mathematics and computer science.

**Cross Listed** COSC 2300.
**Prerequisite:** grade of C or better in COSC 1030 and in either MATH 2200 or MATH 2350.

- Approved Science Course - 4 credits
- Approved Science Course - 4 credits
- Approved Math/Science Elective - 4 credits

ABET requires a minimum of 30 Math/Science credit hours.
Math elective means any MATH course above Calculus II or STAT courses 3000 and up.
Exceptions: cannot count MATH 2350, MATH 2355, MATH 4000, STAT 4220 or any variable credit courses toward this requirement.
Courses meeting the Science requirement must have a lab component and be for science or engineering majors. See Department web pages for a current list of approved courses.
Computer Science Courses

Introductory Programming Course - Choose one of:

COSC1010 - Introduction to Computer Science I

Credits: 3
Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

OR

COSC1015 - Introduction to Programming for Data Science

Credits: 3
Provides an accelerated introduction to computing in the setting of Data Science. Topics include basic programming techniques; data transformation; computing with vectors, matrices, and data frames; data visualization; and text processing.

USP 2015 Code U5Q
A&S College Core 2015 Credit may not be earned for both COSC 1010 and COSC 1015. Priority given to Engineering Honors students.
Prerequisite: grade of C or better in MATH 1400 or Level 4 or higher on the Math Placement Exam within one year prior to the start of the course.

COSC1030 - Computer Science I

Credits: 4
Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

Prerequisite: COSC 1010.

COSC2030 - Computer Science II

Credits: 4
Builds on the introduction to object-oriented programming begun in COSC 1010 and COSC 1030 with an emphasis on algorithms, data structures, and software engineering.

Prerequisite: COSC 1030.

COSC2150 - Computer Organization

Credits: 3
Introduces students to the organization and architecture of computer systems, beginning with the standard von
Neumann model and then moving forward to more recent architectural concepts.

Cross Listed EE 2150
Prerequisite: COSC 1030.

COSC3011 - Introduction to Software Design

Credits: 3
Introduces the principles and practice of software design, including UML and design patterns. Uses case studies to illustrate design in action.

Prerequisite: COSC 2030.

COSC3015 - Functional Programming

Credits: 3
Studies programming in the context of a functional language that emphasizes algorithmic strategies over syntactic detail.

Prerequisite: COSC 2030 and COSC 2300.

COSC3020 - Algorithms and Data Structures

Credits: 4
Introduces formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analysis, algorithmic strategies, and an introduction to parallelism and the analysis of parallel programs.

Prerequisite: COSC 2300 , COSC 2030

COSC3050 - Ethics for the Computer Professional

Credits: 1
The proliferation of computers has had a profound effect on our society. Computing professionals must be aware of the social and ethical implications of our activities. Examines the codes of behavior related to computer science through readings, discussions and case studies.

Prerequisite: junior standing and COSC major.

COSC3765 - Computer Security

Credits: 3
Security is paramount to creating software and systems. This course introduces the fundamentals of computer security and applied cryptography. Topics include vulnerability analysis, common exploits and defense, network/wireless security, reverse engineering, and applied cryptography.
Prerequisite: COSC 2030

Theory Course - Choose one of:

**COSC4100 - Foundations of Computing**

Credits: 3
Introduces several theoretical areas which are the basis of computer science. Languages and automata, computability, complexity, analysis of algorithms, logic, and the specification and correctness of programs.

Prerequisite: COSC 3020.

OR

**COSC4200 - Computability and Complexity**

Credits: 3
Introduction to theoretical study of computability and efficient computation. Finite-state and pushdown automata; turing machines and the Church-Turing thesis; undecidability, computational complexity; NP-completeness.

Prerequisite: COSC 3020.

Operating Systems - Choose one of:

**COSC4740 - Operating Systems Design**

Credits: 4
Studies systems programming languages and computer systems design. Includes interacting processes, main storage management, procedure and data sharing, scheduling, deadlock problems and file management in batch processing and multi-programming systems. Operating system implementation.

Prerequisite: COSC 2150 and COSC 3020.

OR

**COSC3750 - Linux Programming for System Applications**

Credits: 3
Provide the necessary tools and skills to begin programming effectively on UNIX and Linux operating systems. Topics will include, shells and basic shell scripting, Linux utilities, editors, compilation, I/O and the file system, sockets and interprocess communication, and time permitting, threads.

Prerequisite: COSC 2150 and COSC 2030.

Programming Language Course - Choose one of:

**COSC4780 - Principles of Programming Languages**
Introduces the methods of analysis and design of programming languages. Covers syntax, typing schemes and the 
semantics (denotational and operational) in the context of functional and imperative programming languages. Students 
build interpreters to explore the implications of the different constructs on computational behavior.

**Prerequisite:** COSC 3015.  
**OR**

**COSC4785 - Compiler Construction**

Credits: 3  
Theory and implementation of interpreters and compilers. Compiler topics include lexical analysis, top-down and 
bottom-up parsing methods, symbol tables, and code generation from a block-structured language with recursion and 
parameters. Project uses compiler writing tools.

**Dual Listed** COSC 5785.  
**Prerequisite:** COSC 2150 and COSC 3020.

**Systems Course**

**COSC4820 - Database Systems**

Credits: 3  
Provides comprehensive coverage of the problems involved in database design, in-depth coverage of data models and 
database languages. Students acquire practical skills of conceptual/logical database design and general familiarity with 
the problems and issues of database management.

**Prerequisite:** COSC 2030.

**COSC4950 - Senior Design I**

Credits: 1  
Students choose a senior design project, investigate alternate solutions and submit a preliminary project design. 
Periodic oral and written project progress reports are required.

**Prerequisite:** COSC 3011 and COSC 3020.

**COSC4955 - Senior Design II**

Credits: 2  
Students complete the senior design project partially designed in COSC 4950. Successful communication of the details 
of the solution through written documents and oral presentations will be required.

**Prerequisite:** COSC 4950.
Concentration Requirements

An understanding of business fundamentals is essential for students planning a career in applied computer science in a business environment.

**Students should take COSC 4820 to satisfy the System Course requirement, and should take the following courses as part of the Computer and Business Concentration.**

**In addition, students who wish to pursue a Computers and Business concentration are required to complete one of the minors offered by the College of Business.**

**COSC4210 - Web Application Development**

Credits: 3
The course covers the basics of developing data driven web applications. Topics include using responsive design for user interfaces, architectural patterns and frameworks, object-relational mapping, language-integrated queries, authentication, authorization, unit testing, using source control for code management, publishing web applications and cloud computing.

**Prerequisite:** COSC 3011.

**COSC4220 - Design and Implementation in Emerging Environments**

Credits: 3
Students who have completed the analysis and design course extend their knowledge by implementing an information system in an emerging systems environment. Teams use project management principles to implement the system.

**Prerequisite:** COSC 4210.

- 3 credits of COSC Electives (3000-level or above, not used to complete any other requirement)
- Courses for Business Minor
- General Electives to reach 120 credits
  A total of 3 credits of COSC 3970 can be used.
  Approved EE courses may also be taken as COSC electives. See Department web pages for a current list of approved courses.
  General electives include any course at or above the 1000 level, not used to complete any other requirement.
  Electives should be selected to meet the 42 hour requirement for Upper Division credits.

Computer Science Program Educational Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.
Growing: Graduates show continued learning and leading in computing-related professions.
Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Computer Science - Student Learning Outcomes
The program of study in Computer Science enables students to achieve, by the time of graduation:

1. Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
2. Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
3. Communicate effectively in a variety of professional contexts.
4. Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
5. Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
6. Apply computer science theory and software development fundamentals to produce computing-based solutions.

Electrical Engineering, B.S.

A B.S. in Electrical Engineering provides the knowledge needed for careers in power systems, control systems, electronics, signal processing, tele-communications, computer programming & design.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Math & Science**

**MATH2200 - Calculus I**
Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

MATH2310 - Applied Differential Equations I

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

CHEM1020 - General Chemistry I
Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S
USP 2015 Code U5PN

**Prerequisite:** ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

**PHYS1210 - Engineering Physics I**

Credits: 4
First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN

**Prerequisite:** a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

**PHYS1220 - Engineering Physics II**

Credits: 4
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN

**Prerequisite:** grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

- 3 credits of an approved Math/Science Elective

**Engineering Science**

**ES1060 - Introduction to Engineering Problem Solving**

Credits: 3
An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

**Prerequisite:** MATH 2200 or concurrent enrollment.

**ES2110 - Statics**
Credits: 3
Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**ES2120 - Dynamics**

Credits: 3
Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

**Prerequisite:** ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

**ES2210 - Electric Circuit Analysis**

Credits: 3
Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**Electrical Engineering**

**EE2220 - Circuits and Signals**

Credits: 4

**When Offered** (Offered spring semester only)

**Former Course Number** [3320]

**Prerequisite:** ES 2210, or ES 2215 and ES 2216.

**EE2390 - Digital Systems Design**

Credits: 4
Binary logic, digital logic gates, reduction of Boolean expressions, combinational logic design. MSI and LSI combinational logic ICs, flip-flops, synchronous and asynchronous sequential systems design, MSI and LSI sequential system ICs, and algorithmic state machines.

**Prerequisite:** COSC 1010 or COSC 1015 or COSC 1030 or ES 1060, and MATH 2205.

**EE3150 - Electromagnetics**
A thorough study of static electric and magnetic fields using vector methods with an introduction to dynamic fields.

**Prerequisite:** ES 2210, or ES 2215 and ES 2216, MATH 2210, and PHYS 1220 or concurrent enrollment.

**EE3220 - Signals And Systems**

Credits: 3
Discrete and continuous-time signals and systems. Topics include linear time-invariant systems; convolution; difference equations; FIR and IIR systems; sampling, aliasing, reconstruction, and quantization. Frequency domain concepts include discrete and continuous Fourier transforms, Z-transforms, system frequency response, Laplace transform properties, and applications of digital filters and DFT analysis.

**When Offered** (Offered spring semester only)

**Prerequisite:** EE 2220.

**EE3311 - Electronics I**

Credits: 3
Physical characteristics and models of semiconductor devices with application to electronic circuit design. Diode circuits, single transistor amplifiers, biasing, and load lines. Prerequisites: (PHYS 1220 or PHYS 1320 or EE 3150), and EE 2220 or concurrent enrollment. (Offered fall semester only)

**Prerequisite:** PHYS 1220 or PHYS 1320 or EE 3150, and EE 2220 or concurrent enrollment

**EE3312 - Electronics I Laboratory**

Credits: 1
Hands on interactive laboratory investigation of the physical characteristics of semiconductor devices and applications in electronic circuit design. Study of diode and transistor characteristics as well as diode circuits and single transistor amplifier circuit design, construction and testing. Prerequisites: EE3311 must be taken either concurrently or as a prerequisite. (Offered fall semester only)

**When Offered** (Offered fall semester only)

**Prerequisite:** EE3311 must be taken either concurrently or as a prerequisite.

**EE3331 - Electronics II**

Credits: 3
Current sources, differential and multistage amplifiers; circuits with ideal and non-ideal operational amplifiers; low and high band frequency response, feedback, stability, gain and phase margin of amplifiers; output stages, class A and push-pull; monolithic operational amplifier; oscillators; transistors as switches and introduction to digital electronic circuits. Laboratory. Prerequisites: (EE 3310 or EE 3311) and EE 2220. (Offered spring semester only)

**When Offered** (Offered spring semester only)

**Prerequisite:** (EE 3312 or EE 3311) and EE 2220
EE332 - Electronics II Laboratory

Credits: 1
Hands on interactive laboratory investigation of transistor switching circuits, differential amplifiers, current sources, amplifier frequency response, feedback, output stages, and oscillators. Prerequisites: EE 3312 and EE 3331 concurrently (offered spring semester only).

Prerequisite: EE 3312 and EE 3331 concurrently

EE3510 - Electric Machines and Power Systems

Credits: 4
Polyphase AC circuits; single phase and polyphase transformers; AC synchronous and induction machines; introduction to power systems and per unit system; transmission line parameters; steady-state operations of transmission lines; power flows; transient stability; synchrophasor system and its applications.

Prerequisite: ES 2210, or ES 2215 and ES 2216.

EE4075 - C++ with Numerical Methods for Engineers

Credits: 4
Introduction to the fundamentals of practical engineering programming, using specific applications of numerical methods to demonstrate these principles. The use of an object oriented approach using C++ in an efficient manner is emphasized. Other solution approaches, including C and Matlab will be discussed as appropriate.

A&S College Core 2015 Credit will not be allowed in both EE 4075 and ES 3070.
Prerequisite: MATH 2205 and (COSC 1010, COSC 1015, or ES 1060) and (MATH 2250 or MATH 2310) or consent of instructor.

EE4220 - Probabilistic Signals and Systems

Credits: 3
Fundamentals of probability and statistics for engineers; reliability in engineering systems; random processes, statistical estimation, auto/ cross correlation and power spectral density functions and linear filtering of random signals.

Prerequisite: MATH 2210 and EE 3220. EE 3220 may be taken concurrently.

EE4390 - Microprocessors

Credits: 3
Design of microcomputers, controllers and instruments which use microprocessors. Semiconductor memory design, CPU architecture, bus structure and timing, input-output interfaces and devices, assembly language programming, assemblers, compilers, editors and simulators. Emphasizes design techniques. Laboratory.

When Offered (Normally offered once a year)
Prerequisite: EE 2390,
EE4440 - Communication Theory

Credits: 3
Amplitude and angle modulation and demodulation; digital baseband and carrier communication systems; performance of communication systems; and current topics in communication systems.

When Offered (Normally offered once a year)
Prerequisite: EE 3220 and EE 4220.

EE4620 - Automatic Control Systems

Credits: 3

Prerequisite: EE 2220 or ME 3020.

EE4820 - Senior Design I

Credits: 2
Students choose a senior design project and complete the preliminary design. This stage of senior design includes investigation of alternative solutions that meet the project's requirements, cost analysis, and building the prototype circuit. Periodic oral and written project progress reports are required.

When Offered (Offered fall semester only)
Prerequisite: EE 2220, EE 2390, and EE 3312 or concurrent enrollment, plus 6 hours of 4000 level EE/BE classes, or concurrent enrollment. COM2 must be passed with a C or better grade.

EE4830 - Senior Design II

Credits: 2
Students complete the senior design project partially designed in EE 4820. The final result of the senior design project includes assembly of a PC board hardware that meets the project's requirements and final report describing the design procedure, designed hardware and software, and results of final testing. Periodic oral and written project progress reports are required.

When Offered (Offered spring semester only)
Prerequisite: EE 4820 and selected courses in the area of the design project.

Advisor Approved Electives

- 15 credits of EE or BE Electives (4000-Level or Above)
- 4 credits Approved Technical Electives.

Total Credits: 128 Hours
PHYS 1210: no credit can be earned in PHYS 1210 if taken after ES 2120. PHYS 1220 should be taken before or concurrently with ES 2210.

One course from the ECE Math/Science Elective List. ABET requires a minimum of 30 hours of Math/Science Electives.

Or any ES, EE, BE course (>2000 level), or COSC 3011 or COSC 3750

To meet the COM3 requirement with EE 4820 and EE 4830, the COM2 course must be taken before EE 4820. Also, EE 4820 and EE 4830 must be taken in sequence. COM 2 grade of C or better is required.

Any course from the approved ECE technical elective list. Credit can be earned for professional internships or CO-OPs. Internships for Credit must go through EE 4800

Online courses taken outside of the Wyoming system will not be considered for preapproved Transfer.

Students must have a minimum cumulative GPA 2.000 in all Engineering courses for graduation.

A grade of C or better is required for all prerequisite courses.

Students must also achieve a grade of C or better in all required mathematics courses.

Students must complete a minimum of 42 hours of upper division coursework, 30 of which must from the University of Wyoming.

EE 1101 is the recommended FYS course for Electrical Engineering majors.

Electrical Engineering Program Educational Objectives

Graduates of the University of Wyoming Electrical and Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).

Electrical Engineering - Student Learning Outcomes

All Electrical (Computer) Engineering graduates shall demonstrate:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics

2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors

3. an ability to communicate effectively with a range of audiences

4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts

5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

**Electrical Engineering, F.M. Long Bioengineering, B.S.**

The Bioengineering B.S. is a degree in Electrical Engineering in which the electives are carefully taken to understand and design medical equipment. With a few more courses, it can serve as a pre-med or pre-dental program.

**University Studies Program**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q- - Quantitative Reasoning**

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.
**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Math & Science**

**MATH2200 - Calculus I**

Credits: 4  
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**
Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2210 - Calculus III**

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

**Prerequisite:** grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

**MATH2250 - Elementary Linear Algebra**

Credits: 3
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

**Prerequisite:** grade of C or better in MATH 2200 or MATH 2350.

**MATH2310 - Applied Differential Equations I**

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

**Prerequisite:** grade of C or better in MATH 2205.

**PHYS1210 - Engineering Physics I**

Credits: 4
First course of a two-semester sequence. Provides introduction to physics with calculus for engineering students. Includes classical mechanics, gravitation and mechanical waves. Laboratory sessions illustrate principles studied. Students receiving credit for PHYS 1210 cannot receive credit for PHYS 1050, PHYS 1110, or PHYS 1310.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN
**Prerequisite:** a grade of C or higher in MATH 2200 and concurrent enrollment in MATH 2205.

**PHYS1220 - Engineering Physics II**
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

**CHEM1020 - General Chemistry I**

Credits: 4  
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

**CHEM2300 - Introductory Organic Chemistry**

Credits: 4  
Terminal course in organic and beginning biological chemistry. No credit will be allowed in CHEM 2300 if credit earned in CHEM 2420. This course is not an acceptable prerequisite for CHEM 2440.

**LIFE1010 - General Biology**

Credits: 4  
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

**MOLB2021 - General Microbiology**
Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

**Cross Listed** MICR 2021 and LIFE 2021  
**When Offered** Fall and Spring  
**Former Course Number** [2210]

**Prerequisite:** Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

**MOLB3610 - Principles of Biochemistry**

Credits: 4  
One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

**Prerequisite:** LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

**Engineering Science**

**ES1060 - Introduction to Engineering Problem Solving**

Credits: 3  
An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

**Prerequisite:** MATH 2200 or concurrent enrollment.

**ES2110 - Statics**

Credits: 3  
Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**ES2120 - Dynamics**

Credits: 3  
Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

**Prerequisite:** ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

**ES2210 - Electric Circuit Analysis**
Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**Electrical Engineering**

**EE2220 - Circuits and Signals**

Credits: 4

*When Offered* (Offered spring semester only)

**Former Course Number** [3320]

**Prerequisite:** ES 2210, or ES 2215 and ES 2216.

**EE2390 - Digital Systems Design**

Credits: 4
Binary logic, digital logic gates, reduction of Boolean expressions, combinational logic design. MSI and LSI combinational logic ICs, flip-flops, synchronous and asynchronous sequential systems design, MSI and LSI sequential system ICs, and algorithmic state machines.

**Prerequisite:** COSC 1010 or COSC 1015 or COSC 1030 or ES 1060, and MATH 2205.

**EE3150 - Electromagnetics**

Credits: 3
A thorough study of static electric and magnetic fields using vector methods with an introduction to dynamic fields.

**Prerequisite:** ES 2210, or ES 2215 and ES 2216, MATH 2210, and PHYS 1220 or concurrent enrollment.

**EE3220 - Signals And Systems**

Credits: 3
Discrete and continuous-time signals and systems. Topics include linear time-invariant systems; convolution; difference equations; FIR and IIR systems; sampling, aliasing, reconstruction, and quantization. Frequency domain concepts include discrete and continuous Fourier transforms, Z-transforms, system frequency response, Laplace transform properties, and applications of digital filters and DFT analysis.
When Offered (Offered spring semester only)
Prerequisite: EE 2220.

EE3311 - Electronics I

Credits: 3
Physical characteristics and models of semiconductor devices with application to electronic circuit design. Diode circuits, single transistor amplifiers, biasing, and load lines. Prerequisites: (PHYS 1220 or PHYS 1320 or EE 3150), and EE 2220 or concurrent enrollment. (Offered fall semester only)

Prerequisite: PHYS 1220 or PHYS 1320 or EE 3150, and EE 2220 or concurrent enrollment

EE3312 - Electronics I Laboratory

Credits: 1
Hands on interactive laboratory investigation of the physical characteristics of semiconductor devices and applications in electronic circuit design. Study of diode and transistor characteristics as well as diode circuits and single transistor amplifier circuit design, construction and testing. Prerequisites: EE3311 must be taken either concurrently or as a prerequisite. (Offered fall semester only)

When Offered (Offered fall semester only)
Prerequisite: EE3311 must be taken either concurrently or as a prerequisite.

EE3331 - Electronics II

Credits: 3
Current sources, differential and multistage amplifiers; circuits with ideal and non-ideal operational amplifiers; low and high band frequency response, feedback, stability, gain and phase margin of amplifiers; output stages, class A and push-pull; monolithic operational amplifier; oscillators; transistors as switches and introduction to digital electronic circuits. Laboratory. Prerequisites: (EE 3310 or EE 3311) and EE 2220. (Offered spring semester only)

When Offered (Offered spring semester only)
Prerequisite: (EE 3312 or EE 3311) and EE 2220

EE3332 - Electronics II Laboratory

Credits: 1
Hands on interactive laboratory investigation of transistor switching circuits, differential amplifiers, current sources, amplifier frequency response, feedback, output stages, and oscillators. Prerequisites: EE 3312 and EE 3331 concurrently (offered spring semester only).

Prerequisite: EE 3312 and EE 3331 concurrently

EE3510 - Electric Machines and Power Systems

Credits: 4
Polyphase AC circuits; single phase and polyphase transformers; AC synchronous and induction machines;
introduction to power systems and per unit system; transmission line parameters; steady-state operations of
transmission lines; power flows; transient stability; synchrophasor system and its applications.

**Prerequisite:** ES 2210, or ES 2215 and ES 2216.

**EE4075 - C++ with Numerical Methods for Engineers**

Credits: 4
Introduction to the fundamentals of practical engineering programming, using specific applications of numerical
methods to demonstrate these principles. The use of an object oriented approach using C++ in an efficient manner is
emphasized. Other solution approaches, including C and Matlab will be discussed as appropriate.

A&S College Core 2015 Credit will not be allowed in both EE 4075 and ES 3070.
**Prerequisite:** MATH 2205 and (COSC 1010, COSC 1015, or ES 1060) and (MATH 2250 or MATH 2310) or consent
of instructor.

**EE4220 - Probabilistic Signals and Systems**

Credits: 3
Fundamentals of probability and statistics for engineers; reliability in engineering systems; random processes, statistical
estimation, auto/ cross correlation and power spectral density functions and linear filtering of random signals.

**Prerequisite:** MATH 2210 and EE 3220. EE 3220 may be taken concurrently.

**EE4390 - Microprocessors**

Credits: 3
Design of microcomputers, controllers and instruments which use microprocessors. Semiconductor memory design,
CPU architecture, bus structure and timing, input-output interfaces and devices, assembly language programming,
asmblers, compilers, editors and simulators. Emphasizes design techniques. Laboratory.

**When Offered** (Normally offered once a year)
**Prerequisite:** EE 2390.

**EE4820 - Senior Design I**

Credits: 2
Students choose a senior design project and complete the preliminary design. This stage of senior design includes
investigation of alternative solutions that meet the project's requirements, cost analysis, and building the prototype
circuit. Periodic oral and written project progress reports are required.

**When Offered** (Offered fall semester only)
**Prerequisite:** EE 2220, EE 2390, and EE 3312 or concurrent enrollment, plus 6 hours of 4000 level EE/BE classes, or
concurrent enrollment. COM2 must be passed with a C or better grade.

**EE4830 - Senior Design II**
Credits: 2
Students complete the senior design project partially designed in EE 4820. The final result of the senior design project includes assembly of a PC board hardware that meets the project's requirements and final report describing the design procedure, designed hardware and software, and results of final testing. Periodic oral and written project progress reports are required.

When Offered (Offered spring semester only)
Prerequisite: EE 4820 and selected courses in the area of the design project.

Bio-Engineering and Electives

**BE4810 - Bioinstrumentation**

Credits: 3
Electronic systems used to monitor physiological systems and function (cardiovascular, pulmonary, nervous); transducer systems, amplifiers and recording systems used in research and clinical applications. Laboratory.

Dual Listed BE 5810.
Prerequisite: EE 2210 or similar electric circuit course.

**BE4820 - Biomedical Signal Processing**

Credits: 3
Extraction of signals from noise and data analysis. Emphasis on system modeling of physiological functions from experimental data.

Dual Listed BE 5810.
Prerequisite: EE 3220, basic course, or equivalent.

OR

**EE4620 - Automatic Control Systems**

Credits: 3

Prerequisite: EE 2220 or ME 3020.
- 3 credits of EE or BE Electives (4000-level or above)
- 3 credits Approved Technical Electives.

Total Credits: 128 Hours

1 PHYS 1210: no credit can be earned in PHYS 1210 if taken after ES 2120. PHYS 1220 should be taken before or concurrently with ES 2210.

2 Or any ES, EE, BE course (>2000 level), or COSC 3011 or COSC 3750
3 To meet the COM3 requirement with EE 4820 and EE 4830 the COM2 course must be taken before EE 4820. Also, EE 4820 and EE 4830 must be taken in sequence. COM 2 grade of C or better is required.

4 Any course from the approved ECE technical elective list. Credit can be earned for professional internships or CO-OPs. Internships for Credit must go through EE 4800.

Online courses taken outside of the Wyoming system will not be considered for preapproved Transfer.

Students must have a minimum cumulative GPA 2.000 in all Engineering courses for graduation.

A grade of C or better is required for all prerequisite courses.

Students must also achieve a grade of C or better in all mathematics courses.

Students must complete a minimum of 42 hours of upper division coursework, 30 of which must from the University of Wyoming.

EE 1101 is the recommended FYS course for Electrical Engineering majors.

**Electrical Engineering - F.M. Long Bioengineering Program**

**Educational Objectives**

Graduates of the University of Wyoming Electrical and Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).

**Electrical Engineering, F.M. Long Bioengineering Student Learning Outcomes**

All Electrical (Computer) Engineering graduates shall demonstrate:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

**Minor**
Computer Engineering Minor

Minor Requirements:

You must have a minimum of 12 credits of courses that are not counted toward your major.

COSC2150 - Computer Organization

Credits: 3
Introduces students to the organization and architecture of computer systems, beginning with the standard von Neumann model and then moving forward to more recent architectural concepts.

Cross Listed EE 2150
Prerequisite: COSC 1030.

EE4490 - Hardware Descriptive Language (HDL) Digital Design

Credits: 3
Hardware Description Language design of digital systems. Industrial CAD tools are used to produce a functional description of hardware that is both simulated and then synthesized into hardware. Methods to describe both combinational logic and synchronous devices are given. Devices such as CPLDs and FPGAs are targeted in this design process. Emphasizes design techniques.

Prerequisite: EE 2390.

- 17 credits of electrical engineering (EE) or CPEN Elective courses.

COSC Courses

The following COSC courses can also be used:

COSC1010 - Introduction to Computer Science I

Credits: 3
Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

OR

COSC1015 - Introduction to Programming for Data Science

Credits: 3
Provides an accelerated introduction to computing in the setting of Data Science. Topics include basic programming techniques; data transformation; computing with vectors, matrices, and data frames; data visualization; and text processing.

USP 2015 Code U5Q
A&S College Core 2015 Credit may not be earned for both COSC 1010 and COSC 1015. Priority given to Engineering Honors students.

**Prerequisite:** grade of C or better in MATH 1400 or Level 4 or higher on the Math Placement Exam within one year prior to the start of the course.

**COSC1030 - Computer Science I**

Credits: 4
Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

**Prerequisite:** COSC 1010.

**COSC2030 - Computer Science II**

Credits: 4
Builds on the introduction to object-oriented programming begun in COSC 1010 and COSC 1030 with an emphasis on algorithms, data structures, and software engineering.

**Prerequisite:** COSC 1030.

**COSC4760 - Computer Networks**

Credits: 3
Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

**Prerequisite:** COSC 2150 and COSC 2030.

**Computer Science Graduate Minor**

A graduate minor in Computer Science gives you the skills and knowledge to understand how software-intensive systems are designed and implemented. With these skills, you can use computers to extend the state of the art in your major discipline.

**Requirements:**

12 credits are required, and must be completed with a grade of B or better.

**COSC5110 - Analysis Of Algorithms**

Credits: 3
Analysis of algorithms to determine their time and space requirements. Beginning with data structures such as lists, stacks, trees, and sets and their implementations. The class then analyzes specific algorithms for internal sorting,
hashing, and string search. Offered fall semester of even numbered years.

Prerequisite: COSC 3020 or equivalent and consent of the department.
- 9 additional credits of 5000-level computer science courses

Computer Science Minor

A minor in Computer Science gives you the skills and knowledge to understand how software-intensive systems are designed and implemented. With these skills, you can use computers to tackle problems specific to your major field.

Requirements

18 credits of Computer Science courses are required and must be completed with a grade of C or better.

COSC 1101 and COSC 1200 cannot be used for the Computer Science Minor.

Electrical Engineering Minor

Electrical Engineering Minor Requirements:

You must have a minimum of 12 credits of EE/BE courses that are not counted toward your major.

ES2210 - Electric Circuit Analysis

Credits: 3
Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

Prerequisite: MATH 2205 or concurrent enrollment.
- plus a total of 20 credits of electrical engineering (EE) or bioengineering (BE) courses

Graduate

Computer Science, M.S.

Computer scientists learn the theory and practice of computing, which is essential in the modern world. An M.S. in Computer Science extends your technical expertise in computer science to design, implement, and secure software-intensive systems.
Program Specific Degree Requirements

Plan A (Thesis)

A total of at least 31 credit hours must be completed. The student must complete a minimum of 27 hours of courses, including the CORE and BREADTH REQUIREMENTS. At least 19 credit hours must be COSC courses. All COSC courses must be at the 5000 level. Courses from other departments, including no more than 6 hours of 4000-level courses, may be included with the approval of the supervising M.S. committee.

Plan A students are required to formally defend their theses before their supervising committees. All defenses must be open and announced at least two weeks in advance. The thesis must be distributed to the committee at least two weeks in advance of the defense. If the student does not pass the defense, the committee will instruct the student as to what needs to be accomplished (and by when) to pass.

Plan B (Non-Thesis)

The student must complete a minimum of 33 hours of courses, including the CORE and BREADTH REQUIREMENTS. At least 22 credit hours must be COSC courses. All COSC courses must be at the 5000 level. Courses from other departments, including no more than 6 hours of 4000-level courses, may be included with the approval of the supervising M.S. committee.

UW Coursework Requirements for M.S. Transfer Students:

M.S. transfer students must complete at least 21 credit hours at the University of Wyoming. At least 12 credits of the CORE & BREADTH REQUIREMENTS must be taken at the University of Wyoming. No more than one class per category of breadth may be counted towards this 12-credit total. The algorithms course credits may be counted toward this 12-credit total.

Summary of Credit Requirements

Plan A

COSC5110 - Analysis Of Algorithms

Credits: 3
Analysis of algorithms to determine their time and space requirements. Beginning with data structures such as lists, stacks, trees, and sets and their implementations. The class then analyzes specific algorithms for internal sorting, hashing, and string search. Offered fall semester of even numbered years.

**Prerequisite:** COSC 3020 or equivalent and consent of the department.
- Breadth: theory course, AI course, two systems courses Credits: 12
- Additional courses Credits: 12

COSC5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)
Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

OR

COSC5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

Total Credits: 31 Hours

Plan B

COSC5110 - Analysis Of Algorithms

Credits: 3
Analysis of algorithms to determine their time and space requirements. Beginning with data structures such as lists, stacks, trees, and sets and their implementations. The class then analyzes specific algorithms for internal sorting, hashing, and string search. Offered fall semester of even numbered years.

Prerequisite: COSC 3020 or equivalent and consent of the department.

- Breadth: theory course, AI course, two systems courses Credits: 12
- Additional courses Credits: 18

Total Credits: 33 Hours

Computer Science, Ph.D.

Computer scientists learn the theory and practice of computing, which is essential in the modern world. A Ph.D. in Computer Science prepares you to advance the state of the art in computing principles and practice.

Program Information

Each doctoral student will have a supervising committee of at least five members appointed. The primary functions of this committee are to suggest coursework, to administer the qualifying, preliminary, and final examinations, and to
oversee and evaluate the research of the candidate. The committee will consist of at least three members of the computer science department faculty and at least one non-COSC faculty member. The standards that this committee should consider when recommending programs of study are outlined in the following sections.

**Coursework Requirements:**

A total of at least 72 credit hours must be completed. A minimum of 42 of these credit hours must be taken as coursework, including the CORE and BREADTH REQUIREMENTS. A minimum of 12 hours of COSC5980 - Dissertation Research must be taken. All COSC courses must be at the 5000 level. Courses from other departments, including no more than 12 hours of 4000-level courses, may be included with the approval of the supervising Ph.D. committee. All course requirements MUST be completed or enrolled with satisfactory midterm progress prior to scheduling the Ph.D. Final Examination.

**UW Coursework Requirements for Ph.D. Transfer Students:**

Ph.D. transfer students must complete at least 24 credit hours at the University of Wyoming. At least 12 credits of the CORE and BREADTH REQUIREMENTS must be taken at the University of Wyoming. No more than one class per category of breadth may be counted towards this 12-credit total. The algorithms course credits may be counted toward this 12-credit total.

**Program:**

A program of original and innovative research will be undertaken by the candidate. At the end of this program, the candidate will document this research in a dissertation. The dissertation will present the details and results of the candidate's research in addition to providing a critical comparison with relevant previously-published works.

Each successful doctoral student must pass three examinations. These include a qualifying examination, a preliminary examination, and a final (dissertation) defense.

**Qualifying Exam Criteria:**

The student must complete the CORE REQUIREMENT and pass a closed oral examination on a research area administered by the supervising committee. Although closed to the public, faculty members of the Department of Computer Science are welcome to attend. The exam must be announced to the faculty at least two weeks in advance. The research area will be chosen in consultation with the committee. The student must demonstrate background knowledge of the state of the art in the area and preliminary work. This will involve, but is not limited to, presenting material and answering questions covering the relevant area knowledge. The format of the exam will be defined by the committee prior to the exam to allow for sufficient preparation. This examination is intended to motivate the candidate to review relevant literature extensively prior to pursuing the original and innovative portions of the research.

Qualifying exam criteria must be completed within the first two years of enrollment in the Ph.D program. If the student does not pass the qualifying exam, the committee will instruct the student as to what needs to be accomplished (and by when) to pass. The closed oral examination requirement may be waived for a student who has completed an M.S. degree in COSC at UW if their M.S. presentation was at a research level that demonstrated background knowledge of the state of the art in the area, at the discretion of the supervising Ph.D. committee.

**Preliminary Exam Criteria:**

Prior to scheduling the Preliminary Examination, the student must be making satisfactory progress towards completion of their course requirements, including the BREADTH REQUIREMENTS. A Preliminary Examination will consist of
a presentation and defense of the already completed portion of the dissertation research and the research that is proposed to complete the dissertation. The Preliminary Examination must be open and announced at least two weeks in advance. The preliminary examination must be completed within two years of enrollment in the Ph.D program (within three years of enrollment for students who do not have an M.S. degree). This examination is intended to motivate the candidate to make significant progress on work towards their Ph.D. dissertation and propose milestones for completion. If the nature of the proposed continued research and methodology is deemed to be sufficiently original and innovative by the supervising committee, then the committee will approve the research direction after having administered this examination. If the student does not pass the preliminary exam, the committee will instruct the student as to what needs to be accomplished (and by when) to pass.

**Option for M.S. degree en route to Ph.D.:**

After completing the Qualifying Exam and Preliminary Exam, a Ph.D. student may additionally earn an M.S. degree after completing the remaining M.S. course requirements, including the BREADTH REQUIREMENTS. COSC 5980 may be substituted for COSC 5960 in the M.S. requirements at the discretion of the supervising committee. The M.S. degree will be granted only after completion of the preliminary exam. For an M.S. degree to be granted prior to completion of the preliminary exam, the student should enroll in the M.S. degree program and complete the remaining M.S. requirements.

**Final Exam Criteria:**

Prior to scheduling the Ph.D. Final Examination (often referred to as a "defense"), all course requirements, including the BREADTH REQUIREMENTS, MUST be completed or enrolled with satisfactory midterm progress. The Final Examination (dissertation defense) will consist of an oral presentation by the candidate of his/her research and the results that were derived. At this examination, the candidate is expected to defend the research as being original and contributory to the discipline of computer science. The Final Examination must be open and announced at least two weeks in advance. The dissertation must be distributed to the supervising committee at least two weeks in advance of the Final Examination. If the student does not pass the final exam, the committee will instruct the student as to what needs to be accomplished (and by when) to pass.

**Time to degree for part-time students:**

Exceptions to the completion deadlines for the Qualifying Exam and Preliminary Exam may be made for part-time students at the discretion of the supervising committee.

**Computer Science Core Requirements**

COSC5110 - Analysis Of Algorithms must be completed with a grade of B or better. A grade of B- is not sufficient. Students are strongly encouraged to take COSC 5110 the first time it is offered after enrollment.

**Computer Science Breadth Requirements**

Students must earn a grade of B or better in one class from the Theory category, one class from the Artificial Intelligence category, and two classes from the Systems category. A grade of B- is not sufficient. Thus there must be 12 credits taken to satisfy the breadth requirement. A list of courses in each category is available from the Department. Although some courses may be listed under multiple categories, a course may only count once towards the breadth requirement.
Program Specific Degree Requirements

Summary of Credit Requirements

COSC5110 - Analysis Of Algorithms

Credits: 3
Analysis of algorithms to determine their time and space requirements. Beginning with data structures such as lists, stacks, trees, and sets and their implementations. The class then analyzes specific algorithms for internal sorting, hashing, and string search. Offered fall semester of even numbered years.

Prerequisite: COSC 3020 or equivalent and consent of the department.
- Breadth: theory course, AI course, two systems courses Credits: 12
- Additional courses Credits: 27

COSC5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

OR

COSC5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.
- Other credits (may include courses or COSC 5960/COSC 5980) Credits: 18

Total Credits: 72 Hours

Electrical Engineering, M.S.

Plan A (Thesis)

This is a minimum 30 credit hour program, 26 hours coursework and 4 hours of thesis
• Minimum 16 Course Hours in Electrical and Computer Engineering Course Work
• Minimum 3 Course Hours in Formal Course Work outside the Electrical and Computer Engineering Department approved by the student’s committee
• 7 Additional Formal Course Hours in or out of the Electrical and Computer Engineering Department
• 4 credits of MS thesis research
• No more than 12 credit hours can be at the 4000 level
• No more than 3 credit hours of independent study

Of the above credit hours in formal coursework, no more than 12 credit hours can be 4000 level

The candidate must meet the minimum requirements for the Master of Science degree and also complete and defend a master’s thesis.

**Plan B (with Paper)**

This is a 30 hour program:

• Minimum 18 Course Hrs in Electrical and Computer Engineering Course Work
• Minimum 3 Course Hrs in Formal Course Work outside the Electrical and Computer Engineering Department
• 9 Additional Formal Course Hrs in or out of the Electrical and Computer Engineering Department
• No more than 12 credit hours can be at the 4000 level
• No more than 3 credit hours of independent study

**Plan B (Coursework Only)**

This is a 30 hour program:

• Minimum 18 Course Hrs in Electrical and Computer Engineering Course Work
• Minimum 3 Course Hrs in Formal Course Work outside the Electrical and Computer Engineering Department
• 9 Additional Formal Course Hrs in or out of the Electrical and Computer Engineering Department
• No more than 12 credit hours can be at the 4000 level
• No more than 3 credit hours of independent study

Of the above credit hours in formal coursework, no more than 12 can be 4000 level.

**Electrical Engineering, Ph.D.**

**Degree Requirements**

Ph.D. Degree Requirements:

Ph.D. Credit Allocation (all at 4000 level minimum)

• 72 hours (minimum) of acceptable graduate coursework
• 42 hours (minimum) from ECE and closely related formal course work ( EE5980 - Dissertation Research not counting toward this minimum)

Of those 42 hours, no more than 12 hours can be at the 4000 level

Courses required by the department bachelor of science degree may not be applied for graduate credit
In addition to the minimum requirements of the university, doctoral students must pass a written and oral comprehensive examination, part of which is a written proposal explaining their planned dissertation research. The student after completing successfully the oral comprehensive examination and before defending the completed dissertation must present their research work at an ECE department seminar. The student must also present and defend a completed dissertation. Programs of study, including coursework and any research tools, are arranged by consultation between the students and their graduate committee.

**Environmental Engineering, M.S.**

A master of science in environmental engineering is available in the College of Engineering through a joint effort of the Department of Civil and Architectural Engineering and the Department of Chemical Engineering.

**Core Courses (9 Hours)**

All Environmental Engineering M.S. students must take the following Core courses (9 hrs):

- **ENVE 5425 - Environmental Engineering Microbiology**

**ENVE5430 - Environmental Engineering Chemistry**

Credits: 3  
Focus includes inorganic, organic, physical, equilibrium, biochemistry, colloidal and nuclear chemistry with an emphasis on the problems/solutions encountered by environmental and civil engineers.

**Prerequisite:** CHEM 1020.

**CE5435 - Environmental Transport Processes**

Credits: 3  
Designed for graduate students and engineering seniors interested in the principles of mass transport and their application to environmental systems. Deals with the hydrodynamics of mixing and transport, as well as the interaction of mixing and various reaction rate processes. Applications include water and wastewater treatment, groundwater pollution, and transport and mixing in rivers, lakes and reservoirs.

**Cross Listed** ENVE 5435 and CHE 5435.  
**Prerequisite:** MATH 2310 and ES 2330.

**Recommended Courses (3 Hours)**

Students should also take at least one of the following Recommended courses (3 hrs):

**ENVE5410 - Advanced Biological Wastewater Treatment**
Credits: 3
Theory and practice of advanced biological treatment processes for municipal and industrial wastewaters, sludges, groundwater bioremediation and solid waste. Emphasis is on fundamental principles applied to the design and control of existing processes and the development of innovative systems.

**Cross Listed** CE 5410/CHE 5410.
**Prerequisite:** consent of instructor.

**ENVE5450 - Advanced Physical Chemical Treatment**

Credits: 3
A study of physical and chemical processes for treatment of water, and waste water.

**Cross Listed** CE 5450.
**Prerequisite:** CE 4400.

**Approved Elective Coursework**

Plan A (Thesis) students complete another 14 hours of Approved Elective coursework, at least 4 hours of ENVE5960 - Thesis Research, and write and defend their thesis. Plan B (Project) students complete another 18 hours of Approved Elective coursework and write and present their project.

**Total Required Credit Hours: 30 (Minimum)**

**Certificate**

**Cybersecurity Certificate**

Cybersecurity is the practice of ensuring the confidentiality, integrity, and availability of information within interconnected systems. The certificate in Cybersecurity prepares you for a career securing software-intensive systems.

**Requirements**

**COSC2030 - Computer Science II**

Credits: 4
Builds on the introduction to object-oriented programming begun in COSC 1010 and COSC 1030 with an emphasis on algorithms, data structures, and software engineering.

**Prerequisite:** COSC 1030.

**COSC4010 - Special Topics in Computer Science**

Credits: 1-3
Individual or small group pursuit of interdisciplinary problems in the use of computers or study of advanced topics.
When Offered (Offered based on sufficient demand and resources)
Prerequisite: COSC 3020 concurrently and consent of instructor.

COSC4760 - Computer Networks

Credits: 3
Examines network protocols using a top-down approach based on the Internet model. Course focuses on the application, transport, network and link layers. Also covers wireless communication. Discusses problems and current solutions regarding the efficient use of network resources in the global, multi-media Internet.

Prerequisite: COSC 2150 and COSC 2030.

COSC3765 - Computer Security

Credits: 3
Security is paramount to creating software and systems. This course introduces the fundamentals of computer security and applied cryptography. Topics include vulnerability analysis, common exploits and defense, network/wireless security, reverse engineering, and applied cryptography.

Prerequisite: COSC 2030

COSC4820 - Database Systems

Credits: 3
Provides comprehensive coverage of the problems involved in database design, in-depth coverage of data models and database languages. Students acquire practical skills of conceptual/logical database design and general familiarity with the problems and issues of database management.

Prerequisite: COSC 2030.
- STAT 2010 Credits: 4
- OR

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.
- OR
STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4
Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.
USP 2003-2014 Code U3Q,U3QB
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

STAT4220 - Basic Engineering Statistics

Credits: 3
Introduces probability models, properties of distributions, statistical inference and development of statistical models for physical and engineering sciences. Credit cannot be earned in more than one of the following courses: STAT 2010, STAT 2050, STAT 2070, 4220 and 5000.

Former Course Number [4020]

Prerequisite: MATH 2205, MATH 2355 or equivalent.

Minimum Required: 20 Credits

Note: COSC 4760 can also be replaced by the ECE version ECE 4870 or a second COSC4010 - Special Topics in Computer Science.

QuickStart Program

Electrical and Computer Engineering Quick Start, B.S./M.S.

The combined B.S./M.S. program in electrical and computer engineering enables especially well-qualified students to be admitted to the M.S. program during the junior year of their B.S. program, and to work thereafter towards both the B.S. and M.S. degrees. These students would earn the B.S. in either electrical engineering or computer engineering and the M.S. degree in electrical engineering following the current curricula.

This program allows for early planning of the M.S. portion of the student's education, taking graduate courses as part of the B.S. degree, more flexibility in the order in which courses are taken, and more efficient use of what would otherwise be a final semester with a light credit hour load.

Degree Requirements

Up to 6 credit hours from UW, at the 5000-level or above, may be counted toward both the B.S. and M.S. degree programs.
For further information please visit our Web site at 
http://www.uwyo.edu/electrical/graduate/prospective/ms/quickstart.html.

Department of Mathematics and Statistics

Mathematics

Department Head: Jason Williford

Professors:

LONG LEE, B.S. National Taiwan University, Taipei 1988; M.A. University of Maryland 1998; Ph.D. University of Washington 2002; Professor of Mathematics 2018, 2005.

RONGSONG LIU, B.A. Henan Normal University 1999; M.A. Fudan University 2002; Ph.D. York University 2006; Associate Professor of Mathematics and Program in Ecology 2015, 2009.

ZHUANG NIU, B.S. Wuhan University 1998; M.S. 2001; Ph.D. University of Toronto 2005; Associate Professor of Mathematics 2021, 2012.

Associate Professors:

MICHELLE T. CHAMBERLIN, B.S. Colorado State University 1997; M.S. 1999; Ph.D. Purdue University 2002; Associate Professor of Mathematics 2012, 2007.

FREDERICO da CUNHA FURTADO, B.S. Federal University of Minas Gerais 1979; M.S. Federal University of Rio de Janeiro 1984; Ph.D. Courant Institute 1989; Associate Professor of Mathematics 2002, 1997.

TYRRELL McALLISTER, B.S. University of California, Davis 2001; Ph.D. 2006; Associate Professor of Mathematics 2015, 2009.

Assistant Professor:

PING ZHONG, B.S. Huanzhong University 2005; M.S. Peking University 2008; Ph.D. Indiana University 2014; Assistant Professor of Mathematics 2018.

Senior Lecturers:

DAVID ANTON, B.S. North Dakota State University 2001; M.S. University of Wyoming 2007; Senior Lecturer in Mathematics 2017, 2005.

Associate Lecturer:

NATHAN CLEMENTS, B.S. Brigham Young University-Idaho 2007; M.S. Idaho State University 2009; D.A. 2012; Associate Lecturer in Mathematics 2019, 2012.

Assistant Lecturer:

CHRISTINA G. KNOX, B.S. California State Polytechnic University, Pomona 2012; M.S. 2014; Ph.D. University of California, Riverside, 2019; Assistant Lecturer of Mathematics 2019.

JORGE FLORES, B.S. Chadron State College 2015; M.S. University of Wyoming 2018; Assistant Lecturer of Mathematics 2020.

Adjunct Professors:

Saman Aryana, Hakima Bessaih, Li Deng Douglas, George Elliot, Benedetta Ferrario, Maria Garrido-Atienda, John Hitchcock, Robert Kansky, David Meyer, Bjorn Schmalfuss, Gerald Schuster, Dongwoo Sheen, Marie-Agnés Tellier

Professors Emeriti:

"For the things of this world cannot be made known without a knowledge of mathematics."--Roger Bacon
Virtually every student at UW will take one or more math courses to fulfill graduation requirements. The intent is to illustrate the esthetics inherent in mathematics, and to provide students with the quantitative skills needed for today's careers.

Mathematics majors receive a broad and deep view of the mathematical sciences. They develop their mathematical thinking and communications skills in algebra, analysis, and applied math. They learn a variety of technological tools necessary for jobs in education, business, government, and industry. In addition to our math classes, the department offers a variety of opportunities to enrich the undergraduate experience. Students can participate in weekly seminars, summer research projects, Putnam Team competitions, and the math club.

Mathematics Placement

All UW math courses have prerequisites which are detailed in the course listings below. These are to assure that each student has the best possible opportunity for success in the course. In accordance with this, all students registering for a math course will have their records checked in order to determine whether the prerequisite is satisfied.

A computerized prerequisite check is run prior to the start of every semester. Students who preregistered for a math course but have not satisfied the prerequisites at the time of the check will be automatically dropped from the course.

Prerequisites for courses numbered 2200 or lower (except MATH 1105 and MATH 2120), and MATH2350 - Business Calculus, may be satisfied in one of four ways:

1. Obtain a grade of C or better in a prerequisite course. Note that noncredit courses from out-of-state colleges are not accepted as prerequisites.
2. Pass the Mathematics Placement Exam (MPE) at the stated level within one year of the start of the course.
3. Obtain a sufficiently high score on one of the following standardized exams within three years of the start of the course: ACT math score or SAT quantitative score.
4. Obtain a sufficiently high score on one of the following standardized exams: AP Calculus, CLEP, or IB.

More information on mathematics placement may be obtained from 766-4221, or at www.uwyo.edu/mathstats/math-placement.

Duplication of Courses (MATH 1400, MATH 1405, MATH 1450)

To avoid loss of credit because of duplication of course content, please note the following: (a) students with credit for both MATH 1400 and MATH 1405 will not receive new credit by taking MATH 1450; (b) students with credit for one of MATH 1400 or MATH 1405 will receive only 2 additional credits by taking MATH 1450; (c) students with credit for MATH 1450 will receive only 1 additional credit by taking both MATH 1400 and MATH 1405. Note that the GPA calculation for these situations is unusual, and students should ask the Registrar's Office for details.

Note that MATH 1450 counts as one attempt at each of MATH 1400 and MATH 1405 for the purposes of repeating classes.

Graduate Study

The Mathematics Program offers programs leading to the degrees of master of arts, master of science, master of arts in teaching, master of science in teaching, and the doctor of philosophy.

The requirements for these degrees reflect our belief that mathematicians should have a broad foundation in the core areas of algebra, analysis, and applied mathematics as well as the experience of a more intensive investigation of a
specialized area. We provide this within a flexible structure that recognizes the individual interests and varied backgrounds of our students.

**Program Specific Admission Requirements**

To be competitive for admission, applicants must have strong backgrounds in mathematics. Generally, this means a bachelor's degree in mathematics or a closely related discipline. All applicants should have substantial coursework beyond the calculus sequence; courses in differential equations, linear algebra, and, in particular, courses in abstract algebra and analysis are highly recommended. A solid performance on the GRE Subject Test in Mathematics can demonstrate the applicant's mastery of these subjects. The GRE Subject Test in Mathematics is therefore recommended but is not required.

The GRE General Test is required, with a minimum Quantitative Reasoning score of 157 and Verbal score of 143. International applicants need a composite TOEFL score of 76 or an IELTS score of 6.5.

ETS only reports TOEFL scores taken within two years of the date of request.

**Graduate Assistantships**

The mathematics program employs approximately 22 graduate assistants each year. Assistantships include a full tuition and fee waiver, a monthly living stipend, and health insurance. Ph.D. students normally receive a higher stipend than master's students.

Teaching assistants teach or assist with the teaching of an undergraduate course each semester.

Students may also compete for research assistantships, provided that their interests align with an externally funded research project.

Summer support is not guaranteed but is usually available through teaching and research opportunities.

Renewal of funding and continuation in the mathematics graduate program is dependent upon the student's adequate progress towards graduation and satisfactory completion of assistantship duties.

**Statistics**

223 Ross Hall, (307) 766-4221  
FAX: (307) 766-6838

**Professors:**

TIMOTHY J. ROBINSON, B.S. James Madison University 1989; M.S. Virginia Polytechnic Institute and State University 1994; Ph.D. 1997; Professor of Statistics 2012

Assistant Professors:

ANNALISA PICCORELLI, B.A. Miami University of Ohio 2003; M.S. Case Western Reserve University 2007; Ph.D. 2010. Assistant Professor of Statistics 2015.

Assistant Lecturer:

JARED STUDYVIN, B.S University of Wyoming 2009; Ph.D. University of Wyoming 2015; Assistant Lecturer 2021.

Adjunct Professors:

Robert Petit

Emeriti Faculty:

The curriculum in statistics includes a firm foundation in mathematics and computer science, in addition to course work in statistical theory and methodology. Statistics majors are also required to obtain a minor in an area of application. The nature of statistical work is to design and analyze research projects through the application of the principles of mathematics, computer science, and statistics.

The student who wishes to make valid inferences from empirical data will find the field of statistics fascinating and rewarding. The study of statistics as a separate professional field is comparatively recent. The wide demand for graduates with special training in research and development techniques has fostered development of statistical curricula in colleges and universities. A pioneer in this field, the University of Wyoming is one of the few schools in the nation where a coordinated undergraduate training program in statistics is available.

We expect that students graduating with a statistics degree will be able to: 1) recognize the importance of variation and uncertainty in the world, 2) understand how statistics improves decisions when faced with uncertainty, 3) become proficient with a broad range of statistical tools, 4) develop critical thinking skills that enable application of statistics in new and unusual settings, and 5) communicate effectively. With these skills, graduates will be able to work effectively as statistical professionals and, if desired, successfully pursue further training at the master's and doctorate levels.

Graduates with statistical training are employed in a broad spectrum of areas which include the business world, the sciences (social, biological, physical and health), as well as engineering and education. For this reason, an area of application is required of each student.

The statistics program also offers graduate programs leading to a minor in statistics, and to a Master of Science (Plan A, Plan B), and Doctor of Philosophy in statistics.

Graduate Study

The Statistics Program offers graduate programs leading to a minor in statistics, and to a master of science in applied statistics (Plan B Option 1). The minor is designed to enhance the M.S. or Ph.D. program of any student enrolled in one of the graduate programs at the University of Wyoming. All of these programs emphasize the understanding and application of a broad variety of statistical methods on real projects. Students will be provided with numerous
opportunities to perform analyses and communicate findings. The M.S. program in statistics is grounded in statistical theory.

**Program Specific Admission Requirements**

The prerequisite for admission to graduate study is an undergraduate degree from an accredited institution, including work in mathematics through calculus III, Linear Algebra and at least one second-level class in statistical methods. Prospective students are encouraged to have had Math Analysis and upper level introduction to probability and mathematical statistics. A score of at least 150 on the verbal reasoning section and a score of at least 141 on the quantitative reasoning section is required for the Master's Degree and the TOEFL exam is required for international students. The minimum score for the TOEFL is 540 (76 Internet-based Test) or for IELTS minimum score is 6.5. Students who do not have prerequisites in mathematics and statistics may make up this deficiency at the beginning of their graduate program; however, such work does not count toward graduation requirements.

**Major**

**Mathematics, B.A.**

A comprehensive math degree with training in the fundamentals of proofs, analysis, algebra, computation and math modeling. Provides a strong background for teaching, work in industry and graduate programs in math.

**University Studies Program**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Required Lower Division Core Courses**
MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.
MATH2800 - Mathematics Major Seminar

Credits: 2
An introduction to modern mathematical reasoning and discourse, emphasizing the distinctive ways in which logic and language are used and the motivations behind them. Develops methods of precise definition and rigorous proof. Several topics are explored, illustrating mathematics as a living, dynamic subject with its own culture and conventions.

Upper Division

These courses, known as the transition courses, introduce students to the three main areas of mathematics research currently represented in the department.

At the upper division, all mathematics majors must take:

MATH3205 - Analysis I: Elementary Real Analysis

Credits: 3
An introduction to rigorous analysis in one real variable. Includes a rigorous reconsideration of the elements of calculus: the real number system, numerical sequences and series, limits, continuity, differentiability, and Riemann integrability for functions of one variable. Proof and mathematical writing are emphasized.

Prerequisite: Grade of C or better in MATH 2205 and MATH 2800.

MATH3500 - Algebra I: Introduction to Rings and Proofs

Credits: 3
Begins with common features of integers, rational numbers, and polynomials, leading to study of rings in general. Topics include divisibility, factorization, and modular arithmetic for integers and polynomials, and homomorphisms and ideals for rings. Proof techniques include direct proof, proof by contrapositive, mathematical induction, and proof by contradiction.

Prerequisite: MATH 2800 and grade C or better in MATH 2250 or concurrent registration in MATH 2250.

MATH3340 - Introduction to Scientific Computing

Credits: 3
Introduces basic numerical methods to solve scientific and engineering problems. Topics include: code structure and algorithms, basic numerical methods for linear systems, eigenvalue problems, interpolation and data fitting, nonlinear systems, numerical differentiation and integration.

Cross Listed COSC 3340.
Prerequisite: grade of C or better in MATH 2210.

Depth Course

Every mathematics major must select one course that builds on the corresponding transition course. This sequence provides the student with an opportunity to study one of these areas in greater depth.
MATH4200 - Analysis 2: Advanced Analysis

Credits: 3
A second course in analysis. Includes metric space topology, sequences and series of functions, and analysis in R^n.

When Offered (Offered fall semester)
USP 2015 Code U5C3
Prerequisite: grade of C or better in MATH 2210, MATH 2250 and MATH 3205.
OR

MATH4205 - Analysis 3: Undergraduate Topics in Analysis

Credits: 3
Special topics in analysis. Content varies. May be repeated for credit.

When Offered (Offered spring semester)
Prerequisite: grade of C or better in MATH 4200.
OR

MATH4510 - Algebra II: Introduction to Group Theory

Credits: 3
An introduction to the fundamental properties of groups including: binary operations, groups, permutation groups, subgroups, homomorphisms, and quotient groups.

When Offered (Offered spring semester)
USP 2015 Code U5C3
Prerequisite: grade of C or better in MATH 3500.
OR

MATH4520 - Algebra III: Topics in Abstract Algebra

Credits: 3
Further examples and structure of rings and fields. Finite fields and number fields. Special topics.

When Offered (Offered fall semester)
Prerequisite: grade of C or better in MATH 4510.
OR

MATH4340 - Numerical Methods for Ordinary and Partial Differential Equations

Credits: 3
Further develops the skills needed for computational problem solving and numerical analysis. Topics addressed include: one-step and linear multistep methods for solving initial value problems; truncation errors, stability analysis, and convergence of the numerical methods; finite difference approximation for elliptic equations and initial boundary value problems; iterative methods for sparse linear systems. Students typically complete a final project in this course.
Cross Listed COSC 4340.
When Offered (Offered spring semester)
Prerequisite: grade of C or better in MATH 2310 and MATH 3340.
OR

MATH4440 - Introduction to Partial Differential Equations I

Credits: 3
Survey of analytic methods for solving partial differential equations. Topics include: method of characteristics for solving first-order linear and quasi-linear equations; classification of second-order equations and canonical forms; background to separation of variables with applications; transform methods and Green functions; elliptic equations; heat and wave equations in one dimension.

Prerequisite: grade of C or better in MATH 2210 and MATH 2310.

Upper Division Math Courses

Finally, an additional 15 credits of upper division math courses (3000 and above) are required. It is recommended that these courses be selected to provide a broad view of mathematics.

Two of the math electives may be chosen from a list of approved courses that have significant math content, upon approval by the student's advisor. More details about such courses are available on the math department's web site, www.uwyo.edu/mathstats/.

Only grades of C or better will be accepted for the major.

Mathematics, B.S.

A comprehensive math degree with training in the fundamentals of proofs, analysis, algebra, computation and math modeling. Provides a strong background for teaching, work in industry and graduate programs in math.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.
COM2 - Communication 2

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Required Lower Division Core Courses**

**MATH2200 - Calculus I**

Credits: 4  
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**

Credits: 4  
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2210 - Calculus III**

Credits: 4  
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

**Prerequisite:** grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

**MATH2310 - Applied Differential Equations I**

Credits: 3  
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.
Prerequisite: grade of C or better in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

MATH2800 - Mathematics Major Seminar

Credits: 2
An introduction to modern mathematical reasoning and discourse, emphasizing the distinctive ways in which logic and language are used and the motivations behind them. Develops methods of precise definition and rigorous proof. Several topics are explored, illustrating mathematics as a living, dynamic subject with its own culture and conventions.

Upper Division

These courses, known as the transition courses, introduce students to the three main areas of mathematics research currently represented in the department.

At the upper division, all mathematics majors must take

MATH3205 - Analysis I: Elementary Real Analysis

Credits: 3
An introduction to rigorous analysis in one real variable. Includes a rigorous reconsideration of the elements of calculus: the real number system, numerical sequences and series, limits, continuity, differentiability, and Riemann integrability for functions of one variable. Proof and mathematical writing are emphasized.

Prerequisite: Grade of C or better in MATH 2205 and MATH 2800.

MATH3500 - Algebra I: Introduction to Rings and Proofs

Credits: 3
Begins with common features of integers, rational numbers, and polynomials, leading to study of rings in general. Topics include divisibility, factorization, and modular arithmetic for integers and polynomials, and homomorphisms and ideals for rings. Proof techniques include direct proof, proof by contrapositive, mathematical induction, and proof by contradiction.

Prerequisite: MATH 2800 and grade C or better in MATH 2250 or concurrent registration in MATH 2250.

MATH3340 - Introduction to Scientific Computing
Credits: 3
Introduces basic numerical methods to solve scientific and engineering problems. Topics include: code structure and algorithms, basic numerical methods for linear systems, eigenvalue problems, interpolation and data fitting, nonlinear systems, numerical differentiation and integration.

**Cross Listed** COSC 3340.
**Prerequisite:** grade of C or better in MATH 2210.

**Depth Course**

Every mathematics major must select one course that builds on the corresponding transition course. This sequence provides the student with an opportunity to study one of these areas in greater depth.

**MATH4200 - Analysis 2: Advanced Analysis**

Credits: 3
A second course in analysis. Includes metric space topology, sequences and series of functions, and analysis in $\mathbb{R}^n$.

**When Offered** (Offered fall semester)
USP 2015 Code U5C3
**Prerequisite:** grade of C or better in MATH 2210, MATH 2250 and MATH 3205.

OR

**MATH4205 - Analysis 3: Undergraduate Topics in Analysis**

Credits: 3
Special topics in analysis. Content varies. May be repeated for credit.

**When Offered** (Offered spring semester)
**Prerequisite:** grade of C or better in MATH 4200.

OR

**MATH4510 - Algebra II: Introduction to Group Theory**

Credits: 3
An introduction to the fundamental properties of groups including: binary operations, groups, permutation groups, subgroups, homomorphisms, and quotient groups.

**When Offered** (Offered spring semester)
USP 2015 Code U5C3
**Prerequisite:** grade of C or better in MATH 3500.

OR

**MATH4520 - Algebra III: Topics in Abstract Algebra**

Credits: 3
Further examples and structure of rings and fields. Finite fields and number fields. Special topics.
When Offered (Offered fall semester)
Prerequisite: grade of C or better in MATH 4510.
OR

MATH4340 - Numerical Methods for Ordinary and Partial Differential Equations

Credits: 3
Further develops the skills needed for computational problem solving and numerical analysis. Topics addressed include: one-step and linear multistep methods for solving initial value problems; truncation errors, stability analysis, and convergence of the numerical methods; finite difference approximation for elliptic equations and initial boundary value problems; iterative methods for sparse linear systems. Students typically complete a final project in this course.

Cross Listed COSC 4340.

When Offered (Offered spring semester)
Prerequisite: grade of C or better in MATH 2310 and MATH 3340.
OR

MATH4440 - Introduction to Partial Differential Equations I

Credits: 3
Survey of analytic methods for solving partial differential equations. Topics include: method of characteristics for solving first-order linear and quasi-linear equations; classification of second-order equations and canonical forms; background to separation of variables with applications; transform methods and Green functions; elliptic equations; heat and wave equations in one dimension.

Prerequisite: grade of C or better in MATH 2210 and MATH 2310.

Upper Division Math Courses

Finally, an additional 15 credits of upper division math courses (3000 and above) are required. It is recommended that these courses be selected to provide a broad view of mathematics.

Two of the math electives may be chosen from a list of approved courses that have significant math content, upon approval by the student's advisor. More details about such courses are available on the math department's web site, www.uwyo.edu/mathstats/.

Only grades of C or better will be accepted for the major.

Statistics, B.A.

Statisticians (data scientists) provide analytic solutions to scientific problems. Statistics is the process of using data to answer a research question.

University Studies Program

The University Studies Program 2015
FYS - First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q - Quantitative Reasoning

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN - Physical and Natural World (1)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

PN - Physical and Natural World (2)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.
**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**30 hours of Statistics - Required Courses:**

**STAT2050 - Fundamentals of Statistics**

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 1000, MATH 1400, or equivalent.

**STAT4015 - Regression Analysis**

Credits: 3

Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

**Dual Listed** STAT 5015.  
**Former Course Number** [4010, 4410]

**Prerequisite:** STAT 2050 or equivalent

**STAT4025 - Design and Analysis of Experiments I**
Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and incomplete blocks as time permits.

**Dual Listed** STAT 5025.
**Former Course Number** [4020, 4310]

**Prerequisite:** STAT 2050 or equivalent

**STAT4255 - Mathematical Theory of Probability**

Credits: 3
Calculus-based. Introduces mathematical properties of random variables. Includes discrete and continuous probability distributions, independence and conditional probability, mathematical expectation, multivariate distributions and properties of normal probability law.

**Cross Listed** MATH 4255.
**Dual Listed** STAT 5255.
**When Offered** (Offered fall semester)
**Former Course Number** [4250]

**Prerequisite:** grade of C or better in MATH 2210.

**STAT4265 - Introduction to the Theory of Statistics**

Credits: 3
Presents derivations of theoretical and sampling distributions. Introduces theory of estimation and hypothesis testing.

**Cross Listed** MATH 4265.
**Dual Listed** STAT 5265.
**Former Course Number** [4260, 4010]

**Prerequisite:** STAT 4255/MATH 4255.

**STAT4870 - Senior Thesis**

Credits: 3
Encompasses senior thesis research project under faculty member guidance and supervision. Faculty sponsorship must be obtained prior to registration.

**Prerequisite:** 18 hours in statistics and senior standing.

**Optional from (12 Hours)**
STAT4045 - Categorical Data Analysis

Credits: 3
Applied methods for analyzing associations when some or all variables are measured in discrete categories, not continuous scales. Topics include the binomial, multinomial, and Poisson probability models, parameter estimation and hypothesis-testing about proportions, measures of association and tests for contingency tables, logistic regression, and log-linear models.

Dual Listed STAT 5045.
Former Course Number [4040]

Prerequisite: STAT 2050 or equivalent

STAT4070 - Causal Models

Credits: 3
Applications of least-squares and iterative maximum-likelihood methods for drawing cause and effect conclusions from nonexperimental data. Topics include regression-based path analysis, reciprocal causation, confirmatory factor analysis, measurement error, and structural equation models with unmeasured (latent) variables.

Cross Listed SOC 4070.
Prerequisite: one of STAT 3050, STAT 4015, STAT 5050, 5060, STAT 5070, STAT 5080 or equivalent (regression methods).

STAT4115 - Time Series Analysis and Forecasting

Credits: 3
An applied introduction to time series and forecasting. Brief coverage of time series regression, decomposition methods, and smoothing will lead into a more detailed coverage of Box-Jenkins (ARIMA) modeling. Computer analyses using MINITAB and SAS will be an important part of the course.

Cross Listed ECON 5115
Dual Listed STAT 5115.
Former Course Number [4110]

Prerequisite: STAT 4015 /5015

STAT4155 - Fundamentals of Sampling

Credits: 3
Develops methodology of simple random sampling, stratified sampling, and multistage sampling. Provides applications related to physical, social, and biological sciences. Discusses single and two-variable estimation techniques. Presents estimation based on subsamples from subpopulations.

Dual Listed STAT 5155.
Former Course Number [4150]
Prerequisite: choice of STAT 2010, STAT 2050, STAT 2070 or equivalent.

STAT4300 - Applied Multivariate Analysis

Credits: 3
The application of multivariate statistical methods in behavioral science research. Topics include: multivariate regression, canonical correlation, discriminate analysis, factor analysis and multidimensional scaling. A wide range of computer assistance is incorporated.

Dual Listed STAT 5300.
Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4350 - Survey Construction and Analysis

Credits: 3
Examines the issues surrounding the construction (item wording, test theory, and numerical scales), assessment (sampling and psychometrics), and analysis (item analysis, qualitative data analysis, and factor analysis) of survey instruments. Roughly a third of the course is devoted to each of these areas.

Dual Listed STAT 5350.
Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4360 - Spatial Statistics

Credits: 3
Emphasis is on a generalized linear model approach to the modeling of continuous data, placing model building and the various kriging methods into a single conceptual framework.

Dual Listed STAT 5360.
Prerequisite: STAT 4015.

STAT4370 - Survival Analysis

Credits: 3
Introduction to the modeling of time to event data as it arises in epidemiological and medical research. Topics include parametric and non-parametric estimation for censored data without covariates, and for data with covariates, the proportional hazards regression model, additive hazards regression model and parametric regression models.

Dual Listed STAT 5370.
Prerequisite: STAT 4015 and STAT 4025.

STAT4460 - Statistical Software

Credits: 1
Max Credit 1
An introduction to the various statistical software programs currently in use at the University of Wyoming. Topics will include the structure of each language, I/O, programming the basic statistical applications, and a comparison of the other languages.

**Former Course Number [5480]**

**Prerequisite:** STAT 2050

**STAT4880 - Problems in Statistics**

Credits: 1-4
Encourages individual initiative on part of students who work on extending their knowledge through library research.

**Former Course Number [4790]**

**Prerequisite:** senior standing, 8 hours in statistics and consent of instructor.

**Mathematics (15 Hours)**

**MATH2200 - Calculus I**

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2210 - Calculus III**

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient,
optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

**Prerequisite:** grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

**MATH2250 - Elementary Linear Algebra**

Credits: 3  
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

**Prerequisite:** grade of C or better in MATH 2200 or MATH 2350.

**Computer Science (6 Hours)**

**COSC1010 - Introduction to Computer Science I**

Credits: 3  
Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

**COSC1030 - Computer Science I**

Credits: 4  
Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

**Prerequisite:** COSC 1010.

**Electives**

Chosen so that at least 42 hours are at the 3000/4000/5000 level

**Total Hours: at Least 120**

Only grades of C or better will be accepted for the major.

**Statistics, B.S.**

Statisticians (data scientists) provide analytic solutions to scientific problems. Statistics is the process of using data to answer a research question. The B.S. in Statistics is applied with some theory.

**University Studies Program**
FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit: 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit: 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit: 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**30 Hours of Statistics - Required Courses:**

**STAT2050 - Fundamentals of Statistics**

Credits: 4  
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB  
USP 2015 Code U5Q  
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

**STAT4015 - Regression Analysis**

Credits: 3  
Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

Dual Listed STAT 5015.  
Former Course Number [4010, 4410]
Prerequisite: STAT 2050 or equivalent

STAT4025 - Design and Analysis of Experiments I

Credits: 3
Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and incomplete blocks as time permits.

Dual Listed STAT 5025.
Former Course Number [4020, 4310]

Prerequisite: STAT 2050 or equivalent

STAT4255 - Mathematical Theory of Probability

Credits: 3
Calculus-based. Introduces mathematical properties of random variables. Includes discrete and continuous probability distributions, independence and conditional probability, mathematical expectation, multivariate distributions and properties of normal probability law.

Cross Listed MATH 4255.
Dual Listed STAT 5255.
When Offered (Offered fall semester)
Former Course Number [4250]

Prerequisite: grade of C or better in MATH 2210.

STAT4265 - Introduction to the Theory of Statistics

Credits: 3
Presents derivations of theoretical and sampling distributions. Introduces theory of estimation and hypothesis testing.

Cross Listed MATH 4265.
Dual Listed STAT 5265.
Former Course Number [4260, 4010]

Prerequisite: STAT 4255/MATH 4255.

STAT4270 - Applied Bayesian Statistics

Credits: 3
This course introduces Bayesian data analysis in an applied context. We will learn about Bayesian statistics primarily in a regression model context, taken broadly. A conceptual understanding of popular Markov Chain Monte Carlo algorithms will be provided.
**Dual Listed** STAT 5270.
**Prerequisite:** STAT 4015 /5015

**STAT4870 - Senior Thesis**

Credits: 3  
Encompasses senior thesis research project under faculty member guidance and supervision. Faculty sponsorship must be obtained prior to registration.

**Prerequisite:** 18 hours in statistics and senior standing.

Optional from (12 Hours)

**STAT4045 - Categorical Data Analysis**

Credits: 3  
Applied methods for analyzing associations when some or all variables are measured in discrete categories, not continuous scales. Topics include the binomial, multinomial, and Poisson probability models, parameter estimation and hypothesis-testing about proportions, measures of association and tests for contingency tables, logistic regression, and log-linear models.

**Dual Listed** STAT 5045.  
**Former Course Number** [4040]

**Prerequisite:** STAT 2050 or equivalent

**STAT4070 - Causal Models**

Credits: 3  
Applications of least-squares and iterative maximum-likelihood methods for drawing cause and effect conclusions from nonexperimental data. Topics include regression-based path analysis, reciprocal causation, confirmatory factor analysis, measurement error, and structural equation models with unmeasured (latent) variables.

**Cross Listed** SOC 4070.  
**Prerequisite:** one of STAT 3050, STAT 4015, STAT 5050, 5060, STAT 5070, STAT 5080 or equivalent (regression methods).

**STAT4115 - Time Series Analysis and Forecasting**

Credits: 3  
An applied introduction to time series and forecasting. Brief coverage of time series regression, decomposition methods, and smoothing will lead into a more detailed coverage of Box-Jenkins (ARIMA) modeling. Computer analyses using MINITAB and SAS will be an important part of the course.
Cross Listed ECON 5115
Dual Listed STAT 5115.
Former Course Number [4110]

Prerequisite: STAT 4015 /5015

STAT4155 - Fundamentals of Sampling

Credits: 3
Develops methodology of simple random sampling, stratified sampling, and multistage sampling. Provides applications related to physical, social, and biological sciences. Discusses single and two-variable estimation techniques. Presents estimation based on subsamples from subpopulations.

Dual Listed STAT 5155.
Former Course Number [4150]

Prerequisite: choice of STAT 2010, STAT 2050, STAT 2070 or equivalent.

STAT4300 - Applied Multivariate Analysis

Credits: 3
The application of multivariate statistical methods in behavioral science research. Topics include: multivariate regression, canonical correlation, discriminate analysis, factor analysis and multidimensional scaling. A wide range of computer assistance is incorporated.

Dual Listed STAT 5300.
Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4350 - Survey Construction and Analysis

Credits: 3
Examines the issues surrounding the construction (item wording, test theory, and numerical scales), assessment (sampling and psychometrics), and analysis (item analysis, qualitative data analysis, and factor analysis) of survey instruments. Roughly a third of the course is devoted to each of these areas.

Dual Listed STAT 5350.
Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4360 - Spatial Statistics

Credits: 3
Emphasis is on a generalized linear model approach to the modeling of continuous data, placing model building and the various kriging methods into a single conceptual framework.

Dual Listed STAT 5360.
Prerequisite: STAT 4015.
STAT4370 - Survival Analysis

Credits: 3
Introduction to the modeling of time to event data as it arises in epidemiological and medical research. Topics include parametric and non-parametric estimation for censored data without covariates, and for data with covariates, the proportional hazards regression model, additive hazards regression model and parametric regression models.

**Dual Listed** STAT 5370.
**Prerequisite:** STAT 4015 and STAT 4025.

STAT4460 - Statistical Software

Credits: 1
Max Credit 1

An introduction to the various statistical software programs currently in use at the University of Wyoming. Topics will include the structure of each language, I/O, programming the basic statistical applications, and a comparison of the other languages.

**Former Course Number** [5480]

**Prerequisite:** STAT 2050

STAT4880 - Problems in Statistics

Credits: 1-4
Encourages individual initiative on part of students who work on extending their knowledge through library research.

**Former Course Number** [4790]

**Prerequisite:** senior standing, 8 hours in statistics and consent of instructor.

Mathematics (15 Hours)

MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.
MATH2205 - Calculus II

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2250 - Elementary Linear Algebra

Credits: 3
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

Prerequisite: grade of C or better in MATH 2200 or MATH 2350.

Computer Science (6 Hours)

COSC1010 - Introduction to Computer Science I

Credits: 3
Introduction to Programming that emphasizes good software design principles and fundamental programming skills. It aims to provide students with an understanding of the role computation can play in solving problems.

COSC1030 - Computer Science I

Credits: 4
Continues the introduction to the methodology of programming from an object-oriented perspective. The course emphasizes basic software design, expands the students' knowledge of programming language syntax, expands the students' ability to think and design in an object-oriented paradigm. Introduces the students to UML, pseudocode, and simple planning for the design of software. Also introduces the students to templates and the C STL.

Prerequisite: COSC 1010.

Electives
• Chosen so that at least 42 hours are at the 3000/4000/5000 level

Total Hours: at Least 120

Only grades of C or better will be accepted for the major.

Minor

Interdisciplinary Computational Science Graduate Minor

In recognition of the importance of modeling and simulation in an increasing number of applications, the Graduate Interdisciplinary Computational Science Minor is intended to help prepare science, math, and engineering students for leading roles in their professions.

Requirements

• The student must earn 15 credit hours in specified courses.
• Within the 15 credits, the student must earn at least 12 credits in graduate level classes (5000).
• Within the 15 credits, the student must earn 6 credits outside of her/his department.
• Only grades of B or better will be accepted for a course counting towards the minor.
• For all students, the 15 hours of coursework will be divided into 9 credit hours of core courses and 6 credit hours of electives.

Core Courses

MATH5310 - Computational Methods in Applied Sciences I

Credits: 3
First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

Prerequisite: COSC 1010.

OR

COSC5310 - Computational Methods in Applied Sciences I

Credits: 3
First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability.

Cross Listed MATH 5310.
Prerequisite: MATH 3310, COSC 1010.
COSC5010 - Graduate Topics in Computer Science

Credits: 1-6
Max Credit (Max. 12)

Individual or small group pursuit of computer science research areas.

Prerequisite: graduate standing and consent of instructor.

MATH5340 - Computational Methods II

Credits: 3
Second semester of a three-semester computational methods series with emphasis on numerical solution of differential equations. Topics include explicit and implicit methods, methods for stiff ODE problems, finite difference, finite volume, and finite element methods for time-independence PDEs semi/fully discrete methods for time-dependent PDEs.

Prerequisite: MATH 5310.

OR

COSC 5340 - Computational Methods II Credits: 3

BOT4550 - Computational Biology

Credits: 4
Introduces concepts and skills that are generally applicable to computational analysis of biological questions. Content is motivated by applied projects that require basic computer programming for analysis. Two computer languages are introduced and utilized.

Dual Listed BOT 5550.
Prerequisite: MATH 2200 or STAT 2050 or equivalent; LIFE 1010 or equivalent.

OR

BOT5550 - Computational Biology

Credits: 4
Introduces concepts and skills that are generally applicable to computational analysis of biological questions. Content is motivated by applied projects that require basic computer programming for analysis. Two computer languages are introduced and utilized.

Dual Listed BOT 4550.
Prerequisite: MATH 2200 or STAT 2050 or equivalent; LIFE 1010 or equivalent.

GEOL4030 - Groundwater Flow and Solute Transport Modeling

Credits: 3
Movement of groundwater and the dissolved solute is responsible for a variety of environmental, engineering, and geological processes of interest. Presents an overview of the analyses of groundwater flow and solute transport using
numerical modeling. The principles of the Finite Difference Method are introduced.

Dual Listed GEOL 5030.
Prerequisite: MATH 2205 and GEOL 4444/GEOL 5444.

OR

GEOL5030 - Groundwater Flow and Solute Transport Modeling

Credits: 3
Movement of groundwater and the dissolved solute is responsible for a variety of environmental, engineering, and geological processes of interest. Presents an overview of the analyses of groundwater flow and solute transport using numerical modeling. The principles of the Finite Difference Method are introduced.

Dual Listed GEOL 4030.
Prerequisite: MATH 2205, GEOL 5444.

ME5461 - Computational Fluid Dynamics I

Credits: 3
An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

Cross Listed Dual list with ME 4461 and ESE 4461
Prerequisite: graduate standing

ME5462 - Computational Fluid Dynamics II

Credits: 3
A study of advanced techniques in modern-day scientific computing as applied to Computational Fluid Dynamics. These include unstructured mesh generation using Delaunay triangulation, searching and sorting techniques, and efficient data structures. Other topics cover efficient hardware implementation including cache-effects and parallel computing and sensitivity analysis for design optimization.

Prerequisite: ME 5461

STAT5660 - Computationally Intensive Methods in Statistics

Credits: 3
Advanced statistical inference often relies on methods which are computationally intensive. The basic methods include Newton-Raphson; the EM algorithm; bootstrap and other resampling procedures; kernel density estimators; Laplace's method, importance sampling and MCMC, and saddlepoint and Edgeworth approximations.

Prerequisite: STAT 5520.
Electives

COSC5110 - Analysis Of Algorithms

Credits: 3
Analysis of algorithms to determine their time and space requirements. Beginning with data structures such as lists, stacks, trees, and sets and their implementations. The class then analyzes specific algorithms for internal sorting, hashing, and string search. Offered fall semester of even numbered years.

Prerequisite: COSC 3020 or equivalent and consent of the department.

STAT5680 - Advanced Bayesian Statistics

Credits: 3
Philosophical principles underlying Bayesian and non-Bayesian statistics. Decision theoretic foundations of Bayesian statistics including loss functions, minimaxity, and admissibility. Construction of conjugate prior distributions and non-informative prior distributions. Bayesian point estimation, hypothesis tests and credible sets. Computational tools for Bayesian problems including Markov chain Monte Carlo (MCMC) and other methods for approximating posterior distributions with some emphasis on implementation via a programming language or statistical computing software. As time and interest permit: the normal linear model, non-normal models, hierarchical models, Bayesian model averaging, other topics.

Prerequisite: STAT 5380; 5420 and STAT 5520.

STAT5380 - Bayesian Data Analysis

Credits: 3
Bayesian statistical methods for analyzing various kinds of data. Topics include basic Bayesian ideas and model formulation (priors, posteriors, likelihoods), single- and multiple-parameter models, hierarchical models, generalized linear models, multivariate models, survival models and an introduction to computation methods.

Prerequisite: STAT 5255
  • High-Performance Computing in Geosciences, 2 hrs
  • MATH 5320 - Mathematics Modeling of Processes Credits: 3

CHEM4560 - Molecular Modeling

Credits: 3
Emphasizes practical training in computational modeling of molecular properties using modern computer software. Includes ab-initio quantum mechanical, density functional, semi-empirical and molecular mechanics methods.

Lab/Lecture Hours 3 hours per week.
Dual Listed CHEM 5560.
When Offered (Normally offered alternating spring semesters)
Prerequisite: CHEM 4507.
  OR
CHEM5560 - Molecular Modeling

Credits: 3
Emphasizes practical training in computational modeling of molecular properties using modern computer software. Includes ab-initio quantum mechanical,

Lab/Lecture Hours 3 hours per week.
Dual Listed CHEM 4560.
When Offered (Normally offered alternating spring semesters)
Prerequisite: CHEM 4507.

PHYS4840 - Mathematical and Computational Physics II

Credits: 4
Second semester of a two-semester course. Provides a comprehensive overview of computational physics and provides numerous numerical techniques applied to physics problems. Topics include: numerical computations and visualizations, numerical solutions of ordinary differential equations, linear systems, curve fitting, discrete Fourier transforms, partial differential equations, integration, and Monte Carlo simulations of general stochastic systems. A weekly lab session will be held.

Prerequisite: MATH 2210, PHYS 2320 and PHYS 3000.

MATH4300 - Introduction to Mathematical Modeling

Credits: 3
A model of a real world problem captures the essential features of the problem, while scaling it down to a manageable size. In this course, symbolic tools and mathematical techniques are used to construct, analyze and interpret various mathematical models which arise from problems in the physical, biological and social sciences.

When Offered (Offered fall semester)
Prerequisite: grade of C or better in MATH 2250 or MATH 2310.

Interdisciplinary Computational Science Minor

In recognition of the importance of modeling and simulation in an increasing number of applications, the Undergraduate Interdisciplinary Computational Science Minor is intended to help prepare science, math, and engineering students for leading roles in their professions.

The Undergraduate Minor in Computational Science is based on the following requirements:

1. The student must earn 15 credit hours in specified courses.
2. Within the 15 credits, the student must earn 9 credits at the upper-division level (3000 or above).
3. Within the 15 credits, the student must earn 6 credits outside of her/his major.
4. Within the 15 credits, the student must earn at least 6 credits in core courses.
5. Only grades of C or better will be accepted for the minor.

The 15 hours of coursework are divided between core and elective courses as listed below.

Core Courses
MATH4340 - Numerical Methods for Ordinary and Partial Differential Equations

Credits: 3
Further develops the skills needed for computational problem solving and numerical analysis. Topics addressed include: one-step and linear multistep methods for solving initial value problems; truncation errors, stability analysis, and convergence of the numerical methods; finite difference approximation for elliptic equations and initial boundary value problems; iterative methods for sparse linear systems. Students typically complete a final project in this course.

Cross Listed COSC 4340.
When Offered (Offered spring semester)
Prerequisite: grade of C or better in MATH 2310 and MATH 3340.

COSC4340 - Numerical Methods for Ordinary and Partial Differential Equations

Credits: 3
Further develops the skills needed for computational problem solving and numerical analysis. Topics addressed include: one-step and linear multistep methods for solving initial value problems; truncation errors, stability analysis, and convergence of the numerical methods; finite difference approximation for elliptic equations and initial boundary value problems; iterative methods for sparse linear systems. Students typically complete a final project in this course.

Cross Listed MATH 4340.
Prerequisite: grade of C or better in MATH 2310 and MATH 3340.
  • High-Performance Computing (Offered as a topics course).

MATH3340 - Introduction to Scientific Computing

Credits: 3
Introduces basic numerical methods to solve scientific and engineering problems. Topics include: code structure and algorithms, basic numerical methods for linear systems, eigenvalue problems, interpolation and data fitting, nonlinear systems, numerical differentiation and integration.

Cross Listed COSC 3340.
Prerequisite: grade of C or better in MATH 2210.

OR

COSC3340 - Introduction to Scientific Computing

Credits: 3
Introduces basic numerical methods to solve scientific and engineering problems. Topics include: code structure and algorithms, basic numerical methods for linear systems, eigenvalue problems, interpolation and data fitting, nonlinear systems, numerical differentiation and integration.

Cross Listed MATH 3340.
Prerequisite: grade of C or better in MATH 2210.

STAT4460 - Statistical Software
An introduction to the various statistical software programs currently in use at the University of Wyoming. Topics will include the structure of each language, I/O, programming the basic statistical applications, and a comparison of the other languages.

**Former Course Number** [5480]

**Prerequisite:** STAT 2050

**Elective Courses**

**BOT4550 - Computational Biology**

Credits: 4
Introduces concepts and skills that are generally applicable to computational analysis of biological questions. Content is motivated by applied projects that require basic computer programming for analysis. Two computer languages are introduced and utilized.

**Dual Listed** BOT 5550.
**Prerequisite:** MATH 2200 or STAT 2050 or equivalent; LIFE 1010 or equivalent.

**OR**

**BOT5550 - Computational Biology**

Credits: 4
Introduces concepts and skills that are generally applicable to computational analysis of biological questions. Content is motivated by applied projects that require basic computer programming for analysis. Two computer languages are introduced and utilized.

**Dual Listed** BOT 4550.
**Prerequisite:** MATH 2200 or STAT 2050 or equivalent; LIFE 1010 or equivalent.

**COSC3020 - Algorithms and Data Structures**

Credits: 4
Introduces formal techniques to support the design and analysis of algorithms, focusing on both the underlying mathematical theory and practical considerations of efficiency. Topics include asymptotic complexity bounds, techniques of analysis, algorithmic strategies, and an introduction to parallelism and the analysis of parallel programs.

**Prerequisite:** COSC 2300 , COSC 2030

**PHYS4840 - Mathematical and Computational Physics II**
Credits: 4
Second semester of a two-semester course. Provides a comprehensive overview of computational physics and provides numerous numerical techniques applied to physics problems. Topics include: numerical computations and visualizations, numerical solutions of ordinary differential equations, linear systems, curve fitting, discrete Fourier transforms, partial differential equations, integration, and Monte Carlo simulations of general stochastic systems. A weekly lab session will be held.

**Prerequisite:** MATH 2210, PHYS 2320 and PHYS 3000.

**CHEM4560 - Molecular Modeling**

Credits: 3
Emphasizes practical training in computational modeling of molecular properties using modern computer software. Includes ab-initio quantum mechanical, density functional, semi-empirical and molecular mechanics methods.

**Lab/Lecture Hours** 3 hours per week.
**Dual Listed** CHEM 5560.
**When Offered** (Normally offered alternating spring semesters)
**Prerequisite:** CHEM 4507.

**CHEM5560 - Molecular Modeling**

Credits: 3
Emphasizes practical training in computational modeling of molecular properties using modern computer software. Includes ab-initio quantum mechanical,

**Lab/Lecture Hours** 3 hours per week.
**Dual Listed** CHEM 4560.
**When Offered** (Normally offered alternating spring semesters)
**Prerequisite:** CHEM 4507.

**MATH4300 - Introduction to Mathematical Modeling**

Credits: 3
A model of a real-world problem captures the essential features of the problem, while scaling it down to a manageable size. In this course, symbolic tools and mathematical techniques are used to construct, analyze and interpret various mathematical models which arise from problems in the physical, biological and social sciences.

**When Offered** (Offered fall semester)
**Prerequisite:** grade of C or better in MATH 2250 or MATH 2310.

**ME4040 - Introduction to Finite Elements**

Credits: 3
An introduction to the theory and application of finite elements to the solution of various problems with emphasis on structural mechanics. The course includes development of the underlying matrix equations, the treatment of element
generation and properties, and implementation of boundary conditions.

**Dual Listed** ME 5040.
**Prerequisite:** Completion of the ME Success Curriculum, MATH 2310 and (CE 4200/ARE 4200 or MATH 2250 or ME 3010 or ME 3060).

**COSC4820 - Database Systems**

Credits: 3
Provides comprehensive coverage of the problems involved in database design, in-depth coverage of data models and database languages. Students acquire practical skills of conceptual/logical database design and general familiarity with the problems and issues of database management.

**Prerequisite:** COSC 2030.

**Mathematics Minor**

The minor in mathematics focuses on fundamental aspects of mathematics that are essential for further study in mathematics and a variety of other disciplines. Students may customize the minor by choosing the appropriate transition course and upper-division electives.

**Lower Division Core Courses**

**MATH2200 - Calculus I**

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

- USP 2003-2014 Code U3QB
- USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

- USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2210 - Calculus III**
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

**Prerequisite:** grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

**MATH2310 - Applied Differential Equations I**

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

**Prerequisite:** grade of C or better in MATH 2205.

**MATH2250 - Elementary Linear Algebra**

Credits: 3
Studies linear equations and matrices, vector spaces, linear transformations, determinants, orthogonality, eigenvalues and eigenvectors.

**Prerequisite:** grade of C or better in MATH 2200 or MATH 2350.

**MATH2800 - Mathematics Major Seminar**

Credits: 2
An introduction to modern mathematical reasoning and discourse, emphasizing the distinctive ways in which logic and language are used and the motivations behind them. Develops methods of precise definition and rigorous proof. Several topics are explored, illustrating mathematics as a living, dynamic subject with its own culture and conventions.

**Upper Division**

Two of the math electives may be chosen from a list of approved courses that have significant math content, upon approval by the student's advisor. More details about such courses are available on the math department's web site, www.uwyo.edu/mathstats/.

Only grades of C or better will be accepted for the minor.

At the upper division, all mathematics minors must take ONE of

**MATH3205 - Analysis I: Elementary Real Analysis**

Credits: 3
An introduction to rigorous analysis in one real variable. Includes a rigorous reconsideration of the elements of calculus: the real number system, numerical sequences and series, limits, continuity, differentiability, and Riemann integrability for functions of one variable. Proof and mathematical writing are emphasized.
Prerequisite: Grade of C or better in MATH 2205 and MATH 2800.

OR

MATH3500 - Algebra I: Introduction to Rings and Proofs

Credits: 3
Begins with common features of integers, rational numbers, and polynomials, leading to study of rings in general. Topics include divisibility, factorization, and modular arithmetic for integers and polynomials, and homomorphisms and ideals for rings. Proof techniques include direct proof, proof by contraposition, mathematical induction, and proof by contradiction.

Prerequisite: MATH 2800 and grade C or better in MATH 2250 or concurrent registration in MATH 2250.

OR

MATH3340 - Introduction to Scientific Computing

Credits: 3
Introduces basic numerical methods to solve scientific and engineering problems. Topics include: code structure and algorithms, basic numerical methods for linear systems, eigenvalue problems, interpolation and data fitting, nonlinear systems, numerical differentiation and integration.

Cross Listed COSC 3340.

Prerequisite: grade of C or better in MATH 2210.

• as well as 3 additional credits of upper division math courses (3000 and above)

Statistics Minor

Statisticians (data scientists) provide analytic solutions to scientific problems. Statistics is the process of using data to answer a research question. The B.S. in Statistics is applied with some theory. The minor of Statistics is all application.

Requirements

The following courses are required for a statistics minor:

MATH1400 - College Algebra

Credits: 3
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA
USP 2015 Code U5Q

Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.
STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

12 Additional Hours from the Following:

STAT4015 - Regression Analysis

Credits: 3
Contains standard topics, as well as some newer and more unconventional ones. Oriented towards analysts who use computer packages for problem solutions. Includes balance of application and theory.

Dual Listed STAT 5015.
Former Course Number [4010, 4410]

Prerequisite: STAT 2050 or equivalent

STAT4025 - Design and Analysis of Experiments I

Credits: 3
Reviews design and analysis of one-factor experiments and introduces multifactor experiments, Latin squares, nested designs and random effects. Includes topics such as polynomial response curves, trend analysis, split plots and incomplete blocks as time permits.

Dual Listed STAT 5025.
Former Course Number [4020, 4310]

Prerequisite: STAT 2050 or equivalent

STAT4045 - Categorical Data Analysis

Credits: 3
Applied methods for analyzing associations when some or all variables are measured in discrete categories, not continuous scales. Topics include the binomial, multinomial, and Poisson probability models, parameter estimation and hypothesis-testing about proportions, measures of association and tests for contingency tables, logistic regression, and log-linear models.
Dual Listed STAT 5045.
Former Course Number [4040]

Prerequisite: STAT 2050 or equivalent

STAT4070 - Causal Models

Credits: 3
Applications of least-squares and iterative maximum-likelihood methods for drawing cause and effect conclusions from nonexperimental data. Topics include regression-based path analysis, reciprocal causation, confirmatory factor analysis, measurement error, and structural equation models with unmeasured (latent) variables.

Cross Listed SOC 4070.
Prerequisite: one of STAT 3050, STAT 4015, STAT 5050, 5060, STAT 5070, STAT 5080 or equivalent (regression methods).

STAT4115 - Time Series Analysis and Forecasting

Credits: 3
An applied introduction to time series and forecasting. Brief coverage of time series regression, decomposition methods, and smoothing will lead into a more detailed coverage of Box-Jenkins (ARIMA) modeling. Computer analyses using MINITAB and SAS will be an important part of the course.

Cross Listed ECON 5115
Dual Listed STAT 5115.
Former Course Number [4110]

Prerequisite: STAT 4015 /5015

STAT4155 - Fundamentals of Sampling

Credits: 3
Develops methodology of simple random sampling, stratified sampling, and multistage sampling. Provides applications related to physical, social, and biological sciences. Discusses single and two-variable estimation techniques. Presents estimation based on subsamples from subpopulations.

Dual Listed STAT 5155.
Former Course Number [4150]

Prerequisite: choice of STAT 2010, STAT 2050, STAT 2070 or equivalent.

STAT4255 - Mathematical Theory of Probability

Credits: 3
Calculus-based. Introduces mathematical properties of random variables. Includes discrete and continuous probability distributions, independence and conditional probability, mathematical expectation, multiivariate distributions and
properties of normal probability law.

**Cross Listed** MATH 4255.  
**Dual Listed** STAT 5255.  
**When Offered** (Offered fall semester)  
**Former Course Number** [4250]

**Prerequisite:** grade of C or better in MATH 2210.

**STAT4265 - Introduction to the Theory of Statistics**

Credits: 3  
Presents derivations of theoretical and sampling distributions. Introduces theory of estimation and hypothesis testing.

**Cross Listed** MATH 4265.  
**Dual Listed** STAT 5265.  
**Former Course Number** [4260, 4010]

**Prerequisite:** STAT 4255/MATH 4255.

**STAT4350 - Survey Construction and Analysis**

Credits: 3  
Examines the issues surrounding the construction (item wording, test theory, and numerical scales), assessment (sampling and psychometrics), and analysis (item analysis, qualitative data analysis, and factor analysis) of survey instruments. Roughly a third of the course is devoted to each of these areas.

**Dual Listed** STAT 5350.  
**Prerequisite:** STAT 4015 /5015 and STAT 4025 /5025

**STAT4360 - Spatial Statistics**

Credits: 3  
Emphasis is on a generalized linear model approach to the modeling of continuous data, placing model building and the various kriging methods into a single conceptual framework.

**Dual Listed** STAT 5360.  
**Prerequisite:** STAT 4015.

**STAT4370 - Survival Analysis**

Credits: 3  
Introduction to the modeling of time to event data as it arises in epidemiological and medical research. Topics include parametric and non-parametric estimation for censored data without covariates, and for data with covariates, the proportional hazards regression model, additive hazards regression model and parametric regression models.
Dual Listed STAT 5370.
Prerequisite: STAT 4015 and STAT 4025.

STAT4300 - Applied Multivariate Analysis

Credits: 3
The application of multivariate statistical methods in behavioral science research. Topics include: multivariate regression, canonical correlation, discriminate analysis, factor analysis and multidimensional scaling. A wide range of computer assistance is incorporated.

Dual Listed STAT 5300.
Prerequisite: STAT 4015 /5015 and STAT 4025 /5025

STAT4270 - Applied Bayesian Statistics

Credits: 3
This course introduces Bayesian data analysis in an applied context. We will learn about Bayesian statistics primarily in a regression model context, taken broadly. A conceptual understanding of popular Markov Chain Monte Carlo algorithms will be provided.

Dual Listed STAT 5270.
Prerequisite: STAT 4015 /5015

Total: 18-19 Hours

Only grades of C or better will be accepted for the minor.

Graduate

Mathematics, M.A.

A comprehensive mathematics degree, with training in the fundamentals of analysis, abstract algebra, computation, and mathematical modeling. Provides a strong foundation for teaching, work in industry, and continued study in graduate-level programs.

Common Requirements

The following requirements are common to all four tracks:

- The student must maintain a 3.000 cumulative GPA.
- The student must complete 30 hours of formal mathematics coursework at the 5000 level.
- The student must pass the department's Foundation Exam. This exam covers material from advanced vector calculus and linear algebra at the upper-division undergraduate level and is offered before the beginning of each semester.
• Take one hour of the seminar MATH 4970: Professional Development in Mathematics and one hour of the seminar MATH 4970: Professional Development in Teaching.

5000-level Mathematics Courses

As part of the 30 hours of formal 5000-level mathematics courses, the student must complete the following courses with a grade of B or better:

**MATH5200 - Real Variables I**

Credits: 3
Develops the theory of measures, measurable functions, integration theory, density and convergence theorems, product measures, decomposition and differentiation of measures, and elements of function analysis on Lp spaces. Lebesgue theory is an important application of this development.

**Prerequisite:** MATH 4200.

**MATH5230 - Complex Variables I**

Credits: 3
Develops the function theory of holomorphic (analytic) and harmonic functions. Topics covered include the Cauchy-Riemann equations, Cauchy-Goursat theorem, Cauchy integral theorem, Morera's theorem, maximum modulus theorem, Liouville's theorem, power series representation, harmonic functions, theory of singularities of functions of one complex variable, contour integration, analytic continuation, Riemann mapping theorem and topology of spaces of holomorphic functions.

**Prerequisite:** MATH 4200.

**MATH5310 - Computational Methods in Applied Sciences I**

Credits: 3
First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

**Prerequisite:** COSC 1010.

**MATH5400 - Methods of Applied Mathematics I**

Credits: 3
First semester of a one-year survey of topics and methods of applied mathematics, with emphasis on applications from physics and engineering. The full sequence includes introductions to mathematical aspects of mechanics (e.g., conservation laws), asymptotic expansions, systems of ODE and stability, integral equations and calculus of variations, PDE with boundary value problems and generalized solutions (including wave, heat, and potential equations), numerical methods and stability.
**Prerequisite:** MATH 2250, MATH 4200 or 4400, and MATH 2310 or 4430.

**MATH5500 - Advanced Linear Algebra**

Credits: 3

An introduction to the theory of abstract vector spaces and linear transformations from an axiomatic point of view, with applications to matrix theory. Topics include vector spaces, dimension, linear transformations, dual spaces and functionals, inner product spaces, and structure theorems.

**Prerequisite:** MATH 3500 and MATH 4500.

**MATH5550 - Abstract Algebra I**

Credits: 3

Studies the structure of groups, rings, and fields. For each, concepts of substructures, quotient structures, extensions, homomorphism, and isomorphism are discussed.

**Prerequisite:** MATH 3500 or MATH 5500.

**Tracks:**

In addition to the common elements above, students must select and complete one of the capstone experiences described in the tracks below.

**Track #1: Master's Thesis (Plan A)**

Within the 30 hours of 5000-level courses, the Plan A student must complete 4 hours of MATH5960 - Thesis Research. At least 26 hours of 5000-level coursework must be mathcontent courses (not thesis research).

The student must prepare a master's thesis (Plan A) and give an oral defense of the thesis. In the mathematics program, a Plan A thesis reports on the result(s) of independent and original research completed by the student under the direction of a faculty member. The thesis should describe the research and its results and be written to the standards of the appropriate area of mathematics.

**Track #2: Master's Paper (Plan B)**

The student must prepare a master's paper (Plan B) and give an oral defense.

To write a Plan B paper, the student must present an expository paper on a designated mathematical subject. Students are guided by their advisor in the subject matter and in the preparation of the paper. A successful paper and defense demonstrates that the student has mastered a substantial mathematical topic that is beyond those covered in formal foundational coursework.

**Track #3: Coursework/Project (Plan B)**

A second M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper, the student takes a sequence of three 5000-level courses that all address a common mathematical theme. The sequence must be approved by the
student's advisor and the mathematics graduate committee. Two of the courses must be mathematics-department offerings, and the third may be either a mathematics course (including reading/topics courses) or a course from another department in a related field.

- The student must complete an additional 6 hours of courses at the 5000 level. Thus, Track #3 requires the completion of 36 hours of graduate-level coursework.
- Within the 36 hours, the student must propose and complete with a grade of B or better an appropriate 3-course sequence
- The student will write a short paper illustrating how the common mathematical theme of the sequence manifests itself in the content of each course and give a presentation/defense of the paper.

In approving the student's proposal for this option, the graduate committee and the advisor will consider how the writing and independent study spirit of the Plan B option are fulfilled within the recommended plan.

**Track #4: Qualifying Exam (Plan B)**

A third M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper or taking additional coursework, the student must take and pass the department's PhD Qualifying Examination in one of the three areas: Analysis, Algebra, or Applied Mathematics. These examinations focus on the material in the required courses.

These examinations are given twice a year at the beginning of the fall and spring semesters. This option is intended for students who will continue for a PhD at UW.

- The oral component of this Track will consist of a defense of the student's written answers to qualifying exam.
- Pass one of the department's qualifying exams in:

**Analysis**

**MATH5200 - Real Variables I**

Credits: 3
Develops the theory of measures, measurable functions, integration theory, density and convergence theorems, product measures, decomposition and differentiation of measures, and elements of function analysis on Lp spaces. Lebesgue theory is an important application of this development.

**Prerequisite:** MATH 4200.

**MATH5230 - Complex Variables I**

Credits: 3
Develops the function theory of holomorphic (analytic) and harmonic functions. Topics covered include the Cauchy-Riemann equations, Cauchy-Goursat theorem, Cauchy integral theorem, Morera's theorem, maximum modulus theorem, Liouville's theorem, power series representation, harmonic functions, theory of singularities of functions of one complex variable, contour integration, analytic continuation, Riemann mapping theorem and topology of spaces of holomorphic functions.

**Prerequisite:** MATH 4200.

**Algebra**
**MATH5500 - Advanced Linear Algebra**

Credits: 3

An introduction to the theory of abstract vector spaces and linear transformations from an axiomatic point of view, with applications to matrix theory. Topics include vector spaces, dimension, linear transformations, dual spaces and functionals, inner product spaces, and structure theorems.

**Prerequisite:** MATH 3500 and MATH 4500.

**MATH5550 - Abstract Algebra I**

Credits: 3

Studies the structure of groups, rings, and fields. For each, concepts of substructures, quotient structures, extensions, homomorphism, and isomorphism are discussed.

**Prerequisite:** MATH 3500 or MATH 5500.

**Applied Mathematics**

**MATH5310 - Computational Methods in Applied Sciences I**

Credits: 3

First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

**Prerequisite:** COSC 1010.

**MATH5400 - Methods of Applied Mathematics I**

Credits: 3

First semester of a one-year survey of topics and methods of applied mathematics, with emphasis on applications from physics and engineering. The full sequence includes introductions to mathematical aspects of mechanics (e.g., conservation laws), asymptotic expansions, systems of ODE and stability, integral equations and calculus of variations, PDE with boundary value problems and generalized solutions (including wave, heat, and potential equations), numerical methods and stability.

**Prerequisite:** MATH 2250, MATH 4200 or 4400, and MATH 2310 or 4430.

**Mathematics, M.A.T.**

Applicants are required to have:

A. A valid teaching endorsement in any state or educational requirements satisfied for secondary teaching;

B. courses equivalent to MATH 3205, MATH 3500, MATH 4000 and MATH 4600;
C. a course in computer programming.

Students who enter the program with a deficiency in the courses listed in (b) must take them at UW, but these courses may not be counted toward the course requirements of the M.S.T./M.A.T. program.

Mathematics, M.S.

A comprehensive mathematics degree, with training in the fundamentals of analysis, abstract algebra, computation, and mathematical modeling. Provides a strong foundation for teaching, work in industry, and continued study in graduate-level programs.

Common Requirements

The following requirements are common to all four tracks:

- The student must maintain a 3.000 cumulative GPA.
- The student must complete 30 hours of formal mathematics coursework at the 5000 level.
- The student must pass the department's Foundation Exam. This exam covers material from advanced vector calculus and linear algebra at the upper-division undergraduate level and is offered before the beginning of each semester.
- Take one hour of the seminar MATH 4970: Professional Development in Mathematics and one hour of the seminar MATH 4970: Professional Development in Teaching.

5000-level Mathematics Courses

As part of the 30 hours of formal 5000-level mathematics courses, the student must complete the following courses with a grade of B or better:

**MATH5200 - Real Variables I**

Credits: 3
Develops the theory of measures, measurable functions, integration theory, density and convergence theorems, product measures, decomposition and differentiation of measures, and elements of function analysis on Lp spaces. Lebesgue theory is an important application of this development.

**Prerequisite:** MATH 4200.

**MATH5230 - Complex Variables I**

Credits: 3
Develops the function theory of holomorphic (analytic) and harmonic functions. Topics covered include the Cauchy-Riemann equations, Cauchy-Goursat theorem, Cauchy integral theorem, Morera's theorem, maximum modulus theorem, Liouville's theorem, power series representation, harmonic functions, theory of singularities of functions of one complex variable, contour integration, analytic continuation, Riemann mapping theorem and topology of spaces of holomorphic functions.

**Prerequisite:** MATH 4200.
MATH5310 - Computational Methods in Applied Sciences I

Credits: 3
First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

Prerequisite: COSC 1010.

MATH5400 - Methods of Applied Mathematics I

Credits: 3
First semester of a one-year survey of topics and methods of applied mathematics, with emphasis on applications from physics and engineering. The full sequence includes introductions to mathematical aspects of mechanics (e.g., conservation laws), asymptotic expansions, systems of ODE and stability, integral equations and calculus of variations, PDE with boundary value problems and generalized solutions (including wave, heat, and potential equations), numerical methods and stability.

Prerequisite: MATH 2250, MATH 4200 or 4400, and MATH 2310 or 4430.

MATH5500 - Advanced Linear Algebra

Credits: 3
An introduction to the theory of abstract vector spaces and linear transformations from an axiomatic point of view, with applications to matrix theory. Topics include vector spaces, dimension, linear transformations, dual spaces and functionals, inner product spaces, and structure theorems.

Prerequisite: MATH 3500 and MATH 4500.

MATH5550 - Abstract Algebra I

Credits: 3
Studies the structure of groups, rings, and fields. For each, concepts of substructures, quotient structures, extensions, homomorphism, and isomorphism are discussed.

Prerequisite: MATH 3500 or MATH 5500.

Tracks:

In addition to the common elements above, students must select and complete one of the capstone experiences described in the tracks below.

Track #1: Master's Thesis (Plan A)
Within the 30 hours of 5000-level courses, the Plan A student must complete 4 hours of MATH5960 - Thesis Research. At least 26 hours of 5000-level coursework must be mathcontent courses (not thesis research).

The student must prepare a master's thesis (Plan A) and give an oral defense of the thesis. In the mathematics program, a Plan A thesis reports on the result(s) of independent and original research completed by the student under the direction of a faculty member. The thesis should describe the research and its results and be written to the standards of the appropriate area of mathematics.

**Track #2: Master's Paper (Plan B)**

The student must prepare a master's paper (Plan B) and give an oral defense.

To write a Plan B paper, the student must present an expository paper on a designated mathematical subject. Students are guided by their advisor in the subject matter and in the preparation of the paper. A successful paper and defense demonstrates that the student has mastered a substantial mathematical topic that is beyond those covered in formal foundational coursework.

**Track #3: Coursework/Project (Plan B)**

A second M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper, the student takes a sequence of three 5000-level courses that all address a common mathematical theme. The sequence must be approved by the student's advisor and the mathematics graduate committee. Two of the courses must be mathematics-department offerings, and the third may be either a mathematics course (including reading/topics courses) or a course from another department in a related field.

- The student must complete an additional 6 hours of courses at the 5000 level. Thus, Track #3 requires the completion of 36 hours of graduate-level coursework.
- Within the 36 hours, the student must propose and complete with a grade of B or better an appropriate 3-course sequence
- The student will write a short paper illustrating how the common mathematical theme of the sequence manifests itself in the content of each course and give a presentation/defense of the paper.

In approving the student's proposal for this option, the graduate committee and the advisor will consider how the writing and independent study spirit of the Plan B option are fulfilled within the recommended plan.

**Track #4: Qualifying Exam (Plan B)**

A third M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper or taking additional coursework, the student must take and pass the department's PhD Qualifying Examination in one of the three areas: Analysis, Algebra, or Applied Mathematics. These examinations focus on the material in the required courses.

These examinations are given twice a year at the beginning of the fall and spring semesters. This option is intended for students who will continue for a PhD at UW.

- The oral component of this Track will consist of a defense of the student's written answers to qualifying exam.
- Pass one of the department's qualifying exams in:

**Analysis**

**MATH5200 - Real Variables I**
Develops the theory of measures, measurable functions, integration theory, density and convergence theorems, product measures, decomposition and differentiation of measures, and elements of function analysis on $L^p$ spaces. Lebesgue theory is an important application of this development.

**Prerequisite:** MATH 4200.

**MATH5230 - Complex Variables I**

Credits: 3  
Develops the function theory of holomorphic (analytic) and harmonic functions. Topics covered include the Cauchy-Riemann equations, Cauchy-Goursat theorem, Cauchy integral theorem, Morera's theorem, maximum modulus theorem, Liouville's theorem, power series representation, harmonic functions, theory of singularities of functions of one complex variable, contour integration, analytic continuation, Riemann mapping theorem and topology of spaces of holomorphic functions.

**Prerequisite:** MATH 4200.

**Algebra**

**MATH5500 - Advanced Linear Algebra**

Credits: 3  
An introduction to the theory of abstract vector spaces and linear transformations from an axiomatic point of view, with applications to matrix theory. Topics include vector spaces, dimension, linear transformations, dual spaces and functionals, inner product spaces, and structure theorems.

**Prerequisite:** MATH 3500 and MATH 4500.

**MATH5550 - Abstract Algebra I**

Credits: 3  
Studies the structure of groups, rings, and fields. For each, concepts of substructures, quotient structures, extensions, homomorphism, and isomorphism are discussed.

**Prerequisite:** MATH 3500 or MATH 5500.

**Applied Mathematics**

**MATH5310 - Computational Methods in Applied Sciences I**

Credits: 3  
First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.
Prerequisite: COSC 1010.

**MATH5400 - Methods of Applied Mathematics I**

Credits: 3
First semester of a one-year survey of topics and methods of applied mathematics, with emphasis on applications from physics and engineering. The full sequence includes introductions to mathematical aspects of mechanics (e.g., conservation laws), asymptotic expansions, systems of ODE and stability, integral equations and calculus of variations, PDE with boundary value problems and generalized solutions (including wave, heat, and potential equations), numerical methods and stability.

Prerequisite: MATH 2250, MATH 4200 or 4400, and MATH 2310 or 4430.

**Mathematics, M.S.T.**

Applicants are required to have:

A. A valid teaching endorsement in any state or educational requirements satisfied for secondary teaching;
B. courses equivalent to MATH 3205, MATH 3500, MATH 4000 and MATH 4600;
C. a course in computer programming.

Students who enter the program with a deficiency in the courses listed in (b) must take them at UW, but these courses may not be counted toward the course requirements of the M.S.T./M.A.T. program.

**Mathematics, Ph.D.**

A rigorous PhD program in mathematics, culminating in an original research project. Math PhDs have excellent career prospects in a variety of settings, including academia, industry, research, engineering, economics and government.

**Mathematics PhD Information**

The student must maintain a 3.0 cumulative GPA.

The student must teach two semesters of college mathematics.

The student must complete a combination of 72 hours of coursework and dissertation research. Within the 72 hours, a maximum of 12 hours can be at the 4000 level, and 42 hours must be formal courses at the 5000 level. The courses must be mathematics courses or courses with significant mathematical content, as approved by the department's graduate committee.

**The Student Must Complete**

Within the 42 hours of 5000-level courses, the student must:

- Complete the courses distributed in three areas: algebra, analysis, and applied mathematics. The student must take at least two courses in each of two categories and at least one course from the third category. The department maintains a list of course categories.

**MATH5200 - Real Variables I**
Develops the theory of measures, measurable functions, integration theory, density and convergence theorems, product measures, decomposition and differentiation of measures, and elements of function analysis on Lp spaces. Lebesgue theory is an important application of this development.

Prerequisite: MATH 4200.

**MATH5230 - Complex Variables I**

Credits: 3
Develops the function theory of holomorphic (analytic) and harmonic functions. Topics covered include the Cauchy-Riemann equations, Cauchy-Goursat theorem, Cauchy integral theorem, Morera's theorem, maximum modulus theorem, Liouville's theorem, power series representation, harmonic functions, theory of singularities of functions of one complex variable, contour integration, analytic continuation, Riemann mapping theorem and topology of spaces of holomorphic functions.

Prerequisite: MATH 4200.

**MATH5310 - Computational Methods in Applied Sciences I**

Credits: 3
First semester of a three-semester computational methods series. Review of iterative solutions of linear and nonlinear systems of equations, polynomial interpolation/approximation, numerical integration and differentiation, and basic ideas of Monte Carlo methods. Comparison of numerical techniques for programming time and space requirements, as well as convergence and stability. Identical to COSC 5310.

Prerequisite: COSC 1010.

**MATH5400 - Methods of Applied Mathematics I**

Credits: 3
First semester of a one-year survey of topics and methods of applied mathematics, with emphasis on applications from physics and engineering. The full sequence includes introductions to mathematical aspects of mechanics (e.g., conservation laws), asymptotic expansions, systems of ODE and stability, integral equations and calculus of variations, PDE with boundary value problems and generalized solutions (including wave, heat, and potential equations), numerical methods and stability.

Prerequisite: MATH 2250, MATH 4200 or 4400, and MATH 2310 or 4430.

**MATH5500 - Advanced Linear Algebra**

Credits: 3
An introduction to the theory of abstract vector spaces and linear transformations from an axiomatic point of view, with applications to matrix theory. Topics include vector spaces, dimension, linear transformations, dual spaces and functionals, inner product spaces, and structure theorems.

Prerequisite: MATH 3500 and MATH 4500.
MATH5550 - Abstract Algebra I

Credits: 3
Studies the structure of groups, rings, and fields. For each, concepts of substructures, quotient structures, extensions, homomorphism, and isomorphism are discussed.

Prerequisite: MATH 3500 or MATH 5500.

Take Two Hours of

MATH5800 - Seminar in Mathematics

Credits: 1-3
Max Credit (Max. 8)

Prerequisite: consent of instructor.

In Addition

In addition, the student must:

- Pass the foundation exam, the qualifying exam in the student's research area, and the preliminary exam.
- Write a dissertation containing the student's original mathematical results and present an oral defense of the research.
- Take one hour of the seminar 4970: Professional Development in Mathematics and one hour of the seminar MATH4970 - Professional Development in Teaching.

Statistics Graduate Minor

A graduate minor in statistics can be a great way to signal your interest and skill in data analysis as it relates to your field of study.

Requirements

Twelve hours of STAT courses at the 5XXX-level, with the exception of:

STAT 5000

STAT 5185

STAT4220 - Basic Engineering Statistics

Credits: 3
Introduces probability models, properties of distributions, statistical inference and development of statistical models for physical and engineering sciences. Credit cannot be earned in more than one of the following courses: STAT 2010, STAT 2050, STAT 2070, 4220 and 5000.
Former Course Number [4020]

Prerequisite: MATH 2205, MATH 2355 or equivalent.
   • STAT 5000

Statistics, M.S.

Profile

The Master's Program in Applied Statistics will give the student an extensive and broad background in statistical methods, data analysis, and written and oral presentation skills. This degree is a terminal experience in graduate statistical education and should not be viewed as preparatory for entrance into a Ph.D. program in statistics. Graduates will have the necessary background to work as data management specialists, statistical analysts, and as project managers within a wide range of research organizations.

Plan B (Option 1)

Coursework

In addition to the general requirements of the university all candidates for the MS (Plan B - Option 1) degree must successfully take and complete:

Required: 15 Credit Hours

STAT5210 - Advanced Regression

Credits: 3
Advanced methodologies, with particular focus on concepts and methods related to regression. Topics include generalized linear models, nonlinear regression, elementary linear model theory, and Data Science topics such as resampling inference, ridge regression and the lass, and k-fold cross-validation.

Prerequisite: MATH 4265/STAT 4265/STAT 5265 and STAT 4015/STAT 5015. STAT 4025/STAT 5025 and STAT 4045/STAT 5045 are recommended.

STAT5220 - Advanced Design

Credits: 3
Advanced study of experimental designs, observational designs, and mixed models. Topics include fixed and random effects, factorial, split-plot and repeated measures designs, and hierarchical models. Linear model methodology and Data Science concepts will also be emphasized.

Prerequisite: MATH 5265/STAT 4265/STAT 5265, and at least one of STAT 4015/STAT 5015, STAT 4025/STAT 5025, or STAT 5210.
STAT5470 - Data Analysis

Credits: 3
This course is designed to develop the skill of analyzing data sets using methods of classic statistical analysis, such as analysis of variance, regression, discrete models, descriptive analysis, non-parametrics, and multivariate methods. The focus will be on understanding the various models and methods, computer assisted data analysis, and communication of results (oral and written).

Prerequisite: 12 graduate level hours in statistics (excluding STAT 5000).

STAT5380 - Bayesian Data Analysis

Credits: 3
Bayesian statistical methods for analyzing various kinds of data. Topics include basic Bayesian ideas and model formulation (priors, posteriors, likelihoods), single- and multiple-parameter models, hierarchical models, generalized linear models, multivariate models, survival models and an introduction to computation methods.

Prerequisite: STAT 5255

STAT5660 - Computationally Intensive Methods in Statistics

Credits: 3
Advanced statistical inference often relies on methods which are computationally intensive. The basic methods include Newton-Raphson; the EM algorithm; bootstrap and other resampling procedures; kernel density estimators; Laplace's method, importance sampling and MCMC, and saddlepoint and Edgeworth approximations.

Prerequisite: STAT 5520.

Electives

A minimum of 15 credit hours in other acceptable graduate courses. Acceptable courses include statistics courses numbered 5000 or higher, excepting:

- STAT 5000
- STAT 5050 - Statistical Methods for the Biological Science
- STAT 5060
- STAT 5070 - Statistical Methods for the Social Sciences
- STAT 5080 - Statistical Methods for the Agricultural and Natural Resource Sciences
- STAT 5185 - Analysis of Data

Total Credits: 30 Hours

Graduation Requirements: (1) successful completion of coursework and (2) a data analysis project (Plan B paper).

QuickStart Program
Mathematics Quick Start BS/MS

A five-year combined Master's and Bachelor's degree in mathematics, in which six credits of graduate coursework is counted toward both degrees. UW students must apply to be considered for this degree.

Mathematics Quick Start Information

Overview

The combined BS/MS program in Mathematics is designed to afford highly qualified students in their junior or senior year the opportunity to work towards both the BS and MS degrees in Mathematics. The program allows for advanced students to jump-start the graduate portion of their education by applying credits for graduate courses to both their BS and MS requirements. The MS degree earned under the combined BS/MS program is not a new or separate category of degree. However, through careful planning and coordination, this program can result in a reduction of the time required to complete both the Mathematics, B.S. and Mathematics, M.S. degrees.

Qualification/Admission

Application for admission may be submitted to the department at any time after the student has completed 75 undergraduate credits. Graduate credits may be applied toward the MS under this program upon the completion of 90 undergraduate credits. Additional minimum requirements for admission are:

1. Minimum GPA of 3.25
2. Minimum GPA in undergraduate math courses of 3.5
3. Completion of two transition courses or their equivalents
4. Three letters of recommendation from UW faculty (at least 2 from UW-Math)

Credits

The BS/MS-Math program allows for students under the guidance of their academic advisor to take graduate courses as part of their BS degree. During their senior year, up to six graduate credits (5000+ level) can be counted simultaneously towards both the BS and MS degrees in Mathematics. In principle, this "double dipping" allows students to earn a MS after completing only 144 credits (120 to earn the BS, 6 of which are applied toward the 30 credits required to earn the MS) instead of 150 credits. In addition, students may reserve a further six credits of 5000 level credits for their MS degrees prior to earning their BS; however, these credits will not be counted toward the BS degree.

Satisfactory progress

The department's Foundation Exam must be passed by the beginning of their second semester of their 4th year. Students in the BS/MS program must have a faculty advisor, with whom they consult to complete a program of study. The Program of Study (POS) must be submitted to the Mathematics Graduate Committee for approval by the end of the midterm of the first semester in which the student has been admitted into the program. The POS must include all courses to be taken during their senior year to the end of the students MS program. Any of the tracks (plan A or B) available to our Masters students will be available to students in this program. The advisor will aid the student in determining which track is the best for completion of the Masters.

Regulations

Students in this program will be governed by the regulations applicable to any undergraduate student in Mathematics until the student has completed 120 credit hours applicable to the BS degree in Mathematics. Once those 120 credit hours have been completed, the student will be enrolled as a graduate student and be governed by graduate student
regulations in the Mathematics graduate program. To the extent possible, once the student transitions to being a graduate student, the student should complete the MS degree in 12 months.

**University of Wyoming requirements:**

Students must have a minimum cumulative GPA of 2.0 to graduate.  
- Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming.  
- Courses must be taken for a letter grade unless offered only for S/U.  
- University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

**College of Arts and Sciences requirements:**

Students must take two "core" courses in addition to UW's University Studies Program requirements: Diversity in the United States (ASD) and Global Awareness (ASG).  
- No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation.  
- At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).

**Statistics Quick Start BS/MS**

An advanced degree in Statistics is powerful in its own right; statistical methods are part of the core of data science, so stands as a useful foundation for that as well. The Program in Statistics at the University of Wyoming now offers a QuickStart ("4+1") MS program, within which qualified students can obtain a Statistics, B.S. and a Statistics, M.S. degree in five years.

The program is intended for inspired, high-achieving students; the pace will be intense, as you will need to be taking courses at the graduate level in your undergraduate senior year.

The MS degree requires 30 credits; in order to make the 4+1 program work enrolled students can

1. Have two three-credit 4XXX/5XXX classes count towards both the BS and MS degrees. Enrollment must be for the 5XXX section of the course. Tuition is charged at the undergraduate rate.

2. Reserve two three-credit 4XXX/5XXX classes for graduate credit. Tuition is charged at the undergraduate rate, but these two classes will only count towards the MS.

With these four courses counting towards the MS, there remains 18 credits, which can be done in two semesters of three (three-credit) classes each.

**Steps:**

1. Apply (usually in the Spring of your Junior year) online to the QuickStart- Statistics BS/MS -College of Arts & Science program[1]. You will need (unofficial is fine) college transcripts, a statement of purpose, and three letters of recommendation[2].

2. Once you are enrolled in the program, the Admissions Office will work with you to put into play the double-dip and reserved courses mentioned above.

Acceptance into the MS is conditional until your undergraduate degree is awarded and results are in from your taking the GRE, which we recommend you take in your last undergraduate year.

[1] Instructions from the registrar: Apply at: https://www.uwyo.edu/admissions/apply-online.html
The log-in is different from WyoWeb. If you remember the log-in email/password form when you originally applied to UW, you can use the Returning Users option. Otherwise, use the First Time users option. When you get to the page where you select your program of study, select **QuickStart- Statistics BS/MS - College of Arts & Science.** All the Quickstart program are under Q to (hopefully) reduce confusion for non-quickstart applicants. Any questions during the application process can be directed to admissions@uwyo.edu or 766-5160.

[2] These documents are standard for applying to our graduate program; we anticipate we will have a mix of QuickStart students and regular (i.e. 2-year) MS students who are applying from elsewhere.

**Department of Mechanical Engineering**

**2052 Engineering Building, (307) 766-2122**  
**Web site:** www.uwyo.edu/mechanical  
**E-mail:** me.info@uwyo.edu  
**Department Head:** Erica Belmont

**Professors:**

**Associate Professors:**

**DILPUNEET S. AIDHY,** B.E. Punjab Engineering College 2004; Ph.D. University of Florida 2009; Associate Professor of Mechanical Engineering 2021, 2015.

**ERICA L. BELMONT,** B.S. Tufts University 2004; M.S. 2008; Ph.D. University of Texas at Austin 2014; Associate Professor of Mechanical Engineering 2020, 2014.

**RAY S. FERTIG III,** B.S. University of Wyoming 2001; M.S. 2003; Ph.D. Cornell University 2010; Associate Professor of Mechanical Engineering 2017, 2011.

**MICHAEL STOELLINGER,** M.S. Technical University Munich 2005; Ph.D. University of Wyoming 2010; Associate Professor of Mechanical Engineering 2018, 2012.

**Assistant Professors:**

**MAYSAM MOUSAVIRAAD,** B.S. Sharif University of Technology 2002; M.S. 2004; Ph.D. University of Iowa 2010; Assistant Professor of Mechanical Engineering 2017.

**XIANG ZHANG,** B.S. Northeastern University (China) 2009; M.S. Beihang University (China) 2012; Ph.D. Vanderbilt University 2017; Assistant Professor of Mechanical Engineering 2019.
Instructional Professors:

Lecturers:

KARI STRUBE, BS in Electrical Engineering (bioengineering option), University of Wyoming 2007. MS in Electrical Engineering, University of Wyoming, 2009. Assistant Lecturer, 2021

Professors Emeriti:

Donald F. Adams, Paul A. Dellenback, Bruce R. Dewey, Andrew Hansen, William R. Lindberg, Kynric M. Pell, Ovid A. Plumb, David E. Walrath, Robert A. Wheasler

Mechanical Engineering B.S.

Mechanical Engineering is the broadest area of study in engineering. In contrast to other engineering disciplines, mechanical engineers are employed in significant percentages in almost all industrial and governmental organizations that employ engineers.

The spectrum of activities in which mechanical engineers are engaged continues to expand. The curriculum has in turn become flexible to allow for the education of mechanical engineering students in many diverse and allied areas, or for graduate school preparation.

The educational objectives of the of Mechanical Engineering B.S. program are to prepare students to:

- Successfully practice the profession of engineering.
- Demonstrate career growth (e.g. increasing complexity of job assignment, career promotions, professional registration, patents, publications, and completion of advanced degrees).
- Apply Mechanical Engineering knowledge to find creative solutions to evolving challenges with global, economic, environmental, and societal impacts.
- Successfully serve in a range of leadership and collaborative roles in the profession in the community.
- Exhibit high professional standards and commitment to ethical action.

The undergraduate program includes a foundation in mathematics, science, and engineering sciences. The three key elements of the mechanical engineering undergraduate program include core engineering principles, laboratory experience, and development of communication skills.

The mechanical engineering curriculum affords the student the flexibility to pursue specific professional goals within the discipline. Such an opportunity needs to be carefully considered by each student, so that elective courses are chosen with these goals in mind. During the junior and senior years, the student selects 15 credit hours of technical electives.

Mechanical and Energy Systems Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in Mechanical and/or Energy Systems engineering courses completed at this university. A grade of C or better must be earned in all engineering science (ES) and required mathematics courses.

Mechanical Engineering, B.S.
Energy Systems Engineering B.S.

Energy Systems Engineering (ESE) is an ABET-accredited undergraduate degree offering in the Department of Mechanical Engineering. The ESE program was designed to train engineers to address one of this country's foremost challenges: to achieve energy independence and meet the growing demand for energy, while at the same time addressing critical environmental concerns. The program is intended to help meet these challenges by preparing students to be:

- technology leaders in energy conversion and environmental protection systems
- capable managers in the energy industry
- versatile overseers of energy development by the governmental sector
- technically-trained and environmentally-sensitive liaisons between the energy industry and the public.

ESE students will be trained in alternative and environmentally-friendly energy conversion systems, as well as more traditional technologies that will continue to play an important role for the foreseeable future.

Although the discipline of mechanical engineering has historically been responsible for the design of energy conversion cycles and equipment, issues outside the conventional realms of engineering are increasingly important to address as new and improved energy conversion systems are implemented. The engineer trained in Energy Systems will be better equipped than traditional mechanical engineers to deal with the environmental, legal, political, economic, and permitting aspects of new energy projects.

The educational objectives of the Energy Systems Engineering B.S. program are to prepare students to:

- Successfully practice the profession of engineering.
- Demonstrate career growth (e.g. increasing complexity of job assignment, career promotions, professional registration, patents, publications, and completion of advanced degrees).
- Apply Energy Systems Engineering knowledge to find creative solutions to evolving challenges with global, economic, environmental, and societal impacts.
- Successfully serve in a range of leadership and collaborative roles in the profession in the community.
- Exhibit high professional standards and commitment to ethical action.

The ESE degree has many coursework requirements in common with the Mechanical Engineering degree, particularly in the thermal, fluids, and energy conversion sciences. However, the ESE program emphasizes energy conversion aspects of Mechanical Engineering and requires coursework from UW's School of Environment and Natural Resources (ENR), course work in environmental law, and electives picked from a list of classes that focus attention on energy and the environment. The ENR courses expose students to issues related to permitting such as preparation of environmental impact studies, and related regulations such as the Endangered Species Act. In addition, technical electives allow students to choose more detailed study in personal areas of interest including, for example, courses in environmental engineering, wind engineering, solar engineering, and petroleum engineering.

Mechanical and Energy Systems Engineering degree candidates must meet the academic requirements of the college and in addition must have an average GPA of 2.000 (C) in Mechanical and/or Energy Systems engineering courses completed at this university. A grade of C or better must be earned in all engineering science (ES) and required mathematics courses.

Energy Systems Engineering, B.S.

Concurrent ME/ESE Degrees

In the event that a student desires concurrent majors in ME and ESE, University policy requires that ALL requirements for each program are met. The student must select which will be the primary major.
Graduate Study

The Department of Mechanical Engineering offers graduate study leading to the Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees in Mechanical Engineering. Faculty in Mechanical Engineering conduct research in the areas of aerodynamics, biomaterials, composite materials, computational material science, computational fluid dynamics, combustion, continuum mechanics, heat transfer, materials reliability, mechanical behavior of materials, nanomechanics of surfaces and interfaces, and wind energy.

Department Specific Graduate Admission Requirements

Applicants should possess a Bachelor of Science (B.S.) degree or equivalent in Mechanical Engineering with a minimum GPA of 3.000 on a 4.000 grade scale or equivalent. Students that do not hold B.S.M.E. degrees may qualify as M.S. candidates by completing, without credit, certain prerequisite courses as specified by the Department. These prerequisites would depend upon the candidate's background and upon the area in which he/she plans to specialize.

A minimum composite score of 294 (MS) or 307 (PhD) on the Verbal and Quantitative sections of the GRE is required for admission to the Mechanical Engineering Department. For international students, a minimum TOEFL score of 90 on the Internet-based test (iBT) (or a minimum IELTS score >= 6.5 or a DuoLingo >= 110) is required. If an international applicant wishes to be considered for Graduate Teaching Assistantship funding, the following minimum English Proficiency must be met: OPI >= Advanced Mid, TOEFL Speaking >= 23, IELTS Speaking >= 6.5, DuoLingo Conversation & Production (average) >= 110. If an international applicant wishes to be considered for Graduate Teaching Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (http://www.uwyo.edu/study-iep-esl/grad-ta-support/index.html) if you have questions regarding the English proficiency requirements.

Admittance to the graduate program is competitive, and the average applicant that is accepted with assistantship support will likely have well above the minimum qualifications.

In order to apply, please submit the following via the University of Wyoming's online application system (http://www.uwyo.edu/admissions/apply.html): resume, copy of academic transcript, copy of GRE scores, copies of TOEFL (or IELTS or DuoLingo) scores for international non-native English speaking applicants, three letters of reference, and a Statement of Purpose indicating the applicant’s technical area of interest, abilities, and objectives in completing a graduate degree in mechanical engineering. If you are applying for the BS/MS program, please choose “QuickStart - Mechanical Engineering BS/MS” as the program (no GRE score and Statement of Purpose are needed for the BS/MS application). Applicants to the joint MBA/MS-ME program should chose the MS degree program for the application. To be considered for Assistantships, applications must be submitted before March 15 for the Fall semester or October 15 for the Spring semester.

For Quickstart B.S./M.S. admissions requirement, see degree link below.

Major

Energy Systems Engineering, B.S.

Energy Systems Engineers design, develop, and test energy systems and devices with emphasis on renewables, conversion, and more, and in the context of environmental and legal considerations. The UW BS in Energy Systems Engineering is ABET accredited.
Energy Systems Engineering Success Curriculum

All undergraduate students in the B.S. Mechanical Engineering and B.S. Energy Systems Engineering programs must successfully complete the Mechanical Engineering Success Curriculum prior to enrolling in any upper-division (3000-level or above) courses taught by the Mechanical Engineering Department. The Mechanical Engineering Success Curriculum promotes successful completion of upper-division coursework by assuring a student that their foundational knowledge and skills are strong in mathematics and engineering fundamentals. AP/iB courses are excluded from the GPA calculation, but grades transferred from other institutions will be used in evaluating the ME Success Curriculum GPA.

Successful Completion

To successfully complete the Mechanical Engineering Success Curriculum, a student must earn a minimum 3.000 GPA in the following 10 courses:

**MATH2200 - Calculus I**

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

**MATH2210 - Calculus III**

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

**Prerequisite:** grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

**ES1060 - Introduction to Engineering Problem Solving**
Credits: 3
An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

**Prerequisite:** MATH 2200 or concurrent enrollment.

**ES2110 - Statics**

Credits: 3
Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**ES2120 - Dynamics**

Credits: 3
Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

**Prerequisite:** ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

**ES2210 - Electric Circuit Analysis**

Credits: 3
Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**ES2310 - Thermodynamics I**

Credits: 3
Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.

**Prerequisite:** MATH 2210 and either ES 2120 or PHYS 1210.

**ES2330 - Fluid Dynamics**

Credits: 3
Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

**Prerequisite:** MATH 2210 and either ES 2120 or PHYS 1210.

**ES2410 - Mechanics of Material I**
Mechanics of deformable bodies, including energy methods.

**Prerequisite:** ES 2110 and MATH 2205.

**Policy for Transfer Credit Towards Energy Systems Engineering (ESE) Core Coursework**

In general, transfer of coursework toward an Energy Systems Engineering degree will follow University of Wyoming policy. A course must be shown to be equivalent to its University of Wyoming course (latitude may be given for Energy Systems Engineering electives without a direct University of Wyoming equivalent). However, three courses are considered to be the core of the Energy Systems Engineering program, and therefore credit cannot be transferred from another institution. These courses are ESE 3020, ESE 3040, and ESE 3360. Exceptions may be made for courses from approved study abroad programs or in extreme circumstances. Please note that failing a prerequisite course resulting in a delay of graduation does not constitute an extreme circumstance. Any transfer of ESE courses requires explicit written approval from the Department.

**Energy Systems Engineering Curriculum**

**Atmospheric Science**

**ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate**

Credits: 3
Introduces non-specialists to the fundamental scientific principles governing climate change. The underlying physics of both human and natural contributions to global warming is presented along with uncertainties in predicting climate. Potential strategies to mitigate global warming (alternative energy, carbon capture, and geoengineering) are also discussed.

**Chemistry**

**CHEM1020 - General Chemistry I**

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

*Lab/Lecture Hours* Laboratory and discussion: 3 hours per week.

**Prerequisite:** ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.
Engineering Science

**ES1060 - Introduction to Engineering Problem Solving**

Credits: 3
An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

**Prerequisite:** MATH 2200 or concurrent enrollment.

**ES2110 - Statics**

Credits: 3
Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**ES2120 - Dynamics**

Credits: 3
Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

**Prerequisite:** ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

**ES2210 - Electric Circuit Analysis**

Credits: 3
Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**ES2310 - Thermodynamics I**

Credits: 3
Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.

**Prerequisite:** MATH 2210 and either ES 2120 or PHYS 1210.

**ES2330 - Fluid Dynamics**

Credits: 3
Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.
**Prerequisite:** MATH 2210 an either ES 2120 or PHYS 1210.

**ES2410 - Mechanics of Material I**

Credits: 3  
Mechanics of deformable bodies, including energy methods.

**Prerequisite:** ES 2110 and MATH 2205.

**Environment and Natural Resources**

**ENR3000 - Approaches to ENR Problem Solving**

Credits: 3  
Provides an introduction to environmental and natural resources problem solving and decision making. Students learn how scholars and practitioners define and structure ENR problems for management and policy decision making. Additionally, students learn approaches, processes and techniques that address problems analytically and in a values-oriented context.

**USP 2003-2014 Code U3CS, U3WB**  
**USP 2015 Code U5H**  
**Former Course Number [4000]**

**Prerequisite:** ENR 2000.

**ENR4750 - ENR Law and Policy**

Credits: 3  
Explores the policy underpinnings of environmental and natural resource issues and the legal responses to these problems. Students will gain a basic understanding of: (1) the causes of environmental problems, including energy, water, wildlife, and other western land use issues; (2) the range of policy and instrument choices; and (3) the approaches actually taken in current laws. Students also will apply the law in an interdisciplinary, problem-based learning context.

**Dual Listed** ENR 5750.  
**Prerequisite:** ENR 2000 and upper division standing or permission of instructor.

**ENR4900 - Capstone in ENR**

Credits: 3  
An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.
Dual Listed ENR 5900.
USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: ENR 3000.

Math

MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the
derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math
ACT of 27 or Math SAT of 600.

MATH2205 - Calculus II

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and
applications.

USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and
functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient,
optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical
coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical
models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

Energy System Engineering
ESE3005 - Engineering Experimentation

Credits: 3
A combined lecture/laboratory course introducing students to experimental methods in the context of dynamics. Written technical communication, intermediate structured programming, experimental design, fundamental statistics, and uncertainty methods (numerical and analytical) are emphasized. Collaborative writing and teamwork is introduced.

Cross Listed ME 3005.
Former Course Number [2010; 2020]

Prerequisite: Completion of the ME Success Curriculum, ES 1060; ES 2120.

ESE3020 - System Dynamics

Credits: 3
Theoretical and experimental study of the dynamics of linear and non-linear lumped parameter models of mechanical, electrical, electronic, fluid, thermal and mixed systems.

Cross Listed ME 3020.
Prerequisite: Completion of the ME Success Curriculum, ES 2210 and MATH 2310.

ESE3040 - Thermodynamics II

Credits: 3
Consideration of advanced thermodynamic topics including Maxwell's relations, compressible flow, and combustion. Applications to design of refrigeration cycles, humidification systems, and Rankine cycles.

Cross Listed ME 3040.
Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ESE3060 - Numerical Methods for Engineers

Credits: 3
Numerical solutions of problems commonly encountered in mechanical engineering including differentiation, integration, differential equations, system of linear and nonlinear equations, and optimization. The structured programming approach will be emphasized and applications from solid mechanics, thermal fluid sciences, materials science, and dynamic systems will be covered.

Cross Listed ME 3060.
Prerequisite: Completion of the ME Success Curriculum, ES 1060 and corequisite of MATH 2310.

ESE3160 - Thermal/Fluid Science Lab

Credits: 3
A laboratory course to introduce students to experimental methods for temperature measure and pressure/flow characteristics of fluids. Continuation of experience with communication (written, oral, and digital), intermediate
programming, experimental design, data analysis, and teamwork skills is emphasized.

Cross Listed ME 3160.
Former Course Number [2140; 2160]

Prerequisite: Completion of the ME Success Curriculum, ES 2330; ME 3005/ESE 3005.

ESE3360 - Fundamentals of Transport Phenomena

Credits: 3
Basic concepts of heat and mass transfer and their applications to problems involving engineering analysis and design. Topics include steady-state and transient conduction, free and forced convection (heat and mass), radiation and heat exchangers.

Cross Listed ME 3360/ARE 3360.
Prerequisite: Completion of the ME Success Curriculum, MATH 2310, ES 2310 and ES 2330.

ESE4060 - Energy Systems Design I

Credits: 3
First of a two-course design sequence constituting a capstone design experience on an energy-related project. Multidisciplinary teams prepare a project proposal or Statement of Qualifications, generate a morphological study of their project, develop mathematical models of their design, and prepare project plans and specifications. Project management and methods are also presented.

USP 2015 Code U5C3
Prerequisite: Completion of the ME Success Curriculum, ESE 3040 and ESE 3360.

ESE4070 - Energy Systems Design II

Credits: 3
Continuation of a two-course design sequence. The design teams refine their designs, fabricate the project, test the project for compliance with the design specifications, write a comprehensive engineering design report including socioeconomic factors, and prepare and deliver a presentation of the project in a public forum.

USP 2003-2014 Code U3WC
Prerequisite: Completion of the ME Success Curriculum, ME 4060/ESE 4060 and WB.

Life Sciences

LIFE1010 - General Biology

Credits: 4
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get
duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN
Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

Physics

PHYS1220 - Engineering Physics II

Credits: 4
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

Electives

- One Math/Science Elective (min 3 CH total, select from department-approved list)
- One Business Elective (min 3 CH, select from department-approved list)
(See here for Math, Science and Business Elective options: me_math_science_business_electives_2022_02_04.pdf (uwyo.edu)

ESE Electives

Two ESE Electives (min 6 CH total) choose 2 from:

ECON1300 - Oil: Business, Culture, and Power

Credits: 3
A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ERS 1300.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

ENR2000 - Environment and Society
Credits: 3
Develops understanding of the nature and dimensions of environmental and natural resource issues. Explores ways in which elements of society approach, evaluate, and develop positions relative to environmental issues. Uses case studies to illustrate the contemporary and historical role of individuals and societies in identifying and addressing environmental issues at scales ranging from local to global.

USP 2003-2014 Code U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG

POLS4051 - Environmental Politics

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.
Dual Listed POLS 5051.
USP 2003-2014 Code U3WC
Former Course Number [4050]

Prerequisite: POLS 1000.

POLS4350 - Sustainable Development and Global Policy

Credits: 3
Considers in-depth meaning of "sustainable development" and trade-offs necessary to achieve it. Considers this issue from global perspective through application of theories in economics, political science, international relations, technology studies and ethics.

Dual Listed POLS 5350.
Prerequisite: Consent of instructor. POLS 2310 strongly recommended.

GEOL3500 - Global Change: A Geological Perspective

Credits: 4
Considers the geochemical and geophysical systems that control the Earth's climate, the geological and historical record of climate change, and then discusses the possible effect that human activities will have upon these chemical and geophysical systems.

Prerequisite: junior standing and an introductory class in the physical sciences.

GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge
Examines the energy needs of a modern industrialized society. Looks at the types of energy, the natural laws that govern its use, transformation, and conservation. The different sources of energy available to modern societies are examined. Examination includes fossil fuels, nuclear power as well as alternative energy sources. The formation of the resource is discussed, how it is extracted, and any environmental consequences associated with its extraction and use.

USP 2003-2014 Code U3G, U3SE
USP 2015 Code U5PN
Prerequisite: completion of USP QA and L.

**PETE4000 - Environment, Technology and Society**

Credits: 3
Explores relationships among technology, the environment and society. Studies social and humanistic aspects of using current and future technology to understand and solve environmental problems.

Cross Listed CHE 4000.
Prerequisite: junior standing and completion of two lab sciences.

**ENR4890 - Topics in Environment and Natural Resources**

Credits: 1-6
Max Credit (Max. 12)

Special topics in environment and natural resources are offered under this number. The specific subject matter varies each year because the course is normally taught by faculty who wish to present a specialized topic of interest to ENR and other students. Check class schedule for specific topics offered each year.

Dual Listed ENR 5890.
Former Course Number [4990]

Prerequisite: ENR 3000 or permission of the instructor.

Technical Electives

Five Technical Electives (min 15 CH). Choose 5 from:

**ARE4430 - HVAC Systems Analysis and Design**

Credits: 3
Engineering design and performance analysis procedures for commercial building mechanical systems including energy conservation techniques. Relationship to aesthetic, architectural and structural elements are considered.

Cross Listed ME 4430.
When Offered (Normally offered alternate spring semesters)
Former Course Number [ARE 3420, ARE 4810]
Prerequisite: Completion of the ME Success Curriculum, ARE 3400 and ARE 3360/ME 3360 or concurrent.

ARE4740 - Mechanical Systems Design Project

Credits: 3
Final course in the building mechanical systems sequence incorporating elements of previous design courses by executing design of a hypothetical building with a concentration on a detailed design of the project's mechanical systems.

Cross Listed ARE/ME 4740
Prerequisite: ARE/CE 3110 and ARE 3400

CE3400 - Introduction to Environmental Engineering

Credits: 3
An introduction to the major topics in environmental engineering. Focus areas include water supply, wastewater treatment, air pollution control and solid and hazardous waste management. Quantitative aspects and engineering solutions to problems are emphasized.

Prerequisite: MATH 2205 and CHEM 1020 or equivalent.

CE4430 - Green Chemistry and Global Environmental Problems

Credits: 3
Focus includes study of the chemistry of air, water, and soil as well as the effects of anthropogenic activities on natural processes. Emphasis is also placed on sustainability and green chemistry practices and technologies.

Cross Listed CHE 4430 /ENR 4430.
Former Course Number [3420, 2420]

Prerequisite: CHEM 1020.

ES2800 - Physical Computing

Credits: 3
Emphasizes implementing python programs on the Raspberry Pi and then interfacing with power stages, mobile platforms, sensors and input/output devices. The goal is designing systems that sense the world, make decisions based on those sensations.

Prerequisite: EE 1101 or ES 2210 or concurrent enrollment in ES2210 or Consent of the Instructor

ESE4455 - Combustion Engineering

Credits: 3
The basic physics and chemistry of combustion engineering and its applications are covered, including
thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems. Cross-listed with ME 4455 and dual-listed with ME 5455.

Prerequisite: Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

ESE4461 - Computational Fluid Dynamics I

Credits: 3
Max Credit 3

An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

Cross Listed ME 4461
Dual Listed ME 5461

GEOL4190 - Petroleum Geology

Credits: 3
Prerequisite: GEOL 2005 or PETE 2050.

ME3400 - Heating, Ventilating and Air Conditioning of Buildings

Credits: 3
Qualitative and quantitative study in concepts of basic air-conditioning with focus on buildings including building envelope, moist air thermodynamics, human comfort, thermal load calculations, thermal behavior of buildings, HVAC systems/equipment, and design of space air-conditioning and its relationship to architectural design.

Cross Listed ARE 3400
Prerequisite: ES 2310, ARE 2410 or ME 3360, ES 2330 or concurrent enrollment.

ME3450 - Properties of Materials

Credits: 3
Mechanical, electrical, thermal and chemical properties of materials. Theoretical treatment of structure of solids and design for specified properties.

When Offered (Normally offered spring semester)
Former Course Number [ES 3450]
Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ME4470 - Wind and Ocean Energy Engineering

Credits: 3
Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

Cross Listed ESE 4470
Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

ME4460 - Solar and Geothermal Engineering

Credits: 3
An introduction to the engineering of solarpowered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ESE 4460
Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

ME4340 - Gas Turbine Engines

Credits: 3
Thermodynamic analysis and design of ground-based and aero-propulsion gas turbine engines.

Prerequisite: Completion of the ME Success Curriculum, ES 2310 and ES 2330.

PETE2050 - Fundamentals of Petroleum Engineering

Credits: 3
General introduction to petroleum engineering, including petroleum geology, exploration, reservoir rocks, and fluid flow through porous media, drilling fundamentals, completion technology, well logging and testing, methods of production, stimulation methods, enhanced oil recovery, reserves and economics.

Prerequisite: grade of C or better in both MATH 2205 and PETE 1060.

Universities Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar
Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**
Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students’ major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Notes:**

i. Before enrolling in any upper division ESE or ME course, students must complete the ME Success Curriculum (minimum 3.000 GPA in MATH 2200, MATH 2250, MATH 2210, and the seven ES courses).

ii. Graduates must meet all college requirements and earn a minimum GPA of 2.000 in ME and ESE courses taken at UW. A minimum of 48 hours of upper division coursework are required, so ESE, business, and technical electives should be chosen appropriately.

**Program Educational Objectives**

- Successfully practice the profession of engineering
- Demonstrate career growth (e.g., increasing complexity of job assignment, career promotions, professional registration, patents, publications, and completion of advanced degrees)
- Apply energy systems engineering knowledge to find creative solutions to evolving challenges with global, economic, environmental, and societal impacts
- Successfully serve in a range of leadership and collaborative roles in the profession and in the community
- Exhibit high professional standards and commitment to ethical action

**Energy Systems Student Outcomes**

The Department's Student Outcomes are:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics

2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors
3. An ability to communicate effectively with a range of audiences

4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts

5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions

7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

**Mechanical Engineering, B.S.**

Mechanical Engineers design, develop, build, and test mechanical and thermal systems and devices in a wide range of fields including energy, manufacturing, materials, machines, and more. The UW BS in Mechanical Engineering is ABET accredited.

**Mechanical Engineering Success Curriculum**

All undergraduate students in the B.S. Mechanical Engineering and B.S. Energy Systems Engineering programs must successfully complete the Mechanical Engineering Success Curriculum prior to enrolling in any upper-division (3000-level or above) courses taught by the Mechanical Engineering Department. The Mechanical Engineering Success Curriculum promotes successful completion of upper-division coursework by assuring a student that their foundational knowledge and skills are strong in mathematics and engineering fundamentals. AP/iB courses are excluded from the GPA calculation, but grades transferred from other institutions will be used in evaluating the ME Success Curriculum GPA.

**Successful Completion**

To successfully complete the Mechanical Engineering Success Curriculum, a student must earn a minimum 3.000 GPA in the following 10 courses:

**MATH2200 - Calculus I**

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**
Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

ES1060 - Introduction to Engineering Problem Solving

Credits: 3
An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

Prerequisite: MATH 2200 or concurrent enrollment.

ES2110 - Statics

Credits: 3
Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics

Credits: 3
Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2210 - Electric Circuit Analysis

Credits: 3
Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.
Prerequisite: MATH 2205 or concurrent enrollment.

**ES2310 - Thermodynamics I**

Credits: 3
Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

**ES2330 - Fluid Dynamics**

Credits: 3
Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

Prerequisite: MATH 2210 an either ES 2120 or PHYS 1210.

**ES2410 - Mechanics of Material I**

Credits: 3
Mechanics of deformable bodies, including energy methods.

Prerequisite: ES 2110 and MATH 2205.

**Policy for Transfer Credit Towards Mechanical Engineering (ME) Core Coursework**

In general, transfer of coursework towards a Mechanical Engineering degree will follow University of Wyoming policy. A course must be shown to be equivalent to its University of Wyoming course (latitude may be given for Mechanical Engineering electives without a direct University of Wyoming equivalent). However, six courses are considered to be the core of the Mechanical Engineering program, and therefore credit cannot be transferred from another institution. These courses are ME 3010, ME 3020, ME 3040, ME 3170, ME 3360, and ME 3450. Exceptions may be made for courses from approved study abroad programs or in extreme circumstances. Please note that failing a prerequisite course resulting in a delay of graduation does not constitute an extreme circumstance. Any transfer of ME courses requires explicit written approval from the Department.

**Mechanical Engineering Curriculum**

**Chemistry**

**CHEM1020 - General Chemistry I**

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM
Lab/Lecture Hours Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3S
USP 2015 Code U5PN

**Prerequisite:** ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

**Engineering Science**

**ES1060 - Introduction to Engineering Problem Solving**

Credits: 3
An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

**Prerequisite:** MATH 2200 or concurrent enrollment.

**ES2110 - Statics**

Credits: 3
Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**ES2120 - Dynamics**

Credits: 3
Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

**Prerequisite:** ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

**ES2210 - Electric Circuit Analysis**

Credits: 3
Basic concepts of electric circuit theory, dependent sources, network theorems, first and second order circuits, phasors, three-phase circuits. Laboratory.

**Prerequisite:** MATH 2205 or concurrent enrollment.

**ES2310 - Thermodynamics I**

Credits: 3
Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.
Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

**ES2330 - Fluid Dynamics**

Credits: 3
Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

Prerequisite: MATH 2210 and either ES 2120 or PHYS 1210.

**ES2410 - Mechanics of Material I**

Credits: 3
Mechanics of deformable bodies, including energy methods.

Prerequisite: ES 2110 and MATH 2205.

**ES2800 - Physical Computing**

Credits: 3
Emphasizes implementing python programs on the Raspberry Pi and then interfacing with power stages, mobile platforms, sensors and input/output devices. The goal is designing systems that sense the world, make decisions based on those sensations.

Prerequisite: EE 1101 or ES 2210 or concurrent enrollment in ES2210 or Consent of the Instructor.

**Math**

**MATH2200 - Calculus I**

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**MATH2205 - Calculus II**

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.
Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

Mechanical Engineering

ME3005 - Engineering Experimentation

Credits: 3
A combined lecture/laboratory course introducing students to experimental methods in the context of dynamics. Written technical communication, intermediate structured programming, experimental design, fundamental statistics, and uncertainty methods (numerical and analytical) are emphasized. Collaborative writing and teamwork is introduced.

Cross Listed ESE 3005
Former Course Number [2010; 2020]

Prerequisite: Completion of the ME Success Curriculum, ES 1060, ES 2120.

ME3010 - Intermediate Mechanics of Materials

Credits: 3
Expansion of the principles of solid mechanics: stress, strain, principal stresses, elastic and plastic behavior, failure theories and the use of energy methods. Analysis and design of thick-walled pressure vessels, noncircular cross sections under torsion, nonsymmetric beams under bending and curved beams.

Prerequisite: Completion of the ME Success Curriculum, ES 2410.

ME3020 - System Dynamics
Credits: 3
Theoretical and experimental study of the dynamics of linear and non-linear lumped parameter models of mechanical, electrical, electronic, fluid, thermal and mixed systems.

Cross Listed ESE 3020
Prerequisite: Completion of the ME Success Curriculum, ES 2210 and MATH 2310.

ME3040 - Thermodynamics II

Credits: 3
Consideration of advanced thermodynamic topics including Maxwell's relations, compressible flow, and combustion. Applications to design of refrigeration cycles, humidification systems, and Rankine cycles.

Cross Listed ESE 3040
Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

ME3060 - Numerical Methods for Engineers

Credits: 3
Numerical solutions of problems commonly encountered in mechanical engineering including differentiation, integration, differential equations, system of linear and nonlinear equations, and optimization. The structured programming approach will be emphasized and applications from solid mechanics, thermal fluid sciences, materials science, and dynamic systems will be covered.

Cross Listed ESE 3060
Prerequisite: Completion of the ME Success Curriculum, ES 1060, and MATH 2310 or concurrent enrollment.

ME3160 - Thermal/Fluid Science Lab

Credits: 3
A laboratory course to introduce students to experimental methods for temperature measure and pressure/flow characteristics of fluids. Continuation of experience with communication (written, oral, and digital), intermediate programming, experimental design, data analysis, and teamwork skills is emphasized.

Cross Listed ESE 3160
Former Course Number [2140; 2160]

Prerequisite: Completion of the ME Success Curriculum, ES 2330; ME 3005/ESE 3005.

ME3170 - Machine Design

Credits: 3
Application of engineering mechanics and materials science to the analysis and design of mechanical components such as bolted connections, springs, gears, bearings and shafts. Design for dynamic loading conditions. Principles of hydrodynamic lubrication. Introduction to computer-aided design. Case studies with appropriate topics.
**Prerequisite:** Completion of the ME Success Curriculum, ES 2410.

**ME3360 - Fundamentals of Transport Phenomena**

Credits: 3  
Basic concepts of heat and mass transfer and their applications to problems involving engineering analysis and design. Topics include steady-state and transient conduction, free and forced convection (heat and mass), radiation and heat exchangers.

**Cross Listed** ARE 3360/ESE 3360  
**Prerequisite:** Completion of the ME Success Curriculum, MATH 2310, ES 2310, and ES 2330.

**ME3450 - Properties of Materials**

Credits: 3  
Mechanical, electrical, thermal and chemical properties of materials. Theoretical treatment of structure of solids and design for specified properties.

**When Offered** (Normally offered spring semester)  
**Former Course Number** [ES 3450]

**Prerequisite:** Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

**ME4060 - Systems Design I**

Credits: 3  
First of a two-course design sequence constituting a capstone design experience. Student multidisciplinary teams prepare a project proposal or SOQ, generate a morphological study of their project and prepare project plans and specifications. Project management methods are also presented.

**USP 2015 Code U5C3**  
**Former Course Number** [3070]

**Prerequisite:** Completion of the ME Success Curriculum, ME 3010 (or concurrent enrollment), ME 3170, and ME 3360/ESE 3360/ARE 3360.

**ME4070 - Systems Design II**

Credits: 3  
Continuation of a two-course design sequence. The design teams refine their designs, fabricate the project, test the project for compliance with the design specifications, write a comprehensive engineering design report including socioeconomic factors, and prepare and deliver a presentation of the project in a public forum.

**USP 2003-2014 Code U3WC**  
**Prerequisite:** Completion of the ME Success Curriculum, ME 4060/ESE 4060 and WB.
ME4150 - Mechanical Behavior of Materials

Credits: 3
Commonly encountered phenomenological and mechanistic behaviors that lead to mechanical failure are examined. Understanding the origin of mechanical failure of components allows for robust design of mechanical systems. Metallic, polymeric, and ceramic materials are covered.

Prerequisite: Completion of the ME Success Curriculum, ME 3450.

Physics

PHYS1220 - Engineering Physics II

Credits: 4
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

PHYS2310 - Physics III: Waves and Optics

Credits: 4
Third-semester course primarily for majors in physics, astronomy, engineering, mathematics, and other sciences. Includes Gaussian Optics and matrix calculations, wave equations, interference, superposition principle, elementary Fourier Analysis, Fraunhofer and Fresnel Diffraction, application to optical instruments.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

OR

PHYS2320 - Physics IV: Modern Physics

Credits: 3
Fourth semester course primarily for majors in physics, astronomy, engineering, mathematics, and other physical sciences. Topics include introductory quantum mechanics, nuclear and particle physics, lasers, Planck's Blackbody Radiation, photoelectric effect, electron diffraction, wave-particle duality, deBroglie Wavelength, Bohr Atom, Heisenberg Uncertainty Principle, Schrodinger Equation, and Einstein's Special Theory of Relativity.

Prerequisite: PHYS 1220 or PHYS 1320 or equivalent.

OR

CHEM1030 - General Chemistry II

Credits: 4
Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and
organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN

**Prerequisite:** CHEM 1020.

**Electives**

- Four ME Electives (min 12 CH total, any upper division ME course or EE 4620)
- Two Math/Science Electives (min 6 CH total, select from department-approved list)
- One Business Elective (min 3 CH, select from department-approved list)
- One Technical Elective (min 3 CH, any engineering, math/science or business course approved by the ME Dept)

(See here for Math, Science and Business Elective options: me_math_science_business_electives_2022_02_04.pdf (uwyo.edu))

**EE4620 - Automatic Control Systems**

Credits: 3

**Prerequisite:** EE 2220 or ME 3020.

**ME4010 - Mechanical Vibrations**

Credits: 3
The theory of single and multi-degree-of-freedom systems with an introduction to continuous systems. Determination of equations of motion, including natural frequency for free vibration and amplitude of forced vibration. Design of discrete and continuous systems for transient and harmonic excitations.

**When Offered** (Normally offered fall semester)

**Prerequisite:** Completion of the ME Success Curriculum, ES 2120, ES 2410, and MATH 2310.

**ME4020 - Design of Mechanical/Electronic Systems**

Credits: 3
Theoretical and experimental study of sensors and actuators, interfacing sensors and actuators to a microcomputer, discrete and continuous controller design, analog and digital electronics, and real-time programming for control.

**Prerequisite:** Completion of the ME Success Curriculum, ME 3020.

**ME4040 - Introduction to Finite Elements**
An introduction to the theory and application of finite elements to the solution of various problems with emphasis on structural mechanics. The course includes development of the underlying matrix equations, the treatment of element generation and properties, and implementation of boundary conditions.

**Dual Listed** ME 5040.

**Prerequisite:** Completion of the ME Success Curriculum, MATH 2310 and (CE 4200/ARE 4200 or MATH 2250 or ME 3010 or ME 3060).

**ME4100 - Manufacturing Processes**

Credits: 3
Details of manufacturing processes used in production of metal, plastic and ceramic components with an emphasis on science and mechanics of processes.

**Prerequisite:** Completion of the ME Success Curriculum, ME 3010 and ME 3450.

**ME4200 - Thermo/Kinetics of Materials**

Credits: 3
Introduction to the foundations of thermodynamics and kinetics of materials, including Gibbs free energy, ideal solutions, alloy ordering, phase diagrams, atomistic mechanisms of diffusion, interfaces and microstructure, grain growth, solidification, and diffusional and diffusionless transformation in solids.

**Dual Listed** ME 5200.

**Prerequisite:** ME 3450

**ME4210 - Introduction to Composite Materials**

Credits: 3
Applications, mechanical properties and fabrication of fiber reinforced composite materials; stress analysis of laminated, anisotropic composite structures; study of special problems unique to composites.

**Prerequisite:** Completion of the ME Success Curriculum, ME 3010.

**ME4215 - Composite Materials Design and Manufacturing**

Credits: 3
Introduction to composite material manufacturing processes. Aspects of constituent material production, as well as design, fabrication, and testing of composite materials. Laboratory exercises, such as laminating, filament winding, pultrusion and compression molding.

**Prerequisite:** Completion of the ME Success Curriculum, ME 4210.

**ME4240 - Gas Dynamics I**
Credits: 3
Thermodynamics of a compressible fluid; one-dimensional isentropic flow, normal and oblique shocks, expansion wave, flows with friction and heat transfer.

**Prerequisite:** Completion of the ME Success Curriculum, ES 2310 and ES 2330.

**ME4340 - Gas Turbine Engines**

Credits: 3
Thermodynamic analysis and design of ground-based and aero-propulsion gas turbine engines.

**Prerequisite:** Completion of the ME Success Curriculum, ES 2310 and ES 2330.

**ME4350 - Airplane Aerodynamics and Flight**

Credits: 3
Introduces students to the fundamentals of airfoil and wing design, airplane aerodynamics, and airplane stability. Links these fundamental ideas to the design and performance of real aircraft.

**Prerequisite:** Completion of the ME Success Curriculum, ES 2330.

**ME4430 - HVAC Systems Analysis and Design**

Credits: 3
Engineering design and performance analysis procedures for commercial building mechanical systems including energy conservation techniques. Relationship to aesthetic, architectural and structural elements are considered.

**Cross Listed** ARE 4430
**Prerequisite:** ARE 3400/ME 3400 and ARE 3360/ME 3360 or concurrent.

**ME4450 - Principles of Materials Selection**

Credits: 3
A review of the economic and engineering aspects of materials selection. A detailed study of the properties, applications and limitations of engineering materials systems. Emphasis is on metal alloy systems, but non-metallics are included. Forming and joining processes are outlined.

**Former Course Number** [3110]

**Prerequisite:** Completion of the ME Success Curriculum, ME 3450

**ME4455 - Combustion Engineering**

Credits: 3
The basic physics and chemistry of combustion engineering and its applications are covered, including
thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems.

**Dual Listed** ESE 4455  
**Prerequisite/Corequisite:** Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

**ME4460 - Solar and Geothermal Engineering**

Credits: 3  
An introduction to the engineering of solar powered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

**Cross Listed** ESE 4460  
**Prerequisite:** Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

**ME4461 - Computational Fluid Dynamics I**

Credits: 3  
Max Credit 3  
An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

**Cross Listed** Cross-list with ME 4461  
**Dual Listed** dual list with ME 5461  
**Prerequisite:** ME Success Curriculum; ME/ESE 3060 - Numerical Methods; ME/ESE 3360 - Transport Phenomena

**ME4470 - Wind and Ocean Energy Engineering**

Credits: 3  
Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

**Cross Listed** ESE 4470  
**Prerequisite:** Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

**Universities Studies Program Requirements**

The University Studies Program 2015

**FYS-First Year - Seminar**
Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**
Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3  

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3  

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Notes:**

i. Before enrolling in any upper division ESE or ME course, students must complete the ME Success Curriculum (minimum 3.000 GPA in MATH 2200, MATH 2250, MATH 2210, and the seven ES courses).

ii. ES 2800 is NOT a part of the MESC

iii. Graduates must meet all college requirements and earn a minimum GPA of 2.000 in ME and ESE courses taken at UW. A minimum of 48 hours of upper division coursework are required, so ME, business, and technical electives should be chosen appropriately.

**Mechanical Engineering Program Educational Objectives**

- Successfully practice the profession of engineering
- Demonstrate career growth (e.g. increasing complexity of job assignment, career promotions, professional registration, patents, publications, and completion of advanced degrees).
- Apply Mechanical Engineering knowledge to find creative solutions to evolving challenges with global, economic, environmental, and societal impacts.
- Successfully serve in a range of leadership and collaborative roles in the profession in the community.
- Exhibit high professional standards and commitment to ethical action.

**Mechanical Engineering Program Student Outcomes**

The Department's Student Outcomes are:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics

2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors

3. An ability to communicate effectively with a range of audiences
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts

5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions

7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Graduate

Mechanical Engineering, M.S.

The UW Mechanical Engineering MS program offers two options: thesis (Plan A) or non-thesis (Plan B). Both tracks offer opportunities to take graduate coursework in topics of thermal fluids, materials, experimentation, computational tools, and more.

Program Specific Degree Requirements

Plan A (Thesis)

A thesis project is chosen in consultation with an ME faculty member, and constitutes 4 credit hours of ME 5960 in the 30-hour Plan A program. ME 5478 (Seminar) is to be taken during the final semester when the thesis is presented and defended, and constitutes 2 credit hours of the 30-hour Plan A program. Classes must meet the following constraints:

- ME courses (5000-level): minimum of 15 hours
- A maximum of 9 credits at the 4000 level outside of ME may be taken
- Thesis research (ME 5960): 4 credit hours
- Seminar (ME 5478): 2 credit hours
- Total: Minimum of 30 CH.

Courses outside of ME must be chosen with the approval of the academic adviser. They can be in mathematics, statistics, science, or other engineering disciplines. Up to two courses may be from the fields of business, ENR, or public policy. Special topic credits may be earned using ME 5475 (maximum of 6 credits). Research credits earned through ME 5960 as part of an unfinished M.S. Plan A program may not be

Plan B (Non-Thesis)

The Plan B M.S. degree can be completed by earning a minimum of 31 credits beyond the baccalaureate degree. Classes must meet the following constraints:

- ME courses (5000-level): minimum of 15 hours
- A maximum of 9 credits at the 4000 level outside of ME may be taken
- Graduate Project (ME 5961): minimum of 1 hour
- Total: minimum of 31 hours

Courses outside of ME must be chosen with the approval of the academic adviser. They can be in mathematics, statistics, science, or other engineering disciplines. Special topic credits may be earned using ME 5475 (maximum of 6 credits).
counted. Although the Plan B M.S. degree is not research-oriented, the program must contain an "element of discovery," documented by completing ME 5961 (Graduate Project). This could be a special project performed as independent study or as part of a graduate course.

**MS-ME/MBA Dual Program**

The UW Mechanical Engineering MS/MBA program offers the opportunity to pursue MS and MBA degrees simultaneously and reduce course requirements by applying course credit towards both degrees. There are thesis and non-thesis options for the MS degree.

**MS-ME/MBA Program Requirements**

The MS-ME component is typically a non-thesis option. An additional 21 credits in engineering, science or mathematics must be earned beyond the BS degree. At least 15 credits of graduate course work must be at the 5000-level from ME. The following MBA courses will be counted towards the MS-ME degree and constitute 9 credit hours of the 30 hours MS-ME program.

Choose two of the following courses:

**MBAM5103 - Business Research Methods**

Credits: 3
An overview of the scientific research process applied in the context of business. Topics include problem definition, selection of a methodological approach, design and implementation of field work (qualitative and survey methods), analysis techniques (thematic analysis for qualitative research and statistical analysis for survey research, and communicating results.

**Prerequisite:** Admission to the MBAM program.

**MBAM5202 - Data and Decision Modeling**

Credits: 3
This course will prepare students to use computer-based models for solving problems in the areas of operations, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analytics including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

**Prerequisite:** Admission to the MBAM program.

**MBAM5301 - MBA Summer Project**

Credits: 3
Serves as an externship for individual MBA students or MBA teams to work with a client on a business issue under the supervision of a qualified faculty member in the College of Business.

**Prerequisite:** Completion of the first-year (Fall & Spring semester) on campus MBA courses.

**MBAM5501 - Energy Economics and Policy**
Applies the tools of economic analysis to attain understanding of energy markets and energy policy analysis. Sec. 1 Overviews major energy and environmental policy issues facing the United States and the world. Sec 2 Determinants of energy demand. Sec. 3 Technologies and costs to produce and deliver energy. Sec. 4 Determinants of energy price.

**Prerequisite:** Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

**MBAM5503 - Fundamentals of Accounting in the Energy Industry**

Credits: 3
Introduces students to basic financial accounting and reporting issues related to energy producing activities. Specifically, the course will investigate current accounting practices of energy producing companies related to exploration, acquisition, development, and delivery of energy products. The course will also cover financial requirements of the Financial Accounting Standards Board (FASB), the International Accounting Standards Board (IASB), and the Securities and Exchange Commission (SEC).

**Cross Listed** ACCT 5503.

**Prerequisite:** Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

**MBAM5506 - Energy Finance: Securities, Hedging, and Trading**

Credits: 3
Overview of security analysis applied to energy firms, hedging strategies, and trading activities in energy markets. Trading activities covered include the use of forward and futures contracts, swaps, options, and related derivatives.

**Prerequisite:** Permission of MBA Program Director.

**MBAM5508 - Marketing and Sustainable Consumption**

Credits: 3
Focuses on understanding household and business energy consumption. Emphasizes the environmental, economic, social and psychological influences on consumer decision making and sustainable consumption. Course deals with developing customer value propositions, and for marketing strategy development in branding, product-line offerings, pricing, retailing and distribution, and public policy.

**Prerequisite:** Permission of MBA Program Director, or student's graduate program coordinator in consultation with MBA Program Director.

**MGT5504 - Energy Industry Value Chain**

Credits: 3
Examines the overall energy industry with detailed exploration of the major energy subsectors and supply chains. Students will develop knowledge of the energy industry value chain including coverage of market dynamics, prevalent strategies, finance, operations, externalities and network effects, environmental and ethical considerations, and associated policy issues.
**Restricted** Admitted to CERT-MBAE or MBA-MBA.

**Prerequisite:** Admission to the MBA or Energy Business certificate program, or permission of the MBA Program Director

**Required course:**

**MBAM5305 - Strategic Management**

Credits: 3

Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations.

**Prerequisite:** Admission to the MBAM program. #304.

**MS-ME/MBA Thesis Option**

For a thesis option, students will only count one MBAM course from the above list and are required to complete 4 credits of ME 5960 and 2 credits for ME 5478, similar to the Plan A option.

**Mechanical Engineering Graduate Level Courses**

**ME5040 - Introduction to Finite Element Analysis**

Credits: 3

An introduction to the theory and application of finite elements to the solution of various problems with emphasis on structural mechanics. Includes development of the underlying matrix equations, the treatment of element generation and properties, and implementation of boundary conditions.

**Dual Listed** ME 4040

**Prerequisite:** MATH 2310 and (CE 4200 or ARE 4200 or ME 3010)

**ME5045 - Advanced Finite Element Analysis**

Credits: 3

Advanced topics in finite element analysis with emphasis on mathematical foundations of the method, numerical algorithms for software implementation, and analysis of problems with material and geometric nonlinear behavior.

**Cross Listed** CE 5045

**Prerequisite:** ME 4040 or ME 5040 or CE 5040.

**ME5200 - Thermo/Kinetics of Materials**
Credits: 3
Introduction to the foundations of thermodynamics and kinetics of materials, including Gibbs free energy, ideal solutions, alloy ordering, phase diagrams, atomistic mechanisms of diffusion, interfaces and microstructure, grain growth, solidification, and diffusional and diffusionless transformation in solids.

**Dual Listed** ME 4200
**Prerequisite:** ME 3450

**ME5432 - Advanced Materials Science**

Credits: 3
An analysis of the relationships between the structures of materials and their mechanical and physical properties, leading to the application of these relationships to the design of materials for advanced engineering systems. Topics include crystallography, lattice defects, transport phenomena, phase transformations, fracture, environmental effects, and control of microstructure by processing.

**Prerequisite:** ME 3450

**ME5434 - Computational Materials Science**

Credits: 3
Fundamentals of quantum and statistical physics with application to modeling and simulation of engineering materials at the atomic scale. Course includes simulation of structural and mechanical properties of nanostructured materials.

**Prerequisite:** graduate standing.

**ME5435 - Failure of Engineering Materials**

Credits: 3
Fundamentals of quantum and statistical physics with application to modeling and simulation of engineering materials at the atomic scale. Course includes simulation of structural and mechanical properties of nanostructured materials.

**Prerequisite:** ME 3450 or equivalent.

**ME5438 - Plasticity and Viscoelasticity**

Credits: 3
Analysis of stress and deformation of idealized plastic and viscoelastic solids. Limit theorems in plasticity. Time-dependent behavior of viscoelastic materials.

**Prerequisite:** ME 5472 or equivalent.

**ME5440 - Fluid Mechanics**

Credits: 3
Lagrangian and Eulerian descriptions, conservation laws, stress and rate-of-stress tensors, Navier-Stokes equations,
energy equations, vorticity and circulation inviscid and potential flows, laminar flows, turbulent flows, boundary-layer theory.

Cross Listed CHE 5440.

**ME5442 - Advanced Fluid Mechanics**

Credits: 3
Introduction to inviscid and viscous hydrodynamic stability; closure in turbulent flows; vorticity and vortex dynamics, theoretical aerodynamics, numerical simulations of viscous flows, experimental methods in fluid flows.

Prerequisite: ME 5440.

**ME5446 - Turbulence**

Credits: 3
Basic notions, properties and scales in turbulent flows. Transport equations; Reynolds's stresses, mixing and phenomenological theories. Turbulence dynamics; mean and fluctuating kinetic energy balances, vorticity and temperature fluctuations. Statistical description of turbulence; correlations and spectra, transport, isotropy and homogeneity. Shear flows; plane jets, wakes and boundary layers (including planetary). Turbulent diffusion.

Cross Listed CHE 5446.
Prerequisite: ME 5440.

**ME5448 - Experimental Fluid Dynamics.**

Credits: 3
Provides an introduction to the design of fluid dynamics experiments. Specific instrumentation will be discussed and methods of analyzing and assessing data will be presented.

Prerequisite: graduate standing.

**ME5452 - Convection Heat Transfer**

Credits: 3
Convection, including heat and momentum transfer. Boundary layer theory. Laminar and turbulent flows, steady and unsteady formulations including differential and integral descriptions. High velocity, compressible systems.

Cross Listed CHE 5452.
Prerequisite: ES 3360 or consent of instructor.

**ME5461 - Computational Fluid Dynamics I**

Credits: 3
An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical
stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

Cross Listed Dual list with ME 4461 and ESE 4461

Prerequisite: graduate standing

ME5462 - Computational Fluid Dynamics II

Credits: 3
A study of advanced techniques in modern-day scientific computing as applied to Computational Fluid Dynamics. These include unstructured mesh generation using Delaunay triangulation, searching and sorting techniques, and efficient data structures. Other topics cover efficient hardware implementation including cache-effects and parallel computing and sensitivity analysis for design optimization.

Prerequisite: ME 5461

ME5472 - Continuum Mechanics

Credits: 3
The basic laws of the physical behavior of continuous media. Stress and deformation at a point; fundamental equations of balance of mass, momentum, and energy; second law of thermodynamics; curvilinear coordinate analysis. Applications to linear elasticity and fluid mechanics.

Prerequisite: graduate standing.

ME5478 - Seminar in Mechanical Engineer

Credits: 2
Prerequisite: graduate standing in engineering.

ME5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

ME5961 - Graduate Projects

Credits: 1-4
Max Credit (Max. 4)

Limited to those students enrolled in a Plan B graduate program. Students should be involved in non-course scholarly
activities in support of their Plan B project. Prerequisites: enrollment in Plan B program and have departmental approval.

**ME5980 - Dissertation Research**

Credits: 1-12  
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

**Prerequisite:** enrollment in a graduate level degree program.

**Mechanical Engineering, Ph.D.**

The UW Mechanical Engineering PhD program includes coursework and a substantial research component. Research is performed with an advisor, and a dissertation is produced. Program requirements include Qualifying, Preliminary, and Final Examinations.

**Program Requirements**

For students of outstanding academic ability and with demonstrated capacity for undertaking independent research on advanced engineering problems, the Ph.D. program in mechanical engineering is offered. The Ph.D. requires a minimum of 72 graduate hours, at least 42 of which must be earned in formal coursework. In addition to coursework requirements, graduate students pursuing a Ph.D. in Mechanical Engineering must complete three examinations: Qualifying, Preliminary, and Final.

Classes must meet the following constraints:

- A minimum of 24 in-resident coursework hours is required
- ME courses (5000-level): minimum of 15 hours
- A maximum of 9 credits at the 4000 level outside of ME may be taken

All graduate students in Mechanical Engineering are expected to follow the graduate education policies of the College of Engineering and Applied Sciences.

**Qualifying Exam**

In consultation with their advisor, students are allowed to take the Qualifying Exam after declaring pursuit of a Ph.D. degree. Graduate students do not require a M.S. to take the Qualifying Exam. The format is a knowledge-based examination consisting of three subject areas, each with both a written and an oral component. The candidate will be evaluated for each subject area, based on the cumulative performance in both (written and oral) components. Should the student fail a single subject area, at the discretion of the committee, they may repeat the failed portion at the next available opportunity. A third attempt is not permitted. The successful completion of the Qualifying Exam is required before the Preliminary Exam.

**Preliminary & Final Exam**

The purpose of the Preliminary Exam is to evaluate the aptitude of the Ph.D. candidate to perform research based on preliminary results, and to assess the student's plan for completing the research necessary for the Final Exam. The
Preliminary Exam follows university regulations and, at a minimum, consists of a seminar attended by the student's committee members.

The purpose of the Final Exam is to ensure the Ph.D. candidate has sufficient accomplishments to be awarded a Ph.D. The Final Exam consists of an oral defense of the dissertation in accordance with university policy.

Mechanical Engineering Graduate Level Courses

**ME5045 - Advanced Finite Element Analysis**

Credits: 3  
Advanced topics in finite element analysis with emphasis on mathematical foundations of the method, numerical algorithms for software implementation, and analysis of problems with material and geometric nonlinear behavior.

Cross Listed CE 5045  
Prerequisite: ME 4040 or ME 5040 or CE 5040.

**ME5040 - Introduction to Finite Element Analysis**

Credits: 3  
An introduction to the theory and application of finite elements to the solution of various problems with emphasis on structural mechanics. Includes development of the underlying matrix equations, the treatment of element generation and properties, and implementation of boundary conditions.

Dual Listed ME 4040  
Prerequisite: MATH 2310 and (CE 4200 or ARE 4200 or ME 3010)

**ME5200 - Thermo/Kinetics of Materials**

Credits: 3  
Introduction to the foundations of thermodynamics and kinetics of materials, including Gibbs free energy, ideal solutions, alloy ordering, phase diagrams, atomistic mechanisms of diffusion, interfaces and microstructure, grain growth, solidification, and diffusional and diffusionless transformation in solids.

Dual Listed ME 4200  
Prerequisite: ME 3450

**ME5432 - Advanced Materials Science**

Credits: 3  
An analysis of the relationships between the structures of materials and their mechanical and physical properties, leading to the application of these relationships to the design of materials for advanced engineering systems. Topics include crystallography, lattice defects, transport phenomena, phase transformations, fracture, environmental effects, and control of microstructure by processing.

Prerequisite: ME 3450
ME5434 - Computational Materials Science

Credits: 3
Fundamentals of quantum and statistical physics with application to modeling and simulation of engineering materials at the atomic scale. Course includes simulation of structural and mechanical properties of nanostructured materials.

Prerequisite: graduate standing.

ME5435 - Failure of Engineering Materials

Credits: 3
Fundamentals of quantum and statistical physics with application to modeling and simulation of engineering materials at the atomic scale. Course includes simulation of structural and mechanical properties of nanostructured materials.

Prerequisite: ME 3450 or equivalent.

ME5438 - Plasticity and Viscoelasticity

Credits: 3
Analysis of stress and deformation of idealized plastic and viscoelastic solids. Limit theorems in plasticity. Time-dependent behavior of viscoelastic materials.

Prerequisite: ME 5472 or equivalent.

ME5440 - Fluid Mechanics

Credits: 3
Lagrangian and Eulerian descriptions, conservation laws, stress and rate-of-stress tensors, Navier-Stokes equations, energy equations, vorticity and circulation inviscid and potential flows, laminar flows, turbulent flows, boundary-layer theory.

Cross Listed CHE 5440.

ME5442 - Advanced Fluid Mechanics

Credits: 3
Introduction to inviscid and viscous hydrodynamic stability; closure in turbulent flows; vorticity and vortex dynamics, theoretical aerodynamics, numerical simulations of viscous flows, experimental methods in fluid flows.

Prerequisite: ME 5440.

ME5446 - Turbulence

Credits: 3
Basic notions, properties and scales in turbulent flows. Transport equations; Reynold's stresses, mixing and phenomenological theories. Turbulence dynamics; mean and fluctuating kinetic energy balances, vorticity and
temperature fluctuations. Statistical description of turbulence; correlations and spectra, transport, isotropy and homogeneity. Shear flows; plane jets, wakes and boundary layers (including planetary). Turbulent diffusion.

**Cross Listed** CHE 5446.

**Prerequisite:** ME 5440.

**ME5448 - Experimental Fluid Dynamics.**

Credits: 3
Provides an introduction to the design of fluid dynamics experiments. Specific instrumentation will be discussed and methods of analyzing and assessing data will be presented.

**Prerequisite:** graduate standing.

**ME5452 - Convection Heat Transfer**

Credits: 3
Convection, including heat and momentum transfer. Boundary layer theory. Laminar and turbulent flows, steady and unsteady formulations including differential and integral descriptions. High velocity, compressible systems.

**Cross Listed** CHE 5452.

**Prerequisite:** ES 3360 or consent of instructor.

**ME5455 - Combustion Engineering**

Credits: 3
The basic physics and chemistry of combustion engineering and its applications are covered, including thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems.

**Dual Listed** ME 4455 ESE 4455

**Prerequisite:** Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

**ME5461 - Computational Fluid Dynamics I**

Credits: 3
An introduction to the fundamental techniques, theory, and application of computational fluid dynamics. Topics include the process for practical CFD problem solving using a commercial CFD software, discretization methods, numerical stability, consistency and convergence, solution techniques (explicit and implicit methods), and verification and validation procedures.

**Cross Listed** Dual list with ME 4461 and ESE 4461

**Prerequisite:** graduate standing

**ME5462 - Computational Fluid Dynamics II**
Credits: 3
A study of advanced techniques in modern-day scientific computing as applied to Computational Fluid Dynamics. These include unstructured mesh generation using Delaunay triangulation, searching and sorting techniques, and efficient data structures. Other topics cover efficient hardware implementation including cache-effects and parallel computing and sensitivity analysis for design optimization.

Prerequisite: ME 5461

ME5472 - Continuum Mechanics

Credits: 3
The basic laws of the physical behavior of continuous media. Stress and deformation at a point; fundamental equations of balance of mass, momentum, and energy; second law of thermodynamics; curvilinear coordinate analysis. Applications to linear elasticity and fluid mechanics.

Prerequisite: graduate standing.

ME5474 - Energy Methods

Credits: 3
Introduction to variational calculus with applications in solid mechanics. The basic theorems of virtual work, minimum potential energy, and complementary energy are developed. Direct methods such as Castigliano's theorem as well as the approximate methods of Ritz and Galerkin are developed and used to obtain solutions for a variety of problems in solid mechanics.

Prerequisite: ME 3010

ME5478 - Seminar in Mechanical Engineer

Credits: 2
Prerequisite: graduate standing in engineering.

ME5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

Prerequisite: enrollment in a graduate level degree program.

QuickStart Program

Mechanical Engineering Quick Start, B.S./M.S.
The UW Mechanical Engineering BS/MS QuickStart program offers Mechanical Engineering and Energy Systems Engineering undergraduate students the opportunity to start on MS graduate coursework early and gain credit towards BS and MS degree requirements.

Requirements for Admission

Through judicious choice of undergraduate electives, this program allows double-counting up to two 5000-level courses from the B.S. program toward M.S. degree requirements, thus reducing the time requirement for completing an M.S. degree. Students can apply for admission to the B.S./M.S. program by achieving junior status and meeting the following requirements for admission:

- completion of the four core ME courses (listed below),
- a minimum overall GPA of 3.250,
- a minimum GPA of 3.250 in ME courses, and
- a minimum of three letters of recommendation (at least two must be from ME faculty at UW).

Core Mechanical Engineering Courses

Completion of the following four ME courses is required for admission.

**ME3010 - Intermediate Mechanics of Materials**

Credits: 3
Expansion of the principles of solid mechanics: stress, strain, principal stresses, elastic and plastic behavior, failure theories and the use of energy methods. Analysis and design of thick-walled pressure vessels, noncircular cross sections under torsion, nonsymmetric beams under bending and curved beams.

**Prerequisite:** Completion of the ME Success Curriculum, ES 2410.

**ME3020 - System Dynamics**

Credits: 3
Theoretical and experimental study of the dynamics of linear and non-linear lumped parameter models of mechanical, electrical, electronic, fluid, thermal and mixed systems.

**Cross Listed** ESE 3020
**Prerequisite:** Completion of the ME Success Curriculum, ES 2210 and MATH 2310.

**ME3040 - Thermodynamics II**

Credits: 3
Consideration of advanced thermodynamic topics including Maxwell's relations, compressible flow, and combustion. Applications to design of refrigeration cycles, humidification systems, and Rankine cycles.

**Cross Listed** ESE 3040
**Prerequisite:** Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.
ME3360 - Fundamentals of Transport Phenomena

Credits: 3
Basic concepts of heat and mass transfer and their applications to problems involving engineering analysis and design. Topics include steady-state and transient conduction, free and forced convection (heat and mass), radiation and heat exchangers.

Cross Listed ARE 3360/ESE 3360
Prerequisite: Completion of the ME Success Curriculum, MATH 2310, ES 2310, and ES 2330.

Additional Information

Students must maintain a GPA of at least 3.250 in their undergraduate and at least 3.000 in their graduate coursework in order to remain in good standing in the program. Not meeting the GPA requirement places a student on probation for one semester. If the GPA requirement is not met after that semester, the student will be dismissed from the Quick Start program. Transfer students must have taken courses equivalent to the ME core courses. Transfer students must have also completed at least 15 credit hours of courses at UW in order to be eligible for admission.

Until a student in this program has completed a total of 131 credit hours of courses applicable to the B.S. degree in Mechanical Engineering, or a total of 129 credit hours of courses applicable to the B.S. degree in Energy Systems Engineering, he/she will be governed by the regulations applicable to undergraduate students in the Department. After a student has accumulated a total of 131 or 129 applicable credit hours, he/she will be governed by the regulations applicable to any graduate student in the ME department. These regulations include the requirement that every student must take the GRE general examination. It is the intention of the department that, to the degree possible, a student in this program is treated on the same basis as any other student in the department at a comparable stage of his/her academic career.

As many as 6 credit hours of ME department courses at the 5000 level may be counted towards both the undergraduate degree requirements and the requirements for the MS degree. In principle, therefore, the minimum number of course credit hours required for the BS/MS degrees will be 151 for Plan A students (+ 4 additional hours of thesis research) or 156 for Plan B students (non-thesis option).

Department of Petroleum Engineering

4015 Engineering Building, (307) 766-4258
Web site: www.uwyo.edu/petroleum
Department Head: Dennis Coon, Ph.D., Interim

Professors:

HERTANTO ADIDHARMA, B.Sc. Institute of Technology, Surabaya 1987; Ph.D. Louisiana State University 1999; Professor of Chemical Engineering 2019.

MAOHONG FAN, B.S. Wuhan University of Science and Engineering 1984; M.S. Beijing University of Science and Tech. 1992; Ph.D. Chinese Academy of Sciences 1997; Ph.D. Iowa State University 2000; Ph.D. Osaka University 2003; Professor of Chemical Engineering 2014.

Associate Professors:

PEJMAN TAHMASEB, B.S. Sahand University of Technology 2007; M.Sc. Amirkabir University 2009; Ph.D. University of Southern California/Amirkabir University 2012; Associate Professor of Petroleum Engineering 2021.

MORTEZA DEJAM, B.Sc. Petroleum University of Technology 2007; M.Sc. Sharif University of Technology 2009; Ph.D. University of Calgary 2016; Associate Professor of Petroleum Engineering 2022.

SOHEIL SARAJI, B.S. Petroleum University of Technology 2004; M.Sc. Sharif University of Technology 2007; Ph.D. University of Wyoming 2013; Associate Professor of Petroleum Engineering 2022.

Academic Professionals:

TAWFIK ELSHEHABI, B.Sc. Suez Canal University 2003; M.Sc. 2007; Ph.D. West Virginia University 2017; Senior Lecturer of Petroleum Engineering 2019.

Instructional Professors:

REZA TAHERI, B.Sc. Amirkabir University 1997; M.S. University of Twente, Netherlands 2001; Ph.D. Curtin University 2008; Assistant Instructional Professor of Petroleum Engineering 2020.

Professors of Practice:

DOUGLAS CUTHBERTSON, B.S. University of Wyoming 1985; Professor of Practice in Petroleum Engineering 2016.

BRIAN TOELLE, B.S. Texas A&M University 1978; M.S. Austin State University 1981; Ph.D. West Virginia University 2013; Professor of Practice in Petroleum Engineering 2015.

Professors Emeriti:

Jack Evers
H. Gordon Harris
Norman R. Morrow
Mrityunjai P. Sharma
Brian Towler

Petroleum Engineering trains students for Wyoming’s largest industries, the production of crude oil and gas. With the recognition of the state's and nation's vast reserves of natural gas, the curriculum emphasizes the production and
processing of this important resource. Because of American predominance in petroleum technology, career opportunities are available throughout most of the world.

The curriculum in petroleum engineering is based upon sound preparation in fundamental sciences, mathematics, physics, chemistry, and geology. The essentials of engineering are added to this foundation: computer programming, statics, dynamics, materials science, hydraulics, and thermodynamics. To aid in developing individuals' social potential and broaden their educational background, an integrated program in humanities and social sciences is included in the curriculum. Petroleum engineering courses, which are primarily concerned with application of previously acquired knowledge to problems of the oil and gas industry, are concentrated in the junior and senior years.

Petroleum Engineering degree candidates must meet the academic requirements of the college and must have a GPA of 2.000 or greater in Petroleum Engineering (PETE) courses attempted at UW that are applied toward graduation for the B.S. degree from the department. For approved electives, students must have prior approval of their advisor and department head. Elective courses must be chosen from a list provided by the department. Students must complete a minimum of 48 upper division (junior/senior) or graduate-level credit hours for this program.

Program Vision

As a highly respected community of scholars and practitioners, we are committed to providing outstanding petroleum engineering education, conducting internationally recognized research in key focus areas, and improving the well-being of the people of Wyoming and the world through education, technical innovation and economic development.

Program Mission

Provide outstanding, contemporary, ABET-accredited education in petroleum engineering to highly qualified undergraduates who will serve as an economic resource for Wyoming and the world.

Provide excellent, research-based graduate educations at the master's and doctoral levels in petroleum engineering to top students who will drive technical and economic innovation for Wyoming and the world.

Conduct internationally recognized research in key focus areas that leads to new technologies while also enhancing economic development for Wyoming and the world.

Program Educational Objectives

Three to six years after graduation, graduates who choose to practice in Petroleum Engineering should:

- (PETE-OB1) Successfully practice the profession/field of petroleum engineering or related discipline.
- (PETE-OB2) Demonstrate successful career accomplishment and civic engagement.

Program Outcomes

During the course of study in Petroleum Engineering, the student should develop:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
3. An ability to communicate effectively with a range of audiences.
4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts.

5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions.

7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

*Undergraduate "Major Only" Courses*

Upper division PETE core courses are restricted to petroleum engineering majors only.

*Technical Electives Policy*

The technical electives in the petroleum engineering curriculum can be used to complete a curriculum emphasis option or a minor. The number of credits of upper division courses must be satisfied, therefore, 13 elective credits must be 3000-level courses or higher.

Note: Technical Electives must be selected with your advisor's documented approval.

*Transfer Credit Limit*

To graduate with a degree in Petroleum Engineering from UW, students must successfully complete at least 20 credit hours of required PETE courses at UW.

1. Once a student has transferred to UW's Department of Petroleum Engineering from another institution, they may transfer no more than 9 additional credits from other institutions.
2. Non-transfer students may transfer up to 18 credits from other institutions.

*Repeating a Course*

Students who fail a PETE class three times can no longer enroll in that class.

*Academic Suspension*

Students who have been academically suspended from UW twice are no longer eligible to enroll in PETE courses.

*Curriculum Emphases*

The Department of Petroleum Engineering has established curriculum emphases that could shape your interest further or acquire useful transferable skills. A curriculum emphasis is not a minor or concentration and will not be stated on your diploma. If you choose to follow a curriculum emphasis option, you should discuss it with your academic advisor so they can assist you in planning your courses.

Petroleum Engineering offers the following curriculum emphasis options:

- Unconventional Reservoirs
- Chemical Engineering
- Mechanical Engineering
Graduate School Preparation

BS/MS Quick Start Program

The BS/MS Quick Start program in Petroleum Engineering (PETE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their Bachelor of Science (B.S.) degree in Petroleum Engineering. These students may apply for admission to the Quick Start program during the first or second semester of their junior year or before starting their senior year.

This program allows for early planning of the graduate portion of a student's education and provides more flexibility in the number of required courses and the order in which they are taken. The more efficient and better planned use of time should result in reduction of the time required for obtaining the Master of Science in Petroleum Engineering degree. Students who enter the Quick Start program must accept primary responsibility for actively planning their Programs of Study to assure timely completion of their course work and research programs.

The Quick Start program contains two essential elements:

1. Qualified students may receive provisional admission to the Petroleum Engineering graduate program by submitting a quick start application through the online graduate application system. This provisional admission will permit students to make their long-term educational plans earlier in their studies and before graduating the B.S. program, thus providing enhanced opportunities for course selection and involvement in research.
2. Students in the program may apply up to 6 credit hours of graduate-level courses toward both the B.S. and M.S. degree programs. By successfully completing up to 6 credit hours of graduate classes during their senior year, these students will have demonstrated their ability to do graduate-level course work as undergraduates, easing their transition to the Petroleum Engineering graduate program.

For additional information, visit our website for admissions information http://www.uwyo.edu/petroleum/undergraduate/current-students/quickstart.html or contact our graduate admissions coordinator at pete-info@uwyo.edu.

Graduate Study

The Department of Petroleum Engineering offers graduate programs leading to the M.S. and Ph.D. degrees in petroleum engineering. The M.S. degree is offered with Plan A and Plan B options.

In addition, the Department offers an M.B.A./M.S. in Petroleum Engineering Dual Degree Program, in conjunction with the College of Business M.B.A. Program. Students pursuing this option must apply to and be offered admission from both programs.

Admission Process and Requirements

Graduate admission is open to students with at least a B.S. degree in petroleum engineering or closely related field and who meet the minimum requirements as shown below. Please note that test scores must be dated within the previous two years to be considered valid.

- A GPA of 3.000, or equivalent;
- A GRE score;
- A TOEFL score of 600 (paper-based), 250 (computer-based), or 80 (Internet based) or an IELTS score of 6.5 in each category for international applicants. We are also accepting the DuoLingo exam with a minimum score of 110 required.

Applications must include the following documents uploaded with the online application:

1. Complete official transcripts of all prior college-level coursework,
2. Current resume or curriculum vitae,
3. Recommendations from at least three academic or professional references,
4. A statement of purpose, and
5. Unofficial test score certificates for both GRE and English proficiency exams.

Applications will not be reviewed or accepted until all required documents have been submitted.

The deadlines to submit applications are February 1 each year (to be considered for Fall semester), and September 15 each year (to be considered for Spring semester).

For additional information, visit our website for admissions information http://www.uwyo.edu/petroleum/graduate/prospective/index.html or contact our graduate admissions coordinator at pete-info@uwyo.edu.

Graduate Courses of Study

Incoming graduate students, not preselected by a faculty member, must meet with Petroleum faculty members to obtain information regarding research areas and current availability. The student must formally request a Petroleum faculty member of their choosing to oversee their degree study program.

Masters Program

1. All Petroleum M.S. students with a B.S. in Petroleum Engineering from an accredited program must take the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Hrs.</th>
</tr>
</thead>
<tbody>
<tr>
<td>PETE 5355</td>
<td>3</td>
</tr>
<tr>
<td>PETE 5890</td>
<td>2</td>
</tr>
</tbody>
</table>

At least three Core Courses from the following:

| PETE 5010             | 3    |
| PETE 5020             | 3    |
| PETE 5060             | 3    |
| PETE 5080             | 3    |
| PETE 5310             | 3    |
| PETE 5350             | 3    |

Plan A Thesis Additional Course Requirements:

- 4000-level or above approved electives...........12
- PETE 5960..............................................4

Total Credits 30

Plan B Non-Thesis Additional Course Requirements:

- 4000-level or above approved electives...........14
- PETE 5970..............................................2

Total Credits 30

2. All Petroleum M.S. students with a B.S. in Chemical or Mechanical Engineering from an accredited program must take the following courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Hrs.</th>
</tr>
</thead>
<tbody>
<tr>
<td>PETE 5055</td>

<td>2</td>
</tr>
</tbody>
</table>

At least four Core Courses from the following:

PETE 5010.................................3
PETE 5020.................................3
PETE 5060.................................3
PETE 5080.................................3
PETE 5310.................................3
PETE 5350.................................3

Plan A Thesis Additional Course

Requirements:
4000-level or above approved electives........3
M.B.A. approved electives:
MBAM 5XXX, MBAM 5301, MBAM 5305............9
PETE 5960...........................................4

Total Credits 42

Plan B Non-Thesis Additional Course

Requirements:
4000-level or above approved electives........5
M.B.A. approved electives:
MBAM 5XXX, MBAM 5301, MBAM 5305............9
PETE 5970...........................................2

Total Credits 42

Note: For a student with a B.S. in another discipline, upon acceptance into the M.S. program, the Graduate Program Committee will develop a plan of study with the consent of the advisor.

Doctoral Program

1. All Petroleum Ph.D. students with a B.S. in Petroleum Engineering must take the following required courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Hrs.</th>
</tr>
</thead>
<tbody>
<tr>
<td>PETE 5090 ...........</td>
<td>3</td>
</tr>
<tr>
<td>PETE 5355 ...........</td>
<td>3</td>
</tr>
<tr>
<td>PETE 5890 ...........</td>
<td>3</td>
</tr>
</tbody>
</table>

At least four Core Courses* from the following:

PETE 5010.................................3
PETE 5020...................................................3  
PETE 5060...................................................3  
PETE 5080...................................................3  
PETE 5255...................................................3  
PETE 5310...................................................3  
PETE 5350...................................................3  

Electives**  
4000-level or above approved electives........18  

Research  
PETE 5980...................................................30  

Total Credits 72

2. All Petroleum Ph.D. students with an B.S. in Other Majors must take the following required courses:

<table>
<thead>
<tr>
<th>Required Courses</th>
<th>Hrs.</th>
</tr>
</thead>
<tbody>
<tr>
<td>PETE 5090</td>
<td>3</td>
</tr>
<tr>
<td>PETE 5355</td>
<td>3</td>
</tr>
<tr>
<td>PETE 5890</td>
<td>6</td>
</tr>
</tbody>
</table>

At least five Core Courses* from the following:  
PETE 5010...................................................3  
PETE 5020...................................................3  
PETE 5060...................................................3  
PETE 5080...................................................3  
PETE 5255...................................................3  
PETE 5310...................................................3  
PETE 5350...................................................3  

Electives**  
4000-level or above approved electives........15  

Research  
PETE 5980...................................................30  

Total Credits 72

*Transferable from MS degree if applicable.  
**Up to 14 credits of electives transferable from MS degree if applicable.

Graduate Seminar Requirements

All petroleum engineering graduate students must enroll in PETE 5890, Petroleum Engineering Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Graduate students enrolled in continuous registration are exempt from having to enroll in PETE 5890 in their final semester.

Graduate Teaching Requirement

All Petroleum Engineering graduate students must complete at least one semester as a teaching assistant within the Petroleum Engineering curriculum. Students receiving a state-funded graduate assistantship will be required to serve as a teaching assistant every semester of their award. Students funded by any source other than state funds will work with their supervisor or faculty mentor to determine an appropriate time to complete this requirement.
**Program of Study Requirement**

All Petroleum Engineering graduate students must complete their Program of Study worksheet at the beginning of their second academic year of study or 3rd semester of enrollment, and PhD students must submit it prior to their preliminary examination.

**Ph.D. Preliminary Examination**

Candidacy in the doctorate occurs upon certification of successful completion of the preliminary examination. The preliminary examination will be held at least 15 weeks prior to the final examination. The preliminary examination may not be given before: (a) the research tool requirements, if any, have been met and certification approved; (b) at least 30 hours of coursework have been completed; and (c) the doctoral program of study has been approved.

The goal of the preliminary exam is for the student to present the research proposition that is being investigated and will lead to the final dissertation, and demonstrate progress to-date. The preliminary exam consists of three components:

- a written document provided to each member of the student's graduate committee at least three weeks prior to the oral presentation;
- a public oral presentation; and
- a private examination by the student's graduate committee immediately following the oral presentation.

The written document may be in any format but must concisely provide a survey of the relevant literature, a summary of the student's progress to-date, and a clear, detailed plan for the successful completion of the proposed work. The preliminary exam oral presentation should be consistent with the written document. It should provide an appropriate literature background, demonstrate proficiency with proposed experimental/computational techniques, identify details of the experiments to be performed, and provide a timeline to final defense.

The student's committee will pass or fail the student on the strength of the preliminary examination, with an option to conditionally pass the student while requiring an interim committee meeting prior to the final Ph.D. examination. The Report on Preliminary Examination for Admission to Candidacy form sent to the Office of the Registrar reports the results of the examination.

**M.S. and Ph.D. Final Examination (Thesis or Dissertation Defense)**

All M.S. and Ph.D. students must orally defend their final report, thesis, or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public defense in oral presentation format. At least three weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis or dissertation and provide the department an announcement of their defense for public advertisement. The results of the defense are reported by the committee on the Report of Final Examination form. Often, graduate committee members request changes in the final thesis or dissertation, and they may postpone signing this form until they are satisfied that those changes have been made.

**Publication of Thesis or Dissertation**

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Registrar's web site. This copy will be rejected if the format standards specified by the Thesis or Dissertation Format Guide are not met. This guide allows for a publication-ready format. An electronic copy must also be submitted to the department for the departmental library. Most students will want copies for their own use. Students should consult with their chair to determine if they also want a copy of the final paper or other research documentation.
**Major**

**Petroleum Engineering, B.S.**

Petroleum engineers combine fundamentals of science & math with computer programming, materials science, fluid mechanics and thermodynamics to develop and apply new technology to recover hydrocarbons from conventional and unconventional reservoirs.

**University Studies Program Requirements**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**H- - Human Culture (1)**

Credits: 3
Max Credit 3
Approved coursework does not include courses taken within the student's major department.
H - Human Culture (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

Q - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

V - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Undergraduate Curriculum

*Course meets USP requirement.

Applies to all undergraduate PETE programs.

CHEM1020 - General Chemistry I

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.
Lab/Lecture Hours Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3S
USP 2015 Code U5PN
Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

CHEM1030 - General Chemistry II
Credits: 4
Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: CHEM 1020.

CHEM2300 - Introductory Organic Chemistry
Credits: 4
Terminal course in organic and beginning biological chemistry. No credit will be allowed in CHEM 2300 if credit earned in CHEM 2420. This course is not an acceptable prerequisite for CHEM 2440.

When Offered (Normally offered spring semester)
Prerequisite: CHEM 1020, CHEM 1050, CHEM 1000 or equivalent.

ES2110 - Statics
Credits: 3
Vector statics of particles and rigid bodies, including equilibrium in two and three dimensions, center of gravity, centroids, distributed loads, truss analysis, simple structures and machines, friction, and internal actions.

Prerequisite: MATH 2205 or concurrent enrollment.

ES2120 - Dynamics
Credits: 3
Vector dynamics of particles and rigid bodies, including impulse-momentum and work-energy.

Prerequisite: ES 2110 and MATH 2205; PHYS 1210 or concurrent enrollment.

ES2310 - Thermodynamics I
Credits: 3
Macroscopic systems involving energy and its various forms. Fundamental concepts including energy, mass and entropy balances. Pure substances and availability. Reversible and irreversible processes.
**ES2330 - Fluid Dynamics**

Credits: 3  
Incompressible flow of ideal and real fluids. Potential and stream functions; similitude and dimensional analysis.

**Prerequisite:** MATH 2210 and either ES 2120 or PHYS 1210.

**ES2410 - Mechanics of Material I**

Credits: 3  
Mechanics of deformable bodies, including energy methods.

**Prerequisite:** MATH 2210 and either ES 2120 or PHYS 1210.

**GEOL1100 - Physical Geology**

Credits: 4  
Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

**GEOL4190 - Petroleum Geology**

Credits: 3  
Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

**Dual Listed** GEOL 5190.  
**Prerequisite:** GEOL 2005 or PETE 2050.  
- GEOL Technical Elective Credits: 3

**MATH2200 - Calculus I**

Credits: 4  
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.
MATH2205 - Calculus II

Credits: 4
Continues MATH 2200. Includes elementary functions, derivatives, integrals, analytical geometry, infinite series and applications.

USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 2200 or Advanced Placement credit in MATH 2200.

MATH2210 - Calculus III

Credits: 4
Applies calculus to situations described by more than one variable. Includes vectors, multivariable equations and functions, parameterization of curves and surfaces, partial derivatives, directional derivatives, the gradient, optimization methods, integration over curves and surfaces using Cartesian, polar, cylindrical, and spherical coordinates, vector fields, and Green's, Stokes's, and the Divergence Theorems.

Prerequisite: grade of C or better in MATH 2205 or Advanced Placement credit in MATH 2205.

MATH2310 - Applied Differential Equations I

Credits: 3
Includes solution of ordinary differential equations, integral transforms. Emphasizes construction of mathematical models arising in physical science and other areas.

Prerequisite: grade of C or better in MATH 2205.

PHYS1220 - Engineering Physics II

Credits: 4
Follows PHYS 1210 and continues introduction to physics with calculus for engineering students. Includes electricity, magnetism and heat. Laboratories illustrate principles studied. Students receiving credit for PHYS 1220 cannot receive credit for PHYS 1050, 1120, or 1320.

USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: grades of C or higher in MATH 2200, 2205 and concurrent enrollment in MATH 2210.

PETE1060 - Introduction to Petroleum Engineering Problem Solving

Credits: 1
Covers elements of Petroleum Engineering calculations associated with typical computations in Drilling, Production, and Reservoir Engineering, Rock and Fluids properties, to simultaneously train the student on basic computing skills as well as basic language of Petroleum Engineering. The preferred computing tool is Matlab, which will be introduced through simple calculations on the computer. Notions of the petroleum engineering curriculum will also be provided through examples of the different subjects.
Prerequisite: Math placement 5 or concurrent enrollment in MATH 2200.

PETE2050 - Fundamentals of Petroleum Engineering

Credits: 3
General introduction to petroleum engineering, including petroleum geology, exploration, reservoir rocks, and fluid flow through porous media, drilling fundamentals, completion technology, well logging and testing, methods of production, stimulation methods, enhanced oil recovery, reserves and economics.

Prerequisite: grade of C or better in both MATH 2205 and PETE 1060.

PETE2060 - Introduction to Petroleum Engineering Computing

Credits: 3
Introduces Petroleum Engineering problems and principles, develops computational skills needed to solve them, and reinforces a computational tool that will be useful for other Petroleum Engineering classes.

Prerequisite: C or better in PETE 1060, and either a D or better in MATH 2310 or concurrent enrollment in MATH 2310.

PETE3015 - Multicomponent Thermodynamics

Credits: 3
Introduces mixture properties, such as chemical potentials, excess proper ties, partial molar properties, heats of mixing, fugacities, and practical tools for estimating them from solution theories and equations of state. These tools and concepts are applied to phase and chemical equilibria.

Prerequisite: C or better in ES 2310 and concurrent enrollment in PETE 2060. Student must be a Petroleum Engineering major.

PETE3025 - Heat and Mass Transfer

Credits: 3
Introduces energy and mass transfer concepts and the development of mathematical models of physical phenomena, including convection, conduction, radiation, and mass diffusion and convection.

Prerequisite: C or better in ES 2330 and MATH 2310. Student must be a Petroleum Engineering major.

PETE3100 - Rock and Fluids Lab

Credits: 2
Provides understanding of principles of rock and fluid properties and their measurement as part of conventional and special core analysis, as well as PVT characteristics of reservoir fluids. Students are expected to understand how to measure important rock and fluid properties using laboratory equipment, as part of reservoir characterization routines, formation damage evaluations and well log calibration protocols. Students are also expected to learn how to write succinct and organized reports.
Prerequisite: C or better in PETE 2050. Student must be a Petroleum Engineering major.

PETE3200 - Reservoir Engineering

Credits: 3
Covers rock and fluid properties, reserve estimation using volumetric and material balance methods, discussion of different reservoir drive mechanisms, aquifer models, Darcy's law and single-phase flow through porous media, introduction to well testing, solution of radial diffusivity equation, immiscible displacement, decline rate analysis, and reservoir simulation.

Prerequisite: PETE 3025, C or better in PETE 2050. Student must be a Petroleum Engineering major.

PETE3255 - Basic Drilling Engineering

Credits: 3
Principles and practices of oil and gas well rotary drilling, including rock mechanics, drilling hydraulics, drilling fluids, and hold deviation. Drilling equipment analysis, casing design, and drilling fluid properties. Application of modern computer-based analysis and design methods.

Prerequisite: C or better in PETE 2050. Student must be a Petroleum Engineering major.

PETE3265 - Drilling Fluids Laboratory

Credits: 3
Measurement of physical and chemical properties of drilling fluids, including experiments on mud density control, viscosity control, theological properties, mud hydraulics, filtration properties, mud contaminants and their treatments. Includes design of experiments, data processing, interpretation and writing technical reports.

Prerequisite: PETE 3255, C or better in both ES 2310 and ES 2330. Student must be a Petroleum Engineering major.

PETE3715 - Production Engineering

Credits: 3
Provides elements for calculating the production rate of oil or gas wells, including reservoir inflow performance, which is determined by the reservoir rock and fluids properties and calculated based on Darcy's law, and tubing performance, which is determined by tubing parameters and calculated based on Newtonian dynamics. Basic design of artificial lift systems, reservoir stimulations and optimization of production systems are also included.

Prerequisite: C or better in ES 2310, ES 2330 and PETE 2050. Student must be a Petroleum Engineering major.

PETE3725 - Well Completions

Credits: 3
Covers many facets of completion and intervention in oil and gas wells, including design and procedures to meet deliverability, safety, and integrity, starting with completion, stimulation, workover, and intervention, ending with plug
and abandonment requirements.

**Prerequisite:** C or better in both PETE 2050 and ES 2410. Student must be a Petroleum Engineering major.

**PETE4225 - Well Test Analysis**

Credits: 3
Covers knowledge of well test interpretation techniques. Theory for well testing include drawdown and buildup tests, single-rate and multi-rate testing, derivative analysis, wellbore storage, type curve matching, fall off and injectivity, fractured wells, fractured reservoirs, interference and pulse testing, and horizontal well analysis.

**Prerequisite:** PETE 3200. Student must be a Petroleum Engineering major.

**PETE4320 - Well Log Interpretation**

Credits: 3
Studies use of various types of open hole logs for quantitative evaluation of formations.

**Prerequisite:** C or better in PETE 2050. Student must be a Petroleum Engineering major.

**PETE4340 - Petroleum Economics**

Credits: 3
Applies principles of economics to petroleum properties. Studies taxation, present worth, rate of return, payout and decisions under uncertainty.

**Prerequisite:** PETE 3200. Student must be a Petroleum Engineering major.

**PETE4736 - Petroleum Engineering Design**

Credits: 4
Design and development of petroleum reservoirs using principles and skills learned in the Petroleum Engineering program. Application of software for design and analysis of the drilling, reservoir and production of petroleum.

**USP 2015 Code U5C3**

**Prerequisite:** PETE 3200, PETE 3255, PETE 3715, PETE 3725, and C or better in COM2. Student must be a Petroleum Engineering major.

- PETE Technical Electives Credits: 15

**Technical Electives Policy**

The technical electives in the PETE curriculum can be used to complete a curriculum emphasis option or a minor. The number of credits of upper division courses must be satisfied, therefore, 13 elective credits must be 3000-level courses or higher.

Notes: Technical Electives must be selected with your advisor's documented approval.
Minimum Grade Requirements

A grade of C or better is required for the following courses:

- USP designated courses: FYS, COM1, COM2, COM3
- All Engineering Science (ES) courses
- MATH courses that are prerequisites to ES & PETE courses

PETE1060 - Introduction to Petroleum Engineering Problem Solving

Credits: 1

Covers elements of Petroleum Engineering calculations associated with typical computations in Drilling, Production, and Reservoir Engineering, Rock and Fluids properties, to simultaneously train the student on basic computing skills as well as basic language of Petroleum Engineering. The preferred computing tool is Matlab, which will be introduced through simple calculations on the computer. Notions of the petroleum engineering curriculum will also be provided through examples of the different subjects.

Prerequisite: Math placement 5 or concurrent enrollment in MATH 2200.

PETE2050 - Fundamentals of Petroleum Engineering

Credits: 3

General introduction to petroleum engineering, including petroleum geology, exploration, reservoir rocks, and fluid flow through porous media, drilling fundamentals, completion technology, well logging and testing, methods of production, stimulation methods, enhanced oil recovery, reserves and economics.

Prerequisite: grade of C or better in both MATH 2205 and PETE 1060.

PETE4736 - Petroleum Engineering Design

Credits: 4

Design and development of petroleum reservoirs using principles and skills learned in the Petroleum Engineering program. Application of software for design and analysis of the drilling, reservoir and production of petroleum.

USP 2015 Code U5C3

Prerequisite: PETE 3200, PETE 3255, PETE 3715, PETE 3725, and C or better in COM2. Student must be a Petroleum Engineering major.

Total Upper Division Credits Required

48

Total Hours Required for B.S. Degree

129

Petroleum Engineering Program Educational Objectives
Three to six years after graduation, graduates who choose to practice in Petroleum engineering should:

- (PETE-OB1) Successfully practice the profession/field of petroleum engineering or related discipline.
- (PETE-OB2) Demonstrate successful career accomplishment and civic engagement.

**Petroleum Engineering Program Outcomes**

During the course of study in Petroleum Engineering, the student should develop:

1. An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.

2. An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.

3. An ability to communicate effectively with a range of audiences.

4. An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts.

5. An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.

6. An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions.

7. An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

**Graduate**

**Petroleum Engineering, M.S.**

**Petroleum M.S. Students With a B.S. In Petroleum Engineering**

All Petroleum M.S. students with a B.S. in Petroleum Engineering from an accredited program must take the following required courses:

**Required Courses**

**PETE5355 - Mathematical Methods**

Credits: 3
Covers mathematical modeling: conservation laws and constitution relationships; partial differential equations (PDEs): the types and analytical solution techniques; applied linear algebra; matrices and Eigen-analysis; numerical solution techniques: finite difference and finite element methods, Newton-Raphson method, and temporal discretization techniques, and linear solution techniques: direct and iterative methods.
Cross Listed CHE 5355.
Prerequisite: graduate standing.

**PETE5890 - Petroleum Engineering Graduate Seminar**

Credits: 1  
Max Credit (Max. 9)

Departmental seminar on current research with formal training for student presentation of technical papers.

Prerequisite: graduate standing.

**Core Courses**

At least three Core Courses from the following:

**PETE5010 - Transport Phenomena**

Credits: 3  
Examines the modeling of momentum, heat and mass transport.

Cross Listed CHE 5010.  
Prerequisite: graduate standing.

**PETE5020 - Thermodynamics**

Credits: 3  
Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

Cross Listed CHE 5020.  
Prerequisite: graduate standing.

**PETE5060 - Flow through Porous Media**

Credits: 3  
Review of properties of porous media. Relationships of permeability to porosity. Formulation of the Fundamental Flow equation. Constant Rate solutions. Constant Pressure Solutions. The Principle of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, and isochronal test analysis.

Cross Listed CHE 5060  
Dual Listed PETE 4060.  
Prerequisite: graduate standing.

**PETE5080 - Interfacial Phenomena**
Credits: 3
Introduction to surface and colloid chemistry, coagulation and flocculation, surface energy and thermodynamics of surfaces, adsorption at interfaces, surface tension, capillarity and wetting, spontaneous imbibition, applications to hydrocarbon reservoirs and oil recovery.

**Prerequisite:** graduate standing.

**PETE5310 - Fundamentals of EOR**

Credits: 3
The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

**Dual Listed** PETE 4310.
**Prerequisite:** graduate standing.

**PETE5350 - Advanced Reservoir Engineering**

Credits: 3
Covers high-level understanding of modern reservoir engineering. Provides knowledge of scientific principles to formulate fluid flow, heat and mass transport in permeable media. Use analytical and computational tools to resolve research-oriented problems. Develop competence in interpreting results of modeling.

**Prerequisite:** graduate standing.

**Total Credits: 14 Hours**

**Plan A Thesis Additional Course Requirements:**

- 4000-level or above approved electives Credits: 12

**PETE5960 - Thesis Research**

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

**Prerequisite:** enrollment in a graduate degree program.

**Total Credits: 30 Hours**

**Plan B Non-Thesis Additional Course Requirements:**

4000-level or above approved electives
PETE5970 - MS Plan B Research Project

Credits: 1-2
Max Credit 2

Students complete a non-thesis capstone project on a topic of choice within the petroleum or energy field, under the guidance of their graduate committee. Students must produce at least one final paper and present their results in a public forum (Final Examination). Must complete a minimum of two credit hours for the M.S. degree.

Prerequisite: Graduate Standing.

Total Credits: 30 Hours

Petroleum M.S. Students With a B.S. In Chemical or Mechanical Engineering

All Petroleum M.S. students with a B.S. in Chemical or Mechanical Engineering from an accredited program must take the following required courses:

Required Courses:

PETE5055 - Drilling Engineering

Credits: 3
Max Credit 3

Principles and practices of oil and gas well rotary drilling, including rock mechanics, drilling hydraulics, drilling fluids, and hole deviation. Drilling equipment analysis, casing design, and drilling fluid properties. Application of modern computer-based analysis and design methods.

Prerequisite: Graduate Standing

PETE5340 - Reservoir Engineering.

Credits: 3

Covers rock and fluid properties, reserve estimation using volumetric and material balance methods, discussion of different reservoir drive mechanisms, aquifer models, Darcy's law and single-phase flow through porous media, introduction to well testing, solution of radial diffusivity equation, immiscible displacement, decline rate analysis, and reservoir simulation.

Prerequisite: Graduate standing.

PETE5715 - Production Engineering

Credits: 3

Provides elements for calculating production rate of oil/gas wells, including reservoir inflow performance, determined
by reservoir rock and fluids properties using Darcy's law, and tubing performance, determined by tubing parameters and using Newtonian dynamics. Basic design of artificial life systems, reservoir stimulations and optimization of production systems are included.

**Prerequisite:** graduate standing.

### Core Courses

At least five Core Courses from the following:

**PETE5010 - Transport Phenomena**

Credits: 3  
Examines the modeling of momentum, heat and mass transport.

**Cross Listed** CHE 5010.  
**Prerequisite:** graduate standing.

**PETE5020 - Thermodynamics**

Credits: 3  
Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

**Cross Listed** CHE 5020.  
**Prerequisite:** graduate standing.

**PETE5060 - Flow through Porous Media**

Credits: 3  
Review of properties of porous media. Relationships of permeability to porosity. Formulation of the Fundamental Flow equation. Constant Rate solutions. Constant Pressure Solutions. The Principle of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, and isochronal test analysis.

**Cross Listed** CHE 5060.  
**Dual Listed** PETE 4060.  
**Prerequisite:** graduate standing.

**PETE5080 - Interfacial Phenomena**

Credits: 3  
Introduction to surface and colloid chemistry, coagulation and flocculation, surface energy and thermodynamics of surfaces, adsorption at interfaces, surface tension, capillarity and wetting, spontaneous imbibition, applications to hydrocarbon reservoirs and oil recovery.
Prerequisite: graduate standing.

PETE5310 - Fundamentals of EOR

Credits: 3
The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

Dual Listed PETE 4310.
Prerequisite: graduate standing.

PETE5350 - Advanced Reservoir Engineering

Credits: 3
Covers high-level understanding of modern reservoir engineering. Provides knowledge of scientific principles to formulate fluid flow, heat and mass transport in permeable media. Use analytical and computational tools to resolve research-oriented problems. Develop competence in interpreting results of modeling.

Prerequisite: graduate standing.

Total Credits: 26 Hours

Plan A Thesis Additional Course Requirements:

- 4000-level or above approved electives Credits: 7

GEOL4190 - Petroleum Geology

Credits: 3
Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 5190.
Prerequisite: GEOL 2005 or PETE 2050.

PETE5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.
Total Credits: 40 Hours

Plan B Non-Thesis Additional Course Requirements:

- 4000-level or above approved electives Credits: 9

**GEOL4190 - Petroleum Geology**

Credits: 3
Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 5190.
Prerequisite: GEOL 2005 or PETE 2050.

**PETE5970 - MS Plan B Research Project**

Credits: 1-2
Max Credit 2

Students complete a non-thesis capstone project on a topic of choice within the petroleum or energy field, under the guidance of their graduate committee. Students must produce at least one final paper and present their results in a public forum (Final Examination). Must complete a minimum of two credit hours for the M.S. degree.

Prerequisite: Graduate Standing.

Total Credits: 40 Hours

**Graduate Seminar Requirements**

All petroleum engineering PhD students must enroll in PETE5890 - Petroleum Engineering Graduate Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Graduate students enrolled in continuous registration are exempt from having to enroll in PETE 5890 in their final semester. MS students are required to take PETE 5890 for at least two semesters.

**Graduate Teaching Requirement**

All Petroleum Engineering graduate students must complete at least one semester as a teaching assistant within the Petroleum Engineering curriculum. Students receiving a state-funded graduate assistantship will be required to serve as a teaching assistant every semester of their award. Students funded by a faculty mentor will work with their mentor to determine an appropriate time to complete this requirement.

**Program of Study Requirement**
All Petroleum Engineering graduate students must complete their Program of Study worksheet at the beginning of their second academic year of study or 3rd semester of enrollment, and PhD students must submit it prior to their preliminary examination.

M.S. and Ph.D. Final Examination (Thesis or Dissertation Defense)

All M.S. and Ph.D. students must orally defend their final report, thesis, or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public defense in oral presentation format. At least three weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis or dissertation and provide the department an announcement of their defense for public advertisement. The results of the defense are reported by the committee on the Report of Final Examination form. Often, graduate committee members request changes in the final thesis or dissertation, and they may postpone signing this form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Registrar's web site. This copy will be rejected if the format standards specified by the Thesis or Dissertation Format Guide are not met. This guide allows for a publication-ready format. An electronic copy must also be submitted to the department for the departmental library. Most students will want copies for their own use. Students should consult with their chair to determine if they also want a copy of the final paper or other research documentation.

Petroleum Engineering, Ph.D.

Students with a B.S. in Petroleum Engineering

All Petroleum Ph.D. students with a B.S. in Petroleum Engineering must take the following required courses:

Required Courses

PETE5090 - Graduate Research Methods

Credits: 3
A general approach to scientific research and graduate school. Topics include: purpose of graduate school, career options with graduate degrees, communication basics, literature search skills, presentations, research instrumentation, the scientific method, developing hypotheses, grant proposals, paper writing, research ethics, copyrights, patents, research notebooks, and classroom teaching techniques.

Prerequisite: graduate standing.

PETE5355 - Mathematical Methods

Credits: 3
Covers mathematical modeling: conservation laws and constitution relationships; partial differential equations (PDEs): the types and analytical solution techniques; applied linear algebra; matrices and Eigen-analysis; numerical solution
techniques: finite difference and finite element methods, Newton-Raphson method, and temporal discretization techniques, and linear solution techniques: direct and iterative methods.

Cross Listed CHE 5355.
Prerequisite: graduate standing.

PETE5890 - Petroleum Engineering Graduate Seminar

Credits: 1
Max Credit (Max. 9)

Departmental seminar on current research with formal training for student presentation of technical papers.

Prerequisite: graduate standing.

Core Courses

At least three Core Courses from the following:

PETE5010 - Transport Phenomena

Credits: 3
Examines the modeling of momentum, heat and mass transport.

Cross Listed CHE 5010.
Prerequisite: graduate standing.

PETE5020 - Thermodynamics

Credits: 3
Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

Cross Listed CHE 5020.
Prerequisite: graduate standing.

PETE5060 - Flow through Porous Media

Credits: 3
Review of properties of porous media. Relationships of permeability to porosity. Formulation of the Fundamental Flow equation. Constant Rate solutions. Constant Pressure Solutions. The Principle of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, and isochronal test analysis.

Cross Listed CHE 5060
**Dual Listed** PETE 4060.  
**Prerequisite:** graduate standing.

**PETE5080 - Interfacial Phenomena**

Credits: 3  
Introduction to surface and colloid chemistry, coagulation and flocculation, surface energy and thermodynamics of surfaces, adsorption at interfaces, surface tension, capillarity and wetting, spontaneous imbibition, applications to hydrocarbon reservoirs and oil recovery.

**Prerequisite:** graduate standing.

**PETE5310 - Fundamentals of EOR**

Credits: 3  
The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

**Dual Listed** PETE 4310.  
**Prerequisite:** graduate standing.

**Electives**

- 4000-level or above approved electives Credits: 21

**Research**

**PETE5980 - Dissertation Research**

Credits: 1-12  
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

**Prerequisite:** enrollment in a graduate level degree program.

**Total Credits:** 72

**Students with an M.S. in Petroleum Engineering**

All Petroleum Ph.D. students with an M.S. in Petroleum Engineering from UW must take the following **required** courses:

**Plan A MS Courses Credits:** 26
See Petroleum Engineering, M.S. program

Required Courses

**PETE5090 - Graduate Research Methods**

Credits: 3  
A general approach to scientific research and graduate school. Topics include: purpose of graduate school, career options with graduate degrees, communication basics, literature search skills, presentations, research instrumentation, the scientific method, developing hypotheses, grant proposals, paper writing, research ethics, copyrights, patents, research notebooks, and classroom teaching techniques.

**Prerequisite:** graduate standing.

**PETE5890 - Petroleum Engineering Graduate Seminar**

Credits: 1  
Max Credit (Max. 9)

Departmental seminar on current research with formal training for student presentation of technical papers.

**Prerequisite:** graduate standing.

Electives

- 4000-level or above approved electives Credits: 9

Research

**PETE5980 - Dissertation Research**

Credits: 1-12  
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

**Prerequisite:** enrollment in a graduate level degree program.

Total Credits: 72

Students with an M.S. in Petroleum Engineering

All Petroleum Ph.D. students with an M.S. in Petroleum Engineering from another institution must take the following **required** courses:
Transferred MS Courses Approved by Student’s Committee Credits: 14

Required Courses

PETE5090 - Graduate Research Methods

Credits: 3
A general approach to scientific research and graduate school. Topics include: purpose of graduate school, career options with graduate degrees, communication basics, literature search skills, presentations, research instrumentation, the scientific method, developing hypotheses, grant proposals, paper writing, research ethics, copyrights, patents, research notebooks, and classroom teaching techniques.

Prerequisite: graduate standing.

PETE5890 - Petroleum Engineering Graduate Seminar

Credits: 1
Max Credit (Max. 9)
Departmental seminar on current research with formal training for student presentation of technical papers.

Prerequisite: graduate standing.

Core Courses

At least four Core Courses from the following:

PETE5010 - Transport Phenomena

Credits: 3
Examines the modeling of momentum, heat and mass transport.

Cross Listed CHE 5010.
Prerequisite: graduate standing.

PETE5020 - Thermodynamics

Credits: 3
Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

Cross Listed CHE 5020.
Prerequisite: graduate standing.

PETE5060 - Flow through Porous Media
Credits: 3
Review of properties of porous media. Relationships of permeability to porosity. Formulation of the Fundamental Flow equation. Constant Rate solutions. Constant Pressure Solutions. The Principle of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, and isochronal test analysis.

Cross Listed CHE 5060
Dual Listed PETE 4060.
Prerequisite: graduate standing.

PETE5080 - Interfacial Phenomena

Credits: 3
Introduction to surface and colloid chemistry, coagulation and flocculation, surface energy and thermodynamics of surfaces, adsorption at interfaces, surface tension, capillarity and wettability, spontaneous imbibition, applications to hydrocarbon reservoirs and oil recovery.

Prerequisite: graduate standing.

PETE5310 - Fundamentals of EOR

Credits: 3
The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

Dual Listed PETE 4310.
Prerequisite: graduate standing.

PETE5350 - Advanced Reservoir Engineering

Credits: 3
Covers high-level understanding of modern reservoir engineering. Provides knowledge of scientific principles to formulate fluid flow, heat and mass transport in permeable media. Use analytical and computational tools to resolve research-oriented problems. Develop competence in interpreting results of modeling.

Prerequisite: graduate standing.

PETE5355 - Mathematical Methods

Credits: 3
Covers mathematical modeling: conservation laws and constitution relationships; partial differential equations (PDEs): the types and analytical solution techniques; applied linear algebra; matrices and Eigen-analysis; numerical solution techniques: finite difference and finite element methods, Newton-Raphson method, and temporal discretization techniques, and linear solution techniques: direct and iterative methods.

Cross Listed CHE 5355.
Prerequisite: graduate standing.
Electives

- 4000-level or above approved electives Credits: 9

Research

**PETE5980 - Dissertation Research**

Credits: 1-12  
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

**Prerequisite:** enrollment in a graduate level degree program.

Total Credits: 72 Hours

*Some or all of these credit hours can be transferred by petition, provided they are non-degree credits.

**Students with an M.S. Degree in a Geoscience**

All Petroleum Ph.D. students with an M.S. degree in a geoscience from another accredited institution must take the following required courses:

**Transferred MS Courses Approved by Student's Committee** Credits: 12

**Required Courses**

**PETE5090 - Graduate Research Methods**

Credits: 3  
A general approach to scientific research and graduate school. Topics include: purpose of graduate school, career options with graduate degrees, communication basics, literature search skills, presentations, research instrumentation, the scientific method, developing hypotheses, grant proposals, paper writing, research ethics, copyrights, patents, research notebooks, and classroom teaching techniques.

**Prerequisite:** graduate standing.

**PETE5890 - Petroleum Engineering Graduate Seminar**

Credits: 1  
Max Credit (Max. 9)

Departmental seminar on current research with formal training for student presentation of technical papers.
**Prerequisite:** graduate standing.

**Core Courses**

At least six Core Courses from the following:

**PETE5010 - Transport Phenomena**

Credits: 3
Examines the modeling of momentum, heat and mass transport.

*Cross Listed* CHE 5010.

*Prerequisite:* graduate standing.

**PETE5020 - Thermodynamics**

Credits: 3
Utilizing the laws of thermodynamics to a wide variety of process applications. Evaluating current methods for predicting thermodynamic properties of pure fluids and mixtures. Modeling multiphase, multicomponent equilibria.

*Cross Listed* CHE 5020.

*Prerequisite:* graduate standing.

**PETE5060 - Flow through Porous Media**

Credits: 3
Review of properties of porous media. Relationships of permeability to porosity. Formulation of the Fundamental Flow equation. Constant Rate solutions. Constant Pressure Solutions. The Principle of Superposition. Transient well testing of oil and gas reservoirs, including drawdown, build-up, faulted systems, interference, drillstem tests, and isochronal test analysis.

*Cross Listed* CHE 5060
*Dual Listed* PETE 4060.

*Prerequisite:* graduate standing.

**PETE5080 - Interfacial Phenomena**

Credits: 3
Introduction to surface and colloid chemistry, coagulation and flocculation, surface energy and thermodynamics of surfaces, adsorption at interfaces, surface tension, capillarity and wetting, spontaneous imbibition, applications to hydrocarbon reservoirs and oil recovery.

*Prerequisite:* graduate standing.

**PETE5310 - Fundamentals of EOR**
The application of physical principles to increasing the recovery from reservoirs. Miscible fluid flooding in-situ combustion, and thermal recovery.

**Dual Listed** PETE 4310.
**Prerequisite:** graduate standing.

**PETE5350 - Advanced Reservoir Engineering**

Credits: 3
Covers high-level understanding of modern reservoir engineering. Provides knowledge of scientific principles to formulate fluid flow, heat and mass transport in permeable media. Use analytical and computational tools to resolve research-oriented problems. Develop competence in interpreting results of modeling.

**Prerequisite:** graduate standing.

**PETE5355 - Mathematical Methods**

Credits: 3
Covers mathematical modeling: conservation laws and constitution relationships; partial differential equations (PDEs): the types and analytical solution techniques; applied linear algebra; matrices and Eigen-analysis; numerical solution techniques: finite difference and finite element methods, Newton-Raphson method, and temporal discretization techniques, and linear solution techniques: direct and iterative methods.

**Cross Listed** CHE 5355.
**Prerequisite:** graduate standing.

At Least Eight Additional Courses:

- Six (6) credits in advanced mathematics
- 18 credits in petroleum engineering

Petroleum Engineering Credits Include:

- PETE 5340
- PETE 5055

**PETE5715 - Production Engineering**

Credits: 3
Provides elements for calculating production rate of oil/gas wells, including reservoir inflow performance, determined by reservoir rock and fluids properties using Darcy's law, and tubing performance, determined by tubing parameters and using Newtonian dynamics. Basic design of artificial life systems, reservoir stimulations and optimization of production systems are included.

**Prerequisite:** graduate standing.
Electives

- 4000-level or above approved electives Credits: 9

Research

**PETE5980 - Dissertation Research**

Credits: 1-12
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

**Prerequisite:** enrollment in a graduate level degree program.

**Total Credits: 100 Hours**

*Some or all of these credit hours can be transferred by petition, provided they are non-degree credits.

Graduate Seminar Requirements

All petroleum engineering graduate students must enroll in PETE5890 - Petroleum Engineering Graduate Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Graduate students enrolled in continuous registration are exempt from having to enroll in PETE 5890 in their final semester.

Graduate Teaching Requirement

All Petroleum Engineering graduate students must complete at least one semester as a teaching assistant within the Petroleum Engineering curriculum. Students receiving a state-funded graduate assistantship will be required to serve as a teaching assistant every semester of their award. Students funded by a faculty mentor will work with their mentor to determine an appropriate time to complete this requirement.

Program of Study Requirement

All Petroleum Engineering graduate students must complete their Program of Study worksheet at the beginning of their second academic year of study or 3rd semester of enrollment, and PhD students must submit it prior to their preliminary examination.

Ph.D. Preliminary Examination

Candidacy in the doctorate occurs upon certification of successful completion of the preliminary examination. The preliminary examination will be held at least 15 weeks prior to the final examination. The preliminary examination may not be given before: (a) the research tool requirements, if any, have been met and certification approved; (b) at least 30 hours of coursework have been completed; and (c) the doctoral program of study has been approved.
The goal of the preliminary exam is for the student to present the research proposition that is being investigated and will lead to the final dissertation, and demonstrate progress to-date. The preliminary exam consists of three components:

- a written document provided to each member of the student's graduate committee at least three weeks prior to the oral presentation;
- a public oral presentation; and
- a private examination by the student's graduate committee immediately following the oral presentation.

The written document may be in any format but must concisely provide a survey of the relevant literature, a summary of the student's progress to-date, and a clear, detailed plan for the successful completion of the proposed work. The preliminary exam oral presentation should be consistent with the written document. It should provide an appropriate literature background, demonstrate proficiency with proposed experimental/computational techniques, identify details of the experiments to be performed, and provide a timeline to final defense.

The student's committee will pass or fail the student on the strength of the preliminary examination, with an option to conditionally pass the student while requiring an interim committee meeting prior to the final Ph.D. examination. The Report on Preliminary Examination for Admission to Candidacy form sent to the Office of the Registrar reports the results of the examination.

M.S. and Ph.D. Final Examination (Thesis or Dissertation Defense)

All M.S. and Ph.D. students must orally defend their final report, thesis, or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public defense in oral presentation format. At least three weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis or dissertation and provide the department an announcement of their defense for public advertisement. The results of the defense are reported by the committee on the Report of Final Examination form. Often, graduate committee members request changes in the final thesis or dissertation, and they may postpone signing this form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Registrar's web site. This copy will be rejected if the format standards specified by the Thesis or Dissertation Format Guide are not met. This guide allows for a publication-ready format. An electronic copy must also be submitted to the department for the departmental library. Most students will want copies for their own use. Students should consult with their chair to determine if they also want a copy of the final paper or other research documentation.

QuickStart Program

Petroleum Engineering Quick Start, B.S./M.S.

The BS/MS Quick Start program is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their BS degree in Petroleum Engineering. These students may apply for admission during their junior year.

Quick Start Program Requirements
The BS/MS Quick Start program in Petroleum Engineering (PETE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their Bachelor of Science (B.S.) degree in Petroleum Engineering. These students may apply for admission to the Quick Start program during their junior year or before starting their senior year.

This program allows for early planning of the graduate portion of a student's education and provides more flexibility in the number of required courses and the order in which they are taken. The more efficient and better planned use of time should result in reduction of the time required for obtaining the Master of Science in Petroleum Engineering degree. Students who enter the Quick Start program must accept primary responsibility for actively planning their Programs of Study to assure timely completion of their course work and research programs.

The Quick Start program contains two essential elements:

1. Qualified students may receive provisional admission to the Petroleum Engineering graduate program prior to completing the normal application process. This provisional admission will permit students to make their long-term educational plans earlier in their studies, thus providing enhanced opportunities for course selection and involvement in research.

2. Students in the program may apply up to 6 credit hours of 5000-level courses toward both the B.S. and M.S. degree programs. By completing successfully up to 6 credit hours of graduate classes during their senior year, these students will have demonstrated their ability to do graduate-level course work as undergraduates, easing their transition to the Petroleum Engineering graduate program.

For additional information, visit our website for admissions information http://www.uwyo.edu/petroleum/undergraduate/current-students/quickstart.html or contact our graduate admissions coordinator at pete-info@uwyo.edu.

**Quick Start Prerequisites**

Cumulative GPA of 3.25.

PETE GPA of 3.50

3 letters of recommendation, at least 2 from PETE faculty at UW.

**PETE3200 - Reservoir Engineering**

Credits: 3

Covers rock and fluid properties, reserve estimation using volumetric and material balance methods, discussion of different reservoir drive mechanisms, aquifer models, Darcy's law and single-phase flow through porous media, introduction to well testing, solution of radial diffusivity equation, immiscible displacement, decline rate analysis, and reservoir simulation.

**Prerequisite:** PETE 3025, C or better in PETE 2050. Student must be a Petroleum Engineering major.

**Prerequisite courses:** PETE 2050 and PETE 3025

**PETE3255 - Basic Drilling Engineering**

Credits: 3

Principles and practices of oil and gas well rotary drilling, including rock mechanics, drilling hydraulics, drilling fluids, and hold deviation. Drilling equipment analysis, casing design, and drilling fluid properties. Application of modern computer-based analysis and design methods.
Prerequisite: C or better in PETE 2050. Student must be a Petroleum Engineering major.
Prerequisite courses: ES 2330 and PETE 2050

PETE3715 - Production Engineering

Credits: 3
Provides elements for calculating the production rate of oil or gas wells, including reservoir inflow performance, which is determined by the reservoir rock and fluids properties and calculated based on Darcy's law, and tubing performance, which is determined by tubing parameters and calculated based on Newtonian dynamics. Basic design of artificial lift systems, reservoir stimulations and optimization of production systems are also included.

Prerequisite: C or better in ES 2310, ES 2330 and PETE 2050. Student must be a Petroleum Engineering major.
Prerequisite courses: ES 2310, ES 2330 and PETE 2050

Transfer Students' Requirements

Must have taken at least two of the three required PETE courses listed above at UW.
Transfer course work must be from an accredited institution and deemed equivalent to current UW PETE core courses.
Must have completed at least 15 credit hours of PETE course work at UW prior to starting the Quick Start program.

Quick Start Program Retention

Prior to completion of the BS degree, students must:

- Complete all requirements for admission to UW graduate school and the PETE graduate program.
  - The Graduate Records Examination (GRE) requirement will be waived.
  - Additional English proficiency testing for admission is also waived for international students.
- Maintain a cumulative GPA of at least 3.25 in their overall undergraduate program.
- Maintain a GPA of 3.5 in their PETE courses.
- Maintain a GPA of at least 3.0 in 5000-level (graduate) courses.

- Failure to complete graduate admission requirements prior to the start of the final year of undergraduate study will result in immediate suspension from the program.
- Failure to meet any GPA requirements places a student on academic probation for one semester.
- If the GPA requirement is still not met after academic probation, the student will be suspended from the program.

School of Computing

College of Health Sciences

College of Health Sciences
The College of Health Sciences is the place for students interested in improving and maintaining the physical, mental, and social health of others. We offer challenging degree programs in the "helping professions" and serve as the gateway to schools of medicine, dentistry, physical and occupational therapy, physician's assistant study, optometry, and more.

Health sciences students receive not only a superior education from knowledgeable and caring faculty but also precise and personal guidance from conscientious advising personnel. Students benefit, too, from practicums and internships that help them refine and test the skills acquired in lectures and labs as well as opportunities to participate in dynamic, interdisciplinary research projects.

The college is also the home of the Wyoming Institute for Disabilities (WIND); two Family Medicine Residency Centers; and the WWAMI Medical Education Program.

We serve as the state certifying office for the Wyoming, Washington, Alaska, Montana, and Idaho (WWAMI) medical education contract program with the University of Washington School of Medicine; WYDENT, the dental education contract program with the University of Nebraska and Creighton University; and two programs for the Western Interstate Commission of Higher Education (WICHE): the Professional Student Exchange Program (PSEP) and the Western Regional Graduate Program (WRGP). Refer to the sections on WWAMI, WYDENT, and WICHE in this catalog for program descriptions or go to www.uwyo.edu/certwy.

Any student seeking admission to programs in the College of Health Sciences will be required to obtain a background check as specified by college policy. Please contact your school or division for specific information.

The College of Health Sciences retains the right to deny or revoke admission to any of its programs for academic, disciplinary, ethical, or professional standards reasons.

Programs of Study

Undergraduate Degrees

Bachelor of Science

- Kinesiology and Health Promotion
- Medical Laboratory Science
- Physical Education Teacher Education K-12
- Speech, Language and Hearing Sciences

Bachelor of Science in Dental Hygiene
Bachelor of Science in Nursing
Bachelor of Social Work

Graduate Degrees

Master of Science

- Health Services Administration
- Nursing
Disability Studies

Disability studies is a diverse interdisciplinary field that investigates broad questions about the nature, meanings, and consequences of disability from interrelated social, historical, cultural, and political perspectives. Students will gain a broad understanding of disability issues for working with people with disabilities rather than specific disciplinary skills and techniques. The minor complements any major and consists of 18 credit hours. See [www.uwyo.edu/hs/divisions-and-programs/minor-indisability-studies.html](http://www.uwyo.edu/hs/divisions-and-programs/minor-indisability-studies.html).

Undergraduate and Pre-Health Advising Office

Health Sciences Center, 110

The Undergraduate and Pre-Health Advising Office (UPHAO) in the College of Health Sciences ([www.uwyo.edu/preprof/](http://www.uwyo.edu/preprof/)) provides pre-professional health advising to all UW students regardless of their academic majors, who are interested in pursuing future study in athletic training, chiropractic, dentistry, medicine, optometry, occupational therapy, physical therapy, physician assistant, or other health care careers such as public health. A bachelor's degree is usually required for admission to a professional school. The University of Wyoming does not offer degrees in pre-professional areas. Students may pursue any UW degree program in which they have an interest and at the same time complete the admission requirements for the professional schools they wish to attend. The UPHAO advises students for their professional program prerequisites as well as other aspects of becoming solid candidates. Each student will also have an advisor in his/her major.

Through this office, pre-health students can access current information about admission requirements, entrance examinations, application process, professional school curriculums, interviewing skills, and test preparation. Specific schools may have additional requirements; students are urged to check with the schools they wish to attend.

Information and Wyoming state residency applications for the WICHE PSEP program, the WWAMI medical education program, and the WYDENT dental education program, may be found online at [http://www.uwyo.edu/certwy](http://www.uwyo.edu/certwy).

Please view individual division and program pages list for full course and curriculum listings

Division of Communication Disorders

265 Health Sciences, (307) 766-6427
FAX: (307) 766-6829
Web site: [www.uwyo.edu/comdis](http://www.uwyo.edu/comdis)
Director: Mark Guiberson
Professors:

MARK GUIBERSON, B.A. University of Colorado 1997; M.A. 1999; Ph.D. Colorado State University 2006; Professor of Speech-Language Pathology 2019, 2011.

Assistant Professors:

KATELYN J. KOTLAREK, B.S. University of Wisconsin-Madison 2012; M.S. Florida State University 2014; Ph.D. East Carolina University 2019; Assistant Professor 2019.

BREANNA KRUEGER, B.A. University of Wyoming 2007; M.A. University of Kansas 2011; M.A. 2013; Ph.D. 2017; Assistant Professor 2017.

Lecturers:

ESTHER HARTSKY, B.A. Adams State University 2000; A.A.S. Pikes Peak Community College 2004; Assistant Lecturer 2017.

KARLEE SMITH, B.S. University of Wyoming 2014; M.S. University of Wyoming 2013; Lecturer 2020.

Clinical Professors:

Assistant Clinical Professors:

CORRI SANDOVAL, B.S. University of Wyoming 2000; M.S. 2010; Assistant Clinical Professor 2020.

HEIDI CLARK, B.S. University of Virginia 1998; M.A. Kent State University 2000; Assistant Clinical Professor 2020.

Adjunct Clinical Instructor:

Melissa Denker, M.S., CCC-SLP

Professors Emeriti:

Janis A. Jelinek, Douglas W. Laws, Michael A. Primus, Mary Hardin-Jones, David L. Jones

About the Division of Communication Disorders
The Division of Communication Disorders offers three academic programs: a certificate in American Sign Language Studies, a Bachelor's of Science (B.S.) degree in Speech, Language and Hearing Science, and a Master of Science (MS) degree in Speech-Language Pathology. Information on these programs can be found on the links on the bottom of this page. In addition, the College of Education's Curriculum and Instruction, Ph.D., Concentration in Literacy Education, is a doctorate degree in which affiliated Division of Communication Disorders faculty can offer doctorate coursework, advising, and other involvement. See the College of Education website for details. The Division is also home to the University of Wyoming Speech & Hearing Clinic. Information about the Division's Vision, Mission, and Strategic Plan can be found on the Division website, as well as important information about the Division's Diversity, Equity, and Inclusion statement (http://www.uwyo.edu/comdis/).

Speech and Hearing Clinic

The UW Speech and Hearing Clinic is a training center for students from the Division of Communication Disorders, including B.S. students in the Speech, Language, and Hearing Sciences program and M.S. students in the Speech-Language Pathology program. Student clinical experiences occur under the direct supervision of state licensed and ASHA-certified speech-language pathologists (CCC-SLP). The clinic also provides audiology services from a ASHA-certified and state licensed audiologists (CCC-A). In addition to on-campus services, the clinic provides telepractice speech-language pathology services. Clinical services are available to students, faculty as well as the larger community. More information can be found on the UW Speech and Hearing Clinic website http://www.uwyo.edu/comdis/uw-speech-and-hearing-clinic/index.html.

Major

Speech, Language and Hearing Science, B.S.

Learn about working with people to improve their speech, language, and hearing. Study American Sign Language. This pre-professional degree is preparation for application to a graduate studies in speech-language pathology, audiology, or other areas.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate and are not covered by the Speech, Language and Hearing Science major:

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**V- - U.S. & WY Constitution**

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**H- - Human Culture (1)**

Approved coursework does not include courses taken within the student's major department.

**Courses required for major**

**PSYC1000 - General Psychology**

Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

**MATH1400 - College Algebra**

Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).
LIFE1010 - General Biology

Credits: 4
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

PHYS1050 - Concepts of Physics

Credits: 4
Introduces the physical world. For students whose background in math and science is minimal; recommended for students in paramedical sciences and medical technology. Three lecture hours per week are supplemented by two hours per week of laboratory work.

KIN2040 - Human Anatomy

Credits: 3
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

KIN2041 - Human Anatomy Laboratory

Credits: 1
A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.
Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

FCSC2121 - Child Development

Credits: 4
Incorporates classroom instruction with laboratory application of child development research and theory in physical, intellectual and social/emotional domains. Emphasizes early childhood years.

Prerequisite: PSYC 1000 or SOC 1000 or EDST 2450.

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

SPPA1010 - Introduction to Communication Disorders

Credits: 3
Introduces information regarding basics of speech and hearing. Discusses disorders of speech and hearing by defining the problem, etiology or theories of cause, classifications and controversies, evaluation techniques and therapies to correct the disorder.

SPPA2110 - American Sign Language I

Credits: 4
Basic comprehension and expression of American Sign Language (ASL), the language used by the Deaf community in the United States. ASL vocabulary, grammar, and pragmatics are taught through lecture, conversation, and storytelling. The direct experience method (using ASL with no voice) is utilized to enhance the learning process.
SPPA2120 - American Sign Language II

Credits: 4
Second level of ASL comprehension and expression. ASL vocabulary, grammar, and pragmatics, along with increased fluency, are taught through lecture, conversation, and storytelling. Translation from English to ASL is addressed.

USP 2015 Code U5H
Former Course Number [4120]

Prerequisite: SPPA 2110.

SPPA2210 - Phonetics

Credits: 3
Articulatory and acoustic description of speech sound production. Introduction to the International Phonetic Alphabet and phonetic transcription.

Former Course Number [3210]

Prerequisite: SPPA 1010 or consent of instructor.

SPPA3160 - Speech and Language Development

Credits: 4
 Deals with the development of speech sound production, phonology, semantics, syntax, morphology, discourse, and pragmatics for typically-developing children from infancy to adolescence. Includes prelinguistic and paralinguistic communication, the cognitive correlates of communication, and written language. Considers the effects of sociocultural context and multiple language acquisition. Application component provides weekly experience in language sample analysis.

Former Course Number [4160]

Prerequisite: SPPA 2210 or instructor permission.

SPPA3265 - Anatomy and Physiology of Speech, Swallowing and Hearing

Credits: 4
Introduces the student to the anatomy of the normal speech and hearing systems as well as the physiologic underpinnings of the speech (respiration, phonation, articulation), swallowing, and hearing (external, middle, and inner ear) systems. Theories of speech production and speech perception are presented.

Former Course Number [3400]

Prerequisite: KIN 2040 or consent of instructor.
SPPA4240 - Speech and Language Disorders Across the Lifespan

Credits: 3
The nature and causes of developmental and acquired speech and language disorders across the lifespan are examined. Principles of assessment and intervention are introduced.

Prerequisite: SPPA 3160 or consent of instructor.

SPPA4340 - Basic Audiology

Credits: 3
An introduction to audiology as a profession, with primary focus on screening and diagnostic methods for the clinical evaluation of hearing loss in children and adults.

When Offered (Normally offered spring semester)
Prerequisite: SPPA 3265 or concurrent enrollment.

SPPA4150 - Aural Rehabilitation

Credits: 3
Examines basis for and characteristics of communication problems created by hearing loss and management procedures to facilitate communication and adjustment to hearing loss. Includes acoustic and visual properties of speech, amplification devices and hearing loss in school children.

Prerequisite: SPPA 4340 or consent of instructor.

SPPA4250 - Clinical Methods

Credits: 4
Introduction to clinical procedures, such as: collecting data, clinical writing and documentation, reviewing practice regulations, interviewing, and counseling. Students will obtain initial clinical experience (i.e., observation, simulation and/or clinical assignment). Requirements (e.g., background check, TB screen) must be met for involvement in the Speech & Hearing Clinic.

Prerequisite: SPPA 3265

SPPA4380 - Neurological Basis of Communication

Credits: 3
Studies details of human nervous system, including central and peripheral nervous systems, major motor and sensory pathways and special senses. Emphasizes neurology of various communication disorders.

Prerequisite: SPPA 3265 or consent of instructor.

Notes:
A grade of C or better must be earned in all SPPA courses; courses in the major must be taken for a letter grade unless offered for S/U only. Also note that speech, language, and hearing topic courses from community colleges do not transfer or count as course equivalents.

Elective Courses

Upper-Division Social Behavior Credits (choose one)

Choose one from the list below (students are responsible for knowing prerequisites for these courses).

**CNSL4520 - Fundamentals of Counseling (B)**

Credits: 3  
Students learn some of the skills of counseling and develop an understanding of elementary principles of counseling theory, as well as a better understanding of themselves in relation to other people.

**Dual Listed** CNSL 5520.  
**When Offered** (Offered on campus and online all semesters)  
**Prerequisite:** junior standing; 6 hours of education or psychology and graduate standing to receive graduate credit.

**PSYC4310 - Developmental Psychopathology**

Credits: 3  
Provides basic understanding of developmental psychopathology. Examines characteristics, etiology, assessment and treatment of psychological disorders in children including autism, mental retardation, anxiety, depression, attention, learning, and conduct problems.

**Prerequisite:** A grade of C or better in PSYC 1000 and PSYC 2300 or FCSC 2121 or EDST 2450.

**PSYC4320 - Intellectual Disability**

Credits: 3  
Acquaints students with all aspects of intellectual disability including assessment, diagnosis and classification, etiology, and associated health and mental health difficulties. Prevention, educational and psychological intervention, family adaptation, and community involvement are also addressed.

**Prerequisite:** A grade of C or better in PSYC 1000 and PSYC 2300 or PSYC 4300 or FCSC 2121 or EDST 2450.

**Electives**

Lower division (1/2000) open electives (student choice - any course that does not meet another university or major requirement): 24 credits

Upper division (3/4000) open elective (student choice - any course that does not meet another university or major requirement): 12 credits
Additional Information

The BS degree prepares students for graduate study in communication disorders disciplines. Students study the normal processes associated with understanding and producing speech and language. These include anatomy, physiology, and neurology. Students also learn about normal development of speech and language in children, and they are introduced to disorders and clinical methods. Courses in related areas, such as anatomy, psychology, child development, statistics, and linguistics are also part of the program. Students obtain initial clinical experiences through observing clinical practice in the UW Speech & Hearing Clinic as part of coursework.

The B.S. degree is considered pre-professional preparation for entrance into a graduate program in speech-language pathology, audiology, or related fields. A clinical graduate degree is required in order to become a speech-language pathologist or an audiologist. The B.S. degree at UW is not designed to meet requirements to become a speech-language pathology assistant (SLP-A), additional practicum and some coursework at another institution would be required to become an SLP-A. For information on SLP-A technical programs please visit ASHA.org.

Student Learning Objectives

The BS degree provides students with a broad-based foundation in the sciences and humanities, fundamental knowledge of human communication, communication development, and the nature of communication disorders across the lifespan. Specific learning objectives can be found on the BS program website.

Criminal Background Check

Eligibility for the B.S. degree is contingent upon passing a criminal background check. Usually during the senior year, each student will be required to obtain, pay for, and pass a criminal background check as part of enrollment in advanced courses. These background checks are required in order to participate in any aspect of the UW Speech & Hearing Clinic. The results of the background check may impact a student's ability to complete the required coursework and obtain the degree. Please see the College of Health Sciences website for the policy and procedures document.

National Student Speech Language Hearing Association

Students and can join the UW chapter of the National Student Speech Language Hearing Association (NSSLHA) to become a part of a community of students interested in communication sciences and disorders. Objectives are to promote and recognize scholastic achievement and to support clinical, research, and service endeavors.

Graduate

Speech-Language Pathology, M.S.

Earn a Master of Science (M.S.) in speech-language pathology, our program is accredited by ASHA's CAA and includes 3 semesters of on-campus coursework and clinic work followed by 3 semesters of distance education and external clinical placements.
The Master of Science in Speech-Language Pathology is a professional degree program that includes 61-64 semester credit hours of enrollment (see typical programs below). Students may pursue either a thesis or non-thesis track during their graduate studies. Both tracks lead to eligibility for the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP), granted by the Council for Clinical Certification in Audiology and Speech-Language-Pathology (CFCC), which is a council serving the American Speech-Language Hearing Association. Graduates are also eligible for the Wyoming license in speech-language pathology. A supervised Clinical Fellowship Year (CFY) is required beyond the graduate degree for certification.

**Accreditation.** The Master's of Science (MS) education program in speech-language pathology [residential] at the University of Wyoming is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700.

**Typical Programs of Study**

There are two programs of study for the MS SLP program. The Plan A is the thesis option (64-credit hour program), and Plan B is the non-thesis option (61-credit hour program). The Plan A (thesis) option requires and 38 credits of graduate academic work (including 4 credits of SPPA 5960 Thesis Research) and 26 credits of graduate clinical practicum. The Plan B (non-thesis) option requires 35 credits of graduate academic work (including 1 credit of SPPA 5961 Graduate Projects/Oral Comprehensive Exam) and 26 credits of graduate clinical practicum.

**35-38 Hours of Graduate Academic Work Usually Includes:**

**SPPA5020 - Phonological Assessment and Intervention**

Credits: 3
Emphasis on normal phonetic and phonologic development, diagnosis and clinical management of articulatory and phonological disorders.

**Prerequisite:** SPPA 3210.

**SPPA5140 - EBP and Evaluation Procedures in Communication Disorders**

Credits: 4
Focuses on research and evaluation procedures in speech-language pathology. Topics include evidence-based practice, evaluating research, an overview of models of disability across applied settings, assessment and evaluation processes including interviewing, understanding tool psychometrics, and using norm-based referenced tools, criterion-based measurements, and dynamic assessment.

**Prerequisite:** Acceptance to the University of Wyoming's graduate SLP program.

**SPPA5280 - Early Language Intervention**

Credits: 3
Principles and techniques of language assessment and intervention for preschoolers, infants, and low-functioning individuals.

**Prerequisite:** SPPA 3160.
SPPA 5220 - Voice Disorders

Credits: 3
Study of the etiology, assessment, and remediation of voice disorders. Includes a discussion of preventing disorders, maintaining a healthy voice, and normal changes in voice. Presentation of rehabilitation options for laryngectomized speaker.

Prerequisite: SPPA 3265.

SPPA 5130 - Adult Neurogenic Disorders

Credits: 4
This course will cover acquired neurogenic communication disorders. Topics include language disorders (focusing on Aphasia) as well as cognitive-communication disorders (i.e., traumatic brain injury, Right Hemisphere Dysfunction, and Neurocognitive disorder). This graduate course provides 1) a basic understanding of the neuroanatomical/physiological basis and 2) instruction regarding evaluation and treatment methods.

Prerequisite: SPPA 4380.

SPPA 5330 - School-Age Language Intervention

Credits: 3
Principles and techniques of language assessment and intervention for school-age children and adolescents with particular attention to service delivery issues in schools.

Prerequisite: SPPA 3160.

SPPA 5120 - Stuttering

Credits: 2
Theories of etiology, symptoms of the problem, diagnosis and treatment of childhood non-fluency and various approaches to therapy for the adult stutterer.

Prerequisite: graduate level standing.

SPPA 5110 - Craniofacial Disorders

Credits: 2
Studies communication disorders related to cleft lip and palate disorders and associated craniofacial sequences and syndromes. Assessment and treatment of these communication disorders is presented in the context of interdisciplinary management. Surgical and nonsurgical treatment procedures employed to manage speech problems associated with velopharyngeal insufficiency are included.

Prerequisite: SPPA 3265, SPPA 2210.

SPPA 5230 - Dysphagia
Credits: 3
Provides information regarding the anatomy and physiology of the adult and pediatric swallowing mechanisms, the
diagnosis of dysphagia and feeding disorders using clinical and instrumental approaches, the medical diagnoses for
which dysphagia is a common symptom, and methods that are commonly used to treat dysphagia and feeding disorders.

Prerequisite: SPPA 3265.

SPPA5100 - Motor Speech Disorders

Credits: 2
Evaluation and treatment of motor speech disorders. Topics will include characteristics of disordered speech associated
with neurological impairments/diseases; methods for evaluating communication disorders associated with dysarthria,
apraxia of speech, and other neurological and acquired conditions, and treatment approaches.

Prerequisite: SPPA 4380 or a course covering neuroanatomy/physiology of normal and disordered communication.

SPPA5210 - Augmentative and Alternative Communication

Credits: 2
Selection, design, and application of augmentive and alternative communication (AAC) systems to enhance
communication, education, and quality of life for individuals with development and acquired disorders.

SPPA5380 - Professional Practice

Credits: 3
Max Credit (Max. 9)

Emphasizes issues related to professional practice of speech-language pathology, such as professional ethics, scope of
practice, professional standards, and techniques of counseling clients. This course applies to speech-language
pathologists working in either the medical or school setting. This course prepares the speech-language pathologist to
collaborate with other professional in the workplace through discussion and activities of inter-professional practice and
education (IPP and IPE).

Prerequisite: graduate standing in Communication Disorders and consent of instructor.

SPPA5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Graduate level course designed for students who are involved in research for their thesis project. Also used for students
whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

SPPA5961 - Graduate Projects
Max Credit (Max. 4)

Limited to those students enrolled in a Plan B graduate program. Students should be involved in non-course scholarly activities in support of their Plan B project.

**Prerequisite:** must be enrolled in Plan B program and have departmental approval.

26 Hours of Graduate Clinical Practicum Include:

**SPPA5030 - Clinical Practicum**

Credits: 1-4
Max Credit (Max. 12)

Supervised clinical experience with speech, language, and hearing disordered children and adults under supervision of University of Wyoming Speech and Hearing Clinic faculty.

**Prerequisite:** matriculating graduate students only.

(14 credits total required)

**SPPA5270 - Educational Practicum**

Credits: 1-12
Max Credit (Max. 12)

Under supervision, the student is given increased responsibility for performing speech and language assessments, hearing screenings, and treatment of children in an educational setting. Students will relate to other educational personnel and counsel teachers and families about communication disorders.

**Prerequisite:** completion of at least two semesters (including summer) of approved graduate coursework and clinical practicum (SPPA 5030); and approval of faculty.

(6 credits total required)

**SPPA5290 - Medical Practicum**

Credits: 1-12
Max Credit (Max. 12)

Under supervision, the student is given increased responsibility for performing speech and language assessments, hearing screenings and treatment of children and adults in a medical setting. Students relate to other medical and clinical personnel and counsel professionals and families about communication disorders.

**Prerequisite:** Completion of at least two semesters (including summer) of approved graduate coursework and clinical practicum; and approval of faculty.

(6 credits total required)
Note:

Note: Specific degree requirements (course name and content), may change based on departmental decisions or requirement changes from accreditation and licensure bodies.

Additional Information

Admissions to the M.S. Degree Program in Speech-Language Pathology

Admission to the master's program in speech-language pathology is made on a competitive basis. We accept students to start in the fall of each year. For application, admission, and a description of the program, see the division website. Applicants must have completed a bachelor's degree or equivalent from a regionally accredited institution. All applicants should have at least a 3.000 cumulative GPA (scale of 4.000).

Additional required undergraduate coursework and discipline specific coursework.

Admitted students must also have taken required coursework in the 4 Foundational Areas (Biological Sciences, Physical Sciences, Social/Behavioral Sciences, and Statistics). For the UW M.S. SLP program, admitted students must also have completed coursework in phonetics; speech & language development; anatomy and physiology of speech, hearing, and swallowing; audiology; neural basis of communication; and aural rehabilitation. Coursework in each of these areas is needed in order to meet the requirements of the Council for Clinical Certification in Audiology and Speech-Language-Pathology (CFCC) certification requirements and/or in order to graduate from the UW MS SLP program. Students missing any of these courses must complete requirements in order to be considered eligible for the M.S. in SLP degree.

Application Procedure

Applications to our master's program must be made through an electronic, centralized application service: the Communication Sciences and Disorders Centralized Application Service for Clinical Education in Audiology and Speech Language Pathology (CSDCAS). Instructions and application procedures are available at https://csdcas.liaisoncas.org/. Check the division web site in September for instructions.

Applicants will be notified of the division's decision on acceptance, alternate, or denial by mid-March. Applicants must respond to the offer by April 15. Alternates may be offered positions that become available after April 15.

International Students

For all International students, the university must determine whether financial resources are sufficient for study here.

International students from non-English speaking countries need a TOEFL score of 600 to show English proficiency. Additional sources of evidence may be requested by the division to make a final decision. English proficiency must be sufficient for success in graduate school and certification as a speech-language pathologist in the United States, even if the applicant intends to return to the native country.
Conditional Status

An applicant may be admitted conditionally if he or she does not meet the GPA requirements for full admission, and the Division determines that there are sufficient areas of strength for success in graduate school in comparison to other applicants. Conditions will be placed on admission such as graduate grade point average, performance criteria, or completion of certain courses.

Requirements Following Offer of Admission

Students who accept an offer of admission to the program must then provide numerous pieces of required documentation for admission to UW and program, and will also need to be responsive to emails from the Division and faculty throughout onboarding.

Criminal Background Check

Admission to the graduate program in speech-language pathology is contingent upon passing a criminal background check. Each student recommended for admission into program will be required to obtain, pay, and pass a criminal background check. Additional background checks are routinely required by schools, hospitals, and other agencies that participate in the clinical education of our students. The results of the background checks may determine admission and/or ability to complete the UW M.S. SLP program. Please see the College of Health Sciences web site for the policy and procedures document.

Vaccination Requirements

Students' admission to our program is contingent on verification of vaccinations, including COVID-19 vaccination. Other medical information (TB test) will also be requested. Admitted students can request a COVID-19 vaccination exemption from the University, but keep in mind that external clinical placements have their own processes and are not bound to accept University of Wyoming determinations. Students who are not vaccinated may be at risk for extended programs of study and/or inability to complete the degree by completing required and approved externships.

Graduate Student Outcome Data

As of September 2021, 98.04% of MS SLP students completed the program "on-time" over the last three years, 100% obtained employment, and reported Praxis Exam pass rate was 100%.

Program Specific Graduate Assistantships

Financial help for graduate students is available each year through the department with assistantships and other funding. Typically, graduate assistantships include one-half tuition support and a monthly stipend. These assistantships require the student to spend 10 hours per week assisting faculty members in teaching and research. Graduate Assistantships and scholarship awards are competitive and based on past academic performance, evidence of professional promise, and letters of recommendation.

Differential Tuition
The graduate program in speech-language pathology has a differential tuition rate. See the Division website and/or fee book for details.

Certificate

American Sign Language Studies Certificate

Gain basic foundational skills in American Sign Language (ASL), understand sociocultural aspects of Deaf communities, teach other students the basics of ASL.

The American Sign Language Studies (ASL Studies) certificate provides a basic or beginning understanding of ASL and an introduction to Deaf sociocultural issues. The ASL Studies certificate may be helpful to anyone in the health and education fields in learning to communicate with and understand individuals who are Deaf. The certificate is a nominal recognition for students who wish to pursue more education in the fields of speech-language pathology, sign language interpreter, teacher of the deaf, preschool and K-12 education, audiology, nursing, counseling and other areas. The ASL Studies Certificate is not designed or adequate to meet educational requirements for any specific professional license or certification. The ASL Studies certificate from UW is a nominal recognition of basic or beginning ASL skills and Deaf culture. It does not prepare or entitle a student or recipient for any certification or licensure from any state or national associates, agencies or governmental bodies. For more information on the ASL Studies learning objectives, see the website: http://www.uwyo.edu/comdis/american-sign-language/index.html.

ASL Studies Certificate Requirements:

Students must have earned a grade of A for all three language courses (SPPA 2110, SPPA 2120, and SPPA 4130) in order to be eligible for the certificate. ASL coursework needs to have been completed within the last 5 years in order to pursue the ASL Studies Certificate, exceptions can be granted if the student demonstrated adequate skills during a structured interview with a UW ASL instructor.

Course sequence for the certificate, 16 credits total:

**SPPA2110 - American Sign Language I**

Credits: 4
Basic comprehension and expression of American Sign Language (ASL), the language used by the Deaf community in the United States. ASL vocabulary, grammar, and pragmatics are taught through lecture, conversation, and storytelling. The direct experience method (using ASL with no voice) is utilized to enhance the learning process.

USP 2015 Code U5H
Former Course Number [4100]

**SPPA2120 - American Sign Language II**

Credits: 4
Second level of ASL comprehension and expression. ASL vocabulary, grammar, and pragmatics, along with increased fluency, are taught through lecture, conversation, and storytelling. Translation from English to ASL is addressed.

USP 2015 Code U5H
Former Course Number [4120]
Prerequisite: SPPA 2110.

SPPA4070 - Deaf Studies

Credits: 3
Studies deaf culture and deaf history in the United States. Culture topics will include deaf community dynamics, humor, behavior, emotional and social interaction, besides issues involving deaf children as a linguistic minority. History will be discussed from the 1700s to the present in the U. S.

SPPA4130 - Advanced ASL

Credits: 4
Third level of ASL comprehension and expression. Addresses increased fluency in ASL; register variation for different conversational participants; and specialized vocabulary, including sexuality and religion. Translation from English to ASL is addressed.

SPPA4140 - Undergraduate Teaching Assistant

Credits: 1
Max Credit (Max. 2)

Students assist instructor in major courses that they have successfully completed, including assisting with lab or practice sessions, providing individual student assistance, and participating in other student outreach activities on behalf of the Division. One semester credit hour requires 4 hours of work per week.

Prerequisite: consent of instructor/department and junior standing.

Division of Kinesiology and Health

Corbett Building, (307) 766-5284
FAX: (307) 766-4098
Web site: www.uwyo.edu/kandh
Director: Derek Smith

Professors:

TAMI BENHAM DEAL, B.S. Indiana University 1981; M.S. 1988; P.E.D. 1989; Professor of Kinesiology and Health 2012.
CHRISTINE M. PORTER, B.S. University of Maryland 1993; M.A. University of London 2002; Ph.D. Cornell University 2010; Professor of Kinesiology and Health 2021, 2016, 2010.

Associate Professors:

BOYI DAI, B.Ed. Beijing Sport University 2007; M.S. Iowa State University 2009; Ph.D. University of North Carolina at Chapel Hill 2012; Associate Professor of Kinesiology and Health 2017, 2012.

EVAN C. JOHNSON, B.A. The George Washington University 2004; M.A. University of Connecticut 2008; Ph.D. 2014; Associate Professor of Kinesiology and Health 2020, 2015.

R. TUCKER READDY, B.A. University of California, Berkeley 2000; M.A. San Diego State University 2004; Ph.D. Oregon State University 2009; Associate Professor of Kinesiology and Health 2016, 2010.

DEREK SMITH, B.S. Colorado State University 1997; M.S. Wake Forest University 1999; Ph.D. University of Colorado 2003; Associate Professor of Kinesiology and Health 2009, 2003.

Assistant Professors:

DANIELLE BRUNS, B.S. Linfield College-McMinnville 2008; M.S. Colorado State University 2010; Ph.D. 2013; Assistant Professor of Kinesiology and Health 2018.

BEN KERN, B.A. Western Colorado University 1999; M.A. Adams State University 2002; Ph.D. University of Illinois Urbana-Campaign 2017; Assistant Professor Kinesiology and Health 2020.

EMILY E. SCHMITT, B.S. Elon University 2007; M.S. University of North Carolina at Charlotte 2009; Ph.D. Texas A&M University 2015; Assistant Professor of Kinesiology and Health 2018.

KELLY SIMONTON, B.S. University of Wyoming 2014; M.S. Louisiana State University 2016; Ph.D. Louisiana State University 2018; Assistant Professor of Kinesiology and Health 2021.

Academic Professional:

MARCI SMITH, B.S. Colorado State University 1995; M.S. Wake Forest University 1998; Senior Lecturer in Kinesiology and Health 2015, 2003.

Adjunct Faculty:

Laurence Deal, Shane Tweeter

Professors Emeriti:

Paul Dunham, Ward Gates, Charles W. Huff, Donna Marburger, D. Paul Thomas, Mark Byra, Jayne Jenkins
The Division of Kinesiology and Health offers the Kinesiology and Health Promotion (K&HP) major and the Physical Education Teacher Education (PHET) major. These two majors prepare students in kinesiology and health promotion for a variety of clinical and nonclinical settings including teaching physical and health education in schools K-12. Students enrolled in these programs must meet academic standards as determined by the Division of Kinesiology and Health, College of Health Sciences, and the University of Wyoming.

The K&HP major prepares students well for admission to physical therapy school and occupational therapy school, as well as other health professions (e.g., physician, physician assistant, dentist, chiropractor, optometrist, etc.). Approximately 60% of students majoring in K&HP apply to one of these health professional schools once they have completed their B.S. degree in Kinesiology and Health. Other students majoring in training, fitness, recreation, and leisure, and health promotion with state agencies enter a very diverse job market.

The PHET program prepares students to teach physical and health education (PHET) in K-12 schools. The PHET major is a nationally recognized program for meeting the NASPE/NCATE Initial Physical Education Teacher Education Accreditation Standards. This program offers individuals opportunity to combine certifications/endorsements in health education K-12, adapted physical education K-12, and coaching.

A graduate program leading to a Master of Science degree in Kinesiology and Health is offered by the Division.

**Professional Program**

Students who meet University of Wyoming entry requirements are admitted to the university in one of the two undergraduate majors that leads to the Bachelor of Science degree. The Division's undergraduate majors are open at the freshman level to all graduates of accredited high schools. Advanced placement for students with previous college credit is based on evaluation of transcripts of previous academic work.

Students in the Kinesiology & Health Promotion (K&HP) program are ready to move forward in the junior year of the program when they complete the pre-requisite requirements to enroll in KIN 3021 and KIN 3022, Physiology of Exercise lecture and laboratory. To be eligible for the K&HP Professional Program (junior/senior years), students must have completed all program course prerequisites and have a minimum cumulative grade point average of 2.750, preferred GPA of 3.000. Advancement in the K&HP Professional Program is complete once prerequisite criteria is met.

The entry course for admission to the Physical Education Teacher Education (PHET) program is KIN3012 - Teaching Laboratory I. To be eligible, for the PHET professional program, students must have completed all program course prerequisites and have a minimum cumulative grade point average of 2.750, preferred GPA of 3.000. Admission to the last two years of the PHET major is a competitive process. Application to the PHET majors is conducted only for fall. The application deadline is early April.

**Undergraduate Majors**

Kinesiology and Health Promotion, B.S.

Physical Education Teacher Education K-12, B.S.

**Additional School Endorsements K-12**

Adapted Physical Education K-12 Endorsement

School Health Education K-12 Endorsement (For Physical Education Teacher Education Majors)

**Affiliated Options**
The Division of Kinesiology and Health offers two options for the general undergraduate population. They require course work beyond degree requirements.

Athletic Coaching Endorsement / Permit

School Health Education K-12 Endorsement (For non-Physical Education Teacher Education Majors)

**Graduate Study**

**Program Specific Admission Requirements**

Admissions into the M.S. degree program is open to people who have obtained an undergraduate degree with a major program of study in exercise and sport science, health, kinesiology, physical education, or other area in human movement sciences. Students who do not have a bachelor’s degree in kinesiology, physical education or health are required to complete four undergraduate courses in kinesiology and/or health in addition to the courses required for the graduate program of study. Individuals interested in applying are encouraged to contact the Graduate Program Coordinator, Dr. Tucker Readdy (tucker.readdy@uwyo.edu) for more information.

In order to apply, please submit the following via the University of Wyoming’s online application system (www.uwyo.edu/admissions/apply.html): K&H supplemental application, copies of GRE scores, transcripts, a sample of professional writing, and three letters of recommendation. Applications must be submitted no later than February 1 to be considered for Fall admission; Spring admissions are also considered on a case by case basis.

GRE scores are required for admission but can be waived in specific situations. A minimum of a 3.00 undergraduate cumulative GPA is also necessary for admission. International students who are not native English speakers must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (www.uwyo.edu/ele/) if you have questions regarding English proficiency requirements.

Please see the Graduate Admissions and Graduate Student Regulations and Policies in the front section of the UW Catalog for more information.

**Program Specific Graduate Assistantships**

Graduate assistantships are available on a competitive basis. Teaching opportunities exist within the laboratory portions of the human anatomy and exercise physiology courses, the teaching laboratory portions of the pedagogy practical courses, and HLED1006 - Personal Health. A graduate assistantship also involves some research opportunities with assigned graduate faculty advisors.

A stipend for a full time graduate assistant is $12,333.00 per academic year. Tuition and fees are covered according to the percentage of assistantship allocated to the student.

**Program Specific Degree Requirements Master's Programs**

Kinesiology and Health, Exercise and Sport Science Emphasis, M.S.  *Plan A (thesis)*

Kinesiology and Health, Health Emphasis, M.S. *Plan A (thesis)*

Kinesiology and Health, Physical Education Teacher Education Emphasis, M.S.  *Plan A (thesis)*

Kinesiology and Health, M.S.  *Plan B (paper and experiential learning option)*
Major

Kinesiology and Health Promotion, B.S.

The B.S. in Kinesiology and Health Promotion degree prepares students for careers in clinical exercise physiology, health and movement coaching, biomechanics, nutrition, basic science, and behavioral science. The program is also excellent for students seeking to enter the field of medicine.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate and are not covered by the Kinesiology and Health Promotion major. These courses should be taken before KIN 3021 & 3022, except the Communications III (USP-C3) course.

First Year Seminar (3 credits)

Communications I (3 credits)

ENGL 1010 English Composition

Communications II (3 credits)

Communications III (3 credits)

U.S. & Wyoming Constitution (3 credits)

Human Culture

Any USP-H course (not HLED) (3 credits, meets 3 out of 6 credits of Human Culture USP requirement)

Courses required for major

PSYC1000 - General Psychology

Credits: 3
Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

MATH1400 - College Algebra

Credits: 3
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring,
theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

**CHEM1000 - Introductory Chemistry**

Credits: 4
Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.

**When Offered** (Normally offered fall semester)
USP 2003-2014 Code U3SP
USP 2015 Code U5PN
**Prerequisite:** Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.
OR CHEM 1020 - General Chemistry I

**LIFE1010 - General Biology**

Credits: 4
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN
**Former Course Number** [BIOL 101]

**Prerequisite:** Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

**FCSC1141 - Principles of Nutrition**

Credits: 3
This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

**HLED1006 - Personal Health**

Credits: 3
Introduces multiple concepts of personal health (e.g., physical activity, diet, stress, social pressure, public health,
human behavior, disease prevention, healthcare access, and health-oriented citizenship) in relation to improving individual health and understanding the health of a society and cultural differences in human health and health behavior.

USP 2015 Code U5H

**KIN1006 - Introduction to Kinesiology and Health**

Credits: 1
A survey of the disciplines of kinesiology and health and exposure to foundational literature in the field.

**Prerequisite:** Declared Kinesiology & Health Promotion major or permission of instructor.

**KIN2040 - Human Anatomy**

Credits: 3
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB
**Former Course Number** [PEPR 2040]

**Prerequisite:** LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

**KIN2041 - Human Anatomy Laboratory**

Credits: 1
A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB
**Former Course Number** [PEPR 2041]

**Prerequisite:** KIN 2040 or concurrent enrollment in KIN 2040.

**STAT2050 - Fundamentals of Statistics**

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
PHYS1050 - Concepts of Physics

Credits: 4
Introduces the physical world. For students whose background in math and science is minimal; recommended for students in paramedical sciences and medical technology. Three lecture hours per week are supplemented by two hours per week of laboratory work.

ZOO3115 - Human Systems Physiology

Credits: 4
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

HLED3020 - Community and Public Health

Credits: 3
Public health aim to create the conditions where people can be healthy. This course introduces goals and applications of community and public health work in the US, illustrated with case studies from the most urgent health issues facing our nation.

KIN3021 - Physiology of Exercise

Credits: 3
Applies physiological principles to human physical activities. Emphasizes interaction of neuromuscular circulatory, and respiratory mechanisms as affecting, and affected by, immediate exercise situations and physical training. Students who are not K&H or PHET majors may be allowed to register with permission of the instructor.
1450, KIN 2040, KIN 2041, and ZOO 3115. Or declared PHET major with the following courses completed: MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115.

A minimum cumulative GPA of 2.750 (preferred 3.000) is required before taking KIN 3021

**KIN3022 - Lab Exp in Exercise Physiology**

Credits: 1
An in-depth examination of the measurement of physiological principles and mechanisms related to human movement. Lab exercises emphasize skills necessary for basic morphological through advanced exercise performance testing variables. Laboratory writing exercises focus on improving students’ ability to read and comprehend scientific articles and produce scientific writing based on their own experiments and data.

**Prerequisite:** KIN 3021 or concurrent enrollment.

**KIN3024 - Fundamentals of Health and Fitness Assessment**

Credits: 3
Fundamental concepts of health appraisal, assessment of health-related fitness levels, individual and group exercise programming and leadership, and methods of behavioral change. Theory and practical application of fitness presented with an emphasis on adults. Has lecture and lab components. Completion of KIN 3021 highly recommended.

**Former Course Number** [PEPR 3010]

**Prerequisite:** completed or concurrent enrollment in KIN 3021; 2.750 GPA.

**KIN3034 - Lifespan Motor Development**

Credits: 3

**Former Course Number** [PEPR 3034]

**Prerequisite:** grade of C or better in PSYC 1000; junior standing; 2.750 GPA.
OR KIN 4020 Motor Behavior

**KIN3037 - Sport Psychology**

Credits: 3
Studies psychological theories and techniques applied to sport to enhance the performance and personal growth of athletes and coaches. Emphasizes the influence of personality, anxiety, motivation, social factors, and psychological skills training.

**Former Course Number** [PEPR 3037]
Prerequisite: Admitted to the last two years of one of the programs in DK&H.
OR KIN 3038 Exercise Psychology

**KIN3042 - Biomechanics of Human Movement**

Credits: 3
Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

Former Course Number [PEPR 3042]

Prerequisite: grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

Minimum of 6 hours total in:

**KIN4015 - Internship Experience in Kinesiology**

Credits: 1-12
Variable-credit (1-12) and S/U course required of Kinesiology and Health undergraduate majors to provide experiential learning in kinesiology and health in a real world setting. Intended to integrate theory and technique with practical application to expose students to areas of professional/career interest and assist with building professional careers. Must have CPR/ AED/1st Aid Certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed HLED 4015.
Former Course Number [PEPR 4015]

Prerequisite: Grade of C or better in KIN 3024;
OR

**HLED4015 - Internship Experience in Health**

Credits: 1-12
Max Credit (Max. 12)

Variable-credit (1-12) and S/U course required of Kinesiology and Health undergraduate majors to provide experiential learning in kinesiology and health in a real world setting. Intended to integrate theory and technique with practical application to expose students to areas of professional/career interest and assist with building professional careers. Must have CPR/AED/1st Aid Certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed KIN 4015.
Prerequisite: Grade of C or better in KIN 3024; 2.750 GPA; completion of a minimum of 18 credits in KIN/HLED upper division coursework.
OR
KIN4016 - Research Experience in Kinesiology and Health

Credits: 1-6
Max Credit (Max. 6)

Offered to students who wish to gain a research experience in Kinesiology and Health. Meant for students who are interested in pursuing an advanced degree. Students may choose to complete KIN/ HLED 4016 instead of KIN/HLED 4015. Must have CPR/AED/1st Aid certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed HLED 4016.
Prerequisite: minimum sophomore standing; declared KHP major; permission of instructor; 2.750 GPA.
OR

HLED4016 - Research Experience in Kinesiology and Health

Credits: 3-6
Max Credit (Max. 6)

Offered to students who wish to gain a research experience in Kinesiology and Health. Meant for students who are interested in pursuing an advanced degree. Students may choose to complete KIN 4016/HLED 4016 instead of KIN 4015/HLED 4015. Must have CPR/AED/1st Aid certification prior to enrollment. Background check must be completed prior to start of course.

Cross Listed KIN 4016.
Prerequisite: minimum sophomore standing; declared KHP major; permission of instructor; and minimum 2.750 GPA.

Elective Courses

KIN/HLED Upper-Division Elective Coursework (15 credits)

15 credits of 3000-4000 level KIN/HLED elective coursework is required in addition to the required KIN & HLED courses listed above.

Consult with your advisor to see list of possible courses.

General Electives (25 credits)

Degree must include 120 credits, at least 48 of which must be upper-division credits.

KIN and HLED electives (i.e., non required courses) from above may be counted towards these 25 credits. KIN 2050 is recommended as one elective course.

Consult with your academic advisor and your pre-health advisor (if applicable). Pre-health students will need to take additional professional prerequisite courses as electives.

Additional Requirements

Students must complete 48 credit hours of upper division coursework (3000- or 4000-level courses) to meet the Division's minimum 48 credit hour requirement for the B.S. degree in Kinesiology and Health Promotion.
NOTE: Students should complete CPR & first aid certification and the certification should remain current throughout the program. Cards can be presented to the division registrar in Corbett 119 to be cleared of the requirement on the degree evaluation.

PRE-HEALTH ANNOUNCEMENT
This degree is great preparation for various careers in health care and allied health. If you are interested in becoming a strong applicant to graduate school for a career in these fields, please tell your primary advisor and connect with the Pre-Health Advising Office on campus as soon as possible: https://www.uwyo.edu/preprof/ or hsadvise@uwyo.edu

Your career of choice will determine which math and science courses you need to take in your first years, so talk to them early!

Physical Education Teacher Education K-12, B.S.

The Physical Education program is a nationally accredited program where students learn the content and teaching methods required to be certified to teach physical education K-12 in the public schools of Wyoming.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate. Many of these requirements are covered by the Physical Education Teacher Education K-12 major. All USP courses except the Communications II (USP-C2) and Communications III (USP-C3) courses must be completed prior to admission into the Physical Education Teacher Education Program.

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

Credits: 3  
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Prerequisites for Admission**

*Prerequisites for admission into the Physical Education Teacher Education program:*
**PSYC1000 - General Psychology**

Credits: 3  
Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS  
USP 2015 Code U5H

**MATH1400 - College Algebra**

Credits: 3  
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.  
OR MATH 1405 Trigonometry

**CHEM1000 - Introductory Chemistry**

Credits: 4  
Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.  
**When Offered** (Normally offered fall semester)  
USP 2003-2014 Code U3SP  
USP 2015 Code U5PN  
**Prerequisite:** Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.  
OR CHEM 1020 - General Chemistry

**LIFE1010 - General Biology**

Credits: 4  
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB  
USP 2015 Code U5PN  
**Former Course Number** [BIOL 1010]
Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

**FCSC1141 - Principles of Nutrition**

Credits: 3
This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

**HLED1006 - Personal Health**

Credits: 3
Introduces multiple concepts of personal health (e.g., physical activity, diet, stress, social pressure, public health, human behavior, disease prevention, healthcare access, and health-oriented citizenship) in relation to improving individual health and understanding the health of a society and cultural differences in human health and health behavior.

USP 2015 Code U5H

**KIN2000 - Movement Core I: Striking/Fielding and Invasion Games**

Credits: 2
Exposes students to skill and tactical themes comprising striking/fielding and invasion games. Course aims for students' ability to understand, demonstrate and analyze the different offensive and defensive tactics that facilitate game play success in invasion (soccer, tag rugby, basketball) and striking/fielding (softball, cricket) games.

**Former Course Number** [PEPR 2000]

Prerequisite: sophomore standing.

**KIN2001 - Movement Core II: Net and Target Games**

Credits: 2
Exposes students to skill and tactical themes comprising net and target games. Course aims for students' ability to understand, demonstrate and analyze different offensive and defensive tactics facilitating game play success in net (volleyball, tennis, badminton) and target (archery) games.

**Former Course Number** [KIN 1025, PEPR 1025]

Prerequisite: sophomore standing.

Movement Core IV: Adventure and Outdoor Education - To provide prospective pre-service physical education teachers (PTs) with the skills and knowledge necessary to teach adventure and outdoor education curricula to K-12 learners.

**Former Course Number** [KIN 1000, PEPR 1000] **Restricted** Sophomore standing

**Prerequisite:** sophomore standing.

**KIN2004 - Move Core V: FMS & Ind. Act.**

Credits: 3  
Max Credit 3

Movement Core V: Fundamental Movement Skills, Gymnastics, Dance, and Swimming - To provide prospective pre-service physical education teachers (PTs) with the skills and knowledge necessary to teach fundamental motor skills, gymnastics, dance, and swimming to K-12 learners.

**Former Course Number** [KIN 3025, PEPR 3025] **Restricted** Sophomore standing

**KIN2005 - Movement Core VI: Physical Fitness and Physical Activity**

Credits: 2  
Designed for prospective school-based physical and health education teachers K-12. Focuses on five primary content areas: what is fitness education and why do we need it; development of content-based fitness curriculum; teaching cognitive aspects of fitness education; teaching physical aspects of fitness education; and promoting fitness education.

**Former Course Number** [KIN 2025, PEPR 2025]

**Prerequisite:** sophomore standing.

**KIN2040 - Human Anatomy**

Credits: 3  
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

**Former Course Number** [PEPR 2040]

**Prerequisite:** LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.
KIN2041 - Human Anatomy Laboratory

Credits: 1
A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

PHYS1050 - Concepts of Physics

Credits: 4
Introduces the physical world. For students whose background in math and science is minimal; recommended for students in paramedical sciences and medical technology. Three lecture hours per week are supplemented by two hours per week of laboratory work.

Prerequisite: MATH 1000 or equivalent, or passing the Mathematics Placement examination at Level 2.
OR PHYS 1110 General Physics I

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.
OR STAT 2070 Introductory Statistics for the Social Sciences

ZOO3115 - Human Systems Physiology

Credits: 4
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

EDSE3540 - Teaching Reading and Study Strategies in the Content Areas
Credits: 2-4
Provides students majoring in secondary education programs with a knowledge of reading factors as they relate to various disciplines. Content includes estimating students' reading ability, techniques for vocabulary development, questioning strategies, and developing reading related study skills.

Former Course Number [EDCI 3540]

Prerequisite: junior standing and minimum 12 hours in discipline area.

Required Courses After Admission

Required courses after admission into the professional program.

Consult with your academic advisor for the order in which these courses must be taken, or if you have any questions.

KIN3011 - Teaching Methods in Physical Education K-12

Credits: 3
Develops knowledge, skills and understandings appropriate to successful participation in a class setting when functioning in the teaching role.

Former Course Number [PEPR 3011]

Prerequisite: grade of C or better in KIN 3012; concurrent enrollment in KIN 3015 and KIN 4080.

KIN3012 - Teaching Laboratory I

Credits: 3
Provides the opportunity to develop skills and acquire knowledge needed to teach physical education. Allows the opportunity for students to evaluate the motor status and progress of a preschool aged child, as well as plan and implement a developmentally appropriate motor program.

When Offered (Offered fall semester)
USP 2015 Code U5C2
Former Course Number [PEPR 3012]

Prerequisite: Admitted to PHET program.

KIN3015 - Teaching Laboratory II

Credits: 3
Provides pre-service physical education teacher with skills, knowledge and principles of teaching through application of peer teaching and small group elementary school teaching. Emphasizes and practices program development, lesson planning and development of a physical education teaching unit.
When Offered: (Offered spring semester)
USP 2003-2014 Code U3WC
Former Course Number: [PEPR 3015]

Prerequisite: grade of C or better in KIN 3012; concurrent enrollment in KIN 3011, KIN 4080.

KIN3021 - Physiology of Exercise

Credits: 3
Applies physiological principles to human physical activities. Emphasizes interaction of neuromuscular circulatory, and respiratory mechanisms as affecting, and affected by, immediate exercise situations and physical training. Students who are not K&H or PHET majors may be allowed to register with permission of the instructor.

Former Course Number: [PEPR 3021]

Prerequisite: 2.750 GPA. For Kinesiology & Health majors: grade of C or better in MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115. Or declared PHET major with the following courses completed: MATH 1400/MATH 1405/MATH 1450, KIN 2040, KIN 2041, and ZOO 3115.

KIN3022 - Lab Exp in Exercise Physiology

Credits: 1
An in-depth examination of the measurement of physiological principles and mechanisms related to human movement. Lab exercises emphasize skills necessary for basic morphological through advanced exercise performance testing variables. Laboratory writing exercises focus on improving students' ability to read and comprehend scientific articles and produce scientific writing based on their own experiments and data.

Prerequisite: KIN 3021 or concurrent enrollment.

KIN3034 - Lifespan Motor Development

Credits: 3

Former Course Number: [PEPR 3034]

Prerequisite: grade of C or better in PSYC 1000; junior standing; 2.750 GPA.

KIN3037 - Sport Psychology

Credits: 3
Studies psychological theories and techniques applied to sport to enhance the performance and personal growth of athletes and coaches. Emphasizes the influence of personality, anxiety, motivation, social factors, and psychological skills training.
**Former Course Number** [PEPR 3037]

**Prerequisite:** Admitted to the last two years of one of the programs in DK&H.
OR KIN 3038 Exercise Psychology

**KIN3042 - Biomechanics of Human Movement**

Credits: 3
Introduces fundamental principles of human movement. Includes study and elementary analysis of human motion based on anatomical and mechanical principles.

**Former Course Number** [PEPR 3042]

**Prerequisite:** grade of C or better in PHYS 1050 or PHYS 1110 or PHYS 1210 or PHYS 1310; completion of KIN 2040; and minimum 2.750 GPA.

**KIN3050 - Prevention and Care of Athletic Injuries**

Credits: 2
Encompasses theory and practical work in the field of athletic training. Strongly emphasizes prevention and care of athletic injuries, including wrapping and taping techniques.

**Former Course Number** [PEPR 3050]

**Prerequisite:** junior standing; C or better in KIN 2040; minimum 2.750 GPA.

**KIN3060 - Understanding Skill Acquisition for Teaching**

Credits: 3
Addresses practical questions specific to teaching physical activity

**Prerequisite:** C or better in PSYC 1000; junior standing; declared major in KHP or PHET; 2.750 GPA; or permission of instructor.

**KIN4012 - Curriculum Development in Physical Education**

Credits: 3
Focuses on the design of K-12 school physical education programs. It provides opportunities to study alternative curriculum models, engage in the process of curriculum design, and examine policy and theoretical issues of concern to curriculum designers.

**When Offered** (Offered fall semester)

**Former Course Number** [PEPR 4012]
**KIN4013 - School Administration for the Health Sciences**

Credits: 2  
Provides teaching majors with information about staff-administrator relationships in school settings. Topics include principles of leadership, school organization and culture, legal issues, financial issues, building and facilities management.

**Prerequisite:** grade of C or better in KIN 3011, KIN 3015 and KIN 4080.

**KIN4017 - Teaching Laboratory III**

Credits: 3  
Focuses on the application of teaching skills and the effective utilization of sport-based curricular and instructional models in the secondary public school setting.

**When Offered** (Offered fall semester)  
**Former Course Number** [PEPR 4017]

**KIN4055 - Adapted Physical Education**

Credits: 2  
Presents skills necessary to plan, implement and evaluate individualized physical education programs in the least restrictive environment. Acquaints students with current laws, characteristics, assessment instruments and nationally validated programs in physical education for the disabled child.

**When Offered** (Offered spring semester)  
**Former Course Number** [PEPR 4055]

**KIN4080 - Assessment in Physical Education**

Credits: 3  
Provides prospective teachers with a thorough knowledge of learner assessment as applied to physical education K-12.

**When Offered** (Offered spring semester)  
USP 2003-2014 Code U3WC  
USP 2015 Code U5C3  
**Former Course Number** [PEPR 4080]
Prerequisite: grade of C or better in KIN 3012.

KIN4099 - Student Teaching in Physical Education

Credits: 1-16
Student teaching is the culminating experience required of all students in teacher education for graduation and recommendation for certification. Consists of full-time assignment of 16 weeks in an approved school station in Wyoming under supervision of an experienced, approved supervising teacher.

Former Course Number [PEPR 4099]

Prerequisite: grade of C or better in KIN 4017.

Note(s):

*** Note: Students must be certified in first aid and CPR prior to enrollment in KIN 4099.

Additional Requirements

Students must complete 48 credit hours of upper-division coursework (3000- or 4000-level courses) to meet the Division’s requirement for the B.S. in Physical Education Teacher Education. For any elective coursework, it is recommended that these courses are selected from the Affiliated Options on this page.

In order to advance into the professional program, students must be admitted through a competitive application process. The entry course for admission to the Physical Education Teacher Education (PHET) program is KIN 3012, Teaching Lab 1. To be eligible for the PHET professional program, students must have completed all program course prerequisites and have a minimum cumulative grade point average of 2.750, preferred GPA of 3.000.

NOTE: Students should complete CPR certification and the certification should remain current throughout the program. Cards can be presented to the division registrar in Corbett 119 to be cleared of the requirement on the degree evaluation.

Affiliated Options

The Division of Kinesiology and Health offers two options for the general undergraduate population. They require course work beyond degree requirements.

Athletic Coaching Endorsement/Permit

Students who wish to qualify for an athletic coaching permit to coach in Wyoming public schools must complete four courses. Note: Endorsements are for current teachers. Permits are for those who are not a licensed educator.

• CPR Certification

KIN3050 - Prevention and Care of Athletic Injuries
Credits: 2
Encompasses theory and practical work in the field of athletic training. Strongly emphasizes prevention and care of athletic injuries, including wrapping and taping techniques.

**Former Course Number** [PEPR 3050]

**Prerequisite:** junior standing; C or better in KIN 2040; minimum 2.750 GPA.
- Foundations of Coaching KIN 4090 / KIN 5090 - 3 Credit Hours
- Students completing the Physical Education Teacher Education undergraduate degree are exempt from the KIN 4090/5090 requirement.
- Coaching in... Experience (completed at a community college or complete a coaching experience in a specific sport for one season or more with a letter written by your supervising coach to submit with your PTSB endorsement application form).

**School Health Education K-12**

In addition to completing a bachelor's degree in teaching at the secondary level from an approved university program, 25 credit hours are required to be endorsed to teach health education K-12 in the public schools of Wyoming.

**FCSC1141 - Principles of Nutrition**

Credits: 3
This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

**HLED1006 - Personal Health**

Credits: 3
Introduces multiple concepts of personal health (e.g., physical activity, diet, stress, social pressure, public health, human behavior, disease prevention, healthcare access, and health-oriented citizenship) in relation to improving individual health and understanding the health of a society and cultural differences in human health and health behavior.

USP 2015 Code U5H
- CPR Certification

**HLED4120 - Assessment in Health**

Credits: 3
Provide students with an understanding of components of a balanced assessment system in school health education. Students review the basics of standards-based health education and explore innovations in assessment that provide teachers and students with a more complete and authentic picture of student learning.

**Prerequisite:** Minimum 2.500 GPA; concurrent enrollment in KIN 4099 or certified K-12 teacher.

**HLED4025 - Teaching Sensitive Issues In Human Sexuality**
Prepares educators and other helping professionals whose work involves promoting healthy sexuality in children, young people, and adults. It also provides detailed investigation into important aspects of teaching sensitive issues related to human sexuality. Students practice, critique, develop, and evaluate sexuality education processes and resources.

**Dual Listed** HLED 5025.
**Prerequisite:** Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

**HLED4110 - Teaching Health in Schools K-12**

Credits: 3
Presented appropriate knowledge and skills to become health literate. Explore ways to teach health skills and knowledge and use assessment strategies for health education.

**When Offered** (Offered fall semester)
**Prerequisite:** Grade C or better in KIN 3015 or certified K-12 teacher.

**HLED4130 - Management of Coordinated School Health Programs**

Credits: 3
Reviews the coordinated school health program (CSHP) model and identifies research that supports the eight components of the model. Prepares students to advocate for CSHP and to develop the school infrastructure necessary to carry out such a program. Also prepares individuals to work with school from job settings outside the school.

**Dual Listed** HLED 5130.
**When Offered** (Offered fall semester)
**Prerequisite:** Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

**PSYC2210 - Drugs and Behavior**

Credits: 3
Surveys drugs which affect behavior, emphasizing both psychotherapeutic agents and drugs with abuse potential. Includes brief introduction to the chemistry of the brain and how drugs may have their effects. Behavioral, social, historical and medical aspects of each major class of psychoactive drugs are discussed.

**Prerequisite:** A grade of C or better in PSYC 1000.

OR

**HLED4030 - Teaching About Alcohol and Substance Abuse**

Credits: 3
Introduces students to the issues of societal and personal attitudes towards alcohol and substance use, misuse and abuse. Prepares an educator to teach about alcohol and substance abuse in the classroom and out of the school setting.

**Prerequisite:** Sophomore standing; minimum 2.750 GPA; or permission of instructor.
Adapted Physical Education K-12 Endorsement

In addition to completing the Bachelor of Science degree in physical education teacher education from the University of Wyoming, students can qualify for K-12 endorsements in adapted physical education and/or health education by completing the following course requirements:

**EDEX2484 - Introduction to Special Education**

Credits: 3  
Designed to meet the needs of education majors for a required course in special education. Students will explore the history of, understanding of and services for individuals with low/high incidence disabilities.

**Prerequisite:** EDST 2450 completed with a C or better and an institutional GPA of 2.50.

**KIN4055 - Adapted Physical Education**

Credits: 2  
Presents skills necessary to plan, implement and evaluate individualized physical education programs in the least restrictive environment. Acquaints students with current laws, characteristics, assessment instruments and nationally validated programs in physical education for the disabled child.

**When Offered** (Offered spring semester)  
**Former Course Number** [PEPR 4055]

**Prerequisite:** KIN 3012.

**KIN4065 - Resources in Adapted Physical Education**

Credits: 2-3  
Max Credit (Max. 3)  
Offers flexible credit for students interested in pursuing intensive study of resources for adapted physical education. Required for state endorsement in Adapted Physical Education.

**Former Course Number** [PEPR 4065]

**Prerequisite:** grade of C or better in KIN 4055.

**KIN4075 - Assessment in Adapted Physical Education**

Credits: 3  
Designed to provide an overview of the assessment process in adapted physical education. Developmentally and disability appropriate psychomotor assessments and procedures for administering them are examined.

**Prerequisite:** grade of C or better in KIN 4055 and KIN 4080.
Graduate

Kinesiology and Health Distance Education, M.S.

Master of Science Distance Education Program is designed for teachers, coaches, and other health professionals to fit into their busy schedules. Students can complete the Master of Science degree via synchronous or online modalities in a three, four, or five year period of time.

Plan B (Paper)

General Information

Teachers of health and physical education typically teach throughout the day and coach during the evenings and weekends. Therefore, traditional on campus Master's degree programs that require students to attend the University of Wyoming in Laramie are often simply impossible for teachers and other health professionals to fit into their busy schedule.

The Division of Kinesiology and Health offers the Master of Science degree in Kinesiology and Health as an off-campus, distance education program. All courses are delivered via synchronous or online modalities. The distance education program is designed such that you can complete the Master of Science degree in a three, four, or five year period of time.

This program involves a minimum of thirty (30) total credit hours of coursework and a culminating paper or case study presentation (experiential learning option) that is developed on a topic selected by the student in conjunction with her or his graduate faculty advisor. The process for composing the culminating paper or case study includes the development of a prospectus and final presentation of the paper or case study. Students who elect the experiential learning option will also be required to complete three (3) credits of KIN 5990 (Internship). At least twenty-one (21) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the nine (9) hours of general required courses.

General Required Courses (9 Credits)

1 May substitute EDRE 5530

KIN5080 - Investigations in Kinesiology and Health

Credits: 1-3
Max Credit (Max. 3)

Designed to develop Master of Science level graduate students into critical consumers of research. An additional purpose is to develop research skills to the level necessary to complete a master of science Plan B paper.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5085 - Research Methods
Credits: 3
Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

Prerequisite: graduate standing in KIN or permission of instructor.

EDRE5600 - Introduction to Quantitative Research

Credits: 3
Basic concepts of educational survey research design, statistics, and measurement. The focus is on descriptive statistics (measures of central tendency, variability, percent and frequency distribution, bivariate correlation, graphical displays, testing hypotheses about proportions). Students develop questionnaires and plan, conduct, and report on a survey study.

OR

EDRE5640 - Introduction to Qualitative Research

Credits: 3
This course introduces qualitative research. Students will explore the foundations, social science theories, methods, and processes of qualitative research and will learn to critically evaluate published research. Emphases will include basic design principles, trustworthiness, and analysis. Students will engage in original data collection and will produce a mini report.

Prerequisite: EDRE 5530.

Kinesiology and Health Electives (15 Credits)

12 credits selected from the following KIN courses:

KIN5011 - Teacher Socialization in PE

Credits: 3
Max Credit 3

This course provides students with understanding of how physical educators are recruited into, professionally trained, and function in the workplace. Students will have the opportunity to analyze, critique, and evaluate empirical evidence related to socialization in physical education, as well as conduct research on given topics from the socialization literature.

Prerequisite: Graduate standing or permission from instructor

KIN5014 - Teaching Tactics in Sport-Based Physical Education

Credits: 3
Introduces students to the instructional strategy of the Tactical Games Approach (Mitchell, Oslin, & Griffin, 2006) of teaching sport-based activities in physical education. Emphasis is on planning, implementing, assessing and evaluating the tactical approach within the K-12 physical education context.
Prerequisite: graduate standing in KIN or permission of instructor.

**KIN5016 - Analysis and Supervision of Teaching in Physical and Health Education**

Credits: 3
Introduces various evaluative and supervisory techniques which are designed to improve teaching effectiveness and student learning. Emphasis will be placed on utilizing various strategies of evaluation in instructional settings.

Prerequisite: graduate standing in KIN or permission of instructor.

**KIN5018 - Psychology of Teaching Physical Education**

Credits: 3
Weaves together theory, research, and practical information related to the psychological aspects of teaching physical education. It shows how you can use psychological principles and strategies to manage behavior, motivate students, achieve program goals, and establish a positive learning environment.

Prerequisite: graduate standing in KIN or permission of instructor.

- KIN 5019 - Instructional Models for Physical Education Credits: 3

**KIN5090 - Foundations of Coaching**

Credits: 3
Coaches must be effective teachers, trainers, fund-raisers, recruiters, motivators, administrators, and counselors. The major purpose of this course is to provide future coaches with current information about the eight domains of essential coaching skills identified in the NSSC. These domains include philosophy and ethics, safety and injury prevention, physical conditioning, growth and development, teaching and communication, sport skills and tactics, organization and administration, and evaluation.

Dual Listed KIN 4090.

Prerequisite: graduate standing in KIN or permission of instructor.

**Elective Courses (6 Credits)**

Students are encouraged to complete at least one course from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

**Contributions of Coursework to M.S. Degree Program**

- Investigation in Kinesiology and Health: Maximum of 3 credit hours of Investigation in Kinesiology and Health (KIN 5080) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Thesis Research: No credit hours of Thesis Research (KIN 5960) may contribute to the Plan B Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097 /KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
• Practicum/Internship Coursework: Maximum of 3-credit hours of Practicum in College Teaching (HLED 5900 /KIN 5900) or KIN 5990 - Internship may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

• 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

**Kinesiology and Health, Exercise and Sport Science Emphasis, M.S.**

Master of Science with Emphasis in Exercise and Sport Science is designed for students who want to pursue doctoral degrees and careers in exercise physiology, biomechanics, exercise and sport psychology, motor learning and control, physical activity and lifespan development, etc.

**Plan A (Thesis)**

The Plan A option of the Master of Science degree in ESS is designed to prepare students for careers in one of the subdisciplines (e.g., exercise physiology, biomechanics, exercise and sport psychology, motor learning and control, physical activity and lifespan development, etc.).

All students complete a series of general required courses and a concentration of courses in their specific ESS subdiscipline. The ESS area of emphasis involves a minimum of thirty (30) total credit hours of coursework, a thesis, and a final oral examination. At least twenty-five (25) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the ten (10) hours of general required courses.

**General Required Courses (10 Credits)**

1 May substitute STAT 5060, STAT 5070, STAT 5080; or EDRE 5600 or EDRE 5640. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0

**KIN5085 - Research Methods**

Credits: 3
Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

**Prerequisite:** graduate standing in KIN or permission of instructor.

**KIN5960 - Thesis Research**

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.
**Prerequisite:** graduate standing in KIN or permission of instructor.

**STAT5050 - Statistical Methods for the Biological Science**

Credits: 3
General statistical analyses and their application to the biological and behavioral sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 3050, 5050, 5060, STAT 5070.

**Cross Listed** ZOO 5050.
**Prerequisite:** one course in statistics (all introductory courses except 2000).

**Specialized Required Courses (9-15 Credits)**

Area of specialization will include three to five courses (9-15 hours) within the student's chosen ESS subdiscipline. Your advisor will identify courses to be taken specific to the selected area of emphasis.

**Elective Courses (Minimum 6 Credits)**

Students are encouraged to complete at least one of their elective course selections from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

**Contributions of Coursework to M.S. Degree Program**

1. **Thesis Research:** Maximum of 4 credit hours of Thesis Research (KIN 5960) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

2. **Investigations in Kinesiology and Health:** No credit hours of Investigations in Kinesiology and Health (KIN 5080) may contribute to the Plan A (Thesis) Degree Program.

3. **Independent Study Coursework:** Maximum of 3-credit hours of Individual Problems (HLED 5097/KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

4. **Practicum/Internship Coursework:** Maximum of 3-credit hours of Practicum in College Teaching (KIN 5900) or Internship (KIN 5990) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

5. **4000 Level Coursework:** Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

**Kinesiology and Health, Health Emphasis, M.S.**

Master of Science with Emphasis in Health is designed to prepare students for careers in public and community health settings.
Plan A (Thesis)

The Plan A option of the Master of Science degree in the area of HLED is designed to prepare students for careers in public and community health settings. All students complete a series of general required courses and a concentration of courses in the area of HLED.

The HLED area of emphasis involves a minimum of thirty (30) total credit hours of coursework, a thesis, and a final oral examination. At least twenty-one (21) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the ten (10) hours of general required courses.

General Required Courses (10 Credits)

1 May substitute STAT 5060, STAT 5070 or STAT 5080, EDRE 5640 or EDRE 5660. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0

KIN5085 - Research Methods

Credits: 3
Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

Prerequisite: graduate standing in KIN or permission of instructor.

KIN5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: graduate standing in KIN or permission of instructor.

STAT5050 - Statistical Methods for the Biological Science

Credits: 3
General statistical analyses and their application to the biological and behavioral sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 3050, 5050, 5060, STAT 5070.

Cross Listed ZOO 5050.
Prerequisite: one course in statistics (all introductory courses except 2000).
Specialized Required Courses (9-15 Credits)

Coursework will include three to five courses (9-15 hours). Your advisor will identify courses to be taken.

Elective Courses (Minimum 6 Credits)

Students are encouraged to complete at least one of their elective course selections from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

- Thesis Research: Maximum of 4 credit hours of Thesis Research (KIN 5960) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Investigations in Kinesiology and Health: No credit hours of Investigations in Kinesiology and Health (KIN 5080) may contribute to the Plan A (Thesis) Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097/KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Practicum Coursework: Maximum of 3-credit hours of Practicum in College Teaching (HLED 5900) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Kinesiology and Health, M.S.

Master of Science, Plan B, is designed for students who are seeking a terminal degree in Kinesiology and Health. This option is not designed for students seeking to pursue a doctoral degree at the completion of the Master of Science degree.

Plan B (Paper and Experiential Learning Option)

The Plan B option of the Master of Science degree in Kinesiology and Health is designed to prepare students who are seeking a terminal degree. This option is not designed for students seeking to pursue a doctoral degree at the completion of the Master of Science degree in Kinesiology and Health.

This program involves a minimum of thirty (30) total credit hours of coursework and a culminating paper or case study presentation (experiential learning option) that is developed on a topic selected by the student in conjunction with her or his graduate faculty advisor. The process for composing the culminating paper or case study includes the development of a prospectus and final presentation of the paper or case study. Students who elect the experiential learning option will also be required to complete three (3) credits of KIN 5990 - Internship. At least twenty-four (24) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the nine (9) hours of general required courses.

General Required Courses (10 Credits)

1 May substitute STAT 5060, STAT 5070, STAT 5080, EDRE 5600 or EDRE 5640. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0
KIN5080 - Investigations in Kinesiology and Health

Credits: 1-3  
Max Credit (Max. 3)

Designed to develop Master of Science level graduate students into critical consumers of research. An additional purpose is to develop research skills to the level necessary to complete a master of science Plan B paper.

**Prerequisite:** graduate standing in KIN or permission of instructor.

KIN5085 - Research Methods

Credits: 3

Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

**Prerequisite:** graduate standing in KIN or permission of instructor.

STAT5050 - Statistical Methods for the Biological Science

Credits: 3

General statistical analyses and their application to the biological and behavioral sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 3050, 5050, 5060, STAT 5070.

**Cross Listed** ZOO 5050.

**Prerequisite:** one course in statistics (all introductory courses except 2000).

Elective Kinesiology and Health Courses (Minimum of 15 Credits)

Elective Courses (Minimum of 6 Credits)

Students are encouraged to complete at least one course from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

**Contributions of Coursework to M.S. Degree Program**

- Investigation in Kinesiology and Health: Maximum of 3 credit hours of Investigation in Kinesiology and Health (KIN 5080) may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Thesis Research: No credit hours of Thesis Research (KIN 5960) may contribute to the Plan B Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097 /KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
Practicum/Internship Coursework: Maximum of 3-credit hours of Practicum in College Teaching (HLED 5900/KIN 5900) or KIN 5990 - Internship may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

**Kinesiology and Health, Physical Education Teacher Education Emphasis, M.S.**

Master of Science with Emphasis in Physical Education Teacher Education is designed for teachers who have attained their licensure for teaching physical education and want to pursue an advanced degree to further develop their professional knowledge of teaching.

**Plan A (Thesis)**

The Plan A option of the Master of Science degree in the area of PETE is for teachers who have attained their licensure for teaching physical education and want to pursue an advanced degree to further develop their professional knowledge of teaching.

The PETE program of studies involves a minimum of thirty (30) total credit hours of coursework, a thesis, and a final oral examination. At least twenty-five (25) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the ten (10) hours of general required courses.

**General Required Courses (10 Credits)**

1 May substitute STAT 5060, STAT 5070, STAT 5080; or EDRE 5600 or EDRE 5640. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0

**KIN5085 - Research Methods**

Credits: 3
Focuses on methods and techniques for evaluating and conducting research. Potential and completed research problems are analyzed and evaluated. Research processes are reviewed with emphasis on application. Standards for writing literature reviews and research proposals are also emphasized.

**Prerequisite:** graduate standing in KIN or permission of instructor.

**KIN5960 - Thesis Research**

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.
Prerequisite: graduate standing in KIN or permission of instructor.

**STAT5050 - Statistical Methods for the Biological Science**

Credits: 3
General statistical analyses and their application to the biological and behavioral sciences. Analysis of variance, regression and correlation methods are studied from a data analytic perspective, emphasizing the conceptual understanding of where and when these techniques should be used and the interpretation of their results. Available computer programs will be utilized. Credit cannot be earned in more than one of the following courses: STAT 3050, 5050, 5060, STAT 5070.

Cross Listed ZOO 5050.
Prerequisite: one course in statistics (all introductory courses except 2000).

Specialized Required Courses

(12 Credits Selected from The Following KIN Courses)

**KIN5011 - Teacher Socialization in PE**

Credits: 3
Max Credit 3
This course provides students with understanding of how physical educators are recruited into, professionally trained, and function in the workplace. Students will have the opportunity to analyze, critique, and evaluate empirical evidence related to socialization in physical education, as well as conduct research on given topics from the socialization literature.

Prerequisite: Graduate standing or permission from instructor

**KIN5014 - Teaching Tactics in Sport-Based Physical Education**

Credits: 3
Introduces students to the instructional strategy of the Tactical Games Approach (Mitchell, Oslin, & Griffin, 2006) of teaching sport-based activities in physical education. Emphasis is on planning, implementing, assessing and evaluating the tactical approach within the K-12 physical education context.

Prerequisite: graduate standing in KIN or permission of instructor.

**KIN5016 - Analysis and Supervision of Teaching in Physical and Health Education**

Credits: 3
Introduces various evaluative and supervisory techniques which are designed to improve teaching effectiveness and student learning. Emphasis will be placed on utilizing various strategies of evaluation in instructional settings.

Prerequisite: graduate standing in KIN or permission of instructor.
KIN5018 - Psychology of Teaching Physical Education

Credits: 3
Weaves together theory, research, and practical information related to the psychological aspects of teaching physical education. It shows how you can use psychological principles and strategies to manage behavior, motivate students, achieve program goals, and establish a positive learning environment.

Prerequisite: graduate standing in KIN or permission of instructor.
- KIN 5019 - Instructional Models for Physical Education Credits: 3

KIN5090 - Foundations of Coaching

Credits: 3
Coaches must be effective teachers, trainers, fund-raisers, recruiters, motivators, administrators, and counselors. The major purpose of this course is to provide future coaches with current information about the eight domains of essential coaching skills identified in the NSSC. These domains include philosophy and ethics, safety and injury prevention, physical conditioning, growth and development, teaching and communication, sport skills and tactics, organization and administration, and evaluation.

Dual Listed KIN 4090.
Prerequisite: graduate standing in KIN or permission of instructor.

Elective Courses (Minimum 8 Credits)

Students are encouraged to complete at least one course from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

- Thesis Research: Maximum of 4 credit hours of Thesis Research (KIN 5960) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Investigations in Kinesiology and Health: No credit hours of Investigations in Kinesiology and Health (KIN 5080) may contribute to the Plan A (Thesis) Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097/KIN 5097) or Special Problems (HLED 5587/HLED 5587) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Practicum/Internship Coursework: Maximum of 3-credit hours of KIN 5900 - Practicum in College Teaching or KIN 5990 - Internship may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Certificate

Community and Public Health

This certificate covers foundational public health concepts, use of epidemiological data, designing evidence-based projects and community collaborations, and building public, political and financial support for public health.
Required Courses

Students must earn a B or better (an A or a B) in all four classes to earn the certificate.

**HLED5021 - Creating Conditions for Community Health**

Credits: 3  
In this course we will analyze and discuss how local, national and international environments impact individual and community health and how to improve health through changes in policy, economic, social, cultural and physical environments. The focus is primarily in the U. S., though students can choose to focus assignments in other contexts.

**Dual Listed** HLED 4021.  
**Prerequisite:** graduate standing.

**HLED5022 - Unlocking the Potential of Public Health**

Credits: 3  
Introduces core concepts in community and public health. Using practical exercises and problem based learning, students will investigate how social structures shape our health and how to alter them to improve community.

**Prerequisite:** Graduate standing or permission of the instructor.

**HLED5023 - Using Epidemiology to Build Health**

Credits: 3  
Focusing on epidemiological questions generated by the student, this course introduces concepts essential to understanding epidemiology, the foundational science of public health. It is focused on using existing epidemiologic data to inform your work.

**Prerequisite:** Graduate standing or permission from the instructor.

**HLED5024 - Increasing Support for PH**

Credits: 3  
Students learn how to effectively build support for improving the health of their communities. Support includes funding, coalition and partnership building, effective communications with the public and policy makers, and participatory project planning with community stakeholders. In addition, this course will cover how to establish project evaluation frameworks.

**Prerequisite:** Graduate standing or permission from instructor.

Students may either earn a 12-credit *University Graduate Certificate in Community & Public Health* or a 15-credit *University Graduate Certificate in Community & Public Health, Specializing in [Specialization Name]*.

**Approved specialization courses include:**

**HLED5020 - Food, Health, and Justice**
Maps ways our dominant national and global food systems affect health and equity in health, largely though not only negatively. Students will critically assess practiced and potential strategies for creating alternative food systems that support health and equity, particularly at the U. S. community level.

**Dual Listed** HLED 4020.

**Prerequisite:** graduate standing or permission of the instructor.

**HLED5026 - Rural Community Health**

Credits: 3  
Max Credit 3

This course invites students to apply principles of community and public health in rural and frontier United States settings. It outlines challenges and assets that a rural or frontier setting brings to improving community health. It is designed to assist students to bridge gaps that rural settings face and create a plan for improvement within their chosen community or state.

**Prerequisite:** Graduate standing or permission from instructor.

**HLED5027 - Emergency Prep and Response**

Credits: 3  
Max Credit 3

This class provides an overview of emergency management. It teaches students skills that will help them prepare themselves, their families, and their community for natural and human made disasters. The class emphasis will be on active learning via role-playing assignments, communication planning, and personal preparedness plans.

**Prerequisite:** HLED 3020, OR Senior Standing, OR permission of the instructor

*Additional specialization courses may be approved by Community & Public Health faculty.*

**Endorsement**

**Adapted Physical Education K-12 Endorsement**

In addition to completing the Bachelor of Science degree in physical education teacher education from the University of Wyoming, students can qualify for K-12 endorsements in adapted physical education and/or health education by completing the following course requirements:

**Course Requirements**

**EDEX2484 - Introduction to Special Education**

Credits: 3  
Designed to meet the needs of education majors for a required course in special education. Students will explore the history of, understanding of and services for individuals with low/high incidence disabilities.
**Prerequisite:** EDST 2450 completed with a C or better and an institutional GPA of 2.50.

**KIN4055 - Adapted Physical Education**

Credits: 2
Presents skills necessary to plan, implement and evaluate individualized physical education programs in the least restrictive environment. Acquaints students with current laws, characteristics, assessment instruments and nationally validated programs in physical education for the disabled child.

**When Offered** (Offered spring semester)

**Former Course Number** [PEPR 4055]

**Prerequisite:** KIN 3012.

**KIN4065 - Resources in Adapted Physical Education**

Credits: 2-3
Max Credit (Max. 3)
Offers flexible credit for students interested in pursuing intensive study of resources for adapted physical education. Required for state endorsement in Adapted Physical Education.

**Former Course Number** [PEPR 4065]

**Prerequisite:** grade of C or better in KIN 4055.

**KIN4075 - Assessment in Adapted Physical Education**

Credits: 3
Designed to provide an overview of the assessment process in adapted physical education. Developmentally and disability appropriate psychomotor assessments and procedures for administering them are examined.

**Prerequisite:** grade of C or better in KIN 4055 and KIN 4080.

**Athletic Coaching Endorsement/Permit**

Students who wish to qualify for an athletic coaching permit to coach in Wyoming public schools must complete four courses. Note: Endorsements are for current teachers. Permits are for those who are not a licensed educator.

**Course Requirements**

- CPR Certification
KIN3050 - Prevention and Care of Athletic Injuries

Credits: 2
Encompasses theory and practical work in the field of athletic training. Strongly emphasizes prevention and care of athletic injuries, including wrapping and taping techniques.

Former Course Number [PEPR 3050]

Prerequisite: junior standing; C or better in KIN 2040; minimum 2.750 GPA.

- Foundations of Coaching KIN 4090 /KIN 5090 Credits: 3
- Students completing the Physical Education Teacher Education undergraduate degree are exempt from the KIN 4090/5090 requirement.
- Coaching in... Experience (completed at a community college or complete a coaching experience in a specific sport for one season or more with a letter written by your supervising coach to submit with your PTSB endorsement application form).

School Health Education K-12 Endorsement (For non-Physical Education Teacher Education Majors)

In addition to completing a bachelor's degree in teaching at the secondary level from an approved university program, 21 credit hours are required to be endorsed to teach health education K-12 in the public schools of Wyoming.

Course Requirements

FCSC1141 - Principles of Nutrition

Credits: 3
This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

HLED1006 - Personal Health

Credits: 3
Introduces multiple concepts of personal health (e.g., physical activity, diet, stress, social pressure, public health, human behavior, disease prevention, healthcare access, and health-oriented citizenship) in relation to improving individual health and understanding the health of a society and cultural differences in human health and health behavior.

USP 2015 Code U5H
- CPR Certification

HLED4120 - Assessment in Health

Credits: 3
Provide students with an understanding of components of a balanced assessment system in school health education.
Students review the basics of standards-based health education and explore innovations in assessment that provide teachers and students with a more complete and authentic picture of student learning.

Prerequisite: Minimum 2.500 GPA; concurrent enrollment in KIN 4099 or certified K-12 teacher.

**HLED4025 - Teaching Sensitive Issues In Human Sexuality**

Credits: 3
Prepares educators and other helping professionals whose work involves promoting healthy sexuality in children, young people, and adults. It also provides detailed investigation into important aspects of teaching sensitive issues related to human sexuality. Students practice, critique, develop, and evaluate sexuality education processes and resources.

**Dual Listed** HLED 5025.
**Prerequisite:** Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

**HLED4110 - Teaching Health in Schools K-12**

Credits: 3
Presented appropriate knowledge and skills to become health literate. Explore ways to teach health skills and knowledge and use assessment strategies for health education.

**When Offered** (Offered fall semester)
**Prerequisite:** Grade C or better in KIN 3015 or certified K-12 teacher.

**HLED4130 - Management of Coordinated School Health Programs**

Credits: 3
Reviews the coordinated school health program (CSHP) model and identifies research that supports the eight components of the model. Prepares students to advocate for CSHP and to develop the school infrastructure necessary to carry out such a program. Also prepares individuals to work with school from job settings outside the school.

**Dual Listed** HLED 5130.
**When Offered** (Offered fall semester)
**Prerequisite:** Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

**PSYC2210 - Drugs and Behavior**

Credits: 3
Surveys drugs which affect behavior, emphasizing both psychotherapeutic agents and drugs with abuse potential. Includes brief introduction to the chemistry of the brain and how drugs may have their effects. Behavioral, social, historical and medical aspects of each major class of psychoactive drugs are discussed.

**Prerequisite:** A grade of C or better in PSYC 1000.

OR
HLED4030 - Teaching About Alcohol and Substance Abuse

Credits: 3
Introduces students to the issues of societal and personal attitudes towards alcohol and substance use, misuse and abuse. Prepares an educator to teach about alcohol and substance abuse in the classroom and out of the school setting.

Prerequisite: Sophomore standing; minimum 2.750 GPA; or permission of instructor.

School Health Education K-12 Endorsement (For Physical Education Teacher Education Majors)

In addition to completing the Bachelor of Science degree in physical education teacher education from the University of Wyoming, students can qualify for K-12 endorsements in adapted physical education and/or health education by completing the following course requirements:

Course Requirements

HLED4025 - Teaching Sensitive Issues In Human Sexuality

Credits: 3
Prepares educators and other helping professionals whose work involves promoting healthy sexuality in children, young people, and adults. It also provides detailed investigation into important aspects of teaching sensitive issues related to human sexuality. Students practice, critique, develop, and evaluate sexuality education processes and resources.

Dual Listed HLED 5025.
Prerequisite: Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

HLED4110 - Teaching Health in Schools K-12

Credits: 3
Presented appropriate knowledge and skills to become health literate. Explore ways to teach health skills and knowledge and use assessment strategies for health education.

When Offered (Offered fall semester)
Prerequisite: Grade C or better in KIN 3015 or certified K-12 teacher.

HLED4120 - Assessment in Health

Credits: 3
Provide students with an understanding of components of a balanced assessment system in school health education. Students review the basics of standards-based health education and explore innovations in assessment that provide teachers and students with a more complete and authentic picture of student learning.

Prerequisite: Minimum 2.500 GPA; concurrent enrollment in KIN 4099 or certified K-12 teacher.
HLED4130 - Management of Coordinated School Health Programs

Credits: 3
Reviews the coordinated school health program (CSHP) model and identifies research that supports the eight components of the model. Prepares students to advocate for CSHP and to develop the school infrastructure necessary to carry out such a program. Also prepares individuals to work with school from job settings outside the school.

Dual Listed HLED 5130.
When Offered (Offered fall semester)
Prerequisite: Minimum 2.500 GPA; Junior class standing or certified K-12 teacher.

PSYC2210 - Drugs and Behavior

Credits: 3
Surveys drugs which affect behavior, emphasizing both psychotherapeutic agents and drugs with abuse potential. Includes brief introduction to the chemistry of the brain and how drugs may have their effects. Behavioral, social, historical and medical aspects of each major class of psychoactive drugs are discussed.

Prerequisite: A grade of C or better in PSYC 1000.
OR

HLED4030 - Teaching About Alcohol and Substance Abuse

Credits: 3
Introduces students to the issues of societal and personal attitudes towards alcohol and substance use, misuse and abuse. Prepares an educator to teach about alcohol and substance abuse in the classroom and out of the school setting.

Prerequisite: Sophomore standing; minimum 2.750 GPA; or permission of instructor.

BLAINE LEVY, B.S. Midwestern University 2008; D.O. Arizona College of Osteopathic Medicine of Midwestern University 2012; Clinical Assistant Professor of Family Medicine, Casper.

EVAN NORBY, B.S. Brigham Young University 2007; D.O. Arizona College of Osteopathic Medicine 2012; Clinical Assistant Professor of Family Medicine, Cheyenne.

TABITHA THRASHER, B.S. University of Central Missouri 2001; D.O. Rocky Vista College of Osteopathic Medicine 2012; Clinical Assistant Professor of Family Medicine, Cheyenne.

Lecturers
LAURA CAPASSO, B.A. University of Wyoming 2012; M.S. University of Wyoming 2014; Ph.D. University of Northern Colorado, 2019; Assistant Lecturer, Family Medicine, Cheyenne.

PAMELA OILER, B.S.W. University of Wyoming 1999; M.S.W. Colorado State University 2005; Associate Lecturer, Family Medicine, Cheyenne.

To address the need for broadly trained primary care physicians in Wyoming, the Wyoming Legislature established two residency programs in the specialty of family medicine. These two accredited, university-administered, community-hospital based family medicine residency programs are located in Casper and Cheyenne. They enroll up to 42 residents (14 in each of three years). The two family medicine centers maintain a 1:4 faculty to resident ratio. The program at Casper began in 1976 and is affiliated with Wyoming Medical Center. The program utilized the services and facilities provided by the Educational Health Center of Wyoming. The Rural Training Track Program is a partnership with the Casper core program and Hot Springs County Memorial Hospital that provides a unique, hands-on experience for rural practice by training in the rural community of Thermopolis, Wyoming. It enrolls up to 3 residents (1 in each of three years). Casper's Geriatric fellowship is Wyoming's only post-graduate medical education training program. The program at Cheyenne became active in 1980 and is affiliated with Cheyenne Regional Medical Center. The program utilizes the services and facilities provided by the Educational Health Center of Wyoming and has a close working relationship with the Veterans Administration Hospital. Both centers include spacious examining rooms; treatment and casting rooms; x-ray facilities; offices for faculty, residents and staff; complete laboratories; multiphasic research areas; conference rooms; business offices and rooomy waiting rooms with play areas in the clinical component. In the educational component, both include large auditoriums; learning resource centers and administrative offices. Particular emphasis in both centers is placed on preparing physicians for rural practice and other facets of medical practice that are unique to Wyoming.

Associate Professors

BRANT SCHUMAKER, B.S. University of California, Davis 2001; D.V.M. University of California, Davis 2005; Master of Preventative Veterinary Medicine University of California, Davis 2006; Ph.D. University of California, Davis 2010; Associate Professor, Division of Kinesiology & Health, WWAMI.

CAMERON WALKER, B.S. Iowa State University of Science and Technology 1996; M.A. Iowa State University of Science and Technology 2000; Ph.D. University of Oregon 2006; Clinical Associate Professor, WWAMI.

JOHN WILLFORD, B.S. University of Wyoming 2005; Ph.D. University of Wyoming 2008; Clinical Associate Professor, WWAMI.

Assistant Professors

ANA CLARA BOBADILLA, B.S. Pierre and Madam Curie University 2006; M.S. Pierre and Madam Curie University 2008; Ph.D. Pierre and Madam Curie University 2014; Assistant Professor, School of Pharmacy, WWAMI.
DANIELLE BRUNS, B.S. Linfield College 2008; M.S. Colorado State University 2010; Ph.D. Colorado State University 2013; Assistant Professor Kinesiology & Health, WWAMI.

JULIE CARLSON, B.S. University of Wyoming 1985; M.D. Creighton University 1989; Clinical Assistant Professor, WWAMI.

ESTHER GILMAN-KEHRER, B.S. University of Wyoming 1986; M.S. University of Wyoming 1998; Post-Master's F.N.P. University of Colorado 2000; Post-Master's Nurse Midwifery 2002; D.N.P. University of Colorado 2012; Clinical Assistant Professor, Fay W. Whitney School of Nursing, WWAMI.

DANA GOVAERTS, B.S. University of Nebraska 1988; M.D. University of Nebraska Medical Center 1992; Clinical Assistant Professor, WWAMI.

TRACEY HAAS, B.S. Southwest Texas State University 1996; D.O. University of North Texas Health Sciences Center 2001; M.P.H. University of Texas Health Sciences Center 2012; Clinical Assistant Professor, WWAMI.

EMILY SCHMITT, B.S. Elon University 2007; M.S. University of North Carolina-Charlotte 2009; Ph.D. Texas A&M University 2015; Assistant Professor Kinesiology & Health, WWAMI.

The University of Wyoming medical contract program enhances medical education opportunities for Wyoming residents. In March 1996, the University of Wyoming became a partner in the WWAMI (Washington, Wyoming, Alaska, Montana, Idaho) Program. The WWAMI program is Wyoming's medical school and the program delivers the first two years of the University of Washington School of Medicine (UWSOM) medical school curriculum on the University of Wyoming campus. The remaining two years of the curriculum are spent in clinical rotations throughout the five-state WWAMI region. Twenty Wyoming residents are accepted into the WWAMI program each year and receive their M.D. degree from the UWSOM. For further information, contact the Wyoming WWAMI Office, College of Health Sciences, Laramie, Wyoming 82071, (307) 766-2496.

Graduate

WWAMI Medical Education

The WWAMI Medical Education Program is Wyoming's medical school. Our students are admitted into the University of Washington School of Medicine, complete their foundation phase in Laramie at UW, and finish their medical education in the WWAMI region.

Required Courses

HM6710 - Fund. Medical Sci. & Research

Credits: 1
Max Credit 9

Comprehensive introduction to foundational basic science and research concepts in medicine. Topics covered include molecular and cell biology; human physiology, genetics and biochemistry; community health and disease; clinical epidemiology, research study design and data analysis. Incorporates fundamental principles of anatomy, pathology, and pharmacology, and medicine in society.

Restricted Restricted to WWAMI medical students
HM6603 - Clinical Studies

Credits: 2
Instruction in communication skills, interviewing techniques, physical examination, documentation and clinical reasoning. The course will include hospital based patient encounters and developing comfort and introduction to the physical role.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.

HM6720 - Infection & Immunity

Credits: 1
Max Credit 7

Comprehensive introduction to the fundamentals of the immune system; microbiology; infectious diseases; inflammation and repair. Topics covered include the pathogenesis and immunity of infectious disease, immunodeficiencies, hypersensitivity, autoimmunity, and the basis of immunologic diagnostics. Integrates relevant principles of anatomy, pathology, and pharmacology and medicine in society.

Restricted Restricted to WWAMI medical students

HM6730 - Cancer, Hormones & Blood1

Credits: 1
Max Credit 7

Comprehensive introduction to the fundamentals of endocrinology, hematology, and oncology. Topics covered include endocrine regulation of metabolism; normal physiology and pathophysiologic mechanisms responsible for clinically important endocrine disorders; disturbances in red cell, white cell and platelet production; abnormalities of hemostasis; and malignant neoplasia. Integrates relevant principles of anatomy, pathology and pharmacology, and medicine in society.

Restricted Restricted to WWAMI medical students
(7 credits required)

HM6602 - Introductory Primary and Continuity Care Clerkship

Credits: 2
Introduces medical students to continuity of care by working with practicing physicians. The course demonstrates how to work with an individual to help them achieve optimal health, and includes topics in primary and preventative care, geriatrics, rehabilitation, palliative care, behavioral health and pain management.

Prerequisite: Must be enrolled in the WWAMI Medical Education Program.
  - HM 6740 (5 credits required)

HM6750 - Cardiovascular System
Provides an interdisciplinary approach to cardiovascular medicine, including anatomy, physiology, radiology, pathology, medicine, and surgery. Topics include thoracic anatomy, cardiac electrophysiology, cardiac muscle mechanics, myocardial infarction, and cardiac repair.

**Restricted** Restricted to WWAMI medical students.

**HM6755 - Medicine, Health, & Society 1**

Credits: 1  
Max Credit 1

This course integrates thematic content with an emphasis on core concepts needed for clinical practice in the changing healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health.

**Restricted** WWAMI medical students only.

**HM6760 - Respiration and Regulation**

Credits: 6  
Max Credit 6

Provides an interdisciplinary approach to respiratory and renal-urinary medicine, including anatomy, physiology, radiology, pathology, medicine, and surgery. Topics include ventilatory mechanics, gas exchange, renal function, and common renal & pulmonary-vascular diseases.

**Restricted** Restricted to WWAMI medical students.

**HM6770 - Head, Neck, & Gut**

Credits: 5  
Max Credit 5

Integrates discussions of head/neck anatomy, metabolism, and gastrointestinal/liver physiology including physiology and pathophysiology of digestion and hepatic function. Relevant anatomy, pathology, and pharmacology of the gastrointestinal systems will be covered.

**Restricted** Restricted to WWAMI medical students.

**HM6775 - Medicine, Health, & Society 2**

Credits: 3  
Max Credit 3

This course integrates thematic content with an emphasis on core concepts needed for clinical practice in the changing
healthcare environment. Students will explore areas related to humanism in medicine including the themes of diversity, health equity, ethics, professionalism, and determinants of health.

**Restricted** WWAMI medical students only.

**HM6800 - Mind, Brain, Behavior**

Credits: 9
Explains the foundational principles of the organization and function of the head, neck, and central nervous system with a focus on clinical application of this knowledge to systematically approach the differential diagnosis and management of major neurologic, psychiatric, and behavioral disorders. Covers current therapeutic approaches to disease including pharmacological, behavioral, surgical, and other therapies.

**Prerequisite:** Must be enrolled in the WWAMI Medical Education Program.

**HM6900 - Life Cycles and Reproduction**

Credits: 5
Covers normal and abnormal human development reproductive functions including formation and maturation of ova and sperm, menstruation, normal pregnancy, and labor and delivery. Provides information concerning infertility, family planning techniques, urinary disorders, and reproductive aging and demography of human population. Includes relevant fundamental scientific principles in pelvic anatomy, pathology, histology, imaging, and pharmacology.

**Prerequisite:** Must be enrolled in the WWAMI Medical Education Program.

**Total Hrs. 70**

**Fay W. Whitney School of Nursing**

351A Health Sciences Center,
(307) 766-4312
FAX: (307) 766-4294
Web site: www.uwyo.edu/Nursing
Dean: Sherrill J. Smith
Assistant Deans: Paula Kihn, Janet Wilhaus

**Professors:**

**ANN MARIE HART,** B.S.N. Medical College of Virginia 1991; M.S. University of Wyoming 1996; Ph.D. University of Colorado Health Sciences Center Denver 2003; Professor of Nursing 2015.

**SHERRILL J. SMITH,** B.S.N. University of Wisconsin-Eau Claire 1985; M.S. Wright State University 1997; Ph.D. University of Northern Colorado 2008; Professor of Nursing 2019; Dean of Nursing 2019.

**Associate Professors:**
REBECCA CARRON, B.S.N. Texas Christian University 1976; B.A. University of Wyoming 1997; M.S. 2006; Ph.D. University of Colorado 2014; Associate Professor of Nursing 2020.

JENIFER THOMAS, B.S. Colorado State University 1994; M.S. Avila University 2000; M.S. Colorado State University 2007; Ph.D. 2008; Associate Professor of Nursing 2016.

JANET WILLHAUS, B.S.N. University of Kansas 1985; M.S. Fort Hays State University 2008; Ph.D. Washington State University 2013; Associate Professor of Nursing 2020.

Clinical Associate Professors:

ESTHER GILMAN-KEHRER, B.S.N. University of Wyoming 1986; M.S. 1998; D.N.P. University of Colorado 2012; Clinical Associate Professor 2021.

NANCY MCGEE, B.S.N. University of Wyoming 2005; M.S. 2007; D.N.P. University of Northern Colorado 2014; Clinical Associate Professor 2020.

J'LAINE PROCTOR, B.S.N. University of Wyoming 2000; M.S. 2003; Certificate-PMHNP 2007; D.N.P. University of Northern Colorado 2014; Clinical Associate Professor 2020.

Clinical Assistant Professors:

NANCY "NIKI" EISENMANN, B.S.N. University of Nebraska Medical Center 2002; M.S. Nebraska Wesleyan University 2008; Ph.D. University of Missouri-Kansas City 2020; Clinical Assistant Professor 2020.

SHERRA ST. CLAIR, B.A. Humanities and Fine Arts University of Wyoming 1996; M.F.A. University of Michigan 1998; A.D.N. Laramie Community College 2014; B.S.N. University of Wyoming 2016; M.S. 2007; D.N.P. University of Wyoming 2019; Clinical Assistant Professor 2021.

Senior Lecturers:

Associate Lecturers:

K. David Bodily, Paula Kihn, Candace Stidolph

Assistant Lecturers:

Megan Beach, Linden Gray, Ashley Lair, Shannon Schneider, Christina Warren

Adjunct and Part-time Faculty:

The Fay W. Whitney School of Nursing (FWWSON) has well established B.S.N, M.S., and D.N.P. programs based upon national nursing education standards.

Mission

The FWWSON educates, conducts research and provides service and practice to improve, protect and promote health.

Accreditation and Membership

The baccalaureate and graduate programs are accredited by the Commission on Collegiate Nursing Education (CCNE).

The baccalaureate program (Basic BSN, BRAND) is approved by the Wyoming State Board of Nursing (WSBN). Graduates of the Basic BSN and BRAND options are qualified to apply to take national licensing examination: NCLEX. Graduates of the DNP Program are eligible to take the national certification exams as a nurse practitioner.

Technical Standards for Admission

All nursing students must be able to perform the essential functions of a nurse, including observation/sensory motor; communication; psychomotor; intellectual-conceptual, integrative and quantitative; and behavioral and social attributes. Please refer to the "Technical Standards for Admission", including information on reasonable accommodations, on the school's website: http://www.uwyo.edu/nursing/programs/technical-standards-for-admission.html.

Background Checks Requirement

Students enrolled in clinical training programs within the College of Health Sciences are placed in educational and clinical settings where highly vulnerable clients such as minor children, individuals with disabilities, and/or the elderly, are routinely served. These clinical/practice training sites (including schools, hospitals, pharmacies, and other university sites) routinely require criminal background checks for all students who engage in clinical activities. Therefore, background checks shall be required on all applicants to programs in the College of Health Sciences prior to admission into their prospective program.

Students applying for admission into the nursing major component of the BSN Program, the MS Program, and the DNP Program will be notified by the FWWSON at the time of any admission offer the process for completing the required background check. Previous background checks (e.g. CNA Certification, LPN or RN Licensure) are not acceptable to fulfill this expectation. The results of the background check may determine final admittance to the program.
Students may also be required to update the criminal background check. Each clinical training site will be informed that students have passed a background check prior to placement at that site; some sites may require a more current background check. Clinical agencies may bar a student access to their facility for clinical experiences based on the results of the background check. If faculty and staff are not able to place the student in an alternative setting, the student will not be able to complete the program. In addition, students seeking readmission into the program are required to complete a new background check. Students are responsible for the costs associated with the admission background check and any other background checks that may be required.

**Drug Screening Requirement**

Drug screening may be required by some clinical training sites. Students will be notified by the FWWSON should this be an expectation of them. Students may incur charges for this screening and will be notified of such at that time. Drug and/or alcohol testing for any student can be requested by the FWWSON.

The Fay W. Whitney School of Nursing provides a curriculum based on the solid foundation of a general studies program. University students are individuals who come with learning preferences, different experiences, varied goals, and therefore, have unique learning needs. The primary responsibility of faculty is to empower students to become self-directed learners. Active learning is a teaching/learning partnership.

**Health Insurance Requirement**

Health insurance coverage is a requirement of the Fay W. Whitney School of Nursing for participation in any clinical rotation. It is the responsibility of the student to obtain and maintain coverage for ALL clinical rotations. Students will be notified by the FWWSON should this be an expectation for them as well as timing for completion of the FWWSON Student Verification of Health Insurance Form.

**Undergraduate Study**

**Bachelor of Science in Nursing (BSN) Program**

The Fay W. Whitney School of Nursing provides a curriculum based on the solid foundation of a general studies program. University students are individuals who come with learning preferences, different experiences, varied goals, and therefore, have unique learning needs. The primary responsibility of faculty is to empower students to become self-directed learners. Active learning is a teaching/learning partnership.

**Expected Student Learning Outcomes**

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

1. Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
2. Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
3. Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
4. Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
5. Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.

6. Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.

7. Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.

8. Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.

9. Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.

10. Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.

11. Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Bachelor of Science in Nursing (BSN) Program Options

The Fay W. Whitney School of Nursing offers a baccalaureate program with three options to obtain the BSN degree:

1. Basic BSN - a four-year, on-campus BSN option for the student who wishes to become a registered nurse at the baccalaureate level.

2. BRAND (Bachelors Reach for Accelerated Nursing Degree) - an accelerated BSN outreach option for the student who has already achieved a previous non-nursing baccalaureate degree and who wishes to become a registered nurse at the baccalaureate level.

3. BSN Completion - two online BSN options (ReNEW and RN-BSN):
   - ReNEW (Revolutionizing Nursing Education in Wyoming) - an online BSN option for the student or graduate of a Wyoming community college ReNEW nursing program who wishes to become a baccalaureate-prepared nurse.
   - RN-BSN - an online BSN option for the graduate of a non-ReNEW associate degree or diploma nursing program who wishes to become a baccalaureate-prepared nurse.

Please refer to the appropriate BSN program option section that follows below.

Graduate Study

The Fay W. Whitney School of Nursing offers two graduate programs leading to: 1) a Master of Science (M.S.) degree and 2) a Doctor of Nursing Practice (D.N.P.) degree.

Master of Science (MS) Program

The MS program of study is for nurses who desire to become nurse educators or nurse leaders in any academic or health-related setting. The program mission is to prepare transformational learners and leaders to advance nursing education and practice, thus, addressing the complexities in the 21st century healthcare system. Core curricular concepts woven through the curriculum include transformation, communication, interconnected global perspective, outcomes orientation, and rural population health.
Expected Student Learning Outcomes

MS graduates are prepared to ensure better care, better health, and lower costs through their knowledge, skills, and abilities to:

- Demonstrate competence and caring in the advanced professional nurse role to serve Wyoming, the region, and the world in urban, rural, and frontier health care settings as a provider, leader, and/or educator in the health care system.
- Transform rural health through leadership, service, and clinical scholarship that reflects an interconnected and comprehensive global health perspective.
- Demonstrate an advanced understanding of nursing and other sciences and humanities and integrates this knowledge to manage and improve health care across settings.
- Synthesize broad organizational, financial, economic, client-centered, and culturally appropriate concepts from nursing and other sciences to address population health.
- Engage in scholarly inquiry and evidence-based practice to lead change for quality outcomes and implement safe health care to diverse populations in a variety of settings.

Core Concepts:

- Transformation: Transformation includes learning, education, leadership, and nursing as a whole; engaging creativity with theory and evidence-based practice to result in critical reflection and cognitive flexibility.
- Rurality/Frontier: Practice in a low population area where resources and/or access to care are limited and be able to innovate accordingly.
- Service: Providing advanced practice nursing care and services to individuals, families, groups, communities, and populations includes altruism, leadership, decision-making, cooperation, education, listening, problem-solving, person-centered care, fidelity, advocacy, ethical behavior, and practice.
- Comprehensive Global Healthcare System Perspective: An interconnected and comprehensive global health care system perspective incorporating the following attributes: advocacy, altruism, creativity, ethical conduct, effective communication skills, leadership, problem-solving skills, professionalism, and scholarship.
- Clinical Scholarship: Activities that systematically advance nursing science, including its teaching, research, and practice through rigorous inquiry that 1) is significant to the profession, 2) is creative, 3) can be documented, 4) can be replicated or elaborated, and 5) can be peer-reviewed through various methods and includes discovery, teaching, practice, and integration.

Master of Science (MS) Program Concentrations

The Fay W. Whitney School of Nursing offers a masters program with two concentrations to obtain the MS degree:

1. Nurse Educator - a two and a half-year, online MS concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) who desire to become nurse educators.
2. Nurse Leader - a two and a half-year, online MS concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) who desire to become nurse leaders. Please refer to the MS program section that follows below.

**Doctor of Nursing Practice (DNP) Program**

The Doctor of Nursing Practice (DNP) degree is the new standard for advanced practice nursing education. The DNP program is open to registered nurses with a minimum of a baccalaureate degree in nursing from a program nationally accredited by an approved nursing education accrediting body.

**Expected Student Learning Outcomes**

DNP graduates will:

1. engage in evidence-based practice to optimize health outcomes;
2. engage in leadership activities to promote excellence in rural health care.

**Doctor of Nursing Practice (DNP) Program Concentrations**

The Fay W. Whitney School of Nursing offers a doctoral program with two concentrations to obtain the DNP degree:

1. Family Nurse Practitioner (FMY) - a three-year, DNP concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) that prepares students for careers in rural primary care.
2. Psychiatric Mental Health Nurse Practitioner (PSH) - a three-year, DNP concentration for the registered nurse with a Bachelor of Science in Nursing (BSN) that prepares students for careers in rural psychiatric mental health care.

Please refer to the appropriate DNP program concentration section that follows below.

**Major**

**Nursing, B.S.N., Basic BSN Option**

"Basic BSN" is an on-campus BSN option for students who want to become a registered nurse and earn the Bachelor of Science in Nursing degree. Learning facilities include state-of-the-art classrooms and Clinical Simulation Center.

**University Studies Program Requirements**

The University Studies Program 2015

**FYS-First Year - Seminar**
Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**H - Human Culture (1)**

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**V - U.S. & WY Constitution**

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Pre-Clinical Component**

**ENGL1010 - College Composition and Rhetoric**

Credits: 3
A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

USP 2003-2014 Code U3WA
USP 2015 Code U5C1

**MATH1400 - College Algebra**

Credits: 3
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA
LIFE1010 - General Biology

Credits: 4
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

CHEM1000 - Introductory Chemistry

Credits: 4
Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

CHEM1020 - General Chemistry I

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

FCSC1141 - Principles of Nutrition
Credits: 3
This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

**PSYC1000 - General Psychology**

Credits: 3
Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

**MICR2021 - General Microbiology**

Credits: 4
Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.
Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.
OR

**MOLB2021 - General Microbiology**

Credits: 4
Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021
When Offered Fall and Spring
Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.
OR

**MICR2240 - Medical Microbiology**

Credits: 4
Designed primarily for nursing and pre-pharmacy majors, introduces students to microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical
significance; also covers the basic principles of the immune system and emphasizes the communicable diseases of man
caused by microbial pathogens.

Cross Listed MOLB 2240.
Prerequisite: LIFE 1010.

OR

MOLB2240 - Medical Microbiology

Credits: 4
Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of
prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical
significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man
caused by microbial pathogens.

Cross Listed MICR 2240.
When Offered Spring
Prerequisite: LIFE 1010.

KIN2040 - Human Anatomy

Credits: 3
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background
to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB
Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1
A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is
designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB
Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences.
Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces
statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1000, MATH 1400, or equivalent.

**ZOO3115 - Human Systems Physiology**

Credits: 4
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

**Prerequisite:** At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

**Clinical Component**

*(Note: Course requirements/expectations are subject to change. Maintain contact with FWWSON for current expectations.)*

**NURS2340 - Developmental Influences on Health**

Credits: 3
Explores interaction between development and health. Discusses human development of physiological, psychological, cognitive, sociocultural, and spiritual systems across the lifespan. Identifies selected theories associated with development over the lifespan and implications for healthcare.

**Prerequisite:** Completion or concurrent enrollment in NURS 3445 or NURS 3745, NURS 3665 or NURS 3730 and NURS 3790, and PHCY 3450.

**NURS3445 - Fundamentals and Health Assessment in Professional Nursing Practice**

Credits: 4
This course introduces the concepts of nursing care, safety, and assessment. Students learn to assess and document normal variations and potential alterations of physiological, psychological, sociocultural, spiritual, and developmental dimensions of individuals across the lifespan.

**Prerequisite:** Completion or concurrent enrollment in NURS 2340, NURS 3665, and PHCY 3450.

**NURS3490 - Health Promotion in Professional Nursing Practice**

Credits: 4
Students will learn and apply concepts of health promotion across the lifespan. Emphasis is on cultural diversity, health risks, behavior change and healthy practices for individuals, families, and populations. Students will incorporate
evidence in designing interventions to promote health and prevent illness for self and clients.

A&S College Core 2015 Course changes effective Fall 2022 - Prerequisite: NURS 3445, PHCY 4470, and completion or concurrent enrollment in NURS 3690, NURS 3695, and NURS 4125.

Prerequisite: Progression or admission to the clinical component of the program and completion or concurrent enrollment with NURS 2340, NURS 3435, and PHCY 3450 or PHCY 4450.

NURS3665 - Foundations of Professional Nursing Roles

Credits: 3
This course introduces the student to professionalism, leadership, safety, and patient-centeredness. The concepts emphasized provide the foundation for professional nursing practice.

Prerequisite: Fall 2021: NURS 3490, PHCY 4470, and completion or concurrent enrollment in NURS 3635, NURS 3690, and NURS 3695. Effective Spring 2022: Completion or concurrent enrollment in NURS 2340, NURS 3445, and PHCY 3450.

NURS3690 - Professional Nursing Acute/Chronic Illness

Credits: 3
Students will examine concepts of nursing practice in the care of adults with acute and chronic illness. Emphasis is on utilizing the nursing process to develop clinical judgement.

NURS3695 - Professional Nursing Acute/Chronic Illness Practicum

Credits: 4
Students provide nursing care using the nursing process in a clinical setting with adult clients experiencing acute and chronic illness. Emphasis is on demonstration of clinical judgement.

NURS3890 - Professional Nursing Care in Complex Illness

Credits: 3
Students will examine concepts of nursing practice in the care of adults with complex illness. Emphasis is on utilizing the nursing process to develop clinical judgment.
**NURS3891 - Professional Nursing Care of Older Adults**

Credits: 3  
Students will examine concepts of nursing practice in the care of older adults. Emphasis is on utilizing the nursing process to develop clinical judgment.

**NURS3892 - Professional Nursing Care in Mental Health and Illness**

Credits: 3  
This course explores mental health and illness concepts. Emphasis is on the role of the professional nurse in caring for clients with alterations in mental health.

**NURS3895 - Professional Nursing Care in Complex Illness Practicum**

Credits: 4  
Students provide patient-centered care using the nursing process in clinical setting with adult and older adult clients experiencing complex illness and alterations in mental health. Emphasis is on demonstration of clinical judgment.

**NURS4125 - Evidence-Based Nursing**

Credits: 3  
Prepares students to engage in evidence-based nursing, specifically how to ask meaningful clinical questions, find relevant evidence, critically appraise evidence, and integrate best evidence with clinical expertise and patient/community values.

USP 2003-2014 Code U3L, U3WC  
USP 2015 Code U5C3  
Prerequisite: WA and WB or COM1 and COM2; STAT 2050 or STAT 2070 or equivalent; admission into the nursing major component of the program.
NURS4665 - Healthcare Informatics in Professional Nursing Practice

Credits: 3
Utilizing a conceptual framework, students will examine nursing informatics within healthcare systems. Emphasis is placed on examining the role of clinical information systems in improving patient outcomes across practice, education, administrative, research, and interdisciplinary applications. Ethical and legal considerations of data management are examined.

A&S College Core 2015 Course changes effective Fall 2023 - Prerequisite: NURS 3895 and completion or concurrent enrollment in NURS 4690, NURS 4691, and NURS 4695.
Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4690, 4691, 4695.

NURS4690 - Professional Nursing Care of Populations

Credits: 4
Introduces the student to population-focused nursing and applies the nursing process to the community as client. Addresses core functions and essential services of public health. Focuses on vulnerable populations; epidemiology; community assessment, planning, and implementation; analysis of the healthcare system; emergency preparedness; and ethical/legal aspects of public health.

A&S College Core 2015 Course changes effective Fall 2023 - Description: Introduces the student to population-focused nursing and applies the nursing process to the community as client. Addresses core functions and essential services of public health. Focuses on vulnerable populations; epidemiology; community assessment, and analysis of the healthcare system. Prerequisite: NURS 3895 and completion or concurrent enrollment in NURS 4665, NURS 4691, and NURS 4695.
Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4665, NURS 4691, NURS 4695.

NURS4691 - Professional Nursing Care of Children and Families

Credits: 3
This course encompasses the care of women, children, and their families across physiological, psychological, spiritual, developmental, and socio-cultural dimensions. The focus of this class is on women's health, obstetrical, and pediatric nursing care including health promotion and wellness specific to maternal and pediatric health.

A&S College Core 2015 Course changes effective Fall 2022 - Credits: 4 credits; Course changes effective Fall 2023 - Description: This course encompasses the care of women, children, and their families across physiological, psychological, spiritual, developmental, and sociocultural dimensions. The focus is on women's health, obstetrical, and pediatric nursing care including health promotion and wellness specific to maternal and pediatric health. Prerequisite: NURS 3895 and completion or concurrent enrollment in NURS 4665, NURS 4690, and NURS 4695.
Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4665, NURS 4690, NURS 4695.

NURS4695 - Professional Nursing Care of Populations Practicum
Credits: 4
Students will apply the nursing process to childbearing families, children, and communities. The focus is on physiological, psychological, spiritual, developmental, and socio-cultural dimensions of individuals, families, and populations. Students will incorporate professional nursing roles into population-based care.

A&S College Core 2015 Course changes effective Fall 2023 - Description: The focus is on the application of professional nursing roles to the physiological, psychological, spiritual, developmental, and sociocultural dimensions of individuals, families, communities, and populations. Prerequisite: NURS 3895 and completion or concurrent enrollment in NURS 4665, NURS 4690, and NURS 4691.
Prerequisite: NURS 3895 and completion or concurrent enrollment with NURS 4665, NURS 4690, NURS 4691.

NURS4865 - Professional Nursing Leadership

Credits: 3
The role of the nurse leader in nursing practice is developed through integration of leadership, management, and organizational theories. Emphasis is on interprofessional care management, planned change, advocacy, activism, and professional development.

A&S College Core 2015 Course changes effective Spring 2024 - Description: The role of the nurse leader is developed through integration of leadership, management, and organizational theories. Emphasis is on interprofessional care, planned change, advocacy, activism, and professional development. Prerequisite: NURS 4695 and completion or concurrent enrollment in NURS 4895.
Prerequisite: NURS 4695 and completion or concurrent enrollment with NURS 4895.

NURS4895 - Professional Nursing Capstone Practicum

Credits: 9-12
Students utilize and synthesize basic concepts of professional nursing practice. The course socializes students into a healthcare system. Learning experiences allow students to gain confidence in managing patient care, practicing critical thinking, developing leadership and advocacy skills, and exploring ethical decision-making in clinical situations.

A&S College Core 2015 Course changes effective Spring 2024 - Description: Students synthesize concepts of professional nursing practice. The course socializes students into a healthcare system. Learning experiences allow students to manage patient care, apply critical judgment, develop leadership and explore ethical decision-making in healthcare settings. Prerequisite: NURS 4695 and completion or concurrent enrollment in NURS 4865.
Prerequisite: NURS 4695 and completion or concurrent enrollment with NURS 4865.
With approval from FWWSON, ARMY 3050 may be applied to this requirement and NURS 4895 taken for 9 credits.

PHCY3450 - Foundational Pathophysiology

Credits: 4
Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies.
This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

**When Offered** (Normally offered spring semester)

**Former Course Number** [4450]

**Prerequisite:** LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

**PHCY4470 - Fundamentals of Pharmacology**

Credits: 4

Studies pharmaceutical agents used for treatment, diagnosis or prevention of disease with particular emphasis on mechanisms of action, therapeutic and adverse effects.

**When Offered** (Normally offered fall semester)

**Former Course Number** [3510]

**Prerequisite:** PHCY 3450.

**Additional Requirements**

**Expected Student Learning Outcomes**

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

1. Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
2. Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
3. Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
4. Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
5. Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
6. Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
7. Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
8. Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
9. Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.
10. Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.

11. Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

**Admission**

Basic BSN has two different admission entries: 1) Freshman Admission to the Nursing major and 2) Non-Freshman Admission to the Nursing major. Criteria for admission as well as application instructions and deadlines can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, BSN, Basic BSN, Freshman Admission or Non-Freshman Admission under Admission to Basic BSN).

**Scholastic Requirements**

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for Basic BSN. These requirements can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, BSN, Basic BSN, Basic BSN Student Handbook - section 6 Scholastic Requirements).

**Curriculum**

The minimum requirement to graduate with a BSN is 120 semester hours of credit. Evaluation of transfer courses is required to determine credit eligibility.

The required courses, PHCY3450 - Foundational Pathophysiology [4450] and PHCY4470 - Fundamentals of Pharmacology, must be upper division (3000/4000 level). Lower division/Community College (1000/2000 level) courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability.

Nursing courses are offered fall and spring semesters of the university academic calendar. Students are required to have transportation to all clinical sites. A number of clinical sites are located in Cheyenne. The capstone practicum experience during spring of the senior year requires students to live in locations away from campus.

**Program of Study**

A detailed, semester sequenced Basic BSN Program of Study can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, BSN, Basic BSN, Basic BSN Program of Study). All required courses identified under Pre-Clinical Component and Clinical Component must be passed with a C or better (or S) except for CHEM 1000, which requires a B or better.

Applicable for: Freshman/Non-Freshman Admission to the Nursing Major

**Nursing, B.S.N., BRAND Option**
"Bachelors Reach for Accelerated Nursing Degree": an accelerated Bachelor of Science (BSN) option for students with a previous non-nursing baccalaureate degree who desire to become a registered nurse. This option is a 'summer to summer' format with a full-time schedule of courses.

University Studies Program Requirements

The University Studies Program 2015

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Prerequisite Courses

PSYC1000 - General Psychology

Credits: 3
Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

FCSC1141 - Principles of Nutrition

Credits: 3
This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

MICR2021 - General Microbiology
Credits: 4
Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.
Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.
   OR

MOLB2021 - General Microbiology

Credits: 4
Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021
When Offered Fall and Spring
Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.
   OR

MICR2240 - Medical Microbiology

Credits: 4
Designed primarily for nursing and pre-pharmacy majors, introduces students to microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance; also covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MOLB 2240.
Prerequisite: LIFE 1010.
   OR

MOLB2240 - Medical Microbiology

Credits: 4
Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.
When Offered: Spring
Prerequisite: LIFE 1010.

KIN2040 - Human Anatomy

Credits: 3
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB
Former Course Number [PEPR 2040]

Prerequisite: LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

KIN2041 - Human Anatomy Laboratory

Credits: 1
A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB
Former Course Number [PEPR 2041]

Prerequisite: KIN 2040 or concurrent enrollment in KIN 2040.

ZOO3115 - Human Systems Physiology

Credits: 4
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

PHCY3450 - Foundational Pathophysiology

Credits: 4
Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered: (Normally offered spring semester)
Former Course Number [4450]
Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

PHCY4470 - Fundamentals of Pharmacology

Credits: 4
Studies pharmaceutical agents used for treatment, diagnosis or prevention of disease with particular emphasis on mechanisms of action, therapeutic and adverse effects.

When Offered (Normally offered fall semester)
Former Course Number [3510]

Prerequisite: PHCY 3450.

Nursing Courses

(Note: Course requirements/expectations are subject to change. Maintain contact with FWWSON for current expectations.)

NURS2340 - Developmental Influences on Health

Credits: 3
Explores interaction between development and health. Discusses human development of physiological, psychological, cognitive, sociocultural, and spiritual systems across the lifespan. Identifies selected theories associated with development over the lifespan and implications for healthcare.

Prerequisite: Completion or concurrent enrollment in NURS 3445 or NURS 3745, NURS 3665 or NURS 3730 and NURS 3790, and PHCY 3450.

NURS3730 - Introduction to Professional Nursing

Credits: 2
Introduces students to the core concepts of professional nursing practice. Nursing process, domains of nursing practice, health policy, evidence-based practice, legal and professional standards will be introduced.

Prerequisite: Completion or concurrent enrollment in NURS 2340, NURS 3745, NURS 3790, and PHCY 3450.

NURS3745 - Nursing Fundamentals and Health Assessment

Credits: 4
Includes concepts of basic care/comfort, technical skills, medical equipment, asepsis, medication administration, nurse/client safety, and client rights. Students learn to assess and document normal variations and potential alterations of physiological, sociocultural, spiritual, and developmental dimensions of individuals across the lifespan.
**Prerequisite:** Completion or concurrent enrollment in NURS 2340, NURS 3730, NURS 3790, and PHCY 3450.

**NURS3790 - Health Promotion of Individuals, Families, and Populations**

Credits: 3  
Components of the nursing process and evidence-based nursing practice are used to protect the health of clients through health promotion, risk reduction, and disease prevention.

**Prerequisite:** Completion or concurrent enrollment in NURS 2340, NURS 3730, NURS 3745, and PHCY 3450.

**NURS3770 - Nursing Care in Acute and Chronic Illness**

Credits: 8  
Discern critical elements of professional nursing medical-surgical concepts for adults experiencing acute/chronic health alterations progressing to complex health alterations. Focuses on patient safety principles; quality initiatives; evidence-based nursing; information technology; interprofessional collaboration, communication; health promotion strategies; and critical thinking in the planning of client centered nursing care for the adult.

**Prerequisite:** NURS 3745 and completion or concurrent in NURS 3771, NURS 3780, and NURS 4765

**NURS3771 - Nursing Care in Acute and Chronic Illness Practicum**

Credits: 6  
Application of critical elements of professional nursing practice with adults experiencing acute and chronic health alterations. Focus is on incorporation of patient safety principles; quality initiatives; evidence-based nursing practice; information technology; interprofessional collaboration and communication; health promotion strategies; and critical thinking and clinical reasoning in the provision of nursing care.

**A&S College Core 2015 Course changes effective Fall 2022**  
**Name:** Nursing Care in Acute, Chronic, and Complex Illness Practicum; **Credits:** 4 credits; **Prerequisite:** NURS 3745 and completion or concurrent enrollment in NURS 3770, NURS 3780, and NURS 4765.  
**Prerequisite:** NURS 3710, NURS 3750, NURS 3730, NURS 3780.

**NURS3780 - Evidence-Based Practice in Nursing**

Credits: 4  
Prepares nursing students to engage in evidence-based practice in nursing, specifically how to search the literature and databases, ask meaningful clinical questions, find relevant evidence, critically appraise evidence, integrate best evidence with clinical expertise and patient/community values.

**A&S College Core 2015 Course changes effective Fall 2022**  
**Credits:** 3 credits; **Prerequisite:** STAT 2050 or STAT 2070 or equivalent; NURS 3745 and completion or concurrent enrollment in NURS 3770, NURS 3771, and NURS 4765.  
**Prerequisite:** admission to the BRAND program, concurrent enrollment in NURS 3770.

**NURS4765 - Healthcare Informatics in Nursing**
Credits: 3
Students will describe information and technology utilized to communicate, manage knowledge, support clinical decision-making, and effectively optimize patient outcomes while adhering to ethical and legal considerations of data management.

**Prerequisite:** NURS 3745 and completion or concurrent enrollment in NURS 3770, NURS 3771, and NURS 3780.

**NURS4710 - Population Health**

Credits: 4
Introduces the student to population-focused nursing and applied the nursing process to the community as client. Addresses core functions and essential services of public health. Focuses on vulnerable populations; epidemiology; community assessment, planning and implementation; analysis of the health care system; emergency preparedness; and legal aspects of public health.

A&S College Core 2015 *Course changes effective Spring 2023* - **Name:** Nursing Care for Population Health; *Description:* Introduces the student to population-focused and public health nursing through the application of the nursing process with the community as client. Focuses on vulnerable populations; epidemiology; community assessment, and analysis of the healthcare system. **Prerequisite:** NURS 3771 and completion or concurrent enrollment in NURS 4735, NURS 4740, and NURS 4771.

**Prerequisite:** NURS 3770, NURS 3771; concurrent enrollment in NURS 4740, NURS 4741, NURS 4735, NURS 4736.

**NURS4735 - Vulnerable Populations and Mental Health**

Credits: 3
This course introduces students to nursing principles and concepts of mental health psychopathology, physiology, psychology, and spirituality, along with developmental and socio-cultural considerations while incorporating treatment modalities related to the nursing of the middle-aged and aging adult.

A&S College Core 2015 *Course changes effective Spring 2023* - **Prerequisite:** NURS 3771 and completion or concurrent enrollment in NURS 4710, NURS 4740, and NURS 4771.

**Prerequisite:** NURS 3770 and NURS 3780; concurrent enrollment in NURS 4736.

**NURS4740 - Nursing Care of the Young Family**

Credits: 6
Utilizes nursing process to assess, promote, and protect the health of young families as client. Focus is human sexuality and reproduction, family planning, pregnancy stages, neonatal, pediatrics. Growth and development, health promotion, disease prevention, family dynamics are included. Evidence-based nursing guides practice to promote a healthy family and family system.

A&S College Core 2015 *Course changes effective Spring 2023* - **Description:** Utilizes nursing process to assess, promote, and protect the health of young families as client. Focus is human sexuality and reproduction, family planning, pregnancy stages, and pediatrics to promote
a healthy family and family system. Credits: 4 credits; Prerequisite: NURS 3771 and completion or concurrent enrollment in NURS 4710, NURS 4735, and NURS 4771. 

Prerequisite: NURS 3770; NURS 3771, and concurrent enrollment in NURS 4741.

NURS4771 - Nursing Care of Young Families and Vulnerable Populations Practicum

Credits: 4
Applies and synthesizes clinical judgment related to nursing care of clients with a focus on the young family and vulnerable populations across the lifespan. Concepts address human sexuality, reproduction, mental health, and core functions of public health.

Prerequisite: NURS 3771 and completion or concurrent enrollment in NURS 4710, NURS 4735, and NURS 4740.

NURS4775 - Nursing Senior Capstone

Credits: 10
Provides opportunities to utilize and synthesize core concepts of professional nursing. Intensive clinical experience allowing students to become socialized into health care delivery system; gain in autonomy/confidence in performing skills; practice critical thinking and clinical reasoning in making ethical clinical decisions; develop leadership in providing and coordinating evidence-based nursing care.

A&S College Core 2015 Course changes effective Summer 2023 - Description: Provides opportunities to synthesize core concepts of professional nursing through intensive clinical experiences. Focuses on students' socialization into the healthcare system through application of clinical judgment in making safe and ethical decisions while coordinating evidence-based nursing care. Prerequisite: NURS 4771 and completion or concurrent enrollment in NURS 4785. 

Prerequisite: NURS 4710; NURS 4735; NURS 4736; and concurrent enrollment in NURS 4785.

NURS4785 - Nursing Integration

Credits: 2
Focuses on the continuing integration of previously learned concepts. The student further develops the role of consumer of research and incorporates leadership and management skills as a member of the profession.

A&S College Core 2015 Course changes effective Summer 2023 - Name: Integration of Leadership in Nursing; Description: Focuses on the continuing integration of previously learned concepts of leadership, management, and professional development. The student further develops their role as a consumer of research and as a leader of an interprofessional healthcare team. Prerequisite: NURS 4771 and completion or concurrent enrollment in NURS 4775.

Prerequisite: NURS 4735; NURS 4736; NURS 4710; and concurrent enrollment in NURS 4775.

Additional Requirements
Expected Student Learning Outcomes

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

1. Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
2. Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
3. Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
4. Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
5. Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
6. Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
7. Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
8. Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
9. Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.
10. Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.
11. Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Admission

Students who meet university requirements are admitted to the university in the pre-nursing component of BRAND (declared PNBR major). The number of students admitted to BRAND is limited, and admission is a competitive process. Applicants meeting minimum requirements are not guaranteed admission.

Criteria for admission to BRAND as well as application instructions and deadlines can be found on the nursing website, www.uwyo.edu/nursing (click on Nursing Programs, BSN, BRAND, Admission Criteria/Application).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for BRAND. These requirements can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, BSN, BRAND, BRAND Student Handbook - section 6, Scholastic Requirements).
Curriculum

The minimum requirement for the second bachelor's (SB) degree candidate to graduate with a BSN is 50 semester hours of credit. This curriculum option totals 55 credit hours.

The minimum requirement for an SB degree is 30 additional semester hours earned from UW, 12 of which must be in upper division level courses. If prior baccalaureate degree was earned through UW, the 30 credit minimum is in addition to the credits earned for previous degree. Evaluation of transfer courses is required to determine credit eligibility.

The required courses, PHCY3450 - Foundational Pathophysiology [4450] and PHCY4470 - Fundamentals of Pharmacology, must be upper division (3000/4000 level). Lower division/Community College (1000/2000 level) courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability. PHCY 3450 and PHCY 4470 must be completed within three years before the May start date.

Program of Study

A detailed, semester sequenced BRAND Program of Study can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, BSN, BRAND, BRAND Program of Study). All required courses identified under Prerequisite Courses and Nursing Courses must be passed with a C or better (or S).

Nursing, B.S.N., BSN Completion - ReNEW Option

The BSN Completion - ReNEW (Revolutionizing Nursing Education in Wyoming) option is Wyoming's shared BSN nursing curriculum. Entry into the ReNEW option begins at a participating Wyoming community college ADN nursing program.

University Studies Program Requirements

The University Studies Program 2015

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

Related Coursework

MATH1400 - College Algebra

Credits: 3
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring,
theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA
USP 2015 Code U5Q
Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

OR

STAT2070 - Introductory Statistics for the Social Sciences

Credits: 4
Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.

USP 2003-2014 Code U3Q,U3QB
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

FCSC1141 - Principles of Nutrition

Credits: 3
This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

LIFE1010 - General Biology

Credits: 4
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.
**Prerequisite:** Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

**CHEM1000 - Introductory Chemistry**

Credits: 4
Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.

**When Offered** (Normally offered fall semester)
USP 2003-2014 Code U3SP
USP 2015 Code U5PN

**Prerequisite:** Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.

**CHEM1020 - General Chemistry I**

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.

**When Offered** (Normally offered fall semester)
USP 2003-2014 Code U3S
USP 2015 Code U5PN

**Prerequisite:** ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

**MICR2021 - General Microbiology**

Credits: 4
Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

**Cross Listed** MOLB 2021.
**Former Course Number** [MICR 2210]

**Prerequisite:** LIFE 1010, CHEM 1000 or equivalent.

**OR**
MOLB2021 - General Microbiology

Credits: 4
Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021
When Offered Fall and Spring
Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.
OR

MICR2240 - Medical Microbiology

Credits: 4
Designed primarily for nursing and pre-pharmacy majors, introduces students to microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance; also covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MOLB 2240.
Prerequisite: LIFE 1010.
OR

MOLB2240 - Medical Microbiology

Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.
When Offered Spring
Prerequisite: LIFE 1010.

PHCY3450 - Foundational Pathophysiology

Credits: 4
Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)
Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

PHCY4470 - Fundamentals of Pharmacology

Credits: 4
Studies pharmaceutical agents used for treatment, diagnosis or prevention of disease with particular emphasis on mechanisms of action, therapeutic and adverse effects.

When Offered (Normally offered fall semester)
Former Course Number [3510]

Prerequisite: PHCY 3450.
  • Humanities Elective course Credits: 3 (not PSYC 1000)

Nursing Courses

NURS3005 - ReNEW Distance Foundations

Credits: 1
Prepares learners for ReNEW BSN Completion in a distance delivery format. The course includes concept-based delivery in the UW learning system, APA formatting, writing scholarly papers, and library resources and skills.

Prerequisite: Enrolled in or graduate of Wyoming ReNEW Nursing Program.

NURS4055 - Application of Evidence in Nursing Practice

Credits: 3
Prepares RN students to engage in evidence-based nursing, specifically how to ask meaningful clinical questions, find relevant evidence, critically appraise evidence, and integrate best evidence with clinical expertise and patient/community values.

USP 2003-2014 Code U3L
USP 2015 Code U5C3
Prerequisite: ReNEW Progression or Formal RN-BSN Admission; STAT 2050 or STAT 2070 or equivalent; COM1 and COM2.

NURS4630 - Public/Community Health

Credits: 2
Learners examine public/community health nursing roles and apply the nursing process to community as client. Focuses on improving community health, levels of prevention, and addresses multiple determinants of health. Core functions, essential services, community assessment and planning, emergency preparedness, and analysis of the public healthcare system will be studied.
**Prerequisite:** ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

**NURS4635 - Community as Client**

Credits: 2  
Learners will understand relationships among health, disease, and the environment, with emphasis on the role of community health agencies and programs for communities in need of health care support, regionally, nationally, and globally. In this course, an assessment and planning framework guides students in assessing the health of a community.

**Prerequisite:** ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

**NURS4640 - Health Equity**

Credits: 2  
Learners will examine population-focused concepts to assess vulnerable and oppressed populations. The magnitude of health disparities both in the United States and globally will be discussed. Focuses on a multi-level and multi-cultural view of population health challenges, alleviating health disparities, and a commitment to health equity.

**Prerequisite:** ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

**NURS4645 - Population Health**

Credits: 2  
Focuses on analysis of local, regional, national, and international data that are indicators of population health. Disease outbreaks are analyzed. Learners study development of innovative, collaborative, multi-disciplinary interventions and policies to improve public health. This course provides opportunities for learners to improve population health through application of theory and evidence.

**Prerequisite:** ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

**NURS4660 - Healthcare Informatics**

Credits: 3  
Students will develop knowledge and skills to utilize and evaluate information technologies to improve patient outcomes across diverse populations. Includes the use of Clinical Information Systems to plan and document the nursing process. Ethical and legal considerations of data management and interdisciplinary use of healthcare informatics are presented.

**Prerequisite:** ReNEW Progression or Current RN license.

**NURS4830 - Leadership in Healthcare Today**

Credits: 2  
Focuses on the role of nurse leader and manager through integration of leadership, management, and organizational concepts, models, and theories. Emphasis in on leadership, followership, management, advocacy, professional development and activism, and managing resources.
Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4835 - Leading Nursing Practice

Credits: 2
Focuses on nurse leaders making a difference using evidence-based nursing practice. Learners utilize and synthesize basic concepts of professional nursing practice. This course creates the opportunity for learners to lead nursing practice in a variety of settings.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4840 - Healthcare Systems and Policy

Credits: 2
Learners examine healthcare quality and the regulation of professional nursing practice in various settings. The focus is on ethical and legal issues and policy development for healthcare delivery.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4845 - Innovation in Nursing Practice

Credits: 2
Focus on use and synthesis of concepts in professional nursing practice. This course provides an opportunity to employ critical thinking, to apply ethical decision-making, to use evidence, and to demonstrate the ability to lead planned change.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4855 - Contemporary Nursing Practice

Credits: 2
Focus in on practice as critically effective members and leaders of the healthcare team. Learners analyze a variety of societal, economic, political, and professional issues that influence contemporary nursing. This course provides an opportunity to be creative in examining trends in nursing and healthcare.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

Additional Requirements

Expected Student Learning Outcomes

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:
1. Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
2. Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
3. Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
4. Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
5. Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
6. Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
7. Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
8. Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
9. Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.
10. Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.
11. Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

**Admission**

Students who apply to UW and meet university requirements are admitted to the university in the pre-nursing component of ReNEW BSN (declared PNRN). Criteria for UW admission can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, BSN, BSN Completion, Wyoming's ReNEW).

**Scholastic Requirements**

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for BSN Completion. These requirements can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, BSN, BSN Completion, Wyoming's ReNEW or RN-BSN, BSN Completion Student Handbook - section 6, Scholastic Requirements).

**Curriculum**

The minimum UW requirement to graduate with a BSN in 120 semester hours of credit. Evaluation of transfer courses is required to determine credit eligibility.

The required courses, PHCY3450 - Foundational Pathophysiology [4450], and PHCY4470 - Fundamentals of Pharmacology, must be upper division (3000/4000 level). Lower division/Community College (1000/2000 level) courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability.
**Program of Study**

A detailed Program of Study for ReNEW ADN Entry can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, BSN, BSN Completion, Wyoming's ReNEW, Program of Study for ReNEW ADN Entry). All required courses identified under Related Coursework and Nursing Courses must be passed with a C or better (or S).

**Nursing, B.S.N., BSN Completion - RN-BSN Option**

The BSN Completion - RN-BSN option is for non-ReNEW associate degree or diploma-educated registered nurses. This option is delivered nationwide with no on-campus time required.

**University Studies Program Requirements**

The University Studies Program 2015

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**H- - Human Culture (1)**

Credits: 3
Max Credit 3
Approved coursework does not include courses taken within the student's major department.

**V- - U.S. & WY Constitution**
Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Related Coursework**

**MATH1400 - College Algebra**

Credits: 3  
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

**STAT2050 - Fundamentals of Statistics**

Credits: 4  
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in MATH 1000, MATH 1400, or equivalent.  
**OR**

**STAT2070 - Introductory Statistics for the Social Sciences**

Credits: 4  
Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

**Cross Listed** SOC 2070.  
USP 2003-2014 Code U3Q,U3QB  
**Prerequisite:** grade of C or better in MATH 1000, MATH 1400, or equivalent.

**FCSC1141 - Principles of Nutrition**

Credits: 3  
This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in
overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

**PSYC1000 - General Psychology**

Credits: 3  
Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS  
USP 2015 Code U5H

**LIFE1010 - General Biology**

Credits: 4  
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB  
USP 2015 Code U5PN  
**Former Course Number** [BIOL 1010]

**Prerequisite:** Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

**CHEM1000 - Introductory Chemistry**

Credits: 4  
Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.  
**When Offered** (Normally offered fall semester)  
USP 2003-2014 Code U3SP  
USP 2015 Code U5PN  
**Prerequisite:** Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.  
**OR**

**CHEM1020 - General Chemistry I**

Credits: 4  
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.
Lab/Lecture Hours: Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3S
USP 2015 Code U5PN

Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

MICR2021 - General Microbiology

Credits: 4
Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.
Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.

OR

MOLB2021 - General Microbiology

Credits: 4
Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MICR 2021 and LIFE 2021
When Offered Fall and Spring
Former Course Number [2210]

Prerequisite: Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.

OR

MICR2240 - Medical Microbiology

Credits: 4
Designed primarily for nursing and pre-pharmacy majors, introduces students to microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance; also covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MOLB 2240.
Prerequisite: LIFE 1010.

OR
MOLB2240 - Medical Microbiology

Credits: 4
Designed primarily for nursing and pre-pharmacy majors. Introduces microbiology, including the diversity of prokaryotic and eukaryotic microbes, their structural and physiological properties, and their applied medical significance. Covers the basic principles of the immune system and emphasizes the communicable diseases of man caused by microbial pathogens.

Cross Listed MICR 2240.
When Offered Spring
Prerequisite: LIFE 1010.

PHCY3450 - Foundational Pathophysiology

Credits: 4
Foundational principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for pre-nursing students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 6120 for interprofessional education revolving around student-led case study presentations.

When Offered (Normally offered spring semester)
Former Course Number [4450]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent, and ZOO 3115.

PHCY4470 - Fundamentals of Pharmacology

Credits: 4
Studies pharmaceutical agents used for treatment, diagnosis or prevention of disease with particular emphasis on mechanisms of action, therapeutic and adverse effects.

When Offered (Normally offered fall semester)
Former Course Number [3510]

Prerequisite: PHCY 3450.
  • An approved Human Anatomy course Credits: 4
  • An approved Human Physiology course Credits: 4

Nursing Courses

NURS3425 - Bridging Nursing Paradigms

Credits: 3
This course prepares incoming ADN- or Diploma-educated Registered Nurses for completion of the Fay W. Whitney School of Nursing (FWWSON) BSN degree. Nursing knowledge, skills, and abilities in selected content areas will be evaluated and augmented in preparation for BSN Completion coursework.
Prerequisite: Current RN license.

**NURS4055 - Application of Evidence in Nursing Practice**

Credits: 3
Prepares RN students to engage in evidence-based nursing, specifically how to ask meaningful clinical questions, find relevant evidence, critically appraise evidence, and integrate best evidence with clinical expertise and patient/community values.

USP 2003-2014 Code U3L
USP 2015 Code U5C3
**Prerequisite:** ReNEW Progression or Formal RN-BSN Admission; STAT 2050 or STAT 2070 or equivalent; COM1 and COM2.

**NURS4630 - Public/Community Health**

Credits: 2
Learners examine public/community health nursing roles and apply the nursing process to community as client. Focuses on improving community health, levels of prevention, and addresses multiple determinants of health. Core functions, essential services, community assessment and planning, emergency preparedness, and analysis of the public healthcare system will be studied.

**Prerequisite:** ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

**NURS4635 - Community as Client**

Credits: 2
Learners will understand relationships among health, disease, and the environment, with emphasis on the role of community health agencies and programs for communities in need of health care support, regionally, nationally, and globally. In this course, an assessment and planning framework guides students in assessing the health of a community.

**Prerequisite:** ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

**NURS4640 - Health Equity**

Credits: 2
Learners will examine population-focused concepts to assess vulnerable and oppressed populations. The magnitude of health disparities both in the United States and globally will be discussed. Focuses on a multi-level and multi-cultural view of population health challenges, alleviating health disparities, and a commitment to health equity.

**Prerequisite:** ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

**NURS4645 - Population Health**
Credits: 2
Focuses on analysis of local, regional, national, and international data that are indicators of population health. Disease outbreaks are analyzed. Learners study development of innovative, collaborative, multi-disciplinary interventions and policies to improve public health. This course provides opportunities for learners to improve population health through application of theory and evidence.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4660 - Healthcare Informatics

Credits: 3
Students will develop knowledge and skills to utilize and evaluate information technologies to improve patient outcomes across diverse populations. Includes the use of Clinical Information Systems to plan and document the nursing process. Ethical and legal considerations of data management and interdisciplinary use of healthcare informatics are presented.

Prerequisite: ReNEW Progression or Current RN license.

NURS4830 - Leadership in Healthcare Today

Credits: 2
Focuses on the role of nurse leader and manager through integration of leadership, management, and organizational concepts, models, and theories. Emphasis in on leadership, followership, management, advocacy, professional development and activism, and managing resources.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4835 - Leading Nursing Practice

Credits: 2
Focuses on nurse leaders making a difference using evidence-based nursing practice. Learners utilize and synthesize basic concepts of professional nursing practice. This course creates the opportunity for learners to lead nursing practice in a variety of settings.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4840 - Healthcare Systems and Policy

Credits: 2
Learners examine healthcare quality and the regulation of professional nursing practice in various settings. The focus is on ethical and legal issues and policy development for healthcare delivery.

Prerequisite: ReNEW Progression or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS4845 - Innovation in Nursing Practice
NURS4855 - Contemporary Nursing Practice

Focus in on practice as critically effective members and leaders of the healthcare team. Learners analyze a variety of societal, economic, political, and professional issues that influence contemporary nursing. This course provides an opportunity to be creative in examining trends in nursing and healthcare.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

Escrow Courses

(Credits are automatically posted to the student's UW transcript during the semester of NURS 4855 enrollment. These credits represent credit for nursing content learned in the associate degree or diploma in nursing program.)

(Note: Course requirements/expectations are subject to change. Maintain contact with FWWSON for current expectations.)

NURS3665 - Foundations of Professional Nursing Roles

Focus in on use and synthesis of concepts in professional nursing practice. This course provides an opportunity to employ critical thinking, to apply ethical decision-making, to use evidence, and to demonstrate the ability to lead planned change.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

NURS3890 - Professional Nursing Care in Complex Illness

Focus in on practice as critically effective members and leaders of the healthcare team. Learners analyze a variety of societal, economic, political, and professional issues that influence contemporary nursing. This course provides an opportunity to be creative in examining trends in nursing and healthcare.

Prerequisite: ReNEW ADN Benchmark or Formal RN-BSN Admission; NURS 3005 or NURS 3425.

Escrow Courses

(Credits are automatically posted to the student's UW transcript during the semester of NURS 4855 enrollment. These credits represent credit for nursing content learned in the associate degree or diploma in nursing program.)

(Note: Course requirements/expectations are subject to change. Maintain contact with FWWSON for current expectations.)

NURS3665 - Foundations of Professional Nursing Roles

This course introduces the student to professionalism, leadership, safety, and patient-centeredness. The concepts emphasized provide the foundation for professional nursing practice.

Prerequisite: Fall 2021: NURS 3490, PHCY 4470, and completion or concurrent enrollment in NURS 3635, NURS 3690, and NURS 3695. Effective Spring 2022: Completion or concurrent enrollment in NURS 2340, NURS 3445, and PHCY 3450.

NURS3890 - Professional Nursing Care in Complex Illness

Students will examine concepts of nursing practice in the care of adults with complex illness. Emphasis is on utilizing the nursing process to develop clinical judgment.

Prerequisite: NURS 3695 and completion or concurrent enrollment in NURS 3891, NURS 3892, and NURS 3895.

NURS3895 - Professional Nursing Care in Complex Illness Practicum

NURS3895 and completion or concurrent enrollment with NURS 3891, 3892, 3895, 4125.
Credits: 4
Students provide patient-centered care using the nursing process in clinical setting with adult and older adult clients experiencing complex illness and alterations in mental health. Emphasis is on demonstration of clinical judgment.

A&S College Core 2015 Course changes effective Spring 2023 - Prerequisite: NURS 3695 and completion or concurrent enrollment in NURS 3890, NURS 3891, and NURS 3892. Prerequisite: NURS 3695 and completion or concurrent enrollment with NURS 3890, NURS 3892, NURS 3891, NURS 3892, NURS 4125.

Additional Requirements

Expected Student Learning Outcomes

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

1. Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
2. Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
3. Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
4. Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
5. Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
6. Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
7. Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
8. Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
9. Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.
10. Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.
11. Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Admission

Students who apply to UW and meet university requirements are admitted to the university in the pre-nursing component of RN-BSN (declared PNBS). Criteria for admission as well as application instructions can be found on the
Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for BSN Completion. These requirements can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, BSN, BSN Completion, Wyoming’s ReNEW or RN-BSN, BSN Completion Student Handbook - section 6, Scholastic Requirements).

Curriculum

The minimum UW requirement to graduate with a BSN in 120 semester hours of credit. Evaluation of transfer courses is required to determine credit eligibility.

The required courses, PHCY3450 - Foundational Pathophysiology [4450], and PHCY4470 - Fundamentals of Pharmacology, must be upper division (3000/4000 level). Lower division/Community College (1000/2000 level) courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability.

Program of Study

A detailed Program of Study for RN-BSN Entry can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, BSN, BSN Completion, RN-BSN, Program of Study for RN-BSN Entry). All required courses identified under Related Coursework and Nursing Courses must be passed with a C or better (or $).

Graduate

Nursing, D.N.P., Family Nurse Practitioner Concentration

The Family Nurse Practitioner (FMY) concentration prepares advanced practice nurses to provide primary health care to diverse individuals and their families in a variety of outpatient settings, especially rural settings.

DNP Core Courses

NURS5140 - Pharmacotherapy for Primary Care

Credits: 4
Prepares primary care practitioners in drug therapy management for a variety of client populations with an emphasis on rural practice.

Prerequisite: NURS 5601, NURS 5602, NURS 5603, NURS 5604, NURS 5605, and NURS 5830.
NURS5165 - DNP: Adv Pathophysiology

Credits: 2
A system-based approach is used to explore selected pathophysiological states encountered across the lifespan in primary care. The developmental physiology, etiology, pathogenesis, clinical manifestations, and physiological responses to illness and treatment regimens are examined, providing a basis for the foundation of clinical decisions.

Prerequisite: NURS 5603, NURS 5604, NURS 5605, and NURS 5830

NURS5601 - Theoretical Foundations Advanced Practice Nursing

Credits: 3
An introduction to the discipline of nursing for graduate nursing students

Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5602 - Advanced Nursing Leadership

Credits: 3
Focus on developing advanced nursing leadership skills and attributes for interprofessional collaboration to create viability of the profession and health-related practice environments

Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5603 - Evidence-Based Practice for Advanced Nursing

Credits: 3
Focuses on the use of EBP to solve clinical, educational, and administrative problems in advanced nursing practice.

Prerequisite: Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

NURS5604 - Population and Health Policies

Credits: 3
Emphasis on population health, epidemiology, and health policy related to rural and global health issues.

Prerequisite: Admission to the MS-NURS or DNP-DNP program.

NURS5605 - Informatics and Quality Improvement for Advanced Nursing Practice

Credits: 3
Emphasis on theoretical and scientific foundations for quality improvement, safety, and informatics in health care.

Prerequisite: Admission to the MS-NURS or DNP-DNP program.
NURS5820 - Health Behavior Change I: Primary Prevention and Wellness

Credits: 3
This course will cover the application of theories and techniques of health behavior change and principles of epidemiology to health issues from the individual to the community level.

Prerequisite: Admission to the DNP program.

NURS5824 - Advanced Health Assessment and Clinical Decision-Making for Nurse Practitioners

Credits: 2
Builds upon basic nursing assessment skills; includes a human cadaver lab experience to enhance learners' understanding of anatomy, physiology, and pathophysiology, progressing to didactic, hands-on practice, and check-offs of student ability to perform client interviewing and advanced physical assessment techniques. Prepares learners for the clinical decision-making required of nurse practitioners.

A&S College Core 2015 Course changes effective Fall 2022 - Credits: 3 credits. Description: Advanced health assessment and diagnostic decision-making for nurse practitioners. Builds on previous nursing assessment skills. Emphasizes person-centered communication skills and a systematic diagnostic-reasoning approach that leads to accurate clinical decision-making. Clinical correlation amongst anatomy, physiology, pathophysiology, and physical examination. Prerequisite: NURS 5140 and NURS 5165.
Prerequisite: NURS 5165, NURS 5800, NURS 5805, NURS 5810, and NURS 5865

NURS5830 - Health Behavior Change II: Behavioral Skills for Secondary and Tertiary Prevention

Credits: 3
This course will cover the application of health behavior change skills in advanced nursing practice, including theories/models and techniques, with a focus on chronic illness.

Prerequisite: NURS 5820 and NURS 5865.

NURS5865 - DNP Seminar

Credits: 1
Max Credit (Max. 6)

Instructor and student-led discussions designed to facilitate role transition of the doctorally-prepared nurse practitioner. Seminars include topics related to integration and application of nursing and other health-related theories and models in rural nurse practitioner-delivered care.

Prerequisite: Admission to the DNP program.

NURS5866 - DNP Seminar II
Instructor and students lead discussions designed to facilitate role transition of the doctorally prepared nurse practitioner. Seminars include topics related to transitioning from nurse practitioner students into practicing nurse practitioners.

A&S College Core 2015 **Course changes effective Fall 2023** - **Prerequisite:** NURS 5872 and NURS 5891 OR NURS 5862 and NURS 5891. 
**Prerequisite:** NURS 5891, NURS 5862 and NURS 5883 OR NURS 5891, NURS 5875 and NURS 5876.

**NURS5891 - DNP Project I**

Credits: 3
In collaboration with a facility, learners will examine clinically relevant data to target a practice and/or patient outcome for improvement. Learners will collect and critically appraise related evidence and develop an intervention, including an outcome evaluation plan.

A&S College Core 2015 **Course changes effective Summer 2023** - **Credits:** 1 credit; **Description:** In collaboration with a health-related organization, learners will identify a problem, concern, or question that can be addressed through a rapid cycle quality improvement project for a Doctor of Nursing Practice project. **Prerequisite:** NURS 5873, NURS 5877 and NURS 5827 or NURS 5882, NURS 5883 and NURS 5828. 
**Prerequisite:** NURS 5850.

**NURS5892 - DNP Project II**

Credits: 3
Continuation of NURS 5891, DNP Project I. In collaboration with facility, learners will implement the proposed clinical intervention, evaluate the outcome, and professionally disseminate the results.

A&S College Core 2015 **Course changes effective Fall 2023** - **Description:** Continuation of NURS 5891, DNP Project I. In collaboration with a health-related organization, learners will plan and begin to implement a quality improvement project. **Prerequisite:** NURS 5872 and NURS 5891 OR NURS 5862 and NURS 5891. 
**Prerequisite:** NURS 5891 AND NURS 5875, NURS 5876 OR NURS 5862, NURS 5883.

**NURS5893 - DNP Project III**

Credits: 1
Continuation of NURS 5892, DNP Project II. In collaboration with a health-related organization, learners will continue to implement their scholarly quality improvement project.

**Prerequisite:** NURS 5874, NURS 5892 and NURS 5866 or NURS 5863, NURS 5892, NURS 5866.

**NURS5894 - DNP Project IV**

Credits: 2
Continuation of NURS 5893, DNP Project III. In collaboration with a health-related organization, learners will finalize their scholarly quality improvement project and disseminate the findings.
Prerequisite: NURS 5893.

Family Nurse Practitioner Specialty Courses

NURS5825 - Advanced Health Assessment and Clinical Decision-Making for Family Nurse Practitioners

Credits: 4
Advanced health assessment and diagnostic decision-making for family nurse practitioners. Builds on previous assessment skills and covers specialty exams used in primary care. Emphasizes a systematic diagnostic reasoning approach that leads to accurate clinical decision-making. Additionally, course focuses on sociocultural influences, growth and development, and gender concepts.

A&S College Core 2015 Course changes effective Fall 2022 - Name: Advanced Health Assessment for Family NPs; Credits: 2 credits; Description: Advanced primary care assessment skills for family nurse practitioners. Focusing on specialty examination techniques for all body system. Prerequisite: NURS 5140 and NURS 5165. Prerequisite: NURS 5166, NURS 5815, NURS 5820, and NURS 5824.

NURS5827 - Skills for Family NP

Credits: 3
Developing skills for advanced practice nursing and practice management for the family nurse practitioner.

Prerequisite: NURS 5824, NURS 5825, NURS 5871, and NURS 5875.

NURS5871 - Wellness for Adults in Primary Care

Credits: 3
Provision of wellness primary care for adults across the lifespan, including primary and secondary prevention.

A&S College Core 2015 Course changes effective Fall 2022 - Prerequisite: NURS 5165 and NURS 5140. Prerequisite: NURS 5140 and NURS 5825.

NURS5872 - Practicum for Wellness in Primary Care

Credits: 3
Clinical practicum for NURS 5871, Wellness for Adults in Primary Care.

A&S College Core 2015 Course changes effective Summer 2023 - Name: Practicum: Diagnosis and Management of the Primary Care Client for the FNP I; Credits: 5 credits; Description: Clinical practicum focused on beginning level diagnostic and clinical management competencies for the FNP. Prerequisite: NURS 5873, NURS 5877, and NURS 5827. Prerequisite: NURS 5140 and NURS 5825.

NURS5873 - Primary Care for Children, Adolescents, and Families
Credits: 3
Provision of primary care for children, adolescents, and families across the lifespan, including primary and secondary prevention.

A&S College Core 2015 Course changes effective Fall 2022 - Prerequisite: NURS 5871, NURS 5875, NURS 5824, and NURS 5825.
Prerequisite: NURS 5440, NURS 5830, NURS 5871 and NURS 5872.

NURS5874 - Practicum for Primary Care for Children, Adolescents, and Families

Credits: 3
Clinical practicum for NURS 5873, Primary Care for Children, Adolescents, and Families.

A&S College Core 2015 Course changes effective Fall 2023 - Name: Diagnosis and Management of the Primary Care Client for the FNP II; Credits: 5 credits; Description: Clinical practicum that allows students to continue to practice and refine competencies in the FNP role. Prerequisite: NURS 5872 and NURS 5891.
Prerequisite: NURS 5440, NURS 5830, NURS 5871 and NURS 5872.

NURS5875 - Primary Care for Acute & Chronically Ill Adults

Credits: 3
Diagnosis and management of select acute and chronic illnesses experienced by adults across the lifespan. Primary focus is on those physical and behavioral illnesses with high prevalence in rural primary care.

A&S College Core 2015 Course changes effective Fall 2022 - Prerequisite: NURS 5165 and NURS 5140.
Prerequisite: NURS 5850.

NURS5876 - Practicum for Primary Care for Acute & Chronically Ill Adults

Credits: 3
Clinical practicum for NURS 5875, Primary Care for Acute & Chronically Ill Adults I.

A&S College Core 2015 Course changes effective Fall 2023 - Name: Final FNP Practicum; Credits: 6 credits; Description: This final clinical experience provides learners with the opportunity to integrate previous learning from the FNP program in the provision of evidence-based health care. Prerequisite: NURS 5866, NURS 5874, NURS 5892, and NURS 5893.
Prerequisite: NURS 5850.

NURS5877 - Primary Care for Acute & Chronically Ill Adults II

Credits: 3
Continuation of NURS 5875. Diagnosis and management of select acute and chronic illnesses experienced by adults across the lifespan. Primary focus is on those physical and behavioral illnesses with high prevalence in rural primary care.

A&S College Core 2015 Course changes effective Spring 2023 - Prerequisite: NURS 5871, NURS 5875, NURS 5824,
Additional Requirements

Expected Student Learning Outcomes

Graduates will:

1. engage in evidence-based practice to optimize health outcomes; and
2. engage in leadership activities to promote excellence in rural health care.

Core Concepts:

- Transformation:
  Transformation includes learning, education, leadership, and nursing as a whole; engaging creativity with theory and evidence-based practice to result in critical reflection and cognitive flexibility.

- Rurality/Frontier
  Practice in a low population area where resources and/or access to care are limited and be able to innovate accordingly.

- Service
  Providing advanced practice nursing care and services to individuals, families, groups, communities, and populations includes altruism, leadership, decision-making, cooperation, education, listening, problem-solving, person-centered care, fidelity, advocacy, ethical behavior, and practice.

- Comprehensive Global healthcare system perspective
  An interconnected and comprehensive global health care system perspective incorporating the following attributes: advocacy, altruism, creativity, ethical conduct, effective communication skills, leadership, problem-solving skills, professionalism, and scholarship.

- Clinical Scholarship
  Activities that systematically advance nursing science, including its teaching, research, and practice through rigorous inquiry that 1) is significant to the profession, 2) is creative, 3) can be documented, 4) can be replicated or elaborated, and 5) can be peer-reviewed through various methods and includes discovery, teaching, practice, and integration.

Admission

The University of Wyoming must receive complete application materials for the DNP Program by the application deadline to be considered for fall admission (the entire DNP application process is completed online). The applicant is responsible to make certain that UW is in receipt of all application materials/ fees. The number of students admitted is limited. Admission is a competitive process and applicants meeting minimum requirements are not guaranteed admission to the program. Admission to the university does not guarantee admission to the DNP program in the School of Nursing.

Criteria for admission as well as application instructions and deadlines can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, DNP, Admission Criteria & Application).

Scholastic Requirements
University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for the DNP Program. These requirements can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, DNP, DNP Program Student Handbook - section 6 Scholastic Requirements).

Curriculum

All DNP students, regardless of concentration will take a set of core courses. In addition to the core courses a group of specialty courses are required for each NP concentration. Students earning the DNP degree will complete a final scholarly project which is integrated into the FMY and PSH curricula.

The DNP core and clinical courses will be delivered using a combination of online courses; synchronous video web-conferencing, and hybrid courses with periodic intensive on-campus experiences. Clinical placements will be arranged at health care facilities in Wyoming, north central Colorado, or southern Montana.

Program of Study

A detailed, semester sequenced DNP-FMY Program of Study can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, DNP, DNP-FMY Program of Study).

Nursing, D.N.P., Psychiatric Mental Health Nurse Practitioner Concentration

The Psychiatric Mental Health Nurse Practitioner (PSH) concentration prepares advanced practice nurses to provide a full range of psychiatric care. Graduates are prepared to assess, diagnose, and manage, to include prescribing psychotropic medications, for people with chronic and acute psychiatric disorders.

DNP Core Courses

NURS5140 - Pharmacotherapy for Primary Care

Credits: 4
Prepares primary care practitioners in drug therapy management for a variety of client populations with an emphasis on rural practice.

Prerequisite: NURS 5601, NURS 5602, NURS 5603, NURS 5604, NURS 5605, and NURS 5830.

NURS5165 - DNP: Adv Pathophysiology

Credits: 2
A system-based approach is used to explore selected pathophysiological states encountered across the lifespan in primary care. The developmental physiology, etiology, pathogenesis, clinical manifestations, and physiological responses to illness and treatment regimens are examined, providing a basis for the foundation of clinical decisions.
**Prerequisite:** NURS 5603, NURS 5604, NURS 5605, and NURS 5830

**NURS5601 - Theoretical Foundations Advanced Practice Nursing**

Credits: 3  
An introduction to the discipline of nursing for graduate nursing students

**Prerequisite:** Admission to the MS-NURS or DNP-DNP programs.

**NURS5602 - Advanced Nursing Leadership**

Credits: 3  
Focus on developing advanced nursing leadership skills and attributes for interprofessional collaboration to create viability of the profession and health-related practice environments

**Prerequisite:** Admission to the MS-NURS or DNP-DNP programs.

**NURS5603 - Evidence-Based Practice for Advanced Nursing**

Credits: 3  
Focuses on the use of EBP to solve clinical, educational, and administrative problems in advanced nursing practice.

**Prerequisite:** Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

**NURS5604 - Population and Health Policies**

Credits: 3  
Emphasis on population health, epidemiology, and health policy related to rural and global health issues.

**Prerequisite:** Admission to the MS-NURS or DNP-DNP program.

**NURS5605 - Informatics and Quality Improvement for Advanced Nursing Practice**

Credits: 3  
Emphasis on theoretical and scientific foundations for quality improvement, safety, and informatics in health care.

**Prerequisite:** Admission to the MS-NURS or DNP-DNP program.

**NURS5820 - Health Behavior Change I: Primary Prevention and Wellness**

Credits: 3  
This course will cover the application of theories and techniques of health behavior change and principles of epidemiology to health issues from the individual to the community level.
Prerequisite: Admission to the DNP program.

**NURS5824 - Advanced Health Assessment and Clinical Decision-Making for Nurse Practitioners**

Credits: 2
Builds upon basic nursing assessment skills; includes a human cadaver lab experience to enhance learners' understanding of anatomy, physiology, and pathophysiology, progressing to didactic, hands-on practice, and check-offs of student ability to perform client interviewing and advanced physical assessment techniques. Prepares learners for the clinical decision-making required of nurse practitioners.

A&S College Core 2015 Course changes effective Fall 2022 - Credits: 3 credits; Description: Advanced health assessment and diagnostic decision-making for nurse practitioners. Builds on previous nursing assessment skills. Emphasizes person-centered communication skills and a systematic diagnostic-reasoning approach that leads to accurate clinical decision-making. Clinical correlation amongst anatomy, physiology, pathophysiology, and physical examination. Prerequisite: NURS 5140 and NURS 5165.

Prerequisite: NURS 5165, NURS 5800, NURS 5805, NURS 5810, and NURS 5865

**NURS5830 - Health Behavior Change II: Behavioral Skills for Secondary and Tertiary Prevention**

Credits: 3
This course will cover the application of health behavior change skills in advanced nursing practice, including theories/models and techniques, with a focus on chronic illness.

Prerequisite: NURS 5820 and NURS 5865.

**NURS5865 - DNP Seminar**

Credits: 1
Max Credit (Max. 6)

Instructor and student-led discussions designed to facilitate role transition of the doctorally-prepared nurse practitioner. Seminars include topics related to integration and application of nursing and other health-related theories and models in rural nurse practitioner-delivered care.

Prerequisite: Admission to the DNP program.

**NURS5866 - DNP Seminar II**

Credits: 1
Instructor and students lead discussions designed to facilitate role transition of the doctorally prepared nurse practitioner. Seminars include topics related to transitioning from nurse practitioner students into practicing nurse practitioners.
A&S College Core 2015 Course changes effective Fall 2023 - Prerequisite: NURS 5872 and NURS 5891 OR NURS 5862 and NURS 5891.
Prerequisite: NURS 5891, NURS 5862 and NURS 5883 OR NURS 5891, NURS 5875 and NURS 5876.

NURS5891 - DNP Project I

Credits: 3
In collaboration with a facility, learners will examine clinically relevant data to target a practice and/or patient outcome for improvement. Learners will collect and critically appraise related evidence and develop an intervention, including an outcome evaluation plan.

A&S College Core 2015 Course changes effective Summer 2023 - Credits: 1 credit; Description: In collaboration with a health-related organization, learners will identify a problem, concern, or question that can be addressed through a rapid cycle quality improvement project for a Doctor of Nursing Practice project. Prerequisite: NURS 5873, NURS 5877 and NURS 5827 or NURS 5882, NURS 5883 and NURS 5828.
Prerequisite: NURS 5850.

NURS5892 - DNP Project II

Credits: 3
Continuation of NURS 5891, DNP Project I. In collaboration with facility, learners will implement the proposed clinical intervention, evaluate the outcome, and professionally disseminate the results.

A&S College Core 2015 Course changes effective Fall 2023 - Description: Continuation of NURS 5891, DNP Project I. In collaboration with a health-related organization, learners will plan and begin to implement a quality improvement project. Prerequisite: NURS 5872 and NURS 5891 OR NURS 5862 and NURS 5891.
Prerequisite: NURS 5891 AND NURS 5875, NURS 5876 OR NURS 5862, NURS 5883.

NURS5893 - DNP Project III

Credits: 1
Continuation of NURS 5892, DNP Project II. In collaboration with a health-related organization, learners will continue to implement their scholarly quality improvement project.

Prerequisite: NURS 5874,NURS 5892 and NURS 5866 or NURS 5863, NURS 5892, NURS 5866.

NURS5894 - DNP Project IV

Credits: 2
Continuation of NURS 5893, DNP Project III. In collaboration with a health-related organization, learners will finalize their scholarly quality improvement project and disseminate the findings.

Prerequisite: NURS 5893.

Psychiatric Mental Health Nurse Practitioner Specialty Courses

NURS5826 - Advanced Health Assessment for Psych NPs
Advanced assessment skills for psychiatric mental health nurse practitioners. Focusing on specialty examination techniques in the mental health setting.

**Prerequisite:** NURS 5165 and NURS 5140.

**NURS5828 - Skills for Psych NP**

Credits: 2
Developing skills for advanced practice nursing and practice management for the psychiatric mental health nurse practitioner.

**Prerequisite:** NURS 5824, NURS 5826, NURS 5880, and NURS 5881.

**NURS5862 - Practicum: Diagnosis and Management of the Psychiatric Client for the PMHNP I**

Credits: 5
Clinical practicum that allows students to continue to practice and refine competencies in the PMHNP role with multiple and complex psychiatric populations.

**A&S College Core 2015 Course changes effective Summer 2023 - Prerequisite:** NURS 5828, NURS 5882, and NURS 5883.

**Prerequisite:** NURS 5850.

**NURS5863 - Practicum: Diagnosis and Management of the Psychiatric Client for the PMHNP II**

Credits: 5
Clinical practicum that allows students to continue to practice and refine competencies in the PMHNP role with multiple and complex psychiatric populations.

**A&S College Core 2015 Course changes effective Fall 2023 - Prerequisite:** NURS 5862 and NURS 5891.

**Prerequisite:** NURS 5862, NURS 5883, and NURS 5891.

**NURS5864 - Final PSH Practicum**

Credits: 6
This final clinical experience provides learners with the opportunity to integrate previous learning from the PMHNP program in the provision of evidence-based health care.

**Prerequisite:** NURS 5863, NURS 5866, NURS 5892, and NURS 5893.

**NURS5880 - Neurobiology & Psychopharm**
The advanced study of neurobiology and psychopharmacology in the treatment of psychiatric disorders across the lifespan. In depth exploration of how the advanced practice psychiatric nurse can utilize pharmacodynamics and pharmacogenetics to inform the clinical decision making in the treatment complex mental illnesses and addiction.

NURS5881 - Psychotherapy Models and Theories for Advanced Practice Mental Health Nursing

Credits: 3
Utilization of psychotherapy frameworks in the care of individuals, families, and groups. Emphasizing the counseling role and skill development of the advanced practice mental health nurse in the assessment, intervention and evaluation of diverse populations across the lifespan. Issues of ethics, rural practice, and diversity are addressed throughout the course.

NURS5882 - Advanced Psychiatric Mental Health Nursing Diagnosis and Management for the Adult, Older Adult, and Vulnerable Populations

Credits: 4
Advanced knowledge of evidence based assessment, diagnosis, treatment, management, and health promotion of adults and aging adults with mental illness. Explore culturally sensitive care among vulnerable populations. Examine the professional, ethical, policy, and practice issues influencing the role of the advanced practice psychiatric nurse.

NURS5883 - Advanced Psychiatric Mental Health Nursing Diagnosis and Management for the Child and Adolescent

Credits: 4
Evidenced based assessment, diagnosis, treatment and management of mental health disorders in children and adolescence at the individual, family and community level. Theories of family development including behavioral patterns will be assessed using a culturally sensitive lens. Review of psychotherapy, psychopharmacology, psychoeducation, and health promotion as is developmentally appropriate.

Additional Requirements
Expected Student Learning Outcomes

Graduates will:

1. engage in evidence-based practice to optimize health outcomes;
2. engage in leadership activities to promote excellence in rural health care.

Core Concepts:

- **Transformation:**
  Transformation includes learning, education, leadership, and nursing as a whole; engaging creativity with theory and evidence-based practice to result in critical reflection and cognitive flexibility.

- **Rurality/Frontier:**
  Practice in a low population area where resources and/or access to care are limited and be able to innovate accordingly.

- **Service:**
  Providing advanced practice nursing care and services to individuals, families, groups, communities, and populations includes altruism, leadership, decision-making, cooperation, education, listening, problem-solving, person-centered care, fidelity, advocacy, ethical behavior, and practice.

- **Comprehensive Global healthcare system perspective:**
  An interconnected and comprehensive global health care system perspective incorporating the following attributes: advocacy, altruism, creativity, ethical conduct, effective communication skills, leadership, problem-solving skills, professionalism, and scholarship.

- **Clinical Scholarship:**
  Activities that systematically advance nursing science, including its teaching, research, and practice through rigorous inquiry that 1) is significant to the profession, 2) is creative, 3) can be documented, 4) can be replicated or elaborated, and 5) can be peer-reviewed through various methods and includes discovery, teaching, practice, and integration.

Admission

The University of Wyoming must receive complete application materials for the DNP Program by the application deadline to be considered for fall admission (the entire DNP application process is completed online). The applicant is responsible to make certain that UW is in receipt of all application materials/fees. The number of students admitted is limited. Admission is a competitive process and applicants meeting minimum requirements are not guaranteed admission to the program. Admission to the university does not guarantee admission to the DNP program in the School of Nursing.

Criteria for admission as well as application instructions and deadlines can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, DNP, Admission Criteria & Application).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for the DNP Program. These requirements can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, DNP, DNP Program Student Handbook - section 6 Scholastic Requirements).
Curriculum

All DNP students, regardless of concentration will take a set of core courses. In addition to the core courses a group of specialty courses are required for each NP concentration. Students earning the DNP degree will complete a final scholarly project which is integrated into the FMY and PSH curricula.

The DNP core and clinical courses will be delivered using a combination of online courses; synchronous video web-conferencing, and hybrid courses with periodic intensive on-campus experiences. Clinical placements will be arranged at health care facilities in Wyoming, north central Colorado, or southern Montana.

Program of Study

A detailed, semester sequenced DNP-PSH Program of Study can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, DNP, DNP-PSH Program of Study).

Nursing, M.S., Nurse Educator/Nurse Leader Concentrations

The MS program is a part-time, online degree open to registered nurses with a minimum of a baccalaureate degree in nursing from a program nationally accredited by CCNE or NLNAC. The MS program has two concentrations: 1) Nurse Educator (NE) and 2) Nurse Leader (NL).

MS Core Courses

NURS5472 - Integrated Advanced Pathophysiology, Pharmacology, and Assessment

Credits: 3
Emphasis on the integration of advanced pathophysiology, pharmacology, and assessment in relation to chronic conditions.

Prerequisite: Admission to UW's MS Nursing Program; NURS 5602, NURS 5604 ; Co-requisite NURS 5605

NURS5473 - Advancing Healthcare Transform

Credits: 2
Max Credit 2
Emphasis on academic/practice partnerships as avenues for addressing population health and related workforce development.

Prerequisite: Admission to the NURS MS program, NURS 5405, NURS 5410

NURS5483 - Practicum: Rural Healthcare Leadership
Emphasis on the integration of learning through a practicum experience in educational or healthcare leadership.

**Prerequisite:** Completion of all required MS courses, corequisite NURS 5473.

**NURS5601 - Theoretical Foundations Advanced Practice Nursing**

Credits: 3
An introduction to the discipline of nursing for graduate nursing students

**Prerequisite:** Admission to the MS-NURS or DNP-DNP programs.

**NURS5602 - Advanced Nursing Leadership**

Credits: 3
Focus on developing advanced nursing leadership skills and attributes for interprofessional collaboration to create viability of the profession and health-related practice environments

**Prerequisite:** Admission to the MS-NURS or DNP-DNP programs.

**NURS5603 - Evidence-Based Practice for Advanced Nursing**

Credits: 3
Focuses on the use of EBP to solve clinical, educational, and administrative problems in advanced nursing practice.

**Prerequisite:** Prerequisite: Admission to the MS-NURS or DNP-DNP programs.

**NURS5604 - Population and Health Policies**

Credits: 3
Emphasis on population health, epidemiology, and health policy related to rural and global health issues.

**Prerequisite:** Admission to the MS-NURS or DNP-DNP program.

**NURS5605 - Informatics and Quality Improvement for Advanced Nursing Practice**

Credits: 3
Emphasis on theoretical and scientific foundations for quality improvement, safety, and informatics in health care.

**Prerequisite:** Admission to the MS-NURS or DNP-DNP program.

**Nurse Educator Specialty Courses**

**NURS5452 - Curriculum Development**
Credits: 3
Emphasis on the process of developing curricula in nursing educational or healthcare setting to include evaluation of program outcomes.

**Prerequisite:** Admission to UW's MS Nursing Program; NURS 5605, NURS 5472; Co-requisite of NURS 5462.

**NURS5462 - Teaching Methodologies and Evaluation**

Credits: 3
Emphasis on evidence-based teaching methodologies, development of course materials, and evaluation of students learning outcomes.

**Prerequisite:** Admission to MS; NURS 5405; NURS 5410.

**Nurse Leader Specialty Courses**

**NURS5420 - Leadership Within Health Care Systems**

Credits: 3
Emphasis on strategic use of systems and outcomes as a foundation for professional leadership development.

**Prerequisite:** Admission to UW's MS Nursing Program; NURS 5606, NURS 5472.

**NURS5461 - Business of Healthcare**

Credits: 3
Emphasis on leading and managing entrepreneurial healthcare opportunities.

**Prerequisite:** Admission to UW's MS Nursing Program; NURS 5605, NURS 5472

**Additional Requirements**

**Expected Student Learning Outcomes**

M.S. Graduate are prepared to ensure better care, better health, and lower costs through their knowledge, skills, and abilities to:

- Demonstrate competence and caring in the advanced professional nurse role to serve Wyoming, the region, and the world in urban, rural, and frontier health care settings as a provider, leader, and/or educator in the health care system.
- Transform rural health through leadership, service, and clinical scholarship that reflects an interconnected and comprehensive global health perspective.
- Demonstrate an advanced understanding of nursing and other sciences and humanities and integrates this knowledge to manage and improve health care across settings.
• Synthesize broad organizational, financial, economic, client-centered, and culturally appropriate concepts from nursing and other sciences to address population health.
• Engage in scholarly inquiry and evidence-based practice to lead change for quality outcomes and implement safe health care to diverse populations in a variety of settings.

Core Concepts:

• Transformation:
Transformation includes learning, education, leadership, and nursing as a whole; engaging creativity with theory and evidence-based practice to result in critical reflection and cognitive flexibility.

• Rurality/Frontier
Practice in a low population area where resources and/or access to care are limited and be able to innovate accordingly.

• Service
Providing advanced practice nursing care and services to individuals, families, groups, communities, and populations includes altruism, leadership, decision-making, cooperation, education, listening, problem-solving, person-centered care, fidelity, advocacy, ethical behavior, and practice.

• Comprehensive Global healthcare system perspective
An interconnected and comprehensive global health care system perspective incorporating the following attributes: advocacy, altruism, creativity, ethical conduct, effective communication skills, leadership, problem-solving skills, professionalism, and scholarship.

• Clinical Scholarship
Activities that systematically advance nursing science, including its teaching, research, and practice through rigorous inquiry that 1) is significant to the profession, 2) is creative, 3) can be documented, 4) can be replicated or elaborated, and 5) can be peer-reviewed through various methods and includes discovery, teaching, practice, and integration.

Admission

The University of Wyoming must receive complete application materials for the MS Program by the application deadline to be considered for fall admission (the entire MS application process is completed online). The applicant is responsible to make certain that UW is in receipt of all application materials/fees.

Criteria for admission as well as application instructions and deadlines can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, MS, Admission Criteria/Application).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for the MS Program. These requirements can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, MS, MS Program Student Handbook - section 6 Scholastic Requirements).

Curriculum

All MS students, regardless of concentration will take a set of core courses. In addition to the core courses, a group of specialty courses are required for each MS concentration.
Program of Study

A detailed, semester sequenced MS Program of Study can be found on the nursing website: www.uwyo.edu/nursing (click on Nursing Programs, MS, MS Program of Study).

School of Pharmacy

Dean: Kem Krueger
Associate Dean of Students: Tonja Woods

Professor:

Associate Professors:

JARED S. BUSHMAN, B.A. University of Utah 2003; M.S. University of Rochester 2006; Ph.D. 2008; Assistant Professor of Pharmaceutical Science 2020.

E. KURT DOLENCE, B.S. University of Wyoming 1983; Ph.D. University of Kentucky 1987; Associate Professor of Medicinal Chemistry 2005, 1999.

GUANGLONG HE, B.S. Anhui Normal University 1986; M.S. Chinese Academy of Sciences 1994; Ph.D. 1997; Associate Professor of Medicinal Chemistry 2019, 2013.

KEM P. KRUEGER, Pharm.D. University of Missouri-Kansas City; Ph.D. University of Arizona 1998; Associate Professor of Social and Administrative Pharmacy 2011, 2005.

RESHMI L. SINGH, B.S. Bombay University 1999; M.S. University of Toledo 2001; Ph.D. University of Minnesota 2005; Associate Professor of Social and Administrative Pharmacy 2019, 2013.

Assistant Professors:

MICHELLE BLAKELY, B.A. University of South Alabama 2005; M.Ed. Auburn University 2008; Ph.D. 2011; Assistant Professor of Social and Administrative Pharmacy 2018.

ANNA CLARA BOBADILLA, B.S. Pierre & Marie Curie University 2008; M.S. 2010; Ph.D. 2014; Assistant Professor of Pharmaceutical Sciences 2020.
NERVANA ELKHADRAY, B.S. Cairo University 2004; Pharm.D. Purdue University 2008; M.S. 2018; Ph.D. 2020. Assistant Professor of Social and Administrative Pharmacy 2020.

KAREN MRUK, B.A. Drew University 2003; Ph.D. University of Massachusetts Medical School 2012; Assistant Professor of Pharmaceutical Science 2018.

**Clinical Professor:**

JAMIE R. HORNECKER, B.S. Texas Tech University 1999; Pharm.D. University of Wyoming 2003; Clinical Professor of Pharmacy Practice 2012, 2005.

**Clinical Associate Professors:**

LAUREN BIEHLE, Pharm.D. University of Georgia 2010; Clinical Associate Professor 2020.

BECKY S. LINN, B.A. University of Wyoming 1997; Pharm.D. 2002; Clinical Associate Professor 2020.

JANELLE L. KRUERGER, B.S. University of Wyoming 1992; M.S. University of Kansas 1997; Clinical Associate Professor of Pharmacy Practice 2013, 2005.

ALLISON M. MANN, B.S. University of Colorado Boulder 2004; Pharm.D. University of Colorado Denver 2009; Clinical Associate Professor of Pharmacy Practice 2020.

LEENA D. MYRAN, B.S. University of Wyoming 2000; Pharm.D. 2012; Clinical Associate Professor of Pharmacy Practice 2020.

ALIVN OUNG, Pharm.D. MCPHS University 2014; Clinical Associate Professor 2022.

JEREMY VANDIVER, B.A. University of Colorado 2006; Pharm.D. University of Colorado 2010; Clinical Associate Professor 2020.

TONJA M. WOODS, Pharm.D. University of Wyoming 2002; Clinical Associate Professor of Pharmacy Practice 2009, 2003.

**Clinical Assistant Professors:**

JED DOXTATER, B.S. University of Montana 2006; M.S. University of North Dakota 2013; Clinical Assistant Professor 2015.

JESSICA PAPKE, PharmD, University of Wyoming 2017; Clinical Assistant Professor 2020.

**Assistant Lecturers:**

ANTOINETTE K. BROWN, B.S. University of Wyoming 1992; Assistant Lecturer 2013.

DAVID C. BRUCH, B.S. University of Wyoming 1998; Pharm.D. 2010; Assistant Lecturer 2012.
CHARLIE P. CRUZ, B.S. Lorma Colleges 1998; M.A. Don Mariano Marcos Memorial State University 2003; M.S. Lyceum of the Philippines University Batangas 2016; Ph.D. Saint Louis College 2014; Assistant Lecturer of Medical Laboratory Science 2016.

Drug Information Director:

Professors Emeriti:

Emery Brunett, Ph.D.
Bruce W. Culver, Ph.D.
Linda Gore Martin, Pharm.D.
Kenneth F. Nelson, Ph.D.
Robert B. Nelson, Ph.D.
Robert D. Scalley, Pharm.D.
Beverly Sullivan, Pharm.D.
M. Glaucia Teixeira, Ph.D.
Weeranuj Yamreudeewong, Pharm.D.

Deans Emeriti:

John H. Vandel, B.S. Pharmacy
Linda Gore Martin, Pharm.D.

Vision, Mission and Values

Vision

The University of Wyoming School of Pharmacy (UWSOP) is nationally recognized for its distinguished and collaborative teaching, research, pharmacy practice, and its entrepreneurial spirit.

Our graduates are highly skilled health professionals and leaders. Our graduates thrive and innovate in diverse and dynamic environments.

Mission

The University of Wyoming School of Pharmacy (UWSOP) advances the holistic development of our learners, preparing them to embrace change and positively impact the health and well-being of the communities that they serve. We engage in interdisciplinary teaching, research, practice, and service that results in meaningful innovations in healthcare, and improves the health and wellness of Wyoming, national, and global communities.

Statement of Values
The University of Wyoming School of Pharmacy community is committed to supporting and promoting individual and collective excellence in teaching, research, service, and pharmacy practice.

We value learning, collaboration, responsibility, compassion, respect, integrity, diversity, equity, and inclusion in all endeavors.

**Graduate Expectations**

Our graduates will be recognized and respected for:

- Leading positive change in the communities, organizations, industries, and professions that they serve
- Engaging in collaborative opportunities across disciplines and professions
- Providing evidence-based, empathetic, patient-centered care
- Thinking critically, creatively, ethically, and pragmatically
- Thriving and innovating in dynamic, diverse, and digital environments
- Ability to adapt in an ever-changing environment
- Dedication to excellence and integrity
- Communicating effectively across a wide range of audiences
- Embracing an entrepreneurial spirit

**Learning Outcomes**

The University of Wyoming adheres to the American Association of Colleges of Pharmacy Center for Advancement of Pharmaceutical Education (CAPE) educational outcomes 2013. This multipage document (and its supplements) can be accessed at www.aacp.org. The school has outlined student/curriculum learning outcomes; these are available on the school website.

**Student/Faculty Relations**

The faculty and staff at the School of Pharmacy treat students as adults and expect appropriate behavior as beginning professionals. The School of Pharmacy recognizes that the profession of pharmacy demands of its members the utmost degree of professional competence, ethical behavior, and integrity. Upon enrolling at the University of Wyoming SOP and at the start of each academic year, all students will sign a pledge acknowledging that they have received and read the current Honor Code and that they have made a personal commitment to uphold the code and abide by its principles. Similarly, the School of Pharmacy Professionalism Policy for faculty and staff is built on the foundation of respect for others, personal responsibility, the creation and maintenance of trust, and honesty and truthfulness. The administration, faculty, staff, students, and alumni of the School of Pharmacy at the University of Wyoming should strive to set an example of ethical leadership and professional behavior as those traits are essential for good social and business interactions.

**Accreditation and Membership**

In Wyoming, as in most other states, one requirement for examination and registration as a pharmacist is graduation from an accredited entry-level professional program at a school or college of pharmacy. The Accreditation Council for Pharmacy Education (ACPE), the national accrediting agency for pharmacy, accredits pharmacy degree programs.

The Doctor of Pharmacy program at UW was most recently accredited in 2020 following an on-site evaluation by the ACPE in October 2020. Verification of current accreditation status may be made by: a) contacting the Dean's Office, School of Pharmacy; b) connecting to www.uwyo.edu/pharmacy/; c) contacting the Accreditation Council for
Preprofessional Program and Requirements

Applicants for the professional program in pharmacy must complete preprofessional requirements before they can be admitted. Usually, two academic years totaling 72 credit hours (which may include summer and J-Term semesters) is required to complete preprofessional requirements.

All preprofessional coursework must be completed by the end of the spring semester prior to matriculation in the professional program.

Graduates of fully accredited high schools may be admitted to the preprofessional program with a math placement score of 3 or an ACT math score of 23.

Early Assurance Program: Students are accepted to the EAP program based on their high school GPA and ACT/SAT scores. High School students can apply to the professional program as they are applying for admission to the University of Wyoming as first-year students.

Preprofessional Pharmacy Program (PPCY)

Students will not receive a degree in prepharmacy. The prepharmacy curriculum guides students as they fulfill requirements for admission to the professional pharmacy degree program.

Required Curriculum

- CHEM1020 - General Chemistry I Credits: 4
- CHEM1030 - General Chemistry II Credits: 4
- LIFE1010 - General Biology Credits: 4
- LIFE2022 - Animal Biology Credits: 4
- MATH2200 - Calculus I Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4
- CHEM2420 - Organic Chemistry I Credits: 4
- CHEM2440 - Organic Chemistry II Credits: 4
- KIN2040 - Human Anatomy Credits: 3
- KIN2041 - Human Anatomy Laboratory Credits: 1
- MOLB2021 - General Microbiology Credits: 4
- MOLB3610 - Principles of Biochemistry Credits: 4
- ZOO3115 - Human Systems Physiology Credits: 4
- General Electives (6 credits total)
USP Requirement

The USP-COM 3 requirement is fulfilled in the professional doctoral program.

- FYS - First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- Q - Quantitative Reasoning Credits: 3
- PN - Physical and Natural World (1) Credits: 3
- PN - Physical and Natural World (2) Credits: 3
- H - Human Culture (1) Credits: 3
- H - Human Culture (2) Credits: 3
- V - U.S. & WY Constitution Credits: 3

Professional Doctoral Program

Admission

Admission to the professional program leading to the entry-level Pharm. D. degree is limited to 52 students per year and is highly competitive. Admission is granted by the School of Pharmacy Dean upon the advice of the School of Pharmacy Admissions Committee. Students can apply to the professional program as freshman via the Pharmacy Early Assurance program. All students applying to the UW School of Pharmacy must use the PharmCAS application (www.pharmcas.org) process. All materials (PCAT scores, and Letters of Recommendation) are submitted to UW using this service. The School of Pharmacy requires no supplemental application. Students granted admission to the professional program will have to pay a one-time, non-refundable, seat fee to guarantee their placement into the entering class. In addition students will be required to complete any immunizations necessary for experiential rotations. As part of a College of Health Sciences requirement students are also expected to complete and pass a background check prior to final admission to the professional program.

Students must meet, with or without accommodation, specified requirements. The School of Pharmacy's Technical Standards can be found at http://www.uwyo.edu/pharmacy/_files/documents/admin/uwsop-technical-stds-3-2013.pdf.

The School of Pharmacy provides opportunities to ensure that our students have co-curricular experiences in both our didactic and experiential program. Providing options for students that are co-curricular allows students to choose activities that interest them and will allow them to grow as future health professionals. A portion of co-curricular activities throughout the degree program will be required and assessed.

Students at the University of Wyoming SOP are immersed in interprofessional education opportunities during all years of the professional program. Interprofessional education provides experiences for Pharm.D. students to collaborate and share knowledge with learners in other health sciences disciplines, which fosters readiness for working in team-based care environments in their future careers.

Program of Study

Requirements for Graduation
The degree of Doctor of Pharmacy (Pharm.D.) is granted upon satisfactory completion of 146 hours in the professional curriculum in accordance to the school's academic standards and the fulfillment of the general university requirements. Transfer students who have previous professional pharmacy credits accepted as partial completion of residence work may not earn a degree from this university for less than 30 semester hours of resident credit in the professional program of this School of Pharmacy over a minimum of two resident semesters.

Graduation with Honors

The University of Wyoming School of Pharmacy is authorized to grant honors for academic excellence. A Doctor of Pharmacy with honors designation is awarded by the University of Wyoming to students who graduate with exceptional scholarship in Pharmacy.

Exceptional scholarship in pharmacy is defined as a student who is on track to graduate with their class from the University of Wyoming School of Pharmacy and is in the top 5% of their class based on their pharmacy GPA (as assessed at the end of the fall semester of the P4 year). The Pharmacy GPA is calculated on the basis of required professional pharmacy curriculum coursework and excludes required or selected elective hours. The honors distinction must be approved by a School of Pharmacy faculty vote.

Academic Honesty and Professional Conduct

Students admitted to the professional program are required to participate and sign the University of Wyoming School of Pharmacy Honor Code. Failure to sign the honor code will result in a withdrawal of admission offer or termination from the professional program.

Academic Standards for Progression and Graduation

The course of study in the School of Pharmacy (SOP) is four academic years leading to a Doctor of Pharmacy degree (PharmD). The required professional coursework is organized in a prescribed, non-negotiable, sequential manner. All students have a P-designation identifying their year in the program (P1, P2, P3, P4). Required professional courses (PHCY courses) from any national or international pharmacy programs will not be applied to the UW PharmD degree. The student may petition that coursework to be applied to the program but must replace those credit hours with additional elective courses. Courses taken as S/U, including electives, are usually considered unacceptable in fulfilling program requirements. Auditing courses for the PharmD degree is not allowed.

The academic standards herein described are expected to be followed by all students admitted to the professional program. Any violation will constitute grounds for probation or termination from the professional program and will delay progression towards advanced coursework. Probation is a period of time in which the student is allowed to continue in the program under supervision. Students that do not meet academic standards and are placed on probation will have to submit a petition that includes an individualized plan of study for the next semester. This plan must be developed by the student in agreement with and signed by the academic advisor. The petition will be reviewed by the Student Affairs Committee (SAC), which will send a recommendation to the Dean for approval or denial. A leave of absence may be necessary in cases where poor academic performance is due to a medical or personal hardship. The student may appeal sanctions related to violations of the academic standards and decisions that result in probation and termination in the program. Appeals start at the School level, followed by College and University levels, according to policy.

Academic Standards
1. A grade of D or lower, or course withdrawal, in any required course of the professional program constitutes failure to progress toward the PharmD degree and result in probation.
2. A grade of D or lower, in any elective course of the professional program constitutes failure to progress toward the PharmD degree and result in probation.
3. Students must earn a GPA of 2.000 or better in both University coursework and professional program courses each semester and cumulatively.
4. Students must be considered full time with coursework applicable to the pharmacy degree during each semester while in good standing.
5. Incomplete coursework must be completed prior to progression into the next academic semester and will halt progression in experiential coursework.
6. Students who earn a D or lower in any experiential coursework will have their rotation sequence halted.
7. A course taken in the professional pharmacy program course can be repeated only once.
8. A maximum of three required courses are allowed to be repeated during the degree program.
9. Failure to meet any academic standards for two semesters (not necessarily consecutive) in didactic and/or experiential coursework results in automatic termination from the professional program.
10. Failure of two experiential courses, not necessarily consecutive, results in termination from the professional program.

Elective Credits Policy

The purpose of electives at the School of Pharmacy (SOP) is to complement the pharmacy curriculum, expand knowledge within a specific pharmacy discipline and to ensure completion of the general liberal arts education of the University of Wyoming. Therefore, the following policies have been approved by the faculty for the Doctor of Pharmacy professional program (thereafter, Program).

As published in the University Catalog and SOP students are required to complete a minimum number of electives, specific for the student's year of matriculation into the Program. This number may vary and may be modified as adjustments are made to the professional curriculum to comply with accreditation standards. Students will be made aware of this number during initial orientation into the Program and kept informed of any changes during their stay in the academic program.

Students must take elective courses to satisfy first the requirements of the University Studies Program (thereafter, USP) and then complete the remaining required electives credits as general elective coursework (Program-approved required number of elective hours).

- Students are required to complete all USP requirements even if they exceed the minimum number of elective hours initially defined in their Program in order to graduate from UW.
- Transfer or online courses from other accredited institutions may be honored as elective credits toward the Program. Students are solely responsible to have all transcripts from other schools sent to the University and make sure that the Director of Student Services and advisors are aware of any transfer work in the professional program.
- All required hours (including electives) must be completed by students before progressing into the P4 rotation year. Students will not be allowed to progress toward the 4th year rotations if university studies requirements were not fulfilled.
- Students shall not take electives as Satisfactory/ Unsatisfactory (S/U) credit.
- All courses taken in the preprofessional program or to fulfill requirements in a previous degree cannot be retaken to count as elective hours in the Program. In addition, students cannot use previously taken credit (prior to the professional program) as elective credit in the professional program.
- Credit by exam through the Foreign Languages Dept. will not be accepted as fulfillment of elective requirements in the Program. However, it is a student's right to earn credit by exam for Wyoming History and Government, while receiving elective credits toward the Program and fulfilling USP requirements.
• For procedures and handling of all exceptions to these policies, the students should consult the student handbook, the pharmacy student Share Point site, the SOP website, or check with the Director of Pharmacy Student Services or the Associate Dean of Students.

Curriculum

Pharmacy, Pharm.D.

The School of Pharmacy offers only the four-year curriculum leading to the Doctor of Pharmacy (Pharm.D.) degree. Students admitted to the professional pharmacy program follow a four year program of study leading to the Doctor of Pharmacy Degree. Students complete a total of 146 hours.

In order to keep abreast with changes in pharmaceutical education, the following curriculum is subject to change or modification as required by the accrediting agency. Students should be aware that changes must be expected and they will be included in their academic program. The School of Pharmacy does not plan to change graduation requirements inadvertently, but does reserve the right to change any provisions or requirement deemed necessary at any time within the student’s term of residence.

Required Curriculum

- ZOO4125 - Integrative Physiology Credits: 5
- PHCY6100 - Dose Form Design Credits: 4
- PHCY6106 - Pharmaceutical Calculations Credits: 2
- PHCY6110 - Medicinal and Natural Products Chemistry I Credits: 3
- PHCY6140 - Introduction to Social Administrative Pharmacy Credits: 2
- PHCY6160 - Pharmacist Skills I Credits: 1
- PHCY6102 - Biopharmaceutics and Pharmacokinetics Credits: 4
- PHCY6111 - Medicinal and Natural Products Chemistry II Credits: 3
- PHCY6120 - Advanced Pathophysiology Credits: 3
- PHCY6151 - Pharmacy Practice Credits: 2
- PHCY6152 - Therapeutics I Credits: 3
- PHCY6161 - Pharmacist Skills II Credits: 1
- PHCY6170 - Introductory Pharmacy Practice Experience-IPPE1 Credits: 1
- PHCY6480 - Introduction to Community Pharmacy Practice Credits: 4
- PHCY6482 - Introduction to Hospital Pharmacy Practice Credits: 4
- PHCY6215 - Medicinal and Natural Products Chemistry III Credits: 3
- PHCY6230 - Pharmacology I Credits: 4
- PHCY 6230 - Pharmacology I Discussion Credits: 0
- PHCY6240 - Research and Evaluation Methods in Pharmacy Credits: 3
- PHCY6245 - Patient/Professional Interactions Credits: 3
- PHCY6260 - Pharmacist Skills III Credits: 1
- PHCY6231 - Pharmacology II Credits: 4
- PHCY 6231 - Pharmacology II Discussion Credits: 0
- PHCY6246 - Pharmacy Management, Marketing and Finance Credits: 3
Total Hours 146

Fourth Year [PH4]:

Consists of nine experiential rotations of four credit hours each and three reflective learning weeks. Rotations are considered full-time. Students may not enroll in any other coursework concurrent with rotations. Consequently, all other coursework (107 credits) must be satisfactorily completed before enrollment in P4 coursework. Note: Students will be required to live in locations other than Laramie when enrolled in experiential rotations. Responsibility for living cost and travel arrangements associated with experimental rotations rests with the student. Students participating in all experimental activities will be required to have a vehicle or an acceptable approved alternative.

Students must complete the following Core or Required Experiential Rotations (subject to change):

- PHCY6470 - Internal Medicine I Credits: 4
- PHCY6473 - Ambulatory Pharmaceutical Care Credits: 4
- PHCY6471 - Internal Medicine II Credits: 4
Graduate Study

The School of Pharmacy offers the Master of Science in Health Services Administration and the Master of Business Administration/Doctor of Pharmacy (M.B.A./Pharm.D.) dual degree.

Health Services Administration, M.S.

The School of Pharmacy offers a Master of Science online degree in health services administration (MSHSA).

Specialty Tracks

All students select one specialty track.

Biopharmaceutical Regulatory Compliance Group Specialty Listings

Specialty Tracks through the Biopharmaceutical Regulatory Compliance Group
- Biopharmaceutical Regulatory Compliance
- Healthcare Risk Management
- Forensic Pharmacy
- Healthcare Policy Analysis
- Biopharmaceutical Product Representation
- Clinical Research Administration
- Patient Safety Systems
- Healthcare Security Systems
- Healthcare Ethics & Equity

Health Institution Leadership Group Specialty Listings

Specialty Tracks through the Health Institution Leadership Group
- Health Institution Leadership
- Health Economics & Outcomes
- Healthcare Quality & Improvement
- Rural Healthcare Coordination
- Geriatric Care Systems
Biopharmaceutical Regulatory Compliance Group

MS-HSA Curriculum

The following table provides a list of the core courses required for all tracks.

- PHCY5040 - The Evolution of American Health Credits: 2
- PHCY5042 - Statistics for Health Services Credits: 3
- PHCY5043 - Empirical Analysis for Health Services Administration Credits: 3
- PHCY5045 - Health Services Administration Applied Research Credits: 1-4
- PHCY5046 - Health Services Administration Seminar1 Credits: 1
- Sub-Total Program Required Coursework: 15 credit hours

Biopharmaceutical Regulation & Compliance Track

The following tables provides a list of required courses for the track listed

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5242 - The Food and Drug Administration Credits: 2
- PHCY5243 - The Drug Enforcement Administration Credits: 2
- PHCY5244 - State Regulations of Health Professions Credits: 2
- Specialty Track Electives (choose 6 hours)

Healthcare Risk Management Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5342 - Healthcare Risk and Quality Credits: 3
- PHCY5670 - Medication Malpractice Credits: 2
- PHCY5240 - Pharmaceutical Homicide Credits: 2
- Specialty Track Electives (Choose 6 hours)

Forensic Pharmacy Track
Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5240 - Pharmaceutical Homicide Credits: 2
- PHCY 5XXX The Chemistry of Poisonings 2 Credits
  
  PHCY 5XXX The Process of Forensic Science 2 Credits

Specialty Track Electives (choose 6 hours)

**Healthcare Policy Analysis Track**

Specialty Track Required Coursework (9 credit hours)

- PHCY5047 - Pandemic Preparedness Policy Credits: 2
- PHCY5148 - Health Economics and Policy Credits: 2
- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5246 - Prescription Drug Costs Credits: 2

**Biopharmaceutical Product Representation Track**

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY5541 - Introduction to Biopharmaceutical Marketing and Production Credits: 3
- Specialty Track Electives (choose 6 hours)

**Clinical Research Administration Track**

Specialty Track Required Coursework (10 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5242 - The Food and Drug Administration Credits: 2
- PHCY 5XXX Biomedical Ethics 3 Credits
  
  PHCY 5XXX Clinical Research Regulation 2 Credits

Specialty Track Electives (choose 5 hours from list)

**Patient Safety Systems Track**

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5341 - Principles of Healthcare Quality Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (choose 6 hours)

**Healthcare Security Systems Track**

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY 5XXX Cybersecurity 2 Credits
  
  PHCY 5XXX HIPAA Compliance 2 Credits
  
  PHCY 5XXX Disaster Management 2 Credits

Specialty Track Electives (choose 6 hours)

**Healthcare Ethics & Equity Track**

Specialty Track Required Coursework (10 Credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY 5XXX Biomedical Ethics 3 Credits
  
  PHCY 5XXX HIPAA Compliance 2 Credits
  
  PHCY 5XXX Clinical Research Regulation 2 Credits

Specialty Track Electives (choose 5 hours)

**Health Institution Leadership Group**

**MS-HSA Curriculum**

The following table provides a list of the core courses required for all tracks

- PHCY5040 - The Evolution of American Health Credits: 2
- PHCY5041 - Health Services Administration Research Methods Credits: 2
- PHCY5042 - Statistics for Health Services Credits: 3
- PHCY5043 - Empirical Analysis for Health Services Administration Credits: 3
- PHCY5045 - Health Services Administration Applied Research Credits: 1-4
- PHCY5046 - Health Services Administration Seminar1 Credits: 1

Sub-Total Program Required Coursework: 15 Hours

**Health Institution Leadership Track**

Specialty Track Required Coursework (9 credit hours)
- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY5442 - Healthcare Financial Planning Credits: 2
- PHCY5443 - Healthcare Human Capital Plan Credits: 2
- PHCY5444 - Healthcare Strategic Innovation Credits: 2
- Specialty Track Electives (choose 6 hours)

**Health Economics and Outcomes**

Specialty Track Required Coursework (10 credit hours)

- PHCY5141 - Principles of Health Econ and Outcomes Credits: 3
- PHCY5142 - Health Economic Decision Analysis Credits: 2
- PHCY5143 - Comparative Effectiveness Research Credits: 2
- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (Choose 5 hours)

**Healthcare Quality & Outcomes Track**

Specialty Track Required Coursework (8 credit hours)

- PHCY5341 - Principles of Healthcare Quality Credits: 3
- PHCY5342 - Healthcare Risk and Quality Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (choose 7 hours)

**Rural Healthcare Coordination Track**

Specialty Track Required Coursework (9 credit hours)

- PHCY5141 - Principles of Health Econ and Outcomes Credits: 3
- PHCY5341 - Principles of Healthcare Quality Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (choose 6 hours)

**Geriatric Care Systems Track**

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5341 - Principles of Healthcare Quality Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (choose 6 hours)

**Healthcare Entrepreneurism Track**
Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5541 - Introduction to Biopharmaceutical Marketing and Production Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (choose 6 hours)

Healthcare Financing Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5141 - Principles of Health Econ and Outcomes Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY5541 - Introduction to Biopharmaceutical Marketing and Production Credits: 3
- Specialty Track Electives (choose 6 hours)

Health Information Technology Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY 5XXX Information Design and Analysis 2 Credits
  PHCY 5XXX Healthcare Information Systems 2 Credits
  PHCY 5XXX Information Management 2 Credits
- Specialty Track Electives (choose 6 hours from list)

Healthcare Writing & Reporting Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY 5XXX Professional Writing in Healthcare 2 Credits
  PHCY 5XXX Health Data in Figures, Tables & Graphs 2 Credits
  PHCY 5XXX The Healthcare Message 2 Credits
- Specialty Track Electives (choose 6 hours)

Additional Notes

NOTE: Specialty track electives can be any course provided in the MSHSA program.

Please consult with the program director if you have questions on the electives to choose for a specific track.
Those course numbers with PHCYXXXX are currently being built or waiting on approval from the University. Please contact the MS HSA program for questions.

**Additional Requirements**

This degree is geared toward new and mid-career practitioners including pharmacists, nurses, physicians, social workers, and other health care professionals who want to become department directors, patient safety coordinators and/or directors, regulatory compliance officers, clinical research associates, health outcomes researchers or take on leadership roles as advanced practice practitioners.

The program also benefits health care workers in fields such as management positions, pharmaceutical sales representatives, medical science liaisons, and pharmacy technician educators as well as new clinical faculty at newly established pharmacy colleges.

Available nationwide the master's program is delivered via a mix of online self-study and online project-based coursework.

The program can be completed in two years of part-time study. Students are requested to travel to the UW Laramie campus for two weekend seminars during the two-year program (based on travel restrictions during the pandemic this course was held online). Graduates will be expected to complete 30 credit hours of coursework and pass a comprehensive final exam. Coursework will be completed over five consecutive semesters however students can take up to 6 years to complete the program.

A prospective student should have earned at least a bachelor's degree from a regionally accredited institution. To find out more about the application process please see the following website www.uwyo.edu/pharmacy/online-ms-program or contact the Student Services Office.

**Medical Laboratory Science**

Aley Hall, UW-Casper, (307) 268-2753  
FAX: (307) 268-2416  
Web site: www.uwyo.edu/pharmacy/mls-program/index.html  
**Director:** Jed M. Doxtater, MS MLS (ASCP)CM

**Assistant Clinical Faculty:**

**JED M. DOXTATER**, B.S. University of Montana 2007; M.S. University of North Dakota 2013; Assistant Clinical Faculty of Medical Laboratory Science 2015.

**Assistant Lecturer**

**CHARLIE P. CRUZ**, B.S. Lorma Colleges 1998; M.A. Don Mariano Marcos Memorial State University 2003; M.S. Lyceum of the Philippines University Batangas 2016; Ph.D. Saint Louis College 2014; Assistant Lecturer of Medical Laboratory Science 2016.

**Mission and Goals**
The mission of the Bachelor of Science in Medical Laboratory Science program at the University of Wyoming-Casper is to educate, train, and produce highly competent, ethical professionals who are committed to lifelong learning. Curriculum is designed to prepare students to meet current and future workplace challenges and technological advancements in the profession.

Program Goals

1. Provide education in accordance with the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) standards for Medical Laboratory Science programs.
2. Provide students with adequate knowledge and background experience to successfully complete the national certification examination appropriate to their level of training.
3. Provide opportunity for students to develop skills in effective communication sufficient to serve the needs of patients, public, and other healthcare professionals.
4. Graduate well qualified Medical Laboratory Scientists who can function at a career entry level, and are prepared to meet the workforce needs of the state of Wyoming and the nation.
5. Provide students with professional role models so that they may develop and practice professional behaviors, attitudes and ethics necessary to work in, and promote the field of Medical Laboratory Science.
6. Periodically undergo program review to meet the diverse educational needs of students, accreditation standards and industry demands for qualified, skilled entry level practitioners.
7. Establish an advisory board of professionals, community partners and stakeholders for program development, evaluation and improvement.
8. Promote membership and active participation in professional societies.

Outcomes

Description of Entry Level Competencies of the Medical Laboratory Scientist

At entry level, the medical laboratory scientist will possess the entry level competencies necessary to perform the full range of clinical laboratory tests in areas such as Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunohematology/Transfusion medicine, Microbiology, Urine and Body Fluid Analysis and Laboratory Operations, and other emerging diagnostics, and will play a role in the development and evaluation of test systems and interpretive algorithms.

The medical laboratory scientist will have diverse responsibilities in areas of analysis and clinical decision making, regulatory compliance with applicable regulations, education, and quality assurance/performance improvement wherever laboratory testing is researched, developed or performed.

At entry level, the medical laboratory scientist will have the following basic knowledge and skills in:

- Application of safety and governmental regulations and standards as applied to clinical laboratory science;
- Principles and practices of professional conduct and the significance of continuing professional development;
- Communications sufficient to serve the needs of patients, the public and members of the health care team;
- Principles and practices of administration and supervision as applied to clinical laboratory science;
- Educational methodologies and terminology sufficient to train/educate users and providers of laboratory services;
- Principles and practices of clinical study design, implementation and dissemination of results;
- Theoretical knowledge and technical skills of concepts relating to all content areas required by NAACLS, including Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunohematology, Microbiology, Urine and Body Fluid Analysis, Laboratory Operations and biohazard and safety.

Accreditation
The Medical Laboratory Science Program at the University of Wyoming is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Accreditation is a process of external peer review in which an agency grants public recognition to a program of study or an institution that meets established qualification and educational standards. Participation in the accreditation process is voluntary since there is not a legal requirement for specialized programs and institutions to participate. However, when students complete a NAACLS accredited program they become eligible to sit for national certification examinations for the profession.

The National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) is a nonprofit organization that independently accredits medical technologist (MLS), clinical laboratory technician/medical laboratory technician (CLT/MLT), histotechnologist (HTL), histologic technician (HT), pathologists’ assistant (Path Asst), diagnostic molecular scientist (DMS) and cytogenetic technology (CT), Phlebotomist (PBT), and clinical assistant (CA) educational programs.

Contract information:

National Accrediting Agency for Clinical Laboratory Sciences, 5600 North River Road, Suite 720, Rosemont, IL 60018-5119

http://www.naacls.org

**Prerequisites for Admission to the MLS Professional Program**

Students must meet the following minimum criteria to be considered for Admitted Major status:

- Completion of the Casper College A.S. degree in MLT within 5 years or B.S. degree in a related science.
- Minimum grade point average (GPA) of 2.000 on all course work transferred into the University of Wyoming at Casper from other academic institutions.
- Successful completion of the Medical Laboratory Technician BOC exam is preferred. Students that have not completed the BOC may be admitted with MLS program directors approval.
- Students admitted to the program that do not hold an A.S. in MLT or a B.S. in a related science may be required to complete the University of Wyoming University Studies program in addition to the basic requirements for the Bachelor of Science in Medical Laboratory Science degree. See the current requirements at http://www.uwyo.edu/unst/

**Applying for Admission to MLS Professional Program**

Students may enter the MLS professional program in the fall or spring semester of their junior year. Application for the program must be submitted to the MLS program director before finals week of the first semester the student has declared the MLS major and is enrolled in a MLS course.

Prior to participating in the enrichment experiences, students will be subject to that agency's requirements for a background check, drug testing and/or drug abuse prevention policies. Students are then subject to the random drug testing policy of that agency. These background checks are routinely required by schools, hospitals, and other agencies that participate in on-site training. Background check should be obtained from Viewpoint screening (https://www.viewpointscreening.com/uwyo). The Casper College MLT background check is a valid substitute if final semester of MLS program falls within 1 year of check.

After completion and submission of the program application, the student must schedule an interview with the program director for an evaluation for acceptance to the MLS program. Interviews must be completed before the student enrolls in the succeeding semester of coursework. It is the students' responsibility to complete and submit applications, and to schedule an interview with the MLS program director by the due dates.
Students are required to complete an observational enrichment experience during the final MLS semester. This observational experience is designed to demonstrate advanced concepts and topics presented in the MLS curriculum, in a practical setting.

The MLS program will provide documentation requirements, as each site may have different requirements for participation (e.g. vaccination records, HIPPA training, safety training, background check/drug screen etc.). If a student finds an appropriate observational enrichment experience outside of the opportunities available through the MLS program, the student must communicate the site to the MLS program director for approval. It will be the responsibility of the student to arrange the experience with the appropriate site personnel/HR, and program director to ensure all required documentation is provided.

Liability insurance will be required for students entering their senior year coursework. Liability insurance is provided through the University of Wyoming at a cost of $13.00/year to the student.

Health Requirements: The student must provide proof of health insurance and Hepatitis B vaccination (or declination) to participate in on-campus student laboratory sessions. Hepatitis B vaccinations are available on the UW-C campus at student health, or at the county health department for a small fee. Other health records may be required to participate in enrichment activities including MMR, Tetanus, drug screen, and background check/drug screen.

**Essential Functions**

Applicants must meet certain essential functions as defined by NAACLS. If you feel that you do not meet these essential functions, careful consideration should be made and advisement received before entering the MLS Program. Essential functions are the abilities and essential functions that a student must be able to perform to be successful in the learning experiences and completion of the program.

**Observational Requirements**

The MLS student must be able to:

- Observe laboratory demonstrations in which biologicals are tested for their biochemical, hematological, immunological, microbiological, and histochemical components.
- Characterize the color, odor, clarity, and viscosity of biologicals, reagents or chemical reaction products.
- Employ a clinical grade binocular microscope to discriminate among the structural and color (hue, shading, and intensity) differences of microscopic specimens.
- Read and comprehend text, numbers, and graphs displayed in print and on a video monitor.

**Movement Requirements**

The MLS student must be able to:

- Move freely and safely about a laboratory.
- Reach laboratory bench-tops and shelves, patients lying in hospital beds or patients seated in specimen collection furniture.
- Travel to numerous clinical laboratory sites for practical experience.
- Perform moderately taxing continuous physical work, often requiring prolonged sitting, over several hours.
- Maneuver phlebotomy and culture acquisition equipment to safely collect valid laboratory specimens from patients.
- Control laboratory equipment (i.e., pipettes, inoculating loops, test tubes) and adjust instruments to perform laboratory procedures.
- Use an electronic keyboard to operate laboratory instruments and to calculate, record, evaluate, and transmit laboratory information.
- Perform fine hand manipulations with dexterity.

**Communication Requirements**
The MLS student must be able to:

- Read and comprehend technical and professional materials.
- Follow verbal and written instructions in order to correctly and independently perform laboratory test procedures.
- Clearly instruct patients prior to specimen collection.
- Effectively, confidentially and sensitively converse with patients regarding laboratory tests.
- Communicate with faculty members, fellow students, staff, and other health care professionals verbally and in a recorded format.
- Independently prepare papers, prepare laboratory reports, and take paper, computer, and laboratory practical examinations.

**Behavioral Requirements**

The MLS student must:

- Be able to manage the use of time and be able to systematize actions in order to complete professional and technical tasks within realistic constraints.
- Possess the emotional health necessary to effectively employ intellect and exercise appropriate judgment.
- Be able to provide professional and technical services while experiencing the stresses of task-related uncertainty and a distracting environment.
- Be flexible and creative and adapt to professional and technical change.
- Recognize potentially hazardous materials, equipment, and situation and proceed safely in order to minimize risk of injury to patients, self, and nearby individuals.
- Adapt to working with unpleasant biologicals.
- Support and promote the activities of fellow students and of health care professionals.
- Realize that the promotion of peers helps furnish a team approach to learning, task completion, problem solving and patient care.
- Be honest, compassionate, ethical and responsible.

**Request for Accommodation**

All students are held to the same academic and technical standards. Applicants/students with disabilities seeking accommodation must discuss their disability and accommodation needs with the University Disability Support Services (udss@uwyo.edu or (307) 766-6189; TTY: (307) 766-3073). If appropriate and upon request and registration of the applicant, a reasonable accommodation will be made consistent with University of Wyoming guidelines.

**Medical Laboratory Science, B.S.**

A degree in Medical Laboratory Science prepares healthcare professionals to perform clinical diagnostic testing in the areas of microbiology, hematology, chemistry, immunohematology, urinalysis, serology, and molecular biology.

**USP - University Studies Program Requirements**

Completion of all University Studies Program requirements is necessary to obtain a bachelors degree from the University of Wyoming. These requirements may be covered by the Medical Laboratory Technician Associates degree at Casper College. Please work with your advisor to ensure these requirements are fulfilled.
• FYS - First Year - Seminar Credits: 3
• COM1 - Communication 1 Credits: 3
• COM2 - Communication 2 Credits: 3
• COM3 - Communication 3 Credits: 3
• Q - Quantitative Reasoning Credits: 3
• PN - Physical and Natural World (1) Credits: 3
• PN - Physical and Natural World (2) Credits: 3
• H - Human Culture (1) Credits: 3
• H - Human Culture (2) Credits: 3

Casper College Requirements

MLTK and PEAC courses are available through an articulation agreement with Casper College and can be taken only through Casper College. Students are responsible for fulfilling all University Studies requirements. The articulation agreement, with a proposed semester-by-semester sequence, is available at: http://www.uwyo.edu/TRANSFER/articulation/agreements/medical-laboratory-science.html

• MATH1400 - College Algebra Credits: 3 (Meets Quantitative USP requirement) 4 credits at Casper College
• MICR2021 - General Microbiology Credits: 4
• OR MOLB 2021 General Microbiology (Casper College equivalent: MOLB 2210)
• SOC1000 - Sociological Principles Credits: 3 OR ANTH 1200 Introduction to Cultural Anthropology
• ENGL1010 - College Composition and Rhetoric Credits: 3 (Meets Communication I USP requirement)
• LIFE1010 - General Biology Credits: 4 (Meets Physical and Natural World USP requirement; Casper College equivalent: BIOL 1010)
• ENGL2005 - Writing in Technology and the Sciences Credits: 3 (Meets Communication II USP requirement)
• POLS1000 - American and Wyoming Government Credits: 3 (Meets U.S. and Wyoming Constitution USP requirement)
• CHEM1020 - General Chemistry I Credits: 4 (Meets Physical and Natural World USP requirement; Casper College equivalent: CHEM 1025 & CHEM 1028)
• PEAC xxxx: Online Activity Credits: 1
• CMAP 1505 Introduction to Computers Credits: 1
• Elective Credits: 3
• MLTK 1500 - Hematology Credits: 3
• MLTK 1600 - Clinical Immunohematology Credits: 3
• MLTK 1700 - Microscopy: UA Body Fluids Credits: 2
• MLTK 2600 - Clinical Microbiology I Credits: 2
• MLTK 2500 - Clinical Chemistry Credits: 3
• MLTK 2650 - Clinical Microbiology II Credits: 2
• MLTK 2700 - Immunology Credits: 4
• MLTK 2971 - Clinical Practicum: Hematology Credits: 2
• MLTK 2972 - Clinical Practicum: Chemistry Credits: 2
• MLTK 2973 - Clinical Practicum: Immunohematology Credits: 2
• MLTK 2974 - Clinical Practicum: Microbiology Credits: 2
• MLTK 2976 - Clinical Practicum: Serology Credits: 1
• MLTK 2977 - Clinical Practicum: UA / Body Fluids Credits: 1
• MLTK 2978 - MLT Professionalism Credits: 1
• MLTK 2800 - Clinical Pathophysiology Credits: 4
• MLTK 1800 - Principles of Phlebotomy Credits: 3

University of Wyoming Requirements

Upper-division courses required to complete the Bachelor of Science in Medical Laboratory Science (All MLSK courses are only available through UW-Casper):

• CHEM1030 - General Chemistry II Credits: 4
• CHEM2300 - Introductory Organic Chemistry Credits: 4
• LIFE3050 - Genetics Credits: 4
• LIFE3600 - Cell Biology Credits: 4
• STAT2050 - Fundamentals of Statistics Credits: 4
• MOLB3000 - Introduction to Molecular Biology Credits: 3
• MOLB3610 - Principles of Biochemistry Credits: 4
• MLSK4840 - Laboratory Education Methodology Credits: 1
• MLSK4850 - Clinical Research Design Credits: 2
• MLSK4860 - Laboratory Management Credits: 3 (Meets Communication III USP requirement)
• MLSK4870 - Advanced Clinical Chemistry Credits: 4
• MLSK4880 - Advanced Hematology: Erythrocytes Credits: 2
• MLSK4981 - Advanced Clinical Practicum-Hematology Credits: 3
• MLSK4982 - Advanced Clinical Practicum-Molecular Credits: 3
• MLSK4983 - Advanced Clinical Practicum-Immunohematology Credits: 3
• MLSK4984 - Advanced Clinical Practicum- Microbiology Credits: 3
• MLSK4890 - Professional Career Paths and Review Credits: 2
• Upper-division elective credits: 1 (see below, consult your academic advisor)

Upper Division Elective Credit Hours

One upper division elective credit hour must be completed in the student's junior or senior year to meet the total 42 required upper division credits to graduate. Students may take a three credit class to meet this requirement.

These credits must be 3000 and above, and achieved through online outreach or on campus courses. A list of courses that are acceptable to fulfill this requirement can be made available to the student. If a course is in question, it is highly suggested to the student to contact the UW-C advising department or the MLS program director for requirement fulfillment confirmation.

Enrichment Rotations and Laboratory Sessions

The final semester of the student's senior year is comprised of didactic material being delivered in an online hybrid manner, supplemented with on campus lab sessions at the UW-Casper campus. These lab sessions will be accompanied by an observational enrichment rotation at a clinical site. This enrichment rotation will allow for the observation of advanced methodologies in a practical environment. It will be the students' responsibility for all travel and housing costs associated with the advanced clinical practicum courses.

Probation
Students who do not meet the minimum grade requirements stated above for MLSK course work will be placed on probation. In this period of time, students will be allowed to continue in the program under supervision, but will submit a petition which is an individualized plan of study for the next semester that is developed by the student in agreement with and signed by an academic advisor. All completed MLSK courses that fail to meet minimum grade requirements (C or 2.000 or better) must be repeated by the student. Students shall not be allowed to progress to the final semester until all courses in the previous semesters are successfully completed and a GPA of 2.000 is obtained.

Additional Requirements

The program requires 124 credit hours total, with 54 credit hours obtained in the junior/senior years to graduate. Students must complete a minimum of 42 upper division hours, 30 of which must be earned from the University of Wyoming.

Prerequisite for admission to the Medical Laboratory Sciences degree is completion of the Medical Laboratory Technician program at Casper College, or another accredited MLT program. Students interested in the MLS degree who already hold a bachelors degree should contact program director Jed Doxtater at jdoxtate@uwyo.edu.

Major

Medical Laboratory Science, B.S.

A degree in Medical Laboratory Science prepares healthcare professionals to perform clinical diagnostic testing in the areas of microbiology, hematology, chemistry, immunohematology, urinalysis, serology, and molecular biology.

USP - University Studies Program Requirements

Completion of all University Studies Program requirements is necessary to obtain a bachelors degree from the University of Wyoming. These requirements may be covered by the Medical Laboratory Technician Associates degree at Casper College. Please work with your advisor to ensure these requirements are fulfilled.

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q - Quantitative Reasoning**

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN - Physical and Natural World (1)**

Approved coursework does not include courses taken from the students' major department.

**PN - Physical and Natural World (2)**

Approved coursework does not include courses taken from the students' major department.

**H - Human Culture (1)**

Approved coursework does not include courses taken within the student's major department.

**H - Human Culture (2)**

Approved coursework does not include courses taken from the students' major department.
Casper College Requirements

MLTK and PEAC courses are available through an articulation agreement with Casper College and can be taken only through Casper College. Students are responsible for fulfilling all University Studies requirements. The articulation agreement, with a proposed semester-by-semester sequence, is available at: http://www.uwyo.edu/TRANSFER/articulation/agreements/medical-laboratory-science.html

MATH1400 - College Algebra

Credits: 3
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA
USP 2015 Code U5Q
Prerequisite: grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

MICR2021 - General Microbiology

Credits: 4
Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

Cross Listed MOLB 2021.
Former Course Number [MICR 2210]

Prerequisite: LIFE 1010, CHEM 1000 or equivalent.
OR MOLB 2021 General Microbiology (Casper College equivalent: MOLB 2210)

SOC1000 - Sociological Principles

Credits: 3
Provides a survey of the discipline and foundation for other sociology courses. Explores major areas of interest - ranging from small groups and families to bureaucracies and social movements. Introduces significant concepts and theories, along with tools of social research. Gives attention to contemporary American society, as well as comparative and historical material.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

ENGL1010 - College Composition and Rhetoric

Credits: 3
A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a
range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

LIFE1010 - General Biology

Credits: 4
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

ENGL2005 - Writing in Technology and the Sciences

Credits: 3
Develops writing styles specifically suited to technological and scientific fields of study. Includes focus on disciplinary conventions and styles as well as audience/readership considerations. Introduces techniques for data interpretation and visualization, and helps students analyze, understand, and adapt common field genres and formats.

POLS1000 - American and Wyoming Government

Credits: 3
Introduction to the Constitutions and governmental processes of the U. S. and Wyoming.

CHEM1020 - General Chemistry I

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.
Lab/Lecture Hours Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3S
USP 2015 Code USP
Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

- PEAC xxxx: Online Activity Credits: 1
- CMAP 1505 Introduction to Computers Credits: 1
- Elective Credits: 3
- MLTK 1500 - Hematology Credits: 3
- MLTK 1600 - Clinical Immunohematology Credits: 3
- MLTK 1700 - Microscopy: UA Body Fluids Credits: 2
- MLTK 2600 - Clinical Microbiology I Credits: 2
- MLTK 2500 - Clinical Chemistry Credits: 3
- MLTK 2650 - Clinical Microbiology II Credits: 2
- MLTK 2700 - Immunology Credits: 4
- MLTK 2971 - Clinical Practicum: Hematology Credits: 2
- MLTK 2972 - Clinical Practicum: Chemistry Credits: 2
- MLTK 2973 - Clinical Practicum: Immunohematology Credits: 2
- MLTK 2974 - Clinical Practicum: Microbiology Credits: 2
- MLTK 2976 - Clinical Practicum: Serology Credits: 1
- MLTK 2977 - Clinical Practicum: UA / Body Fluids Credits: 1
- MLTK 2978 - MLT Professionalism Credits: 1
- MLTK 2800 - Clinical Pathophysiology Credits: 4
- MLTK 1800 - Principles of Phlebotomy Credits: 3

University of Wyoming Requirements

Upper-division courses required to complete the Bachelor of Science in Medical Laboratory Science (All MLSK courses are only available through UW-Casper.):

CHEM1030 - General Chemistry II

Credits: 4
Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.
USP 2003-2014 Code U3S
USP 2015 Code USP
Prerequisite: CHEM 1020.

CHEM2300 - Introductory Organic Chemistry

Credits: 4
Terminal course in organic and beginning biological chemistry. No credit will be allowed in CHEM 2300 if credit earned in CHEM 2420. This course is not an acceptable prerequisite for CHEM 2440.
**When Offered**: (Normally offered spring semester)

**Prerequisite**: CHEM 1020, CHEM 1050, CHEM 1000 or equivalent.

**LIFE3050 - Genetics**

Credits: 4  
Introduces principles of heredity and variation in living organisms, including a study of the nature of the genetic material and its transmission, influence of heredity and environment on the development of individual characters, as well as evolution of organisms and artificial selection of plant and animal varieties. Emphasizes application to today's society.

**Former Course Number** [BIOL 3050/BIOL 4000]

**Prerequisite**: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

**LIFE3600 - Cell Biology**

Credits: 4  
Focuses on cell structure, cell function and the regulation of cell processes. Examines many levels of organization, ranging from single molecules and individual cells to multi-cellular systems and the whole organism. Discussion section is required.

**Former Course Number** [BIOL 3600/BIOL 4600]

**Prerequisite**: completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

**STAT2050 - Fundamentals of Statistics**

Credits: 4  
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q, U3QB  
USP 2015 Code U5Q  
**Prerequisite**: grade of C or better in MATH 1000, MATH 1400, or equivalent.

**MOLB3000 - Introduction to Molecular Biology**

Credits: 3  
An introduction to molecular biological processes governing cellular events is presented in the context of the structure of genomes, genes and chromosomes, DNA replication, gene expression, signal transduction pathways and the
regulation of cellular processes in disease and development. Experimental methods and technologies will also be discussed.

**Prerequisite:** LIFE 1010 and CHEM 1030; MOLB 2021 or MICR 2021 recommended.

**MOLB3610 - Principles of Biochemistry**

Credits: 4
One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

**Prerequisite:** LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

**MLSK4840 - Laboratory Education Methodology**

Credits: 1
This course provides an overview of education methodology and issues related to roles as educators in the clinical laboratory profession. Course topics and assignments include pedagogy, curriculum design, assessment and accreditation. Major educational responsibilities for clinical laboratory professionals relating to continuing education, competency assurance, certification and licensure will be addressed.

**Prerequisite:** Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

**MLSK4850 - Clinical Research Design**

Credits: 2
A course in research design methods commonly used in clinical research. Emphasis is on research design, process, measurement, regulatory issues, and ethics, as used by investigators. The focus is to equip students with knowledge and skills necessary to critically examine professional literature, methodology and ethical considerations that influence research design.

**Prerequisite:** Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

**MLSK4860 - Laboratory Management**

Credits: 3
This course introduces students to laboratory management systems, testing, reimbursement, accrediting/regulatory issues, finances, information systems, QA/QC improvement and supervisory roles in the clinical laboratory. Emphasis is on management and communication skills needed to work successfully as entry-level professionals in a health care setting.

USP 2015 Code U5C3
**Prerequisite:** Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.
MLSK4870 - Advanced Clinical Chemistry

Credits: 4
This course is designed to introduce students to advanced topics in clinical chemistry in relation to instrumentation, diagnostic testing and its correlation to disease states, and method correlation and validation. Students will demonstrate the ability to describe principles and applications required for the entry level laboratory scientist.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an AS degree in MLT within the past 5 years.

MLSK4880 - Advanced Hematology: Erythrocytes

Credits: 2
Advanced hematology principles and techniques prepare students for practice in the clinical laboratory. This course will focus on advanced topics of hematology, focusing on normal and abnormal erythrocytes in relation to assessment, and disease correlation.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an AS degree in MLT within the past 5 years.

MLSK4981 - Advanced Clinical Practicum-Hematology

Credits: 3
Advanced hematology principles and techniques prepare students for practice in the clinical laboratory. Topics include leukopoiesis, leukemias, lymphomas, hemostasis, coagulopathies, urinalysis and body fluids. Laboratory will focus on abnormal smears, normal and leukemic bone marrow evaluations, and coagulation mixing studies, factor assays and body fluids related to clinical disease states.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4982 - Advanced Clinical Practicum-Molecular

Credits: 3
Principles of molecular technology used in clinical laboratories. Laboratory experiences include cytogenetics, nucleic acid extraction, hybridization, detection, amplification, sequencing, microarrays, and in-situ hybridization. Emphasis is on the areas of the clinical laboratory that use molecular techniques related to genetics, oncology, infectious disease, and identity testing for forensic and transplant purposes.

Prerequisite: Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

MLSK4983 - Advanced Clinical Practicum-Immunohematology

Credits: 3
Principles of immunology theory, blood group systems, genetics, and immunohematology techniques. Procedures including evaluation of blood samples, pretransfusion compatibility testing, and transfusion reactions are studied.
Serologic testing and problem-solving in antibody identification and complex procedures are stressed. Laboratory emphasizes modern practices, resolution of compatibility problems and advanced antibody identification methods.

**Prerequisite:** Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

**MLSK4984 - Advanced Clinical Practicum - Microbiology**

Credits: 3
Focus is on underlying mechanisms of microbial pathogenesis, host responses to infectious disease and clinical diagnosis procedures. Emphasis is on detailed mechanisms of infection, pathogenesis, and major discoveries and technologies in medical microbiology. Current issues in public and global health, epidemiology, bioterrorism, biotechnology and vaccination programs will be studied.

**Prerequisite:** Medical Laboratory Technician (ASCP) certification or completion of an associate of science degree in medical laboratory technician within 5 years.

**MLSK4890 - Professional Career Paths and Review**

Credits: 2
This Medical Laboratory Sciences program prepares students for a variety of graduate degrees and careers in laboratory medicine. This course is designed to help students investigate career and education opportunities after becoming a certified Medical Laboratory Scientist and also provides students with a cumulative review to ensure mastery of content.

**Prerequisite:** Medical Laboratory Technician (ASCP) certification or completion of an AS degree in MLT within the past 5 years.

- Upper-division elective credits: 1 (see below, consult your academic advisor)

**Upper Division Elective Credit Hours**

One upper division elective credit hour must be completed in the student's junior or senior year to meet the total 42 required upper division credits to graduate. Students may take a three credit class to meet this requirement.

These credits must be 3000 and above, and achieved through online outreach or on campus courses. A list of courses that are acceptable to fulfil this requirement can be made available to the student. If a course is in question, it is highly suggested to the student to contact the UW-C advising department or the MLS program director for requirement fulfillment confirmation.

**Enrichment Rotations and Laboratory Sessions**

The final semester of the student's senior year is comprised of didactic material being delivered in an online hybrid manner, supplemented with on campus lab sessions at the UW-Casper campus. These lab sessions will be accompanied by an observational enrichment rotation at a clinical site. This enrichment rotation will allow for the observation of advanced methodologies in a practical environment. It will be the student's responsibility for all travel and housing costs associated with the advanced clinical practicum courses.
Probation

Students who do not meet the minimum grade requirements stated above for MLSK course work will be placed on probation. In this period of time, students will be allowed to continue in the program under supervision, but will submit a petition which is an individualized plan of study for the next semester that is developed by the student in agreement with and signed by an academic advisor. All completed MLSK courses that fail to meet minimum grade requirements (C or 2.000 or better) must be repeated by the student. Students shall not be allowed to progress to the final semester until all courses in the previous semesters are successfully completed and a GPA of 2.000 is obtained.

Additional Requirements

The program requires 124 credit hours total, with 54 credit hours obtained in the junior/senior years to graduate. Students must complete a minimum of 42 upper division hours, 30 of which must be earned from the University of Wyoming.

Prerequisite for admission to the Medical Laboratory Sciences degree is completion of the Medical Laboratory Technician program at Casper College, or another accredited MLT program. Students interested in the MLS degree who already hold a bachelors degree should contact program director Jed Doxtater at jdoxtate@uwyo.edu.

Graduate

Doctor of Pharmacy, MBA/PharmD Dual Degree

This dual degree program provides students with a complementary business degree to start their own business or to advance into management positions in their careers. Students acquire decision-making skills that allow them to excel in their field of practice.

Additional Requirements

The School of Pharmacy offers an MBA/Pharm.D. dual degree program that is geared toward students who have already obtained a Bachelor's degree. A dual M.B.A./Pharm.D. degree allows a student to diversify their skill set and enhance their value proposition to prospective employers.

The Doctor of Pharmacy/Master of Business Administration dual degree takes five years to complete - four years of Pharmacy studies and one year of MBA core courses. Students spend their first year (Fall, Spring, and Summer semesters) in the MBA program taking core courses and completing other program requirements. The next four years will encompass the traditional Pharm.D. curriculum. Students completing this program will earn a Doctor of Pharmacy degree and a Master of Business Administration degree. Please review the program specific information for each program:

- Business Administration, M.B.A.
- Pharmacy, Pharm.D.

MBAM5101 - MBA Foundations

Credits: 1
The purpose of this course is to prepare students for the academic rigors of the MBA program.
Restricted Enrollment in MBAM or MBAF degree program.

Prerequisite: Admission to full-time MBA program.

**MBAM5102 - Operations Management**

Credits: 3
Production and operations management. Topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, and scheduling.

Prerequisite: Admission to the MBAM program.

**MBAM5104 - Organization Behavior and Human Resource Management**

Credits: 3
Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

**MBAM5107 - Decision Making I**

Credits: 1
This course develops a systematic process for making decisions in complex business situations, by integrating six dimensions of business risk: competitive, financial, organizational, legal, social, and ethical. The process combines analytical and ethical reasoning methods that compensate for the flawed decision making common in business organizations.

Prerequisite: Admission to the MBAM program.

**MBAM5202 - Data and Decision Modeling**

Credits: 3
This course will prepare students to use computer-based models for solving problems in the areas of operations, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analytics including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

Prerequisite: Admission to the MBAM program.

**MBAM5204 - Financial Management**

Credits: 3
Students taking this course should expect to learn the fundamentals principles of environmental influences on corporate
financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

**Prerequisite:** Admission to the MBAM program.

**MBAM5207 - Marketing Management**

Credits: 3  
Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage.

**Restricted** Admitted to MBA, MBE or MBEF program.

**Prerequisite:** Admission to the MBAM program.

**MBAM5208 - Managerial Accounting**

Credits: 3  
This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of business decisions.

**Prerequisite:** Admission to the MBAM program.

**MBAM5209 - Decision Making II**

Credits: 1  
An experiential learning course that builds on MBAM 5107. Students apply systematic business decision making process to real-world business situations. Student teams work directly with owners and managers of Wyoming companies to address their strategic, competitive, operational, financial, and/or administrative challenges in real time.

**Prerequisite:** MBAM 5107.

**MBAM5305 - Strategic Management**

Credits: 3  
Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations.

**Prerequisite:** Admission to the MBAM program. #304.
MBAM5330 - Global Business Environment

Credits: 3
Max Credit 3

Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.

Restricted Admission to the MBA, MBAE, or MBAF program.

Prerequisite: Admission to the MBA program, or permission from the MBA Program Director.

MBA-MBA students, including dual degree students, must take an additional nine (9) credit hours of 4000 or 5000 level College of Business courses. Three (3) of these credit hours can be taken outside of the College of Business. Dual degree students (JD/PharmD/MS) may take three (3) credit hours outside the College of Business following dual degree agreement guidelines. Please contact your advisor for additional information.

Health Services Administration, M.S.

The School of Pharmacy offers a Master of Science online degree in health services administration (MSHSA).

Specialty Tracks

All students select one specialty track.

Biopharmaceutical Regulatory Compliance Group Specialty Listings

Specialty Tracks through the Biopharmaceutical Regulatory Compliance Group
- Biopharmaceutical Regulatory Compliance
- Healthcare Risk Management
- Forensic Pharmacy
- Healthcare Policy Analysis
- Biopharmaceutical Product Representation
- Clinical Research Administration
- Patient Safety Systems
- Healthcare Security Systems
- Healthcare Ethics & Equity

Health Institution Leadership Group Specialty Listings

Specialty Tracks through the Health Institution Leadership Group
- Health Institution Leadership
- Health Economics & Outcomes
- Healthcare Quality & Improvement
Biopharmaceutical Regulatory Compliance Group

MS-HSA Curriculum

The following table provides a list of the core courses required for all tracks.

**PHCY5040 - The Evolution of American Health**

Credits: 2  
This course explores the evolution of the healthcare system in response to various needs and crises over the years. The professionalization of health care; the development of the modern hospital; the implications of computerized health information; and the empowerment of patients will be covered.

**Prerequisite:** Admission into the Health Services Administration MS program.

**PHCY5042 - Statistics for Health Services**

Credits: 3  
This course will introduce students to correlation analysis, regression, analysis of variance and selected non-parametric tests, focusing on appropriate use of each and how to interpret the output of a statistical test to answer a research question.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

**PHCY5043 - Empirical Analysis for Health Services Administration**

Credits: 3  
This course will equip students with an understanding of research and policy debates related to economic, political, and administrative aspects of health services by providing an overview of how research can be used by health service researchers to draw conclusions about health services and their administration.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

**PHCY5045 - Health Services Administration Applied Research**

Credits: 1-4  
This course provides the opportunity for students to apply knowledge and skills obtained in the HSA program while gaining practical experience with real-world projects.
Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5046 - Health Services Administration Seminar 1

Credits: 1
Max Credit (Max. 2)

An in-depth investigation of a timely issue in health services, including the regulatory, economic, patient-safety, marketing, leadership, and ethical aspects of that issue. Students will participate in separate group analysis of a presented problem, and in their presentations of their group's assessment of the problem.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5041 - Health Services Administration Research Methods

Credits: 2

This course will cover the basic research designs used in health services research. Focus will be given on framing the research questions, selecting the appropriate study design and threats to the internal validity of the study designs.

Prerequisite: Must be enrolled in the HSA program.

Sub-Total Program Required Coursework: 15 credit hours

Biopharmaceutical Regulation & Compliance Track

The following tables provides a list of required courses for the track listed

Specialty Track Required Coursework (9 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3

This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5242 - The Food and Drug Administration

Credits: 2

This course examines the regulatory climate for FDA-regulated drug and biological products. Regulatory standards are reviewed (including discovery of new therapeutic modalities, their approval, manufacturing, promotion, and distribution), and the enforcement authority of the FDA is examined (focusing on methods that promote safe and effective drug use).

Prerequisite: PHCY 5241.
PHCY5243 - The Drug Enforcement Administration

Credits: 2
This course examines the balance of health professionals and institutions working with regulators to develop programs that reflect both the best interests of individual patients and of society. Focusing on challenges of treating chronic pain, prescription drug abuse, and actions that have led to conflict between regulators and health practitioners.

Prerequisite: PHCY 5241.

PHCY5244 - State Regulations of Health Professions

Credits: 2
This course examines how state regulatory agencies assure the initial competence of practitioners, as well as their continuing competence in the years following the completion of academic training. The course also examines the factors that are applied to the regulation of health care settings, using the structure-process-outcomes typology of Donabedian.

Prerequisite: PHCY 5241.

Specialty Track Electives (choose 6 hours)

Healthcare Risk Management Track

Specialty Track Required Coursework (9 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3
This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5342 - Healthcare Risk and Quality

Credits: 3
This course surveys the importance and processes of quality and risk in health care institutions. Students will be assigned to lead topics. Current events/topics will be utilized to inform the class.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5670 - Medication Malpractice

Credits: 2
Using a case-study approach, potential legal liability issues are studies, within a health care context that primarily focuses on legal liability related to the use of medications. Strategies for reduction of legal liability are explored. The
implementation and oversight of legal risk management programs is addressed.

**Dual Listed**  Dual listed with: PHCY 4670. 
**Prerequisite:** Enrollment in graduate or professional program or department permission.

**PHCY5240 - Pharmaceutical Homicide**

Credits: 2  
Legal pharmaceutical products are sometimes used by healthcare professional criminals to kill people. This course focuses on identifying the zone of risk for people who could be harmed by pharmaceuticals, and the development of best practices to protect patients and other from the harm.

**Dual Listed**  PHCY 4240. 
**Prerequisite:** Enrollment in graduate or professional program or department permission. 
Specialty Track Electives (Choose 6 hours)

**Forensic Pharmacy Track**

Specialty Track Required Coursework (9 credit hours)

**PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance**

Credits: 3  
This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

**Prerequisite:** Completion or concurrent enrollment in PHCY 5040.

**PHCY5240 - Pharmaceutical Homicide**

Credits: 2  
Legal pharmaceutical products are sometimes used by healthcare professional criminals to kill people. This course focuses on identifying the zone of risk for people who could be harmed by pharmaceuticals, and the development of best practices to protect patients and other from the harm.

**Dual Listed**  PHCY 4240. 
**Prerequisite:** Enrollment in graduate or professional program or department permission. 
PHCY 5XXX The Chemistry of Poisonings 2 Credits 
PHCY 5XXX Thr Process of Forensic Science 2 Credits  
Specialty Track Electives (choose 6 hours)

**Healthcare Policy Analysis Track**

Specialty Track Required Coursework (9 credit hours)
**PHCY5047 - Pandemic Preparedness Policy**

Credits: 2
Analysis of regulatory measures undertaken to protect the public from adverse effects of a global pandemic. Evaluation of alternative means of preparing for a pandemic and for management of pandemic response. Considers balancing of individual interests and community interests.

**PHCY5148 - Health Economics and Policy**

Credits: 2
This course explores the financing and structure of the U. S. healthcare system with the purpose of understanding how these systems impact patient care, health policy, and economics. Topics include organization of healthcare systems, insurance programs, legislation, healthcare labor markets and drug costs.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

**PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance**

Credits: 3
This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

**Prerequisite:** Completion or concurrent enrollment in PHCY 5040.

**PHCY5246 - Prescription Drug Costs**

Credits: 2
Max Credit 2
Overview of prescription drug prices and the consequences for patients and society of the high cost of pharmaceutical products. Causes of escalating pharmaceutical prices are reviewed. Legal and economic factors that contribute to high drug prices are considered. Potential solutions are identified.

**Restricted** Professional and Graduate students only.

**Biopharmaceutical Product Representation Track**

Specialty Track Required Coursework (9 credit hours)

**PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance**

Credits: 3
This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.
Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5441 - Introduction to Health Leadership

Credits: 3
This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5541 - Introduction to Biopharmaceutical Marketing and Production

Credits: 3
This course will review empirical evidence in various topic areas within the fields of biopharmaceutical marketing, sales promotion, communication, and selling effectiveness focusing on the history and structure of the biopharmaceutical product representative function and theoretical domains associated with the associated activities.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

Clinical Research Administration Track

Specialty Track Required Coursework (10 credit hours)

PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance

Credits: 3
This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5242 - The Food and Drug Administration

Credits: 2
This course examines the regulatory climate for FDA-regulated drug and biological products. Regulatory standards are reviewed (including discovery of new therapeutic modalities, their approval, manufacturing, promotion, and distribution), and the enforcement authority of the FDA is examined (focusing on methods that promote safe and effective drug use).

Prerequisite: PHCY 5241.

PHCY 5XXX Biomedical Ethics 3 Credits
PHCY 5XXX Clinical Research Regulation 2 Credits
Specialty Track Electives (choose 5 hours from list)
Patient Safety Systems Track

Specialty Track Required Coursework (9 credit hours)

**PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance**

Credits: 3
This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

**Prerequisite:** Completion or concurrent enrollment in PHCY 5040.

**PHCY5341 - Principles of Healthcare Quality**

Credits: 3
Max Credit (Max. 3)

This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

**PHCY5441 - Introduction to Health Leadership**

Credits: 3

This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

Specialty Track Electives (choose 6 hours)

---

Healthcare Security Systems Track

Specialty Track Required Coursework (9 credit hours)

**PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance**

Credits: 3
This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

**Prerequisite:** Completion or concurrent enrollment in PHCY 5040.

**PHCY 5XXX Cybersecurity 2 Credits**
PHCY 5XXX HIPPA Compliance 2 Credits  
PHCY 5XXX Disaster Management 2 Credits  
Specialty Track Electives (choose 6 hours)  

Healthcare Ethics & Equity Track  

Specialty Track Required Coursework (10 Credit hours)  

**PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance**  
Credits: 3  
This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.  

**Prerequisite:** Completion or concurrent enrollment in PHCY 5040.  
PHCY 5XXX Biomedical Ethics 3 Credits  
PHCY 5XXX HIPAA Compliance 2 Credits  
PHCY 5XXX Clinical Research Regulation 2 Credits  
Specialty Track Electives (choose 5 hours)  

Health Institution Leadership Group  

MS-HSA Curriculum  

The following table provides a list of the core courses required for all tracks  

**PHCY5040 - The Evolution of American Health**  
Credits: 2  
This course explores the evolution of the healthcare system in response to various needs and crises over the years. The professionalization of health care; the development of the modern hospital; the implications of computerized health information; and the empowerment of patients will be covered.  

**Prerequisite:** Admission into the Health Services Administration MS program.  

**PHCY5041 - Health Services Administration Research Methods**  
Credits: 2  
This course will cover the basic research designs used in health services research. Focus will be given on framing the research questions, selecting the appropriate study design and threats to the internal validity of the study designs.  

**Prerequisite:** Must be enrolled in the HSA program.  

**PHCY5042 - Statistics for Health Services**
This course will introduce students to correlation analysis, regression, analysis of variance and selected non-parametric tests, focusing on appropriate use of each and how to interpret the output of a statistical test to answer a research question.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

**PHCY5043 - Empirical Analysis for Health Services Administration**

Credits: 3
This course will equip students with an understanding of research and policy debates related to economic, political, and administrative aspects of health services by providing an overview of how research can be used by health service researchers to draw conclusions about health services and their administration.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

**PHCY5045 - Health Services Administration Applied Research**

Credits: 1-4
This course provides the opportunity for students to apply knowledge and skills obtained in the HSA program while gaining practical experience with real-world projects.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

**PHCY5046 - Health Services Administration Seminar1**

Credits: 1
Max Credit (Max. 2)
An in-depth investigation of a timely issue in health services, including the regulatory, economic, patient-safety, marketing, leadership, and ethical aspects of that issue. Students will participate in separate group analysis of a presented problem, and in their presentations of their group's assessment of the problem.

**Prerequisite:** Completion or concurrent enrollment in PHCY 5040.

Sub-Total Program Required Coursework: 15 Hours

**Health Institution Leadership Track**

Specialty Track Required Coursework (9 credit hours)

**PHCY5441 - Introduction to Health Leadership**

Credits: 3
This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.
**PHCY5442 - Healthcare Financial Planning**

Credits: 2  
This course explores financial principles incorporating the unique environment of the health institution. The mix of services (inpatient, outpatient, nursing facilities, urgent/emergency care and components) will be studied through extensive use of case studies and models to develop the health institution leader's financial skills.

**PHCY5443 - Healthcare Human Capital Plan**

Credits: 2  
This course will provide skills for developing and managing human capital by the health institution leader through exploration of best practices for human capital selection and development to optimize the performance of the workforce while complying with legal, regulatory, and contractual requirements through extensive use of case studies and models.

**PHCY5444 - Healthcare Strategic Innovation**

Credits: 2  
This course develops strategic skills by the health institution leader through exploration of principles incorporating the unique environment of the health institution. The strategic skills will be applied to the concept of innovation through extensive use of case studies and models.

**Specialty Track Electives (choose 6 hours)**

**Health Economics and Outcomes**

Specialty Track Required Coursework (10 credit hours)

**PHCY5141 - Principles of Health Econ and Outcomes**

Credits: 3  
This course considers the role of the range of outcomes used by clinicians and health care systems in assessing treatment modalities. The framework for conducting and assessing outcomes research will be emphasized.

**PHCY5142 - Health Economic Decision Analysis**
Credits: 2
This class is designed to provide the student with the methods of comparative effectiveness research with special focus on how various decision makers use comparative effectiveness data to assist in decision-making.

**Prerequisite:** PHCY 5141.

**PHCY5143 - Comparative Effectiveness Research**

Credits: 2
This class is designed to provide the student with the methods of comparative effectiveness research with special focus on how various decision makers use comparative effectiveness data to assist in decision-making.

**Prerequisite:** PHCY 5141.

**PHCY5441 - Introduction to Health Leadership**

Credits: 3
This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

Specialty Track Electives (Choose 5 hours)

**Healthcare Quality & Outcomes Track**

Specialty Track Required Coursework (8 credit hours)

**PHCY5341 - Principles of Healthcare Quality**

Credits: 3
Max Credit (Max. 3)

This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

**PHCY5342 - Healthcare Risk and Quality**

Credits: 3
This course surveys the importance and processes of quality and risk in health care institutions. Students will be assigned to lead topics. Current events/topics will be utilized to inform the class.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.
PHCY5441 - Introduction to Health Leadership

Credits: 3
This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.
Specialty Track Electives (choose 7 hours)

Rural Healthcare Coordination Track

Specialty Track Required Coursework (9 credit hours)

PHCY5141 - Principles of Health Econ and Outcomes

Credits: 3
This course considers the role of the range of outcomes used by clinicians and health care systems in assessing treatment modalities. The framework for conducting and assessing outcomes research will be emphasized.

Prerequisite: Completion or concurrent enrollment in PHCY 5040.

PHCY5341 - Principles of Healthcare Quality

Credits: 3
Max Credit (Max. 3)

This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

Prerequisite: Must be enrolled in the HSA program, or by permission.

PHCY5441 - Introduction to Health Leadership

Credits: 3
This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

Prerequisite: Must be enrolled in the HSA program, or by permission.
Specialty Track Electives (choose 6 hours)

Geriatric Care Systems Track

Specialty Track Required Coursework (9 credit hours)
**PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance**

Credits: 3
This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

**Prerequisite:** Completion or concurrent enrollment in PHCY 5040.

**PHCY5341 - Principles of Healthcare Quality**

Credits: 3
Max Credit (Max. 3)

This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

**PHCY5441 - Introduction to Health Leadership**

Credits: 3
This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

**Specialty Track Electives (choose 6 hours)**

**Healthcare Entrepreneurism Track**

Specialty Track Required Coursework (9 credit hours)

**PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance**

Credits: 3
This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

**Prerequisite:** Completion or concurrent enrollment in PHCY 5040.

**PHCY5541 - Introduction to Biopharmaceutical Marketing and Production**

Credits: 3
This course will review empirical evidence in various topic areas within the fields of biopharmaceutical marketing,
sales promotion, communication, and selling effectiveness focusing on the history and structure of the biopharmaceutical product representative function and theoretical domains associated with the associated activities.

**Prerequisite:** Completion or concurrent enrollment in PHCY 5040.

**PHCY5441 - Introduction to Health Leadership**

Credits: 3  
This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.  
Specialty Track Electives (choose 6 hours)

**Healthcare Financing Track**

Specialty Track Required Coursework (9 credit hours)

**PHCY5141 - Principles of Health Econ and Outcomes**

Credits: 3  
This course considers the role of the range of outcomes used by clinicians and health care systems in assessing treatment modalities. The framework for conducting and assessing outcomes research will be emphasized.

**Prerequisite:** Completion or concurrent enrollment in PHCY 5040.

**PHCY5441 - Introduction to Health Leadership**

Credits: 3  
This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.

**PHCY5541 - Introduction to Biopharmaceutical Marketing and Production**

Credits: 3  
This course will review empirical evidence in various topic areas within the fields of biopharmaceutical marketing, sales promotion, communication, and selling effectiveness focusing on the history and structure of the biopharmaceutical product representative function and theoretical domains associated with the associated activities.

**Prerequisite:** Completion or concurrent enrollment in PHCY 5040.  
Specialty Track Electives (choose 6 hours)
Health Information Technology Track

Specialty Track Required Coursework (9 credit hours)

**PHCY5441 - Introduction to Health Leadership**

Credits: 3
This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.
- PHCY 5XXX Information Design and Analysis 2 Credits
- PHCY 5XXX Healthcare Information Systems 2 Credits
- PHCY 5XXX Information Management 2 Credits
- Specialty Track Electives (choose 6 hours from list)

Healthcare Writing & Reporting Track

Specialty Track Required Coursework (9 credit hours)

**PHCY5441 - Introduction to Health Leadership**

Credits: 3
This course will develop the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization resources and effective use of data analytics are explored.

**Prerequisite:** Must be enrolled in the HSA program, or by permission.
- PHCY 5XXX Professional Writing in Healthcare 2 Credits
- PHCY 5XXX Health Data in Figures, Tables & Graphs 2 Credits
- PHCY 5XXX The Healthcare Message 2 Credits
- Specialty Track Electives (choose 6 hours)

Additional Notes

NOTE: Specialty track electives can be any course provided in the MSHSA program.

Please consult with the program director if you have questions on the electives to choose for a specific track.

Those course numbers with PHCYXXXX are currently being built or waiting on approval from the University. Please contact the MS HSA program for questions.

Additional Requirements

This degree is geared toward new and mid-career practitioners including pharmacists, nurses, physicians, social workers, and other health care professionals who want to become department directors, patient safety
coordinators and/or directors, regulatory compliance officers, clinical research associates, health outcomes researchers or take on leadership roles as advanced practice practitioners.

The program also benefits healthcare workers in fields such as management positions, pharmaceutical sales representatives, medical science liaisons, and pharmacy technician educators as well as new clinical faculty at newly established pharmacy colleges.

Available nationwide the master's program is delivered via a mix of online self-study and online project-based coursework.

The program can be completed in two years of part-time study. Students are requested to travel to the UW Laramie campus for two weekend seminars during the two-year program (based on travel restrictions during the pandemic this course was held online). Graduates will be expected to complete 30 credit hours of coursework and pass a comprehensive final exam. Coursework will be completed over five consecutive semesters however students can take up to 6 years to complete the program.

A prospective student should have earned at least a bachelor's degree from a regionally accredited institution. To find out more about the application process please see the following website www.uwyo.edu/pharmacy/online-ms-program or contact the Student Services Office.

**Pharmacy, Pharm.D.**

The School of Pharmacy offers only the four-year curriculum leading to the Doctor of Pharmacy (Pharm.D.) degree. Students admitted to the professional pharmacy program follow a four year program of study leading to the Doctor of Pharmacy Degree. Students complete a total of 146 hours.

In order to keep abreast with changes in pharmaceutical education, the following curriculum is subject to change or modification as required by the accrediting agency. Students should be aware that changes must be expected and they will be included in their academic program. The School of Pharmacy does not plan to change graduation requirements inadvertently, but does reserve the right to change any provisions or requirement deemed necessary at any time within the student's term of residence.

**Required Curriculum**

**ZOO4125 - Integrative Physiology**

Credits: 5
Examines how functional organ systems are coordinated and integrated by the CNS and endocrine systems to establish and maintain health. Includes lecture, flipped component and tutorial session. Students must register for lecture and tutorial.

Former Course Number [3120]

**Prerequisite:** grade of C or higher in ZOO 3115; and/or a Pharmacy 1 standing.

**PHCY6100 - Dose Form Design**

Credits: 4
Extensively introduces various types of dosage forms, discusses advantages and disadvantages of each. Pharmaceutical calculations are a major component of the course, as well as physicochemical principles involved in dose form stability.
Prerequisite: CHEM 2420 and CHEM 2440.

PHCY6106 - Pharmaceutical Calculations

Credits: 2
Application of basic mathematics and quantitative reasoning to pharmaceutical calculations, emphasizing calculations of doses, dosage requirements, compounding of formulations and parenterals.

Former Course Number [6105]

Prerequisite: MATH 1000 or MATH 1400.

PHCY6110 - Medicinal and Natural Products Chemistry I

Credits: 3
Three-semester series that studies the physicochemical, biochemical and pharmacological properties of substances of natural and synthetic origin that are used as medicinal agents.

Prerequisite: CHEM 2440 and MOLB 3610.

PHCY6140 - Introduction to Social Administrative Pharmacy

Credits: 2
Provides an introduction to socio-cultural, behavioral and administrative principles of pharmacy with a focus on pharmacist roles and their historical evolution, health disparities, health behavior theory and practice philosophy, and a survey of the U. S. health care system.

Prerequisite: Enrollment in the professional program or consent of instructor.

PHCY6160 - Pharmacist Skills I

Credits: 1
Preparation and evaluation of dosage forms is main thrust of course. Laboratory emphasizes manipulative and mathematical skills, prescription formats, packaging and storage as they apply to pharmaceuticals.

Former Course Number [6101]

Prerequisite: concurrent enrollment in PHCY 6100; MATH 2100.

PHCY6102 - Biopharmaceutics and Pharmacokinetics

Credits: 4
Discusses biopharmaceutic and pharmacokinetic aspects of dosage form design. Basic pharmacokinetics and
biopharmaceutics are interrelated to clinical applications. Also covers classical kinetics and dissolution.

USP 2015 Code U5C3
Prerequisite: MATH 2200 and PHCY 6100.

**PHCY6111 - Medicinal and Natural Products Chemistry II**

Credits: 3
Continuation of Medicinal and Natural Products Chemistry I.

Former Course Number [6210]

Prerequisite: Ph1 status in PharmD program or consent of instructor.

**PHCY6120 - Advanced Pathophysiology**

Credits: 3
Advanced course covering the molecular, cellular, genetic and clinical principles of tissue dysfunction and disease, incorporating clinical lab values and human case studies. This course is primarily designed for Doctor of Pharmacy students who will transition into their clinical rotations. Students will jointly meet once per week with students within PHCY 3450 for interprofessional education revolving around student-led case study presentations.

Former Course Number [6220]

Prerequisite: LIFE 1010, LIFE 1020, CHEM 1020, CHEM 1030, CHEM 2420, CHEM 2440, MOLB 2240, MOLB 3610, ZOO 3115, ZOO 4125.

**PHCY6151 - Pharmacy Practice**

Credits: 2
Provides didactic content that enables students to accurately prepare and dispense prescription medications.

Former Course Number [6354]

Prerequisite: enrollment in the doctor of pharmacy professional program.

**PHCY6152 - Therapeutics I**

Credits: 3
Emphasizes the role of the pharmacist in pharmaceutical self care, appropriate triage and referral involving prescription, non-prescription pharmaceuticals, complimentary, alternative therapies and devices in community dwelling patients with both acute and chronic self-care conditions.

Former Course Number [6352]
**Prerequisite:** enrollment in the doctor of pharmacy professional program.

**PHCY6161 - Pharmacist Skills II**

Credits: 1  
Provides laboratory and other related experiences that enable students to accurately prepare and dispense prescription medications.

**Prerequisite:** P1 status in PharmD program or consent of instructor.

**PHCY6170 - Introductory Pharmacy Practice Experience-IPPE1**

Credits: 1  
Provides an early curricular exposure to the roles and functions of pharmacists in their work environment through a shadow experience.

**Prerequisite:** satisfactory completion of PHCY 6185.

**PHCY6480 - Introduction to Community Pharmacy Practice**

Credits: 4  
Four-week rotation in community pharmacy practice completed under the guidance of a licensed pharmacist. Patient care activities will include, but not be limited to, basic patient and drug therapy assessment, performing medication histories and prospective drug utilization reviews, basic patient counseling and active participation in the medication distribution process.

**Prerequisite:** grade of C or higher in PHCY 6352 and 6354 and satisfactory completion of all courses within the P1 curriculum (i.e. P2 standing).

**PHCY6482 - Introduction to Hospital Pharmacy Practice**

Credits: 4  
Four-week rotation in hospital pharmacy practice completed under the guidance of a licensed pharmacist. Patient-care activities will include basic drug therapy and patient assessment, prospective drug utilization reviews, participating in the hospital's medication distribution process, performing calculations, compounding preparations and understanding pharmacy's role within the health-system through interdisciplinary interactions.

**Prerequisite:** grade of C or higher in PHCY 6352 and 6354 and satisfactory completion of all courses within the P1 curriculum (i.e. P2 standing).

**PHCY6215 - Medicinal and Natural Products Chemistry III**

Credits: 3  
Continuation of Medicinal and Natural Products Chemistry II.
Former Course Number [6211]

**Prerequisite:** PHCY 6111.

**PHCY6230 - Pharmacology I**

Credits: 4  
First semester of a one-year series. Studies action of chemical agents on living systems to include pharmacodynamics, toxicology, and clinical therapeutics. Concepts are emphasized through case presentations and discussion.

**Prerequisite:** PHCY 4450.

- PHCY 6230 - Pharmacology I Discussion Credits: 0

**PHCY6240 - Research and Evaluation Methods in Pharmacy**

Credits: 3  
The course focuses on research design and statistical analyses, as well as pharmacoeconomic, pharmacoepidemiology and public health concepts and methods for evidence-based practice applications and health care policy development.

**Prerequisite:** MATH 2200 and PharmD program P2 status.

**PHCY6245 - Patient/Professional Interactions**

Credits: 3  
Focuses on psychosocial and communication concepts pertaining to human interactions, with application to professional practice environments and clinical counseling situations.

USP 2015 Code U5C3  
**Prerequisite:** enrollment in the doctor of pharmacy professional program.

**PHCY6260 - Pharmacist Skills III**

Credits: 1  
This course is the third in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in the different subdisciplines represented in the SOP curriculum.

**Prerequisite:** P2 status in PharmD program or consent of instructor.

**PHCY6231 - Pharmacology II**

Credits: 4  
Second semester of a one-year series. Continuation of PHCY 6230. Lecture with separately scheduled discussion section.
Prerequisite: PHCY 6230.

- PHCY 6231 - Pharmacology II Discussion Credits: 0

**PHCY6246 - Pharmacy Management, Marketing and Finance**

Credits: 3
Examines management functions and leadership in various types of contemporary pharmacy practice including pharmacy services, drug distribution, technology, human resources, marketing, finance and accounting.

Prerequisite: P2 status.

**PHCY6251 - Therapeutics II**

Credits: 3
Introduces pharmaco-therapeutic principles employed in the patient care process for managing select disease states and specific patient populations. The course emphasizes the role of evidence-based medicine in developing pharmaceutical care plans (e.g. recommending therapy, evaluating and monitoring the efficacy and safety of medications).

Prerequisite: PHCY 6120, PHCY 6230.

**PHCY6261 - Pharmacist Skills IV**

Credits: 2
This course is the fourth in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in different subdisciplines represented in the SOP curriculum.

Prerequisite: P2 status in PharmD program or consent of instructor.

**PHCY6270 - Intermediate Pharmacy Practice Experience-IPPE2**

Credits: 1
An advanced exposure to the practice of pharmacy in health care environments.

USP 2015 Code U5C3
Prerequisite: satisfactory completion of PHCY 6170.

**PHCY6312 - Clinical Toxicology**

Credits: 3
Focuses on biological and pharmacological effects of environmental, chemicals, OTC and prescription drug poisoning cases. Emphasis will be placed on the use of historical, laboratory and clinical data to diagnose and develop clinical management approaches for both acute and chronic poisoning cases.

Prerequisite: PHCY 6230, MOLB 3610.
**PHCY6341 - Pharmacy Practice Law**

Credits: 3  
Coverage of state, federal and local laws and regulations which relate directly to the practice of pharmacy. The Wyoming Pharmacy Act serves as a model for analogous laws in other states. Case law at the federal and state levels affecting pharmacy practice is analyzed and discussed.

**Prerequisite:** PH3 or consent of instructor.

**PHCY6344 - Pharmacy Ethics**

Credits: 1  
Focuses on ethical issues confronting pharmacists in practice, pharmacy as a profession, the health care delivery system and society.

**Former Course Number** [6280, 6385]

**Prerequisite:** enrollment in the doctor of pharmacy professional program.

**PHCY6350 - Therapeutics III**

Credits: 4  
Provides an overview of the treatment of selected disease states. Students will develop skills in providing patient-centered care as a medication expert, interpreting evidence, and formulating, monitoring, and adjusting care plans. Course will build upon skills learned in PHCY 6251.

**Prerequisite:** grade of C or higher in PHCY 6251.

**PHCY6357 - Clinical Pharmacokinetics**

Credits: 2  
Course will provide the student with an overview of the clinical application of pharmacokinetic concepts as used in providing quality patient care. Principles of pharmacokinetics may be applied to the therapeutic use of all medications, including those inherently discussed during this course.

**Prerequisite:** PHCY 6102.

**PHCY6360 - Pharmacist Skills V**

Credits: 1  
This course is the fifth in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in different subdisciplines represented in the SOP curriculum.

**Prerequisite:** P3 status in PharmD program or consent of instructor.
**PHCY6300 - Sterile Products**

Credits: 2
An introduction to the preparation and clinical application of sterile dosage forms in accordance with USP 797 and other related standards. Emphasizes basic principles related to preparation, dispensing and administration of parenteral medications in health care settings.

**Former Course Number** [6103]

**Prerequisite:** PHCY 6100, PHCY 6160, PHCY 6106, and concurrent enrollment in PHCY 6301.

**PHCY6301 - Sterile Products Laboratory**

Credits: 1
A hands-on training in techniques used to prepare, dispense and administer parenteral admixtures, parenteral nutrition, chemotherapy and ophthalmics forms in accordance with USP 797 and other related standards.

**Former Course Number** [6104]

**Prerequisite:** PHCY 6100, PHCY 6160, PHCY 6106 and concurrent enrollment in PHCY 6300.

**PHCY6340 - Health Care Policy and Advocacy**

Credits: 2
Prepares the future pharmacist leader to analyze and engage in professional advocacy and the healthcare policy process at the local, state and national level. Content will include details of the U. S. healthcare system, health policy, the policy-making process, key stakeholders' roles, sociocultural influences and current issues.

**Prerequisite:** P3 status in PharmD program or consent of instructor.

**PHCY6351 - Therapeutics IV**

Credits: 4
Provides the student with an overview of the treatment of complex disease states. Students will build on their patient-centered skills from PHCY 6350 by interpreting evidence, prioritizing patient needs, and formulating and monitoring evidence-based care plans. These skills will be essential as students begin advanced pharmacy practice experiences.

**Prerequisite:** grade of C or higher in PHCY 6350.

**PHCY6353 - Drug Literature Application**

Credits: 2
This course is designed to provide students with the fundamental knowledge and skills to practice evidence-based pharmacotherapy. Topics include: evaluation of drug information requests, informatics, understanding drug information resources, development and execution of search strategies, primary literature and research design analysis, and writing
and presentation skills.

**Prerequisite:** P3 status in PharmD program or consent of instructor.

**PHCY6361 - Pharmacist Skills VI**

Credits: 2  
This course is the sixth and final course in a series that will allow students to practice what they learn during didactic class time with an integrated approach that meaningfully pulls in different subdisciplines represented in the SOP curriculum.

**Prerequisite:** P3 status in PharmD program or consent of instructor.

**PHCY6370 - Advanced Pharmacy Practice Experience-IPPE3**

Credits: 2  
Designed to prepare the student for 4th year advanced pharmacy practice experience (APPE) activities by discussion of logistics, professionalism, regulatory issues, portfolio requirements and assessment tools. In addition, students will continue building their clinical skills through a patient care practice experience.

USP 2015 Code U5C3  
**Prerequisite:** P3 status in PharmD program or consent of instructor.

**PHCY6485 - Reflective Learning in Pharmacy**

Credits: 1  
Max Credit (Max. 4)  
Designed to help prepare P4 pharmacy students to be knowledgeable and well-rounded practitioners. Provides an opportunity to reflect on rotation experiences, give professional level presentations, and exposure to content not covered elsewhere in curriculum. Course includes guest speakers, Pharm. D. seminars, assessment activities, job/residency fairs, P4 portfolio, and reflective writing.

USP 2003-2014 Code [COM3]  
**Prerequisite:** grade of C or higher in PHCY 6351 and PHCY 6357.  
Students complete 3 sections of PHCY 6485, 1 credit each.

**PHCY6470 - Internal Medicine I**

Credits: 4  
An advanced practice experience to develop skills as a medication expert within an inpatient internal medicine or family medicine experiential setting. Students will coordinate, collaborate, and communicate among themselves, their preceptor, and other members of the interprofessional healthcare team to provide patient-centered care.

USP 2003-2014 Code [COM3]  
**Prerequisite:** grade of C or higher in PHCY 6351 and PHCY 6357.
**PHCY6473 - Ambulatory Pharmaceutical Care**

Credits: 4
An experiential course focusing on the pharmacist as the drug expert in a multidisciplinary health care team. Students will provide direct patient care to patients in an outpatient setting.

USP 2015 Code U5C3
**Prerequisite:** grade of C or higher in PHCY 6351 and PHCY 6357.
(Students complete a second semester of either Internal Medicine or Ambulatory Care)

**PHCY6471 - Internal Medicine II**

Credits: 4
Course is a continuation of PHCY 6470 in which students take on increasing responsibility and/or more complex patient cases to develop skills as a medication expert in the acute care setting. Students will continue providing patient-centered care by collaborating with their preceptor and other members of the interprofessional healthcare team.

USP 2015 Code U5C3
**Prerequisite:** PHCY 6470.

**PHCY6474 - Ambulatory Pharmacy Care II**

Credits: 4
Course is a continuation of PHCY 6473 in which students will take on increasing responsibilities, develop an expanded understanding for systems management, and further advance their clinical skills as medication experts in the outpatient setting.

USP 2003-2014 Code [COM3]
**Prerequisite:** PHCY 6473.

**PHCY6481 - Advanced Community Pharmacy**

Credits: 4
An advanced practice experience in community pharmacy designed to build upon introductory experiences and promote active participation in caring for patients in this practice setting. Students will spend 25-30 of their time in non-dispensing activities (e.g. screenings, in-depth counseling, MTM, immunizations, self-care treatment, community presentations, etc.).

**Prerequisite:** grade of C or higher in PHCY 6351 and PHCY 6357.

**PHCY6483 - Advanced Institutional Pharmacy**

Credits: 4
An advanced practice experience in institutional/hospital pharmacy designed to build upon introductory experiences and promote active participation within the health-system through interdisciplinary interactions, projects, presentations, and patient care activities. Students will devote at least 50 of their time to nondispensing activities (e.g. monitoring meds, consults, discharge counseling, medication reconciliation, inservices).
**Prerequisite:** grade of C or higher in PHCY 6351 and PHCY 6357.

**PHCY6465 - Elective Rotation In:**

Credits: 4
Max Credit (Max. 16)

Elective advanced pharmacy practice experience that is available in a variety of practice environments (e.g. direct patient care settings, management, research, and other pharmacy-related locations). Rotation requires active participation and application of knowledge, skills, values, and attitudes.

**Prerequisite:** grade of C or higher in PHCY 6351 and PHCY 6357.

Students complete 4 sections of PHCY 6465, 4 credits each.
- Students complete 7 hours of electives during the P1-P3 year.

**Total Hours 146**

**Fourth Year [PH4]:**

Consists of nine experiential rotations of four credit hours each and three reflective learning weeks. Rotations are considered full-time. Students may not enroll in any other coursework concurrent with rotations. Consequently, all other coursework (107 credits) must be satisfactorily completed before enrollment in P4 coursework. Note: Students will be required to live in locations other than Laramie when enrolled in experiential rotations. Responsibility for living cost and travel arrangements associated with experiential rotations rests with the student. Students participating in all experimental activities will be required to have a vehicle or an acceptable approved alternative.

Students must complete the following Core or Required Experiential Rotations (subject to change):

**PHCY6470 - Internal Medicine I**

Credits: 4

An advanced practice experience to develop skills as a medication expert within an inpatient internal medicine or family medicine experiential setting. Students will coordinate, collaborate, and communicate among themselves, their preceptor, and other members of the interprofessional healthcare team to provide patient-centered care.

USP 2003-2014 Code [COM3]
**Prerequisite:** grade of C or higher in PHCY 6351 and PHCY 6357.

**PHCY6473 - Ambulatory Pharmaceutical Care**

Credits: 4

An experiential course focusing on the pharmacist as the drug expert in a multidisciplinary health care team. Students will provide direct patient care to patients in an outpatient setting.

USP 2015 Code U5C3
**Prerequisite:** grade of C or higher in PHCY 6351 and PHCY 6357.
PHCY6471 - Internal Medicine II

Credits: 4
Course is a continuation of PHCY 6470 in which students take on increasing responsibility and/or more complex patient cases to develop skills as a medication expert in the acute care setting. Students will continue providing patient-centered care by collaborating with their preceptor and other members of the interprofessional healthcare team.

USP 2015 Code U5C3
Prerequisite: PHCY 6470.

or

PHCY6474 - Ambulatory Pharmacy Care II

Credits: 4
Course is a continuation of PHCY 6473 in which students will take on increasing responsibilities, develop an expanded understanding for systems management, and further advance their clinical skills as medication experts in the outpatient setting.

USP 2003-2014 Code [COM3]
Prerequisite: PHCY 6473.

PHCY6481 - Advanced Community Pharmacy

Credits: 4
An advanced practice experience in community pharmacy designed to build upon introductory experiences and promote active participation in caring for patients in this practice setting. Students will spend 25-30 of their time in non-dispensing activities (e.g. screenings, in-depth counseling, MTM, immunizations, self-care treatment, community presentations, etc.).

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

PHCY6483 - Advanced Institutional Pharmacy

Credits: 4
An advanced practice experience in institutional/hospital pharmacy designed to build upon introductory experiences and promote active participation within the health-system through interdisciplinary interactions, projects, presentations, and patient care activities. Students will devote at least 50 of their time to nondispensing activities (e.g. monitoring meds, consults, discharge counseling, medication reconciliation, inservices).

Prerequisite: grade of C or higher in PHCY 6351 and PHCY 6357.

• Plus 4 Elective Rotations (PHCY 6465)

Preprofessional Program

Preprofessional Pharmacy Program (PPCY)
Students will not receive a degree in prepharmacy. The prepharmacy curriculum guides students as they fulfill requirements for admission to the professional pharmacy degree program.

Required Curriculum

**CHEM1020 - General Chemistry I**

Credits: 4  
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.  
USP 2003-2014 Code U3S  
USP 2015 Code U5PN  
**Prerequisite:** ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

**CHEM1030 - General Chemistry II**

Credits: 4  
Second semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1030 and CHEM 1060.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.  
USP 2003-2014 Code U3SP  
USP 2015 Code U5PN  
**Prerequisite:** CHEM 1020.

**LIFE1010 - General Biology**

Credits: 4  
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB  
USP 2015 Code U5PN  
**Former Course Number** [BIOL 1010]

**Prerequisite:** Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

**LIFE2022 - Animal Biology**
An integrative course addressing the evolution, anatomy, physiology, and ecology of animals. Continues building upon the four themes in LIFE 1010, cell and molecular biology, genetics, evolution, and ecology. Preserved animal specimens are dissected during some labs. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered spring semester)
Former Course Number [BIOL 2022]

Prerequisite: LIFE 1010 with a grade of C or better.

MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

CHEM2420 - Organic Chemistry I

Credits: 4
First semester of a one-year sequence in organic chemistry. Approached from the viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

Lab/Lecture Hours 3 hours per week. No credit allowed in CHEM 2420 if credit earned in CHEM 2300.
When Offered (Normally offered fall)
Prerequisite: CHEM 1030 or CHEM 1060.

CHEM2440 - Organic Chemistry II
Credits: 4
Second semester of a one-year sequence in organic chemistry. Approached from viewpoint of modern chemical theory, emphasizing structural and mechanistic concepts. The course incorporates a laboratory integrated with the lecture. Students desiring a one-semester terminal course should take CHEM 2300.

**Lab/Lecture Hours** 3 hours per week.
**When Offered** ( Normally offered spring semester)
A&S College Core 2015 Note: CHEM 2300 is not an acceptable prerequisite for CHEM 2440.
**Prerequisite:** CHEM 1030 or CHEM 1060 and CHEM 2420.

**KIN2040 - Human Anatomy**
Credits: 3
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

USP 2003-2014 Code U3SB
**Former Course Number** [PEPR 2040]

**Prerequisite:** LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

**KIN2041 - Human Anatomy Laboratory**
Credits: 1
A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB
**Former Course Number** [PEPR 2041]

**Prerequisite:** KIN 2040 or concurrent enrollment in KIN 2040.

**MOLB2021 - General Microbiology**
Credits: 4
Introduces nature and diversity of microorganisms and their implication for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents, and model systems for understanding of fundamental biological processes at the molecular level.

**Cross Listed** MICR 2021 and LIFE 2021
**When Offered** Fall and Spring
**Former Course Number** [2210]

**Prerequisite:** Minimum grade of C in LIFE 1010 and CHEM 1000 or CHEM 1020.
MOLB3610 - Principles of Biochemistry

Credits: 4
One-semester biochemistry course for life-, health- and physical-science students. Introduces a full range of biochemical concepts including discussion of major macromolecules, metabolism and molecular biology.

Prerequisite: LIFE 1010 and a minimum grade of C in CHEM 2300 or CHEM 2420.

ZOO3115 - Human Systems Physiology

Credits: 4
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

Prerequisite: At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.
  - General Electives (6 credits total)

USP Requirement

The USP-COM 3 requirement is fulfilled in the professional doctoral program.

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3  

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3  

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3  
Max Credit 3  

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3  

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3  

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Division of Social Work**

**Health Sciences Building, (307) 766-6112**  
FAX: (307) 766-6839  
**Web site:** www.uwyo.edu/socialwork  
**Director:** Eleanor Pepi Downey, M.S.W., Ph.D

**Associate Professors:**
ELEANOR PEPI DOWNEY, B.A. Queens College (NC) 1966; M.S.W. Rutgers University 1971; Ph.D. University of Denver 1998; Associate Professor of Social Work 2019.

DIANE A. KEMPSON, B.A. Columbia College 1968; M.S.W. Florida State University 1970; Ph.D. University of South Carolina 1998; Associate Professor of Social Work 2010.

NEELY MAHAPATRA, B.Sc. Utkal University, India 1991; M.Sc. 1993; M.S.S.W. University of Texas-Austin 2003; Ph.D. 2008; Associate Professor of Social Work 2016.

VALERIE THOMPSON-EBANKS, B.Sc. University of the West Indies 2002; M.S.W. 2007; Ph.D. Colorado State University 2012; Associate Professor of Social Work 2018.

Assistant Professors:

SANDY LEOTTI, B.A. Prescott College 2002; M.S.W. University of Montana 2006; Ph.D. Portland State University 2019; Assistant Professor of Social Work 2019.

SU KYUNG YOON, B.A. Chung-Ang University 2002; M.S.W. Yonsei University 2008; Ph.D. University of Tennessee 2019; Assistant Professor of Social Work 2019.

Assistant Lecturers:

BILLIE CHAPMAN, B.A. University of Wyoming 2005; M.S.W. 2008; Assistant Lecturer of Social Work 2018.

KYM CODALLOS, B.A. California State University, Sacramento 1999; M.S.W. California State University, Stanislaus 2006; M.A. 2011; Assistant Lecturer of Social Work 2018.

SARAH S. GREEN, B.A. University of Wyoming, 2015; M.S.W. 2019; Assistant Lecturer 2021.

Social workers are uniquely qualified to help people in their own environments by looking at different aspects of their lives and cultures. We work to ensure the client's personal well-being, prevent crises, counsel individuals, support families, and strengthen communities. We make sure people get the help they need, with the best resources available.

For more than 100 years, social workers have cared for people in every stage of life. Social workers help others overcome life's most difficult challenges and manage the troubles of everyday living, including the troubles that exist due to poverty, stress, addiction, abuse, unemployment, mental illness, family change, and social violence. Social workers advocate for social justice.

Undergraduate Study

The Division of Social Work prepares students for entry-level generalist social work practice. Two locations offer the social work program: the Laramie campus and the University of Wyoming-Casper campus. Graduates receive a Bachelor of Social Work (BSW) and are prepared to work as generalist social work practitioners with individuals, groups, families, organizations, communities, and institutions to achieve more effective and efficient social functioning.

Our program is accredited by the Council on Social Work Education. The curriculum is designed to help students acquire important knowledge and skills in the areas of values and ethics, diversity, social and economic justice, human behavior and the social environment, social welfare policy and services, social work practice, and research. A competency-based curriculum prepares students to meet an "initial level" of competence in nine core areas (CSWE,
Students also select elective courses in areas such as aging, child and adolescent services, health and mental health, and disability services. The program culminates in a 450-hour supervised field practicum, which allows students to work as social workers in one of Wyoming's many human service agencies.

### Social Work Major

Social work is a professional degree program. Prior to admission to the professional degree program, students who are working to complete program prerequisites and most University Studies courses are "Social Work-Pre-Admit" majors. Students must be accepted into the BSW program as an admitted "Social Work" major in order to proceed in the program and enroll in professional degree courses beginning in the fall semester (usually of the junior year). Application for Admitted Major status are due in the middle of the Spring semester or in the middle of the Fall semester. Students should apply during the semester they are completing all social work prerequisite courses.

Acceptance to Admitted Major (professional degree program) is competitive and requires an application. Please see application requirements on the Division of Social Work website. Students accepted into the professional degree program are expected to complete their degree in a timely manner. Students who have not completed social work classes for one year or more must reapply for Admitted Major and submit a plan for readiness to continue in the social work degree program. A plan may include, but is not limited to, repeating or auditing a course taken at an earlier point in the student's academic experience, completing an independent study that may provide updated social work content for the student, demonstrating knowledge or practice skills. Readmission is not guaranteed.

#### Criteria for Admission as an Admitted Major

The admissions process is competitive. Students must meet the following minimum criteria to be considered for Admitted Major status.

1. Students must earn a minimum grade point average (GPA) of 2.500 on all UW course work as well as all course work transferred into the University of Wyoming from other academic institutions.

2. Complete the following prerequisites: a. SOC 1000 b. PSYC 1000 c. POLS 1000 d. SOWK 2000 e. Human Biology (KIN/ZOO 2040 or PSYC 2080) f. STAT 2070 g. ECON 1010

3. Students must earn a grade of C or higher in all SOWK prerequisite classes.

4. Students must adhere to the UW Student Code of Conduct and the NASW Code of Ethics.

5. Students cannot exhibit behavior that will impinge on the student's present or future ability to fulfill professional responsibilities as a social work professional.

6. All students seeking admission to programs in the College of Health Sciences are required to undergo a background check as specified by college policy. Criminal convictions may result in rejection of the candidate for admission to Admitted Major.

7. Students must submit an application and an application fee. (See UW Fee Book)

8. Applicants to the social work program cannot receive credit for life experience.

#### Requirements for Admitted Majors

Once admitted, social work students must:

1. Achieve a C or better in all social work courses, including six hours of required social work electives.
2. Social work classes are offered and must be completed in sequential order.

3. Maintain a 2.500 or above GPA overall every semester after admittance to Admitted Major.

4. Maintain a 2.500 or above GPA overall in all social work course work every semester after admittance to Admitted Major.

5. Registration is restricted and students must meet with their advisor each semester for enrollment.

6. Complete SOWK 4990 with a satisfactory grade.

7. Students must adhere to the UW Student Code of Conduct and the NASW Code of Ethics.

Individuals failing to meet any of the above requirements will be reviewed by faculty and one of the following actions may be taken: remediation, probation, sanction, and/or dismissal from the program. Because many social work courses have prerequisite requirements, receiving a grade lower than a C in a social work course may prevent the individual from moving forward in the social work program.

BSW Field Practicum

All students complete a 450-hour (10 credit hours) field practicum experience in a community-based social agency or social program. Field practicum sites exist throughout the state of Wyoming and students may be placed outside Laramie. Students apply for this program the semester before their actual placement. Students must complete a Field Placement Application and meet with the Field Coordinator prior to determining a practicum site (please review Field Practicum Manual). Background checks and drug screenings may be required by some agencies even though the College of Health Sciences has received a background check during admission to the major.

For the practicum, a grade of U is interpreted as performing below expectations and will not be considered satisfactory completion of the practicum, hence of the BSW program. Based on input from the student, the field instructor, and the faculty liaison during the field evaluation, the field coordinator will determine what remediation would be required. The plan will clarify course objectives and professional skills upon which the student needs to improve. A student wishing to continue in the program would need to reapply for a field placement. Upon the field committee's approval of the request for placement, the student may then repeat the practicum experience. Consistent with University policy, the most recent grade would be the grade calculated into the GPA. The grade of U is interpreted as not meeting minimal requirements of the course; failure to complete the minimum clock hours in the field placement; failure to complete written assignments in a satisfactory manner; violation of one or more of the tenets of the NASW Code of Ethics (see Appendix B and Termination of Practicum section in the practicum manual); and/or failure to withdraw formally or to terminate the course. A student receiving a U in the practicum will be automatically dismissed from the BSW program with no opportunity to reapply or re-enter. Grades and dismissals may be appealed. (See most current BSW Student Handbook for appeal procedures.)

Requirements for Graduation

The program requires 120 credit hours to graduate. Students must have completed all social work requirements, 42 upper-division hours, maintain a 2.500 GPA overall, a 2.500 GPA in social work coursework, and have achieved a grade of C or better in all social work courses. Courses must be taken for a letter grade unless offered for S/U only. USP H and PN courses must be taken outside the major subject but can be cross listed with the major.

BSW Curriculum

Social Work B.S.W. degree plan
Graduate Study

The Master of Social Work (MSW) prepares professional social workers for advanced level social work practice and leadership positions in frontier and rural human service environments. The Advanced Generalist MSW program is accredited by the Council on Social Work Education. The MSW program graduates advanced integrated practitioners who work within and negotiate complex multi-dimensional problem settings for both clients and practitioners while embracing the profession's values of service, social justice, dignity and worth of the person, importance of human relationships, integrity, competence, human rights, and scientific inquiry. The MSW is a full time, campus-based hybrid program that utilizes different course delivery methods to accommodate its widespread student population.

Wyoming School Social Work Certification

The Division offers the necessary requirements to obtain Wyoming School Social Work certification. Students in the last year of the MSW Program need to successfully complete SOWK 5810 Working with Children and Families in the Schools and complete their field placement within an approved school setting. Upon graduation, students must apply to the Wyoming Department of Education to obtain formal certification. For the most current certification information go to the PTSB website http://wyomingptsb.com/

Graduate Admissions Requirements

The Division of Social Work's Graduate Admissions Committee bases recommendations on review of all application materials (applicant's grades, personal statement, academic essay, professional references, and any related social service experience) as they reflect the applicant's commitment to social work, social and economic justice, values and ethics of the social work profession, and applicant's potential as a graduate student, social work practitioner, colleague and leader in the social work field. The Committee also looks for the intangible qualities that an applicant brings to the classroom and campus environment and to professional social work.

Once the committee recommends admission of an applicant, the Office of Admissions in Academic Affairs makes the final decision of admission.

Requirements for the Standard MSW Program

• A baccalaureate degree from an accredited college or university that reflects a broad liberal arts preparation. This consists of having completed at least 21 credit hours in social and behavioral sciences and 6 credit hours each in natural sciences, humanities, visual and performing arts, and quantitative reasoning;

• A human biology course (beyond introductory biology), receiving a grade of C or better;

• A statistics course, receiving a grade of C or better;

• An undergraduate cumulative grade point average (GPA) of 3.000 or above on a 4-point scale.

Requirements for the Advanced Standing MSW Program

• A bachelor's degree in Social Work from a Council on Social Work Education accredited social work program;

• An undergraduate social work GPA of 3.250 or above;

• An overall undergraduate GPA of 3.000 or above;
• Received a B or better and/or a Satisfactory grade in BSW Field Education Practicum.

*International students have special requirements for admission to UW. All are encouraged to contact the International Students and Scholars Office for details before applying.

All Applicants

All applicants will be evaluated on:

a. Intellectual and personal qualities essential to successful practice of social work, such as sensitivity and responsiveness in relationships, concern for the needs of others, adaptability, good judgment, creativity and integrity;

b. Commitment to social justice and equality;

c. Written and verbal communication skills;

d. Professional references; and

e. Compatibility of career goals with the MSW program's advanced generalist perspective.

All applicants meeting minimum criteria will be considered for admission. Admitted applicants will be required to complete a criminal background check through College of Health Sciences.

Program Specific Degree Requirements

All incoming students enter the MSW program in the summer semester of their first year, completing introductory and/or bridge courses as needed for their specific program phase. The MSW program is divided into two levels: generalist and advanced generalist. The generalist year of the MSW program prepares students without a BSW degree for the advanced generalist curriculum in the second year. Students who have already obtained the BSW degree may apply for Advanced Generalist in the MSW program. These students complete only the second-year courses.

Master of Social Work Field Practicum

All students, regardless of status, participate in a field practicum experience, starting in their first fall semester. New students submit an initial application for placement upon acceptance into the program.

Foundation students will complete 900 hours in practicum over the course of their two years of study, 400 and 500 hours respectively. Advanced Standing students will complete 500 hours in their one year of study. All students in practicum will take a corresponding field seminar class each semester.

Grading is done as Satisfactory/Unsatisfactory. Receiving a grade of U is considered a failing grade and can result in termination from the practicum. If the practicum is terminated, the student may be offered a remediation plan to retake the required hours. This opportunity is only offered one time. The student may also be referred to the DOSW faculty for review according to the Student Academic and Professional Performance policy.

Specific information and procedures relating to all aspects of the field practicum experience can be found in the Field Practicum Manual located on the Division of Social Work's website.

Master of Social Work requirements

• Students complete all SOWK required courses.
• Students complete either the SOWK 5755 Capstone course or the optional SOWK 5960 - Thesis Research.

For students who complete the Capstone course:

• Complete SOWK 5755. The SOWK 5755 portfolio project requires a minimum of 2 credit hours, usually taken as 1 credit in the fall semester and 1 credit in the spring of the advanced year.
• A final written paper with oral defense is required.
• Thesis is NOT required.

For students who choose the optional thesis:

• Complete SOWK 5960 - Thesis Research. SOWK 5960 requires a minimum of 4 credit hours, usually taken as 2 in the fall semester and 2 in the spring semester.
• Students who choose to produce a thesis are required to carry out original research.
• Thesis proposal defense, thesis implementation, and final defense are required per university regulations for a thesis project.

Major

Social Work, B.S.W.

Want to make a difference in the world? Turn your passion into action. Our BSW program combines classroom and field experience to provide you with knowledge and skills to help improve the quality of life of individual clients and impact communities.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate and are not covered by the Social Work major.

First Year Seminar (3 credits)

Communications I (3 credits)

ENGL 1010 College Composition and Rhetoric

Communications II (3 credits)

Quantitative Reasoning (3 credits)

MATH 1000 Problem Solving

Physical and Natural World (minimum 6 credits)

LIFE 1003 Current Issues in Biology (4 credits) strongly recommended (LIFE 1010 General Biology also acceptable)

Any other USP Physical & Natural World course (3-4 credits)

Prerequisites for Admission
Prerequisites for admission into the BSW program includes a C or higher in the following courses:

**SOC1000 - Sociological Principles**

Credits: 3
Provides a survey of the discipline and foundation for other sociology courses. Explores major areas of interest - ranging from small groups and families to bureaucracies and social movements. Introduces significant concepts and theories, along with tools of social research. Gives attention to contemporary American society, as well as comparative and historical material.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

**PSYC1000 - General Psychology**

Credits: 3
Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

USP 2003-2014 Code U3CS
USP 2015 Code U5H

**POLS1000 - American and Wyoming Government**

Credits: 3
Introduction to the Constitutions and governmental processes of the U. S. and Wyoming.

*When Offered* (Offered each semester)
USP 2003-2014 Code U3V
USP 2015 Code U5V

**SOWK2000 - Introduction to Social Work**

Credits: 3
Introduces social work and social welfare through an overview of the history, philosophy, ethics, values, methods, and fields of practice to generalist social work.

*Former Course Number* [3000]

*Prerequisite:* Sophomore standing or higher and completion of USP-C2 with a grade of C or higher.

**STAT2070 - Introductory Statistics for the Social Sciences**
Credits: 4
Presents central ideas of descriptive statistics and statistical inference, as applied to questions in social sciences. Includes graphs, averages, sampling, estimation, hypothesis-testing and relationships between variables. Introduces associated computer skills. Credit cannot be earned in more than one of STAT 2010, STAT 2050, 2070, STAT 4220, 5000.

Cross Listed SOC 2070.
USP 2003-2014 Code U3Q,U3QB
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

ECON1010 - Principles of Macroeconomics

Credits: 3
An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

Cross Listed AGEC 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H
• Human Biology, Credits: 3. (PSYC 2080: Biological Psychology or KIN 2040: Human Anatomy)*
  *This requires a prerequisite general biology course, usually LIFE 1003: Current Issues in Biology.

Required courses after admission into the Social Work program

NOTE: Once admitted, social work students must achieve a C or better in all social work courses and maintain a 2.500 or above UW and SOWK GPA every semester after admittance to Admitted Major. Please view full requirements and expectations for admitted majors on the Division of Social Work catalog page.

SOWK3530 - Human Behavior and the Social Environment I

Credits: 3
Covers theories and knowledge of human bio-psycho-social-spiritual development and social interactions within a systems framework. Introduces theories of individuals and families and their development. Paradigms of culture, marginalization and oppression are examined.

USP 2003-2014 Code U3CS
Prerequisite: admitted social work major status.

SOWK3630 - Generalist Social Work Practice I, Individual and Families

Credits: 3
Introduces generalist social work practice at all systems' levels, with focus on individuals and families. It covers the nature of social work practice, theoretical perspectives, ethics and values, engagement, assessment, intervention and evaluation processes and skills.

Prerequisite: admitted social work major status.
**SOWK3645 - Ethical Social Work Practice**

Credits: 3
Focuses on the ethical principles that undergird the practice of social work, addresses how to practice ethically, and explores the process of ethical decision-making. Social work practice with various client systems will be considered, as well as practice in varied settings.

**SOWK4060 - Diversity and Difference in Social Work Practice**

Credits: 3
Practice class examines social works' roles and issues related to human diversity. Social work values and ethics and social and economic justice are explored throughout.

USP 2003-2014 Code U3D
**Prerequisite**: admitted social work major status.

**SOWK3540 - Human Behavior and Social Environment II**

Credits: 3
Covers theories and knowledge of human bio-psycho-social-spiritual development and social interactions within a systems framework, with a focus on groups, communities, organizations and institutions.

USP 2003-2014 Code U3CS
**Prerequisite**: SOWK 3530 with a C or better and admitted social work major status.

**SOWK3640 - Generalist Social Work Practice II, Groups**

Credits: 3
Focuses on group work within the generalist social work perspective, covering theoretical perspectives, ethics and values, and problem-solving skills applied to task and treatment groups.

**Prerequisite**: SOWK 3630 and SOWK 3530 with a C or better and admitted major status.

**SOWK3650 - Generalist Social Work Practice III; Communities and Organizations**

Credits: 3
Teaches engagement, assessment, intervention and evaluation with organizations, communities and institutions within the generalist social work perspective.

**Prerequisite**: SOWK 3630 with a C or better; SOWK 3540 pre or concurrent; admitted social work major status.

**SOWK4850 - Human Rights, Social Justice and Social Policy**

Credits: 3
Examines human rights, social welfare policy, and social, political and economic justice, as well as systems that oppress and create injustice, both in the US and internationally. A focus of the course will be the analysis of social welfare policy as it affects social justice issues.
Restricted Include: BSW-SOWK major, Exclude: Freshman & Sophomore class standings

Prerequisite: SOWK 4060 and admitted social work major status

SOWK4560 - Social Work Research

Credits: 3
Max Credit 3

Introduces social work research and practice evaluation. Prepares students to use research in practice.

Restricted Include: SOWK students (= admitted majors), Exclude: Freshman & Sophomore class standing

Prerequisite: Admitted social work major status.

SOWK4990 - Social Work Practicum

Credits: 5-10
Max Credit (Max. 10)

Represents the culmination of preparation for entry level generalist social work practice. Supervised practice in the knowledge, values and skills learned in the classroom.

Prerequisite: SOWK 3640, SOWK 3650 and application to the field program.

SOWK4991 - BSW Field Seminar I

Credits: 2

Develops and supports student integration of classroom and field practicum experiences in a final demonstration of competencies for the beginning practitioner. This course is taken in Fall, concurrent with SOWK 4990, Field Practicum.

Prerequisite: concurrent enrollment in SOWK 4990.

SOWK4570 - Research-Informed Practice

Credits: 3

Learn about and engage in methods of research applicable to their social work practice. Competence in methods such as single system design and program evaluation will be assessed in this course.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3

Prerequisite: SOWK 4560 with a C or better and admitted social work major status.
SOWK4992 - BSW Field Seminar II

Credits: 2
Develops and supports student integration of classroom and field practicum experiences in a final demonstration of competencies for the beginning practitioner.

Prerequisite: taken concurrently with SOWK 4990, Field Practicum.
- Social Work electives Credits: 6 (selected with advisor consultation)

Electives

General Electives (28-29 credits)
Degree must include 120 credits total, at least 42 of which must be upper-division credits. Total number of general elective credit needed may vary per student. Consult with your academic advisor to determine the best electives for your particular interests or needs. It may be worthwhile to add a minor to your degree.

Suggested lower-division electives:
Below are suggested lower-division electives that can be taken before admission into the BSW program. Consult with your academic advisor to determine the best electives for your particular interests or needs. It may be worthwhile to add a minor to your degree.
- SPAN1010 - First Year Spanish I Credits: 4
- SPAN1020 - First Year Spanish II Credits: 4
- RELI1000 - Introduction to Religion Credits: 3
- WIND2100 - Introduction to Disability Studies Credits: 3
- SOC2350 - Race and Ethnic Relations Credits: 3

Suggested upper-division electives:
- FCSC 3110 Personal Finance Credits: 3
- FCSC 4112 Family Decision-Making and Resource Management Credits: 3

Additional Requirements

Social work is a professional degree program. Prior to admission to the professional degree program, students who are working to complete program prerequisites and most University Studies courses are "Social Work-Pre-Admit" majors. Students must be accepted into the BSW program as an admitted "Social Work" major in order to proceed in the program and enroll in professional degree courses beginning in the fall semester (usually of the junior year). Acceptance to Admitted Major (professional degree program) is competitive and requires an application. See the Division of Social Work catalog page for full admission requirements.

The program requires 120 credit hours to graduate. Students must have completed all social work requirements, 42 upper-division hours, maintain a 2.500 GPA overall, a 2.500 GPA in social work coursework, and have achieved a grade of C or better in all social work courses. Courses must be taken for a letter grade unless offered for S/U only.

Graduate

Social Work, M.S.W.
Want to make a difference in the world? Join our MSW program and accelerate into bold thinking and professional leadership via multiple paths in human services. Our MSW’s advocate for change for a better world! Join us.

Admission Requirements for the Standard MSW Program

- A baccalaureate degree from a nationally accredited college or university that reflects a broad liberal arts preparation. This consists of having completed at least 21 credit hours in social and behavioral sciences and 6 credit hours each in natural sciences, humanities, visual and performing arts, and quantitative reasoning;
- A human biology course (beyond introductory biology), receiving a grade of C or better;
- A statistics course, receiving a grade of C or better;
- An undergraduate cumulative grade point average (GPA) of 3.000 or above on a 4-point scale.

Admission Requirements for the Advanced Standing MSW Program

- A bachelor's degree in Social Work from a Council on Social Work Education accredited social work program;
- An undergraduate social work GPA of 3.250 or above;
- An overall undergraduate GPA of 3.000 or above;
- Received a B or better and/or a satisfactory grade in BSW Field Education Practicum.
*International students have special requirements for admission to UW. All are encouraged to contact the International Students and Scholars Office for details before applying.

All Applicants

All applicants will be evaluated on:

a. Intellectual and personal qualities essential to the successful practice of social work, such as sensitivity and responsiveness in relationships, concern for the needs of others, adaptability, good judgment, creativity and integrity;

b. Commitment to social justice and equality;

c. Written and verbal communication skills;

d. Professional references; and

e. Compatibility of career goals with the MSW program's advanced generalist perspective.

All applicants meeting minimum criteria will be considered for admission. Admitted applicants will be required to complete a criminal background check through the College of Health Sciences.

Program Specific Degree Requirements

All incoming students enter the MSW program in the summer semester of their first year, completing introductory and/or bridge courses as needed for their specific program phase. The MSW program is divided into two levels: generalist and advanced generalist. The generalist year of the MSW program prepares students without a BSW degree
for the advanced generalist curriculum in the second year. Students who have already obtained their BSW degree may apply for Advanced Generalist in the MSW program. These students complete only the second-year courses.

**Master of Social Work Field Practicum**

All students, regardless of status, participate in a field practicum experience, starting in their first fall semester. New students submit an initial application upon formal admission to the program.

Foundation students will complete 900 hours in practicum over the course of their two years of study, 400 and 500 hours respectively. Advanced Standing students will complete 500 hours in their one year of study. All students in practicum will take a corresponding field seminar class each semester.

Grading is done as Satisfactory/Unsatisfactory. Receiving a grade of U is considered a failing grade and can result in termination from the practicum. If the practicum is terminated, the student may be offered a remediation plan to retake the required hours. This opportunity is only offered one time. The student may also be referred to the DOSW faculty for review according to the Student Academic and Professional Performance policy.

Specific information and procedures relating to all aspects of the field practicum experience can be found in the Field Practicum Manual located on the Division of Social Work's website.

**Master of Social Work**

- Students complete all SOWK required courses.
- Students complete either the SOWK 5755 Capstone course or the optional SOWK 5960 - Thesis Research.

For students who complete the Capstone course:

- Complete SOWK 5755. The SOWK 5755 portfolio project requires a minimum of 2 credit hours, usually taken as 1 credit in the fall semester and 1 credit in the spring of the advanced year.
- A final written paper with oral defense is required.
- Thesis is NOT required.

For students who choose the optional thesis:

- Complete SOWK 5960 - Thesis Research. SOWK 5960 requires a minimum of 4 credit hours, usually take as 2 in the fall semester and 2 in the spring semester.
- Students who choose to produce a thesis are required to carry out original research.
- Thesis proposal defense, thesis implementation, and final defense are required per university regulations for a thesis project.

**Wyoming Institute for Disabilities (WIND)**

147 Health Sciences Building, (307) 766-2761
FAX: (307) 766-2763
Web site: www.uwyo.edu/wind
Executive Director: Sandra Root-Elledge, M.A.
Senior Lecturer, Executive Director:

Associate Professor, Director Disability Studies:

Associate UCEDD Directors:

ERIC J. MOODY, B.S. Pacific Lutheran University 1998; M.A. University of Denver 2004; Ph.D. 2007; Postdoc University of Colorado School of Medicine 2011; Research Professor, Director of Research and Evaluation 2018.

CANYON HARDESTY, B.S. University of Wyoming 2004; M.S. 2007; M.S. Creighton University 2011; Associate Lecturer 2018, 2013.

Associate Lecturer:

ALISON QUAGGIN HARKIN, B.A. University of Toronto 1981; M.A. Athabasca University 2010; Assistant Lecturer 2014.

Assistant Lecturers:

TERRI WOFFORD, B.S. University of Central Florida 1994; M.S. East Tennessee State University 1998; Assistant Lecturer 2017.

The Wyoming Institute for Disabilities (WIND) is part of a national network of University Centers of Excellence in Developmental Disabilities Education, Research and Service (UCEDD). These centers provide a broad array of interdisciplinary academic, clinical, and research experiences of people with disabilities-particularly developmental disabilities. A wide variety of disciplines contribute to the study of disabilities.

WIND offers a Disability Studies Minor which investigates broad questions about the nature, meanings, and consequences of disability from interrelated social, historical, cultural, and political perspectives. The undergraduate minor in disability studies examines disability issues from multiple lenses, and draws specifically from social sciences, humanities, and health sciences.

Disability studies has an ethical commitment to place the interests and voices of people with disabilities at the center of our curricula and training activities. The minor balances theoretical exploration with practical application, and provides students with a vibrant understanding of disability history, cultural representation, policy concerns, and current debates. Ultimately, students in the minor will work closely with people with disabilities, and gain the skills and perspectives to participate in unique disability research and advocacy.

Minor

Disability Studies Minor
A diverse interdisciplinary field that investigates the nature, meanings, and consequences of dis/ability from social, cultural, and policy perspectives.

Program Goals:

Disability studies views disability as a political construction, cultural identity, and valued lived experience, not simply as a medical condition. The minor curriculum embeds these overarching goals:

1. Promoting full civic integration of people with disabilities;
2. Positioning disability as an integral aspect of human diversity; and
3. Addressing disability rights, equity, and justice in personal, relational, community, and structural contexts.

Requirements:

All students in the minor are required to complete 18 credit hours consisting of three WIND core courses, one WIND elective, and two additional WIND or external electives related to disability studies. External electives should be selected in consultation with a disability studies faculty advisor.

Required Core Courses: 9 Credits

**WIND2100 - Introduction to Disability Studies**

Credits: 3
Provides students with an overview of the disability studies field. Students gain introductory knowledge about the disability studies perspective by examining the work of scholars from many academic backgrounds, which will facilitate students' understanding of the interdisciplinary nature of disability studies.

USP 2003-2014 Code U3CH,U3D
USP 2015 Code U5H
A&S College Core 2015 ASD

**WIND4020 - Disability Studies Theory and Practice**

Credits: 3
Explores the interdisciplinary nature of disability studies theory and scholarship, including investigation of embodied knowledge, cultural meanings, and socio-political practices related to disability. Students will develop in-depth critical disability research papers and deliver accessible, professional presentations.

*Cross Listed* SOWK 4020.
*Dual Listed* WIND 5020.
USP 2003-2014 Code U3CS
USP 2015 Code U5C3
*Prerequisite:* WIND 2100 or WB or COM2.

**WIND4500 - Practicum**

Credits: 3
Provides students practical experience in the field of Disability. Typically taken during a student's final semester in the
Disability Studies Minor.

**Prerequisite:** completion of WIND 2100, and WIND elective, WIND 4020 (or concurrent enrollment).

**WIND Electives: 3-9 Credits**

At least 3 credits, and up to 9 credits, selected from WIND electives:

**WIND2500 - Special Topics**

Credits: 1-3  
Max Credit (Max. 6)

Provides undergraduate students with the opportunity to gain introductory knowledge of critical topics and new areas of inquiry in the field of disability studies.

**WIND2700 - Gender and Disability**

Credits: 3  
Disability studies draws upon critical theory to investigate disability as a discursive construction. Investigates how intersecting conceptions of disability and gender have shaped cultural meanings and the social positioning of specific groups, especially women with disabilities. Topics include non-normative embodiment, issues of representation and subjectivity, and the politics of health, sexuality, and care.

*Cross Listed* GWST 2700.  
USP 2003-2014 Code U3D  
USP 2015 Code U5H  
A&S College Core 2015 ASD

**WIND3150 - Literature and Medicine**

Credits: 3  
This course explores how literature and memoirs have grappled with illness, disease, and disability, paying particular attention to the perspectives of doctors, nurses, patients, families, and communities in shaping meanings of diagnoses, health, and access to care.

**Prerequisite:** Completion of COM1.

**WIND4050 - Independent Study**

Credits: 1-3  
Max Credit (Max. 6)

Offers the advanced student the opportunity to pursue a topic of interest with the direction of an instructor in disability studies.
Dual Listed WIND 5050.
Prerequisite: WB and consent of instructor.

WIND4100 - Global Disability Studies

Credits: 3
The course investigates global approaches to disability, including the UN Convention on the Rights of Persons with Disabilities (CRPD), and crucial disability issues such as education, employment, poverty and social integration. Students will carry out research projects and present on their work.

Prerequisite: COM2

WIND4200 - Diverse Minds

Credits: 3
Through investigations of novels, memoirs, films, and media representations of intellectual disability, autism/neurodiversity, and psychiatric disability, students critically analyze figurations of "unstable," "unruly," or what we will conceptualize as "diverse" minds.

Dual Listed WIND 5200.
Prerequisite: COM2

WIND4600 - Special Topics

Credits: 3
Provides upper division undergraduate students with the opportunity for in-depth examination of critical topics and new areas of inquiry in the field of disability studies.

Prerequisite: WIND 2100, Junior standing and consent of instructor.

External Electives: 0-6 Credits

The following UW courses are accepted as external electives:

SPPA2110 - American Sign Language I

Credits: 4
Basic comprehension and expression of American Sign Language (ASL), the language used by the Deaf community in the United States. ASL vocabulary, grammar, and pragmatics are taught through lecture, conversation, and storytelling. The direct experience method (using ASL with no voice) is utilized to enhance the learning process.

USP 2015 Code U5H
Former Course Number [4100]

SPPA2120 - American Sign Language II
Credits: 4
Second level of ASL comprehension and expression. ASL vocabulary, grammar, and pragmatics, along with increased fluency, are taught through lecture, conversation, and storytelling. Translation from English to ASL is addressed.

USP 2015 Code U5H
Former Course Number [4120]

Prerequisite: SPPA 2110.

EDEX2484 - Introduction to Special Education

Credits: 3
Designed to meet the needs of education majors for a required course in special education. Students will explore the history of, understanding of and services for individuals with low/high incidence disabilities.

Prerequisite: EDST 2450 completed with a C or better and an institutional GPA of 2.50.

SPPA4070 - Deaf Studies

Credits: 3
Studies deaf culture and deaf history in the United States. Culture topics will include deaf community dynamics, humor, behavior, emotional and social interaction, besides issues involving deaf children as a linguistic minority. History will be discussed from the 1700s to the present in the U. S.

USP 2003-2014 Code U3CS,U3D
USP 2015 Code U5H
A&S College Core 2015 ASD
Prerequisite: SPPA 2110.

FCSC4124 - Families of Young Children With Special Needs

Credits: 3
Deals with importance of including family in the process of early intervention with the preschool child with special needs.

Prerequisite: FCSC 2121 or PSYC 2300; junior standing.

PSYC4320 - Intellectual Disability

Credits: 3
Acquaints students will all aspects of intellectual disability including assessment, diagnosis and classification, etiology, and associated health and mental health difficulties. Prevention, educational and psychological intervention, family adaptation, and community involvement are also addressed.

Prerequisite: A grade of C or better in PSYC 1000 and PSYC 2300 or PSYC 4300 or FCSC 2121 or EDST 2450.
• Note: many courses in GWST, AMST, and other units in the School of Culture, Gender, and Social Justice would also be acceptable external electives.

More Information:

As an interdisciplinary minor, this program complements majors across the university. For more information, visit the website: www.uwyo.edu/wind/disabilitystudies/index.html, contact program director; Michelle Jarman at mjarman@uwyo.edu or by phone at 766-5060, or visit the WIND office located in the Health Sciences Building, room 147.

18 Credit Hours Total

Medical Laboratory Science

Aley Hall, UW-Casper, (307) 268-2753

FAX: (307) 268-2416

Web site: www.uwyo.edu/pharmacy/mlsprogram/index.html

Director: Jed M. Doxtater, MS MLS (ASCP)

Assistant Clinical Faculty:

JED M. DOXTATER, B.S. University of Montana 2007; M.S. University of North Dakota 2013; Assistant Clinical Faculty of Medical Laboratory Science 2015.

Assistant Lecturer:

CHARLIE P. CRUZ, B.S. Lorma Colleges 1998; M.A. Don Mariano Marcos Memorial State University 2003; M.S. Lyceum of the Philippines University Batangas 2016; Ph.D. Saint Louis College 2014; Assistant Lecturer of Medical Laboratory Science 2016.

Mission and Goals

The mission of the Bachelor of Science in Medical Laboratory Science program at the University of Wyoming-Casper is to educate, train, and produce highly competent, ethical professionals who are committed to lifelong learning. Curriculum is designed to prepare students to meet current and future workplace challenges and technological advancements in the profession.

Program Goals

1. Provide education in accordance with the National Accrediting Agency for clinical Laboratory Sciences (NAACLS) standards for Medical Laboratory Science programs.

2. Provide students with adequate knowledge and background experience to successfully complete the national certification examination appropriate to their level of training.

3. Provide opportunity for students to develop skills in effective communication sufficient to serve the needs of patients, public, and other healthcare professionals.
4. Graduate well qualified Medical Laboratory Scientists who can function at a career entry level, and are prepared to meet the workforce needs of the state of Wyoming and the nation.

5. Provide students with professional role models so that they may develop and practice professional behaviors, attitudes and ethics necessary to work in, and promote the field of Medical Laboratory Science.

6. Periodically undergo program review to meet the diverse educational needs of students, accreditation standards and industry demands for qualified, skilled entry level practitioners.

7. Establish an advisory board of professionals, community partners and stakeholders for program development, evaluation and improvement.

8. Promote membership and active participation in professional societies.

**Outcomes**

*Description of Entry Level Competencies of the Medical Laboratory Scientist*

At entry level, the medical laboratory scientist will possess the entry level competencies necessary to perform the full range of clinical laboratory tests in areas such as Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunohematology/Transfusion medicine, Microbiology, Urine and Body Fluid Analysis and Laboratory Operations, and other emerging diagnostics, and will play a role in the development and evaluation of test systems and interpretive algorithms.

The medical laboratory scientist will have diverse responsibilities in areas of analysis and clinical decision making, regulatory compliance with applicable regulations, education, and quality assurance/performance improvement wherever laboratory testing is researched, developed or performed.

At entry level, the medical laboratory scientist will have the following basic knowledge and skills in:

- Application of safety and governmental regulations and standards as applied to clinical laboratory science;
- Principles and practices of professional conduct and the significance of continuing professional development;
- Communications sufficient to serve the needs of patients, the public and members of the health care team;
- Principles and practices of administration and supervision as applied to clinical laboratory science;
- Educational methodologies and terminology sufficient to train/educate users and providers of laboratory services;
- Principles and practices of clinical study design, implementation and dissemination of results;
- Theoretical knowledge and technical skills of concepts relating to all content areas required by NAACLS, including Clinical Chemistry, Hematology/Hemostasis, Immunology, Immunohematology, Microbiology, Urine and Body Fluid Analysis, Laboratory Operations and biohazard and safety

**Accreditation**

The Medical Laboratory Science Program at the University of Wyoming is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Accreditation is a process of external peer review in which an agency grants public recognition to a program of study or an institution that meets established qualification and educational standards. Participation in the accreditation process is voluntary since there is not a legal requirement for
specialized programs and institutions to participate. However, when students complete a NAACLS accredited program they become eligible to sit for national certification examinations for the profession. The National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) is a nonprofit organization that independently accredits medical technologist (MLS), clinical laboratory technician/medical laboratory technician (CLT/MLT), histotechnologist (HTL), histologic technician (HT), pathologists' assistant (Path Asst), diagnostic molecular scientist (DMS) and cytogenetic technology (CT), Phlebotomist (PBT), and clinical assistant (CA) educational programs. Contract information: National Accrediting Agency for Clinical Laboratory Sciences, 5600 North River Road, Suite 720, Rosemont, IL 60018-5119 http://www.naacls.org

Prerequisites for Admission to the MLS Professional Program

Students must meet the following minimum criteria to be considered for Admitted Major status:

• Completion of the Casper College A.S. degree in MLT within 5 years or B.S. degree in a related science.

• Minimum grade point average (GPA) of 2.000 on all course work transferred into the University of Wyoming at Casper from other academic institutions.

• Successful completion of the Medical Laboratory Technician BOC exam is preferred. Students that have not completed the BOC may be admitted with MLS program directors approval.

• Students admitted to the program that do not hold an A.S. in MLT or a B.S. in a related science may be required to complete the University of Wyoming University Studies program in addition to the basic requirements for the Bachelor of Science in Medical Laboratory Science degree.

See the current requirements at http://www.uwyo.edu/unst/

Applying for Admission to MLS Professional Program

Upon completion of the prerequisite requirements of the program, students may apply to the professional program in the fall semester of their senior year. Applications for the program must be submitted to the MLS program director before finals week of the fall semester prior to entering the professional program Advanced Clinical Practicum (ACP) coursework. It is the students' responsibility to complete and submit applications by the defined due date.

Students are required to complete an observational enrichment experience during the final MLS semester. This observational experience is designed to demonstrate advanced concepts and topics presented in the MLS curriculum, in a practical setting.

Prior to participating in the enrichment experience, students may be subjected to that agency's requirements for HIPAA training, a background check, drug testing and/or drug abuse prevention policies. Students may be subject to the random drug testing policy of that agency. These background checks are routinely required by schools, hospitals, and other agencies that participate in on-site training. Background checks should be obtained from Viewpoint screening (https://www.viewpointscreening.com/uwyo).

Students must meet the vaccination and health insurance requirements of the university. Vaccinations are available through the county health department or through student health on the UW-C campus, and liability health insurance is available through the University of Wyoming. Current enrichment site affiliates do not require a background check, drug screen or proof of vaccination, as the university vaccination requirements exceed that of the facility. If a student finds an appropriate observational enrichment experience outside of the opportunities available through the MLS program, the student must communicate the site to the MLS program director for approval. This notification should occur well in advance to entering the professional program. It will be the responsibility of the student to arrange the experience with the appropriate site personnel/HR and program director, to ensure all required documentation is
provided. The student must provide proof of health insurance and Hepatitis B vaccination (or declination) to participate in on-campus student laboratory sessions. Hepatitis B vaccinations are available on the UW-C campus at student health, or at the county health department for a small fee.

**Essential Functions**

Applicants must meet certain essential functions as defined by NAACLS. If you feel that you do not meet these essential functions, careful consideration should be made and advisement received before entering the MLS Program. Essential functions are the abilities and essential functions that a student must be able to perform to be successful in the learning experiences and completion of the program.

**Observational Requirements**

The MLS student must be able to:

- Observe laboratory demonstrations in which biologicals are tested for their biochemical, hematological, immunological, microbiological, and histochemical components.
- Characterize the color, odor, clarity, and viscosity of biologicals, reagents or chemical reaction products.
- Employ a clinical grade binocular microscope to discriminate among the structural and color (hue, shading, and intensity) differences of microscopic specimens.
- Read and comprehend text, numbers, and graphs displayed in print and on a video monitor.

**Movement Requirements**

The MLS student must be able to:

- Move freely and safely about a laboratory.
- Reach laboratory bench-tops and shelves, patients lying in hospital beds or patients seated in specimen collection furniture.
- Travel to numerous clinical laboratory sites for practical experience.
- Perform moderately taxing continuous physical work, often requiring prolonged sitting, over several hours.
- Maneuver phlebotomy and culture acquisition equipment to safely collect valid laboratory specimens from patients.
- Control laboratory equipment (i.e., pipettes, inoculating loops, test tubes) and adjust instruments to perform laboratory procedures.
- Use an electronic keyboard to operate laboratory instruments and to calculate, record, evaluate, and transmit laboratory information.
- Perform fine hand manipulations with dexterity.

**Communication Requirements**

The MLS student must be able to:
• Read and comprehend technical and professional materials.

• Follow verbal and written instructions in order to correctly and independently perform laboratory test procedures.

• Clearly instruct patients prior to specimen collection.

• Effectively, confidentially and sensitively converse with patients regarding laboratory tests.

• Communicate with faculty members, fellow students, staff, and other health care professionals verbally and in a recorded format.

• Independently prepare papers, prepare laboratory reports, and take paper, computer, and laboratory practical examinations.

Behavioral Requirements

The MLS student must:

• Be able to manage the use of time and be able to systematize actions in order to complete professional and technical tasks within realistic constraints.

• Possess the emotional health necessary to effectively employ intellect and exercise appropriate judgment.

• Be able to provide professional and technical services while experiencing the stresses of task-related uncertainty and a distracting environment.

• Be flexible and creative and adapt to professional and technical change.

• Recognize potentially hazardous materials, equipment, and situation and proceed safely in order to minimize risk of injury to patients, self, and nearby individuals.

• Adapt to working with unpleasant biologicals.

• Support and promote the activities of fellow students and of health care professionals.

• Realize that the promotion of peers helps furnish a team approach to learning, task completion, problem solving and patient care.

• Be honest, compassionate, ethical and responsible.

Request for Accommodation

All students are held to the same academic and technical standards. Applicants/students with disabilities seeking accommodation must discuss their disability and accommodation needs with the University Disability Support Services (udss@uwyo.edu or (307) 766-6189; TTY: (307) 766-3073). If appropriate and upon request and registration of the applicant, a reasonable accommodation will be made consistent with University of Wyoming guidelines.

Requirements for the Bachelor of Science in Medical Laboratory Science

Medical Laboratory Science, B.S. degree plan
Dental Hygiene

Health Sciences Advising Office

Craig Vaske, Manager

Phone: (307) 766-3878

Email: hsadvise@uwyo.edu

The University of Wyoming and Sheridan College offer a cooperative program of dental hygiene education which, when completed, results in two degrees. An Associate of Applied Science degree in dental hygiene is awarded by Sheridan College following completion of the prerequisites and dental hygiene prescribed study. An optional Bachelor of Science in Dental Hygiene (BSDH) degree is awarded by the University of Wyoming following completion of the Associate of Applied Science in dental hygiene, the University Studies Program, and other requirements of the University of Wyoming, for a total of 120 credit hours including 42 upper level hours, 30 of which must be from the University of Wyoming. See www.uwyo.edu/hs/divisions-and-programs/dental-hygiene-program.html.

The American Dental Association has awarded full accreditation to the Associate of Applied Science degree in dental hygiene at Sheridan College. Graduates are eligible to take the National Board of Dental Hygiene exam, as well as regional and state exams for licensure, as registered dental hygienists.

Applicants should visit www.sheridan.edu/academics/programs-a-z/dental-hygiene for specific prerequisites and application materials. Applications are due to Sheridan College prior to February 15 of the year they wish to enter the program. Class sizes are limited. Admission is contingent upon successful completion of a background check.

All prerequisite coursework must be completed with a cumulative grade point of 2.750 (on a 4.000 point scale). Courses in anatomy, physiology, and microbiology must be current within five years at the time of application to the Dental Hygiene professional program. Students must also complete a minimum of 20 hours of dental hygiene observation prior to application. Completion of the prerequisite courses and observation does not guarantee admission to the professional program. If admitted, students complete their coursework in Sheridan, Wyoming.

Prospective applicants can take prerequisite courses at any higher education institution. To view a list of prerequisites, see the degree program page in this catalog. Students who are completing prerequisite courses at the University of Wyoming are advised by the Health Sciences Advising Office (hsadvise@uwyo.edu). These students apply to UW as "Pre-Dental Hygiene" students.

NOTE: This major is not appropriate for students preparing to apply to dental school.

Learning Outcomes

The primary objective of the program is to assure that graduates have knowledge and abilities necessary to successfully practice dental hygiene.

Major

B.S. in Dental Hygiene (BSDH)
Dental hygienists play an important role in promoting health by helping patients understand the connection between good oral health and an overall healthy body. They provide patient education and individualized therapeutic services to help patients reach their oral health goals.

Program Prerequisites

Students interested in the bachelor's degree in dental hygiene should contact the Health Sciences Advising Office at Health Sciences 110, phone (307)766-3878, e-mail: hsadvise@uwyo.edu.

Prerequisite courses for admission into the Dental Hygiene program at Sheridan College includes a cumulative GPA of 2.750 or better in the courses listed below. These may be taken at any institution, but if taken at the University of Wyoming, the course numbering will be as follows:

**MATH1400 - College Algebra**

Credits: 3  
Emphasizes aspects of algebra important in the study of calculus. Includes notation of algebra, exponents, factoring, theory of equations, inequalities, functions, graphing and logarithms. For students who plan to enroll in a calculus course (MATH 2200 or MATH 2350).

USP 2003-2014 Code U3QA  
USP 2015 Code U5Q  
**Prerequisite:** grade of C or better in Math 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

**LIFE1010 - General Biology**

Credits: 4  
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB  
USP 2015 Code U5PN  
**Former Course Number** [BIOL 1010]

**Prerequisite:** Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

**ENGL1010 - College Composition and Rhetoric**

Credits: 3  
A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.
ENGL2005 - Writing in Technology and the Sciences

Credits: 3
Develops writing styles specifically suited to technological and scientific fields of study. Includes focus on disciplinary conventions and styles as well as audience/readership considerations. Introduces techniques for data interpretation and visualization, and helps students analyze, understand, and adapt common field genres and formats.

COMM2010 - Public Speaking

Credits: 3
Beginning public speaking course. Students will develop foundational oral, digital and written communication skills. Emphasizes message construction, performance and critique in public communication settings. Includes speech preparation, listening, audience analysis, writing strategies, digital communication, critical thinking, language/nonverbal behavior and various speaking formats. (Offered fall, spring and summer).

PSYC1000 - General Psychology

Credits: 3
Surveys the field of psychology through lectures, class discussion and assigned readings. Includes development of behavior, physiological mechanisms of behavior, perception, motivation and emotion, learning, intelligence, individuality and personality and mental health.

ANTH1200 - Introduction to Cultural Anthropology

Credits: 3
Introduction to foreign, especially non-western, cultures through anthropological concepts, films and ethnographies.
**FCSC1141 - Principles of Nutrition**

Credits: 3  
This course will provide an introduction to the fundamental concepts of nutrition science and the role of nutrition in overall health. Students develop an understanding of nutritional requirements as related to metabolism of nutrients in various physiological states. Designed for nutrition majors and interested non-majors.

**CHEM1000 - Introductory Chemistry**

Credits: 4  
Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

**Lab/Lecture Hours** Laboratory and discussion: 3 hours per week.  
**When Offered** (Normally offered fall semester)  
USP 2003-2014 Code U3SP  
USP 2015 Code U5PN  
**Prerequisite:** Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.  
OR CHEM 1020 General Chemistry I

**MICR2021 - General Microbiology**

Credits: 4  
Introduces nature and diversity of microorganisms and their implications for all of biology. Covers comparative properties of eukaryotic and prokaryotic microbes, as well as their roles as disease agents, ecological agents and model systems for understanding of fundamental biological processes at the molecular level.

**Cross Listed** MOLB 2021.  
**Former Course Number** [MICR 2210]

**Prerequisite:** LIFE 1010, CHEM 1000 or equivalent.  
OR MOLB 2021 General Microbiology

**KIN2040 - Human Anatomy**

Credits: 3  
Study of human structure in terms of its microscopic and gross anatomy. Provides students with adequate background to study human physiological function. The corresponding course, to be taken concurrently, is KIN 2041.

**USP 2003-2014 Code U3SB**  
**Former Course Number** [PEPR 2040]

**Prerequisite:** LIFE 1000, LIFE 1003, LIFE 1010, or ANTH 1100.

**KIN2041 - Human Anatomy Laboratory**
Credits: 1
A laboratory study of human structure in terms of human microscopic and gross anatomy. This laboratory course is designed to provide students with an adequate background to study human physiology and kinesiological function.

USP 2003-2014 Code U3SB
Former Course Number [PEPR 2041]

**Prerequisite:** KIN 2040 or concurrent enrollment in KIN 2040.

**ZOO3115 - Human Systems Physiology**

Credits: 4
Covers the fundamental function(s) of the human body systems, from cells and tissues through organs and systems, focusing also on biological communication and homeostasis. Students learn how to interpret physiological data. Includes laboratory and tutorial sessions. Fulfills degree requirement in physiology subsection for zoology major.

**Prerequisite:** At least ((C in CHEM 1020 or CHEM 1050) or B in CHEM 1000) and C in LIFE 1010.

**UW Requirements for the BSDH Degree**

In order to receive a BSDH through the University of Wyoming, students must also take the following courses:

1. Program prerequisites
2. A.A.S. in Dental Hygiene from Sheridan College (competitive application required)
3. Completion of all USP requirements, including the US and Wyoming Constitutions (USP-V) and Communication III (USP-COM3) requirements
4. STAT 2050 or STAT 2070
5. At least 120 credits hours, 42 of which are upper-division credits. This usually requires the completion of additional upper-division elective credits. Note: talk to an advisor to know whether you need to fulfill any additional credits toward your BSDH (hsadvise@uwyo.edu).

**Required Courses**

Required courses after admission to the Dental Hygiene program at Sheridan College (NWCC-D):

**Sheridan College Courses**

Sheridan College courses, taught ONLY at Sheridan College in Sheridan, WY.

- DHYG 2100 - Dental Health Education Credits: 3
- DHYG 2300 - Preclinical Dental Hygiene Credits: 3
- DHYG 2305 - Clinical Dental Technology Credits: 1
- DHYG 2405 - Dental Anatomy Credits: 2
- DHYG 2450 - Oral Radiology Credits: 3
- DHYG 2451 - Oral Radiology Lab Credits: 1
- DHYG 2470 - Orientation to Dental Hygiene Credits: 3
- DHYG 2200 - Pharmacology Credits: 2
University of Wyoming Courses

University of Wyoming courses (details below), taught ONLY at Sheridan College in Sheridan, WY.

**DHYG3230 - Clinical Seminar II**

Credits: 2
This course is a continuation of the Clinical Seminar Series. Course content will focus on the review and enhancement of instrumentation skills; the essentials of instrument selection; the role of root planing in dental hygiene; the development and refinement of skills needed for treatment of more advanced periodontal cases, which includes the initiation of a periodontal case study; and the introduction and preparation for the use of state-of-the-art clinical technologies.

**Prerequisite:** DHYG 2420.

**DHYG3300 - Clinical Dental Hygiene II**

Credits: 5
This course provides students the opportunity to gain further practical experience in dental hygiene procedures by providing comprehensive patient care in clinical settings. A flexible format allows students to meet requirements in procedures for patient record-keeping, patient education, dental prophylaxis, dental radiography and routine clinical procedures.

**Prerequisite:** DHYG 2350.

**DHYG3400 - General and Oral Pathology**

Credits: 3
This course is designed to teach students the concepts underlying general and oral manifestations of human disease states, manifestations of specific diseases, relationships to body defense mechanisms, and potential implications for medical and dental hygiene treatment. To the extent possible, applications to clinical situations in dental hygiene practice will be made.

**Prerequisite:** one year predental hygiene (including general pathology); MOLB 2021 or equivalent.

**DHYG3600 - Ethics and Law in Dental Hygiene**

Credits: 2
This course provides an introduction to basic concepts in the analysis of ethical theories, principles, values, the professional code of ethics, and legal aspects associated with the dental hygiene healthcare profession. Contemporary
issues are examined in dentistry and medicine as a strategy to explore and apply ethical principles in diverse cultures and situations.

Prerequisite: successfully complete all first-year dental hygiene courses.

DHYG3750 - Periodontology

Credits: 3
This course reviews the anatomy and histology of periodontal structures and dental accretions followed by a study of the classifications and etiology of periodontal diseases including both local and systemic factors. A thorough exploration of the hygienist's role in disease recognition, prevention, therapeutic procedures and maintenance is also included.

DHYG3770 - Pain Management

Credits: 2
This course provides clinical experience with local anesthesia and inhalation sedation techniques. It includes the detection of anatomic landmarks in the mouth pertaining to specific injection sites, preparation of the armamentarium, maintenance of asepsis, simulated and real injection of anesthetic agents at predetermined sites and administration of nitrous oxide/oxygen.

Prerequisite: successful enrollment in dental hygiene major or consent of instructor.

DHYG3775 - Pain Management Lab

Credits: 1
This course provides clinical experience with local anesthesia and inhalation sedation techniques. It includes the detection of anatomic landmarks in the mouth pertaining to specific injection sites, preparation of the armamentarium, maintenance of asepsis, simulated and real injection of anesthetic agents at predetermined sites and administration of nitrous oxide/oxygen.

Prerequisite: successful completion of sophomore year course work in dental hygiene, current certifications in CPR, and curriculum enrollment in dental hygiene major or consent of instructor.

DHYG3250 - Clinical Seminar III

Credits: 2
This course prepares the dental hygiene student to make the transition from an educational setting to private practice. Focus is on applying, synthesizing, and transferring clinical and didactic knowledge to clinical and ethical decision-making. Students will be engaged in problem-based case studies, application of motivational theories, and analysis of evidence-based research.

Prerequisite: DHYG 3230, DHYG 3300 and DHYG 3350 or concurrent enrollment.

DHYG3350 - Clinical Dental Hygiene III
This course assists students in gaining practical experience in clinical procedures requiring greater skill and knowledge than procedures previously undertaken. This course prepares students for the transition to private office practice.

**Prerequisite:** DHYG 3300.

**DHYG3550 - Community Dental Health**

Credits: 3
This course provides the dental hygiene student with an introduction to basic skills needed to evaluate the dental health community, including research methodology and basic statistical analysis. It provides the student with a basic understanding of the significant social, political, psychological and economic factors influencing the American Health System.

**Prerequisite:** DHYG 2100.

**DHYG3720 - Office Practice**

Credits: 2
This course is designed to provide the dental hygiene student with both current information and experience in office practice and management. Also included are discussions of professionalism, decision-making and leadership roles, including legal and ethical responsibilities, team responsibilities in the dental office and discussion of selecting, securing and maintaining employment.

**Prerequisite:** DHYG 2300, 2350, DHYG 3300 and a communications course.

**DHYG3800 - Board Review**

Credits: 1
This course is designed to assist dental hygiene students in preparing for the National Board Dental Hygiene Exam, the western and central regional clinical and anesthesia board exams, and state jurisprudence exams. These exams are required for licensure to practice dental hygiene in the United States. This course includes discussion of the distinction between various agencies in the education, healthcare and legal system which have jurisdiction over the licensure process, and the impact of cheating during any portion of the process on the public welfare.

**Prerequisite:** DHYG 3300.

**College of Law**

**College of Law**

KLINT ALEXANDER, B.A. Yale University 1991; Ph.D./M.Phil. Cambridge University 1997; J.D. University of Virginia 1999; Dean & Professor of Law 2015.

MELISSA ALEXANDER, B.A. Yale University 1996; J.D. University of Virginia 1999; Professor of Law 2019, 2015.

JACQUELYN BRIDGEMAN, B.A. Stanford University 1996; J.D. University of Chicago 1999; Associate Dean for Academic Affairs and Professor of Law 2008, 2002.

KENNETH CHESTEK, B.A. Pennsylvania State University 1975; J.D. University of Pittsburgh School of Law 1979; Professor of Law 2018, 2012.

DANIELLE R. COVER, B.A. University of Maryland 1994; J.D. Tulane University School of Law 1997; Professor of Law 2020, 2014; Director of Legal Services Clinic.

JAMES M. DELANEY, B.A. University of Washington 1985; J.D. Gonzaga University School of Law 1992; LL.M. in Taxation, University of Florida 1997; Professor of Law 2013.

DARRELL D. JACKSON, B.A. College of William and Mary 1987; J.D. George Mason University School of Law 1990; Ph.D. University of Colorado School of Education 2011; Professor of Law 2018, 2013.

GEORGE MOCSARY, B.E. The Cooper Union School of Engineering 1995; MBA University of Rochester 1995; J.D. Fordham University School of Law 2009; Professor of Law 2019.

TARA RIGHETTI, B.A. University of Colorado Boulder 2005; J.D. 2007; Professor of Law 2020, 2014.

ALAN ROMERO, B.A. Brigham Young University 1990; J.D. Harvard University 1993; Professor of Law 2007, 2003.

MICHAEL R. SMITH, B.S. Florida State University 1982; J.D. University of Florida 1985; Professor of Law 2006.

Associate Professors:

LAUREN MCLANE, B.S. Radford University 2002; J.D. Seattle University School of Law 2008; Associate Professor of Law 2021, 2018; Director, Defender Aid Clinic.

DONA PLAYTON, B.S. University of Wyoming 1989; J.D. University of Wyoming 1993; Associate Professor of Law 2002, 2018; Director, Family and Child Legal Advocacy Clinic.
Assistant Professors:

**JERRY FOWLER**, B.A. Princeton University 1983; J.D. Stanford University 1990; Assistant Professor of Law 2019; Director, International Human Rights Clinic.

Academic Professionals:

Professors Emeritus

Debra L. Donahue, Harvey Gelb, Timothy Kearley, Jerry R. Parkinson, Dee Pridgen, Joel Selig, Elaine A. Welle

The College of Law was founded in 1920. The goal of the college is to provide a sound and thorough education in the law that will prepare the student to practice law in accordance with the highest standards of professional competence and responsibility. The emphasis in instruction is on analysis and understanding of legal principles and the development of skills necessary to the practice of the profession. The course of study will prepare a graduate to practice in any jurisdiction which has adopted the Anglo-American system of law.

The curriculum of the College of Law consists of three years of study within the college. Required courses necessary to basic legal knowledge make up the first two semesters of study, while courses in the final four semesters are largely elective. Students become eligible to receive the Juris Doctor (J.D.) degree upon successful completion of 90 semester credit hours of law courses with a grade point average of at least 2.000.

The college acts as a law center for Wyoming. It serves lawyers, judges, and government by a program of continuing legal education for attorneys and others interested in significant legal developments, by research projects aimed at improving state law, and by publishing the Wyoming Law Review.

Accreditation

The college is approved by the American Bar Association and its graduates are eligible for admission to the bar in every state. A student planning to practice in a particular state should check its rules for admission to the bar.

The college is also a member of the Association of American Law Schools. Membership is conditioned upon the maintenance of an adequate teaching staff and library, the offering of a sound educational program and adherence to prescribed standards for the admission and graduation of students.

Prelegal Curriculum

There is no prescribed or required set of courses for prelegal work. A student must usually have a B.A. or B.S. degree before beginning the professional study of law. There are no restrictions on the field in which the degree is earned.

The objective of prelegal study should be to acquire knowledge and skills useful in the study and practice of law. College study should prepare the student for law school by developing language comprehension and use, understanding
of political, economic, social and cultural institutions, and the ability to think logically and creatively. Courses promoting these objectives are included in the basic requirements for most undergraduate degrees. The choice of a major should be determined by the student's academic interest and professional objective in law.

Valuable background may be acquired through the study of English, history, philosophy, economics, political science, psychology, sociology, business administration, mathematics and the natural sciences.

For additional information, see the College of Law web site, (www.uwyo.edu/law).

**Admission Requirements and Procedures**

Admission to the professional curriculum in law is granted by the admissions committee of the College of Law. The College of Law restricts the number of entering students to a class size consistent with its facilities and its educational objectives. In evaluating an application, the committee considers the applicant's undergraduate college scholastic record and score on the Law School Admission Test (LSAT).

Other criteria relevant to the probability of success in the study and practice of law will also be considered.

1. Prior to beginning work in the College of Law, applicants must have a bachelor's degree from an accredited college or university, unless they have requested and been granted following exception:
   a. An applicant who needs not more than 6 semester hours of college credit to qualify for a bachelor's degree may be admitted in exceptional cases to law school if the committee determines that the applicant has sufficient education and preparation for the study of law; has an outstanding undergraduate scholastic record; and has an approved program signed by the appropriate undergraduate official indicating that the remaining requirements for the bachelor's degree may be met by summer school attendance or by other means that will not interfere with the study of law.

2. Every applicant must take the Law School Admission Test. A packet giving information about the test, the dates on which it is given, and centers at which it can be taken, sample questions and an application form, may be obtained from Law School Admission Council, Box 2000, Newtown, PA 18940, by phone at (215) 968-1001, online at www.lsac.org.

3. Every applicant must register with the Law School Admission Council Credential Assembly Service, CAS. Registration may be done through the LSAC website (www.lsac.org). The CAS will prepare a report that is transferred to the college.

4. Every applicant must complete the electronic University of Wyoming College of Law Application through LSAC between October 15 and April 30. Applications received by December 15 will be considered for early admission.

5. If admitted, official transcripts sent directly to the College of Law from each college attended must be on file in the Admissions Office at least 30 days before the student's registration date.

**Application Deadline**

An initial entering class will be selected from completed applications on file on April 30. Students who submit an application by December 15 will be considered for early admission. An application is complete only when the college has received the LSAT score, the CAS report, applications, and all supporting documents.

**Admission With Advanced Standing**

Transfer students are admitted only when the College of Law facilities and curriculum permit. A transfer student may transfer up to the number of credits the student could have earned had the student completed his or her first year at the University of Wyoming College of Law. Transfer credit will be given only for courses in which the student earned a grade of C or higher. Applicants admitted must satisfy the requirements for graduation established by the College of
Law, including such other requirements as may be imposed as a condition of admission. Students interested in transferring should contact the College of Law for information concerning application procedures.

**Academic Regulations**

The Juris Doctor (J.D.) degree is awarded by the College of Law faculty to candidates who meet the following requirements:

Curriculum is subject to change at the College of Law Faculties discretion, which may cause the annually updated university catalog to be out of date. For students matriculating in or after the fall 2013 semester, each student must successfully complete (grade of "D-" or better for courses taken at this school, grade of "C" or better for courses taken elsewhere) 90 credit hours (required for graduation) of law coursework in accordance with the official curriculum as adopted by the College of Law faculty. At least 59 of these credits must be completed at the University of Wyoming College of Law. Courses taken for S/U grades count toward the hours required for the J.D. degree only if the course is offered for the S/U grade only. Regardless of the matriculation date, students must complete at least 76 credit hours through graded (A-F) courses.

The course of study must be completed no earlier than 24 months (2 years) and not later than 84 months (7 years) after a student has commenced law study. No student shall be permitted to enroll at any time in coursework that, if successfully completed, would exceed 20 percent (18 hours) of the total coursework required for graduation.

Second and third year students may take up to six of 90 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree. Students must receive a letter grade of B or better for these non-law courses to count toward graduation requirements. Additionally, these courses will transfer in with a satisfactory grade of ‘S’ and will not impact their law school GPA. Students who wish to enroll in a non-law course on this basis must secure the prior approval of the course professor and the Associate Dean of Academic Affairs at the College of Law. Approval will be based on the student's submission of a Non-Law Grad Course Request form with a brief written statement explaining how the proposed coursework relates to and enhances the student's legal education. Students should be aware that non-law courses completed on this basis will not count toward the 76 hours that students must complete in graded courses as a requirement for graduation. The non-law coursework will instead be counted as credits the law students are permitted to take on an S/U basis.

The College of Law automatically approves up to 9 hours of any joint degree core courses with the corresponding prefix to their joint degree (i.e. MBAM, POLS, ENR) that meet the grade requirement to transfer in toward their law degree. If additional courses are needed outside of these respective prefixes, these will be approved on a case by case basis. Those students enrolled in a joint degree program may take up to 9 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree. Students in a joint degree program who use 9 non-law credit hours toward their J.D. degree may reduce their required number of graded credits from 76 to 73 so that they can participate in other S/U offerings at the College of Law. To receive law school credit for the non-law course, a student will be required to earn a grade of B or better in the non-law course. The grade will not count, however, toward the student's law school GPA. The course will be counted as a "satisfactory" grade for purposes of the student's law school GPA. Joint degree students should be aware that non-law courses completed on this basis will not count toward the 73 hours that joint degree students must complete in graded courses as a requirement for graduation. The non-law coursework will instead be counted as credits the law students are permitted to take on an S/U basis.

To graduate, all students must earn a cumulative grade point average of 2.000 for all courses taken at the College of Law. If a course is repeated, both grades shall be included in computing the average. The student, except in exceptional circumstances, must have a baccalaureate degree. Candidates who meet these requirements are eligible for graduation at the end of any semester.

**Academic Standing**
The following requirements apply to any coursework at the College of Law. Courses that law students may complete outside of the College of Law do not count in calculation of the required College of Law grade point average (GPA).

In the first year, a student who fails to make a 1.800 GPA after the first semester, or fails to make a 1.900 cumulative GPA overall in the first year's work, shall be excluded from the College of Law. A student who at any time fails to make a passing grade in two of the courses for which the student is registered in any semester shall be excluded from the College of Law.

A student who enters the second year with a GPA lower than 2.000 but at 1.900 or above, or who fails to maintain a 2.000 cumulative GPA after the first year, shall be placed on academic probation. A student on academic probation who does not attain an overall grade point average of 2.000 within one semester shall be excluded.

A student excluded from the College of Law may petition the faculty for readmission. The faculty may, in its discretion, readmit the student upon receipt of satisfactory evidence of extenuating circumstances or marked improvement in grades and study habits. Readmission may be subject to conditions, including, but not limited to, the repeating of any or all courses, as the faculty may decide. If a student's petition for reinstatement is denied, the student must wait nine months before petitioning again for readmission. Also, all students are limited to two petitions for readmission. The entire faculty will automatically hear and consider a student's initial petition. In the event of a second petition for readmission, a committee selected by the Dean will hear and consider the petition. The committee will present a report and recommendation to the faculty for adoption. Denial of a second petition is final.

**Advanced Writing Requirement**

As a condition of graduation, all students must complete an upper-level writing requirement consisting of a research paper of a minimum length of 5,000 words, exclusive of footnotes. All students must follow a designated standard citation form. Students must submit a detailed outline of the paper to the supervising professor, then must rewrite the paper at least once after the professor reviews the first draft. With the professor's approval, the student can meet the advanced writing requirement in any law school elective course, including a seminar, as long as the above requirements are met. The supervising professor must certify that the writing requirement has been fulfilled.

All student articles written for law review, whether published or unpublished, must have a supervising faculty member and otherwise meet all other provisions of the College of Law Advanced Writing Requirement. A student may also fulfill the requirement through an independent study or by writing a case note or comment for the law review, under the supervision of a professor. It cannot be satisfied through participation in a clinic.

**Attendance Requirement**

Students must attend at least 75 percent of regularly scheduled classes in each required course. A professor in a required course may impose an attendance requirement of greater than 75 percent if the policy is announced in writing on the first day the class meets.

In elective courses, students must attend at least 75 percent of regularly scheduled classes unless the professor announces a different policy in writing on the first day the class meets. Any alternative policy must comply with the American Bar Association (ABA) requirement of regular and punctual attendance.

A student who fails to meet the minimum class attendance requirement in any class will be dropped from the course and receive a grade of F, unless extenuating circumstances are present, in which case the student shall receive a grade of W. A professor may impose sanctions for students who have met the minimum class attendance requirement but in other respects have violated specified attendance guidelines, if the professor announces the guidelines and possible sanctions in writing on the first day the class meets.
The following table indicates the number of classes a student must attend under the 75 percent rule in a two hour or three hour course, depending on the number of class meetings. Students must verify with the professor the number of classes required in a one or four hour course.

The ABA requires attendance at 75 percent of all scheduled class times.

3-Credit Course (meeting three times a week for 55 minutes each):

<td>21</td>
</tr>
</tbody>
</table>

**Class Rank**

Students are ranked by class at the end of each of the fall and spring semesters once the faculty have submitted all grades. Class rankings will be available in the Front Office. Students can choose to have their spring class ranking letter mailed to them if they provide the Front Office with a self-addressed, stamped envelope. Transfer students to the College of Law shall not be ranked with other UW students until they have completed two full-time semesters at UW (or a minimum of 24 UW credits). Students who visit out at other ABA accredited law schools or who graduate early are ranked based on their ranking at the end of their last semester at UW.

**Experiential Learning Requirement**

As a condition of graduation, each student must successfully complete no fewer than 6.0 credit hours in experiential learning courses. Experiential learning courses include a simulation course, a law clinic, or an externship field placement. Simulation courses provide substantial experience not involving legal representation of an actual client, that (1) is reasonably similar to the experience of a lawyer advising or representing a client or engaging in other lawyering tasks in a set of facts and circumstances devised or adopted by a faculty member; and (2) includes: direct supervision of the student’s performance by the faculty member; opportunities for performance, feedback from a faculty member, and self-evaluation; and a classroom instructional component (ABA Standard 303).

Typically students may fulfill the experiential learning requirement by successfully completing 6.0 credit hours in any of the following upper-class elective courses:

- Advanced Appellate Advocacy (LAW 6520)
- Advanced Legal Research (LAW 6990)
Advanced Oil & Gas Law (LAW 6992)
Advanced Persuasive Writing (LAW 6925)
Alternative Dispute Resolution (LAW 6915)
Business Planning (LAW 6560)
Civil Pretrial Practice (LAW 6565)
Clinic: Civil Legal Services (LAW 6930 or LAW 6931)
Clinic: Defender Aid (LAW 6932 or LAW 6930)
Clinic: Energy, Environ. & Natural Resources (LAW 6933 or LAW 6930)
Clinic: Family & Child Advocacy (LAW 6930 or LAW 6934)
Clinic: International Human Rights (LAW 6930)
Clinic: Prosecution Assistance (LAW 6930 or LAW 6936)
Contract Drafting (LAW 6935)
Estate Planning (LAW 6670)
Estate Planning Practicum (LAW 6937 or LAW 6930 or LAW 6915)
Externships (LAW 6960)
Interviewing, Counseling & Negotiation (LAW 6166 or LAW 6670)
Summer Trial Institute (LAW 6850)
Trial Practice (LAW 6850)

Note: classes may be removed from and/or added to this list each semester.

Grading

Grades are assigned on a plus/minus system. Grades of incomplete (I), and withdrawal (W), are disregarded. A required course in which a grade of F or W or U is received must be repeated. A course cannot otherwise be repeated without the consent of the faculty. If a course is repeated, both grades are included in computing the student's grade point average.

Satisfactory (S) or unsatisfactory (U) grading applies only if the course is offered on an S/U basis or a student takes a non-law graduate-level course as explained above. Students from other colleges who are permitted to take professional courses in the College of Law must take them for S/U credit. The grading scale is at discretion of the instructor for each course.

Bar Exam Passage Rate Improvement Program

Students matriculating after August 2021, a student whose first-year GPA is in the bottom one-third of the class will be required to pass four of the following courses as a requirement of graduation: Business Organizations (or one of either Agency and Partnership or Corporations); Secured Transactions; Trusts and Estates; Criminal Procedure; Criminal Adjudication; Family Law; Constitutional Law II; or Real Estate Finance. During the fall and spring semesters after the 1L year it is required to take at least one of these courses as a minimum each semester, until the requirement has been satisfied.
In order to graduate, a student whose first-year GPA is in the bottom one-third of the class will also be required to take and pass a law school-offered bar examination course as a 3L (typically in their final spring semester), unless for unanticipated reasons the College of Law does not offer that course in a particular year.

Curriculum

**Required Courses: First (1L) Year Students** *(Additional courses cannot be taken the first year without special permission from a dean).*

*Fall Semester*
- Civil Procedure I (6240) - 3
- Contracts I (6110) - 3
- Legal Research (6165) - 1
- Legal Writing I (6160) - 3
- Property I (6120) - 3
- Torts I (6130) - 4

*Spring Semester*
- Civil Procedure II (6340) - 2
- Constitutional Law I (6250) - 3
- Contracts II (6210) - 2
- Criminal Law (6140) - 3
- Legal Writing II (6260) - 2
- Property II (6220) - 2

**Required Courses: Second (2L) Year Students (offered once per year)**
- Evidence (6410) - 3
- Professional Responsibility (6420) - 3

**Elective Courses: Second (2L) & Third (3L) Year Students (subject to availability)**

See Law Courses section

**Graduation with Honors**
The degree of Juris Doctor is awarded with honors if the student achieves a grade point average of 3.400 or better on all resident credit in the College of Law.

**Honor Roll**

Students enrolled in a minimum of 12.0 semester hours of law courses carrying A-F grades, and who have no semester grades of incomplete (I), are eligible for the President's Honor Roll and the Dean's Honor Roll. Students with a semester average of 4.000 will be named to the President's Honor Roll. First-year students with a semester average of 3.250 or better and second-year and third-year students with a semester average of 3.400 or better will be named to the Dean's Honor Roll.

**Minimum Hours**

The College of Law does not permit students to attend on a part-time basis. Students are required to take the full load of required courses during their first two semesters and to carry at least 9 credit hours in each of the remaining semesters of law study. Notwithstanding, if a student has less than 9 credits remaining in their final semester of study, then said student may register for only the number of remaining credits (e.g. if a student only has 4 credits left to graduate, that student will only be required to register for 4 credits). First year students will be allowed to take less than the full load of required courses only if they present exceptional circumstances, as determined by the Dean or his/her delegate.

**Transfer Credits**

The College of Law admits transfer students only in the fall of their second year. A student granted transfer admission may transfer credits earned in courses taken at another ABA-accredited law school toward a degree from the UW College of Law up to the number of credits that a traditional UW student would have earned during the student's first year at the University of Wyoming (32 credits as of the 2020-21 academic year). In addition, University of Wyoming law students who visit out for a semester or full year may also transfer credits from other ABA approved law schools, as long as 59 credits are completed at the University of Wyoming. The College of Law will also accept up to 15 hours of transfer credit from another ABA accredited school for an international student previously enrolled in an LL.M. or other post-J.D. program. To receive transfer credit from a course, a grade must be a "C" or better. Transfer credits are recorded on the JD transcript as an "S" (Satisfactory), instead of graded credits. All transfer credits must be approved by the Associate Dean of Academic Affairs in advance.

**Withdrawing from a Course &/or the University**

Failure to attend class or failure to pay tuition does not constitute withdrawal from a class or from the University. Students who pre-register for classes on WyoWeb will be assessed tuition and fees. Students who drop or withdraw from their last or only class for a given term after the end of the drop/add time period must also meet with the Assistant Dean of the College of Law and complete the official withdraw forms required by the Office of Registrar. Financial aid recipients who withdraw from courses or reduce credit hours must consult with a financial aid counselor regarding repayment of financial aid funds if applicable. For more complete details regarding deadlines, refunds, and cancellations, see the University's Accounts Receivable web page http://www.uwyo.edu/fsbo/accounts-receivable/

**Exam Procedures and Policies**

1. Review the Honor Code before beginning the exam period. It applies to all examinations. If you have any questions about the materials allowed by a professor, please see the professor in advance of the exam.
2. A copy of the final exam schedule will be posted on the web, please check dates and times carefully.

3. We use exam numbers, rather than students' names, so that professors cannot identify the students' exams they are grading. Exam numbers will be available in ExamSoft one to two weeks before the exam period. You must write this number on all of your exams and blue books, or as your identification number for typed exams. **DO NOT** write your name on your exam. Midterm exams and final exams have unique numbers. Save these numbers, as you will use the same number for all of your midterm and final exams respectively. New numbers are assigned each semester.

4. All examinations must be: (A) written in ink in 8 1/2 x 11 size "blue books," OR (B) typed on the student's laptop using the ExamSoft software. Students provide their own blue books, pens or laptops. The law school will supply answer sheets and pencils for any multiple choice exams.

5. If you are using a laptop:
   - Examplify (SofTest) is operable for PC's and Mac's. Please reference this site for the most up to date Minimum System Requirements, Examplify: Minimum System Requirements - ExamSoft
   - You must download the exam software (free for students) well in advance of the exam day.
   - Have your laptop set up and the software running in the designated room before the time to begin the exam.
   - Instructions for using the ExamSoft Examplify (SofTest) software are available at the Examsoft website (use Chrome or Firefox ONLY).
   - If you experience any problems with your computer during the exam, come to the front office immediately and someone will assist you.
   - Once you complete the exam, and have turned in your exam questions, be sure you receive the "upload successful" message to assure that your exam answers have been transmitted.

6. All exam reschedules must be approved by COL Assistant Dean, Lindsay Hoyt or the Registrar. You must meet the criteria published within the exam schedule to reschedule an exam, i.e., two exams on one day, three exams in three days, or four exams in five days. Fill out the exam reschedule request form and turn it into COL Registrar, Dave Bluemel. Please note, that if possible, an elective will be rescheduled rather than a large required class, and rescheduled to a later, rather than an earlier date.

7. Students who are handwriting their exams must return the exam questions and blue books to a staff member in the lobby outside the Dean's office at or before the time indicated on the exam. Laptop users should exit the exam software and turn in the exam questions to a staff member at or before the time indicated. It is your responsibility to determine the precise time the exam is to be returned and to ensure that you meet the deadline. Use the clock in the exam room for reference, not the clock that may appear on your computer or the time on your wristwatch.

8. During the exam, turn off (or leave outside the room) all cell phones, smart watches, pagers, and PDA's. Do not leave them on vibrate, as this may be disturbing to other students.

9. When you finish your exam, please be courteous/quiet as you gather your belongings and leave the exam room. **You MAY NOT** return to the room to gather your belongings after you have turned in your exam, unless it is after the collection time indicated on the exam. Be aware that students are taking exams in both the morning and the afternoon and are taking exams that have differing ending times -- so please curb your talking in the classroom areas and halls during the administration of exams.

10. If you cannot take the exam at the set time due to illness, or other emergency, you must notify Assistant Dean Lindsay Hoyt, as soon as possible, prior to the exam and be prepared to supply appropriate documentation.

11. Final grades will be available on WyoWeb. No grades will be given over the telephone.

**Final Exam Reschedule Policy**

No student is required to take exams in the following circumstances as long as they submit a reschedule form two weeks prior to the first day of exams:
• two exams on one day
• Three exams in three consecutive days
• four exams in five consecutive days

Students who have six final exams cannot be provided relief due to the limited number of exam days. Efforts will be made, however, to distribute the six exams so as to avoid three in a row. A student who meets the above criteria must see Assistant Dean Lindsay Hoyt to reschedule. Exams are not normally rescheduled outside of the regular exam period.

Disability Assistance

The University of Wyoming College of Law is committed to making its programs accessible to individuals with disabilities and ensuring a robust academic experience for all students. The College of Law works closely with the Disability Support Services office on the University's main campus to coordinate a variety of services for students with disabilities. The Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973 guarantee equal access to programs and services to those with disabilities. In order to be a qualified individual subject to the protections of these Acts, a person must demonstrate that he or she has a disability that substantially limits a major life activity (e.g., seeing, hearing, walking, breathing, performing manual tasks, learning, caring for oneself, and working) and, as such, requires a reasonable accommodation in order to have equal access. This section of the College of Law's policies explains a student's rights and responsibilities in seeking to receive accommodations from the College of Law because of a disability. The process and procedures outlined here apply to law school classroom accommodations, exam accommodations, and accommodations related to accessing the University's facilities.

I. Rights and Responsibilities in Requesting Reasonable Accommodations

A. Accommodation Request Deadlines

1. The deadlines for students requesting accommodations is 2 weeks before the start of the academic year or semester for classroom and exam accommodations.

2. Extensions to these deadlines may be granted to students who were unable to meet the deadline due to extenuating circumstances. Accommodations are prospective; retroactive accommodations are not available. For this reason, it is important that the student timely submit requests for accommodations.

B. Accommodation Process and Procedure for Classroom and Exam Accommodations

1. A student who believes that he or she has a qualifying disability warranting accommodation for academic programs, exams or access to the University's facilities should submit their requests for accommodations through the University of Wyoming's Disability Support Services (DSS), by contacting udss@uwyo.edu or 307 766-3073 or applying through the website found here: https://www.uwyo.edu/udss/.

2. The DSS application process is required and separate from any communication with College of Law staff. Students should not go directly to any faculty in an effort to arrange accommodations for disabilities.

3. Once the student submits the completed application and supporting medical documentation, DSS will review the documentation to verify the existence of a qualifying and make a decision regarding the student's eligibility for services. DSS also may request additional documentation at any time or may request that the student's physician or other licensed health professional speak directly to the DSS staff.

4. Following the determination that the student has a qualified disability, DSS and the Assistant Dean of the College of Law, as the designated liaison for the College and its faculty, will consult together to
make a determination regarding the student's requested accommodations related to the student's courses, exams, and access to university facilities.

5. A reasonable accommodation is an accommodation that does not impose an undue financial or administrative burden on the College of Law and does not fundamentally alter the nature of the educational service, program, or activity at the College of Law.

6. DSS is responsible for making determinations about reasonable accommodations after consulting with the Assistant Dean of the College of Law and will then notify the student by email of the decision to deny, grant, or partially grant or provide a reasonable alternative to the requested accommodations. This email is required prior to any accommodations being made.

7. Information regarding a student's disability and any accommodations provided shall be disclosed only when necessary in furtherance of the student's education or to individuals who have a need to know the information as determined by the University. As a general rule, when feasible, student anonymity will be maintained.

8. For any exam condition accommodations, DSS will notify the Assistant Dean of the College of Law who will oversee the implementation of the accommodation. DSS will also notify any other law school staff designated by the Assistant Dean of the College of Law who are needed to implement the accommodation (e.g., the designated testing coordinator, faculty, etc.). Students will be provided notice of the time and place of their accommodated testing by DSS.

9. For classroom accommodations, the Assistant Dean of the College of Law will oversee implementation of the accommodations and notify the faculty of the particular course if the accommodations provided affect the conduct of the class.

10. If a student is denied eligibility for DSS or requested reasonable accommodations, the student may request a review of these determinations by the Vice President for Student Affairs consistent with the process mentioned here: https://www.uwyo.edu/udss/laws-and-complaint-processes/if-and-when-you-disagree.html Students who have questions about the review process may contact DSS for more information. The Vice President for Student Affairs may consult with the Dean of the College of Law prior to making a final determination.

II. Rights and Responsibilities of the Student after Receiving Classroom and Exam Accommodations

A. A student must renew his or her request for accommodations each semester by meeting with DSS in order to determine whether new and different accommodations are necessary for the student's disability to be accommodated. Requests for classroom and exam accommodations must be made two weeks prior to the beginning of the semester. At these meetings, DSS may request that the student submit updated documentation verifying the nature and extent of the student's disability.

B. If a student's condition changes at any time, thereby affecting the nature and extent of his or her disability, the student must notify the DSS immediately and DSS will consult with the Assistant Dean of the College of Law, as the designated liaison for the College to engage in the interactive process set forth in section I(B)(4).

C. If there is a problem with any accommodations that a student receives, whether it is related to a course, an exam, or access to a facility, the student must promptly notify DSS who will coordinate with the Assistant Dean of the College of Law so that steps may be taken, to the extent practicable, to resolve the problem.

D. Communication via accommodations (including exam schedules and room assignments) will be made using the student's email account. A student is responsible for checking email on a timely basis to determine the status of any issue relating to the accommodation that has been put in place for a particular disability. If the student's disability prevents physical access to email, an alternative
method of communication will be determined in consultation with DSS, the College of Law, and the student.

**III. Requests for Accommodations Related to the College of Law Facilities**

Any requests for disability accommodations related to the College of Law buildings or University grounds may be initiated by contacting DSS or the Assistant Dean of the College. DSS and/or the College of Law will work collaboratively regarding any requests and may involve other campus units, including but not limited to the UW Operations, in order to process and/or implement reasonable accommodations related to the College of Law facilities.

**Joint Degree Programs**

*JD/MA in ENR Program*

A joint Juris Doctor/Master of Arts of Environment and Natural Resources degree is available to all admitted law students upon application. Students in this joint degree program must take 18 credits outside the law school in ENR courses, and must take 12 law school credits from a menu of ENR related law courses to qualify for this joint degree. Students in the joint degree program must also complete a supervised research project. Additionally, nine (9) credits of approved MA coursework (see Academic Regulations) will be applied to the Juris Doctor degree.

Current core courses: ENR 5000, ENR 5900, ENR 5890.

*JD/MBA Program*

A joint Juris Doctor/Master of Business Administration program is available in the College of Law and the College of Business. This program will take approximately four years to complete. Students spend three years on-campus engaged in law studies. In either their second or third year, students will be enrolled full-time in the MBA Program, taking core Fall and Spring business courses followed by participation in an MBA Summer Project. The MBA Capstone course will be completed during the student's third year for a total of 38 MBA Program credits. Nine (9) credit hours of approved Law coursework will be transferred as elective hours to the MBA Program for a total of 47 credit hours. Additionally, nine (9) credits of approved MBA coursework (see Academic Regulations) will be applied to the Juris Doctor degree. Students successfully completing this lock-step program will earn dual Juris Doctor and Masters of Business Administration degrees.

Current core courses: MBAM 5102, MBAM 5104, MBAM 5107, MBAM 5202, MBAM 5204, MBAM 5207, MBAM 5208, MBAM 5209, MBAM 5305, MBAM 5330.

*JD/MPA Program*

A student in the joint Juris Doctor/Master of Public Administration program must be admitted to both the College of Law and College of Arts and Sciences. The degrees are awarded concurrently by each college upon successful completion of the combined degree program requirements. In fulfillment of the J.D. degree, the College of Law will accept up to nine hours of MPA credits in courses approved by the law faculty (see Academic Regulations). In fulfillment of the MPA degree, the College of Arts and Sciences will accept up to 12 hours of credits earned in specified courses in the J.D. program. For additional information regarding these joint degree programs, contact the College of Law or the joint program of interest.

Current core courses: POLS 5000, POLS 5400, POLS 5410, POLS 5440, POLS 5684, POLS 5510, POLS 5690, POLS 5080, POLS 5060, POLS 5450, POLS 5460, POLS 5480
Nonprofessional Degree Students

Graduate students from other colleges of the University of Wyoming may be permitted to take one or more law courses on an S/U basis for non-law credit when the following conditions are met: the law course taken is acceptable for their degree program and the prior written approval of the professor assigned to the course and the Associate Dean or Assistant Dean has been obtained. In order to obtain audit or visitor privileges, students must obtain prior written approval of the professor assigned to the course and the Associate Dean or Assistant Dean. For further information and requirements contact the Associate Dean of Academic Affairs, College of Law, Dept. 3035, 1000 E. University Ave., Laramie, WY 82071.

Course descriptions may be obtained online at www.uwyo.edu/law.

Graduate

Juris Doctor

The goal of the College of Law is to provide a sound and thorough education in the law that will prepare the student to practice law in accordance with the highest standards of professional competence and responsibility.

Curriculum

Overall Hours

For students matriculating in or after the fall 2013 semester, each student must successfully complete (grade of "D-" or better for courses taken at this school, grade of "C" or better for courses taken elsewhere) 90 credit hours (required for graduation) in accordance with the official curriculum as adopted by the College of Law faculty. At least 59 of these credits must be completed at the University of Wyoming College of Law.

The College of Law automatically approves up to 9 hours of any joint degree core courses with the corresponding prefix to their joint degree (i.e. MBAM, POLS, ENR) that meet the grade requirement, of a letter grade of B or better, to transfer in toward their law degree. If additional courses are needed outside of these respective prefixes, these will be approved on a case by case basis. Those students enrolled in a joint degree program may take up to 9 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree.

Law A-F hours

Regardless of the matriculation date, students must complete at least 76 credit hours through graded (A-F) courses.

Those students enrolled in a joint degree program may take up to 9 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree. Students in a joint degree program who use 9 non-law credit hours toward their J.D. degree may reduce their required number of graded credits from 76 to 73 so that they can participate in other S/U offerings at the College of Law.

Required Courses: First (1L) Year Students
Fall Semester

**LAW6240 - Civil Procedure I**

Credits: 3  
Max Credit (Max. 3)

A study of modern practice in civil cases under Rules of Civil Procedure and other sources of procedural law. Civil Procedure I and its continuation, Civil Procedure II, cover all aspects of jurisdiction and other issues bearing on what court(s) may hear a case; choice of state or federal law; pleading; joinder of claims and parties; class actions; discovery and other pre-trial procedures; summary judgment; non-jury and jury trials; appeals; and claim and issue preclusion.

**LAW6110 - Contract I**

Credits: 3  
Max Credit (Max. 3)

A study of the elements of simple contracts, including offer and acceptance, consideration, conditions, defenses, and damages. The impact of the Uniform Commercial Code on contracts is considered.

**LAW6165 - Legal Research**

Credits: 1  
Max Credit (Max. 1)

Introduction to paper and electronic resources that cover primary & secondary legal materials, including case law, statutes, agency regulations for federal and state jurisdictions, & treatises, journals, restatements, and other secondary sources. Discusses research plans and develops brief research strategies for hypothetical situations.

**LAW6160 - Legal Writing I**

Credits: 3  
Max Credit (Max. 3)

In this course students are introduced to the fundamentals of legal reasoning and analysis and the basics of legal writing.

**LAW6120 - Property I**

Credits: 3  
Max Credit (Max. 4)

Covers two general areas. The first area is the rights that define property ownership, in relation to neighbors, the world, and others with interests in the property. Subjects include rights to use the land and its products, estates, concurrent ownership, and landlord-tenant law. The second area is private limitations on those rights, in the form of covenants and easements.

**LAW6130 - Torts I**
Study of the methods and policies for allocating risks of harm; intentionally inflicted harms; negligence in its general aspects and its application to products liability, landowners, and automobile traffic; emotional harms; defamation; and fraud. Principal areas of coverage typically include wrongful death, defenses, vicarious liability, strict liability, nuisance, products liability and defamation. If time permits we will also cover privacy, misrepresentation and other topics.

Spring Semester

**LAW6340 - Civil Procedure II**

Credits: 2  
Max Credit (Max. 2)

A study of modern practice in civil cases under Rules of Civil Procedure and other sources of procedural law. Civil Procedure I and its continuation, Civil Procedure II, cover all aspects of jurisdiction and other issues bearing on what court(s) may hear a case; choice of state or federal law; pleading; joinder of claims and parties; class actions; discovery and other pre-trial procedures; summary judgment; non-jury and jury trials; appeals; and claim and issue preclusion.

**LAW6250 - Constitutional Law I**

Credits: 3  
Max Credit (Max. 3)

Constitutional Law I is divided into two parts. Part I focuses on governmental structures. Part II begins our coverage of individual rights and liberties. Part I’s coverage includes the power of judicial review, separation of powers, federalism, and congressional powers. Part II focuses on equal protection.

**LAW6210 - Contracts II**

Credits: 2  
Max Credit (Max. 2)

A study of the elements of simple contracts, including offer and acceptance, consideration, conditions, defenses, and damages. The impact of the Uniform Commercial Code on contracts is considered.

**LAW6140 - Criminal Law**

Credits: 3  
Max Credit (Max. 3)

The sources of criminal law and the purposes of criminal punishment, the constituent parts of criminal conduct, including act (or omission), culpable mental state, result, and causation. These general principles are brought to bear on homicide and sexual assault. Also considers common defenses to criminal charges, including self-defense, necessity, duress, insanity, and intoxication. Students are required to consider the constitutional limits of the criminal law and the relationship of substantive principles to practice.

**LAW6260 - Legal Writing II**
This course builds on the first semester Legal Writing course by introducing students to: (1) more sophisticated aspects of legal reasoning, analysis and legal research; (2) the basics of persuasive legal writing; (3) the basics of appellate procedure and an appellate brief; and (4) the basics of oral advocacy.

**LAW6220 - Property II**

Credits: 2  
Max Credit (Max. 2)

First covers some private and public limitations on owners' property rights, primarily easements and zoning. The rest of the semester deals with acquiring ownership rights, possession and transfers, including the law relating to deeds and titles.

**Required Courses: Second (2L) Year Students**

(offered once per year)

**LAW6410 - Evidence**

Credits: 3  
Max Credit (Max. 3)

A study of the means by which any alleged fact is established or disproved, including competency of witnesses; direct examination; cross-examination and impeachment; privileges; basic and special issues of relevancy; the hearsay rule and its exceptions; real, demonstrative, and documentary evidence; opinion and scientific evidence; judicial notice; and the responsibility of proof.

**LAW6420 - Professional Responsibility**

Credits: 3  
Max Credit (Max. 3)

A study of the duties of attorneys to their clients and the public under the Model Rules of Professional Conduct and case law.

**Experiential Hours**

Each student must successfully complete no fewer than 6.0 credit hours in experiential learning courses:

**LAW6166 - Interview, Counseling and Negotiation**

Credits: 3  
Introduction to the basic lawyering skills of interviewing, fact investigation, counseling, and negotiation. Employs simulation exercises, self-critiques, and feedback from the faculty member as well as other students. In addition to the exercises, exposure to the theoretical underpinnings of the skills and examine some of the ethical issues involved in creating and maintaining professional relationships with clients and opposing parties and counsel.
LAW6560 - Business Planning

Credits: 3
Max Credit (Max. 3)

Focus is primarily on a problem involving several persons who are organizing a business entity. Consideration will be given to the characteristics of several kinds of business organizations and to making a judgment as to which organization should be used to house the business being set up. Considers tax and non-tax aspects with respect to business organizations.

LAW6565 - Civil Pretrial Practice

Credits: 3
Max Credit (Max. 3)

Includes the civil litigation process from the filing of a complaint and decisions related to the complaint, to discovery including written discovery and depositions, to pre-trial motions such as motions to change venue, to exclude evidence, and for summary judgment, to preparation for pre-trial conferences and trial. Sample cases provide the basis for the drafting of various discovery documents and motions. There will be no exam.

LAW6670 - Estate Planning

Credits: 2
Max Credit (Max. 2)

Applies estate and gift tax principles in a survey of estate planning principles and techniques. Traditional estate planning tools including wills, trusts, and durable powers of attorney are discussed as well as post-mortem planning, administration issues, and planning for special situations, such as owners of closely held businesses, entrepreneurs, and the disabled.

LAW6850 - Trial Practice

Credits: 3
Max Credit (Max. 3)

Trial Practice is a rigorous learn-by-doing course designed to build courtroom skills. Through a combination of exercises, lectures, demonstrations, drills and complete trials, students are prepared to advocate before judges and juries. The first half of the course focuses on basic examination and exhibit skills, including direct, cross, redirect, making and responding to objections, and the introduction and use of real and demonstrative evidence. In the sixth week, students conduct bench trials. The second half of the course builds on the basic skills and covers advanced ones, including examination of expert witnesses, opening statement, closing argument and voir dire. Jury trials are conducted in the final two weeks.

LAW6930 - Legal Clinic

Credits: 2-3
Max Credit (Max. 6)

Supervised clinical training in law office and court procedures. Clinical programs available are the Defender Aid Program, Legal Services Program, and the Prosecution Assistance Program.
Prerequisite: Students must have completed first year of law school.

LAW6931 - Clinic: Civil Legal Services

Credits: 3
Max Credit (Max. 12)

The Civil Legal Services Clinic has provided legal assistance to Wyoming citizens for over 20 years. Students represent low-income and marginalized individuals across the state who could not otherwise afford legal representation. The CLSC's mission is to provide legal services in a broad range of general civil legal matters.

LAW6932 - Clinic: Defender Aid

Credits: 3
Max Credit (Max. 12)

Provides representation to indigent persons in Wyoming state and federal courts. We represent clients pending trial, on direct appeal from their convictions, and handle post-conviction matters in state and federal court.

LAW6933 - Clinic: Energy, Environment and Natural Resources

Credits: 3
Max Credit (Max. 12)

Fall: Classroom component of the Clinic will provide a practitioner's view of key aspects of federal court litigation practice in cases involving natural resources issues. Spring: Clinic will provide an overview of the Wyoming Administrative Procedure Act and the Wyoming statutes that govern the regulation of energy production, environmental protection, and natural resources management in Wyoming.

LAW6934 - Clinic: Family and Child Advocacy

Credits: 3
Max Credit (Max. 12)

Handle a wide array of cases including divorce, child custody, domestic violence protection orders, stalking orders, guardian ad litem appointments in juvenile and domestic relations cases, and other family law matters. In addition, law students represent children or their parents in child abuse and neglect cases, termination of parental rights, children in need of supervision and delinquency actions.

LAW6935 - Contract Drafting

Credits: 3
Max Credit (Max. 3)

 Covers fact investigation and the role of the lawyer in a transaction proposed by the client, including possible negotiations with other parties; drafting a contract in Plain English; and the ethical obligations of a transactional lawyer, through simulations and problem-solving exercises.

Prerequisite: LAW 6110.
LAW6936 - Clinic: Prosecution Assistance

Credits: 3
Max Credit (Max. 12)

The program is heavily involved with the Wyoming Attorney General's office, usually in representing the state in criminal appeals before the Wyoming Supreme Court. In handling these appeals, students are responsible for the entire preparation of appellate briefs and the presentation of oral argument to the Supreme Court.

LAW6937 - Estate Planning Practicum

Credits: 3
Max Credit (Max. 12)

Provides students the opportunity to work with low-income clients around the State of Wyoming in a transactional law setting. Prepare wills, powers of attorney, advance health care directives, deeds, affidavits of distribution and other probate documents for small estates and will learn how to plan an estate for beneficiaries who are minors or who have special needs.

LAW6960 - Legal Externships

Credits: 1-3
Max Credit (Max. 6)

The externship program provides second and third year students with an opportunity to learn through practice by working directly with attorneys or judges for academic credit. Externship placements are limited to judges, government agencies and nonprofit organizations, and must be pre-approved by the College of Law faculty.

LAW6925 - Advanced Persuasive Writing

Credits: 3
Max Credit (Max. 3)

Art and science of written legal persuasion. Specifically, course explores the nature of legal persuasion from the standpoints of numerous disciplines, including classical rhetoric, psychology, literary theory, and morality theory, and based on these principles, covers specific strategies lawyers can use to make their writing more persuasive.

Prerequisite: LAW 6160 and LAW 6260, and completion of first year of law school.

LAW6992 - Advanced Oil and Gas Law

Credits: 3

Simulate the work of an oil and gas attorney. Explore oil and gas financing arrangements including the farmout, JOA, and productions sharing agreements, drilling and service agreements, downstream marketing and purchase agreements, conveyances of oil and gas real property interests, the purchase and sale of petroleum properties, oil and gas development on federal lands, and title examination.

Prerequisite: C or better in LAW 6790.
Advanced Writing

As a condition of graduation, all students must complete an upper-level writing requirement.

Elective Courses:

Second (2L) & Third (3L) Year Students (* subject to availability);

See Law Courses section

Juris Doctor/Master of Arts in Environment and Natural Resources

Students working toward the J.D./M.A. in ENR consult a Haub School advisor to design a program of study tailored to meet their educational goals.

Academic Regulations

A joint Juris Doctor/Master of Arts of Environment and Natural Resources degree is available to all admitted law students upon application. Students in this joint degree program must take 18 credits outside the law school in ENR courses, and must take 12 law school credits from a menu of ENR-related law courses to qualify for this joint degree. Students in the joint degree program must also complete a supervised research project. Additionally, nine (9) credits of approved MA coursework (see Academic Regulations) will be applied to the Juris Doctor degree. Current core courses: ENR 5100, ENR 5900, ENR 5890, ENR 5750.

Juris Doctor

The Juris Doctor requirements are found here: Juris Doctor

Environmental & Natural Resources, J.D./M.A.

Here is where you will find the requirements for the Environment & Natural Resources, J.D./M.A.

Juris Doctor/Master of Business Administration

The Juris Doctor/MBA program offered with the UW Colleges of Law and Business provides students with a high ROI. Optimize time and money spent by pursuing this dual program and tapping into quality education, networking, and career possibilities.

Academic Regulations

A dual Juris Doctor/Master of Business Administration program is available in the College of Law and the College of Business. This program will take approximately four years to complete. Students spend three years on-campus engaged in law studies. In their second year, students will be enrolled full-time in the MBA Program taking required core business courses during the Fall, Spring, and Summer as well as participating in additional required program activities (orientation, Experiential Leadership Program, Jackson Leadership Summit, MBA Executive Speaker Series,
Professional Development activities, etc.). The MBA Capstone course will be the final course completed in the summer term for a total of up to 36 MBA program credits. Nine (9) credit hours of approved coursework will be transferred as elective hours to the Juris Doctor degree and up to six (6) credit hours of approved coursework will be transferred as elective hours to the MBA degree. Students successfully completing this dual program will earn dual Juris Doctor and Masters of Business Administration degrees.

Current Core Courses:

**MBAM5101 - MBA Foundations**

Credits: 1
The purpose of this course is to prepare students for the academic rigors of the MBA program.

**Restricted** Enrollment in MBAM or MBAF degree program.

**Prerequisite:** Admission to full-time MBA program.

**MBAM5102 - Operations Management**

Credits: 3
Production and operations management. Topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, and scheduling.

**Prerequisite:** Admission to the MBAM program.

**MBAM5104 - Organization Behavior and Human Resource Management**

Credits: 3
Enables students to recognize psychological phenomena influencing individual, group & organizational behavior and helps them understand different HRM functions and how HRM fits within the overall organization's strategy.

**Restricted** Admitted to MBA, MBAE or MBAF program.

**Prerequisite:** Admission to the MBAM program.

**MBAM5107 - Decision Making I**

Credits: 1
This course develops a systematic process for making decisions in complex business situations, by integrating six dimensions of business risk: competitive, financial, organizational, legal, social, and ethical. The process combines analytical and ethical reasoning methods that compensate for the flawed decision making common in business organizations.

**Prerequisite:** Admission to the MBAM program.
MBAM5202 - Data and Decision Modeling

Credits: 3
This course will prepare students to use computer-based models for solving problems in the areas of operations, finance, supply chain, and marketing by using tools associated with predictive and prescriptive data analytics including, but not limited to forecasting, optimization modeling, and Monte Carlo simulation. #304.

Prerequisite: Admission to the MBAM program.

MBAM5204 - Financial Management

Credits: 3
Students taking this course should expect to learn the fundamentals principles of environmental influences on corporate financial decision-making and measurement devices useful in corporate financial management. Provides an in-depth understanding of the financial manager's role in a corporate setting and exposes students to other aspects of finance in the economy. #304.

Prerequisite: Admission to the MBAM program.

MBAM5207 - Marketing Management

Credits: 3
Provide an in-depth understanding of marketing management. Marketing managers are responsible for co-creating customer value for a sustained competitive advantage.

Restricted Admitted to MBA, MBAE or MBAF program.

Prerequisite: Admission to the MBAM program.

MBAM5208 - Managerial Accounting

Credits: 3
This course introduces concepts and methodologies of managerial accounting focusing on the use of accounting information for internal decision-making purposes. The primary objective is to learn how cost-based information is used to make informed business decisions for strategic planning and control as well as performance evaluation of business decisions.

Prerequisite: Admission to the MBAM program.

MBAM5209 - Decision Making II

Credits: 1
An experiential learning course that builds on MBAM 5107. Students apply systematic business decision making process to real-world business situations. Student teams work directly with owners and managers of Wyoming companies to address their strategic, competitive, operational, financial, and/or administrative challenges in real time.
Prerequisite: MBAM 5107.

**MBAM5305 - Strategic Management**

Credits: 3
Business strategy is a core function of executive leadership. Students learn methods, models and frameworks for formulating business and corporate level strategies for assessing and sustaining competitive advantage in dynamic and global business environments. Students master these tools through in-depth application and analysis of business programs resulting in strategic recommendations.

Prerequisite: Admission to the MBAM program. #304.

**MBAM5330 - Global Business Environment**

Credits: 3  
Max Credit 3

Introduction to international business through theoretical and applied macroeconomics and the environment in which global business occurs. Focuses on interest/exchange rates; effects of culture on consumers and organizational environments; product/information flows; budget/trade balances; organizations central to a functioning global economy; demand/fulfillment; and legal/ethical issues.

Restricted Admission to the MBA, MBAE, or MBAF program.

Prerequisite: Admission to the MBA program, or permission from the MBA Program Director.

**Juris Doctor**

The Juris Doctor requirements are found here: Juris Doctor

**MBA**

Here is where you will find information on the Business Administration, M.B.A.

**Juris Doctor/Master of Public Administration**

The Master's in Public Administration degree offered at the University of Wyoming is considered an ethics based program where complicated issues of administrative decision making are the hallmarks of professional life.

**Academic Regulations**

A student in the joint Juris Doctor/Master of Public Administration program must be admitted to both the College of Law and College of Arts and Sciences. The degrees are awarded concurrently by each college upon successful completion of the combined degree program requirements. In fulfillment of the J.D. degree, the College of Law will accept up to nine hours of MPA credits in courses approved by the law faculty (see Academic Regulations).
fulfillment of the MPA degree, the College of Arts and Sciences will accept up to 12 hours of credits earned in specified courses in the J.D. program. For additional information regarding these joint degree programs, contact the College of Law or the joint program of interest.

Juris Doctor

The Juris Doctor requirements are found here: Juris Doctor

MPA/JD

Geospatial Information Science and Technology

Wyoming Geographic Information Science Center
337 Agriculture C Building

Ramesh Sivanpillai, Program Director
(307)766-2532
Web site: www.uwyo.edu/WyGISC

The Wyoming Geographic Information Science Center (WyGISC) offers undergraduate and graduate courses, degrees, and certificates in Geospatial Information Science and Technology under the GIST prefix. These provide fundamental geospatial science education to undergraduate and graduate students from across disciplines at UW and are appropriate for science and non-science majors. They cover core and advanced geospatial concepts and subdisciplines including Geographic Information Systems (GIS), remote sensing, spatial data analysis, spatial visualization, spatial databases, cartography, programming, and other topics.

Faculty:

PADDINGTON HODZA, BSC, University of Zimbabwe, 1994; MSC, University of Zimbabwe, 1998; Ph.D. West Virginia University, 2007; Associate Research Scientist 2016, 2013.

AUSTIN MADSON, B.A. University of California, Los Angeles 2012; M.A. 2015; Ph.D. 2020; Assistant Professor of Geospatial Information Science and Technology 2021.
Geographic Information Science and Technology

Degrees and Certificates

GIST degrees and certificates include a Bachelor of Science Degree in GIST (to launch Fall 2022 contingent on demonstration of student demand), undergraduate certificates in GIST and Remote Sensing, each of which can contribute to the B.S. degree; a Research Master's Degree (with thesis), an online Professional Master's Degree (no thesis), and three online graduate certificates, in GIST, Remote Sensing, and Unmanned Aerial Systems (UAS, a.k.a. drones).

Drawing on expertise from geography, computer science, mathematics, statistics, psychology, design, and others, geospatial information science refers to the multi-disciplinary research enterprise that addresses the nature of geospatial information and the application of geospatial technologies to scientific questions. Geospatial information technology is a specialized set of information and communication technologies that support the acquisition, management, analysis, and visualization of geo-referenced data. Examples include: geographic information systems; global navigation satellite systems; and satellite, airborne, drone-based, shipboard and ground-based remote sensing and image processing systems.

Successful students in Geospatial Information Science and Technology (GIST) combine proficiency in spatial thinking and geospatial data science analysis with fluency in geographic information systems, remote sensing, data analytics, and visualization. As professionals, graduates apply their knowledge and skills in a wide range of fields, from environmental management and public health, to civil engineering and urban planning, to economic analysis and marketing.

Any courses listed in degree plans that are not described in the GIST course list are under development and will be added in future catalogs as they are approved.

Undergraduate Certificates

Undergraduate certificates in GIS and Remote Sensing provide a means of adding credentials to your degree that reflect expertise in geospatial science.

Graduate Certificates

Graduate certificates provide a means for students and professionals to earn marketable credentials over the course of 1-2 semesters. These certificates require a combination of core and elective courses as outlined below and will be delivered primarily online.
Geospatial Information Science with Thesis, Research M.S.

The Research Master of Science degree (with thesis) is delivered mainly on the UW campus but with many online courses. Students work with a graduate advisor who will guide their thesis research and chair their graduate committee. This degree requires a combination of core and elective courses that can be completed in 2 years.

Program Specific Admission Requirements

In addition to University of Wyoming graduate admission requirements, prospective students for the Research Master of Science Degree are required to submit a statement of purpose describing their background and interest in the degree, a CV or resume, and two letters of recommendation addressing their potential for success in this master's program. Students are encouraged to initiate correspondence with a faculty member who shares their research interests before applying.

Semester 1

GIST5150 - Advanced Programming in Spatial Sciences

Credits: 3
Introduces GIS programming to motivated students with little or no prior experience in programming; students develop programming skills used to understand geospatial data and to model geographical changes. Programming skills for handling emerging data types are emphasized.

GIST5200 - Geographic Visualization

Credits: 3
This online lecture and lab course emphasizes advanced theory and hands-on practice for creating applying interactive, dynamic, and multidimensional graphical representations of geographic data. Students will be introduced to web programming to allow them to develop mobile and online visualization tools.

GIST5050 - Basics of Spatial Data Science

Credits: 3
Centers on the role of information technology in support of scientific research. Through integration of multiple software packages (e.g. Relational databases, ProgramR and ArcGIS), proven database designs, and SQL scripting, increased efficiency and utility will occur during data analyses. These information science principles are demonstrated using project-based examples.

Former Course Number GEOG 5050 Restricted Grad students only

Semester 2

- GIST Elective Credits 6

GIST5220 - Spatial Modeling & Data Analysis
Credits: 3
Using raster modeling, hybrid vector/raster approaches, and geo-computational techniques, this course will explore a variety of modeling concepts and related issues. This course will examine a variety of both practical and theoretical issues, with special emphasis on understanding spatial questions that are not readily addressed by basic GIS. We will also consider issues related to error, resolution, scale, and a variety of other factors.

Former Course Number GEOG 5220

Semester 3

- GIST Electives Credits: 9

Semester 4

GIST5002 - Geospatial Forum

Credits: 1
Students attend a geospatial sciences speaker series and contribute by presenting their proposed or completed research to faculty and other students in a professional manner analogous to presenting scientific research at professional meetings.

- GIST 5960 - Thesis Research Credits: 4-12

Geospatial Information Science without Thesis, Professional M.S.

The Professional Master of Science Degree (no thesis) is delivered online. It provides a pathway for traditional students and professionals to earn a graduate credential in 2 years, but students may choose to take longer depending on their professional or personal time constraints.

Program Specific Admission Requirements

In addition to University of Wyoming graduate admission requirements, prospective students for the Professional Master of Science Degree are required to submit a statement of purpose describing their background and interest in the degree and a CV or resume.

Course Sequence

Semester 1

GIST5050 - Basics of Spatial Data Science

Credits: 3
Centers on the role of information technology in support of scientific research. Through integration of multiple software packages (e.g. Relational databases, ProgramR and ArcGIS), proven database designs, and SQL scripting, increased efficiency and utility will occur during data analyses. These information science principles are
demonstrated using project-based examples.

**Former Course Number** GEOG 5050 | **Restricted** Grad students only

**GIST5150 - Advanced Programming in Spatial Sciences**

**Credits:** 3  
Introduces GIS programming to motivated students with little or no prior experience in programming; students develop programming skills used to understand geospatial data and to model geographical changes. Programming skills for handling emerging data types are emphasized.

**GIST5200 - Geographic Visualization**

**Credits:** 3  
This online lecture and lab course emphasizes advanced theory and hands-on practice for creating applying interactive, dynamic, and multidimensional graphical representations of geographic data. Students will be introduced to web programming to allow them to develop mobile and online visualization tools.

**GIST5280 - Navigating GIST Professions**

**Credits:** 1  
An introduction to work in the geospatial profession for online GIST master's program students. Focus is on workplace, management and occupation-specific competencies across and within specific domain application areas. Topics include evaluation and appropriate use of technology and data, developing career pathway options, the role of professional certification, and the value of continuing education and professional network connections.

**Semester 2**

- GIST Electives Credits: 6

**GIST5220 - Spatial Modeling & Data Analysis**

**Credits:** 3  
Using raster modeling, hybrid vector/raster approaches, and geo-computational techniques, this course will explore a variety of modeling concepts and related issues. This course will examine a variety of both practical and theoretical issues, with special emphasis on understanding spatial questions that are not readily addressed by basic GIS. We will also consider issues related to error, resolution, scale, and a variety of other factors.

**Former Course Number** GEOG 5220

**Semester 3**

- GIST Electives Credits: 3

**GIST5300 - Web Mapping and Internet GIS**
Credits: 3
With a combination of lecture-based information and hands-on lab exercises, students learn to design, develop, and implement web- and internet-based GIS and mapping applications. Commonly used web and internet GIS tools are used, and students learn to assess the quality, utility, and legal aspects of web GIS products.

**GIST5350 - Enterprise GIS**

Credits: 3
This course provides a comprehensive overview of the design, development, and management of enterprise GIS platforms. In addition to learning about enterprise architecture, students set up cloud services for managing, sharing, and processing spatial data using proprietary and open source tools.

**GIST5002 - Geospatial Forum**

Credits: 1
Students attend a geospatial sciences speaker series and contribute by presenting their proposed or completed research to faculty and other students in a professional manner analogous to presenting scientific research at professional meetings.

Semester 4

- GIST 5780 Credits: 3

**GIST5002 - Geospatial Forum**

Credits: 1
Students attend a geospatial sciences speaker series and contribute by presenting their proposed or completed research to faculty and other students in a professional manner analogous to presenting scientific research at professional meetings.

**Certificate**

**Geospatial Information Science and Technology Graduate Certificate**

This 15-credit graduate certificate gives you a rigorous academic credential in GIS that includes exposure to fundamental and advanced concepts and the chance to pursue your own interests with generous elective opportunities.

**Core (9 Credits)**

**GIST5050 - Basics of Spatial Data Science**

Credits: 3
Centers on the role of information technology in support of scientific research. Through integration of multiple software packages (e.g. Relational databases, ProgramR and ArcGIS), proven database designs, and SQL scripting, increased efficiency and utility will occur during data analyses. These information science principles are demonstrated using project-based examples.
Former Course Number GEOG 5050 | Restricted Grad students only

GIST5150 - Advanced Programming in Spatial Sciences

Credits: 3
Introduces GIS programming to motivated students with little or no prior experience in programming; students develop programming skills used to understand geospatial data and to model geographical changes. Programming skills for handling emerging data types are emphasized.

GIST5220 - Spatial Modeling & Data Analysis

Credits: 3
Using raster modeling, hybrid vector/raster approaches, and geo-computational techniques, this course will explore a variety of modeling concepts and related issues. This course will examine a variety of both practical and theoretical issues, with special emphasis on understanding spatial questions that are not readily addressed by basic GIS. We will also consider issues related to error, resolution, scale, and a variety of other factors.

Former Course Number GEOG 5220

Electives (6 Credits)

- Choose from other GIST courses (see M.S. courses) or interdisciplinary courses

Total: 15 Credits

Remote Sensing Graduate Certificate

Remote sensing scientists use data collected by satellites, aircraft, and Unmanned Aerial Systems (drones) to address questions important for agriculture, natural resource and wildlife management, global change science, energy development and other applications. From Google Earth to complex spectral analysis, remote sensing is playing an increasingly important role in many fields. This 15-credit online graduate certificate teaches you the fundamentals of remote sensing and digital image processing, and the freedom to use elective courses to pursue your own interests in related topics.

Core (6 Credits)

- BOT 5111 - Introduction to Remote Sensing of the Environment Credits: 3
  OR

GIST5111 - Introduction to Remote Sensing

Credits: 3
Combined online lecture and laboratory course introduces students to fundamental principles and techniques of remote sensing and the application of digital satellite and aerial imagery to the study of the earth's surface. Includes hands-on application of digital imaging processing techniques discussed in lecture.
Former Course Number [BOT 5111; GEOG 5111]

GIST5120 - Integration of RS and GIS Data

Credits: 3
Many geospatial analyses involve combining remotely sensed (RS) data and products with other geospatial data stored in GIS. This 3-credit online course will overview the topics pertaining to the integration of RS data in raster format with GIS data stored in vector format.

Prerequisite: graduate standing.

Electives (9 Credits)

- Choose from other remote sensing and UAS courses or interdisciplinary RS courses

Total: 15 Credits

Undergraduate Certificate in GIS

Undergraduate certificate in GIS provides a means of adding credentials to your degree that reflect expertise in geospatial science.

Core (10 credits)

GIST2310 - Intro to Geographic Information Systems

Credits: 4
Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.

Former Course Number GIST 2100

GIST2200 - Spatial Data Visualization

Credits: 3
Covers fundamental principles, concepts, and applications of spatial data visualization. Students will learn to find, understand, and act on spatial patterns, associations and trends, and to use and critique powerful graphical representations of spatial data including 3D maps, web maps, interactive graphics, and animations.

GIST2190 - Intro to Programming
Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

**Former Course Number** GIST 2150

**Undergraduate Certificate in Remote Sensing**

Undergraduate certificate in Remote Sensing provides a means of adding credentials to your degree that reflect expertise in geospatial science.

**Undergraduate Certificate in Remote Sensing Core (3 credits)**

**GIST3140 - Introduction to Remote Sensing**

Credits: 3
This is a combined lecture and computer lab course designed to present the physical principles of remote sensing, the application of airborne and satellite imagery to the study of the earth’s surface with an emphasis on vegetation, and the hands-on application or remote sensing principles using digital image processing.

USP 2003-2014 Code Q

**Former Course Number** GIST 3111

**Electives (6 credits)**

Select any remote sensing or UAS courses (6 credits)

**Total: (9 credits)**

**Unmanned Aerial Systems Graduate Certificate**

In this certificate program, you will learn to safely use Unmanned Aerial Systems (drones) and to collect and process geospatial data acquired by them. Demand for professionals trained to operate drones and process drone imagery is growing rapidly in agriculture, natural resource management, construction, energy, transportation, business, and many other fields. A significant aspect of this 11-credit online graduate certificate (with a 2-credit, field-based flight school) is to prepare you to become an FAA certified pilot and to use industry-standard image processing techniques.

**Core (8 Credits)**

**GIST5410 - UAS Sensors and Platforms**

Credits: 1
This 1-credit online course taught over 8 weeks provides a detailed overview of the types of drones used for modern remote sensing and of the sensors that can be used with these different drone platforms to collect data, including RGB and multi-spectral cameras, thermal sensors, and lidar.
Dual Listed GIST 4410.

GIST5420 - UAS Mission Planning

Credits: 1
This 1-credit online course provides a detailed overview of mission planning for UAS (drone) data collection. Students learn to evaluate mission requirements for a variety of UAS applications, to choose appropriate hardware to accomplish these requirements, and to use mission planning software to translate requirements into flight plans and data collection strategies.

Dual Listed GIST 4420.

GIST5430 - UAS Regulations and Safety

Credits: 1
This 1-credit online course taught over 8 weeks provides students with a detailed overview of federal, state, and local regulations pertaining to UAS flights and data collection. Students also learn about how to operate drones safely in both personal and professional applications. Course content helps prepare students for FAA remote pilot certification.

Dual Listed GIST 4430.

GIST5440 - UAS Ground School and Operations

Credits: 2
This field course provides students with the practical experience to operate UAS (drones) safely, legally, and effectively for collecting data to be used in a variety of applications. Students learn about pertinent safety and regulations, and then spend much of the course time flying drones in the field and collecting data.

Dual Listed GIST 4440.

GIST5450 - UAS Photogrammetry and Imagery Process

Credits: 3
This 3-credit online course provides overviews of the photogrammetric principles related to imagery data acquired by unmanned aerial vehicles or drones, and the image processing techniques used for extracting information from the drone images. Students will gain experience in processing drone imagery collected with RGB cameras and multi-spectral sensors.

Dual Listed GIST 4450.
Prerequisite: graduate standing or approval from the instructor.

Electives (3 Credits)

(may be optional for some graduate students, depending on their program of study)
Choose from remote sensing courses or interdisciplinary UAS applications courses

Total: 8-11 Credits

Information Literacy

Information Literacy

Coe Library 304  
Phone: (307) 766-5313

The University Libraries offer research assistance and information literacy instruction to students and faculty. Librarians provide customized class orientations to information sources in every discipline, as well as individual research consultations. Students needing research help may call, text, email, instant message, or visit any library branch.

The University of Wyoming addresses information competencies utilizing the Framework for Information Literacy for Higher Education as approved by the Association of College & Research Libraries (ACRL) and endorsed by the American Association for Higher Education. Librarians collaborate with teaching faculty in addressing these information competencies in course assignments or lectures. Information literacy is the ability to recognize and define the need for information, then locate, evaluate, and use that information effectively and ethically.

Information literacy learning outcomes are included in University Studies First Year Seminar (FYS) and Communication (COM) courses and are similar to the critical thinking learning outcomes in the H, PN, and V courses.

The Libraries also offer credit courses to help students improve research skills and to meet the Communications 2 requirement of the University Studies Program.

Learning Outcomes

We expect that students completing LBRY courses will become knowledgeable consumers of information through learning how to:

1. Recognize and define the need for information;
2. Efficiently locate information in the library or on the Internet;
3. Evaluate the quality of information;
4. Utilize information effectively, ethically, and legally.

Librarians

Associate Librarians

JANICE GROVER, B.A. University of Wyoming 2005; M.L.S. Emporia State University 2009; M.A. University of Wyoming 2017; Associate Librarian 2021.

Assistant Librarians

SAMANTHA PETER, B.A. University of Wyoming 2016; M.S.I.S. University of Texas at Austin 2018; Assistant Librarian 2018.

JESSICA RARDIN, B.A. Beloit College 2013; M.L.I.S. University of Wisconsin-Milwaukee 2021; Assistant Librarian 2021.

Interdisciplinary Programs

Biomedical Sciences, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website http://www.uwyo.edu/biomedphd/
Email: bms@uwyo.edu

Program Director: Sreejayan Nair, Ph.D.

Degree Offered

Ph.D. in Biomedical Sciences

Biomedical sciences is the study of human biological processes; the complex interactions between physiological, genetic and environmental factors that influence disease and health. It spans the spectrum from fundamental discovery to innovation and application.

Areas of focus may include but not limited to cardiac health, nutrition, reproductive biology, toxicology, diagnostic & imaging and medical engineering.

The PhD program in biomedical sciences is designed to position graduates for long-term competitive success in the rapidly changing and multifaceted health-related arena in the 21st century. It is a comprehensive, interdisciplinary
Program, making connections between various disciplines to gain new insights, discover and apply new knowledge, and promote self-directed, life-long learning.

Biomedical Sciences is a research & discovery focused program balancing depth and breadth of content knowledge with "enabling" skills including problem solving, innovation, entrepreneurship, communication and leadership.

**Program Specific Admission Requirements**

1. **Minimum requirements.** Applicants who do not meet the minimum requirements may be conditionally accepted at the discretion of the BMS Admission Committee. Please submit the application packet comprising the following documents for pre-admission screening:

   a. **Faculty sponsor.** Contact potential biomedical sciences graduate program faculty sponsor in your area of interest prior to submitting an application. NOTE: a letter indicating the sponsorship by a faculty is strongly recommended as the program does not have sufficient number of graduate assistantships to support all students.

   b. **Official academic transcripts.** Successful completion of a bachelor's degree from an accredited institution with one or more semesters of biology, physics, anatomy, physiology, chemistry, biochemistry/molecular biology, math are recommended. All applicants should have at least a 3.0 cumulative GPA (scale of 4.0). While a master's degree is not required for admissions into the biomedical sciences Ph.D. program, a master's degree with a strong background in the research area of focus is a plus.

   c. **TOEFL/IELTS/Duolingo:** The minimum acceptable scores are 540 (76 iBT) and 6.5 for TOEFL and IELTS respectively. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, United Kingdom, and the United States. Due to COVID-19 related postponements/ cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency, until further notice.

   d. **GRE:** A composite minimum score of 291 on the verbal and quantitative sections of the GRE is recommended. The GRE may be waived at the discretion of the admission committee if the applicant already possesses a master's degree, and/or documented research accomplishment in the chosen discipline.

   e. **Three letters of recommendation.**

   f. **Statement of research interests and career objectives.** A letter stating research & career interests and goals, prior research experience and outcomes, reasons for interest in BMS program. Include your contact information in the letter.

   g. **Current professional resume**

2. **Application Process.** The BMS admissions committee reviews the completed application.

   a. Contact faculty in your area of interest and obtain their endorsement. Faculty may choose to interview the candidate on-campus or via zoom.

   b. Submit your application materials (pdf files of cover letter/statement of purpose, letter of sponsorship from the faculty, three letters of reference, transcripts, TOEFL/GRE scores to the admissions office via the University's admission portal.

   c. To ensure full application review for fall semester admission, applications should be received by **February 15.**
d. Review by BMS Admissions Committee.

e. Forward application packet with BMS recommendation to the faculty and host department.

f. Notification of decision to applicant by May 1.

Program of Study

Rationale: The program of study is designed according to student learning goals and research opportunities. It blends depth and breadth of preparation by providing broad core requirements with electives promoting specialization in a "parent" discipline. This is recognized on program documentation by a Doctorate in Biomedical Sciences/"specialization" area. For example, Doctorate in Biomedical Sciences/Reproductive Biology.

Student Learning Outcomes: The BMS program provides unique array of formal courses and informal discovery experiences focused on ensuring aptitudes, behaviors, and skills necessary for leadership and competitive success in the biomedical science arena.

Although the foundation enabling innovative, independent thinking and knowledge discovery is deep discipline knowledge, the BMS program is also designed to promote student competency in information assessment, synthesis and integration, communication and translation to the broader community, teamwork, leadership, and project management.

The BMS program trains graduates to be competent, skilled experimentalists, problem solvers, critical and independent thinkers, expert in their field, with both depth and breadth of knowledge.

In addition, the program aims to instill characteristics that are essential to long-term professional success, preparing scientists who are effective and dedicated mentors and teachers, organized administrators, exemplars of high ethical standards, and effective collaborators.

Upon completion of the program, graduates will demonstrate:

- Independent, critical thinking skills
- Ability to identify appropriate biographical resources
- Knowledge of recent advances in discipline and related areas
- Understanding of a broad spectrum of research methodologies and their applications
- Ability to critically analyze research findings
- Ability to design and independently execute research
- Ability to use appropriate information technology to record, manage, and disseminate information
- Understanding of issues related to researcher and subject rights
- Motivation and aptitude needed to acquire knowledge
- Communication skills that are appropriate for a range of audiences and purposes
- Ability to construct and articulate arguments to a wide range of audiences
- Ability to effectively support the acquisition of knowledge by others when teaching or mentoring students
- Willingness to assume responsibility for their work
- Ability to design and teach undergraduate or graduate courses
- Ability to publish single/first authored papers in peer-reviewed journals.

Program in Ecology, Ph.D. Program

Office of Graduate Education
Old Main 310
Program Director: Melanie Murphy, Ph.D.

Degree Offered

Ph.D. in Ecology

The Program in Ecology prepares doctoral students to lead the discipline of ecology during the coming decades. The program is grounded in the natural history of organisms in their environment, but incorporates tools and perspectives from across the biological, physical, mathematical, computational, and earth sciences. Students develop conceptual, historical, and philosophical perspectives spanning the entire range of subdisciplines in ecology, while receiving advanced training in the subdiscipline of their individual interest.

The program fosters long-term career development by exploring the linkages of ecology with other disciplines, and by scanning the ecological horizon for emerging questions, concepts, and approaches that will shape the field in years to come.

Faculty members from 11 departments and 3 colleges participate in the Program in Ecology. Their interests span the full range of topics covered in the field of ecology, and students in the program reflect this diversity.

Program Specific Admission Requirements

The Program in Ecology (PiE) is an interdisciplinary graduate program leading to the Doctor of Philosophy degree in Ecology. Students and faculty from multiple departments and colleges at the University of Wyoming participate in the Program. Graduate students admitted to the Program will have a home department, which will typically be the home department of the respective committee chair or co-chair. Those interested in graduate study in this program, are encouraged to contact individual faculty members in the potential student's area of interest (http://www.uwyo.edu/pie/who_we_are/faculty.html) and the Program in Ecology (307-766-4128; ecology@uwyo.edu) for more information and guidance regarding applying.

In order to apply:
1) **Contact:** Identify a faculty advisor (all PiE students must be sponsored by a faculty advisor (http://www.uwyo.edu/pie/who_we_are/faculty.html)). These contacts are generally made in the fall the year before submission, but successful contacts may be made later. 2) **Admission to home department:** Apply to the University of Wyoming via the online application system (http://www.uwyo.edu/admissions/apply.html): letter of intent, CV, transcripts, and three letters of recommendation. For department, please select the department of the potential advisor. A minimum of three letters of recommendation are required and up to two additional letters may be submitted. A suggested deadline for application is January 31 to be considered for fall admission, but applications will be continued to be considered. A minimum of a 3.0 undergraduate cumulative GPA is required for admission or MS degree. International applicants, who are not native English-speakers, must submit TOEFL (recommended minimum 525) or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (http://www.uwyo.edu/elc/) if you have questions regarding the English proficiency requirements. 3) **Admission to PiE:** Submit a letter of interest to the Program in Ecology (ecology@uwyo.edu), stating explicitly why you would wish to be considered for PiE and identifying the faculty advisor immediately after completing your online application. Admission to PiE requires admission is predicated on admission to home department. All applications to the Program will be reviewed by the Graduate Affairs Committee, which has authority on admissions. Students applying to the Program who lack a Master's degree must show exceptional promise and commitment (e.g., through undergraduate or post-graduate research experiences, peer-reviewed publications, and/or success in competing for
research fellowships). Such students are encouraged to consult with their prospective advisor on whether to apply directly to PiE or to Master's programs in individual home departments of PiE faculty.

Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the Program. Students who wish to transfer into the Program from department-based doctoral programs must submit a formal application and must satisfy all the admission requirements specified above. Such application will consist of copies of all the application materials originally submitted to the program in which the student is currently enrolled, as well as a letter of recommendation from their prospective PiE advisor. In addition, they must submit a letter stating their reasons for seeking this transfer. All applications will be reviewed by the Graduate Affairs Committee. In addition, the following apply to transfer students:

- Students enrolled in departmental programs who have not yet taken their preliminary examinations may pursue the PhD in Ecology provided they (a) appoint an Advisory Committee under Program rules before they take their preliminary examinations, and (b) fulfill the curricular requirements.
- Students who have been admitted to departmental programs, and who have already taken their preliminary examinations, may pursue the PhD in Ecology provided they (a) appoint an Advisory Committee under Program rules within one month of admission to the Program, and (b) fulfill the curricular requirements. The student's Advisory Committee has the option of requiring a new preliminary examination.

Program Specific Degree Requirements

Advisory Committee

Before the end of the second semester of study, the student should nominate a (minimum) five-member advisory committee to the Office of the Registrar. At least three members of the committee, including the committee chair (usually the student's adviser), will be members of the PiE faculty. One other member, who will serve as Graduate Faculty representative, must be from outside the home department of the major adviser, although (s)he can be a faculty member in a department that participates in the program and/or a faculty member of PiE. The committee will advise the student on his/her program of graduate study, execute and evaluate the student's preliminary examination, evaluate the student's dissertation proposal and dissertation, and conduct the student's dissertation defense.

Program of Study

All students are required to take ECOL 5100 or equivalent. This course should be taken during the first year of residency. Exceptions or substitutions of these requirements are subject to approval by the graduate affairs committee.

The program of study must include at least 6 credit hours aimed at developing a tool skill, which except for rare cases shall be in the quantitative/analytical domain (e.g., statistics, modeling, GIS, remote sensing, bioinformatics). Courses relating to research tools should be taken early in the student's residency to ensure that they can be used in thesis research and advanced studies. Specific coursework and tool-skill development for the student's program of study will be developed in consultation with and subject to approval by the student's advisory committee.

Admission to Candidacy

Admission to candidacy for the Ph.D. requires two steps: 1) providing evidence that the student is prepared to identify a research question, design an approach for investigating that question, and a plan for executing the approach, all in the format of an NSF-style research proposal, and 2) illustrating adequate proficiency in the subject matter of ecology through a process involving both written and oral exams.

Proposal
Students must submit a NSF-style proposal to their committee outlining their project, typically by the end of the fourth semester. Each committee member will provide feedback to the student on the proposed research and indicate approval of the proposal or request revision. The proposal must be approved by all committee members prior to starting the preliminary exams.

While this proposal should be a plan for actual dissertation research, unforeseen circumstances may require altering the student's dissertation work after the proposal has been approved by the committee. In the case of a major alteration, the student should reformulate a research plan and submit it to the committee in writing for committee approval.

**Preliminary Exam**

Passing the preliminary exam is the official admission to candidacy.

*Written Portion of the Preliminary Exam.* The student will take the written exam portion of the preliminary exam no fewer than two weeks following approval of the research proposal. The goal of this exam is to test breadth of knowledge in ecology. The design of this exam will be coordinated by the graduate committee under the leadership of the adviser. Each written exam will cover the following topics:

- Ecological topics ranging from organismal/evolutionary to ecosystem-level perspectives, integrating concepts and perspectives from across the discipline, over a wide range of spatial and temporal scales.
- The philosophical and historical development of ecology.
- The conceptual background of the student's area of specialization.

The exam will consist of four to six questions developed collectively by the committee and organized by the student's major professor. The exam will be open book; however, the answers will be solely the work of the student. Answers should be fully cited and collectively should be no longer than 30 pages double-spaced exclusive of references cited. Students will have one full week (seven days) to complete the exam. Committee members will indicate pass/fail within one week following completion of written exams. Four of five passing votes are required.

*Oral Portion of the Preliminary Exam.* No sooner than two weeks after successfully passing the written exam, the student may proceed to an oral exam administered by his/her graduate committee. Oral exams center around three goals from which questions will be derived:

- To verify that the student is prepared, conceptually and methodologically, to carry out successful dissertation research.
- To evaluate the student's ability to conceptualize specific questions in a broad, integrative context.
- To evaluate the student's ability to think spontaneously and creatively and to articulate responses about unexpected or novel questions.

The advisory committee will discuss and organize specific questions based on these goals in a short session at the beginning of the exam period before admitting the student to the examination room and starting the exam. Following the exam each committee member will provide non-binding paper votes of pass/fail for each of the three goals of the oral exam. Following discussion of the student's performance, committee members will each assign a grade of pass/fail for the overall exam. Four of five committee members must vote for passing the overall oral exam.

Students whose performance is unsatisfactory will be given one opportunity for retaking the oral examination. This retake will occur no later than the academic-year semester following the first examination.

**Public Seminars**
Students are required to give two oral presentations on their research. The purposes of these presentations are to provide the student with practice in oral presentations and to keep the PiE community informed of the student's progress. The first will describe the student's dissertation research proposal. This presentation will be given before the student submits his/her thesis proposal. The second presentation will summarize the student's completed dissertation research, and will normally be given the same semester as the student's dissertation defense. Under extraordinary circumstances (subject to approval by the Graduate Affairs Committee), this presentation may be given at an earlier time. These presentations must be open to the public, and may comprise part of a departmental or Program in Ecology seminar or brown-bag series.

**Hydrologic Sciences (WRESE), Ph.D. Program**

Office of Graduate Education  
Old Main 310  
Phone: (307) 766-4128  
Website: http://www.uwyo.edu/wrese  
E-mail: wrese@uwyo.edu

**Program Director: Andrew D. Parsekian, Ph.D.**

**Degree Offered**

**Ph.D. in Hydrologic Sciences**

The Water Resources/Environmental Science and Engineering (WRESE) program facilitates Ph.D. level course offerings in water-related disciplines, and coordinates offerings of these courses. Furthermore, the WRESE program serves as a focal-point for water-related graduate research and education at the University of Wyoming.

This interdisciplinary degree program encourages cross-department and inter-college coordination for research and education in hydrology and water resources.

The WRESE Program grants a PhD in Hydrological Sciences.

**Program Specific Admission Requirements**

**Ph.D. in Hydrologic Sciences**

The WRESE Program only admits students seeking a doctoral degree.

Those interested in graduate study in this program, are encouraged to contact the WRESE program (wrese@uwyo.edu) for more information and guidance regarding applying. In order to apply, please submit an application to the program via the University of Wyoming's online application system (http://www.uwyo.edu/admissions/apply.html). Prospective students applying to the WRESE program must satisfy the minimum criteria for admission of their advisor's home department (i.e., number of reference letters required; minimum GRE scores, if requested; other supporting documents, if requested; etc.). Similarly, applicants should adhere to the submission deadline indicated by their advisor's home department.

Minimum criteria for admission to the WRESE Program are:

- Minimum undergraduate GPA of 3.000
- Agreement by a faculty member affiliated with the WRESE program to sponsor the student
• Admission to a home department at the University of Wyoming
Typically, students admitted into the program will have previously obtained a Masters-level degree. Under certain
circumstance, students may be admitted directly after an undergraduate degree if they show exceptional promise and
commitment. Students already admitted to doctoral programs in individual departments at the University of Wyoming
may apply to transfer to the WRESE program.

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international
applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an
Oral Proficiency Interview (OPI). Please contact the UW English Language Center (http://www.uwyo.edu/elc/) if you
have questions regarding the English proficiency requirements.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the
UW Catalog for more information.

Program Specific Degree Requirements

Students in the WRESE Program are expected to create their graduate committee within the first year of study. The
committee should be composed of three faculty members within the PhD program in Hydrology and 2 should be from
the student's departmental home. A committee shall be composed of no fewer than 5 members, of which only one may
be from outside the University. Additional committee members may be added to support the student's learning and
objectives on the discretion of the committee and WRESE Program chair.

Program of Study

Students enrolled in the Program should complete their Program of Study within the first 3 semesters. The student shall
work with his/her research advisor and committee to determine the appropriate course of study relative to the student's
research agenda. Students are expected to complete a rigorous course of study in quantitative hydrological sciences.
Minimum requirements for the PhD include:

• Coursework credits: 42 hours (26 can be from an MS)
• Total credits: 72 hours
• Math expectations: students are encouraged to pursue a high level of math proficiency, with typical students
progressing through differential equations. Individual math expectations will be determined by the committee
and program chair.

A dissertation proposal should be approved by the end of the 4th semester. Students shall submit their proposal to their
committee for review two weeks prior to a holding a committee meeting where the student (a) presents their proposal in
a public presentation and (b) defends the proposal to the committee in a closed meeting. After the meeting, the student
shall amend the proposal as required by the committee within a timely manner.

Admission to Candidacy / Preliminary Examination

Advance to candidacy is attained by passing preliminary exams within 3 years of initiating a degree program. Students
should complete their preliminary exams as close to the end of their primary coursework as possible. Preliminary
exams consist of two parts. The first part is a written examination wherein committee members shall submit written
questions to the student. Once the student has passed their written exams, they will be administered an oral
examination.

The written exam shall be administered by the student's research adviser, who will coordinate the questions so as to
obtain a comprehensive review of the student's knowledge of the materials the student has learned in the classroom and
needs to complete his/her research topic. Written questions should cover both conceptual and theoretical underpinnings
in hydrological sciences and technical questions related to the student's research area.
The written exam will consist of a series of questions as decided upon by the committee and should take no more than two weeks to complete.

Each committee member shall grade their portion of the exam as pass/fail. The student shall be viewed as passing the written exam if no more than one person grades their portion of the exam as failing.

The oral examination will be held no sooner than two weeks after the written exams, and only after the student has passed their written examinations. The oral exam should be no less than 90 minutes long and no longer than 3 hours.

Following the exam, each committee member must vote pass/fail. The student will be deemed as passing if they receive no more than one failing vote.

**Dissertation**

The student will prepare a dissertation and make the document available to the committee at least two weeks in advance of an oral defense of the document. The oral defense must be at least 15 weeks after the student has been advanced to candidacy. Students shall present a public defense to the university community that is expected to be approximately 45 minutes long, with a public question-and-answer period after the presentation. If the committee determines that the student has presented a suitable oral presentation of his/her research findings, a closed session meeting will be held in which the student defends their research to the committee. At the conclusion of the defense, each committee member must vote pass/fail. The student will be deemed as passing if they receive no more than one failing vote.

**Other information:**

Students in the WRESE Program may participate from any college, with the expectation that their program of study and dissertation will focus on quantitative issues of hydrology and water resources. The Program welcomes academic diversity, and students in WRESE have entered into the Program from a wide range of academic backgrounds and have hailed from numerous home departments, including Ecosystem Science and Management, Civil and Architectural Engineering, Botany, Zoology and Physiology, and Geology and Geophysics.

**Molecular and Cellular Life Sciences, Ph.D. Program**

Office of Graduate Education  
Old Main 310  
Phone: (307) 766-4128  
Website: http://www.uwyo.edu/mcls/  
Email: mcls@uwyo.edu

**Program Director: Daniel Levy, Ph.D.**

**Degree Offered**

**Ph.D. in Molecular and Cellular Life Sciences**

This interdisciplinary program with more than 30 faculty participants spans a wide range of research topics, such as:

Biotechnology-bioengineering, biomaterials, pharmacology, cell biology and signaling, genetics and development, genomics, proteomics, computational biology, microbiology and infectious disease, structural biology, and biophysics.

Coursework focuses on core courses in biochemistry and molecular biology, with electives that include such diverse courses as:
Topics in Genomics, Biophysics, Microbial Physiology and Metabolism, Cell and Developmental Genetics, Mass Spectrometry and Analytical Chemistry, Biomedical Engineering, Mammalian Endocrinology, Cell Culture and Virology, Introduction to Bioinformatics, Protein Structure and Function, Microbial Genetics, Computational Biology, and Quantitative Microscopy.

Program Specific Admission Requirements

1. Applicants should apply through the online graduate application link. This process requires uploading a statement of purpose, a CV, academic transcripts, and test scores. The statement of purpose should include a brief narrative that describes the applicant's motivation to pursue graduate studies in the life sciences, relevant experiences, and specific reasons for applying to the MCLS program at the University of Wyoming. The program does not adhere to strict test score minimums, however, for international applicants minimum suggested scores are 540 (76 iBT) and 6.5 for TOEFL and IELTS, respectively. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries will be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, United Kingdom, and the United States. Due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores of 110 or higher as proof of English proficiency until further notice. More information for international applicants can be found on the University of Wyoming graduate admissions website. The application also requests that three reference letters be submitted in support of the candidate's application. Completed applications are due on January 1.

2. The MCLS admissions committee reviews completed applications starting in early January of each application cycle. Promising applications are selected based on research experience, grades, test scores, and reference letters. The most compelling statements of purpose convincingly describe why the applicant is interested in pursuing graduate studies in the life sciences, detailing relevant past research experience and how it has prepared the student for PhD studies. Reference letters that include specific details and anecdotes about the applicant are most useful. The committee generally looks for grades of B or better in life science and chemistry courses, although lower grades can be balanced by a sufficiently strong research background. Successful applicants will be notified of admission decisions by May 1 at the latest, although the majority of decisions will be made by March 15.

3. Following the initial reviews, selected applicants are invited for a Zoom interview. Applicants will be provided with a primary research paper that they should read in preparation for the interview.

4. Zoom interviews are conducted with at least two members of the admissions committee. Applicants are asked a variety of questions, including why they are interested in the MCLS program, how their previous research experience has prepared them for PhD studies, their perceived strengths and weaknesses as a scientist, and future career goals. The interviewers also ask questions about the research paper and more general molecular biology questions to determine if the applicants have a sufficiently strong background to succeed in the MCLS program.

5. Shortly after the interview sessions, the MCLS admissions committee discusses the results of the Zoom interviews and ranks applicants for offers of admission, conditional upon approval by the Office of Admissions.

Program Specific Degree Requirements

MCLS doctoral students must fulfill the minimum requirements outlined by the university. In addition, students must obtain a high level of proficiency in the core foundations of the molecular and cellular life sciences through required courses in biochemistry/ molecular biology, scientific literature analysis proficiency, and the MCLS cornerstone course. Because of the broad range of research interests pursued by MCLS faculty and students, considerable flexibility will be exercised regarding the specific nature of the graduate level elective courses that students may take. Students must successfully complete four eight-week rotations in MCLS laboratories of their choice during the first year. Additionally, students must pass a comprehensive assessment exam at the end of the first year. Near the end of
their second year in the program, students will undertake a qualifying examination in order to be formally admitted to graduate degree candidacy. This exam will have both written and oral components and will cover areas of science that are relevant to the students’ proposed research. Annual meetings with a research-specific dissertation committee will facilitate and evaluate the research progress of MCLS students beginning in the second year. Students must also attend weekly outside seminars on topics in the molecular life sciences for the durations of their studies. For more information, please see the program's Website at: http://www.uwo.edu/MCLS/.

Neuroscience, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: http://www.uwo.edu/neuroscience/
Email: neuroscience@uwyo.edu

Program Director: Kara Pratt, Ph.D.

Degree Offered

Ph.D. in Neuroscience

The Graduate Neuroscience Program offers training leading to the Ph.D. degree in Neuroscience. The Neuroscience Program emphasizes systems and integrative approaches, and our goal is to provide the students with the necessary background to be broadly trained research neuroscientists and to carry out independent research in neuroscience. The Neuroscience Program emphasizes continuing interaction with faculty from several departments and we have a low student to faculty ratio. Advisors spend considerable time supervising and training each doctoral student. The educational philosophy of the Neuroscience Program is to encourage a problem-oriented rather than a strict discipline-bound approach to research. You will emerge from this program with the scientific and experimental training needed to comprehensively address a very wide range of research questions using a variety of techniques and analytic tools.

The Graduate Neuroscience Program is designed to enable graduate students to acquire competence in the various disciplines necessary for research and teaching careers in neuroscience. The current interests of the Neuroscience faculty include sensory neurophysiology, behavioral neuropharmacology, neurodevelopment, neurodegeneration, and synaptic plasticity.

Students and faculty have access to outstanding resources established by NIH Neuroscience and Sensory Biology Core grants. The Microscopy Core houses both light (Zeiss laser scanning, fluorescent) and electron (Transmission and Scanning) microscopes. Resources needed to conduct research ranging from molecular, cellular circuit level to behavior are readily available within the Neuroscience Center.

Program Specific Admission Requirements

Steps for applying to the Program in Neuroscience:

Step 1: Contact faculty whose research is of interest.
Although not mandatory, applicants are encouraged to read through the faculty research summaries to identify faculty that they are interested in training with. It is strongly recommended that prospective students contact individual faculty for more information regarding their research programs and openings in their laboratories before submitting an application. This initial step is recommended because, due to the limited availability of Graduate Assistantships (GA's), graduate students are oftentimes recruited directly into a laboratory and supported straight away by the advisor's NIH or NSF funding.

Step 2: Submit the online application packet via the University of Wyoming's online application system (http://www.uwyo.edu/admissions/apply.html).

For full consideration for fall and spring admissions, applications should be submitted by January 1 and June 30, respectively. The application packet is comprised of the following items:

- Application form
- Official academic transcripts: Applicants should have at least a 3.0 cumulative GPA (scale of 4.0), and a bachelor's degree in a discipline that is related to neuroscience such as biology, psychology, physiology, chemistry, physics, or chemical or bioengineering. We encourage motivated applicants from degrees in diverse areas that are interested in transitioning to neuroscience. Students with an MS degree in neuroscience or related fields are also encouraged to apply.
- GRE scores: Accepted but not required
- Three letters of recommendation
- TOEFL/IELTS: For international students whose native language is not English. The minimum acceptable scores are 550 (79 iBT) and 6.5 for TOEFL and IELTS, respectively. (The University of Wyoming's school code for TOEFL = 4855.)
- Personal statement: A 1-3 page personal statement describing the student's motivation for pursuing a PhD in the field of neuroscience. Please describe areas of interest and any specific research topics or techniques with which you have experience. If your interests are still broad, indicate your general interests and graduate training goals.
- We are also interested in learning about your long-term career goals. What do you aspire to do after graduation? What are you specifically interested in the University of Wyoming? Finally, if you have established a potential faculty advisor (step 1), this should be clearly stated here in the personal statement.

Step 3: The interview

The graduate advisory committee reviews submitted application packets. Only complete packets are reviewed. Applicants deemed strong by the committee will be invited to participate in either an in-person or virtual (via zoom or phone) interview. The interview allows for the committee to learn more about the applicant, and, likewise, for the applicant to interview the committee.

Step 4: Verification of admittance by UW Admissions Office. Applicants that are chosen for admission to the Program in Neuroscience will then be requested to complete the application process through the University of Wyoming Admissions Department. Eligibility for enrollment will be verified by the UW Admissions Office, including the receipt of official transcripts and documents.

Program Specific Degree Requirements

Doctoral Program

All doctoral Neuroscience students are required to complete a program of core classwork that includes the following required courses: Introduction to Neuroscience, Structure and Function of the Nervous System and Neurophysiology. Students are required to take one course in Statistics (e.g. STAT 5050, STAT 5210) and the course that meets this requirement will be arranged with the student's committee. The statistics requirement must be met by the end of the second year. The Neuroscience Program is a research-oriented program and students are expected to take a minimum of 2 to 3 credit hours of research per semester. Students are also expected to enroll in an on-going Seminar in
Neuroscience. The Neuroscience Seminar, which meets weekly and is attended by students and faculty members, provides an opportunity for intellectual and social exchange, as well as for the development of professional skills in critical thinking. The topic for seminar and the faculty member directing the seminar changes each semester. The remainder of the coursework for the doctor of philosophy degree is selected from designated courses in Neuroscience, physiology, pharmacology, and molecular biology. A grade of B or better is required for all Neuroscience courses.

A student is expected to have a graduate adviser at all times. The faculty adviser must be a participating member of the Neuroscience faculty. The adviser is responsible for directing the student's research and academic coursework. During the second year, the student will have an advisory committee. The advisory committee will consist of at least three neuroscience faculty members and an outside member. Normally, the student's adviser will chair the committee and help identify members of the committee who best match the student's area of interest. The role of the advisory committee is to oversee all aspects of the student's education after the first year.

In the student's second or third year, the advisory committee will set and evaluate the student's qualifying examination. After successful completion of the preliminary examination the student will profess to Ph.D. candidate status.

The dissertation is the single most important component of the graduate program. It reports the results and significance of the student's research. In addition to the written dissertation, the doctoral candidate will deliver a formal seminar based on their research. The seminar will be followed by an examination by the student's advisory committee.

**Science and Mathematics Teaching Center Master's Degrees**

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: http://www.uwyo.edu/smtc/
Email: smtc@uwyo.edu

**Program Director: Sylvia Parker**

The Science and Mathematics Teaching Center (SMTC) was established in 1970 and is committed to excellence in science, mathematics, technology and STEM education. As part of the Office of Graduate Education in Academic Affairs, the SMTC, in cooperation with the Wyoming Department of Education (WDE) and the Professional Teaching Standards Board (PTSB), serves as a resource and professional development center for the state. The SMTC offers transdisciplinary graduate degree programs with multiple degree concentrations, certification options, and endorsement options. All of the programs emphasize both strong content knowledge and instructional practices. The affiliate faculty for the SMTC includes faculty from the Colleges of Agriculture and Natural Resources, Arts and Science, Education, and Engineering and Applied Science, and the Haub School of Environment and Natural Sciences.

The SMTC provides extensive off-campus professional development that serves teachers, students, administrators, school districts and communities throughout Wyoming and the region. SMTC in-service and extension courses, workshops, institutes, and conferences are designed collaboratively to improve science and mathematics teaching in Wyoming.

The SMTC administers and supports five master's degree programs:

(1) the Master of Science degrees in Natural Science with concentrations in Middle Level Math (MMA) and
(2) Middle Level Science (MSC); these programs are designed for Wyoming's in-service elementary, middle, and high school teachers. They focus on general science and mathematics content with an emphasis on teaching middle school level learners. The course work leads to middle level endorsement provided by the Wyoming PTSB. Teachers must have two years of teaching experience to participate in these programs.

(3) Master of Science in Teaching - Natural Science (MST - Natural Science). This is a self-directed master's degree program working with the SMTC, SER, and the Haub School as well as other colleges. The program is developed individually with the guidance of a graduate committee based on the interests of the graduate student. This program may be used by teachers to take the 18 graduate-level credits often needed to teach Advanced Placement and community college courses.

(4) Master of Science - Natural Science (MS - Natural Science). This is a self-directed master's degree program working with the SMTC, the College of Arts and Sciences, SER, and the Haub School and other colleges. The program is developed individually based on the interests of the graduate student and may emphasize formal or informal learning settings. Interdisciplinary study is encouraged.

(5) Master of Science in Natural Science with a concentration in Natural Science Education (NED). This Master's degree program is designed for students pursuing careers as environmental and natural science educators in non-public school or non-formal education settings. These students spend one year at the Teton Science Schools (TSS) in Jackson. A long-standing MOU between the SMTC and TSS allows students to use 15 graduate credit hours earned at TSS towards a master's degree if they are accepted into the second year at UW within the SMTC.

**SMTC Student Learner Outcomes**

Upon successful completion of the MS degree program in Natural Science, a student will be able to:

- Engage in teacher research to transform STEM instruction:
  - Design and implement a research project that asks and answers a question using appropriate materials, concepts and methods, and ethical practices, and
  - Effectively communicate all aspects of the research project in both oral and written forms.

- Use professional and academic standards to ensure high-quality interdisciplinary instruction (i.e., place-based, culturally relevant, and/or social justice pedagogy) to maximize learning for all students.

- Engage in mathematical and/or scientific discourse and scientific thinking as active participants in communities of practice.

- Use emerging technology and science investigations as tools to engage students.

**Program Specific Admission Requirements**

For the MSC, MMA, MST and MS-Natural Science Master's Degrees:

- Two years of teaching experience and a valid teaching license (required for MSC and MMA; may be waived for MST and MS-Natural Science)
- Application Fee, unless a UW Graduate
- Official Transcripts from all Institutions attended and Bachelor Degree conferring institution
3.0 undergraduate grade point average; provisional admission with a lesser GPA only with consent from Academic Affairs

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence (These items are not required of applicants who hold a prior master's degree)

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from the teacher's principal and two other colleagues.

The NED Degree - First Year Application:

Official Transcripts from all institutions attended and Bachelor Degree conferring institution Application Fee, unless a UW Graduate

Acceptance and admission by the Graduate Program at the Teton Science Schools in Jackson, WY

The NED Degree - Second Year Application:

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from a TSS Graduate Program Faculty Member, one from another TSS employee such as a Classroom Instructor or Field Instructor, and one from the first year application

Applicants complete a UW graduate application and upload all of the information on the Admissions Office website (http://www.uwyo.edu/admissions/apply.html). Application packets are reviewed by SMTC Admissions Committees and recommendations for admissions are submitted to the University of Wyoming Admissions Office. Any of the above requirements plus the university's minimum 3.00 grade point average may be waived if proper documentation and reasoning are given by the SMTC and approved by the Associate Vice Provost of Graduate Education.

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (http://www.uwyo.edu/elc/) for more information.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Application Due Dates for Master of Science - Natural Science with Concentrations in the following areas:

Middle-level Science (MSC): applications are accepted on an ongoing basis; new students may begin only in summer each year; final due date for admission in summer is April 1.

Middle-level Mathematics (MMA): applications are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.
Natural Science Education (NED): applications deadlines for Year 1 are established by Teton Science Schools (https://www.tetonscience.org/programs/graduate-program/admissions/); due date for admission to begin Year 2 in the fall at UW is February 1.

MST and the MS- Natural Science Masters Degree: applications for these self-designed programs are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

**Graduate Assistantships and Scholarships**

The SMTC often has scholarships and graduate assistantships available for graduates accepted for the above Master's degree programs. More information upon admission and acceptance.

**Graduate**

**Biomedical Sciences, Ph.D.**

The Biomedical Sciences graduate program seeks to provide the students with a unique research training environment to integrate a variety of scientific approaches to address complex health-related challenges.

**Additional Information**

**Biomedical Sciences, Ph.D. Program**

Office of Graduate Education  
Old Main 310  
Phone: (307) 766-4128  
Website http://www.uwyo.edu/biomedphd/  
Email: bms@uwyo.edu

**Program Director: Sreejayan Nair, Ph.D.**

**Degree Offered**

**Ph.D. in Biomedical Sciences**

Biomedical sciences is the study of human biological processes; the complex interactions between physiological, genetic and environmental factors that influence disease and health. It spans the spectrum from fundamental discovery to innovation and application.

Areas of focus may include but not limited to cardiac health, nutrition, reproductive biology, toxicology, diagnostic & imaging and medical engineering.

The PhD program in biomedical sciences is designed to position graduates for long-term competitive success in the rapidly changing and multifaceted health-related arena in the 21st century. It is a comprehensive, interdisciplinary program, making connections between various disciplines to gain new insights, discover and apply new knowledge, and promote self-directed, life-long learning.
Biomedical Sciences is a research & discovery focused program balancing depth and breadth of content knowledge with "enabling" skills including problem solving, innovation, entrepreneurship, communication and leadership.

Admission to the Biomedical Sciences PhD Program

1. Minimum requirements. Applicants who do not meet the minimum requirements may be conditionally accepted at the discretion of the BMS Admission Committee. Please submit the application packet comprising the following documents for pre-admission screening:

a. Faculty sponsor. Contact potential biomedical sciences graduate program faculty sponsor in your area of interest prior to submitting an application. NOTE: a letter indicating the sponsorship by a faculty is strongly recommended as the program does not have sufficient number of graduate assistantships to support all students.

b. Official academic transcripts. Successful completion of a bachelor's degree from an accredited institution with one or more semesters of biology, physics, anatomy, physiology, chemistry, biochemistry/molecular biology, math are recommended. All applicants should have at least a 3.0 cumulative GPA (scale of 4.0). While a master's degree is not required for admissions into the biomedical sciences Ph.D. program, a master's degree with a strong background in the research area of focus is a plus.

c. TOEFL/IELTS/Duoling: The minimum acceptable scores are 540 (76 iBT) and 6.5 for TOEFL and IELTS respectively. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, United Kingdom, and the United States. Due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency, until further notice.

d. GRE: A composite minimum score of 291 on the verbal and quantitative sections of the GRE is recommended. The GRE may be waived at the discretion of the admission committee if the applicant already possesses a master's degree, and/or documented research accomplishment in the chosen discipline.

e. Three letters of recommendation.

f. Statement of research interests and career objectives. A letter stating research & career interests and goals, prior research experience and outcomes, reasons for interest in BMS program. Include your contact information in the letter.

g. Current professional resume

2. Application Process. The BMS admissions committee reviews the completed application.

a. Contact faculty in your area of interest and obtain their endorsement. Faculty may choose to interview the candidate on-campus or via zoom.

b. Submit your application materials (pdf files of cover letter/statement of purpose, letter of sponsorship from the faculty, three letters of reference, transcripts, TOEFL/GRE scores to the admissions office via the University's admission portal.

c. To ensure full application review for fall semester admission, applications should be received by February 15.

d. Review by BMS Admissions Committee.
e. Forward application packet with BMS recommendation to the faculty and host department.

f. Notification of decision to applicant by May 1.

Program of Study

Rationale: The program of study is designed according to student learning goals and research opportunities. It blends depth and breadth of preparation by providing broad core requirements with electives promoting specialization in a "parent" discipline. This is recognized on program documentation by a Doctorate in Biomedical Sciences/"specialization" area. For example, Doctorate in Biomedical Sciences/Reproductive Biology.

Student Learning Outcomes: The BMS program provides unique array of formal courses and informal discovery experiences focused on ensuring aptitudes, behaviors and skills necessary for leadership and competitive success in the biomedical science arena.

Although the foundation enabling innovative, independent thinking and knowledge discovery is deep discipline knowledge, the BMS program is also designed to promote student competency in information assessment, synthesis and integration, communication and translation to the broader community, teamwork, leadership and project management.

The BMS program trains graduates to be competent, skilled experimentalists, problem solvers, critical and independent thinkers, expert in their field, with both depth and breadth of knowledge.

In addition, the program aims to instill characteristics that are essential to long-term professional success, preparing scientists who are effective and dedicated mentors and teachers, organized administrators, exemplars of high ethical standards, and effective collaborators. Upon completion of the program, graduates will demonstrate:

- Independent, critical thinking skills
- Ability to identify appropriate biographical resources
- Knowledge of recent advances in discipline and related areas
- Understanding of a broad spectrum of research methodologies and their applications
- Ability to critically analyze research findings
- Ability to design and independently execute research
- Ability to use appropriate information technology to record, manage, and disseminate information
- Understanding of issues related to researcher and subject rights
- Motivation and aptitude needed to acquire knowledge
- Communication skills that are appropriate for a range of audiences and purposes
- Ability to construct and articulate arguments to a wide range of audiences
- Ability to effectively support the acquisition of knowledge by others when teaching or mentoring students
- Willingness to assume responsibility for their work
- Ability to design and teach undergraduate or graduate courses
- Ability to publish single/first authored papers in peer-reviewed journals

Additional Course Information:

The BMS Ph.D. program requires a minimum of 72 hours of credit from UW or another approved university. At least 42 hours of the 72 hours minimum must be earned in formal classroom courses. Twelve hours of credit at 4000-level coursework are permitted towards this. This 72-hour requirement may include graduate credits earned while working toward the M.S. degree in the same area but in that case, at least 42 hours of the 72 must be earned through formal coursework. Additional credits toward the 72-hour requirement will comprise mainly or entirely of Dissertation
Research (BMS 5980) credits. As indicated above, to be considered a full-time graduate student at the University of Wyoming students must be signed up for 9 credit hours each semester.

**Required course work (12 credits):**

- Biomedical Sciences Research ethics (2 credits)
- Graduate-level Physiology course (3 credits)
- Epidemiology (3 credits)
- Interdisciplinary Seminar in Biomedical Science (1 credit)
- Beyond the Bench: Fundamental Skill Sets for Biomed. Researchers (3 Credits)

**Three courses from the following list (9 credits):**

- STAT 5050 (or other statistics course; 3 credits)
- MOLB 5600, General Biochemistry (3 credits)
- BIOL 4600, Cell Biology (4 credits)
- MOLB 5670, Develop. & Molecular Cell Biology (3 credits)
- PHCY 6230, Pharmacology I (4 credits)

**Recommended Program Electives (9 Credits)**

- KIN 5025, Exercise Physiology (3 credits)
- KIN 5047, Research Biomechanics (3 credits)
- FCSC 5145 Advanced Nutrition (4 credits)
- FCSC 5147 Nutrition and Weight Control (3 credits)
- KIN 5062, Applied Concepts in Human Aging (3 credits)
- CHE 5100, Biomedical Engineering (3 credits)
- PATB 5510, Introduction to Virology (3 credits)
- HLSC 4700, Health Informatics (3 credits)
- HLSC/MOLB 4520, Public Health Issues in Developing Countries (3 credits)
- HLSC/MOLB 4530 Global Experience in Public Health (2 credits)
- HLSC/MOLB 4310 Foundations of Scholarship and Discovery (1 credit)
Concentration Area (12 credits)

Research/Dissertation (remaining): Students are expected to conduct research leading to a publishable dissertation. While publication expectations are determined largely by the major advisor, it is required that one manuscript be submitted to a peer-reviewed journal prior to the defense. Students will need to demonstrate lead authorship on articles published in their dissertation.

Courses

BMS5880 - Biomedical Sciences Research Ethics
Credits: 2
Introduction to the field of bioethics, including major ethical theories and principles, with an emphasis on understanding the ethical issues that may arise while conducting biomedical research and potential strategies for properly addressing these ethical issues.

BMS5920 - Continuing Registration: On Campus,
Credits: 1-12
Max Credit (Max. 24)
Prerequisite: graduate standing.

BMS5940 - Continuing Registration: Off Campus,
Credits: 1-24
Max Credit (Max. 24)
Prerequisite: graduate standing.

BMS5980 - Dissertation Research,
Credits: 1-24
Max Credit (Max. 24)
Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

BMS5985 - Seminar
Credits: 1
Max Credit (Max. 3)
A series of weekly seminars presented by faculty from other universities, private or public sector health industries or by Biomedical Science Program faculty and students. Examines current topics and research in biomedical sciences through oral presentations and discussion.
**Prerequisite:** graduate standing and consent of instructor.

**Ecology, Ph.D.**

The Program in Ecology (PiE) provides you with long-term career development by exploring the linkages of ecology and evolution with other disciplines, and by reaching for emerging questions, concepts, and approaches that will shape the future of the field.

**Additional Information**

**Program in Ecology, Ph.D. Program**

Office of Graduate Education  
Old Main 310  
Phone: (307) 766-4128  
Website: http://www.uwyo.edu/pie/  
Email: ecology@uwyo.edu

**Program Director: Melanie Murphy, Ph.D.**

**Degree Offered**

**Ph.D. in Ecology**

The Program in Ecology prepares doctoral students to lead the discipline of ecology during the coming decades. The program is grounded in the natural history of organisms in their environment, but incorporates tools and perspectives from across the biological, physical, mathematical, computational, and earth sciences. Students develop conceptual, historical, and philosophical perspectives spanning the entire range of subdisciplines in ecology, while receiving advanced training in the subdiscipline of their individual interest.

The program fosters long-term career development by exploring the linkages of ecology with other disciplines, and by scanning the ecological horizon for emerging questions, concepts, and approaches that will shape the field in years to come.

Faculty members from several departments and colleges participate in the Program in Ecology. Their interests span the full range of topics covered in the field of ecology, and students in the program reflect this diversity.

**Program Specific Admission Requirements**

Only students seeking a doctoral degree will be admitted into the program. Minimum criteria for admission to the Program in Ecology are:

- Minimum undergraduate GPA of 3.000
- Agreement by a member of the PiE faculty to sponsor the student, or to co-sponsor the student together with a PiE affiliate
- Admission to a home department at the University of Wyoming

All applications to the program will be reviewed by the Graduate Affairs Committee, which has authority on admissions. Students applying to the program who lack a master's degree must show exceptional promise and
commitment (e.g., through undergraduate or post-graduate research experiences, peer-reviewed publications, and/or success in competing for research fellowships). Such students are encouraged to consult with their prospective adviser on whether to apply directly to PiE or to master's programs in individual home departments of PiE faculty.

Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the program. Transfer is not pro forma. Transfer applications are subject to the same criteria as for entering students, and admission to the program for transfer students must be approved by the Graduate Affairs Committee.

**Program Specific Degree Requirements**

**Advisory Committee**

Before the end of the second semester of study, the student should nominate a five-member advisory committee to the Office of the Registrar. At least three members of the committee, including the committee chair (usually the student's adviser), will be members of the PiE faculty. One other member, who will serve as Graduate Faculty representative, must be from outside the home department of the major adviser, although (s)he can be a faculty member in a department that participates in the program. The committee will advise the student on his/her program of graduate study, execute and evaluate the student's preliminary examination, evaluate the student's dissertation proposal and dissertation, and conduct the student's dissertation defense.

**Program of Study**

All students are required to take ECOL 5100 or equivalent. This course should be taken during the first year of residency. Exceptions or substitutions of these requirements are subject to approval by the graduate affairs committee.

The program of study must include at least 6 credit hours aimed at developing a tool skill, which except for rare cases shall be in the quantitative/analytical domain (e.g., statistics, modeling, GIS, remote sensing, bioinformatics). Courses relating to research tools should be taken early in the student's residency to ensure that they can be used in thesis research and advanced studies. Specific coursework and tool-skill development for the student's program of study will be developed in consultation with and subject to approval by the student's advisory committee.

**Admission to Candidacy**

Admission to candidacy for the Ph.D. requires two steps: 1) providing evidence that the student is prepared to identify a research question, design an approach for investigating that question, and a plan for executing the approach, all in the format of an NSF-style research proposal, and 2) illustrating adequate proficiency in the subject matter of ecology through a process involving both written and oral exams.

**Proposal**

Students must submit a NSF-style proposal to their committee outlining their project, typically by the end of the fourth semester. Each committee member will provide feedback to the student on the proposed research and indicate approval of the proposal or request revision. The proposal must be approved by all committee members prior to starting the preliminary exams.

While this proposal should be a plan for actual dissertation research, unforeseen circumstances may require altering the student's dissertation work after the proposal has been approved by the committee. In the case of a major alteration, the student should reformulate a research plan and submit it to the committee in writing for committee approval.

**Preliminary Exam**

Passing the preliminary exam is the official admission to candidacy.

*Written portion of the preliminary exam.* The student will take the written exam portion of the preliminary exam no fewer than two weeks following approval of the research proposal. The goal of this exam is to test breadth of
knowledge in ecology. The design of this exam will be coordinated by the graduate committee under the leadership of the adviser. Each written exam will cover the following topics:

- Ecological topics ranging from organismal/evolutionary to ecosystem-level perspectives, integrating concepts and perspectives from across the discipline, over a wide range of spatial and temporal scales.
- The philosophical and historical development of ecology.
- The conceptual background of the student's area of specialization.

The exam will consist of four to six questions developed collectively by the committee and organized by the student's major professor. The exam will be open book; however, the answers will be solely the work of the student. Answers should be fully cited and collectively should be no longer than 30 pages double-spaced exclusive of references cited. Students will have one full week (seven days) to complete the exam. Committee members will indicate pass/fail within one week following completion of written exams. Four of five passing votes are required.

Oral Portion of the Preliminary Exam. No sooner than two weeks after successfully passing the written exam, the student may proceed to an oral exam administered by his/her graduate committee. Oral exams center around three goals from which questions will be derived:

- To verify that the student is prepared, conceptually and methodologically, to carry out successful dissertation research.
- To evaluate the student's ability to conceptualize specific questions in a broad, integrative context.
- To evaluate the student's ability to think spontaneously and creatively and to articulate responses about unexpected or novel questions.

The advisory committee will discuss and organize specific questions based on these goals in a short session at the beginning of the exam period before admitting the student to the examination room and starting the exam. Following the exam each committee member will provide non-binding paper votes of pass/fail for each of the three goals of the oral exam. Following discussion of the student's performance, committee members will each assign a grade of pass/fail for the overall exam. Four of five committee members must vote for passing the overall oral exam.

Students whose performance is unsatisfactory will be given one opportunity for retaking the oral examination. This retake will occur no later than the academic-year semester following the first examination.

Public Seminars

Students are required to give two oral presentations on their research. The purposes of these presentations are to provide the student with practice in oral presentations and to keep the PiE community informed of the student's progress. The first will describe the student's dissertation research proposal. This presentation will be given before the student submits his/her thesis proposal. The second presentation will summarize the student's completed dissertation research, and will normally be given the same semester as the student's dissertation defense. Under extraordinary circumstances (subject to approval by the Graduate Affairs Committee), this presentation may be given at an earlier time. These presentations must be open to the public, and may comprise part of a departmental or Program in Ecology seminar or brown-bag series.

Courses

**ECOL5050 - Techniques in Environmental Data Management**

Credits: 4

Centers on the role of information technology in support of scientific research. Through integration of multiple software packages (e.g. Relational databases, ProgramR and ArcGIS), proven database designs, and SQL scripting, increased efficiency and utility will occur during data analyses. These information science principles are demonstrated using project-based examples.
ECOL5060 - Advanced Concepts in Evolution

Credits: 3
Explores fundamental concepts in evolutionary biology including evolutionary ecology, population genetics, and speciation with an emphasis on both theoretical frameworks and practical applications. Discussion included.

Cross Listed BOT 5060/ZOO 5060.
When Offered (Offered every other year)
Prerequisite: graduate student in good standing.

ECOL5100 - Ecology as a Discipline

Credits: 3
Covers the range of ecological questions, processes, scales, and research approaches, in context of the history and philosophy of science in general and of ecology in particular. Aimed at first-year students in the doctoral program in Ecology, although students in other graduate programs are welcome.

Prerequisite: graduate standing.

ECOL5400 - Community Ecology

Credits: 3
Community ecology is the study of interactions within and among groups of species. This course focuses on (1) the major classical concepts and theories in community ecology, (2) the ways in which population dynamics can impact communities and how community dynamics can impact ecosystem processes and functioning, and (3) implementation of quantitative methods for conducting research that includes community ecology.

Cross Listed REWM 5400.
Prerequisite: LIFE 3410 or equivalent.

ECOL5500 - Quantitative Analyses of Field Data

Credits: 4
A practical guide to the analysis of messy field data, including data exploration, generalized linear and additive models, mixed models, autocorrelation, and model selection using Program R. Students will have bootcamp to learn methods and spend the rest of the semester analyzing their own data.

Prerequisite: graduate standing.

ECOL5520 - Habitat Selection

Credits: 2
In this course we will cover theory and behavioral/evolutionary concepts related to the process of habitat selection, the contexts under which habitat choices are adaptive or maladaptive, and different types of anthropogenic habitat change
and the consequences for animals in the wild. Prerequisite: Graduate students in good standing.

Cross Listed ZOO 5520
Prerequisite: Graduate students in good standing.

ECOL5540 - Microbial Diversity and Ecology

Credits: 4
Introduces the diversity and ecology of soil microbes through an integrated lecture and laboratory course. Emphasis on molecular approaches to analyzing microbial diversity and evolution, and student-directed experimental design. Provides a continuum of realistic research experiences in molecular microbial ecology, from field work to evolutionary analysis of DNA sequence data.

Cross Listed MOLB 4540/MICR 4540/SOIL 4540.
Dual Listed MOLB 5540/SOIL 5540.
Prerequisite: MOLB 2210.

ECOL5550 - Ecology as a Scientific Profession

Credits: 2
A capstone that prepares doctoral students for success and leadership in their careers as professional ecologists. Intended for students enrolled in the doctoral Program in Ecology in their final year.

Prerequisite: graduate standing.

ECOL5580 - Rangeland Restoration Ecology

Credits: 3
Detailed analysis of various ecosystems unique to western rangelands. Primary emphasis on plant community restoration following degradation from edaphic, biotic, hydrologic, and topographic factors. Application of ecological principles to rehabilitate vegetation and restore ecosystem function. Strong emphasis on current research to formulate restoration strategies.

Cross Listed REWM 5580.

ECOL5610 - Quantitative Modeling in Landscape Ecology

Credits: 3
Emphasis on quantitative, spatial analysis of landscapes and application of these quantitative tools to making sound management decisions. Work with real data, acquire high-level quantitative skills, develop problem-solving skills, and discuss management application of model results. Analysis will encompass abiotic, biotic (plant and animal), and human use of ecological systems in a spatial context.

Cross Listed REWM 5610.
When Offered (Offered during even-year fall semesters)
Prerequisite: upper division stats course (e.g., STAT 4015 or STAT 4025) and graduate standing.
ECOL5620 - Advanced Topics in Ecology

Credits: 1-4
Max Credit (Max. 12)

Provides advanced treatment of specific topics in ecology that are not covered in regular courses.

Prerequisite: graduate standing and consent of instructor.

ECOL5650 - Tropical Field Ecology Ecuador

Credits: 4
Course comprises 10 days in Ecuador in January (before spring semester), followed by one lecture per week during spring semester. Focus will be ecology, biodiversity and conservation of tropical forests and behavioral ecology of birds and mammals. Field site is at 1100m on west slope of the Andes.

Cross Listed ECOL 5650.
Prerequisite: graduate standing.

ECOL5680 - Landscape Genetics

Credits: 3-4
Provides a unique opportunity for interdisciplinary training and international collaboration uniting some of the most active landscape genetics groups in North America and Europe. A key objective of landscape genetics is to study how landscape modification and habitat fragmentation affect organism dispersal and gene flow across the landscape. Meeting this and other landscape genetic objectives requires highly interdisciplinary specialized skills making intensive use of technical population genetic skills and spatial analysis tools (spatial statistics, GIS tools and remote sensing). To bring these diverse topics and skills together effectively, we are using a distributed model of teaching. Population genetics, spatial analysis/statistics, and previous experience in Rare all extremely useful but not required.

Cross Listed Cross listed with: REWM 5680.

ECOL5775 - Forest Ecology

Credits: 4
Integrative study of the structure, function, and ecological diversity of forested ecosystems, and the physical factors that influence this diversity, including emergent properties of energy flow and nutrient cycling. Special emphasis is given to understanding forest disturbances and succession, and implications for impacts of management and sustainability are discussed throughout.

Cross Listed RNEW 5775 and BOT 5775.
When Offered (Offered during even-year fall semesters)
Prerequisite: LIFE 3400.

ECOL5780 - Research in Ecology
Credits: 1-6  
Max Credit (Max. 12)

Designed for doctoral students pursuing exploratory research before they have determined a dissertation project, and for students to pursue independent research that will not comprise part of their dissertation. Research must be conducted under supervision of an Ecology Faculty member or Affiliate.

**Prerequisite:** admission to doctoral Program in Ecology.

**ECOL5920 - Continuing Registration: On Campus,**

Credits: 1-2  
Max Credit (Max. 16)

**Prerequisite:** graduate standing.

**ECOL5940 - Continuing Registration: Off Campus,**

Credits: 1-12  
Max Credit (Max. 16)

**Prerequisite:** graduate standing.

**ECOL5980 - Dissertation Research**

Credits: 1-12  
Max Credit (Max. 48)

Designed for students who are involved in research for their dissertation project. Also used for students whose coursework is complete and are writing their dissertation.

**Prerequisite:** enrollment in a graduate level degree program.

**Hydrologic Sciences, Ph.D. (WRESE)**

The Water Resources/Environmental Science and Engineering (WRESE) program facilitates Ph.D.-level course offerings in water-related disciplines, and coordinates offerings of these courses. Furthermore, the WRESE program serves as a focal-point for water-related graduate research and education at the University of Wyoming.

This interdisciplinary degree program encourages cross-department and inter-college coordination for research and education in hydrology and water resources.

**Additional Requirements**

**Program Specific Admission Requirements**
The WRESE Program only admits students seeking a doctoral degree.

Minimum criteria for admission to the Program are:

- Minimum undergraduate GPA of 3.000
- Agreement by a faculty member affiliated with the WRESE program to sponsor the student
- Admission to a home department at the University of Wyoming

Typically, students admitted into the program will have previously obtained a Masters-level degree. Under exceptional circumstance, students may be admitted directly after an undergraduate degree if they show exceptional promise and commitment. Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the program.

Program Specific Degree Requirements

Students in the WRESE Program are expected to create their graduate committee within the first year of study. The committee should be composed of three faculty members within the PhD program in Hydrology and 2 should be from the student's departmental home. A committee shall be composed of no fewer than 5 members, of which only one may be from outside the University. Additional committee members may be added to support the student's learning and objectives on the discretion of the committee and WRESE Program chair.

Program of Study

Students enrolled in the Program should complete their Program of Study within the first 3 semesters. The student shall work with his/her research advisor and committee to determine the appropriate course of study relative to the student's research agenda. Students are expected to complete a rigorous course of study in quantitative hydrological sciences.

Minimum requirements for the PhD include:

- Coursework credits: 42 hours (26 can be from an MS)
- Total credits: 72 hours
- Math expectations: students are encouraged to pursue a high level of math proficiency, with typical students progressing through differential equations. Individual math expectations will be determined by the committee and program chair.

A dissertation proposal should be approved by the end of the 4th semester. Students shall submit their proposal to their committee for review two weeks prior to a holding a committee meeting where the student (a) presents their proposal in a public presentation and (b) defends the proposal to the committee in a closed meeting. After the meeting, the student shall amend the proposal as required by the committee within a timely manner.

Admission to Candidacy / Preliminary Examination

Advance to candidacy is attained by passing preliminary exams within 3 years of initiating a degree program. Students should complete their preliminary exams as close to the end of their primary coursework as possible. Preliminary exams consist of two parts. The first part is a written examination wherein committee members shall submit written questions to the student. Once the student has passed their written exams, they will be administered an oral examination.

The written exam shall be administered by the student's research adviser, who will coordinate the questions so as to obtain a comprehensive review of the student's knowledge of the materials the student has learned in the classroom and needs to complete his/her research topic. Written questions should cover both conceptual and theoretical underpinnings in hydrological sciences and technical questions related to the student's research area.

Molecular and Cellular Life Sciences, Ph.D.
The Molecular and Cellular Life Sciences (MCLS) program serves as an inclusive and integrative graduate program for students being trained in basic biological and biomedical research at the molecular and cellular levels.

Additional Information

Molecular and Cellular Life Sciences, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: http://www.uwyo.edu/mcls/
Email: mcls@uwyo.edu

Program Director: Daniel Levy, Ph.D.

Degree Offered

Ph.D. in Molecular and Cellular Life Sciences

This interdisciplinary program with more than 30 faculty participants spans a wide range of research topics, such as: Biotechnology, bioengineering, biomaterials, and pharmacology, Cell biology and signaling, Genetics and development, Genomics, proteomics, and computational biology, Microbiology and infectious disease, and Structural biology and biophysics.

Coursework focuses on core courses in biochemistry and molecular biology, with electives that include such diverse courses as: Topics in Genomics, Biophysics, Microbial Physiology and Metabolism, Cell and Developmental Genetics, Mass Spectrometry and Analytical Chemistry, Biomedical Engineering, Mammalian Endocrinology, Cell Culture and Virology, Introduction to Bioinformatics, Protein Structure and Function, Microbial Genetics, Computational Biology, and Quantitative Microscopy.

Program Specific Admission Requirements

Admission to MCLS is a two-step process. The first level of evaluation is carried out by the MCLS admissions committee. This step does not require any fee but does require that all requested materials be submitted as described on our website. After an initial review of all complete applications, a subset of qualified applicants will be selected for video conference interviews with members of the MCLS admissions committee. Applicants who are chosen for admission to the MCLS program will then complete the final application step through the University of Wyoming Admissions office. This latter step requires the completion of several additional forms. Students are then officially notified by the university of their acceptance into the MCLS program.

We encourage students to submit their completed applications at the very latest by January 15 of each calendar year. However, because our review of applications will begin in the late fall, early submissions are encouraged and may stand a greater likelihood of success. Also note that we will continue to review new applications received after January 15 in the event that additional slots are available.

Program Specific Degree Requirements

MCLS doctoral students must fulfill the minimum requirements outlined by the university. In addition, students must obtain a high level of proficiency in the core foundations of the molecular and cellular life sciences through required courses in biochemistry/ molecular biology, scientific literature analysis proficiency, and the MCLS cornerstone
course. Because of the broad range of research interests pursued by MCLS faculty and students, considerable flexibility will be exercised regarding the specific nature of the graduate-level elective courses that students may take.

Students must successfully complete four eight-week rotations in MCLS laboratories of their choice during the first year.

Students must pass a comprehensive assessment exam at the end of the first year. Towards the end of the second year, students will undertake a qualifying examination in order to be formally admitted to graduate degree candidacy. This exam will have both written and oral components and will cover areas of science that are relevant to the students’ research.

The research and coursework progress of MCLS students will also be monitored and evaluated every year by the MCLS curriculum committee. In addition, an annual meeting with a research-specific dissertation committee will facilitate and evaluate the research progress of MCLS students beginning in the second year.

Students must attend weekly outside seminars on topics in the molecular life sciences for the durations of their studies.

For more information, please see the program’s Web site at: www.uwyo.edu/MCLS/.

Neuroscience, Ph.D.

The Graduate Program in Neuroscience is interdisciplinary. Students receive broad and integrative training in neuroscience with emphasis on core concepts, skills, and methodologies.

Additional Information

Neuroscience, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: http://www.uwyo.edu/neuroscience/
Email: neuroscience@uwyo.edu

Program Director: Kara Pratt, Ph.D.

Degree Offered

Ph.D. in Neuroscience

The Graduate Neuroscience Program offers training leading to the Ph.D. degree in Neuroscience. The Neuroscience Program emphasizes systems and integrative approaches, and our goal is to provide the students with the necessary background to be broadly trained research neuroscientists and to carry out independent research in neuroscience. The Neuroscience Program emphasizes continuing interaction with faculty from several departments and we have a low student to faculty ratio. Advisors spend considerable time supervising and training each doctoral student. The educational philosophy of the Neuroscience Program is to encourage a problem-oriented rather than a strict discipline-bound approach to research. You will emerge from this program with the scientific and experimental training needed to comprehensively address a very wide range of research questions using a variety of techniques and analytic tools.
The Graduate Neuroscience Program is designed to enable graduate students to acquire competence in the various disciplines necessary for research and teaching careers in neuroscience. The current interests of the Neuroscience faculty include sensory neurophysiology, behavioral neuropharmacology, neurodevelopment, neurodegeneration, and synaptic plasticity.

Students and faculty have access to outstanding resources established by NIH Neuroscience and Sensory Biology Core grants. The Microscopy Core houses both light (Zeiss laser scanning, fluorescent) and electron (Transmission and Scanning) microscopes. Resources needed to conduct research ranging from molecular, cellular circuit level to behavior are readily available within the Neuroscience Center.

**Doctoral Program Admission Minimum Requirements**

- GRE: Accepted but not required;
- GPA: 3.000 (4.000 scale);
- Three favorable letters of recommendation;
- Bachelor's degree in a biological science from an accredited institution;
- Statement of research interests and career objectives. We recommend that students study the Neuroscience faculty web sites and contact faculty regarding openings and shared research interests.

You will be best prepared for our program if you have successfully completed courses in neuroscience, chemistry, biology, physiology, and cell/molecular biology. Students may be admitted with deficiencies in some of the areas if they are strong in many or all others. If so, the student's advisory committee will determine what additional work is necessary during the first year to correct any deficiency.

**Program Specific Degree Requirements**

All doctoral Neuroscience students are required to complete a program of core classwork that includes the following required courses: Introduction to Neuroscience, Structure and Function of the Nervous System and Neurophysiology. Students are required to take one course in Statistics (e.g. STAT 5050, STAT 5210) and the course that meets this requirement will be arranged with the student's committee. The statistics requirement must be met by the end of the second year. The Neuroscience Program is a research-oriented program and students are expected to take a minimum of 2 to 3 credit hours of research per semester. Students are also expected to enroll in an on-going Seminar in Neuroscience. The Neuroscience Seminar, which meets weekly and is attended by students and faculty members, provides an opportunity for intellectual and social exchange, as well as for the development of professional skills in critical thinking. The topic for seminar and the faculty member directing the seminar changes each semester. The remainder of the coursework for the doctor of philosophy degree is selected from designated courses in Neuroscience, physiology, pharmacology, and molecular biology. A grade of B or better is required for all Neuroscience courses.

A student is expected to have a graduate adviser at all times. The faculty adviser must be a participating member of the Neuroscience faculty. The adviser is responsible for directing the student's research and academic coursework. During the second year, the student will have an advisory committee. The advisory committee will consist of at least three neuroscience faculty members and an outside member. Normally, the student's adviser will chair the committee and help identify members of the committee who best match the student's area of interest. The role of the advisory committee is to oversee all aspects of the student's education after the first year.

In the student's second or third year, the advisory committee will set and evaluate the student's qualifying examination. After successful completion of the preliminary examination the student will profess to Ph.D. candidate status.

The dissertation is the single most important component of the graduate program. It reports the results and significance of the student's research. In addition to the written dissertation, the doctoral candidate will deliver a formal seminar based on their research. The seminar will be followed by an examination by the student's advisory committee.
Courses

**NEUR4295 - Neurodevelopment**

Credits: 3
Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).

*Cross Listed* ZOO 4295.
*Dual Listed* NEUR 5295.
*Prerequisite:* ZOO 4280.

**NEUR4720 - Neuroscience Speaker Seminar**

Credits: 2
Max Credit (Max. 6)

The purpose of this course is to use the Neuroscience/sensory biology visiting speaker series to build student knowledge in neuroscience, as well as skills in critical evaluation of the research literature, and oral/ written communication. This will maximize student learning from the speaker series. The course maybe taken up to three times.

*Dual Listed* NEUR 5720.
*Prerequisite:* Graduate level standing in neuroscience, biomedical sciences, zoology/physiology, or other life science programs. Undergraduates: concurrent or prior ZOO 4280.

**NEUR5100 - Structure and Function of the Nervous System**

Credits: 4
Aimed at understanding the structure and interconnections within the nervous system, and how structure gives rise to the complex functions mediated by the brain. This is an essential feature of neuroscience. Covers gross anatomy of the central and peripheral nervous system, followed by detailed consideration of the divisions of the brain and their functional significance.

*Cross Listed* ZOO 5100.
*Prerequisite:* admission to the graduate neuroscience program, or graduate standing in another related program, or permission for undergraduate enrollment following discussion with the instructor.

**NEUR5280 - Introduction to Neuroscience**

Credits: 3
Examines the basic properties of neurons and from there identifies determinants of brain development and how neuronal circuits are formed. How neuronal circuits underlie processing sensory information, coordinated movement, complex functions (e. g. sleep, learning) and homeostasis are discussed.
Cross Listed ZOO 5280.
Prerequisite: ZOO 3115 or equivalent.

NEUR5295 - Neurodevelopment

Credits: 3
Through lecture and discussion of research articles, students learn mechanisms of nervous system development, from the birth and differentiation of neurons to the formation of synapses and circuits. Focus is on classical experiments done in vertebrates (Xenopus tadpole, chick, zebrafish, and mouse) and invertebrates (nematode and drosophila).

Cross Listed ZOO 5295.
Dual Listed NEUR 4295.

NEUR5685 - Neurophysiology

Credits: 3
Designed to investigate the structure and function of nervous systems, drawing information from both vertebrate and invertebrate organisms. Topics such as sensory systems, motor coordination and central integrative mechanisms will be covered in addition to the basic neurophysiology of nerve cells.

Cross Listed ZOO 5685.
Prerequisite: one course in physiology, chemistry, physics.

NEUR5715 - Seminar in Neuroscience

Credits: 1-2
Max Credit (Max. 20)
A continuing seminar. All students in the graduate neuroscience program are expected to register for this seminar each semester. The interdisciplinary approach to the nervous system is used employing work from physiology, neuroanatomy and neurochemistry, psychology, pharmacology and biochemistry.

Cross Listed ZOO 5715.
Prerequisite: admission to the graduate neuroscience program or graduate standing.

NEUR5720 - Neuroscience Speaker Seminar

Credits: 2
Max Credit (Max. 6)
The purpose of this course is to use the Neuroscience/sensory biology visiting speaker series to build student knowledge in neuroscience, as well as skills in critical evaluation of the research literature, and oral/ written communication. This will maximize student learning from the speaker series. The course maybe taken up to three times.

Dual Listed NEUR 4720.
Prerequisite: Graduate level standing in neuroscience, biomedical sciences, zoology/physiology, or other life science programs. Undergraduates: concurrent or prior ZOO 4280.
NEUR5800 - Research in Neuroscience

Credits: 1-16
Max Credit (Max. 16)

The research must be conducted under the supervision of one of the neuroscience program faculty. Laboratory opportunities for research include neuroendocrinology, behavioral neuroscience, sensory neurophysiology, neuroanatomy, neuropharmacology, neurotoxicology, neural cell biology, and neurochemistry.

Prerequisite: admission to the graduate neuroscience program or graduate standing.

NEUR5887 - Molecular Neuropharmacology

Credits: 3
Focus on the molecularly-induced functional changes within the nervous system in normal and disease states. In addition, will provide a thorough explanation of the cellular and molecular actions of drugs on synaptic transmission and discuss the neurochemical basis of behavior.

Prerequisite: PharmD current standing and instructor's permission or NEUR 5280.

NEUR5920 - Continuing Registration: On Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

NEUR5940 - Continuing Registration: Off Campus

Credits: 1-2
Max Credit (Max. 16)

Prerequisite: advanced degree candidacy.

NEUR5980 - Dissertation Research

Credits: 1-12
Max Credit (Max. 48)

First-Year Seminar.

Prerequisite: advanced degree candidacy.

Science & Mathematics Teaching Center Master's Degrees

30 graduate-level semester hours, B or better grades in all required courses and overall GPA of 3.0 required for majors. Required courses taken 6 or more years ago must be petitioned and approved to be used to satisfy degree requirements.
The Science and Mathematics Teaching Center (SMTC) was established in 1970 and is committed to excellence in science, mathematics, technology and STEM education. As part of the Office of Graduate Education in Academic Affairs, the SMTC, in cooperation with the Wyoming Department of Education (WDE) and the Professional Teaching Standards Board (PTSB), serves as a resource and professional development center for the state. The SMTC offers transdisciplinary graduate degree programs with multiple degree concentrations, certification options, and endorsement options. All of the programs emphasize both strong content knowledge and instructional practices. Faculty from throughout the university collaborate with the SMTC by teaching classes, reviewing applications, serving on committees, advising students, and working on externally funded research projects.

The SMTC provides extensive off-campus professional development that serves teachers, students, administrators, school districts and communities throughout Wyoming and the region. SMTC in-service and extension courses, workshops, institutes, and conferences are designed collaboratively to improve science and mathematics teaching in Wyoming.

The SMTC administers and supports five master's degree programs:

(1) the Master of Science degrees in Natural Science with concentrations in Middle Level Math (MMA) and

(2) Middle Level Science (MSC); these programs are designed for Wyoming's in-service elementary, middle, and high school teachers. They focus on general science and mathematics content with an emphasis on teaching middle school level learners. The course work leads to middle level endorsements provided by the Wyoming PTSB. Teachers must have two years of teaching experience to participate in these programs.

(3) Master of Science in Teaching - Natural Science (MST - Natural Science). This is a self-directed master's degree program working with the SMTC, SER, and the Haub School as well as other colleges. The program is developed individually with the guidance of a graduate committee based on the interests of the graduate student. This program is primarily intended for individuals teaching at the secondary level and may be used take the 18 graduate-level credits in a specific teaching area often needed to teach Advanced Placement and community college courses.

(4) Master of Science - Natural Science (MS - Natural Science). This is a self-directed master's degree program working with the SMTC, the College of Arts and Sciences, SER, and the Haub School and other colleges. The program is developed individually based on the interests of the graduate student and may emphasize formal or informal learning settings. Interdisciplinary study is encouraged.
Master of Science in Natural Science with a concentration in Natural Science Education (NED). This Master's degree program is designed for students pursuing careers as environmental and natural science educators in non-public school or non-formal education settings. These students spend one year at the Teton Science Schools (TSS) in Jackson. A long-standing MOU between the SMTC and TSS allows students to use 15 graduate credit hours earned at TSS towards a master's degree if they are accepted into the second year at UW within the SMTC.

SMTC Student Learner Outcomes

Upon successful completion of the MS degree program in Natural Science, a student will be able to:

• Engage in teacher research to transform STEM instruction:
  - Design and implement a research project that asks and answers a question using appropriate materials, concepts and methods, and ethical practices, and
  - Effectively communicate all aspects of the research project in both oral and written forms.

• Use professional and academic standards to ensure high-quality interdisciplinary instruction (i.e., place-based, culturally relevant, and/or social justice pedagogy) to maximize learning for all students.

• Engage in mathematical and/or scientific discourse and scientific thinking as active participants in communities of practice.

• Use emerging technology and science investigations as tools to engage students.

Program Specific Admission Requirements

For the MS-Natural Science Master's Degrees (with concentrations in MSC and MMA) and the MST:

Two years of teaching experience and a valid teaching license (required for MSC and MMA; may be waived for MST and MS-Natural Science)

Application Fee

Official Transcripts from all Institutions attended and Bachelor Degree conferring institution

3.0 undergraduate grade point average; provisional admission with a lesser GPA only with consent from Academic Affairs

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence (These items are not required of applicants who hold a prior master's degree)

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from the teacher's principal or an employers and two other colleagues.

For the MS-Natural Science Master's Degrees (with concentration in NED) - First Year Application:
Official Transcripts from all institutions attended and Bachelor Degree conferring institution Application Fee

Acceptance and admission by the Graduate Program at the Teton Science Schools in Jackson, WY

For the MS-Natural Science Master's Degrees (with concentration in NED) - Second Year Application:

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from a TSS Graduate Program Faculty Member, one from another TSS employee such as a Classroom Instructor or Field Instructor, and one from the first year application

Applicants complete a UW graduate application and upload all of the information on the Admissions Office website (http://www.uwyo.edu/admissions/apply.html). Application packets are reviewed by SMTC Admissions Committees and recommendations for admissions are submitted to the University of Wyoming Admissions Office. Any of the above requirements plus the university's minimum 3.00 grade point average may be waived if proper documentation and reasoning are given by the SMTC and approved by the Associate Vice Provost of Graduate Education.

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (http://www.uwyo.edu/elc/) for more information.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

**Application Due Dates** for Master of Science - Natural Science with Concentrations in the following areas:

Middle-level Science (MSC): applications are accepted on an ongoing basis; new students may begin only in summer each year; final due date for admission in summer is April 1.

Middle-level Mathematics (MMA): applications are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

Natural Science Education (NED): applications deadlines for Year 1 are established by Teton Science Schools (https://www.tetonscience.org/programs/graduate-program/admissions/); due date for admission to begin Year 2 in the fall at UW is February 1.

MST and the MS- Natural Science Masters Degree: applications for these self-designed programs are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

**Graduate Assistantships and Scholarships**

The SMTC often has scholarships and graduate assistantships available for graduates accepted for the above Master's degree programs. More information upon admission and acceptance.

**For the Master of Science in Natural Science Master's Degrees**

*Plan B (non-thesis)*
• 30 Credit Hours of graduate-level coursework is required in all of the programs. This includes 24 credit hours in required coursework depending on the program plus 6 credit hours of additional coursework that may include a research class, Plan B independent research and an elective.

• The Middle Level Science (MSC) concentration is a 3-year program, for the required coursework, in the summers only on UW's main campus. Courses are offered on a 3-year rotation cycle; students may enter the program in any year.

• The Middle Level Math (MMA) concentration is a 2-year program with classes offered virtually in the fall and spring and in-person on the main campus in the summer, for the required courses. Students may enter the program in any semester.

• The Natural Science Education (NED) concentration is a 2-year program with classes offered in the graduate program at the Teton Science Schools in Jackson, WY, in year 1, and additional classes offered at the UW main campus in year 2.

• The MST (Master's of Science in Teaching) and the MS- Natural Science Master's Degrees are Main campus degrees. They are self-directed master's degree programs designed individually based on the student's interests and needs.

• All students must complete and defend a Plan B research project.

• A Plan A (thesis) may be completed with an extra year of research.

NOTE: Middle-Level Science & Middle-Level Mathematics; 24 credit hours in the core courses are required for institutional recommendation for WY middle-level endorsement from the Professional Teaching Standards Board, PTSB.

NOTE: *NASC 5810 Middle-Level Science and Mathematics 3 credit hour course Practica (required course for teachers without previous coursework or experience teaching middle-level students. Offered spring semester in even years only).

Other Degrees and their Requirements

The MST in Natural Science and the MS - Natural Science programs are self-directed master's degree programs designed individually based on the student's interests and needs. The programs require 30 graduate level credits plus a Plan B research project that is defended publicly. Requirements are based on the university minimum requirements.

For the NED Concentration - Year 1 (at Teton Science Schools)

These students spend their first year at the Teton Science Schools in Jackson, Wyoming. Students earn 15 credits that may be used towards the master's degree at the University of Wyoming in Year 2.

For the NED Concentration - Year 2 (at the University of Wyoming)

Plan B (non-thesis)

• This is a one-year program on the main campus.

• 30 credit hours of coursework is required for the master's degree, of which 15 credit hours of agreed upon courses are earned at TSS in year 1. The other 15 credit hours include two required courses: NASC 5650 (3 credits) and a graduate level research class (minimum 3 credits). Additional courses in environmental science and science pedagogy classes are chosen by the graduate student and their advisor.

• A concurrent major in Environmental and Natural Resources is an option with this Master's program.

• Students must complete and defend a Plan B research project.

• A Plan A (thesis) may be completed with an extra year of research.

Middle-Level Science Concentration and Master's Degree
Life Science Summer Core (2023, 2026, 2029, etc...)

**BOT5790 - Special Topics in Ecology**

Credits: 1-3  
Max Credit (Max. 6)

Designed to acquaint advanced students with various topics not covered in other courses. Emphasis is placed on recent developments appearing in the journal literature.

**Dual Listed** BOT 4790.  
**Prerequisite:** two courses in ecology.

**ENTO5601 - Insects for Teachers: Collection and Identification of Insects**

Credits: 1  
Designed for school teachers K-12. Basic concepts such as insect classification, insect habitats, insect metamorphosis, and destructive and beneficial insects are discussed with emphasis on the presentation of these concepts in the school classroom. Half of the class is devoted to field trips, laboratories, workshop activities, and films. Each student will make an insect collection, and learn how to preserve, mount, and identify specimens to order level. Course may be taken independently of ENTO 5602. Identical to NASC 4790.

**Prerequisite:** junior standing. Offered summer term only.

**NASC4790 - Topics in Natural Science**

Credits: 1-6  
Presents selected science topics to acquaint teachers or prospective teachers with new concepts, materials or techniques, as introduced in various new school curricula. Topics may include earth science for the middle school, computer learning and/or elementary school environmental science. Includes laboratory.

**Prerequisite:** junior standing.

**NASC5130 - Life Science in Global Context, MSC**

Credits: 3  
One in a series of three courses investigating earth as a system. Investigates ecosystem composition and processes, and biological responses to changes in ecosystem parameters. Examines terrestrial and aquatic communities, photosynthesis, energy flow, biogeochemical cycles, global climate change, climate warning, deforestation, population ecology, DNA/RNA structure, function, genetic engineering and forensic applications.

**Prerequisite:** graduate standing and teaching certification in elementary, middle school or general science education.

**NASC5660 - Standards, Pedagogy and Research**

Credits: 2  
This course is designed to provide Master of Science in Natural Science students with background in three areas:
current science standards, pedagogical practices, and the understanding of various types of educational research as well as some of the practices related to conducting their own research projects.

**Prerequisite:** Master of Natural Science - MMA, MSC, or NED who have completed at least one year of coursework, or permission of the instructor or SMTC program coordinator; graduate standing.

Physical Science Summer Core (2021, 2024, 2027, etc...)

**EE4800 - Problems in ____**

Credits: 1-6  
Max Credit (Max. 6)

Section 1 is individual study. Other sections are group study by seminar or class format. Features topics not included in regularly offered courses.

**Prerequisite:** consent of instructor.

**NASC5110 - Physical Science in Global Context, MSC**

Credits: 3  
One in a series of three courses investigating earth as a system. Examines the global dynamics of energy, hydrocarbon combustion, and the physics and chemistry of water. Investigates relationships between energy transformations and pollutants. Considers environmental limitations of fresh water availability and the buffering effect of sea and fresh water.

**Prerequisite:** graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teacher certification in Elementary, middle school or general science education.

**NASC5510 - Integrated Instructional Strategies, MSC**

Credits: 2  
Appropriate instructional strategies are discussed and modeled for aligning standards, expectations, and experiences in an integrated science environment. Attention is given to unique characteristics of each strategy, including a review of research on the effectiveness of each strategy on student achievement and attitudes.

**Prerequisite:** graduate standing and teaching certification in elementary, middle school or general science; or graduate standing and concurrent enrollment in a program leading to teacher certification in elementary, middle school or general science education.

**NASC5600 - Mathematics and Statistics in Science Teaching, MSC**

Credits: 2  
Provides science teachers with the knowledge and experience necessary to help students use statistics in the scientific process. Activities emphasize a hands-on inductive approach closely related to the school science curriculum. Important statistical ideas and methods are studied as they arise naturally in the biological, physical, and earth sciences.
**Prerequisite:** graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teacher certification in elementary, middle school or general science education.

**Earth Science Summer Core (2022, 2025, 2028, etc...)**

**ASTR4000 - Astronomy for Teachers**

Credits: 1-5
Specifically designed for elementary school teachers. Presents basic concepts (time, seasons, light and its properties); planetary systems of the sun; the sun and stars; the Milky Way and galaxies; and cosmology and relativity. Emphasizes presenting these concepts to elementary school children. Half the class is devoted to laboratory and workshop activities to develop techniques for presenting these concepts through visual aids, demonstrations and films. Students may receive a maximum of 5 credits in a combination of ASTR 4000 and ASTR 4100.

**When Offered** (Offered summer session)
**Prerequisite:** 6 hours of physical or biological science, junior standing in education.

**NASC5120 - Earth Science in Global Context, MSC**

Credits: 3
One in a series of three courses investigating earth as a system. Emphasizes the lithosphere and atmosphere and their interactions with the hydrosphere and biosphere. Examines the interplay between tectonic processes, earth's radiation balance, ocean processes, ozone depletion and the greenhouse effect. Includes evaluation of methods of measuring and monitoring these phenomena.

**Prerequisite:** graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teacher certification in elementary, middle school or general science education.

**NASC5300 - Classroom Assessment in Middle-level Science, MSC**

Credits: 2
Deals with the design, construction, and testing of curriculum materials to bring the spirit of scientific inquiry to elementary school pupils. Research to be conducted in the Science and Mathematics Teaching Center.

**NASC5400 - Spatial Data Instructional Technology**

Credits: 1
Teaching strategies appropriate for elementary/middle school students' conceptual level of development. Positive attitudes toward teaching children about the Earth, its physical environment and human/environment relationships will be promoted. The course content will be supported by the use of geospatial technologies, such as GPS and GIS.

**Prerequisite:** graduate standing.
Middle-Level Mathematics Concentration and Master's Degree
(courses in this program are cross listed with other departments)

MMA Even Years (2022, 2024, 2026...)

**NASC5140 - Numbers, Operations, and Patterns for the Middle-Level Learner, MMA**

Credits: 3
Provides working middle-level mathematics teachers opportunities to understand and discuss numbers, their representations, and operations on them, from an abstract perspective that includes elegant proof. Also emphasized is the role of language and purpose in composing definitions.

*Cross Listed* MATH 5140.
*Prerequisite:* admission to a UW graduate program, either degree or non-degree seeking status, and acceptance into the Middle-level mathematics program.

**NASC5160 - Social and Historical Issues in Mathematics and the Middle-Level Learner, MMA**

Credits: 3
Empowers teachers of middle-level mathematics to design engaging experiences. Emphasizes the historical context for the development of mathematics, especially its symbols, tools, personalities, and classic problems.

*Cross Listed* MATH 5160.
*Prerequisite:* admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

**NASC5185 - Analysis of Data in the Media for the Middle-Level Learner, MMA**

Credits: 3
Focuses on data collection, analysis, interpretation, and communication, using contexts relevant to everyday situations. Topics chosen integrate well with the concerns of middle-level teachers and connect with such curriculum areas as health, science, and social studies. This is not a research methods course.

*Cross Listed* STAT 5185
*Prerequisite:* Admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

**NASC5215 - Using Technology for Middle-Level Mathematics**

Credits: 3
Covers the use of technology appropriate to middle-level mathematics teaching, such as microworlds, geographic information systems, spreadsheets, and other content appropriate technologies. Cross Listed with EDCI 5215.
*Prerequisite:* admission to the SMTC Program.
Cross Listed EDCI 5215
Prerequisite: Admission to the SMTC Program.

MMA Odd Years (2021, 2023, 2025...)

**NASC5170 - Connecting Geometry with Problem-Solving for the Middle-Level Learner, MMA**

Credits: 3
Showcases two aspects of 2D and 3D geometry: measurement and transformation. Emphasis reflects current State and National standards for middle-level mathematics classroom and teacher preparation, especially appropriate uses of technology, geometric tools, mathematical language, and problem-solving strategies.

Cross Listed MATH 5170.
Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, acceptance into the Middle-level mathematics program.

**NASC5190 - Mathematics of Change and the Middle-Level Learner, MMA**

Credits: 3
Students gain a solid understanding of data and functions in the service of calculus. Hands-on, project-driven, and focuses on the essential concepts of functions and calculus and their role in middle-level mathematics. Emphasis is on writing and technology (calculators and probeware).

Cross Listed MATH 5190.
Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

**NASC5205 - Methods of Teaching Middle-Level Mathematics, MMA**

Credits: 3
Research-based pedagogy and pedagogical content knowledge for teaching middle-level mathematics. Designed for practicing teachers of middle-grades mathematics.

Cross Listed EDCI 5205.
Prerequisite: admission to the SMTC Program.

**NASC5225 - Assessment for Middle-Level Mathematics, MMA**

Credits: 3
Middle-level Mathematics Initiative teacher participants examine, analyze, and implement a variety of assessments that are aligned with standards and instruction appropriate to the middle level math learner.

Cross Listed EDCI 5225.
Prerequisite: admission to the SMTC Program.
Natural Science Education (NED)

Teton Science Schools Graduate Program - Year 1

EDCI5790 - Learning Theories and Instructional Principles

Credits: 3
This course focuses on making connections between theoretical perspectives on teaching and learning, empirical work, and the actual practice of teaching. As a result, learners should expect to examine multiple learning theories, read research based on those theories, explore pedagogy that grows out of these theories, and integrate theory into practice in their own classrooms.

Prerequisite: graduate standing.

NASC5610 - Field Studies in Environmental Education, NED

Credits: 4
Expands student's knowledge of ecological and physiological animal and plant adaptations to environmental conditions, the use of teaching methods and tools of naturalists, the range of resources available for designing and evaluating curriculum, and promotes an appreciation and understanding of the diversity of environments. Contains 4 modules.

Prerequisite: graduate standing; must be accepted into the Teton Science School Program and matriculating at the TSS site.

NASC5620 - Advanced Elements of Field Ecology Course Design, NED

Credits: 5
Max Credit (Max. 6)
Addresses designing field ecology courses that include research, outdoor leadership, and natural history components. Opportunities are provided to gain deeper understanding of key natural history and ecology concepts of the bioregion; practical strategies for teaching these concepts in field programs; and to formally present student work.

Prerequisite: graduate standing; must be accepted into the Teton Science School Program and matriculating at the TSS site.

NASC5625 - Place-Based Education-Teton Science School

Credits: 3
Introduces graduate students at Teton Science Schools to the theory and practice of place-based education. The design of the course exposes students to the historical, political, and eco-social underpinnings of place-based education while supporting students in developing thoughtful place-based pedagogies.

Prerequisite: graduate student status.
NASC5630 - Teaching Practicum-Teton Science School

Credits: 2-4
Max Credit (Max. 6)

To improve teaching methods and techniques and expand professional skills. Integrates the foundation of Teton Science Schools, applies coursework content understanding and develops leadership. The course is intended to challenge previously held instructional beliefs and nurture an evolving set of skills and instructional identity. Not equivalent to EDSE 4500 or EDCI 5990 or EDEL 4500.

Prerequisite: current enrollment at Teton Science School.

NASC5640 - Introduction to Field Science Teaching

Credits: 3
Designed to introduce graduate students at Teton Science Schools' to the field of environmental education and instructional concepts for teaching environmental science in the outdoors. Learn field science content, principals of connecting to place, teaching techniques, and learning theories related to environmental education and field science teaching.

Prerequisite: current enrollment at Teton Science School.

ZOO5405 - Winter Ecology of the Yellowstone Ecosystem

Credits: 2
Winter Ecology emphasizes the effects of winter abiotic conditions on organisms and organismal adaptations. Energy flux, snowpack physics, organismal adaptations, avalanche awareness, and the influence of winter on wildlife management are emphasized through lectures and field laboratories. Students will develop an independent research project and present their results.

Prerequisite: graduate standing.

ZOO5420 - Ecological Inquiry

Credits: 3
Addresses basic ecological concepts and natural resource management issues in the Greater Yellowstone Ecosystem (GYE). Emphasis will be placed on developing critical thinking skills and exploring the effects of resource management policy and actions. Course direction will involve moving from a known facts way of thinking in to realm of evaluating effects of human management of the GYE.

Prerequisite: LIFE 2022, LIFE 3400, and graduate standing.

ZOO5430 - Ecology of the Greater Yellowstone Ecosystem

Credits: 3
Covers plant and animal community ecology from both a qualitative and quantitative perspective. Topics include: community interaction of plants and animals; community dynamics, succession, and disturbance; basic data collection
and statistical analysis of habitat association data; and the effect of abiotic factors on community structure.

**Prerequisite:** LIFE 2022, LIFE 3400, and graduate standing.

Natural Science Education (NED) - Year 2

**NASC5650 - Place-Based Learning**

Credits: 3  
Place-based learning is explored and related to cognitive development, assessment, and education for a democracy. The focus is on science and mathematics and how to use "place" to provide meaningful learning experiences for students while making contributions to the community. Students develop a local place-based project.

**Other Courses offered by SMTC available to Graduate Students in SMTC programs:**

**NASC5670 - Research Methodology**

Credits: 4  
This course provides foundational information on asking appropriate questions, researching (including IRB), writing, formatting, and defending a Plan B project. At the end of the semester students will have a committee, a preliminary draft, and present their research. Spring semester will be used to complete projects with committee members.

**Prerequisite:** Master of Natural Science - MMA, MSC, or NED who have completed at least one year of coursework, or permission of the instructor or SMTC program coordinator; graduate standing.

**NASC5700 - Seminar in Science for Secondary School Teachers**

Credits: 1-6  
Max Credit (Max. 6)  
A course to give graduate students in education, or in-service teachers, an in-depth view of the new materials for teaching science in secondary schools.

**Prerequisite:** consent of instructor.

**NASC5770 - Investigation in Natural Science for Secondary Teachers**

Credits: 1-5  
Max Credit (Max. 10)  
Deals with the design, construction, and testing of curricula materials to bring the spirit of scientific inquiry to secondary school students. Research to be conducted in the Science and Mathematics Teaching Center.

**Prerequisite:** consent of instructor.
NASC5890 - Directed Professional Study

Credits: 1-6
Max Credit (Max. 6)

Primarily for upper-division students who can benefit from independent study with minimal supervision. Given to allow interested students to pursue specific aspects of curriculum and instruction.

Prerequisite: consent of instructor and graduate standing.

NASC5900 - Practicum in College Teaching

Credits: 1-3
Max Credit (Max. 3)

Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

Prerequisite: graduate status.

NASC5960 - Thesis Research

Credits: 1-12
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

Prerequisite: enrollment in a graduate degree program.

NASC5961 - Plan B Project

Credits: 1-4
Max Credit (Max. 4)

Limited to those students enrolled in a Plan B graduate program. Students should be involved in non-course scholarly activities in support of their Plan B project.

Prerequisite: must be enrolled in Plan B program and have program approval.

NASC5990 - Internship

Credits: 1-12
Max Credit (Max. 24)

Prerequisite: graduate standing.

NASC5959 - Enrichment Studies
Credits: 1-3  
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.  
Prerequisite: graduate standing.

Courses

NASC4790 - Topics in Natural Science

Credits: 1-6  
Presents selected science topics to acquaint teachers or prospective teachers with new concepts, materials or techniques, as introduced in various new school curricula. Topics may include earth science for the middle school, computer learning and/or elementary school environmental science. Includes laboratory.

Prerequisite: junior standing.

NASC4800 - Field Studies in Natural Science

Credits: 1-6  
Explores topics best studied in the field, on location, or otherwise outside the traditional classroom. Topics may include grassland ecosystem, geology field trips for elementary children and/or schoolyard study areas. Includes laboratory.

Prerequisite: junior standing.

NASC5110 - Physical Science in Global Context, MSC

Credits: 3  
One in a series of three courses investigating earth as a system. Examines the global dynamics of energy, hydrocarbon combustion, and the physics and chemistry of water. Investigates relationships between energy transformations and pollutants. Considers environmental limitations of fresh water availability and the buffering effect of sea and fresh water.

Prerequisite: graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teacher certification in Elementary, middle school or general science education.

NASC5120 - Earth Science in Global Context, MSC

Credits: 3  
One in a series of three courses investigating earth as a system. Emphasizes the lithosphere and atmosphere and their interactions with the hydrosphere and biosphere. Examines the interplay between tectonic processes, earth's radiation balance, ocean processes, ozone depletion and the greenhouse effect. Includes evaluation of methods of measuring and monitoring these phenomena.
**Prerequisite:** graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teach certification in elementary, middle school or general science education.

### NASC5130 - Life Science in Global Context, MSC

**Credits:** 3  
One in a series of three courses investigating earth as a system. Investigates ecosystem composition and processes, and biological responses to changes in ecosystem parameters. Examines terrestrial and aquatic communities, photosynthesis, energy flow, biogeochemical cycles, global climate change, climate warning, deforestation, population ecology, DNA/ RNA structure, function, genetic engineering and forensic applications.

**Prerequisite:** graduate standing and teaching certification in elementary, middle school or general science education.

### NASC5140 - Numbers, Operations, and Patterns for the Middle-Level Learner, MMA

**Credits:** 3  
Provides working middle-level mathematics teachers opportunities to understand and discuss numbers, their representations, and operations on them, from an abstract perspective that includes elegant proof. Also emphasized is the role of language and purpose in composing definitions.

**Cross Listed** MATH 5140.  
**Prerequisite:** admission to a UW graduate program, either degree or non-degree seeking status, and acceptance into the Middle-level mathematics program.

### NASC5160 - Social and Historical Issues in Mathematics and the Middle-Level Learner, MMA

**Credits:** 3  
Empowers teachers of middle-level mathematics to design engaging experiences. Emphasizes the historical context for the development of mathematics, especially its symbols, tools, personalities, and classic problems.

**Cross Listed** MATH 5160.  
**Prerequisite:** admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

### NASC5170 - Connecting Geometry with Problem-Solving for the Middle-Level Learner, MMA

**Credits:** 3  
Showcases two aspects of 2D and 3D geometry: measurement and transformation. Emphasis reflects current State and National standards for middle-level mathematics classroom and teacher preparation, especially appropriate uses of technology, geometric tools, mathematical language, and problem-solving strategies.
Cross Listed MATH 5170.
Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, acceptance into the Middle-level mathematics program.

NASC5185 - Analysis of Data in the Media for the Middle-Level Learner, MMA

Credits: 3
Focuses on data collection, analysis, interpretation, and communication, using contexts relevant to everyday situations. Topics chosen integrate well with the concerns of middle-level teachers and connect with such curriculum areas as health, science, and social studies. This is not a research methods course.

Cross Listed STAT 5185
Prerequisite: Admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

NASC5190 - Mathematics of Change and the Middle-Level Learner, MMA

Credits: 3
Students gain a solid understanding of data and functions in the service of calculus. Hands-on, project-driven, and focuses on the essential concepts of functions and calculus and their role in middle-level mathematics. Emphasis is on writing and technology (calculators and probeware).

Cross Listed MATH 5190.
Prerequisite: admission to a UW graduate program, in either degree or non-degree seeking status, and acceptance into the Middle-level Mathematics program.

NASC5205 - Methods of Teaching Middle-Level Mathematics, MMA

Credits: 3
Research-based pedagogy and pedagogical content knowledge for teaching middle-level mathematics. Designed for practicing teachers of middle-grades mathematics.

Cross Listed EDCI 5205.
Prerequisite: admission to the SMTC Program.

NASC5215 - Using Technology for Middle-Level Mathematics

Credits: 3
Covers the use of technology appropriate to middle-level mathematics teaching, such as microworlds, geographic information systems, spreadsheets, and other content appropriate technologies. Cross Listed with EDCI 5215.
Prerequisite: admission to the SMTC Program.

Cross Listed EDCI 5215
Prerequisite: Admission to the SMTC Program.

NASC5225 - Assessment for Middle-Level Mathematics, MMA
Middle-level Mathematics Initiative teacher participants examine, analyze, and implement a variety of assessments that are aligned with standards and instruction appropriate to the middle level math learner.

**Cross Listed** EDCI 5225.

**Prerequisite:** admission to the SMTC Program.

**NASC5300 - Classroom Assessment in Middle-level Science, MSC**

Credits: 2
Deals with the design, construction, and testing of curriculum materials to bring the spirit of scientific inquiry to elementary school pupils. Research to be conducted in the Science and Mathematics Teaching Center.

**NASC5400 - Spatial Data Instructional Technology**

Credits: 1
Teaching strategies appropriate for elementary/middle school students' conceptual level of development. Positive attitudes toward teaching children about the Earth, its physical environment and human/environment relationships will be promoted. The course content will be supported by the use of geospatial technologies, such as GPS and GIS.

**Prerequisite:** graduate standing.

**NASC5510 - Integrated Instructional Strategies, MSC**

Credits: 2
Appropriate instructional strategies are discussed and modeled for aligning standards, expectations, and experiences in an integrated science environment. Attention is given to unique characteristics of each strategy, including a review of research on the effectiveness of each strategy on student achievement and attitudes.

**Prerequisite:** graduate standing and teaching certification in elementary, middle school or general science; or graduate standing and concurrent enrollment in a program leading to teacher certification in elementary, middle school or general science education.

**NASC5600 - Mathematics and Statistics in Science Teaching, MSC**

Credits: 2
Provides science teachers with the knowledge and experience necessary to help students use statistics in the scientific process. Activities emphasize a hands-on inductive approach closely related to the school science curriculum. Important statistical ideas and methods are studied as they arise naturally in the biological, physical, and earth sciences.

**Prerequisite:** graduate standing and teaching certification in elementary, middle school or general science; or, graduate standing and concurrent enrollment in a program leading to teacher certification in elementary, middle school or general science education.

**NASC5610 - Field Studies in Environmental Education, NED**
Credits: 4
Expands student's knowledge of ecological and physiological animal and plant adaptations to environmental conditions, the use of teaching methods and tools of naturalists, the range of resources available for designing and evaluating curriculum, and promotes an appreciation and understanding of the diversity of environments. Contains 4 modules.

**Prerequisite:** graduate standing; must be accepted into the Teton Science School Program and matriculating at the TSS site.

**NASC5620 - Advanced Elements of Field Ecology Course Design, NED**

Credits: 5  
Max Credit (Max. 6)

Addresses designing field ecology courses that include research, outdoor leadership, and natural history components. Opportunities are provided to gain deeper understanding of key natural history and ecology concepts of the bioregion; practical strategies for teaching these concepts in field programs; and to formally present student work.

**Prerequisite:** graduate standing; must be accepted into the Teton Science School Program and matriculating at the TSS site.

**NASC5625 - Place-Based Education-Teton Science School**

Credits: 3
Introduces graduate students at Teton Science Schools to the theory and practice of place-based education. The design of the course exposes students to the historical, political, and eco-social underpinnings of place-based education while supporting students in developing thoughtful place-based pedagogies.

**Prerequisite:** graduate student status.

**NASC5630 - Teaching Practicum-Teton Science School**

Credits: 2-4  
Max Credit (Max. 6)

To improve teaching methods and techniques and expand professional skills. Integrates the foundation of Teton Science Schools, applies coursework content understanding and develops leadership. The course is intended to challenge previously held instructional beliefs and nurture an evolving set of skills and instructional identity. Not equivalent to EDSE 4500 or EDCI 5990 or EDEL 4500.

**Prerequisite:** current enrollment at Teton Science School.

**NASC5640 - Introduction to Field Science Teaching**

Credits: 3
Designed to introduce graduate students at Teton Science Schools' to the field of environmental education and instructional concepts for teaching environmental science in the outdoors. Learn field science content, principals of connecting to place, teaching techniques, and learning theories related to environmental education and field science
teaching.

**Prerequisite:** current enrollment at Teton Science School.

**NASC5650 - Place-Based Learning**

Credits: 3
Place-based learning is explored and related to cognitive development, assessment, and education for a democracy. The focus is on science and mathematics and how to use "place" to provide meaningful learning experiences for students while making contributions to the community. Students develop a local place-based project.

**NASC5660 - Standards, Pedagogy and Research**

Credits: 2
This course is designed to provide Master of Science in Natural Science students with background in three areas: current science standards, pedagogical practices, and the understanding of various types of educational research as well as some of the practices related to conducting their own research projects.

**Prerequisite:** Master of Natural Science - MMA, MSC, or NED who have completed at least one year of coursework, or permission of the instructor or SMTC program coordinator; graduate standing.

**NASC5670 - Research Methodology**

Credits: 4
This course provides foundational information on asking appropriate questions, researching (including IRB), writing, formatting, and defending a Plan B project. At the end of the semester students will have a committee, a preliminary draft, and present their research. Spring semester will be used to complete projects with committee members.

**Prerequisite:** Master of Natural Science - MMA, MSC, or NED who have completed at least one year of coursework, or permission of the instructor or SMTC program coordinator; graduate standing.

**NASC5700 - Seminar in Science for Secondary School Teachers**

Credits: 1-6
Max Credit (Max. 6)
A course to give graduate students in education, or in-service teachers, an in-depth view of the new materials for teaching science in secondary schools.

**Prerequisite:** consent of instructor.

**NASC5770 - Investigation in Natural Science for Secondary Teachers**

Credits: 1-5
Max Credit (Max. 10)
Deals with the design, construction, and testing of curricula materials to bring the spirit of scientific inquiry to
secondary school students. Research to be conducted in the Science and Mathematics Teaching Center.

**Prerequisite:** consent of instructor.

**NASC5810 - ML Science & Math Practicum**

 Credits: 3  
 Practica for graduate students in the MS-Natural Science MSC and MMA programs in Middle and Junior High schools. Mathematics and science classrooms will serve as sites for assignments. Students complete assignments for the content area of certification as well as appropriate discussions.

**Prerequisite:** Graduate students in department who have passed at least four departmental courses or consent of the instructor.

**NASC5890 - Directed Professional Study**

 Credits: 1-6  
 Max Credit (Max. 6)

 Primarily for upper-division students who can benefit from independent study with minimal supervision. Given to allow interested students to pursue specific aspects of curriculum and instruction.

**Prerequisite:** consent of instructor and graduate standing.

**NASC5900 - Practicum in College Teaching**

 Credits: 1-3  
 Max Credit (Max. 3)

 Work in classroom with a major professor. Expected to give some lectures and gain classroom experience.

**Prerequisite:** graduate status.

**NASC5920 - Continuing Registration: On Campus**

 Credits: 1-2  
 Max Credit (Max. 16)

**Prerequisite:** advanced degree candidacy.

**NASC5940 - Continuing Registration: Off Campus**

 Credits: 1-2  
 Max Credit (Max. 16)

**Prerequisite:** advanced degree candidacy.
**NASC5959 - Enrichment Studies**

Credits: 1-3  
Max Credit (Max. 99)

Designed to provide an enrichment experience in a variety of topics.

A&S College Core 2015 Note: credit in this course may not be included in a graduate program of study for degree purposes.  
**Prerequisite:** graduate standing.

**NASC5960 - Thesis Research**

Credits: 1-12  
Max Credit (Max. 24)

Designed for students who are involved in research for their thesis project. Also used for students whose coursework is complete and are writing their thesis.

**Prerequisite:** enrollment in a graduate degree program.

**NASC5961 - Plan B Project**

Credits: 1-4  
Max Credit (Max. 4)

Limited to those students enrolled in a Plan B graduate program. Students should be involved in non-course scholarly activities in support of their Plan B project.

**Prerequisite:** must be enrolled in Plan B program and have program approval.

**NASC5990 - Internship**

Credits: 1-12  
Max Credit (Max. 24)

**Prerequisite:** graduate standing.

**School of Energy Resources**

301 Energy Innovation Center  
Phone: (307)766-6879 FAX (307)766-6701
Holly Krutka, Executive Director  
Website: www.uwyo.edu/ser

The School of Energy Resources facilitates interdisciplinary academic and research programs in engineering and science, economics, and environment and natural resources policy to address critical energy-related issues faced by our society.

Our mission is to leverage and add to the already significant energy-related talent and resources in the University of Wyoming colleges to develop human resources, know-how, and technical solutions to ensure a secure and sustainable energy future for the state, region, and nation.

The University of Wyoming (UW) School of Energy Resources (SER) was created in 2006 by the Wyoming Legislature through State Statute 21-17-117. Our goal is to enhance the university's energy-related education, research, and engagement. SER directs and funds cutting-edge energy research and technology development, which integrates with the formulation and conduct of academic programs at UW and bridges academics and industry through targeted engagement efforts. The bridges formed between academics and industry ensure programs are relevant, current, and deliver impact and high value to stakeholders and the state. Since its inception in 2006, SER has maintained flexibility in its focus and structure to meet the changing needs of Wyoming's energy industries and the state's economy which is now more critical than ever.

Professors:

TIMOTHY J. CONSIDINE, B.A. Loyola University 1975; M.S. Purdue University 1977; Ph.D. Cornell University 1981; SER Professor of Energy Economics 2008.

CRAIG C. DOUGLAS, A.B. Chicago University 1977; M.S. Yale University 1978; M.Phil. 1980; Ph.D. 1982; SER Professor of Mathematics 2008.

MAOHONG FAN, B.S. Wuhan University of Science and Engineering, 1984; M.S. Beijing University of Science and Technology, 1992; Ph.D. Chinese Academy of Sciences, 1997; Ph.D. Iowa State University, 2000; Ph.D. Osaka University 2003; SER Professor of Chemical Engineering 2015, 2008.

JOHN P. KASZUBA, B.S. Beloit College, 1982; M.S. Virginia Polytechnic Institute & State University 1986; Ph.D. Colorado School of Mines, 1997; SER Professor Geology & Geophysics, 2019, 2008.

BRUCE A. PARKINSON, B.S. Iowa State University 1972; Ph.D. California Institute of Technology 1977; SER Professor of Chemistry 2008.

Associate Professors:

PO CHEN, B.S. Beijing University 2000; Ph.D. University of Southern California 2005; SER Associate Professor of Geology and Geophysics 2014, 2008.

DARIO GRANA, B.S. University of Pavia, 2003; M.S. 2005; M.S. University of Milano Bicocca, 2006; Ph.D. Stanford University, 2013; SER Associate Professor of Geology and Geophysics 2019, 2013.

Academic Professional:

KRISTOPHER KOSKI, B.S. Colorado School of Mines, 2005; J.D. University of Wyoming, 2008; Associate Lecturer 2017.

Accreditation

All programs at the University of Wyoming are accredited by The Higher Learning Commission, a commission of the North Central Association of Colleges and Schools Commission on Institutions of Higher Education. In addition, the Professional Land Management Concentration is one of only a few programs accredited nationally by the American Association of Professional Landmen.

Graduates from the PLM program are afforded the opportunity to sit for the Registered Landman exam. Individuals with certification can increase their salary by 20% on average. Visit landman.org to learn more.

SER Vision Statement

SER pursues the creation, sharing, and implementation of technology and knowledge for sustainable economic production of Wyoming's natural resources to generate additional employment and revenue opportunities for the state that include supply of clean energy and materials and products.

SER Mission Statement

The School of Energy Resources' academic mission is to ensure students within its interdisciplinary academic programs can illustrate a foundational understanding of fundamentals relative to energy companies and systems. In order to prepare students to meet the demands of the modern-day workforce, students will utilize critical thinking skills, negotiation techniques, and problem-solving methods applicable to a diverse array of energy projects.

Program Admission

Undergraduate students will apply for admission to the University of Wyoming and then declare a major or minor within SER at any point during their course of study. To declare a major, students must meet with the SER academic advisor. Any student can add the SER minor without meeting with an SER advisor.

One of the most important challenges of the 21st century will be to develop and manage energy resources in a sustainable manner. Projections show energy consumption worldwide will increase nearly 50 percent by 2035. And half of the leadership in the energy industries is expected to retire in the next five to ten years.

The future of energy will be characterized by increasing knowledge, relentless change, and technological innovation. As global energy industry increases in complexity, demand will dramatically grow for professionals with a multidisciplinary, entrepreneurial skillset. Future leaders must understand complex technology within the context of business, legal, social, and public policy in order to create comprehensive and sustainable solutions.

The Energy Resource Management and Development (ERMD) B.S. program is designed to fill this need through a combination of rigorous courses, real-world internships, and undergraduate research experiences. The curriculum balances depth of learning with the breadth of understanding to train graduates for sustained competitive success in the energy workforce at the frontiers of knowledge and for self-directed, life-long learning. Students learn to focus on continuous improvement, constant assessment, and the importance of a sense of urgency and consideration of profit motive in the energy industry.
Our program emphasizes career planning and provides constant one-on-one guidance and assistance to ensure optimal workforce placement. Students are strongly encouraged to complete an industry internship (the minimum GPA requirement is typically 3.000). Opportunities are also available for undergraduate research, a study abroad experience, or a summer field trip. Multiple events during the year connect students to energy industry professionals.

**General Policies**

- A minimum 2.00 UW GPA is required to apply for the minor.
- It is the student's responsibility to monitor requirements for the minor, along with their advisor.
- Additional courses may be required to meet individual course prerequisites.
- All classes in the minor must be passed with a grade of “C” or better.

**Student Learning Outcomes**

The School of Energy Resources was created in 2006 to enhance the University of Wyoming’s energy-related education, research, and outreach. The Energy Resource Management and Development Program is designed to meet the demands of the energy workforce and enhance social literacy related to complex energy issues. Competency-based learning that integrates problem-solving, critical analysis of uncertain and complex issues, and constant improvement in performance are overarching components of our undergraduate program.

**Energy Resource Management and Development B.S. Program Learning Outcomes:**

- Identify or describe fundamental concepts of energy systems.
- Illustrate a foundational understanding of business fundamentals relative to energy companies, including organizational structure, management, entrepreneurship, and international commerce.
- Make use of critical thinking and problem-solving methods within a written group energy project.

**Energy and Environmental Systems Concentration Learning Outcomes:**

- Outline the skills in environmental monitoring and compliance.
- Explain energy regulation and management.
- Demonstrate the necessary skills related to the physical and social science dimensions of sustainability.

**Professional Land Management Concentration Learning Outcomes:**

- Apply concepts and skills to real-world problems to gain practical understanding and experience.
- Identify and navigate a valid real property transaction from contract to transfer of title.
- Define and navigate the legal and regulatory hurdles for energy development on federal, state, and fee lands.

**Energy Resource Management Minor Learning Outcomes:**
• Gain appreciation and understanding of fundamental concepts of energy systems.
• Acquire a foundational understanding of the commercial aspects of energy industries.
• Exhibit critical thinking and problem solving related to energy and environmental problems.
• Apply knowledge of energy technology to societal problems requiring economic and policy analysis while working in a multidisciplinary environment.

Minor

Students looking to create a focus for their coursework can add minors to the ERMD program. Courses applying towards the minor must be completed with a grade of "C" or better.

Students not already majoring in BS-Energy Resource Management and Development may add the SER minor to their program of study. More information can be found on the SER website: http://www.uwyo.edu/ser/academic-programs/minor-erm.html

Major

ERMD EES Concentration

EES majors can become environmental scientists who collect samples of air, soil, & water to identify environmental impacts, resolve environmental threats, & provide guidance on quality regulation and manage natural resources.

University Studies Program Requirements

The University Studies Program 2015 develops a student's foundational knowledge to prepare them for the Bachelor of Science degree program. Some of the categories of USP will be completed by completing the degree requirements as outlined below. Students should review their degree audits carefully to ensure that USP requirements are completed. Students transferring with a qualifying associate degree will have most of the lower division portion of the USP requirement waived. For more information about qualifying earned associate degree, see the "Articulation: Earned Associate Degrees" information in this catalog.

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.
COM2 - Communication 2

Credits: 3
Max Credit 3

Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3

Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q - Quantitative Reasoning

Credits: 3
Max Credit 3

All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

PN- - Physical and Natural World (2)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

H- - Human Culture (1)

Credits: 3
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

H- - Human Culture (2)

Credits: 3
Max Credit 3
Approved coursework does not include courses taken from the students' major department.

**V - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**EES Curriculum**

Students must earn a letter grade of C or better in each course and a cumulative GPA of 2.000 or better.  
Students will complete 120 credit hours for the BS in Energy Resources Management and Development.

**ACCT 2010 - Principles of Accounting I**

Credits: 3  
Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

**Former Course Number** [1010]

**Prerequisite:** Sophomore class standing and MATH 1400

**AGEC 1020 - Principles of Microeconomics**

Credits: 3  
You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

**Cross Listed** ECON 1020.  
USP 2003-2014 Code U3CS  
USP 2015 Code U5H

**DSCI 4260 - Project Management**

Credits: 3  
Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

**Prerequisite:** ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).
ECON1300 - Oil: Business, Culture, and Power

Credits: 3
A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ERS 1300.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

ENGL1010 - College Composition and Rhetoric

Credits: 3
A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

USP 2003-2014 Code U3WA
USP 2015 Code U5CI

ENR1000 - Energy and Society

Credits: 3
Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ERS 1000.
USP 2003-2014 Code U3O
USP 2015 Code U5PN

ENR4750 - ENR Law and Policy

Credits: 3
Explores the policy underpinnings of environmental and natural resource issues and the legal responses to these problems. Students will gain a basic understanding of: (1) the causes of environmental problems, including energy, water, wildlife, and other western land use issues; (2) the range of policy and instrument choices; and (3) the approaches actually taken in current laws. Students also will apply the law in an interdisciplinary, problem-based learning context.

Dual Listed ENR 5750.
Prerequisite: ENR 2000 and upper division standing or permission of instructor.

ERS3010 - Air Quality Management
Credits: 3
Provides an overview of air quality management approaches. In this course an interdisciplinary approach is adopted that includes diverse information from physical, natural and socioeconomic systems. With consideration of global and local issues this class focuses upon the energy sector.

**Prerequisite:** CHEM 1000 or CHEM 1020 and WA or COM1.

**ERS4120 - Federal Public Land Law**

Credits: 3
Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

**FIN2100 - Principles of Finance**

Credits: 3
Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

**Prerequisite:** ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200, and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**GIST1200 - Geospatial Foundations**

Credits: 3
Provides fundamental knowledge of geospatial information and place-based science across disciplines, including spatial representation, scale, resolution, map projections, and coordinate systems. Students learn how to discover and access spatial data and read and analyze maps. Supports understanding of geospatial reasoning and cognition.

**Former Course Number** GIST 1100

**GIST2310 - Intro to Geographic Information Systems**

Credits: 4
Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.
**Former Course Number** GIST 2100

**LIFE1010 - General Biology**

Credits: 4  
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB  
USP 2015 Code U5PN  
**Former Course Number** [BIOL 1010]

**Prerequisite:** Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

**LIFE2023 - Biology of Plants and Fungi**

Credits: 4  
An integrated course dealing with the central themes of biology including cell and molecular biology, genetics, evolution and ecology of plants and fungi. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered fall semester).  
**Former Course Number** [BIOL 2023]

**Prerequisite:** LIFE 1010 with a grade of C or better.

**LIFE3400 - General Ecology**

Credits: 3  
Prepresents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

**Former Course Number** [BIOL 3400/ BIOL 2400]

**Prerequisite:** completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

**MATH2200 - Calculus I**

Credits: 4  
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**REWM2000 - Principles of Rangeland Management**

Credits: 3  
Basic principles of range management as they apply to various regions and vegetative types. Relationship of range management practices to livestock production, wildlife management, forestry, hydrology and other land uses. Introductory course for majors and non-majors.

Prerequisite: LIFE 1101 or LIFE 1010.

**REWM2400 - Range Ecosystems and Plants**

Credits: 4  
Ecology of range ecosystems of western North America and identification of 200 most common plants species, including taxonomic keying.

Former Course Number [2500]

Prerequisite: REWM 2000 with a grade of C or better.

**REWM3100 - Principles of Wildland Water Quality**

Credits: 3  
Basic principles of aquatic chemistry and water quality as they relate to watershed management practices including livestock production, agronomic production, mineral and natural gas extraction and other land uses.

Cross Listed ENR 3100.  
When Offered (Normally offered fall semester)  
Prerequisite: CHEM 1000.

**REWM4200 - Reclamation of Drastically Disturbed Lands**

Credits: 3  
Overviews reclamation of drastically disturbed lands in the west, emphasizing surface mined lands. Includes principles of ecology, agronomy, soils and other relevant disciplines as applied to mitigate adverse environmental impacts of land disturbance.

When Offered (Normally offered fall semester)  
Prerequisite: LIFE 3400, AECL 2100.

**REWM4580 - Rangeland Restoration Ecology**
Detailed analysis of various disturbed ecosystems unique to western rangelands. Primary emphasis on plant community restoration following degradation from edaphic, biotic, hydrologic, and topographic influences on degradation and strategies for vegetative rehabilitation. Strong focus on current research to formulate restoration strategies.

**Dual Listed** REWM 5580.
**Prerequisite:** REWM 4200 or LIFE 3400.

**REWM4700 - Wildland Watershed Management**

Credits: 3
Studies hydrological cycle with specific emphasis on the role of vegetation in hydrologic processes such as interception, surface detention storage, infiltration, percolation, run-off, and water quality. Utilization of watersheds and vegetation manipulation practices to modify these hydrologic processes.

**When Offered** (Normally offered spring semester)
**Prerequisite:** LIFE 1101 or LIFE 1010.

**OR**

**REWM4710 - Watershed Water Quality Management**

Credits: 3
Studies watershed processes controlling water quality. Examines impacts of land use activities such as agriculture production, livestock grazing, and mineral and natural gas extraction on surface water and ground water quality. Emphasis will be placed on water quality modeling and management.

**Dual Listed** REWM 5710.
**When Offered** (Normally offered spring semester)
**Former Course Number** [4180]

**Prerequisite:** CHEM 1000.

**SOIL2010 - Introduction to Soil Science**

Credits: 4
Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE
**Prerequisite:** CHEM 1000 or CHEM 1020.

**STAT2050 - Fundamentals of Statistics**

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces
statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

V - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

COM2 Elective, Pick ONE

COMM2010 - Public Speaking

Credits: 3
Beginning public speaking course. Students will develop foundational oral, digital and written communication skills. Emphasizes message construction, performance and critique in public communication settings. Includes speech preparation, listening, audience analysis, writing strategies, digital communication, critical thinking, language/nonverbal behavior and various speaking formats. (Offered fall, spring and summer).

USP 2003-2014 Code U3O
USP 2015 Code U5C2
Former Course Number COJO 2010

Corequisite: Prerequisite: Successful completion of a COM1 course.

ECON2400 - Economics of the Environment

Credits: 3
This introductory course examines the links between economics and the natural environment. We consider the efficient use of natural resources like minerals, forests, and fisheries. We also explore how to use economics to sharpen environmental policy for challenges like water and air pollution, climate change, and biodiversity protection.

When Offered (Offered based on sufficient demand and resources)
USP 2003-2014 Code U3G, U3WB
USP 2015 Code U5C2
A&S College Core 2015 ASG
Prerequisite: ECON 1010 recommended, ECON 1020 required.

ENGL2005 - Writing in Technology and the Sciences

Credits: 3
Develops writing styles specifically suited to technological and scientific fields of study. Includes focus on disciplinary
conventions and styles as well as audience/readership considerations. Introduces techniques for data interpretation and visualization, and helps students analyze, understand, and adapt common field genres and formats.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2
Prerequisite: successful completion of WA/COM1.

**ENR2000 - Environment and Society**

Credits: 3
Develops understanding of the nature and dimensions of environmental and natural resource issues. Explores ways in which elements of society approach, evaluate, and develop positions relative to environmental issues. Uses case studies to illustrate the contemporary and historical role of individuals and societies in identifying and addressing environmental issues at scales ranging from local to global.

USP 2003-2014 Code U3G
USP 2015 Code U5C2
A&S College Core 2015 ASG

**ENR2450 - Fish and Wildlife Management in the Anthropocene**

Credits: 4
Course examines fundamental principles in management of natural resources, especially fish and wildlife populations. Students explore historical to contemporary context of management, population biology, management tools and their application, career opportunities, with specific emphasis on human dimensions, law, and policy. Students will develop oral and written communication skills.

Cross Listed ZOO 2450.
USP 2015 Code U5C2
Prerequisite: LIFE 1010, LIFE 2022, and COM1.

**ENR3300 - Environmental Policy, Conservation and Development in India**

Credits: 3
This course will focus on India's environmental policies pertaining to conservation and development. Case studies will be used to understand how these policies were developed, put in place, and their intended and actual outcomes. Students are required to select a suitable topic and conduct research and submit a research report.

USP 2015 Code U5C2
Prerequisite: WA/COM1 course.

**ERS2500 - Communication Across Topics in Energy**

Credits: 3
Students will develop interdisciplinary communication skills from an Energy Resources perspective. Communication will include oral, digital, and written forms. Audiences for communication projects will often be live, and from a variety of backgrounds.
GEOL2220 - Communicating Earth Science

Credits: 3
This course will focus on communicating science to non-scientists. Students will deliver earth science information through written, digital and oral presentations to be informative and interesting to the public.

HP2020 - Honors Colloquium II

Credits: 3
Max Credit 3
Honors Colloquium II is the second course in a two-semester sequence introducing students to the Honors College and to interdisciplinary modes of inquiry and expression through intensive analytical reading and writing, lectures, Scholars Sessions, and experiential learning.

UWYO1600 - Veterans Transition Course

Credits: 1
Provides returning veterans skills for successful transition to college and civilian life. Reviews tools for academic success, resources available to the veteran, information on veteran related challenges, and career planning resources. Students will develop skills in written, oral, and digital communication.

When Offered (Normally offered fall semester)

COM3 Elective - Pick ONE

AGEC4965 - Agribusiness Entrepreneurship

Credits: 3
Designed for students preparing to launch or work with an entrepreneurial venture. Students develop a business plan, synthesizing knowledge of agricultural economics, agribusiness management and finance, human resources and accounting. Emphasis is placed on advancing student professional communication abilities for agribusiness management careers.
AGRI4600 - Developing Organizational Leadership

Credits: 3
A senior capstone experience for Bachelor of Applied Science students, bringing together reading, research, writing, and communication skills to focus on a major project. Leadership skills and approaches to organizational problem-solving are deepened using the structural, human resource, political, and symbolic frames to change and improve leadership and organizational culture.

BOT4100 - Scientific Communication

Credits: 2
This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.

Cross Listed ZOO 4100.
USP 2003-2014 Code U3L, U3WC
USP 2015 Code U5C3
A&S College Core 2015 Preference given to seniors.
Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course.

COJO3010 - Business and Professional Communication

Credits: 3
Studies theories and techniques of professional communication activities including interviewing skills, group processes, and professional presentations; for students who are beyond elementary oral communication level. Students develop oral communication skills through projects and presentations.

USP 2015 Code U5C3
Prerequisite: COJO 1010 or COMM 2010 and junior standing.

ENGL3020 - Culture, Communication, Work

Credits: 3
Examines individual identity and group cultures, and how they influence communication in the workplace. Helps students develop strategies for working across cultural differences and for effective negotiation and conflict resolution skills.

USP 2003-2014 Code [(none)< >COM3]
Prerequisite: Completion of COM2.
ENGL4010 - Technical Writing in the Professions

Credits: 3
Enhances professional writing skills applicable to a variety of professions. Includes audience analysis and adaptation, information design and use of visuals, and a range of formats and genres. Emphasizes clarity and precision of language. May feature primary research and problem-based or service-learning projects.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: WA and WB/COM1 and COM2; junior or senior standing.

ENGL4030 - Writing for Magazines

Credits: 3
Students write a variety of articles that would be appropriate for submission to a magazine. Feedback is given through class workshops and consultation with the instructor. Award-winning articles are read and discusses. The business aspect of magazine writing is also covered.

Prerequisite: COM1, COM2, and junior standing.

ENGL4040 - Rhetoric, Media, and Culture

Credits: 3
This class will guide us through the ways in which popular culture shapes the way that we view ourselves and other, and gives us a vocabulary to describe this phenomenon, critique it, and even push back against it.

USP 2003-2014 Code [(none)< >COM3]
Prerequisite: COM1 and COM2.

ENGL4075 - Writing for Non-Profits

Credits: 3
Designed for students interested in working in the non-profit sector. Explores rhetorical, political, and social dimensions of writing and communicating in the non-profit world and features intensive study of special topics and problems related to non-profit communication, including activism, grant writing, organizational rhetoric, and non-profit genres. Content varies.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: WB/COM2.

ENR4900 - Capstone in ENR

Credits: 3
An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.
Dual Listed ENR 5900.
USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: ENR 3000.

Concurrent ENR majors must take ENR 4900

ESS4950 - Exploring the Earth System

Credits: 3
Conduct critical and interdisciplinary assessments on complex topics addressing physical, biological, and human components of the Earth System. Through multiple written, oral, and digital communication products, students will work independently and collaboratively to critically review existing literature, define knowledge gaps, analyze evidence, and synthesize results for multiple audiences.

USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: ESS 1000 and either ESS 3480 or ENR 3450.

POLS4840 - Seminar in Public Law

Credits: 3
Max Credit (Max. 6)

Includes reading and research on selected problems in public law.

Dual Listed POLS 5840.
USP 2015 Code U5C3
Prerequisite: 9 hours of political science or related fields including POLS 1000 and consent of instructor.

REWM4900 - Rangeland Management Planning

Credits: 3
Applies planning processes that integrate soil, vegetation, water, livestock, wildlife, and environmental regulatory considerations within the context of satisfying ecologically sustainable rangeland management objectives.

When Offered (Normally offered spring semester)
USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: REWM 4830, ECON 1010 or AGEC 1010 or AGEC 1020, SOIL 4120 or SOIL 4150 (may be concurrent), REWM 3020 (may be concurrent), REWM 4330 (may be concurrent).

ZOO4100 - Scientific Communication

Credits: 2
This course is designed to provide intensive instruction in written, oral, and digital communication for zoology and physiology, biology, and botany majors. The course teaches students to communicate and execute research using practices common in the biological sciences.
Cross Listed BOT 4100.
USP 2003-2014 Code U3L,U3WC
USP 2015 Code U5C3
Prerequisite: COM1, COM2, and concurrent or prior upper division BOT, ZOO, or LIFE course. Preference given to seniors.

Chemistry Elective- Pick ONE (USP:PN for all listed)

CHEM1000 - Introductory Chemistry

Credits: 4
Deals with principles of chemistry and some applications to inorganic chemistry. For students in family and consumer sciences, nursing, education, general arts and sciences and most agriculture curricula. Students who have credit in CHEM 1020 or CHEM 1050 may not receive duplicate credit for this course.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.
When Offered (Normally offered fall semester)
USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: Minimum grade of C in MATH 0925, or level 3 on the MPE, or ACT math score of 23 or above.

CHEM1020 - General Chemistry I

Credits: 4
First semester of a one-year introductory series. Provides broad coverage of chemistry principles with inorganic and organic systems applications. Credit will not be allowed for more than one of CHEM 1020, CHEM 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory and discussion: 3 hours per week.
When Offered (Normally offered fall semester)
USP 2003-2014 Code U3S
USP 2015 Code U5PN
Prerequisite: ACT Math score of 23 or above, or concurrent enrollment in MATH 1400, or MATH 1405 or CHEM 1050.

CHEM1050 - Advanced General Chemistry I

Credits: 4
First semester of a one-year series covering chemical principles. Emphasizes inorganic chemistry and briefly discusses qualitative analysis. Credit not given for more than one of CHEM 1020, 1050 and CHEM 1000.

Lab/Lecture Hours Laboratory: 3 hours per week.
When Offered (Normally offered fall semester)
USP 2003-2014 Code U3SP
USP 2015 Code U5PN
Prerequisite: one year high school chemistry, and an ACT Math score of 27 or higher or concurrent enrollment in MATH 2200.
Economics Elective - Pick ONE

AGEC3750 - Natural Resource Planning and Economics

Credits: 3
Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed ENR 3750.
Former Course Number [4750]

Prerequisite: QA/Q, WA/COM1 and junior standing.

AGEC4600 - Community Economic Analysis

Credits: 3
Analysis of regions and rural communities; their problems, socioeconomic characteristics, land use and economic development. Provides training in regional economic analysis, fiscal impact analysis and benefit cost analysis.

Dual Listed AGEC 5600.
USP 2015 Code U5H
Prerequisite: ECON 3010, ECON 3020, and MATH 1400.

AGEC4700 - Economics of Range Resources

Credits: 3
Applies economic and decision theory to management and allocation of public and private range resources.

When Offered (Normally offered spring semester)
Prerequisite: AGEC 1020 or equivalent.

AGEC4720 - Water Resource Economics

Credits: 3
Presents principles and procedures appropriate to water resource allocation and development decisions. Studies agricultural, recreational, industrial and other uses of water.

Prerequisite: AGEC 1020 or equivalent; QB course, WB course; senior standing.

ECON4420 - Seminar: Economics for ENR

Credits: 2-4
For students with little or no background in economics interested in economic perspectives on ENR. Emphasis is on integrated ecology-economics approach to investigate the economics environmental services, biological resources, and the ecosystems that contain them. CBEC and ECON majors cannot earn upper-division economics credit for this
**ERS3400 - Energy Markets & Policy**

Credits: 3  
This course provides an economic analysis of recent developments in energy markets and policies.

*Cross Listed* ECON 3400.  
*Prerequisite:* ECON 1000, ECON 1010, ECON 1020, ECON 1200, ECON 1300, ECON 1400, or ERS 1300.

**Negotiation Elective-Pick ONE**

**AGEC4450 - Negotiation**

Credits: 3  
Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

*Cross Listed* ENR 4450.  
*Dual Listed* AGEC 5450.  
*Prerequisite:* completion of USP O/COM2 requirement; junior standing.

**AGEC4550 - Negotiation Analysis**

Credits: 3  
Focuses on using an analytical perspective for maximizing joint gains between negotiators. Students learn analytical techniques to prepare for negotiation, evaluate options and proposals during a negotiation, and evaluate negotiated outcomes with respect to maximization of joint gains and fairness criteria.

*Cross Listed* ENR 4550.  
*Dual Listed* AGEC 5550.  
*Prerequisite:* QA/Q.

**Data Analysis Elective-Pick ONE**

**ENR4500 - Risk Analysis**

Credits: 4  
Introduces basic concepts of risk analysis, including risk perception, identification, assessment, communication, management, and policy. Provides quantitative treatment of risk assessment procedures, fundamental mathematical models, and the concepts of variability and uncertainty; and practical experience in risk analyses conducted by teams of students. Emphasizes environment and natural resource examples. Laboratory.
**Dual Listed** ENR 5500.
USP 2003-2014 Code U3QB
**Prerequisite:** MATH 1000 or MATH 1400, introductory statistics and familiarity with Excel spreadsheets.

**ENR4525 - Environmental Data Analysis**

Credits: 4  
Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real-world problems in data analysis.

**Cross Listed** GEOL 4525/GEOL 5525.  
**Dual Listed** ENR 5525.  
**Prerequisite:** A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

**ES1060 - Introduction to Engineering Problem Solving**

Credits: 3  
An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

**Prerequisite:** MATH 2200 or concurrent enrollment.

**GEOL2120 - Quantitative GeoMethods**

Credits: 3  
Focuses on fundamental mathematical concepts used in geosciences. This course provides the tools to solve quantitative problems in geosciences applications. Students should demonstrate mathematical skills needed to formulate, analyze, and interpret quantitative arguments in geosciences.

USP 2003-2014 Code U5Q  
**Prerequisite:** Level 5 in Math Placement Test OR 23 in Math ACT OR 600 in Math SAT.

**GEOL4250 - Mathematical Geosciences**

Credits: 3  
The purpose of this course is to strengthen the quantitative skills of students in geosciences by reviewing basic concepts of linear algebra, precalculus, derivation and integration through applications to real datasets and problem sets, and introducing basic concepts of inverse theory, spatial science, data analytics, and geostatistics. The examples focus on applications to practical geoscience problems.

**Dual Listed** GEOL 5250  
**Prerequisite:** MATH 1400 and 1405 or consent of instructor.
GEOL4525 - Environmental Data Analysis

Credits: 4
Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real world problems in data analysis.

Cross Listed ENR 4525/ENR 5525.
Dual Listed GEOL 5525.
Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

GIST4211 - Advanced Remote Sensing

Credits: 3
On-campus and online course including lecture and digital image processing lab. Explores advanced remote sensing techniques including high spatial and spectral resolution data analysis, active remote sensing (radar and lidar), and advanced image classification. Other advanced topics may be discussed as needed.

Dual Listed GIST 5211.
Former Course Number [BOT 4211; GEOG 4211]

Prerequisite: GIST 3111 or GIST 4130.

IMGT2400 - Introduction to Information Management

Credits: 3
Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

STAT3050 - Statistical Methods

Credits: 3
Provides undergraduate majors in the Colleges of Arts and Sciences, Agriculture and Education with training in statistical methodology for multiple variable situations. Integrates computer analysis packages such as R MINITAB, SAS and SPSSX into statistical topics. Credit cannot be earned in more than one of the following courses: STAT 2110, 3050 and STAT 5050, 5060, STAT 5070, STAT 5080.

Prerequisite: STAT 2050, STAT 2070 or equivalent.
ZOO4400 - Population Ecology

Credits: 3
Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological problems in their careers.

**Dual Listed** ZOO 5400.

**When Offered** (Offered spring semester)

**Prerequisite:** LIFE 1010, LIFE 3400 and STAT 2050 or consent of instructor.

Technical Elective - Pick ONE

**ENR3000 - Approaches to ENR Problem Solving**

Credits: 3
Provides an introduction to environmental and natural resources problem solving and decision making. Students learn how scholars and practitioners define and structure ENR problems for management and policy decision making. Additionally, students learn approaches, processes and techniques that address problems analytically and in a values-oriented context.

USP 2003-2014 Code U3CS, U3WB
USP 2015 Code U5H
**Former Course Number** [4000]

**Prerequisite:** ENR 2000.

**ENR3050 - Cultures of Nature in the United States**

Credits: 3
Uses artistic, philosophical, historical and literary material to investigate how ideas about and representations of nature have changed over time in the U. S. Culminates in an examination of a wide range of contemporary environmental ideas within this broad historical and cultural context.

**Cross Listed** AMST 3050/GWST 3050.

**Prerequisite:** 2000-level course in one of the following departments: AMST, American history, American literature, or a 2000-level course approved for the ENR program.

**ENR3100 - Principles of Wildland Water Quality**

Credits: 3
Basic principles of aquatic chemistry and water quality as they relate to watershed management practices including livestock production, agronomic production, mineral and natural gas extraction and other land uses.

**Cross Listed** REWM 3100.
When Offered (Normally offered fall semester)
Prerequisite: CHEM 1000.

**ENR3130 - Environmental Quality**

Credits: 3
Introduction to environmental quality issues and events. Course emphasizes impacts to soil, water, atmospheric, and vegetative ecosystems due to different nutrients and contaminants, including nitrogen, phosphorus, sulfur, trace elements, and organic chemicals. Current information pertaining to environmental quality is discussed and a field trip to the Union Pacific Tie Plant.

Cross Listed SOIL 3130.
When Offered (Offered fall semester)
Prerequisite: complete at least 1 University Studies Science course SB, SP or SE.

**ENR3300 - Environmental Policy, Conservation and Development in India**

Credits: 3
This course will focus on India's environmental policies pertaining to conservation and development. Case studies will be used to understand how these policies were developed, put in place, and their intended and actual outcomes. Students are required to select a suitable topic and conduct research and submit a research report.

USP 2015 Code U5C2
Prerequisite: WA/ COM1 course.

**ENR3450 - Weather and Climate**

Credits: 3
Systematically examines elements and controls of weather and climate with application to regions.

Cross Listed GEOG 3450 and GEOL 3450
When Offered (Normally offered fall semester)
Former Course Number [G&R 3450]

Prerequisite: GEOG 1000, GEOG 1010 or GEOG 1020.

**ENR3620 - Environmental Justice**

Credits: 3
Examines core philosophical understandings of justice and applies them to the environment through a variety of case studies, analytical essays and monographs.

Cross Listed POLS 3620.
Prerequisite: POLS 1000, POLS 2460, or POLS 3600, or permission of instructor.

**ENR3700 - Wyoming Conservation Corps Practicum**
Credits: 1  
Max Credit 2

Required for students entering the WCC. Students will be required to make weekly journal entries and write a paper on a topic germane to their WCC experience. Additionally, necessary training for the Wyoming Conservation Corps program will be included in the course content.

**Prerequisite:** Acceptance into the Wyoming Conservation Corps program.

**ENR3750 - Natural Resource Planning and Economics**

Credits: 3  
Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

**Cross Listed** AGEC 3750.  
**When Offered** (Offered spring semester of odd-numbered years)  
**Former Course Number** [4750]

**Prerequisite:** QA, WA and junior standing.

**ENR3900 - Seminar in Environment and Natural Resources**

Credits: 1-3  
Max Credit 12

Examines research and policy perspectives by a variety of authorities on selected environment and natural resource problems and issues.

**Prerequisite:** ENR 3000 or consent of instructor.

**ENR3950 - Environmental Sociology**

Credits: 3  
Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

**Cross Listed** SOC 3950.  
**Prerequisite:** SOC 1000.

**ENR4010 - Winter Ecology: Skills of the Winter Naturalist**
Credits: 1
Emphasizes field naturalist skills, the effects of winter abiotic conditions on organisms and subsequent adaptations to these conditions, animal tracking, introduction to snow dynamics and winter safety.

Prerequisite: 6 hours of ENR or science courses.

ENR4011 - Winter Ecology: Snowpack Science and Dynamics

Credits: 1
Emphasizes snow science and avalanche safety through lectures and inquiry-based field laboratories.

Prerequisite: 6 hours of ENR or science courses.

ENR4012 - Winter Ecology: Wildlife and Plant Adaptations

Credits: 1
Emphasizes animal and plant adaptations to cope with the stresses of winter, as well as the predicted impacts of climate change, through lectures and inquiry-based field laboratories. Students also conduct field research in a winter environment.

Prerequisite: 6 hours of ENR or science courses.

ENR4030 - Ecology of Knowledge

Credits: 3
Examines the development of "disciplines" and explores definitions, theories, methods and practices of interdisciplinary work.

Cross Listed AMST 4030.
Dual Listed ENR 5030.
Prerequisite: 3 hours in any interdisciplinary program.

ENR4040 - Conservation of Natural Resources

Credits: 3
Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed BOT 4040/GEOG 4040.
USP 2003-2014 Code U3CS
Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

ENR4051 - Environmental Politics
Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, POLS 4051, GEOG 4051 and REWM 4051.  
USP 2003-2014 Code U3WC  
Prerequisite: POLS 1000.

ENR4052 - Federal Land Politics

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/AMST 4052/GEOG 4052/REWM 4052.  
Prerequisite: POLS 1000.

ENR4240 - Disease Ecology

Credits: 3
Introduction to 1) how interactions among species, ecosystems, human systems, and abiotic components of the environment affect patterns and processes of disease, and 2) considerations for coevolution of hosts and pathogens, conservation biology, models used to understand disease dynamics, and approaches to manage and control disease in animals, plants, and humans.

Cross Listed PATB 4240.  
Dual Listed ENR 5240.  
Prerequisite: LIFE 2022 or LIFE 2023 and STAT 2050 or STAT 2070.

ENR4285 - Wildland Hydrology

Credits: 3
Teaches essential and unique characteristics of hydrologic cycle as occurs on range and forest lands, concentrating on quantification of these processes and storages.

Cross Listed REWM 4285.  
Dual Listed ENR 5285.  
Prerequisite: University Studies QA.

ENR4310 - Environmental Anthropology

Credits: 3
Addresses how human societies interact with their surroundings, emphasizing cultural understandings of the environment. Introduces variety of theoretical and methodological approaches to topics ranging from problems of the American West to global environmental change.
Cross Listed ANTH 4310.
Dual Listed ENR 5310.
When Offered (Normally offered every third semester)
Prerequisite: ANTH 1200.

**ENR4412 - Global Environment History**

Credits: 3
This course is designed to introduce undergraduate and graduate students to the new field of global environmental history. The Global Environmental History course will provide a new way of looking at humans, animals, and the lives they've built in the environment and the costs of their decisions to the environment.

Cross Listed HIST 4412.
USP 2015 Code U5H
Prerequisite: 9 hours of HIST or ENR.

**ENR4420 - Conservation Biology**

Credits: 3
Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ZOO 4420.
Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

**ENR4430 - Green Chemistry and Global Environmental Problems**

Credits: 3
Focus includes study of the chemistry of air, water, and soil as well as the effects of anthropogenic activities on natural processes. Emphasis is also placed on sustainability and green chemistry practices and technologies.

Cross Listed CE 4430/CHE 4430.
Prerequisite: CHEM 1020.

**ENR4500 - Risk Analysis**

Credits: 4
Introduces basic concepts of risk analysis, including risk perception, identification, assessment, communication, management, and policy. Provides quantitative treatment of risk assessment procedures, fundamental mathematical models, and the concepts of variability and uncertainty; and practical experience in risk analyses conducted by teams of students. Emphasizes environment and natural resource examples. Laboratory.

Dual Listed ENR 5500.
USP 2003-2014 Code U3QB
Prerequisite: MATH 1000 or MATH 1400, introductory statistics and familiarity with Excel spreadsheets.
ENR4525 - Environmental Data Analysis

Credits: 4
Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real-world problems in data analysis.

Cross Listed GEOL 4525/GEOL 5525.
Dual Listed ENR 5525.
Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

ENR4560 - Conservation Entrepreneurship

Credits: 3
Max Credit 3

This course introduces students to foundational concepts in social entrepreneurship applies them to environmental conservation issues. Students will learn the legal, financial, and ecological concepts underpinning entrepreneurial approaches to conservation. Students will apply concepts to real world examples to understand the strength and weaknesses of these approaches.

Dual Listed ENR 5560.
Prerequisite: ENR 3000

ENR4600 - Campus Sustainability

Credits: 3

Uses campus as a setting to explore long-term environmental, economic, and social sustainability theory and practice. Students design and implement a semester-long project to improve sustainability of the UW campus. This is an interdisciplinary course and is appropriate for students of all disciplines.

Dual Listed ENR 5600
Prerequisite: USP WB or COM2 course, junior or senior standing.

ENR4700 - Media, Science, and Society

Credits: 3

This course discusses why scientific, health, and environmental issues are covered in particular ways in media. We will also examine how these messages impact people's attitudes, opinion, knowledge, and emotions about science, health, and the environment.

Cross Listed COJO 4700.
Dual Listed ENR 5700.
Prerequisite: COMM 1000 or ENR 1200 or ENR 1500 or ENR 2000.

ENR4800 - Historic Preservation
Credits: 3
Review of the roots of historic preservation in Western culture with an emphasis on the historical and legal context of architectural conservation in America. Current issues in preservation are examined through case studies and guest presentations.

**Cross Listed** AMST 4800.
**Dual Listed** ENR 5800.
**Prerequisite:** ARE 3020 or AMST 5400.

**ENR4890 - Topics in Environment and Natural Resources**

Credits: 1-6
Max Credit (Max. 12)

Special topics in environment and natural resources are offered under this number. The specific subject matter varies each year because the course is normally taught by faculty who wish to present a specialized topic of interest to ENR and other students. Check class schedule for specific topics offered each year.

**Dual Listed** ENR 5890.
**Former Course Number** [4990]

**Prerequisite:** ENR 3000 or permission of the instructor.

**ENR4900 - Capstone in ENR**

Credits: 3
An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.

**Dual Listed** ENR 5900.
USP 2003-2014 Code U3WC
USP 2015 Code U5C3
**Prerequisite:** ENR 3000.

**ENR4950 - Leadership in Natural Resources Management**

Credits: 2
Provides Crew Leaders in the Wyoming Conservation Corps with an understanding of the complex dynamics of natural resources management while also equipping students with the tools to confidently lead groups of students on conservation-oriented service-learning projects on Wyoming’s public lands during the summer months.

**Cross Listed** ERS 4950.
**Dual Listed** ENR 5950.
**Prerequisite:** ENR 3700 and consent of instructor.

**ENR4960 - Field Studies in:**
Field-based courses in Environment and Natural Resources are taught under this number. The specific subject matter varies depending upon the location and content of each course. Students frequently need to apply in advance.

**Prerequisite:** 6 credits of ENR coursework.

**ENR4970 - ENR Internship**

Credits: 1-6  
Max Credit (Max. 6)

Provides practical experience in environmental and natural resource policy, management and decision processes, as well as interaction with professionals in the field. Offered S/U only.

**Prerequisite:** ENR 3000.

**ENR4975 - Independent Study**

Credits: 1-6  
Max Credit (Max. 6)

Offers students the opportunity to independently complete special academic studies under direction of a faculty member. Readings, papers, and projects are completed as directed.

**Dual Listed** ENR 5975.  
**Prerequisite:** 6 credits in ENR.

**GEOG3010 - Geomorphology of Earth’s Dynamic Landscapes**

Credits: 3  
A systematic exploration of Earth’s surface, emphasizing the geographic distribution of various landforms and their evolution over time. Introduces general geomorphic principles and describes the application of these principles to specific landscape features. The processes that drive landscape change are examined through case studies, computer-based mapping exercises, and basic calculations.

**Former Course Number** [G&R 3010]

**Prerequisite:** Either GEOG 1010 or GEOL 1500 or equivalent.

**GEOG3030 - Geography and Development**

Credits: 3  
Examines distribution of wealth and poverty in the world; theories of development, from traditional modernization theories through Marxist critiques and sustainable development; and case studies from around the world of development successes and failures, chosen to illustrate and illuminate theories of development.
Prerequisite: GEOG 1000 or GEOG 1020 or 3 credit hours of social science with global focus.

GEOG3050 - Economic Geography

Credits: 3
Economic Geography is the study of the location, distribution and spatial organization of economic activities across the globe; specifically how the economic realm is intertwined with other spheres of international social life. It explores the inherent logics and mechanisms of the capitalist system, and the social and spatial inequalities that result.

Former Course Number [G&R 3050]

Prerequisite: 6 hours of Social Sciences or International Studies.

GEOG3400 - Traditional Ecological Knowledge

Credits: 3
Description of the interaction between economy, religion, language and the ecosystem for select indigenous peoples and discussion of the pedagogical methods for preserving their ecological knowledge. An examination of the conflict between contemporary society's demands and preserving traditional society's heritage.

Cross Listed NAIS 3400.

GEOG3450 - Weather and Climate

Credits: 3
Systematically examines the patterns and process of Earth's climate system, focusing on atmospheric and surface energy and water balances; atmospheric motion; past, present, and future climate change.

Cross Listed ENR 3450 and GEOL 3450

GEOG3480 - Environmental Change

Credits: 3
Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how
societies have responded to natural and anthropogenic environmental change.

Cross Listed ESS 3480
USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
Former Course Number [G&R 3480]

Prerequisite: GEOG 1010 or any USP PN course; and USP COM1.

GEOG3550 - Natural Hazards and Society

Credits: 3
Considers societal structures and processes as they interact with hazards in the natural environment.

USP 2003-2014 Code U3CS
Former Course Number [G&R 3550]

GEOG4000 - Terrain Analysis

Credits: 3
Studies techniques for acquiring and analyzing spatial data from maps, remotely sensed imagery and field surveys for landscape assessment. Emphasizes deriving maps that describe physical suitability of landscapes for specific human activities. Field trip required.

Former Course Number [G&R 4000]

Prerequisite: Completion of USP PN requirement or consent of instructor.

GEOG4013 - Political Geography

Credits: 3
Geographic space mediates political action and is generated by it, and spatial forms are produced by governmental agencies that must respond or adapt to emerging patterns of political disruption and tendencies of social change. Students in this course learn to think about the relationship between politics and space at multiple scales and in global context. They also develop an inter-disciplinary approach to the sub-discipline of political geography in social and historical context, and, in that sense, develop a capacity to think and act as political geographers.

Cross Listed GEOG 5013, INST 4013, INST 5013
Prerequisite: 6 hours in social science

GEOG4040 - Conservation of Natural Resources

Credits: 3
Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.
Cross Listed ENR 4040.
GEOL 4040
USP 2003-2014 Code U3CS
Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

GEOG4051 - Environmental Politics

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, POLS 4051 and REWM 4051.
USP 2003-2014 Code U3WC
Former Course Number [G&R 4051]

Prerequisite: POLS 1000.

GEOG4052 - Federal Land Politics

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/ENR 4052/AMST 4052/REWM 4052.
Former Course Number [G&R 4052]

Prerequisite: POLS 1000.

GEOG4080 - Management of Major River Basins

Credits: 3
Examines geography of water resources, including distribution, water as a resource and water as a hazard to humans. Focuses on water management case studies on the scale of major river basins in North America and elsewhere in the world.

Former Course Number [G&R 4080]

Prerequisite: Completion of the USP PN requirement or consent of instructor.
GEOG4113 - Geological Remote Sensing

Credits: 4
Acquaints students with aircraft and spacecraft remote sensing of the environment, emphasizing geologic application to earth and other planetary bodies. Includes visible, infrared, ultraviolet, radio and radar sensing. Laboratory exercises are applications related to tectonics, geomorphology, paleoclimate, structure, stratigraphy, environmental geology and geologic hazards.

Cross Listed GEOL 4113.
Prerequisite: GEOL 1005 or GEOL 1100 or 1200 or GEOG 1010 and MATH 1400/1405 or MATH 1450.

REWM3000 - Plant Ecophysiology/Plant Form and Function

Credits: 4
Integration of basic vascular plant anatomy, morphology, physiology within the contexts of modern evolutionary and ecological theory. Students receive in depth exposure to fluid flow, energetics, development, growth, general metabolism, and structure, and functions for plant cells, tissue and organs.

Prerequisite: LIFE 2022 or LIFE 2023.

REWM3390 - Range Judging

Credits: 2
Judging rangelands based on soil, plant and animal resources and applying science-based information to make management decisions. Participation in a field trip and UW SRM judging teams is required including Plant Team and URME. This course is intended for members of the SRM competitive Teams.

When Offered (Normally offered spring semester)
Prerequisite: C or better in REWM 2000, REWM 2400 and REWM 3020, as well as the Team Coach permission.

REWM3500 - Rangeland Plant Ecophysiology

Credits: 3
Examines plant physiological processes that have application to ecological and land management issues. Topics include carbon assimilation, water relations, mineral nutrition as applied to plant distributions, plant and system responses to grazing, as well as plant tolerance of extreme conditions including drought, excessive temperatures and changes in climate.

When Offered (Normally offered fall semester)
Prerequisite: LIFE 2022 or LIFE 2023.

REWM4000 - Poisonous Plants and Plant Toxins

Credits: 3
Plants poisonous to livestock in Wyoming and the Mountain West; identification, ecology, toxic principles, physiologic responses of animals, situations leading to poisoning, control and management to prevent losses.
When Offered: Normally offered spring semester.
Prerequisite: 12 hours of biological and chemical sciences.

**REWM4051 - Environmental Politics**

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and POLS 4051.
USP 2003-2014 Code U3WC
Prerequisite: POLS 1000.

**REWM4052 - Federal Land Politics**

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/ENR 4052/GEOG 4052/AMST 4052.
Prerequisite: POLS 1000.

**REWM4100 - Nutritional Ecological Management of Range Herbivores**

Credits: 3
Examines ecological processes and management of nutritional resources by domestic and wild rangeland herbivores. Topics include nutrient availability, nutritional demand, foraging behavior, diet composition, grazing systems, stocking rates, livestock/wildlife competition, predation, parasitism, plant toxicity, and influences on ecological condition. Students evaluate case studies and analyze nutritional data using current technologies.

Dual Listed REWM 5100.
Prerequisite: LIFE 1010 or LIFE 1020.

**REWM4103 - Range and Ranch Recreation**

Credits: 3
Understanding of public demands for leisure use of public and private rangelands; potential impacts on rangeland resources, ranch practices and families and other rangeland users. Students prepare public range or private ranch recreation operations plan. Graduate students assist in preparation and presentation of lecture.

Dual Listed REWM 5103.
When Offered: Normally offered spring semester.
Former Course Number [3103]
Prerequisite: C or better in REWM 2000 and CS course.

REWM4150 - Behavior Modification for Production of Grazing Herbivores

Credits: 3
Strategies for manipulation of behavior and management of the grazing herbivore will be developed from scientific and practical information. Designed to equip the student to manage for animal and natural resource production.

Dual Listed REWM 5150.
When Offered (Normally offered spring semester)
Former Course Number [3150]

Prerequisite: C or better in REWM 2000 and REWM 3020 or ANSC 3100.

REWM4285 - Wildland Hydrology

Credits: 3
Teaches essential and unique characteristics of hydrologic cycle as occurred on range and forest lands, concentrating on quantification of these processes and storages.

Cross Listed ENR 4285.
Dual Listed REWM 5285.
When Offered (Normally offered fall semester)
Prerequisite: QA

REWM4300 - Grass Taxonomy

Credits: 3
Identification of grasses and their place in range management and world agriculture.

Dual Listed REWM 5300.
When Offered (Normally offered spring semester)
Former Course Number [3320]

Prerequisite: REWM 2500 or LIFE 2023.

REWM4330 - Rangeland Ecosystem Assessment and Monitoring

Credits: 4
Assessment, monitoring, and analysis of rangeland ecosystems and processes. Students integrate sampling design, measurements of vegetation attributes, indicators of rangeland health, ecological site information, riparian and wildlife habitat values, utilization, and statistical applications to evaluate rangeland resource integrity and sustainable use. Students collect, analyze, and report data using current technologies. REWM students will be given enrollment preference.
**REWM4340 - Reclamation Techniques Field Trip**

Credits: 2  
Provides increased comprehension of current land reclamation problems and solutions by means of a field trip to sites in region where land reclamation is occurring.

**REWM4440 - Applied Fire Ecology**

Credits: 3  
Course examines drivers and patterns of wildfire in rangeland and forested ecosystems, fire behavior, fuel characteristics, fire effects, suppression tactics and mitigation strategies, prescribed burning precautions and applications, applications/uses of fire to meet resource objectives, policies and regulations, and modeling software. Required field trips out of class time.

**Dual Listed** REWM 5440.  
**Restricted** Junior standing or greater class standing required.

**Prerequisite:** General biology and MATH 1400 or above.

**REWM4500 - Rainfall-Runoff Modeling**

Credits: 3  
Introduction to hydrologic modeling that teaches the foundations of model development, calibration, and interpretation. Examines the different components of the water cycle and how they are being integrated into watershed models. Equips the students with the necessary skills to parameterize hydrologic models, understand the underlying principles, and interpret model outputs.

**Dual Listed** REWM 5500.  
**Prerequisite:** REWM 4285.

**REWM4530 - Seminar**

Credits: 1  
Max Credit (Max. 2)

Discusses pertinent range management problems.

**Prerequisite:** REWM 2000 (earn at least a C) or ENR 4000.
REWM4540 - Problems

Credits: 1-4
Max Credit (Max. 6)

Experimental work or intensive reading and discussion on range management problems. Includes problems offered in the following areas of range management: natural resources ecology, livestock habitat, business, improvements, watershed, reclamation, extension, and international development.

**Prerequisite:** basic training in field of problem selected and consent of instructor.

REWM4550 - Internship in:

Credits: 1
Max Credit (Max. 4)

Supervised field experience in range management or disturbed land reclamation. No more than 4 credits.

**Prerequisite:** basic course work in subject selected and consent of instructor.

REWM4600 - Drone-Based Remote Sensing

Credits: 3

This class teaches the basics of remote sensing applications in environmental sciences with a focus on unmanned aerial vehicles (UAVs, aka "drones"). Students will receive training in drone operation, data collection and analysis, and will be prepared to take the FAA Remote Pilot Certification.

**Prerequisite:** MATH 1400 or higher

REWM4750 - Wildlife Habitat Restoration Ecology

Credits: 3

Emphasis on fundamental and applied aspects of restoration ecology for terrestrial wildlife habitats following anthropogenic and natural disturbances. Although the course overviews theoretical concepts applicable to many systems, there is a focus on applications for wildlife habitats in western North America.

**Dual Listed** REWM 5750.

**Prerequisite:** Minimum of 6 hours of Biology or Life Sciences courses.

REWM4810 - Experiments in Restoration

Credits: 2

Emphasis on the experimental design using examples from restoration science. Focus on experiments to test concepts in ecosystem science, food webs, population genetics, metapopulation biology, biodiversity and invasion, and climate change. Address topics in experimental, ecological restoration.
**Dual Listed** REWM 5810.

**Prerequisite:** STAT 2050 or equivalent.

**REWM4830 - Ecological Applications for Wildland Management**

Credits: 3
Emphasis on applying understanding of intereactions among components of rangelands to facilitate sustainable provision of ecosystem services. The influences of stochasticity and disturbances on ecosystem structure and function will be the focus of discussion and technical writing exercises.

**When Offered** (Normally offered fall semester)
USP 2003-2014 Code U3WB
**Prerequisite:** WA, REWM 2000 (earn at least a C), LIFE 3400 (latter may be concurrent).

**REWM4900 - Rangeland Management Planning**

Credits: 3
Applies planning processes that integrate soil, vegetation, water, livestock, wildlife, and environmental regulatory considerations within the context of satisfying ecologically sustainable rangeland management objectives.

**When Offered** (Normally offered spring semester)
USP 2003-2014 Code U3WC
USP 2015 Code U5C3
**Prerequisite:** REWM 4830, ECON 1010 or AGEC 1010 or AGEC 1020, SOIL 4120 or SOIL 4150 (may be concurrent), REWM 3020 (may be concurrent), REWM 4330 (may be concurrent).

**REWM4990 - Undergraduate Teaching Practicum**

Credits: 1
Max Credit (Max. 2)
Teaching experience in classroom or laboratory assisting faculty instructor.

**When Offered** (Offered based on sufficient demand and resources)

**RNEW3000 - Tropical Ecology**

Credits: 3
Examines the characteristics of tropical ecosystems, how they evolved, their value to humans, their present status, and current issues relating to biodiversity, deforestation, extinction, and conservation.

**Prerequisite:** LIFE 1101 or LIFE 1010.

**RNEW4130 - Applied Remote Sensing for Agricultural Management**

Credits: 3
Cover remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn...
techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed PLNT 4130/GIST 4130.
Prerequisite: QA course and 9 credit hours in student's major field and junior/senior standing or permission of instructor.

**RNEW4400 - Invasive Plant Ecology**

Credits: 3
Ecological impacts of invasive, non-indigenous plant species, the ecological, genetic and evolutionary hypotheses for invasiveness, as well as management strategies for invasive plant species.

Cross Listed RNEW 4400, PLNT 4400, RNEW 5400, PLNT 5400
Dual Listed RNEW 5400.
Prerequisite: LIFE 3400.

**RNEW4775 - Forest Ecology**

Credits: 4
Integrative study of the structure, function, and ecological diversity of forested ecosystems, and the physical factors that influence this diversity, including emergent properties of energy flow and nutrient cycling. Special emphasis is given to understanding forest disturbances and succession, and implications for impacts of management and sustainability are discussed throughout.

Cross Listed BOT 4775.
Prerequisite: LIFE 3400.

**RNEW4800 - Undergraduate Research**

Credits: 1-3
Max Credit (Max. 18)

Undergraduate student research can be an important component in the intellectual and professional development of future scientists and land managers. Undergraduate students working with a faculty member in a research capacity can register for up to 3 credit hours per semester. The student and faculty member will identify an academic outcome that is associated with their research effort, such as a research paper, oral presentation, or poster session at an appropriate venue. Instructor's permission required.

**RNEW4990 - Topics in:**

Credits: 1-4
Max Credit (Max. 8)

Special topics pertaining to renewable natural resource management. Intended to accommodate instruction in various specialized subjects not offered on a regular basis. Students may enroll in more than one section of this course provided topics are different.
**SOIL3000 - Irrigated Agriculture**

Credits: 3  

**SOIL3130 - Environmental Quality**

Credits: 3  
Introduction to environmental quality issues and events. Course emphasizes impacts to soil, water, atmospheric, and vegetative ecosystems due to different nutrients and contaminants, including nitrogen, phosphorus, sulfur, trace elements, and organic chemicals. Current information pertaining to environmental quality is discussed and a field trip to the Union Pacific Tie Plant.

**SOIL4100 - Soil Physics**

Credits: 3  
Examines forms and interrelations of matter and energy in the soil environment. Primarily addresses fluxes and transformations of soil water and solutes, as well as physical properties that influence soil productivity.

**SOIL4105 - Soil Physics Laboratory**

Credits: 2  
Teaches students the methodology and use of equipment to measure soil physical properties in the laboratory and field. Experiments include particle size analysis, soil surface area, soil-water measurement with neutron probe and TDR, field infiltration rate, soil-water retention curve, soil pore size distribution saturated and unsaturated conductivities, soil water potential and solute breakthrough curve.
SOIL4120 - Genesis, Morphology and Classification of Soils

Credits: 4
Processes of soil development and methods of description, survey and classification. Includes field trips which examine soils in the Laramie Basin and surrounding mountains.

Dual Listed SOIL 5120.
When Offered (Offered fall semester)
Prerequisite: SOIL 2010.

SOIL4130 - Chemistry of the Soil Environment

Credits: 3
Introduction to the chemical properties and reactions that occur in the soil environment. Fundamental principles of soil mineralogy, organic matter and equilibrium chemistry as they relate to soil chemical reactions, plant nutrient availability and pedogenetic processes will be emphasized.

Dual Listed SOIL 5130.
When Offered (Offered spring semester)
Prerequisite: SOIL 2010, CHEM 1030 or CHEM 1060.

SOIL4140 - Soil Microbiology

Credits: 4
Fundamental principles of soil microbiology and how they relate to microbial ecology, environmental contamination, agriculture and forestry.

Cross Listed MICR 4140.
Dual Listed SOIL 5140.
Prerequisite: SOIL 2010.

SOIL4150 - Forest and Range Soils

Credits: 3
Characteristics and management of forest and range soils primarily in arid environments. Examines pedagogical units representative of forests and ranges and soil properties, such as nutrient availability and water relations that influence plant growth.

Dual Listed SOIL 5150.
When Offered (Normally offered fall semester)
Prerequisite: SOIL 2010.

General Electives- Must take 13 credits, 4 credits must be upper division

BOT4775 - Forest Ecology
Integrative study of the structure, function, and ecological diversity of forested ecosystems, and the physical factors that influence this diversity, including emergent properties of energy flow and nutrient cycling. Special emphasis is given to understanding forest disturbances and succession, and implications for impacts of management and sustainability are discussed throughout.

Cross Listed RNEW 4775.
Dual Listed BOT 5775.
When Offered (Normally offered fall semester of odd-numbered years)
Prerequisite: LIFE 3400.

CHE2005 - Chemical Process Analysis

Credits: 3
Introduces analysis of chemical processes using stoichiometry, material and energy balances, thermodynamics and economics.

When Offered (Normally offered fall semester)
Former Course Number [3000]

Prerequisite: C- or better in either CHEM 1050 or CHEM 1020 and concurrent enrollment in MATH 2205.

CHE4050 - Unit Operations Laboratory II

Credits: 3
Laboratory experiments examining heat transfer and process control. Also requires students to design, conduct and analyze 'open-ended' experiments. Introduces LabView and covers factorial experimental design and linear and non-linear data regression approaches. Emphasizes the preparation of a formal report describing all aspects of the experiments.

When Offered (Normally offered spring semester)
USP 2003-2014 Code U3WC
Prerequisite: C- or better in CHE 3040. (Normally offered spring semester)

DSCI2100 - Introduction to Operations and Supply Chain Management

Credits: 3
An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

Prerequisite: IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

ECON1010 - Principles of Macroeconomics
An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

**Cross Listed** AGEC 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

**ECON4430 - Energy Economics**

Credits: 3
Economics of energy, particularly oil and gas. Includes a discussion of the history of the oil industry, as well as aspects of contemporary markets. Apply a variety of concepts from microeconomics, particularly related to industrial economics.

**Prerequisite:** ECON 3020, MATH 2200 or MATH 2350.

**EDSE3040 - Energy and Power Technology**

Credits: 3
A conceptual analysis and synthesis of energy requirements and sources, with emphasis on alternate energy systems. Analysis of energy conversion and the application of mechanical, fluid, thermal and electrical power systems.

**When Offered** (Offered through UW/CC)
**Former Course Number** [EDIE 3040]

**Prerequisite:** PHYS 1050 or PHYS 1110.

**ENR1200 - Environment**

Credits: 4
Introductory environmental science course appropriate for science and nonscience majors. Uses case studies and applied laboratories to explore core biological principles such as nutrient flow and cycling, population and community ecology, and ecosystem structure and function, as well as the non-science dimensions of ENR issues. Early-semester, weekend field trips/labs required.

**ENR2300 - Foundations of Sustainability**

Credits: 3
Examine the basic concepts, theories, and practice of sustainability as a foundation for future learning in the field. Explore principles of sustainability in our community and personal lives through various lenses and systems.
ENR3450 - Weather and Climate

Credits: 3
Systematically examines elements and controls of weather and climate with application to regions.

Cross Listed GEOG 3450 and GEOL 3450
When Offered (Normally offered fall semester)
Former Course Number [G&R 3450]

Prerequisite: GEOG 1000, GEOG 1010 or GEOG 1020.

ENR3700 - Wyoming Conservation Corps Practicum

Credits: 1
Max Credit 2

Required for students entering the WCC. Students will be required to make weekly journal entries and write a paper on a topic germane to their WCC experience. Additionally, necessary training for the Wyoming Conservation Corps program will be included in the course content.

Prerequisite: Acceptance into the Wyoming Conservation Corps program.

ENR3750 - Natural Resource Planning and Economics

Credits: 3
Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed AGEC 3750.
When Offered (Offered spring semester of odd-numbered years)
Former Course Number [4750]

Prerequisite: QA, WA and junior standing.

ENR3900 - Seminar in Environment and Natural Resources

Credits: 1-3
Max Credit 12

Examines research and policy perspectives by a variety of authorities on selected environment and natural resource problems and issues.
Prerequisite: ENR 3000 or consent of instructor.

**ENR3950 - Environmental Sociology**

Credits: 3
Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed SOC 3950.
Prerequisite: SOC 1000.

**ENR4010 - Winter Ecology: Skills of the Winter Naturalist**

Credits: 1
Emphasizes field naturalist skills, the effects of winter abiotic conditions on organisms and subsequent adaptations to these conditions, animal tracking, introduction to snow dynamics and winter safety.

Prerequisite: 6 hours of ENR or science courses.

**ENR4011 - Winter Ecology: Snowpack Science and Dynamics**

Credits: 1
Emphasizes snow science and avalanche safety through lectures and inquiry-based field laboratories.

Prerequisite: 6 hours of ENR or science courses.

**ENR4012 - Winter Ecology: Wildlife and Plant Adaptations**

Credits: 1
Emphasizes animal and plant adaptations to cope with the stresses of winter, as well as the predicted impacts of climate change, through lectures and inquiry-based field laboratories. Students also conduct field research in a winter environment.

Prerequisite: 6 hours of ENR or science courses.

**ENR4040 - Conservation of Natural Resources**

Credits: 3
Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed BOT 4040/GEOG 4040.
Prerequisite: 6 hours of geography or ENR.

**ENR4051 - Environmental Politics**

Credits: 3

Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, POLS 4051, GEOG 4051 and REWM 4051.

USP 2003-2014 Code U3WC

Prerequisite: POLS 1000.

**ENR4420 - Conservation Biology**

Credits: 3

Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ZOO 4420.

Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

**ENR4500 - Risk Analysis**

Credits: 4

Introduces basic concepts of risk analysis, including risk perception, identification, assessment, communication, management, and policy. Provides quantitative treatment of risk assessment procedures, fundamental mathematical models, and the concepts of variability and uncertainty; and practical experience in risk analyses conducted by teams of students. Emphasizes environment and natural resource examples. Laboratory.

Dual Listed ENR 5500.

USP 2003-2014 Code U3QB

Prerequisite: MATH 1000 or MATH 1400, introductory statistics and familiarity with Excel spreadsheets.

**ENR4525 - Environmental Data Analysis**

Credits: 4

Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real-world problems in data analysis.
Cross Listed GEOL 4525/GEOL 5525.
Dual Listed ENR 5525.
Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

ENR4550 - Negotiation Analysis

Credits: 3
Focuses on using an analytical perspective for maximizing joint gains between negotiators. Students learn analytical techniques to prepare for negotiation, evaluate options and proposals during a negotiation, and evaluate negotiated outcomes with respect to maximization of joint gains and fairness criteria.

Cross Listed AGEC 4550.
Dual Listed ENR 5550.
Former Course Number [4700]

Prerequisite: QA.

ENR4560 - Conservation Entrepreneurship

Credits: 3
Max Credit 3

This course introduces students to foundational concepts in social entrepreneurship applies them to environmental conservation issues. Students will learn the legal, financial, and ecological concepts underpinning entrepreneurial approaches to conservation. Students will apply concepts to real world examples to understand the strength and weaknesses of these approaches.

Dual Listed ENR 5560.
Prerequisite: ENR 3000

ENR4600 - Campus Sustainability

Credits: 3
Uses campus as a setting to explore long-term environmental, economic, and social sustainability theory and practice. Students design and implement a semester-long project to improve sustainability of the UW campus. This is an interdisciplinary course and is appropriate for students of all disciplines.

Dual Listed ENR 5600
Prerequisite: USP WB or COM2 course, junior or senior standing.

ENR4890 - Topics in Environment and Natural Resources

Credits: 1-6
Max Credit (Max. 12)

Special topics in environment and natural resources are offered under this number. The specific subject matter varies each year because the course is normally taught by faculty who wish to present a specialized topic of interest to ENR
and other students. Check class schedule for specific topics offered each year.

**Dual Listed** ENR 5890.
**Former Course Number** [4990]

**Prerequisite:** ENR 3000 or permission of the instructor.

**ENR4900 - Capstone in ENR**

Credits: 3
An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.

**Dual Listed** ENR 5900.
**Prerequisite:** ENR 3000.

**ENR4950 - Leadership in Natural Resources Management**

Credits: 2
Provides Crew Leaders in the Wyoming Conservation Corps with an understanding of the complex dynamics of natural resources management while also equipping students with the tools to confidently lead groups of students on conservation-oriented service-learning projects on Wyoming's public lands during the summer months.

**Cross Listed** ERS 4950.
**Dual Listed** ENR 5950.
**Prerequisite:** ENR 3700 and consent of instructor.

**ENR4960 - Field Studies in:**

Credits: 1-6
Field-based courses in Environment and Natural Resources are taught under this number. The specific subject matter varies depending upon the location and content of each course. Students frequently need to apply in advance.

**Prerequisite:** 6 credits of ENR coursework.

**ENR4970 - ENR Internship**

Credits: 1-6
Max Credit (Max. 6)

Provides practical experience in environmental and natural resource policy, management and decision processes, as well as interaction with professionals in the field. Offered S/U only.
**Prerequisite:** ENR 3000.

**ERS1650 - The Water-Energy-Climate Nexus**

Credits: 3
Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i.e. water-energy-climate (WEC) nexus. Using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.

**Cross Listed** GEOL 1650.
USP 2015 Code U5PN

**ERS4960 - Energy Field Studies**

Credits: 1-3
Various facets of energy resource management and development are covered by visits to oil and gas wells, coal mines, power plants, wind farms, and other energy production and research sites. A trip is normally planned for 5 to 6 days.

**Prerequisite:** WB; ERS 1000/ENR 1000 or ECON 1300/ERS 1300. Undergraduate Research.

**ERS4970 - Internship**

Credits: 1-3
Max Credit (Max. 3)

A formalized internship designed to provide students with relevant practical experience in the energy sector allowing synthesis and application of principles in energy science to energy asset management.

**Prerequisite:** ERS 1000/ENR 1000 or ECON 1300/ERS 1300; QB; SP or SE.

**ERS4975 - Global Experience in Energy**

Credits: 2-4
Max Credit (Max. 4)

A 1-3 month integrative energy experience in China or Australia. Students will participate, in collaboration with partnering energy professionals, in outcomes focused education and research programs designed to address globally relevant challenges. Students will gain a global perspective within the cultural context of the partner institution.

**Prerequisite:** ERS 1000/ENR 1000 or ECON 1300/ERS 1300; QB; SP or SE.

**ERS4990 - Topics in Energy Resource Development and Management**

Credits: 1-6
Max Credit (Max. 6)
Special topics in contemporary energy development and management will be offered in response to changing industry and academic demands. The specific subject matter is based on faculty requirements and workforce innovation.

**ESE4460 - Solar and Geothermal Engineering**

Credits: 3  
An introduction to the engineering of solar-powered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

**Cross Listed** ME 4460.  
**Prerequisite:** Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

**ESE4470 - Wind and Ocean Energy Engineering**

Credits: 3  
Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

**Cross Listed** ME 4470.  
**Prerequisite:** Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

**GEOG3050 - Economic Geography**

Credits: 3  
Economic Geography is the study of the location, distribution and spatial organization of economic activities across the globe; specifically how the economic realm is intertwined with other spheres of international social life. It explores the inherent logics and mechanisms of the capitalist system, and the social and spatial inequalities that result.

**Former Course Number** [G&R 3050]  
**Prerequisite:** 6 hours of Social Sciences or International Studies.

**GEOG3450 - Weather and Climate**

Credits: 3  
Systematically examines the patterns and process of Earth's climate system, focusing on atmospheric and surface energy and water balances; atmospheric motion; past, present, and future climate change.

**Cross Listed** ENR 3450 and GEOL 3450  
**Former Course Number** [G&R 3450]  
**Prerequisite:** GEOG 1010 OR any USP PN course.
GEOG3480 - Environmental Change

Credits: 3
Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how societies have responded to natural and anthropogenic environmental change.

Cross Listed ESS 3480
USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
Former Course Number [G&R 3480]

Prerequisite: GEOG 1010 or any USP PN course; and USP COM1.

GEOG3550 - Natural Hazards and Society

Credits: 3
Considers societal structures and processes as they interact with hazards in the natural environment.

USP 2003-2014 Code U3CS
Former Course Number [G&R 3550]

GEOG4040 - Conservation of Natural Resources

Credits: 3
Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed ENR 4040.
GEOL 4040
USP 2003-2014 Code U3CS
Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

GEOG4051 - Environmental Politics

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, POLS 4051 and REWM 4051.
USP 2003-2014 Code U3WC
**GEOG4080 - Management of Major River Basins**

Credits: 3
Examines geography of water resources, including distribution, water as a resource and water as a hazard to humans. Focuses on water management case studies on the scale of major river basins in North America and elsewhere in the world.

**GEOG4113 - Geological Remote Sensing**

Credits: 4
Acquaints students with aircraft and spacecraft remote sensing of the environment, emphasizing geologic application to earth and other planetary bodies. Includes visible, infrared, ultraviolet, radio and radar sensing. Laboratory exercises are applications related to tectonics, geomorphology, paleoclimate, structure, stratigraphy, environmental geology and geologic hazards.

**GEOG4440 - Advanced Global Climate Variability**

Credits: 3
Climate varies. This fundamental aspect of the climate system can have major environmental and societal impacts to ecosystems, the hydrologic cycle and water resource management in arid environments such as the intermountain west. This course will utilize climate data and mapping tools to understand global and regional climate variability.

**GEOG4470 - Fire Ecology**

Credits: 3
Fire is an important phenomenon affecting ecosystems and human communities throughout the world. Explores spatial and temporal patterns of fire with emphasis on ecology and management.
**Prerequisite:** Some basic knowledge of Earth processes GEOG 4460, BOT 4700, LIFE 3400 or graduate standing.

**GEOG4550 - Geography of Wine**

Credits: 3
Examine the regional influence of climate, terrain and cultural characteristics on the production of grape varieties and demonstrate the implications of this influence on the location and distribution of wines produced. Discussion will focus on the world-wide production and consumption of wine and impacts of multi-national corporations.

**Prerequisite:** junior standing and at least 21 years of age.

**GEOG4880 - Current Topics**

Credits: 1-6
Max Credit (Max. 6)

Special course on a topic of current interest.

**Dual Listed** GEOG 5880.

**Former Course Number** [G&R 4880, 4850]

**Prerequisite:** junior standing.

**GEOG4885 - Seminar: (TOPICS)**

Credits: 1-3
Max Credit (Max. 6)

Faculty-student discussion, reading, and study focused on a selected topic and interest.

**Former Course Number** [G&R 4885, 4900]

**Prerequisite:** GEOG 4750.

**GEOL1001 - Earth Science and Society**

Credits: 1
Introduces students to the study of Earth Science and its role in society through examination and discussion of current events, and through projects researching geologic topics of societal interest.

USP 2003-2014 Code Y3L, U3L

**Prerequisite:** GEOL 1100 or concurrent enrollment.

**GEOL1070 - The Earth: Its Physical Environment**
Credits: 4
Discusses selected topics from geology, astronomy and meteorology illustrating fundamental concepts, processes, products and the interrelationships among them. Emphasizes nature of science and relationship between selected topics and society.

Cross Listed ASTR 1070.
USP 2003-2014 Code U3SE
USP 2015 Code U5PN
Prerequisite: Math level 3 or equivalent courses, consent of instructor, elementary education major and EDCI 1450 must be taken concurrently.

GEOL1500 - Water, Dirt, and Earth's Environment

Credits: 4
Introductory environmental geology course focusing on water and soil both as hazards and as life-sustaining resources. Explores surface processes and climate change over geological and human timescales. Case studies illustrate the environmental tradeoffs of resource use.

Cross Listed ENR 1500.
USP 2003-2014 Code U3SE
USP 2015 Code U5PN

GEOL1600 - Global Sustainability: Managing Earth's Resources

Credits: 4
Uses biology, chemistry, physics and Earth science to examine Global Sustainability and how this worldview might guide our future management of Earth resources. Case studies in different international settings place questions of resource exploitation (discovery, extraction, processing, use and disposal) and sustainability in a larger global context.

USP 2003-2014 Code U3G, U3S

GEOL1650 - The Water-Energy-Climate Nexus

Credits: 3
Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i. e. water-energy-climate (WEC) nexus. using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.

Cross Listed ERS 1650.
USP 2015 Code U5PN

GEOL2000 - Geochemical Cycles and the Earth System

Credits: 4
Introduces the Earth system, including the solid Earth, hydrosphere, biosphere and atmosphere. Emphasizes the evolution of the Earth, rock associations and geochemical cycles.
Cross Listed ESS 2000.

When Offered (Normally offered fall semester)
USP 2003-2014 Code U3SE
Prerequisite: a 1000-level GEOL course with a lab and concurrent enrollment in CHEM 1020.

GEOL2080 - General Field Geology

Credits: 3
Covers basic concepts of geology and field techniques emphasizing interpretation of geologic features in the field and constructing geologic products (e.g. measured sections and geologic maps). Students are expected to be able to identify the common rock forming minerals and common rocks in hand-sample. Weekly field trip required.

When Offered (Normally offered the first half of the fall semester)
USP 2003-2014 Code U3SE
Prerequisite: GEOL 1100 and at least one other GEOL course.

GEOL3250 - Geosciences and Computers

Credits: 4
An integrated introduction to the basic components of modern scientific computing and to illustrate basic computing concepts through geoscience applications.

USP 2003-2014 Code [I< >(none)]
Prerequisite: One USP designated science course with lab.

GEOL3500 - Global Change: A Geological Perspective

Credits: 4
Considers the geochemical and geophysical systems that control the Earth's climate, the geological and historical record of climate change, and then discusses the possible effect that human activities will have upon these chemical and geophysical systems.

Prerequisite: junior standing and an introductory class in the physical sciences.

GEOL3600 - Earth and Mineral Resources

Credits: 4
Explores the geologic formation, production, and use of Earth and mineral resources, including building materials, chemical minerals, industrial minerals and metals. For each resource, the geologic environment and processes of formation are discussed. Exploration and mining techniques for each resource are also reviewed and associated environmental problems and regulations examined. Beneficial and detrimental aspects of the use of each resource are also discussed.

USP 2003-2014 Code U3G, U3SE
USP 2015 Code U5PN
Prerequisite: completion of USP QA and L.
GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge

Credits: 4
Examines the energy needs of a modern industrialized society. Looks at the types of energy, the natural laws that govern its use, transformation, and conservation. The different sources of energy available to modern societies are examined. Examination includes fossil fuels, nuclear power as well as alternative energy sources. The formation of the resource is discussed, how it is extracted, and any environmental consequences associated with its extraction and use.

USP 2003-2014 Code U3G, U3SE
USP 2015 Code U5PN
Prerequisite: completion of USP QA and L.

GEOL4001 - Modeling the Earth System

Credits: 4
Takes a modeling approach to demonstrate how the Earth is integrated into an interconnected system through exchanges of energy and matter, and how Earth system functioning is susceptible to human alteration. Unifying concepts focus on quantitative interactions between the Earth and the Sun, and between the Earth's lithosphere, hydrosphere, biosphere and atmosphere.

Cross Listed BOT 4001/ATSC/ESS 4001.
Prerequisite: MATH 2205 or equivalent and ESS 2000 or GEOL 2000.

GEOL4010 - Exploration Geoscience

Credits: 3
Provides students with information and skills necessary to understand the energy exploration modeling process. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, and reservoir characterization.

Cross Listed ERS 4010.
Prerequisite: GEOL 1100; MATH 2200 or MATH 2350.

GEOL4060 - Rocky Mountain Field Trip

Credits: 1
Max Credit (Max. 3)
A six-day geological field trip to various classic localities in the Rocky Mountains.

Prerequisite: senior standing and GEOL 2010 and GEOL 4610 or GEOL 4050.

GEOL4113 - Geological Remote Sensing

Credits: 4
Acquaints students with aircraft and spacecraft remote sensing of the environment, emphasizing geologic application to earth and other planetary bodies. Includes visible, infrared, ultraviolet, radio and radar sensing. Laboratory exercises are applications related to tectonics, geomorphology, paleoclimate, structure, stratigraphy, environmental geology and
geologic hazards.

**Cross Listed** GEOG 4113.
**Dual Listed** GEOL 5113.
**Prerequisite:** GEOL 1005 or GEOL 1100 or 1200 or GEOG 1010 and MATH 1400/MATH 1405 or MATH 1450.

**GEOL4190 - Petroleum Geology**

Credits: 3
Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

**Dual Listed** GEOL 5190.
**Prerequisite:** GEOL 2005 or PETE 2050.

**GEOL4191 - Methods in Petroleum Geology**

Credits: 3
Lectures and laboratory exercises are designed to give the student experience in working with various kinds of geoscientific data in relation to the exploration for and production of hydrocarbons. Most exercises utilize real data and real situations. Topics include recognition of hydrocarbons, interpretation of sample, mud and geophysical logs, geologic utilization of drill stem tests; subsurface correlation and mapping techniques; prospect generation.

**Dual Listed** GEOL 5191.
**Prerequisite:** GEOL 4190.

**GIST1001 - GIST Orientation and Portfolio**

Credits: 1
Introduces students to the GIST degree, the resources necessary to be successful in the program, and the broader geospatial field and its impact on society. Topics include a survey of domain applications, the ethical, legal and social implications of using geospatial data, and geospatial certifications and credentialing.

**GIST1200 - Geospatial Foundations**

Credits: 3
Provides fundamental knowledge of geospatial information and place-based science across disciplines, including spatial representation, scale, resolution, map projections, and coordinate systems. Students learn how to discover and access spatial data and read and analyze maps. Supports understanding of geospatial reasoning and cognition.

**Former Course Number** GIST 1100

**GIST2110 - Techniques in Cartography**

Credits: 3
Max Credit 3
This course covers cartographic theory, techniques, and hands-on map-making. Students design thematic and reference maps using different platforms including web mapping. Students learn principles of graphic design and data journalism for effective communication, and they evaluate map purpose, design, data quality, and cognitive and political bias in maps.

**GIST2140 - Survey of Remote Sensing Applications**

Credits: 3
This course introduces remote sensing by surveying applications across disciplines. It includes a brief overview of fundamentals followed by exploration of types of remote sensing including aerial photography, multispectral and hyperspectral satellite remote sensing, active remote sensing, and thermal remote sensing. The course also introduces remote sensing applications for global change.

USP 2015 Code U5PN
**Former Course Number** GIST 2160

**Prerequisite:** USP Q; sophomore or junior class standing.

**GIST2150 - Introduction to Programming in Geospatial Information Science and Technology**

Credits: 3
Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

**GIST2190 - Intro to Programming**

Credits: 3
Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

**Former Course Number** GIST 2150

**GIST2200 - Spatial Data Visualization**

Credits: 3
Covers fundamental principles, concepts, and applications of spatial data visualization. Students will learn to find, understand, and act on spatial patterns, associations and trends, and to use and critique powerful graphical representations of spatial data including 3D maps, web maps, interactive graphics, and animations.

**GIST2310 - Intro to Geographic Information Systems**

Credits: 4
Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used
Former Course Number GIST 2100

GIST3140 - Introduction to Remote Sensing

Credits: 3
This is a combined lecture and computer lab course designed to present the physical principles of remote sensing, the application of airborne and satellite imagery to the study of the earth's surface with an emphasis on vegetation, and the hands-on application or remote sensing principles using digital image processing.

USP 2003-2014 Code Q
Former Course Number GIST 3111

GIST4130 - Applied Remote Sensing for Agricultural Management

Credits: 3
Covers remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed RNEW 4130 and PLNT 4130.
Dual Listed GIST 5130.
Former Course Number [BOT 4130]

Prerequisite: QA/Q course and 9 credit hours in student's major field and junior/ senior standing.

GIST4211 - Advanced Remote Sensing

Credits: 3
On-campus and online course including lecture and digital image processing lab. Explores advanced remote sensing techniques including high spatial and spectral resolution data analysis, active remote sensing (radar and lidar), and advanced image classification. Other advanced topics may be discussed as needed.

Dual Listed GIST 5211.
Former Course Number [BOT 4211; GEOG 4211]

Prerequisite: GIST 3111 or GIST 4130.

GIST4410 - UAS Sensors and Platforms

Credits: 1
This 1-credit online course taught over 8 weeks provides a detailed overview of the types of drones used for modern remote sensing and of the sensors that can be used with these different drone platforms to collect data, including RGB and multi-spectral cameras, thermal sensors, and lidar.
**GIST420 - UAS Mission Planning**

Credits: 1  
This 1-credit online course taught over 8 weeks provides a detailed overview of mission planning for UAS (drone) data collection. Students learn to evaluate mission requirements for a variety of UAS applications, to choose appropriate hardware to accomplish these requirements, and to use mission planning software to translate requirements into flight plans and data collection strategies.

**GIST4430 - UAS Regulations and Safety**

Credits: 1  
This 1-credit online course taught over 8 weeks provides students with a detailed overview of federal, state, and local regulations pertaining to UAS flights and data collection. Students also learn about how to operate drones safely in both personal and professional applications. Course content helps prepare students for FAA remote pilot certification.

**GIST4440 - UAS Ground School and Operations**

Credits: 2  
This field course provides students with the practical experience to operate UAS (drones) safely, legally, and effectively for collecting data to be used in a variety of applications. Students learn about pertinent safety and regulations, and then spend much of the course time flying drones in the field and collecting data.

**GIST4450 - UAS Photogrammetry and Image Process**

Credits: 3  
This 3-credit online course provides overviews of the photogrammetric principles related to imagery acquired by unmanned aerial vehicles or drones, and the image processing techniques used for extracting information from the drone images. Students will gain experience in processing drone imagery collected with RGB cameras and multi-spectral sensors.

Prerequisite: Junior/Senior standing or approval from the instructor.

**GIST4790 - Special Topics in Geospatial Information Science and Technology**

Credits: 3  
Advanced and specialized topics in GIS&T are addressed through guided student discussions of current literature and possible hands-on analyses.
Dual Listed GIST 5790.

**GIST4870 - Internship in Geospatial Information Science and Technology**

Credits: 1-12  
Max Credit (Max. 12)

Provide undergraduates with the opportunity to receive credit for practical experience in geospatial information science and technology. Internship opportunities must be approved by faculty and work supervisors.

**GIST4950 - Undergraduate Research in Geospatial Information Science and Technology**

Credits: 1-6  
Max Credit (Max. 6)

Undergraduate research in Geospatial Information Science and Technology (GIST) under the mentorship of UW faculty. Students are encouraged to present their research at professional meetings and to publish their work. GIST is multidisciplinary, so research problems span a wide range of topics.

**HIST4535 - History of Oil**

Credits: 3  
Intensive study of the history of oil development throughout the world. Emphasizes comparative studies of the industry as it developed in various parts of the world and during various time periods, from pre-historic times to the present. The Wyoming oil/energy mineral history is an important component.

Dual Listed HIST 5535.  
Prerequisite: 9 hours in history.

**IMGT2400 - Introduction to Information Management**

Credits: 3  
Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

Former Course Number [2400]

Prerequisite: MATH 1400.

**LIFE1002 - Discovering Science**

Credits: 3  
Integrates Biology, Chemistry, Physics, and Earth Science and is intended for non-science majors. Fundamental
concepts from each discipline are discussed through lectures and in-class activities, and students learn how to understand science and its importance in larger societal issues. There is no laboratory component of this course. Meets the S requirement in USP 2003 and the PN requirement in USP 2015.

**When Offered** (Normally offered fall semester)
USP 2003-2014 Code U3S
USP 2015 Code U5PN
**Former Course Number** [BIOL 1002]

**LIFE1003 - Current Issues in Biology**

Credits: 4
Emphasizes central themes of biology - cell biology, genetics, evolution, ecology - and scientific methodology by focusing on current issues in biology. Fundamental concepts are addressed through classroom and laboratory activities and discussions. This course is intended for non-science majors. Students cannot receive duplicate credit for LIFE 1010 or LIFE 1020.

**When Offered** (Normally offered spring semester)
USP 2003-2014 Code U3SB
USP 2015 Code U5PN
**Former Course Number** [BIOL 1003]

**LIFE1020 - Life Science**

Credits: 4
An integrated lab and lecture emphasizing fundamental principles of biology including cell structure and function, genetics, ecology, evolution and organismal biology. Considers applications of these principles to societal issues such as the conservation of biodiversity, overpopulation and global environmental changes, biotechnology, and human wellness and disease. If you take LIFE 1020, you cannot get duplicate credit for LIFE 1000, 1003, or 1010.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN
**Former Course Number** [BIOL 1020]

**Prerequisite:** elementary education majors only; concurrent enrollment in EDEL 1430.

**LIFE1101 - Introduction to Ecological Research**

Credits: 3
Learn science by doing science! This course-based undergraduate research experience (CURE) will focus on beaver pond ecosystems in Medicine Bow National Forest. Students will engage in outdoor fieldwork in addition to classroom learning. They will carry out hands-on projects and gain experience in ecological sampling, lab work, data analysis, and scientific writing. Students who complete the course are encouraged to continue research and are eligible for summer internships.

USP 2015 Code U5FY
LIFE2100 - Intro Research and Analysis

Credits: 4
Students gather and analyze data in the context of life science research projects. Provides a foundation in research design, probability and inference, and basic computational skills to support graphical and formal analyses of research data.

USP 2015 Code U5Q
Prerequisite: LIFE 1010 with a grade of C or better.

LIFE3410 - Introduction to Field Ecology

Credits: 2
Field and laboratory course. Introduces methods used in plant and animal ecology.

When Offered (Normally offered fall semester)
Former Course Number [BIOL 3410/BIOL 2410]

Prerequisite: LIFE 3400 (may be concurrently enrolled).

LS2010 - Engineering Surveying Lecture

Credits: 2
Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Basic principles of surveying and map making.

Former Course Number [CE 2072]

Prerequisite: a working knowledge of algebra and trigonometry.

LS2015 - Engineering Surveying Laboratory

Credits: 1
Field surveying activities consisting of traversing, differential leveling, construction staking and gathering topographic data.

Former Course Number [CE 2073]

Prerequisite: LS 2010 or concurrent.

LS2020 - GPS for Land Surveyors

Credits: 4
From fundamental theory to practical application and advanced technologies, this class covers all aspects of GPS
needed to understand and use GPS as a land surveyor including the basics of GPS technology, common hardware, surveying methods, survey design, planning and observing, real-time kinematics and DGPS.

**Former Course Number** [CE 2090]

**Prerequisite:** LS 2400.

**LS2100 - Records Research for Surveyors**

Credits: 3
Introduced to the public, quasi-public, and private depositories of recorded and non-recorded documents that establish land ownership boundaries, easement boundaries, and land use rights and restrictions in both the Public Land Survey System and the Colonial States. Assignments will require work to be conducted during depositories' normal business hours.

**Former Course Number** [CE 2076]

**LS2410 - GIS in Surveying**

Credits: 3
Covers the basic concepts of geographic information systems, the methods and software used to implement them, and their applications to surveying and analysis of other surveying problems.

**Former Course Number** [CE 2083]

**Prerequisite:** CE 2070 or LS 2010, and ES 1060 or ES 1061.

**LS3120 - Boundary Principles**

Credits: 2
This course in boundary law addresses the fundamental principles of real property as applied to land surveying and related professions. Discussion and applications center on practical situations and concepts commonly encountered while conducting boundary surveys and the determination of the extent of ownership rights. Students explore the scope of the surveyors' judiciary role in real property ownership. Primarily offered through the Outreach School.

**Former Course Number** [CE 3740]

**Prerequisite:** CE 2070 or LS 2010, and LS 3100 and LS 2110.

**LS3130 - Public Land Surveys**

Credits: 3
Basic fundamentals of the Public Land Survey System (PLSS), dependent and independent resurveys, survey plats, "bona fide rights", riparian boundaries, non-rectangular entities, corner evidence and the role of the modern day surveyor.
**For Course Number** [CE 2085]

**Prerequisite:** CE 2070 or LS 2010, and LS 2110.

**LS3200 - Route Surveying**

Credits: 3  
Laying out of super elevation and circular, parabolic, and spiral curves; the difference between highway and railway horizontal curve geometry; offsets to spiral curves as boundaries; area and volumes of earthwork.

**Former Course Number** [CE 3710, CE 4710]

**Prerequisite:** CE 2070 or LS 2010, and ES 1060 or ES 1061.

**LS3210 - Advanced Surveying**

Credits: 4  
Advanced topics in surveying computations and procedures, including traverse error analysis, topographic surveying, mapping, astronomical observations, coordinate geometry applications, and state plane coordinates.

**Former Course Number** [CE 3720, CE 4720]

**Prerequisite:** CE 2070 or LS 2010.

**ME4470 - Wind and Ocean Energy Engineering**

Credits: 3  
Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

**Cross Listed** ESE 4470  
**Prerequisite:** Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

**MGT2030 - Principle-Based Ethics**

Credits: 3  
Max Credit 3  
Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.
Prerequisite: sophomore class standing.

MGT3420 - Organizational Behavior and Leadership

Credits: 3
An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

Former Course Number [4420]

Prerequisite: MGT 2100, junior class standing and advanced business standing.

MGT4240 - Performance and Compensation

Credits: 3
In Human Resource Management the management of employee performance and compensation are key functions that drive organizational success. This course helps students become familiar with total compensation systems, including intrinsic and extrinsic rewards, base and variable pay, and benefits, and their relationship with employee performance and satisfaction.

Prerequisite: MGT 3410

MGT4260 - Training and Development

Credits: 3
In Human Resource Management training employees in the latest technical and managerial skills and helping them gain developmental experiences helps drive organizational success. Students will learn how to recognize training and developmental needs, how to develop employee training systems, and how to implement these training systems. Additionally, students will learn about career and leader development.

Prerequisite: MGT 3410

MGT4340 - Law for Managers

Credits: 3
Provides an overview of laws and legal issues associated with managing a business, incorporating aspects of sustainable business practices. Topics include agency and employment, business organizations, including securities laws and corporate governance standards, government regulation of businesses, including environmental/sustainability regulations, and an introduction to international law and global economy.

Prerequisite: MGT 2010 or equivalent and junior class standing.

MGT4350 - Commercial Law
Credits: 3
A study of the basic principles of commercial law, including property, sales, negotiable instruments, secured transactions, creditors' rights and bankruptcy.

**Prerequisite:** MGT 2010 or equivalent and junior class standing.

**MGT4360 - Business Law for Entrepreneurs**

Credits: 3
A survey of the various legal issues confronted by entrepreneurs, particularly related to new ventures.

**Prerequisite:** MGT 2010 and junior class standing.

**MGT4370 - Employment Law**

Credits: 3
Provides a comprehensive foundation for understanding the law as it relates to the employer-employee relationship. This course will provide students the legal background necessary to make better decisions both as a worker as well as a manager of other.

**Prerequisite:** MGT 2010 or equivalent, junior class standing.

**MGT4430 - Organization Design and Change**

Credits: 3
Examines organizations, what they are, how they operate and are structured and how they can be changed. Focus is on macro managerial issues in the design and change of work organizations.

**Prerequisite:** MGT 2100, MGT 3410, MGT 3420; advanced business standing, junior class standing.

**MGT4470 - Negotiations and Conflict Resolution**

Credits: 3
Max Credit 3

Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3

**Prerequisite:** MGT 2100, advanced business standing.

**MGT4800 - Business Strategy and Policy**

Credits: 3
A capstone course designed to integrate prior courses into a general manager's overall organization perspective.
Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3

**Prerequisite:** ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

**MGT4900 - Independent Study in Management**

Credits: 1-4
Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Management not included in other structured management courses.

**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores

**Prerequisite:** Junior class standing, consent of instructor

**MGT4910 - Topics in Management**

Credits: 3
Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

**Restricted** Include: Juniors, Seniors/Exclude: Freshman/Sophomores

**Prerequisite:** Junior class standing, consent of instructor

**MKT2100 - Introduction to Marketing**

Credits: 3
An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

**Prerequisite:** sophomore class standing and completion of COM1.

**PETE4860 - Energy, Environment, and Materials**

Credits: 3
Understanding the connection between materials, energy and environment, including the history of climate and different types of energy in use for a greener planet. Provides broad knowledge in the areas of energy, material science, chemical, petroleum, and environmental engineering.
**Dual Listed** PETE 5860.
**Prerequisite:** Junior standing and PETE 2050 or consent of instructor.

**PHIL2420 - Critical Thinking**

Credits: 3  
Shows that argument is a skill of fundamental importance to any field of endeavor. Explains methods used in evaluating an argument. Introduces such topics as: patterns of reasoning, counterexamples, fallacies; inductive and deductive logic.

**USP 2003-2014 Code U3CH**  
**Former Course Number** [1100]

**PLNT1000 - Agroecology**

Credits: 4  
Introduces ecological interactions that affect food producing (agricultural) systems. Lectures and laboratory exercises study the various biological components and the science of sustainable agricultural production. Features differences between developed and developing countries. Explores crises and challenges facing agriculture and global society.

**USP 2003-2014 Code U3G, U3SB**  
**USP 2015 Code U5PN**  
**Former Course Number** [CROP/BOT 2000]

**PLNT1150 - Pesticide Safety and Application**

Credits: 1  
Introduces various types and safe methods of pesticides application. Subsequent to completion, students may take the certification test administered by the Wyoming Department of Agriculture.

**Cross Listed** ENTO 1150.  
**Former Course Number** [CROP 1150]

**PLNT3030 - Ecological Web: Ecology of Plant Protection**

Credits: 3  
Introduces students to concurrent evolution of crop cultivation and organisms, both plant and animal, that attack them. Provides basic skills necessary to understand ecology and management of economic crop pests.

**When Offered** (Normally offered fall semester)  
**Former Course Number** [2030]

**Prerequisite:** LIFE 1010 and PLNT 1000

**PLNT4070 - Weed Science and Technology**
Management and physiological principles involved in control of economically important farm and range weeds.

Dual Listed PLNT 5070
When Offered (Normally offered fall semester)
Former Course Number [CROP 4070]

Prerequisite: PLNT 1000, LIFE 1010

PLNT4130 - Applied Remote Sensing for Agricultural Management

Credits: 3
Covers remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed RNEW 4130/GIST 4130
Prerequisite: Q course and 9 credit hours in student's major field and junior/senior standing

POL3620 - Environmental Justice

Credits: 3
Examines core philosophical understandings of justice and applies them to the environment through a variety of case studies, analytical essays and monographs.

Cross Listed ENR 3620.
Prerequisite: POLS 1000, POLS 2460, or POLS 3600, or permission of instructor.

POL4051 - Environmental Politics

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.
Dual Listed POLS 5051.
USP 2003-2014 Code U3WC
Former Course Number [4050]

Prerequisite: POLS 1000.

POL4052 - Federal Land Politics
Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed AMST 4052/ENR 4052/GEOG 4052/REWM 4052.
Prerequisite: POLS 1000.

POLS4385 - Environment and Resource Conflict

Credits: 3
Drawing on key theory and contemporary real-world case studies this course explores how environmental change and the competition for scarce resources (such as food, water, oil, gems, and timber) have increasingly been linked to violent interstate and intrastate conflict and how such conflicts might be addressed, managed, or resolved through international and national action.

Cross Listed INST 4385.
Dual Listed POLS 5385.
Prerequisite: 9 hours of POLS or INST, including POLS 2310/INST 2310.

POLS4455 - Energy Security

Credits: 3
Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism, climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed INST 4455.
Dual Listed POLS 5455.
Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.

POLS4555 - Political Ecology

Credits: 3
Political ecology is a multidisciplinary field of study that emphasizes the role of politics, power relations, and inequality in the study of human-environment relations. In this course we will consider how political ecology can help us rethink environmental knowledge and problem solving in a variety of contexts locally and globally.

Cross Listed INST/GEOG 4555 & POLS 5555
Dual Listed INST/GEOG 4555 & POLS 5555
Prerequisite: 9 hours of international studies or social science coursework.

REWM2000 - Principles of Rangeland Management

Credits: 3
Basic principles of range management as they apply to various regions and vegetative types. Relationship of range management practices to livestock production, wildlife management, forestry, hydrology and other land uses. Introductory course for majors and non-majors.
Prerequisite: LIFE 1101 or LIFE 1010.

**REWM2400 - Range Ecosystems and Plants**

Credits: 4
Ecology of range ecosystems of western North America and identification of 200 most common plants species, including taxonomic keying.

Former Course Number [2500]

Prerequisite: REWM 2000 with a grade of C or better.

**REWM3000 - Plant Ecophysiology/Plant Form and Function**

Credits: 4
Integration of basic vascular plant anatomy, morphology, physiology within the contexts of modern evolutionary and ecological theory. Students receive in depth exposure to fluid flow, energetics, development, growth, general metabolism, and structure, and functions for plant cells, tissue and organs.

Prerequisite: LIFE 2022 or LIFE 2023.

**REWM3100 - Principles of Wildland Water Quality**

Credits: 3
Basic principles of aquatic chemistry and water quality as they relate to watershed management practices including livestock production, agronomic production, mineral and natural gas extraction and other land uses.

Cross Listed ENR 3100.
When Offered (Normally offered fall semester)
Prerequisite: CHEM 1000.

**REWM3390 - Range Judging**

Credits: 2
Judging rangelands based on soil, plant and animal resources and applying science-based information to make management decisions. Participation in a field trip and UW SRM judging teams is required including Plant Team and URME. This course is intended for members of the SRM competitive Teams.

When Offered (Normally offered spring semester)
Prerequisite: C or better in REWM 2000, REWM 2400 and REWM 3020, as well as the Team Coach permission.

**REWM3500 - Rangeland Plant Ecophysiology**
Credits: 3
Examines plant physiological processes that have application to ecological and land management issues. Topics include carbon assimilation, water relations, mineral nutrition as applied to plant distributions, plant and system responses to grazing, as well as plant tolerance of extreme conditions including drought, excessive temperatures and changes in climate.

**When Offered** (Normally offered fall semester)
**Prerequisite:** LIFE 2022 or LIFE 2023.

**REWM4000 - Poisonous Plants and Plant Toxins**

Credits: 3
Plants poisonous to livestock in Wyoming and the Mountain West; identification, ecology, toxic principles, physiologic responses of animals, situations leading to poisoning, control and management to prevent losses.

**When Offered** (Normally offered spring semester)
**Prerequisite:** 12 hours of biological and chemical sciences.

**REWM4051 - Environmental Politics**

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation laws, policies, and regulations.

**Cross Listed** AMST 4051, ENR 4051, GEOG 4051 and POLS 4051.
**USP 2003-2014 Code U3WC**
**Prerequisite:** POLS 1000.

**REWM4052 - Federal Land Politics**

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

**Cross Listed** POLS 4052/ENR 4052/GEOG 4052/AMST 4052.
**Prerequisite:** POLS 1000.

**REWM4100 - Nutritional Ecological Management of Range Herbivores**

Credits: 3
Examines ecological processes and management of nutritional resources by domestic and wild rangeland herbivores. Topics include nutrient availability, nutritional demand, foraging behavior, diet composition, grazing systems, stocking rates, livestock/wildlife competition, predation, parasitism, plant toxicity, and influences on ecological condition. Students evaluate case studies and analyze nutritional data using current technologies.
REWM4103 - Range and Ranch Recreation

Dual Listed REWM 5100.
Prerequisite: LIFE 1010 or LIFE 1020.

Credits: 3
Understanding of public demands for leisure use of public and private rangelands; potential impacts on rangeland resources, ranch practices and families and other rangeland users. Students prepare public range or private ranch recreation operations plan. Graduate students assist in preparation and presentation of lecture.

REWM4150 - Behavior Modification for Production of Grazing Herbivores

Dual Listed REWM 5150.
When Offered (Normally offered spring semester)
Former Course Number [3150]

Prerequisite: C or better in REWM 2000 and CS course.

Credits: 3
Strategies for manipulation of behavior and management of the grazing herbivore will be developed from scientific and practical information. Designed to equip the student to manage for animal and natural resource production.

REWM4285 - Wildland Hydrology

Cross Listed ENR 4285.
Dual Listed REWM 5285.
When Offered (Normally offered fall semester)
Prerequisite: QA

Credits: 3
Teaches essential and unique characteristics of hydrologic cycle as occurred on range and forest lands, concentrating on quantification of these processes and storages.

REWM4300 - Grass Taxonomy

Dual Listed REWM 5300.

Credits: 3
Identification of grasses and their place in range management and world agriculture.
When Offered (Normally offered spring semester)  
Former Course Number [3320]

**Prerequisite:** REWM 2500 or LIFE 2023.

**REWM4330 - Rangeland Ecosystem Assessment and Monitoring**

Credits: 4  
Assessment, monitoring, and analysis of rangeland ecosystems and processes. Students integrate sampling design, measurements of vegetation attributes, indicators of rangeland health, ecological site information, riparian and wildlife habitat values, utilization, and statistical applications to evaluate rangeland resource integrity and sustainable use. Students collect, analyze, and report data using current technologies. REWM students will be given enrollment preference.

When Offered (Normally offered fall semester)  
Prerequisite: REWM 2400 and STAT 2050 or STAT 2070. Concurrent enrollment in REWM 2400 and STAT 2050 or STAT 2070 is allowed with permission.

**REWM4340 - Reclamation Techniques Field Trip**

Credits: 2  
Provides increased comprehension of current land reclamation problems and solutions by means of a field trip to sites in region where land reclamation is occurring.

When Offered (Normally offered fall semester)  
Prerequisite: REWM 4200.

**REWM4440 - Applied Fire Ecology**

Credits: 3  
Course examines drivers and patterns of wildfire in rangeland and forested ecosystems, fire behavior, fuel characteristics, fire effects, suppression tactics and mitigation strategies, prescribed burning precautions and applications, applications/uses of fire to meet resource objectives, policies and regulations, and modeling software. Required field trips out of class time.

Dual Listed REWM 5440.  
Restricted Junior standing or greater class standing required.

Prerequisite: General biology and MATH 1400 or above.

**REWM4500 - Rainfall-Runoff Modeling**

Credits: 3  
Introduction to hydrologic modeling that teaches the foundations of model development, calibration, and interpretation. Examines the different components of the water cycle and how they are being integrated into watershed models. Equips the students with the necessary skills to parameterize hydrologic models, understand the underlying principles, and interpret model outputs.
Dual Listed REWM 5500.
Prerequisite: REWM 4285.

REWM4530 - Seminar

Credits: 1
Max Credit (Max. 2)

Discusses pertinent range management problems.

Prerequisite: REWM 2000 (earn at least a C) or ENR 4000.

REWM4540 - Problems

Credits: 1-4
Max Credit (Max. 6)

Experimental work or intensive reading and discussion on range management problems. Includes problems offered in the following areas of range management: natural resources ecology, livestock habitat, business, improvements, watershed, reclamation, extension, and international development.

Prerequisite: basic training in field of problem selected and consent of instructor.

REWM4550 - Internship in:

Credits: 1
Max Credit (Max. 4)

Supervised field experience in range management or disturbed land reclamation. No more than 4 credits.

Prerequisite: basic course work in subject selected and consent of instructor.

REWM4600 - Drone-Based Remote Sensing

Credits: 3
This class teaches the basics of remote sensing applications in environmental sciences with a focus on unmanned aerial vehicles (UAVs, aka "drones"). Students will receive training in drone operation, data collection and analysis, and will be prepared to take the FAA Remote Pilot Certification.

Prerequisite: MATH 1400 or higher

REWM4700 - Wildland Watershed Management

Credits: 3
Studies hydrological cycle with specific emphasis on the role of vegetation in hydrologic processes such as
interception, surface detention storage, infiltration, percolation, run-off, and water quality. Utilization of watersheds and vegetation manipulation practices to modify these hydrologic processes.

**When Offered** (Normally offered spring semester)

**Prerequisite:** LIFE 1101 or LIFE 1010.

**REWM4750 - Wildlife Habitat Restoration Ecology**

Credits: 3
Emphasis on fundamental and applied aspects of restoration ecology for terrestrial wildlife habitats following anthropogenic and natural disturbances. Although the course overviews theoretical concepts applicable to many systems, there is a focus on applications for wildlife habitats in western North America.

**Dual Listed** REWM 5750.

**Prerequisite:** Minimum of 6 hours of Biology or Life Sciences courses.

**REWM4810 - Experiments in Restoration**

Credits: 2
Emphasis on the experimental design using examples from restoration science. Focus on experiments to test concepts in ecosystem science, food webs, population genetics, metapopulation biology, biodiversity and invasion, and climate change. Address topics in experimental, ecological restoration.

**Dual Listed** REWM 5810.

**Prerequisite:** STAT 2050 or equivalent.

**REWM4830 - Ecological Applications for Wildland Management**

Credits: 3
Emphasis on applying understanding of interactions among components of rangelands to facilitate sustainable provision of ecosystem services. The influences of stochasticity and disturbances on ecosystem structure and function will be the focus of discussion and technical writing exercises.

**When Offered** (Normally offered fall semester)

USP 2003-2014 Code U3WB

**Prerequisite:** WA, REWM 2000 (earn at least a C), LIFE 3400 (latter may be concurrent).

**REWM4850 - Rangeland Vegetation Management Techniques**

Credits: 3
Uses applied ecological principles in restoration of degraded rangeland ecosystems to introduce methods for manipulating rangeland vegetation that satisfy land management objectives. Provides ecologically-sound practices to maintain optimal and sustained yield of rangeland products.

**When Offered** (Normally offered spring semester)

**Prerequisite:** C or better in REWM 2000 and SB.
**REWM4900 - Rangeland Management Planning**

Credits: 3  
Applies planning processes that integrate soil, vegetation, water, livestock, wildlife, and environmental regulatory considerations within the context of satisfying ecologically sustainable rangeland management objectives.

When Offered (Normally offered spring semester)  
USP 2003-2014 Code U3WC  
USP 2015 Code U5C3  
Prerequisite: REWM 4830, ECON 1010 or AGEC 1010 or AGEC 1020, SOIL 4120 or SOIL 4150 (may be concurrent), REWM 3020 (may be concurrent), REWM 4330 (may be concurrent).

**REWM4990 - Undergraduate Teaching Practicum**

Credits: 1  
Max Credit (Max. 2)

Teaching experience in classroom or laboratory assisting faculty instructor.

When Offered (Offered based on sufficient demand and resources)

**SOIL2010 - Introduction to Soil Science**

Credits: 4  
Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE  
Prerequisite: CHEM 1000 or CHEM 1020.

**SOIL3130 - Environmental Quality**

Credits: 3  
Introduction to environmental quality issues and events. Course emphasizes impacts to soil, water, atmospheric, and vegetative ecosystems due to different nutrients and contaminants, including nitrogen, phosphorus, sulfur, trace elements, and organic chemicals. Current information pertaining to environmental quality is discussed and a field trip to the Union Pacific Tie Plant.

Cross Listed ENR 3130.  
When Offered (Offered fall semester)  
Prerequisite: complete at least 1 University Studies Science course SB, SP or SE.

**SOIL4100 - Soil Physics**

Credits: 3  
Examines forms and interrelations of matter and energy in the soil environment. Primarily addresses fluxes and
transformations of soil water and solutes, as well as physical properties that influence soil productivity.

**Dual Listed** SOIL 5100.
**When Offered** (Offered spring semester)
**Prerequisite:** SOIL 2010 or equivalent introductory soils course.

**SOIL4105 - Soil Physics Laboratory**

Credits: 2
Teaches students the methodology and use of equipment to measure soil physical properties in the laboratory and field. Experiments include particle size analysis, soil surface area, soil-water measurement with neutron probe and TDR, field infiltration rate, soil-water retention curve, soil pore size distribution saturated and unsaturated conductivities, soil water potential and solute breakthrough curve.

**Dual Listed** SOIL 5105.
**Prerequisite:** SOIL 2010.

**SOIL4120 - Genesis, Morphology and Classification of Soils**

Credits: 4
Processes of soil development and methods of description, survey and classification. Includes field trips which examine soils in the Laramie Basin and surrounding mountains.

**Dual Listed** SOIL 5120.
**When Offered** (Offered fall semester)
**Prerequisite:** SOIL 2010.

**SOIL4130 - Chemistry of the Soil Environment**

Credits: 3
Introduction to the chemical properties and reactions that occur in the soil environment. Fundamental principles of soil mineralogy, organic matter and equilibrium chemistry as they relate to soil chemical reactions, plant nutrient availability and pedogenetic processes will be emphasized.

**Dual Listed** SOIL 5130.
**When Offered** (Offered spring semester)
**Prerequisite:** SOIL 2010, CHEM 1030 or CHEM 1060.

**SOIL4140 - Soil Microbiology**

Credits: 4
Fundamental principles of soil microbiology and how they relate to microbial ecology, environmental contamination, agriculture and forestry.

**Cross Listed** MICR 4140.
**Dual Listed** SOIL 5140.
**Prerequisite:** SOIL 2010.
SOIL4150 - Forest and Range Soils

Credits: 3
Characteristics and management of forest and range soils primarily in arid environments. Examines pedagogical units representative of forests and ranges and soil properties, such as nutrient availability and water relations that influence plant growth.

Dual Listed SOIL 5150.
When Offered (Normally offered fall semester)
Prerequisite: SOIL 2010.

SOIL4160 - Soil Health and Nutrient Cycling

Credits: 3
Physical, chemical, and biological aspects of soils that impact fertilizer fate, uptake, and plant growth.

Dual Listed SOIL 5160.
When Offered (Normally offered fall semester of odd-numbered years)
Prerequisite: SOIL 2010.

SOIL4540 - Microbial Diversity and Ecology

Credits: 4
Introduces the diversity and ecology of soil microbes through an integrated lecture and laboratory course. Emphasis on molecular approaches to analyzing microbial diversity and evolution, and student-directed experimental design. Provides a continuum of realistic research experiences in molecular microbial ecology, from field work to evolutionary analysis of DNA sequence data.

Cross Listed MOLB 4540/MICR 4540.
Dual Listed MOLB 5540/SOIL 5540/ECOL 5540.
Prerequisite: MOLB 2210.

SOIL4780 - Seminar:

Credits: 1-9
Consideration of special topics of current interest in social work. May be repeated for a maximum of 15 hours credit when the seminar topic is different.

Prerequisite: advanced major status; or consent of instructor and junior standing for non-social work majors.

Energy Resource Management and Development- Professional Land Management Concentration, B.S.

ERMD PLM Concentration
Professional Land Management majors determine ownership and title of surface and subsurface rights to negotiate leases with land/mineral owners, coordinate field exploration, and ensure compliance with governmental regulations.

University Studies Program Requirements

The University Studies Program 2015 develops a student's foundational knowledge to prepare them for the Bachelor of Science degree program. Some of the categories of USP will be completed by completing the degree requirements as outlined below. Students should review their degree audits carefully to ensure that USP requirements are completed. Students transferring with a qualifying associate degree will have most of the lower division portion of the USP requirement waived. For more information about qualifying earned associate degree, see the "Articulation: Earned Associate Degrees" information in this catalog.

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

COM1 - Communication 1

Credits: 3
College Composition and Rhetoric must be completed with a C or better.

COM2 - Communication 2

Credits: 3
Max Credit 3
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

COM3 - Communication 3

Credits: 3
Max Credit 3
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

Q- - Quantitative Reasoning

Credits: 3
Max Credit 3
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.

PN- - Physical and Natural World (1)
Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**PLM Curriculum**

Students must earn a letter grade of C or better in each course and a cumulative GPA of 2.000 or better. Students will complete 120 credit hours for the BS in Energy Resources Management and Development.

**ACCT2010 - Principles of Accounting I**

Credits: 3  
Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

**Former Course Number** [1010]

**Prerequisite:** Sophomore class standing and MATH 1400
ACCT2020 - Principles of Accounting II

Credits: 3
Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

Former Course Number [1020]

Prerequisite: ACCT 2010, Sophomore class standing.

AGEC1020 - Principles of Microeconomics

Credits: 3
You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed ECON 1020.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

DSCI4260 - Project Management

Credits: 3
Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

Prerequisite: ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

ECON1300 - Oil: Business, Culture, and Power

Credits: 3
A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ERS 1300.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

ENGL1010 - College Composition and Rhetoric
Credits: 3
A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

USP 2003-2014 Code U3WA
USP 2015 Code U5C1

ENR1000 - Energy and Society

Credits: 3
Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ERS 1000.
USP 2003-2014 Code U3O
USP 2015 Code U5PN

ENR4750 - ENR Law and Policy

Credits: 3
Explores the policy underpinnings of environmental and natural resource issues and the legal responses to these problems. Students will gain a basic understanding of: (1) the causes of environmental problems, including energy, water, wildlife, and other western land use issues; (2) the range of policy and instrument choices; and (3) the approaches actually taken in current laws. Students also will apply the law in an interdisciplinary, problem-based learning context.

Dual Listed ENR 5750.
Prerequisite: ENR 2000 and upper division standing or permission of instructor.

ERS2010 - Introduction to Land Management

Credits: 3
Max Credit 3

Provides an introduction to land management in the various energy industries. Covers the knowledge and skills needed by land professionals including survey systems, land descriptions, mineral ownership, title examination, leases, surface use agreements, and contracts frequently used in the industry. In addition, provides an overview of ethical issues that arise and professional conduct expected in the industry.

ERS4010 - Exploration Geoscience

Credits: 3
The purpose of this course is to provide students with information and skills necessary to understand the oil and gas modeling process from exploration to production. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, reservoir characterization, reservoir production, well planning and decision making.
Cross Listed GEOL 4010.
Prerequisite: GEOL 1100; MATH 2200 or MATH 2350.

ERS4100 - Property I

Credits: 3
Property I addresses the nature of property ownership and the rights associated with property as well as the acquisition and transfer of ownership rights in property and the sharing of ownership rights over time, including estates, future interest, and concurrent estates.

ERS4105 - Property II

Credits: 3
Property II covers rights inherent to the ownership of property and public limitations on those rights.

Prerequisite: ERS 4100.

ERS4110 - Law of Contracts

Credits: 3
The Law of Contracts addresses the formation of a contact and the meaning of agreements and the justification of non-performance and breach.

Prerequisite: MGT 1040 and WB/C

ERS4120 - Federal Public Land Law

Credits: 3
Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

ERS4130 - Oil and Gas Law

Credits: 3
Focuses on the basis legal rules and principles governing the ownership and development of oil and gas, derived from a combination of property, contract, administrative, tort, and constitutional law.

ERS4135 - Advanced Energy Law

Credits: 3
Covers oil, gas and other energy development and financing arrangements including assignments, leases, farmouts, joint operating agreements, purchase and sale agreements, service agreements and marketing agreements. Covers oil, gas and other energy development regulation, including, oil and gas conservation commission and state and federal environmental regulation. Introduces other forms of energy development, including, but not limited to, renewables, nuclear, CCUS, hydrogen, and the various agreement and regulatory nuances of such energy development. Covers ethical issues that may arise in energy development.
ERS4985 - Seminar

Credits: 1-3
Max Credit (Max. 3)

Energy professionals, including accredited professional landmen, practicing attorneys, and other energy professionals will present a colloquium styled course to bridge conceptual content with realistic workforce focused applications.

Prerequisite: ERS 1000/ENR 1000 or ECON 1300/ERS 1300 and WA and QB.

FIN2100 - Principles of Finance

Credits: 3

Studies the management of capital in business. Students learn how to use the time value of money to value cash flows and how to perform a financial valuation of a firm's assets and liabilities.

Prerequisite: ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200, and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

FYS-First Year - Seminar

Credits: 3

Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

GEOL1100 - Physical Geology

Credits: 4

Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

Former Course Number GIST 1100
GIST2310 - Intro to Geographic Information Systems

Credits: 4
Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.

Former Course Number: GIST 2100

MATH1405 - Trigonometry

Credits: 3
Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines, identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

MATH1450 - Algebra and Trigonometry

Credits: 5
Emphasizes aspects of algebra, trigonometry and problem solving important in the study of calculus. Functions and their applications to real world problems. Classes of functions including polynomial, exponential, logarithmic and trigonometric functions. Intuitive introduction to the idea of limit and sequence which are developed further in the calculus sequence. For the student with considerable prior exposure to trigonometry and algebra. Graphing calculators are used frequently in class and on assignments. See instructor for specifications.

USP 2003-2014 Code U3QA
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

OR

MATH2355 - Mathematical Applications for Business

Credits: 4
Primarily for students in the College of Business. Includes the mathematics of finance; systems of linear equations and matrices; linear programming; sets, counting, and probability. Students will learn to use Excel spreadsheets to solve business application problems in a computer lab that meets one day per week.

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 26 or Math SAT of 600.

MGT2010 - Legal Environment of Business

Credits: 3
Provides a broad overview of business-related legal topics. Students are familiarized with courts and alternative dispute resolution, constitutional law, torts, contracts, intellectual law, criminal law, and cyber law.

MGT2100 - Management and Organization

Credits: 3
An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

V- U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.
COM2 Elective, Pick ONE

COMM2010 - Public Speaking

Credits: 3
Beginning public speaking course. Students will develop foundational oral, digital and written communication skills. Emphasizes message construction, performance and critique in public communication settings. Includes speech preparation, listening, audience analysis, writing strategies, digital communication, critical thinking, language/nonverbal behavior and various speaking formats. (Offered fall, spring and summer).

USP 2003-2014 Code U3O
USP 2015 Code U5C2
Former Course Number COJO 2010

Corequisite: Prerequisite: Successful completion of a COM1 course.

ECON2400 - Economics of the Environment

Credits: 3
This introductory course examines the links between economics and the natural environment. We consider the efficient use of natural resources like minerals, forests, and fisheries. We also explore how to use economics to sharpen environmental policy for challenges like water and air pollution, climate change, and biodiversity protection.

When Offered (Offered based on sufficient demand and resources)
USP 2003-2014 Code U3G, U3WB
USP 2015 Code U5C2
A&S College Core 2015 ASG
Prerequisite: ECON 1010 recommended, ECON 1020 required.

ENGL2005 - Writing in Technology and the Sciences

Credits: 3
Develops writing styles specifically suited to technological and scientific fields of study. Includes focus on disciplinary conventions and styles as well as audience/readership considerations. Introduces techniques for data interpretation and visualization, and helps students analyze, understand, and adapt common field genres and formats.

USP 2003-2014 Code U3WB
USP 2015 Code U5C2
Prerequisite: successful completion of WA/COM1.

ENR2000 - Environment and Society

Credits: 3
Develops understanding of the nature and dimensions of environmental and natural resource issues. Explores ways in which elements of society approach, evaluate, and develop positions relative to environmental issues. Uses case studies to illustrate the contemporary and historical role of individuals and societies in identifying and addressing environmental issues at scales ranging from local to global.
ENR2450 - Fish and Wildlife Management in the Anthropocene

Credits: 4
Course examines fundamental principles in management of natural resources, especially fish and wildlife populations. Students explore historical to contemporary context of management, population biology, management tools and their application, career opportunities, with specific emphasis on human dimensions, law, and policy. Students will develop oral and written communication skills.

Cross Listed ZOO 2450.
USP 2015 Code U5C2
Prerequisite: LIFE 1010, LIFE 2022, and COM1.

ENR3300 - Environmental Policy, Conservation and Development in India

Credits: 3
This course will focus on India's environmental policies pertaining to conservation and development. Case studies will be used to understand how these policies were developed, put in place, and their intended and actual outcomes. Students are required to select a suitable topic and conduct research and submit a research report.

ERS2500 - Communication Across Topics in Energy

Credits: 3
Students will develop interdisciplinary communication skills from an Energy Resources perspective. Communication will include oral, digital, and written forms. Audiences for communication projects will often be live, and from a variety of backgrounds.

GEOL2220 - Communicating Earth Science

Credits: 3
This course will focus on communicating science to non-scientists. Students will deliver earth science information through written, digital and oral presentations to be informative and interesting to the public.
HP2020 - Honors Colloquium II

Credits: 3  
Max Credit 3

Honors Colloquium II is the second course in a two-semester sequence introducing students to the Honors College and to interdisciplinary modes of inquiry and expression through intensive analytical reading and writing, lectures, Scholars Sessions, and experiential learning.

USP 2003-2014 Code U3O, U3WB  
USP 2015 Code U5C2  
Prerequisite: WA. COM I

UWYO1600 - Veterans Transition Course

Credits: 1
Provides returning veterans skills for successful transition to college and civilian life. Reviews tools for academic success, resources available to the veteran, information on veteran related challenges, and career planning resources. Students will develop skills in written, oral, and digital communication.

When Offered (Normally offered fall semester)
USP 2003-2014 Code U3I,U3L  
USP 2015 Code U5C2  
Prerequisite: Students must be a U. S. military veteran or an active duty military member.

Ethics Elective- Pick ONE

ENR2330 - Environmental Ethics

Credits: 3
Introduces students to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed PHIL 2330.  
USP 2003-2014 Code [CH< >(none)]

ENR2345 - Natural Resource Ethics

Credits: 3
Introduces students to ethics in context of natural resource extraction, use, conservation, preservation, and distribution. Ethical frameworks include teleological and deontological theories primarily applied to human needs and wants. Concepts and applications of environmental justice are addressed, including private property, sustainability, and obligations to future generations.

Cross Listed PHIL 2345/RNEW 2345.
ENR4040 - Conservation of Natural Resources

Credits: 3
Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed BOT 4040/GEOG 4040.
USP 2003-2014 Code U3CS
Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

LS3300 - Ethics for the Professional Surveyor

Credits: 1
Introduction to the common ethical and moral issues facing professional surveyors in modern practice.

Former Course Number [CE 2074]

Prerequisite: One of LS 3110 or LS 3120 or LS 3130.

MGT2030 - Principle-Based Ethics

Credits: 3
Max Credit 3

Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

Prerequisite: sophomore class standing.

PHIL2300 - Ethics in Practice

Credits: 1-3
Alerts preprofessional students and other interested individuals to various ethical issues they will encounter and relevant professional work on those issues. Emphasis of the course concentrates one time on biomedical ethics, another on technology and engineering ethics, another on ethics in the professions.
PHIL2330 - Environmental Ethics

Credits: 3
Introduction to ethical theory in environmental problem cases, and to philosophical issues in environmental philosophy. Ethical theories include natural law, utilitarianism, deontological and rights-based theories, relativism. Topics may include: conservation/preservation, resource management, pollution, overpopulation, factory farming, Leopold's land ethic, deep ecology, holism, eco-feminism.

Cross Listed ENR 2330.
USP 2003-2014 Code U3CH

PHIL2345 - Natural Resource Ethics

Credits: 3
Introduction to ethics in context of natural resource extraction, use, conservation, preservation, and distribution. Ethical frameworks include teleological and deontological theories primarily applied to human needs and wants. Concepts and applications of environmental justice are addressed, including private property, sustainability, and obligations to future generations.

Cross Listed ENR 2345/RNEW 2345.
USP 2003-2014 Code U3CH, U3D
USP 2015 Code U5H

PHIL3250 - Global Justice

Credits: 3
An examination of global justice, normative international relations, and international ethics, using the methodology and theories of analytical political philosophy. Possible topics include global economic justice and world poverty, human rights, humanitarian duties, intervention and sovereignty, cosmopolitanism, nationalism, patriotism, world hunger, and immigration.

USP 2003-2014 Code U3G
USP 2015 Code U5H
A&S College Core 2015 ASG
Prerequisite: 3 hours of philosophy or international studies.

PHIL3300 - Ethical Theory

Credits: 3
A philosophical investigation of such concepts as morality, obligation, goodness, freedom and responsibility, and of recurring types of ethical theory.

Prerequisite: 3 hours of philosophy.

PHIL4300 - Topics in Ethics
Credits: 3-6  
Max Credit (Max. 6)

An advanced investigation of selected topics in ethics. Examples include derivative and basic principles of obligation; justice; morality and utility; generalization of norms; and the relation of morality and law.

**Dual Listed** PHIL 5300.  
**Prerequisite:** 6 hours of philosophy.

**PHIL4340 - Issues in Environmental Ethics**

Credits: 3  
Encompasses selected topics in environmental and natural resource ethics.

**Dual Listed** PHIL 5340.  
**Prerequisite:** PHIL 2330, PHIL 2345, PHIL 3250, PHIL 3300 or PHIL 3350.

**Economics Elective - Pick ONE**

**AGEC3750 - Natural Resource Planning and Economics**

Credits: 3  
Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

**Cross Listed** ENR 3750.  
**Former Course Number** [4750]

**Prerequisite:** QA/Q, WA/COM1 and junior standing.

**AGEC4600 - Community Economic Analysis**

Credits: 3  
Analysis of regions and rural communities; their problems, socioeconomic characteristics, land use and economic development. Provides training in regional economic analysis, fiscal impact analysis and benefit cost analysis.

**Dual Listed** AGEC 5600.  
USP 2015 Code U5H  
**Prerequisite:** ECON 3010, ECON 3020, and MATH 1400.

**AGEC4700 - Economics of Range Resources**

Credits: 3  
Applies economic and decision theory to management and allocation of public and private range resources.
When Offered (Normally offered spring semester)
Prerequisite: AGEC 1020 or equivalent.

AGEC4720 - Water Resource Economics

Credits: 3
Presents principles and procedures appropriate to water resource allocation and development decisions. Studies agricultural, recreational, industrial and other uses of water.

Prerequisite: AGEC 1020 or equivalent; QB course, WB course; senior standing.

ECON4420 - Seminar: Economics for ENR

Credits: 2-4
For students with little or no background in economics interested in economic perspectives on ENR. Emphasis is on integrated ecology-economics approach to investigate the economics environmental services, biological resources, and the ecosystems that contain them. CBEC and ECON majors cannot earn upper-division economics credit for this course.

Prerequisite: successful completion of Q and senior standing.

ERS3400 - Energy Markets & Policy

Credits: 3
This course provides an economic analysis of recent developments in energy markets and policies.

Cross Listed ECON 3400.
Prerequisite: ECON 1000, ECON 1010, ECON 1020, ECON 1200, ECON 1300, ECON 1400, or ERS 1300.

Negotiation Elective-Pick ONE

AGEC4450 - Negotiation

Credits: 3
Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

Cross Listed ENR 4450.
Dual Listed AGEC 5450.
Prerequisite: completion of USP O/COM2 requirement; junior standing.

AGEC4550 - Negotiation Analysis

Credits: 3
Focuses on using an analytical perspective for maximizing joint gains between negotiators. Students learn analytical
techniques to prepare for negotiation, evaluate options and proposals during a negotiation, and evaluate negotiated outcomes with respect to maximization of joint gains and fairness criteria.

Cross Listed ENR 4550.
Dual Listed AGEC 5550.
Prerequisite: QA/Q.

Data Analysis Elective- Pick ONE

**ENR4500 - Risk Analysis**

Credits: 4
Introduces basic concepts of risk analysis, including risk perception, identification, assessment, communication, management, and policy. Provides quantitative treatment of risk assessment procedures, fundamental mathematical models, and the concepts of variability and uncertainty; and practical experience in risk analyses conducted by teams of students. Emphasizes environment and natural resource examples. Laboratory.

Dual Listed ENR 5500.
USP 2003-2014 Code U3QB
Prerequisite: MATH 1000 or MATH 1400, introductory statistics and familiarity with Excel spreadsheets.

**ENR4525 - Environmental Data Analysis**

Credits: 4
Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real-world problems in data analysis.

Cross Listed GEOL 4525/GEOL 5525.
Dual Listed ENR 5525.
Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

**ES1060 - Introduction to Engineering Problem Solving**

Credits: 3
An overview of the methodology and tools used in the engineering profession for analyzing problems. Example problems are solved using spreadsheet tools and structured programming language. Laboratory.

Prerequisite: MATH 2200 or concurrent enrollment.

**GEOL2120 - Quantitative GeoMethods**

Credits: 3
Focuses on fundamental mathematical concepts used in geosciences. This course provides the tools to solve quantitative problems in geosciences applications. Students should demonstrate mathematical skills needed to
formulate, analyze, and interpret quantitative arguments in geosciences.

USP 2003-2014 Code U5Q
**Prerequisite:** Level 5 in Math Placement Test OR 23 in Math ACT OR 600 in Math SAT.

**GEOL4250 - Mathematical Geosciences**

Credits: 3
The purpose of this course is to strengthen the quantitative skills of students in geosciences by reviewing basic concepts of linear algebra, precalculus, derivation and integration through applications to real datasets and problem sets, and introducing basic concepts of inverse theory, spatial science, data analytics, and geostatistics. The examples focus on applications to practical geoscience problems.

**Dual Listed** GEOL 5250
**Prerequisite:** MATH 1400 and 1405 or consent of instructor.

**GEOL4525 - Environmental Data Analysis**

Credits: 4
Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real world problems in data analysis.

**Cross Listed** ENR 4525/ENR 5525.
**Dual Listed** GEOL 5525.
**Prerequisite:** A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

**GIST4211 - Advanced Remote Sensing**

Credits: 3
On-campus and online course including lecture and digital image processing lab. Explores advanced remote sensing techniques including high spatial and spectral resolution data analysis, active remote sensing (radar and lidar), and advanced image classification. Other advanced topics may be discussed as needed.

**Dual Listed** GIST 5211.
**Former Course Number** [BOT 4211; GEOG 4211]

**Prerequisite:** GIST 3111 or GIST 4130.

**IMGT2400 - Introduction to Information Management**

Credits: 3
Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and
managing systems. Special emphasis will be made on learning hands-on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

**Former Course Number [2400]**

**Prerequisite:** MATH 1400.

**STAT3050 - Statistical Methods**

Credits: 3
Provides undergraduate majors in the Colleges of Arts and Sciences, Agriculture and Education with training in statistical methodology for multiple variable situations. Integrates computer analysis packages such as R, MINITAB, SAS and SPSSX into statistical topics. Credit cannot be earned in more than one of the following courses: STAT 2110, 3050 and STAT 5050, 5060, STAT 5070, STAT 5080.

**Prerequisite:** STAT 2050, STAT 2070 or equivalent.

**ZOO4400 - Population Ecology**

Credits: 3
Explores quantitative ecology of animal populations, emphasizing theoretical and empirical work. Provides modern coverage of principles of population ecology for wildlife majors and others who expect to deal with ecological problems in their careers.

**Dual Listed** ZOO 5400.

**When Offered** (Offered spring semester)

**Prerequisite:** LIFE 1010, LIFE 3400 and STAT 2050 or consent of instructor.

**General Electives- 21 credits in total, 9 credits must be upper division**

**BOT4775 - Forest Ecology**

Credits: 4
Integrative study of the structure, function, and ecological diversity of forested ecosystems, and the physical factors that influence this diversity, including emergent properties of energy flow and nutrient cycling. Special emphasis is given to understanding forest disturbances and succession, and implications for impacts of management and sustainability are discussed throughout.

**Cross Listed** RNEW 4775.

**Dual Listed** BOT 5775.

**When Offered** (Normally offered fall semester of odd-numbered years)

**Prerequisite:** LIFE 3400.

**CHE2005 - Chemical Process Analysis**
Introduces analysis of chemical processes using stoichiometry, material and energy balances, thermodynamics and economics.

**When Offered** (Normally offered fall semester)
**Former Course Number** [3000]

**Prerequisite:** C- or better in either CHEM 1050 or CHEM 1020 and concurrent enrollment in MATH 2205.

**CHEM4050 - Solar Energy Conversion**

Credits: 3
Provides an overview of the science behind current and future solar thermal and photovoltaic technologies. Environmental aspects, legal issues and cost associated with solar energy will also be included.

**Cross Listed** ERS 4050.

**When Offered** (Offered spring semester)
**Prerequisite:** CHEM 1030 or CHEM 1060 and PHYS 1210 or PHYS 1310 and MATH 2200.

**DSCI2100 - Introduction to Operations and Supply Chain Management**

Credits: 3
An introductory course in production and operations management. Typical topics include operations strategy, quality management, facilities location, facilities layout, forecasting, inventory management, production planning, scheduling and project management.

**Prerequisite:** IMGT 2400 or equivalent, STAT 2050 or equivalent, MATH 2355, sophomore class standing. (EN majors: MATH 2205 and sophomore class standing.)

**ECON1010 - Principles of Macroeconomics**

Credits: 3
An introductory course on why economics matters. We examine why countries like the US are rich, while others are poor. We explore economic booms & busts, and policies to avoid them. We address GDP growth, unemployment and inflation, government debt, deficits, tax policy, and whether robots will take our jobs.

**Cross Listed** AGEC 1010.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

**ECON4430 - Energy Economics**

Credits: 3
Economics of energy, particularly oil and gas. Includes a discussion of the history of the oil industry, as well as aspects of contemporary markets. Apply a variety of concepts from microeconomics, particularly related to industrial economics.
Prerequisite: ECON 3020, MATH 2200 or MATH 2350.

EDSE 3040 - Energy and Power Technology

Credits: 3
A conceptual analysis and synthesis of energy requirements and sources, with emphasis on alternate energy systems. Analysis of energy conversion and the application of mechanical, fluid, thermal and electrical power systems.

When Offered (Offered through UW/CC)
Former Course Number [EDIE 3040]

Prerequisite: PHYS 1050 or PHYS 1110.

ENR 1200 - Environment

Credits: 4
Introductory environmental science course appropriate for science and nonscience majors. Uses case studies and applied laboratories to explore core biological principles such as nutrient flow and cycling, population and community ecology, and ecosystem structure and function, as well as the non-science dimensions of ENR issues. Early-semester, weekend field trips/labs required.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN

ENR 2300 - Foundations of Sustainability

Credits: 3
Examine the basic concepts, theories, and practice of sustainability as a foundation for future learning in the field. Explore principles of sustainability in our community and personal lives through various lenses and systems.

USP 2003-2014 Code U3CH
USP 2015 Code U5H

ENR 3450 - Weather and Climate

Credits: 3
Systematically examines elements and controls of weather and climate with application to regions.

Cross Listed GEOG 3450 and GEOL 3450
When Offered (Normally offered fall semester)
Former Course Number [G&R 3450]

Prerequisite: GEOG 1000, GEOG 1010 or GEOG 1020.
ENR3700 - Wyoming Conservation Corps Practicum

Credits: 1
Max Credit 2

Required for students entering the WCC. Students will be required to make weekly journal entries and write a paper on a topic germane to their WCC experience. Additionally, necessary training for the Wyoming Conservation Corps program will be included in the course content.

Prerequisite: Acceptance into the Wyoming Conservation Corps program.

ENR3750 - Natural Resource Planning and Economics

Credits: 3
Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed AGEC 3750.
When Offered (Offered spring semester of odd-numbered years)
Former Course Number [4750]

Prerequisite: QA, WA and junior standing.

ENR3900 - Seminar in Environment and Natural Resources

Credits: 1-3
Max Credit 12

Examines research and policy perspectives by a variety of authorities on selected environment and natural resource problems and issues.

Prerequisite: ENR 3000 or consent of instructor.

ENR3950 - Environmental Sociology

Credits: 3
Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

Cross Listed SOC 3950.
Prerequisite: SOC 1000.

ENR4010 - Winter Ecology: Skills of the Winter Naturalist
Credits: 1
Emphasizes field naturalist skills, the effects of winter abiotic conditions on organisms and subsequent adaptations to these conditions, animal tracking, introduction to snow dynamics and winter safety.

**Prerequisite:** 6 hours of ENR or science courses.

**ENR4011 - Winter Ecology: Snowpack Science and Dynamics**

Credits: 1
Emphasizes snow science and avalanche safety through lectures and inquiry-based field laboratories.

**Prerequisite:** 6 hours of ENR or science courses.

**ENR4012 - Winter Ecology: Wildlife and Plant Adaptations**

Credits: 1
Emphasizes animal and plant adaptations to cope with the stresses of winter, as well as the predicted impacts of climate change, through lectures and inquiry-based field laboratories. Students also conduct field research in a winter environment.

**Prerequisite:** 6 hours of ENR or science courses.

**ENR4040 - Conservation of Natural Resources**

Credits: 3
Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

**Cross Listed** BOT 4040/GEOG 4040.  
USP 2003-2014 Code U3CS  
**Former Course Number** [G&R 4040]

**Prerequisite:** 6 hours of geography or ENR.

**ENR4051 - Environmental Politics**

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

**Cross Listed** AMST 4051, POLS 4051, GEOG 4051 and REWM 4051.  
USP 2003-2014 Code U3WC  
**Prerequisite:** POLS 1000.
ENR4420 - Conservation Biology

Credits: 3
Addresses the broadest environmental issues facing society (habitat loss, invasion, overexploitation) and the mechanisms driving them, with particular attention to the Intermountain West. Through computer exercises, students also learn how to evaluate conservation efforts and make management recommendations.

Cross Listed BOT 4420/ZOO 4420.
Prerequisite: LIFE 3400 and one of the following: ENR 3500, STAT 2050, or STAT 2070.

ENR4500 - Risk Analysis

Credits: 4
Introduces basic concepts of risk analysis, including risk perception, identification, assessment, communication, management, and policy. Provides quantitative treatment of risk assessment procedures, fundamental mathematical models, and the concepts of variability and uncertainty, and practical experience in risk analyses conducted by teams of students. Emphasizes environment and natural resource examples. Laboratory.

Dual Listed ENR 5500.
USP 2003-2014 Code U3QB
Prerequisite: MATH 1000 or MATH 1400, introductory statistics and familiarity with Excel spreadsheets.

ENR4525 - Environmental Data Analysis

Credits: 4
Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real-world problems in data analysis.

Cross Listed GEOL 4525/GEOL 5525.
Dual Listed ENR 5525.
Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

ENR4560 - Conservation Entrepreneurship

Credits: 3
Max Credit 3

This course introduces students to foundational concepts in social entrepreneurship applies them to environmental conservation issues. Students will learn the legal, financial, and ecological concepts underpinning entrepreneurial approaches to conservation. Students will apply concepts to real world examples to understand the strength and weaknesses of these approaches.

Dual Listed ENR 5560.
Prerequisite: ENR 3000
**ENR4600 - Campus Sustainability**

Credits: 3  
Uses campus as a setting to explore long-term environmental, economic, and social sustainability theory and practice. Students design and implement a semester-long project to improve sustainability of the UW campus. This is an interdisciplinary course and is appropriate for students of all disciplines.

**Dual Listed** ENR 5600  
**Prerequisite:** USP WB or COM2 course, junior or senior standing.

**ENR4890 - Topics in Environment and Natural Resources**

Credits: 1-6  
Max Credit (Max. 12)

Special topics in environment and natural resources are offered under this number. The specific subject matter varies each year because the course is normally taught by faculty who wish to present a specialized topic of interest to ENR and other students. Check class schedule for specific topics offered each year.

**Dual Listed** ENR 5890.  
**Former Course Number** [4990]

**Prerequisite:** ENR 3000 or permission of the instructor.

**ENR4900 - Capstone in ENR**

Credits: 3  
An integrative course in which students work in multidisciplinary teams to synthesize and apply environment and natural resources analytical frameworks, perspectives, methods, and theories. Students develop and refine critical thinking skills to address a real-world environment and natural resources challenge.

**Dual Listed** ENR 5900.  
USP 2003-2014 Code U3WC  
USP 2015 Code U5C3  
**Prerequisite:** ENR 3000.

**ENR4950 - Leadership in Natural Resources Management**

Credits: 2  
Provides Crew Leaders in the Wyoming Conservation Corps with an understanding of the complex dynamics of natural resources management while also equipping students with the tools to confidently lead groups of students on conservation-oriented service-learning projects on Wyoming's public lands during the summer months.

**Cross Listed** ERS 4950.  
**Dual Listed** ENR 5950.  
**Prerequisite:** ENR 3700 and consent of instructor.
**ENR4960 - Field Studies in:**

Credits: 1-6  
Field-based courses in Environment and Natural Resources are taught under this number. The specific subject matter varies depending upon the location and content of each course. Students frequently need to apply in advance.

**Prerequisite:** 6 credits of ENR coursework.

**ENR4970 - ENR Internship**

Credits: 1-6  
Max Credit (Max. 6)

Provides practical experience in environmental and natural resource policy, management and decision processes, as well as interaction with professionals in the field. Offered S/U only.

**Prerequisite:** ENR 3000.

**ERS1650 - The Water-Energy-Climate Nexus**

Credits: 3  
Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i.e. water-energy-climate (WEC) nexus. Using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.

**Cross Listed** GEOL 1650.  
USP 2015 Code U5PN

**ERS4960 - Energy Field Studies**

Credits: 1-3  
Various facets of energy resource management and development are covered by visits to oil and gas wells, coal mines, power plants, wind farms, and other energy production and research sites. A trip is normally planned for 5 to 6 days.

**Prerequisite:** WB; ERS 1000/ENR 1000 or ECON 1300/ERS 1300. Undergraduate Research.

**ERS4970 - Internship**

Credits: 1-3  
Max Credit (Max. 3)

A formalized internship designed to provide students with relevant practical experience in the energy sector allowing synthesis and application of principles in energy science to energy asset management.

**Prerequisite:** ERS 1000/ENR 1000 or ECON 1300/ERS 1300; QB; SP or SE.
ERS4975 - Global Experience in Energy

Credits: 2-4
Max Credit (Max. 4)

A 1-3 month integrative energy experience in China or Australia. Students will participate, in collaboration with partnering energy professionals, in outcomes focused education and research programs designed to address globally relevant challenges. Students will gain a global perspective within the cultural context of the partner institution.

Prerequisite: ERS 1000/ENR 1000 or ECON 1300/ERS 1300; QB, SP or SE.

ERS4990 - Topics in Energy Resource Development and Management

Credits: 1-6
Max Credit (Max. 6)

Special topics in contemporary energy development and management will be offered in response to changing industry and academic demands. The specific subject matter is based on faculty requirements and workforce innovation.

ESE4460 - Solar and Geothermal Engineering

Credits: 3
An introduction to the engineering of solar-powered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ME 4460.
Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

ESE4470 - Wind and Ocean Energy Engineering

Credits: 3
Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

Cross Listed ME 4470.
Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

FIN3310 - Investment Management

Credits: 3
Fundamental principles of investments and practical implications of financial theory. Students acquire a framework for understanding returns on financial assets, risk and return, fundamentals of portfolio theory, efficient market hypothesis, and asset pricing models. Other topics include financial statement analysis, behavioral finance, and introduction to options and futures.
**Former Course Number** [4310]

**Prerequisite:** FIN 2100 and advanced business standing.

**FIN3520 - Financial Markets**

Credits: 3  
Portfolio and capital market theory and the analysis of risk are introduced. Integrates theory into practical aspects of financial markets.

**Former Course Number** [4520]

**Prerequisite:** FIN 2100, STAT 2010 or STAT 2050/STAT 2070, and advanced business standing.

**GEOG3050 - Economic Geography**

Credits: 3  
Economic Geography is the study of the location, distribution and spatial organization of economic activities across the globe; specifically how the economic realm is intertwined with other spheres of international social life. It explores the inherent logics and mechanisms of the capitalist system, and the social and spatial inequalities that result.

**Former Course Number** [G&R 3050]

**Prerequisite:** 6 hours of Social Sciences or International Studies.

**GEOG3450 - Weather and Climate**

Credits: 3  
Systematically examines the patterns and process of Earth's climate system, focusing on atmospheric and surface energy and water balances; atmospheric motion; past, present, and future climate change.

**Cross Listed** ENR 3450 and GEOL 3450  
**Former Course Number** [G&R 3450]

**Prerequisite:** GEOG 1010 OR any USP PN course.

**GEOG3480 - Environmental Change**

Credits: 3  
Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how societies have responded to natural and anthropogenic environmental change.
Cross Listed ESS 3480
USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
Former Course Number [G&R 3480]

Prerequisite: GEOG 1010 or any USP PN course; and USP COM1.

GEOG3550 - Natural Hazards and Society

Credits: 3
Considers societal structures and processes as they interact with hazards in the natural environment.

USP 2003-2014 Code U3CS
Former Course Number [G&R 3550]

GEOG4040 - Conservation of Natural Resources

Credits: 3
Geographically analyzes conservation of natural and human resources, as well as political, social and ethical ramifications of our environmental policy.

Cross Listed ENR 4040.
GEOL 4040
USP 2003-2014 Code U3CS
Former Course Number [G&R 4040]

Prerequisite: 6 hours of geography or ENR.

GEOG4051 - Environmental Politics

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, POLS 4051 and REWM 4051.
USP 2003-2014 Code U3WC
Former Course Number [G&R 4051]

Prerequisite: POLS 1000.

GEOG4080 - Management of Major River Basins
Credits: 3
Examines geography of water resources, including distribution, water as a resource and water as a hazard to humans. Focuses on water management case studies on the scale of major river basins in North America and elsewhere in the world.

**Former Course Number** [G&R 4080]

**Prerequisite:** Completion of the USP PN requirement or consent of instructor.

**GEOG4113 - Geological Remote Sensing**

Credits: 4
Acquaints students with aircraft and spacecraft remote sensing of the environment, emphasizing geologic application to earth and other planetary bodies. Includes visible, infrared, ultraviolet, radio and radar sensing. Laboratory exercises are applications related to tectonics, geomorphology, paleoclimate, structure, stratigraphy, environmental geology and geologic hazards.

**Cross Listed** GEOL 4113.
**Prerequisite:** GEOL 1005 or GEOL 1100 or 1200 or GEOG 1010 and MATH 1400/1405 or MATH 1450.

**GEOG4440 - Advanced Global Climate Variability**

Credits: 3
Climate varies. This fundamental aspect of the climate system can have major environmental and societal impacts to ecosystems, the hydrologic cycle and water resource management in arid environments such as the intermountain west. This course will utilize climate data and mapping tools to understand global and regional climate variability.

**Dual Listed** GEOG 5440.
**Prerequisite:** GEOG 3450/ENR 3450 or instructor's consent.

**GEOG4470 - Fire Ecology**

Credits: 3
Fire is an important phenomenon affecting ecosystems and human communities throughout the world. Explores spatial and temporal patterns of fire with emphasis on ecology and management.

**Cross Listed** GEOG/GEOL 4470/5470
**Former Course Number** [G&R 4470]

**Prerequisite:** Some basic knowledge of Earth processes GEOG 4460, BOT 4700, LIFE 3400 or graduate standing.

**GEOG4880 - Current Topics**

Credits: 1-6
Max Credit (Max. 6)
Special course on a topic of current interest.

**Dual Listed** GEOG 5880.
**Former Course Number** [G&R 4880, 4850]

**Prerequisite:** junior standing.

**GEOG4885 - Seminar: (TOPICS)**

Credits: 1-3  
Max Credit (Max. 6)

Faculty-student discussion, reading, and study focused on a selected topic and interest.

**Former Course Number** [G&R 4885, 4900]

**Prerequisite:** GEOG 4750.

**GEOL1001 - Earth Science and Society**

Credits: 1  
Introduces students to the study of Earth Science and its role in society through examination and discussion of current events, and through projects researching geologic topics of societal interest.

USP 2003-2014 Code Y3L U3L  
**Prerequisite:** GEOL 1100 or concurrent enrollment.

**GEOL1070 - The Earth: Its Physical Environment**

Credits: 4  
Discusses selected topics from geology, astronomy and meteorology illustrating fundamental concepts, processes, products and the interrelationships among them. Emphasizes nature of science and relationship between selected topics and society.

**Cross Listed** ASTR 1070.  
USP 2003-2014 Code U3SE  
USP 2015 Code U5PN  
**Prerequisite:** Math level 3 or equivalent courses, consent of instructor, elementary education major and EDCI 1450 must be taken concurrently.

**GEOL1500 - Water, Dirt, and Earth's Environment**

Credits: 4  
Introductory environmental geology course focusing on water and soil both as hazards and as life-sustaining resources. Explores surface processes and climate change over geological and human timescales. Case studies illustrate the environmental tradeoffs of resource use.
**GEOL1600 - Global Sustainability: Managing Earth's Resources**

Credits: 4
Uses biology, chemistry, physics and Earth science to examine Global Sustainability and how this worldview might guide our future management of Earth resources. Case studies in different international settings place questions of resource exploitation (discovery, extraction, processing, use and disposal) and sustainability in a larger global context.

**GEOL1650 - The Water-Energy-Climate Nexus**

Credits: 3
Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i.e. water-energy-climate (WEC) nexus. Using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.

**GEOL2000 - Geochemical Cycles and the Earth System**

Credits: 4
Introduces the Earth system, including the solid Earth, hydrosphere, biosphere and atmosphere. Emphasizes the evolution of the Earth, rock associations and geochemical cycles.

**GEOL2080 - General Field Geology**

Credits: 3
Covers basic concepts of geology and field techniques emphasizing interpretation of geologic features in the field and constructing geologic products (e.g. measured sections and geologic maps). Students are expected to be able to identify the common rock forming minerals and common rocks in hand-sample. Weekly field trip required.
GEOL3250 - Geosciences and Computers

Credits: 4
An integrated introduction to the basic components of modern scientific computing and to illustrate basic computing concepts through geoscience applications.

USP 2003-2014 Code [I< >(none)]
Prerequisite: One USP designated science course with lab.

GEOL3500 - Global Change: A Geological Perspective

Credits: 4
Considers the geochemical and geophysical systems that control the Earth's climate, the geological and historical record of climate change, and then discusses the possible effect that human activities will have upon these chemical and geophysical systems.

Prerequisite: junior standing and an introductory class in the physical sciences.

GEOL3600 - Earth and Mineral Resources

Credits: 4
Explores the geologic formation, production, and use of Earth and mineral resources, including building materials, chemical minerals, industrial minerals and metals. For each resource, the geologic environment and processes of formation are discussed. Exploration and mining techniques for each resource are also reviewed and associated environmental problems and regulations examined. Beneficial and detrimental aspects of the use of each resource are also discussed.

USP 2003-2014 Code U3G, U3SE
USP 2015 Code U5PN
Prerequisite: completion of USP QA and L.

GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge

Credits: 4
Examines the energy needs of a modern industrialized society. Looks at the types of energy, the natural laws that govern its use, transformation, and conservation. The different sources of energy available to modern societies are examined. Examination includes fossil fuels, nuclear power as well as alternative energy sources. The formation of the resource is discussed, how it is extracted, and any environmental consequences associated with its extraction and use.

USP 2003-2014 Code U3G, U3SE
USP 2015 Code U5PN
Prerequisite: completion of USP QA and L.

GEOL4001 - Modeling the Earth System

Credits: 4
Takes a modeling approach to demonstrate how the Earth is integrated into an interconnected system through
exchanges of energy and matter, and how Earth system functioning is susceptible to human alteration. Unifying concepts focus on quantitative interactions between the Earth and the Sun, and between the Earth's lithosphere, hydrosphere, biosphere and atmosphere.

Cross Listed BOT 4001/ATSC/ESS 4001.
Prerequisite: MATH 2205 or equivalent and ESS 2000 or GEOL 2000.

GEOL4010 - Exploration Geoscience

Credits: 3
Provides students with information and skills necessary to understand the energy exploration modeling process. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, and reservoir characterization.

Cross Listed ERS 4010.
Prerequisite: GEOL 1100; MATH 2200 or MATH 2350.

GEOL4060 - Rocky Mountain Field Trip

Credits: 1
Max Credit (Max. 3)

A six-day geological field trip to various classic localities in the Rocky Mountains.

Prerequisite: senior standing and GEOL 2010 and GEOL 4610 or GEOL 4050.

GEOL4113 - Geological Remote Sensing

Credits: 4
Acquaints students with aircraft and spacecraft remote sensing of the environment, emphasizing geologic application to earth and other planetary bodies. Includes visible, infrared, ultraviolet, radio and radar sensing. Laboratory exercises are applications related to tectonics, geomorphology, paleoclimate, structure, stratigraphy, environmental geology and geologic hazards.

Cross Listed GEOG 4113.
Dual Listed GEOL 5113.
Prerequisite: GEOL 1005 or GEOL 1100 or 1200 or GEOG 1010 and MATH 1400/MATH 1405 or MATH 1450.

GEOL4190 - Petroleum Geology

Credits: 3
Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 5190.
Prerequisite: GEOL 2005 or PETE 2050.
GEOL4191 - Methods in Petroleum Geology

Credits: 3
Lectures and laboratory exercises are designed to give the student experience in working with various kinds of geoscientific data in relation to the exploration for and production of hydrocarbons. Most exercises utilize real data and real situations. Topics include recognition of hydrocarbons, interpretation of sample, mud and geophysical logs, geologic utilization of drill stem tests; subsurface correlation and mapping techniques; prospect generation.

Dual Listed GEOL 5191.
Prerequisite: GEOL 4190.

GIST1001 - GIST Orientation and Portfolio

Credits: 1
Introduces students to the GIST degree, the resources necessary to be successful in the program, and the broader geospatial field and its impact on society. Topics include a survey of domain applications, the ethical, legal and social implications of using geospatial data, and geospatial certifications and credentialing.

GIST2140 - Survey of Remote Sensing Applications

Credits: 3
This course introduces remote sensing by surveying applications across disciplines. It includes a brief overview of fundamentals followed by exploration of types of remote sensing including aerial photography, multispectral and hyperspectral satellite remote sensing, active remote sensing, and thermal remote sensing. The course also introduces remote sensing applications for global change.

USP 2015 Code U5PN
Former Course Number GIST 2160

Prerequisite: USP Q; sophomore or junior class standing.

GIST2150 - Introduction to Programming in Geospatial Information Science and Technology

Credits: 3
Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

GIST2190 - Intro to Programming

Credits: 3
Introductory geospatial programming course covering the basic concepts and features of the Python scripting language, including data structures and functions, and the development of basic GIS scripting skills. Students implement spatial data collection, processing, and presentation methods for automating geospatial analyses.

Former Course Number GIST 2150
GIST2200 - Spatial Data Visualization

Credits: 3
Covers fundamental principles, concepts, and applications of spatial data visualization. Students will learn to find, understand, and act on spatial patterns, associations and trends, and to use and critique powerful graphical representations of spatial data including 3D maps, web maps, interactive graphics, and animations.

GIST3140 - Introduction to Remote Sensing

Credits: 3
This is a combined lecture and computer lab course designed to present the physical principles of remote sensing, the application of airborne and satellite imagery to the study of the earth's surface with an emphasis on vegetation, and the hands-on application or remote sensing principles using digital image processing.

USP 2003-2014 Code Q
Former Course Number GIST 3111

GIST4130 - Applied Remote Sensing for Agricultural Management

Credits: 3
Covers remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed RNEW 4130 and PLNT 4130.
Dual Listed GIST 5130.
Former Course Number [BOT 4130]

Prerequisite: QA/Q course and 9 credit hours in student's major field and junior/ senior standing.

GIST4211 - Advanced Remote Sensing

Credits: 3
On-campus and online course including lecture and digital image processing lab. Explores advanced remote sensing techniques including high spatial and spectral resolution data analysis, active remote sensing (radar and lidar), and advanced image classification. Other advanced topics may be discussed as needed.

Dual Listed GIST 5211.
Former Course Number [BOT 4211; GEOG 4211]

Prerequisite: GIST 3111 or GIST 4130.

GIST4410 - UAS Sensors and Platforms

Credits: 1
This 1-credit online course taught over 8 weeks provides a detailed overview of the types of drones used for modern
remote sensing and of the sensors that can be used with these different drone platforms to collect data, including RGB and multi-spectral cameras, thermal sensors, and lidar.

**Dual Listed GIST 5410.**

**GIST4420 - UAS Mission Planning**

Credits: 1
This 1-credit online course taught over 8 weeks provides a detailed overview of mission planning for UAS (drone) data collection. Students learn to evaluate mission requirements for a variety of UAS applications, to choose appropriate hardware to accomplish these requirements, and to use mission planning software to translate requirements into flight plans and data collection strategies.

**Dual Listed GIST 5420.**

**GIST4430 - UAS Regulations and Safety**

Credits: 1
This 1-credit online course taught over 8 weeks provides students with a detailed overview of federal, state, and local regulations pertaining to UAS flights and data collection. Students also learn about how to operate drones safely in both personal and professional applications. Course content helps prepare students for FAA remote pilot certification.

**Dual Listed GIST 5430.**

**GIST4440 - UAS Ground School and Operations**

Credits: 2
This field course provides students with the practical experience to operate UAS (drones) safely, legally, and effectively for collecting data to be used in a variety of applications. Students learn about pertinent safety and regulations, and then spend much of the course time flying drones in the field and collecting data.

**Dual Listed GIST 5440.**

**GIST4450 - UAS Photogrammetry and Image Process**

Credits: 3
This 3-credit online course provides overviews of the photogrammetric principles related to imagery acquired by unmanned aerial vehicles or drones, and the image processing techniques used for extracting information from the drone images. Students will gain experience in processing drone imagery collected with RGB cameras and multi-spectral sensors.

**Dual Listed GIST 5450.**

**Prerequisite:** Junior/Senior standing or approval from the instructor.

**GIST4790 - Special Topics in Geospatial Information Science and Technology**
Credits: 3
Advanced and specialized topics in GIS&T are addressed through guided student discussions of current literature and possible hands-on analyses.

**Dual Listed** GIST 5790.

**HIST4535 - History of Oil**

Credits: 3
Intensive study of the history of oil development throughout the world. Emphasizes comparative studies of the industry as it developed in various parts of the world and during various time periods, from pre-historic times to the present. The Wyoming oil/energy mineral history is an important component.

**Dual Listed** HIST 5535.
**Prerequisite:** 9 hours in history.

**IMGT2400 - Introduction to Information Management**

Credits: 3
Concerned with the role of information systems in managing organizations to make them more competitive and efficient. Specific topics include organizational and technical foundations of information systems and building and managing systems. Special emphasis will be made on learning hands on tools that are easily accessible to students, including Microsoft Excel and Microsoft Access.

**Former Course Number** [2400]

**Prerequisite:** MATH 1400.

**LIFE3400 - General Ecology**

Credits: 3
Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

**Former Course Number** [BIOL 3400/ BIOL 2400]

**Prerequisite:** completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

**LIFE3410 - Introduction to Field Ecology**

Credits: 2
Field and laboratory course. Introduces methods used in plant and animal ecology.

**When Offered** (Normally offered fall semester)
Former Course Number [BIOL 3410/BIOL 2410]

**Prerequisite:** LIFE 3400 (may be concurrently enrolled).

**LS2010 - Engineering Surveying Lecture**

Credits: 2
Principles of measurements of distances, elevation and angles. Basic error theory in measurement and calculations. Basic principles of surveying and map making.

Former Course Number [CE 2072]

**Prerequisite:** a working knowledge of algebra and trigonometry.

**LS2015 - Engineering Surveying Laboratory**

Credits: 1
Field surveying activities consisting of traversing, differential leveling, construction staking and gathering topographic data.

Former Course Number [CE 2073]

**Prerequisite:** LS 2010 or concurrent.

**LS2020 - GPS for Land Surveyors**

Credits: 4
From fundamental theory to practical application and advanced technologies, this class covers all aspects of GPS needed to understand and use GPS as a land surveyor including the basics of GPS technology, common hardware, surveying methods, survey design, planning and observing, real-time kinematics and DGPS.

Former Course Number [CE 2090]

**Prerequisite:** LS 2400.

**LS2100 - Records Research for Surveyors**

Credits: 3
Introduced to the public, quasi-public, and private depositories of recorded and non-recorded documents that establish land ownership boundaries, easement boundaries, and land use rights and restrictions in both the Public Land Survey System and the Colonial States. Assignments will require work to be conducted during depositories’ normal business hours.

Former Course Number [CE 2076]
**LS2410 - GIS in Surveying**

Credits: 3  
Covers the basic concepts of geographic information systems, the methods and software used to implement them, and their applications to surveying and analysis of other surveying problems.

**Former Course Number** [CE 2083]

**Prerequisite:** CE 2070 or LS 2010, and ES 1060 or ES 1061.

**LS3210 - Advanced Surveying**

Credits: 4  
Advanced topics in surveying computations and procedures, including traverse error analysis, topographic surveying, mapping, astronomical observations, coordinate geometry applications, and state plane coordinates.

**Former Course Number** [CE 3720, CE 4720]

**Prerequisite:** CE 2070 or LS 2010.

**ME4470 - Wind and Ocean Energy Engineering**

Credits: 3  
Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

**Cross Listed** ESE 4470  
**Prerequisite:** Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

**MGT2030 - Principle-Based Ethics**

Credits: 3  
Max Credit 3  
Studies the cognitive, social, behavioral, and corporate processes affecting individual, group, and organizational behavior in morally questionable situations. Through exploration and analysis of real-world cases, students understand what factors give rise to ethical dilemmas and how ethical principles guide ethical behavior. Student ethical decision-making is developed through this process.

**Prerequisite:** sophomore class standing.

**MGT3410 - Human Resources Management**
A study of the formal systems used to manage people at work. Emphasis is on concepts and procedures of EEO, diversity, job analysis, job evaluation, wage and salary administration, performance evaluation, safety, employee services and fringe benefits.

**Prerequisite:** MGT 2100 and advanced business standing.

**MGT3420 - Organizational Behavior and Leadership**

Credits: 3
An interdisciplinary study of individual, group, and organizational processes that affect employee behavior at work. Prepares students for various managerial roles by synthesizing successful leadership practices in both domestic and international settings and by examining critical areas such as individual differences, organizational politics and culture.

**Former Course Number** [4420]

**Prerequisite:** MGT 2100, junior class standing and advanced business standing.

**MGT4240 - Performance and Compensation**

Credits: 3
In Human Resource Management the management of employee performance and compensation are key functions that drive organizational success. This course helps students become familiar with total compensation systems, including intrinsic and extrinsic rewards, base and variable pay, and benefits, and their relationship with employee performance and satisfaction.

**Prerequisite:** MGT 3410

**MGT4260 - Training and Development**

Credits: 3
In Human Resource Management training employees in the latest technical and managerial skills and helping them gain developmental experiences helps drive organizational success. Students will learn how to recognize training and developmental needs, how to develop employee training systems, and how to implement these training systems. Additionally, students will learn about career and leader development.

**Prerequisite:** MGT 3410

**MGT4340 - Law for Managers**

Credits: 3
Provides an overview of laws and legal issues associated with managing a business, incorporating aspects of sustainable business practices. Topics include agency and employment, business organizations, including securities laws and corporate governance standards, government regulation of businesses, including environmental/sustainability regulations, and an introduction to international law and global economy.
**Prerequisite:** MGT 2010 or equivalent and junior class standing.

**MGT4350 - Commercial Law**

Credits: 3  
A study of the basic principles of commercial law, including property, sales, negotiable instruments, secured transactions, creditors' rights and bankruptcy.

**Prerequisite:** MGT 2010 or equivalent and junior class standing.

**MGT4360 - Business Law for Entrepreneurs**

Credits: 3  
A survey of the various legal issues confronted by entrepreneurs, particularly related to new ventures.

**Prerequisite:** MGT 2010 and junior class standing.

**MGT4370 - Employment Law**

Credits: 3  
Provides a comprehensive foundation for understanding the law as it relates to the employer-employee relationship. This course will provide students the legal background necessary to make better decisions both as a worker as well as a manager of other.

**Prerequisite:** MGT 2010 or equivalent, junior class standing.

**MGT4430 - Organization Design and Change**

Credits: 3  
Examines organizations, what they are, how they operate and are structured and how they can be changed. Focus is on macro managerial issues in the design and change of work organizations.

**Prerequisite:** MGT 2100, MGT 3410, MGT 3420; advanced business standing, junior class standing.

**MGT4470 - Negotiations and Conflict Resolution**

Credits: 3  
Max Credit 3  
Focuses on all aspects of formal managerial negotiation including dealings with suppliers, buyers, unions and etc. Also examined are the theory and practice of interpersonal negotiation. Conflict resolution is approached by identifying types and sources of conflict, organizational parameters of conflict, as well as resolution skills and behavior.

USP 2015 Code U5C3  
**Prerequisite:** MGT 2100, advanced business standing.
MGT4800 - Business Strategy and Policy

Credits: 3
A capstone course designed to integrate prior courses into a general manager's overall organization perspective. Coverage will emphasize strategic management models which provide frameworks that assist in this task and integrate those internal organization factors with the firm's environment.

USP 2015 Code U5C3
Prerequisite: ACCT 2010, ACCT 2020, MGT 2010, DSCI 2100, FIN 2100, MGT 2100, MKT 2100, STAT 2050 or equivalent, advanced business standing, and senior class standing. To be taken graduating semester of senior year.

MGT4900 - Independent Study in Management

Credits: 1-4
Max Credit 6

This course provides students the opportunity to study, on an individual basis, any aspect of Management not included in other structured management courses.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MGT4910 - Topics in Management

Credits: 3
Max Credit 6

This course is an in-depth investigation into a specialty area of the instructor.

Restricted Include: Juniors, Seniors/Exclude: Freshman/Sophomores

Prerequisite: Junior class standing, consent of instructor

MKT2100 - Introduction to Marketing

Credits: 3
An investigation of the marketing discipline with emphasis on vocabulary; principles; functional interrelationships; marketing strategies, practices and problems in national and international environments.

Prerequisite: sophomore class standing and completion of COM1.

PETE4860 - Energy, Environment, and Materials
Credits: 3
Understanding the connection between materials, energy and environment, including the history of climate and different types of energy in use for a greener planet. Provides broad knowledge in the areas of energy, material science, chemical, petroleum, and environmental engineering.

Dual Listed PETE 5860.
Prerequisite: Junior standing and PETE 2050 or consent of instructor.

PHIL2420 - Critical Thinking

Credits: 3
Shows that argument is a skill of fundamental importance to any field of endeavor. Explains methods used in evaluating an argument. Introduces such topics as: patterns of reasoning, counterexamples, fallacies; inductive and deductive logic.

USP 2003-2014 Code U3CH
Former Course Number [1100]

PLNT1000 - Agroecology

Credits: 4
Introduces ecological interactions that affect food producing (agricultural) systems. Lectures and laboratory exercises study the various biological components and the science of sustainable agricultural production. Features differences between developed and developing countries. Explores crises and challenges facing agriculture and global society.

USP 2003-2014 Code U3G, U3SB
USP 2015 Code USPN
Former Course Number [CROP/BOT 2000]

PLNT1150 - Pesticide Safety and Application

Credits: 1
Introduces various types and safe methods of pesticides application. Subsequent to completion, students may take the certification test administered by the Wyoming Department of Agriculture.

Cross Listed ENTO 1150.
Former Course Number [CROP 1150]

PLNT3030 - Ecological Web: Ecology of Plant Protection

Credits: 3
Introduces students to concurrent evolution of crop cultivation and organisms, both plant and animal, that attack them. Provides basic skills necessary to understand ecology and management of economic crop pests.

When Offered (Normally offered fall semester)
Former Course Number [2030]
Prerequisite: LIFE 1010 and PLNT 1000

PLNT4070 - Weed Science and Technology

Credits: 4
Management and physiological principles involved in control of economically important farm and range weeds.

Dual Listed PLNT 5070
When Offered (Normally offered fall semester)
Former Course Number [CROP 4070]

Prerequisite: PLNT 1000, LIFE 1010

PLNT4130 - Applied Remote Sensing for Agricultural Management

Credits: 3
Covers remote sensing concepts and applications related to croplands, rangelands, forests, and water. Students learn techniques for monitoring plant growth and vigor, monitoring rangelands, distinguishing invasive species, categorizing forest fires, and mapping water bodies. Students integrate remotely sensed data with other geospatial data.

Cross Listed RNEW 4130/GIST 4130
Prerequisite: Q course and 9 credit hours in student's major field and junior/senior standing

POLS3620 - Environmental Justice

Credits: 3
Examines core philosophical understandings of justice and applies them to the environment through a variety of case studies, analytical essays and monographs.

Cross Listed ENR 3620.
Prerequisite: POLS 1000, POLS 2460, or POLS 3600, or permission of instructor.

POLS4051 - Environmental Politics

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.
Dual Listed POLS 5051.
USP 2003-2014 Code U3WC
Former Course Number [4050]
Prerequisite: POLS 1000.

**POLS4052 - Federal Land Politics**

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed AMST 4052/ENR 4052/GEOG 4052/REWM 4052.
Prerequisite: POLS 1000.

**POLS4385 - Environment and Resource Conflict**

Credits: 3
Drawing on key theory and contemporary real-world case studies this course explores how environmental change and the competition for scarce resources (such as food, water, oil, gems, and timber) have increasingly been linked to violent interstate and intrastate conflict and how such conflicts might be addressed, managed, or resolved through international and national action.

Cross Listed INST 4385.
Dual Listed POLS 5385.
Prerequisite: 9 hours of POLS or INST, including POLS 2310/INST 2310.

**POLS4455 - Energy Security**

Credits: 3
Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism, climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed INST 4455.
Dual Listed POLS 5455.
Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.

**POLS4555 - Political Ecology**

Credits: 3
Political ecology is a multidisciplinary field of study that emphasizes the role of politics, power relations, and inequality in the study of human-environment relations. In this course we will consider how political ecology can help us rethink environmental knowledge and problem solving in a variety of contexts locally and globally.

Cross Listed INST/GEOG 4555 & POLS 5555
Dual Listed INST/GEOG 4555 & POLS 5555
Prerequisite: 9 hours of international studies or social science coursework.
REWM2000 - Principles of Rangeland Management

Credits: 3
Basic principles of range management as they apply to various regions and vegetative types. Relationship of range management practices to livestock production, wildlife management, forestry, hydrology and other land uses. Introductory course for majors and non-majors.

Prerequisite: LIFE 1101 or LIFE 1010.

REWM3100 - Principles of Wildland Water Quality

Credits: 3
Basic principles of aquatic chemistry and water quality as they relate to watershed management practices including livestock production, agronomic production, mineral and natural gas extraction and other land uses.

Cross Listed ENR 3100.
When Offered (Normally offered fall semester)
Prerequisite: CHEM 1000.

REWM4051 - Environmental Politics

Credits: 3
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation laws, policies, and regulations.

Cross Listed AMST 4051, ENR 4051, GEOG 4051 and POLS 4051.
USP 2003-2014 Code U3WC
Prerequisite: POLS 1000.

REWM4052 - Federal Land Politics

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/ENR 4052/GEOG 4052/AMST 4052.
Prerequisite: POLS 1000.

REWM4200 - Reclamation of Drastically Disturbed Lands

Credits: 3
Overviews reclamation of drastically disturbed lands in the west, emphasizing surface mined lands. Includes principles of ecology, agronomy, soils and other relevant disciplines as applied to mitigate adverse environmental impacts of land disturbance.
**When Offered** (Normally offered fall semester)

**Prerequisite:** LIFE 3400, AECL 2100.

**REWM4285 - Wildland Hydrology**

Credits: 3

Teaches essential and unique characteristics of hydrologic cycle as occurred on range and forest lands, concentrating on quantification of these processes and storages.

**Cross Listed** ENR 4285.

**Dual Listed** REWM 5285.

**When Offered** (Normally offered fall semester)

**Prerequisite:** QA

**REWM4330 - Rangeland Ecosystem Assessment and Monitoring**

Credits: 4

Assessment, monitoring, and analysis of rangeland ecosystems and processes. Students integrate sampling design, measurements of vegetation attributes, indicators of rangeland health, ecological site information, riparian and wildlife habitat values, utilization, and statistical applications to evaluate rangeland resource integrity and sustainable use. Students collect, analyze, and report data using current technologies. REWM students will be given enrollment preference.

**When Offered** (Normally offered fall semester)

**Prerequisite:** REWM 2400 and STAT 2050 or STAT 2070. Concurrent enrollment in REWM 2400 and STAT 2050 or STAT 2070 is allowed with permission.

**REWM4340 - Reclamation Techniques Field Trip**

Credits: 2

Provides increased comprehension of current land reclamation problems and solutions by means of a field trip to sites in region where land reclamation is occurring.

**When Offered** (Normally offered fall semester)

**Prerequisite:** REWM 4200.

**REWM4440 - Applied Fire Ecology**

Credits: 3

Course examines drivers and patterns of wildfire in rangeland and forested ecosystems, fire behavior, fuel characteristics, fire effects, suppression tactics and mitigation strategies, prescribed burning precautions and applications, applications/uses of fire to meet resource objectives, policies and regulations, and modeling software. Required field trips out of class time.

**Dual Listed** REWM 5440.

**Restricted** Junior standing or greater class standing required.
Prerequisite: General biology and MATH 1400 or above.

REWM4500 - Rainfall-Runoff Modeling

Credits: 3
Introduction to hydrologic modeling that teaches the foundations of model development, calibration, and interpretation. Examines the different components of the water cycle and how they are being integrated into watershed models. Equips the students with the necessary skills to parameterize hydrologic models, understand the underlying principles, and interpret model outputs.

Dual Listed REWM 5500.
Prerequisite: REWM 4285.

REWM4530 - Seminar

Credits: 1
Max Credit (Max. 2)
Discusses pertinent range management problems.

Prerequisite: REWM 2000 (earn at least a C) or ENR 4000.

REWM4580 - Rangeland Restoration Ecology

Credits: 3
Detailed analysis of various disturbed ecosystems unique to western rangelands. Primary emphasis on plant community restoration following degradation from edaphic, biotic, hydrologic, and topographic influences on degradation and strategies for vegetative rehabilitation. Strong focus on current research to formulate restoration strategies.

Dual Listed REWM 5580.
Prerequisite: REWM 4200 or LIFE 3400.

REWM4600 - Drone-Based Remote Sensing

Credits: 3
This class teaches the basics of remote sensing applications in environmental sciences with a focus on unmanned aerial vehicles (UAVs, aka "drones"). Students will receive training in drone operation, data collection and analysis, and will be prepared to take the FAA Remote Pilot Certification.

Prerequisite: MATH 1400 or higher

REWM4700 - Wildland Watershed Management

Credits: 3
Studies hydrological cycle with specific emphasis on the role of vegetation in hydrologic processes such as
interception, surface detention storage, infiltration, percolation, run-off, and water quality. Utilization of watersheds and vegetation manipulation practices to modify these hydrologic processes.

**When Offered** (Normally offered spring semester)
**Prerequisite:** LIFE 1101 or LIFE 1010.

**REWM4710 - Watershed Water Quality Management**

Credits: 3
Studies watershed processes controlling water quality. Examines impacts of land use activities such as agriculture production, livestock grazing, and mineral and natural gas extraction on surface water and ground water quality. Emphasis will be placed on water quality modeling and management.

**Dual Listed** REWM 5710.
**When Offered** (Normally offered spring semester)
**Former Course Number** [4180]

**Prerequisite:** CHEM 1000.

**REWM4750 - Wildlife Habitat Restoration Ecology**

Credits: 3
Emphasis on fundamental and applied aspects of restoration ecology for terrestrial wildlife habitats following anthropogenic and natural disturbances. Although the course overviews theoretical concepts applicable to many systems, there is a focus on applications for wildlife habitats in western North America.

**Dual Listed** REWM 5750.
**Prerequisite:** Minimum of 6 hours of Biology or Life Sciences courses.

**REWM4810 - Experiments in Restoration**

Credits: 2
Emphasis on the experimental design using examples from restoration science. Focus on experiments to test concepts in ecosystem science, food webs, population genetics, metapopulation biology, biodiversity and invasion, and climate change. Address topics in experimental, ecological restoration.

**Dual Listed** REWM 5810.
**Prerequisite:** STAT 2050 or equivalent.

**REWM4830 - Ecological Applications for Wildland Management**

Credits: 3
Emphasis on applying understanding of interactions among components of rangelands to facilitate sustainable provision of ecosystem services. The influences of stochasticity and disturbances on ecosystem structure and function will be the focus of discussion and technical writing exercises.
When Offered (Normally offered fall semester)
USP 2003-2014 Code U3WB
Prerequisite: WA, REWM 2000 (earn at least a C), LIFE 3400 (latter may be concurrent).

**REWM4850 - Rangeland Vegetation Management Techniques**

Credits: 3
Uses applied ecological principles in restoration of degraded rangeland ecosystems to introduce methods for manipulating rangeland vegetation that satisfy land management objectives. Provides ecologically-sound practices to maintain optimal and sustained yield of rangeland products.

When Offered (Normally offered spring semester)
Prerequisite: C or better in REWM 2000 and SB.

**REWM4900 - Rangeland Management Planning**

Credits: 3
Applies planning processes that integrate soil, vegetation, water, livestock, wildlife, and environmental regulatory considerations within the context of satisfying ecologically sustainable rangeland management objectives.

When Offered (Normally offered spring semester)
USP 2003-2014 Code U3WC
USP 2015 Code U5C3
Prerequisite: REWM 4830, ECON 1010 or AGEC 1010 or AGEC 1020, SOIL 4120 or SOIL 4150 (may be concurrent), REWM 3020 (may be concurrent), REWM 4330 (may be concurrent).

**SOIL2010 - Introduction to Soil Science**

Credits: 4
Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE
Prerequisite: CHEM 1000 or CHEM 1020.

**SOIL3130 - Environmental Quality**

Credits: 3
Introduction to environmental quality issues and events. Course emphasizes impacts to soil, water, atmospheric, and vegetative ecosystems due to different nutrients and contaminants, including nitrogen, phosphorus, sulfur, trace elements, and organic chemicals. Current information pertaining to environmental quality is discussed and a field trip to the Union Pacific Tie Plant.

Cross Listed ENR 3130.
When Offered (Offered fall semester)
Prerequisite: complete at least 1 University Studies Science course SB, SP or SE.
SOIL4100 - Soil Physics

Credits: 3
Examines forms and interrelations of matter and energy in the soil environment. Primarily addresses fluxes and transformations of soil water and solutes, as well as physical properties that influence soil productivity.

**Dual Listed** SOIL 5100.
**When Offered** (Offered spring semester)
**Prerequisite:** SOIL 2010 or equivalent introductory soils course.

SOIL4105 - Soil Physics Laboratory

Credits: 2
Teaches students the methodology and use of equipment to measure soil physical properties in the laboratory and field. Experiments include particle size analysis, soil surface area, soil-water measurement with neutron probe and TDR, field infiltration rate, soil-water retention curve, soil pore size distribution saturated and unsaturated conductivities, soil water potential and solute breakthrough curve.

**Dual Listed** SOIL 5105.
**Prerequisite:** SOIL 2010.

SOIL4120 - Genesis, Morphology and Classification of Soils

Credits: 4
Processes of soil development and methods of description, survey and classification. Includes field trips which examine soils in the Laramie Basin and surrounding mountains.

**Dual Listed** SOIL 5120.
**When Offered** (Offered fall semester)
**Prerequisite:** SOIL 2010.

SOIL4130 - Chemistry of the Soil Environment

Credits: 3
Introduction to the chemical properties and reactions that occur in the soil environment. Fundamental principles of soil mineralogy, organic matter and equilibrium chemistry as they relate to soil chemical reactions, plant nutrient availability and pedogenetic processes will be emphasized.

**Dual Listed** SOIL 5130.
**When Offered** (Offered spring semester)
**Prerequisite:** SOIL 2010, CHEM 1030 or CHEM 1060.

SOIL4140 - Soil Microbiology

Credits: 4
Fundamental principles of soil microbiology and how they relate to microbial ecology, environmental contamination, agriculture and forestry.
**SOIL4150 - Forest and Range Soils**

Credits: 3  
Characteristics and management of forest and range soils primarily in arid environments. Examines pedagogical units representative of forests and ranges and soil properties, such as nutrient availability and water relations that influence plant growth.

**SOIL4160 - Soil Health and Nutrient Cycling**

Credits: 3  
Physical, chemical, and biological aspects of soils that impact fertilizer fate, uptake, and plant growth.

**SOIL4540 - Microbial Diversity and Ecology**

Credits: 4  
Introduces the diversity and ecology of soil microbes through an integrated lecture and laboratory course. Emphasis on molecular approaches to analyzing microbial diversity and evolution, and student-directed experimental design. Provides a continuum of realistic research experiences in molecular microbial ecology, from field work to evolutionary analysis of DNA sequence data.

**SOIL4565 - Research: Soil Science**

Credits: 1-4  
Max Credit (Max. 6)

Library, laboratory, and/or green-house investigations on select research topics. Graduate students will be required to give a presentation to the soil science group on their final product/report.

**Cross Listed** MICR 4140.  
**Dual Listed** SOIL 5140.  
**Prerequisite:** SOIL 2010.
SOIL4780 - Seminar:

Credits: 1-9
Consideration of special topics of current interest in social work. May be repeated for a maximum of 15 hours credit when the seminar topic is different.

Prerequisite: advanced major status; or consent of instructor and junior standing for non-social work majors.

Minor

Energy Resource Management Minor

ERM Minor

The purpose of the ERM minor is to provide students at UW the opportunity to learn about energy and expand their career opportunities with this credential.

Core Courses- 6 credit hours needed

ERS1000 - Energy and Society

Credits: 3
Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ENR 1000.
USP 2003-2014 Code U3O
USP 2015 Code U5PN

OR

ENR1000 - Energy and Society

Credits: 3
Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ERS 1000.
USP 2003-2014 Code U3O
USP 2015 Code U5PN

ERS3400 - Energy Markets & Policy
Credits: 3
This course provides an economic analysis of recent developments in energy markets and policies.

**Cross Listed** ECON 3400.
**Prerequisite:** ECON 1000, ECON 1010, ECON 1020, ECON 1200, ECON 1300, ECON 1400, or ERS 1300.

**OR**

**ECON3400 - Energy Markets & Policy**

Credits: 3
This course provides an economic analysis of recent developments in energy markets and policies.

**Cross Listed** ECON 3400.
**Prerequisite:** ECON 1000, ECON 1010, ECON 1020, ECON 1200, ECON 1300, ECON 1400, or ERS 1300, and sophomore class standing.

**Elective Courses - 6 credit hours needed**

**ECON1300 - Oil: Business, Culture, and Power**

Credits: 3
A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

**Cross Listed** ERS 1300.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

**OR**

**ERS1300 - Oil: Business, Culture, and Power**

Credits: 3
A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

**Cross Listed** ECON 1300.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

**AGEC3750 - Natural Resource Planning and Economics**

Credits: 3
Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning
and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed ENR 3750.
Former Course Number [4750]

Prerequisite: QA/Q, WA/COM1 and junior standing.

OR

ENR3750 - Natural Resource Planning and Economics

Credits: 3
Economic concepts and rudimentary analytical tools are applied to federal, state and local natural resource planning and management programs. The value of economic input into natural resource policy is examined. Evaluating tradeoffs and resolving conflicts play a particularly important role in the course content.

Cross Listed AGEC 3750.
When Offered (Offered spring semester of odd-numbered years)
Former Course Number [4750]

Prerequisite: QA, WA and junior standing.

INST4455 - Energy Security

Credits: 3
Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism, climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed POLS 4455.
Dual Listed INST 5455.
Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.
OR

POL54455 - Energy Security

Credits: 3
Evaluates the geopolitical and socioeconomic issues surrounding the roots of energy insecurity and the global challenge to provide adequate, affordable, and accessible energy. Topics of study include the questions of energy nationalism, climate security, import dependence and transportation insecurities, the future of fossil fuels and alternative energies.

Cross Listed INST 4455.
Dual Listed POLS 5455.
Prerequisite: 9 hours of INST or POLS, including INST 2310/POLS 2310.

POL54350 - Sustainable Development and Global Policy
Credits: 3  
Considers in-depth meaning of "sustainable development" and trade-offs necessary to achieve it. Considers this issue from global perspective through application of theories in economics, political science, international relations, technology studies and ethics.

**Dual Listed** POLS 5350.  
**Prerequisite:** Consent of instructor. POLS 2310 strongly recommended.

**POLS4051 - Environmental Politics**

Credits: 3  
Analyzes environmentalism as a political phenomenon. Provides students with a basic understanding of how to analyze political issues by: (1) examining the historical and contemporary issues that produce controversy over environmental matters; and (2) surveying the impacts of these issues on the formulation and implementation of laws, policies, and regulations.

**Cross Listed** AMST 4051, ENR 4051, GEOG 4051 and REWM 4051.  
**Dual Listed** POLS 5051.  
USP 2003-2014 Code U3WC  
**Former Course Number** [4050]

**Prerequisite:** POLS 1000.

**SOC3950 - Environmental Sociology**

Credits: 3  
Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

**Cross Listed** ENR 3950.  
**Prerequisite:** SOC 1000.  
**OR**

**ENR3950 - Environmental Sociology**

Credits: 3  
Explores how ecology, technology, politics, economics, and culture intersect. By analyzing key contemporary environmental debates, students will develop an understanding of sociological analyses, and the impact of social life on our environment, as well as the effect of the environment on social life. Topics covered include: the environmental movement; sustainable development; developing nations and their environment; capitalism and technology; and environmental justice.

**Cross Listed** SOC 3950.  
**Prerequisite:** SOC 1000.
ERS2010 - Introduction to Land Management

Credits: 3
Max Credit 3

Provides an introduction to land management in the various energy industries. Covers the knowledge and skills needed by land professionals including survey systems, land descriptions, mineral ownership, title examination, leases, surface use agreements, and contracts frequently used in the industry. In addition, provides an overview of ethical issues that arise and professional conduct expected in the industry.

ERS4100 - Property I

Credits: 3

Property I addresses the nature of property ownership and the rights associated with property as well as the acquisition and transfer of ownership rights in property and the sharing of ownership rights over time, including estates, future interest, and concurrent estates.

ERS4110 - Law of Contracts

Credits: 3

The Law of Contracts addresses the formation of a contract and the meaning of agreements and the justification of non-performance and breach.

Prerequisite: MGT 1040 and WB/C

ERS4120 - Federal Public Land Law

Credits: 3

Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

ERS4130 - Oil and Gas Law

Credits: 3

Focuses on the basis legal rules and principles governing the ownership and development of oil and gas, derived from a combination of property, contract, administrative, tort, and constitutional law.

ERS3010 - Air Quality Management

Credits: 3

Provides an overview of air quality management approaches. In this course an interdisciplinary approach is adopted that includes diverse information from physical, natural and socioeconomic systems. With consideration of global and local issues this class focuses upon the energy sector.

Prerequisite: CHEM 1000 or CHEM 1020 and WA or COM1.

ERS4050 - Solar Energy Conversion
Credits: 3
Provides an overview of the science behind current and future solar thermal and photovoltaic technologies. Environmental aspects, legal issues and cost associated with solar energy will also be included.

**CHEM4050 - Solar Energy Conversion**

Credits: 3
Provides an overview of the science behind current and future solar thermal and photovoltaic technologies. Environmental aspects, legal issues and cost associated with solar energy will also be included.

**ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate**

Credits: 3
Introduces non-specialists to the fundamental scientific principles governing climate change. The underlying physics of both human and natural contributions to global warming is presented along with uncertainties in predicting climate. Potential strategies to mitigate global warming (alternative energy, carbon capture, and geoengineering) are also discussed.

USP 2003-2014 Code U5PN

**GEOL4010 - Exploration Geoscience**

Credits: 3
Provides students with information and skills necessary to understand the energy exploration modeling process. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, and reservoir characterization.

**ERS4010 - Exploration Geoscience**

Credits: 3
The purpose of this course is to provide students with information and skills necessary to understand the oil and gas modeling process from exploration to production. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, reservoir characterization, reservoir production, well planning and decision making.
Cross Listed GEOL 4010.
**Prerequisite:** GEOL 1100; MATH 2200 or MATH 2350.

**GEOG3480 - Environmental Change**

Credits: 3
Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how societies have responded to natural and anthropogenic environmental change.

Cross Listed ESS 3480
USP 2003-2014 Code U3G, U3WB
A&S College Core 2015 ASG
**Former Course Number** [G&R 3480]

**Prerequisite:** GEOG 1010 or any USP PN course; and USP COM1.
OR

**ESS3480 - Environmental Change**

Credits: 3
Examines changes in the bio-physical environments and landscapes of Earth during its habitation by humans. Emphasizes integrated approaches to understanding environmental changes based on climatological, ecological, geological, archeological, and historical evidence. Explores how humans have modified Earth's environments and how societies have responded to natural and anthropogenic environmental change.

Cross Listed GEOG 3480.
USP 2003-2014 Code U3G, U3WB
**Prerequisite:** GEOG 1010 or any USP PN course and USP COM1.

**GEOL1600 - Global Sustainability: Managing Earth’s Resources**

Credits: 4
Uses biology, chemistry, physics and Earth science to examine Global Sustainability and how this worldview might guide our future management of Earth resources. Case studies in different international settings place questions of resource exploitation (discovery, extraction, processing, use and disposal) and sustainability in a larger global context.

USP 2003-2014 Code U3G, U3S

**GEOL1650 - The Water-Energy-Climate Nexus**

Credits: 3
Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i.e. water-energy-climate (WEC) nexus. using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.
ERS1650 - The Water-Energy-Climate Nexus

Credits: 3
Among the grand challenges facing humanity, arguably the most significant are water, energy, and climate. These issues are, however not isolated but intimately connected, i.e., water-energy-climate (WEC) nexus. Using critical thinking and problem-solving skills, the significance of the WEC nexus to humanity will be explored from STEM and non-STEM perspectives.

GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge

Credits: 4
Examines the energy needs of a modern industrialized society. Looks at the types of energy, the natural laws that govern its use, transformation, and conservation. The different sources of energy available to modern societies are examined. Examination includes fossil fuels, nuclear power as well as alternative energy sources. The formation of the resource is discussed, how it is extracted, and any environmental consequences associated with its extraction and use.

GEOL3600 - Earth and Mineral Resources

Credits: 4
Explores the geologic formation, production, and use of Earth and mineral resources, including building materials, chemical minerals, industrial minerals and metals. For each resource, the geologic environment and processes of formation are discussed. Exploration and mining techniques for each resource are also reviewed and associated environmental problems and regulations examined. Beneficial and detrimental aspects of the use of each resource are also discussed.

GEOL4190 - Petroleum Geology

Credits: 3
Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.
Dual Listed GEOL 5190.
Prerequisite: GEOL 2005 or PETE 2050.
OR

GEOL5190 - Petroleum Geology

Credits: 3
Principles governing the exploration for hydrocarbons; characteristics of reservoirs and traps; origin, migration and accumulation of hydrocarbons; subsurface evaluation techniques.

Dual Listed GEOL 4190.
Prerequisite: GEOL 2100, GEOL 4610.

GEOL4720 - Ore Deposits

Credits: 4
Teaches principles of economic geology of ore minerals. Lectures cover geochemistry of ore minerals and environments in which various ore minerals are found. Labs include identification of ore minerals in hand sample and under microscope and methodology of economic geology.

Dual Listed GEOL 5720
When Offered (Normally offered fall semester)
Former Course Number [GEOL 4700]

Prerequisite: a grade of C or better in GEOL 2020.
OR

GEOL5720 - Ore Deposits

Credits: 4
Teaches principles of economic geology of ore minerals. Lectures cover geochemistry of ore minerals and environments in which various ore minerals are found. Labs include identification of ore minerals in hand sample and under microscope and methodology of economic geology.

Dual Listed GEOL 4720.
Prerequisite: GEOL 2010.

ME4460 - Solar and Geothermal Engineering

Credits: 3
An introduction to the engineering of solar-powered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ESE 4460
Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.
ESE4460 - Solar and Geothermal Engineering

Credits: 3
An introduction to the engineering of solar-powered energy systems, including evaluation of the energy resource, passive design considerations, economics of active solar systems, design of flat plate collectors and water heating systems, and design of concentrating collectors for larger building or electrical generation applications. Design considerations for geothermal energy systems for both small-scale and commercial-scale applications.

Cross Listed ME 4460.
Prerequisite: Completion of the ME Success Curriculum, ESE 3360 or ME 3360 or ARE 3360.

ME4470 - Wind and Ocean Energy Engineering

Credits: 3
Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

Cross Listed ESE 4470
Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

ESE4470 - Wind and Ocean Energy Engineering

Credits: 3
Introduction to the harvesting of wind and ocean energy, including discussions of the wind resource, wind turbine aerodynamics, blade materials, turbine dynamics, electrical systems, control systems, and energy storage. An overview of ocean energy capture systems is also presented.

Cross Listed ME 4470.
Prerequisite: Completion of the ME Success Curriculum, ES 2210, ES 2310, ES 2330, and ES 2410.

ERS4990 - Topics in Energy Resource Development and Management

Credits: 1-6
Max Credit (Max. 6)

Special topics in contemporary energy development and management will be offered in response to changing industry and academic demands. The specific subject matter is based on faculty requirements and workforce innovation.

NAIS4340 - Natural Resource Management on Western Reservations

Credits: 3
Examines natural resource management techniques on western reservations. Focus is on the management and planning of water, grazing, extractive industries, and forestry. Fieldwork on the Wind River Indian Reservation is included.
Cross Listed GEOG 4340.
Prerequisite: 6 hours of 2000-level NAIS courses.

**ENR4052 - Federal Land Politics**

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/AMST 4052/GEOG 4052/REWM 4052.
Prerequisite: POLS 1000.

OR

**GEOG4052 - Federal Land Politics**

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052/ENR 4052/AMST 4052/REWM 4052.
Former Course Number [G&R 4052]

Prerequisite: POLS 1000.

OR

**AMST4052 - Federal Land Politics**

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.

Cross Listed POLS 4052 / ENR 4052 / GEOG 4052 / REWM 4052.
Prerequisite: POLS 1000.

OR

**POLLS4052 - Federal Land Politics**

Credits: 3
Examines the political forces that have shaped and continue to shape federal land policy and management. Explores the interactions between democratic decision making and science in the management of federal lands. Surveys the sources of controversy over federal land management and methods for harmonizing public demands with technical expertise.
Cross Listed AMST 4052/ENR 4052/GEOG 4052/REWM 4052.
Prerequisite: POLS 1000.

**GEOL4210 - Topics in Geophysics**

Credits: 1-3  
Max Credit (Max. 9)

Studies particular geophysics topics in-depth at undergraduate level.

Former Course Number [GEOL 4020]

Prerequisite: senior standing and 20 hours in geology.

**RNEW4775 - Forest Ecology**

Credits: 4  
Integrative study of the structure, function, and ecological diversity of forested ecosystems, and the physical factors that influence this diversity, including emergent properties of energy flow and nutrient cycling. Special emphasis is given to understanding forest disturbances and succession, and implications for impacts of management and sustainability are discussed throughout.

Cross Listed BOT 4775.  
Prerequisite: LIFE 3400.

**SOIL4100 - Soil Physics**

Credits: 3  
Examines forms and interrelations of matter and energy in the soil environment. Primarily addresses fluxes and transformations of soil water and solutes, as well as physical properties that influence soil productivity.

Dual Listed SOIL 5100.  
When Offered (Offered spring semester)  
Prerequisite: SOIL 2010 or equivalent introductory soils course.

**PETE4860 - Energy, Environment, and Materials**

Credits: 3  
Understanding the connection between materials, energy and environment, including the history of climate and different types of energy in use for a greener planet. Provides broad knowledge in the areas of energy, material science, chemical, petroleum, and environmental engineering.

Dual Listed PETE 5860.  
Prerequisite: Junior standing and PETE 2050 or consent of instructor.

**PHYS2250 - Thermodynamic Systems in Energy Science**
Credits: 4
Introduces the principles of thermodynamics and their application to energy science. Intended for students majoring in Energy Resource Science.

USP 2003-2014 Code U3SP
Prerequisite: PHYS 1210, grade of C or higher in MATH 2205.

ESE4474 - Topics in Energy Systems Engineering
Credits: 1-3
Max Credit (Max. 4)
Directed research in mechanical engineering.

Prerequisite: Completion of the ME Success Curriculum, ME 3005/ESE 3005.

GEOL4001 - Modeling the Earth System
Credits: 4
Takes a modeling approach to demonstrate how the Earth is integrated into an interconnected system through exchanges of energy and matter, and how Earth system functioning is susceptible to human alteration. Unifying concepts focus on quantitative interactions between the Earth and the Sun, and between the Earth's lithosphere, hydrosphere, biosphere and atmosphere.

Cross Listed BOT 4001/ATSC/ESS 4001.
Prerequisite: MATH 2205 or equivalent and ESS 2000 or GEOL 2000.

GEOL4020 - Global Biogeochemistry
Credits: 3
Biogeochemistry is the exploration of the physical, chemical, and biological processes that govern the exchange of energy and elements between the biosphere and the geosphere. This course will examine pri

Prerequisite: GEOL/ESS 2000

HIST4535 - History of Oil
Credits: 3
Intensive study of the history of oil development throughout the world. Emphasizes comparative studies of the industry as it developed in various parts of the world and during various time periods, from pre-historic times to the present. The Wyoming oil/energy mineral history is an important component.

Dual Listed HIST 5535.
Prerequisite: 9 hours in history.

ESE4060 - Energy Systems Design I
Credits: 3
First of a two-course design sequence constituting a capstone design experience on an energy-related project. Multidisciplinary teams prepare a project proposal or Statement of Qualifications, generate a morphological study of their project, develop mathematical models of their design, and prepare project plans and specifications. Project management and methods are also presented.

USP 2015 Code U5C3
**Prerequisite:** Completion of the ME Success Curriculum, ESE 3040 and ESE 3360.

**ERS4960 - Energy Field Studies**

Credits: 1-3
Various facets of energy resource management and development are covered by visits to oil and gas wells, coal mines, power plants, wind farms, and other energy production and research sites. A trip is normally planned for 5 to 6 days.

**Prerequisite:** WB; ERS 1000/ENR 1000 or ECON 1300/ERS 1300. Undergraduate Research.

**EDSE3040 - Energy and Power Technology**

Credits: 3
A conceptual analysis and synthesis of energy requirements and sources, with emphasis on alternate energy systems. Analysis of energy conversion and the application of mechanical, fluid, thermal and electrical power systems.

**When Offered** (Offered through UW/CC)
**Former Course Number** [EDIE 3040]

**Prerequisite:** PHYS 1050 or PHYS 1110.

**ENR4750 - ENR Law and Policy**

Credits: 3
Explores the policy underpinnings of environmental and natural resource issues and the legal responses to these problems. Students will gain a basic understanding of: (1) the causes of environmental problems, including energy, water, wildlife, and other western land use issues; (2) the range of policy and instrument choices; and (3) the approaches actually taken in current laws. Students also will apply the law in an interdisciplinary, problem-based learning context.

**Dual Listed** ENR 5750.
**Prerequisite:** ENR 2000 and upper division standing or permission of instructor.

**BKCH3021 - Fundamentals of Blockchain**

Credits: 3
The purpose of this course is to provide a fundamental understanding of blockchain technologies and their implications. Topics will focus on understanding how blockchain may change the way we think about money, disrupt traditional financial institutions and eliminate costly intermediaries.
Prerequisite: Requires Junior Class Standing.

GEOL4525 - Environmental Data Analysis

Credits: 4
Explores fundamentals of environmental data analysis including the display and description of data, uncertainty propagation, statistical significance and power, t-tests, ANOVA, time series, serial correlation, multiple regression, and sample collection strategies. Students must enroll in a computer-based lab session and complete a term project involving real world problems in data analysis.

Cross Listed ENR 4525/ENR 5525.
Dual Listed GEOL 5525.
Prerequisite: A grade of C or better in STAT 2050 or STAT 2070 or MATH 2200, junior standing or higher, and completion of at least one upper-division course in the natural sciences or a related field.

EE4510 - Power Systems

Credits: 3
Electric power distribution and transmission. Distribution systems, transmission line calculations, installation and protection; substations, corona, protective relaying and carrier current communication and telemetering. Introduction to system stability studies.

Prerequisite: ES 2210 and EE 3510.

ENR4450 - Negotiation

Credits: 3
Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

Cross Listed AGEC 4450.
Dual Listed ENR 5450.
Prerequisite: completion of USP O requirement; junior standing.

EE2220 - Circuits and Signals

Credits: 4

When Offered (Offered spring semester only)
Former Course Number [3320]

Prerequisite: ES 2210, or ES 2215 and ES 2216.
EE3510 - Electric Machines and Power Systems

Credits: 4
Polyphase AC circuits; single phase and polyphase transformers; AC synchronous and induction machines; introduction to power systems and per unit system; transmission line parameters; steady-state operations of transmission lines; power flows; transient stability; synchrophasor system and its applications.

Prerequisite: ES 2210, or ES 2215 and ES 2216.

AGEC4450 - Negotiation

Credits: 3
Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

Cross Listed ENR 4450.
Dual Listed AGEC 5450.
Prerequisite: completion of USP O/COM2 requirement; junior standing.

PETE2050 - Fundamentals of Petroleum Engineering

Credits: 3
General introduction to petroleum engineering, including petroleum geology, exploration, reservoir rocks, and fluid flow through porous media, drilling fundamentals, completion technology, well logging and testing, methods of production, stimulation methods, enhanced oil recovery, reserves and economics.

Prerequisite: grade of C or better in both MATH 2205 and PETE 1060.

CE3400 - Introduction to Environmental Engineering

Credits: 3
An introduction to the major topics in environmental engineering. Focus areas include water supply, wastewater treatment, air pollution control and solid and hazardous waste management. Quantitative aspects and engineering solutions to problems are emphasized.

Prerequisite: MATH 2205 and CHEM 1020 or equivalent.

CE4430 - Green Chemistry and Global Environmental Problems

Credits: 3
Focus includes study of the chemistry of air, water, and soil as well as the effects of anthropogenic activities on natural processes. Emphasis is also placed on sustainability and green chemistry practices and technologies.

Cross Listed CHE 4430 /ENR 4430.
Former Course Number [3420, 2420]
**Prerequisite:** CHEM 1020.

**CHE4430 - Green Chemistry and Global Environmental Problems**

Credits: 3
Focus includes study of the chemistry of air, water, and soil as well as the effects of anthropogenic activities on natural processes. Emphasis is also placed on sustainability and green chemistry practices and technologies.

Cross Listed CE 4430 /ENR 4430.
Prerequisite: CHEM 1020.

**ME3400 - Heating, Ventilating and Air Conditioning of Buildings**

Credits: 3
Qualitative and quantitative study in concepts of basic air-conditioning with focus on buildings including building envelope, moist air thermodynamics, human comfort, thermal load calculations, thermal behavior of buildings, HVAC systems/equipment, and design of space air-conditioning and its relationship to architectural design.

Cross Listed ARE 3400
Prerequisite: ES 2310, ARE 2410 or ME 3360, ES 2330 or concurrent enrollment.

**ME3450 - Properties of Materials**

Credits: 3
Mechanical, electrical, thermal and chemical properties of materials. Theoretical treatment of structure of solids and design for specified properties.

When Offered (Normally offered spring semester)
Former Course Number [ES 3450]

Prerequisite: Completion of the ME Success Curriculum, CHEM 1020 and ES 2310.

**ME3975 - Internship**

Credits: 3
Students may apply for credit for extended work experience (>10 weeks; full-time) engaging in mechanical engineering work and supervised by an engineer in mechanical engineering (or closely related field). Students should apply through their adviser prior to the work experience.

Restricted Enrollment is by departmental approval only.

Prerequisite: consent of the department head.
ME4340 - Gas Turbine Engines

Credits: 3
Thermodynamic analysis and design of ground-based and aero-propulsion gas turbine engines.

Prerequisite: Completion of the ME Success Curriculum, ES 2310 and ES 2330.

ESE4455 - Combustion Engineering

Credits: 3
The basic physics and chemistry of combustion engineering and its applications are covered, including thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems. Cross-listed with ME 4455 and dual-listed with ME 5455.

Prerequisite: Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

ME4430 - HVAC Systems Analysis and Design

Credits: 3
Engineering design and performance analysis procedures for commercial building mechanical systems including energy conservation techniques. Relationship to aesthetic, architectural and structural elements are considered.

Cross Listed ARE 4430
Prerequisite: ARE 3400/ME 3400 and ME 3360/ME 3360 or concurrent.

ME4455 - Combustion Engineering

Credits: 3
The basic physics and chemistry of combustion engineering and its applications are covered, including thermodynamics, chemical kinetics, multicomponent conservation equations, laminar premixed and nonpremixed flames, detonations, droplet combustion, modern engines and energy systems.

Dual Listed ESE 4455
Prerequisite/Corequisite: Completion of the ME Success Curriculum, ME 3040/ESE 3040 and ME 3360/ARE 3360/ESE 3360.

QuickStart Program

Quickstart 3+3, School of Energy Resources + College of Law

UW offers qualified undergraduate students a fast-track to a Juris Doctorate. The 3+3 Program at UW is an opportunity for qualified undergraduate students to earn their bachelor's degree and law degree in six years instead of seven years.
The University Studies Program 2015 develops a student's foundational knowledge to prepare them for the Bachelor of Science degree program. Some of the categories of USP will be completed by completing the degree requirements as outlined below. Students should review their degree audits carefully to ensure that USP requirements are completed. Students transferring with a qualifying associate degree will have most of the lower division portion of the USP requirement waived. For more information about qualifying earned associate degree, see the "Articulation: Earned Associate Degrees" information in this catalog.

**FYS-First Year - Seminar**

Credits: 3  
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**COM1 - Communication 1**

Credits: 3  
College Composition and Rhetoric must be completed with a C or better.

**COM2 - Communication 2**

Credits: 3  
Max Credit 3  
Successful completion of C1 is required prior to enrolling in a C2 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**COM3 - Communication 3**

Credits: 3  
Max Credit 3  
Successful completion of C2 is required prior to enrolling in a C3 course. This category can be fulfilled by courses taken from the student's major department. Must be completed with a C or better.

**Q- - Quantitative Reasoning**

Credits: 3  
Max Credit 3  
All students must fulfill the Q requirement, either by placing out of the course or through successfully completing the Q course.
**PN- - Physical and Natural World (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**PN- - Physical and Natural World (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**H- - Human Culture (1)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken within the student's major department.

**H- - Human Culture (2)**

Credits: 3  
Max Credit 3

Approved coursework does not include courses taken from the students' major department.

**V- - U.S. & WY Constitution**

Credits: 3  
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Energy and Environmental Systems (Years 1-3)**

Students accepted by UW College of Law (COL) into the 3+3 program begin taking classes at COL in what would otherwise be their senior year. Year one of law school (31 credits) counts toward both the BS and the JD degrees. Students must select one path for Years 1-3, either Energy and Environmental Systems or Professional Land Management.

EES majors can become environmental scientists who collect samples of air, soil, & water to identify environmental impacts, resolve environmental threats, & provide guidance on quality regulation and manage natural resources.

Students will complete a minimum of 85-95 credits in their baccalaureate (undergraduate) program by the end of their junior year (including required general education and major courses). Students will complete 90 credits with the College of Law. Students will be granted a BS upon completion of the 120 credit hours required for the undergraduate degree in BS-ERMD (using year one of College of Law coursework), with a cumulative minimum UW GPA of 2.0 or higher. Students must complete 42 hours of upper-division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. During the Energy Resource Management and Development program (years 1-3),
students will be advised by the School of Energy Resources advisor. During the College of Law program (years 4-6), students will receive advising from the College of Law.

EES Core Required Curriculum

**ACCT2010 - Principles of Accounting I**

Credits: 3
Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.

**Former Course Number** 1010

**Prerequisite:** Sophomore class standing and MATH 1400

**DSCI4260 - Project Management**

Credits: 3
Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.

**Prerequisite:** ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

**ECON1020 - Principles of Microeconomics**

Credits: 3
You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

**Cross Listed** AGEC 1020.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

**ECON1300 - Oil: Business, Culture, and Power**

Credits: 3
A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

**Cross Listed** ERS 1300.
USP 2003-2014 Code U3CS, U3G
ENGL1010 - College Composition and Rhetoric

Credits: 3
A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

ENR1000 - Energy and Society

Credits: 3
Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ERS 1000.

ERS3010 - Air Quality Management

Credits: 3
Provides an overview of air quality management approaches. In this course an interdisciplinary approach is adopted that includes diverse information from physical, natural and socioeconomic systems. With consideration of global and local issues this class focuses upon the energy sector.

Prerequisite: CHEM 1000 or CHEM 1020 and WA or COM1.

ERS4120 - Federal Public Land Law

Credits: 3
Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

FYS-First Year - Seminar

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.
GIST1200 - Geospatial Foundations

Credits: 3
Provides fundamental knowledge of geospatial information and place-based science across disciplines, including spatial representation, scale, resolution, map projections, and coordinate systems. Students learn how to discover and access spatial data and read and analyze maps. Supports understanding of geospatial reasoning and cognition.

Former Course Number GIST 1100

GIST2310 - Intro to Geographic Information Systems

Credits: 4
Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.

Former Course Number GIST 2100

LIFE1010 - General Biology

Credits: 4
Fundamental concepts of biology, including basic chemistry of living systems, cell structures and functions, energy relations, genetics, molecular biology, ecology, population dynamics and evolutionary theory. Living invertebrate and vertebrate organisms studied during some lab meetings. Laboratory is required. If you take LIFE 1010, you cannot get duplicate credit for LIFE 1000, LIFE 1003, or LIFE 1020.

USP 2003-2014 Code U3SB
USP 2015 Code U5PN
Former Course Number [BIOL 1010]

Prerequisite: Math ACT score of 23 or above, or concurrent enrollment or eligibility for concurrent enrollment in MATH 1400 or higher.

LIFE2023 - Biology of Plants and Fungi

Credits: 4
An integrated course dealing with the central themes of biology including cell and molecular biology, genetics, evolution and ecology of plants and fungi. Intended for students majoring in the life sciences. Laboratory is required.

When Offered (Normally offered fall semester).
Former Course Number [BIOL 2023]

Prerequisite: LIFE 1010 with a grade of C or better.

LIFE3400 - General Ecology
Credits: 3
Presents fundamental concepts in population and ecosystem ecology. Emphasizes basic principles and their use in manipulated ecosystems.

**Former Course Number** [BIOL 3400/ BIOL 2400]

**Prerequisite:** completion of LIFE 1010 and one of LIFE 2022, LIFE 2023, MICR 2021/MOLB 2021, or MICR 2240/MOLB 2240 with a grade of C or higher in each.

**MATH2200 - Calculus I**

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
**Prerequisite:** grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

**REWM2000 - Principles of Rangeland Management**

Credits: 3
Basic principles of range management as they apply to various regions and vegetative types. Relationship of range management practices to livestock production, wildlife management, forestry, hydrology and other land uses. Introductory course for majors and non-majors.

**Prerequisite:** LIFE 1101 or LIFE 1010.

**REWM2400 - Range Ecosystems and Plants**

Credits: 4
Ecology of range ecosystems of western North America and identification of 200 most common plants species, including taxonomic keying.

**Former Course Number** [2500]

**Prerequisite:** REWM 2000 with a grade of C or better.

**REWM3100 - Principles of Wildland Water Quality**

Credits: 3
Basic principles of aquatic chemistry and water quality as they relate to watershed management practices including livestock production, agronomic production, mineral and natural gas extraction and other land uses.
Cross Listed ENR 3100.

**When Offered** (Normally offered fall semester)

**Prerequisite:** CHEM 1000.

**REWM4200 - Reclamation of Drastically Disturbed Lands**

Credits: 3

Overviews reclamation of drastically disturbed lands in the west, emphasizing surface mined lands. Includes principles of ecology, agronomy, soils and other relevant disciplines as applied to mitigate adverse environmental impacts of land disturbance.

*When Offered* (Normally offered fall semester)

**Prerequisite:** LIFE 3400, AECL 2100.

**REWM4580 - Rangeland Restoration Ecology**

Credits: 3

Detailed analysis of various disturbed ecosystems unique to western rangelands. Primary emphasis on plant community restoration following degradation from edaphic, biotic, hydrologic, and topographic influences on degradation and strategies for vegetative rehabilitation. Strong focus on current research to formulate restoration strategies.

**Dual Listed** REWM 5580.

**Prerequisite:** REWM 4200 or LIFE 3400.

**SOIL2010 - Introduction to Soil Science**

Credits: 4

Introduces soil ecological processes and management in terrestrial environments. Discusses interaction of soil, biological, chemical, morphological, and physical properties with land management in wild land and agricultural ecosystems. Emphasis is on plant response to soil conditions.

USP 2003-2014 Code U3SE

**Prerequisite:** CHEM 1000 or CHEM 1020.

**STAT2050 - Fundamentals of Statistics**

Credits: 4

Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q.U3QB

USP 2015 Code U5Q

**Prerequisite:** grade of C or better in MATH 1000, MATH 1400, or equivalent.

V- - U.S. & WY Constitution
Approved V courses fulfill both US and Wyoming Constitutions requirements.

**Technical Elective, EES, Pick ONE**

Please see this list for your elective choices.

**Chemistry Elective, EES, Pick ONE**

Please see this list to choose your elective.

**COM 2, EES Elective, Pick ONE**

Please see this list to choose your elective.

**COM 3, EES, Pick ONE**

Please see this list to choose your elective.

**Professional Land Management (Years 1-3)**

Students accepted by UW College of Law (COL) into the 3+3 program begin taking classes at COL in what would otherwise be their senior year. Year one of law school (31 credits) counts toward both the BS and the JD degrees. Students must select one path for Years 1-3, either Energy and Environmental Systems or Professional Land Management.

Professional Land Management majors determine ownership and title of surface and subsurface rights to negotiate leases with land/mineral owners, coordinate field exploration, and ensure compliance with governmental regulations.

Students will complete a minimum of 85-95 credits in their baccalaureate (undergraduate) program by the end of their junior year (including required general education and major courses). Students will complete 90 credits with the College of Law. Students will be granted a BS upon completion of the 120 credit hours required for the undergraduate degree in BS-ERMD (using year one of College of Law coursework), with a cumulative minimum UW GPA of 2.0 or higher. Students must complete 42 hours of upper-division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. During the Energy Resource Management and Development program (years 1-3), students will be advised by the School of Energy Resources advisor. During the College of Law program (years 4-6), students will receive advising from the College of Law.

**PLM Core Required Curriculum**

**ACCT2010 - Principles of Accounting I**

Credits: 3

Provides a basic understanding of the financial accounting information role in business and society. Focuses on the recording and reporting of business operating, financing, and investing events. Provides insights on business and enables students to become familiar with shareholder/external party reporting conventions.
Former Course Number [1010]

Prerequisite: Sophomore class standing and MATH 1400

ACCT2020 - Principles of Accounting II

Credits: 3
Provides a basic understanding of the managerial accounting information role in business decision-making. Provides insights on how businesses operate and enables students to become familiar with the conventions used by business to make decisions and how accounting information is reported to managers.

Former Course Number [1020]

Prerequisite: ACCT 2010, Sophomore class standing.

AGEC4450 - Negotiation

Credits: 3
Examines how to use negotiation to resolve conflict and get agreement. Describes conflict; outlines ways to address conflict; examines different negotiation strategies and the impact of cognitive bias, power, ethics, and individual and cultural differences; and explores mediation practices. Students complete negotiations, role-plays, and questionnaires.

Cross Listed ENR 4450.
Dual Listed AGEC 5450.
Prerequisite: completion of USP O/COM2 requirement; junior standing.

OR

AGEC4550 - Negotiation Analysis

Credits: 3
Focuses on using an analytical perspective for maximizing joint gains between negotiators. Students learn analytical techniques to prepare for negotiation, evaluate options and proposals during a negotiation, and evaluate negotiated outcomes with respect to maximization of joint gains and fairness criteria.

Cross Listed ENR 4550.
Dual Listed AGEC 5550.
Prerequisite: QA/Q.

DSCI4260 - Project Management

Credits: 3
Examines the coordination project management activities. This includes the initiation, planning, implementation, control and evaluation of projects.
Prerequisite: ACCT 2010, MATH 2350 and STAT 2050 or equivalents in each, grade of C or better in each, junior class standing (EN majors: MATH 2200, ES 1060 or equivalent, junior class standing).

ECON1020 - Principles of Microeconomics

Credits: 3
You make tradeoffs - your time and money are limited. Microeconomics evaluates how people think about tradeoffs and how we create value through markets, institutions, and policy. Economic incentives influence choices to consume and produce goods and services. Market failure creates a role for government to protect health, culture, and nature.

Cross Listed AGEC 1020.
USP 2003-2014 Code U3CS
USP 2015 Code U5H

ECON1300 - Oil: Business, Culture, and Power

Credits: 3
A multi-disciplinary approach to understanding how oil affects the international relations and commerce. The relationships between oil technology, social and political institutions, the unique cultures in oil-producing regions will be investigated in case studies.

Cross Listed ERS 1300.
USP 2003-2014 Code U3CS, U3G
USP 2015 Code U5H
A&S College Core 2015 ASG

ENGL1010 - College Composition and Rhetoric

Credits: 3
A composition course emphasizing expository writing, analytical reading, and academic and civic argumentation in a range of print, oral, and digital genres. A grade of C or better is required to meet the COM1 requirement. Students may not have credit in both ENGL 1010 and UWYO 1000, 1110 or 1210.

USP 2003-2014 Code U3WA
USP 2015 Code U5C1

ENR1000 - Energy and Society

Credits: 3
Introduces humans' past, present, and future sources of energy and their advantages and limitations. Discusses society's current, non-sustainable pattern of energy use from a supply and environmental perspective. Investigates the technical, environmental, political, and societal problems associated with the eventual conversion to renewable energy resources.

Cross Listed ERS 1000.
USP 2003-2014 Code U3O
USP 2015 Code U5PN
ERS2010 - Introduction to Land Management

Credits: 3
Max Credit 3

Provides an introduction to land management in the various energy industries. Covers the knowledge and skills needed by land professionals including survey systems, land descriptions, mineral ownership, title examination, leases, surface use agreements, and contracts frequently used in the industry. In addition, provides an overview of ethical issues that arise and professional conduct expected in the industry.

ERS4010 - Exploration Geoscience

Credits: 3

The purpose of this course is to provide students with information and skills necessary to understand the oil and gas modeling process from exploration to production. Topics will include geophysical exploration, seismic acquisition, geophysical modeling, reservoir characterization, reservoir production, well planning and decision making.

**Cross Listed** GEOL 4010.
**Prerequisite:** GEOL 1100; MATH 2200 or MATH 2350.

ERS4120 - Federal Public Land Law

Credits: 3

Federal Public Land Law addresses public interest as the central principal of public land natural resource management. The course examines the acquisition and disposition of the public domain, federal and state regulatory authority, and the management of hard rock, energy, and range resources.

ERS4985 - Seminar

Credits: 1-3
Max Credit (Max. 3)

Energy professionals, including accredited professional landmen, practicing attorneys, and other energy professionals will present a colloquium styled course to bridge conceptual content with realistic workforce focused applications.

**Prerequisite:** ERS 1000/ENR 1000 or ECON 1300/ERS 1300 and WA and QB.

ERS4990 - Topics in Energy Resource Development and Management

Credits: 1-6
Max Credit (Max. 6)

Special topics in contemporary energy development and management will be offered in response to changing industry and academic demands. The specific subject matter is based on faculty requirements and workforce innovation.

FIN2100 - Principles of Finance

Credits: 3

Studies the management of capital in business. Students learn how to use the time value of money to value cash flows
and how to perform a financial valuation of a firm's assets and liabilities.

**Prerequisite:** ACCT 2010, MATH 2350 or MATH 2355 or MATH 2200, and STAT 2010, STAT 2050, or STAT 2070, all with C or better, and sophomore class standing.

**FYS-First Year - Seminar**

Credits: 3
Provides the skills and philosophy necessary for success as a student and life-long learner. Students will have an opportunity to select from a wide range of academic courses covering unique and interesting subject matter focused on developing critical thinking, communication, and information literacy skills. Colleges, departments, and programs cannot require a particular first-year seminar class for a major. Must be completed with a C or better.

**GEOL1100 - Physical Geology**

Credits: 4
Studies modern concepts of the Earth's physical makeup including minerals and rocks, topography, crustal structure, plate tectonics and processes and forces acting on and within the earth.

USP 2003-2014 Code U3SE
USP 2015 Code U5PN

**GIST1200 - Geospatial Foundations**

Credits: 3
Provides fundamental knowledge of geospatial information and place-based science across disciplines, including spatial representation, scale, resolution, map projections, and coordinate systems. Students learn how to discover and access spatial data and read and analyze maps. Supports understanding of geospatial reasoning and cognition.

**Former Course Number** GIST 1100

**GIST2310 - Intro to Geographic Information Systems**

Credits: 4
Introductory course covering fundamental principles of geographic information systems (GIS). Students will be introduced to both the theory and application of GIS, including GIS components, the nature of geospatial data, methods for data acquisition, database models, and GIS operations. Includes hands-on laboratory exercises using widely-used software.

**Former Course Number** GIST 2100

**MATH1405 - Trigonometry**

Credits: 3
Emphasizes aspects of trigonometry important in the study of calculus. Interplay between trigonometric expressions and their graphs. Students are expected to use a graphing calculator in the course and on exams. See instructor for specifications. Topics include: angle measurement, trigonometric functions, graphing, laws of sines and cosines,
identities, equations, polar equations and graphs, vectors, complex numbers, DeMoivre's theorem. This course is designed for students with little or no prior knowledge of trigonometry who plan to enroll in MATH 2200.

USP 2003-2014 Code U3QA
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 25 or Math SAT of 600.

OR

MATH1450 - Algebra and Trigonometry

Credits: 5
Emphasizes aspects of algebra, trigonometry and problem solving important in the study of calculus. Functions and their applications to real world problems. Classes of functions including polynomial, exponential, logarithmic and trigonometric functions. Intuitive introduction to the idea of limit and sequence which are developed further in the calculus sequence. For the student with considerable prior exposure to trigonometry and algebra. Graphing calculators are used frequently in class and on assignments. See instructor for specifications.

USP 2003-2014 Code U3QA
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 0925 or Level 3 on the Math Placement Exam or Math ACT of 23 or Math SAT of 600.

MATH2200 - Calculus I

Credits: 4
Emphasizes physical science applications. Includes plane analytic geometry, differentiation, applications of the derivative, differential equations, integration and applications.

USP 2003-2014 Code U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1405 or MATH 1450 or Level 5 on the Math Placement Exam or Math ACT of 27 or Math SAT of 600.

OR

MATH2355 - Mathematical Applications for Business

Credits: 4
Primarily for students in the College of Business. Includes the mathematics of finance; systems of linear equations and matrices; linear programming; sets, counting, and probability. Students will learn to use Excel spreadsheets to solve business application problems in a computer lab that meets one day per week.

Prerequisite: grade of C or better in MATH 1400 or Level 4 on the Math Placement Exam or Math ACT of 26 or Math SAT of 600.

MGT2100 - Management and Organization
Credits: 3
An introduction to the theory and practice of management with emphasis on individual and small group behavior, design and structure of organizations, relationship between the organization and its environment and statistical and quantitative skills used in examination of management processes. Also covers interpersonal communications, ethics and international management.

Prerequisite: COM1, sophomore class standing.

STAT2050 - Fundamentals of Statistics

Credits: 4
Presents central ideas and fundamental techniques of statistical inference on applications in the biological sciences. Includes probability models and inferences for means, variances and parameters of discrete distributions. Introduces statistical computer packages in biweekly labs. Credit cannot be earned in more than one of the following courses: STAT 2010, 2050, STAT 2070, STAT 4220 and 5000.

USP 2003-2014 Code U3Q,U3QB
USP 2015 Code U5Q
Prerequisite: grade of C or better in MATH 1000, MATH 1400, or equivalent.

V- - U.S. & WY Constitution

Credits: 3
Max Credit 3

Approved V courses fulfill both US and Wyoming Constitutions requirements.

The Science and Mathematics Teaching Center (SMTC) was established in 1970 and is committed to excellence in science, mathematics and technology education. As part of the Office of Graduate Education in Academic Affairs, the SMTC, in cooperation with the Wyoming Department of Education (WDE) and the Professional Teaching Standards Board (PTSB), serves as a resource and professional development center for the state. The SMTC offers transdisciplinary graduate degree programs with multiple degree concentrations, certification options, and endorsement options. All of the programs emphasize both strong content knowledge and instructional practices. The affiliate faculty for the SMTC is comprised of include faculty from the Colleges of Agriculture and Natural Resources, Arts and Science, Education, and Engineering and Applied Science, and the Haub School of Environment and Natural Sciences.

The SMTC provides extensive off-campus professional development that serves throughout Wyoming that serves teachers, students, administrators, school districts and communities. SMTC in-service and extension courses, workshops, institutes, and conferences are designed collaboratively to improve science and mathematics teaching in Wyoming.

The SMTC administers and supports five master's degree programs:

1. the Master of Science degrees in Natural Science with concentrations in Middle Level Math (MMA) and Middle Level Science (MSC); these programs are designed for Wyoming's in-service elementary, middle, and high school teachers. They focus on general science and mathematics content with an emphasis on teaching middle school level learners. The course work leads to middle level certification provided by the Wyoming PTSB. Teachers must have two years of teaching experience to participate in these programs.
2. Master of Science in Teaching - Natural Science (MST - Natural Science). This is a self-directed master's degree program working with the SMTC, SER, and the Haub School as well as other colleges. The program is developed individually with the guidance of a graduate committee based on the interests of the graduate student and may emphasize formal or informal learning settings.
3. Master of Science - Natural Science (MS - Natural Science). This is a self-directed master's degree program working with the SMTC, SER, and the Haub School and other colleges. The program is developed individually based on the interests of the graduate student.
4. Master of Science in Natural Science with a concentration in Natural Science Education (NED). This Master's degree program is designed for students pursuing careers as environmental and natural science educators in non-public school or non-formal education settings. These students spend one year at the Teton Science Schools (TSS) in Jackson. A long-standing MOU between the SMTC and TSS allows students to use 15 graduate credit hours earned at TSS towards a master's degree if they are accepted into the second year at UW within the SMTC.

Admission Requirements

For the MSC, MMA, MST and MS-Natural Science Master's Degrees:

Two years of teaching experience and a valid teaching license
Application Fee, unless a UW Graduate

Official Transcripts from all Institutions attended and Bachelor Degree conferring institution

3.0 undergraduate grade point average; provisional admission with a lesser GPA only with consent from Academic Affairs

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from the teacher's principal and two other colleagues.

Note: if a prior Master's degree has been awarded, GRE Scores or an Alternative Portfolio are not required

The NED Degree - First Year Application:

Official Transcripts from all institutions attended and Bachelor Degree conferring institution

Application Fee, unless a UW Graduate

The NED Degree - Second Year Application:

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from a TSS Graduate Program Faculty Member, one from another TSS employee such as a Classroom Instructor or Field Instructor, and one from the first year application.

All the above information needs to be uploaded onto a UW graduate application, which will be reviewed by the SMTC and then if accepted, by the University of Wyoming Admissions and the SMTC. Any of the above requirements plus the university's minimum 3.000 grade point average can be waived if the proper documentation and reasoning is given and approved by the Associate Vice President of the Graduate Program.

**Degree Requirements**

For the MSC, MMA, MST and MS- Natural Science Master Degrees

*Plan B (non-thesis)*

30 Credit Hours of coursework is required. This includes 24 credit hours in required coursework that includes mathematical content courses, mathematical history, pedagogy and assessment; earth science, life science, physical science, depending on the program. 6 credit hours of additional coursework that can include a research class and an elective.

The MSC is a 3-year program, for the required coursework, in the summers only on UW's main campus.
The MMA is a 2-year program with classes offered virtually in the fall and spring and in-person on the main campus in the summer, for the required courses.

The MST and the MS- Natural Science Master Degrees are Main campus degrees.

A Plan A (thesis) may be completed with an extra year of research.

For the NED Master Degree - 2nd year.

*Plan B (non-thesis)*

This is a one-year program on the main campus.

30 credit hours of coursework is required, of which 15 credit hours of agreed upon courses, are transferable from TSS. The other 15 credit hours include a research class, environmental science and science pedagogy classes as chosen by the graduate student and their advisor.

A concurrent major in Environmental and Natural Resources is an option with this Master's

A Plan A (thesis) may be completed with an extra year of research.

**Graduate Assistantships and Scholarships**

The SMTC has scholarships and graduate assistantships available for all graduates accepted for the above Master's degree programs. More information upon admission and acceptance.

- Registration and Enrollment in Courses

**FERPA Family Educational Rights and Privacy Act (PL-380)**

**General Statement**

The University of Wyoming has the responsibility for effectively supervising any access to and/or release of official data/information related to the education records of its students. Certain items of information about individual students are fundamental to the educational process and must be recorded. This recorded information concerning students must be used only for clearly-defined purposes, must be safeguarded and controlled to avoid violations of personal privacy, and must be appropriately disposed of when the justification for its collection and retention no longer exists.

In this regard, the university is committed to protecting, to the maximum extent possible, the right of privacy of all individuals about whom it holds information, records, and files. Access to, and release of, such records is restricted to
the student concerned, to parents of dependent students, to others with the student's written consent, to officials within
the university, to a court of competent jurisdiction, and otherwise pursuant to law.

Access

All official information collected and maintained in the university identifiable with an individual student will be made
available for inspection and review at the written request of that student subject to certain exceptions.

For purposes of access to records at the University of Wyoming, students enrolled (or formerly enrolled) for academic
credit or audit at the university shall have access to official records concerning themselves.

A request for general access to all official records, files, and data maintained by the university must be made in writing
to the registrar or to other person(s) as designated by the university officer in charge of the unit maintaining records. A
request for access to official data maintained in a particular office may be made to the administrative head of the office.

When students (or former students) appear at a given office and request access to the university record about
themselves:

1. The student must provide proper identification verifying that he or she is the person whose record is being
   accessed.
2. The designated staff person(s) must supervise the review of the contents of the record with the student.
3. Inspection and review shall be permitted within a period not to exceed 45 days from the date of the student's
   request.
4. Students will be free to make notes concerning the contents, but no material will be removed from the record
   at the time.

Recordkeeping personnel and members of the faculty and staff with administrative assignment may have access to
records and files for internal educational purposes as well as for routine necessary clerical, administrative, and
statistical purposes as required by the duties of their jobs. The name and position of the official responsible for the
maintenance of each type of education record may be obtained from the registrar of the university.

Any other access allowed by law must be recorded showing the legitimate educational or other purpose and the
signature of the person gaining access. The student concerned shall be entitled to review this information.

Release of Information

No personally identifiable information shall be disclosed to any individual (including parents, spouse, or other students)
or organization except as follows:

1. Disclosure is authorized in writing by the student.
2. Disclosure is to university officers or employees who need to know so as to accomplish legitimate university
   purposes related to their functions.
3. Disclosure is to a governmental agency, educational organization, parent of a dependent student, or other
   entity as described by federal regulations or otherwise required by state or federal law. Custodians of records
   should obtain interpretations whenever third parties request personally identifiable information.
4. To authorized educational authorities at the local, state, and federal level.
5. When disclosure of any personally identifiable data/information from university records about a student is
demanded pursuant to court order or lawfully issued subpoena, the staff member receiving such order shall, if
possible, immediately notify the student concerned in writing prior to compliance with such order or
subpoena. (NOTE: In fulfillment of its responsibilities to monitor certain state benefit and entitlement
programs, the Wyoming state auditor may issue to the university from time to time an administrative
subpoena for a listing of currently enrolled full-time students, the students' social security numbers, and
information relating to the nature and amount of any educational financial aid being received by such
students. Upon being served with such a subpoena, the university will provide the information requested without further notice.)

6. Data/information from university records about students will be released for approved research purposes only if the identity of the student involved is fully protected, or if the research is related to official university business and not publicly disseminated.

7. Information from university records may be released to appropriate persons in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of a student or other persons. The university officer responsible for the records from which information is released shall maintain with the student's record a listing of disclosures of personally identifiable information, except disclosures in accordance with items 1 and 2 above for which no record need be kept. The listing shall identify the parties who requested or obtained information and the legitimate interests these parties had in making the request.

Public or Directory Information

The following items are considered public data/information and may be disclosed by the university in response to inquiries concerning individual students, whether the inquiries are in person, in writing, or over the telephone:

1. Name;
2. Affirmation of whether currently enrolled;
3. Campus location.

Unless students have officially filed a written request with the university registrar within ten working days after the first day of classes for a semester that disclosure not be made without their written permission, the following items, in addition to those above, are considered public/directory information; may be included in appropriate university/campus directories and publications; and may be disclosed by designated staff members in response to inquiries concerning individual students, whether the inquiries are in person, in writing, or over the telephone:

1. School, college, department, major, or division;
2. Dates of enrollment;
3. Degrees received;
4. Honors received;
5. Local address and phone number;
6. Home address (permanent);
7. Email address;
8. Participation in officially recognized activities and sports;
9. Weight and height of members of athletic teams;
10. Full-time or part-time enrollment.

Letters of Appraisal/Recommendation

Candid appraisals and evaluations of performance and potential are an essential part of the educational process. Clearly, the providing of such information to prospective employers, to other educational institutions, or to other legitimately concerned outside individuals and agencies is necessary and in the interest of the particular student.

Data/information which was part of university records prior to January 1, 1975 and which was collected and maintained as confidential information will not be disclosed to students. Should a student desire access to a confidential letter of appraisal received prior to January 1, 1975, the student shall be advised to have the writer of that appraisal notify, in writing, the concerned records custodian of the decision as to whether or not the writer is willing to have the appraisal made available for the student's review. Unless a written response is received approving a change of status in the letter, the treatment of the letter as a confidential document shall continue.

Documents of appraisal relating to students and collected by the university or any department or office of the university on or after January 1, 1975, will be maintained confidentially only if a waiver of the right of access has been executed.
by the student. In the absence of such a waiver, all such documents will be available for the student's inspection and review.

If a student files a written waiver with the department or office concerned, letters of appraisal received pursuant to that waiver will be maintained confidentially. Forms will be available for this purpose.

**Challenges to the Record**

All students shall have the opportunity to challenge any item in their file which they consider to be inaccurate, misleading, or otherwise inappropriate. A student shall initiate a challenge by submitting a request in writing for the deletion or correction of the particular item. The request shall be made to the custodian of the particular record in question.

If the custodian and the student involved are unable to resolve the matter to the satisfaction of both parties, the written request for deletion or correction shall be submitted by the student to such person as designated by the president of the university who shall serve as the hearing officer. The student shall be given the opportunity for a hearing at which the student may present oral or written justification for the request for deletion or correction. The hearing officer may obtain such other information as he or she deems appropriate for use in the hearing and shall give the student a written decision on the matter within 30 days from the conclusion of the hearing. If the decision of the hearing officer is to deny the deletion or correction of an item in the student's file, the student shall be entitled to submit a written statement presenting the student's position with regard to the item to the hearing officer. Both the written decision of the hearing officer and the statement submitted by the student shall be inserted in the student's file. The decision of the hearing officer shall be final.

Grades may be challenged under this procedure only on the basis of the accuracy of their transcription or posting.

**Exception to the Policy**

It is the position of the university that certain data/information maintained in various offices of the university is not subject to the provisions of this policy with regard to inspection, review, challenge, correction, or deletion. Exceptions to "education records" include: alumni records, employment records, law enforcement records, medical records, sole possession records, and university disciplinary records.

1. Statements submitted by parent(s)/guardian or spouse in support of financial aid or residency determinations are considered to be confidential between those persons and the university and are not subject to the provisions of this policy except with the written consent of the persons involved. Such documents are not regarded as part of the student's official record.
2. University employment records of students are not included in this policy, except as provided under the Wyoming Public Records Act.
3. With regard to general health data, only that data/information which is used by the university in making a decision regarding the student's status is subject to review by the student under this policy. Written psychiatric or psychological case notes which form the basis for diagnoses, recommendations, or treatment plans remain privileged information not accessible to the student. Such case notes are not considered to be part of official university records. To ensure the availability of correct and helpful interpretations of any psychological test scores, notes, or other evaluative or medical materials, the contents of these files for an individual student may be reviewed by that student only in consultation with a professional staff member of the specific department involved. Records that are subject to FERPA are not subject to the HIPAA Privacy Rule.
4. Records relating to a continuing or active criminal investigation by the University of Wyoming Police Department, or records of said office not relating to the student's status with the university, are not subject to this policy.
5. No student is entitled to see information or records that pertain to another student, to parents, or to other third parties. A student is entitled to review only that portion of an official record or file that pertains to him or her.

6. The personal files, or sole possession records, of members of the faculty and staff which concern students, including private correspondence, and notes which refer to students, are not regarded as official records of the university. This includes notes intended for the personal use of the faculty and never intended to be official records of the university. In order to be sole possession records, they cannot be shared with anyone else.

**Release of Personally Identifiable Information in a Deceased Student's Education Record**

The Family Educational Rights and Privacy Act (FERPA)’s protection of personally identifiable information in a student's education record ends at the time of a student's death. The University of Wyoming's policy on the release of a deceased student's records is as follows:

Within the first year following the death of a student, the University will release the educational records of the decedent to the following individuals:

- If the student submitted a signed Authorization to Release Educational Records form which designated the person(s) eligible to request and/or receive educational records, the information will be released to the individual on that form.
- The decedent's next of kin. The request must be accompanied by official documentation.
- The individual designated as the personal representative of the decedent's estate. The request must be accompanied by official documentation.
- Members of the family or other persons with the written approval from the decedent's next of kin or the personal representative of the decedent's estate. Absent written approval from the family or representative of the estate, only directory information will be disclosed.
- In response to a subpoena or court order.
- To any other individual, if determined by the University to be in the best interest of the decedent or the University.

After one year has elapsed following the death of an individual student, the University may release the educational records of the decedent at the University's discretion.

**Rights of Students**

Students are hereby notified that controlling provisions of federal law are contained in Sec. 438, Pub. L.90-247, Title IV, as amended, 88 Stat. 571-574 (U.S.C. 1232g) and regulations set forth in the code of Federal Regulations, 34 C.F.R. sections 99.1 to 99.67 (1981). Complaints of institutional noncompliance may be made to the Department of Education as provided in the regulations.

**Honor Societies and Programs**

**All Academic Disciplines**

Phi Beta Kappa has been one of the most respected societies in the world for more than 200 years. Phi Beta Kappa was founded in 1776 at the College of William and Mary, Virginia. Within a decade, chapters arose at Yale, Harvard, and Dartmouth. The Wyoming chapter received its charter in 1940, and today fewer than 270 colleges and universities in the United States meet the strict qualifications for housing a chapter. UW faculty and administrators annually elect to
membership fewer than one-tenth of the leading scholars of the senior class, candidates for the degrees of Bachelor of Arts and Bachelor of Science. In exceptional cases a junior may be elected. In addition to having a distinguished academic record, a student eligible for Phi Beta Kappa must pursue a balanced and broad course of study, which includes a foreign language as well as courses in math, the sciences, and the humanities. At least 90 hours of the student's course work must be in the liberal arts and sciences. Students are reviewed for eligibility and are notified by mail the spring of their election. Phi Beta Kappa promotes the ideal of a community of scholarship, and every year the Chapter sponsors an eminent visiting lecturer for the entire university.

The national honor society of Phi Kappa Phi, founded in 1897, recognizes and encourages superior scholarship in all curricula of the colleges and divisions of the university. No other honor society has higher academic standards for admission. Good character is also an essential supporting attribute for those scholars elected to membership. The University of Wyoming chapter of Phi Kappa Phi sets minimum cumulative grade point requirements at 3.500 for seniors, 3.800 for juniors and 3.900 for graduate students. In addition, there are minimum requirements in terms of hours completed at UW. Since the chapter may initiate no more than ten percent of the number of seniors in each college, the actual grade point cutoff is often higher than these minimums. In the spring of each year, students' records are reviewed and letters of invitation are sent to those eligible for election to the society. Supplementing the work of its chapter, the national society awards fellowships for graduate study.

College of Agriculture and Natural Resources

Agriculture majors - Alpha Zeta is a national honorary for students in agriculture who demonstrate academic excellence, character and leadership. Applications for membership are sent to eligible students. Gamma Sigma Delta is a national honor society open to students in agriculture. Potential members are invited to membership based upon academic excellence. Phi Upsilon Omicron is a national honor society in family and consumer sciences. Potential members are invited to membership based on academic excellence and leadership. Pi Alpha Xi is a national honorary horticulture society, open to UW students with a minor in horticulture. Students are invited to join based upon academic excellence and leadership.

College of Arts and Sciences

Art - A Bachelor of Fine Arts in art is considered honorary.

Biology and Botany - This Honors Program is for students majoring in biology or botany with strong interests in independent research with a focus in ecology, evolution, systematics, bioinformatics, biostatistics or data science. Application to the biology or botany honors program may be made after completion of the sophomore year with a cumulative grade point average of 3.300.

Chemistry - American Chemical Society - The Department of Chemistry is closely associated with the Local Wyoming Chapter of the American Chemical Society. The American Chemical Society (ACS) is one of the largest scientific societies in the world - its purpose is to promote chemistry and educate the public on the impacts of the chemical profession on the economy, technology, and education. The ACS organizes both national and regional scientific meetings; our local section supports student travel to these meetings. The chemistry department also sponsors a Student Affiliates section of the ACS, which is mentored by a UW chemistry faculty member and serves the needs of our chemistry majors.

Communication - Lambda Pi Eta recognizes, fosters, and rewards outstanding scholastic achievement while stimulating interest in the communication discipline.

Criminal Justice - Alpha Phi Sigma - Epsilon Omega Chapter, criminal justice honorary. A national honorary society for Criminal Justice that recognizes the academic excellence of Criminal Justice students. Alpha Phi Sigma is a collaboration with the Academy of Criminal Justice Sciences.
**English** - *English Honors Program* enables junior and senior English majors who carry a grade point average of 3.500 or better in their English courses to intensify and enhance their studies by working closely with a supervising faculty member to develop a senior honors project, a piece of writing on a topic in English studies. *Sigma Tau Delta - Alpha Mu Omicron Chapter*, international English honor society.

**Gender and Women’s Studies** - *National Women's Studies Association*; one of its primary objectives promoting and supporting the production and dissemination of knowledge about women and gender through teaching, learning, research and service in academic and other settings.

**Geography** - *Gamma Theta Upsilon - Eta Eta Chapter* candidates must have completed three semesters of college coursework and three courses in Geography, with a grade point average of 3.000 or higher for these courses. Contact department Department of Geology and Geophysics/ Geography Program for more information.

**Geology** - Eligible students are Bachelor of Science degree holders with honors, majoring in geology or geophysics. They must meet an overall grade point average of 3.200, a grade point average of 3.200 in the major, and successful completion of an independent research project. Contact department Department of Geology and Geophysics/ Geography Program for more information.

**History** - *Phi Alpha Theta* is a professional society whose mission is to promote the study of history through the encouragement of research, good teaching, publication, and the exchange of learning and ideas among historians. It seeks to bring students and teachers together for intellectual and social exchanges, which promote and assist historical research and publication by our members in a variety of ways. The society currently has over 400,000 members, with some 9,000 new members joining each year through 970 chapters nationwide.

**International Studies** - *Sigma Iota Rho*: The purpose of Sigma Iota Rho is to promote and reward scholarship and service among students and practitioners of international studies, international affairs, and global studies and to foster integrity and creative performances in the conduct of world affairs. Membership provides public recognition of the best and the brightest students in the International Studies major and highlights the importance of contributing to the global community.

**Journalism** - *Society of Professional Journalists, Sigma Delta Chi*

**Languages** - The Department of Modern and Classical Languages sponsors chapters of two nationally recognized Honor Societies in Spanish.

*Alpha of Wyoming Chapter of Sigma Delta Pi* - To honor those who attain excellence in the study of the Spanish language and in the study of the literature and culture of the Spanish-speaking peoples; to honor those who have made the Hispanic contributions to modern culture better known in the English-speaking world; to encourage college and university students to acquire a greater interest in and a deeper understanding of Hispanic culture; to foster friendly relations and mutual respect between the nations of Hispanic speech and those of English speech; to serve its membership in ways which will contribute to the attainment of the goals and ideals of the society.

Sigma Delta Pi National Spanish Honorary Society celebrates its 100th anniversary in 2019. Our very active UW chapter was recognized in 2011 as a national honor chapter. Each semester we initiate new members who meet high academic standards and are dedicated to the study and teaching of Spanish. Chapter awards and student scholarships include study abroad opportunities and recognition of outstanding scholarly research and writing.

**Music** - *Presser Award* is conferred by vote of the department faculty for outstanding senior in music. *Pi Kappa Lambda*, selected by faculty on the basis of outstanding scholarship and musical accomplishments.

**Physics and Astronomy** - *Sigma Pi Sigma*: Sigma Pi Sigma (sigmapisigma.org) exists to honor outstanding scholarship in physics, to encourage interest in physics among students at all levels, to promote an attitude of service, and to provide a fellowship of persons who have excelled in physics.

*American Physical Society (APS)*: The American Physical Society (www.aps.org) is a non-profit membership organization working to advance and diffuse the knowledge of physics through its outstanding research journals,
scientific meetings, and education, outreach, advocacy and international activities. APS represents over 50,000 members, including physicists in academia, national laboratories and industry in the United States and throughout the world. Society offices are located in College Park, MD (Headquarters), Ridge, NY, and Washington, DC.

Political Science - Pi Sigma Alpha, Epsilon Beta Chapter seeks "to stimulate scholarship and intelligent interest in political science." The society sponsors programs and events of value to the profession and teaching of political science. Membership provides public recognition of the best and brightest students in the Political Science major. Each chapter is encouraged to provide a framework for enriching the exposure of its members and the wider university community to the study of government and issues of public concern.

Pi Alpha Alpha, national public administration honorary. The purpose of Pi Alpha Alpha is to encourage and recognize outstanding scholarship and accomplishment in public affairs and administration. Its objectives, such as fostering integrity, professionalism, and effective performance, promote the advancement of quality in the education and practice of the art and science of public affairs and administration. PAA membership identifies those with the highest performance levels in educational programs preparing them for public service careers.

Psychology - Psi Chi - The Psychology Department supports a chapter of Psi Chi, the International Honor Society in Psychology. This local Psi Chi group functions within a larger Psychology Club that serves undergraduates interested in Psychology. The chapter and club are jointly involved in many activities, including community service projects, peer advising and graduation festivities.

Sociology - Alpha Kappa Delta, the international honorary society for sociology. In addition, sociology majors with a 3.2 overall GPA, a 3.500 GPA in sociology courses and two 5000-level sociology classes graduate with honors in sociology.

College of Business

Accounting - Beta Alpha Psi, Delta Alpha Chapter, is the UW chapter of the national accounting honorary. Membership in this very active student honorary is awarded only to the very best accounting students.

Business Administration - Beta Gamma Sigma is the national scholastic honor society. It is the arm of the accrediting group, AACSB International. Membership is very selective and based on class rank and grade point average.

College of Education

Kappa Delta Pi - Alpha Mu Chapter is the university chapter of the international honor society in education. The purpose of the society is to promote excellence in and recognize outstanding contributions to education. Invitation for membership is extended to those persons who exhibit commendable professional qualities, worthy educational ideals and sound scholarship.

Mu Na Tau Chapter of Chi Sigma Iota is a Counseling Academic and Professional Honor Society International for counselors-in-training, counselor educators, and professional counselors. The mission of Chi Sigma Iota is to promote scholarship, research, professionalism, leadership, and excellence in counseling, and to recognize high attainment in the pursuit of academic and clinical excellence in the field of counseling. The CSI International homepage can be found at www.csi-net.org/index.cfm. The local chapter, Mu Nu Tau, encourages the furtherance of high standards of scholarship and professional practice through study groups, speaker programs, workshops, colloquia awards, social activities, and networking opportunities.
College of Engineering and Applied Science

Engineering majors - Tau Beta Pi is a national honor society for all engineering majors. The purposes of the society are to honor outstanding student scholarship and to provide a spirit of liberal culture in the College of Engineering and Applied Science. Membership is offered to outstanding junior, senior and graduate engineering students of high scholastic ability and exemplary character.

College of Health Sciences

Kinesiology - Phi Epsilon Kappa is a national professional fraternity dedicated to enhancing education, promotion of student research, community outreach, and professional development for persons pursuing careers in health, physical education, recreation, and other related fields.

Nursing - Sigma Theta Tau - academic leadership honorary. The mission of the Honor Society of Nursing, Sigma Theta Tau International is advancing world health and celebrating nursing excellence in scholarship, leadership, and service.

Pharmacy - Rho Chi Society, Academic Honorary. The Rho Chi Society encourages and recognizes excellence in intellectual achievement and advocates critical inquiry in all aspects of pharmacy. The Society further encourages high standards of conduct and character and fosters fellowship among its members; Phi Lambda Sigma, Pharmacy Leadership Society - to support pharmacy leadership commitment by recognizing leaders and fostering leadership development.

Social Work - The purpose of the Epsilon Delta Chapter of the Phi Alpha Social Work National Honor Society at the University of Wyoming Division of Social Work is to provide a closer bond among students of social work and promote humanitarian goals and ideals. Phi Alpha fosters high standards of education for social workers and invites into membership those who have attained excellence in scholarship and achievement in social work. The goals of Phi Alpha include the provision of service to the campus, local, and state communities in Wyoming; the promotion of social, economic and environmental justice on campus and in the community; and the development of student leadership skills.

University Honors College

The National Collegiate Honors Council and The Western Regional Honors Council provide recognition for students, faculty, and administrators in the area of academic achievement, civic responsibility, and personal development.

College of Law

Law majors - Order of the Coif is an honorary society which recognizes legal scholastic excellence. Each year, the chapter may initiate into membership those students who graduate in the highest ten percent of their class.

Tuition and Fees

Semester Tuition and Fee Schedule 2020-21 (subject to change)
The University of Wyoming semester tuition and fee schedules for the 2020-21 academic year, which begins with fall semester 2020, will be available in the Fee Book at http://www.uwyo.edu/administration/financial-affairs/feebook/ or from Student Financial Services, Room 172, Knight Hall. Fall charges will post to accounts in WyoRecords by the end of July.

Summer school tuition and fees will be published in the Summer Bulletin.

Full-time undergraduate refers to undergraduate students enrolled for 12 or more hours, and part-time undergraduate refers to undergraduate students enrolled for less than 12 hours. At the graduate level, 9 or more hours is considered full time and less than 9 hours is classified as part time. Fees do not include special fees.

**Student Benefit Package and Insurance**

At the beginning of each semester, the part-time student benefit package will be added to student accounts of all part-time students (6 through 11.5 credit hours for undergraduates and 4.5 through 8.5 credit hours for graduate students) who have elected to purchase UW health insurance. The benefit package allows part-time students the same benefits as full-time students including, but not limited to, the use of Student Health Service, Half Acre Gym and the opportunity to apply for short-term emergency student loans.

Graduate students taking less than 4.5 credit hours should contact their academic department and also refer to the "Graduate Student Optional Fee Package Petition" document, which may be found on the Office of the Registrar website.

Students not assessed insurance who would like to purchase the benefit package, not for full-time status purposes, can fill out a form in Student Financial Services, 172 Knight Hall, and then pay for the package at the Cashier's Office, 170 Knight Hall, or online.

**Student medical insurance is mandatory for international students. International students are automatically enrolled in the medical insurance every fall and spring semester that they enroll in classes.** Students may potentially waive this requirement if they meet university regulations and provide the necessary documentation by the add/drop deadline. Students are not eligible for student health insurance if they are online only.

Each domestic enrolling student will be required, as part of the registration process, to make a Student Medical Insurance selection. If the eligible student selects "YES" to the question, the premium will be assessed on the student's account. If the student selects "NO," they will not be assessed for the premium. Part-time students who select yes for the health insurance will also be assessed for the Part-time Student Benefit Package.

Domestic students are eligible for insurance if they are enrolled in at least 6 hours for undergraduate or 4.5 hours for graduate students. Students are not eligible for student health insurance if online or remote only.

For questions regarding the Student Medical Insurance program, contact the Student Medical Insurance Advocate (248 Knight Hall) at (307) 766-3025.

**Tuition and Fee Payment 2020-21**

All university charges are due by September 1 (Fall), February 1 (Spring), and June 1 (Summer).

An institutional Payment Plan is available for students who need extra time paying.

A non-refundable $50.00 payment plan enrollment fee is charged per semester to all students that are not paid in full by the the payment dates above. The payment plan adds three monthly installments in addition to the first due date above. These are due on the 1st of two subsequent months. Registration holds and interest of 1.5% per month may be charged on all past due amounts.
Special Course Registration Fees

Additional charges (special course, college, advising, and program fees) must be paid by students enrolling in those courses and colleges with approved special fees. Fees for these courses and colleges will be indicated in the semester Class Schedule. Program fees, assessed to all courses under 5000 level, are by the college in which the course is held and may be different than a student's primary program.

Tuition Waivers

If an employee, spouse of an employee or cooperating agency waiver is used for payment of tuition and/or fees, the properly completed and signed waiver must be received by the Student Financial Services of-fice by the first day of the term. All waivers will be applied to accounts after the drop deadline. To be eligible for the waiver, the student (or spouse of student is utilizing spousal waiver) must be a benefited employee by the first day of class.

Financial Holds

A student failing to pay fees, charges, fines, penalties, deposits or short term loans as prescribed by the Trustees of the University of Wyoming shall be denied registration at the university and copies of academic transcripts and/or diplomas until such fees, charges, fines, penalties, deposits or short term loans are paid in full. A ten-day wait is required before a student loan hold can be removed if the debt is paid with a personal check. Contact Student Financial Services in Knight Hall for information regarding financial holds.

If a payment is made on a student account and the payment is returned to the University as a result of insufficient funds or otherwise, the student will have a hold on their account until the return payment fee in addition to the original amount is a paid. Registered classes secured by a returned payment are subject to cancellation.

Summer Session 2021

Please refer to the 2021 Summer Bulletin for rates and applicable deadlines.

Refunds/Cancellations

Tuition and course fees will be canceled or refunded to a student who officially drops a class or classes, withdraws from the university through the Dean of Students office, or changes enrollment status (i.e. non-resident to resident; full-time to part-time) in accordance with the institutional refund policy outlined below.

No tuition penalty will be assessed for dropping and adding during the drop period identified in the term's class schedule unless all classes are dropped. Students who withdraw from individual courses after the end of the drop/add period will have their charges canceled in accordance with the institutional refund policy outlined below.

Mandatory fees, late registration fees, or service fees are not refundable.

The portion of tuition refund/cancellation is computed from the first day of the term, not class meeting pattern. If a student's initial registration includes blocked classes or short courses that begin at a later date, the refund/cancellation will still be computed from the first day of the term. If a student's initial registration occurs during an approved late registration period, the date for computing a refund/cancellation will be the first day of the term.

Examples of these calculations are available in Student Financial Services.

Interaction of Federal Return of Funds Policy and Institutional Refund Policy

When a student who receives federal financial aid withdraws from the university, he or she may owe a repayment of federal funds and/or be due a refund from UW or owe an additional amount to UW. For details on the application of these policies to a specific situation, please consult with Student Financial Services, 172 Knight Hall, (307) 766-6232.

Student WyoOne ID Cards

167 Information Technology Center, (307) 766-5268

ID cards are issued to all students during their first semester of enrollment. These cards are used throughout the student's entire career at the university.

The ID card, also referred to as the WyoOne card, is needed to pick up transcripts, financial aid, cash checks, access student health services, attend athletic events, enter recreation facilities, check out library books and materials, food service access, enter residence halls, and other necessities. Visit the online card office at www.uwyo.edu/idoffice to make deposits, view transaction history, and access other card management features.

The WyoOne card may also be used as a debit card to make purchases at some locations on campus after the deposit account is established. Spouses, domestic partners and dependents of students are eligible for an ID card.

Credit Available to Undergraduate Students

The University of Wyoming offers credit towards an undergraduate degree through:

I. University of Wyoming Credit

Instructed Classes
Courses are offered on campus and at distance settings around the state, including recognized academic courses under faculty general supervision such as internships, clerkships, clinical experience, co-op programs, etc.

**Distance courses**

Unlike some institutions, UW delivers courses at a distance through its mainstream academic departments, not through a separate academic unit. Academic department heads have the authority to assign instructors to distance-delivered courses, including online courses. They also have a responsibility to ensure that those courses are comparable in rigor and effectiveness to courses delivered face to face.

For this reason, when a department offers a UW course both face to face and at a distance, any UW student may satisfy any relevant university-, college-, and department-level requirements or elective credit by taking the course in either format.

Exceptions may arise when it is necessary to reserve space in a distance-delivered course for off-campus students, who can't take the face-to-face version. In these cases, departments may reserve spaces for off-campus students. But to the extent that spaces remain available after all interested off-campus students have enrolled, these spaces must be available to interested on-campus students.

**Credit by Examination**

An examination of an appropriate type and content for the credit sought may be conducted to determine if the applicant's proficiency is equivalent to that which could be expected upon completion of a college-level course in the subject. An applicant found to have this level of proficiency will be awarded credit for that course and allowed to proceed either with more advanced courses or with courses in other areas.

The use of credit by examination, or credit for prior learning, in graduate programs is not allowed.

Information concerning credit by examination can be obtained by contacting the Office of the Registrar.

**Departmental Exams**

While there is no maximum placed on the amount of credit earned by examination, credit so earned does not count in fulfilling the residency requirement of 30 hours of upper division University of Wyoming credit.

A student may not be allowed credit by examination in a course in which the student is currently or was previously enrolled either for credit or as a visitor or auditor, except that credit by examination may be used as a means to obtain credit for courses previously taken at institutions from which credit is nontransferable. A student may not challenge equivalent courses.

A student may not earn credit by examination in a course if the student has completed a course in the subject matter area above the level of the course for which the examination is sought. However, at the discretion of the departments involved, during the add/drop period a student may challenge a lower-level course while enrolled in a higher-level course in the same subject matter area, if the course challenged is a prerequisite for the course in which the student is currently enrolled.

If an examination exists, eligible students who pay the testing fee of $80.00 may not be denied an examination in the introductory undergraduate course in any department. "Introductory course" is interpreted as that course which is prerequisite for successive courses in the department. Additional fees for examinations offered by testing agencies other than the University of Wyoming are determined by the agency concerned.
Grades of S or U (satisfactory/unsatisfactory) are given in all examinations. Credit by examination is not included in the student's grade point average; it is, however, included in the hours earned toward graduation. The grade of S is the equivalent of a C or better. See below for specific subject requirements. Entry on the student's academic record for credit by examination is made only if a grade of S is obtained and is noted as a grade obtained by examination.

To qualify for undergraduate credit, the student must be currently registered at the University of Wyoming as a degree candidate. The student must also be able to demonstrate to the satisfaction of the chair of the department involved that background experience has prepared him or her to attempt a challenge examination if such an examination is sought. The department chair's decision will be based upon existing departmental constraints such as accreditation, graduation requirements, and program requirements.

Other Options Include:

- Subject CLEP tests
- AP tests
- International Baccalaureate (IB)
- DSST

Students showing proficiency by passing examinations such as the College Board Advanced Placement Program (AP), for example, or examinations developed by University of Wyoming departments may earn college credit through the level of demonstrated proficiency. Credit may be allowed on the basis of any testing procedure acceptable to any department, which may include tests of the AP program and both the general and subject (specific) examinations of the College Level Examinations Program (CLEP).

Advanced Placement (AP) Information

Portfolio Evaluations

In recognition of factors in our society that produce great individual differences in backgrounds and preparation of students entering the university, the university has developed various options to assess extramural college-level learning. To qualify for undergraduate credit, the student must be currently registered at the University of Wyoming as a degree candidate.

Credit based on faculty evaluation of the kinds and extent of college-level learning which an applicant has acquired in prior extra-institutional settings, evidenced in a portfolio of documentation, may count toward university undergraduate graduation requirements. In such event, the student's degree program can be enriched by freeing time needed to take additional courses, or accelerated to earn the baccalaureate degree earlier and commence postgraduate studies sooner.

The number of credit hours able to be earned by means of a portfolio evaluation is normally limited to 12. Such credit, when awarded, shall be for specific University of Wyoming content-oriented courses (rather than given as X number of hours of credit in a general discipline area), following the college course model of assessment as defined by the Council for Adult and Experiential Learning. Portfolio assessment, when used, will be conducted by a committee of appropriate tenured faculty including at least one member with the academic rank of professor. All credit assigned for experiential learning based upon portfolio evaluations is excluded from the minimum credit hour requirements as set forth in the university requirements.

II. Transfer Credit
Transfer credit includes college courses accepted from other regionally-accredited colleges or universities. Such course work must be considered equivalent or comparable to course work required by the University of Wyoming. The university accepts only academic courses in the study of religion similar to those offered by the Religious Studies Program in the College of Arts and Sciences.

Students transferring to UW must have the registrar or records office of the previous school(s) send an official transcript to the University of Wyoming Admissions Office. Once all final transcripts have been received by the Admissions Office, the degree analysts in the Office of the Registrar will create an electronic record of all courses that transfer to UW.

Evaluations are not accomplished for students working toward a Second Bachelor's Degree or those admitted as non-degree seeking. Second Bachelor's students should consult with their adviser concerning the applicability of transfer work to their UW degree program.

The recording of credit does not automatically imply acceptance toward a degree since degree requirements vary from major to major. Questions concerning the transferability of course work from other institutions should be directed to the Office of the Registrar.

Nontraditional credits awarded by another institution will not normally be accepted by the University of Wyoming. They may be validated by departmental exam within the faculty regulations allowing for such examinations.

a. UW Policy (Academic Affairs Policy Letter, October 9, 2012)

UW maintains a system for accepting transfer credits from other institutions and prides itself on forward-looking approaches to distance education. The following clarifies policies for:

- Accepting transfer credit from Wyoming’s public community colleges
- Accepting transfer credit for students transferring to UW from other institutions
- Accepting transfer credit for students enrolled at UW

1. Transfer credit from Wyoming's public community colleges

UW generally accepts credit earned at any Wyoming public community college in accordance with the Wyoming Transfer Catalog. This policy applies to students transferring to UW and to students enrolled at UW who take courses at one of these community colleges while they pursue degrees at UW. It does not apply to FYS credit earned by students who earned concurrent enrollment FYS credit or students transferring with less than 30 semester hours.

UW maintains an active regimen of institution-wide and discipline-specific articulation with Wyoming community colleges. These discussions, together with department-driven decisions about which courses to list in the statewide common course-numbering system, provide mechanisms that can ensure appropriate levels of course equivalency.

2. Transfer credit for students transferring from other institutions

The UW Office of the Registrar (OTR) maintains a list of course equivalencies and courses accepted for general credit from other institutions of higher learning. In maintaining this list, the OTR, in consultation with academic departments as necessary, determines which outside courses:

- are equivalent to specific UW courses
- count for general university-level credit
- are not transferable for university-level credit

For courses beyond the 1000-2000 level and in cases where questions arise, the OTR relies on academic departments to assist in the assessment.

For any student transferring to UW from another institution of higher learning, UW will adhere to the OTR's equivalencies on the date that the transcript is evaluated. If a course in question has not previously been articulated, the
OTR will follow the normal protocol to make a determination. If an academic department determines that an outside course has been improperly articulated, the OTR will correct the equivalency. The corrected equivalency will apply to subsequent transfer students but not retroactively.

3. Transfer credit for students enrolled at UW

The university's faculty and administration expect UW students to earn credits by taking courses at UW. Exceptions may be appropriate in some instances. For example, the university encourages students to pursue opportunities to study abroad, whether through UW course offerings or through other approved programs. As another example, a student who spends a summer in another university town may also have a compelling case for taking a non-UW course and applying the credits to the UW transcript. There are many other possibilities.

For any student enrolled at UW, the university will guarantee transfer credits only for courses for which the student has received prior, course-specific approval from the Office of the Registrar. A Transfer Evaluation Form should be submitted prior to enrolling for a transfer course.

The only exceptions are transferable credits from Wyoming community colleges, as discussed above. In considering requests of this type, academic department heads may take into account the student's circumstances, department, and university-level learning outcomes such as global awareness, and the department faculty's assessment of the course's content, level, and academic rigor.

This policy has no effect on such programs as WICHE's Internet Course Exchange and other inter-institutional arrangements through which courses taught elsewhere count as credit-bearing UW courses.

b. Process

Transfer credit includes college courses accepted from other accredited colleges or universities. Such course work must be considered equivalent to course work required by the University of Wyoming. Students transferring to UW must have the registrar or records office of previous school(s) send an official transcript to the University of Wyoming Admissions Office. Once all final transcripts have been received by the Admissions Office, the degree analysts in the OTR will create an electronic record of credit transferred.

The recording of credit does not automatically imply acceptance toward a degree since degree requirements vary from major to major. Questions concerning the transferability of course work from other institutions should be directed to the Office of the Registrar.

c. Articulation: Earned Associate Degrees

1. Wyoming Community Colleges

Students entering UW beginning Fall 2001 who have completed an AA, AS, ADN, or AB degree from a Wyoming Community (spring 2001 or later) College receive credit toward completion of the lower division general education requirements included in the University Studies Program with the exception of the US/WY Government and Constitutions requirement. Students with an eligible associate's degree who have not completed both components of the US/WY Government and Constitutions requirement must complete it with coursework or challenge exam.

This policy applies to graduates receiving an Associate of Arts, and Associate of Sciences, Associate Degree Nursing, or an Associates of Business degree from any of the seven Wyoming Community Colleges. All graduates with an AA, AS, ADN, or AB degree complete a minimum of 64 college-level credits with a minimum of 2.000 GPA.

2. Community College Articulation: effective spring 2012
Graduates of regionally-accredited Colorado community colleges earning an AA/AS Spring 2012 or later are awarded the lower-division general education core in the same manner as graduates of Wyoming community colleges, with the exception of the US/WY Government and Constitutions requirement. Students must complete the Wyoming component through coursework or challenge exam. Spring 2008 (and later) graduates of Pikes Peak Community College are included due to a pre-existing articulation agreement.

Spring 2012 and later AA/AS graduates of Western Nebraska, Mid-Plains (Nebraska), and Colby (Kansas) Community Colleges will be extended the lower-division general education core in the same manner as Colorado schools above.

3. Community College Articulation: effective spring 2015

Graduates of regionally-accredited institutions earning an AA/AS/AB Spring 2015 or later are awarded the lower-division general education core in the same manner as graduates of Wyoming community colleges, with the exception of the US/WY Government and Constitutions requirement. Students must complete the Wyoming component through coursework or challenge exam.

Transfer Credit from Regionally-Accredited U.S. Colleges and Universities

The Wyoming Transfer Catalog is a searchable online database of courses which the University of Wyoming has previously articulated from regionally-accredited U.S. institutions. Coursework may transfer in as equivalent, elective or NA. Elective coursework may be a general elective, academic department specific elective and/or elective with University Studies (USP) credit. Transfer courses which return values of "NA" in the UW Subject field are considered to be non-transferable to UW. All new classes are evaluated on an individual basis. All new upper-division courses are initially given upper-division general elective credit; University faculty may then evaluate an upper-division course for direct UW equivalency transfer credit.

UW operates on semester credit; credit is awarded credit hour for credit hour. Quarter hours are recognized as two-thirds (2/3) of a semester hour.

Academic advisors may submit an elective course to fulfill a major or curricular requirement. Elective courses may also be considered for University Studies requirements via the University Studies Petition process.

Students intending to transfer to UW are encouraged to meet with advisors and review both the Wyoming Transfer Catalog and the UW Catalog when planning their program of study to ensure courses taken elsewhere will transfer to UW as intended for their desired major. Final determination of transfer credit acceptance is made by the University Registrar and faculty. Students must submit official transcripts of all completed coursework before a final determination can be made on credit transfer.

These equivalencies are subject to change without notice.

d. Transfer Credit for Study Abroad

Study abroad coursework is evaluated based on the documentation provided by the student and what is available to the Office of the Registrar. It is the students’ responsibility to review the transfer work and to provide any course documentation (syllabi, descriptions, sample course work) to the Office of the Registrar. Once the transcripts received from the study abroad experience have been evaluated, students will have one year from that date to make any appeals or changes to what was initially awarded. Requests for changes to transfer credit awarded through study abroad following one year of the initial review will not be processed.
III. Military Service Courses

Students who have served in the Armed Forces may be allowed transfer credit for courses taken in some military schools. Students who desire to apply for credit on the basis of their military schooling should submit a copy of their DD-214 form or AARTS/SMART/CCAF transcript (or equivalent) to the UW Admissions Office. The degree analysts in the Office of the Registrar determine whether the course work is transferable to UW. Evaluations for the granting of credit for military-based training are based on recommendations in the American Council of Education (ACE) guidelines. Individual colleges will determine whether such course work is applicable to their degree programs.

The Grading System

Students are evaluated according to the following grading system:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Pts.</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.000</td>
<td>Exceptional</td>
</tr>
<tr>
<td>B</td>
<td>3.000</td>
<td>Very good</td>
</tr>
<tr>
<td>C</td>
<td>2.000</td>
<td>Fair</td>
</tr>
<tr>
<td>D</td>
<td>1.000</td>
<td>Poor</td>
</tr>
<tr>
<td>F</td>
<td>0.000</td>
<td>Failure (may be assigned as a grade for failure to attend or to indicate failure to formally withdraw)</td>
</tr>
<tr>
<td>I</td>
<td></td>
<td>Incomplete (temporary mark pending coursework completion as agreed in a signed document). See section on incompletes below for details.</td>
</tr>
<tr>
<td>W</td>
<td></td>
<td>Withdrawal (from the individual course or all courses), only if the student follows the official withdrawal procedure. If a student enrolls in a course and then abandons it (stops attending) without following the official withdrawal procedure, a grade of F will be assigned.</td>
</tr>
<tr>
<td>S</td>
<td></td>
<td>Satisfactory (equivalent to a C or better [B or better in courses numbered 5000 or above]; see general information on S/U grading below)</td>
</tr>
<tr>
<td>U</td>
<td></td>
<td>Unsatisfactory (see general information on S/U grading below)</td>
</tr>
<tr>
<td>UK</td>
<td></td>
<td>Unable to compute grades (for midterm grades only)</td>
</tr>
</tbody>
</table>

Grade Points

Each letter-graded course carries a grade point value computed as: the total credit hours earned in the course multiplied by the point value of the letter grade earned. For example: a student earning an A (point value of 4) in a 3 credit-hour course would earn 12 grade points for the course.
Semester (or Term) Grade Point Average

The semester grade point average (GPA) is the sum of all grade points earned in a semester or term divided by all credit hours attempted for letter grade. Credit hours in courses in which marks of I, W, S, or U were assigned, as well as developmental courses, are excluded.

Cumulative Grade Point Average

The average of all grade points earned by a student below is termed the cumulative grade point average. It is used for determining activity eligibility, honors, probation, suspension, graduation, and for all comparisons or purposes requiring measurement of academic standing.

The cumulative grade point average is defined as the sum of all grade points earned in University of Wyoming residence, correspondence, or Distance Education, divided by all credit hours attempted for letter grade, with the following exceptions:

1. The credit hours shall not be counted in courses in which marks of W, S, or U were assigned, or in which marks of I (for incomplete) are still in effect.
2. For repeated courses:
   a. First repeat: only the second credit and grade is used to determine earned hours and to calculate the cumulative grade point average.
   b. If repeated more than once, only the last credit and grade earned is used to determine earned hours and to calculate the cumulative grade point average.
   c. A student is limited to a maximum of three (3) attempts, including withdrawals, in any course at the University of Wyoming.
   d. If a mark of W, S, or U is assigned in a repeated course, the previous grade assigned will stand except when an S or U is earned repeating a previous S or U.
   e. Courses applied towards one completed degree may be repeated as part of a second degree; however, the grade and grade point average in the original degree will not be changed.
3. Transfer grades are not counted in the UW grade point average. If a course taken at UW is repeated at another institution, the credits and grade earned at UW will be deleted from computation of the UW cumulative grade point average if credit for the repeated course is transferred to UW.
4. For graduate students, courses numbered below 4000 are not added in to the semester and cumulative totals, nor computed into the GPA.

Repeating a Course

Students may repeat course work; however, credit earned in any given course (or equivalent course) is applicable toward a degree requirement only once. All grade entries remain on the student's record, but only the last grade earned will be calculated in the UW cumulative grade point average. Refer to the Cumulative Grade Point Average section of this catalog for further information. Variable-credit courses are not considered as repeats unless the department head provides written certification that the course content was, in fact, repeated. Courses repeated will remain as entries on the academic transcript. Courses applied towards one completed degree may be repeated as part of a second degree; however, the grade and grade point average in the original degree will not be changed. A student is limited to a maximum of three (3) attempts in any course at the University of Wyoming. An "attempt" includes any instance in which the student earns a grade for the course or withdraws from the course. The three-attempt limit does not apply to courses identified in the University Catalog as being appropriate for students to take multiple times. A student can petition for exceptions to this limitation through established university procedures (UW Regulation 2-204). See the University Regulations online for the most up-to-date version.
Registration and Enrollment in Courses

Registration Procedures

Eligible students can register, drop, add, and get a schedule of their courses through WyoRecords. To insure that students have seen an adviser, access numbers for each semester's registration are distributed through the academic advisers. Directions for registration are contained in the appropriate Class Schedule. Class Schedules are available online no later than one week prior to advising week. Students are responsible for following directions and deadlines contained in the Class Schedules.

The following categories of continuing students in good standing or on academic probation are eligible to register for the semesters indicated:

1. For the fall semester:
   All students who were enrolled the previous fall, spring, or summer semester.

2. For the spring semester:
   All students who were enrolled the previous spring, summer, or fall semester.

3. For the summer session:
   Students who were enrolled the previous summer, fall, or spring semester.

All other applicants and students should complete admission requirements by the admission deadline. (Refer to the sections on undergraduate and graduate admissions in this catalog for deadlines.)

All information requested during admission and registration is important to the student and to the university and should be kept accurate and complete. If a student's address, telephone, major, adviser, or other vital information changes after enrollment, the Office of the Registrar should be informed without delay.

Academic Adviser

Academic advising is a decision-making process involving a partnership between the academic adviser and the student (advisee). In this partnership, issues and questions regarding personal, professional, and educational goals are examined and evaluated. This includes, but is not limited to, planning an appropriate course of study and the scheduling of classes.

The purpose of academic advising is to promote rational, informed, and independent choices by the student. To that end, the academic adviser is a significant link for the student to other resources in the university community. Students are expected to take the initiative in developing the adviser-advisee relationship and to assume an ever-increasing role in developing their own academic, career, and personal goals.

Change of Registration

Modification of a course schedule during the drop/add time period is accomplished through WyoRecords. After the end of the drop/add period, individual class withdrawals can be done by the students on WyoRecords. Changes to a student's registration or withdrawals are not official until the process is completed as prescribed.

The period of time allowed for modifying a student's schedule or withdrawing during the summer session or other special terms is established in regulations or by the registrar, subject to the approval of the vice president for academic affairs.

During the fall and/or spring semester(s):
1. **Dropping a class or changing sections:** A student may drop classes during the first eight class days of the semester (four class days for blocked courses).

2. **Adding a course or changing grading option:** A student may add classes, change sections, or change grading options or hours in variable-credit courses during the first four class days of the semester (two class days for blocked courses).

3. **Withdrawal from a course:** After the designated drop/add period, students may officially withdraw from individual regular term courses until fifteen class days after mid-semester (five days after the middle of the course for blocked courses). Withdrawing means that a non-punitive grade of "W" is assigned as the final grade for the class. Students considering withdrawing should contact the Student Financial Aid Office prior to withdrawing to fully understand how withdrawing will affect their aid and scholarships. Students may withdraw from an individual course through their WyoRecords account. If a student has a hold on their account preventing them from withdrawing through WyoRecords, they may submit an online Class Withdrawal form available on the Office of the Registrar website. The online form is required for students who wish to withdraw from First Year Seminar classes. Refunds for course withdrawal (when applicable) are based on the date the withdrawal is processed, not on submission of the online petition.

   When a class has a status of "Indiv Course Withdrawal" on the "Add or Drop Classes" page in WyoRecords, the student has officially withdrawn. Students may also confirm that a final grade of "W" is noted on the transcript, which may be viewed through WyoRecords.

   Unauthorized discontinuance of enrollment or unofficial abandonment of classes will result in a failing grade.

4. **All-School-Withdrawal (termination of enrollment):** Withdrawal from the university is the official termination of student status prior to the end of a fall or spring semester, but students may otherwise register for classes for the subsequent semester if they choose to do so. Students wishing to withdraw from all on-campus classes should initiate the procedure with the Dean of Students Office. Withdrawal from the university is not permitted during the last 15 days of a term. After clearing with the Dean of Students Office, the withdrawal form must be presented to the university cashier for initial processing. The Office of the Registrar will report withdrawals to instructors concerned. Students withdrawing from distance classes should send an email to the Office of the Registrar to initiate the process.
