**Protocol Review:**

1. Dr. Mariela Srednik: "Antimicrobial Susceptibility, Antimicrobial Resistance, Virulence Genes, and Phylogenetic Analysis in Isolates Obtained from Tularemia and Plague Animal Cases in Wyoming." - BAT

Srednik present for overview of the project and comments. This is a Risk Group 3 project with select agents. Dr. Elizabeth Case has been added to review this project as our high containment expert. Need additional documents and SOPs to be revised.

Dr. Case left at 10:26am

Committee decided to table this until next month.

2. Dr. Takashi Suyama- "Biocatalysis for discovery and synthesis of bioactive metabolites" rDNA

Suyama present for overview of project. Project overview was not provided in the registration. This project will be working with e. coli and Pichia at a BSL-1 level. Some comments made by committee. Main comment is that this project was incomplete and needed to have follow up with Goodnight. Goodnight will reach out.

3. Dr. Takashi Suyama: "Biocatalysis for discovery and synthesis of bioactive metabolites" - BAT

Suyama present for overview of project and comments. Some comments made by committee. Goodnight will also follow up with PI.

Committee decided to table this until next month.

Suyama left meeting.

#### 4. Dr. Dan Wall

Wall present for overview of project. Project overview was not included in registration. Some comments made by committee. This project containment level is BSL-1, working with risk group 1 agents. Goodnight will send comments to PI.

Motion by Perry to approve protocol pending minor revisions approved by Bowman and Goodnight. Seconded by Steinkraus. The motion passes unanimously.

Dr. Lucy Wetherall, Dr. David Fay and Dr. Nicole Bedford's registration will be reviewed via email as meeting time ran out.
