# Landscape Discussion on Energy Law & Policy in the Rockies

Landscape Discussion on Energy Law & Policy in the Rockies Friday, October 14, 2022

#### Updates on National Programs and Initiatives Affecting the Natural Gas Industry

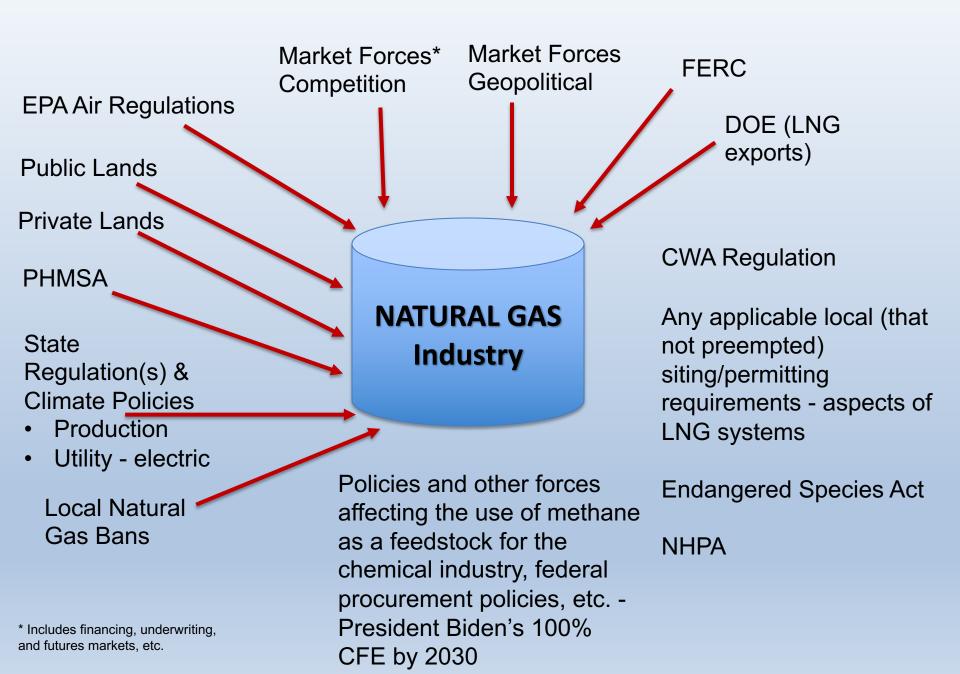

Sam Kalen University of Wyoming College of Law

## UNIVERSITY OF WYOMING

European Commission President Ursula von der Leyen listens as President Joe Biden speaks. ASSOCIATED PRESS, from Forbes, <u>https://www.forbes.com/sites/davidblackmon/2022/03/27/bidens-commitment-for-us-Ing-to-supply-</u> <u>europe-faces-strong-headwinds/?sh=23777eac247a</u>

In March, President Biden promoted committing an additional 15 billion cubic tons (bct) of LNG to Europe by end of this year. Expects that supply would increase to 50 bct through 2030.

### FERC, Gas Pipelines, & Exports

- FERC & Pipeline Policy and GHG Emissions
  - ROE
  - Precedent Agreements
  - GHG Emissions
- *City of Oberlin v. FERC* (DC Circ. July 2022)
- Delaware Riverkeeper Network & Maya Van Rossum v. FERC (DC Cir. Aug. 2022)
- PHMSA Rulemakings

### EPA's Supplemental Proposed Methane Rules for Oil & Gas Sector

### **Overview of Proposal Impacts**

EPA's proposal would:

- Yield nearly \$4.5 billion in climate benefits a year, totaling \$48 to \$49 billion from 2023 through 2035 – after factoring in costs
- Increase recovery of natural gas that otherwise would go to waste, valued at \$690 million in 2030 alone
- By 2035, reduce approximately:
  - 41 million tons of methane emissions (equivalent to 920 million metric tons of CO<sub>2</sub>)
  - 12 million tons of smog-forming VOC emissions
  - 480,000 tons of air toxics emissions

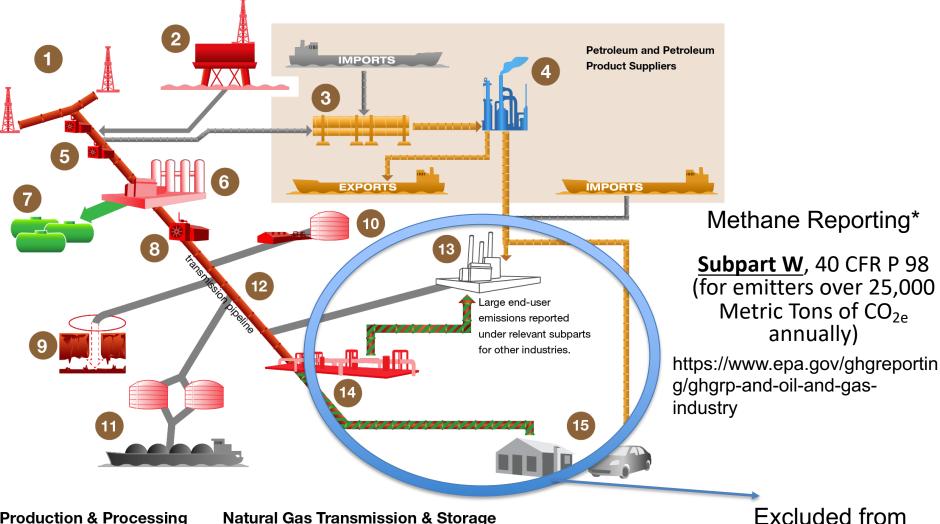

EPA's Training Slide for its last year's proposal

## The Inflation Reduction Act (IRA)

(Pub. L. 117-169)

- Methane Charge subset of petroleum & natural gas (NG) system facilities (emit > 25,000 MtCO<sub>2</sub>/annually)
  - Offshore petroleum & NG production
  - Onshore petroleum & NG production
  - Onshore NG processing
  - Onshore NG transmission compression
  - Underground NG storage
  - LNG storage
  - LNG import & export equipment
  - Onshore petroleum and NG gathering and boosting
  - Onshore NG transmission pipelines
- Excludes NG distribution facilities & "other oil and gas combustion facilities"

9 Sub W Reporting Groups

#### **Production & Processing**

- 1. Onshore Petroleum & Natural Gas Production
- 2. Offshore Petroleum & Natural Gas Production
- 3. Total Crude Oil to Refineries
- 4. Petroleum Refining
- 5. Gathering and Boosting \*Data collection began in RY 2016
- 6. Gas Processing Plant \*May contain NGL Fractionation equipment
- 7. Natural Gas Liquids (NGL) Supply

#### **Natural Gas Transmission & Storage**

- 8. Transmission Compressor Stations 9. Underground Storage
- 10. Liquified Natural Gas (LNG) Storage
- 11. LNG Import-Export Equipment
- 12. Natural Gas Transmission Pipeline \*Data collection began in RY 2016

#### Distribution

- 13. Large End Users
- 14. Natural Gas Distribution
- 15. Natural Gas & Petroleum Supply to Small End Users

- Subpart W: Emissions from petroleum & natural gas systems
- Subpart Y: Emissions from petroleum refineries
- Subpart MM: CO, associated with supplies of petroleum products
- Subpart NN: CO, associated with supplies of natural gas & natural gas liquids
- Not reported under GHGRP

## Methane Charge

\*Some report under MM, others under NN, C, D, P, & X

## The Inflation Reduction Act (IRA)

(Pub. L. 117-169)

An exception:

If EPA's final regulations become effective in all states and they will "result in equivalent or greater emissions reductions as would be achieved" under the Nov. 2021 proposal (up to EPA to decide)

## The "Deal" or Not . . .

- ✓ Much of the industry dialogue revolved around a few issues
  - Streamlining the Process (National Environmental Policy Act (NEPA), etc.)
  - Curbing what was perceived as excessive use of Section 401 of the Clean Water Act (CWA)
  - Limiting judicial review (whether by identifying a court, etc., or limiting the time for a challenge)
- $\checkmark$  Senators Manchin & Capito = MVP or . . .
