DISTINGUISHED SPEAKER SERIES

FALL 2023

“Comparative Environmental Life Cycle Assessment of Carbon Capture”

12:00 - 1:00 PM
LUNCH
PROVIDED

MONDAY
OCTOBER 30
2023

ENCANA
AUDITORIUM
ENERGY
INNOVATION
CENTER

Matt Jamieson serves as a Senior Life Cycle Analyst at the Department of Energy's National Energy Technology Laboratory (NETL), as part of the life cycle analysis competency within the Strategic Systems Engineering Analysis directorate. Matt has been performing life cycle analyses of complex energy systems at the lab for 10 years and has contributed to a number of publicly available tools, reports, and peer-reviewed articles. Matt holds a B.S. in Mechanical Engineering from the University of Minnesota - Duluth.
