Key Takeaways

Wyoming Oil production decreased by 1% YoY as of June 2026, to 8,935 thousand barrels.¹ This still puts the state's oil production on pace with the January 2026 CREG Forecast estimate of 100 million barrels for 2026.² The spot price for crude oil (WTI) is up 29.36% YoY as of August 2026, at \$83.90 per barrel, higher than the January 2026 CREG forecast of \$55 for 2026.³

Wyoming Natural Gas reached 95,449 MMcf as of June 2026, representing a 3.46% YoY decrease. Production remains below the pace assumed in the January 2026 CREG forecast.^{2,4} Natural gas hub prices increased this month, with both the Cheyenne Hub and Opal trading at \$2.40 and \$2.75/MMBtu, respectively, while Henry Hub remained slightly higher at \$2.77/MMBtu.

Wyoming Coal preliminary production data for Q2 2026 indicates a 14.29% YoY increase, while early estimates for August 2026 show a decrease of 1.29% YoY.⁵ Revisions to earlier production estimates, along with the new preliminary data, place Wyoming coal production above pace with the January 2026 CREG forecast of 190 million short tons for 2026. The Powder River Basin coal spot price rose to \$14.51 per short ton, a 0.76% YoY increase as of August 2026. This price is slightly above the January 2026 CREG forecast of \$14.25 per short ton.⁶

Wyoming Uranium production saw a 49.52% increase YoY as of Q2 2026, amounting to 175,249 lbs. The spot price for uranium saw an increase of 19.37% YoY as of August 2026 and is priced at \$89.68/lb.

Wyoming Net Monthly Electricity Generation totaled 3,319 GWh in June 2026, down 1.40% YoY. Coal-derived electricity generation decreased by 43.18% YoY, while natural gas-fired generation increased 24.23% YoY. Net electricity generation by Conventional Hydro increased 42.35% YoY, and net electricity generation from renewable sources reached 1,046 GWh, representing a 37.81% YoY increase.⁷

Wyoming Commodities Overview

Wyoming Crude Oil

Month	Production (Thousand Barrels)
Jun-25	9,025
Jun-26	8,935
% Change	-1.00%

January 2026 CREG Forecast for 2026: 100 million barrels⁸

A majority of Wyoming oil production occurs in the Powder River Basin, producing approximately 231,346.07 barrels per day, or 6,940,382 in total in June 2026, making up 78.3% of Wyoming's total oil production. This level of monthly production in the PRB represents a 1.27% increase YoY.⁹

Month	Spot Price: WTI (\$/Barrel)
Aug-25	64.86
Aug-26	83.9
% Change	29.36%

January 2026 CREG Forecast for 2026: \$55.00 per barrel⁸

Wyoming crude oil production decreased by 1% YoY as of June 2026. This still puts the state's oil production on pace with the January 2026 CREG Forecast estimate of 100 million barrels for 2026.^{8,9} The spot price for crude oil (WTI) is up by 29.36% YoY as of August 2026 and is at \$83.90 per barrel, the rise reflects global supply constraints present in August.⁹ It should be noted that the January 2026 CREG Forecast price of \$55 only reflects Wyoming oil price prior to transportation to Cushing and is not reflective of WTI spot price.

⁸ Consensus Revenue Estimating Group. (2026). January 2026 CREG Forecast.

⁹ Wyoming Oil and Gas Conservation Commission. (2026). Production by Basin.

Wyoming Natural Gas

Month	Production (MMcf)
Jun-25	98,866
Jun-26	95,449
% Change	-3.46%

January 2026 CREG Forecast for 2026: 1,300,000 MMcf¹⁰

Most natural gas production in Wyoming occurs in the Green River Basin, producing about 1,806,061 Mcf per day, or 54,181,823 Mcf in total for June 2026. This accounted for 51.2% of statewide production in June 2026. The Green River Basin decreased by 2.29% compared to June 2025.¹¹

Month	Henry	Cheyenne	Opal
Aug-25	2.91	2.47	2.56
Aug-26	2.77	2.40	2.75
% Change	-4.84%	-2.86%	7.30%

January 2026 CREG Forecast for 2026: \$4.25 per million BTU¹¹

Wyoming natural gas production is at 95,449 MMcf, seeing a 3.46% decrease in production YoY as of June 2026.¹⁰ This level of production is still behind the pace of the January 2026 CREG Forecast production estimate for 2026.¹⁰ Wyoming hub prices varied with change, but are all well under \$3 per MMBtu. The Opal Hub saw a 7.3% increase to \$2.75 per MMBtu and Cheyenne Hub spot prices recording a 2.86% YoY decrease. The January 2026 CREG Forecast price was \$4.25, though this forecasted price reflects the full natural gas stream, not the methane price.¹⁰

¹⁰ Consensus Revenue Estimating Group. (2026). January 2026 CREG Forecast.

¹¹ Wyoming Oil and Gas Conservation Commission. (2026). State Production Stats by Selected Year.

Wyoming Coal

Month	Production (Short Tons) ¹²
Aug-25	19,591,304
Aug-26	19,339,416
% Change	-1.29%

Quarter	Production (Short Tons)
2025 Q2	45,464,698
2026 Q2	51,960,230
% Change	14.29%

January 2026 CREG Forecast for 2026: 190 million short tons ¹³

Month	Prices: PRB (\$/Short Ton)
Aug-25	14.40
Aug-26	14.51
% Change	0.76%

January 2026 CREG Forecast for 2026: \$14.25 per short ton

The Powder River Basin coal spot price is at \$14.51 per short ton, a 2.1% YoY increase as of August 2026. This price is slightly above the January 2026 CREG forecast of \$14.25 per short ton.¹³ Preliminary production data for Q2 of 2026 shows an increase of 14.29% YoY. Revisions to previous production estimates and the new preliminary data bring Wyoming coal production to be slightly over the January 2026 CREG Forecast production estimate of 190 million short tons for 2026.¹³

¹² U.S. Energy Information Administration. (2026). Weekly Coal Production.

¹³ Consensus Revenue Estimating Group. (2026). January 2026 CREG Forecast.

Wyoming Uranium ¹⁴

Quarter	Production (Lbs)
2025 Q2	117,210
2026 Q2	175,249
% Change	49.52%

January 2026 CREG Forecast for 2026: 600,000 pounds

Month	Prices (\$/Lb) ¹⁵
Aug-25	75.13
Aug-26	89.68
% Change	19.37%

Q2 of 2026 saw a significant increase of 49.52% YoY in Wyoming uranium concentrate (U3O8) production, amounting to 175,249 lbs.¹⁴ The spot price for uranium saw an increase of 19.37% YoY as of August 2026 and is priced at \$89.68/lb.¹⁵

¹⁴ U.S. Energy Information Administration. (2025). Domestic Uranium Production Report - Quarterly.

¹⁵ Cameco. (2025). Uranium Price.

Wyoming Soda Ash (Trona)

Month	Production (Thousand Tons)
Mar-25	1,630
Mar-26	1,640
% Change	0.61%

January 2026 CREG Forecast for 2026: 21 million tons¹⁶

Price – No public data available

January 2026 CREG Forecast for 2026: \$80.00/ton¹⁶

Trona production in Wyoming increased by 0.61% YoY as of March 2026. This is on pace to slightly exceed the average level of production in 2025, where reported Wyoming annual production amounted to 18.6 million tons.¹⁶ But this is behind the pace of the January 2026 CREG Forecast estimate of 21 million tons for 2026, though it should be noted that some production data is excluded to protect proprietary information (see footnotes), so it is likely that the state forecast for production is more accurate than the data portrays.¹⁶

¹⁶ Consensus Revenue Estimating Group. (2026). January 2026 CREG Forecast.

Wyoming Oil and Gas Development

Month	Rig Count
Aug-25	14
Aug-26	14
% Change	0.00%

The rig count in Wyoming has had no change YoY with 14 rigs as of August 2026 with most of the drilling activity taking place in the PRB.

The latest rig activity shows the highest drilling concentration in Converse County, which leads with nine active rigs. Overall, the distribution reflects continued drilling strength across central and northeastern Wyoming.

Employment

Wyoming Natural Resources and Mining Employment ¹⁷

Month	Rig Count
Jul-25	15,552
Jul-26	15,400
% Change	-0.98%

July 2026 saw a 0.98% YoY decrease in natural resources and mining employment, to an estimated 15,400.

Wyoming Quarterly Census of Employment for Mining, Including Oil and Gas ^{17,18}

Quarter	Oil and Gas Extraction	Mining (Excl. Oil and Gas)	Support Activities
Q4 2024	2,311	6,903	6,694
Q4 2025	2,355	6,709	6,237
% Change	1.90%	-2.81%	-6.83%

Employment in the oil and gas sector has remained relatively level, increasing slightly by 1.9% as of Q4 2025. Mining employment decreased by 2.81% YoY as of Q4 2025. Employment in the support activities sector is down with a YoY decrease of 6.83%.

¹⁷ Wyoming Quarterly Census of Employment and Wages (QCEW) reports average monthly employment data for each quarter.

¹⁸ Wyoming Department of Workforce Services. (2026). Wyoming Quarterly Census of Employment and Wages (QCEW).

Wyoming Net Electricity Generation

Wyoming Net Monthly Electricity Generation by Source (GWh) ¹⁹

Month	Coal	Renewables	Natural Gas	Conv. Hydro.	Other Gasses	Other	Petrol Liquids	Total
Jun-25	2,024	759	454	85	30	7	7	3,363
Jun-26	1,150	1,046	564	121	25	8	5	3,319
% Change	-43.18%	37.81%	24.23%	42.35%	-16.67%	14.29%	-28.57%	-1.31%

Wyoming's net monthly electricity generation totaled 3,319 GWh in June 2026, down 1.40% YoY. Coal-derived electricity generation is down 43.18% YoY, making up 34.6% of the state's net electricity generation. Natural gas electricity generation increased by 24.23% YoY, and net electricity generation from renewables amounted to 1,046 GWh, an increase of 37.81% YoY.¹⁹

Wyoming's nameplate capacity is led by coal power, with nearly 5,530.2 MW currently in operation. This is followed by wind power with over 3,727 MW of capacity currently in operation. Total nameplate capacity currently operational in Wyoming as of 2024 is 11,755 MW, with an additional 5,647 MW, predominantly wind, proposed for the near future.^{20, 21}

¹⁹ U.S. Energy Information Administration. (2026). Electricity Data Browser.

²⁰ Nameplate capacity is the theoretical maximum output of an electric generator, not considering the capacity factor. The actual output of an electric generator is typically estimated by multiplying the nameplate capacity by the capacity factor.

²¹ U.S. Energy Information Administration. (2026). Annual Electric Generator Report.

Electricity Prices

Residential Price of Electricity ²²

Month	Wyoming (¢/KWh)	U.S. Avg. (¢/KWh)
Jul-25	14.64 ¢	18.09 ¢
Jul-26	14.36 ¢	19.26 ¢
% Change	-1.91%	6.47%

Commercial Price of Electricity ²²

Month	Wyoming (¢/KWh)	U.S. Avg. (¢/KWh)
Jul-25	10.16 ¢	14.49 ¢
Jul-26	10.26 ¢	15.20 ¢
% Change	0.98%	4.91%

Industrial Price of Electricity ²²

Month	Wyoming (¢/KWh)	U.S. Avg. (¢/KWh)
Jul-25	8.93 ¢	11.07 ¢
Jul-26	8.62 ¢	11.94 ¢
% Change	-3.47%	7.88%

²² U.S. Energy Information Administration. (2026). Electric Power Monthly.

Wyoming Annual Net Interstate Electricity Exports ²³

Wyoming has historically been a net exporter of electricity produced within the state. The 2024 share of Wyoming's net electricity that was exported is the lowest it has been between 1990 and 2024, with 51.6% of total net electricity being exported.²³

Year	Total Net Generation (GWh)	Net Interstate Exports (GWh)	Percent of Total Net Electricity Exported
2023	43,181	24,030	55.6%
2024	40,709	21,009	51.6%
% Change	-5.7%	-12.6%	-7.3% ²⁴

Regional Comparison

As of June 2026, Wyoming ranks fourth in this regional comparison for net monthly electricity generation, totaling 3,319 GWh. This is behind Colorado (4,933 GWh), New Mexico (4,408 GWh), and North Dakota (3,714 GWh). Wyoming's net electricity generation is down 1.31% compared to the prior year.²⁵

Net Electricity Generation by State (GWh) ²⁵

Month	Wyoming	Colorado	Montana	North Dakota	New Mexico	Utah
Jun-25	3,363	4,956	2,030	3,095	3,420	3,237
Jun-26	3,319	4,933	2,226	3,714	4,408	3,196
% Change	-1.31%	-0.46%	9.66%	20.00%	28.89%	-1.27%

Natural Gas Production by State (MMcf) ²⁶

Wyoming produced 95,449 MMcf of natural gas in June 2026, ranking the state fourth in this regional comparison behind New Mexico (372,687 MMcf), Colorado (154,198 MMcf), and North Dakota (108,108 MMcf).²⁶

Month	Wyoming	Colorado	Montana	North Dakota	New Mexico	Utah
Jun-25	98,866	151,628	4,135	104,725	335,502	28,182
Jun-26	95,449	154,198	4,172	108,108	372,687	28,501
% Change	-3.46%	1.69%	0.89%	3.23%	11.08%	1.13%

Crude Oil Production by State (Thousand Barrels) ²⁷

Wyoming crude oil production totaled 8,935 thousand barrels in June 2026, ranking the state fourth in this regional comparison behind New Mexico (71,020 thousand barrels), North Dakota (34,745 thousand barrels), and Colorado (13,339 thousand barrels).²⁷

Month	Wyoming	Colorado	Montana	North Dakota	New Mexico	Utah
Jun-25	9,025	14,081	2,260	34,792	66,557	5,827
Jun-26	8,935	13,339	2,065	34,745	71,020	6,079
% Change	-1.00%	-5.27%	-8.63%	-0.14%	6.71%	4.32%

Wyoming Wind

Year	Total Distribution	State Distribution (40%)	Local Distribution (60%)
2023	4,401,604	1,760,642	2,640,962
2024	8,384,624	3,353,850	5,030,774
% Change	90.49%	90.49%	90.49%

Wyoming currently imposes a tax of \$1.00 per MWh of electricity produced via wind which begins three years after the wind turbine first generates electricity. This tax, of which 40% is distributed to the state and 60% is distributed to the counties where the electricity was produced, has generated millions of dollars in tax revenue since enacted in 2012.²⁸ Wyoming has seen substantial investments in wind electricity generation, with wind nameplate capacity reaching 3727 MW in 2024.^{29,30} The average capacity factor for Wyoming wind electricity generation in 2022 was 37.1%.^{31,32}

²⁸ Wyoming Department of Revenue. (2025). 2025 Annual Report.

²⁹ Nameplate capacity is the theoretical maximum output of an electric generator, not taking into account the capacity factor. The actual output of an electric generator is typically estimated by multiplying the nameplate capacity by the capacity factor.

³⁰ U.S. Energy Information Administration. (2025). Annual Electric Generator Report.

³¹ U.S. Energy Information Administration. (2022). Capacity Factors and Usage Factors at Electric Generators: Total (All Sectors), 2022.

³² Wind also contributes to property tax and sales tax within the state in addition to the wind generation tax.

State Assessed Valuations on Mineral Production

Annual State Assessed Valuations on Mineral Production³³

Year	Oil	Natural Gas	Coal	Trona	All Other	Total
2023	\$6,554,767,180	\$4,815,639,659	\$2,628,199,093	\$634,855,227	\$141,838,408	\$14,775,299,567

Sales Tax Distributions from Energy, Extraction, and Support Industries

Statewide Sales Tax Distributions from Energy, Extraction, and Support Industries^{33,34}

Month	Total Statewide Sales Tax Distributions
Aug-25	\$10,705,971.00
Aug-26	\$23,422,863.00
% Change	118.78%

³³ Wyoming Department of Revenue. (2025). Tax Distribution Reports.

³⁴ Data for "Total Statewide Sales Tax Distributions from Energy, Extraction, and Support Industries" is the sum of the following NAICS codes – Major Business Class: 21; Minor Business Class: 2211, 2212, 2362, 3241, 3251, 3259, 3274, 3279, 3331, 4235, 4238, 8113. Due to challenges in precisely attributing portions of certain NAICS codes specifically to the energy, extraction, and support industries, some relevant NAICS codes may be partially or wholly excluded. Regardless, this data is representative of these industries' contributions.

Severance Taxes

Severance tax, one of the major taxes on the extraction of minerals in Wyoming, is one of the largest sources of tax revenue for the state. In FY 2025, severance tax derived from oil extraction accounted for the largest share of state severance tax revenue.³⁵

Annual Severance Tax Collections by Type ³⁵

Year	Oil	Natural Gas	Coal	Trona	All Other	Total
2024	\$417,047,894	\$167,617,080	\$137,054,883	\$23,660,906	\$2,944,635	\$748,325,398
2025	\$378,148,700	\$150,923,729	\$134,035,151	\$22,770,717	\$3,370,406	\$680,433,736
% Change	-9.33%	-9.96%	-2.20%	-3.76%	14.46%	-9.07%

Monthly Severance Tax Collections ^{36,37}

Month	Oil	Natural Gas	Coal	Trona	Uranium	All Other	Total
Jun-25	\$30,558,972	\$12,201,489	\$12,339,458	\$1,860,051	\$81,789	\$182,438	\$57,224,196
Jun-26	\$39,443,478	\$9,775,414	\$9,885,045	\$1,686,648	\$121,907	\$257,059	\$61,169,551
% Change	29.07%	-19.88%	-19.89%	-9.32%	49.05%	40.90%	6.89%

³⁵ Annual Severance Tax Revenue is recorded by fiscal year.

³⁶ January 2025 saw an uncharacteristic increase in natural gas severance tax collections. This is likely attributed to an increase in demand of Wyoming natural gas to address winter natural gas shortages in the west.

³⁷ Wyoming Department of Revenue. (2025). Monthly Severance Tax Collections.

Ad Valorem Production Tax Assessed by County ³⁸

County	2024	2025 ²
Campbell	\$238,633,609	\$220,410,421

Total Statewide	\$774,028,998	\$674,949,861

Ad Valorem Production Tax is a tax on the assessed value of a commodity at the point of extraction. The tax is applied by the counties, using the mills levied by each county to determine the amount of tax derived. In Wyoming, a 100% assessment rate is used on mineral production with the statewide average mill levy among all counties being 63.89 mills in 2024 ³⁹ and 67.53 mills in 2025⁴⁰.

³⁹Wyoming Department of Revenue. (2025). 2025 Annual Report.

⁴⁰ 2025 Ad valorem taxes are estimated based on available monthly data and will be updated, if necessary, upon release of the Wyoming Department of Revenue annual report.
