- **Mission:** To deepen understanding of science concepts and environments that support teaching and learning science
- **For Who?** Current teachers who would like to obtain a middle-level science endorsement and have at least 2 years of teaching experience
- **Why?** The content courses can be used as professional development towards meeting the federal definition of a "highly qualified" teacher

**Courses** (In June in Laramie for 4 weeks):
*Courses with a focus on science content, instructional strategies, and research rotate on a three year sequence. Students may enter the program in any summer.*

- 24 hours of core courses* in life sciences, physical sciences, earth sciences, as well as content, pedagogy, assessment and research
- 6 additional graduate credits from appropriate science and research courses
  - Suggested courses:
    - **NASC 5670** - Plan B Research and writing
    - **NASC 5810** - Middle Level Science & Math Practicum (Required for teachers who are not currently teaching middle level science/math)
- Completion of a Plan B (non-thesis) or Capstone project

**Core Courses:**
