Your Courses

Please list the course(s) you want to tutor (see reverse for course names). Please ask questions if you have them.

Feel free to add any classes that are not on the reverse page.

- 1) Returning tutors: please be sure to tutor at LEAST what you are currently tutoring. If you want to remove any classes please talk to Jess.
- 2) For most tutors, the number of hours you are given directly relate to the number of classes you ask to tutor. So, if you select 1 class, you will probably only receive 2 hours/week (of course some exceptions apply here)

*Satellite - RAs must work in STEP Satellite. Priority is tutoring within Main Center, and very few hours will be given in STEP Satellite.

Your Experience

List any relevant tutoring and/or academic assistance experience you have had:

What strengths can you bring to the position?

What skills do you think are most key to students' academic success?

What characteristics or skills do successful tutors possess?

What do you believe are the responsibilities and limitations of a tutor?

The following are classes that we currently offer, or have offered recently. These classes are priority. Feel free to add any other classes on page one!

Note: Writing Help only occurs through the Writing Center. Math tutoring only occurs through CASM, or with special permission from Jess.
