ACTION REQUIRED AT THIS BOARD MEETING:
Members of the TEI Governing Board request that the BoT approve the proposal for a new project, E5: Endurance.

TEI E5: Endurance
UW Board of Trustees December 2020 Meeting

Introduction
The Trustees Education Initiative received approval from its Governing Board (October 30, 2020) to provide services as a hub and direct link for ongoing educator professional development (PD). Informally coined “E5: Endurance,” this endurance hub would be the next leg in the UW-E4 Student Journey model, serving Wyoming educators in early childhood settings, K12 schools, community colleges, the University of Wyoming and other applicable agencies or organizations. If approved, these TEI PD services would be primarily housed in and available via the UW WyoLearn (soon to be Elevate) platform. Content developed through this project would be ongoing and responsive to Wyoming’s education community needs.

TEI and the College of Education cannot take on this significant task alone. Partnership with and support of other professional development providers are hallmarks of TEI and would advance through the TEI E5. TEI suitably recognizes and supports partners in the in the substantial educator PD being provided. Collectively, we can provide a platform offering materials, courses, and other related information that support Wyoming educators.

TEI Endurance PD would come in all shapes and sizes, based on the needs and preferences of educator audiences and TEI PD partners. Synchronous and asynchronous, blended and fully online, fully facilitated to self-paced, short-term to semester-long, and credential- and credit-bearing, TEI Endurance PD must be adaptable and nimble, to best assure options that fit all educator content areas, schedules, and location.

Rationale
The need for a professional development hub supportive of district-level, state-level, third-party providers materialized in spring and summer of 2020, when CoE faculty members reshaped an established online course titled “Digital Teaching and Learning” developed by UW’s Ellbogen Center for Teaching and Learning. The new course was customized for K12 teachers who needed to translate their teaching knowledge and skills to a digital environment. The resulting course, instigated by the impacts of the COVID 19 pandemic, was completed by over 60 Wyoming educators, from 29 school districts, Saint Stephens Indian High School, Wyoming Girls School, and Holy Name Catholic School.

In addition to K12 support, a need for such a platform or hub is also felt internally, as the College of Education and other units at UW seek to support faculty in the use of new and proven distance...
teaching technologies and practices, and as we seek to provide support to preservice teachers in online teaching methodologies. While some UW units have found success in the use of WyoLearn (University’s outward-facing, professional development or continuing education arm of Canvas Learning Management System), this platform has largely been underutilized. TEI Endurance would actualize the potential of WyoLearn (WyoElevate) and continue to move UW professional development and continuing education forward.

**Project Description**

Having completed the Summer Digital Teaching & Learning programming, it became clear that ongoing training in such areas remained a high need across the state. Preparing to serve this need, College of Education faculty are now in the process of fine-tuning existing courses and adding courses related to Pedagogy, Assessment, and Digital Tools, and LMS Structure & Design. These courses would be mostly self-paced and modular/stackable, with options of graduate credit and continuing education units.

Professional development for current and upcoming TEI initiatives would also be incorporated into TEI Endurance, including Teacher Cadets and Mursion training for K12 and community college partners.

Numerous other individuals and units across campus regularly produce materials, courses, and projects that are designed to provide support to the educators of the state. TEI Endurance would be the home for such content, increasing awareness and access to these resources. Although an exhaustive list might not be possible, some of the current TEI, College of Education and broader UW professional development projects include the following:

- Science education
- Literacy education
- Social studies/civics education
- Student teaching coaching and mentorship
- Drone technology
- Counseling- tele-health, teacher mental health training
- English as a Second Language/Dual Language Immersion
- Special Education

**Budget Overview**

Initial TEI Endurance costs (remainder of FY21, and FY22) would be covered by TEI funding, College of Education funding, and partner funding. Operational costs for the remainder of FY21 would range from $40,000 to $130,000, based on funds available and PD requested. This would include startup/development, facilitation, and strategic planning/update costs.

TEI Endurance budgets for FY22 and beyond would be proposed, established, and maintained, based on funds available and internal and external PD demands. While costs for established projects and programs would stabilize, increased costs for new projects, year-to-year, will be a part of year-to-year operations and budget considerations, with controlled growth in mind. Continuing cost-sharing partnerships with stakeholders, along establishing a revenue-generating model (based on established university practice) will be instrumental in TEI Endurance sustainability.

EXECUTIVE SUMMARY:
This agenda item is to request approval of an amendment to extend an existing sublease agreement for a cellular communications site on the University’s Wyoming Public Radio (WPR) tower site in Torrington, Wyoming with Industrial Tower West, LLC dba Viaero Wireless (see attached map).

The University of Wyoming and Viaero Wireless first entered into a sublease agreement on January 1, 2016 for a five (5) year term allowing Viaero to install an antenna system on the tower and install radio communications equipment in the building, both owned by the University. The current lease term ends January 1, 2021. Viaero Wireless has an option to extend the agreement for another five (5) year term and has expressed a desire to extend the sublease to continue cellular communications coverage in the Torrington area.

The University is a Lessee in a ground lease agreement with the landowner, Eastern Wyoming College. The ground lease grants the University the right to sublease space and facilities on the site to third parties, including but not limited to Viaero Wireless. The current annual lease rent is $1,800.00 and may be increased prior to a renewal term. The University proposed to increase the annual rent rate to $4,200.00 with a 3% increase per year during the term of the agreement to bring the rent within the market rent range for cellular sites with populations less than 25,000.

The sublease would be renewed for another five (5) year term ending December 31, 2025 or concurrent with the University’s agreement with the landowner, whichever is less. The University has the ability to terminate the sublease agreement with Viaero Wireless upon 180 days’ advance written notice. The University may assign its interest in the sublease with no less than thirty (30) days’ advance written notice. Viaero Wireless may not assign or sublease its rights without University consent.

At the direction of the Facilities Contracting Committee, the administration has finalized the sublease agreement for signature. The attached sublease amendment has been signed by Viaero Wireless and is ready for the University’s signature.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
None.

WHY THIS ITEM IS BEFORE THE BOARD:
Per UW Regulation 7-2, the Board of Trustees reserves authority to approve and/or sign contracts for “Other matters involving real property, including but not limited to the lease of real property;
easements; water rights and development; oil, gas and mineral leases; and federal or state government leases, permits, or licenses for longer than one year or more than $50,000”.

The administration requests approval to execute the Sublease Amendment to continue the sublease with Viaero Wireless.

**ACTION REQUIRED AT THIS BOARD MEETING:**

Board approval or disapproval of the recommendation of the Board’s Facilities Contracting Committee.

**PROPOSED MOTION:**

“I move to authorize Administration to execute the Amendment to the Sublease Agreement with Viaero Wireless as presented to the Board.”

**PRESIDENT’S RECOMMENDATION:**

The President recommends approval.

EXECUTIVE SUMMARY:
At the September 2016 Board of Trustees meeting, the Board approved review by UW Administration of UW’s current regulatory structure, to include the following:
1) Phasing out presidential directives;
2) Defining regulation versus policy/procedure;
3) Creating a new “look” and format for the regulations; and
4) Updating the substance of the regulations, policies, and procedures as needed, including determining whether there are any substantive gaps.

At the January 2017 Board of Trustees meeting, the University proposed 12 sections for the new Governing Regulations and Standard Administrative Policies and Procedures website.

Section 1: Governance and Structure
Section 2: Academic Affairs
Section 3: Athletics
Section 4: Diversity and Equal Opportunity
Section 5: Employment and Ethics
Section 6: Facilities
Section 7: Finance and Business
Section 8: Information Technology
Section 9: Research and Economic Development
Section 10: Safety and Security
Section 11: Student Affairs
Section 12: University Relations

The new structure will involve three levels of policies:
1) Governing Regulations (Level A)
2) Standard Administrative Policies and Procedures (Level B)
3) Department/Unit Administrative Policies and Procedures (Level C)

Attached are the following Section 2 Enrollment Management regulations, a Section 5 Employment and Ethics regulation, and a Section 7 Finance and Business regulation. These four regulations are similar in content and relate to a holistic review of tuition and fees at the University; therefore, they are packaged together for review.
• UW Regulation 2-200 (Student Classification for In-State and Non-Resident Tuition). Modifications to streamline the process by deleting a complicated calculation of financial independence. Added veterans language required by a change in law effective July 1, 2020. [NOTE: Included is a redline and clean version for ease of reading.]

• UW Regulation 2-203 (Registration Fees for Academic Credit). Sunset. New UW Regulation 7-11 (see below) clarifies that tuition and fees are established by the Trustees and published in the Fee Book. The rest of the content in 2-203 is informational and will be placed in the Fee Book or the University Catalogue.

• UW Regulation 5-4 (Tuition Privileges of University Employees and Other Eligible Personnel). Sunset. A simplified version of the content in this regulation has been added to new UW Regulation 7-11 (see below).

• NEW UW Regulation 7-11 (Tuition, Fees, Scholarships and Financial Aid). New regulation that addresses tuition, fees, scholarships and financial aid. Added a simple statement on tuition and fees, preserved the reduced tuition (150%) section, and added a catch-all section stating that the Trustees will approve any financial aid programs established by the University annually. Streamlined the sections on tuition privileges for employees and other eligible personnel. [NOTE: Included is a redline and clean version for ease of reading.]

Per the routing process for UW Regulations, the proposed modifications to the regulations were provided to the Cabinet, Deans and Directors, Faculty Senate, Staff Senate, ASUW, and the Internal Auditor.

The Trustees Regulation Committee will discuss this item at the December 2020 Board of Trustees conference call and recommend full Board action, if appropriate.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
None.

WHY THIS ITEM IS BEFORE THE BOARD:
UW Regulation 1-101 requires that the Board approve modifications to UW Regulations.

ACTION REQUIRED AT THIS BOARD MEETING:
Board approval, modification, or disapproval of the recommended modifications to the Regulations.

PROPOSED MOTION:
“I move to authorize modifications to UW Regulation 2-200, rescinding UW Regulations 2-203 and 5-4, and approval of new UW Regulation 7-11, as presented to the Board”

PRESIDENT’S RECOMMENDATION:

Number: UW Regulation 2-200

I. PURPOSE

To provide policies and procedures for determining whether a student qualifies for in-state or non-resident tuition.

II. DEFINITIONS

Domicile: A person's fixed, permanent, and principal home for legal purposes for a period of at least twelve (12) consecutive months preceding the term of enrollment.

Eligibility for domicile requires all of the following to be completed at least twelve (12) consecutive months before making an appeal for residency tuition:

A. Wyoming vehicle registration;

B. A valid Wyoming driver’s license; and

Gainful Employment: Documented employment or self-employment within the state of Wyoming of at least twenty (20) hours per week continuously for a period of at least twelve (12) months or the equivalent number of work hours over the same period. Employment and monies derived dependent upon a status as a student does not qualify for consideration as gainful employment.

III. STUDENT CLASSIFICATION FOR TUITION AND FEE PURPOSES

Individuals who qualify as Wyoming Residents shall pay the in-state tuition rate, as established by the Board of Trustees. All other students will be classified as non-resident for tuition purposes and shall pay the out-of-state tuition rate, as established by the Board.
of Trustees. For the purposes of determining qualification for in-state or non-resident tuition, the following apply:

A. Students residing in Wyoming primarily as a student are not eligible for resident status for tuition purposes.

B. Students who can provide sufficient documentation of the following, will be considered a resident for tuition purposes:

1. Any person whose Domicile is in Wyoming.
2. Graduates of a Wyoming high school.
3. Active Wyoming National Guard members and U.S. Armed Forces members stationed in Wyoming, and their dependents.

6. Individuals who have received an associate’s degree from a Wyoming Community College, have been awarded resident tuition status by the Community College, and who subsequently attend the University within one year of leaving the Wyoming Community College.
7. A financial dependent who is under the age of 24 or the spouse of an individual who is determined to be a Wyoming resident pursuant to this Regulation.
8. An applicant for resident tuition who is a veteran, eligible individual, or covered individual as described in 38 U.S.C. 3679(c)(2), shall qualify as a resident for purposes of tuition at the University of Wyoming if the applicant provides:

   a. A certificate or other evidence of the veteran’s or uniformed service member’s qualifying service in the uniformed services of the United States;

   b. Documented evidence before or at the time of enrollment at the University of Wyoming that:
The applicant for resident tuition intends to live in Wyoming during the term of enrollment;

The veteran was discharged or released from a qualifying period of service in the active military, naval or air service before the date of enrollment or the uniformed service member is currently on active duty;

The applicant is a veteran, eligible individual or covered individual as described in 38 U.S.C. 3679(c)(2).

c. A person who has qualified for resident tuition pursuant to the above requirements of this section, shall remain qualified in subsequent years if the person pursues one (1) or more courses of education while remaining continuously enrolled other than during regularly scheduled breaks, lives in the state during the term of enrollment; and, if the person is eligible through a transfer of eligibility pursuant to 38 U.S.C. 3319, the transfer has not been validly revoked. A spouse or child of a veteran, eligible individual, or covered individual as described in 38 U.S.C. 3679(c)(2) who is eligible for resident tuition under paragraph 8 at the time of admittance to the University of Wyoming shall not lose eligibility for resident tuition before the time of enrollment at the University because the veteran, eligible individual, or covered individual as described in 38 U.S.C. 3679(c)(2) is transferred on military orders outside of this state.

C. Individuals who are not U.S. citizens or permanent residents are considered non-residents except as provided by Section B2 above.

IV. PETITIONING AND APPEALING TUITION DETERMINATIONS

A student may petition for classification as a resident by submitting to the University Registrar or designee all accompanying documentation on or before the first day of classes for the semester the student wants the tuition classification to be reconsidered.

A student may appeal the Registrar’s decision to the Residency Classification Committee, within ten (10) calendar days of the date of the Registrar’s or designee’s decision. The members of the Residency Classification Committee shall be appointed by the President or designee.
The Residency Classification Committee will review the written decision of the Registrar along with the student’s original application and accompanying documentation which were submitted to the Registrar prior to the submission deadline for that semester and make a written finding to affirm or reverse the classification decision of the Registrar. The student has the burden of proof to show that the Registrar committed error in making the original decision regarding classification. The decision of the Residency Classification Committee is final.

Individuals may be reclassified when facts indicate that a change in residency has occurred since the time of original residence classification or since their most recent appeal. Such reclassification will remain in effect so long as the individual is continuously enrolled at the University. Reclassification as an in-state student will not be applied retroactively to previous terms.

A. Wyoming vehicle registration

B. 

I. A valid Wyoming driver’s license

All Fees are payable in advance, and no student shall be admitted to classes until Fees have been paid or a deferred payment plan has been established. Payment must be received by the University before any transcripts will be released. In accordance with the University refund policy, if a student formally withdraws from the University, the University shall refund tuition, minus any late fees.

C. III. 

D. Gainful Employment.

In addition, a student must have a Wyoming address on their most recent federal income tax return and a Wyoming voter registration.

Gainful Employment: Documented employment or self-employment within the state of Wyoming of at least twenty (20) hours per week continuously for a period of at least twelve (12) months or the equivalent number of work hours over the same period. Employment and monies derived dependent upon a status as a student does not qualify for consideration as gainful employment.

III. STUDENT CLASSIFICATION FOR TUITION AND FEE PURPOSES

Individuals who qualify as Wyoming Residents shall pay the in-state tuition rate, as established by the Board of Trustees. All other students will be classified as non-resident for tuition purposes and shall pay the out-of-state tuition rate, as established by the Board of Trustees. For the purposes of determining whether a student qualifies for in-state or non-resident tuition, the following apply:

A. For students who are originally classified as a non-resident, Students residing in Wyoming primarily as a student will not support a claim for resident status for tuition purposes.

B. Graduate or professional students who move to Wyoming primarily to enroll at the University of Wyoming. Students who can provide sufficient documentation of the following will be considered a non-resident for tuition purposes for the duration of their attendance except for those students who have met the criteria for sections C1, C2, C3, C4, or C5 below.

C. If the student provides sufficient documentation of the following, the student will be considered a resident for tuition purposes:
A. Any person who lives in Wyoming, including the spouse and any child (including a financial dependent who is under the age of 24) of that person if that person:
   a. Has his or her principal employment located within Wyoming and the income from his or her employment is the principal source of income for his or her family; and
   b. The individual pays Wyoming taxes as required by law; and
   c. He or she has been employed within Wyoming for at least a majority of the twelve (12) consecutive months immediately preceding the student’s application for resident tuition.

1. Any person whose Domicile is in Wyoming.

1.2. Graduates of a Wyoming high school.

2.3. Active Wyoming National Guard members and U.S. Armed Forces members stationed in Wyoming, and their dependents.

3.4. Graduate students for the duration of a University-funded or externally sponsored fellowship.

4.5. Wyoming residents temporarily absent from the State due to military service, attendance at an educational institution, or other type of documented temporary absence.

5.6. Individuals who have received an associate’s degree from a Wyoming Community College, have been awarded resident tuition status by the Community College, and who subsequently attend the University within one year of leaving the Wyoming Community College. A legal dependent under the age of 24 of a Wyoming Community College graduate shall qualify for tuition at the 150% of resident tuition rate at the University. Aside from the above, attending the University of Wyoming and a Wyoming Community College simultaneously or not being enrolled on a full-time basis at a Wyoming Community College does not qualify a student for resident status for tuition purposes at the University.

6.7. The spouse or a financial dependent who is under the age of 24 or the spouse of an individual who is determined to be a Wyoming resident pursuant to this Regulation.
B. Individuals with a permanent home in Wyoming. To determine if a permanent Wyoming home has been established, a variety of factors are considered, including evidence and supporting documentation of the following:

a. The student must be financially independent and have no reliance on resources outside the state of Wyoming for financial support for at least one year preceding the filing of the petition. If this criterion is not met, the student will be classified as a non-resident for tuition purposes.

(1) Financially Dependent students are defined as individuals who are financially reliant or are claimed on their parents’ or legal guardian’s most recent federal or state tax returns or rely on financial resources provided by individuals outside of the State of Wyoming.

(2) Financially Independent students are defined as individuals who are not financially reliant and are not claimed on their parents’ or legal guardian’s most recent federal or state tax returns and rely on financial resources that they generate or financial resources in the student’s name (such as savings, grants and loans). The burden of proof for meeting this definition will be on the students.

(3) To prove financial independence, students must show they financially covered their total expenses for at least the twelve (12) months immediately preceding the date of submitting an application for resident status. See the application form requesting financial information specific to the applicant for various categories of expenses.

(4) Student’s financial revenue may be generated from a variety of sources including but not limited to their employment earnings, financial aid, loans, non-University of Wyoming scholarships, savings accounts and grants.

(5) Student must document employment or self-employment for at least 20 hours per week continuously for at least the past year or the equivalent number of work hours over the past year. Work-study that is part of a UW financial aid package does not fulfill this requirement.

(6) Loans from institutions, such as banks and governmental entities, are not considered out of state resources. Financial
sources must show the student as the sole account holder. Any loans with a co-signer or a guarantor, except federal or state student loan program loans, shall not be used for purposes of proving financial independence. Funds provided by a family member, relative, a trust established or controlled by a family member or relative, or a friend, whether placed into a savings account or other financial holding or account, will indicate that a student is not financially independent.

b. The student must additionally meet four of the following criteria:

(1) Any former home has been abandoned and the individual has cut all ties with their former state for at least one year immediately preceding filing for residency tuition.

(2) If a home is owned in Wyoming, it shall be the owner’s primary residence, the individual shall have over 50% ownership interest, and ownership must be dated at least one year immediately preceding filing for residency tuition.

One full year of continual presence in Wyoming immediately preceding the filing for residency tuition.

(3) Wyoming vehicle registration at least one year immediately preceding filing for residency tuition.

Wyoming address on most recent federal income tax return for at least one year immediately preceding filing for residency tuition.

(4) A valid Wyoming driver’s license for at least one year immediately preceding filing for residency tuition.

(5) Wyoming voter registration for at least one year immediately preceding filing for residency tuition.

7.8 An applicant for resident tuition who is a veteran, eligible individual, or covered individual as described in 38 U.S.C. 3679(c)(2), shall qualify as a resident for purposes of tuition at the University of Wyoming if the applicant provides:

a. A certificate or other evidence of the veteran’s or uniformed service member’s qualifying service in the uniformed services of the United States;

b. Documented evidence before or at the time of enrollment at the University of Wyoming that:
Drafted by Enrollment Management and Financial Affairs 10-27-20

The applicant for resident tuition intends to live in Wyoming during the term of enrollment;

The veteran was discharged or released from a qualifying period of service in the active military, naval or air service before the date of enrollment or the uniformed service member is currently on active duty;

The applicant is a veteran, eligible individual or covered individual as described in 38 U.S.C. 3679(c)(2).)

c. A person who has qualified for resident tuition pursuant to the above requirements of this section, shall remain qualified in subsequent years if the person pursues one (1) or more courses of education while remaining continuously enrolled, other than during regularly scheduled breaks, lives in the state during the term of enrollment; and, if the person is eligible through a transfer of eligibility pursuant to 38 U.S.C. 3319, the transfer has not been validly revoked. A spouse or child of a veteran, eligible individual, or covered individual as described in 38 U.S.C. 3679(c)(2) who is eligible for resident tuition under paragraph 8 at the time of admittance to the University of Wyoming shall not lose eligibility for resident tuition before the time of enrollment at the University because the veteran, eligible individual, or covered individual as described in 38 U.S.C. 3679(c)(2) is transferred on military orders outside of this state.

D.C. Individuals who are not U.S. citizens or permanent residents are considered non-residents except as provided by Section C2B2 above.

IV. PETITIONING AND APPEALING TUITION DETERMINATIONS

Students

A student may appeal their petitions for classification as a resident or a non-resident through the following process:

A student assigned a non-resident classification may submit an application for residency for tuition purposes by submitting to the University Registrar or designee. The student must submit the application and all accompanying documentation on or before the first day of classes for the semester the student wants the tuition classification to be reconsidered.

If the Registrar or designee does not grant reclassification, the student may appeal on a form prescribed by the Registrar that the Registrar’s decision to the Residency

The Residency Classification Committee will review the written decision of the Registrar along with the student’s original application and accompanying documentation which were submitted to the Registrar prior to the submission deadline for that semester and make a written finding to affirm or reverse the classification decision of the Registrar. The student has the burden of proof to show that the Registrar committed error in making the original decision regarding classification. The decision of the Residency Classification Committee is final.

Individuals may be reclassified for the following term when facts indicate that a change in residency has occurred since the time of original residence classification or since their most recent appeal. Such reclassification will remain in effect so long as the individual is continuously enrolled at the University. Reclassification as an in-state student will not be applied retroactively to previous terms.

UNIVERSITY OF WYOMING REGULATIONS

Subject: Registration Fees for Academic Credit
Number: UW Regulation 2-203

I. REGISTRATION FEES

All publications containing statements of tuition and fees shall conform to the schedules set forth in the University of Wyoming Fee Book ("Fee Book"). All tuition and fees for academic semesters and summer session set forth in the Fee Book shall be assessed by the Financial Services Business Office, or designee, and collected by the University Cashier’s Office. No student shall be permitted to attend class until his or her registration has been completed. Courses with insufficient registration may be cancelled by the University and the full fees will be refunded to students enrolled in such courses.

II. LATE REGISTRATION FEE

Students are permitted to register as late registrants during the first ten (10) days of University scheduled classes for a regular semester or within the late period designated and announced for the summer term. Students who register late shall be assessed a late registration fee as set forth in the Fee Book. The fee shall be assessed by the Registrar, or designee; however, the Registrar, or designee, may waive the late registration fee if it is determined that the late registration was due to factors under the control of, or for the convenience of, the University.

III. LATE PAYMENT FEE

Students who initiate their registration during the regular registration period are expected to pay assessed tuition and fees according to the schedule and deadlines established by the Financial Services Business Office and approved by the University of Wyoming Trustees. Students who fail to pay registration tuition and fees during such period, shall be subject to assessment of a late payment fee as set forth in the Fee Book. The late payment fee shall be assessed by the Financial Services Business Office, except that the Financial Services Business Office may waive the late payment fee if it determines that the late payment was due to factors under the control of, or for the convenience of, the University.

IV. FULL-TIME STUDENTS

Students enrolled for twelve (12) or more credited hours (9 or more for graduate students) during academic semesters are classified as full time students. Students enrolled for fewer than 12 hours (9 for graduate students) are classified as part-time students. Certain University services and privileges are afforded to full time students: free or reduced cost admission to cultural affairs, University theatre productions and intercollegiate athletic contests; access to
the Student Health Service; participation in the University Student Loan program; and
membership in the Associated Students of the University of Wyoming. Part-time students
enrolled in six (6) or more hours and certain graduate students may elect the services and
privileges afforded full-time students as outlined in the Optional Student Fee Package section
in the Fee Book. The distinction between full and part-time students is not made during the
summer session, except for the purpose of satisfying veterans’ administration or student
financial aid regulations.

V. CHANGE FROM FULL-TIME TO PART-TIME STATUS

Any student who registers as a full-time student and subsequently drops from full-time to
part-time, and who receives a partial refund according to the refund schedule, forfeits access
to full-time student services.

Any student who registers as a full-time student and pays full-time student fees and
subsequently drops below full-time student status, but does not receive a refund by virtue of
reducing the academic load subsequent to the refund period, will continue to be eligible for
full-time student services.

ACTION REQUIRED AT THIS BOARD MEETING:
Board approval, modification, or disapproval of the recommended modifications to the Regulations.

PROPOSED MOTION:
“I move to authorize modifications to UW Regulation 6-7, as presented to the Board”

PRESIDENT’S RECOMMENDATION:
UNIVERSITY OF WYOMING REGULATIONS

Subject: Space Assignment and Management
Number: UW Regulation 6-7

I. POLICY

All University facilities, whether owned or leased, belong to the University as a whole and are considered to be an allocable resource to be utilized in the best interests of the institution. Accordingly, the proprietary interests of individual organizational units shall not exclusively define the allocation and use of campus space, especially when larger institutional interests are thereby sacrificed.

The University seeks to utilize its finite facilities resources efficiently. Physical space can be a limiting resource in the development, advancement, and effective improvement of the University’s academic and research programs; therefore, effective utilization of all facilities are this valuable resource is essential to the success of the University, its faculty and its students. Space is a critical University-owned resource and is subject to periodic allocation, evaluation, and reassignment to meet changing institutional needs and priorities of the University. Stewardship of space resources is a joint effort between all University staff, faculty and student and relies upon everyone to ensure that space is used to support student success, foster collaborative research, and promote positive work environments.

The President has overall responsibility and authority for facilities planning and management and space allocation. This responsibility and authority have been delegated by the President to the Vice President for Finance and Administration who, in consultation with the President, makes major allocations of space to each of the eight administrative divisions. Space assigned to these administrators may be further delegated as deemed appropriate.

II. FACILITIES INVENTORY AND CLASSIFICATION

Responsibility for the maintenance of the University’s Facility Inventory and building floor plans is assigned to the Facilities Planning Office (FPO). The inventory database is maintained to provide current statistical data required for effective management of University facilities and provides a master inventory of all space including an identification of the spaces and the unit to whom it is currently assigned (including split and multiple assignments), room classifications, and any use restrictions. All spaces are classified in accordance with the most recent edition of the “Postsecondary Education Facilities Inventory and Classification Manual” published by the National Center for Educational
Draft 11-25-20

Statistics. All space assignments are recorded on the inventory database to the lowest identified departmental level (e.g. Academic Affairs, College of Business, Accounting Department.)

It is the responsibility of each administrator with delegated responsibility for space management to ensure that changes in assignment, classification, and function are reported to the FPO.

The FPO periodically verifies space assignments and usage with administrators to whom space is assigned to update the facilities inventory.

III.II. LONG-TERM SPACE REQUESTS

Requests for Divisions/Units shall submit all ongoing additional or alternative space beyond the control of a vice president should be resolved whenever possible between vice-presidential units. If a solution cannot be found, then space strategic space needs with the Division’s proposed annual budget pursuant to UW Regulation 7-1 (Operating Budget). These requests shall be referred presented to the Space Allocation Committee for a mutually acceptable resolution to all parties. The FPO is available to provide an evaluation of space options and should be utilized for resolution of space requests, as designated by the President, for final action.

The Vice President for Finance and Administration, as Chair of the Space Allocation Committee, shall refer unresolved all space requests that involve expenditure of funds or repurposing of space to the President’s Cabinet for advice. The President, acting upon the recommendations of the Vice-President for Administration and the Cabinet, who shall make the final decision.

GUIDELINES FOR If Divisions/Units request additional space outside of the annual budget process, the Space Allocation Committee, in consultation with the President, shall meet as needed to determine whether the request is warranted (i.e., critical or time-sensitive). If warranted, the Space Allocation Committee shall take final action, or refer to the President as outlined above. All space requests approved outside of the annual budget process shall be reported to the Board of Trustees during the next budget cycle.

IV.III. ASSIGNMENT AND USE OF TEMPORARY SCHEDULED SPACES

Scheduled Temporary or short-term scheduled spaces consist of all facilities not assigned long term (e.g., all instructional spaces, conference rooms, auditoria, performance rooms, University grounds, and gymnasiums available for use by the entire University community). These spaces are classified in one of four categories: Similar to long-term space assignments, priorities for temporary scheduled spaces shall be in accordance with University needs, not the needs of a single department, school or college. These spaces are classified in three categories:
Draft 11-25-20

A. Spaces centrally scheduled through the office of Central Scheduling UW Operations;

B. Spaces scheduled through the administrative office with the delegated authority for the assigned space (e.g., Wyoming Union, Intercollegiate Athletic facilities, Residence Life facilities); and

C. Spaces where a unit is permitted scheduling priority but that can be scheduled by Central Scheduling UW Operations after considering the needs of the priority unit. These spaces are scheduled through Central Scheduling; and UW Operations.

D. Restricted classrooms and similar spaces in which a department has made a significant investment of its funds (either University or donor) for the purpose of refurbishing, modifying, or equipping a space for its needs. These spaces may be scheduled for approved activities with the permission of the administrative office to which the space was delegated.

A departmental request to control or restrict scheduled spaces requires the approval of the vice president with administrative authority for the unit.

It is the goal of the University to maintain and preserve its high-quality instructional spaces. Requests to convert any instructional space to another use requires a space analysis performed by the FPO to determine if there is a better alternative to the conversion of a classroom to meet the needs of the unit making the request, and requires the approval of the Cabinet.

V. ANNUAL REVIEW OF SPACE ASSIGNMENT AND UTILIZATION

At least annually, the Vice President for Administration shall convene the Cabinet to review existing space assignments and utilization, with particular attention to the use of scheduled spaces and the availability of classroom space for instructional purposes. Based upon that analysis and Cabinet recommendations, the Vice President for Administration may recommend to the President changes in the allocation, assignment, function, or scheduling authority of assigned or scheduled space.

VI. SPACE PLANNING AND ASSIGNMENT GUIDELINES

To the extent possible, planning for and assignment of space to provide for the broad range of University programs and activities will be made in accordance with guidelines approved by the Cabinet. The FPO, which is responsible for maintaining these guidelines, is available to assist University departments with their efforts to plan for changing or expanded space requirements. The FPO should be consulted for guidelines and standards.
Draft 11-25-20
defining space allocations for different uses, life and fire safety code considerations, and the suitability of various University facilities for specific uses.

VII. ADMINISTRATION

The Vice President for Administration shall be responsible for the implementation of this Regulation and the maintenance of the Facility Inventory through the FPO.

IV. EMERGENCY SITUATION

In an emergency situation, the University’s space needs, including both long-term and short-term spaces, will take priority over the needs of departments, schools or colleges.

EXECUTIVE SUMMARY:

The American Council for Graduate Medical Education (ACGME) requires that the Board of Trustees receive and review the Summary of the Annual Institutional Report of the University’s Graduate Medical Education (GME) program. The attached report provides background information and a status report regarding the GME programs at the Casper and Cheyenne Family Medicine Residency Programs (FMRP). Highlights of the report include the following:

- The ACGME recognizes that the FMRP continues to show improvements in its culture and educational environment.
- The FMRP produced the first board-certified Geriatrician trained in Wyoming.
- The first Rural Training Track resident physician—a Wyoming native and WWAMI graduate—began her residency in June 2020.

PRESIDENT’S RECOMMENDATION:
NA
Institution: The University of Wyoming received a follow-up Institutional Site Visit in October 2019 that demonstrated that our efforts to develop GMEC infrastructure at our institution are successful. We have been able to educate and engage the University's Board of Trustees with the presentation of the AIR Summary as well as the Board of our clinical entity, the Educational Health Center of Wyoming. A CLER (Clinical Learning Environment Review) visit was conducted by the ACGME in January 2020 at our Casper site and went well. Although there is still much work to be done, we are moving our culture and educational environment in the right direction. Ten of the eleven ACGME citations have been resolved. The remaining citation asks the institution to improve its oversight of the resident/fellow clinical and educational work hours in an independent manner, separate from the programs’ monitoring processes. Therefore, the plan moving forward will be to conduct an independent, anonymous annual survey to all the residents and fellows regarding work hour compliance.

The COVID-19 pandemic has been challenging for us like everyone else. As a rural state with a population of just over 500,000, we have not had the large caseloads like more urban areas. We transitioned to virtual/telehealth quickly in our clinics. The residencies/fellowship collaborated with the hospitals and other community organizations to meet the care needs of the community. Although there was some disruption of several educational activities that were located in private community physician offices, the vast majority of educational experiences have been able to return to pre-COVID status.

Cheyenne: The Cheyenne Family Medicine program has had a challenging year but has continued annual accreditation with the ACMGE with resolution of the all previous citations except one (pediatric visit requirement) and only one area of improvement (faculty scholarly activity). There were planned departures of two faculty members in the summer of 2019 for relocation and retirement that left the program slightly short-handed. A third faculty member going on indefinite administrative leave for health reasons last fall exacerbated the shortage situation. Efforts for retention and recruitment of faculty were implemented with financial compensation and recruitment of locum and visiting attending assistance. Another faculty member relocated in August of 2020 and thus faculty shortage remains a significant issue. The program has successfully recruited one new faculty member, which will keep the program in compliance with the ACGME-required faculty/resident ratio, and there are several other interested and qualified candidates. In efforts to help with recruitment and retention of faculty, the EHCW Board is providing supplemental compensation to our Cheyenne faculty out of clinical reserves, as base salary raises were not feasible in light of state funding cuts. Of note, the average timeframe to fill a Family Medicine faculty vacancy is 2-3 years, leaving remaining faculty to cover all academic faculty duties, all faculty clinical duties at the clinic, and the 24/7 coverage of the hospital.

The program performed their Self-Study visit in February 2020; the report is still pending. The site visit focused on resident survey elements and faculty shortage. After two years of poor results with the ACGME Resident Survey, the 2018-19 Resident Survey demonstrated significant improvement in all previous areas of concern. The 2019-20 Resident Survey maintained these results, which are within the range consistent with other Family Medicine programs across the country. This is no small feat in light of the faculty shortage, on-site clinic leadership transitions, and pandemic stressors. However, in conversations with the program's residents, they appropriately expressed concern regarding faculty shortages, clinical leadership changes, and new financial challenges in the wake of COVID in addition to previous clinical income shortfalls. The program also struggled with the Match for new residents, going unmatched with two positions that were subsequently filled successfully via the scramble process. The
program has remained on Special Review status with ongoing efforts to stabilize and support the program from the GMEC.

**Casper:** The Casper Family Medicine program demonstrated significant improvement in the 2018-19 Resident Survey and maintained those results with the 2019-20 ACGME Resident survey. Dr. Brian Veauthier was able to fill all faculty vacancies with the hiring of Dr. Blaine Levy (FM with surgical OB) and Dr. Genomary Krigbaum (psychologist, faculty behaviorist). The main hospital for inpatient educational experiences, Wyoming Medical Center, has been purchased by the Banner Health system. The program received continued ACGME accreditation with resolution of the one previous citation.

**Osteopathic Recognition Track** - Casper: The Osteopathic Recognition Track had its initial ACGME site visit in December 2018 and received continued annual recognition with resolution of all previous citations, which were mainly clerical. One new clerical citation has already been addressed. Osteopathic medicine and manipulation services are mainstays of the educational and clinical experience at the Casper program.

**Geriatric Fellowship** - Casper: The first 0.5 FTE Geriatric fellow, Dr. Thrasher, started in October 2018 and will complete her fellowship in October 2020. The two-year, part-time fellowship structure continues to go well and will likely remain as the ongoing format of the fellowship. Dr. Thrasher plans to take her geriatric boards this fall and then will step into the role as the permanent Geriatric Fellowship director. We are excited to produce the first board-certified Geriatrician trained in Wyoming. Recruitment of the next fellow will begin this fall. All citations were resolved with continued annual accreditation.

**Thermopolis Rural Training Track (RTT)** - Casper: The RTT matched its first resident in March 2020 and she started her intern year in Casper in June. A Wyoming native and Wyoming WWAMI graduate, she is the perfect example of the pipeline to build a primary care physician workforce for our state. We received a $2.1 million 5 year PCTE-RTPC federal grant to fund and enrich this inaugural Rural Training Track in the state of Wyoming. Ongoing work to complete preparation of the curriculum, evaluations, faculty development, and overall logistics at the rural site will be the focus of our RTT team over the next year in preparation for the first RTT resident to start at the rural site in July 2021.

**Summary:** Wyoming’s Graduate Medical Education has managed to grow and improve over the past year despite the challenges of the COVID-19 pandemic. The training programs and clinics adapted quickly to the need for modified and creative educational experiences and delivery of healthcare. Exceptional teamwork and professionalism enabled this to occur and remain ongoing. The wellness and safety of our faculty, residents and staff continue as priorities, but like many healthcare workers, fatigue is setting in. The additional stressors of state funding cuts, on top of prior cuts just a few years ago, provide ongoing challenges to maintaining quality Graduate Medical Education. Pandemic-related decrease in clinical income adds to this further (most notably due to telehealth’s lower reimbursement rates in comparison to in-person encounters), creating a challenging balance between safety and income.

**Future of GME in Wyoming:** The GME Committee concurs that the future of graduation medical education in Wyoming is at a crossroads. Despite the improvement that has been made both educationally and clinically, the residency programs are not sustainable without adequate financial support from the sponsoring institution. State funding continues to be decreased, and there is
increased reliance on clinical income to cover the state funding shortfalls, resulting in productivity vs. service conflict. Although our clinical partner, the Educational Health Center of Wyoming, has been generous in its support of the residencies, they are obligated to run a business that meets budget. Hosting the residency programs results in expensive overhead that could be avoided with a smaller group of experienced, efficient providers. The GME Committee leadership concludes that if the sponsoring institution is not willing or able to invest more in the residencies, then it may be advisable to consider closing one or both of the programs or seek out an alternative model of GME in Wyoming.
