THE UNIVERSITY OF WYOMING

BOARD OF TRUSTEES’ REPORT
AND SUPPLEMENTAL MATERIALS

May 12-14, 2021
The final report can be found on the University of Wyoming Board of Trustees Website at [http://www.uwyo.edu/trustees/](http://www.uwyo.edu/trustees/)

**University of Wyoming Mission Statement** (July 2017)

We honor our heritage as the state’s flagship and land-grant university by providing accessible and affordable higher education of the highest quality; rigorous scholarship; the communication and application of knowledge; economic and community development; and responsible stewardship of our cultural, historical and natural resources.

In the exercise of our primary mission to promote learning, we seek to provide academic and co-curricular opportunities that will:

- Graduate students who have experienced the frontiers of scholarship and creative activity and who are prepared for the complexities of an interdependent world;
- Cultivate a community of learning energized by collaborative work among students, faculty, staff and external partners.
- Nurture an environment that values and manifests diversity, internationalization, free expression, academic freedom, personal integrity and mutual respect; and
- Promote opportunities for personal health and growth, physical health, athletic competition and leadership development for all members of the university community.

As Wyoming’s only public university, we are committed to scholarship, outreach and service that extend our human talent and technological capacity to serve the people in our communities, our state, the nation and the world.
TRUSTEES OF THE UNIVERSITY OF WYOMING AGENDA
May 12-14, 2021
Marian H. Rochelle Gateway Center
Laramie, Wyoming

Note: Only topics that have support materials provided in advance of the meeting are contained within this report. Topics that will be discussed with only a verbal report do not have information included.

WORK SESSIONS

Information: Strategic Scenario Planning – Seidel/Alexander ..........................................................6

Consideration and Action: Enrollment Management Plan, Recruitment Marketing Plan, and Transfer Initiatives (FY23) – K Moore/N Courtney .................................................................7

Discussion: Tuition recommendations, timeline, and public input – McKinley/Jewell

Consideration and Action: UW Campus Housing (Facilities Contracting Committee) – McKinley

Trustee Committees Reports

Academic and Student Affairs Committee; Michelle Sullivan (Chair)

- Consideration and Action: UW Master List of Degrees – Alexander ........................................9
- Consideration and Action: Proposed Name: Department of Civil and Architectural Engineering and Construction Management .................................................................20
- Consideration and Action: Request for Authorization:
  - M.S. in Environment, Natural Resources, and Society (ENRS) ...........................................24
  - BAS Health Sciences Admin (Additional concentration) ..................................................45
  - Plant Production & Protection, with Concentrations and Minors .....................................62

Biennium Budget Committee; John McKinley (Chair)

- Discussion: Budget timeline
- Consideration and Action: UW Campus Housing financing – Jewell

Facilities Contracting Committee; John McKinley (Chair)

- Consideration and Action:
  - Wyoming Hall 15th Street Utilities Change Order ...................................................74
  - Lewis Street Corridor Amendment for Landscape Architect ..................................77
  - Corbett Construction Contract Change Order .........................................................78
  - Ivinson Parking Garage Exterior ............................................................................79
  - UW Campus Housing Exterior ................................................................................81
  - UW Campus Housing Interior Design and Program ..............................................83
  - UW Campus Housing Architect Amendment Expanded Site Scope ..................85
  - UW Campus Housing Architect Amendment Extended Contract .....................87
  - Southeast Regional Center Lease Extension with Laramie County Community College .................................................................89
  - Carbon Power & Light Easement Request at the Livestock Center .......................116
Fiscal and Legal Affairs Committee; Macey Moore (Chair)

- **Consideration and Action:**
  - Annual internal audit plan (per Trustee Bylaws) – Moore/Salmans ...................124

Honorary Degrees and Awards Committee; Michelle Sullivan (Chair) [if necessary]

Trustees Legislative Relations Committee; Kermit Brown (Chair)

- Legislative Session Update – Brown/Mai [verbal report]

Trustees Research and Economic Development Committee: David Fall (Chair)
Vice President and Dean Search Committee; Laura Schmid-Pizzato (Chair)

UW Regulation Review Committee (ad hoc committee); Kermit Brown (Chair)

- Consideration and Action: Modifications to UW Regulations – Evans
  - UW Regulation 2-4 (Guidelines for Establishing Academic Professionals) ......127
  - UW Regulation 9-1 (University IP) .....................................................................187

Regular Business

Liaison to Other Boards

[Note: Committees of the Board will provide reports during the regular work sessions and will not have a formal report to provide during the Business Meeting. Liaisons will provide a written report prior to the regular May 13, 2021, Business Meeting.]

Proposed Items for Action:

I. Approval of Agreements, Contracts, and Procurements – Evans
II. Contracts and Grants – Jewell/Synakowski .........................................................227
III. Person nel - Academic Report and Non-Academic Report – Alexander/Benham-Deal
IV. Set the amount of the Deputy Treasurer’s and Treasurer’s bond and designate/set any other appropriate bonds (W.S. Sec. 21-17-203) – Theobald ........................231
V. Designate depositories for UW Funds – Jewell .....................................................234
VI. Real Estate
VII. WWAMI Repayment

Information Only Items: [no action, discussion or work session]

- Contracts and Procurement Report (per UW Regulation 7-2) – Evans .......238
- Capital Construction Report – McKinley/Mai .........................................................246
Foundation Monthly Giving Report – Blalock

New Business

Date of Next Meeting: June 16, 2021 (conference call)

Adjourn Meeting
AGENDA ITEM TITLE: **Strategic Scenario Planning**, Seidel/Alexander

SESSION TYPE:
☐ Work Session
☐ Education Session
☐ Information Item
☒ Other:
[Committee of the Whole – Items for Approval]

APPLIES TO STRATEGIC PLAN:
☒ Yes (select below):
☒ Driving Excellence
☒ Inspiring Students
☒ Impacting Communities
☒ High-Performing University
☐ No [Regular Business]

EXECUTIVE SUMMARY:
In response to significant budget headwinds and a need to evolve UW to a new vision, UW kicked off a strategic scenario planning process in late 2020. More than 100 UW faculty, staff, students, and others have worked together on various components of this scenario planning, including the Strategic Scenario Planning core team; the Strategic Portfolio Review team; the Digital Pillar, Inclusivity Pillar, Interdisciplinary Pillar, and Entrepreneurship Pillar teams; and the Blue Sky team. The Board will receive a summary of this work and plans for using this work in the next few months to start strategic planning for the next UW Strategic Plan 2022+.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
March 2021

WHY THIS ITEM IS BEFORE THE BOARD:
To review the Strategic Scenario Plan and provide guidance on how we will use this plan going into AY 2021-22.

ACTION REQUIRED AT THIS BOARD MEETING:
N/A

PROPOSED MOTION:
N/A

PRESIDENT’S RECOMMENDATION:
N/A
AGENDA ITEM TITLE: Enrollment Management Plan, Recruitment Marketing Plan, and Transfer Initiatives (FY23) – K Moore

SESSION TYPE: ☐ Work Session □ Education Session ☐ Information Item ☐ Other: [Committee of the Whole – Items for Approval] ☐ Yes (select below):
☐ Driving Excellence ☒ Inspiring Students ☐ Impacting Communities ☐ High-Performing University
☐ No [Regular Business]

Attachments are provided with the narrative—refer to Supplemental Materials Report.

EXECUTIVE SUMMARY:
The Recruitment, Retention, Student Success and Marketing efforts of UW are critical to University success. This presentation will present data and evidence to support extending the “test-optional” requirement for admissions. Many institutions and educational systems, as well as states have eliminated the requirement for standardized tests for entry and UW must remain competitive in the marketplace for recruiting students.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
Annual Topic

WHY THIS ITEM IS BEFORE THE BOARD:
In September of 2020 the Board approved a request to suspend standardized test requirements for purposes of admissions to the university for the 21/22 academic year (AY) as required by UW Reg 2-201. With lingering impacts of COVID 19, growing adoption of test-optional admission amongst our competitors and test availability not improving, the UW Administration is requesting consideration to extend its suspension of the standardized test requirement for the 22/23 AY.

ACTION REQUIRED AT THIS BOARD MEETING:
Action requested on the Enrollment Management Plan, Recruitment Marketing Plan, and Transfer Initiatives (FY23)

PROPOSED MOTION:
I move to suspend the requirement of a standardized test score for admission for the 2022/2023(AY) as required by UW Regulation 2-201.

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
AGENDA ITEM TITLE: Financial Aid Strategy 2022-23, Jewell

SESSION TYPE: ☑ Work Session
☐ Education Session
☐ Information Item
☐ Other:
[Committee of the Whole – Items for Approval]

APPLIES TO STRATEGIC PLAN:
☑ Yes (select below):
☐ Driving Excellence
☒ Inspiring Students
☐ Impacting Communities
☐ High-Performing University
☐ No [Regular Business]

☐ Attachments are provided with the narrative—refer to Supplemental Materials Report.

EXECUTIVE SUMMARY:
The Financial Aid Strategy approved in July 2019 was implemented for the 2020-21 and 2021-22 recruiting cycles. Identifying the effectiveness of this new strategy for fall of 2021 was not possible due to the Covid 19 pandemic in combination with the other financial aid resources made available through Federal stimulus. Without meaningful data to drive changes, the same strategy has been used for fall 2021 and while we believe this strategy has been positive for the residents of Wyoming we are still seeing declines from our non-resident populations. An analysis of the final enrollment and net revenue outcomes after the fall 2021 census will be done to determine if this strategy is successful or needs modifications.

In order to achieve the projected net revenue outcomes for the 2022-23 recruiting and awarding cycle, the Administration recommends the following: 1) maintaining the current first year grids (Please note if test scores are reinstated for admissions the grids will eliminate the test optional column), 2) modify awarding of the Cowboy Need Grant to use a flat amount for the Expected Family Contribution (EFC) bands versus meeting a percentage of the student’s unmet need, which would allow for more meaningful conversations with families since the figure would not constantly be reduced as other aid is received (an analysis of this need grant is being done internally and with the services of Ruffalo Noel Levitz (RNL), and 3) review current transfer award opportunities (specifically, WUE 150% Transfer Award and Cowboy $4,000 Transfer Commitment) to determine if these amounts and the awarding criteria are financially sustainable for future years.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
The current Financial Aid Strategy and status of awards was presented for review and discussion at the March 2021 Board meeting.

WHY THIS ITEM IS BEFORE THE BOARD:
Financial Aid Strategies require annual Board approval.

ACTION REQUIRED AT THIS BOARD MEETING:
The Board approves after careful review and discussion of the recommended Financial Aid Strategies presented for the 2022-23 year.

PROPOSED MOTION:
I move to authorize Administration to adopt and approve the recommendations for the 22-23 Financial Aid Strategy.

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
AGENDA ITEM TITLE:  Master List of Degrees, Sullivan/Alexander

SESSION TYPE:     
☐ Work Session
☐ Education Session
☐ Information Item
☒ Other:
[Committee of the Whole – Items for Approval]

APPLIES TO STRATEGIC PLAN: 
☒ Yes (select below):
☐ Driving Excellence
☒ Inspiring Students
☐ Impacting Communities
☐ High-Performing University
☐ No [Regular Business]

☒  Attachments are provided with the narrative.

EXECUTIVE SUMMARY: 
Per UW Regulation 2-119, at its annual meeting in May, the Board of Trustees shall approve the master list of Academic Programs offered by the University of Wyoming. The list may be amended by the Board at any meeting.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS: 
The Board reviews and approves the Master List of Degrees and Majors annually each May.

WHY THIS ITEM IS BEFORE THE BOARD: 
University of Wyoming Regulation 2-119 requires that the Board approve the Master List of Degrees and Majors annually in May. The Academic and Student Affairs committee will report to the Board on recommended action for approval the master list.

ACTION REQUIRED AT THIS BOARD MEETING: 
Consideration for approval the Master List of Degrees and Majors.

PROPOSED MOTION: 
“I move that the 2021 Master List of Degrees and Majors be approved.”

PRESIDENT’S RECOMMENDATION: 
The President recommends approval.
UNIVERSITY OF WYOMING
MASTER LIST OF DEGREES AND MAJORS
as authorized by the Trustees
May 2021
Prepared by the Office of Academic Affairs

By way of explanation, the degree title is listed in *bold italics* (for example, *Bachelor of Arts, Bachelor of Science in Chemical Engineering*). The list of majors for a specific degree in a specific college is listed below the degree title. Information in *italics* and parentheses ( ) following a major is explanatory data, and not part of the official major name. Majors with brackets {} require the insertion of a secondary program of study.

New Degrees and Certificates have been highlighted in *green*. Programs in *red* are listed as Inactive Admission Status. Their status will be determined at a later date, once departments are merged and curriculum is changed. Degrees and Certificates to be deleted from previous Master Lists are highlighted in yellow and crossed out. The deletions are programs that were duplicated in other departments or that UW has ceased to offer over time; all eliminated programs have gone through the process as outlined in the University regulations for eliminating programs. As such, the Master List of Degrees and Majors has been corrected to reflect current offerings.

**COLLEGE OF AGRICULTURE & NATURAL RESOURCES**

*Bachelor of Science*
- Agricultural Business
- Agricultural Communications
- **Agroecology** (replaced with Plant Production and Protection)
- Animal and Veterinary Science
- Microbiology
- Molecular Biology
- **Plant Production and Protection** (Pending BOT approval May 21)
- Rangeland Ecology and Watershed Management

*Bachelor of Science in Family and Consumer Sciences*

*Master of Arts*
- Molecular Biology

*Master of Science*

AGENDA ITEM TITLE: Department name change to: Department of Civil and Architectural Engineering and Construction Management, Denzer, Barrett

SESSION TYPE:
☐ Work Session
☐ Education Session
☐ Information Item
☒ Other:

[Committee of the Whole – Items for Approval] ☒

☐ Other:

APPLIES TO STRATEGIC PLAN:
☐ Yes (select below):
☐ Driving Excellence
☐ Inspiring Students
☒ Impacting Communities
☐ High-Performing University
☒ No [Regular Business]

Attachments are provided with the narrative.

EXECUTIVE SUMMARY:
The Department of Civil & Architectural Engineering is requesting a name change to Department of Civil and Architectural Engineering and Construction Management.

• The proposed name will accurately reflect the identity of the Department. The B.S. program in Construction Management was approved by Trustees in November 2018. It is now well-enrolled and partly-staffed with new faculty. All indicators point to success.
• For the B.S. program in Construction Management, we will seek “candidate status” for accreditation with the American Council for Construction Education (ACCE) in Fall 2020. This change will help satisfy ACCE requirement 2.1.2.1: "The educational unit is a distinct and identifiable entity within the educational institution."
• “Department of Civil and Architectural Engineering and Construction Management” is the typical naming convention for other departments with the same profile (University of Cincinnati; Milwaukee School of Engineering).

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
Text to be inserted. Please identify previous discussions of this topic and include the month/year of the Board meeting(s). None.

WHY THIS ITEM IS BEFORE THE BOARD:
“Existing Degree Program Change Request Title Change, Degree Designation, or CIP Change” process requires Board of Trustee approval for department name change.

ACTION REQUIRED AT THIS BOARD MEETING:
Respectfully request Board of Trustee approval for this department name change.

PROPOSED MOTION:
I move to authorize administration to change the name of the “Department of Civil & Architectural Engineering” to the “Department of Civil and Architectural Engineering and Construction Management.”

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
University of Wyoming

Existing Degree Program Change Request
Title Change, Degree Designation, or CIP Change

**Directions:** Complete this form and proposal template to request a change to the title (name) of an existing degree program or to request a change to the Classification of Instructional Programs (CIP) code of an existing degree program. The degree program must already be on an institution’s program inventory.

- A degree program title consists of the following two parts:
  1. degree designation, such as Bachelor of Science (BS), Master of Arts (MA), or Doctor of Philosophy (PhD); and,
  2. name of the discipline, such as History, Mechanical Engineering, or Zoology.

- The Classification of Instructional Programs (CIP) is the taxonomic coding scheme used for instructional programs in higher education. Its purpose is to facilitate the organization, collection, and reporting of fields of study and program completions. The academic unit should consult with the Office of the Registrar and Office of Institutional Analysis prior to submitting the proposal to determine whether a change to the CIP code used to classify the program is recommended. For more information, visit [CIP Code Information](#).

**Process:**
1. Faculty of the unit develop a rational for the change.
2. The dean of the academic unit approves the rationale and change and submits the proposal to the Provost.
3. The Provost routes the proposal to the Faculty Senate for consideration by the Graduate Council or Academic Planning Committee.
4. The Provost approves the rationale and change.
5. The Provost reports the proposal to the Academic and Student Affairs Committee of the Board of Trustees.
6. The Board’s Academic and Student Affairs Committee will recommend the change to the full Board of Trustees for consideration and action.
7. The proposers hold an implementation meeting with the Registrar, Admissions, OIA, and Advising Managers, and other appropriate units to implement the change. Implementation meetings gather people from all of the units that will take part in ensuring a new or restructured academic program runs smoothly.

**Guidance:** Name and identity are closely related. A program “brand” as represented by the name has value and so careful planning for a name or designation change is a worthwhile investment. Programs with a long history and many alumni and past employees may find that these groups express strong attachment to the existing name. Thus, the rationale for the name change should be made with full consideration for the impact on the historic connections and with a view to the long-term future. New names should be designed to reflect the nature of the program for many years to come. Ideally, consultation with and support from the program’s students in course and alumni should be evident in the proposal.
Existing Program Change
Page 2

Programs should also demonstrate that they have consulted with other departments and colleges on campus that may be impacted by the change. Additionally, they should demonstrate they have discussed the change with their Wyoming community college colleagues.

Program names that narrow the program scope or reflect short-term sub-areas or trends in research tools or methodology should be avoided. Proposals should be explicit about all the academic programs and structures that are included in a name change request. For example, list all departments, majors, degrees, certificates, centers, subject listings, minors or other academic elements that are included in the request.

Some common justifications for a change in major name or CIP code are that the new name more accurately reflects the curriculum than the old name; that the activities of the program faculty and the training they offer are more accurately reflected by the new name; and that the name of the discipline has changed and consequently the major should be renamed to reflect this change in the discipline.

Adminitrative Information
Complete all info in this box, and then complete the appropriate request on p. 3 or 4

1. Proposed Unit: Department of Civil & Architectural Engineering

2. Current Degree Program Title: We have 6 degree programs; no changes proposed.

3. Current Degree Program CIP Code: No changes proposed

4. Contact Person: Provide contact information for the person who can answer specific questions about the degree program and change proposal.

   Name: Anthony Denzer
   Title: Department Head
   E-mail: tdenzer@uwyo.edu
   Phone: 307-399-7376
Request Change in **Name of Department**

Current Name: **Department of Civil & Architectural Engineering**

Proposed Name: **Department of Civil and Architectural Engineering and Construction Management**

Implementation Date (MM/DD/YYYY): **07/01/2020**

**Reason for Change:**

- The proposed name will accurately reflect the identity of the Department. The B.S. program in Construction Management was approved by Trustees in November 2018. It is now well-enrolled and partly-staffed with new faculty. All indicators point to success.
- For the B.S. program in Construction Management, we will seek “candidate status” for accreditation with the American Council for Construction Education (ACCE) in Fall 2020. This change will help satisfy ACCE requirement 2.1.2.1: "The educational unit is a distinct and identifiable entity within the educational institution."
- "Department of Civil and Architectural Engineering and Construction Management" is the typical naming convention for other departments with the same profile (University of Cincinnati; Milwaukee School of Engineering).
- There are no serious logistical issues.
- The faculty voted unanimously in favor of this change (5/5/20).
- Dean Wright has been consulted and is supportive.
- No curriculum changes are associated with this. There are no effects on students in the program.
AGENDA ITEM TITLE: M.S. in Environment, Natural Resources, and Society (ENRS), Koprowski, Ahern

SESSION TYPE:
☐ Work Session
☐ Education Session
☐ Information Item
☒ Other:
[Committee of the Whole – Items for Approval]

APPLIES TO STRATEGIC PLAN:
☐ Yes (select below):
☐ Driving Excellence
☐ Inspiring Students
☒ Impacting Communities
☐ High-Performing University
☐ No [Regular Business]

☒ Attachments are provided with the narrative.

EXECUTIVE SUMMARY:
The Haub School completed a feasibility study and pro-forma budget for an M.S. in Environment, Natural Resources, and Society. The proposed program seeks to fill the need of employers who are seeking employees with an interdisciplinary experience and essential skills in leadership, teamwork, collaboration, critical thinking, problem solving, and communication. The program proposes to provide an interdisciplinary experience in social science, law and policy, environmental science, natural resource economics, natural resource management, and environmental problem solving.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
A noticed of degree intent was provided to the Board of Trustees at their November 2019 meeting.

WHY THIS ITEM IS BEFORE THE BOARD:
University of Wyoming Regulation 2-119 requires that the Board approve all new degree programs, and lays out the process for that approval. The Academic and Student Affairs committee will report to the Board on recommended action for approval of the new degree program.

ACTION REQUIRED AT THIS BOARD MEETING:
Request Board of Trustees approval of the M.S. in Environment, Natural Resources, and Society (ENRS) degree.

PROPOSED MOTION:
I move to authorize administration to offer through the Haub School the M.S. in Environment, Natural Resources, and Society (ENRS).

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
M.S. in Environment, Natural Resources, and Society (ENRS)

The Haub School submitted a feasibility study and pro-forma budget for an M.S. in Environment, Natural Resources, and Society to be reviewed by the Academic Planning Committee during fall semester 2020.

The proposed program seeks to fill the need of employers who are seeking employees with an interdisciplinary experience and essential skills in leadership, teamwork, collaboration, critical thinking, problem solving, and communication. The program proposes to provide an interdisciplinary experience in social science, law and policy, environmental science, natural resource economics, natural resource management, and environmental problem solving.

In a 2019 survey of Haub School alumni, 99 of 161 respondents supported establishing a standalone master’s degree of the type proposed and 97 of 161 respondents supported a certificate or minor in natural resource collaboration. The interdisciplinary structure of ENRS will include opportunities for students to study in the areas of environmental science, environment studies, natural resource conservation, and outdoor recreation and tourism. The Gray Associate Demand Statistics scores for National, Laramie 360, Colorado, and Wyoming for these four disciplines indicate strong to moderate demand with scaled overall scores of 2-30.

The program estimates student demand to increase from eight students in the first year to 16 students per year after 4 years. Being a two-year program the total enrollment in the program is estimated to be about 30 students.

The cost of the program is estimated to be low. Several of the courses are one or two credit courses and will be taught by the current faculty and adjunct faculty in the Haub School. No new faculty are proposed to be hired and existing faculty can cover the additional courses being proposed. The proposed budget shows the increase in student tuition covering all costs for the program. In year four, the proposed budget shows a surplus of $244,000.00.

If this proposal would have come to the Academic Planning Committee two years ago, the decision to approve the program would have been quite easy. The proposal was one that provided all the necessary information along with a solid rationale. There seems to be at least moderate demand for the program. With no new resources being requested the risk seems low for the University.

With the current budget reduction at the University of Wyoming, the Academic Planning Committee is hesitant to recommend a new program with limited enrollment when the university is currently identifying several low enrollment programs to be eliminated. The prospects for further budget cuts to come are also of concern. Having mentioned our concerns with the budget issues, the Academic Planning Committee did vote to approve the M.S. in Environment, Natural Resources, and Society. The vote was seven in favor of the proposal, zero negative votes, and three members of the committee absent. Our committee has not received any additional guidelines to evaluate new programs in light of the current budget situation and the program does meet our criteria for approval.

Anticipated Launch Date

Spring 2021

We propose a phased launch with the following timeline:
- Spring and summer 2020 – seek degree approval, design new courses, develop admission policies
- Fall 2020 – review student applications for admission, course action review
- Spring 2021 – admit students to funded track 1 and 2 projects, design and develop certificates
- Fall 2021 – admit students to funded track 1 and 2 projects, certificates review and approval process, deliver new courses
- Fall 2022 – offer certificates, admit students to all three tracks including concentration track

Description

We propose that our ENRS degree will train graduate students at the interdisciplinary intersection of:
- Socio-ecological systems
- Environmental, natural resource, and social sciences (e.g. economics, ecology, policy, management)
- Collaboration, community-engaged practice, and interdisciplinary methodologies

Further, we propose ENRS will immerse students in applied, practical experience and develop strong skills in communication, teamwork, critical thinking, problem-solving, and collaboration. The key component of the ENRS degree is the opportunity for graduate students to weave a subset of disciplines and topics into relevant research and coursework, resulting in broad understanding while simultaneously developing areas of specialization.

Broadly defined, ENRS will train graduate students at the interdisciplinary intersections of natural resource management, social science, policy, environmental science, natural resource economics, collaboration and environmental problem solving. We propose ENRS will explicitly provide interdisciplinary content and essential skill development in environmental and natural resource fields that will prepare students for the workforce.
Curriculum Tracks
We propose to develop three ENRS tracks that students may apply to:

- Traditional thesis research track with individual, plan A thesis and program of study (faculty-grant supported)
- Team-based research track (3-5 students/project) each with individual thesis and program of study, coordinated around a group project (typically supported by faculty-grants), Plan A thesis or Plan B thesis project required.
- Concentration track focused on coursework and completion of certificates (self-supported), Plan B thesis project required.
- Future options may include distance delivery tracks including certificates for degree and non-degree seeking students

Skill, Knowledge, and Outcome Objectives
We propose that ENRS graduate students will:

- Develop an interdisciplinary and collaborative mindset
- Experience critical engagement with community stakeholders and decision-makers
- Excel in team-based collaborative environments
- Gain experience in relevant and emergent research methods and practices
- Develop the focused, expansive, and adaptable skillsets required to succeed and lead in a wide variety of ENRS careers
- Demonstrate excellent written, oral, and digital communication across a range of audiences and purposes, including expertise in public engagement
- Apply conceptual, critical, and creative thought to relevant environmental and natural resource issues
- Analyze and evaluate complex systems to contribute to inclusive, sound, and well-informed decisions

Required Core ENR Courses
ENRS will require a 32 (plan A) or 30 (plan B) credit program of study. Required courses (15 or 13 cr.) include:

- ENR 5XXX Introduction to Environment, Natural Resources, and Society (2 cr.)
- ENR 5000 Approaches to ENR Problem Solving (3 cr.)
- ENR 5900 Environmental Assessment (3 cr.), prerequisite ENR 5000
- ENR 5921 Collaborative Practicum (3 cr.)
- ENR 596X Plan A thesis research (4 cr.) or ENR 5961 Plan B project (2 cr.)

Elective Courses
Seventeen credits will be available for electives, which will be selected in consultation with the student, advisor, and committee. We propose to offer ten new topic and method elective courses in nontraditional format (1-2 cr. mini course, online, workshop, intensive, or hybrid delivery). The purpose of the variety of elective course offerings is to provide for the opportunity to achieve disciplinary specialization and essential skill development while accommodating student schedules that enable them to focus on their research.

Student Demand Statistics and Employment Projections
Analyses of Gray Associates data support the demand for a master’s degree in ENRS. The interdisciplinary structure of ENRS will include opportunities for students to study in the areas of environmental science, environment studies, natural resource conservation, and outdoor recreation and tourism. The scores for these four disciplines indicate strong to moderate demand with scaled overall scores of 2-30. U.S. Bureau of Labor Statistics employment projections indicate robust job growth for environmental and social scientists by 2028 and modest
job growth for conservation scientists and natural science managers. The 2028 projection trends are all positive with relatively robust number of annual job openings.

No Additional Resources Requested

The Haub School has 22 faculty, having added several faculty positions in the last three years. We also have ten adjunct instructors who teach ENR courses on a regular basis. We will contract with additional adjunct instructors for specific courses as necessary. No additional faculty are requested. The Haub School has five staff positions to assist with administration and support. No additional staff are requested. Senior administration consists of a dean and associate dean. No additional senior administrators are required. Existing technology within UW and the Haub School will support the needs of ENRS. No additional expenditures for technology are requested. Existing library and digital resources will support the needs of ENRS. No additional expenditures for library or digital resources are requested. We will request university support in the form of graduate assistantships, scaled to enrollment. See Appendix 1 Budget Projection for details.

Summary

In summary, ENRS will immerse students in applied, practical experience and develop strong skills in communication, teamwork, critical thinking, problem-solving, and collaboration. ENRS will train graduate students at the interdisciplinary intersections of natural resource management, social science, policy, environmental science, natural resource economics, and environmental problem solving. The Haub School is well positioned to support and deliver this degree as our faculty possess a diverse suite of expertise in these disciplines and our staff and administrators stand ready to support its implementation.

The curriculum tracks and creatively scheduled courses will enable students to weave a subset of disciplines and topics into relevant research and coursework, resulting in broad understanding while simultaneously developing areas of specialization. Our learning objectives for ENRS align well with employer demand.

Student demand and employment projections indicate ENRS should be a popular degree. We are not requesting additional faculty, staff or administration lines to support the degree, and we are not requesting substantial financial investments on the part of the university. However, we are requesting additional graduate assistantships that would be scaled to enrollment.

ENRS will be an innovative degree that will advance UW’s graduate offerings. The interdisciplinary and innovative structure of the degree will attract and explicitly provide interdisciplinary content and essential skill development in environmental and natural resource fields that will prepare graduate students for today’s workforce.

For Review: Feasibility Study for Master of Science in Environment, Natural Resources, and Society
Haub School of Environment and Natural Resources

Overview and Description of Degree, Purpose, Strategic Plan Overlay

Description
Broadly defined, we propose that our Environment, Natural Resources, and Society (ENRS) degree will train graduate students at the interdisciplinary intersection of:

- Socio-ecological systems
- Environmental, natural resource, and social sciences (economics, ecology, policy, management)
- Collaboration, community-engaged practice, and interdisciplinary methodologies

Overall Objectives
The dynamic and rapidly changing environmental and natural resource fields demand professionals to have an integrated understanding across a broad array of disciplines, with one or more areas of significant specialization. Our overall objective is to train and develop essential skills in our graduate students that will prepare them to become collaborative, interdisciplinary leaders in environmental and natural resource fields such as natural resource management, planning, and administration across sectors including nonprofit, for profit, government, and academic.

Research Objectives
We propose that our graduate research experience will stimulate:

- Applied, team-based, interdisciplinary research on pressing state and regional environmental issues
- Interdisciplinary research publication
- Positive impact to Wyoming communities and constituencies
- Research collaboration among UW faculty

Pedagogical Objectives
We propose to structure our educational experiences to provide:

- Continuous, high-quality faculty-to-student and peer-to-peer learning
- Place-based, field-based, and/or community-based learning opportunities
- Program flexibility and learning opportunities to fulfil a diverse set of student learning needs, contexts, and residency situations
- Opportunities for UW faculty across campus to collaborate on interdisciplinary graduate instruction

Fit with Haub School Current Programs
ENRS is built on the interdisciplinary model of our existing Haub School undergraduate and graduate degrees. We currently offer a dual Juris Doctorate (JD)/Master of Arts (MA) in Environment and Natural Resources (ENR) that requires concurrent matriculation in the College of Law’s JD degree. We also offer a concurrent graduate major in ENR that may be added to a master’s degree in another program. Both of these programs are strongly interdisciplinary and require two core courses with elective courses from across campus to fit the student’s program of study. ENRS will follow this coursework model. These two existing programs provide an interdisciplinary extension to the JD and other master’s degrees, while ENRS will provide a stand-alone Master of Science degree from the Haub School without required matriculation in another program. This will enable our faculty to direct student research and coursework to achieve more individualized training and skill development.
for our students and produce more interdisciplinary research than is currently possible in the existing dual/concurrent graduate structure.

Rationale and Need for ENRS
National research and our own student, alumni, and employer surveys clearly show that employers in environmental fields seek to hire employees with interdisciplinary experience and essential skills in leadership, communication, teamwork, critical thinking, problem-solving, and collaboration. Inquiries to the Haub School from prospective students indicate significant interest in this type of program. Our recent Haub School alumni survey included questions about characteristics of a graduate degree our alumni would like to see us offer. Responses indicated applied experiences with an interdisciplinary focus were very attractive. We also conducted individual interviews with leaders of government, non-profit, and academic programs. Their top recommendations were to provide students with essential skills in communication, applying knowledge in the real-world, and how to operate outside of academia. All of these recommendations are central components of the ENRS degree.

We currently have strong and numerous partnerships with Wyoming and regional communities and stakeholders that provide the foundation for developing research projects and educational experiences that arise directly from the needs of our partner communities in Wyoming and beyond. Our partners and constituencies are increasingly requesting our faculty to conduct applied research around pressing environmental and natural resources issues. ENRS students would significantly increase our capacity to conduct applied research in partnership with communities and stakeholders.

Strategic Plan Alignment
ENRS will contribute to all three academic goals in UW’s Breaking Through Strategic Plan. Goal 1 – Driving Excellence: ENRS, as an interdisciplinary degree, will focus on collaboration among UW programs and also train students in collaborative practice, an area of excellence already well-established in the Haub School. Goal 2 – Inspiring Students: ENRS will provide high-impact learning experience through student engagement in real-world enterprises. Goal 3 – Impacting Communities: A central premise of ENRS is to engage with communities and develop solutions to environment and natural resource issues. ENRS will also directly support Haub School Strategic Goal 1 – Educate future leaders through interdisciplinary teaching and research, and Strategic Goal 3 – Engage with Wyoming communities.

Learning Outcomes
Skill and Knowledge Learning Outcomes
We developed the ENRS learning objectives based on interaction with environment and natural resource employers and leaders. For example, we conducted a Wyoming employer survey in 2016 where 66 respondents ranked skills they sought in employees. Their top ten skills fell into the ‘essential skill’ categories of communication, teamwork, critical thinking, problem solving, and similar skills. Only beyond the top ten did the employers lists include knowledge or technical skills. Consistently, employers are seeking employees with the following characteristics that we propose ENRS graduates will possess:

- Develop an interdisciplinary and collaborative mindset
- Experience critical engagement with community stakeholders and decision-makers
- Excel in team-based collaborative environments
- Gain experience in relevant and emergent research methods and practices
- Develop the focused, expansive, and adaptable skillsets required to succeed and lead in a wide variety of ENRS careers
- Demonstrate excellent written, oral, and digital communication across a range of audiences and purposes, including developing expertise in public engagement
- Apply conceptual, critical, and creative thought to relevant environmental and natural resource issues
- Analyze and evaluate complex systems that contribute to inclusive, sound, and well-informed decisions
Curriculum Map and Program Structure

Curriculum Tracks

We propose three ENRS tracks that students may apply to:

- Individual research track with individual Plan A thesis and program of study
- Team-based research track coordinated around a group project, 3-5 students per project each with individual thesis (Plan A or B) and program of study
  - Students in traditional and team-based tracks would typically be supported by faculty grants
- Concentration track focused on coursework, plan B thesis project, and completing one of three certificates
  - Concentration track students would typically be self-supported
  - The Haub School currently offers a Collaborative Practice minor
  - Environmental Management and ENR Policy Certificates will be proposed for later approval
- Future tracks may include distance delivery tracks

Required and Elective Courses

ENRS will require a 30 or 32 credit program of study. Students will be required to take 13 or 15 core ENR courses. We propose revisions to existing courses to include greater emphasis on theories of environment, natural resources, collaborative practice, transdisciplinarity and environmental leadership.

Seventeen credits will be available for electives, which will be selected in consultation with the student, advisor, and committee. Optionally, 12 credits of the elective requirement could be fulfilled with either the Collaborative Practice Minor, future ENR Policy Certificate, or future Environmental Management Certificate. As with many graduate degrees, students will be able to include topic and methods elective courses from a wide variety of UW departments in their programs of study. We will offer ten new elective courses in nontraditional format (1-2 cr.)
mini course, online, workshop, intensive, hybrid delivery, etc.); examples are described below. These will be
creatively scheduled in short blocks (days to weeklong), during summer, J-term, weekends, or evenings. The
purpose is to achieve disciplinary specialization and essential skill development while accommodating student
schedules to allow focus on their research. Some courses will be offered in alternate years.

Elective Credits 17
Total Credits 30 or 32
New Course Descriptions

We are proposing to develop the following courses (1 or 2 credits) in a nontraditional format to allow for schedule flexibility that will provide graduate students with greater time to work in field and in communities on their research. We are proposing courses in the following major categories: Topics in Environment, Natural Resources and Society; Methods in Environment, Natural Resources and Society; and coursework for minors or certificates.

We propose that the following classes initially be offered under ENR 5890 Special Topics or ENR 5870 Graduate Seminar. Following initial offering, we intend to submit courses that will be consistently offered to the Course Action Review Committee for inclusion in the course catalog.

Topics in Environment, Natural Resources, and Society

**Introduction to Environment, Natural Resources, and Society**

*Instructor:* Corrie Knapp and other Haub School faculty

*Description:* A week-long intensive prior to start of fall semester would combine guest speakers, field trips, and key historical and cultural bodies of literature that inform our practice of environmental management. The goal would be both to introduce students to the Wyoming context and its environmental management issues, but also to give students a common grounding in literature relevant to the field. In addition to the initial week-long section of the course, the students would attend a seminar style paper discussion group that would run through the semester.

*Credits:* 2

*Delivery Mode:* Fall semester, field and on-campus

**Critical Social Theories of Environment, Natural Resources, and Society**

*Instructor:* Rachael Budowle

*Description:* It is critical that environmental and natural resource professionals consider, question, and reflect on the assumptions and frameworks they bring into conservation, management, and research contexts. This class will be a primer on a number of relevant theoretical lenses that address power relations, social structure, and natural resources.

*Credits:* 1-2

*Delivery Mode:* Fall or spring semester, on-campus

**National Environmental Policy Act for Environmental Managers**

*Instructor:* Temple Stoellinger

*Description:* This class will help students understand both the theory and practice of NEPA across federal agencies and in different contexts. We will also explore current issues that are influencing how NEPA is practiced and applied.

*Credits:* 1-2

*Delivery Mode:* Fall semester, spring semester, J-term, or May-term; on-campus/online hybrid

**Environmental Justice**

*Instructor:* Matt Henry

This class examines a wide range of cultural and artistic representations to understand how cultural beliefs, thought systems, and even the imagination shape environmental values and decision-making. This class explores cultural, political, economic, and social factors contributing to the uneven distribution of environmental harms along the lines of race, class, gender, and ethnicity. The class also considers how communities are organizing, planning, and expressing their visions for a “just transition.”

*Credits:* 1-2

*Delivery Mode:* Fall or spring semester, on-campus

**Private Lands Conservation**

*Instructor:* Drew Bennett

*Description:* This course introduces students to foundational concepts and emerging tools in private lands conservation including legal concepts of property, conservation easements, and governmental incentive programs. The course has an emphasis on conservation finance and applied perspectives on how conservation projects are structured.
and implemented. Students will apply course concepts to real world examples to understand the strength and weaknesses of conservation approaches.

Credits: 1-2
Delivery Mode: Fall semester, spring semester, J-term, or May-term; on-campus/online hybrid

**Communicating Across Environments**
*Instructor:* Rick Fisher, Maggie Bourque, and Emilene Ostlind
*Description:* Workshop-style writing seminar that covers both theory and practice of interdisciplinary, collaborative, and eco-composition practices and products. This workshop would be scheduled at crucial moments for graduate students, aiming to inform and norm their writing and communication practices in service of their thesis projects. Focal points may include developing narrative strategies for a range of communication media (podcast, video, magazine articles, etc.) to draw readers in and share complex information to diverse audiences.

Credits: 1-2
Delivery Mode: J-term, May-term, or summer; on-campus

**Systems Thinking**
*Instructor:* Corrie Knapp
*Description:* This class will introduce students to systems thinking and approaches for using systems diagrams and logic in their own final projects.

Credits: 1
Delivery Mode: J-term or May term, online or on-campus/online hybrid

**Methods in Environment, Natural Resources, and Society**

**Mixed Research Methods in ENRS**
*Instructor:* Abby Sisneros-Kidd, Rachael Budowle, and Corrie Knapp
*Description:* This course will examine data collection and analysis methods used in social science and ethnographic research. The focus will be on mixed method designs for integration of quantitative and qualitative data at appropriate stages of the research process.

Credits: 1-2
Delivery Mode: May term or August before fall semester classes start, field or on-campus

**Decision Analysis for Environment and Natural Resources Management and Policy**
*Instructor:* Steve Smutko
*Description:* This course helps students understand how to provide structure to complex decision problems. Students will learn how to evaluate courses of action amid uncertainty using multi-attribute utility analysis to make trade-offs among conflicting objectives.

Credits: 1-2
Delivery Mode: Anytime, on-campus or on-line

**Applied Economic Frameworks for ENRS**
*Instructor:* Rob Godby
*Description:* The course would provide a basic overview of economic frameworks of analysis and the use of economic methods to develop economic, environmental, and natural resource policy. Will also include a description of natural resource policy frameworks.

Credits: 1-2
Delivery Mode: Fall or spring semester, on-campus

**Field Methods in ENRS**
*Instructor:* Abby Sisneros-Kidd and Rachael Budowle
Description: This course will examine data collection techniques used in social science, recreation ecology, and ethnographic research. Methods to be explored include survey and interview techniques, environmental rapid assessment techniques (e.g. campsite and trail use), GPS-based tracking, and more.

Credits: 1-2

Delivery Mode: May term or August before fall semester start, field or on-campus

Coursework for Minors and Certificates

We are also proposing that courses within the existing Collaborative Practice Minor (12 cr.), which has been approved by Graduate Council and AVP for Graduate Studies, be utilized by graduate students that choose to add a minor in Collaborative Practice. All courses below are existing and 3 credits each. Departments teaching specific electives have agreed to allow minor students to enroll.

Required Courses
- ENR 5450 Negotiation
- ENR 5920 Principles and Methods in Collaborative Practice
- ENR 5921 Collaborative Practicum
- POLS 5080 Organizational Development
- POLS 5540 Public Policy Perspectives
- ENR 5550 Negotiation Analysis

Elective Courses – 1 required
- Process Competency Electives
  - COJO 5620 Intergroup Communication
  - COJO 5250 Seminar in Org. Communication
  - COJO 5230 Media, Science, and Society
  - POLS 5685 Program Eval and Policy Analysis
- Context Specific Electives
  - LAW 6660 Environmental Law
  - LAW 6800 Public Lands Law
  - LAW 6860 Water Rights and Policy
  - REWM 5250 Water Resources Seminar
  - ENR 5000 Approaches to Env. Problem Solving

We will propose two new certificates for approval at a later date: an ENR Policy Certificate and an Environmental Management Certificate. We intend to design the certificates to serve both on campus and distance students as well as non-degree seeking professionals who are not matriculated into ENRS.

Assessment Plan

Phase I. Amend Learning Outcomes / Evaluate Objectives

Working with the instructional faculty for ENR core and elective courses, the Haub School Associate Dean will lead a process of amending the existing learning outcomes (as needed) and evaluating 2-3 learning objectives to be met in each ENR core and elective course.

Phase II. Direct Assessment of Student Learning

At three stages of their Haub School academic experience, students will submit statements documenting their learning in relationship to the student learning outcomes.

Narrative Justification (Pre)

As the ENR major and minor are interdisciplinary and provide students with opportunities to choose elective courses from extensive menus, every graduate student will be required to submit a “Narrative Justification” document stating his/her rationale for choosing to pursue ENRS, as well as justifying his/her selection of elective coursework. The Narrative Justification is due by finals week of the student’s first semester in the Haub School (discussions during advising at mid-semester are crucial).

Statement of Learning - Core Courses (Mid)

Students will submit a two-page Statement of Learning describing the conceptual and content-based understandings they have formed after two semesters of ENRS-related coursework. This statement is meant to act
as a formative assessment after students have completed some core courses, providing an opportunity to clarify or amend his/her narrative justification in relationship to the ENR learning outcomes and core courses. The Statement of Learning prompt will be generated by faculty and based upon the Phase I outcomes and objectives.

**Integrative Perspective (Post)**
As a required component of an exit interview, students submit (online) a statement of Integrative Perspective, reflecting on their learning as a whole throughout their graduate work. The Integrative Perspective will focus on the application of learning across disciplines and will be informed by the Phase I outcomes and objectives.

**Direct Assessment of Thesis Projects**
A core group of Haub School faculty appointed by our Graduate Program Committee will develop rubrics for assessing thesis quality on metrics related to applicable ENRS learning outcomes such as writing quality, originality, and interdisciplinary perspective. Thesis assessment will be conducted every three to five years.

**Surveys**
Advising staff or faculty will conduct in-person exit surveys of all graduating students at the end of their final semester. Alumni surveys will be conducted every three years by advising staff. Employer surveys will be conducted by advising staff responsible for professional and applied experience on an ad-hoc basis.

**Evaluation of Assessment by Graduate Program Committee**
A core group of Haub School staff/faculty (instructors in the graduate programs, faculty advisors, and academic advisors) appointed by our Graduate Program Committee will develop rubrics for assessing the students’ statements of learning, measured against each ENRS learning outcome. This group will compile outcomes from Phase I and II direct assessments and report to the Graduate Program Committee at three- to five-year intervals.

**Degree Program Evaluation**
On five-year intervals, the Graduate Program Committee will review and consider assessment information gathered from all phases of assessment outlined in the assessment section above, including student statements, thesis assessments, surveys, teaching evaluations, and other direct assessment of student work. The committee shall produce a summary report with recommendations for adjustments or revisions of the ENRS degree to the Haub School Associate Dean, Dean and faculty.

**Substantive Change Determination**
ENRS as proposed will not require substantive change as defined by Higher Learning Commission (HLC) for the following reasons:

- There is not a significant departure from normal offerings as ENRS is modeled after similar graduate and undergraduate interdisciplinary offerings by Haub School.
- Only approximately 30 percent (10-15 credits) of new coursework is being considered.
- Most courses will be offered on-campus with less than 30 percent being considered for distance delivery.
- We do not anticipate a significant financial investment since no additional positions nor non-personnel costs are requested. See Appendix 1 Budget Projection for details.
- Dr. Anne Alexander, HLC Accreditation Liaison Officer confirmed that ENRS will not be a substantive change to UW’s offering.
New Resources Required

Faculty and Instructional Staffing
The Haub School has 22 faculty, having added several faculty positions in the last three years. We also have ten adjunct instructors who teach courses on a regular basis. We will contract with other adjunct instructors for specific courses as necessary. No additional faculty are requested.

Program Administration and Staff Support
The Haub School has five staff positions to assist with administration and support. No additional staff are required. Senior administration consists of a dean and associate dean. No additional senior administration is requested.

Technology
Existing technology within UW and the Haub School will support the needs of ENRS. No additional expenditures for technology are requested.

Library and Digital Resources
Existing library and digital resources will support the needs of ENRS. No additional expenditures for library or digital resources are requested.

Marketing
The Haub School is already in the practice of preparing student recruiting materials (e.g. web, social media, print materials, events, UW admissions). Recently, we have provided funding to and worked with UW Communications to promote our degrees as a part of overall UW recruiting. We intend to continue both our in-house recruiting efforts and to work with UW Communications to specifically recruit students to ENRS. We continuously receive inquiries from prospective students about ENRS just through word of mouth. We regularly receive inquiries about the ENR concurrent major. We believe even a modest recruiting campaign will bring in a significant number of applications once ENRS is approved. See Appendix 1 Budget Projection for details.

Support
No additional support is expected to be required for this degree. We will request university support in the form of graduate assistantships, scaled to enrollment. See Appendix 1 Budget Projection for details.

Executive Summary of Demand Statistics

Market Area and Primary Target Markets
We anticipate that ENRS will attract graduate students primarily with environmental and natural resource interests in the Rocky Mountain West. However, based on the demographics of currently enrolled students in our concurrent ENR major and JD/MA in ENR, ENRS will likely draw student applicants regionally, nationally, and internationally.

Educational Market and Student Demand Statistics
Our analyses of Gray Associates data support the demand for a master’s degree in ENRS (Table 3). In our 2019 survey of Haub School alumni, 99 of 161 respondents supported a establishing a standalone master’s degree of the type proposed here and 97 of 161 respondents supported a certificate or minor in natural resource collaboration. The interdisciplinary structure of ENRS will include opportunities for students to study in the areas of environmental science, environment studies, natural resource conservation, and outdoor recreation and tourism. The national, Laramie 360, Colorado, and Wyoming scores for these four disciplines indicate strong to moderate demand with scaled overall scores of 2-30.

**Employment Trends and Projections**

The U.S. Bureau of Labor Statistics employment projections for 2028 indicate robust job growth for environmental and social scientists and modest job growth for conservation scientists and natural science managers (Table 4). The 2028 projection trends are all positive with relatively robust number of annual job openings.

**Admissions Process**

To apply to ENRS, we propose all applicants submit an application portfolio that includes:

- One- to two-page statement of purpose that
  - Describes why they wish to attend ENRS, their motivation and background for applying, and what about ENRS is attractive to their career aspirations.
  - Identifies the track they are applying for: individual research track, team-based research track, or concentration track
  - Outlines their plan for study: Plan A or B individual or group project
  - Names faculty they want to work with and why
  - If applying to a team track, states why they feel well-suited to a particular team project

- Three letters of reference
  - Letters should specifically address aspects of suitability for ENRS or applicant experience

- Transcripts and a current CV
- Responses to two essay questions to be defined by faculty
- GRE scores (no minimum scores will be published)
Alternatively, a statement of professional experience for applicants who have been out of school for a period of time and/or for whom GRE would be a perceived barrier

- Interviews may be used once a final list of preferred applicants is defined but we do not recommend interviewing all applicants. Interviews could also be used to identify the best applicants for specific team projects.

Summary

In summary, ENRS will immerse students in applied, practical experience and help them to develop strong skills in communication, teamwork, critical thinking, problem-solving, and collaboration. ENRS will train graduate students at the interdisciplinary intersections of natural resource management, social science, policy, environmental science, natural resource economics, and environmental problem solving. The Haub School is well positioned to support and deliver this degree as our faculty possess a diverse suite of expertise in these disciplines.

The three curriculum tracks and creatively scheduled courses will enable students to weave a subset of disciplines and topics into relevant research and coursework, resulting in broad understanding while simultaneously developing areas of specialization. Our learning objectives for ENRS align well with employer demand.

Student demand and employment projections indicate ENRS should be a popular degree. We are not requesting additional faculty lines to support the degree and no other substantial financial investments on the part of the university, other than additional graduate assistantships that would be scaled to enrollment.

ENRS will be an innovative degree that will advance UW’s graduate offerings. The interdisciplinary and innovative structure of the degree will attract and explicitly provide interdisciplinary content and essential skill development in environmental and natural resource fields that will prepare graduate students for today’s workforce.

* UW’s Board of Trustees’ current working policy is to raise tuition by 4% each year
AGENDA ITEM TITLE: Bachelor’s in Applied Science (BAS) new concentration option in Health Services Administration, Pickett, Barrett

SESSION TYPE: ☒ Work Session  ☐ Education Session  ☐ Information Item  ☒ Other: [Committee of the Whole – Items for Approval]  ☐ No [Regular Business]  ☒ Yes (select below):
☐ Driving Excellence  ☐ Inspiring Students  ☒ Impacting Communities  ☐ High-Performing University

EXECUTIVE SUMMARY:
The Bachelor’s in Applied Science (BAS) is an already existing degree program at UW. This proposal is to add a new concentration option in Health Services Administration. For over a decade, the University of Wyoming has had the BAS with a concentration in Organizational Leadership. That program has grown significantly and is now one of UW’s largest online degree programs with more than 100 majors. The core idea behind the BAS degree is to help persons who already have an associate’s degree build on that and advance further in their chosen field. The proposed program is designed to build on an associate’s degree in a healthcare field by, first, incorporating a suite of five courses drawn from the School of Pharmacy’s Master of Science in Health Services Administration. Those courses, amounting to 14 credit hours, will go through the course change process so they can be cross-listed at the 4000/5000 levels. Second, the core components of the BAS in Organizational Leadership are retained so that students become better prepared to assume supervisory and other leadership roles in an organization. By having the program as a BAS, community college coursework in a more applied setting can still be accepted for credit.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
In May of 2020, the UW Board of Trustees voted to move the administrative home of the BAS to UW-Casper. The Trustees approved a Notice of Intent for this degree in November 2020.

WHY THIS ITEM IS BEFORE THE BOARD:
University of Wyoming Regulation 2-119 requires that the Board approve all new degree programs, and lays out the process for that approval. The Academic and Student Affairs committee will report to the Board on recommended action for approval of the new degree program.

ACTION REQUIRED AT THIS BOARD MEETING:
Consideration for approval of the Bachelor’s in Applied Science (BAS) degree to add a new concentration option in Health Services Administration.

PROPOSED MOTION:
“I move the approval of a new concentration option in Health Services Administration for the Bachelor’s in Applied Science (BAS) degree.”

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
Feasibility Study for the Bachelor’s in Applied Science with a Concentration in Health Services Administration

Executive Summary

Degree or Certificate Title: Concentration in Health Services Administration

Level of Degree or Certificate: Bachelor’s

Delivery Mode(s): Online

Estimated Startup Cost of Degree: $5,000 (for marketing and recruitment)

Anticipated Launch Date: Fall 2021

The Bachelor’s in Applied Science (BAS) is an already existing degree program at UW. This proposal is to add a new concentration option in addition to the current one in Organizational Leadership. For over a decade, the University of Wyoming has had the BAS with a concentration in Organizational Leadership. That program has grown significantly and is now one of UW’s largest online degree programs with more than 100 majors. Given that the program is only open to students who already have an associate’s degree (since it is designed to stack on top of applied two-year degrees), and thus only has juniors and seniors in it, the student numbers are especially strong. The core idea behind the BAS degree is to help persons who already have an associate’s degree build on that and advance further in their chosen field. In May of 2020, the UW Board of Trustees voted to move the administrative home of the BAS to UW-Casper. In exploring additional possible areas of concentration for the BAS, the dean of UW-Casper met with the dean of the College of Health Sciences and formed a small working group with the dean of the School of Pharmacy and the director of the Master’s in Science in Health Services Administration. That group, also drawing on the expertise of the then Interim Director of the BAS, developed a draft curriculum and gathered data as to likely student and employment demand. With that as background, UW-Casper, in collaboration with the School of Pharmacy and the College of Health Sciences, presents the following proposal that outlines the design, curriculum, delivery, and rationale for a BAS with a concentration in Health Services Administration.

The proposed program is designed to build on an associate’s degree in a healthcare field by, first, incorporating a suite of five courses drawn from the School of Pharmacy’s Master of Science in Health Services Administration. Those courses, amounting to 14 credit hours, will go through the course change process so they can be cross-listed at the 4000/5000 levels. Second, the core components of the BAS in Organizational Leadership are retained so that students become better prepared to assume supervisory and other leadership roles in an organization. By having the
program as a BAS, community college coursework in a more applied setting can still be accepted for credit.

According to the Bureau of Labor Statistics (BLS), “Employment of medical and health services managers is projected to grow 32 percent from 2019 to 2029, much faster than the average for all occupations.” Pay in the field is also significant, with the BLS reporting median pay as $100,980 per year (2019 data). Bachelor’s degrees are the typical entry-level education in the field.
Overview and Description of Degree or Certificate, Purpose, Strategic Plan Overlay

The proposed concentration in Health Services Administration retains the majority of the current Bachelors of Applied Science, but adds in 14 credit hours (five courses) focused on Health Services Administration. The proposed concentration is designed for persons working in the healthcare field who want to pursue a bachelor’s degree to advance their career potential, yet do not want to do so in a clinical area, such as nursing or medical laboratory sciences. The proposed concentration coursework is drawn from UW’s existing Master’s in Science in Health Service Administration program. That program has a course on the history of the United States health care system, in addition to 4 different ‘tracks.’ The introductory course from each track, as well as the course on the history of the health care system, would go through the course action process in order to be cross-listed at the 4000 and 5000 levels. It thus would give students a grounding in the history of the US healthcare system, a course in leadership in health service settings, along with a survey of economic/healthcare outcomes, healthcare quality, and regulatory/compliance issues.

The combination of the five proposed health service administration courses with the core elements of the current Organizational Leadership option is a powerful one. Students in the new concentration will take multiple courses on leadership, the creation and use of information in organizations, and communication. They will emerge from the program better equipped to pursue roles with greater responsibilities in the health services field.

The BAS in Health Services Administration concentration develops in its student population qualities necessary for success in a rapidly changing healthcare environment. Students learn the basic principles in the field and understand the importance of looking at all sides of an issue. Employers are looking for entry level employees that have a broad understanding of the health services area that can be applied across different fields as well as integrate the information across the fields. Students in this program also will be prepared to successfully transfer to graduate programs in pursuit of related degrees. This includes UW’s MS in Health Services Administration; graduates from the program will be well aware of that option and will have two courses within it completed already.

The proposed Bachelors of Applied Science with a concentration in Health Services Administration aligns closely with the University’s mission. Healthcare services are an important part of Wyoming’s economy, especially in the Casper community. By helping to train the next generation of health service administrators, the program fits UW’s land-grant mission to promote economic and community development. The program will be online and largely asynchronous, and thus is readily accessible to people across the state (and beyond). The core health service administration courses are based on rigorous scholarship and the application of knowledge, which are also parts of the University’s mission.

The new concentration also fits well with the UW-Casper mission and strategic plan. UW-Casper is focused on growth, especially in areas that will promote the economic diversification and development of Wyoming. Also, while the BAS is entirely online, over the next couple of years
UWC will be working to create in-person course options within the BAS for those in central Wyoming who want to be able to take a course or two each semester with peers pursuing the same degree. Given that Casper has the largest medical sector of any community in the state, this concentration in particular is a good fit for UWC.

The addition of this program supports part of the strategic plan of the School of Pharmacy, which has identified the following that relate to this program:

1) Attract, develop, and retain the best students - this applies to the School of Pharmacy, medical laboratory program, and the MS Health Services Administration programs. By participating in the BAS program, we can identify UW students who would be a good match to apply for either the graduate program or the pharmacy school dependent on the coursework they have completed in their undergraduate curriculum

2) Work with Community Colleges to identify and co-develop educational programs to meet the needs of the state. In working on the new BAS concentration it helps the School meet this goal as well.

**Learning Outcomes**

The learning objectives for this certificate program identify four broad areas of core competency including:

- Healthcare Quality
- Healthcare Leadership
- Biopharmaceutical regulations
- Health Economics.

Students will gain a basic understanding of each of the core areas and demonstrate an understanding of the guiding principles. In addition, the integration of the four areas through an overall Evolution course helps students problem-solve today’s issues facing healthcare based on examples that have been presented in the classroom. Each graduate will be able to discuss the core principles of the four areas listed and fully understand how to integrate specific competencies among and between these areas. As students' progress in their coursework, they are provided real world situations that they can then apply today.

**Curriculum Map and Program Structure**

Below please find a degree check-list. There are a few points worth noting. First, BAS degrees, since they are designed to “stack” on applied associates degrees which do not have the full complement of general education and hence do not satisfy the Wyoming Common Core, have to build more USP coursework into the upper division level than other programs. Second, some elements of the Organizational Leadership concentration were retained for the proposed Health Services Administration one. The Organizational Leadership track is designed to prepare students for supervisory roles in whatever field they are in (e.g., fire science, government, etc.). Since the proposed concentration is designed to do the same in health-care settings, the proposed
curriculum also kept requirements pertaining to, for instance, how organizations create and use information, improved communication skills, problem solving and analysis, and courses directly from the Organizational Leadership track.

**BACHELOR OF APPLIED SCIENCE CHECK-LIST (2020-2021)**

Health Services Administration Concentration

<table>
<thead>
<tr>
<th>CAREER/AAS SPECIALTY component:</th>

**PROFESSIONAL CONCENTRATION component:** 41 credits

1. Discovering and Utilizing Ideas and Information (3 credits)
   
   AGRI 3000 Discovering/Utilizing Ideas and Information  
   Grade:_____ Completion date:_____  

2. Communicating in Writing and Speaking (2 courses, 6 credits)
   
   COJO 3010 Business and Professional Communication  Grade:_____ Completion date:_____  
   COJO 3190 Cross-Cultural Communication  Grade:_____ Completion date:_____  
   ENGL 4010 Technical Writing in the Professions  Grade:_____ Completion date:_____  
   AGRI 4600 Developing Organization Leadership (Required)  Grade:_____ Completion date:_____  

3. Analysis and Problem Solving (1-2 courses, 3-6 credits)
   
   AGRI 4990 Organizational Problem Solving in the Social Sciences  Grade:_____ Completion date:_____  
   PHCY 4441 Intro to Health Leadership (3 credits, required)  Grade:_____ Completion date:_____  

4. Organizational Leadership (4 courses from one Option, 12 credits)
   
   Option A:
AGEC 4660 Community & Economic Develop. Grade:_____ Completion date:_____
AGEC 3750 Natural Resource Economics Grade:_____ Completion date:_____
AGEC 4720 Water Resource Economics Grade:_____ Completion date:_____
CHST 4650 Women, Gender & Migration Grade:_____ Completion date:_____
FCSC 4117 Community Leadership: Working with Services & Systems (Required course) Grade:_____ Completion date:_____ 
FCSC 4985 Seminar: Dev. In Community Leadership Grade:_____ Completion date: _____
POLS 4420 Seminar in Public Administration Grade:_____ Completion date:_____
POLS 4465 Survey of the Non-Profit Sector Grade:_____ Completion date:_____
POLS 4685 Program Evaluation and Policy Analysis Grade:_____ Completion date:_____ 
POLS 4710 American Political Issues Grade:_____ Completion date:_____

Option B: This area of emphasis guides students through an examination of how managers create value by understanding and developing employee and customer relationships. We **strongly suggest** that students complete ACCT 1010 and ECON 1010, both of which are available from, and articulated with, the community colleges throughout Wyoming before taking these courses. The area of emphasis consists of the following additional courses:

MGT 3110 Business Ethics Grade:_____ Completion date:_____
MGT 3210 Management & Organizations Grade:_____ Completion date:_____
MKT 3210 Introduction to Marketing Grade:_____ Completion date:_____
MGT 4410 Human Resource Management Grade:_____ Completion date:_____

NOTE: Students with this option may not take more than 30 hours (total) in business and must obtain a “C” or better in each of the courses listed above in order to advance to the next course.

5. Contemporary Society (2 courses, 6 credits)

A & S 3105 From Gilgamesh to the Bomb Grade:_____ Completion date:_____
COJO 3160 Theory of Language and Society Grade:_____ Completion date:_____
CRMJ 3200 Ethics and Administration of Justice Grade:_____ Completion date:_____
CRMJ 3500 Drugs and the Criminal Justice System Grade:_____ Completion date:_____
CRMJ/CHST 4860 Social Inequality, Crime, Criminal Justice and the Law  Grade:_____  Completion date:_____
ENR 4890 Special Topics  Grade:_____  Completion date:_____
HIST 4340 History of American Women  Grade:_____  Completion date:_____
HIST 4490 Modern America, 1960-present  Grade:_____  Completion date:_____
HIST 4545 Multicultural West  Grade:_____  Completion date:_____

6. Career Focus (11 credits) (Required)

PHCY 4050 Evolution of American Health (2 credits)  Grade:_____  Completion date:_____
PHCY 4141 Health Econ and Outcomes (3 credits)  Grade:_____  Completion date:_____
PHCY 4241 Biopharmaceutical Reg. Com (3 credits)  Grade:_____  Completion date:_____
PHCY 4341 Intro to Healthcare Quality (3 credits)  Grade:_____  Completion date:_____

UPPER DIVISION requirement (3000 level or above): 42 hours (30 of which must be earned from UW)

(3)_________________  (3)_________________  (3)_________________  (3)_________________

(3)_________________  (3)_________________  (3)_________________  (3)_________________

(3)_________________  (3)_________________  (3)_________________  (3)_________________

(3)_________________  (3)_________________  (3)_________________  (3)_________________

Students in the BAS must earn a "C" or better in all courses from the checklist, and must retake the course(s) where a D or an F are earned.

A minimum of 120 hours is required for completion of the BAS degree. 10/07/2020

Course Descriptions:

The following five courses, amounting to 14 credit hours, are all required in the proposed new concentration. There are 5000-level equivalents already at UW. All of these courses will be delivered on-line, mostly in an asynchronous format, although individual instructors may choose to build in limited synchronous dimensions, as is the case in the current MS in Health Services Administration degree.

PHCY 4050, Evolution of the American Healthcare System (2 credit hours)

Course Description: This course explores the predictable response to a crisis in health care that has led to a paradigm change in the way health services are delivered. The professionalization of health care over the past century, and the development of the modern hospital over the past half century. The implications of computerized health information, and the trend toward empowerment of patients through the democratization of health services.

PHCY 4141, Introduction to Health Economics and Outcomes (3 credit hours)

Course Description: This course considers the role of the range of outcomes used by clinicians and health care systems in assessing treatment modalities. The framework for conducting and assessing outcomes research will be emphasized.
PHCY 4241, Biopharmaceutical Regulation (3 credit hours)

Course Description: This course considers the role of regulatory agencies that prescribe conduct in the healthcare industries and professions, focusing on the Food and Drug Administration. The functioning of other agencies, such as the federal Drug Enforcement Administration, state boards of pharmacy and state departments of health are also considered.

PHCY 4341, Introduction to Healthcare Quality (3 credit hours)

Course Description: This course will provide an overview of healthcare quality and performance measurement. It will also provide a review of quality improvement strategies used in various healthcare settings.

PHCY 4441, Introduction to Health Institution Leadership (3 credit hours)

Course Description: Introduction to Health Institution Leadership is designed to provide development of the health institution leader through analysis of theory and application to practice by extensive use of case studies and models. Organizational, team and individual dimensions of leadership are examined. Leadership for optimization of human and other resources as well as effective use of data analytics are explored.

Assessment Plan:

The opportunity to develop a sound foundation in both current and emerging healthcare trends is an important aspect of this certificate program. Assessing student knowledge through examination, discussion boards, and papers provides faculty the opportunity to tailor information back to the students. The underlying theme of lifelong learning skills necessary to stay current with emerging healthcare trends will also be assessed. Students are assessed not only on the knowledge from books and lectures but also in keeping up with current events in health care.

The assessment process for the overall BAS degree program is currently in revision. UW-Casper is hiring a new BAS director and one charge to that person will be to work closely with the University’s assessment coordinator to improve assessment for the degree. Still, a charge to the director will be to build an assessment piece into the final, writing intensive course (AGRI 4600), monitor job placement rates, and otherwise build a comprehensive process for evaluating learning in the program.
Degree Program Evaluation

Evaluation of the BAS concentration in health services administration will be completed in multiple stages. The evaluation process will include both a formative and summative process. Initial formative surveys and evaluations will be created for those students who are in the initial years of the program. This allows us to gain insights into the curriculum and specific learning objectives for each course. As students matriculate, we will include summative evaluations regarding the entire program and include a survey of alumni every few years. In addition, employers will be asked to provide their feedback as to the preparedness of the students.

New Resources Required

Given that the coursework and instructional capacity already exist at UW, the additional resources required are minimal.

Faculty and instructional staffing: no new faculty positions will be needed to support the new concentration. The courses that faculty already teach for the MS in Health Services will be taught on their regular schedule. Faculty will receive an additional stipend, per course, since they will have more students and have to handle the logistics of a portion of the class being undergraduates and the rest being graduate students. Most of the faculty who teach in the graduate program are part-time faculty. One potential staffing issue is if the new concentration gains enough students, it will create pressure on UWC to add to its academic advising capacity. It would likely take more than 40 students in the concentration to create this issue, however, although the exact number depends on enrollment in the currently existing Organizational Leadership track in the BAS.

Program administration and staff support: the BAS, as noted above, is administered by UW-Casper. The BAS Director will continue to run the program. The approval of this program will simply add an area of concentration to the BAS degree portfolio.

Technology: no additional technology resources are foreseen.

Library and digital resources: no additional library or digital resources are foreseen.

Marketing: UW-Casper and the School of Pharmacy will collaborate in the marketing of this program. If this proposal is approved, UWC will seek a small grant (less than $10,000) from the Central Wyoming Board of Cooperative Educational Services (BOCES) to pay for an initial run of marketing. Given the geographical boundaries of the Central Wyoming BOCES, however, such marketing will need to be focused on Natrona County. Still, Casper College has one of the two largest health services enrollments among the state’s community colleges, and Casper itself has the largest healthcare sector of the state, so it is an important market for the program. UWC will redirect current marketing dollars to target markets beyond Natrona County. In addition, the new BAS director will be given the charge to work with the state’s other community college to promote awareness of the new concentration.
Substantive Change Determination:

A Notice of Intent (NOI) for the new concentration has been submitted to the Higher Learning Commission. They have reviewed it and concluded this new concentration does not constitute a Substantive Change.

Executive Summary of Demand Statistics

Since the program is fully online and is designed for those already employed, the market area is literally nationwide. That said, the primary target market is Wyoming. The Casper area will be an initial focus, given the size of the medical community there. This will particularly be the case if the BOCES grant comes through, although that will also free up resources to better market across the state.

Gray Associates data (see Appendix B for the full report) shows strong student demand. For the ‘online Laramie 360’ analysis, their data shows student demand at a 19, which is a high score. The overall score in the market area is a 16. What is holding back the overall score is a competitive intensity score of -10. The University of Denver and the University of Northern Colorado have face-to-face programs. Over the last three years that Gray Associates has data for (16-17-18), those two programs graduated on average 177 students a year, combined. Given the focus on Wyoming, as far as program promotion, the ‘online Wyoming’ analysis may be more appropriate. In that slicing of the data, student demand drops to a 12 but the competitive intensity also decreases, so the overall score rises to an 18. The ‘online Casper 60’ analysis has the same scores as the overall state data. Western Governor’s University started a similar program in recent years. In 2017 they had 23 graduates. In 2018 (the most recent year that data is available), the program had 170 graduates. The same year Colorado State University graduated 195 students from their bachelor’s of healthcare administration program. While we do not anticipate similar growth or demand (in part due to competitors like CSU and WGU), we do expect more than adequate demand and program growth.

According to the Bureau of Labor Statistics (BLS), the 2019 median pay for healthcare administrators is approximately $101,000 per year. The typical entry-level education is a bachelor’s degree, in line with what is proposed here. Job growth over the next 10 years is forecast to be 32%, which the BLS characterizes as “much faster than average” across all fields.

AGENDA ITEM TITLE: Name change Bachelor of Science (BS) Plant Production and Protection (from Agroecology), Kniss, Barrett

SESSION TYPE: ☐ Work Session     ☐ Education Session     ☐ Information Item     ☒ Other: 
[Committee of the Whole – Items for Approval]

APPLIES TO STRATEGIC PLAN: ☐ Yes (select below):
☒ Driving Excellence     ☐ Inspiring Students     ☐ Impacting Communities
☐ High-Performing University     ☐ No [Regular Business]

Attachments are provided with the narrative.

EXECUTIVE SUMMARY:
The Department of Ecosystem Science & Management is our partner in the Agroecology degree program. For reasons more fully explained in an attached justification document, we are requesting that the new degree program be managed solely within the Department of Plant Sciences. We have discussed the changes with the ESM department, and they are overwhelmingly supportive of the change, including the separation from their department. This change request has not been made lightly – it has been in discussion for at least 10 years, and was a topic of discussion of two separate faculty curriculum retreats held by the Department faculty. These discussions intensified over the last several years. The Agroecology degree was adopted at UW over 25 years ago. As Wezel & Soldat (2007) note, the word agroecology “can be interpreted as a scientific discipline, as a movement, or as a practice.” When our agroecology degree was launched, it was a relatively obscure term, and so defining it simply as the scientific discipline combining ecology and agriculture made sense. Recently, however, public use of the term has evolved to much more commonly refer to a movement or a practice; and in some cases even a revolution.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
None

WHY THIS ITEM IS BEFORE THE BOARD:
University of Wyoming Regulation 2-119 requires that the Board approve all new degree programs, and lays out the process for that approval. The Academic and Student Affairs committee will report to the Board on recommended action for approval of the new degree program.

ACTION REQUIRED AT THIS BOARD MEETING:
Consideration for approval of the degree title change to Bachelor of Science (BS) Plant Production and Protection and approval and sole management of degree by the Department of Plant Sciences.

PROPOSED MOTION:
“I move to authorize administration to change the degree title to Bachelor of Science (BS) Plant Production and Protection and approve sole management of the degree by the Department of Plant Sciences.

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
During a meeting on August 28, 2019, the Plant Sciences faculty voted unanimously to petition the College of Agriculture and Natural Resources and the Department of Ecosystem Science and Management to move the Agroecology B.S. degree solely within the Department of Plant Sciences. The reasons for this request are provided below.

**Proposal:** To move responsibility and direction of the Agroecology B.S. degree solely to the Department of Plant Sciences, instead of the current joint-degree partnership with the Department of Ecosystem Science and Management (ESM).

**Justification:**

The Agroecology B.S. degree was initiated 25 years ago as the primary undergraduate degree from the Department of Plant, Soil, and Insect Sciences (PSIS). Not long after the new degree program was launched, that department was split into two departments: Plant Sciences (disciplines of crop science, weed science, and plant pathology) and Ecosystem Science & Management¹ (disciplines of rangeland science, soil science, hydrology, and entomology). Following the departmental split, the Agroecology degree program became inter-departmental by necessity, since it was jointly managed by faculty in the two new departments.

From the outset, Agroecology (AECL) curriculum was developed as a hybrid between Agronomy and Ecology; it was an attempt to fill the need for what is now more commonly known as sustainable agriculture. The current curriculum encompasses the whole of the system of plant production and protection, including production strategies and pest management. Because the curriculum was primarily rooted in agronomic and horticultural production systems, over time a majority of the student advising and mentoring and most of the AECL courses have been handled by Plant Sciences faculty. Shifts in the disciplinary focus among new faculty in both departments has resulted in fewer ESM faculty directly contributing to the aspects of plant production and protection that are relevant to the Plant Sciences vision of what our undergraduate curriculum should become. This is not a critique or criticism of either department – in contrast, this is exactly what academic departments must do to stay relevant. This shift in priorities is the natural evolution of the disciplinary focus in both departments.

Times have changed, plant production has changed, and the Agroecology B.S. curriculum must adapt to these changes. Over the past several years, Plant Sciences faculty have discussed changes needed in our curriculum to better serve current and future students. Some of these changes have been implemented simply by changing course content or adding elective courses.

---

¹ Ecosystem Science and Management is the current name of the department, but at the time of the split this department was named Renewable Resources.
However, feedback from former and potential students, employers, and advising staff has also necessitated an evaluation of our curriculum as a whole.

Based on these curriculum discussions, the Plant Sciences faculty has decided that to successfully move into the future, substantial changes in the focus and requirements of our degree are necessary, including a change to the B.S. degree program. We feel a revised curriculum focused on plant production and protection in the unique Wyoming environment can be best implemented by being nimble and flexible in our ability to adapt to a changing agricultural environment. Having full control of our own B.S. curriculum will improve our ability to meet this goal.

In addition to increased flexibility and adaptability of the program, students and professional advising staff will no longer be uncertain regarding who to direct questions about the program, since it will reside solely within the Plant Sciences department. The degree program will still include fundamental coursework taught by the ESM department (particularly in entomology and soil science), just as we require fundamental courses taught by other departments (Agricultural Economics, Chemistry, Statistics, etc.). We feel this change will retain the many benefits our students receive from ESM faculty expertise, but allow the Plant Sciences department to move forward in a way that best serves the interests of our students.

Respectfully submitted on behalf of the faculty of the Department of Plant Sciences by:

Karen Panter, Ph.D.  Andrew Kniss, Ph.D.
Associate Head   Head
# Proposed B.S. in Plant Production and Protection

University of Wyoming

Existing Degree Program Change Request
Title Change, Degree Designation, or CIP Change

**Directions:** Complete this form and proposal template to request a change to the title (name) of an existing degree program or to request a change to the Classification of Instructional Programs (CIP) code of an existing degree program. The degree program must already be on an institution’s program inventory.

A degree program title consists of the following two parts:

1. degree designation, such as Bachelor of Science (BS), Master of Arts (MA), or Doctor of Philosophy (PhD); and,
2. name of the discipline, such as History, Mechanical Engineering, or Zoology.

The Classification of Instructional Programs (CIP) is the taxonomic coding scheme used for instructional programs in higher education. Its purpose is to facilitate the organization, collection, and reporting of fields of study and program completions. The academic unit should consult with the Office of the Registrar and Office of Institutional Analysis prior to submitting the proposal to determine whether a change to the CIP code used to classify the program is recommended.

**Resources:**

[CIP Code Information](#)

**Process:**

1. Faculty of the unit develop a rational for the change.
2. The dean of the academic unit approves the rationale and change and submits the proposal to the Provost.
3. The Provost routes the proposal to the Faculty Senate for consideration by the Graduate Council or Academic Planning Committee.
4. The Provost approves the rationale and change.
5. The Provost reports the proposal to the Academic and Student Affairs Committee of the Board of Trustees.
6. The proposers hold an implementation meeting with the Registrar, Admissions, OIA, and Advising Managers, and other appropriate units to implement the change. Implementation meetings gather people from all of the units that will take part in ensuring a new or restructured academic program runs smoothly.
Administrative Information

1. **Proposing Unit:** Department of Plant Sciences, College of Agriculture & Natural Resources

2. **Current Degree Program Title:** Bachelor of Science degree with a major in Agroecology

3. **Current Degree Program CIP Code:** 01.11) Plant Sciences

4. **Contact Person:** Provide contact information for the person who can answer specific questions about the degree program and change proposal.

   Name: Andrew R. Kniss
   Title: Head, Plant Sciences
   E-mail: akniss@uwyo.edu
   Phone: 307-766-3104

**Guidance:** Name and identity are closely related. A program “brand” as represented by the name has value and so careful planning for a name or designation change is a worthwhile investment. Programs with a long history and many alumni and past employees may find that these groups express strong attachment to the existing name. Thus, the rationale for the name change should be made with full consideration for the impact on the historic connections and with a view to the long-term future. New names should be designed to reflect the nature of the program for many years to come. Ideally, consultation with and support from the program’s students in course and alumni should be evident in the proposal.

Programs should also demonstrate that they have consulted with other departments and colleges on campus that may be impacted by the change.

Program names that narrow the program scope or reflect short term sub-areas or trends in research tools or methodology should be avoided. Proposals should be explicit about all the academic programs and structures that are included in a name change request. For example, list all departments, majors, degrees, certificates, centers, subject listings, minors or other academic elements that are included in the request.

Some common justifications for a change in major name or CIP code are that the new name more accurately reflects the curriculum than the old name, that the activities of the program faculty and the training they offer are more accurately reflected by the new name, and that the name of the discipline has changed and consequently the major should be renamed to reflect this change in the discipline.
Request for Change in Degree Program Designation (e.g., Bachelor of Science (BS), Master of Arts (MA), or Doctor of Philosophy (PhD))

Current Degree Program Designation: **Bachelor of Science (BS)**

Proposed Degree Program Designation: **no change requested**

Request Change in Name of Discipline (e.g., History, Mechanical Engineering, or Zoology)

Current Name: Agroecology

Proposed Name:  
**Plant Production and Protection**

Concentration options:
- Agronomy  
- Horticulture  
- Agroecology and Evolution  
- Integrated Pest Management

Minors:  
- Agronomy  
- Horticulture  
- Agroecology  
- Plant Protection

Implementation Date (MM/DD/YYYY): 08/01/2022

Reason for Change:
- Background: An overview explanation of why the change(s) is being requested; how will it improve the degree program and benefit students and faculty?
- Proposed changes: List each proposed change and the specific rationale for that change.
- Logistics: When is the changed proposed to be effective. How will current students in the program be handled? (note: Generally changes are effective for the subsequent fall semester. Current students are assumed to be required to complete the requirements in place when they entered the program unless otherwise agreed upon by the student and program.) Document that you have consulted with alumni and current students when appropriate. Document that you have consulted with other departments and colleges that may be impacted by the change.
- Comparison of current and proposed curriculum, if applicable

**Reason for change of degree name and addition of concentrations:**
The Department of Ecosystem Science & Management is our partner in the Agroecology degree program. For reasons more fully explained in an attached justification document, we are requesting that the new degree program be managed solely within the Department of Plant
Existing Program Change

Page 4

Sciences. We have discussed the changes with the ESM department, and they are overwhelmingly supportive of the change, including the separation from their department.

This change request has not been made lightly – it has been in discussion for at least 10 years, and was a topic of discussion of two separate faculty curriculum retreats held by the Department faculty. These discussions intensified over the last several years. The Agroecology degree was adopted at UW over 25 years ago. As Wezel & Soldat (2007) note, the word agroecology “can be interpreted as a scientific discipline, as a movement, or as a practice.” When our agroecology degree was launched, it was a relatively obscure term, and so defining it simply as the scientific discipline combining ecology and agriculture made sense. Recently, however, public use of the term has evolved to much more commonly refer to a movement or a practice; and in some cases even a revolution.

Our curriculum continues to focus on the ecology of agricultural plant production, and we do not include some of the aspects that many people now associate with agroecology, such as social and political aspects of food distribution, social justice, and food distribution systems. While these topics are certainly worthy of study within a Bachelors degree program, they fall well beyond the scope of our curriculum. Therefore, the degree name has become a regular source of confusion for our graduates and potential employers, and makes it difficult for us to communicate and market our program to potential students who would be interested in the curriculum we currently provide.

We have also heard from employers that students with our Agroecology degree have been screened out of potential jobs by HR offices who are unfamiliar with the term. We believe our Bachelors degree program prepares students extremely well for jobs in agronomy, horticulture, and crop protection – so this change is requested to ensure we are able to recruit top students and to ensure they can market themselves for the diverse employment opportunities they are interested in upon graduation. The degree name we are requesting is a Bachelor of Science degree in Plant Production and Protection. We feel this name is both descriptive of what our curriculum provides to students and will also help potential employers quickly realize the skill set graduates possess.

Along with this name change, we are requesting four optional concentrations that may be added to the transcript. These concentrations will allow students to declare an area of specialization within the broad Plant Production and Protection degree program. These four concentrations are:

- Agronomy
- Horticulture
- Integrated Pest Management
- Agroecology & Evolution

Minors in all four areas will also be offered to non-majors who complete a targeted subset of courses. This model of concentrations and minors will allow our agronomy- or horticulture-interested students to concentrate in those areas, and add that information to their transcript and resume and allow themselves to market themselves better to potential employers. Retaining Agroecology as a concentration and minor will also allow us to continue effectively recruiting students interested in sustainable agriculture who might not otherwise consider the University of Wyoming. Although many students are confused by the term, there is a subset of students who enroll in our program because of that name, and this allows those students to continue to find us.
Associated coursework changes:
Some of the most noteworthy coursework changes include removing General Ecology (LIFE 3400) and Public Speaking (COJO 2010) as requirements. The former, as we have discovered during student exit interviews, is not taught with relevance to crop production, and our coursework already covers all relevant ecological principles within our own Plant Sciences courses. General Ecology will continue to be a required course for students who declare the Agroecology & Evolution concentration. University Studies program changes require students to take a speaking-relevant course – so we felt there was no need for us to specify a single course within our degree program. This allows students the flexibility to choose whichever communications courses suit their interests in completion of their USP coursework.

We are adding Genetics (LIFE 3050) as a required course. We feel that genetics is a fundamental component of a credible degree in Plant Production and Protection, as genetics is a core concept in crop production, plant improvement, and pest management. We are increasing our ‘practical’ experience requirement from 4 credit hours to 6 credit hours while also increasing the course offerings to meet this additional requirement. Our current required internship program has been a major success, and we feel strongly that students benefit substantially from hands-on and real-world experiences.

Request Change in CIP Code

Current Code: **01.11) Plant Sciences**

Proposed Code: **no change requested**

Implementation Date (MM/DD/YYYY):

Reason for Change:

- **Background:** An overview explanation of why the change(s) is being requested; how will it improve the degree program and benefit students and faculty?
- **Proposed changes:** List each program you are requesting the CIP code change for and the specific rationale for that change.
- **Logistics:** When is the changed proposed to be effective. How will current students in the program be handled? (note: Generally changes are effective for the subsequent fall semester. Current students are assumed to be required to complete the requirements in place when they entered the program unless otherwise agreed upon by the student and program.)
AGENDA ITEM TITLE: Wyoming Hall 15th Street Utilities Change Order, Mai

SESSION TYPE: ☐ Work Session
☐ Education Session
☐ Information Item
☒ Other:
[Committee of the Whole – Items for Approval]

APPLIES TO STRATEGIC PLAN:
☐ Yes (select below):
☐ Driving Excellence
☐ Inspiring Students
☐ Impacting Communities
☐ High-Performing University
☐ No [Regular Business]

☒ Attachments are provided with the narrative.

EXECUTIVE SUMMARY:
To facilitate streamlined closures and traffic control in 15th Street Haselden has been asked to coordinate the utility relocation work North of Lewis Street in tandem with the Wyoming Hall demolition work South of Lewis in 15th Street. Haselden Wyoming Constructors has coordinated with UW Administration and the City of Laramie to relocate utilities to allow for demolition of Wyoming Hall and vacation of street sections in the Lewis St. corridor per the proposed change order for $1,425,572.

The 2014 MOU Amendment 1 between the University of Wyoming and City of Laramie defines the scope and cost responsibility for this work. The amount of the change order is the total construction cost. The City has a $20,149.24 cost obligation and UW funds the balance of $1,405,422.76, with funding to come from the Lewis Street Master Plan Project Utilities Allowance.

The total all-in budget for Wyoming Hall Demolition and Utilities project is currently $17,541,851.00.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
• March 2021 – Board authorized Administration to execute the 2014 MOU Amendment 1 between the University of Wyoming and City of Laramie.
• February 2021 – Board authorized Administration to execute a contract change order in the amount of $493,830.00.
• August, 2020 – Board authorized Administration to execute a contract amendment establishing the guaranteed maximum price.
• May, 2020 – Board authorized Administration to enter into contract with Haselden Wyoming Constructors for Construction Manager at-Risk services.
• March, 2020 – Board authorized the Construction Manager at-Risk delivery method for the project.
• December, 2019 – Board authorized Administration to execute a contract with ST+B Engineers for Level 3 Planning for the Wyoming Hall Demolition project.
• September, 2019 - Board authorized demolition of Wyoming Hall for the purpose of new student housing.

WHY THIS ITEM IS BEFORE THE BOARD:
Pursuant to UW regulation 6-9 Board approval is required to approve change orders over $50,000.
ACTION REQUIRED AT THIS BOARD MEETING:
Board of Trustee approval or disapproval to execute the change order with Haselden Wyoming Constructors of Laramie, WY for $1,425,572 for the Lewis Street North utility relocation scope of work for the Wyoming Hall Demolition and Utilities project.

PROPOSED MOTION:
“I move to authorize administration to execute the change order with Haselden Wyoming Constructors of Laramie, WY for $1,425,572 for the Lewis Street North utility relocation scope of work for the Wyoming Hall Demolition and Utilities project to be funded from the Lewis Street Master Plan Project Utilities Allowance.”

PRESIDENT’S RECOMMENDATION:
President recommends approval.
AGENDA ITEM TITLE: Lewis Street Corridor Amendment for Landscape Architect

SESSION TYPE: ☐ Work Session  ☐ Yes (select below):
☐ Education Session  ☐ Driving Excellence
☐ Information Item  ☐ Inspiring Students
☒ Other:  ☐ Impacting Communities
[Committee of the Whole – Items for Approval]  ☒ No [Regular Business]
☐ [Regular Business]

Attachments are provided with the narrative—refer to Supplemental Materials Report.

EXECUTIVE SUMMARY:
Administration has identified the need for a tree succession plan to ensure the long-term sustainability of the campus landscape. An electronic inventory and map of approximately 3,000 trees documenting the location, age, species and health of each tree will be created. The tree succession plan will include recommendations on developing a more diverse variety of trees to protect against the chance of disease impacting large areas of campus. A schedule for the removal and replacement of trees and an annual budget needed to execute the plan will be proposed.

Norris Design, the landscape architect working on the Lewis Street Corridor, in the amount of $62,400. This would incorporate the tree succession plan for the Lewis Street corridor and the remainder of main campus into Norris Design’s scope of work.

The additional services are proposed to be funded from the remaining balance of $75,000 from the Campus Master Plan project.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
November 2019 – Board authorized Administration to enter into an agreement for landscape architecture and civil engineering services for Phase 1 of the Lewis St. Master Plan.

WHY THIS ITEM IS BEFORE THE BOARD:
Pursuant to University Regulation 6-9, consultant agreements for capital construction projects shall be approved by the Board.

ACTION REQUIRED AT THIS BOARD MEETING:
Board approval or disapproval of the proposed amendment #1 and funding for implementation of a tree succession plan.

PROPOSED MOTION:
“I move to authorize administration to execute an amendment in the amount of $62,400 to the agreement with Norris Design to perform a tree succession plan to be funded from the remaining balance in the Campus Master Plan budget”.

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
AGENDA ITEM TITLE: Corbett Construction Contract Change Order, Mai

SESSION TYPE: ☐ Work Session
☐ Education Session
☐ Information Item
☒ Other:
[Committee of the Whole – Items for Approval]
☐ Other:
☐ [Regular Business]

APPLIES TO STRATEGIC PLAN:
☐ Yes (select below):
☐ Driving Excellence
☐ Inspiring Students
☐ Impacting Communities
☐ High-Performing University

Attachments are provided with the narrative—refer to Supplemental Materials Report.

EXECUTIVE SUMMARY:
Shepard Construction of Rawlins, Wyoming has finalized pricing for the electrical/fire alarm system upgrade for the Corbett Locker Room Renovation project.

The change order amount is $245,846.00. The project was bid as a Design-Bid-Build contract to bring the locker rooms up to current standards, improve mechanical systems, address acoustical issues, and ensure ADA compliance and a major maintenance portion to include an electrical/fire alarm system allowance. The construction documents and pricing for this scope of work have been finalized. The additional cost comes from an upgrade to high voltage gear, addressing electrical code issues in the basement and a new fire alarm system for the entire building.

Total project budget for the Corbett renovations is $4.15 M. If approved, this additional work, will be funded by an additional $245,846 from Major Maintenance for a new total project budget of $4,395,846.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
• November 2020 - Board approved Administration to execute the Agreement between the Owner and Contractor, between the University of Wyoming and Shepard Construction of Wyoming in the amount of $3,276,750.00.
• May 2019 - Board approved Design-Bid-Build construction delivery method for the Corbett Pool Locker Room Renovations.
• November 2018 - Board approved hiring design consultant firm.

WHY THIS ITEM IS BEFORE THE BOARD:
Pursuant to UW regulation 6-9 Board approval is required to approve change orders over $50,000.

ACTION REQUIRED AT THIS BOARD MEETING:
Board approval or disapproval of the contract change order with Shepard Construction of Rawlins, Wyoming in the amount of $245,846.

PROPOSED MOTION:
“I move to authorize Administration to execute the contract change order with Shepard Construction of Rawlins, Wyoming in the amount of $245,846 for the electrical and fire alarm upgrades scope of work for the Corbett project.”

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
AGENDA ITEM TITLE: Ivinson Parking Garage Exterior Design, Mai

SESSION TYPE: ☐ Work Session
☐ Education Session
☐ Information Item
☒ Other:
[Committee of the Whole – Items for Approval]

APPLIES TO STRATEGIC PLAN:
☐ Yes (select below):
☐ Driving Excellence
☐ Inspiring Students
☐ Impacting Communities
☒ High-Performing University
☐ No [Regular Business]

Attachments are provided with the narrative—refer to Supplemental Materials Report.

EXECUTIVE SUMMARY:
University Regulation 6-9 requires an Exterior Design Advisory Committee (EDAC) to be developed for capital construction projects. The committee is chaired by a Trustee and is charged with ensuring the design of the facility is consistent with the architectural context of the University and that the project conforms to the Campus Master Plan and Historic Preservation Plan. Once the process is complete, the EDAC makes a recommendation to the Board’s Facilities Contracting Committee, who upon approval, makes a recommendation to the full Board for approval.

The Parking Garage Exterior Design Advisory Committee met in 2020 and meet on April 6th to provide a recommendation for the Exterior of the Ivinson Parking Garage to the Facilities Contracting Committee. On May 12th the Facilities Contracting Committee will review the changes that were requested at the Facilities Contracting Committee April 8th meeting. The attachments will be received May 7th and will show the proposed Exterior of the Ivinson Parking Garage.

PRIOR RELATED BOARD DISCUSSIONS/_ACTIONS:
• January, 2021 – Board approved the interior design.
• July, 2020 – Board approved an increase in the construction budget in the amount of $2,500,000.00.
• May, 2020 – Board approved selection of a CMAR.
• March, 2020 – Board authorized Administration to execute a Level 3 design services contract with By Architectural Means, in association with Anderson Mason Dale Architects for the Ivinson Parking Garage project.
• December, 2019 – Board authorized Administration to execute a pre-design services contract with By Architectural Means in association with Anderson Mason Dale Architects for the Ivinson Parking Garage project.
• September, 2019 - Board authorized the construction of a multi-story parking garage on the Ivinson parking lot site.

WHY THIS ITEM IS BEFORE THE BOARD:
Pursuant to University Regulation 6-9, the exterior design of all new or renovated facilities require Board of Trustee approval prior to proceeding with subsequent design phases.

ACTION REQUIRED AT THIS BOARD MEETING:
Board approval or disapproval of the Ivinson Parking Garage exterior design as recommended by the project’s Exterior Design Advisory Committee and Facilities Contracting Committee and authorize Administration to proceed with the design and construction documents.
PROPOSED MOTION:
“I move to approve the exterior design of the Ivinson Parking Garage as recommended by the Exterior Design Advisory Committee and the Facilities Contracting Committee and authorize Administration to proceed with the design amendments and construction documents”.

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
AGENDA ITEM TITLE: Student Housing Exterior Design, Mai

EXECUTIVE SUMMARY:
University Regulation 6-9 requires an Exterior Design Advisory Committee (EDAC) to be developed for capital construction projects. The committee is chaired by a Trustee and is charged with ensuring the design of the facility is consistent with the architectural context of the University and that the project conforms to the Campus Master Plan and Historic Preservation Plan. Once the process is complete, the EDAC makes a recommendation to the Board’s Facilities Contracting Committee who upon approval makes a recommendation to the full Board for approval. Phase 1 of the Student Housing and Dining project will consist of the construction of 1,000 beds of freshman housing, an 850-seat dining facility, associated landscaping and civil infrastructure improvements.

The Student Housing Exterior Design Advisory Committee has met several times to discuss the exterior design of the Phase 1 of the Student Housing and Dining project. On May 12th, the Facilities Contracting Committee will review the changes that were requested at the final Exterior Design Advisory Committee meeting on April 1st as well as the changes that the Facilities Contracting Committee requested at their April 8th meeting. The attachments will be received May 7th and will show the proposed exterior design as approved by the Student Housing Exterior Design Advisory Committee.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
• October, 2020 – Board approved the site for the new housing facilities.
• May, 2020 – Board approved negotiating an agreement with JE Dunn for construction management services.
• March, 2020 – Board authorized Administration to execute an agreement for Level 3 architectural and engineering services for Phase 1 of the Student Housing and Dining project.
• January, 2020 – Board authorized Administration to make an expenditure from the Housing Reserve account for programming design services for the Student Housing and Dining project.
• September, 2019 - Board authorized construction of an appropriate number of buildings in the northeast corner of campus immediately west of 15th Street.
• July, 2019 – Board authorized Administration to negotiate and contract with the consulting firms; Plan One, alm2s and Mackey Mitchell Architects, as the design consultant for the Student Housing and Dining project.
WHY THIS ITEM IS BEFORE THE BOARD:
Pursuant to University Regulation 6-9, the exterior design of all new or renovated facilities require Board of Trustee approval prior to proceeding with subsequent design phases.

ACTION REQUIRED AT THIS BOARD MEETING:
Board approval or disapproval of the Student Housing exterior design as recommended by the project’s Exterior Design Advisory Committee and Facilities Contracting Committee and authorize Administration to proceed with the design and construction documents.

PROPOSED MOTION:
“I move to approve the exterior design of the Student Housing project as recommended by the Exterior Design Advisory Committee and the Facilities Contracting Committee and authorize Administration to proceed with the design and construction documents”.

Attachments are provided with the narrative—refer to Supplemental Materials Report.

EXECUTIVE SUMMARY:
University Regulation 6-9, III., F., requires Administration to provide an interior design and program report for all capital construction projects. The report must be submitted to the Board’s Facilities Contracting Committee prior to proceeding with the Design Development phase of the project. Once approved, no changes to the interior design can be made except upon prior approval of the Board. Phase 1 of the Student Housing and Dining project will consist of the construction of 1,000 beds of freshman housing, an 850-seat dining facility, associated landscaping and civil infrastructure improvements.

The Facilities Contracting Committee has provided recommendations to the architect regarding the interior of the new Student Housing and Dining project. On May 12th, the Facilities Contracting Committee will review the changes that were requested at the Facilities Contracting Committee April 8th meeting. The attachments will be received May 7th and will show the proposed interior design and program recommendations.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
• October, 2020 – Board approved the site for the new housing facilities.
• May, 2020 – Board approved negotiating an agreement with JE Dunn for construction management services.
• March, 2020 – Board authorized Administration to execute an agreement for Level 3 architectural and engineering services for Phase 1 of the Student Housing and Dining project.
• January, 2020 – Board authorized Administration to make an expenditure from the Housing Reserve account for programming design services for the Student Housing and Dining project.
• November, 2019 – Board approved a Board Resolution addressing reimbursement of capital expenditures for the housing-related projects.
• September, 2019 - Board authorized construction of an appropriate number of buildings in the northeast corner of campus immediately west of 15th street.
• July, 2019 – Board authorized Administration to negotiate and contract with the consulting firms; Plan One, alm2s and Mackey Mitchell Architects, as the design consultant for the Student Housing and Dining project.

WHY THIS ITEM IS BEFORE THE BOARD:
Pursuant to University Regulation 6-9, the interior design and programming of all new or renovated facilities require Board of Trustee approval prior to proceeding with subsequent design phases.
ACTION REQUIRED AT THIS BOARD MEETING:
Board approval or disapproval of the interior design and program and authorization for Administration to proceed with the design and construction documents.

PROPOSED MOTION:
“I move to approve the interior design and program for the Student Housing project as recommended by the Facilities Contracting Committee and authorize Administration to proceed with the design and construction documents”.

PRESIDENT’S RECOMMENDATION:
The President recommends approval.

SESSION TYPE:
☐ Work Session
☐ Education Session
☐ Information Item
☒ Other: [Committee of the Whole – Items for Approval]
☐ Driving Excellence
☐ Inspiring Students
☐ Impacting Communities
☒ No [Regular Business]

Attachments are provided with the narrative—refer to Supplemental Materials Report.

EXECUTIVE SUMMARY:

In March of 2020, the Board authorized Administration to execute an agreement for Level 3 design and construction services for Phase 1 of the Student Housing and Dining project. Phase 1 will consist of the construction of 1,000 beds of freshman housing, an 850-seat dining facility, associated landscaping and civil infrastructure improvements. Prior to beginning the Exterior Design Advisory Committee process for the site and landscape design, Administration proposes an amendment to the architectural agreement to include additional site scope. The additional scope includes the Union Lawn directly east of the Wyoming Union, the round-about proposed at 15th Street and Willett Drive and the relocation of the Union transit stop to the intersection of 15th Street and Willett Drive. This additional scope results in an increase in the amendment with alm2s of $119,420. This increase is proposed to come from the Housing Reserve account. This would be a reimbursable amount from the bond issuance for student housing.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
- September, 2020 - Board approval to execute an agreement with JE Dunn for Level 3 construction management services.
- March, 2020 – Board authorized Administration to negotiate an agreement for Level 3 architectural and engineering services for Phase 1 of the Student Housing and Dining project.
- January, 2020 – Board authorized Administration to make an expenditure from the Housing Reserve account for programming design services for the Student Housing and Dining project.
- November, 2019 – Board approved a Board Resolution addressing reimbursement of capital expenditures for the housing-related projects.
- September, 2019 - Board authorized construction of an appropriate number of buildings in the northeast corner of campus immediately west of 15th street.
- July, 2019 – Board authorized Administration to negotiate and contract with the consulting firms; Plan One, alm2s and Mackey Mitchell Architects, as the design consultant for the Student Housing and Dining project.

WHY THIS ITEM IS BEFORE THE BOARD:
Pursuant to University Regulation 6-9, consultant agreements for capital construction projects shall be approved by the Board.

ACTION REQUIRED AT THIS BOARD MEETING:
Board approval or disapproval of the proposed amendment to the architect agreement.
PROPOSED MOTION:
“I move to approve an amendment in the amount of $119,420.00 to the agreement with alm2s for the expanded site scope related to the Student Housing project”.

PRESIDENT’S RECOMMENDATION:
The President recommends approval.

EXECUTIVE SUMMARY:

In March of 2020, the Board authorized Administration to execute an agreement for Level 3 design and construction services for Phase 1 of the Student Housing and Dining project. Phase 1 will consist of the construction of 1,000 beds of freshman housing, an 850-seat dining facility, associated landscaping and civil infrastructure improvements. The original schedule at the time of the execution of the agreement proposed a 12-month design and 24-month construction schedule beginning in April of 2020. The proposed amendment with alm2s addresses the costs incurred by changes to the schedule and expanded scope as well as studying additional sites beyond those identified in the original scope of work. The additional amount of the amendment is $89,650 which will come from the Housing Reserve account. This would be a reimbursable amount from the bond issuance for student housing.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:

• September, 2020 - Board approval to execute an agreement with JE Dunn for Level 3 construction management services.
• March, 2020 – Board authorized Administration to negotiate an agreement for Level 3 architectural and engineering services for Phase 1 of the Student Housing and Dining project.
• January, 2020 – Board authorized Administration to make an expenditure from the Housing Reserve account for programming design services for the Student Housing and Dining project.
• November, 2019 – Board approved a Board Resolution addressing reimbursement of capital expenditures for the housing-related projects.
• September, 2019 - Board authorized construction of an appropriate number of buildings in the northeast corner of campus immediately west of 15th street.
• July, 2019 – Board authorized Administration to negotiate and contract with the consulting firms; Plan One, alm2s and Mackey Mitchell Architects, as the design consultant for the Student Housing and Dining project.

WHY THIS ITEM IS BEFORE THE BOARD:

Pursuant to University Regulation 6-9, consultant agreements for capital construction projects shall be approved by the Board.
ACTION REQUIRED AT THIS BOARD MEETING:
Board approval or disapproval of the proposed amendment to the architect agreement.

PROPOSED MOTION:
“I move to approve an amendment in the amount of $89,650.00 to the agreement with alm2s for the expanded scope related to the Student Housing project”.

PRESIDENT'S RECOMMENDATION:
The President recommends approval.
AGENDA ITEM TITLE: Southeast Regional Center Lease Extension with Laramie County Community College

SESSION TYPE: ☒ Work Session
☐ Education Session
☐ Information Item
☐ Other:
[Committee of the Whole – Item for Approval]
☐ Yes (select below):
☒ Driving Excellence
☒ Inspiring Students
☐ Impacting Communities
☐ High-Performing University
☒ No [Regular Business]

Attachments are provided with the narrative.

EXECUTIVE SUMMARY:
This agenda item is to request approval for an amendment to extend an existing lease agreement between Laramie County Community College (LCCC) and the University of Wyoming for the Southeast Regional Center in Cheyenne, Wyoming. The current lease term ends June 30, 2021, and the University departments occupying the space and LCCC have expressed a desire to extend the existing agreement for another three (3) year term.

The Clay Pathfinder Building serves as LCCC’s Student Services Center on LCCC’s campus and the University leases a total of 10,238 square feet in the Clay Pathfinder Building (see attached map). University departments in the space include: Admissions/Distance Education, UW Extension, and Student Educational Opportunity. The three (3) year extension is proposed for renewal under the same terms and conditions as the prior lease extension, including the rent payment remaining the same.

The annual rent payment from the University reimburses the community colleges’ operations & maintenance (O&M) costs on a per square foot basis for the University’s occupied space. The current and proposed annual lease rent with LCCC is $89,935.70 or $8.79 per square foot, including custodial services. The University and LCCC can review and revise the rent payments annually, including changes in square footage or operating costs. The University has the ability to terminate the lease upon 90 days’ advance written notice.

At the direction of the Facilities Contracting Committee, the administration has finalized the lease amendment for signature. The attached lease amendment has been signed by LCCC and is ready for the University’s signature.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
None.

WHY THIS ITEM IS BEFORE THE BOARD:
Per UW Regulation 7-2, the Board of Trustees reserves authority to approve and/or sign contracts for “Other matters involving real property, including but not limited to the lease of real property; easements; water rights and development; oil, gas and mineral leases; and federal or state government leases, permits, or licenses for longer than one year or more than $50,000”.
ACTION REQUIRED AT THIS BOARD MEETING:
Board approval or disapproval of the recommendation of the Board’s Facilities Contracting Committee.

PROPOSED MOTION:
“I move to authorize Administration to execute Amendment No. 2 to the Lease Agreement with Laramie County Community College as presented to the Board.”

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
AMENDMENT NO. 2
TO THE LEASE AGREEMENT
BETWEEN
LARAMIE COUNTY COMMUNITY COLLEGE
AND
UNIVERSITY OF WYOMING

THIS AMENDMENT NO. 2 to the Lease Agreement dated December 6, 2016 between Laramie County Community College, whose address is 1400 East College Drive, Cheyenne, Wyoming 82007, hereinafter referred to as LESSOR, and the University of Wyoming, whose address is Dept. 4308, 1000 E. University Ave., Laramie, Wyoming 82071, hereinafter referred to as LESSEE, is effective the 1st day of July 2021.

WHEREAS, the Lease Agreement dated December 6, 2016 ("Lease") expired on June 30, 2018 and Amendment No. 1 will expire on June 30, 2021; and

WHEREAS, both LESSOR and LESSEE wish to continue their partnership for the purposes of providing and enhancing education programs for Wyoming students; and

WHEREAS, both LESSOR and LESSEE desire to extend said Lease on the following terms and conditions as provided below;

NOW THEREFORE, in consideration of the mutual covenants contained herein, the parties agree the following terms and conditions shall be revised in the Lease as follows:

2. LEASE TERM. The term of this Lease shall be extended for a period of 36 months commencing on the 1st day of July, 2021, and terminating on the 30th day of June, 2024. Unless sooner terminated as provided herein and provided Lessee is not in default at the expiration of the term of this Lease, Lessee shall have the right to renew and extend this Lease as agreed to and signed between the parties.

3. LEASE PAYMENT.

A. Rent. During the term of this Lease, LESSEE shall pay to LESSOR as rent the annual sum of $78,320.70, or approximately $7.65 per square foot per annum, for the lease of 10,238 square feet, as shown and calculated on Exhibit C attached hereto and made a part hereof.

B. Operations Costs. In addition to rent, LESSEE shall pay to LESSOR the annual operations costs for custodial and phone services as calculated and shown on Exhibit C.

C. Schedule of Payments. The payment of rent and operations costs shall be due July 1, 2021, and each anniversary thereafter. Payment of rent shall be paid within forty-five
(45) days following receipt of an invoice by LESSEE from LESSOR in the amount as shown on Exhibit C.

D. Payment Review. The payment may be reviewed annually by both Parties and any changes in definition of the square footage, rent, operating costs, or rent calculation will be agreed to by both Parties and reflected in revised Exhibits and signed by both parties.

INCORPORATION OF AMENDMENT INTO ORIGINAL LEASE
The signing of this Amendment shall incorporate this Amendment into the Lease. All other terms and conditions of the original lease remain in effect. It is further intended that in the event of any inconsistency between the Lease, its attachments, and this Amendment, that the terms of this Amendment be construed as final and binding.

IN WITNESS WHEREOF, the parties, through their duly authorized representatives, have set their hands the day and year set out below.

AMENDMENT NO. 1  
TO THE LEASE AGREEMENT  
BETWEEN  
LARAMIE COUNTY COMMUNITY COLLEGE  
AND  
UNIVERSITY OF WYOMING  

THIS AMENDMENT NO. 1 to the Lease Agreement dated December 6, 2016 between Laramie County Community College, whose address is 1400 East College Drive, Cheyenne, Wyoming 82007, hereinafter referred to as LESSOR, and the University of Wyoming, whose address is Dept. 4308, 1000 E. University Ave., Laramie, Wyoming 82071, hereinafter referred to as LESSEE, is effective the 1st day of July 2018.

WHEREAS, the Lease Agreement dated December 6, 2016 ("Lease") will expire on June 30, 2018; and

WHEREAS, both LESSOR and LESSEE wish to continue their partnership for the purposes of providing and enhancing education programs for Wyoming students; and

WHEREAS, both LESSOR and LESSEE desire to extend said Lease on the following terms and conditions as provided below;

NOW THEREFORE, in consideration of the mutual covenants contained herein, the parties agree the following terms and conditions shall be revised in the Lease as follows:

2. LEASE TERM. The term of this Lease shall be extended for a period of 36 months commencing on the 1st day of July, 2018, and terminating on the 30th day of June, 2021. Unless sooner terminated as provided herein and provided Lessee is not in default at the expiration of the term of this Lease, Lessee shall have the right to renew and extend this Lease as agreed to and signed between the parties.

3. LEASE PAYMENT.

A. Rent. During the term of this Lease, LESSEE shall pay to LESSOR as rent the annual sum of $78,320.70, or approximately $7.65 per square foot per annum, for the lease of 10,238 square feet, as shown and calculated on Exhibit C attached hereto and made a part hereof.

B. Operations Costs. In addition to rent, LESSEE shall pay to LESSOR the annual operations costs for custodial and phone services as calculated and shown on Exhibit C.

C. Schedule of Payments. The payment of rent and operations costs shall be due July 1, 2018, and each anniversary thereafter. Payment of rent shall be paid within forty-five
(45) days following receipt of an invoice by LESSEE from LESSOR in the amount as shown on Exhibit C.

D. Payment Review. The payment may be reviewed annually by both Parties and any changes in definition of the square footage, rent, operating costs, or rent calculation will be agreed to by both Parties and reflected in revised Exhibits and signed by both parties.

INCORPORATION OF AMENDMENT INTO ORIGINAL LEASE
The signing of this Amendment shall incorporate this Amendment into the Lease. All other terms and conditions of the original lease remain in effect. It is further intended that in the event of any inconsistency between the Lease, its attachments, and this Amendment, that the terms of this Amendment be constructed as final and binding.

IN WITNESS WHEREOF, the parties, through their duly authorized representatives, have set their hands the day and year set out below.

LEASE AGREEMENT
BETWEEN
LARAMIE COUNTY COMMUNITY COLLEGE
AND
UNIVERSITY OF WyOMING

THIS LEASE AGREEMENT is made and entered into this 6th day of December 2016, by and between Laramie County Community College, whose address is 1400 East College Drive, Cheyenne, Wyoming 82007, hereinafter referred to as LESSOR, and the University of Wyoming, whose address is Dept. 4308, 1000 E. University Ave., Laramie, Wyoming 82071, hereinafter referred to as LESSEE.

WHEREAS, LESSOR is the owner of the premises described below, and both LESSOR and LESSEE wish to continue strengthening their partnership for the purposes of providing and enhancing education programs for Wyoming students; and

WHEREAS, LESSOR and the LESSEE desire to enter into a lease agreement (“Lease”) that shall provide space, including both exclusive and common space, to the University of Wyoming in the Pathfinder Building; and

WHEREAS, LESSOR and LESSEE agree to define their responsibilities and obligations related to the Lease as provided below;

NOW THEREFORE, in consideration of the mutual covenants contained herein, the parties agree as follows:

1. LEASED PREMISES. LESSOR leases to the LESSEE the space in the Clay Pathfinder Building on the Laramie County Community College campus, Cheyenne, Wyoming, for the exclusive use of LESSEE, more particularly described on the attached Exhibit “A” and as shown on Exhibit “B” attached hereto and by this reference made a part hereof. Herein after referred to collectively as the “Premises”, including the use of the building common areas.

2. LEASE TERM. The term of this Lease shall be for a period of 18 months and 6 days commencing on the 14th day of December, 2016, and terminating on the 30th day of June, 2018. Unless sooner terminated as provided herein and provided Lessee is not in default at the expiration of the term of this Lease, Lessee shall have the right to renew and extend this Lease for multiple years as agreed to and signed between the parties.

3. LEASE PAYMENT.

A. Rent. During the term of this Lease, LESSEE shall pay to LESSOR as rent the annual sum of $78,320.70, or approximately $7.65 per square foot per annum, for the lease of 10,238 square feet, as shown and calculated on Exhibit C attached hereto and made a part hereof.
B. Operations Costs. In addition to rent, LESSEE shall pay to LESSOR the annual operations costs for custodial and phone services as calculated and shown on Exhibit C.

C. Schedule of Payments. The first payment of rent and operations costs shall be paid to LESSOR within forty-five (45) days of the commencement date of this Lease in the amount as shown on Exhibit C. The second payment of rent and operations costs shall be due July 1, 2017 and paid within forty-five (45) days following receipt of an invoice by LESSEE from LESSOR in the amount as shown on Exhibit C.

D. Payment Review. The payment may be reviewed annually by both Parties and any changes in definition of the square footage, rent, operating costs, or calculation will be agreed to by both Parties and reflected in a revised Exhibits and as signed by both parties.

4. PURPOSE AND USE. The LESSEE shall use the Premises for education, teaching, and research purposes in support of strengthening the partnership between the LESSOR and LESSEE by providing enhanced cooperative education programs. So long as LESSEE is not in default of the terms of this agreement, LESSOR agrees it shall not adversely impact LESSEE's use of the Premises.

5. PARKING. LESSEE staff and clients shall be allowed to utilize parking spaces on the Premises and on the Laramie County Community College Campus, on the same terms as LESSOR staff and clients.

6. CONDITION OF THE PREMISES. The parties acknowledge that Lessee has investigated and inspected the condition of the Premises and accepts the Premises or any portion thereof in its current "AS IS" condition without any representation or warranty of the Lessor except as expressly set forth in this Agreement. The LESSEE further agrees that it will not encumber or obstruct the said sidewalk in front of or adjacent to said building or the dock area or allow the same to be obstructed and that no goods, material or machinery or other article shall be stored on said sidewalk or in said hallways or on the said dock areas of the premises leased, or left there for a longer period than shall be absolutely necessary to transport them to or from the premises of the LESSEE.

7. UTILITIES, CARE, MAINTENANCE, AND OPERATIONS COSTS.

A. Utilities. LESSOR shall be responsible for the cost of utility charges, including electric, gas, water, and sewer costs, used by LESSEE on the Premises during the term of this Lease.

B. Care of the Premises. LESSEE shall at all times maintain and keep the Premises in good order and repair, and in a clean and sanitary condition, reasonable wear and tear excepted.

C. Maintenance and Repairs. LESSOR, at LESSOR’s sole cost and expense, shall be responsible for major repairs and replacement of building systems and routine
maintenance and repairs to the Premises, unless such repairs are caused by the negligence or conduct of LESSEE. Routine maintenance and repair keep a building or facility, including its equipment and building systems, in a safe, good working order and is completed on regular intervals so that it may be used at its original or designed capacity for its originally intended purposes.

D. Operations and Custodial Services. Responsibilities for operations, custodial, IT, and phone services provided by LESSOR on the Premises are outlined in Exhibit D, attached hereto and made a part hereof. Annual costs for custodial and phone services to LESSEE are calculated and shown on Exhibit C.

E. LESSOR’s Right of Entry. LESSOR reserves the right to enter said Premises in response to “work order” requests, repairs, or maintenance requested by LESSEE, with such work to be done during normal business hours or after hours in the presence of the LESSEE, as needed, unless an emergency exists. Moreover, LESSOR’s security personnel may enter the area as deemed necessary.

F. It is expressly understood and agreed by and between the parties to this agreement that the LESSOR shall not be liable for: Any damage or injury caused by water which may be sustained by the LESSEE or other persons; or any other damage or injury resulting from the carelessness, negligence or improper conduct on the part of any other LESSEE or its agents or employees; or by reason of the breakage, leakage or obstruction of the water sprinkler or soil pipes, electric conduits or wiring or other leakage or breakage in or about said building, unless due to the LESSOR’s negligence or neglect.

8. ALTERATIONS. The LESSEE may, with the prior written consent of the LESSOR make alterations to the Premises at its own expense, provided such alterations do not impair the structure in which the Premises is situated.

9. SIGNAGE. LESSEE shall be permitted to use and locate appropriate signage on the Premises as approved by LESSOR and ordered through the LESSOR at the expense of the LESSEE.

10. INSURANCE. The LESSEE shall carry at least the following minimum amounts of insurance. It shall be maintained in full force and effect during the life of this lease agreement and shall protect the LESSOR, and its employees, agents, or representatives from damages to property arising in any form from the negligence or wrongful acts or omissions of its agents, employees, or representatives in the performance of any obligation covered by this agreement.

LESSER shall maintain liability insurance for injuries, including those resulting in death, in an amount no less than Two Hundred Fifty Thousand Dollars ($250,000) for any one person, and in an amount no less than Five Hundred Thousand Dollars ($500,000) for any accident or occurrence. Lessee shall be responsible for insurance to cover its own property, and Lessor shall be responsible for insurance on its building and property.
The LESSEE shall furnish to the LESSOR a certificate of insurance listing LESSOR as an additional insured showing that the insurance described above is in full force and effect prior to the commencement of this lease agreement. Should the LESSOR receive notice of cancellation of said insurance it shall notify the LESSEE to cease operations immediately and not to start again until the LESSOR receive new copies evidencing that insurance described in this Section 10 is in full force and effect. If the LESSOR determines that a full copy of the insurance policy is required because of a dispute or claim, then upon such request from LESSEEE to LESSOR, LESSEEE shall furnish the copy of the insurance policy.

11. COMPLIANCE. The LESSEE agrees to comply with all policies and procedures established by and for LESSOR so long as such are not in conflict with policies and procedures of LESSEE’S Board of Trustees and when applicable to the LESSEE. LESSEE shall conduct its operations on the property in compliance with, and shall not permit the property to be in violation of, any applicable local, state, or federal environmental laws.

12. DEFAULT. If LESSOR or LESSEE shall fail or neglect to observe, keep or perform any of the covenants, terms or conditions herein contained on its part to be observed, and such default shall continue for a period of a minimum of thirty (30) days after written notice from the other Party setting forth the nature of default, then and in such event the non-defaulting Party shall have the right at its option upon written notice to the defaulting Party to terminate this Lease, insist upon strict performance of the terms and conditions of this Lease, or exercise any remedy provided by law. In the case of any such default cannot with due diligence be corrected within such thirty (30) day period but can be wholly corrected within a period of time not materially detrimental to the rights of the other Party, it shall not constitute default if corrective action is instituted by the defaulting Party and diligently pursued until the failure shall be corrected.

13. ASSIGNMENT AND SUBLETTING. LESSEE shall not assign or transfer this Lease, or sublease in whole or any part of the Premises without the prior written consent of the LESSOR.

14. TERMINATION.

A. The LESSOR may terminate this lease without incurring any liability for damages by giving the LESSEE ninety (90) days written notice. The LESSEE may terminate this lease without incurring any liability for rent by giving the LESSOR ninety (90) days written notice.

B. Funding. It is understood and agreed by the parties hereto that LESSEE is a partially federally and state funded entity and in the event said federal or state funds are not approved or appropriated in whole or in part, or if LESSEE is unable to justify expenditures under this Lease by reason of decreased enrollment, in such events, so long as LESSEE is not in default of the term of this Lease, LESSEE may terminate this agreement. In order to exercise this right of termination described herein, LESSEE must notify LESSOR in writing of the intention to terminate this Lease at least ninety (90) days before vacating said Premises.
C. Upon termination or expiration of the Lease, LESSEE shall surrender the same at the termination of this agreement in as good conditions as received, except for reasonable use and wear. In the event of termination, so long as LESSEE is not in default of any terms or conditions of this Lease, any prepaid rent shall be prorated to the date of termination and returned to LESSEE within forty-five (45) days after the date of termination.

D. At the termination of this lease, and with the prior written consent of the LESSOR, the LESSEE may remove any alterations which it has made pursuant to Section 8, provided such removal can be and is done without damaging the Premises or the structure in which it is situated. Any alterations left after termination shall become the property of LESSOR without cost to the LESSOR.

15. DAMAGE OR DESTRUCTION OF THE PREMISES. If at any time during the term of this Lease, LESSOR’s improvements or any portion thereof are partially or totally destroyed or damaged, LESSOR shall have the option either to terminate this Lease or to repair such damage at LESSOR’s expense. In the event LESSOR shall elect to repair or rebuild the improvements, this Lease shall continue to be in full force and effect. If, at any time during the term of this Lease, the Building or any portion thereof is destroyed or damaged, Lessor shall determine the time necessary to repair or rebuild the building and inform Lessee of the estimated repair time. Such notice of the estimated repair time shall be provided to Lessee in writing within 10 days of the loss and the following shall apply:

A. If the Building is totally or substantially destroyed by fire or other casualty, or if the repairs to the Leased Premises are estimated to take more than ninety (90) days, either party may terminate the Lease immediately by written notice to the other party. In the case of such termination, the Rent shall be abated for the unexpired portion of the Lease, effective as of the date of destruction.

B. If the Building is partially damaged by fire or other casualty, and rebuilding or repairs can reasonably be expected to be completed within ninety (90) days this Lease shall not terminate and Lessor shall, at its sole risk and expense, proceed with reasonable diligence to rebuild or repair the building or other improvements to substantially the same condition in which they existed prior to the damage.

C. If the Building is to be rebuilt or repaired and is non-tenantable in whole or in part following the damage, and the damage or destruction was not caused or contributed to by act or negligence of Lessee, its agents, or employees, the Rent payable under this Lease shall be abated in whole or pro-rated based on the tenantable portion during the period for which the Leased Premises or any portion thereof are non-tenantable. In the event that Lessor fails to complete the necessary repairs or rebuilding within ninety (90) days from the date of the destruction, Lessee may, at its option, terminate this Lease by delivering written notice of termination to Lessor, whereupon this Lease shall terminate immediately.
16. FORCE MAJEURE. Neither party shall be liable for failure to perform under this Lease if such failure to perform arises out of causes beyond the control and without the fault or negligence of the nonperforming party. Such causes may include, but are not limited to, acts of God or the public enemy, fires, floods, epidemics, quarantine restrictions, freight embargoes, and unusually severe weather. This provision shall become effective only if the party failing to perform immediately notifies the other party of the extent and nature of the problem, limits delay in performance to that required by the event, and takes all reasonable steps to minimize delays. This provision shall not be effective unless the failure to perform is beyond the control and without the fault or negligence of the non-performing party.

17. NON-ENFORCEMENT AND WAIVER. Failure of either party to require performance of any of the terms, conditions or provisions of this agreement shall in no way affect any subsequent right, provided by law or in equity, to enforce this agreement or any part of this agreement, nor shall the waiver of any breach of this agreement or any term, condition or provision of this agreement be deemed a waiver of any succeeding breach.

18. INVALID, VOID, OR UNENFORCEABLE PROVISIONS. If any term, provision, covenant, or restriction of this agreement is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remainder of the terms, provisions, covenants, and restrictions of this agreement shall remain in full force and effect and shall in no way be affected, impaired or invalidated.

19. ENTIRETY OF LEASE. This Lease and its exhibits constitute the entire agreement between LESSOR and LESSEE with respect to the Lease of the Premises, and this Lease can only be amended or changed by mutual written agreement signed by both LESSOR and LESSEE. All exhibits to this Lease are a part of this Lease and are incorporated into by reference.

20. BINDING EFFECT. This Agreement shall be binding upon and inure to the benefit of LESSOR and LESSEE and their respective heirs, executors, administrators, successors and assigns.

21. NOTICE. All notices, elections and consents required under this Agreement shall be deemed made and delivered when deposited in the United States mail as Certified Mail, postage prepaid, to the business office of Lessor or Lessee, as indicated below.

LESSOR:
Laramie County Community College
c/o Purchasing Manager
1400 East College Drive
Cheyenne, WY 82007

LESSEE:
University of Wyoming
Real Estate Operations
Dept. 4308
1000 E. University Ave.
Laramie, WY 82071

22. INDEMNITY. Neither party shall indemnify, defend or hold harmless the other for any cause of action, or claim or demand arising out of this Lease. Each party shall be responsible for their own negligent actions or omissions.
23. SOVEREIGN IMMUNITY. Neither party waives its sovereign or its governmental immunity by entering into this Agreement and each fully retains all immunities and defenses provided by law with regard to any action based on this Agreement.

24. GOVERNMENTAL CLAIMS. Any actions or claims against LESSEE under this Agreement must be in accordance with and are controlled by the Wyoming Governmental Claims Act, W.S. 1-39-101 et seq. (1977) as amended.

25. INTERPRETATION. The Parties hereto agree that (i) the laws of Wyoming shall govern this Agreement, (ii) any questions arising hereunder shall be construed according to such laws, and (iii) this Agreement has been negotiated and executed in the State of Wyoming and is enforceable in the courts of Wyoming.

26. EQUAL EMPLOYMENT OPPORTUNITY. Both parties shall fully adhere to all applicable local, state and federal law, including equal employment opportunity and including but not limited to compliance with Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination Act of 1975 and the American with Disabilities Act of 1990. The University’s policy has been, and will continue to be, one of nondiscrimination, offering equal opportunity to all employees and applicants for employment on the basis of their demonstrated ability and competence without regard to such matters as race, gender, color, religion, national origin, disability, age, veteran status, sexual orientation, genetic information, political belief, or other status protected by state and federal statutes or University Regulations.

Contractors are notified that they may be subject to the provisions of 41 CFR Section 60-300.5(a); 41 CFR Section 60-741.5(a); 41 CFR Section 60-1.4(a) and (c); 41 CFR Section 60-1.7(a); 48 CFR Section 52.222-54(d); and 29 CFR Part 471, Appendix A to Subpart A with respect to affirmative action and posting requirements. This contractor and subcontractor shall abide by the requirements of 41 CFR 60-300.5(a). This regulation prohibits discrimination against qualified protected veterans, and requires affirmative action by covered prime contractors and subcontractors to employ and advance in employment qualified protected veterans. This contractor and subcontractor shall abide by the requirements of 41 CFR 60-741.5(a). This regulation prohibits discrimination against qualified protected veterans, and requires affirmative action by covered prime contractors and subcontractors to employ and advance in employment qualified protected veterans.

IN WITNESS WHEREOF, the parties, through their duly authorized representatives, have set their hands the day and year set out below.

Lease Payment

Annual Rent and Operations Costs

First payment:
Rent
UW Exclusive Use Space Total Sq. Ft. 10,238
Rent Cost Per Sq. Ft. (per annum) $7.65
Partial Year Occupancy (December 14 - June 30) 55%
FY2017 Rent $42,700.87

Operations Costs
UW Net Assignable Space Total Sq. Ft. 9,292
Custodial Cost Per Sq. Ft. (per annum) $1.25
Custodial Cost $11,615.00
Phone Service $704.00
Partial Year Occupancy (December 14 - June 30) 55%
FY17 Operations Costs $6,716.39

FY2017 Total Lease Payment Due $49,417.26

Second payment:
Rent
UW Exclusive Use Space Total Sq. Ft. 10,238
Rent Cost Per Sq. Ft. (per annum) $7.65
FY2018 Rent $78,320.70

Operations Costs
UW Net Assignable Space Total Sq. Ft. 9,292
Custodial Cost Per Sq. Ft. (per annum) $1.25
Custodial Cost $11,615.00
Phone Service $704.00
FY 2018 Operations Costs $12,319.00

FY2018 Total Lease Payment Due $90,639.70

Operations, Custodial, IT, and Phone Services

SEE EXHIBIT D SPREADSHEETS FOR DETAILED SUPPLEMENTAL INFORMATION

Operations & Custodial Services

- LCCC will not be providing printers or copiers for UW use.

- The room number signs for offices, classrooms, and labs provided
  - Signage can be made specific to the function or occupant of the space
  - Other signage can be purchased through Plant Operations

- Keys
  - Key request forms will be processed through the Facilities & Events office
  - Keys checked out at Plant Operations administrative office
    - If keys are lost or not returned when an employee ceases employment a charge of $80 per key will be billed to the responsible organization

- Furniture & Equipment
  - No furniture moving services are provided
  - Furniture repair, kitchen equipment repairs through warranty, contact is the LCCC Procurement and Contracting office.

- Mail
  - LCCC Mailing & Receiving will have a postage code for UW use. UW mail without postage will be processed through the LCCC mailroom and costs for postage charged to UW. Mail with postage will be processed through the LCCC Mailing & Receiving area. A mail drop for outgoing mail will be established in the building.

- Custodial Services
  - Custodial Services provided as included services for 3,947 sq. ft. of public areas
  - This includes restroom, corridors and vestibules

- Cleaning services provided for 9,292 sq. ft. for a fee of $1.25 per ft.
  - Vacuuming and trash removal
  - Periodically mops polished concrete floor with disinfectant and hot water
  - Periodically perform deep cleaning tasks
  - Window cleaning as time and resources allow

- No cleaning services provided for the following:
  - Storage areas
  - Kitchen equipment to include stoves, sinks, counters and refrigerators
  - Desks, shelving and cabinets
  - Computers or technical equipment
Exhibit D
Operations, Custodial, IT, and Phone Services

- A suitable trash receptacle and regularly scheduled pick-up service sufficient to handle reasonable needs in order to prevent the unsightly accumulation of trash and other debris will be provided.

IT and Phone Services

- Maintained and repaired by LCCC ITS
  - Interactive 70” wall monitors, A/V podiums and touch panels in PF 404, 405, 407, 409, 411, 412 and 414
  - Interactive 70” wall monitor, A/V podium computer, keyboard, mouse and touch panel in PF 419
  - Data connection and phone lines will be maintained and repaired
  - Digital office and emergency phones

- Maintained and repaired by UW OTS, Outreach Technology Services
  - Student computers in PF computer labs 404, 405 and 410
  - Desk computer in all office
  - Printers, fax machines
  - Distance Learning Audio and Video equipment in PF 411, 412, 414 and 416

- Annual Phone Service Fees paid by UW ($44 per digital office phone)
  - Outreach $88 per year
  - Extension $484 per year
  - TRiO $132 per year

- One Time Costs
  - SEO/TRiO phones $1,293
  - Extension phones $4,741
  - Outreach has phones they will bring from the AB offices
  - UW is responsible for the cost of additional office phones requested
  - Extension Kitchen Equipment $5,584
  - Extension ITS Equipment for PF 419 $760

AGENDA ITEM TITLE: Carbon Power & Light Easement Request at the Livestock Center

SESSION TYPE: ☐ Work Session
☐ Education Session
☐ Information Item
☒ Other:
[Committee of the Whole – Item for Approval]

☐ Yes (select below):
☐ Driving Excellence
☐ Inspiring Students
☐ Impacting Communities
☒ No [Regular Business]

Attachments are provided with the narrative.

EXECUTIVE SUMMARY:
This agenda item is to request approval for an overhead and underground electric line easement from Carbon Power & Light across the University’s Livestock Center west of Laramie.

The easement request includes both a section of new power line and a rebuild to upgrade the existing power line east of the Hanson Arena to a double circuit that loops together two Carbon Power & Light substations (see attached map). The proposed route follows the existing power line, existing roads and section lines. Laramie R&E Center staff expects minimal impact to their operations from the proposed route.

The University has evaluated comparable land and easement values in the area to arrive at a value and easement fee of $11,750 for this type and size of easement. Carbon Power & Light is a member owned cooperative and stated they do not typically pay for easements from members. Members with meters are owners of the cooperative, including the University which has 17 accounts. Margins are returned to members in the form of capital credits and the University received $11,134.62 in capital credits in 2019 and $10,918.69 in 2020. Since the amount of capital credits is at the approximate value of the easement and the University benefits from the upgraded electrical service, it is proposed not to charge Carbon Power & Light the easement fee.

This project benefits the University by providing additional electrical capacity and redundancy for the Laramie R&E Center facilities.

At the direction of the Facilities Contracting Committee, the administration has finalized the electric line easement agreement, including survey documents. The easement agreement has been signed by Carbon Power & Light and is ready for the University’s signature.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS: None.

WHY THIS ITEM IS BEFORE THE BOARD: Per UW Regulation 7-2, the Board of Trustees reserves authority to approve and/or sign contracts for “Other matters involving real property, including but not limited to the lease of real property; easements; water rights and development; oil, gas and mineral leases; and federal or state government leases, permits, or licenses for longer than one year or more than $50,000”.

ACTION REQUIRED AT THIS BOARD MEETING:
Board approval or disapproval of the recommendation of the Board’s Facilities Contracting Committee.

PROPOSED MOTION:
“I move to authorize the administration to execute the electric line easement to Carbon Power & Light on University land for the electric line as presented to the Board.”

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
Carbon Power & Light
Easement Request
34.5 kV Loop Project
at UW Livestock Center

Date: 12/17/2020
Prepared by:
Real Estate Operations

**Electric Line Easement**

For value received, the Trustees of the University of Wyoming (“Grantor”) hereby grants to Carbon Power & Light, Inc., a Wyoming nonprofit corporation (“Grantee”), an overhead electric line easement to construct, operate, maintain, repair, replace and remove electric power transmission and distribution lines, wires, fibers, cables and other conductors and conduits thereof, including any and all appurtenances necessary and incidental thereto, on, over or under the surface of the real property of Grantor more particularly described as follows:

A strip easement located in Sections 11 and 12, Township 15 North, Range 74 West of the 6th P.M., Albany County Wyoming:

_A strip of land 30’ wide for an overhead power line (plus such area as necessary to properly anchor structures on said right-of-way easement) in the NE1/4NE1/4 of Section 11 and the NW1/4NW1/4 of Section 12, T15N, R74W, more particularly described as UW Horse Boarding Facility. Commencing at the NE corner of Section 11, thence S01°38’06”W for a distance of 1,054.3 feet more or less to the point of beginning at the existing power pole #17323; thence N85°57’12”E for a distance of 245.9 feet more or less to the point of ending at the transformer pole._

Easements located in Sections 1, 2, 12, and 14, Township 15 North, Range 74 West of the 6th P.M., and in Sections 35 and 36, Township 16 North, Range 74 West of the 6th P.M., all in Albany County, Wyoming, more particularly described and shown on Exhibits A-B attached hereto and by this reference made a part hereof.

This easement includes the right of reasonable access and Grantee shall use existing roads where practicable to the easement location for all activities in connection with the purposes for which this easement is granted and shall repair any damage caused thereby.

Grantee shall not enclose or fence said easement without the express written consent of Grantor. Grantee is given the right to cut and trim trees and shrubbery to the extent necessary to keep them clear of said electric line or system, and to cut down from time to time all dead, weak, leaning or dangerous trees that are tall enough to strike the wires in falling.

Grantee may assign or transfer rights under this easement to Grantee’s principal, affiliates or subsidiaries of its principal upon reasonable notice to Grantor. Grantee shall not assign nor transfer any of these rights to any third party.

Grantor reserves the right to use and occupy the described premise and easement following the completion of construction, subject to the provisions that the Grantor will not knowingly interfere with Grantee’s use of or access to the easement area or the overhead electric line and related improvements installed thereon by Grantee.

Grantee agrees that during the period of construction, or any subsequent altering, removing or replacing, it will reclaim and restore the surface within the easement or on adjacent lands damaged due to construction and maintenance activities of the Grantee. The Easement shall be maintained at no cost to Grantor.

Grantee shall indemnify Grantor for all damages caused to Grantor as a result of Grantee’s negligent exercise of the rights and privileges granted herein.

Grantor does not waive its sovereign immunity or its governmental immunity by entering into this Easement and fully retains all immunities and defenses provided by law with regard to any action based on this Easement. Actions or claims against Grantor under this Agreement must be made in accordance with and are controlled by the Wyoming Governmental Claims Act, W.S. 1-39-101 et seq. (1977) as amended.
Upon abandonment or discontinuance of use of this easement for the purposes specified above, all of Grantee’s rights under this grant of easement shall revert to the Grantor or its assigns, the same as if this grant had never been made. Failure to report, to the Grantor, the status of the use of this easement upon delivery and receipt of a written request from Grantor within 60 days of the request, shall be considered an indication that Grantee has abandoned this easement. Should this easement be abandoned by the Grantee, or its use discontinued for the specified purpose, Grantee shall return the above described tract of land to a condition satisfactory to the Grantor.

The rights and obligations of the parties hereto shall be binding upon and shall benefit their respective, heirs, successors, and assigns.

Dated this _____ day of ___________________, 2021.

AGENDA ITEM TITLE: **Annual Internal Audit Plan**, Danika Salmans

SESSION TYPE:  ☐ Work Session  ☒ Education Session  ☐ Information Item  ☒ Other:
[Committee of the Whole – Items for Approval]

☐ Yes (select below):  ☒ Driving Excellence  ☐ Inspiring Students  ☐ Impacting Communities  ☒ High-Performing University  ☐ No [Regular Business]

EXECUTIVE SUMMARY:

The Internal Audit Plan for 2021-2022 contains recommended audits compiled by interviewing key personnel as well as performing a campus-wide risk assessment survey. The areas on the plan were identified by leaders as critical to the function of the University and/or had the potential to pose a risk due to the nature of their business. Additional input from Trustees can impact this schedule.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:

N/A

WHY THIS ITEM IS BEFORE THE BOARD:

Annually, the board reviews and approves the internal audit plan for the coming year. This plan establishes the schedule of audits. However, modifications based on need, requests, and/or input from leadership can impact this schedule.

ACTION REQUIRED AT THIS BOARD MEETING:

Internal Audit is seeking approval of the attached plan for the 2021-2022 plan year.

PROPOSED MOTION:
I move to authorize administration to implement the plan as indicated.

PRESIDENT’S RECOMMENDATION:
The President recommends approval.
2021-2022 Internal Audit Plan

Background:

The annual Internal Audit Plan is reviewed and approved by the Fiscal, and Legal Affairs Committee (FLAC) of the Board of Trustees.

Section 2010 – Planning – 2010.A1 of the International Standards issued by the International Professional Practices Framework (IPPF) states: The internal audit activity's plan of engagements must be based on a documented risk assessment, undertaken at least annually. The input of senior management and the board must be considered in this process.

This standard:

- Makes the best use of limited resources
- Improves ability to impact the organization
- Generates buy-in from management
- Assists with maintaining value

Methodology:

The methodology used in preparing this plan consisted of the following steps.

1. The 2021 Annual Risk Assessment was performed and results were reviewed. Input from senior management and the board was included in the assessment. Auditable elements were assessed and added to the Internal Audit Plan.
2. Risks to the Audit Universe were assessed and added to the Internal Audit Plan. The Audit Universe included the following major areas with associated units:
   a. Office of the President
   b. Academic Affairs
   c. Administration
   d. Student Affairs
   e. Information Technology
   f. Research & Economic Development
   g. General counsel
   h. Intercollegiate Athletics
3. Annual audit mandates were added to the Internal Audit Plan.
   a. Follow-up activity required by the Institute of Internal Auditors (IIA) Standards
   b. Rules-Compliance audits required/advised by the National Collegiate Athletic Association (NCAA)
   c. Other audits deemed necessary to audit annually due to risk to the University (UW)
4. Input from members of the President’s Cabinet and other UW Leaders was considered and auditable areas were added to the Internal Audit Plan.

Internal Audit Resources and Plan:

Audit Resources

The Office of Internal Audit is staffed with two (2) Full Time Equivalent (FTE) auditors; therefore, man-hour calculations start at 4,160 hours (52 weeks x 80 hours = 4,160 hours). To determine auditable hours (hours allocated to execute audits) the following hours are subtracted from the 4,160 hours:
The Internal Audit auditable hours are allocated below.

AGENDA ITEM TITLE: Approval of modifications to UW Regulation 2-4 (Guidelines for Establishing Academic Professionals), Brown/Evans

SESSION TYPE: ☑ Work Session
☐ Education Session
☐ Information Item
☐ Other:
[Committee of the Whole – Items for Approval]

☑ Attachments are provided with the narrative.

EXECUTIVE SUMMARY:
At the September 2016 Board of Trustees meeting, the Board approved review by UW Administration of UW’s current regulatory structure, to include the following:

1) Phasing out presidential directives;
2) Defining regulation versus policy/procedure;
3) Creating a new “look” and format for the regulations; and
4) Updating the substance of the regulations, policies, and procedures as needed, including determining whether there are any substantive gaps.

At the January 2017 Board of Trustees meeting, the University proposed 12 sections for the new Governing Regulations and Standard Administrative Policies and Procedures Manual.

Section 1: Governance and Structure
Section 2: Academic Affairs
Section 3: Athletics
Section 4: Diversity and Equal Opportunity
Section 5: Employment and Ethics
Section 6: Facilities
Section 7: Finance and Business
Section 8: Information Technology
Section 9: Research and Economic Development
Section 10: Safety and Security
Section 11: Student Affairs
Section 12: University Relations

The new structure will involve three levels of policies:
1. Governing Regulations (Level A)
2. Standard Administrative Policies and Procedures (Level B)
3. Department/Unit Administrative Policies and Procedures (Level C)

The Section 2 Academic Personnel Regulations (2-1 through 2-16) include such matters as:

1. Describing academic designations, ranks and terms of appointment applicable to members of the faculty and other academic personnel, and general provisions regarding academic personnel;
2. Outlining University policies on academic freedom, faculty workload, sabbatical and professional development leave, and post-tenure review;
3. Defining University-level standards and outlining procedures for reappointment, tenure and promotion, post-tenure review, and compensation;
4. Establishing procedures for the resolution of academic personnel disputes and for the dismissal of academic personnel; and
5. Providing definitions of academic administrative structures and positions and describing terms of appointments and general provisions regarding academic administrators.

In preparation for the revision to UW Regulation 2-4, Vice Provost Benham Deal charged a working group of senior academic professionals and non-tenure track faculty on extended term appointments to review the current regulation and propose changes to the regulation. This working group was led by Dr. David Bagley, Faculty Fellow in Academic Affairs and Professor in Chemical Engineering. The working group members included:

- Christine Boggs, Senior Lecturer, Distance Education
- Kaija Calkins, Associate Librarian/Asst. Dean, University Libraries
- Janet Dewey, Associate Research Scientist, Geology and Geophysics
- Rick Fisher, Senior Lecturer, English
- Jeff Hamerlinck, Senior Research Scientist/Director, WyGISC
- April Heaney, Senior Lecturer/Director, LeaRN Programs
- Rudi Michalak, Senior Lecturer, Physics and Astronomy, and Faculty Senate Chair
- Brian Sebade, Associate Extension Educator, Agriculture and Natural Resources
- Meg Van Baalen-Wood, Senior Lecturer, Ellbogen Center for Teaching and Learning

The Office of Academic Affairs (AA) reviewed their proposed changes with members from the Faculty Senate Executive Committee (FSEC). The final revisions outlined below reflect the general consensus of AA and FSEC.

**Revisions**

On July 1, 2019, revised UW Regulations 2-1 and 2-7 became effective and UW Regulations 2-400 (Regulations of the American Heritage Center) and 2-409 (Regulations of the University Libraries) were sunset. These regulatory changes redefined the nature of non-tenure track faculty, the type of appointments they may have, and the timelines for completing specific reviews associated with the new appointments. Academic professionals who were in the probationary period for an extended term appointment have been converted to the new non-tenure track faculty and fixed-term rolling contract structure, which is described in [UW Regulation 2-1](#) and in the Standard Administrative Policy and Procedures document: [Implementing and Evaluating Fixed-term with Rolling Contracts](#). Consequently, UW Regulation 2-4 now only applies to those individuals who are currently in an extended term appointment. This regulation will be sunset once all current extended term appointments have expired.

Recommended changes to the regulation generally fall into one of the following categories:

1. **Title Change/Inclusion of all Extended Term Faculty.** The regulation has been renamed appropriately to refer specifically to Extended-Term faculty, including Librarians and Archivists. (Note: Curators have not been added to this regulation since there are none currently on an extended term appointment.)
2. **Contradictions and Redundancies Removed:** Information that is now contradictory with other, newer regulations; information unnecessary due to changes in other, newer
regulations; and redundancies with other regulations and/or with information in this regulation have been removed. However, information about professional development leave has been retained for clarity and to address elements that are unique to faculty on extended term appointments.

3. **Designations and Ranks:** Descriptions of ranks for each of the categories have been included, and in some cases expanded from information that appears in UW Regulation 2-1.

4. **Removal of Information about the Probationary Period.** Procedures for reviewing Extension Educators, Lecturers and Research Scientists on extended term tracks during the probationary period have been removed. These are not needed since all of these individuals have been converted to the new fixed-term rolling contract structure.

5. **Promotion Information.** Key details about promotion that are applicable to all extended-term faculty are provided, including the ability to be promoted while in their current extended term, separately from consideration for a fixed-term rolling contract appointment.

6. **Converting to Fixed-Term Rolling Contract Appointment.** A brief section was added to address the process for conversion of extended-term appointments to fixed-term rolling contract appointments.

7. **Elimination of UW 2-4 Appendices.** Information from the appendices have been incorporated into the body of the regulation and/or will be included in college level administrative policies, procedures or bylaws.

8. **Removal of Information on Post-Doctoral Associates.** Post-Doctoral Associates do not hold extended term appointments, so this regulation does not apply. Information about Post-Doctoral Associates will be available in a guidance document from the Office of Academic Affairs.

Additionally, proposed changes to UW Regulation 2-16 (Sabbatical and Professional Development Leave) have been added to align with UW Regulation 2-4.

Per the routing process for UW Regulations, the proposed modifications were provided to the President’s Cabinet, Deans and Directors, Faculty Senate, Staff Senate, ASUW, and the Internal Auditor. The Trustees Regulation Committee will discuss this item at the May 2021 Board of Trustees meeting and recommend full Board action, if appropriate.

**PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:**
None.

**WHY THIS ITEM IS BEFORE THE BOARD:**
UW Regulation 1-101 requires that the Board approve modifications to UW Regulations.

**ACTION REQUIRED AT THIS BOARD MEETING:**
Board approval, modification, or disapproval of the recommended modifications to the Regulations.

**PROPOSED MOTION:** [Trustee Brown to provide motion.]
“I move to authorize modifications to UW Regulation 2-4 and UW Regulation 2-16, as presented to the Board”

**PRESIDENT’S RECOMMENDATION:**
I. GENERAL INFORMATION

An Extended-Term Appointment is a six-year fixed term appointment for non-tenure track faculty (UW Regulation 2.1 Section II). Faculty who currently have Extended-Term appointments will transition to Fixed-Term Appointments at the completion of their current extended terms upon successful review for reappointment. Once they transition to Fixed-Term Appointments, they will be governed directly by the regulations, policies and procedures for Fixed-Term Appointed faculty. Until then, however, these faculty will be governed by this regulation and associated policies and procedures.

There are four academic professional categories: five classifications of non-tenure-track faculty who may currently have Extended-Term appointments:

1. Extension Educators;
2. Lecturers;
3. Research Scientists, and Postdoctoral Associates;
4. Archivists
5. Librarians

II. ACADEMIC PROFESSIONALS, ARCHIVISTS, AND LIBRARIANS

A. Academic Professionals: Definition and Description

Prior to July 1, 2019, Academic Professionals comprised a category of University academic personnel, distinct from classified and professional staff and faculty, dedicated to the academic mission of the University. Academic Professionals possessed specialized qualifications and job descriptions that enabled them to fulfill assigned academic duties, maintain peer relationships within the academic community, and enjoy the rights to academic freedom accorded to faculty, as described in UW Regulation 2-1. The central role of this category of employees was to support specific aspects of the teaching, research, extension, and service missions of the University. Academic Professionals historically could have temporary, Extended-Term-track, or Extended-Term appointments and were classified as Extension Educators, Lecturers or Research Scientists.

As of July 1, 2019, the designation of Academic Professional no longer applies to
temporary appointments. Additionally, no new academic personnel shall be hired with the designation of Academic Professional.

Archivists and Librarians are specialized classifications of non-tenure-track faculty who had either temporary, extended term track, or extended term appointments. Previously, these appointments were governed by UW Regulation 2-400 and UW Regulation 2-409, respectively, until July 1, 2019 when both regulations were sunset.

All academic personnel who were within the probationary period of their Extended-Term-track appointments as of July 1, 2019 have been converted to a Fixed-Term Track with credit from their completed probationary period applied to a new review schedule. They retained their title and rank.

This section contains the core conditions and terms of employment common to all categories of Academic Professionals. Other sections for Extension Educators, Lecturers, Research Scientists, and Postdoctoral Associates outline those conditions and terms of employment that apply specifically to the respective categories.

Extension Educators, Lecturers As of July 1, 2019 the designation of Academic Professional no longer applies to temporary appointments. Additionally, no new academic personnel shall be hired with the designation of Academic Professional. Furthermore, Academic Professionals who were within the probationary period of their Extended-Term-track appointments have been converted to a fixed-term review schedule with credit for their completed probationary period applied (UW Regulation 2-1 Section IV.B). The Academic Professional designation was removed, with these individuals retaining their title and rank.

Academic Professionals, Archivists and Librarians who had Extended-Term appointments as of July 1, 2019 or who received Extended-Term appointments during Academic Year 2019-2020, shall serve the remainder of their current extended term and then undergo review for transition to a Fixed-Term in accordance with UW Regulation 2-1 Section IV.D and UW Regulation 2-7 Section IV.C.5.

The purpose of extended-term-track appointments is to foster continued professional growth, accomplishment, and commitment to the University’s mission, in cases where such an appointment or its renewal is consistent both with the Academic Professional’s demonstrated performance and with the University’s programmatic needs and priorities.

II. Academic Professionals on extended term-track appointments generally start their appointments with a probationary period, during which they undergo annual reviews for reappointment. After completing the probationary period, extended term-track Academic Professionals may be appointed to extended terms. The review for the transition from
probationary appointment to extended-term appointment occurs in the last year of the probationary period.

Extended terms are six years in length for all categories, with the review for renewal of an extended term occurring in the fifth year. If a review for extended-term renewal is successful, the next six-year extended term shall begin at the end of the sixth year of the current extended term.

Stable fiscal support, normally in the form of salary and benefit funding from Section I of the University’s budget, is a necessary but not sufficient condition for an extended-term-track appointment.

Temporary appointments are normally for periods of no longer than a year at a time, ending no later than the end of the current fiscal year, although the appointments may be renewable. Temporary appointments carry no rights to extended-term-track appointment.

A. Classification, Authorization, Recruitment and C. GENERAL EMPLOYMENT PROVISIONS

1. Classification and Authorization of Positions

Filling an Academic Professional position requires a request and authorization by the:

A. Job Descriptions

The Dean or Director or, if none is appropriate, the Provost and Vice President for Academic Affairs, as well as approval by all appropriate college deans. When the appointment is to be made in a department of an academic college or the Haub School of Environment and Natural Resources, the appropriate dean is the dean of the college or school. The request must describe (1) whether the position is to be temporary or extended-term track, (2) the proposed starting rank and salary, (3) the length of the probationary period if the position is on the extended-term track, (4) the source of funding for the position if it is temporary, and (5) the duties and responsibilities associated with the position.

2. Recruitment

University policies related to equal employment opportunity and affirmative action shall apply to Academic Professional searches and appointments. Searches may be national, regional, or local in scope, depending upon the nature of the position.

Guidelines for Extended-Term Faculty
Ranks

Within the categories of Extension Educator, Lecturer, and Research Scientist, there are three ranks, denoted by the labels Assistant, Associate, and Senior. Associated with each rank are expected levels of professional accomplishment, typical educational attainment, and contributions to the mission of the University. The appendices describe these levels in more detail.

Any initial appointment should be at a rank that is consistent with the criteria for that rank.

There are no ranks in the category of Postdoctoral Associate.

Appointment Process

The appointing authority for Academic Professionals is the dean or director or, if none is appropriate, the Vice President for Academic Affairs. Appointments require approval by the Vice President for Academic Affairs and authorization by the Board of Trustees. Each newly appointed Academic Professional should receive a letter of initial appointment from the appointing authority or the appropriate supervisor, normally a department head. This letter should specify the conditions of employment, including the rank, salary, benefits, and status as an extended-term-track or temporary employee.

Job Descriptions

The appointing authority has the responsibility to ensure that each Academic Professional has a job description. The job description must be specified as part of the initial position authorization, but it shall be reviewed annually. Job descriptions will include a description of duties and the proportion of effort allocated to each major duty. Faculty shall acknowledge receipt of the annual job description. The appendices describe the duties appropriate for Extension Educators, Lecturers, and Research Scientists.

Job descriptions are subject to revision at any time during the appointment period to meet the needs and priorities of the University. All changes in job descriptions for extended-term-track Academic Professionals must be reported to the Provost and Vice President for Academic Affairs.

4-B. 2. Annual Performance Reviews

Each Academic Professional, whether on temporary, probationary, or extended term appointment, should...
Guidelines for Extended-Term Faculty

Undergo periodic annual performance reviews during the remainder of their current extended term. In addition, a comprehensive performance review shall be conducted during the next to the last year of the Extended Term to determine if the faculty member will be reappointed to a new fixed-term.

Each such review should include a review of the job description.

Performance reviews of temporary academic professionals should be annual and should be completed before reappointment is offered. Performance reviews of probationary, extended term-track Academic Professionals shall occur on a schedule consistent with the reappointment reviews prescribed in Section II.C.1.a. Performance reviews of Academic Professionals on extended-term appointments shall occur at least biennially.

The purposes of performance review are (1) to evaluate the employee's effectiveness in fulfilling responsibilities in the job description, (2) to document professional growth and development, and (3) to establish goals for the future. The format of the review should be consistent with the scope of the Academic Professional's responsibilities and in accordance with UW regulations and Standard Administrative Policies and Procedures. Performance reviews should include appropriate peer and supervisory input as well as input from such constituencies as students, faculty, administrators, and members of the community, as appropriate. The review should address the duties outlined in the job descriptions, proportion of effort allocated to these duties, and performance relative to standards.

A copy of the performance appraisal shall be maintained in the employee's personnel file. Academic Professionals must review their performance evaluations; they have the right to make written comments, which become part of the performance review record.

J. Types of Academic Professional Appointments

11. Extended-Term-Track Appointments

Extended-term-track appointments include extended term appointments as well as probationary appointments that may lead to extended-term appointments. They may be full time or part time depending upon the University's programmatic needs and resources.

13. Probationary Period
An Academic Professional hired on an extended-term track appointment must successfully complete a probationary period, normally six years in length, before receiving an extended-term appointment. In exceptional cases, with the approval of appropriate peers (as defined in the appendices), the appointing authority, and the Vice President for Academic Affairs, Academic Professionals may begin their employment with extended-term appointments.

Credit that is to be applied toward the probationary period must be specified in writing at the time of initial appointment and approved by the Vice President for Academic Affairs. Abbreviated probationary periods should be rare, a necessary but not sufficient condition for their approval being a convincing record of accomplishment directly related to the elements of the job description. In no case shall credit toward the probationary period exceed three years.

The purpose of the probationary period is to allow the Academic Professional to exhibit mastery of major areas of the job duties and to demonstrate convincing promise for continuing professional growth and development, accomplishment, and commitment to the mission of the University.

Academic Professionals on probationary appointments must undergo annual reviews for reappointment with two exceptions. In cases in which all levels of review agree in the second- or fourth-year review, an Academic Professional may skip the reappointment reviews in the third and fifth years of the probationary period. Reappointment reviews should involve detailed, documented assessments of the Academic Professional’s performance in all elements of the job description. Reappointment is contingent both on meritorious performance and on the continued consistency of the position with the University’s programmatic needs and priorities.

If the annual probationary review results in a decision not to reappoint, the Academic Professional shall receive notification of this decision from the Vice President for Academic Affairs. For probationary Academic Professionals on academic-year appointments, notification shall be sent (a) at least three months before the end of the terminal academic year if the employee is in the first year of service, (b) at least six months before the end of the terminal academic year if the employee is in the second year of service, and (c) at least 12 months before the end of the terminal academic year if the employee has two or more full years of service. Probationary Academic Professionals on fiscal-year appointments are entitled to continued employment for a specified period after notification of nonreappointment is sent. This period shall be (a) three months if the
employee is in the first year of service, (2) six months if the employee is in the second year of service, and (3) 12 months if the employee has two or more full years of service.

An Academic Professional who is not granted reappointment shall not be retained. In such cases, the individual shall have the right to resign before the end of his or her employment, with the record reflecting only that the employee resigned.

Within the contract period (the academic or fiscal year, as appropriate), probationary appointments are terminable only for cause, as defined in UW Regulation 2-1(V), or for reasons of bona fide financial exigencies or program elimination. Officers of the University shall not employ this provision in a manner that interferes with academic freedom.

Promotion Ladders

Promotion in rank must follow a thorough performance review, the general features of which include review by peers, faculty and administrators at the department, college or the Hauk School of Environment and Natural Resources, and university level. Details of promotion review procedures appear in the appendices.

The appraisals developed during performance reviews should constitute a significant element of deliberations regarding promotion. They should also constitute a significant element in decisions regarding reappointment, extended term, and extended-term renewals, although the needs and priorities of the University may also enter these deliberations. The appointing authority shall notify any candidate who receives a negative recommendation for reappointment, promotion, or extended-term appointment or renewal and shall discuss the rationale for the recommendation with the candidate.

Although it may be administratively convenient to conduct promotion reviews at the same time as reviews for extended term or extended-term renewal, these types of review need not be simultaneous. A level of accomplishment commensurate with a rank higher than Assistant is normally a necessary condition for an extended-term appointment. However, in extraordinary cases a promotion to the Associate rank can occur earlier. The attainment of Associate rank is no guarantee of probationary reappointment, extended term appointment, or extended-term renewal.

Compensation

Commented [TBB4]: This information has been moved to the end of the document. This information is relevant since some faculty on ET may go up for Promotion before the end of their extended term.
C. 3. Compensation

Salaries for extended-term track Academic Professionals should be consistent with the salaries of professional peers, market conditions, and available resources. Rules governing eligibility for benefits are the same as those that apply to professional staff. Academic Professionals who have academic-year appointments are not eligible for paid vacation leave, although their salaries may be paid in 12 monthly installments.

The Board of Trustees has the authority to establish salary adjustment guidelines. The Provost and Vice President for Academic Affairs will consider recommendations from the appointing authorities before implementing salary adjustments consistent with the University’s Salary Distribution Policy.

d.D. 4. Appeals and Disputes

An extended-term track Academic Professional seeking to resolve disputes regarding conditions of employment, working conditions, assignments, and other concerns must do so initially through dialogue with his or her immediate supervisor. The paragraph below governs the resolution of disagreements regarding reappointment, promotion, extended-term appointments and renewals, and professional development leaves. UW Regulation 4-2 governs complaints involving discrimination and harassment. The procedures for resolving disputes and disciplinary matters are those prescribed in UW Regulation 2-2. UW Regulation 4-2 governs complaints involving discrimination and harassment.

A candidate who has received from the Vice President for Academic Affairs a negative decision for reappointment, promotion, or extended-term appointment or renewal has the right to appeal the decision to the President of the University. The President may appoint a committee of Academic Professionals to make recommendations on the case. The President shall inform the candidate, in writing, of the President’s decision.

Any termination of an extended-term track Academic Professional for cause must follow the procedures established in UW Regulation 2-6 for dismissal of faculty. In these procedures, elements that apply to tenured faculty shall apply to probationary Academic Professionals, and elements that apply to tenured faculty shall apply to extended-term Academic Professionals. The procedures set forth in UW Regulation 2-6 do not apply to dismissals of probationary Academic Professionals or on temporary appointment of academic personnel.

Commented [TBB5]: This section is deleted. Procedures for promotion are addressed later in this regulation. Procedures for review align with the RTP procedures outlined in UW 2-7, including the process for candidates to provide response(s) to the different levels of review (including at the President level). It should be noted that the University RTP committee membership (N=17) includes 2 non-tenure track faculty on extended term appointments.

Commented [TBB6]: Although a new regulation (UW 2-16) addresses professional development leave, this original section from UW 2-4 is retained in this regulation for clarity and so that we capture elements from the conditions for professional development leave that are unique to extended term and that are included here but not included in UW-16.
Guidelines for Extended-Term Faculty

Professorship members are eligible for professional development leave, provided they have completed at least six years of service to the University before beginning the leave. No right to professional development leave accrues through lapse of time. Instead, the granting of professional development leave is contingent upon a sound plan for activities that will enhance professional expertise, impart special skills related to the job description, or otherwise contribute substantially to the University’s long-range interests. It is also contingent upon institutional needs and resources, as documented in a specific plan for the replacement of the employee’s duties during the leave.

Professional development leaves may be up to one year in duration. Unlike sabbatical leaves for tenured faculty, professional development leaves for Academic Professionals Extended-Term faculty may be appropriate vehicles for the pursuit of advanced degrees.

Terms governing compensation for professional development leave shall parallel those governing sabbatical leave for tenured faculty. Final approval of professional development leave shall be upon the recommendation of the Provost and Vice President for Academic Affairs and authorization by the Board of Trustees to the President.

No professional development leave may be taken during a grace period following the denial of reappointment, extended conversion to a fixed-term, or extended-term renewal appointment, even if such a leave was approved earlier.

An Academic Professional An Extended-Term faculty member who fails to return to the University immediately following professional development leave shall be obligated to repay the amount of compensation received from the University during the period of the leave. The minimum duration of the return shall be one academic year for academic-year employees and one calendar year for fiscal-year employees.

F.F. 6. Governance

Each category of Academic Professionals may have representation in either the Faculty Senate or Staff Council. Academic Professional categories Extended-Term faculty now represented in either Faculty Senate or Staff Council will continue such representation.

III. TYPES OF EXTENDED-TERM APPOINTMENTS

A. Extension Educators simple majority of a category that wishes to change its representation from one governance structure to the other may seek a transfer by petitioning

Commented [TBB7]: This statement from the original UW2-4 is inconsistent with UW 2-16, which states, “Professional development leave shall ordinarily not be available for the purpose of seeking an advanced degree.” At the time UW 2-16 was written, this statement was inserted for consistency with language about sabbatical leave for tenure stream faculty.

In reflection, and after reviewing this regulation, AA recommends retaining the ability for non-tenure track faculty to use professional development leaves to pursue advanced degrees.

Rationale: For our tenure stream faculty, the advanced degree is required at the point of hire. Many of our non-tenure track positions only require a Masters degree. By allowing a leave to serve this purpose, the university would be supporting our employees in further developing their skills and helping this advance through their career ladder.

What other universities do: Universities vary in their position on leaves being used for the purpose of pursuing advanced degrees. For example, Colorado State U, U of Utah, New Mexico State U allow sabbaticals to be used for this purpose. In contrast, U of New Mexico, UNLV, and U of Montana do not allow it for sabbatical leaves.

In cases where it is allowed, many universities have the caveat that this type of leave is only approved providing instruction can be covered at no additional expense to the university.

If approved, we will need to revise UW 2-16 so that it is consistent.

Commented [TBB8]: Modified to make consistent with UW 2-16.

Commented [TBB9]: This is unique to ET. UW 2-16 addresses a similar concept but specific to the fixed-term appointment rolling forward.
4. Temporary Appointments

Temporary Academic Professional appointments may be full time or part time. The following regulations apply to temporary Extension Educators, Lecturers, and Research Scientists. Regulations governing Postdoctoral Associates appear in section VI.

1. Reappointment and Termination

At the end of the term of temporary employment, temporary Academic Professionals may be reappointed to a subsequent temporary appointment. Appointment or reappointment as a temporary Academic Professional confers no right to an extended-term or non-tenure track or extended-term appointment, nor does it preclude subsequent consideration for an extended-term-track appointment.

If a temporary Academic Professional is not reappointed at the end of the appointment period, his or her employment will cease at the end of the appointment period.

Either the temporary Academic Professional or the appointing authority may initiate termination of employment before the end of a period of temporary appointment. Such termination requires written notice of the intention to terminate employment and the date of termination. Where feasible, employees and appointing authorities alike should strive to give at least two weeks’ advance notice before the termination. The appointing authority shall forward notice of intent to terminate, with appropriate forms, to the Vice President of Academic Affairs.

Promotion

Since temporary Academic Professionals hold appointments for at most one year at a time, there is no formal promotion review procedure. Instead, if a promotion is appropriate according to the expectations for the category of Academic Professional, the appointing authority may propose one at the time that the appointment is renewed.

Compensation

Temporary Academic Professional salaries should be consistent with the salaries of professional peers, market conditions, and available resources.
Rules governing eligibility for benefits are the same as those that currently apply to professional staff. Temporary Academic Professionals who have academic year appointments are not eligible for paid vacation leave, although their salaries may be paid in 12 monthly installments.

The appointing authority may recommend salary increases for temporary Academic Professionals. Any such increase requires approval by the Vice President for Academic Affairs.

Appeals and Disputes

A temporary Academic Professional seeking to resolve disputes regarding conditions of employment, salaries, working conditions, assignments, and other concerns must do so initially through dialogue with his or her immediate supervisor. Faculty as defined in UW Regulation 2-1-Section III.C.4.2 governs complaints involving discrimination and harassment. The procedures for resolving disputes and disciplinary matters are those prescribed in UW Regulation 2-2.

III. EXTENSION EDUCATORS

B. Definition and Description

As members of the University of Wyoming Extension, Extension Educators are part of the University’s educational outreach system. In keeping with the University’s status as a land-grant institution, Extension Educators form an essential link between the people of Wyoming and the teaching, research, and service missions of the University. The primary function of these employees is to provide non-credit education to an off-campus clientele. Extension Educators provide Wyoming youth, adults, and communities with life-long learning opportunities, especially through the application of research-supported information and leadership skills.

An Extension Educator’s responsibilities include:

1. a) Identifying the needs of people in communities to which he or she is assigned,

b) Developing, implementing, and managing educational and research programs to meet these needs,
5.3) c) Evaluating and documenting changes that occur in response to these programs.

To meet these responsibilities, the Extension Educator must exhibit high levels of professional, scientific, educational, and community-relations skills.

C. Extended-Term Track Appointments

4. Portfolios

A portfolio, developed by the Extension Educator and summarizing his or her performance and contributions, forms the documentary basis for each periodic review during the probationary period and for each review for extended term, extended-term renewal, or promotion. The portfolio should contain at least the following information as it becomes available.

a. Information concerning the initial appointment, including the letter of offer for the position.

b. A summary of all previous reappointment, extended term, and promotion decisions.

c. The candidate’s job description. For probationary reviews, the portfolio should contain all job descriptions covering the probationary period to date. For extended-term renewal, it should contain all job descriptions covering the current extended term. For promotions, it should contain all job descriptions since the previous promotion.

d. Documentation of recommendations at all levels when the recommendations become available, including the supervisor’s recommendation, where applicable; recommendations of regional peers (see Section B.2.a); recommendations of the college-level committee; and the dean’s recommendation.

e. The candidate’s complete curriculum vitae.

f. Documentation of the candidate’s professional accomplishments.

g. Where deemed relevant and appropriate by the appointing authority, internal and external letters of reference. Such letters may be appropriate in cases involving extended term or promotion decisions, even if letters were not required in previous reviews. The procedures used for soliciting...
and handling these letters should follow the prescriptions given in UW Regulation 2-7 for faculty tenure and promotion cases. These letters may appear in a separate envelope to preserve confidentiality, but they must be available in their original forms to people at all levels of review.

2. Reviews During the Probationary Period

1. Regional Peers

The initial step in the reappointment review is the Extension Educator’s submission of the portfolio to the immediate supervisor. The supervisor shall then make the portfolio available for review by a set of regional peers consisting of all extended-term-track Extension Educators in the peer region. The Dean of Agriculture and Natural Resources is responsible for defining a set of peer regions for the state. In the case of an Extension Educator assigned to a particular academic department, it may be appropriate for the peer region to consist of faculty members and academic professionals in the department. Each regional peer shall review the portfolio and submit a written recommendation to the supervisor, who shall include the recommendations in the portfolio for subsequent levels of review.

Supervisor

The immediate supervisor shall then review the portfolio and add a written recommendation, along with an evaluation form. The candidate shall sign the evaluation form to indicate having reviewed the portfolio, including all written recommendations of regional peers and the immediate supervisor. The candidate may also add a letter of response. The immediate supervisor shall then forward the portfolio, including all recommendations and responses, to the Director of Extension. The Director of Extension shall then submit the case to the Extension Educator Term and Promotion Committee, described in Paragraph 6 below, for review. In the case of a first-year probationary review, no review by the Extension Educator Term and Promotion Committee is necessary, and the Director of Extension may forward the case directly to the Dean of Agriculture and Natural Resources.

Term and Promotion Committee

Duties of the Extension Educator Term and Promotion Committee are as follows:

1) Elect a chairperson from among its members.
2) Meet and review the portfolios of all Extension Educators who are candidates for probationary reappointment, extended-term appointments or renewals, and promotions.

3) Make written recommendations for all of these candidates to the Dean of Agriculture and Natural Resources.

Each member of the Term and Promotion Committee shall submit a written recommendation for each case. Each recommendation must contain reasons for the recommendation. The chairperson shall forward all recommendations and portfolios to the Dean of Agriculture and Natural Resources.

Dean of Agriculture and Natural Resources

The Dean of Agriculture and Natural Resources shall consult with the Director of Extension to formulate a written recommendation for each case. The candidate shall sign the evaluation form to indicate having reviewed the portfolio, including all written recommendations of the Term and Promotion Committee and the Dean. The candidate may also add a letter of response. The Dean shall then forward the portfolio, including the complete record of recommendations and responses, to the Vice President for Academic Affairs.

e. Academic Affairs. The Vice President for Academic Affairs may seek comments on any case from the University Tenure and Promotion Committee, augmented by extended-term Academic Professionals. The Vice President for Academic Affairs shall formulate a recommendation for each case to the President and Board of Trustees. In any case where the recommendation of the Vice President for Academic Affairs is negative, the candidate shall have the right to review the recommendation and any comments from the University Tenure and Promotion Committee. The candidate’s signature shall confirm that the review has occurred. In such cases, the candidate shall also have the right to add a letter of response.

3. Reviews for Extended-Term Renewal or for Promotion.

Reviews for extended-term renewal or for promotion of Extension Educators shall follow the process prescribed for reviews during the probationary period, with the portfolio forming the documentary basis for the review. The structure of the portfolio should be as prescribed in 1. Ranks.

Guidelines for Extended-Term Faculty
4. Ranks

There are three ranks for Extension Educators: Assistant Extension Educator, Associate Extension Educator, and Senior Extension Educator. Normally, an extended-term track Extension Educator should have at least 4 years of experience in rank at the University of Wyoming before being eligible to seek promotion to the next rank. However, time in rank alone is not sufficient to merit promotion. In many cases the mandatory review in the last year of the probationary period is an appropriate time to consider a review for promotion.

a. Assistant Extension Educator

The qualifications for Assistant Extension Educator include a Master's degree or equivalent experience in a field related to agriculture, youth development, community and economic development, family and consumer sciences or others as deemed appropriate by the Director of Extension. The qualifications also include convincing evidence of both the expertise and the personal skills needed to contribute effectively to the University’s extension mission. In some cases the Director of Extension may recommend the hiring of an Assistant Extension Educator who has not completed a Master’s degree, provided the position announcement does not require it. In this case the appointment shall be temporary, not on the extended-term track. The Director of Extension may nominate the employee to begin a probationary extended-term track appointment upon completion of a Master’s degree. Such nominations are subject to the approval of the Dean of Agriculture and Natural Resources and the Vice President for Academic Affairs.

b. Associate Extension Educator

In addition to having the qualifications and skills of Assistant University Extension Educator, the Associate Extension Educator normally shall have at least 4 years of Extension experience. The function of this rank is to plan, develop, and evaluate comprehensive, broad-scope Extension educational programs requiring expertise in at least two subject-matter areas within one or more of the Extension Program Areas. Qualifications required of an Associate Extension Educator include:

1. Demonstrated expertise within at least two Extension subject matter areas.
   i. 
   1)
4) 2) Demonstrated capabilities and performance characteristics
demonstrated by an Associate Extension Educator, including effective participation in
and familiarity with those processes and activities related to the position
description. Specific examples include performance are identified in the
UW Extension SAPP College of Agriculture and Natural Resources’
Administrative Policies and Procedures.

a) Assessing a broad range of clientele needs, including
interdisciplinary problems that involve the area and initiative teams

b) Planning, developing, implementing, and evaluating
multidisciplinary or interdisciplinary educational programs that
utilize and present results from research in the subject-matter areas

c) Developing program budgets

d) Providing leadership within the organization

e) Serving as a member of a civil rights review team

f) Providing training for other Extension Educators

g) Providing leadership for and effecting cooperation with Advisory
systems

h) Designing and conducting applied research or demographic studies,
analyzing results, and drawing conclusions

i) Seeking and utilizing external funding to support the extension
program

j) Creating or designing curricula

k) Marketing educational efforts through a variety of oral and written
methods

c.c. Senior Extension Educator

4) 1) In addition to having the qualifications and skills required of
Associate Extension Educators, the Senior Extension Educator must
have demonstrated superior leadership capabilities and must be recognized by peers and others as an outstanding educator. To qualify for this rank, individuals must exhibit the following abilities.

a) a) To take leadership in identifying and evaluating critical extension needs of communities.

b) b) To provide direction, planning, and priority setting in the development of programs that meet these needs.

2) 2) To demonstrate specialized expertise needed to provide educational programs on an area, region, or statewide basis. Evidence of these abilities can include the following elements:

a) a) Professional recognition, such as regional or national awards, letters of recognition, commendation from colleagues and peers.

b) b) Publications in refereed or professional journals or other widely disseminated venues.

c) c) Leadership in the resolution of complex problems, such as the development of interdisciplinary programs and projects requiring long-range educational planning.

d) d) Experience in planning, conducting, interpreting, and disseminating applied research, demonstration trials, field and home demonstrations, or community studies.

e) e) Acknowledged administrative and leadership experience.

f) f) Leadership in training Extension Educators and other professionals.

g) g) Securing funding as a principal investigator of grant proposals designed to meet unique community needs.

5. Job Descriptions

Job descriptions for Extension Educators may include teaching, research, service, extension, and administration. These job descriptions are subject to annual review and possible revision by the employee and the direct supervisor and are subject to consultation with and approval by the Dean of Agriculture and Natural Resources.

6. Term and Promotion Committee

The Extension Educator Term and Promotion Committee shall have at least one Extension Educator from each peer region and at least one Extension Educator from the Laramie campus. The Dean of Agriculture and Natural Resources is responsible for determining the precise size of the committee. Membership on this committee shall be determined by elections by peers within their respective
peer region or Laramie campus peer groups, with all Extension Educators who hold extended-term appointments being eligible to serve. All extended-term track Extension Educators, whether on probationary or extended-term appointments, shall be eligible to vote in these elections.

If there are not enough extended-term Extension Educators to fill the required categories, then the Dean of Agriculture and Natural Resources shall identify a broader set of Extension Educators from whom candidates may be selected.

The assigned term of service for members of the Extension Educator Term and Promotion Committee is three years, with members being ineligible for re-election at the end of their assigned terms. Elections are staggered: every third year, one or more members are elected as needed; two members are elected all other years. A committee member undergoing review for reappointment, extended term, or promotion may not serve on the committee during the year of the review. In this case, eligible voters within the appropriate peer region or Laramie campus group shall determine a one-year, temporary replacement from eligible employees within the peer region or Laramie campus group in an election. If a member of the committee leaves for any other reason before his or her assigned term ends, eligible voters within the same peer region or Laramie campus group shall elect a replacement from eligible employees within the peer region or Laramie campus group. The assigned term of the replacement is the remainder of the term held by the departing committee member.

The Director of Extension or a designee shall be responsible for conducting the elections and convening the Extension Educator Term and Promotion Committee. This person may attend the committee’s meetings, with the sole purpose of ensuring that the committee adheres to proper procedures.

7. Governance

Extension Educators shall have representation on the Faculty Senate, to be determined by the regulations governing that body.

IV. LECTURERS

A. Definition and Description

B. Lecturers are Academic Professionals

Lecturers are non-tenure track academic personnel who are engaged primarily in fulfilling the teaching mission of the University. As a necessary part of their
teaching responsibilities, lecturers must demonstrate continuing professional development.

B. Extended-Term-Track Appointments

Extended-term-track Lecturers include Lecturers who are on probationary appointments as well as those who are on extended-term appointments.

1. Portfolios

A portfolio, developed by the Lecturer and summarizing the employee’s performance and contributions, shall form the documentary basis for each periodic review during the probationary period and for any review for extended term, extended-term renewal, or promotion. The portfolio should contain at least the following information:

a. Information concerning the initial appointment, including the letter of offer for the position.

b. A summary of all previous reappointment, extended term, and promotion decisions.

c. The candidate’s job description. For probationary reviews, the portfolio should contain all job descriptions covering the probationary period to date. For extended-term renewal, it should contain all job descriptions covering the current extended term. For promotions, it should contain all job descriptions since the previous promotion.

d. Documentation of recommendations at all levels, including the recommendations of department faculty and other extended-term-track Lecturers in the department, the recommendations of any appropriate department head, tenure and promotion committee, and dean.

e. The candidate’s complete curriculum vitae.

f. A summary of the candidate’s accomplishments, including a list of courses taught and a syllabus for each. In addition, the portfolio should include detailed information, such as tests, assignments, and other materials related to the assessment of student learning, for a representative suite of recently taught courses.

g. Assessments of the candidate’s teaching, including a self-assessment, assessments by faculty and extended-term-track lecturers, an assessment by the department head or other appropriate supervisor, and student
evaluations. Student evaluations must include anonymous evaluations collected in the classroom, but they may also include letters solicited from students familiar with the candidate’s teaching.

h. Wherever appropriate to the job description, documentation concerning the candidate’s service activities, student advising, and supervisory and administrative performance.

i. Documentation of professional development activities.

j. Where deemed relevant and appropriate by the appointing authority, internal and external letters of reference. Such letters may be appropriate in cases involving extended-term or promotion decisions, even if letters were not required in previous reviews. The procedures used for soliciting and handling these letters should follow the prescriptions given in UW Regulation 2-7 for faculty tenure and promotion cases. These letters may appear in a separate envelope to preserve confidentiality, but they must be available in their original forms to people at all levels of review.

2. Reviews During the Probationary Period

1. Peers

The following review procedures apply to extended-term-track Lecturers who are in the probationary period. Based on the record in the portfolio and his or her experience, the faculty and extended-term-track Academic Professionals in the department shall review the portfolio and submit recommendations to the department head.

Department Head

The department head shall formulate a written recommendation. The candidate shall sign the evaluation form to indicate having reviewed the portfolio, including all written recommendations. The candidate may also add a letter of response. The department head shall then forward the portfolio and all recommendations to the appropriate appointing authority. In many cases, the appropriate appointing authority will be the dean of the college.

College Tenure and Promotion Committee

The dean of the college may seek recommendations from the college tenure and promotion committee, augmented by a set of extended-term Academic Professionals.
College Dean

The dean of the college shall formulate a written recommendation. The candidate shall sign the evaluation form to indicate having reviewed the portfolio, including all written recommendations. The candidate may also add a letter of response. The Dean shall then forward the portfolio, including the complete record of recommendations and responses, to the Vice President for Academic Affairs.

Academic Affairs

The Vice President for Academic Affairs may seek comments from the University Tenure and Promotion Committee, augmented by extended-term Academic Professionals. The Vice President for Academic Affairs shall formulate a recommendation for each case to the President and Board of Trustees. In any case where the recommendation of the Vice President for Academic Affairs is negative, the candidate shall have the right to review the recommendation and any comments from the University Tenure and Promotion Committee. The candidate’s signature shall confirm that the review has occurred. In such cases, the candidate shall also have the right to add a letter of response.

3. Reviews for Extended-Term Renewal or for Promotion

Reviews for extended-term renewal or for promotion of Lecturers shall follow the process prescribed for reviews during the probationary period, with the portfolio forming the documentary basis for each review. The structure of the portfolio should be as prescribed in IV.B.1.

4. Ranks

1. Ranks

There are three ranks for Lecturers: Assistant Lecturer, Associate Lecturer, and Senior Lecturer. Normally, an extended-term-track Lecturer should have at least 4 years of teaching experience in rank at the University of Wyoming before being eligible to seek promotion to the next rank. However, time in rank is not sufficient to merit promotion. In many cases, the mandatory review in the last year of the probationary period is an appropriate time to consider a review for promotion.
a. Assistant Lecturer

Normally, the qualifications for Assistant Lecturer include a Master's degree or equivalent, together with convincing promise for significant contributions to the University’s teaching mission. The candidate should also exhibit a commitment to ongoing professional development in the discipline.

b. Associate Lecturer

The Associate Lecturer will normally have at least a Master's degree or its equivalent. Associate Lecturers must also have a record of demonstrated, significant contributions to teaching, not only through superior performance in the classroom but also through the broader support of the University’s teaching mission. Such activities may include but are not limited to the following.

1) Contributions to the design, development, and oversight of curriculum in specific courses.
2) Significant involvement in the coordination of curricula in different courses.
3) Demonstrated breadth and versatility of teaching in a range of courses.
4) Involvement in professional development activities that reflect substantial awareness of the evolution of knowledge and curriculum in the discipline.

c. Senior Lecturer

In addition to the qualifications for an Associate Lecturer, Senior Lecturers must also have a sustained record of excellence and versatility in the classroom as well as leadership in the design, development, and oversight of curriculum in the discipline. The following list contains some possible elements of such a record; the list is not exhaustive.

1) Demonstrated proficiency in the management of specific courses.
2) Documented participation in national or international discourse on evolving knowledge in the field, curricular developments, and teaching techniques.
3) Participation in the solicitation or administration of external funding to support teaching initiatives.
4) Sustained effectiveness in the mentorship of other teachers, including graduate assistants, other academic professionals, faculty members, or other instructional staff.
5) Substantive involvement in interdisciplinary teaching efforts or other forms of collaboration or articulation, especially those involving other university departments, community colleges, or high schools.

5. 2. Job Descriptions

Elements of the job description that are appropriate for Lecturers include teaching, service, advising, professional development, and, in some cases, administration. Teaching includes such activities as classroom instruction, laboratory supervision, and online or off-campus instruction.

Currency of knowledge being essential to effective teaching, every Lecturer must participate in a program of professional development, the components of which he or she must define in collaboration with the appropriate department head or supervisor. Each department that hires Lecturers has the responsibility to develop written standards by which to gauge individual professional development programs. These standards must be available to candidates for Lecturer positions at the time of hiring. Normally, professional development should account for no less than 1/8 (the equivalent of 3 credits per year) and no more than 1/4 (the equivalent of 6 credits per year) of the job description. The workload associated with professional development must be consistent with UW Regulation 2-9.

To allow adequate time for professional development, the job description for a full-time Lecturer should require no more than 21 credits (7/8 of the work responsibility) in classroom instruction or its equivalent in other forms of teaching, as per UW Regulation 2-9.

6. Governance

Extended-term-track Lecturers shall have representation in the Faculty Senate, to be determined by regulations governing that body.

V. RESEARCH SCIENTISTS

A. Definition and Description

C. Research Scientists

Research Scientists are non-tenure track academic professionals whose primary responsibilities are to conduct and support research. UW Regulation 2-7 describes the activities that fall into this set of responsibilities for faculty; the same definition of research applies to Academic Professionals.
A Research Scientist typically works under the direction of a faculty supervisor.

B. Extended-Term Track Appointments

Extended-term-track Research Scientists include Research Scientists who are on probationary appointments as well as those who are on extended-term appointments.

1. Portfolios

A portfolio, developed by the Research Scientist and summarizing the employee’s performance and contributions, shall form the documentary basis for each periodic review during the probationary period and for any review for extended term, extended-term renewal, or promotion. The portfolio should contain at least the following information:

a. Information concerning the initial appointment, including the letter of offer for the position.

b. A summary of all previous reappointment decisions.

c. The candidate’s job description. For probationary reviews, the portfolio should contain all job descriptions covering the probationary period to date. For extended-term renewal, it should contain all job descriptions covering the current extended term. For promotions, it should contain all job descriptions since the previous promotion.

d. Documentation of recommendations at all levels, including the supervisor’s recommendation, recommendations of faculty and other extended-term-track Research Scientists in the department, and recommendations of any appropriate department head, tenure and promotion committee, and dean.

e. The candidate’s complete curriculum vitae.

f. A brief narrative summary of the candidate’s accomplishments, including refereed and nonrefereed publications, original contributions to knowledge, patents, grants and grant proposals, contributions to the support of research, and other forms of professional recognition.

g. Wherever appropriate to the job description, documentation concerning the candidate’s teaching effectiveness, service activities, student advising (including advising of graduate students and Postdoctoral Associates), supervisory performance, and any other elements of the job description.
h. Where deemed relevant and appropriate by the appointing authority, internal and external letters of reference. Such letters may be appropriate in cases involving extended term or promotion decisions, even if letters were not required in previous reviews. The procedures used for soliciting and handling these letters should follow the prescriptions given in UW Regulation 2-7 for faculty tenure and promotion cases. These letters may appear in a separate envelope to preserve confidentiality, but they must be available in their original forms to people at all levels of review.

2. Reviews During the Probationary Period

1. Faculty Supervisor and Peers

Based on the record in the portfolio and his or her experience, the faculty supervisor shall make the initial recommendation for reappointment or dismissal. The faculty and extended-term track Research Scientists in the department shall review the portfolio and submit recommendations to the department head.

Department-Head

The department head shall formulate a written recommendation. The candidate shall sign the evaluation form to indicate having reviewed the portfolio, including all written recommendations. The candidate may also add a letter of response. The department head shall then forward the portfolio and all recommendations to the appropriate appointing authority. In many cases, the appropriate appointing authority will be the dean of the college.

College Tenure and Promotion Committee

The dean may seek recommendations from the college tenure and promotion committee, augmented by a set of extended-term Academic Professionals.

College Dean

The dean of the college or the Haub School of Environment and Natural Resources shall formulate a written recommendation. The candidate shall sign the evaluation form to indicate having reviewed the portfolio, including all written recommendations. The candidate may also add a letter of response. The Dean shall then forward the portfolio, including the complete record of recommendations and responses, to the Vice President for Academic Affairs.
Academic Affairs

The Vice President for Academic Affairs may seek comments from the University Tenure and Promotion Committee, augmented by a set of extended term Academic Professionals. The Vice President for Academic Affairs shall formulate a recommendation for each case to the President and Board of Trustees. In any case where the recommendation of the Vice President for Academic Affairs is negative, the candidate shall have the right to review the recommendation and any comments from the University Tenure and Promotion Committee. The candidate’s signature shall confirm that the review has occurred. In such cases, the candidate shall also have the right to add a letter of response.

3. Reviews for Extended-Term Renewal or for Promotion

Reviews for extended-term renewal or for promotion of Research Scientists shall follow the process prescribed for reviews during the probationary period, with the portfolio forming the documentary basis for each review. The structure of the portfolio should be as prescribed in V.B.1.

4. Ranks

1. Ranks

There are three ranks for Research Scientists: Assistant Research Scientist, Associate Research Scientist, and Senior Research Scientist. Normally, an extended-term track Research Scientist should have at least 4 years of research experience in rank at the University of Wyoming before being eligible to seek promotion to the next rank. However, time in rank is not sufficient to merit promotion. In many cases, the mandatory review in the last year of the probationary period is an appropriate time to consider a review for promotion.

a. Assistant Research Scientist

In general, the qualifications for Assistant Research Scientist include a Master's degree or equivalent experience in an appropriate field, together with convincing promise for significant contributions to the University’s mission in research and scholarship.

b. Associate Research Scientist
b. The Associate Research Scientist will normally have at least a Master's degree or its equivalent. Associate Research Scientists must also have a record of demonstrated, significant contributions to research and scholarship, either through wide dissemination of results or through a convincing record of substantial support to the research enterprise. The following list contains examples of such support; the list is not exhaustive.

1) Demonstrated development of expertise at the state of the art, consistent with the job description.

2) Significant contributions to the preparation of successful grant proposals and refereed scholarly manuscripts, where relevant.

3) Evidence of effective mentorship, teaching, laboratory instruction, or supervision of undergraduates, graduate students, or employees whose work is essential to the research enterprise.

c. Senior Research Scientist.

The Senior Research Scientist will normally have a Ph.D. or an equivalent terminal degree, although Associate Research Scientists who have a Master's degree may be eligible for this rank if they have comparable accomplishments in research and scholarship. Senior Research Scientists must also have a sustained record of scholarly initiative and recognized contributions to their fields. The following list contains some possible elements of such a record; the list is not exhaustive.

1) Demonstrated proficiency in the management of a research laboratory or related facility.

2) Distinctive contributions to nationally or internationally recognized scholarship or evidence of nationally or internationally recognized expertise.

3) Demonstrated ability to write or participate significantly in the writing of successful grant proposals and refereed manuscripts.

4) Significant contributions to national or international scientific meetings.

5) Sustained, demonstrable effectiveness in mentorship, teaching, laboratory instruction, and supervision of undergraduates, graduate students, or employees whose work is essential to the research enterprise.
5. **Job Descriptions**

The elements of the job description that are appropriate for Research Scientists are teaching, research, service, administration, and, in some cases, extension. As a general guideline, if the teaching element of the job description exceeds an average of eight credits per academic year, another category of Academic Professional personnel may be more appropriate.

6. **Governance**

Extended-term-track Research Scientists shall have representation in the Faculty Senate, to be determined by regulations governing that body.

VI. **POSTDOCTORAL ASSOCIATES**

A. **Definition and Description**

Postdoctoral Associates are temporary Academic Professionals dedicated to the pursuit of greater professional expertise after the attainment of the doctoral degree. This category recognizes that doctoral recipients in some disciplines may require intensive advanced work in a particular discipline before seeking permanent employment. Postdoctoral Associates are not eligible for extended-term appointments.

It is characteristic of Postdoctoral Associates to work with a small set of faculty mentors who are responsible for directing the employee’s research and training. The temporary nature of internships, the precariousness of grant funding, and the desire of many Postdoctoral Associates to acquire permanent employment early in their careers call for a specific set of governing regulations for this category of employee.

Postdoctoral Associates are employees at will.

B. **Appointment Provisions**

1. **Appointment Process**

The head of the unit sponsoring the Postdoctoral Associate will forward recommendations to the appropriate dean, who will forward his or her recommendation to the Vice President of Academic Affairs for approval. The proposed term of employment normally shall be no longer than one year, although renewal of the appointment is possible.

Commented [TBB12]: Post Docs are not on extended terms. A new guidance document is being prepared by AA and will be posted on the AA website.
Draft 2-18-21

The head of the sponsoring unit shall specify the terms of appointment in writing to the candidate (salary, starting date, ending date, duties, and other pertinent conditions of appointment), subject to approval by the appropriate college dean. The employee shall receive a letter stating these terms no later than 10 days before the start of employment.

2. Job Descriptions

The faculty mentor is responsible for specifying the job responsibilities of a Postdoctoral Associate. These job responsibilities should not require more than 25 percent of effort (six semester credit-hours per year) dedicated to classroom teaching. If a greater teaching effort is anticipated, the appointment should be as a temporary faculty member or as another category of academic professional.

3. Compensation

Salaries for Postdoctoral Associates should be generally consistent with those for postdoctoral employees in the discipline at large. Salary increases require approval of the appropriate dean and the Vice President for Academic Affairs.

With the exception of annual vacation leave, fringe benefits for Postdoctoral Associates shall be in accordance with University personnel policies and shall be described in the letter of appointment. In lieu of accruing annual leave, Postdoctoral Associates are allowed short-term leave with pay, not to exceed 22 working days per calendar year.

4. Appeals and Disputes

A Postdoctoral Associate seeking to resolve disputes regarding conditions of employment, salaries, working conditions, assignments, and other concerns must do so initially through dialogue with his or her immediate supervisor. UW Regulation 4.2 governs the resolution of civil rights disputes.
D. Archivists

Archivists are non-tenure track academic personnel appointed in the American Heritage Center (AHC). Appointment as an Archivist requires a master's degree in library science and/or information science from a program accredited by the American Library Association (ALA); or a master’s degree in history, American studies, or related field.

1. Ranks

There are three ranks of Faculty in the AHC: Assistant Archivist, Associate Archivist, and Archivist.

a. Assistant Archivist

The assistant archivist rank is the beginning level of archives administration and special collections curatorship and generally requires little or no professional experience. It requires performance according to expectations of assigned archives administration, special collections curatorship, scholarly activity, service, and all the other obligations of an AHC Faculty member.

b. Associate Archivist

The associate archivist rank designates a Faculty member who reliably and consistently performs the expectations of their archival position and demonstrates commitment to continued excellence. This rank carries the expectation of continuing professional development or experience (though additional degrees are not required). Six full years of experience as an Assistant Archivist at the University, or its equivalent, is normally required for appointment or advancement to this rank.

c. Archivist

The archivist rank is reserved for individuals who have made distinctive contributions. Promotion to this level is contingent on the scope, depth, and level of national or international recognition of the candidate’s contributions to archives administration and special collections curatorship, teaching, service, or scholarly or creative work. Associate Archivists seeking promotion to archivist normally undergo professional growth commensurate in significance with that required to earn the Associate Archivist appointment but demonstrating a substantially greater level of professional and scholarly accomplishment.
Draft 2-18-21

2. Job Descriptions

Elements of the job description that are appropriate for AHC Faculty include professional practice, research and service. Job descriptions may vary among employees. Development of and changes in job descriptions are the responsibility of the department head but will include consultation with the incumbent and approval by the Director.

As a part of their job responsibilities, archivists are expected to demonstrate continuing professional development.

E. Librarians

Librarians are non-tenure track academic personnel appointed in the University of Wyoming Libraries. Appointment as a Librarian requires that an individual have the appropriate terminal professional degree: a master's degree in library and/or information science from a program accredited by the American Library Association (ALA) or an appropriate equivalent. Experience must be of a type and length appropriate for the particular position or rank.

1. Ranks

There are three ranks of Librarians: Assistant Librarian, Associate Librarian, and Librarian

a. Assistant Librarian

Assistant librarians will hold a master’s degree in library and/or information science from an ALA-accredited institution or equivalent. They will demonstrate a significant promise to contribute to the University’s teaching and research missions through librarianship.

b. Associate Librarian

Associate librarians will hold a master’s degree in library and/or information science from an ALA-accredited institution or equivalent. In addition, they will demonstrate continued development over time in the following areas:

2) Service to the Profession – Participation and leadership in international, national, regional and state library-related professional organizations. Active participation in groups that serve higher education. Participation
in University and library faculty governance and committees, task forces, councils or boards.

3) Scholarship – Continued development in their cumulative record of contributions to the scholarly record. Scholarship may include research grants, publications in librarianship and other areas, scholarly presentations, and scholarly exhibits.

c. Librarian

Librarians will hold a master’s degree in library and/or information science from an ALA-accredited institution or equivalent. In addition, they will meet the criteria for Associate Librarian as well as a sustained and expanding record in the following areas:

1) Practice of Librarianship – Demonstrated wisdom, disciplinary and institutional knowledge, and expertise developed through ongoing successful practice of librarianship. A record of increasing responsibility or expertise related to job responsibilities.

2) Service to the Profession – Leadership roles in library and university committees, professional organizations, and initiatives backed by consortia and other partnerships. Leadership on committees in regional, national or international organizations related to libraries, information access, education, disciplinary fields, or information technology. Conference or program planning at a regional, national, or international level.

3) Scholarship – Invitations to submit book chapters, articles, edit books, or present at national or international conferences. Presentations selected through competitive process for national or international conferences. Consistent record of publications, including peer-reviewed articles.

2. Job Descriptions

Elements of the job description that are appropriate for AHC Library Faculty include each Library Faculty member will have a job description that includes a description of duties, proportion of time allocation, and standards expected of the Faculty member. The three key elements of job descriptions for Librarians are:

a. Librarianship, the multifaceted discipline that encompasses both the public (access services, reference) and technical (acquisitions,
c. Professional Service and University-Related Activities.

IV. PROMOTION OF EXTENDED-TERM FACULTY

Extended-Term faculty remain eligible for promotion through the ranks. Promotion reviews will be conducted in accordance with tenure and promotion procedures described in University Regulations and Standard Administrative Policies and Procedures and will be consistent with academic unit/college processes, including any requirements for external reviews.

Promotion reviews for Extended-Term faculty may be conducted at any time that the faculty member's level of accomplishment is commensurate with the next higher rank. Promotion to the highest level normally requires an additional period of growth that results in a greater level of accomplishment. The attainment of a higher rank while an Extended-Term faculty member does not guarantee the results of any future evaluations. Upon satisfying the criteria for promotion as set forth in University Regulations, Standard Administrative Policies and Procedures and college/unit guidance documents, the individual candidate is responsible for initiating the promotion review process. The appointing authority shall notify any candidate who receives a negative recommendation for promotion and shall discuss the rationale for the recommendation with the candidate. Failure to receive promotion does not affect the faculty member's Extended Term.

Only those Extended-Term faculty recommended by the President of the University and approved by the Board of Trustees will receive promotion.

V. CONVERSION OF EXTENDED-TERMS TO FIXED-TERM ROLLING CONTRACTS

A. Academic personnel with Extended-Term appointments shall retain their appointment and designation for the duration of their current Extended Term.

B. During the next-to-last year of their current Extended-Term (e.g., year 5 of a six-year Extended Term), the faculty member shall undergo a Fixed-Term Rolling Contract review as described in Standard Administrative Policies and Procedures. If the outcome of the review is a positive recommendation, faculty members at the Assistant or Associate ranks will be appointed to a 3-year rolling contract and faculty members at the highest rank will be appointed to either a 3-year or a 5-year rolling contract once the final year of their current extended term is complete.
If the outcome of the [Fixed-Term Rolling Contract] review is negative, the contract will not be renewed and the faculty member's last year at the University of Wyoming will be the following year (i.e., the last year of the six-year Extended Term).²

EXTENSION EDUCATORS

I. DEFINITION AND DESCRIPTION

II. EXTENDED-TERM-TRACK APPOINTMENTS

A. Portfolios
B. Reviews During the Probationary Period
C. Reviews for Extended-Term Renewal or for Promotion
D. Ranks
E. Job Descriptions
F. Term and Promotion Committee
G. Administrative Review Committee
H. Governance

VII. DEFINITION AND DESCRIPTION

As members of the University of Wyoming Extension, Extension Educators are part of the University’s educational outreach system. In keeping with the University’s status as a land-grant institution, Extension Educators form an essential link between the people of Wyoming and the teaching, research, and service missions of the University. The primary function of these employees is to provide non-credit education to an off-campus clientele. Extension Educators provide Wyoming youth, adults, and communities with life-long learning opportunities, especially through the application of research-supported information and leadership skills.

An Extension Educator’s responsibilities include

6. identifying the needs of people in communities to which he or she is assigned,
7. developing, implementing, and managing educational and research programs to meet these needs,
8. evaluating and documenting changes that occur in response to these programs.

To meet these responsibilities, the Extension Educator must exhibit high levels of professional, scientific, educational, and community-relations skills.

VIII. EXTENDED-TERM-TRACK APPOINTMENTS

C. Portfolios

A portfolio developed by the Extension Educator and summarizing his or her performance and contributions, forms the documentary basis for each periodic review during the probationary period and for each review for extended term, extended term renewal, or
Guidelines for Extended-Term Faculty

D. Reviews During the Probationary Period

Regional Peers. The initial step in the reappointment review is the Extension Educator’s submission of the portfolio to the immediate supervisor. The supervisor shall then make the portfolio available for review by a set of regional peers consisting of all extended term-track Extension Educators in the peer region. The Dean of Agriculture and Natural Resources is responsible for defining a set of peer regions for the state. In the case of an Extension Educator assigned to a particular academic department, it may be appropriate for the peer region to consist of faculty members and academic professionals in the department. Each regional peer shall review the portfolio and submit a written recommendation to the supervisor, who shall include the recommendations in the portfolio for subsequent levels of review.

Supervisor. The immediate supervisor shall then review the portfolio and add a written recommendation, along with an evaluation form. The candidate shall sign the evaluation form to indicate having reviewed the portfolio, including all written recommendations of regional peers and the immediate supervisor. The candidate may also add a letter of response. The immediate supervisor shall then forward the portfolio, including all recommendations and responses, to the Director of Extension. The Director of Extension promotion. The portfolio should contain at least the following information as it becomes available.

1. Information concerning the initial appointment, including the letter of offer for the position.
2. A summary of all previous reappointment, extended-term, and promotion decisions.
3. The candidate’s job description. For probationary reviews, the portfolio should contain all job descriptions covering the probationary period to date. For extended-term renewal, it should contain all job descriptions covering the current extended term. For promotions, it should contain all job descriptions since the previous promotion.
4. Documentation of recommendations at all levels when the recommendations become available, including the supervisor’s recommendation, where applicable; recommendations of regional peers (see Section B); recommendations of the college-level committee; and the dean’s recommendation.
5. The candidate’s complete curriculum vitae.
6. Documentation of the candidate’s professional accomplishments.
7. Where deemed relevant and appropriate by the appointing authority, internal and external letters of reference. Such letters may be appropriate in cases involving extended-term or promotion decisions, even if letters were not required in previous reviews. The procedures used for soliciting and handling these letters should follow the prescriptions given in UW Regulation 2-7 for faculty tenure and promotion cases. These letters may appear in a separate envelope to preserve confidentiality, but they must be available in their original forms to people at all levels of review.
shall then submit the case to the Extension Educator Term and Promotion Committee, described in Paragraph F below, for review. In the case of a first-year probationary review, no review by the Extension Educator Term and Promotion Committee is necessary, and the Director of Extension may forward the case directly to the Dean of Agriculture and Natural Resources.

Term and Promotion Committee. Duties of the Extension Educator Term and Promotion Committee are as follows:

- Elect a chairperson from among its members.
- Meet and review the portfolios of all Extension Educators who are candidates for probationary reappointment, extended-term appointments or renewals, and promotions.
- Make written recommendations for all of these candidates to the Dean of Agriculture and Natural Resources.

Each member of the Term and Promotion Committee shall submit a written recommendation for each case. Each recommendation must contain reasons for the recommendation. The chairperson shall forward all recommendations and portfolios to the Dean of Agriculture and Natural Resources.

Dean of Agriculture and Natural Resources. The Dean of Agriculture and Natural Resources shall consult with the Director of Extension to formulate a written recommendation for each case. The candidate shall sign the evaluation form to indicate having reviewed the portfolio, including all written recommendations of the Term and Promotion Committee and the Dean. The candidate may also add a letter of response. The Dean shall then forward the portfolio, including the complete record of recommendations and responses, to the Vice President for Academic Affairs.

Academic Affairs. The Vice President for Academic Affairs may seek comments on any case from the University Tenure and Promotion Committee, augmented by extended-term Academic Professionals. The Vice President for Academic Affairs shall formulate a recommendation for each case to the President and Board of Trustees. In any case where the recommendation of the Vice President for Academic Affairs is negative, the candidate shall have the right to review the recommendation and any comments from the University Tenure and Promotion Committee. The candidate's signature shall confirm that the review has occurred. In such cases, the candidate shall also have the right to add a letter of response.

E. Reviews for Extended-Term Renewal or for Promotion.

Reviews for extended-term renewal or for promotion of Extension Educators shall follow the process prescribed for reviews during the probationary period, with the portfolio forming the documentary basis for the review. The structure of the portfolio should be as prescribed in ILA.
F. Ranks

There are three ranks for Extension Educators: Assistant Extension Educator, Associate Extension Educator, and Senior Extension Educator. Normally, an extended-term-track Extension Educator should have at least 4 years of experience in rank at the University of Wyoming before being eligible to seek promotion to the next rank. However, time in rank alone is not sufficient to merit promotion. In many cases the mandatory review in the last year of the probationary period is an appropriate time to consider a review for promotion.

Assistant Extension Educator. The qualifications for Assistant Extension Educator include a Master's degree or equivalent experience in a field related to agriculture, youth development, community and economic development, family and consumer sciences or others as deemed appropriate by the Director of Extension. The qualifications also include convincing evidence of both the expertise and the personal skills needed to contribute effectively to the University’s extension mission. In some cases the Director of Extension may recommend the hiring of an Assistant Extension Educator who has not completed a Master’s degree, provided the position announcement does not require it. In this case the appointment shall be temporary, not on the extended-term track. The Director of Extension may nominate the employee to begin a probationary extended-term-track appointment upon completion of a Master’s degree. Such nominations are subject to the approval of the Dean of Agriculture and Natural Resources and the Vice President for Academic Affairs.

Associate Extension Educator. In addition to having the qualifications and skills of Assistant University Extension Educator, the Associate Extension Educator normally shall have at least 4 years of Extension experience. The function of this rank is to plan, develop, and evaluate comprehensive, broad-scope Extension educational programs requiring expertise in at least two subject-matter areas within one or more of the Extension Program Areas. Qualifications required of an Associate Extension Educator include:

- Demonstrated expertise within at least two Extension subject matter areas.
- Demonstrated capabilities and performance characteristics of an Associate Extension Educator, including effective participation in and familiarity with those processes and activities related to the position description. Specific examples include performance in:
  1. Assessing a broad range of clientele needs, including interdisciplinary problems that involve the area and initiative teams
  2. Planning, developing, implementing and evaluating multidisciplinary or interdisciplinary educational programs that utilize and present results from research in the subject-matter areas
  3. Developing program budgets
  4. Providing leadership within the organization
Draft 2-18-21

5. Serving as a member of a civil rights review team
6. Providing training for other Extension Educators
7. Providing leadership for and effecting cooperation with Advisory systems
8. Designing and conducting applied research or demographic studies, analyzing results, and drawing conclusions
9. Seeking and utilizing external funding to support the extension program
10. Creating or designing curricula
11. Marketing educational efforts through a variety of oral and written methods

Senior Extension Educator. In addition to having the qualifications and skills required of Associate Extension Educators, the Senior Extension Educator must have demonstrated superior leadership capabilities and must be recognized by peers and others as an outstanding educator. To qualify for this rank, individuals must exhibit the following abilities.

3) To take leadership in identifying and evaluating critical extension needs of communities.
4) To provide direction, planning, and priority setting in the development of programs that meet these needs.

To demonstrate specialized expertise needed to provide educational programs on an area, region, or statewide basis. Evidence of these abilities can include the following elements:

h) Professional recognition, such as regional or national awards, letters of recognition, commendation from colleagues and peers.
i) Publications in refereed or professional journals or other widely disseminated venues.
j) Leadership in the resolution of complex problems, such as the development of interdisciplinary programs and projects requiring long-range educational planning.
k) Experience in planning, conducting, interpreting, and disseminating applied research, demonstration trials, field and home demonstrations, or community studies.
l) Acknowledged administrative and leadership experience.
m) Leadership in training Extension Educators and other professionals.
n) Securing funding as a principal investigator of grant proposals designed to meet unique community needs.

G. Job Descriptions

Job descriptions for Extension Educators may include teaching, research, service, extension, and administration. These job descriptions are subject to annual review and possible revision by the employee and the direct supervisor and are subject to consultation with and approval by the Dean of Agriculture and Natural Resources.

H. Term and Promotion Committee

Guidelines for Extended-Term Faculty
The Extension Educator Term and Promotion Committee shall have at least one Extension Educator from each peer region and at least one Extension Educator from the Laramie campus. The Dean of Agriculture and Natural Resources is responsible for determining the precise size of the committee. Membership on this committee shall be determined by elections by peers within their respective, peer region or Laramie campus peer groups, with all Extension Educators who hold extended-term appointments being eligible to serve. All extended term track Extension Educators, whether on probationary or extended-term appointments, shall be eligible to vote in these elections.

If there are not enough extended-term Extension Educators to fill the required categories, then the Dean of Agriculture and Natural Resources shall identify a broader set of Extension Educators from whom candidates may be selected.

The assigned term of service for members of the Extension Educator Term and Promotion Committee is three years, with members being ineligible for re-election at the end of their assigned terms. Elections are staggered: every third year, one or more members are elected as needed; two members are elected all other years. A committee member undergoing review for reappointment, extended term, or promotion may not serve on the committee during the year of the review. In this case, eligible voters within the appropriate peer region or Laramie campus group shall determine a one-year, temporary replacement from eligible employees within the peer region or Laramie campus group in an election. If a member of the committee leaves for any other reason before his or her assigned term ends, eligible voters within the same peer region or Laramie campus group shall elect a replacement from eligible employees within the peer region or Laramie campus group. The assigned term of the replacement is the remainder of the term held by the departing committee member.

The Director of Extension or a designee shall be responsible for conducting the elections and convening the Extension Educator Term and Promotion Committee. This person may attend the committee’s meetings, with the sole purpose of ensuring that the committee adheres to proper procedures.

I. Governance

Extension Educators shall have representation on the Faculty Senate, to be determined by the regulations governing that body.
Draft 2-18-21

APPENDIX B TO UW REGULATION 2-4
LECTURERS

I. DEFINITION AND DESCRIPTION

Lecturers are Academic Professionals who are engaged primarily in fulfilling the teaching mission of the University. As a necessary part of their teaching responsibilities, lecturers must demonstrate continuing professional development.

II. EXTENDED-TERM TRACK APPOINTMENTS

Extended-term track Lecturers include Lecturers who are on probationary appointments as well as those who are on extended-term appointments.

J. A. Portfolios

A portfolio, developed by the Lecturer and summarizing the employee’s performance and contributions, shall form the documentary basis for each periodic review during the probationary period and for any review for extended term, extended-term renewal, or promotion. The portfolio should contain at least the following information:

1. Information concerning the initial appointment, including the letter of offer for the position.
2. A summary of all previous reappointment, extended term, and promotion decisions.
3. The candidate’s job description. For probationary reviews, the portfolio should contain all job descriptions covering the probationary period to date. For extended-term renewal, it should contain all job descriptions covering the current extended term. For promotions, it should contain all job descriptions since the previous promotion.
4. Documentation of recommendations at all levels, including the recommendations of
department faculty and other extended-term-track Lecturers in the department, the
recommendations of any appropriate department head, tenure and promotion
committee, and dean.
5. The candidate’s complete curriculum vitae.
6. A summary of the candidate’s accomplishments, including a list of courses taught and
a syllabus for each. In addition, the portfolio should include detailed information,
such as tests, assignments, and other materials related to the assessment of student
learning, for a representative suite of recently taught courses.
7. Assessments of the candidate’s teaching, including a self-assessment, assessments by
faculty and extended term track lecturers, an assessment by the department head or
other appropriate supervisor, and student evaluations. Student evaluations must
include anonymous evaluations collected in the classroom, but they may also include
letters solicited from students familiar with the candidate’s teaching.
8. Wherever appropriate to the job description, documentation concerning the
candidate’s service activities, student advising, and supervisory and administrative
performance.
9. Documentation of professional development activities.
10. Where deemed relevant and appropriate by the appointing authority, internal and
external letters of reference. Such letters may be appropriate in cases involving
extended-term or promotion decisions, even if letters were not required in previous
reviews. The procedures used for soliciting and handling these letters should follow
the prescriptions given in UW Regulation 2-7 for faculty tenure and promotion cases.
These letters may appear in a separate envelope to preserve confidentiality, but they
must be available in their original forms to people at all levels of review.

K. B. Reviews During the Probationary Period

Peers. The following review procedures apply to extended term track Lecturers who are in
the probationary period. Based on the record in the portfolio and his or her experience, the
faculty and extended term track Academic Professionals in the department shall review the
portfolio and submit recommendations to the department head.

Department Head. The department head shall formulate a written recommendation. The
candidate shall sign the evaluation form to indicate having reviewed the portfolio, including
all written recommendations. The candidate may also add a letter of response. The
department head shall then forward the portfolio and all recommendations to the appropriate
appointing authority. In many cases, the appropriate appointing authority will be the dean of
the college.

College Tenure and Promotion Committee. The dean of the college may seek
recommendations from the college tenure and promotion committee, augmented by a set of
extended term Academic Professionals.
The dean of the college shall formulate a written recommendation. The candidate shall sign the evaluation form to indicate having reviewed the portfolio, including all written recommendations. The candidate may also add a letter of response. The Dean shall then forward the portfolio, including the complete record of recommendations and responses, to the Vice President for Academic Affairs.

Academic Affairs. The Vice President for Academic Affairs may seek comments from the University Tenure and Promotion Committee, augmented by extended-term Academic Professionals. The Vice President for Academic Affairs shall formulate a recommendation for each case to the President and Board of Trustees. In any case where the recommendation of the Vice President for Academic Affairs is negative, the candidate shall have the right to review the recommendation and any comments from the University Tenure and Promotion Committee. The candidate’s signature shall confirm that the review has occurred. In such cases, the candidate shall also have the right to add a letter of response.

L. C. Reviews for Extended-Term Renewal or for Promotion.

Reviews for extended-term renewal or for promotion of Lecturers shall follow the process prescribed for reviews during the probationary period, with the portfolio forming the documentary basis for each review. The structure of the portfolio should be as prescribed in II.A.

M. D. Ranks

There are three ranks for Lecturers: Assistant Lecturer, Associate Lecturer, and Senior Lecturer. Normally, an extended-term track Lecturer should have at least 4 years of teaching experience in rank at the University of Wyoming before being eligible to seek promotion to the next rank. However, time in rank is not sufficient to merit promotion. In many cases, the mandatory review in the last year of the probationary period is an appropriate time to consider a review for promotion.

Assistant Lecturer. Normally, the qualifications for Assistant Lecturer include a Master’s degree or equivalent, together with convincing promise for significant contributions to the University’s teaching mission. The candidate should also exhibit a commitment to ongoing professional development in the discipline.

Associate Lecturer. The Associate Lecturer will normally have at least a Master’s degree or its equivalent. Associate Lecturers must also have a record of demonstrated, significant contributions to teaching, not only through superior performance in the classroom but also through the broader support of the University’s teaching mission. Such activities may include but are not limited to the following.

2. Contributions to the design, development, and oversight of curriculum in specific courses.
3. Significant involvement in the coordination of curricula in different courses.
4. Demonstrated breadth and versatility of teaching in a range of courses.
5. Involvement in professional development activities that reflect substantial awareness of the evolution of knowledge and curriculum in the discipline.

Senior Lecturer. In addition to the qualifications for an Associate Lecturer, Senior Lecturers must also have a sustained record of excellence and versatility in the classroom as well as leadership in the design, development, and oversight of curriculum in the discipline. The following list contains some possible elements of such a record; the list is not exhaustive.

1. Demonstrated proficiency in the management of specific courses.
2. Documented participation in national or international discourse on evolving knowledge in the field, curricular developments, and teaching techniques.
3. Participation in the solicitation or administration of external funding to support teaching initiatives.
4. Sustained effectiveness in the mentorship of other teachers, including graduate assistants, other academic professionals, faculty members, or other instructional staff.
5. Substantive involvement in interdisciplinary teaching efforts or other forms of collaboration or articulation, especially those involving other university departments, community colleges, or high schools.

N. E. Job Descriptions

Elements of the job description that are appropriate for Lecturers include teaching, service, advising, professional development, and, in some cases, administration. Teaching includes such activities as classroom instruction, laboratory supervision, and online or off-campus instruction.

Currency of knowledge being essential to effective teaching, every Lecturer must participate in a program of professional development, the components of which he or she must define in collaboration with the appropriate department head or supervisor. Each department that hires Lecturers has the responsibility to develop written standards by which to gauge individual professional development programs. These standards must be available to candidates for Lecturer positions at the time of hiring. Normally, professional development should account for no less than 1/8 (the equivalent of 3 credits per year) and no more than 1/4 (the equivalent of 6 credits per year) of the job description.

To allow adequate time for professional development, the job description for a full-time Lecturer should require no more than 21 credits (7/8 of the work responsibility) in classroom instruction or its equivalent in other forms of teaching.

O. F. Governance
Extended-term-track Lecturers shall have representation in the Faculty Senate, to be
determined by regulations governing that body.

APPENDIX C TO UW REGULATION 2-4
RESEARCH SCIENTISTS

I. DEFINITION AND DESCRIPTION

Research Scientists are academic professionals whose primary responsibilities are to conduct and support research. UW Regulation 2-7 describes the activities that fall into this set of responsibilities for faculty; the same definition of research applies to Academic Professionals.

A Research Scientist typically works under the direction of a faculty supervisor.

II. EXTENDED-TERM-TRACK APPOINTMENTS

Extended-term-track Research Scientists include Research Scientists who are on probationary appointments as well as those who are on extended-term appointments.

A. Portfolios

A portfolio, developed by the Research Scientist and summarizing the employee’s performance and contributions, shall form the documentary basis for each periodic review during the probationary period and for any review for extended term, extended-term renewal, or promotion. The portfolio should contain at least the following information:

i. Information concerning the initial appointment, including the letter of offer for the position.

j. A summary of all previous reappointment decisions.

k. The candidate’s job description. For probationary reviews, the portfolio should contain all job descriptions covering the probationary period to date. For extended-
term renewal, it should contain all job descriptions covering the current extended term. For promotions, it should contain all job descriptions since the previous promotion.

L. Documentation of recommendations at all levels, including the supervisor’s recommendation, recommendations of faculty and other extended term track Research Scientists in the department, and recommendations of any appropriate department head, tenure and promotion committee, and dean.

m. The candidate’s complete curriculum vitae.

n. A brief narrative summary of the candidate’s accomplishments, including refereed and non-refereed publications, original contributions to knowledge, patents, grants and grant proposals, contributions to the support of research, and other forms of professional recognition.

o. Wherever appropriate to the job description, documentation concerning the candidate’s teaching effectiveness, service activities, student advising (including advising of graduate students and Postdoctoral Associates), supervisory performance, and any other elements of the job description.

p. Where deemed relevant and appropriate by the appointing authority, internal and external letters of reference. Such letters may be appropriate in cases involving extended-term or promotion decisions, even if letters were not required in previous reviews. The procedures used for soliciting and handling these letters should follow the prescriptions given in UW Regulation 2-7 for faculty tenure and promotion cases. These letters may appear in a separate envelope to preserve confidentiality, but they must be available in their original forms to people at all levels of review.

B. Reviews During the Probationary Period

Faculty Supervisor and Peers. Based on the record in the portfolio and his or her experience, the faculty supervisor shall make the initial recommendation for reappointment or dismissal. The faculty and extended term track Research Scientists in the department shall review the portfolio and submit recommendations to the department head.

Department Head. The department head shall formulate a written recommendation. The candidate shall sign the evaluation form to indicate having reviewed the portfolio, including all written recommendations. The candidate may also add a letter of response. The department head shall then forward the portfolio and all recommendations to the appropriate appointing authority. In many cases, the appropriate appointing authority will be the dean of the college.

College Tenure and Promotion Committee. The dean may seek recommendations from the college tenure and promotion committee, augmented by a set of extended term Academic Professionals.

College Dean. The dean of the college shall formulate a written recommendation. The candidate shall sign the evaluation form to indicate having reviewed the portfolio, including
all written recommendations. The candidate may also add a letter of response. The Dean shall then forward the portfolio, including the complete record of recommendations and responses, to the Vice President for Academic Affairs.

**Academic Affairs.** The Vice President for Academic Affairs may seek comments from the University Tenure and Promotion Committee, augmented by a set of extended-term Academic Professionals. The Vice President for Academic Affairs shall formulate a recommendation for each case to the President and Board of Trustees. In any case where the recommendation of the Vice President for Academic Affairs is negative, the candidate shall have the right to review the recommendation and any comments from the University Tenure and Promotion Committee. The candidate’s signature shall confirm that the review has occurred. In such cases, the candidate shall also have the right to add a letter of response.

**C. Reviews for Extended-Term Renewal or for Promotion.**

Reviews for extended-term renewal or for promotion of Research Scientists shall follow the process prescribed for reviews during the probationary period, with the portfolio forming the documentary basis for each review. The structure of the portfolio should be as prescribed in II.A.

**D. Ranks**

There are three ranks for Research Scientists: Assistant Research Scientist, Associate Research Scientist, and Senior Research Scientist. Normally, an extended-term track Research Scientist should have at least 4 years of research experience in rank at the University of Wyoming before being eligible to seek promotion to the next rank. However, time in rank is not sufficient to merit promotion. In many cases the mandatory review in the last year of the probationary period is an appropriate time to consider a review for promotion.

**Assistant Research Scientist.** In general, the qualifications for Assistant Research Scientist include a Master's degree or equivalent experience in an appropriate field, together with convincing promise for significant contributions to the University's mission in research and scholarship.

**Associate Research Scientist.** The Associate Research Scientist will normally have at least a Master's degree or its equivalent. Associate Research Scientists must also have a record of demonstrated, significant contributions to research and scholarship, either through wide dissemination of results or through a convincing record of substantial support to the research enterprise. The following list contains examples of such support; the list is not exhaustive.

- Developed and presented significant research findings.
- Published or presented significant research findings in reputable journals or conferences.
- Demonstrated significant contributions to the preparation of successful grant proposals and refereed scholarly manuscripts, where relevant.
- Conducted significant research projects that have had a significant impact on the field.
- Developed a strong research team and demonstrated leadership.
- Contributed significantly to the development of new research methods or technologies.
- Participated in significant research collaborations with other institutions or organizations.
- Contributed significantly to the advancement of the institution's research mission.
- Contributed significantly to the advancement of the institution's research mission.
- Contributed significantly to the advancement of the institution's research mission.
- Contributed significantly to the advancement of the institution's research mission.
Draft 2-18-21

6) Evidence of effective mentorship, teaching, laboratory instruction, or supervision of undergraduates, graduate students, or employees whose work is essential to the research enterprise.

Senior Research Scientist. The Senior Research Scientist will normally have a Ph.D. or an equivalent terminal degree, although Associate Research Scientists who have a Master's degree may be eligible for this rank if they have comparable accomplishments in research and scholarship. Senior Research Scientists must also have a sustained record of scholarly initiative and recognized contributions to their fields. The following list contains some possible elements of such a record; the list is not exhaustive.

6) Demonstrated proficiency in the management of a research laboratory or related facility.
7) Distinctive contributions to nationally or internationally recognized scholarship or evidence of nationally or internationally recognized expertise.
8) Demonstrated ability to write or participate significantly in the writing of successful grant proposals and refereed manuscripts.
9) Significant contributions to national or international scientific meetings.
10) Sustained, demonstrable effectiveness in mentorship, teaching, laboratory instruction, and supervision of undergraduates, graduate students, or employees whose work is essential to the research enterprise.

E. Job Descriptions

The elements of the job description that are appropriate for Research Scientists are teaching, research, service, administration, and, in some cases, extension. As a general guideline, if the teaching element of the job description exceeds an average of eight credits per academic year, another category of Academic Professional may be more appropriate.

F. Governance

Extended-term-track Research Scientists shall have representation in the Faculty Senate, to be determined by regulations governing that body.
ACADEMIC PROFESSIONALS: POSTDOCTORAL ASSOCIATES
APPENDIX D TO
UW REGULATION 2-4

I. DEFINITION AND DESCRIPTION

II. APPOINTMENT PROVISIONS

A. Appointment Process
B. Job Descriptions
C. Compensation
D. Appeals and Disputes

APPENDIX D TO UW REGULATION 2-4
POSTDOCTORAL ASSOCIATES

I. DEFINITION AND DESCRIPTION

Postdoctoral Associates are temporary Academic Professionals dedicated to the pursuit of greater professional expertise after the attainment of the doctoral degree. This category recognizes that doctoral recipients in some disciplines may require intensive advanced work in a particular discipline before seeking permanent employment. Postdoctoral Associates are not eligible for extended-term appointments.

It is characteristic of Postdoctoral Associates to work with a small set of faculty mentors who are responsible for directing the employee’s research and training. The temporary nature of internships, the precariousness of grant funding, and the desire of many Postdoctoral Associates to acquire permanent employment early in their careers call for a specific set of governing regulations for this category of employee.

Postdoctoral Associates are employees at will.

II. APPOINTMENT PROVISIONS

A. Appointment Process

The head of the unit sponsoring the Postdoctoral Associate will forward recommendations to the appropriate dean, who will forward his or her recommendation to the Vice President of Academic Affairs for approval. The proposed term of employment normally shall be no longer than one year, although renewal of the appointment is possible.

The head of the sponsoring unit shall specify the terms of appointment in writing to the candidate (salary, starting date, ending date, duties, and other pertinent conditions of employment).
appointment), subject to approval by the appropriate college dean. The employee shall receive a letter stating these terms no later than 10 days before the start of employment.

B. Job Descriptions

The faculty mentor is responsible for specifying the job responsibilities of a Postdoctoral Associate. These job responsibilities should not require more than 25 percent of effort (six semester credit hours per year) dedicated to classroom teaching. If a greater teaching effort is anticipated, the appointment should be as a temporary faculty member or as another category of academic professional.

C. Compensation

Salaries for Postdoctoral Associates should be generally consistent with those for postdoctoral employees in the discipline at large. Salary increases require approval of the appropriate dean and the Vice President for Academic Affairs.

With the exception of annual vacation leave, fringe benefits for Postdoctoral Associates shall be in accordance with University personnel policies and shall be described in the letter of appointment. In lieu of accruing annual leave, Postdoctoral Associates are allowed short-term leave with pay, not to exceed 22 working days per calendar year.

D. Appeals and Disputes

A Postdoctoral Associate seeking to resolve disputes regarding conditions of employment, salaries, working conditions, assignments, and other concerns must do so initially through dialogue with his or her immediate supervisor. UW Regulation 4-2 governs the resolution of civil rights disputes.
Guidelines for Extended-Term Faculty
UNIVERSITY OF WYOMING REGULATIONS

Subject: Sabbatical and Professional Development Leave
Number: UW Regulation 2-16

I. PURPOSE

The purpose of sabbatical and professional development leave is to enhance the professional effectiveness of the faculty and to enrich the academic climate of the University.

II. POLICY

Tenured faculty members may apply for a sabbatical leave and academic personnel on extended term or fixed-term appointments may apply for professional development leave. The Office of Academic Affairs is responsible for assuring the University has standard procedures for the application and review of such leaves.

A. Sabbatical Leave

Sabbatical leave may be granted to any tenured member of the University faculty to allow for full time study, research, creative activity, or other academic activities designed to enhance their scholarly and teaching competence and capabilities, and thereby enable them to make greater contributions to their disciplines, their students, and the University of Wyoming. Sabbatical leave time may be used for enhancement of teaching, research, writing, and/or study at a place of the recipient's choosing. University personnel holding faculty rank whose duties are primarily administrative in nature shall also be eligible for sabbatical leave. University Officers, in their capacity as University Officers, are not generally eligible for University sabbatical leaves.

A minimum of six (6) years of academic service at the University must precede each period of sabbatical leave although no right accrues automatically through lapse of time. Tenure-track faculty must have tenure before being eligible to apply for a sabbatical. The granting of such leave is, in each case, within the discretion of the President upon the recommendation of the Provost and Vice President for Academic Affairs. Sabbatical leaves shall ordinarily not be available for the purpose of seeking an advanced degree.

Individuals normally initiate their request for sabbatical leave during the fall semester preceding the academic year for which the leave is requested. The request,
which shall contain a well-conceived, clearly defined purpose and work plan for which the leave is requested and the anticipated outcomes of the leave, shall be forwarded to the President of the University through the appropriate administrative and/or academic officers, with a recommendation from each attached.

B. Professional Development Leave

Academic personnel on extended-term or fixed-term appointments who have completed a minimum of six (6) years of academic service at the University shall be eligible for professional development leave, although no right accrues automatically through lapse of time. Individuals transitioned from extended term positions shall be able to count years of eligibility towards the six year time frame. The purpose of professional development leave will be to enhance performance, to engage in research or creative activities, to conduct special studies, or in some other way to undertake planned activities related in a substantial manner to the individual's role at the University. Professional development leaves shall ordinarily not be available for the purpose of seeking an advanced degree, although vehicles for the pursuit of advanced degrees may be appropriate.

In order to be eligible for professional development leave, academic personnel in fixed-term appointments must have at least one year left in the term following the proposed leave. The fixed-term appointment may automatically roll forward during the professional development leave. Academic Personnel are not eligible for professional development leave unless their fixed-term appointment has been rolled forward.

Unless specified in this section, conditions associated with professional development leave shall be consistent with those described for sabbatical leave.

III. SALARY RATE

Sabbatical and professional development leaves will normally be granted for either a full or half contract year. Leave for a full contract year shall be compensated at a rate equal to sixty (60) percent of the faculty member's annual salary. Leave for a half contract year shall be compensated at the annual rate for the limited period. Benefits remain the same while on sabbatical or professional development leave, except for retirement and social security, which are pro-rated according to the reduction in salary. No faculty member shall receive supplemental salary from the University during the specific semesters constituting the leave period.

While on a full contract year leave -- whether an academic or fiscal year -- outside compensation in the form of grants, contracts and other forms of funding may be accepted. However, in the event that a faculty member receives more than 40 percent of his/her salary from outside sources, the University will reduce its compensation so that salary monies

Commented [TBB]: This modification is proposed so that UW 2-16 and UW 2-4 align.
received from University and external sources will total no more than 100 percent of base salary during the period of leave.

If allowances for travel and other expenses directly related to the leave are included in the outside grant or contract, the amount of these allowances may be disregarded in computing the contribution to be made by the University.

A faculty member who fails to return to the University for at least one academic year immediately following his or her leave shall owe to the University an amount equal to his or her net salary applicable to the term of the leave. For this purpose, net salary is defined as gross salary minus tax withholdings and pre-tax deductions for UW’s basic health, life, and retirement benefits. Any exception to this condition requires prior approval of the Provost and Vice President of Academic Affairs, in consultation with the University President.

IV. REPORT

The Provost shall submit an annual report detailing the sabbatical and professional development leaves approved for the preceding academic year.

Responsible Division/Unit: The Office of the Provost and Vice President of Academic Affairs

History:
UW Regulation 2-16 adopted 9/12/2019 Board of Trustees meeting
Revisions adopted 8/12/2020 Board of Trustees meeting
AGENDA ITEM TITLE: Approval of modifications to UW Regulation 9-1 (University Intellectual Property), Brown/Evans

SESSION TYPE: Work Session
☐ Education Session
☐ Information Item
☒ Other:
[Committee of the Whole – Items for Approval]

APPLIES TO STRATEGIC PLAN:
☒ Yes (select below):
☐ Driving Excellence
☐ Inspiring Students
☐ Impacting Communities
☒ High-Performing University
☐ No [Regular Business]

Attachments are provided with the narrative.

EXECUTIVE SUMMARY:
At the September 2016 Board of Trustees meeting, the Board approved review by UW Administration of UW’s current regulatory structure, to include the following:
1) Phasing out presidential directives;
2) Defining regulation versus policy/procedure;
3) Creating a new “look” and format for the regulations; and
4) Updating the substance of the regulations, policies, and procedures as needed, including determining whether there are any substantive gaps.

At the January 2017 Board of Trustees meeting, the University proposed 12 sections for the new Governing Regulations and Standard Administrative Policies and Procedures website.

Section 1: Governance and Structure
Section 2: Academic Affairs
Section 3: Athletics
Section 4: Diversity and Equal Opportunity
Section 5: Employment and Ethics
Section 6: Facilities
Section 7: Finance and Business
Section 8: Information Technology
Section 9: Research and Economic Development
Section 10: Safety and Security
Section 11: Student Affairs
Section 12: University Relations

The new structure will involve three levels of policies:
1) Governing Regulations (Level A)
2) Standard Administrative Policies and Procedures (Level B)
3) Department/Unit Administrative Policies and Procedures (Level C)

Attached is the following Section 9 Research regulation (with a summary of the proposed modifications):

- UW Regulation 9-1 (University Intellectual Property): Modifications to account for the changing landscape of intellectual property and to provide clarity to all University
employees regarding ownership over patentable and copyrightable creations, academic course materials, and scholarship.

To facilitate review of this Regulation, Interim President Neil Theobald charged a Working Group to develop recommendations with respect to University intellectual property. The Working Group’s recommendations were incorporated into the final version, except for the section on distribution, which was modified to include a tiered structure. Importantly, this structure still captures the Working Group’s recommendation to retain the 60% distribution to the creator, which is an important tool for recruitment of high-level academic talent to the institution.

Per the routing process for UW Regulations, the proposed modifications to the regulations were provided to the President’s Cabinet, Deans and Directors, Faculty Senate, Staff Senate, ASUW, and the Internal Auditor.

The Trustees Regulation Committee will discuss this item at the May 2021 Board of Trustees meeting and recommend full Board action, if appropriate.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
None.

WHY THIS ITEM IS BEFORE THE BOARD:
UW Regulation 1-101 requires that the Board approve modifications to UW Regulations.

ACTION REQUIRED AT THIS BOARD MEETING:
Board approval, modification, or disapproval of the recommended modifications to the Regulations.

PROPOSED MOTION: [Trustee Brown to provide motion.]
“I move to authorize modifications to UW Regulation 9-1, as presented to the Board”

PRESIDENT’S RECOMMENDATION:
UW Regulation 9-1 (Patents and Copyrights)  
Report to Acting President Theobald

June 1, 2020

I. The Charge

Acting President Theobald charged Vice President and General Counsel, Tara Evans to review recent efforts to revise UW Regulation 9-1 (Patents and Copyrights), to develop recommendations with respect to University intellectual property, and to present a report by June 1, 2020.

II. Working Group Formation and Meetings

President Theobald and Vice President Evans formed a Working Group consisting of faculty members, department heads, deans and administrators to provide input. The Working Group members were:

Faculty Members: Rudi Michalak, Faculty Senate Chair-Elect, David Bagley, Faculty Fellow, Academic Affairs; Cynthia Weinig, Professor, Botany

Department Heads: Scott Turpen, Department Head, Music; Denny Coon, Department Head, Petroleum Engineering

Deans: Kem Krueger: Dean, School of Pharmacy

Administrators: Tara Evans: Vice President/General Counsel (Chair); Jim Ahern: Associate Vice Provost For Graduate Education; Jerry Fife, Interim Senior Director, Sponsored Programs; Victoria Bryant, Director, Wyoming Technology Transfer and Research Products Center

The Working Group met May 8, 2020, May 15, 2020, May 22, 2020 and May 29, 2020 with electronic communications during the intervening times. At the initial meeting an historical account of the regulation review and revision process to date was presented and the group identified key challenges to consider. The remainder of this report examines areas of agreement identified by the group as well as provides recommendations from the group upon which complete agreement may not have been achieved. When agreement was not reached, majority and minority recommendations are both presented.

III. Areas of Agreement with Respect to University Intellectual Property

The group agreed that:

1. The University of Wyoming must update UW Regulation 9-1 to account for the changing landscape of intellectual property and to provide clarity to all University employees regarding ownership over patentable and copyrightable creations.

2. The extent of University resource use by the creator is an appropriate criterion for assigning ownership and protecting the institution’s interests in inventions (identified as “patentable Intellectual Property” in the draft update to UW Regulation 9-1).

3. In most instances, the rights of ownership in academic course materials should rest with their creators, the faculty.
4. The University should maintain a perpetual license to use academic course materials for any of the university's teaching and educational purposes as well as for administrative purposes such as accreditation.

5. The rights of ownership in scholarship (identified as “works of authorship” in the draft update to UW Regulation 9-1) should remain with their creators.

6. The distribution of income from patents as it exists in the current regulation is appropriate and should not be modified.

IV. Charge 1: Protection of Inventions (Patentable Intellectual Property)

**Background.** The current regulation assigns the University ownership of all patentable inventions developed by faculty and other employees, except those developed on an individual's personal time and without any use of institutional facilities or employees. While the regulation is appropriate, existing terms can lead to confusion and do not address situations where the creator may be utilizing institutional resources while on their personal time. The majority opinion of the working group, therefore, is that UW Regulation 9-1 should be clarified to better delineate where University ownership over patentable intellectual property will result.

**Majority Recommendation.** Clarify existing policy that establishes University ownership of patentable intellectual property that is created with the “use of University Resources” by defining University Resources. Add further specification that inventions created “within the scope of the employee’s duties” are also University owned.

The majority of the group agreed that:

1. Existing regulations that establish institutional ownership over patentable intellectual property created with the use of “University Resources” are appropriate, but lack clarity.

2. To provide clarity to employees and address many circumstances not currently contemplated by the existing regulation, the working group recommends defining the key term “University Resources.” The working group further recommends the following terminology as an appropriate definition for the term:

   Facilities, equipment, funds, or funds under the control of or administered by the University but not to include: office space, library facilities, ordinary access to computers and networks, or salary.

3. Establishing ownership over patentable intellectual property created “within the scope of the employee’s duties,” removes the ambiguity associated with the term "Personal Time" and facilitates the protection of inventions created with University support.

**Minority Opinion.** Do not establish University ownership over patentable intellectual property that is created “within the scope of the employee’s duties.”

The minority opinion does not support establishing University ownership over patentable intellectual property created “within the scope of the employee’s duties.” Rather, the minority posits that the inclusion of the phrase “use of University Resources” adequately addresses situations where employees have created patentable intellectual property in which the University has made a contribution that
warrants ownership. Specifically, the University has not taken a role in the employee’s training or
development of expertise and therefore has not contributed to the intellectual underpinnings of the work,
as is potentially implied by the phrase of “within the scope of the employee’s duties.” The minority also
indicated that institutional ownership based on “within the scope of the employee’s duties” is
unnecessary, because employees are readily aware of work that is performed within or outside of their
scope of duties.

V. Charge 2: Ownership of Academic Course Materials

Background. The current regulation states that videotaped courses of instruction or other audio-visual
productions are the sole property of the University but otherwise does not adequately address the
ownership of academic course materials developed by faculty while employed by the institution. As a
result, many academic course materials are currently included in works-for-hire policies, and are owned
by the institution. The working group unanimously agreed that UW Regulation 9-1 should be modified to
establish faculty as the owners of academic course materials they have created and to provide the
University with a perpetual license to utilize them for limited educational purposes of the institution.

Unanimous Recommendation. Modify policy to provide ownership of academic course materials to
their creators, and reserve a perpetual license for the institution to utilize such materials for teaching,
education and accreditation.

The working group agreed that:

1. Creator faculty members should be the owners of their academic course materials, including those
developed while employed by the institution. Providing this ownership will incentivize academic
innovation and further the academic mission of the institution.

2. By updating the policy to provide the institution with a perpetual license to utilize these academic
course materials, the institution shall be able to meet its educational, teaching, and accreditation needs
without unduly burdening the faculty’s rights in their materials.

3. To provide clarity to employees and address many circumstances not contemplated by the current
regulations, the working group recommends the inclusion of the following policy statement:
    The University makes no claim to copyright ownership for noncommissioned academic course
materials initiated and completed by academic personnel. However, for those created within the
scope of employment, the University will claim a perpetual, nonexclusive, worldwide, royalty-free
license to use the Academic Course Materials for any of the University’s teaching and
educational purposes as well as for administrative purposes for accreditation.

Additional Thoughts.

1. The working group discussed the implications of placing a time limitation on the license provided to
the institution, however, ultimately decided doing so would be impractical.

2. The working group also noted that much of the academic course material becomes outdated within a
relatively short period of time. As a result, perpetual licensure effectively lasts until the institution
has determined the material has become outdated.
3. The working group noted that the institution’s use of licensed academic course materials will require additional steps to ensure that faculty are utilizing electronic delivery/recording methods related to these materials.

4. Internal policies should be developed to work with departing faculty to review academic course materials, especially those pertaining to foundational courses where content does not change substantially with time. In particular, the working group recommends that unit heads have the responsibility for ensuring that academic course materials are retained for future use.

VI. Charge 3: Ownership of Scholarship (Works of Authorship)

**Background.** The current regulation assigns ownership of copyrightable materials to their creators, however, does not adequately define or provide examples of works that are covered by the policy. Additionally, the regulation does not make a policy distinction between works created by academic personnel (i.e. faculty) versus non-academic personnel (staff). As a result, there is general confusion as to the applicability of the policy. The working group agreed that UW Regulation 9-1 should be updated to provide clarity related to these concerns.

**Unanimous Recommendation.** Clarify existing policy that academic personnel shall be the owners of Works of Authorship they have created. Additionally, the regulation should clarify that the University shall own Works of Authorship created by non-academic personnel and within the scope of their employment. Finally, a non-exhaustive list of examples of “Works of Authorship” should be included in the regulation to provide clarity to all employees.

The working group agreed that:

1. Scholarship, or “Works of Authorship” should remain the property of the academic personnel who created them. Similar to Academic Course Materials, providing this ownership will incentivize academic innovation and further the academic mission of the institution.

2. Works of Authorship created by non-academic personnel within the scope of their employment should be owned by the institution. This concept reinforces policies on works-for-hire and protects the institution’s investment in resources devoted to the works created by non-academic employees.

3. By defining Works of Authorship and providing examples, the regulation will provide clarity to employees and better delineate policy nuances related to copyrightable works.

VII. Charge 4: Distribution of Income from Patents

**Background.** The current University regulation provides that distribution of net income or royalties received by the University related to patents shall be distributed sixty percent (60%) to the inventor/author and forty percent (40%) to the University. The existing regulation further prescribes that half of the University’s share shall be provided to the originating department or college while the other half shall be paid into a research and development fund.

**Unanimous Recommendation.** Maintain the current distribution of income from patents; 60% to the inventor/author and 40% to the University.
The working group agreed that:

1. The current regulation on the distribution of income from patents reflects a modern approach when compared nationally, and is clear and concise.

2. While other institutions have implemented a tiered approach based on the amount of net proceeds earned by the patent, the committee believes such a policy would over complicate the process and may not truly incentivize efforts from the creator.

3. While the distribution to the inventor (60%) may be slightly high when compared nationally, the rate serves as an important tool for the recruitment of high level academic talent to the institution.

VIII. Additional Recommendation

Through the working group’s review of several other institution’s regulations, the group identified the effectiveness of including a strong institutional policy statement through the inclusion of a preamble to the intellectual property regulations. In particular, the group identified the University of Illinois’ General Rules Concerning University Organization and Procedure Article III Section 1 as a well written example and recommends institutional leadership consider the inclusion of similar verbiage into the updated University of Wyoming Regulation 9-1.
I. GENERAL INFORMATION

The Provost and Vice President for Academic Affairs and the Vice President for Research and Economic Development are the University of Wyoming officers responsible for articulating policy and procedures concerning patentable inventions and copyrightable works in which the University may have or assert an interest.

II. PURPOSE

To establish ownership of copyrights, protectable discoveries and other intellectual property rights and to provide guidelines for the distribution of income received for the dissemination of those works. While the University claims ownership of intellectual property on behalf of the State, the underlying purpose of such claim of ownership is an open and free atmosphere, and where individuals are able to freely publish results obtained from this work. Research done primarily in anticipation of profit is incompatible with the aims of the University. However, the University recognizes that patentable inventions and copyrightable materials are conceived or created during the course of research, instruction, and study conducted by faculty and students. These policies have been established to ensure that inventions and materials in which the University may have an interest are utilized in a manner consistent with the public good.

III. POLICY OBJECTIVES

The principal objectives of the University Intellectual Property Policy set forth herein include the following:

A. To provide incentive to creative intellectual effort by University employees, students, and others associated with the University;

B. To establish principles for determining the respective interests of the Creators, the University, and sponsors with respect to Intellectual Property;

C. To enable the University to develop procedures by which the significance of Intellectual Property may be determined and, if practicable, commercially utilized;

D. To provide the means for placing in the public realm the results of research, while safeguarding the interests of the Creator, the University, and the sponsor; and
E. To recognize the right of the Creator to financial benefits, when applicable, from Intellectual Property.

IV. DEFINITIONS

**Academic Course Materials:** Works created primarily for the instruction of students or for continuing education and certification programs. Such works may include, but are not limited to, slides and presentation content used in classes, class notes, exercises and assignments, syllabi and examinations. These works do not include software, and materials prepared with significant University resources and facilities including, but not limited to, laboratories, studios, specialized equipment, production facilities, or specialized computing resources.

**Creator:** An inventor as defined under the United States patent laws, an author as defined under the United States copyright laws, or other creator in accordance with the United States intellectual property laws.

**Intellectual Property:** Includes all works, work product, designs, developments, discoveries, improvements, inventions, composition of matter, machines, manufacture, materials, methods, processes, diagrams, documentation, reports, evaluations, creations, expressions, algorithms, computer programs, applications, specifications, upgrades, revisions, modifications, and related written or otherwise reproducible materials, whether patentable, copyrightable or not, and all forms of legally recognized intellectual property rights, including copyrights, patents, trade secrets, trademarks, service marks, logos, and other identifiers, mask works, plant variety protection and tangible research property, together with any associated goodwill, supporting technology or know-how.

**Research:** For purposes of this Regulation, "research" is the studious inquiry or examination conducted with the avowed purpose of creating and adding to the knowledge in a field and thereby advancing theory and principles; expansion of ideas, theories, and principles and the interpretation of developed information and the provision of further insights; or improvement and/or facilitation of the application and utilization of knowledge within an applied professional field.

**Software:** The source code and/or object code of computer applications and subroutine libraries.

**University Facilities:** Any facility, including equipment and material, available to the individual as a direct result of the individual's affiliation with the University, and which would not be available to a non-affiliated individual on the same basis.

**University Resources:** University facilities, equipment, funds, or funds under the control of or administered by the University but not to include: office space, library facilities, ordinary access to computers and networks, or salary.
**Works of Authorship:** Includes, but is not limited to: textbooks; scholarly articles; literary works; musical works, including any accompanying words; dramatic works, including any accompanying music; pantomimes and choreographic works; pictorial, graphic, and sculpture works, motion pictures and other audiovisual works; sound recordings; and architectural works.

V. **COVERAGE**

The University's Intellectual Property policies contained herein apply to all University employees and students conducting research and development that furthers the University's mission and is for the public good. Notwithstanding the provisions below, “Work[s] made for hire,” as that term is defined by the U.S. Copyright laws of 1976, are the sole and exclusive property of the University, and employees have no patent, copyright, royalty or any other interest in such work(s). The Intellectual Property policies of the University, as amended from time to time, shall be deemed to be a part of the conditions of employment of every University employee. Policies regarding the income distribution related to University Intellectual Property do not apply to works for hire.

VI. **INTELLECTUAL PROPERTY OWNERSHIP**

A. **Patent Ownership**

With the exception of patentable Intellectual Property not within the scope of the employee’s duties and created on personal time, every patentable work of Intellectual Property or part thereof which results from research or other activities carried out at the University, or which is developed with the aid of the University's facilities or employees, or with funds administered by the University, is the property of the University of Wyoming, and, as a condition of employment, is hereby assigned by the Creator to the University in accordance with these policies. Income earned as a consequence of patenting and/or licensing such Intellectual Property shall be distributed in accordance with this Regulation.

All patentable Intellectual Property made or conceived of by University employees including those created on personal time but within the employee’s scope of duties shall be disclosed in accordance with this Regulation, and the Creator for such invention or discovery shall adequately demonstrate the relative extent to which the Creator’s personal time and resources and the University's resources, facilities, and materials were utilized. In each instance in which it is adequately demonstrated that such patentable Intellectual Property was made exclusively on personal time and not within the scope of duties, utilizing no University resources, facilities or materials, the University shall acknowledge in writing that the patentable Intellectual Property is the sole property of the Creator.

If a Creator so desires, however, patentable Intellectual Property made exclusively
on personal time and not within the Creator’s scope of duties, utilizing no University resources, facilities, or materials, may be assigned to the University for patent evaluation, registration, administration or protection.

The University may choose at its discretion to discontinue patent prosecution or maintenance (or any other form of protection) for a technology for any reason. Some examples of why the University might choose to discontinue efforts to protect a technology include, but are not limited to, if the University believes that a discovery or invention is one that is non-patentable or that does not warrant further evaluation as to patentability, or if a discovery or invention is returned to the University after negative evaluation by its patent evaluation agent(s), if any. After consultation with the Creator, the University may, in its sole discretion cause any rights which it may have to a patentable Intellectual Property to be released and transferred to the Creator in exchange for recoupment of patent expenses spent on protecting the invention (including maintenance fees a patent or patents issued). In event of an assignment or release, the University shall retain a royalty-free perpetual non-exclusive license for the use of any such patentable Intellectual Property.

1. Income from Patents and/or Licenses

Income from patents and licenses will be distributed as allocated below. The allocation formula recognizes all forms of cash payments, including royalties and various fees from licensing. After recoupment of legal costs, and subtraction of certain costs outlined below, a percentage of the proceeds that the University receives from the licensing of inventions and discoveries will be paid to the Inventor, the Office of Research and Economic Development, and the University, as specified below. The Vice President for Research and Economic Development, in consultation with the President, will oversee the distribution of the University’s funds according to a Standard Administrative Policy and Procedure (SAP), which will designate the distribution of these funds to the Inventor’s department, the Inventor’s college or school, and a fund dedicated to high priority strategic research initiatives.

A deduction of fifteen percent (15%) to cover operating expenses incurred by the Wyoming Technology Transfer and Research Products Center will be taken annually from the gross license revenue, with funds exceeding the annual Wyoming Technology Transfer and Research Products Center budget moving into a fund dedicated to high priority strategic research initiatives, as determined by the Vice President for Research and Economic Development, in consultation with the President. Additionally, all out-of-pocket payments or obligations (and in some cases, a reasonable reserve for anticipated future expenses) attributable to protecting (including defense against infringement or enforcement actions), marketing, licensing or administering the intellectual property may be deducted from such income. Income then remaining is the net income, which is distributed as set forth below.
So long as the cumulative net income (i.e., the net income from all years) is less than or equal to five million U.S. dollars ($5,000,000), then the distribution will be allocated as follows:

- Sixty percent (60%) of the net income to the Inventor.
- Twenty percent (20%) of the net income to the Office of Research and Economic Development.
- Twenty percent (20%) of the net income to the University (distribution determined by an accompanying SAP as outlined above).

When the cumulative net income exceeds five million U.S. dollars ($5,000,000) but is less than or equal to ten million U.S. dollars ($10,000,000), then any further distribution will be allocated as follows:

- Fifty percent (50%) of the net income to the Inventor.
- Twenty-five percent (25%) of the net income to the Office of Research and Economic Development.
- Twenty-five percent (25%) of the net income to the University (distribution determined by an accompanying SAP as outlined above).

When the cumulative net income exceeds ten million U.S. dollars ($10,000,000) but is less than or equal to twenty million U.S. dollars ($20,000,000), then any further distribution will be allocated as follows:

- Forty percent (40%) of the net income to the Inventor.
- Eighteen percent (18%) of the net income to the Office of Research and Economic Development.
- Forty-two percent (42%) of the net income to the University (distribution determined by an accompanying SAP as outlined above).

When the cumulative net income exceeds twenty million U.S. dollars ($20,000,000), then any further distribution will be allocated as follows:

- Thirty-five percent (35%) of the net income to the Inventor.
- Thirteen percent (13%) of the net income to the Office of Research and Economic Development.
- Fifty-two percent (52%) of the net income to the University (distribution determined by an accompanying Standard Administrative Policy and Procedure as outlined above.)

If there is more than one Inventor, the applicable royalty percentage will be divided equitably among the Inventors. For the avoidance of doubt, to the extent a difference exists between the Inventor(s) identified in the Invention disclosure and the Inventor(s) identified in any resulting patent application, the latter shall control.
If there is more than one school, department, or center in which the Inventor(s) serves, the applicable income will be distributed to the school, department, or center that administered the academic year salary at the time of the disclosure. The University will review the proposed distribution plan, in light of the declarations of department, school, and center affiliations declared at the time of Invention disclosure to the University as well as the sources of salary support at the time of disclosure. Income will be split equally among all Inventors (unless otherwise stipulated on the disclosure form) and, where necessary, will be split among the departments, schools, or centers according to the source of salary support (unless otherwise stipulated on the disclosure form and agreed upon by all the affected unit heads). In the case of student Inventors, distributions to departments and schools will be split according to the source of salary support for the student at the time of disclosure. In cases where students receive no salary, distributions will go to the department and school that housed the student’s work. When multiple disclosures are used to develop a single patent or license, then the income is split equally across the disclosures unless a different distribution is agreed upon by all those affected (Inventors, unit heads, etc.). In cases of dispute, the Vice President for Research and Economic Development, or designee, will mediate among the parties and, if necessary, propose a distribution plan for approval to the President.

If the Invention or Discovery is the result of sponsored research and the sponsor regulates the distribution of income, such specific regulations shall take precedence over University policy with respect to distribution of the license revenue.

With respect to any patent matter in which another institution or an outside agency shall share in the income derived from the patent rights, distribution of income shall be made first to the other institution according to agreed-upon terms, and then to the Inventor according to this Regulation.

2. Specific Conditions Governing Sponsored Research

a. Government Sponsored Research

Patents on inventions arising from research financed by the United States Government are controlled by the terms of the supporting grants and contracts, and applicable Federal laws and regulations. Except as provided by Federal law or by government-supported grants or contracts, when no patent rights are claimed or when patent rights are waived by the United States Government, patents arising from government-sponsored research are controlled by patent and copyright policies set forth herein.
b. Non-Government Sponsored Research

The University must ensure that its facilities and the results of the research of its employees and students are applied in a manner which best serves the interests of the public. Likewise, the legitimate interests of a private sponsor who provides financial or other support to research carried out by or through the University must be considered. The University will normally reserve ownership of patents on inventions arising out of research supported in whole or in part by grants or contracts with nongovernmental organizations or firms. Contracts or agreements which are entered into between the University and nongovernmental organizations or agencies should contain clauses setting forth such a reservation, unless deviations therefrom are requested by the sponsor and approved by the Vice President for Research and Economic Development. In the interest of fair treatment to the sponsor and in consideration for such sponsor's investment, special provisions regarding patent rights may be negotiated by the University, provided that the University retains the perpetual, non-exclusive right to use the invention for its own research, educational, and service purposes, without payment of royalty fees. In such cases, in the interest of discharging the University's obligation to the public in the application of its facilities and its employees' and students' time and talent, the University will require the sponsor to use due diligence in the commercial use of the invention, and the University will retain the right to publish the results of the research involved after a period of time reasonably necessary to protect the rights of the parties and to allow for the filing of a patent application. Exceptions to this section may be authorized by the Vice President for Economic Development.

B. Copyright Ownership

All copyrights in Works of Authorship, whose Creators are academic personnel, except for works for hire, software and patentable Intellectual Property, remain with their Creators. Works of authorship created by non-academic personnel within the scope of their employment are owned by the University. The University may execute a written agreement waiving its rights, if any, in and to such material. The distribution of royalties, if any, is a matter of arrangement between the Creator and his or her publishers or licensees. The University also supports the creation and dissemination of academic or scholarly publications for the purpose of open access, subject to the arrangement between the Creator and their publishers or licensees. Works of Authorship owned by the University including; works for hire, software, or other patentable Intellectual Property shall be subject to these policies and may be disseminated through open access with the approval of the Vice President for Economic Development.
1. **Computer Software**

   All copyrights in and to computer software, including but not limited to programs, operating systems, procedures, and associated manuals, which result from activities carried out at the University, and which are developed with the aid of or for use with University hardware shall be the sole property of the University of Wyoming. The terms and conditions regarding patentable Intellectual Property, including but not limited to the distribution of income, shall apply to computer software of the type described herein.

2. **Academic Course Materials**

   The University makes no claim to copyright ownership for noncommissioned academic course materials initiated and completed by academic personnel. However, for those created within the employee’s scope of duties, the University will claim a perpetual, nonexclusive, worldwide, royalty-free license to use the Academic Course Materials for any of the University’s teaching and educational purposes as well as for administrative purposes for accreditation.

C. **Service Mark, Trademark, and Trade Name Ownership**

   Service marks, trademarks and trade names with respect to products resulting from or arising out of research, instruction, or other activities carried out at the University or developed with the aid of its resources, facilities or staff, shall be the property of the University. Without express authorization from the President or the President's designee, no steps shall be taken to secure such trademarks, trade names or service marks by usage or registration. The University reserves the right to register such marks as it deems appropriate, and to license the use of such marks, provided that the income from such licensing shall be used to support the research and educational programs of the University as defined herein.

D. **Students**

   Undergraduate and graduate students enrolled in degree or certificate programs at the University own the patentable Intellectual Property they create if it was created:

1. For a course in which the student is enrolled;

2. During extracurricular activities directly unrelated to research projects being undertaken at the University;

3. While using the resources and facilities of the University commonly provided for a student’s use and for which a student has paid tuition and fees;
4. While using resources and facilities of the University available to the non-
University community with or without an associated fee;

5. Or a combination of 1–4, unless:

a. The student is also an employee of the University either on a work-for-hire
basis or as part of University faculty-led research and the patentable
Intellectual Property is developed within the course and scope of his or her
employment as stated in Section V above, in which case Subsection 1 above
shall apply;

b. The student participates in a University research project where ownership and
control of the resulting patentable Intellectual Property rights created under
the project have already been defined via agreement to a governmental,
philanthropic, corporate, or other sponsor or collaborator;

c. The student jointly creates the patentable Intellectual Property with a non-
student, in which case Section VI excluding this subsection (D)—and
applicable law dictate ownership of patentable Intellectual Property as if the
student was a non-student described above in subsection (A).

VII. PUBLICATION

A major function of the University is the advancement and dissemination of knowledge. Any practice which unnecessarily restricts the publication of results of scholarly or scientific work is to be avoided. It is recognized, however, that the full development of useful Intellectual Property may be dependent upon the securing of patent protection which will enable the commercial utilization of the Intellectual Property. Accordingly, under certain circumstances it may be necessary to delay for a minimum period the publication of results of research.

If a sponsor proposes to support a research effort, and the rights to any patentable or copyrightable Intellectual Property resulting therefrom will belong to said sponsor, the research agreement with respect to publication shall include language to accomplish the following: First, the sponsor must agree that the results of the research may be published by the investigators. Second, to not jeopardize patent applications, the University and the investigators may agree that any proposed publication will be submitted to the sponsor with a written notice of intent to submit for publication. The notice will advise the sponsor that if, within a period of no more than ninety (90) days from the date of such notice, the sponsor fails to request a delay, the investigators and University shall be free to proceed immediately with the publication. If, however, the sponsor provides timely notice to the University that a delay is desired, the submission of the manuscript to a publisher or other public disclosure shall be withheld for the period requested, but in no event shall the total period of delay be longer than one (1) year following the date of the notice of intent to submit for publication.
Such a period will permit the sponsor to have the necessary patent applications prepared and filed, and does not unduly restrict the dissemination of scientific knowledge. Exceptions to this section may be authorized by the Vice President for Economic Development.

VIII. AVOIDANCE OF CONFLICTS

Conflicts involving Intellectual Property ownership may arise when University employees or students enter into personal consulting agreements with outside firms and organizations. The agreements which business firms generally wish to have executed by those who are to serve in a consulting capacity frequently contain provisions requiring the licensing or assignment of the consultant's Intellectual Property to that business firm. Such provisions may apply to areas in which the individual's University work lies, and thus may come into conflict with the terms and conditions of this policy.

Prior to signing any consulting agreement which deals with patent rights, trade secrets, or the like, if any University time, facilities, materials or other resources are to be involved in the carrying out of such consulting work, University employees or students must submit the proposed agreement to the Wyoming Technology Transfer and Research Products Center and obtain a waiver of University rights, or otherwise modify the agreement to conform with these policies.

IX. DUTY TO DISCLOSE INTELLECTUAL PROPERTY

All individuals whose Intellectual Property are covered by these policies have a duty to promptly disclose the same to the Vice President for Research and Economic Development through the Wyoming Technology Transfer and Research Products Center.

The duty of disclosure arises as soon as the individual has reason to believe, based on his or her own knowledge or upon information supplied by others, that the Intellectual Property may be subject to this Policy. Certainty about patentability or copyright ability is not required before a disclosure is made. Prior to any verbal or other disclosure of Intellectual Property, whether formal or informal, to a non-University third party, individuals must disclose the Intellectual Property to the Wyoming Technology Transfer and Research Products Center. Examples of disclosures to non-University third parties include, but are not limited to, potential non-University collaborators, conference presentations, poster sessions, journal publications, conference roundtable discussions, and discussions with potential third party sponsoring entities for support of continued work on the Intellectual Property.

Individuals shall execute such declarations, assignments, or other documents as may be necessary in the course of patent evaluation, registration, administration, or enforcement in order to ensure that title in such inventions shall be held by the University, or by such other parties as may be appropriate under the circumstances. Employees and students who do not promptly disclose shall be subject to disciplinary action.
X. WYOMING TECHNOLOGY TRANSFER AND RESEARCH PRODUCTS CENTER

The Wyoming Technology Transfer and Research Products Center shall review and recommend to the Vice President for Research and Economic Development or the Vice President's designee the procedures for the implementation of these policies; shall resolve questions of Intellectual Property ownership that may arise between the University and its faculty, staff, or students; shall recommend to the Vice President for Research and Economic Development the expenditure of funds from patent and/or licenses; and shall make such recommendations as are deemed appropriate to encourage disclosure and to assure prompt and expeditious handling, evaluation, and prosecution of patent opportunities.

XI. PATENT MANAGEMENT

The Wyoming Technology Transfer and Research Products Center, in consultation with the Office of General Counsel, is authorized to negotiate with reputable agencies or firms to secure arrangements for patent management, including competent evaluation of invention disclosures, expeditious filing of applications on patents, and licensing and administration of patents.

XII. EXCEPTIONS

Exceptions to any of the above policies may be authorized by the President or the President’s designee if on the basis of the evidence available, such exception is consistent with the University's responsibilities to the public interest.

UNIVERSITY OF WYOMING REGULATIONS

Subject: Patents and Copyrights
Number: UW Regulation 9-1

I. GENERAL INFORMATION

The Provost and Vice President for Academic Affairs and the Vice President for Research and Economic Development are the University of Wyoming officers responsible for articulating policy and procedures concerning patentable inventions and copyrightable works in which the University may have or assert an interest.

II. POLICY

The University is dedicated to instruction, research,

II. PURPOSE

To establish ownership of copyrights, protectable discoveries and other intellectual property rights and to provide guidelines for the extension of knowledge to distribution of income received for the public. It is dissemination of those works. While the policy University claims ownership of intellectual property on behalf of the University to carry out its scholarly work in State, the underlying purpose of such claim of ownership is an open and free atmosphere, and where individuals are able to freely publish results obtained from this work. Research done primarily in anticipation of profit is incompatible with the aims of the University. However, the University recognizes that patentable inventions and copyrightable materials are conceived or created during the course of research, instruction, and study conducted by faculty and students using University facilities. These policies have been established to ensure that inventions and materials in which the University may have an interest are utilized in a manner consistent with the public good.

III. POLICY OBJECTIVES

The principal objectives of the University patent and copyright policies set forth herein include the following:

A. To provide incentive to creative intellectual effort by University employees, students, and others associated with the University;

B. To establish principles for determining the respective interests of the inventors or authors, the University, and sponsors with respect to inventions, discoveries, or other creative works;

C. To enable the University to develop procedures by which the significance of
inventions, discoveries and other creative works. Intellectual Property may be determined and, if practicable, commercially utilized;

D. To provide the means for placing in the public realm the results of research, while safeguarding the interests of the inventor or author Creator, the University, and the sponsor; and

E. To recognize the right of the inventor or author Creator to financial benefits, when applicable, from Intellectual Property.

IV. DEFINITIONS

Academic Course Materials: Works created primarily for the instruction of students or for continuing education and certification programs. Such works may include, but are not limited to, slides and presentation content used in classes, class notes, exercises and assignments, syllabi and examinations. These works do not include software, and materials prepared with significant University resources and facilities including, but not limited to, laboratories, studios, specialized equipment, production facilities, or specialized computing resources.

Creator: An inventor as defined under the United States patent laws, an author as defined under the United States copyright laws, or other creative creator in accordance with the United States intellectual property laws.

Intellectual Property: Includes all works, product, designs, developments, discoveries, improvements, inventions, composition of matter, machines, manufacture, materials, methods, processes, diagrams, documentation, reports, evaluations, creations, expressions, algorithms, computer programs, applications, specifications, upgrades, revisions, modifications, and related written or otherwise reproducible materials, whether patentable, copyrightable or not, and all forms of legally recognized intellectual property rights, including copyrights, patents, trade secrets, trademarks, service marks, logos, and other identifiers, mask works, plant variety protection and tangible research property, together with any associated goodwill, supporting technology or know-how.

Research: For purposes of this Regulation, "research" is the studious inquiry or examination conducted with the avowed purpose of creating and adding to the knowledge in a field and thereby advancing theory and principles; expansion of ideas, theories, and principles and the interpretation of developed information and the provision of further insights; or improvement and/or facilitation of the application and utilization of knowledge within an applied professional field.

Software: The source code and/or object code of computer applications and subroutine libraries.

University Facilities: Any facility, including equipment and material, available to the
individual as a direct result of the individual's affiliation with the University, and which
would not be available to a non-affiliated individual on the same basis.

**University Resources:** University facilities, equipment, funds, or funds under the control
of or administered by the University but not to include: office space, library facilities,
ordinary access to computers and networks, or salary.

**Works of Authorship:** Includes, but is not limited to: textbooks; scholarly articles; literary
works; musical works, including any accompanying words; dramatic works, including any
accompanying music; pantomimes and choreographic works; pictorial, graphic, and
sculpture works, motion pictures and other audiovisual works; sound recordings; and
architectural works.

**III.V. COVERAGE**

The University's *patent and copyright* intellectual property policies contained herein apply
to all University employees and students conducting research and development that furthers
the University's mission and is for the public good. Notwithstanding the provisions below,
"Work[s] made for hire," as that term is defined by the U.S. Copyright laws of 1976, are the
sole and exclusive property of the University, and employees have no patent, copyright,
royalty or any other interest in such work(s). The *patent and copyright* intellectual property
policies of the University, as amended from time to time, shall be deemed to be a part of the
conditions of employment of every University employee. Policies regarding the income
distribution related to University intellectual property do not apply to works for hire.

**IV. DEFINITIONS**

**Personal Time:** For purposes of this Regulation, an individual's "personal time" shall mean time
other than that devoted to normal or assigned functions relating to teaching, research, extension, or
service on University premises, or other functions in which University facilities are utilized.

**Research:** For purposes of this Regulation, "research" is the studious inquiry or examination
conducted with the avowed purpose of creating and adding to the knowledge in a field and thereby
advancing theory and principles; expansion of ideas, theories, and principles and the interpretation of
developed information and the provision of further insights; or improvement and/or facilitation of the
application and utilization of knowledge within an applied professional field.

**University Facilities:** Any facility, including equipment and material, available to the individual as
a direct result of the individual's affiliation with the University, and which would not be available to
a non-affiliated individual on the same basis.

**XII.VI. PATENT INTELLECTUAL PROPERTY OWNERSHIP**

**A. Patent Ownership**

With the exception of inventions or discoveries made on an individual's "patentable
Intellectual Property not within the scope of the employee’s duties and created on personal time, every invention or discovery, patentable work of Intellectual Property or part thereof which results from research or other activities carried out at the University, or which is developed with the aid of the University's facilities or employees, or with funds administered by the University, is the property of the University of Wyoming, and, as a condition of employment, and in keeping with the Student Code of Conduct, is hereby assigned by the inventor, Creator to the University in accordance with these policies. Income earned as a consequence of patenting and/or licensing such inventions or discoveries, Intellectual Property shall be distributed in accordance with Section VII, this Regulation. Income from Patents and/or Licenses.

All inventions or discoveries, patentable Intellectual Property made or conceived of by University employees or students which are including those created or developed entirely on personal time, and which do not involve but within the use of University resources, facilities, or materials, shall be the exclusive property of the employee or student duties.

All inventions or discoveries made or conceived of by University employees or students shall be disclosed in accordance with Section XII hereof, this Regulation, and the individual responsible, Creator, for such invention or discovery shall adequately demonstrate the relative extent to which the inventor's, Creator’s personal time and resources and the University's resources, facilities, and materials were utilized. In each instance in which it is adequately demonstrated that such invention or discovery, patentable Intellectual Property was made exclusively on personal time and not within the scope of duties, utilizing no University resources, facilities, or materials, the University shall acknowledge in writing that the invention, patentable Intellectual Property is the sole property of the inventor, Creator.

If an individual, Creator so desires, however, inventions or discoveries, patentable Intellectual Property made exclusively on personal time and not within the Creator’s scope of duties, utilizing no University resources, facilities, or materials, may be assigned to the University for patent evaluation, registration, administration or protection.

After consultation with the inventor, the University may, in choose at its sole discretion and upon such terms as it deems appropriate, cause any rights which it may have to a discovery, discontinuance of patent prosecution or invention maintenance (or any other form of protection) for a technology for any reason. Some examples of why the University might choose to be released and transferred include, but are not limited to, if the University believes that a discovery or invention is one that is non-patentable or that does not warrant further evaluation as to patentability, or if a discovery or invention is returned to the University after negative evaluation by its patent evaluation agent(s), if any. After consultation with the Creator, the University may, in its sole discretion cause any rights which it may have to a patentable Intellectual Property to be
released and transferred to the Creator in exchange for recoupment of patent expenses spent on protecting the invention (including maintenance fees a patent or patents issued). In event of an assignment or release, the University shall retain a royalty-free perpetual non--exclusive license for the use of any such invention or discovery patentable Intellectual Property.

II. FROM PATENTS AND/OR LICENSES

Whenever the rights in and to an invention or discovery or a work of authorship as described in Sections XV and XVI hereof are owned by the University, and the University patents, copyrights, sells, licenses or otherwise provides for use of such inventions, discoveries or works by an outside user, then any net income or royalties received by the University shall be distributed sixty percent (60%) to the inventor/author and forty percent (40%) to the University.

Of that amount retained by the University, one half shall be paid to the department or college in which the invention or discovery originated, and one half shall be paid into a University research and development fund, the purpose of which shall be to stimulate and encourage creative enterprise by University and students. Expenditures from this fund shall be authorized by the Vice President for Research and Economic Development after consultation with the Research Advisory Committee.

1. Income from Patents and/or Licenses

Income from patents and licenses will be distributed as allocated below. The allocation formula recognizes all forms of cash payments, including royalties and various fees from licensing. After recoupment of legal costs, and subtraction of certain costs outlined below, a percentage of the proceeds that the University receives from the licensing of inventions and discoveries will be paid to the Inventor, the Office of Research and Economic Development, and the University, as specified below. The Vice President for Research and Economic Development, in consultation with the President, will oversee the distribution of the University’s funds according to a Standard Administrative Policy and Procedure (SAP), which will designate the distribution of these funds to the Inventor’s department, the Inventor’s college or school, and a fund dedicated to high priority strategic research initiatives.

A deduction of fifteen percent (15%) to cover operating expenses incurred by the Wyoming Technology Transfer and Research Products Center will be taken annually from the gross license revenue, with funds exceeding the annual Wyoming Technology Transfer and Research Products Center budget moving into a fund dedicated to high priority strategic research initiatives, as determined by the Vice President for Research and Economic Development, in consultation with the President. Additionally, all out-of-pocket payments or obligations (and in some cases, a reasonable reserve for anticipated future expenses) attributable to protecting (including defense against infringement or enforcement actions), marketing, licensing or administering the intellectual property may be deducted from such income. Income then remaining is the net income, which is distributed...
as set forth below.

So long as the cumulative net income (i.e., the net income from all years) is less than or equal to five million U.S. dollars ($5,000,000), then the distribution will be allocated as follows:

- Sixty percent (60%) of the net income to the Inventor.
- Twenty percent (20%) of the net income to the Office of Research and Economic Development.
- Twenty percent (20%) of the net income to the University (distribution determined by an accompanying SAP as outlined above).

When the cumulative net income exceeds five million U.S. dollars ($5,000,000) but is less than or equal to ten million U.S. dollars ($10,000,000), then any further distribution will be allocated as follows:

- Fifty percent (50%) of the net income to the Inventor.
- Twenty-five percent (25%) of the net income to the Office of Research and Economic Development.
- Twenty-five percent (25%) of the net income to the University (distribution determined by an accompanying SAP as outlined above).

When the cumulative net income exceeds ten million U.S. dollars ($10,000,000) but is less than or equal to twenty million U.S. dollars ($20,000,000), then any further distribution will be allocated as follows:

- Forty percent (40%) of the net income to the Inventor.
- Eighteen percent (18%) of the net income to the Office of Research and Economic Development.
- Forty-two percent (42%) of the net income to the University (distribution determined by an accompanying SAP as outlined above).

When the cumulative net income exceeds twenty million U.S. dollars ($20,000,000), then any further distribution will be allocated as follows:

- Thirty-five percent (35%) of the net income to the Inventor.
- Thirteen percent (13%) of the net income to the Office of Research and Economic Development.
- Fifty-two percent (52%) of the net income to the University (distribution determined by an accompanying Standard Administrative Policy and Procedure as outlined above).

If there is more than one Inventor, the applicable royalty percentage will be divided equitably among the Inventors. For the avoidance of doubt, to the extent a difference exists between the Inventor(s) identified in the Invention disclosure
and the Inventor(s) identified in any resulting patent application, the latter shall control.

If there is more than one school, department, or center in which the Inventor(s) serves, the applicable income will be distributed to the school, department, or center that administered the academic year salary at the time of the disclosure. The University will review the proposed distribution plan, in light of the declarations of department, school, and center affiliations declared at the time of Invention disclosure to the University as well as the sources of salary support at the time of disclosure. Income will be split equally among all Inventors (unless otherwise stipulated on the disclosure form) and, where necessary, will be split among the departments, schools, or centers according to the source of salary support (unless otherwise stipulated on the disclosure form and agreed upon by all the affected unit heads). In the case of student Inventors, distributions to departments and schools will be split according to the source of salary support for the student at the time of disclosure. In cases where students receive no salary, distributions will go to the department and school that housed the student’s work. When multiple disclosures are used to develop a single patent or license, then the income is split equally across the disclosures unless a different distribution is agreed upon by all those affected (Inventors, unit heads, etc.). In cases of dispute, the Vice President for Research and Economic Development, or designee, will mediate among the parties and, if necessary, propose a distribution plan for approval to the President.

If the Invention or Discovery is the result of sponsored research and the sponsor regulates the distribution of income, such specific regulations shall take precedence over University policy with respect to distribution of the license revenue.

With respect to any patent matter in which another institution or an outside agency shall share in the income derived from the patent rights, distribution of income shall be made first to the other institution according to agreed-upon terms, and then to the Inventor according to this Regulation.

2. Specific Conditions Governing Sponsored Research

a. Government Sponsored Research

Patents on inventions arising from research financed by the United States Government are controlled by the terms of the supporting grants and contracts, and applicable Federal laws and regulations. Except as provided by Federal law or by government-supported grants or contracts, when no patent rights are claimed or when patent rights are waived by the United States Government, patents arising from government-sponsored research are controlled by patent and copyright
policies set forth herein.

b. Non-Government Sponsored Research

The University must ensure that its facilities and the results of the research of its employees and students are applied in a manner which best serves the interests of the public. Likewise, the legitimate interests of a private sponsor who provides financial or other support to research carried out by or through the University must be considered. The University will normally reserve ownership of patents on inventions arising out of research supported in whole or in part by grants or contracts with nongovernmental organizations or firms. Contracts or agreements which are entered into between the University and nongovernmental organizations or agencies should contain clauses setting forth such a reservation, unless deviations therefrom are requested by the sponsor and approved by the Vice President for Research Advisory Committee and Economic Development. In the interest of fair treatment to the sponsor and in consideration for such sponsor's investment, special provisions regarding patent rights may be negotiated by the University, provided that the University retains the perpetual, non-exclusive right to use the invention for its own research, educational, and service purposes, without payment of royalty fees. In such cases, in the interest of discharging the University's obligation to the public in the application of its facilities and its employees' and students' time and talent, the University will require the sponsor to use due diligence in the commercial use of the invention, and the University will retain the right to publish the results of the research involved after a period of time reasonably necessary to protect the rights of the parties and to allow for the filing of a patent application. Exceptions to this section may be authorized by the Vice President for Economic Development.

B. Copyright Ownership

All copyrights in Works of Authorship, whose Creators are academic personnel, except for works for hire, software and patentable Intellectual Property, remain with their Creators. Works of authorship created by non-academic personnel within the scope of their employment are owned by the University. The University may execute a written agreement waiving its rights, if any, in and to such material. The distribution of royalties, if any, is a matter of arrangement between the Creator and his or her publishers or licensees. The University also supports the creation and dissemination of academic or scholarly publications for the purpose of open access, subject to the arrangement between the Creator and their publishers or licensees. Works of Authorship owned by the University including; works for hire, software, or other patentable Intellectual Property shall be subject to these policies and may be
be disseminated through open access with the approval of the Vice President for
Economic Development.

1. **Computer Software**

   All copyrights in and to computer software, including but not limited to
   programs, operating systems, procedures, and associated manuals, which result
   from activities carried out at the University, and which are developed with the
   aid of or for use with University hardware shall be the sole property of the
   University of Wyoming. The terms and conditions regarding patentable Intellectual
   Property, including but not limited to the distribution of income, shall apply to
   computer software of the type described herein.

2. **Academic Course Materials**

   The University makes no claim to copyright ownership for noncommissioned
   academic course materials initiated and completed by academic personnel.
   However, for those created within the employee’s scope of duties, the University
   will claim a perpetual, nonexclusive, worldwide, royalty-free license to use the
   Academic Course Materials for any of the University’s teaching and educational
   purposes as well as for administrative purposes for accreditation.

C. **Service Mark, Trademark, and Trade Name Ownership**

   Service marks, trademarks and trade names with respect to products resulting from
   or arising out of research, instruction, or other activities carried out at the University
   or developed with the aid of its resources, facilities or staff, shall be the property of
   the University. Without express authorization from the President or the President's
   designee, no steps shall be taken to secure such trademarks, trade names or service
   marks by usage or registration. The University reserves the right to register such
   marks as it deems appropriate, and to license the use of such marks, provided that the
   income from such licensing shall be used to support the research and educational
   programs of the University as defined herein.

D. **Students**

   Undergraduate and graduate students enrolled in degree or certificate programs at the
   University own the patentable Intellectual Property they create if it was created:

   1. For a course in which the student is enrolled;

   2. During extracurricular activities directly unrelated to research projects being
      undertaken at the University;
3. While using the resources and facilities of the University commonly provided for a student’s use and for which a student has paid tuition and fees;

4. While using resources and facilities of the University available to the non-University community with or without an associated fee;

5. Or a combination of 1–4, unless:

   a. The student is also an employee of the University either on a work-for-hire basis or as part of University faculty-led research and the patentable Intellectual Property is developed within the course and scope of his or her employment as stated in Section V above, in which case Subsection 1 above shall apply;

   b. The student participates in a University research project where ownership and control of the resulting patentable Intellectual Property rights created under the project have already been defined via agreement to a governmental, philanthropic, corporate, or other sponsor or collaborator;

   c. The student jointly creates the patentable Intellectual Property with a non-student, in which case Section VI excluding this subsection (D)—and applicable law dictate ownership of patentable Intellectual Property as if the student was a non-student described above in subsection (A).

VII. PUBLICATION

A major function of the University is the advancement and dissemination of knowledge. Any practice which unnecessarily restricts the publication of results of scholarly or scientific work is to be avoided. It is recognized, however, that the full development of useful inventions or discoveries Intellectual Property may be dependent upon the securing of patent protection which will enable the commercial utilization of the discoveries or inventions. Accordingly, under certain circumstances it may be necessary to delay for a minimum period the publication of results of research.

If a sponsor proposes to support a research effort, and the rights to any patentable invention or copyrightable Intellectual Property resulting therefrom will belong to said sponsor, the research agreement with respect to publication shall include language to accomplish the following: First, the sponsor must agree that the results of the research may be published by the investigators. Second, to not jeopardize patent applications, the University and the investigators may agree that any proposed publication will be submitted to the sponsor with a written notice of intent to submit for publication. The notice will advise the sponsor that if, within a period of no more than ninety (90) days from the date of such notice, the sponsor fails to request a delay, the investigators and University shall be free to proceed immediately with the publication. If, however, the sponsor provides timely notice...
to the University that a delay is desired, the submission of the manuscript to a publisher or other public disclosure shall be withheld for the period requested, but in no event shall the total period of delay be longer than one (1) year following the date of the notice of intent to submit for publication. Such a period will permit the sponsor to have the necessary patent applications prepared and filed, and does not unduly restrict the dissemination of scientific knowledge. Exceptions to this section may be authorized by the Vice President for Economic Development.

XIII.VIII. AVOIDANCE OF CONFLICTS

Conflicts involving patentable inventions and discoveries Intellectual Property ownership may arise when University employees or students enter into personal consulting agreements with outside firms and organizations. The agreements which business firms generally wish to have executed by those who are to serve in a consulting capacity frequently contain provisions requiring the licensing or assignment of the consultant's inventions and patents Intellectual Property to that business firm. Such provisions may apply to areas in which the individual's University work lies, and thus may come into conflict with the terms and conditions of this policy.

Prior to signing any consulting agreement which deals with patent rights, trade secrets, or the like, if any University time, facilities, materials or other resources are to be involved in the carrying out of such consulting work, University employees or students must submit the proposed agreement to the Wyoming Technology Transfer and Research Advisory Committee Products Center and obtain a waiver of University rights, or otherwise modify the agreement to conform with these policies.

XIV.IX. DUTY TO DISCLOSE DISCOVERIES AND INVENTIONS INTELLECTUAL PROPERTY

All individuals whose discoveries and inventions Intellectual Property are covered by these policies have a duty to promptly disclose the same to the Research Advisory Committee through the Vice President for Research and Economic Development. Through the Wyoming Technology Transfer and Research Products Center.

The duty of disclosure arises as soon as the individual has reason to believe, based on his or her own knowledge or upon information supplied by others, that the discovery or invention may be patentable. Certainty about patentability is not required before a disclosure is made. Intellectual Property may be subject to this Policy. Certainty about patentability or copyright ability is not required before a disclosure is made. Prior to any verbal or other disclosure of Intellectual Property, whether formal or informal, to a non-University third party, individuals must disclose the Intellectual Property to the Wyoming Technology Transfer and Research Products Center. Examples of disclosures to non-University third parties include, but are not limited to, potential non-University collaborators, conference...
presentations, poster sessions, journal publications, conference roundtable discussions, and discussions with potential third party sponsoring entities for support of continued work on the Intellectual Property.

Individuals shall execute such declarations, assignments, or other documents as may be necessary in the course of patent evaluation, registration, administration, or enforcement in order to ensure that title in such inventions shall be held by the University, or by such other parties as may be appropriate under the circumstances. Employees and students who do not promptly disclose shall be subject to disciplinary action.

XV.X. WYOMING TECHNOLOGY TRANSFER AND RESEARCH ADVISORY COMMITTEE PRODUCTS CENTER

The Wyoming Technology Transfer and Research Advisory Committee Products Center shall review and recommend to the Vice President for Research and Economic Development or the Vice President's designee the procedures for the implementation of these policies; shall resolve questions of invention Intellectual Property ownership that may arise between the University and its faculty, staff, or students; shall recommend to the Vice President for Research and Economic Development the expenditure of the University research and development funds from patent and/or licenses; and shall make such recommendations as are deemed appropriate to encourage disclosure and to assure prompt and expeditious handling, evaluation, and prosecution of patent opportunities.

XVI.XI. PATENT MANAGEMENT

The President, or the President's designee, is authorized to negotiate with reputable agencies or firms to secure arrangements for patent management, including competent evaluation of invention disclosures, expeditious filing of applications on patents, and licensing and administration of patents.

III. COPYRIGHT OWNERSHIP

Except as provided in Sections IV, XV and XVI of this Regulation, all rights to copyrightable material shall be the property of the creator. The University may execute a written agreement waiving its rights, if any, in and to such materials. The distribution of royalties, if any, is a matter of arrangement between the creator and his or her publishers or licensees.

IV. COMPUTER SOFTWARE

All copyrights in and to computer software, including but not limited to programs, operating systems, procedures, and associated manuals, which result from research activities carried out at the University, and which are developed with the aid of or for use with University hardware shall be the sole property of the University of Wyoming. The terms and conditions of Sections I through XII of this Regulation, including but not limited to Section VII which describes the distribution of income, shall apply to computer software of the type described herein. Section VII does not apply to works for hire.
V. VIDEOTAPED PRODUCTIONS

All copyrights in and to videotaped courses of instruction or other audio-visual productions which result from research or other activities carried out at the University, and which are produced with the aid of the University's facilities or staff or with funds administered by the University, shall be the sole property of the University. Any individual contemplating the development and production of a videotaped course of instruction or other audio-visual production must secure the prior approval of the Vice President for Academic Affairs, or designee. All of the foregoing terms and conditions of this Regulation, with the exception of Section VII, shall apply to videotaped courses of instruction of the type described herein. The means of remuneration, and the distribution of income earned from the development of such a course or production, shall be agreed upon in writing prior to the development or production of same. Remuneration and distribution of income do not apply to works for hire.

VI. SERVICE MARK, TRADE-MARK AND TRADE-NAME OWNERSHIP

Service marks, trade marks and trade names with respect to products resulting from or arising out of research or other activities carried out at the University or developed with the aid of its resources, facilities or staff, shall be the property of the University. Without express authorization from the President or the President's designee, no steps shall be taken to secure such trade marks, trade names or service marks by usage or registration. The University reserves the right to register such marks as it deems appropriate, and to license the use of such marks, provided that the income from such licensing shall be used to support the research and educational programs of the University as defined herein.

XVII. EXCEPTIONS

Exceptions to any of the above policies may be authorized by the President or the President's designee following a favorable review and recommendation from the Research Advisory Committee. Before recommending such an exception, the Committee should determine that, on the basis of the evidence available, such exception is consistent with the University's responsibilities to the public interest.

Responsible Division/Unit: Office of Research and Economic Development

Source: None

Links: http://www.uwyo.edu/regs-policies

Associated Regulations, Policies, and Forms: None

History:
University 641, Revision 3; adopted 7/17/2008 Board of Trustees meeting
Revisions adopted 5/10/2013 Board of Trustees meeting
Revisions adopted 9/12/2014 Board of Trustees meeting
Reformatted 7/1/2018: previously UW Regulation 3-641, now UW Regulation 9-1
AGENDA ITEM TITLE: Approval of Contracts and Grants Report, Synakowski

SESSION TYPE:  ☐ Work Session
☐ Education Session
☐ Information Item
☒ Other:

[Committee of the Whole – Items for Approval]

☒ No [Regular Business]

Attachments are provided with the narrative.

EXECUTIVE SUMMARY:

The Division of Research and Economic Development provides a list of all Contract and Grants awarded to the University of Wyoming. This report provided data on a monthly basis. Attached is a list of all research grants and contracts awarded during January, February, and March of the third quarter of FY21.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
At each meeting the Board approves or disapproves the Contract and Grants Report.

WHY THIS ITEM IS BEFORE THE BOARD:
UW Regulation 5-2 requires that all research grants, contracts and gifts be accepted or rejected by the Board.

ACTION REQUIRED AT THIS BOARD MEETING:
Board approval or disapproval of the Contract and Grants Report.

PROPOSED MOTION:
I move to approve the Contract and Grants Report as presented to the Board.

PRESIDENT’S RECOMMENDATION:
The President recommends approval.

AGENDA ITEM TITLE:  Execution of Bond pursuant to W.S. § 21-17-203.
Brown/Theobald/Jewell/Evans

SESSION TYPE:  
☐ Work Session  
☐ Education Session  
☐ Information Item  
☒ Other:  [Committee of the Whole – Items for Approval]

APPLIES TO STRATEGIC PLAN:  
☒ Yes (select below):  
☐ Driving Excellence  
☐ Inspiring Students  
☐ Impacting Communities  
☒ High-Performing University  
☐ No [Regular Business]

Attachments are provided with the narrative—refer to Supplemental Materials Report.

BACKGROUND AND POLICY CONTEXT OF ISSUE:
Wyoming Statute § 21-17-203 requires that the Treasurer of the Board of Trustees execute a bond “with approved sureties in double the sum likely to come into his hands, for the faithful discharge of his duties.” Because the Treasurer of the Board does not have access to any of the University’s bank accounts, and therefore does not have access to any University funds, it is not necessary to execute a bond to remain in compliance with the statute.

W.S. § 21-17-203 also states that “the board may from time to time appoint and authorize a person to examine and approve for payment all legal claims against the corporation. The person shall give bond with surety approved by the board, payable to the state of Wyoming in such sum as the board may fix, conditioned for the faithful performance of his duties.”

Per Section 6-2 of the Bylaws of the Trustees, the “Deputy Treasurer shall be nominated by the President of the University for appointment by the Trustees, shall be an officer of the University of Wyoming whose duties include responsibility for the receipt, custody, and expenditure of all funds of the University of Wyoming not held by the State Treasurer, and shall exercise the same responsibility with respect to any funds or monies of the Trustees of the University of Wyoming.”

Per UW Regulation 1-1, the Board has appointed the Vice President for Finance and Administration as the Deputy Treasurer: “In accordance with the Bylaws, the Vice President for [Finance and] Administration shall serve as the Deputy Treasurer of the Trustees of the University of Wyoming, and shall exercise all duties and responsibilities incident to this position, including the receipt, custody and recording of all monies or funds payable to the Trustees, the Treasurer, the University, or any of its colleges, divisions, or departments and the disbursement or investment of such funds and monies as authorized by the Trustees.”

Additionally, Presidential Directive 3-1993-1 (Receipt and Handling of University Funds) includes the following policy regarding electronic payments from a University bank account:

Automated Clearing House (ACH) payments may only be initiated by the University’s Accounting Manager or Assistant Manager, Accounting using the bank’s customer portal, which enhances the security of the transaction by the layered security features offered by these interfaces. Authorized signors will not
initiate ACH payments in person at any bank branch except in limited cases. In those limited cases that an ACH would need to be initiated in-person at a bank branch, two of the following three personnel shall be present for the transaction: Associate Vice President of Fiscal Administration, Accounting Manager, and/or the Assistant Accounting Manager.

Wire transactions will only be initiated by the Accounting Manager or Assistant Manager, Accounting by delivery of a letter which shall include wire details to the bank. Once in receipt of this letter, the bank will confirm the wire and amount with either the Accounting Manager or Assistant Manager, Accounting prior to processing.

Wire transactions for investing purposes will only be initiated by the Manager, Financial Services; Director of Tax Compliance; or the Coordinator, Financial Services on the bank’s customer portal to take advantage of the layered security features offered in these interfaces. In the case that UW’s operating bank is not accessible due to technical difficulties, the steps required to initiate a wire transaction for operating purposes listed in the previous paragraph will be followed.

The overnight cash institution is only authorized to wire funds to UW’s operating bank account. Wires out of the overnight cash institution are deposited directly into the general fund bank account. In the case the online customer portal for overnight cash is not accessible due to technical difficulties, the Manager, Financial Services; Director of Tax Compliance; or the Coordinator, Financial Services may call the overnight cash institution to initiate the wire transaction into the general fund bank account.

With these controls in place, the University recommends to continue to have the Vice President for Finance and Administration and the Deputy Vice President for Finance execute bonds in the amount of one million dollars ($1,000,000.00) in accordance with W.S. § 21-17-203.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
The Board of Trustees annual approves the execution of bonds.

WHY THIS ITEM IS BEFORE THE BOARD:
W.S. § 21-17-203 requires the Deputy Treasurer “shall give bond with surety approved by the board, payable to the state of Wyoming in such sum as the board may fix, conditioned for the faithful performance of his duties.”

ACTION REQUIRED AT THIS BOARD MEETING:
Board approval for the Vice President for Finance and Administration and the Deputy Vice President for Finance to execute $1,000,000.00 bonds.

PROPOSED MOTION
I move to approve the Vice President for Finance and Administration and the Deputy Vice President or Finance to execute $1,000,000.00 bonds to fulfill the requirement of Wyoming Statute 21-17-203.
AGENDA ITEM TITLE: Designate Depositories for UW Funds, McKinley

SESSION TYPE:  
☐ Work Session  
☐ Education Session  
☐ Information Item  
☒ Other: [Committee of the Whole – Items for Approval]  

APPLIES TO STRATEGIC PLAN:  
☐ Yes (select below):  
☐ Driving Excellence  
☐ Inspiring Students  
☐ Impacting Communities  
☒ High-Performing University  
☒ No [Regular Business]

☒ Attachments are provided with the narrative.

BACKGROUND AND POLICY CONTEXT OF ISSUE:  
Board of Trustees to annually review and approve listing of depositories for UW Funds.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:  
At the May 2017 meeting, the Board of Trustees last reviewed and approved depositories for UW funds.

WHY THIS ITEM IS BEFORE THE BOARD:  
Annual topic for board approval per Trustee McKinley.  
Per W.S. 9-4-817 “monies collected and held by a treasurer of a political subdivision, municipality or special district within the state shall be deposited in bank which qualify as depositories for public monies as specified in W.S. 9-4-803(a).”

See attachment 1 for listing of designated depositories approved by the State Treasurer.

AGENDA ITEM TITLE: Service Contract and Procurement Reports, Evans

SESSION TYPE: ☐ Work Session
☐ Education Session
☒ Information Item
☐ Other:
[Committee of the Whole – Items for Approval]

APPLIES TO STRATEGIC PLAN:
☐ Yes (select below):
☐ Driving Excellence
☐ Inspiring Students
☐ Impacting Communities
☒ High-Performing University
☐ No [Regular Business]

☒ Attachments are provided with the narrative.

EXECUTIVE SUMMARY:
Per UW Regulation 7-2 (Signature Authority), unless otherwise limited by UW Regulation or reserved by the Board of Trustees, the President shall have authority to approve and/or sign University contracts, federal contracts, agreements, memorandums of understanding, and procurements that involve an external party, require consideration (paid or received) valued less than $1,000,000 (one-time or in aggregate), and for which the term is less than five years. The President may delegate this authority to University Officers for such contracts, federal contracts, agreements, memorandums of understanding, and procurements that require consideration (paid or received) valued less than $500,000 (one-time or in aggregate) and for which the term is less than five years.

As required by the Regulation, attached are the following reports:

1) Service Contracts (including contracts, federal contracts, agreements, and memorandums of understanding) valued at $50,000 or above (one-time or in aggregate) from February 16 – April 15, 2021

2) Procurements valued at $50,000 or above (one-time or in aggregate) from February 16 – April 15, 2021

Service contract workflow
Per Presidential Directive 3-2014-1 (Signature Authority), the President can delegate signature authority to University officers for service contracts valued less than $500,000 (one-time or in aggregate) and for which the term is less than five years.

Procurement workflow
Cost Center Managers (business manager level or designee) approve all purchases, and are the final approvers for purchases of $99,999 or less. Deans/Associate Vice Presidents are the final approvers for purchases between $100,000 and $249,999. Vice Presidents are the final approvers for purchases between $250,000 and $499,999. The President is the final approver for purchases between $500,000 and $999,999. The Board of Trustees approves purchases of $1,000,000 and above.

As part of the Governor’s Step 1 budget reduction requirements, all purchases over $100,000 are also reviewed by Financial Affairs (in addition to the workflow listed above).

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
Standing information item at each in-person Board of Trustees meeting.
WHY THIS ITEM IS BEFORE THE BOARD:
Per UW Regulation 7-2 (Signature Authority), at each regular meeting of the Board of Trustees (excluding conference calls), the President shall provide a written report to the Board of Trustees identifying each contract, federal contract, agreement, memorandum of understanding, or procurement valued at $50,000 or above (one-time or in aggregate) signed by the President or designee under this provision.

ACTION REQUIRED AT THIS BOARD MEETING:
N/A. Information Only.

PROPOSED MOTION:
N/A. Information Only.

PRESIDENT’S RECOMMENDATION:
N/A. Information Only.

AGENDA ITEM TITLE:  Capital Construction Report, Mai

SESSION TYPE:  ☒ Information Item
☐ Work Session
☐ Education Session
☐ Other:
[Committee of the Whole – Items for Approval]

☒ Yes (select below):
☐ Driving Excellence
☐ Inspiring Students
☐ Impacting Communities
☐ High-Performing University
☒ No [Regular Business]

☒ Attachments are provided with the narrative.

EXECUTIVE SUMMARY:

The capital construction report can be found in the supplemental materials report. It provides the progress and activity of construction and design projects that are currently in progress at the University as well as approved change orders.

PRIOR RELATED BOARD DISCUSSIONS/ACTIONS:
The Board receives regular updates on the Capital Construction at the University of Wyoming.

WHY THIS ITEM IS BEFORE THE BOARD:
To update the Board on the Capital Construction at the University.

ACTION REQUIRED AT THIS BOARD MEETING:
None

PROPOSED MOTION:
None

PRESIDENT’S RECOMMENDATION:
None
Capital Construction
Progress Report as of April 23, 2021

The following is an accounting of the progress and activity of construction and design since the last Trustees meeting. Also reported are approved change orders.

PROJECTS IN CONSTRUCTION

1. Science Initiative

Contractor: GE Johnson Construction Wyoming
Jackson, WY

Original Project Budget $103,000,000 (a)
Adjusted Project Budget $103,755,000 (d)

Funding Sources:

Adj contract $89,500,455

Work Completed/In Progress:
- Guaranteed Maximum Price contract amendment was approved 10/16/2019.
- Interior framing is in progress.
- Drywall hang, tape, finish is in progress all levels.
- Paint, first coat is in progress levels 1-3.
- Exterior masonry field stone and slabs are in progress.
- Glazing and curtain walls are in progress.
- Building is dried in.
- Service elevator is installed.

Issues Encountered with Proposed Resolution for Each:
- Energy recovery units (air handlers) delivery delay due to pandemic.
Work Planned for Upcoming Month:

- Drywall finish.
- Paint.
- Greenhouse glazing.
- Service elevator operation, removal of temporary skip hoist.
- Passenger elevators installation.
- Casework.
- Exterior masonry.

2. West Campus Satellite Energy Plant

Contractor: GE Johnson Construction Wyoming
Jackson, WY

### Work Completed/In Progress:

- Bid Package #1 was issued for foundation and utilities. The public bid opening was held 6/18/2019.
- Initial Guaranteed Maximum Price was prepared and approved at the August 2019 Board of Trustees Meeting.
- Construction activities commenced 9/16/2019.
- Bid Package #2 was issued, 100% construction documents. The public bid opening was held 10/4/2019.
- Final GMP was approved on 11/14/2019.
- Foundation high walls and tank foundation are complete.
- Underground plumbing and electrical are complete.
- Basement slab on grade is complete.
- Steel erection and metal decking are complete.
- Masonry walls are in progress.
- Mechanical, electrical, and plumbing (MEP) rough is in progress.
- Distribution piping is in progress.
- TES tank is complete, filled and tested.
- Interior framing and finish activities are in progress.
- Glazing is complete.
- Initial boiler start-up is complete.
- Vertical boiler flue installation is complete.
- Stucco is in progress.
- Permanent power is complete.
- Natural gas branch line and meter are set.
- Generator start-up and load test is complete.
- Boiler utility is operating to heat EERB.
- All MEP trim and testing is complete.
- Demolition of the Ag/Engineering ramp is in progress.
Issues Encountered with Proposed Resolution for Each:
- None at this time.

Work Planned for Upcoming Month:
- Masonry completion.
- Mechanical commissioning.
- Landscape.
- Hardscapes.
- Building tie-ins for Ag and Engineering.

#### Adj contract

| Amount | **$1,740,752** |
**Work Completed/In Progress:**

- Original project scope substantially complete. Certificate of Owner’s occupancy obtained, individuals moved into the suite the week of April 12th.
- Punch list items continue to be addressed, including General and FF&E contractor work.
- A/V work throughout expected to begin in May.
- Architect’s Supplemental Instructions (ASI) related work ongoing, including breezeway work. Breezeway work expected to continue into late summer 2021.
- Additional ASI work includes creation of masonry veneered wall for wood panel donor recognition within the GJSSC, renovation of corridor to restrooms, mechanical/electrical rooms in the suite, and various lighting replacements throughout.

**Issues Encountered with Proposed Resolution for Each:**

- Vending/Breakroom area not ADA compliant as-built. Solution identified with some minor partition relocating. ASI to be issued for this work the week of April 26th.

**Work Planned for Upcoming Month:**

- Bi-weekly OAC meetings will continue to be held.
- Punch list items will continue to be addressed.
- ASI related work, including breezeway renovation, will continue.
